

Last Building on Earth Chapter 151-155

Chapter 151

Scorpion City is located outside the west gate of Insect Town. In the eyes of everyone in Insect Town, this Scorpion City is full of danger, but it is also a holy place. They are extremely envious of those who can go to Scorpion City.

Because of being able to enter Scorpion City, there is only one possibility, and that is to break through the adult body, and its hatching beast has grown to the perfect state.

"First Evolution"

For the vast majority of people, perfection is the ultimate goal of their struggle.

Wang Xuan separated from everyone, left the small building where he lived, and walked towards the west side of the square.

In the center of the square, there is a huge glass column surrounded by ten elevators. When he passed by, he saw that the door of the fourth elevator opened, and six people came out of the elevator.

Looking at the equipment on them, you can tell that they are a group of newcomers, and they may even have just arrived in the sub-body.

They walked out with surprised and curious expressions on their faces, and were surrounded by a group of people.

This group of people represented the five major forces, and their responsibility was to welcome the newcomers who came up to the second floor from ten elevators.

Every day, new people enter the second floor, and the total population of the entire insect town is slowly increasing.

Across the square, Wang Xuan saw the west gate.

Compared with the bustling East Gate and South Gate, the West Gate is very deserted.

At the west gate, only five people gathered there to sit and chat, and the signs on these five people represented that they belonged to the five major forces.

There are too few people entering and leaving Ximen, and the people who can come to Ximen are big people, and it is not their turn to check carefully, so only one person from the five major forces is sent to guard here.

The responsibility of the five of them is more to open the door on time every morning and close the door at night. Of course, it is also to prevent new talents from coming to Insect Town and rushing to go to Scorpion Town and lose their lives.

When Wang Xuan appeared, these five people saw that he was wearing a Tier 3 alloy equipment and a black bracelet on his left wrist, and immediately understood that this was a big man from the "Xuan Gang".

Just as they were about to stand up, Wang Xuan swayed, and he had already passed through the west gate and walked out of Bug Town.

Looking at Wang Xuan's back ten meters away in an instant, everyone was not too surprised because they were used to seeing the speed of a strong powerhouse. One of the men from the "Justice League" lightly touched the other man beside him. The man wearing the black bracelet chuckled and said, "Chen Gang, which one of your mysterious gang is this, a good face, a newly promoted powerhouse?"

This Chen Gang shook his head in confusion and said, "I don't know either."

Among the five, only the man from "Phoenix" looked surprised and whispered, "How many of you don't know him? Is he Wang Xuan?"

"Wang Xuan?" The other four were stunned, and then lost their voices together: "That Wang Xuan in the tavern last night?"

The man from "Phoenix" nodded and said, "I was drinking at the tavern last night. I was fortunate enough to see him from a distance. It's him. He is really amazing. You Liu Ming of the 'Rakshasa', you know it too, right? I usually see us all raising our heads with a high look on our faces. Last night, he easily broke our hands, knelt on the ground, and even his feet were trampled by him. It was as miserable as it was. , tsk..."

The man said while looking at another man from "Rakshasa" and said, "It's a pity that you didn't go to the pub last night and missed this good show."

The man from "Rakshasa" nodded and said, "It turns out that he is Wang Xuan. I can't imagine that he is so young." Although he is also a "Rakshasa", he was assigned to guard Ximen here. He didn't have much sense of belonging to "Rakshasa" in his heart. Liu Ming, who heard the "Phoenix" man say "Rakshasa", had his limbs broken and knelt in front of Wang Xuan. He was not embarrassed or dissatisfied at all, as if he was listening to himself. Unrelated stories.

"What's the point of breaking Liu Ming's limbs? If he can knock Chen Daolin back, he is powerful. Chen Daolin is known as the most powerful person under the five leaders. If he can knock back Chen Daolin, does it mean that he is more powerful than Chen Daolin?"

"It's hard to say, maybe Chen Daolin was careless, but there must be a comparison."

While the five of them were chatting, Wang Xuan had already left Bug Town and walked towards Scorpion Town, which is west of Bug Town.

He took out the little girl from Xumi's belt, summoned him to the ground, and summoned him out.

There was a sound of metal gears turning all over Xiaojiao, a mechanical shell covering it, a pair of forelimbs, faint flames lingering, Wang Xuan jumped easily, and then rode up.

In the insect town before, he didn't want to be too public, and he didn't want to be targeted by the people of Rakshasa because of this, and he didn't call the little girl. Now that he is out of the insect town, there is no need to have any scruples.

He didn't feel like being followed, and he didn't have an uneasy reaction. He knew in his heart that he should not be followed by Rakshasa.

"Little girl, let's go, go to Scorpion City." Wang Xuan snorted softly, Xiaojiao carried him and started running towards the front.

Outside the west gate of this insect town, it looks desolate. You can see the sparkling river at the far end on the left. There is an island in the river, that is Centipede Island, but it is far away. Now from a distance, Centipede Island looks like a Upside down bowl.

Xiaoguo carried him all the way westward, and it became more and more desolate as he walked. After a kilometer or two, yellow sand gradually appeared in front of him, as if he had entered a desert.

Wang Xuan took out the map of Scorpion City, looked at it, and knew that if he continued to go deeper along the desert ground, he could see Scorpion City.

"It just so happens that I have a mission in Scorpion City, you can take a look by the way."

Wang Xuan put away the map of Scorpion City and took out another roll of parchment.

The name of the task written on this scroll of parchment is "Finding the Hometown of Mechanical Beasts", and the difficulty is unknown.

"Go to Scorpion City to find a strange statue. It seems that there is some problem with the statue... This task is strange. It seems that you need to find a statue in Scorpion City first."

Wang Xuan looked at the map displayed on the parchment, pondered slightly, and put it away.

Xiaojiao ran at full speed very fast, carrying him into the yellow sand with no end in sight, and a city appeared in the undulating sand dunes.

The city walls of this city have been eroded by wind and sand for many years, the surface is pitted, and the city walls have collapsed in many places. From a distance, it looks like a long-abandoned barren city.

This desert city is the "Scorpion City".

Unlike the lively trip to Centipede Island, Wang Xuan didn't see a single person along the way, surrounded by endless yellow sand. From the time he was trapped in the underground parking lot in Longmao Square to the present, Wang Xuan was with Gu Manyao by his side. With Zhao Lei and other companions, they have never acted alone.

Now a person appears in this desert where no one can be seen, and the eyes are desolate and dead, and there is a sense of loneliness in the heart.

Wang Xuan patted Xiaojiao on the head lightly, thinking that it is fortunate to have Xiaojiao to accompany him. In his opinion, this mechanical beast is very useful. When it is resting, it is sentry and patrolling. When it is on the road, it is a mount. Now when it is alone, it becomes its own companion.

Five or six kilometers away, at the speed of Xiaojiao, he quickly arrived at Scorpion City.

The city wall of Scorpion City is similar to that of Insect Town. The height is ten meters, but it looks dilapidated and collapsed in many places. He doesn't need to look for the city gate at all. into a collapsed gap.

The little girl slumped slightly, and then rushed towards it. Wang Xuan opened his right hand, and the metal tentacles slowly extended from his right hand.

Everyone in Insect City knows that Scorpion City is very dangerous, and now he wants to enter the city, he does not dare to be careless.

Xiaojiao jumped and carried him to a height of nearly two meters. With one leap, he jumped into the city through the collapsed gap.

Entering the city, Xiaogai stopped, and the metal tentacles extended from Wang Xuan's right hand were guarded around his body, ready to deal with emergencies at any time.

First observe the surrounding situation. This scorpion city covers an extremely wide area. All you can see are various dilapidated buildings. There are signs of weathering on the surface. The ground in the city is also covered with a thick layer of yellow sand, some of which are low. The low and collapsed buildings have been submerged in yellow sand.

Although the scorpion city in front of him now looks desolate and dilapidated, and it may be completely eroded by the desert in a few years, Wang Xuan can still see that it used to be a large-scale ancient city, but it happened later. What's the matter, this place is abandoned, except that there may be a strong person from Insect Town entering here, there is no other trace.

"Since only the strongest people dare to enter here, then the monsters that appear here, I am afraid that the weakest danger level must reach five stars."

Wang Xuan pondered slightly, and carefully turned over and got off Xiaojiao's back.

"Little girl, you have to be careful. The monsters that appear here may be difficult for you to deal with, but don't let the monsters break it down for you."

Although Xiaojiao has the weapon of flame claws, her strength is stronger than that of ordinary adults, but it is not enough to fight against the powerhouse.

Wang Xuan started to walk forward as he spoke. Although Xiaojiao couldn't speak, he could understand the meaning of his words. He immediately stood up and stretched out a pair of fiery red metal claws. Tell Wang Xuan that it is very powerful now and is not afraid of the monsters here.

Wang Xuan looked at Xiaojiao with a smile on his face, just as he was about to speak, he suddenly heard the sound of fighting in the distance.

"Huh? There, let's go." Wang Xuan immediately determined the direction from which the voice came from, and sprinted forward to the right.

The little girl followed closely behind.

Wang Xuan was just walking around a building that was mostly collapsed when he suddenly sensed danger. He reacted quickly, raised his right hand, and the metal tentacles popped up. With a "pop", he drew the afterimage that suddenly appeared in the void.

A faint whistle sounded, but the afterimage that appeared in the air was pulled out by the metal tentacles and rolled out. After landing, it sank into the yellow sand on the ground, and then struggled to rise, but it was a giant khaki scorpion.

This scorpion, with barbs on its head and tail, is about three meters long. It is covered in a solid yellow shell. It is very inconspicuous among the yellow sand. It was hidden on the roof of the collapsed building. Wang Xuan was about to bypassing, it suddenly attacked. If it wasn't for Wang Xuan's instinctive sensitivity and speed of reaction, he would have been stabbed by its barbs.

At this moment, it was hit by the metal tentacles in its belly. The outer shell of the belly was broken, and a large amount of yellow juice was seeping out, but it did not die. It fell into the yellow sand, and immediately struggled to get up.

The "Illustrated Eye" on Wang Xuan's metal tentacles opened, capturing the information of this khaki giant scorpion.

"Name: Sand Scorpion, Race: Scorpion, Danger: ★★★★★ (five stars), Sand Scorpion is a giant scorpion living in the desert, its head and tail can reach three meters in length, Sand Scorpion is a non-venomous scorpion family They move quickly in the desert, they can walk through the sand bottom, and they are elusive, they attack the enemy with the tail hook behind them. Acting together in groups of three or five, hiding in the sand, attacking enemies who break into their territory."

Sensing the sand scorpion information, Wang Xuan knew that he had guessed correctly. The weakest monsters in this scorpion city had reached five stars, so one can imagine the horror here.

Although the sand scorpion was injured, it still quickly turned over and got up, rushing towards him.

Wang Xuan thought of the sand scorpions that he saw in the data, often moving together in groups of three or five. His thoughts turned and his body turned slightly. He saw that there was a rustling sound behind the collapsed building, and three or more appeared again. The sand scorpion, which is only three meters long, plus the previous one, he and Xiao Gao were surrounded by four sand scorpions.

Four five-star dangerous monsters appeared at one time. Not only was Wang Xuan not afraid, but he felt excited.

Actively facing the injured sand scorpion that rushed up, Wang Xuan kicked his feet, and an afterimage appeared, and the tail hook swung by the sand scorpion heavily hooked into the yellow sand below.

Wang Xuan moved laterally faster than the tail hook swung, and the metal tentacle in his right hand burst out like a giant python, and there was a faint blue light inside.

With a "snack", the hard shell of this sand scorpion shattered immediately with a single blow, with yellow juice splashing out of it, and its head was immediately shattered by the metal tentacles.

A white scale appeared and sank into his right hand. Feeling the slight fluctuation of the white light in his right hand, Wang Xuan turned around. The other three sand scorpions attacked together. , one raised his upper body and slanted towards Wang Xuan, and the last one swung out the tail hook behind him, waving an afterimage in the air, and hooked to Wang Xuan from the other side.

"Little girl, step back!" Wang Xuan shouted, he understood that Xiaojiao was not the sand scorpion's opponent, he stretched out his right hand, the metal tentacle he was controlling was divided into two, and precisely wrapped the tail hook swung over by one of the sand scorpions. , with a crisp sound, the six-meter-long metal tentacles immediately wrapped around the tail hook all the way.

He waved his right arm, pulled the metal tentacles, and pulled the sand scorpion into the air, smashing it towards the sand scorpion that was pounced on the little girl. The hard shell on the surface shattered immediately.

The tail hook, which was entangled in his metal tentacles, snapped immediately in the huge impact.

The other metal tentacle he controlled stood up and at the same time blocked the sand scorpion that was attacking him.

Of the three sand scorpions, two of them were seriously injured in an instant. Xiaoguo seized the opportunity, stretched out the flame claws, and caught one of the sand scorpions into the cracked hard shell. The sand scorpion's body burned into it.

The sand scorpion was burned to the ground, and flames erupted from the cracked hard shell.

It crawled into the yellow sand on the ground, and wanted to rely on the sand to extinguish the flames that had penetrated into its body.

Wang Xuan kept his body and controlled two metal tentacles at the same time, entangling the remaining two sand scorpions, causing the two sand scorpions to collide with each other. Come on, kill immediately.

The other sand scorpion was severely injured in the impact. It had tenacious vitality and did not die immediately. Wang Xuan pulled it up again and smashed it into the sand scorpion that was burning flames and wanted to burrow into the yellow sand. .

With a "no" sound, the two sand scorpions collided with enormous force, and their bodies exploded together. Wang Xuan saw the body of the sand scorpion that was caught by the little flaming claws

explode, and there were large lumps inside. The flames rose up, making a crisp "crackling" sound, and there was a faint smell of burnt odor.

Four sand scorpions, all of them died, Wang Xuan took four white scales in a row, and felt the white light in his right hand fluctuate slightly.

Although the white scales of this five-star dangerous monster contain powerful energy, it is also unimaginable how much energy it needs to grow to a hatchling beast that has reached the perfect state. Inside this white light is like a bottomless abyss. These four The energy of the white scales was absorbed, like a mud cow entering the sea, unable to stir up a wave of waves.

Except for the first white scale that started to absorb a slight energy fluctuation ~www.mtlnovel.com~, the three white scales after that were absorbed, and even this slight energy fluctuation disappeared.

Wang Xuan understands that the average probability of breaking through from an adult body to reaching the perfect state is only 1 in 12, and it will be more difficult to break through after reaching the perfect state. The danger of hunting is that the number of five-star monsters must be staggering. When he was not anxious, he shook his body and continued to swipe in the direction of the faint sound before. With a move with his left hand, he summoned the little girl and entered a fit state.

Xiaojiao immediately formed a mechanical shell, attached to the Tier 3 alloy equipment on his body, forming the second layer of defense.

When he first entered this scorpion city, he still didn't know what kind of powerful monsters were hiding. Wang Xuan was very cautious. The more defense he had, the more security he had.

The sand scorpion died and would not drop crystal scales. Wang Xuan left here, accelerated and rushed into the distance, and soon saw a group of sand scorpions hundreds of meters away, among the dilapidated buildings.

There are quite a few sand scorpions in this group, there are as many as a dozen or so. Between them, three figures are constantly jumping and fighting with these sand scorpions.

These sand scorpions are monsters with a five-star level of danger. It can be said that each of them is close to or even comparable to an ordinary powerhouse. It's not easy, he has vaguely borrowed a little energy from the blue crystal scales.

At this moment, these more than a dozen sand scorpions gathered together and attacked the three of them crazily. It is conceivable that the pressure these three were under.

When Wang Xuan rushed over from a distance, he saw two sand scorpion corpses on the ground. The three people surrounded by them were already in danger, and they were trying their best to break out of the sand scorpion's encirclement.

"It turned out to be her?"

A look of surprise crossed Wang Xuan's face.

Chapter 152

He did not expect that among the three people surrounded by a group of sand scorpions, one of them would be Xiao Bichen of "Phoenix".

Last night's incident in the tavern, Xiao Bichen, as one of the five patrol captains, had also been to the tavern. What he said was fair, and even some of the words that Wang Xuan heard were vaguely meant to help him. Therefore, Wang Xuan was right. She had a good impression, but she didn't expect to see her in Scorpion City today.

In addition to Xiao Bichen, the three surrounded by the other two also wear "Phoenix" badges. One is a man of about twenty-seven or eight years old. , The body is covered with a mechanical shell, and he is obviously in a state of merging with the mechanical beast. He is holding a very small silver axe in his right hand, only half a foot long. The other man is about thirty-one years old, with darker skin and a surface Some were cratered, and in the right hand held a giant shield of rock.

Wang Xuan understands that the three of them are all powerful people in the "Phoenix". It seems that they are leaving the town together and entering the scorpion city to hunt monsters. Also felt exhausted.

The man with black knees let out a violent roar, and the giant rock shield he held in his right hand smashed out, and the shell of a sand scorpion that rushed towards him shattered, unable to resist the rock shield's blow, and the other sand scorpion smashed into pieces. The barb of the scorpion was thrown out like lightning, and he had no time to dodge, and his back was hooked by the barb.

The man groaned, Xiao Bichen swung out his right hand, a light and shadow flashed, and the long spear held in her right hand appeared, picked on the barb, a terrifying force oscillated, shattered the barb, and the long spear stabbed out. Poke into the open mouthpart of this sand scorpion, and stab it to the end.

"Brother Zhang, Li Hao, I'm going to use the 'exploding crystal' to break through, you all cooperate with me!"

Xiao Bichen gave a light drink, flipped his left hand, and took out an exploding crystal.

"Okay!" The handsome man was Li Hao, he answered and retreated to Xiao Bichen's side, waiting for Xiao Bichen to throw the explosive crystal, and they broke through and rushed out together.

At this moment, Xiao Bichen made a light sound and noticed Wang Xuan who was rapidly approaching them in the distance.

When she saw Wang Xuan, a hint of surprise flashed in Xiao Bichen's eyes. She didn't seem to expect to see Wang Xuan here. She originally wanted to throw an explosive crystal, but now she saw Wang Xuan and changed her mind.

With a groan, Li Hao, who retreated to her left, splattered blood on his left arm and was clamped by the forelimb of a sand scorpion. His eyes were angry, and the silver axe in his right hand swung out, and a silver light swept through it like a piece of training. He went out and cut the head of the sand scorpion out of it.

As Wang Xuan continued to approach, two of the sand scorpions that besieged them immediately turned around and rushed towards the approaching Wang Xuan.

The two metal tentacles extended from his right hand. Wang Xuan was very difficult to deal with the white sand scorpion. With his current strength, it was difficult to kill instantly, so he borrowed a little energy from the blue crystal scales, and a blue shimmer appeared in the metal tentacles. There were two crisp snaps, and the speed and strength of the two metal tentacles that contained a little blue crystal scale energy increased. The two sand scorpions that rushed up didn't have time to react, and they were hit in the head in an instant, killing them immediately.

Two white scales appeared and sank into Wang Xuan's right hand.

Except for Xiao Bichen, Li Hao and Brother Zhang looked shocked when they saw it.

It is impossible to kill a five-star sand scorpion in an instant. How powerful is this young man in front of him?

Xiao Bichen had seen Wang Xuan's skills last night, he could break Liu Ming's limbs, and knock back Chen Daolin, who could be called the peak of his strength.

After killing these two sand scorpions, there was a slight confusion among the remaining sand scorpions, and several of them turned around and faced Wang Xuan.

Xiao Bichen and Li Hao immediately felt the pressure lightened. She let out a shout, put away the exploding crystal, and the spear in her right hand shook, spinning at a high speed, producing a terrifying penetrating force that shot from a sand scorpion. The side of the body passed through, and the yellow juice came out from the other side.

Wang Xuan controlled the metal tentacles and killed two sand scorpions again. Xiao Bichen and Li Hao fought back with all their strength and killed three sand scorpions. Most of the dozen or so were dead, and the rest of the sand scorpions turned around and fled. It quickly disappeared between the dilapidated buildings around it.

The crowd did not chase the fleeing sand scorpions. Li Hao and Brother Zhang were both injured. Fortunately, the injuries were not light. With their strength, these injuries would heal quickly. Wang Xuan noticed that only Xiao Bichen was not injured among the three. It seems that among the three, she is the strongest.

Xiao Bichen looked at Wang Xuan, nodded at him, showed a smile, and said, "Thank you for your help, otherwise we will be in trouble today."

Wang Xuandao: "It's not difficult to kill these sand scorpions with the strength of three. I killed four of them when I passed by, and three of them won't be surprised, right?"

When Brother Zhang heard this, he laughed and said: "Brother, you are really good at talking, you are obviously helping us, but you are afraid that we will take offense. By the way, my name is Zhang Taixiong, this is Xiao Bichen, this is Li Hao, I don't know. What's your name, brother?"

Just as Wang Xuan was about to announce his name, Xiao Bichen looked at Zhang Taixiong with a smile and said, "Brother Zhang, this is Wang Xuan who became famous in the tavern last night."

Zhang Taixiong and Li Hao were both taken aback and shouted together, "Wang Xuan?"

Zhang Taixiong nodded and smiled: "No wonder, when did I say that such a powerful character appeared in Wormtown, so you are Wang Xuan, yes, wearing a black bracelet, so young, and so powerful, only The blockbuster Wang Xuan from the 'Xuan Gang' meets this standard."

Wang Xuan was a little embarrassed by their praise, and said, "I'm not that good. The three of you are busy, so I won't disturb you."

Zhang Taixiong hurriedly said, "Brother Wang, wait a moment."

"Huh?" Wang Xuan stopped and looked at him.

Zhang Taixiong said, "Brother, is this your first time entering Scorpion City?"

Wang Xuan nodded.

Zhang Taixiong's face was a little dignified, and he said: "The situation in Scorpion City is very complicated, far from being comparable to that of Snake Domain and Centipede Island. Even if we reach the perfect state, we don't dare to go deep here alone. I see you alone and understand that you are sure. First time here."

Wang Xuan said: "It seems that this scorpion city must be extremely dangerous." I thought that Zhang Taixiong and the former "Xuan Gang" Gongsun Xiaoyan had warned him about the danger of the scorpion city. It seems that this scorpion city may be more dangerous than he imagined. Even more dangerous.

Zhang Taixiong said with a smile: "With the strength of Brother Wang, naturally there is no need to be afraid of ordinary monsters in this scorpion city. The main reason is that almost no one dares to enter the scorpion city alone, usually with a few people. Brother Wang is still very powerful, so I can't bear it. Just ask out of curiosity."

Xiao Bichen suddenly said, "How about the four of us join forces? I think we can try that mission."

As soon as she said this, Wang Xuan, Zhang Taixiong and Li Hao were all startled, Zhang Taixiong's eyes flashed immediately and said: "This is really worth a try, although we have made sufficient preparations this time, we are still not absolutely sure. , If we can invite Brother Wang together, the four of us should join forces, it should be almost the same."

Li Hao frowned slightly and stood aside, but did not speak. Most of the time he looked at Xiao Bichen silently, with a faint admiration in his eyes. Obviously, he was interested in Xiao Bichen.

Seeing Wang Xuan's doubts, Xiao Bichen explained, "I got a bronze treasure chest before, and luckily, I opened a piece of parchment. This parchment records not a general task, but a rare task."

"This kind of rare quest is very rare, and the rewards are much higher than ordinary quests, and of course it will be very difficult. The address is in Scorpion City. I found Brother Zhang and Li Hao together. Although I have made sufficient preparations, I still feel that I am not fully sure. , if you are willing to join us, the four of us will join forces, and we will definitely be able to do it."

When Xiao Bichen said this, her eyes flashed, and she looked at Wang Xuan with anticipation.

Wang Xuan could not have imagined that in addition to various tasks, there were also rare tasks, and he was a little curious about it, but he came to Scorpion City mainly to hunt down five-star monsters, absorb enough energy, and hope to break through the state and go further. .

Zhang Taixiong saw Wang Xuan's hesitation, and immediately said: "Brother Wang, let's go together. First, you can try this rare task. If you complete it, everyone will be rewarded. Second, it will not delay us hunting monsters and obtaining the energy we need. "

He knew that Wang Xuan was coming to Scorpion City for the first time, and the main purpose must be to absorb the energy needed for growth. This sentence may impress Wang Xuan.

Hearing what he said, Wang Xuan was really moved, but he didn't agree immediately, and said, "What exactly is this rare mission, can I take a look first?"

It's not that he doesn't believe the three people in front of him, but it's better to be cautious and guard against others.

"Of course you can." Xiao Bichen was quite cheerful, and immediately took out a piece of parchment from the storage belt and handed it to Wang Xuan.

Seeing that she trusted him, Wang Xuan moved slightly, took the parchment, unfolded it, and saw a few lines of words on it.

"Task name: The Secret of Scorpion City, Difficulty: Unknown."

"This is a rare mission. Find the secret of Scorpion City. Unlock this secret and you will get a mysterious treasure."

After that is the map of Scorpion City. There is a red line on the map, which represents the route of this mission.

"Unlock the secret and get the mysterious treasure?" Wang Xuan frowned. The reward for this rare quest is not a treasure chest, but a treasure. Since it can be called a treasure, the richness of the reward can be imagined.

Returning the parchment to Xiao Bichen, Wang Xuan also became curious about this rare task and mysterious treasure, and nodded in agreement.

Seeing Wang Xuan's agreement, Xiao Bichen looked excited and said, "Then we will set off immediately. With you joining us, the four of us will definitely be able to complete this task."

Zhang Taixiong also laughed and said, "That's natural. With the four of us working together, I'm afraid that even a six-star difficulty task can be completed. It's definitely no problem to complete this task."

Xiao Bichen looked at the red route on the map, and pointed to the far left against the dilapidated buildings around him, and said, "Do you see a huge stone pillar there? Let's go in that direction."

Wang Xuan saw that there was indeed a huge stone pillar standing in the distance. Although part of it collapsed, the remaining one was still ten or twenty meters high. From a distance, one could feel the grandeur of this stone pillar.

"Go." Zhang Taixiong raised his rock shield in his right hand and ran towards the left front first.

Xiao Bichen and Wang Xuan followed closely. Li Hao didn't say a word, but fell behind with the silver axe in his hand.

Li Hao didn't speak from the beginning to the end. From Wang Xuan's point of view, this person was rather taciturn.

The four of them were all in a state of integration with the mechanical beast, with a double-layered defense on the surface of their bodies. The four of them were very fast, and they flew towards the distance at full speed. Soon there was a rustling sound all around, and seven sand scorpions appeared and moved towards them. surrounded.

"Kill!" Zhang Taixiong let out a low roar, with Wang Xuan joining the team, plus their three great powerhouses, even though these seven sand scorpions are five-star dangerous, they are not enough to watch.

With a "bang", Zhang Taixiong collided with a sand scorpion that was rushing up to him. The rock shield glowed faintly. He lifted the rock shield and smashed it down again, immediately smashing the sand scorpion's hard shell out of the crack. .

Li Hao swayed, the silver axe in his hand swung a silver light, and another sand scorpion rushed up.

Wang Xuan saw that among the three Xiao Bichen, Xiao Bichen had the strongest strength. She was holding a white spear in her right hand. The spear was in shock, with white energy lingering around it. As long as the sand scorpion touched the shock, the shell would be destroyed. It started to smash.

Although the three of them did not have the strength that Wang Xuan could instantly kill the sand scorpion, in terms of combat power, in a one-on-one situation, each of them was much stronger than the sand scorpion.

Wang Xuan still controlled the metal tentacles and borrowed a trace of blue crystal scale energy to instantly kill the sand scorpion and harvest energy.

Soon the seven sand scorpions were killed by four people. Wang Xuan killed three by himself, and Xiao Bichen killed four by three.

The four of them did not stop, and continued to run towards the giant stone pillar in the distance. On the way, they were attacked by two sand scorpions. Fortunately, there were not many sand scorpions. One was six sand scorpions, and the other was nine sand scorpions. Scorpion, the four of them killed all these sand scorpions with ease.

After killing the nine sand scorpions, Zhang Taixiong stopped and said with a laugh: "As expected, it is different to have Brother Wang join the team. Killing these guys is much easier."

Wang Xuan smiled bitterly and said, "Brother Zhang can't boast any more, I'm really proud of you."

"Haha." Zhang Taixiong laughed and said, "I fell in love with you at first sight. If you don't dislike it, how about we go to the pub to have a few drinks when we go back this time?"

Wang Xuan nodded and said, "Of course, I will invite you."

Zhang Taixiong immediately said with a stern face, "What are you talking about? Of course I invited you, you are not allowed to be polite to me."

Wang Xuan saw that this chapter was too masculine and bold, and he liked him very much, so he nodded with a smile. At this moment, he heard the faint sound of fighting in the distance, and immediately turned his head to look to the other side.

Xiao Bichen and Zhang Taixiong also heard it, and looked at them one after another, but saw a few figures appear about a kilometer away from them, and a group of sand scorpions appeared, surrounded them, and the two sides immediately began to fight.

"It seems to be someone from Rakshasa... let's go." Xiao Bichen glanced at it from a distance, thinking that Rakshasa and Wang Xuan would not deal with it, and immediately continued to run towards the giant stone pillar.

Wang Xuan knew that many of the five major forces had a lot of powerhouses in the Scorpion City. He was very familiar with these Rakshasa people. They should be the people who have been staying in the Scorpion City for the past few days. I don't know the conflict between myself and Rakshasa.

The four of them didn't stay too long, and continued to run towards the giant stone pillar in the distance. They were not attacked by sand scorpions or other monsters along the way. After ten minutes, they stopped. Not far in front of them, they were A huge broken stone pillar stands.

In addition to this stone pillar, there are several other stone pillars that are about the same thickness, but these stone pillars almost completely fell down, leaving only the stone pillar base less than one meter high on the ground.

Between these stone pillars and in the yellow sand, you can still see some broken walls, but because the damage is so severe, it is difficult to see what this building once looked like.

"Looking at these stone pillars and these walls, it seems that this place used to be a huge palace or temple." Xiao Bichen opened the parchment in his hand while observing, a look of surprise on his face.

Wang Xuan nodded and said, "It does look a bit like it. If it is really a palace or something, the scale of this palace is not small, and it can be called quite magnificent."

A broken stone pillar is still ten or twenty meters high. If the palace is intact, it can be called magnificent.

Zhang Taixiong looked around and said, "Speaking of which, this Scorpion City used to be a huge ancient city, but now it is occupied by these scorpion monsters, so it is called Scorpion City, I just don't know what it was called before."

Wang Xuan said: "The rare mission we are going to do this time is to find the secrets of Scorpion City. I just don't know what secrets are hidden in Scorpion City. Maybe it has something to do with the past of Scorpion City. Not sure."

Xiao Bichen looked at the parchment, raised her head after hearing Wang Xuan's words, and said, "You're right, the secret we're looking for really has something to do with the past of this scorpion city, saying that it used to be a place for worshipping gods. The temple, there is a secret about the gods hidden under this temple, we need to find the entrance to the basement of the temple first."

Wang Xuan was startled, God's secret?

As she spoke, she walked towards the front. According to the map sign above, she looked for the location of the underground entrance of the temple. Soon, she stopped at the base of one of the stone pillars.

"Is it here?" Li Hao, who had not spoken for a while, finally asked.

Xiao Bichen sighed: "According to the reference objects drawn on the map, it is about three meters away from the base of this stone pillar in this direction..."

As she spoke, she moved to the right, quickly determined the direction, stepped on it lightly with her foot, and said, "This is it."

Zhang Taixiong said: "Okay, then let's see if there is an entrance below." With a wave of his right hand, the rock shield in his hand changed, and soon became much thinner, like a shovel, shoveling towards the yellow sand below.

"King Kong Is Not Bad Dazhai Master"

A large amount of yellow sand was shoveled away with one shovel. Zhang Taixiong quickly cleared the covered piece of yellow sand. Wang Xuan saw a slate under the yellow sand. The slate was engraved with complex patterns. Zhang Taixiong immediately tapped it with his hand. Knock, listen to the echo, the bottom should be solid, and there is no hollow echo.

"This is really the entrance? It doesn't look like there is a basement or something." Zhang Taixiong showed a puzzled look on his face.

Wang Xuan remembered that he was at the top of Centipede Island. In order to open the passage to the bottom, he had also tried the giant rock at that time. There is a downward passage.

Therefore, in this world, previous experience cannot be applied at all.

Xiao Bichen said: "I don't know either. According to the records above, it is necessary to use blood to smear these patterns. The mission recorded on this parchment has never been wrong. Since it is recorded like this, it must be reasonable."

She was about to slash her fingers when Li Hao on one side had already slashed the palm of his left hand with the silver axe in his right hand.

Xiao Bichen glanced at him, smeared blood on the palm of his left hand with his hand, and began to smear the pattern below according to the records on the parchment.

Wang Xuan watched silently on the side, and now he finally saw it, Li Hao probably meant something to Xiao Bichen.

The patterns on the slate on the ground looked very complicated and messy. Xiao Bichen only chose a few patterns to apply. When she applied the six patterns, it was as if some mechanism or seal was touched. The six patterns shook slightly. The blood smeared on it immediately seeped into it, followed by a soundless, the slate sinking down, revealing a square entrance with a side length of about one meter five.

"There is really an entrance. I knocked it before and it was solid." Zhang Taixiong murmured, with an incomprehensible look on his face.

Xiao Bichen put away the parchment, immediately took out a spar from the storage belt, rubbed it on the surface, the spar glowed, she took the glowing spar and shone into the entrance.

Wang Xuan stood aside and looked inside with the help of the light of the spar.

Looking down from the entrance, you can see that there is an underground space below, about three meters deep, surrounded by walls, and you can see that there is a door on one of the walls, other than that, there is nothing.

Xiao Bichen was very cautious, and did not go down rashly, but first released the fusion state with the mechanical beast, and put his mechanical horse in first.

The mechanical horse entered it, patrolled around, and then stepped on metal hooves, making a crisp sound.

"There's no danger, let's go down and have a look."

Xiao Bichen then took the lighting spar and jumped down from the entrance, followed by Wang Xuan, Zhang Taixiong and Li Hao.

Wang Xuan fell down and saw that the basement was about ten meters long and wide, and the space was relatively spacious. There were four stone walls, and one of the walls had a stone door.

This stone gate is not small, its height is almost to the top, and its width reaches two meters.

Xiao Bichen took out the parchment and looked at it again, and said, "The map on this has changed again, and we need to enter this stone gate."

As she spoke, she walked towards the Shimen. Under her instructions, the one-horned horse rushed to the Shimen first. It hit the stone door lightly with its single horn, and the stone door burst open. Almost at the same moment, an afterimage appeared. The unicorn was heavily drawn.

"Zi Zai!" Xiao Bichen was startled and cried out, this Zai Zai was the name she gave to this one-horned horse.

The one-horned horse suffered this blow, and the mechanical shell on its head shattered immediately, followed by being hit by the black shadow that appeared in the stone gate, and flew back directly into the sky.

The sudden incident shocked everyone. Li Hao and Zhang Taixiong reacted quickly, flicking to the left and right, avoiding the falling unicorn. Wang Xuan stretched out his right hand, and the metal tentacles extended from his right hand, protecting him in front of him. , looked towards the stone gate.

Chapter 153

But they saw a giant scorpion with its teeth and claws rushing out from the stone gate behind the unicorn that fell out.

This giant scorpion is slightly larger than the sand scorpion. It is pitch black and has two thick black barbs. It looks much more ferocious and ferocious than the sand scorpion.

Two barbs, one left and one right, hooked toward them.

Wang Xuan captured its data at the same moment.

Name: Double-tailed giant scorpion, Danger: ★★★★★☆ (five and a half stars)

Seeing the danger, Wang Xuan immediately understood the power of this two-tailed giant scorpion.

The sand scorpion with a five-star danger level is comparable to or close to the ordinary powerhouse, and the five-and-half-star danger level represents the strength of this twin-tailed giant scorpion, which is definitely crushing the common powerhouse.

Xiao Bichen's expression changed slightly, and the speed at which the two-tailed giant scorpion barbs swung over made her faintly dazzled.

Knowing something was wrong, while she retreated violently, she raised the white long spear in her right hand and picked it up, accurately hitting the barb that was swung over.

This barb contains extremely powerful power, and she shook her right hand, and the white spear bent down under the action of huge power.

The metal tentacle controlled by Wang Xuan simultaneously drew another barb that was swung over.

If the metal crash sounded, the metal tentacles could not resist and bounced back.

Wang Xuan felt his right hand go numb, and his heart was awe-inspiring. The five-and-half-star two-tailed giant scorpion was indeed terrifying, and immediately activated the power of the blue crystal scales.

One after another, blue dim lights lit up from the metal tentacles, and the metal tentacles violently rose, entangling the barb, Wang Xuan snorted, his right arm exerted strength, pulled the pair of tailed giant scorpions, and smashed them. He lifted it up and smashed it on the top of the stone slab above.

With a loud "bang", the two-tailed giant scorpion opened its mouthpiece, and there was a faint whistling inside, and a crack appeared in the shell that was hit on the surface of the body. His left wrist stretched upwards, and the flesh and metal merged into a giant arm that was more than one meter long, with a blue light flickering on the surface.

The "Giant Arm of Warcraft" appeared, Wang Xuan jumped up, and hit the head of the two-tailed giant scorpion that fell.

With a "no" sound, the head of this two-tailed giant scorpion exploded along with the smaller half of its body, splashing a lot of juice.

Wang Xuan dodged to avoid the two-tailed giant scorpion corpse, the metal tentacle on his left arm reappeared, and he put away the "monster arm".

Xiao Bichen, Zhang Taixiong, and Li Hao all had surprised expressions in their eyes.

They are all virtuous powerhouses with extraordinary eyesight. At a glance, they can see how terrifying this twin-tailed giant scorpion is. It is stronger than the average virtuous powerhouse. It is unexpected that Wang Xuan can kill this twin-tailed giant scorpion in an instant.

Wang Xuan killed the two-tailed giant scorpion and harvested a white scale. The white scale was absorbed by the white light in his right hand, and energy fluctuations appeared in it. The energy contained in this white scale was much stronger than that of the sand scorpion.

"Brother Wang, it's amazing." Zhang Taixiong snarled, saying: "This scorpion is not easy, I'm afraid it's not a match for the normal state, I didn't expect it to be solved so easily by you, I really doubt you right now. Has it broken through the state?"

Wang Xuan smiled slightly and said, "I'm just a fluke, not so powerful. Brother Zhang is too exaggerated."

Zhang Taixiong said with a smile: "Yes, if you really broke through the state, you probably wouldn't come to Scorpion City."

Xiao Bichen glanced at Zhang Taixiong and said, "It's not uncommon if you can be so powerful after breaking through the perfect state. What's really valuable is that you can be so powerful without

breaking through the perfect state. Think about it, if you have broken through the perfect state, you can be so powerful. level?"

Zhang Taixiong nodded and hummed, thinking that it was the truth, and he looked at Wang Xuan with more and more admiration.

Just as Wang Xuan was about to speak, he suddenly seemed to see something, raised his head, frowned and said, "The entrance above is closed."

Only then did Xiao Bichen and Zhang Taixiong realize that the entrance they had entered here before had been silently closed.

Li Hao immediately jumped up, the silver small axe in his right hand slammed up, and a silver light swept up, slamming heavily at the entrance just now.

There was a soft sound, sparks scattered, and his silver axe was shaken back. Not even a trace was left on the stone slab at the entrance.

"So hard?" Zhang Taixiong was taken aback.

Li Hao's face became ugly and said: "What should I do? The entrance is closed, how will we get out later?"

Xiao Bichen was still calm, looked at the parchment and said, "Don't worry, everyone, it shows that there will be another exit after going to the end. The entrance here can only be opened from the outside, and cannot be opened from the inside."

Hearing her say this, everyone calmed down a bit. Wang Xuan started to walk inward along the opened stone door. He released two metal tentacles, one above his head and one around his body.

Xiao Bichen put away the unicorn, re-entered the fit state, strengthened the defense, took the lighting crystal, followed behind Wang Xuan, and illuminated the front for him.

Entering the stone gate, the entrance to the eye is the passage of the dark rock wall, and the four of them have a look of surprise on their faces.

There is no end to this passage. With the help of the light of the lighting crystal, the four of them can only see that there are rocks on both sides of the passage, and the top above is about ten meters high. There are many upside-down conical rocks on the surface, which look like an underground Deep space cracks.

"Bichen, is the route correct? Are you sure you're going forward here?" Zhang Taixiong stopped, holding a giant rock shield in his right hand to protect him, looking around.

Xiao Bichen sighed: "According to the display on the map, we need to follow this passage all the way to the end, and then there is no display. It seems that we need to reach the end of the passage before the map can have new changes."

"Okay, then let's go to the end and take a look. I'm afraid there is more than just the scorpion here." Zhang Taixiong said and started to walk forward.

Wang Xuan was the first to clear the way, carefully observing the movements around him.

Xiao Bichen followed closely, followed by Zhang Taixiong and Li Hao.

Wang Xuan turned his head and found that the stone gate they had just entered was silently closed. He tried it with a metal tentacle. Sure enough, the stone gate was unbreakable and could not be opened. It seems that this rare mission is not small, and once inside, there is no chance to turn back, you must go to the end to have a way out.

Xiao Bichen and Zhang Taixiong also saw it. They looked at each other and saw the solemn expressions on each other's faces.

The danger of this mission is far beyond their imagination. The only luck is that they invited Wang Xuan together, otherwise the consequences would be unpredictable.

The four of them didn't say anything more. Since they couldn't turn back, they all started to speed up and rush forward.

They were very fast, and they quickly advanced 100 meters forward. The passage space gradually became larger, and the width of the rock walls on both sides exceeded ten meters.

Wang Xuan, who took the lead, suddenly stopped.

"What's wrong?" Xiao Bichen closed her mouth as soon as she spoke, because she knew what happened.

In the blink of an eye, black shadows appeared in the surrounding darkness, and they fell into a heavy siege.

One after another, the giant twin-tailed scorpions suddenly appeared in the darkness without warning. With the help of the light of the lighting crystal, everyone saw that the number of twin-tailed giant scorpions around them had reached at least ten. There is a faint rustling sound in the middle, which seems to mean that there are more twin-tailed giant scorpions appearing.

Stronger than Wang Xuan, he couldn't help taking a breath at this moment.

There are more than ten twin-tailed giant scorpions whose strength surpasses that of ordinary elites. What is the concept?

Almost as soon as the four of them reacted, Xiao Bichen shouted loudly: "Break through, rush over!" With his right hand stretched out, a white spear appeared and rushed forward.

She understood that once she was completely surrounded by these two-tailed giant scorpions, Wang Xuan would not be sure, but she, Zhang Taixiong and Li Hao would definitely die here.

Although she is much stronger than the average powerhouse, she has the confidence to kill the twin-tailed giant scorpion one-on-one, but she can't resist being surrounded by so many giant scorpions, and what is even more terrifying is listening to the voice in the dark, I don't know how many there are.

Now that the entrance to the road has been blocked, their only hope of survival is to rush to the end of the passage and find the exit before more twin-tailed giant scorpions appear.

Wang Xuan's actions were faster than hers. He folded his hands together, and two metal tentacles stretched up along his arms, and soon two giant beast arms appeared.

For the five-star dangerous sand scorpion, it is enough to use metal tentacles, but if you want to deal with this group of twin-tailed giant scorpions, it is possible to kill instantly only by erupting the power of the strongest monster arm.

The two giant twin-tailed scorpions rushed forward, hissing noises came from their open mouthparts, and the two barbs behind them were hooked like lightning towards him and Xiao Bichen who was following them.

With a left hand, Wang Xuan precisely grabbed a hook towards his own barb, and when he took advantage of the situation, he almost jumped up in the air, and the giant arm of the monster on the right slammed up with terrifying power.

In the giant arm of this beast, there is a faint blue light flickering, which is the energy of a blue crystal scale.

With a "no" sound, the two-tailed giant scorpion's open mouthparts shattered together with its head.

He had just killed a two-tailed giant scorpion instantly. The white spear in Xiao Bichen's right hand vibrated violently, and the white energy attached to the surface stretched out in the vibration. The white spear seemed to come alive. Opening one eye, patterns appeared on the surface, and this white spear turned into a strange weapon that was half like a long spear and half like a one-eyed monster.

Wang Xuan glanced at it and understood that Xiao Bichen is now the most powerful person.

She was able to break through and be promoted to the ultimate state, and her hatching beast naturally awakened to a certain degree of self-awareness. At this moment, she awakened the hatching beast and launched the strongest attack, only to hear a snort, and the weapon in her hand followed a pounce in front of her. The two-tailed giant scorpion that came over stabbed it in the head.

The twin-tailed giant scorpion opened its mouthpiece and let out a hissing scream, which seemed extremely painful, and the two barbs swung wildly out.

A blood splashed out, Xiao Bichen dodged a little late, and her left arm was cut by the barb. If it wasn't for the double defense, her left arm would have been cut by the barb.

Zhang Taixiong and Li Hao were also attacked by two-tailed giant scorpions from behind and on both sides.

Zhang Taixiong activated the rock shield, roared violently in his mouth, rammed forward, and collided with a two-tailed giant scorpion that rushed up, making a huge vibration sound. .

Zhang Taixiong suddenly had a pain in his back, and the barb swung by another two-tailed giant scorpion cut open his mechanical shell and alloy armor and hooked into his back.

Knowing that it was not good, Zhang Taixiong wanted to turn around and attack. The two-tailed giant scorpion swung its barb, hooked him and pulled it into the air, smashing it towards a rock on the other side, and the other barb followed closely, towards his Belly hook to go.

Zhang Taixiong was in distress, and Li Hao was in a similar situation. He had just used a silver axe to hit one of the barbs that he swung over, but another barb caught his thigh.

The barb was so sharp that it pierced through his thigh and smashed him out.

Among the four, only Wang Xuan killed a two-tailed giant scorpion without injury. Xiao Bichen stabbed the spear into the giant scorpion and was injured. Zhang Taixiong and Li Hao were not as strong as Xiao Bichen. Injured, in danger.

"Damn—" Zhang Taixiong roared, in the air, he quickly took out an explosive crystal with his left hand and threw it towards the two-tailed giant scorpion that hooked him up.

There was a loud "Boom", and there was a flash of fire in the darkness. The twin-tailed giant scorpion was hit by an explosive crystal and exploded immediately.

The explosive crystal was extremely powerful, like a grenade. Although the two-tailed giant scorpion had a hard shell, it couldn't resist it.

Zhang Taixiong was also affected by the explosion because he was so close. The mechanical shell on the surface of his body was almost completely shattered and could no longer be repaired.

He understands that the body shell of the mechanical beast he has integrated has been damaged.

Li Hao, like Zhang Taixiong, saw that the situation was not good, and it was difficult to get out of the trap with his own strength. Fortunately, he responded quickly, and immediately took out the explosive crystal and threw it out, successfully killing the two-tailed giant scorpion that hooked him.

Wang Xuan was about to turn around to save him, but when he saw them throwing explosive crystals, he dodged to avoid being affected. Another two-tailed giant scorpion slammed into him. The arm waved, and the blue dim light flickered in the darkness, leaving an afterimage in the air. When it reappeared, the giant arm of the beast clenched into a huge fist slammed into the side of the two-tailed giant scorpion.

Without a sound, the body of this two-tailed giant scorpion collapsed in immediately, and the terrifying power exploded from it. The head and tail were left, and the body in the middle was almost completely blown up.

Killing a twin-tailed giant scorpion again, drawing on the energy of the giant scorpion's white scales, Wang Xuan felt that the white light in his right hand fluctuated again.

This makes him very excited, which means that the energy of hunting this two-tailed giant scorpion has a very obvious effect on him.

Xiao Bichen also successfully killed a two-tailed giant scorpion, but her left arm was injured. She frowned, and quickly took out an explosive crystal and threw it into the darkness ahead.

With a flash of fire, Wang Xuan saw that a giant twin-tailed scorpion was overturned in the explosion, and half of its body was blown to pieces. A white scale appeared and submerged in her right hand.

It seems that killing monsters with exploding crystals is the same as killing monsters with hatching beasts, and you can get white scales.

"Quick, use the exploding crystal to open the way—" Xiao Bichen shouted and threw the exploding crystal again.

Another huge explosion sounded, and she rushed forward. Although Zhang Taixiong and Li Hao were injured, they quickly got up, took out an explosive crystal each, and threw them towards both sides.

Wang Xuan didn't expect that the explosive crystals of these three people seemed to want no money, and while rushing towards the front, they threw the explosive crystals out.

In the darkness on both sides, I don't know how many twin-tailed giant scorpions are rushing towards them, but they can't resist the exploding crystal, and every sound of an explosion will definitely kill a twin-tailed giant scorpion.

Wang Xuan followed them closely, and quickly rushed forward twenty or thirty meters. On the way, he killed four twin-tailed giant scorpions in a row, but the twin-tailed twin-tailed scorpion was killed by the explosive crystal thrown by Xiao Bichen and the three of them. There are more giant scorpions, and the number exceeds at least ten.

"How many Explosive Crystals did you guys carry?" Wang Xuan waved his right arm and killed the fifth Explosive Crystal. Seeing that Xiao Bichen threw another Explosive Crystal, he couldn't help asking.

"For this mission, each of us bought 20 explosive crystals just in case, but I didn't expect it to be used now."

Xiao Bichen answered while throwing.

Wang Xuan was a little speechless. Although this explosive crystal can be purchased in the material store, the price is not cheap. He remembered that each one requires two hundred small crystal scales, which means 12,000 small crystal scales.

Of course, they may find private purchases outside, and the price will be much cheaper, but for this reason, the crystal scales required for this are definitely a huge sum of money.

"Don't be so surprised. For this mission, the three of us have emptied our savings and owed some debts, so this mission can only succeed, never fail."

Xiao Bichen gritted her teeth as she spoke, and rushed forward again for more than ten meters. With the help of the weak light, she could see the end of the passage far away.

There is a huge stone door there, which should be the exit from this passage.

They are now about fifty or sixty meters away from the giant stone gate.

"Li Hao, you must cherish the explosion crystal!" Xiao Bichen saw Li Hao throwing two explosion crystals in a row, and immediately stopped him. At the same time, he stabbed the white spear with his right hand, and stabbed a two-tailed giant scorpion that was approaching.

Each of them had prepared twenty explosive crystals. Although there were a lot of them, they would be consumed very quickly. In just a short time, Xiao Bichen had already threw six of them, and she now had only fourteen explosive crystals left on her body.

Zhang Taixiong and Li Hao used more. Each of them almost threw eight or nine or twenty explosive crystals. They almost used up half of them, but now they are still fifty or sixty meters away from Shimen~www .mtlnovel.com~ And if it's coming to an end or if there is any danger, no one knows, they have to save it.

"I know." Li Hao gritted his teeth, holding an exploding crystal in his left hand. He originally wanted to throw it out, but after listening to Xiao Bichen's words, he hesitated slightly before throwing it out. He held a silver axe in his right hand.

A barb was swung over, and he was struck with a silver axe. Suddenly, a black shadow flashed by his side. He instinctively felt bad and wanted to dodge, but it was too late. The tail giant scorpion flew away.

With a muffled groan, Li Hao rolled in the air, suffering severe pain in his stomach and back, but another two-tailed giant scorpion flew up, the two barbs swung out, and one hooked into his belly. Inside, one hooked into his back, precisely hooking the vertebrae in the crest.

Excruciating pain, Li Hao opened his mouth and couldn't help roaring. The explosive crystal he held in his left hand immediately threw it out.

With a loud bang, the explosive crystal exploded immediately, killing the two-tailed giant scorpion. Li Hao fell to the ground, and the two broken barbs were still in his body.

At this moment, Wang Xuan killed a two-tailed giant scorpion on the side again, and a strong anxiety arose in his heart.

He didn't know where this feeling came from for a while, so he couldn't help but look up, and in the darkness above, on a thick conical stalactite, a black shadow fell silently.

The shadow suddenly appeared, so fast that even Wang Xuan could not react. When he saw it, the shadow had already fallen to the side of Li Hao who fell to the ground.

Li Hao grabbed the barb that was hooked on his belly, and was about to pull it out, but suddenly he felt something was wrong. As soon as he raised his head, he could not hear a sound. The direction of his mouth and nostrils hooked in, pierced through his head, and emerged from the back of his head.

Chapter 154

"Li Hao!"

When Xiao Bichen saw it, she couldn't help but exclaimed, and immediately turned around and rushed towards him.

But seeing the falling shadow lift the steel hook that penetrated Li Hao's head, lift it up, and smash it towards Xiao Bichen, who is rushing towards him.

With the help of the lighting crystal in Xiao Bichen's hand, Wang Xuan could see the true appearance of the falling shadow.

This is a half-scorpion, half-human monster, with a human-like body, a scorpion head, a black shell on the front and back, a three-meter-long barb behind the buttocks, and a pair of faint lines on both arms. A gleaming steel hook.

At this moment, it hooked Li Hao with the steel hook on the right and hit Xiao Bichen who was rushing up.

Xiao Bichen couldn't take it anymore, let out a groan, and rolled over and fell out.

There was a sound of bones breaking all over Li Hao. The monster's right steel hook tore off most of his head, and there was blood mixed with white matter flowing out.

Even if he is a strong person, if most of his head is torn off, Li Hao will surely die.

Wang Xuan was shocked when he saw this scene, Zhang Taixiong let out a violent roar: "Li Hao!" Holding an explosive crystal in his left hand, he threw it with all his strength.

At the same moment, Wang Xuan opened the eye of the illustrated book and captured the information of this half-human, half-scorpion monster.

"Name: Fear King Scorpion, Race: Scorpion Family, Dangerous Degree: ★★★★★☆ (five and a half stars), Fear King Scorpion is a side branch of Emperor Scorpion, it has a danger degree that is infinitely close to six stars, and they are the fear of King Scorpion Believers, with the help of the power of the King of Fear, they shed their low-level insect bodies and evolved into a high-level human form. Whether it is speed, strength, defense or reaction ability, they are terrifying. The King of Fear scorpions will only be born in the presence of the power of the King of Fear. In this place, whenever you see the fear king scorpion, it means that there is the power of the fear king here."

Sensing the information about the fearful king scorpion, Wang Xuan's heart trembled.

Although the Dread King Scorpion has the same five-and-half-star danger as the Two-tailed Giant Scorpion, the data says that the Dread King Scorpion's danger is infinitely close to the real six-star, which means that its strength surpasses that of the Two-tailed Giant Scorpion. If it is replaced by hatching Beast, that is the pinnacle existence among the real powerhouses.

There was a loud bang, and the explosive crystal thrown by Zhang Taixiong fell into the air. The fearful king scorpion disappeared in place. Wang Xuanmeng threw himself forward, and the giant arm of the beast swung out, leaving an afterimage in the air. Circles of blue light.

A steel hook with a faint gleam of cold light was intercepted by the giant arm of the beast. Zhang Taixiong was covered in cold sweat. If Wang Xuan suddenly took action to intercept the steel hook that appeared in front of him, he would have followed Li Hao's footsteps. His head and face were pierced by the steel hook hole of the fear king scorpion.

With a wave of Wang Xuan's left arm, the other giant beast of beast smashed out. To deal with this kind of fearful king scorpion, which is comparable to the peak of its state, how dare he hide his secrets, activate the energy of blue crystal scales, and cooperate with his most powerful giant arm of beast. , go all out.

The fearful king scorpion's reaction was no slower than his. Another steel hook swung out and hooked the left arm of the monster that Wang Xuan had hit. It used double hooks to press down on Wang Xuan's giant arms of the monster, and behind him was a three-meter-long barb. With a wave, it went around in a circle and hooked to Wang Xuan's back.

Zhang Taixiong roared, seeing Wang Xuan in danger, the rock shield in his hand seemed to come alive, and flew out of the sky, hitting the barb from the side with a bang.

Xiao Bichen, who fell out on the other side, was attacked by a two-tailed giant scorpion. She took out an explosive crystal and threw it out.

Amid the loud explosion, the giant twin-tailed scorpion was blown apart. Xiao Bichen stood up, blood dripping from the corners of his mouth, and a look of anger and grief appeared on his face. Holding the white spear in his right hand, he moved towards the The fear king scorpion rushed up.

With the appearance of this fear king scorpion, the surrounding twin-tailed giant scorpions showed signs of collapse. They were obviously full of fear for the fear king scorpion and did not dare to approach at will.

Wang Xuan's demonic beast's arms were hooked and clamped by the steel hooks of the fearful king scorpion. He only felt like two boulders were holding on his arms, but he couldn't move.

This was the first time he had been squeezed by the arms of the demon beast, and a low growl came from his throat. The blue light on his arms lit up, releasing a dazzling blue light. It was the first time that he finally had no worries. When he moved the energy of the blue crystal scales, he only felt that his arms swelled and split in an instant. The energy contained in the blue crystal scales was far beyond his imagination.

At this moment, a thought flashed in his mind, what is the origin of these blue crystal scales.

When he was just a sub-body before, he felt that the energy of the blue crystal scales was unfathomable, and even a little careless, the burst of energy in the blue crystal scales could make his body collapse.

Unexpectedly, now that he has been promoted to the perfect state, his body's endurance has been arrogantly many times, and he still cannot fully withstand the energy of this blue crystal scale.

At least from the current point of view, the energy level in the blue crystal scales is far beyond the fifth state of hatching beasts.

These thoughts flashed through his head in an instant. Wang Xuan waved the giant arm of the beast, and the energy that erupted from it lifted the steel hook of the fearful king scorpion, and pushed it forward with a bang, and pushed it heavily on the fearful king scorpion's arm. on the chest.

The blue dim light exploded, and the black shell on the chest of the fear king scorpion immediately shattered and exploded, and its body flew into the air like a cannonball that was launched, rolled and smashed hard, hitting the rock wall behind. .

The terrifying sound of shattering sounded again, the fear king scorpion hit the rock wall, and then bounced off the rock wall and rushed forward for a few meters. Stepping forward to meet him, the right arm of the beast clenched into a fist slammed up again.

With a "no" sound, this time the giant arm of the beast pierced through the chest of the fearful king scorpion directly and emerged from the back. Wang Xuan shook the giant arm, and the power exploded. The fearful king scorpion's body broke from it, and the upper body was planted topple.

A white scale appeared and sank into his right hand. The white light suddenly fluctuated violently, and a strong energy reaction came.

Wang Xuan understands that if he can hunt down a few more fearful king scorpions that are infinitely close to six stars, maybe the energy he needs to break through the perfect state will be enough.

The fear king scorpion died, and the two-tailed giant scorpion that had been retreating all around also retreated cleanly and disappeared into the darkness.

Zhang Taixiong came back to his senses and was busy looking at Li Hao who was lying on the ground. Sure enough, Li Hao had no heartbeat and had already died.

"Li Hao..." Zhang Taixiong looked at Li Hao's death and shook his head with a dark look on his face.

He and Li Hao have a very good relationship, and they are both strong and full of confidence in themselves. He thinks that with his current strength, it is difficult to die again, but he did not expect Li Hao to die in front of him now.

Zhang Taixiong began to regret working with Xiao Bichen to complete this rare task. After breaking through to the perfect state, he now feels the long-lost breath of death again.

Xiao Bichen squatted down and silently looked at Li Hao's corpse in front of him with a complicated look on his face.

She could see that Li Hao liked her, and she could be said to be obedient to herself, and never dared to disobey the slightest. This time to complete this rare task, she was also looking for Li Hao.

Li Hao immediately took Zhang Taixiong with him. Zhang Taixiong was a little hesitant at that time. It was Li Hao who insisted, and Zhang Taixiong finally agreed, and this action took place.

Although she never liked Li Hao, she just regarded Li Hao as a good friend, but seeing Li Hao's tragic death here, Xiao Bichen still felt very sad, like a big stone had been crushed.

Wang Xuan retracted the giant arms of the beast, and felt the pain of tearing muscles in his arms, and realized that the power of the blue crystal scales just tore the muscles of his arms.

"Bichen, people can't be resurrected from the dead. We still have to find a way to find an exit." Zhang Taixiong sighed. Although he and Li Hao are brothers, he has been able to go all the way to the present, and he has met too many companions and friends along the way. Death, although it is sad now, but still understand what they should do and can't stay here, otherwise, if there is a group of two-tailed giant scorpions or fear king scorpions, it will be troublesome.

Xiao Bichen hummed softly and stood up slowly.

Wang Xuan looked at her with sadness in her eyes, and it seemed that she had a lot of affection for Li Hao.

Zhang Taixiong immediately crouched down and took off Li Hao's storage belt.

People are dead, but Li Hao's supplies can't be left here.

Soon he took off Li Hao's storage belt and the Tier 3 alloy equipment he was wearing. He stuffed the four pieces of metal equipment that were still in good condition into the storage belt. After a little hesitation, he finally handed them over. Xiao Bichen.

Xiao Bichen took it and didn't count what was in it. He just took out ten explosive crystals, took five by himself, gave the other five to Zhang Taixiong, and put away the storage belt.

She knew that Wang Xuan's strength was far stronger than them, and she didn't need to use this explosive crystal.

Wang Xuan watched quietly from the side. He was not too familiar with Xiao Bichen, Zhang Taixiong, and Li Hao. At this moment, Li Hao was dead. He didn't have any special feelings, and he didn't say much. After all, he has come this way. He has seen too many people die.

Xiao Bichen raised his head, put away the sadness on his face, showed a determined look, looked at Wang Xuan, and said, "Let's go."

Wang Xuan hummed and nodded towards her.

Entering here, there is no retreat, the three can only continue to move forward. Fortunately, the stone gate at the end of the passage is in front of them, only fifty meters away from them.

The three quickly reached the stone gate at the end of the passage.

"You guys back up a little bit." Wang Xuan was afraid that there was danger in Shimen, so he asked Xiao Bichen and Zhang Taixiong to step back, stepped forward, released metal tentacles, pressed against Shimen, and slowly pushed them in.

The Shimen trembled slightly, and was quickly pushed open toward the inside.

A tantalizing white light shone from it. Wang Xuan looked inside, but saw that inside the stone gate was a huge space, more than 20 meters long and wide, with a circular pattern protruding from the ground in the center, suspected of being a seal. , On the left and right sides of this circular figure, there is a statue on each side.

Wang Xuan looked at the two statues, the scorpion head and the human body with steel hooks, it was the withered statue of the fearful king scorpion.

The statues of the two dread king scorpions were slightly larger than the one he had killed before, and they looked lifelike.

Seeing that there was no danger, Wang Xuan walked in slowly, Xiao Bichen and Zhang Taixiong followed behind.

As they entered, the stone gate behind them immediately closed silently.

Zhang Taixiong hit hard with the rock shield, and the stone gate did not even vibrate at all. Obviously, this stone gate is no longer their strength to destroy.

"Sect of True Evil, as long as you enter a place, you can't go back to the place before." Zhang Taixiong held an explosive crystal in his left hand, and his face was full of vigilance. Li Hao's death made his heart heavy, and he was extra cautious.

Xiao Bichen took out the parchment, Wang Xuan watched from the side, saw that the map on the parchment changed again, it was exactly the same as the scene in the huge space in front of him, and there were also two withered images of the fearful king scorpion and The ground floats in the center.

"This Floating Map is the exit. Just according to the records above, smear the two gaps with blood, you can open the Floating Map, enter below, find the secrets about this Scorpion City, and get the treasure."

Xiao Bichen looked at the content of the quest that had just appeared on the parchment, and was refreshed, which meant that they were about to find the secret hinted on by the quest and get the mysterious treasure.

"Then go, what are you waiting for." Zhang Taixiong immediately accelerated his pace, carefully protecting the rock shield in front of him, and walked towards the floating picture in the center.

The three of them quickly arrived in front of Futu Tuan on the center ground. Wang Xuan raised his head and looked at the statues of the Fear King Scorpion on both sides, his brows slightly wrinkled, thinking that the information about the Fear King Scorpion he had just read had an introduction, the Fear King Scorpion. The place where the scorpion appears must have the power of the King of Fear. I just don't know if the secret of this scorpion city is related to the King of Fear.

According to the records on the parchment, Xiao Bichen cut his fingers and smeared the float with blood.

It's very simple to open this floating wither, just use blood to paint the two gaps in the center of the floating withered.

When Xiao Bichen smeared the two gaps with blood, the two gaps absorbed the blood and immediately began to vibrate slightly. giant eye.

This Fuyu suddenly opened a pair of eyes, Xiao Bichen saw it, and was slightly surprised. Almost at the same moment, they heard a screeching sound coming from around them. shattered from the surface.

"Be careful!" Wang Xuan reacted the most quickly, seeing that Xiao Bichen was in danger, he stretched out his left hand, grabbed her and rushed forward. Almost at the same moment, a steel hook shone with cold light from above. After passing by, it was only a split second before Xiao Bichen was hooked.

Wang Xuan let go of Xiao Bichen, turned around, two metal tentacles wound up along his arms, and two giant arms of monsters appeared.

No one would have thought that after Xiao Bichen smeared the floating withered eucalyptus with blood according to the instructions of the mission, he did not open the downward passage, but resurrected the withered statues of the fear king scorpion on both sides.

The rock on the surface of the two withered statues shattered, and two huge fear king scorpions came to life. These two fear king scorpions were larger than the one they had just met outside.

Zhang Taixiong shouted angrily, but fortunately he had been on guard and threw the rock shield in his right hand into the air.

With a "bang", the rock shield was hit by the fear king scorpion and shattered immediately. He threw the explosive crystal he was holding in his left hand long ago.

The fear king scorpion in front of him swayed and avoided the exploding crystal.

Zhang Taixiong knew something was wrong, and after throwing the rock shield and exploding crystal, he fled in the direction of Wang Xuan.

He understood that only Wang Xuan could fight against this fearful king scorpion.

Wang Xuan saved Xiao Bichen's life, turned around and activated the giant arm of the beast, and swung his feet up into the air, colliding with the fearful king scorpion that rushed towards him.

Amidst the thunderous noise, Wang Xuan's eyes showed a look of surprise.

Although he had borrowed the power of the blue crystal scales, he did not expect that the power of the fear king scorpion in front of him was more terrifying than the fear king scorpion he encountered in the passage before.

Although he knocked the fear king scorpion away, he also couldn't bear the force, so he groaned and retreated to the back.

The barb behind the Fear King Scorpion that was knocked away swung towards Xiao Bichen, who had retreated to the side.

Xiao Bichen was shocked when she saw that even Wang Xuan was knocked into the air. She saw the barb appear in front of her in an instant. Fortunately, this time she reacted. The barbs come over.

It's just how her strength can withstand this barb blow, she only felt a shock in her right hand, the tiger's mouth split open, and the white spear flew out of her hand.

"Monster—" She thought that Li Hao died in the hands of the fearful king scorpion, she shouted angrily, and threw the explosive crystal in her left hand.

Zhang Taixiong, who was on the other side, just rushed up and saw Wang Xuanfei go out.

Seeing that he was about to be hit from behind by another fearful giant scorpion~www.mtlnovel.com~ Wang Xuan's left-handed monster arm converged, and a metal tentacle appeared again, separated by a distance of several meters, this long The dazzling blue dim light appeared on the six-meter-long metal tentacles, and slammed into the sky towards the terrifying giant scorpion that collided.

With a "bang", he drew the steel hook raised by the fearful giant scorpion, and the metal tentacles containing terrifying power immediately twisted and deformed the steel hook raised by the fearful giant scorpion, and the other steel hook of the fearful giant scorpion moved towards Stretching forward, he hooked into Zhang Taixiong's right shoulder with a snort.

Zhang Taixiong let out a scream, it hooked Zhang Taixiong, swung it up, and smashed it towards Wang Xuan.

"help me--"

Zhang Taixiong's eyes widened with fear on his face, and he looked at Wang Xuan eagerly, he didn't want to die.

Wang Xuan did not expect these two fearful king scorpions to be so powerful. Seeing Zhang Taixiong encountering danger, he let out an angry shout, stood up, and took the initiative to face Zhang Taixiong who was smashing over.

Seeing that he was about to hit Zhang Taixiong, his body suddenly swayed and narrowly avoided, and the giant arm of the monster on the right waved, hitting the steel hook arm of the fearful king scorpion.

A blue dim light lit up, and only a crisp sound of "squeak" could be heard, and the steel hook arm of Zhang Taixiong was broken by the fearful king scorpion.

Wang Xuan kicked his feet, jumped forward, and hit the fear king scorpion again. The metal tentacle controlled by his left hand turned upside down, showing the giant arm of the beast, and slammed firmly on the steel raised by the fear king scorpion. hook on the arm.

At the same moment, Xiao Bichen let out a scream, Wang Xuan's heart sank, and the scream was not good. He turned his head in a hurry, but saw that Xiao Bichen was pierced by another steel hook of the fearful king scorpion. It waved the steel hook and hooked Xiao Bichen's. The belly, with **** hook tips emerging from the back, lifted her up in the air.

Chapter 155

Seeing that Xiao Bichen was in danger, Wang Xuan kicked his feet and almost rose into the air. A pair of giant arms of beasts kept flickering with blue light. In order to deal with these two more terrifying fear king scorpions, he borrowed the energy of blue crystal scales. It has reached the limit that his body can bear now.

The fearful king scorpion that lifted Xiao Bichen originally wanted to smash her to the ground, but when Wang Xuan suddenly flew into the air, it changed its mind, hooked Xiao Bichen, and smashed towards Wang Xuan who was rushing over.

Seeing that Xiao Bichen was about to hit Wang Xuan, a circle of metal tentacles suddenly appeared on the giant arm of the monster on Wang Xuan's left, and he exited the giant arm of the monster. Wrapping her body from top to bottom, the giant arm of the beast on Wang Xuan's right slammed out, and the blue dim light on it shone brightly, hitting the giant steel hook arm of the fearful king scorpion.

With a click, the steel hook giant arm broke. The fear king scorpion opened its mouthpiece, spewed juice, and let out a scream with pain. Metal Gear Solid, ripped open his chest muscles, and hooked in.

With severe pain in his chest, Wang Xuan remained calm in the face of danger. On the one hand, he controlled the metal tentacles and put down the entangled Xiao Bichen. The metal tentacles turned upside down, wrapped around his left arm, and re-fused with flesh and blood, turning into a giant arm of beast.

The monster on the right had a huge arm, grabbed the barb that hooked into his chest, tightened the five fingers, and a blue light burst out from it. With the sound of breaking, the barb hooked into his chest was caught by him. After pinching it off, the fear king scorpion in front of him swung another steel hook and fell on his head.

In danger, Wang Xuan couldn't dodge, he could only tilt his head to avoid the key point.

With a snort, the steel hook stabbed into his left shoulder almost against his face, blood spattered, Wang Xuan groaned, and the giant arm of the monster on the left was already formed, and slammed into it.

The fear king scorpion also tilted his head to avoid it. Wang Xuan's giant arm of the beast fell down, and hit it firmly on its shoulder. With this blow, he used his full strength to immediately smash the fear king scorpion's shoulder, and the bones inside were broken. After all, Wang Xuan's right fist again, slammed through the chest of the fear king scorpion, and the terrifying power exploded, breaking the fear king scorpion's body from the chest into two pieces.

A white scale flew out and fell into Wang Xuan's right hand. The fearful king scorpion was finally killed by him.

Wang Xuan didn't have time to breathe a sigh of relief. He felt the cold wind blowing from his back. Knowing that it was another fearful king scorpion, he was busy dodging sideways to avoid it.

The steel hooks on both arms of the other fear king scorpion were interrupted by Wang Xuan, but even if it lost both arms, its strength still crushed the injured Zhang Taixiong.

Wang Xuan just dodged to avoid, seeing Zhang Taixiong, his heart was not good, but it was too late to save him, I saw Zhang Taixiong slammed into the floating map on the center ground, accompanied by his screams and the inside of his body. The crisp sound of the bones shattered, and a large amount of blood exploded immediately, dyeing the Floating Eucalyptus into a blood red.

Xiao Bichen just took out the steel hook that had been stuck in his stomach. Seeing Zhang Taixiong's tragic condition, he couldn't help screaming: "Brother Zhang!", The white spear shot, like a python coming out of a hole, the one eye on it opened, and it changed into a special weapon that was half like a long spear and half like a strange python. There was a faint whistling sound inside, and it stabbed towards the fearful king scorpion.

This is Xiao Bichen's strongest attack. To wake up her hatching beast and make a full blow, it is extremely powerful, but it also consumes a lot of physical strength. Even if she can only use it a few times, her physical strength will be exhausted, so it is not forced, she rarely uses it.

At this moment, in shock and anger, he struck with all his strength. This special weapon that came to life was extremely fast. In order to dodge the giant arm of the demon beast that Wang Xuan swung over, the fearful king scorpion could not avoid her attack.

Only a "chi" sound was heard. This special weapon pierced through the chest of the fearful king scorpion and splashed out with a stream of blood. This special weapon immediately began to twist and change in its body, tearing its body apart from it. .

The Fear King Scorpion screamed from its open mouthparts. With a wave of the barb, it made a half-arc in the air, and hooked Xiao Bichen without a second. Just as he was about to smash her out, Wang Xuan sent out both fists and hit her at the same time. on it.

This fearful king scorpion has both broken arms, looking at the giant arm of the beast that Wang Xuan slapped on him, its mouthparts open and close, vibrate constantly, and make a slight noise. This is its last desperate struggle.

The giant arm of the magical beast fused with the energy of the blue crystal scales strikes with all its strength, how powerful it is, even the body of the fearful king scorpion can't bear it, the shattered shell is mixed with its visceral juice and splashes together, and the body is smashed into two. Cut, and then flew out with a bang.

Seeing another white scale appear, Wang Xuan took a deep breath, staggered and fell back, and fell to the ground.

Killing two fearful king scorpions in a row, Wang Xuan was not only seriously injured, but his body's endurance exceeded the limit. He was overloaded to withstand this burst of power. He only felt the pain of tearing muscles and internal organs everywhere in his body.

The physical energy seemed to be drained, and the physical energy provided by the initial powertrain obtained by the conjoined little girl was exhausted, which affected his self-healing ability and could not heal his injured body.

In the white light of his right hand, two white scales containing powerful energy were drawn in a row. In the constant fluctuations, Wang Xuan had a feeling that he was getting closer and closer to the energy limit needed to break through.

Gritting his teeth, he reluctantly took off the hook that was hooked into his body. Wang Xuan took out a bottle of primary healing water and drank it. After drinking the healing water, a white light appeared all over his body, and he was seriously injured. The body just started to slowly recover and heal.

Looking at Xiao Bichen again, her condition is not much better than her own. She was also seriously injured, gasping for breath, took out the hook on her body, and then took out a bottle of primary healing water and drank it.

After drinking the healing water, she immediately got up and ran towards the center of the floating, she was going to check Zhang Taixiong's condition.

Zhang Taixiong's body was twisted irregularly, lying on the floating map in the center, motionless, not knowing whether to live or die.

Wang Xuan looked at the blood flowing out of his body and dyed the Fututu Eucalyptus blood red, but at the moment there was no reaction at all, and he understood that he was only afraid of bad luck.

Xiao Bichen wanted to see Zhang Taixiong's situation, but he didn't want the floating figure to turn suddenly, and then sink down, and the floating figure and Zhang Taixiong, who was lying on top of it, fell down together.

Xiao Bichen was stunned, and a circular entrance appeared on the ground in front of him. As for Zhang Taixiong and the Floating Picture Eucalyptus, they had already fallen to the bottom and disappeared.

Xiao Bichen was a little dazed, stood on the side, then turned to look at Wang Xuan, with a look of help in his eyes.

Seeing this, Wang Xuan could only take out a bottle of primary physical strength water and drink it.

He originally wanted to wait for his physical strength to recover naturally, and was reluctant to use the water of physical strength, but seeing this change, he did not know how Zhang Taixiong fell, so he could only drink the water of physical strength immediately.

This water of physical strength is really amazing. After drinking it, it turns into a warm current to nourish the whole body. The physical strength in the body is recovering at an alarming speed. Feeling that the whole body has regained strength, Wang Xuan immediately stood up.

"Go, go down and have a look." Only at this time did Wang Xuan realize that the real way to open the central floating map should be to kill the fearful giant scorpions on both sides.

"The difficulty of this task... is at least six-star, or even more difficult. No wonder it is a rare and rare task. Even if it is done in a normal state, it is inevitable."

"The Exotic Land Reclamation of Vegetable Skeletons"

Wang Xuan understands that if it weren't for him, Xiao Bichen and Zhang Taixiong would have died long ago. Even if he was added, they would feel extremely difficult and could die at any time. Now even he has no confidence in whether he can accomplish it.

He understood that Xiao Bichen and the three of them must have been exposed to this rare task for the first time, and he didn't know the specific difficulty.

As Wang Xuan thought about it, he released the metal tentacles and extended them towards the hole below. It looked very dark below. Wang Xuan could only see that the ground below was at least seven or eight meters deep from the hole, and the floating wither had disappeared. It was gone, and I could only vaguely see a twisted figure lying on the ground below, it should be Zhang Taixiong.

Looking at Zhang Taixiong's distorted appearance, there was no living reaction, Wang Xuan knew in his heart that he should be dead.

Thinking of Zhang Taixiong's boldness before, and he was a good match for him, he had a good impression of Zhang Taixiong, and he also made an agreement with himself to go back to drink together. Unexpectedly, he died here now.

Xiao Bichen also saw the following situation clearly, and made sure that she didn't see any monsters or other dangers for the time being, so she jumped down.

With her current strength, it would be no problem to jump off the seven or eight meters deep.

Seeing Xiao Bichen go down, Wang Xuan can only follow.

Once they entered this hellish place, there was no turning back. They had no choice but to continue inside.

He jumped down following Xiao Bichen, looked up, and sure enough, the hole that had just appeared disappeared.

"Brother Zhang!" Xiao Bichen fell to Zhang Taixiong lying on the ground and immediately checked his situation.

Although she also knew that Zhang Taixiong was fierce, but she still had hope in case, she even took out a bottle of healing water in her left hand and wanted to help Zhang Taixiong, but after checking it, she found that Zhang Taixiong had a big crack in his forehead. Even the brains dripped out of it, and the chest became tattered, with broken bones piercing the heart, and he died a long time ago.

After confirming that even Zhang Taixiong was dead, Xiao Bichen fell to the ground softly, her shoulders shrugged slightly, and her eyes suddenly came out.

"I'm sorry... I hurt you all, and I want to pull you to do this task..."

Xiao Bichen clenched her hands into fists and suddenly hit her forehead.

Wang Xuan was taken aback when he saw it, and hurriedly grabbed her hands and said solemnly, "Xiao Bichen, are you crazy?"

He didn't expect Xiao Bichen to become a strong person. He must have experienced many lives and deaths along the way. Now his heart is still so fragile. After seeing Li Hao and Zhang Taixiong die one after another, he will be so sad and remorseful that he suddenly loses control of his emotions.

"You don't know, they don't want to come. I can see that Li Hao has always listened to me. Whatever I want, he will satisfy me as much as possible, so he obviously doesn't want to come, so he still pulls Brother Zhang. Accompany me together... It's my fault for being too self-willed. I know that this rare quest is very rare. The location is still in Scorpion City, and the rewards are so generous. It must be extremely dangerous, but I am self-willed. Treasure, it was my willfulness that killed Li Hao and Brother Zhang."

Xiao Bichen's face was full of self-reproach, and those tears fell like broken pearls as she spoke.

Wang Xuan originally thought she liked Li Hao, but now when she mentioned Li Hao and Zhang Taixiong, she felt the same sadness and sadness. Only then did she understand that in her heart, Li Hao and Zhang Taixiong should both be very important friends to her.

"Don't cry, you can grow to the perfect state, you should have experienced a lot of life and death along the way, and you still haven't seen it through? In such a **** world, no matter how strong or weak, it is not uncommon for anyone to die. The next person to die may be you, or it may be me..."

Wang Xuan shook his head slightly as he spoke, and said, "They are just one step ahead of us, so what's so sad."

Seemingly not expecting Wang Xuan to say such a thing, Xiao Bichen raised her head and looked at him in a bit of astonishment.

"You are much stronger than us, how could you die?"

Wang Xuandan smiled, but there was a bit of bitterness in his smile, and said: "I have been able to live until now, many times because of luck and luck, if there is a monster that is much more powerful than us at this time, I will still have a relationship with you. Difference? We'll all be killed by this monster."

Seeing the bitterness and sadness on Wang Xuan's face, Xiao Bichen felt a little shaken in his heart, stopped crying, reached out to wipe away the tears on his face, and carefully chewed what Wang Xuan had just said.

"Maybe you're right, Li Hao and Brother Zhang are just one step ahead of me to another world, maybe soon... I'll go to this world to find them, and since that's the case, what else should I be sad about..."

When Xiao Bichen said this, he took out a rolled parchment and handed it to Wang Xuan.

Wang Xuan looked puzzled, took it and glanced at her, opened the parchment and saw that this rare mission was recorded on it.

"Why give it to me?" He was a little surprised.

Xiao Bichen showed a sad look on his face and said, "Here it is, this mission is too dangerous, maybe I can't support it to the end, after I die, you can take all the things we left behind and find the exit and leave, people die. If the lights go out, we won't be able to use them, but these supplies cannot be wasted here."

As she spoke, she took off Zhang Taixiong's storage belt, as well as two alloy handguards and alloy boots that could be used, and handed them over to Wang Xuan.

Wang Xuan didn't answer, frowned and said, "Xiao Bichen, don't be so pessimistic, I think this mission should be over soon, and we will definitely be able to get out alive."

Seeing Xiao Bichen lowered his head, a look of despair appeared on his face, and deep fear was hidden in his eyes, and even his reaction was much slower.

Wang Xuan felt that something was wrong with her, so he couldn't help reaching out and raised her face, but seeing that Xiao Bichen still didn't respond much, he let him raise his face.

"Xiao Bichen, you are also a big man in the phoenix after all. There are few people in the entire Insect Town who are stronger than you. How can you be so vulnerable?"

Wang Xuan was a little incomprehensible. Seeing that she didn't respond, but the look of fear in his eyes became more and more intense. He could only reach out and pat her cheeks lightly, hoping to stimulate her to cheer up by this method.

If she reports this depressed and fearful state of mind next, she will most likely die here, and it will be difficult to escape alive, thinking that if Xiao Bichen is also dead, and she is the only one left, right? To die here?

For some reason, he suddenly felt a sense of fear.

Suppressing the fear in his heart, he slapped a few times in succession, while Xiao Bichen let him slap her face, but opened her eyes and stared blankly at Wang Xuan, who was only less than a foot away from her.

Wang Xuan thought to herself that Xiao Bichen had such a reaction, not only because of the stimulation of Li Hao and Zhang Taixiong's successive deaths, but also because of the danger of life and death they encountered. It can be said that she almost died several times, which made her feel hopeless and thought she could not. Left alive, that's how it became.

With a sigh, Wang Xuan could only stop the slapping and instead held her cheeks with both hands. He wanted to comfort her and hope she would cheer up. For some reason, he came into contact with the deep fear hidden in her eyes. My heart froze, as if I was influenced by her, I felt the fear again, thinking of the powerful fear king scorpion, thinking of the fear king scorpion that said in the information, where this king scorpion exists, there must be the fear power of the fear king.

Dread King, Dread Power...

Wang Xuanmeng trembled smartly, and once again looked at the deep fear in Xiao Bichen's eyes, and suddenly a thought came to him.

Could it be that he and Xiao Bichen were both affected by the fearful power of the King of Fear, so they became so fearful unknowingly?

Because of his powerful soul consciousness, he was not greatly affected, and Xiao Bichen was obviously far from his own strong soul consciousness, so why would he be seriously affected by this power?

With this thought, Wang Xuan's face showed a dignified look~www.mtlnovel.com~ looked up and looked around, it was dark, and he could only see everything within a dozen meters. As his heart shrank for a while, he seemed to feel that there were countless terrifying monsters hidden in the darkness around him, which made him feel a wave of fear.

"Impossible, I have the trump card of the Book of Giants. If I am desperate, I can still use the Book of Giants to fight. No matter how dangerous it is, I won't be so afraid..."

Wang Xuan's eyes gradually shot out a sharp look, he can finally be sure now, he and Xiao Bichen should have been affected by this invisible force of fear, Xiao Bichen's current performance is not because she is too fragile, but is affected by the force of fear .

"The fearful power of the King of Fear..."

Wang Xuan looked at Xiao Bichen again, and saw that her whole body was trembling slightly, and her eyes showed more and more fear. She was already hugging his waist tightly, and her body was almost tired and shrunk into his arms, her face full of fear.

The power of fear became more and more obvious in her. Although she didn't know what would happen next, Wang Xuan knew that Xiao Bichen's current situation must have become very bad.

"Xiao Bichen, listen to me, cheer up, I promise, I will take you out alive. We will not die, we will all live!"

"Don't be afraid, we are caught in the fear force of the fearful king, Xiao Bichen—"

When Wang Xuan just said this, he suddenly found that Xiao Bichen's complexion was gradually darkening, and a black hard shell suddenly appeared on the left cheek. The skin on her face was slowly hardening, resembling the shell of a scorpion.

Wang Xuan's heart froze, and a fearful giant scorpion appeared in his mind. +Bookmark+
