

Last Building on Earth Chapter 15

Everyone took a deep breath when they saw it. No one thought that so many monsters would suddenly appear.

This time, Zhao Lei responded quickly, and immediately pushed Zhang Qianwen, who was terrified, into the car that Zhang Haofei had just opened.

Neither he nor Zhang Qianwen had white scales, so if they stayed outside and encountered so many monsters, they would definitely die.

A low roar sounded, and among the five oncoming cars, four scaly monsters rushed towards them first.

Wang Xuan's body was tensed, his right hand clenched the steel pipe, he stepped back to the car, and whispered, "Quick, get in the car!"

At first glance, there are seven or eight monsters, to say the least. Once surrounded, it would be dangerous.

Zhao Lei pushed Zhang Qianwen into the back seat of the car, and he followed her while crawling in.

Zhang Haofei was sitting in the driver's seat, when he saw this, he immediately climbed to the co-pilot, gave up the driver's seat, and shouted at Gu Manyao, who was standing in front of the driver's seat, "Come up!"

Just as Gu Manyao turned around, a monster with a low roar opened its **** mouth, almost jumped into the air, and rushed towards her.

Wang Xuan, who was standing beside her, was also attacked. At this moment, Zhao Lei had just pushed Zhang Qianwen into the car, and he was still too late to get in.

Wang Xuanhu was behind Zhao Lei, watching a monster rush towards him, he let out a loud shout, and waved out while holding the steel pipe in his right hand.

At this moment, he once again felt the two white scales in his right hand squirming, and the steel pipe that was swung out suddenly accelerated, producing a soft sound.

This speed exceeded the reaction speed of the monster. With a "bang", the steel pipe smashed into the side neck of the monster, and there was a slight sound of bone shattering.

This force is too strong, and the steel tube bends from it immediately.

The monster that was hit by the neck swayed, as if drunk, and fell back.

Another monster rushed up from the left side and wanted to bite Wang Xuan's neck, but he had no time to dodge, so he could only block his neck with his left arm. , and even bite into the arm bones.

Wang Xuan was so sore that cold sweat broke out on his forehead, and he let out a low growl.

With a "bang", this kick hit the monster's unprotected belly with unbelievable strength, and it kicked the monster into the air and overturned it backwards.

The third monster pounced at the same moment, bit Wang Xuan's other leg, and dragged him backward. He was unsteady and was dragged to the ground.

Another monster opened its **** mouth and bit the neck of Wang Xuan who fell to the ground.

Wang Xuan was dragged to the sky by the monster and fell to the sky. Without him protecting him, Zhao Lei just got into the car with his **** facing the outside. A monster saw this opportunity and rushed into the car immediately.

Zhao Lei suddenly let out a scream, and his **** was hurting. He was bitten by this monster, and even his pants were torn off by a large piece of flesh.

The monster used both hands and feet, squeezed into the car, and madly bit at the two of them. The car was shaking violently. Zhao Lei's screams accompanied Zhang Qianwen's exclamations one after another, and the scene was very chaotic.

Two people were in distress inside the car, and the outside of the car was even more dangerous.

Gu Manyao waved frantically holding the steel bar, and just pushed back a monster that jumped, suddenly let out a muffled groan, and was hit by another monster that jumped over.

The impact was so powerful that she flew out four or five meters horizontally, blood dripping from the corners of her mouth, and two other monsters, one left and one right, rushed towards her.

Zhang Haofei crawled towards the co-pilot, wanting to give Gu Manyao the driver's seat, but he didn't want Gu Manyao to be knocked away before he got into the car.

Hearing Gu Manyao's muffled groan and seeing her being knocked flying, Zhang Haofei knew something was wrong, and he didn't know where the courage came from. He barely thought about it. He clenched the baseball bat in his right hand and rushed out.

"Damn beast!" He let out a roar, holding a baseball bat in both hands, and smashing the head of the monster who had just knocked Gu Manyao off from behind.

This time he used up all his strength, and the white scales in his right hand seemed to be very alive, expanding and changing, releasing billowing heat.

There was a loud "bang", and a crisp bone crack sounded in the monster's head, the black scales covered on it broke and splashed, and a lot of blood flowed out.

The monster staggered forward two steps, rolled over and fell down, the white scales on its neck fell off, and it stopped moving.

This white scale turned into a white light and flew to Zhang Haofei's right hand.

After successfully killing a monster, Zhang Haofei obtained his second white scale.

The baseball bat in his hand was twisted and deformed. Zhang Haofei felt the fusion and change of the two white scales in his right hand, and a stronger confidence surged in his heart. He only felt a heat

current rushing out from the palm of his right hand to the whole body, and his speed and strength were improving.

Taking one step at a time, he ran wildly and ran in the direction of Gu Manyao who fell out. The twisted baseball bat in Uukanshuwww.uukanshu.com's hand was thrown by him towards one of the monsters that attacked Gu Manyao.

Wang Xuan, who was lying on the ground, watched a **** mouth grow bigger in front of him, and the stench was pungent. Suddenly, he felt a slight pain in his right palm, like being bitten by a mosquito.

A white scale was fused into the palm of his right palm, and it began to resonate with the original two white scales in the palm, resulting in fusion. The bottoms of the three white scales were combined and opened outward like three petals.

Only then did Wang Xuan know that the monster who had been slashed by his steel pipe in the neck had died, and he had obtained a third scale.

Before he could think about it, Wang Xuan stabbed the somewhat curved steel pipe in his right hand, looking at the **** mouth biting down in front of him. With his current strength, the steel pipe became extremely sharp, and with a snort, it passed through the monster's throat and Flesh and flesh were all submerged, and the **** other half of the steel pipe emerged from the back of the monster's neck.

The monster roared and roared in pain, claws on the ground, and blood gushed from its mouth.

Wang Xuan threw a fist with his left hand, let out a low roar, and hit one of the monster's eyes with all his strength.

The three white scales in his right hand vibrated together, and a burst of extremely powerful energy erupted. This energy radiated throughout the body, and as his left hand threw a fist, all of it concentrated on the fist.

With a "bang", the monster's eyeballs were smashed open, and even the hard eye sockets showed cracks. The upper body was raised high under the action of a huge force, and the whole body flipped upside down and flew out.

Watching himself blow the monster upside down and fly a few meters away with one punch, Wang Xuan was also shocked by this powerful force.

The monster fell to the ground, twitching all over, bleeding from its seven orifices, and soon became quiet. The white scale on the neck peeled off, turned into a white light, and flew to Wang Xuan.
