

Last Building on Earth Chapter 171-175

Chapter 171

Jiang He appeared in front of everyone, and with a wave of his right hand, a single punch smashed a silver-backed centipede that wanted to attack him, breaking it into two pieces, killing him instantly.

"Returning to Worm Town now? Did something happen?" Gu Manyao was stunned for a moment, with a look of astonishment on his face, looking at Jiang He who appeared in front of him.

She and Zhang Haofei are both elites now, and their status in the "Xuan Gang" is on an equal footing with Jiang He, Jiang He was still more polite to her, nodded and said: "Yes, a group of people came to make trouble before Rakshasa, the leader Afraid that Rakshasa will make further moves, it is not safe for you to stay here any longer, so go back now, including Wang Xuan in Scorpion City and they will be recalled together."

Hearing it so serious, everyone was shocked, only Zhang Haofei said excitedly: "Grandma, are you going to fight with Rakshasa?"

He has just been promoted to the state, and he has all the strength. Killing monsters is not enough for him. Thinking of the possibility of conflict with Rakshasa and confrontation with the strong, he is not only not afraid, but feels exciting.

"It's hard to say right now, you go back with me first, and I'll tell you about the situation in detail on the way."

"Okay." Gu Manyao nodded, and then the seven of them followed Jiang He and returned to Insect Town.

On the way, they heard Jiang He talk about everything that happened before, and everyone's faces showed shock.

"The people from Rakshasa City came down? They almost took Yao Tiande and Duan Chen?" Zhao Lei couldn't help but raised his hand to touch his glasses again, but he quickly endured it.

"Fortunately, it was blocked by the leader. Now the leader told everyone to go back. Even everyone who went to Scorpion City called back. It's been a long time since there was such a big movement, and I don't know what will happen next." Jiang He said while saying There was a hint of anticipation and nervousness in his eyes.

He was also curious about how the matter would eventually be resolved.

Looking at Gu Manyao and Zhang Haofei, he wanted to ask several times if the death of the Rakshasa leader was related to them? But endured.

Back in Worm Town, Gu Manyao found that many people wearing black bracelets representing the "Xuan Gang" gathered around the three-story building belonging to Wang Xuan. These people were basically the core members of the "Xuan Gang".

The door of the small building opened wide, and people came in and out one after another.

"Let's go." Jiang He walked over with them.

In the hall, a dozen people gathered, including Mou Gang, Gongsun Xiaoyan, You Ao, Xiang Jingnan, Liu Weijie, Yan Shouzheng, Xu Xuesong and Tao Lin.

Among the crowd, only Gu Manyao and Zhang Haofei were eligible to enter, and the rest of Zhao Lei, Tie Jun and Bai Yan could only stay outside.

It was the first time that Zhang Haofei's face blushed slightly, feeling excited when he saw so many elites gathered together.

As soon as Mu Gang saw them, he immediately shouted: "Gu Manyao, tell the truth, this Rakshasa leader heard that he died, does it really have anything to do with you?" Just wondering if this Rakshasa leader really died in the hands of Wang Xuan and Gu Manyao?

Although it is unbelievable, judging from the current Rakshasa's reaction, it is probably true.

It wasn't just him, everyone in the hall was curious, Jiang He kept wanting to ask on the way, but he was worried and didn't ask.

Before, they also asked Yao Tiande and Duan Chen, but both of them were bitten to death, saying that it had nothing to do with them, they had never seen the Rakshasa leader at all, and it was impossible to kill the Rakshasa leader.

Hearing Mu Gang's sudden question, Gu Manyao was stunned before shaking his head and said, "How is it possible? How could we possibly kill the Rakshasa leader?"

Hearing her say the same thing, everyone in the hall looked at each other, and then Mou Gang scratched his hair and said, "Grandma, this is amazing, why did this Rakshasa person bite to death? It seems like you killed Rakshasa. like a leader."

Gongsun Xiaoyan said: "It's probably because of Yao Tiande and Duan Chen, so I became suspicious. I believe Man Yao, since she said that the Rakshasa leader was not killed by them, it must not be."

Mou Gang laughed and said: "If the disappearance of the Rakshasa leader, or the death of the leader really has nothing to do with you, then this matter is a matter of great importance to us, grandma, if they dare to make trouble again, we must not just let it go. Forgiving them so easily."

During their chat, there were successive strong men returning from Scorpion City. These strong men, basically wearing Tier 3 alloy equipment, riding mechanical beasts, ran wildly in the square, rushing towards here.

It's not just that the Xuan Gang has groups of powerhouses gathering, but the four major forces of Rakshasa, Phoenix, Dynasty, and Justice League all have powerhouses returning from Scorpion City.

Seeing one after another of the powerhouses riding mechanical beasts to gather in from the distant west gate, the entire insect town caused a sensation, and a large number of adults stood to watch, knowing that something bigger was about to happen here.

The previous conflict between Rakshasa and the Xuan Gang has attracted the attention of countless people. I originally thought that the situation would subside, but now I think about it. .

Gu Manyao was sitting in the hall, but he was looking forward to Wang Xuan in his heart.

When Wang Xuan was away, she felt like she had no backbone, and there was always anxiety in her heart.

At this moment, Wang Xuan has gone deep into the end of the cave, stepping on the wreckage of a large number of tattered mechanical beasts. Together with Xiaojiao, I don't know how many mechanical undead have been scattered. Stone door.

Xiao Gai stepped forward, pushed the stone door, and slowly opened it.

Just as Wang Xuan was about to step forward, he suddenly stopped again, waved Xiaojiao to be quiet, and then turned his ears slightly, as if listening to something.

In Scorpion City, Qiu Yuanfeng rode a mechanical beast and ran around wildly, using the sound transmission crystal to continuously summon the powerhouses of the profound gang in Scorpion City.

This sound transmission crystal is made of special technology and power, and its sound transmission function is very powerful. You only need to speak to this sound transmission crystal, and even the smallest voice can be spread far away. ten kilometers away.

This sound is pervasive, and even Wang Xuan, who entered the depths of the cave, vaguely heard a faint sound.

"It seems that there is a sound coming from outside, strange..."

Wang Xuan turned his head and looked back, frowning slightly, he entered the depths of this underground cave, how could there be a sound?

Listening carefully, he heard a similar sound again, but it was too slight. If it was absent, he was not sure for a while whether he heard it wrong or if there was a sound. As for the content of the sound, he could not hear what it was.

After pondering for a while, he shook his body, and then he started to run back wildly. He vaguely heard that the sound seemed to be coming from the direction of the exit. If he heard it correctly, if he ran back wildly, he would definitely be able to hear it clearly.

His current speed is astonishing, and he quickly ran back for 100 meters. Although Xiaojiao didn't know what happened, he followed his master back.

Wang Xuan heard the voice again. This time he was sure he heard it right. There was really a voice coming from outside, which was louder than before.

"All Xuan Gang members rush back to Insect Town immediately?"

Wang Xuan heard the content clearly, his heart was slightly awe-inspiring, and there was also a hint of surprise.

"The Xuan Gang came to Scorpion City to call all the scorpions back, but for what, is the worm tide coming every few months as mentioned by Yao Tiande? Or is it because of the Rakshasa leader? Or some other reason?"

While thinking about it, he continued to go back, and soon came to the exit, looked up, the exit was covered up, kicked with both feet, and went up the **** that had just slid down, and the metal tentacles extended up.

With a light "pop", the metal tentacles hit the top and immediately opened the lid on the cave.

Summoning Xiaojiao and entering a state of integration, Wang Xuan climbed up the **** and climbed out from the cave exit.

Then cover the box again, and get some yellow sand to cover the box, and you can only wait to go back and complete the task of "The Mystery of the Origin of Mechanical Beasts".

After making sure that outsiders couldn't see that there was a downward entrance here, Wang Xuan walked out of the ancient temple that was mostly collapsed, took out the map, and marked the location on the map with reference to the surroundings.

At this time, he heard a voice from a distance again.

"All members of Rakshasa, return to Worm Town immediately!"

This voice was repeated three times in a row, and it came from the direction of Insect Town in the east. Wang Xuan's brows were slightly wrinkled.

"I heard about the Xuan Gang before, and now it's Rakshasa. Is it really because of the Rakshasa leader?"

If it is the worm tide, the five major forces should all convene people to return to the worm town, but now only hear the Xuan Gang and Rakshasa, the only thing Wang Xuan can think of is the Rakshasa leader.

"Yao Tiande said that someone will come down in the middle of the month. Could it be that it was early? Go back and have a look anyway." Wang Xuan was not particularly concerned about Yao Tiande and

Duan Chen, but he was worried about the safety of Gu Manyao and Zhao Lei, and immediately dismissed the relationship with Yao Tiande and Duan Chen. The little boy was in a fit state, and stepped on it.

"Let's go, back to Insect Town." Wang Xuan drank lightly.

At this moment, another voice came from afar, summoning the members of the Xuan Gang to return to Insect Town.

"Little girl, go there." Wang Xuan locked the direction of the voice and pointed towards the distance.

There was a slight low whistle in Xiaojiao's throat, and his limbs were vertical, carrying him almost into the air, a vertical several meters, and rushed towards the distance at high speed.

With the mid-level powertrain, not only its strength has been greatly improved, but its throat has been able to make a slight sound, and its intelligence has also improved. Although it still has a mechanical metal body, but in addition In addition to other aspects of performance, more and more humane.

The speed of Xiaojiao is much faster than that of ordinary mechanical beasts. Wang Xuan heard the voice of the Xuan Gang summoning members again. This time, he was close. He had already seen a figure in the distance riding one. Mechanical beasts are running wild in the distance.

"Qiu Yuanfeng?" As they got close, Wang Xuan recognized him immediately.

Qiu Yuanfeng, who was riding the mechanical beast, also quickly noticed Wang Xuan, who was rushing from afar. When he saw Xiaojiao's speed and momentum, he was taken aback.

This time, I came to Scorpion City to call all the elites in the Xuan Gang to return to Insect Town, the most important of which is Wang Xuan.

Seeing Wang Xuan now, he immediately slapped the mechanical beast that stepped down and ran towards Wang Xuan.

"Wang Xuan, I finally see you!" Qiu Yuanfeng controlled the mechanical beast and stopped two or three meters in front of Wang Xuan.

Wang Xuan also stopped Xiaogai and said, "What happened, why are Xuan Gang and Rakshasa calling people back to Insect Town?"

Qiu Yuanfeng said: "It's not because of the Rakshasa leader? Rakshasa City sent an envoy, named Gongyangjun..."

Afterwards, what happened will be explained in detail.

The expression on Wang Xuan's face changed slightly. Hearing that they broke into his residence, injured and captured Yao Tiande and Duan Chen, there was a trace of anger on his face, until the leader of the Xuan Gang came forward and scared Gongyang Jun away. Just let out a breath.

"The leader said that this matter is a bit big, this Gongyangjun must have returned to Rakshasa City to rescue soldiers, and he also went up, saying that this matter must be solved by the people above, and then let me call you and everyone back. Go, I guess if we don't talk well, it is estimated that we and Rakshasa will go to war."

Wang Xuan nodded and said, "I understand, then we will go back to Insect Town now."

He remembered hearing from the Rakshasa leader that this worm town could not exert too much power. Similar to the first floor world, the power beyond the body would be bound and suppressed by the power of the invisible world. The longer the time, the stronger the power and the more suppressed it was. obvious.

This insect town world should have similar rules, and the power that really surpasses the state will also be suppressed. He was killing Shi Jin before, and at the same time, the power of the giant arms and ghost wings of the beast broke out, and he faintly sensed this kind of situation. There is the power of the world, but the power he erupted at that time had only just touched the edge, so he was not suppressed by the power of this world.

Wang Xuan understood that as long as his own strength improved, it would be suppressed by the power of the world.

This means that no matter how powerful a person is, once they enter the town, their strength will be suppressed at a certain limit. This limit should be beyond the level of peak powerhouses like Chu Boyu and Shi Jin, infinitely approaching or reaching The sixth form above the perfect state.

And Wang Xuan has now mastered this power beyond the limit, which means that no matter how high the level and the strength of the hatching beast from the other party, the limit is equal to his own.

If so, why should I be afraid?

Qiu Yuanfeng put away the sound transmission crystal, accompanied Wang Xuan, and returned to Insect Town.

On the way, from time to time, they saw someone riding a mechanical beast, running wildly in the yellow sand, heading towards Worm Town.

"Our Xuan Gang and Rakshasa suddenly came here to call people back to Insect Town. I'm afraid everyone is confused, and the Phoenix and Dynasty and their people will definitely go back." Qiu Yuanfeng smiled and shook his head: "I estimate that since the last time Today is the most violent collision since the worm wave."

Wang Xuan said: "Have you experienced the last insect wave?"

Qiu Yuanfeng shook his head and said, "No, but I heard from the leader that according to the leader's estimation, a new worm tide is coming soon, so the leader values you very much."

While chatting, the two rode the mechanical beast and left the Scorpion City. On the way, they could already see the powerful people of the five major forces in twos and threes. Among them, there were

the powerhouses of the Xuan Gang, who basically knew Qiu Yuanfeng and came over to say hello immediately. , asking why they were called back.

Qiu Yuanfeng didn't explain too much, only said the leader's order.

They looked at Wang Xuan and Xiaojiao again, looking surprised at Xiaojiao.

Xiaojiao is much taller than the average mechanical beast. Everyone is not a fool, and they all understand that Xiaojiao must have obtained a more advanced powertrain or mechanical shell.

Back in Bug Town, Wang Xuan clearly felt that the atmosphere was not right.

In the entire Bug Town, many people gathered in the square, and in the single-family building in the distance, there were even more people coming and going.

Although this incident has nothing to do with Phoenix, Dynasty, and Justice League, this incident is getting bigger and bigger, and the people above have been involved. Since they have returned, they don't want to miss such a big show anyway.

"I heard that both Rakshasa and the Xuan Gang sent people up. The sixth saw with his own eyes that the leader of the Xuan Gang entered the No. 8 elevator and went up to the third floor. This must be going up to rescue soldiers."

"This time it's really a big deal. It even involved the forces behind the Rakshasa and the Xuan Gang. You said, will the forces behind the two sides fight?"

"It's not very likely, but someone will definitely be sent down to investigate. So many of us have come back to watch the fun. If we don't fight, it will be boring."

Whether it is the square or the buildings, there are a large number of people gathered together. These people are either in groups of three or five, or a dozen people are gathered around, and they are all discussing the development of the situation.

In the two areas where Xuan Gang and Rakshasa lived, the core members of the two sides and the powerful people gathered more and more, and they looked at each other from a distance, showing hostility to each other, and the confrontation was very strong.

When Wang Xuan and Qiu Yuanfeng returned, Zhao Lei, Tie Jun, Li Haotian, Bai Yan, Yu Shanshan, Yao Tiande, Duan Chen and others were all guarding outside his three-story building~www.mtnovel.com~ When they saw Wang Xuan, they immediately Welcome up.

"Just come back." Zhao Lei breathed a long sigh of relief. He was a little nervous just now, and felt like he had no masters. Now he suddenly saw Wang Xuan and felt that the backbone was back. The original tension disappeared immediately, and the whole person was calm.

However, Yu Shanshan looked at Xiaojiao, looked left and right, and said with a look of surprise: "How did it become so tall, it seems... it seems to be different."

Wang Xuan smiled slightly, got down from Xiaogao's back, then put it away, and said, "Where are Man Yao and Zhang Haofei?"

"They are all strong, and they are inside now, so hurry in." Zhao Lei smiled and said, "We are not qualified to go in yet."

Wang Xuan shook his head, and walked in together with Qiu Yuanfeng and several other powerful men he met on the way.

In just a short period of time, there were nearly 20 strong people gathered in this hall, which seemed a little crowded.

Seeing Wang Xuan and Qiu Yuanfeng come back, everyone also stood up to greet them.

Seeing Wang Xuan again, a smile appeared on Gu Manyao's face. Just like Zhao Lei, seeing him, she felt calm, and the original hesitation disappeared.

"How is it? Is there any new news?" In terms of familiarity, Qiu Yuanfeng and the people in the hall were much more familiar with each other. They greeted each other and seemed very lively.

Wang Xuanze didn't know half of them. He was about to talk to Gu Manyao and Zhang Haofei when he suddenly realized that there were a few more people in front of him. They all looked at him with smiles, but it was Liu Weijie, Yan Shouzheng, Xu Xuesong and Tao Lin.

The two sides met in Scorpion City. Liu Weijie and the four admired Wang Xuan's strength so much that they were a little excited to see him again.

Chapter 172

Wang Xuan greeted them with a smile, and Liu Weijie was busy pulling in a few people who had a good relationship with him and introduced them to Wang Xuan.

Wang Xuan just rode the little guy who was taller than the average mechanical beast and the two ghost equipment he was wearing now attracted everyone's attention, and the eyes of those who didn't know him looked at him with a hint of surprise.

"I sent someone to wait at the elevator in the square. As soon as the door of elevator No. 8 opens, someone will immediately inform us, but there is no movement yet." You Ao introduced the current situation to Qiu Yuanfeng.

Gongsun Xiaoyan said: "There are countless pairs of eyes staring there now. If someone is coming, everyone will know immediately."

Qiu Yuanfeng nodded, hummed, and said, "Even if you go up to move the rescuers, it won't be that fast. I guess it will take a while."

"It's useless for us to stay here all the time. I think everyone should go back to rest first and recharge their batteries."

On Qiu Yuanfeng's proposal, everyone felt that it made sense. They were crowded here, and there were not enough chairs to sit on. Nearly, as long as there is any movement here, you can rush over at any time.

As the crowd dispersed, the crowded hall immediately became empty. In the end, Qiu Yuanfeng took Gongsun Xiaoyan and Mou Gang and left as well.

When everyone dispersed, only Wang Xuan, Gu Manyao, and Zhang Haofei were left in the hall. He called Zhao Lei and others in.

The ten people reunited again. Wang Xuan looked at Yao Tiande and Duan Chen and asked them to repeat what happened today in detail.

After Yao Tiande and Duan Chen finished talking, Wang Xuan's face showed a slightly thoughtful look.

Gu Manyao said: "This Gongyangjun has gone up, I'm afraid that more powerful people will be invited. Are we going to stay here and wait for them?"

Zhao Lei said: "What does this Xuan Gang leader mean by calling us back together? Wouldn't it be an idea if the situation is not right... will we be pushed out as a shield?"

Gu Manyao was slightly startled and said, "Is there such a possibility?"

Wang Xuandao: "According to what Yao Tiande and Duan Chen said, the leader of the Xuan Gang is still relatively tough, otherwise it is impossible to force Gongyangjun back. He told us to return, probably because we were afraid that we would be caught in Scorpion City and Centipede Island. Even if he wants to protect us, he can't do anything."

Zhao Lei narrowed his eyes and said while thinking: "This possibility is also possible, after all, there are things like tracking crystals, and the people above may have more powerful things to track, and then they can chase Scorpion City and Centipede. We on the island, Wang Xuan may not need to be afraid of them, then we will be miserable."

Although Gu Manyao and Zhang Haofei were already strong, but the people who came down from above were obviously stronger, and they couldn't resist.

Li Haotian said: "I think we should hide back to the first floor first, I remember Wang Xuan, you said that in the first floor, the strength that seems to exceed the adult will be suppressed. If you can display the strength close to the adult, then it will not be scary."

Zhang Haofei laughed and said: "Li Haotian, every time you talk about running for your life, your brain is quite flexible, but we can't stay on the first floor all the time, right? Besides, the leaders of the Xuan Gang let us come back, and they also recalled together. With so many powerhouses, it is clear that they want to confront Rakshasa, and they dare to do it for us, but we have to be deserters?"

Li Haotian blushed when he said it, and said a little embarrassedly: "What is deserter, I'm just making suggestions, after all, we are not familiar with this Xuan Gang leader, why should people help us desperately? In case there is a situation Change, he won't be unlucky, it's us who will be unlucky."

Yao Tiande sighed and said, "Yes, no one knows what will happen now. We all know nothing about negotiating and what will happen. This kind of waiting is really worrying."

There was intense unease on his face, and he looked agitated.

Zhang Haofei, however, was in the presence of the old god, patted him on the shoulder hard and said, "Are you afraid of an egg? It's a big deal and just do it with them."

Wang Xuan listened to their conversation, and after thinking for a while, asked them to stay here and wait while he went out.

Leaving the three-story building alone, he walked towards the trading area.

There are only thirty-one bottles of advanced nutrient solution in his current pocket, and he plans to buy some more nutrient solution in case he needs it.

Before he launched the Book of Giants, he felt extremely hungry and thirsty. Fortunately, he had a lot of nutrient solution at the time. Now, just in case, he plans to prepare more nutrient solution.

He still doesn't know what the real price of launching this book of giants is, whether the so-called gluttony is really related to the seven deadly sins, or is it just simple to make people hungry.

Entering the store where he bought the nutrient solution, Wang Xuan took out 20 medium-sized crystal scales, equivalent to 2,000 small-sized crystal scales, and bought 100 bottles of high-grade nutrient solution.

In addition to the 31 bottles he originally owned, he now owns 131 bottles of advanced nutrient solution, which made him feel more at ease and slowly walked out of the trading area.

There were not many people in the trading area during the day. Someone recognized him as Wang Xuan, and there was a look of awe in his eyes, and he was busy getting out of the way.

Wang Xuan slowly walked out of the trading area and came to the center of the distant square. There were a lot of people gathered beside the giant glass column. Among these people, people from the Xuan Gang and Rakshasa were the main ones.

At this moment, there was a slight commotion among these people, and many people were retreating. Wang Xuan saw from a distance that the No. 8 elevator opened, and three people filed out.

These three people appeared and gathered around the Xuan Gang and Rakshasa people, and immediately some people began to run wildly, heading towards the single-family building in the distance.

Wang Xuan only glanced at the equipment on the three people from a distance and immediately understood that they must be people who came down from above.

These three people are not wearing Tier 3 alloy equipment. Two are wearing a full set of black armor with a slight black light flowing on the surface. They are Tier 3 excellent quality ghost equipment. The last person is wearing lake green equipment. There is a faint green light, obviously, this is also the third-order excellent quality equipment.

These three people, two males and one female, Wang Xuan didn't know a single one, but many of the people gathered around the square immediately recognized them. The thin young man who took the lead was Gongyang Jun.

However, Gongyang Jun at the moment was different from before. He put on this full third-order high-quality ghost suit, and walked like a dragon and tiger, exuding a murderous aura all over his body.

Behind him, there is a man and a woman, the man is about thirty years old, with thick eyebrows, full of majesty, and he is also wearing a full ghost suit.

The last woman to follow was about twenty-six or seven years old, with fair complexion, thin lips, high cheekbones, and a mean face.

She was wearing a lake green third-order fine-quality suit and followed behind the two men.

The three walked out of the elevator and walked along the square in the direction of the large single-family building facing them. Halfway through, a large group of rakshasas had already greeted them.

The leader was Chen Daolin, and behind him were Liu Ming, Gao Tian, Luo Li, and more than a dozen other elites.

Most of them returned from Scorpion City only today. At this moment, under the leadership of Chen Daolin, they respectfully saluted the three of them Gongyangjun.

Behind them are the core members of a group of Rakshasa, all of whom are strong adults.

Around the square, in the distant buildings, all parties are paying attention. Looking at this formation from a distance, they all understand that there is a lively watching.

With the three-story building where Wang Xuan lived as the center, everyone in the Xuan Gang also got the news, and they rushed out from the surrounding buildings and rushed towards the direction of the three-story building.

In the hall of the small building, Gu Manyao, Zhang Haofei, Zhao Lei, Tie Jun and others stood up one after another.

Gu Manyao, Zhao Lei and the others had solemn expressions, while Yao Tiande and Duan Chen were pale and trembling slightly.

Of all people, they are the most guilty and the most afraid.

Only Zhang Haofei had a ferocious gleam in his eyes. Not only was he not afraid, but he was a little crazy.

Qiu Yuanfeng appeared in front of the three-story building with a pair of feminine faces, a little heavy. The people from the Rakshasa came, but the leader did not come back. What should I do now?

Behind him, Mou Gang, Gongsun Xiaoyan, Liu Weijie, You Ao, Jiang He, Xiang Jingnan and Yan Shouzheng were also gathering.

In terms of the number of powerhouses, they are more than Rakshasa.

In the distant square, a group of fifty or sixty people from Chen Daolin greeted Gongyangjun and the three.

These people are the core members of the Rakshasa.

Seeing that the three people in front of them were wearing a full set of excellent third-order equipment, their momentum was extraordinary, and everyone in the Rakshasa felt refreshed.

"Go, go there directly." Gongyang Jun waved his hand and asked the saluting Chen Daolin group to stand up straight, then looked at the building in the south that belonged to the Xuan Gang, and walked straight over.

"Yes!" Chen Daolin raised his voice and hurriedly followed. Behind him, there were more than a dozen high-level powerhouses, and then dozens of core members of Rakshasa.

At this moment, more than 60 people gathered around the three-story building where Wang Xuan lived. Gu Manyao, Zhang Haofei and others also walked out of the hall and went outside.

Yao Tiande bit his head and walked out behind them. Duan Chen was a little timid. He stopped by the door of the hall and blocked his body with the door.

Soon, Gongyangjun and Chen Daolin came over. The number of core members of the two sides together has exceeded one hundred people, and around them, people are constantly approaching. Of course, they also know the rules and do not approach, Instead, they watched from a distance from a distance.

Wang Xuan followed Chen Daolin's group silently, and mixed in the crowd. He had been looking at the three leading men, and quietly activated the eye of the illustrated book. It was certain that the leading two men were wearing ghost suits. The Biying suits worn by the woman behind them are all third-order fine quality.

"These three people, no accident, should be the sixth form powerhouse beyond the perfect state..."

Wang Xuan was thinking silently, the only sixth form powerhouse he had personally fought against before was the Rakshasa leader, and the leader of the mysterious gang he met should also be the sixth form powerhouse, but now he has met three more at one time. .

Gongyangjun led the crowd to keep approaching, Qiu Yuanfeng and the others were waiting in a serious line, facing three super strong men who seemed to have surpassed the state, it would be a lie to say that there was no pressure.

The heads of Qiu Yuanfeng, Mou Gang, and Gongsun Xiaoyan all turned slightly discolored. They were just holding on, believing in their hearts that the leader would come back, no matter how big the trouble, the leader would definitely have a solution.

With this belief, they could persevere under the watchful eyes of Gongyang Jun and not be scared off.

"Are you still thinking that Xu Jian will stand up for you?" Gongyangjun stopped when he was only three or four meters away from Qiu Yuanfeng.

When Qiu Yuanfeng heard this, his heart trembled slightly. Although others didn't know who Xu Jian was, he did. The name of the leader of the Xuan Gang was Xu Jian.

"What do you mean by that?" Qiu Yuanfeng became nervous. Listening to his tone, did something happen to the leader?

Gong Yangjun had a sneer on his face, looked around, and said, "Has your leader not returned yet? It seems that he knows that he is embarrassed and has no face to come back."

"Shut up!" Mu Gang heard him insult the leader, and immediately gave a loud shout, stepped out, stretched out his hands, each showed a giant hammer, and his eyes widened with anger. Hit it with a hammer.

The man with thick eyebrows standing beside Gong Yangjun said: "Okay, why are you talking to them so much, where are the two traitors you mentioned, get the interrogation clearly, it is important to do business."

Gongyangjun stretched out his hand and pointed at Yao Tiande who was hiding behind the crowd: "That guy is Chen Daolin, who will lead someone to take down those two Rakshasa traitors."

"Yes!" Chen Daolin shouted, and immediately walked out with Liu Ming, Gao Tian, Luo Li and the others, facing Qiu Yuanfeng and others forcing them.

Qiu Yuanfeng said softly, "Stop, this is the Xuan Gang, how dare you?"

While talking, he showed his hatchling beasts and snakes, and Gongsun Xiaoyan, Liu Weijie, You Ao and others who followed behind him also showed their hatching beasts.

Gu Manyao stretched out his right hand, showing the demon chi knife, Zhang Haofei was a little excited and a little nervous, there was a crisp sound of bones in his body, and a skeleton appeared.

He also saw the three Gongyang Jun now, and felt a strong sense of oppression. He understood that these three people were extremely scary. At this time, he was a little nervous.

Yao Tiande and Duan Chen, who was hiding by the door, were as pale as paper.

If the leaders of the Xuan Gang did not appear, no one would be able to protect them. With Qiu Yuanfeng and the others alone, how could they stop the other three powerhouses who were beyond perfection?

Especially listening to Gong Yangjun's tone, is it even the leader of the Xuan Gang who is cowardly? That's why he didn't show up and became a tortoise?

Although the members of the Xuan Gang followed Qiu Yuanfeng to show hatching beasts, their aura had weakened a lot. Gong Yangjun's words just now hit everyone hard.

"Don't deceive people too much, what's wrong with our leader?" Qiu Yuanfeng shouted, but there was a faint lack of confidence in this shout.

Wang Xuan followed the crowd around him, and when he saw that the two sides were about to make a move, he immediately came out.

Gongyang Jun heard Qiu Yuanfeng's question, looked at their flustered appearance, smiled proudly, and was about to speak, when suddenly there was a commotion in the center of the square in the distance, and some members of the Xuan Gang shouted excitedly: "The leader is back. !"

Everyone heard this and immediately looked up.

Wang Xuan, who had just taken a step, also turned his head to look, but in the center of the square, the elevator door of No. 8 opened again, and this time two people came out.

The leader was Xu Jian, the leader of the Xuan Gang.

Behind him, followed by a man two or three years younger than him, with an eagle nose, wearing the same third-order fine-quality silver scale suit as the leader of the Xuan Gang.

As soon as the two came out, the surrounding members of the Xuan Gang immediately shouted excitedly, and Qiu Yuanfeng, Gongsun Xiaoyan and others in the distance also became fierce.

In the face of the oppression of Gongyangjun and the others, they really lacked confidence. Even if they could block Chen Daolin's group, as long as Gongyangjun and the others shot, they couldn't stop them at all.

Now that the leader has returned from a distance, everyone feels emboldened and excited.

The hawk-nosed man standing behind the leader of the Xuan Gang was obviously his helper who went up to find him. Although compared with Gongyangjun and the others, he was one less than that, but for Qiu Yuanfeng and others, the leader's return was better than anything else. , even if there is one less powerhouse than the other party, they have the courage to follow the leader and fight with the other party.

It's just that the leader of the mysterious gang at the moment, his face is not very good-looking, and he walked towards this side with the eagle nose man behind him.

Gong Yangjun had a sneer on his face, waved his hand, and motioned Chen Daolin and others to stop for a while, he wanted to wait for the two leaders of the Xuan Gang to come over.

Soon, the leader of the Xuan Gang and the man with the eagle hooked nose also came over~
www.mtlnovel.com~ leader! "Qiu Yuanfeng led the crowd and immediately greeted them, everyone's faces were filled with excitement, excitement, and anger towards Gongyangjun and the others.

As soon as Mu Gang met, he said angrily, "Boss, these guys just made a rude remark and said that you were afraid, that you were too embarrassed to come back or something."

When he said this, he pouted at Gongyang Jun from a distance and said, "Now that our leader is back, I think you should be afraid. The shameless person is you."

Gongyang Jun just sneered, ignoring Mu Gang, but looked at the leader of the Xuan Gang, and said, "Xu Jian, I'm going to send someone to arrest the two traitors of Rakshasa, what do you say?"

The leader of the Xuan Gang looked a little indifferent, walked up slowly, and said, "If you want to arrest the Rakshasa traitor, it is naturally your power, why do you need to ask me?"

As soon as these words came out, everyone in the Xuan Gang was shocked. They almost thought they heard it wrong. Qiu Yuanfeng stared at the leader in front of him, and said, "Leader...you...you..."

Gongyang Jun laughed loudly, with a proud look on his face, Xu Jian's confession made him extremely satisfied, and all the members of the Xuan Gang showed extremely irritated expressions on their faces, including They were puzzled. Looking at their leader, they couldn't understand why the leader's attitude had changed so much after going up there.

The leader of the Xuan Gang remained indifferent, looked at Qiu Yuanfeng, and said sullenly: "Rakshasa arrests the traitors, what does it have to do with us?" After a slight pause, he continued: "The members of the Xuan Gang only need to protect the members of this gang. already."

Hearing Xu Jian's words, Qiu Yuanfeng came to his senses and said loudly, "Yes, you Rakshasa want to arrest traitors, but if you dare to touch our Xuan Gang brothers, don't blame us for being rude!"

Chapter 173

Everyone in the Xuan Gang immediately cheered up and gathered around Yao Tiande. Now Yao Tiande and Duan Chen are wearing black bracelets. They are members of their Xuan Gang, and they have every reason to protect them.

Gongyangjun's smug face disappeared, staring at Xu Jian and said, "Xu Jian, what do you mean? These two guys are obviously traitors of Rakshasa, but you treat them as members of the Xuan Gang and want to cover them up?"

Xu Jian had no expression on his face, just stood there without responding.

The dignified man beside Gongyang Jun suddenly took a step, looked at the eagle-nosed man standing beside Xu Jian, and said, "The two of you still want to intervene in this matter to prevent us from investigating the Rakshasa. The real reason for the leader's death?"

The eagle-nosed man shook his head and said: "We have reached a consensus on this matter. The Rakshasa leader is missing and suspected of death. No matter which party is concerned, it is a major event. Naturally, this matter needs to be investigated clearly."

After the eagle-nosed man said this, Qiu Yuanfeng, Mou Gang, Gongsun Xiaoyan and the others were startled, while the expressions on Gu Manyao, Zhao Lei, Yao Tiande and others changed slightly.

Originally, everyone thought that this eagle hook nose was with the leader of the Xuan Gang, and it should be the helper he invited above. Who would have thought that what he said sounded like he was on the side of Rakshasa.

Now they finally understand why Gongyang Jun is so arrogant, just because the two sides have reached a consensus on this matter.

Eagle hooked his nose and looked at Yao Tiande at the back of the crowd and said, "Gongyangjun, is he the so-called Rakshasa traitor you said?"

Gongyang Jun said: "Yes, one is called Yao Tiande, and the other is called... Yes, Duan Chen."

Eagle hooked his nose and nodded and said, "Let's not talk about whether it is a traitor or not. After all, they are now members of the Xuan Gang. According to the previous agreement, we still have to let them come out and explain the matter in detail. Yao Tiande, Duan Chen, come out, you don't have to be too afraid, in short, the cause and effect of this incident are right and wrong, and it's better to make it clear in public."

This time Xu Jian also stood aside and did not speak.

Qiu Yuanfeng, Gongsun Xiaoyan and the others all looked at each other and looked at each other.

Wang Xuan in the crowd was about to go out, but when he saw this, he frowned and stopped.

At this moment, someone beside him whispered, "Wang Xuan." There was a faint excitement in this voice.

Wang Xuan tilted his head to look, but it was a young woman, looking at herself with an excited look on her face.

This woman is Li Haitang, and there are Wu Yunyue, Zhang Zhao and others beside her, both of them are familiar.

That day, Wang Xuan came to Insect Town. After the Wuyi incident, they escaped from Insect Town and entered the Snake Domain. After that, they met Li Haitang and Wu Yunyue and other six people. They were also newcomers, but they came to Insect Town one day earlier than Wang Xuan. There was also an exchange.

I haven't seen each other since, and I didn't expect to meet at this time.

Wang Xuan saw Li Haitang and Wu Yunyue wearing phoenix badges on their bodies, obviously they joined the phoenix.

Li Haitang saw that Wang Xuan was wearing three third-order metal equipment and two ghost equipment. She was not stupid. She could see that the surface of the ghost equipment was faintly flowing with black light. It was not ordinary. It was better than metal equipment. Tavern In the incident, she had also heard of Wang Xuan's name, which made her admire Wang Xuan even more.

"Long time no see." Wang Xuan nodded slightly towards her and responded gently, but his eyes kept staring not far away, wanting to see how the situation developed.

Li Haitang finally saw Wang Xuan. She was excited and wanted to speak, but seeing that Wang Xuan was focused on the confrontation between Xuan Gang and Rakshasa, she also closed her mouth and squeezed to Wang Xuan's side. Look over there.

The eagle-eyed words made Qiu Yuanfeng and others confused, and they all looked at Xu Jian, the leader of the Xuan Gang, wanting to see what he meant.

Xu Jian seemed to sigh silently, then waved his hands and said, "You all get out of the way, and let Yao Tiande and Duan Chen come out and speak clearly."

Then he looked at Yao Tiande and said solemnly: "If the disappearance of the Rakshasa leader has nothing to do with you, you don't have to be afraid. Since you are members of the Xuan Gang now, we will take care of you."

Duan Chen was still in fear, but Yao Tiande heard something from Xu Jian's words, took a deep breath, and walked out.

Qiu Yuanfeng, Gongsun Xiaoyan and others felt the subtle changes in the situation. It seems that after the leader went up, he must have been under some kind of pressure, so he behaved like this.

They made a way out of it, and even Gu Manyao and Zhang Haofei put away the hatching beasts. They saw that Wang Xuan was in the crowd not far away, and they did not receive Wang Xuan's instructions, so they also followed Xu Jian's wishes. Listen to what Yao Tiande has to say.

Yao Tiande walked out, stopped beside Gu Manyao and Zhang Haofei, bowed to everyone in front of him, and said, "Last time at the tavern, I made it clear that Duan Chen and I are even the leader of the Rakshasa. I haven't seen it before, how could we kill the leader of the Rakshasa when we are only two adults? I don't even understand why the leader of the Rakshasa disappeared, and the account should be counted on the heads of our two little characters?"

Xu Jian said: "Gongyangjun, you heard it too, Yao Tiande said that they didn't kill the Rakshasa leader, as for why the Rakshasa leader disappeared, you should go to the place where he disappeared and investigate, it's pointless to come to our Xuan Gang to entangle them all the time. ."

Gong Yang Jun sneered: "Xu Jian, do you really think of us as fools? How can he tell the truth if you ask him like that? In terms of strength, they can't kill the Rakshasa leader, but who can guarantee them? No help? Will there be a sneak attack? There are all kinds of possibilities, just one sentence from him can prove that he has nothing to do with the disappearance of the Rakshasa leader?"

Eagle hooked his nose and said, "Gongyangjun, tell me, what should I do now?"

Gongyang Jun said: "Of course they will be handed over to me. I believe they will tell the truth." When he said this, there was a faint trace of grimness on his face. As long as Yao Tiande and Duan Chen fell into his hands, he would have way to get them to tell the truth.

Xu Jian immediately said: "No, they are still members of our Xuan Gang, how can they be handed over to you?"

Eagle hooked his nose, but frowned slightly, and said, "Xu Jian, I think Gongyangjun is right. The leader of the Rakshasa mysteriously disappeared, and he doesn't know his life or death. Check properly."

When he said this, he suddenly lowered his voice and whispered in a voice that almost only Xu Jian could hear: "This is also what the above means, you should know that now we and Rakshasa City are cooperating on many things. , I don't want the two sides to be unhappy because of this trivial matter. That's why I came down with you. I'm afraid that you will mess up and affect our relationship with Rakshasa City. Let Yao Tiande and Duan Chen be handed over to them. ."

The expression on Xu Jian's face kept changing, his lips moved slightly, but he hesitated.

Ying hook nose turned to look at Gong Yang Jun: "Gong Yang Jun, those two are handed over to you."

Gongyang Jun showed a satisfied smile and waved his right hand: "Chen Daolin, take someone!"

Chen Daolin walked over with a group of elite powerhouses immediately.

Qiu Yuanfeng, Gongsun Xiaoyan and others all looked at Xu Jian, waiting for his order.

Yao Tiande and Duan Chen, who was hiding by the door of the hall, changed their expressions, and they all looked at Xu Jian eagerly.

Without the protection of the Xuan Gang, once they fell into Gongyang Jun's hands, they would definitely be worse off than death. At that time, they were afraid that what they encountered would be even more terrifying than death. Just thinking about it, they shuddered.

Even Yao Tiande, who had always been courageous, turned pale as paper and shuddered.

The expression on Xu Jian's face changed very violently, as if he couldn't stand the eyes of Qiu Yuanfeng and others, he sighed secretly in his heart. Although his hands were clenched into fists, he turned his face slightly in the end and no longer looked at Qiu Yuanfeng and others. people.

No matter how unwilling and unwilling he was in his heart, he had to obey what the above meant.

Seeing their leader behave like this, everyone in the Xuan Gang understood. Seeing Chen Daolin, Liu Ming and others who were forced to come over with smug faces, Qiu Yuanfeng, Mou Gang, Gongsun Xiaoyan and others just felt aggrieved and wanted to take action immediately. , but could only endure it and stand still.

Fearing that they would make a move, Ying Hook Nose looked at Qiu Yuanfeng and Mou Gang, and said softly, "Everyone from the Xuan Gang retreats. These two are traitors of Rakshasa, and our Xuan Gang will never cover up the traitors."

Even the leader Xu Jian didn't speak anymore, no matter how everyone expressed their violent personality like Mou Gang, they could only shut their mouths, and together with Qiu Yuanfeng and the others, clattered back.

Although they are the powerhouses of the state, but facing the characters from above, they are innately lacking in confidence. They have no leader to lead, and they have no idea or strength to resist.

Qiu Yuanfeng, Mou Gang, Gongsun Xiaoyan, Liu Weijie, Yan Shouzheng, Jiang He and others retreated, and immediately revealed Gu Manyao, Zhang Haofei, Zhao Lei, Tie Jun and others in the rear.

Especially Gu Manyao and Zhang Haofei, who were standing beside Yao Tiande at the moment, did not retreat.

"You two, back away!" The eagle glanced at Gu Manyao and Zhang Haofei, frowned, and let out a light drink.

Gu Manyao and Zhang Haofei ignored him, and did not look at Xu Jian, the leader of the Xuan Gang, but tilted their heads to look at the crowd on the other side.

Wang Xuan, who had been watching the play in the crowd, finally came out.

He was wearing two pieces of ghost equipment, which immediately attracted the attention of the Rakshasa people, especially Chen Daolin and Liu Ming. There was a grim smile on their faces.

They were very sorry to see that there was no Wang Xuan in the crowd before. Compared to Yao Tiande and Duan Chen, what they hated most in their hearts was Wang Xuan.

"My lord, this person is called Wang Xuan, and he colluded with Yao Tiande and Duan Chen to kill our leader." Chen Daolin immediately stretched out his hand and pointed at Wang Xuan from a distance, busy complaining to Gongyang Jun.

Gongyang Jun glanced at Wang Xuan, looking at the equipment on his body, he knew that he should not be weak, I am afraid that he is a strong person in the real state, but no matter how powerful the real state powerhouse is, what if he reaches the peak, although this first The insect town on the second floor is suppressed by the power of the world. The strongest power that can erupt will have a limit. The power that exceeds this limit will be suppressed by the power of the world. The stronger it is, the more terrifying the suppression and backlash.

However, as long as it does not exceed this limit, it will not be suppressed and counterattacked. With the power of this infinite approaching limit, it is enough to kill the ordinary powerhouse. Gongyang Jungen did not take Wang Xuan in his eyes.

"Then take him together and take all three away." Gongyang Jun immediately ordered.

Chen Daolin was waiting for this order, and he was overjoyed, and immediately said loudly: "Yes!" Then he said to everyone behind him: "You guys follow me to take him down, Yao Tiande and Duan Chen will hand it over to Li Lin and you guys. ."

After he finished speaking, he personally led Liu Ming, Gao Tian, and Luo Li towards Wang Xuan who came out, while the other powerful people behind him surrounded Gu Manyao and Zhang Haofei, and wanted to take the people behind them. Yao Tiande and Duan Chen, who was hiding in the corner, caught him.

Qiu Yuanfeng and Gongsun Xiaoyan, more than a dozen of the elites who belonged to the Xuan Gang, could only watch helplessly, with aggrieved and helpless expressions on their faces.

Gu Manyao and Zhang Haofei immediately showed their hatching beasts and blocked Yao Tiande's face. They even wanted to take Wang Xuan. There's no need to say that, even if they knew they were defeated, they could only do it.

Xu Jian suddenly shouted loudly, "Stop it all!" A powerful killing intent was released from his entire body, which was approaching Gongyang Jun.

"Xu Jian, do you still want to do it?" Gongyang Jun and the man and woman beside him immediately greeted him, and the atmosphere became tense.

Qiu Yuanfeng, Gongsun Xiaoyan and the others also immediately showed their hatching beasts, and the two sides immediately clashed.

Eagle hooked his nose and said angrily, "Xu Jian, what are you doing?"

Xu Jian waved his hand and said, "Gongyangjun, if you want to arrest Yao Tiande and Duan Chen, you can say that they are traitors, but that's fine, Wang Xuan is an important figure in my Xuan Gang, what has you to do with your Rakshasa, you only rely on your subordinates. Dare to arrest a man if he has no evidence? Are you really deceiving me that there is no one in the Xuan Gang?"

He can't defend Yao Tiande and Duan Chen, but if the other party wants to move Wang Xuan, the nature is different.

Gong Yangjun's expression changed slightly, and he suddenly smiled: "Okay, then only Yao Tiande and Duan Chen will be taken down."

I thought that as long as Yao Tiande and Duan Chen were in his hands, he would have a hundred ways to force them to tell the truth and get evidence. At that time, if Wang Xuan really had something to do with the death of the Rakshasa leader, if there was evidence, look at this Xu Xu. How could Jian protect him?

Chen Daolin, Liu Ming, and the others surrounded Wang Xuan, but they were disappointed now, so they could only stop and watch him pass between them and walk towards Gu Manyao and Yao Tiande.

Wang Xuan looked calm, as if everything that happened here had nothing to do with him, like an outsider, completely ignoring Chen Daolin and the others, not in a hurry, just walked towards the field.

Among the group of people outside the arena, Li Haitang was looking at his back from a distance, nervous and worried for him.

However, on such occasions, she understands her identity and strength, and is not qualified to stand out at all, and only serves as a bystander.

Seeing Gongyang Jun's order not to embarrass Wang Xuan, Xu Jian had no reason to stop him. He waved Qiu Yuanfeng and the others to retreat, and a few Rakshasa's powerhouses had already surrounded him and arrested Yao Tiande and the others behind him. Duan Chen.

Gu Manyao and Zhang Haofei were in a dilemma, not knowing whether to block or not, they looked at Wang Xuan together.

Now Xuan Gang is standing by, there are three super powerhouses who are suspected to have surpassed the real state, and there are more than a dozen super powerhouses on the side of the Rakshasa. With such a powerful strength, they are also at a loss. If Duan Chen and Duan Chen are caught, they will inevitably be implicated. Blocking them is tantamount to using a man's arm as a car, and they will be vulnerable.

While they were hesitating, the two rakshasas who were in the perfect state swayed around them, who were frozen in place. One stretched out his right hand and put it on Yao Tiande's shoulder. Duan Chen hiding inside.

In the face of the two powerhouses, Yao Tiande and Duan Chen, who were only adults, could not fight back at all.

Duan Chen laughed miserably, realizing that he couldn't escape, he raised his right hand, and an earthen shield appeared, but instead of attacking the powerhouse who rushed over, he slammed his head.

He would rather die than fall into the hands of Rakshasa and suffer utterly.

He understands that as long as it falls into their hands, even if he tells all the truth, he will still suffer from various tortures and die. If this is the case, it is better to cut himself off now and suffer a lot less pain.

Yao Tiande's face also showed a look of despair, and he had the same idea as Duan Chen, but he just raised his right hand, and the powerhouse in front of him had already shot, and pressed his right shoulder with one hand, and when he lifted his left hand, he wanted a palm. Slap on the back of his neck, knocking him out first.

Qiu Yuanfeng, Mou Gang, Gongsun Xiaoyan, Liu Weijie, Yan Shouzheng, Jiang He and others all watched silently. Although they were full of unwillingness, at this moment, they were powerless. Several people couldn't bear to look at it, and silently turned their heads over.

It was the first time they were so aggrieved since they became big figures in the Xuan Gang.

Zhao Lei, Tie Jun, Li Haotian, and Bai Yan were only adults, and they were not qualified or capable in such an occasion.

From all directions, at least five hundred people were watching everything here from afar. They originally thought that there would be a good show to watch, but no one would have thought that the Xuan Gang would be cowardly~www.mtlnovel.com~ and let Rakshasa arrest people.

Seeing that the left palm of this Rakshasa's powerhouse was about to hit Yao Tiande, suddenly a black shadow flashed from the corner of his eye. As a powerhouse, he was very vigilant. It's too late to turn around and move away.

I only felt a tightness on my right shoulder, as if being clamped by steel pliers, the bones shattered, the pain pierced my heart, and then I couldn't help myself and flew into the air.

"Boom", he fell out.

The incident happened suddenly, and everyone was in an uproar in all directions. What kind of strength would it take to be able to grab a strong man and throw it like a chicken?

Almost everyone's eyes were immediately focused on the person who suddenly shot.

The person who made the sudden move was naturally Wang Xuan.

He has always acted like an outsider, just approaching silently, and when the rakshasa's perfection powerhouse shot to knock Yao Tiande unconscious, he suddenly shot, grabbed the man's shoulder, dropped his five fingers, and a terrifying force erupted, and threw him on the shoulder. The bones in it were crushed one by one, and then they were picked up and thrown out.

He didn't stop, and immediately followed into the hall.

In the hall, Duan Chen wanted to commit suicide, but was punched by the right hand of the powerful Rakshasa who captured him, smashing the earth shield that Duan Chen had manifested.

Duan Chen groaned and fell back, a smirk appeared on the face of this powerful man, and when he stretched out his left hand, he was about to hit Duan Chen's belly.

Suddenly, a cold wind hit his back, and Chen Daolin shouted: "Li Lin be careful—"

When Li Lin heard the sound, he was busy trying to dodge. He just turned away, not wanting the opponent's punch to follow him around. The opponent came to him, and the speed was too fast. With a sound, it hit him in the stomach.

Chapter 174

Li Lin let out a scream, was beaten and flew into the air, then rolled in the air and fell out of the door, hitting the ground outside heavily. was hit hard.

"You dare to trespass where I live without my permission... You should be damned."

Wang Xuan stood at the door of the three-story building, condescending, and looked at Li Lin who fell out with a calm expression. His tone sounded very gentle. He made it.

Gongyang Jun and the man and woman beside him narrowed their eyes slightly.

There would be such a character in the Xuan Gang. They didn't expect that this person would dare to shoot so unscrupulously, and that he would instantly injure the two of them.

Didn't this guy think about the consequences?

Xu Jian also seemed to be deeply surprised. Although he knew that Wang Xuan's strength was not weak and he was close to the peak of his state, it was beyond his expectation that he could be so tough.

And the eagle-nosed man was equally astonished.

"Okay!" Although Mu Gang couldn't do it himself, he still felt agitated when he saw Wang Xuan, who had hit two rakshasas in an instant. Stay and shout.

Seeing Wang Xuan's sudden attack, Gu Manyao and Zhang Haofei no longer hesitated, and immediately brought the hatching beast to the strongest level. Zhao Lei, Tie Jun and others rushed out immediately.

"You all step back." Wang Xuan glanced at Zhao Lei, Tie Jun, and the others, and understood that they were just adults, getting involved here, and dying. Although Gu Manyao and Zhang Haofei were powerful, he didn't want them involved.

Gong Yang Jun glanced at Ying Gou Nose and Xu Jian before saying, "Now that you have seen it, it's not that we want to arrest your members of the Xuan Gang, but the members of your Xuan Gang who attacked our Rakshasa first."

Before Ying Hook Nose and Xu Jian could respond, Wang Xuan said calmly, "You are Gongyang Jun, right? This matter has nothing to do with the Xuan Gang, you can put the blame on me alone. Yao Tiande and Duan Chen are my brothers, if you want to capture them, you have to pass me first."

Wang Xuan understood that once Gongyangjun and the others really captured Yao Tiande and Duan Chen, and understood the cause and effect of the incident, he would definitely have to put the death of the Rakshasa leader on himself and Gu Manyao and others.

Just because he killed Wang Ziren, Lu Bingbing, and Li Xing in succession, and swept away the face of Chen Daolin and others in the tavern, these people could not spare them.

That being the case, it is better to take it all on your own and let these people concentrate their firepower on themselves, at least to reduce the dangers that Gu Manyao, Zhao Lei and others may encounter in the future.

Yao Tiande and Duan Chen, who originally wanted to cut themselves off, were stunned and stared at Wang Xuan. They could never have imagined that under such circumstances, Wang Xuan would dare to rescue them.

Just like a desperate drowning person suddenly caught a life-saving straw.

Yao Tiande suddenly felt a sore nose, and there was an urge to cry. No matter whether Wang Xuan could really save him today, just by his actions, Yao Tiande had the urge to die for him.

He finally understood what it meant, a scholar is a confidant, and he died.

Qiu Yuanfeng, Mou Gang, Gongsun Xiaoyan, Liu Weijie, Yan Shouzheng, Jiang He, You Ao, and a group of elites in the Xuan Gang, as well as the core members around them, all showed incredible expressions, and almost everyone's eyes were full of disbelief. It concentrated on Wang Xuan.

On the Rakshasa side, there are three super-powers from "Rakshasa City" who have surpassed the state of being, plus more than a dozen powerhouses, and there are groups of core members of the Rakshasa. In this case, Wang Xuan returned Dare to take action, severely inflict heavy damage on the two Rakshasa state powerhouses, and defend Yao Tiande and Duan Chen, not to mention these people, even the leader of the Xuan Gang Xu Jian and the eagle hook nose from above, have no such courage.

Gongyang Jun laughed angrily. The man and woman who were also from "Rakshasa City" beside him stared at Wang Xuan with surprised expressions on their faces.

"I can't believe that there is such a person in the town of insects, Wang Xuan, right? I remember your name, so I have this courage towards you. It is worth my Gongyangjun to remember you."

"I now have reason to believe that the Rakshasa leader is missing, and it must have something to do with you, Chen Daolin, take him down for me!"

"Yes!" Chen Daolin was waiting for Gongyangjun's words, followed by a wave of his hand, and a loud shout: "Go!"

Seeing his gesture, Liu Ming, Gao Tian, Luo Li, and several other elites who were in a state of excellence hula, and gathered around them together.

Although Chen Daolin is a peak powerhouse, but seeing Wang Xuan's shot just now, the speed is astonishing, and he is not absolutely sure of winning Wang Xuan, so he decides to join forces with Liu Ming and other powerhouses.

Gu Manyao and Zhang Haofei retreated to Wang Xuan's side, preparing to fight the enemy together with him.

"You all step back."

Wang Xuan drank at them. If Gu Manyao and Zhang Haofei were involved, once they were besieged, they would definitely lose their opponents, but it would affect him. As long as they didn't intervene, they would still be the characters in the Xuan Gang, without any reason. , Gongyang Jun and others have no reason to do anything to them.

Although they were unwilling, Gu Manyao and Zhang Haofei honestly retired.

"Wang Xuan, the tavern's account, let's do a good calculation today."

There was a faint mad look in Liu Ming's eyes, his right arm and the right half of his body appeared crystal vitrification, and at the same time, he threw out a mechanical beast's heart. The mechanical beast's heart attached to his body and immediately extended, forming a second layer of defense beyond alloy armor.

He raised his strength to the strongest limit, and with a low roar, he was almost the first to charge up.

Among the people, he was the one who hated Wang Xuan the most. He wished that Wang Xuan would be skinned and cramped immediately, and his corpse would be smashed into ten thousand pieces in order to relieve the hatred in his heart.

Next to Liu Ming was Gao Tian. He swung the sword in his right hand, and strips of white rainbow light attached to the sword flew out with faint Li Xiao. This was the sword soul he controlled. The strongest strike of the sword soul.

Luo Li appeared in Wang Xuan's other post, with a white light on his right fist, attacking from behind.

The three great powerhouses shot at the same time, and the most powerful was the oncoming Chen Daolin. He took a step forward and approached Wang Xuan. A raging flame was emitted from his right arm and body, and there were ghosts in the flames. The beast appeared, and the surface of the beast's body was flickering with electric light.

He is a powerhouse at the pinnacle level, and Liu Ming, Gao Tian and Luo Li together are not as scary as him.

The four of them shot together and attacked from all sides. Li Haitang in the distant crowd only felt her heart rise to her throat, and her hands were tightly clasped together. She could only secretly cheer for Wang Xuan, but was powerless.

Although Gu Manyao, Zhao Lei, Zhang Haofei and others had confidence in Wang Xuan, they all understood that Chen Daolin was strong.

Almost at the moment when Chen Daolin rushed towards him, Wang Xuan took the initiative to avoid him and retreated back. Luo Li only felt a flower in front of him. Wang Xuan, who had turned his back to him, suddenly turned sideways. The fist hit Wang Xuan's swollen right arm firmly.

The giant arm of the beast appeared, and in the half-metal, half-flesh arm, there was a faint blue light flickering, which completely offset the power of Luo Li's punch.

As soon as Luo Li's right arm tightened, it was like being clamped by steel clamps, and he was shocked.

Wang Xuan changed his moves too quickly, Luo Li didn't have time to react, the five fingers of the monster's giant arm grabbed the joint of his right arm and lifted him up.

There was a "bang", mixed with Luo Li's tragic roar, and his body flew up, not only blocking the flying sword souls released by Gao Tian, but also smashing into the sword inspired by Chen Daolin. In the large group of flames, it hit the flame beast, and was devoured by the lightning contained in it.

The flaming beast fluctuated violently, and was almost scattered by this blow. Chen Daolin staggered and took a step back, his eyes were full of astonishment. Wang Xuan had already swung Luo Li again, hitting Liu Ming who was rushing up from the other side.

Liu Ming pushed his strength to the limit, and his vitrified fist hit with all his strength, hitting the belly. Watching the belly collapse and a large amount of flesh and blood exploded, a grim look appeared on his face, and then he realized that something was wrong. Luo Li's twisted face appeared in front of him.

And it wasn't Wang Xuan who had his belly blown up by himself, but Luo Li.

Liu Ming's heart was beating wildly, knowing that it was not good, he wanted to step back and distance himself. Wang Xuan raised his left arm and patted him on the head.

Suddenly a gloomy wind struck in front of him, and a black figure like a goshawk swooped down at an astonishingly fast speed, even the peak-level Chen Daolin couldn't compare.

Wang Xuan's heart froze, and immediately lifted Luo Li up in his right hand.

Only heard a loud bang, the black figure slammed into Luo Li, Luo Li was seriously injured, and was dying, and then he was attacked by this black figure, and immediately exploded with a loud bang. Mixed with offal and splattered.

This sudden shot, the person who volleyed was Gongyang Jun, but he didn't expect Wang Xuan's reaction to be so fast, not only did he fail to hurt him, but he killed Luo Li with one blow.

Following Gong Yangjun, there was another man wearing a full set of ghost equipment and a majestic face. He grabbed Liu Ming behind the back and dragged him back, making Wang Xuan's palm unable to take it seriously. Smash Liu Ming's head.

For this reason, Liu Ming's skull was also cracked open, his head collapsed an inch, he was seriously injured, his eyes were turned upright, and he immediately passed out.

The dignified man frowned and let go of Liu Ming, who had passed out.

In front of them, Wang Xuan not only was not taken down by Chen Daolin and a few others, but he even severely injured Luo Li and Liu Ming. Now Luo Li was killed by Gongyang Jun.

For them, it was a big loss.

"Okay...Okay..." Gongyang Jun said two good points in a row, nodded towards Wang Xuan, and waved his left hand to let Chen Daolin back away.

Seeing Wang Xuan's astonishing means just now, Chen Daolin is not stupid. He already understands that the current Wang Xuan is not something he can deal with. He is sweating coldly on his back.

The leader of the Xuan Gang and the eagle-nosed man who came down from above also had surprised expressions on their faces, looking at Wang Xuan.

In a small four-story building not far away, a figure suddenly appeared on the roof. This is a very graceful woman, about 1.7 meters tall, she looks tall, and her whole body is covered with a third-order high-quality ghost suit. , there is a faint black light flowing on the surface.

She wears a very delicate mask in the ghost helmet, only her eyes, mouth and nose are exposed. Looking at the phoenix epaulettes on her high chest, it can be seen that she is from the phoenix.

Among the phoenixes of the five major forces, there is only one person capable of possessing a complete set of ghost suits, and that is the leader of the phoenix.

She suddenly appeared, and seeing this scene from a distance, a pair of eyes fell on Wang Xuan, and a strange color flashed in her eyes.

The strength that Wang Xuan showed just now is difficult for even an ordinary powerhouse to achieve. In all directions, a thought popped into everyone's mind, could he be a powerhouse beyond the powerhouse.

If this is the case, it is really terrible. You must know the details of Wang Xuan. Because of the tavern incident, everyone is familiar with it. They know that he is a newcomer who has just entered the insect town. When he first entered, he was only at the level of an adult. In just a few days, being able to break through to the state of being is already considered a genius, and being able to become the peak powerhouse in the state of being at the peak means that he is not only a genius, but also has luck. It's impossible to describe a genius in ordinary words.

Such a person is only afraid of one in ten thousand.

There is a five-story building not far away, surrounded by walls, which looks like a small castle.

It is not far from the small castle where the leader of the Xuan Gang lives. This area belongs to the "Dynasty" of the five major forces, and is next to the "Xuan Gang".

This five-story building is where the dynasty chiefs lived.

At this moment, two people are standing on the top floor of the five-story building.

One of them was wearing a third-order fine-quality silver scale suit. He was about thirty-seven or eighteen years old.

Standing beside him was a handsome man of about twenty-seven or eight-year-old appearance.

This man is Chu Boyu.

And the man who was wearing a full set of silver scales and looked a little honest was the leader of the dynasty.

Chu Boyu was in Scorpion City last night. He fought against Wang Xuan because of the hatching corpse. Unfortunately, in the end, he and Shi Jin were unable to kill Wang Xuan together. They won the hatching corpse, but Wang Xuan killed Shi Jin instead.

Under the shock of his heart, he fled immediately. Today, he learned that Xuan Gang and Rakshasa had summoned members to return to Insect Town. He didn't know what happened and came back with him.

Looking at Wang Xuan's amazing performance from a distance at this moment, he was not surprised, but his expression was complicated.

If the essence liquid that hatched the corpse was obtained by himself, then the person who has this power now is himself, but unfortunately this opportunity was taken away by Wang Xuan.

He didn't say anything about Wang Xuan's killing of Shi Jin, and now he was full of disappointment. In addition to watching Wang Xuan, he would also look at the distant crowd from time to time, hoping to see Tang Ruoyu.

He believed that Xuan Gang and Rakshasa summoned people to return today, and Tang Ruoyu in Scorpion City must have returned to Insect Town when he heard the news, but he didn't know where she was now, and he never saw her in the crowd.

Chen Daolin kept retreating, and he already knew in his heart that he was not Wang Xuan's opponent. Almost everyone was doubting whether Wang Xuan had broken through to his perfect state. Many people were shocked, which made Xu Jian and the eagle-nosed man's mentality change subtly. .

If Wang Xuan is such an incomparable genius, will they come forward to protect it?

Gongyang Jun stared at Wang Xuan, walked up slowly, and said: "You have also broken through the state? Even if you have broken through, today... you are going to die, you have such strength, Rakshasa leader, You must have killed-"

Before he could finish his words, he swayed and reached Wang Xuan's side, grabbing his right hand towards Wang Xuan.

As soon as he came out, his movement speed and strength exploded, surpassing the so-called peak powerhouse Chen Daolin, and faintly reaching the power limit reached by this insect town world.

This limit is the real limit of the state, and the super powerhouses who are infinitely close to the sixth form will be suppressed by the power of this world.

Gongyang Jun's speed was too fast, Wang Xuan didn't dare to be careless, his body was continuously strengthened by the blue crystal scales and the Primordial Liquid twice, and his speed, strength and reaction ability were already equivalent to the peak of Chen Daolin. By.

Coupled with the energy of borrowing a little blue crystal scales, he can immediately break through the peak of the state and reach the limit of the powerhouse, which is no less than the strength and speed that Gongyang Jun is showing now.

With a sway of his body, the giant arm of the monster in his left hand shrank ~www.mtnovel.com~ and turned back into a metal tentacle.

He didn't dare to stimulate the power of the blue crystal scales that were too powerful, otherwise this power would break through the limit of the state, touch the boundaries of this world, and be attacked by the power of the world.

Although he didn't know Gongyangjun's ability to hatch beasts, Gongyangjun just hit Luo Li, causing Luo Li's entire body to explode. Tentacle test.

With a "bang", the drawn metal tentacles were grabbed by Gong Yangjun and detonated instantly. In the huge explosion, half of the several-meter-long metal tentacles were blown apart, and countless pieces of metal splashed around. Everyone dodged and retreated, keeping a distance, so as not to be harmed by Chiyu.

Wang Xuan watched the metal tentacles explode, and immediately realized that he guessed correctly, this Gongyang Jun has a special ability that can cause explosions.

Gong Yang Jun exploded half of the metal tentacles and rushed up again. Another man with a majestic face slowly approached from the other side. Although he did not make a move, he had completely locked Wang Xuan and was ready to cooperate with Gong Yang Jun. Seize the opportunity, and it will deliver a terrible blow in an instant.

Everyone was nervous, even a Gongyang Jun, Wang Xuan might not be able to resist, not to mention that there is another majestic man who should not be inferior to Gongyang Jun.

The leader of the Xuan Gang, who was watching the battle, couldn't bear it any longer, and immediately took a step to block the majestic man for Wang Xuan, but was blocked by the eagle-nosed man.

Almost at the same moment, the majestic man grabbed Gong Yangjun and attacked Wang Xuan. At the moment when Wang Xuan took a half step back, he suddenly shot and made a thunderous blow.

Chapter 175

In his right hand, a circular wheel suddenly appeared.

This metal round wheel is about one meter five in diameter. The edge of the round wheel is very sharp, and there are two metal cross-shaped handles in the center.

At this moment, he grabbed the cross handle in the center with his right hand, waved the round wheel, spun it, and cut it in the air.

Wherever it went, the high-speed rotating wheel made a shrill whistling sound that ripped apart the air. Sparks spattered faintly from the edge of the wheel, and when it rubbed against the ground, a long white mark appeared.

You must know that the ground of this worm town is made of special materials, which is harder than steel. General strength or swords can't make it damaged in the slightest, but now it has been cut by the force of the edge of the circle. A white mark has been cut.

The power of this round wheel is simply appalling.

All this happened in an instant. At this moment, Wang Xuan was retreating, trying to avoid Gongyangjun's attack in front of him. The majestic man suddenly launched a round wheel to attack from behind. The speed was too fast. He wanted to dodge too late. .

With a "huh" sound, the alloy armor on Wang Xuan's body was cracked from the back on the right side, and the pitch-black steel feathers protruded from it like sharp swords with a handle. These sharp swords were arranged together to form a huge black wing covered him behind him.

Suddenly seeing a giant wing growing out of Wang Xuan's back, many people around him, those with insufficient concentration, couldn't help but let out a very unexpected soft cry.

The harsh sound of the machine cutting metal sounded, and the circular wheel launched by the majestic man cut on the black wings that suddenly appeared. Sparks splashed everywhere. The steel feather could not bear the cutting force of the circular wheel and began to break. Wang Xuan almost at the same moment. Turning around, the giant arm of the beast appeared, slamming the wheel from the lateral side.

With a "bang", the blue dim light in the huge arm was ignited, and the round wheel and the majestic man were instantly blown away.

This scene made everyone gasp. The woman who followed Gongyangjun and the majestic man suddenly swayed, and a light whip appeared in her hand. With a distance of four or five meters, Ling Kong drew towards Wang Xuan.

Wang Xuan's strength was far beyond their imagination, and the woman also shot in shock.

Xu Jian, who was blocked by the eagle-nosed man, swayed and jumped out.

His back protruded, and four giant arms grew out of nowhere. Together with the arms he originally had, they became six arms. These six arms mutated together. Each arm was more than one meter long and covered with scales. Like six animal arms, with a kick of both feet, it almost jumped into the air, rushing towards the woman.

This time, the eagle-nosed man did not try to stop him. He was shocked by Wang Xuan's performance just now. He thought that even if he was attacked by Gongyang Jun and the majestic man at the same time, he might not be able to fight back instantly and blow the majestic man away.

As the woman and Xu Jian attacked, the scene suddenly became chaotic. Whether it was the Xuan Gang or the Rakshasa, whether it was a strong person or an adult, they all retreated at this moment.

The energy that erupted in the field was so powerful that everyone had to back away to avoid being accidentally injured.

The woman let out a stern scolding, and had to retract the light whip she had drawn out to defend against Xu Jian who rushed over.

Wang Xuan smashed the majestic man along with the round wheel in his hand with one punch. With a kick of both feet, the black steel feathers cut into a crack were fanned, and a gust of wind blew up. With the help of this gust of wind, he volleyed out, left hand. Quickly take out the heart of the mechanical beast from the Xumi mustard space, summon the little girl, and enter the state of fusion.

At the same time, facing the attack of two powerhouses beyond the perfect state, coupled with the existence of the power limit in this insect town, this means that they are at the same power level, and the other side is a powerhouse who has experienced a hundred battles. He felt a lot of pressure.

The little girl appeared and quickly attached to the surface of his body, extending in all directions, and soon formed a second layer of shell defense.

Gongyang Jun sneered, even if there is an extra layer of mechanical beast defense, how can he stop his explosive attack? Joining forces to deal with Wang Xuan, he and the majestic man simply disdain the defense obtained by borrowing the mechanical beast fusion, because there are advantages and disadvantages. After the fusion, there is an extra layer of mechanical shell on the body, and the flexibility must be slightly affected, but the general strength is not enough. people can't feel it at all.

The majestic man who fell out, propped the round wheel in his right hand to the ground. The round wheel rotated at a high speed, leaving a long arc-shaped white mark on the ground. He stabilized his body, and Wang Xuan's giant arm of beast was already in the air. Called.

"Okay!" He roared in his mouth, his eyes glowed strangely, his muscles were shaking, his strength had exploded to the limit of this world, and if he increased it, he would have to stimulate the power of the world and be under pressure.

On the round wheel he held in his right hand, he opened vertical eyes one after another, eight in total. It looks very strange, and this round wheel seems to have added a breath of life. In an instant, this high-speed rotating round wheel splits, splitting into eight small round wheels, and flying out.

Wang Xuan, who rushed over at full speed, could never have imagined that the round wheel in the hand of the majestic man would have such a change. He had no time to dodge, so he could only use the giant arm of the beast to protect his head and face, and forcefully carry the round wheel that shot over.

In the piercing sound, several round wheels were hit by the giant arms of the beasts, and they changed directions and flew to both sides. Several other round wheels flew along his legs and waist. Although Wang Xuan tried his best to dodge, he couldn't completely avoid.

The cutting power of this high-speed rotating circular wheel is extremely terrifying. Even if he has the triple defense, energy shield, mechanical shell and metal equipment, he is still cut away by the triple protection in an instant, and huge wounds are cut out on his body. Blood splattered, especially one of the thighs, and it was cut along the bone, almost cutting off the leg bone.

A look of astonishment flashed across the majestic man's eyes. His full-strength blow from the round wheel was so terrifying. As he expected, Wang Xuan would be disemboweled, his legs would be cut off in an instant, and he would even be shot. Broken into seven or eight pieces.

Although it has also been hit hard now, the result is a little different from what he guessed.

Wang Xuan was severely injured, and Gong Yangjun rushed towards him with a grin on his face behind him.

With five fingers on his right hand, the entire right arm was slightly agitated, and the strongest force was activated. As long as it touched Wang Xuan, he was confident that he would explode into thousands of pieces in an instant.

Now he doesn't care about the real reason for the death of the Rakshasa leader, and he never thought of capturing Wang Xuan alive to interrogate the cause and effect.

This Wang Xuan is so terrifying, since he has become an enemy, he must not be kept.

Whether it's him or the majestic man, they all have the same idea. In their hearts, they got up early to kill.

Therefore, when the majestic man failed to kill Wang Xuan with a full blow, he rushed forward and formed a front and back attack with Gong Yang Jun. He must be completely killed in this blow.

Seeing that Wang Xuan was suddenly severely injured, Gu Manyao and Li Haitang in the distant crowd couldn't help but let out an exclamation.

"No!" Qiu Yuanfeng suddenly shouted in a low voice, and with a sway of his body, he stopped in front of her.

He understands that, except for the powerhouses who have surpassed the state of being, whoever goes up now will die.

Gu Manyao's rushing not only can't save Wang Xuan, but may affect Wang Xuan's distraction and make him die faster.

Xu Jian was fighting with the woman. Unexpectedly, Wang Xuan suddenly fell into a desperate situation of death. He was busy turning around, trying to save him. The woman suddenly sneered, and the light whip in her hand swung around, killing Xu Jian. tied with his six outstretched arms.

Xu Jian grabbed the light whip with six hands and wanted to pull it apart. Although he was not afraid of the light whip, he could no longer save Wang Xuan with this delay.

Seeing Gongyang Jun and the majestic man make a full blow, the seriously injured Wang Xuan reluctantly moved his body sideways and wanted to dodge, but his legs were injured and his speed was greatly reduced. Open, protect your body.

Gong Yang Jun had a sly smile on his face. When he saw Wang Xuan open his ghost wings, he immediately turned around and went around Wang Xuan's open ghost wings to a place on the other side of him that was not covered by ghost wings. The majestic man cooperated with Gong Yang Jun, both fists came out, and two small circular wheels appeared in each hand, one cut across Wang Xuan's neck, and the other cut into his chest heart.

He understands that with Wang Xuan's strength, he should be able to block his attacks from these two circles. His real purpose is to contain Wang Xuan and force him to use the giant arm of monsters to block his attacks. Ram-jun's attack.

All the three of them can exert is the power that is close to the limit of the state. In this case, no matter how strong Wang Xuan is, if one fights two, he will surely die.

Sure enough, just as the majestic man had guessed, under the fatal attack of his two wheels, Wang Xuan had no choice but to stretch out a pair of giant arms of beasts to meet the cut round wheel from the side, trying to blast it away.

With a "bang", Wang Xuan's fists slammed into the round wheel, making a terrible loud noise. The majestic man was ready, and immediately let go, letting the pair of round wheels be blown horizontally by the giant arms of the beast, his hands and fingers together, like two steel shovels, shoveled into the outer mechanical shell of Wang Xuan's body, tore open the defensive alloy armor inside, and inserted it into his flesh and blood.

Gongyang Jun appeared silently on Wang Xuan's left side, and there was a faint sound of air bursting from the surface of his right arm, and he was about to hit Wang Xuan's left waist and abdomen.

Almost at the same moment, Wang Xuan's fully opened, the ghost wings covering the right half of his body suddenly disintegrated, and the steel feathers shot out like sharp swords.

The sound of "chi chi chi" could not stop, and Gongyang Jun, who rushed towards him with all his strength, was shocked. He was indeed a super-powerhouse that surpassed his real state. He lifted his right arm up, and with the help of the special ability contained in his right arm that could explode all objects he touched, he wanted to destroy all the steel feathers that shot over.

Suddenly, his heart froze, and a huge fear surged up.

Wang Xuan's forehead cracked open, and there were crystal eyeballs in it, and the eye of fear was activated with all his strength.

He suddenly shot the ghost wing, and the incident happened suddenly. No matter how strong Gongyang Jun and the majestic man were, they couldn't help being shocked. Wang Xuan activated the "eye of fear" at the same moment, seized this momentary opportunity, and magnified the shock in their hearts infinitely. Fear made Gong Yangjun's body stagnate for a while, and he was a little late to block, only to hear the sound of sharp knives piercing his body, the ghost wings turned into sharp blades, piercing his body, and densely interspersed in the past.

The majestic man was horrified and stopped. He had just inserted his hands into the mechanical shell and alloy armor of Wang Xuan's body, touching the flesh and blood, and wanted to cut into Wang Xuan's body. .

Everything that happened before and after was as expected by Wang Xuan. At this moment, a thought flashed in the mind of the majestic man. Could it be that the other party has already calculated all this? Even including the previous injury, is it intentional?

It was too late to think about it, the majestic man was caught by the wrist, suddenly pulled by a terrifying force, and his body flew into the air.

Wang Xuan took a step back, grabbed the majestic man's wrist, and smashed him towards Gong Yang Jun, who had just been pierced by a dozen steel feathers like a hedgehog.

The piercing sound of bone shattering sounded, and the majestic man opened his mouth and let out a violent roar. Between life and death, there was no need to suppress the power. In an instant, the power was fully activated, and he immediately broke through the boundaries and wanted to resist. bite.

From his open mouth, blood spurted wildly, and the power that had just exploded poured into his body. A large number of sharp steel feathers stuck in Gong Yangjun pierced into his body. To outsiders, these dozen or so steel feathers were like String them together.

Gong Yangjun was hit by this blow and rolled to the side. The majestic man was attacked by the power of the world. Blood spurted wildly from his mouth, and his heart was terrified. I didn't even know how to react.

With his strong will and perseverance, although this extreme fear can only last for a moment, for a powerhouse like them, this moment of sluggishness determines the outcome of life and death.

Wang Xuan's eye of fear locked on him, his face was cold and handsome, like a **** with three eyes, his right arm was raised, and it fell down.

With a "no" sound, the giant arm of the beast slammed on the majestic man's celestial cover, and his head, together with the ghost helmet, exploded.

Blood splashed on Wang Xuan's face, he loosened his left hand, abandoned the majestic man whose head had been blown up, and kicked his feet. Reappearing, a gust of wind blew, and he rose into the air, rushing towards Gongyang Jun, who fell out.

"Tianhao——" The woman who was fighting with Xu Jian suddenly let out a shrill scream and rushed towards the majestic man desperately, looking like a madman.

At this moment, she no longer resisted Xu Jian's attack, but rushed out at the cost of her life. Although Xu Jian was strong, he was slightly hesitant when he thought that the other party was from Rakshasa City, and she rushed over.

A mass of white light emerged from the body of the majestic man who had turned into a headless corpse. The woman waved a light whip, as if trying to intercept the white light.

She could feel that there was powerful life energy and consciousness in this white light, and she knew that Tianhao didn't want to die.

Gong Yang Jun, who fell out, saw the majestic man Tian Hao's head being blasted. At this moment, he was so terrified that his whole body trembled and his heart contracted. The strong, become a strong beyond the state, how can you be so afraid today?

He was so frightened that he only looked at Wang Xuan's forehead and eyes, as if his heart had stopped beating because of fear.

He suddenly understood that all this was due to Wang Xuan's third eye on his forehead.

Instantly awakened, he suddenly woke up from the extreme fear, propped his right arm on the ground, and immediately stabilized his body, Wang Xuan had already descended like a demon, rushing towards the sky.

Between life and death, he roared in his mouth and took the initiative to meet him.

In all directions, everyone has a dull or even horrified look on their faces, especially those from Rakshasa, whether it is a strong person or a group of adults. Could barely breathe.

Wang Xuan's Eye of Fear was frantically absorbing the endless source of fear power around him.

The fear energy released by these powerhouses is the favorite of the Eye of Fear.

With a "bang", Gongyang Jun hit Wang Xuan's left arm with a precise strike.

He didn't expect Wang Xuan to be crazier than himself, so he took the initiative to stretch out the giant arm of the monster on the left and let his explosive force hit it.

A dazzling blue light lit up on the giant arm of the beast. At this moment, Wang Xuan borrowed a powerful blue crystal scale energy from his left arm. Suppression of power.

Gongyangjun's explosive power slammed on it, his arms collided, and the power of blue crystal scales exploded, mixing with Gongyangjun's power, the detonating power far exceeded the limit, the power of the world came, and instantly mixed this together. The two forces were suppressed, Wang Xuan and Gongyang Jun were attacked at the same time, and they groaned, but Wang Xuan did it intentionally, while Gongyang Jun accepted it passively.

In any case, he never thought that Wang Xuan could think of breaking through the boundaries of this world, and at the moment when the forces of the two sides clashed, the forces of the world would come and completely suppress the forces of both sides.

Can you think of this way, is this guy a human or a monster?

Gongyang Jun felt a deep fear in his heart~www.mtlNovel.com~ Wang Xuan was already prepared, the giant beast arm on the right almost swept sideways with the left arm at the same time, hitting him firmly on the forehead superior.

With a slight noise, Gong Yangjun's helmet shattered, and the head inside twisted and collapsed from left to right. When the twist reached the limit that flesh and bone could bear, it finally burst open.

The skull exploded into countless pieces, mixed with blood and white brains, together with two eyeballs and teeth, all burst open, and the broken bones inside made a chi chi sound, like a round of bullets fired, each piece was smashed. It is so powerful that it can easily penetrate human flesh.

Many of the weaker adults have retreated far away, and they are still being attacked. The muffled groans can be heard, and there are several blood holes in their bodies. For a while, they can't think of how to be attacked.

A shrill scream sounded, Wang Xuan turned his head, and saw that the woman who came with Gongyangjun and the majestic man had a distorted face, rushing towards him like a madman, and her right arm was wrapped with light whips. Like crazy.

She was incapable of intercepting the white light flying out of the majestic man's body, and the invisible power of the world descended, instantly obliterating the consciousness inside, turning it into pure energy, and submerging into Wang Xuan's right hand.

A white ray of light also appeared in the body that followed the ram. No matter how hard he struggled, he could not defeat the ubiquitous power of the world, his consciousness was wiped out, and he was thrown into Wang Xuan's body.

At the same time, he absorbed the energy of the hatching beasts of the two transcendent powerhouses. Wang Xuan only felt the white light in his right hand, and the ground was about to explode.

This energy is too terrifying, and the horror reaches his magical beast, and he can't bear it.

You know, his magical beast has only grown to the perfect state now.
