

Last Building on Earth Chapter 176-180

Chapter 176

Both Gongyang Jun and the majestic man Tian Hao are strong beyond the state of being, but they are limited by the restrictions of the second-layer world of Insect Town. will be restricted.

These two energies that are far beyond the limit of the perfect state were absorbed by Wang Xuan's white light, which immediately caused a strong sense of tearing in the white light. Wang Xuan only felt that the white light in his right hand changed drastically, and it seemed that it was about to explode from it at any time. .

Gongyang Jun and the majestic man were killed by Wang Xuan one after another. In all directions, countless people were shocked and shocked. The eagle hooked nose slowly took a step back, stretched out his hand, and lightly touched his forehead.

Cold sweat was dripping on his forehead.

He was not afraid of Wang Xuan, but was shocked by what happened in front of him.

How could such a ruthless person ever appear in the Xuan Gang? Gongyang Jun and the majestic man were killed one after another, and he could even foresee the anger of "Rakshasa City".

Many people watching from afar are approaching this side, wanting to see more clearly.

The first reaction of a group of Rakshasa core members headed by Chen Daolin was to retreat in fear.

Wang Xuan's "Eye of Fear" felt a lot of fear power at this moment, and absorbed it endlessly.

The woman who came with Gongyang Jun and the majestic man uttered a shrill scream, her eyes became blood red, and she looked like a madman, and rushed towards Wang Xuan.

The light whip wrapped around her right arm loosened in circles, and slammed into the air, like a flash of lightning, with a faint thunderous sound.

She flipped her left hand, and seven or eight crystals appeared in her palm, all of which were exploding crystals. As long as she approached Wang Xuan, she would hold Wang Xuan together and detonate these exploding crystals.

Even if it is a powerhouse that surpasses the state of being, and detonates so many explosive crystals at the same time, she and Wang Xuan will be blown to pieces.

She and the majestic man Tian Hao are a couple and have a deep relationship. Now that Tian Hao is dead, she doesn't want to live alone. Now she just wants to drag Wang Xuan and die together.

At this moment, Wang Xuan could only feel the white light in his right hand, which was swelling and splitting. He was suffering from severe tearing pain. He just wanted to vent through battle.

The monster's giant arm blocked the light whip that was drawn.

The light whip fell on the giant arm, and there was a crisp sound, and a bloodstain appeared on the half-metal, half-flesh monster arm, with blood seeping out, and a burst of energy appeared in the white light that was about to burst. The vent immediately rushed towards the direction of the bloodstains on his huge arm.

The light whip was like a spirit snake, wrapped around his giant arm of the beast, and instantly entangled, the woman let out a stern shout, and pulled the light whip with her right hand.

It's just that she couldn't pull Wang Xuan, so she kicked her own feet, and with the help of the power of the light whip, she jumped into the air and rushed towards him at an accelerated rate.

As long as she gets close, she is ready to hug Wang Xuan and detonate the explosive crystal in her left hand.

Wang Xuan looked at her who rushed over, and just wanted to vent. He clenched his right hand into a fist, and wanted to explode the crazy and surging power inside. Suddenly, he felt something was wrong.

His Eye of Fear sensed the surging power of fear from all around him, but this woman did not feel the fear.

He even killed Gongyang Jun and the majestic man by himself. This woman and them are companions. Even if you are angry and want to avenge them, there is no way that you will not have the slightest fear, unless...

His thoughts turned, and a strong uneasiness rose in his heart in an instant. The ghost wings behind him blew a huge wind, which drove his body, kicked his feet back, and restrained the giant arms of the beast, while trying to get rid of the light. The rope was entangled while trying to open the distance between him and the woman.

He stretched out his left hand, quickly took out two defense crystals from the Xumi mustard space, and smashed one of them.

A ray of light rose up and instantly blocked the woman who rushed over.

Although this defensive crystal can only last for a moment and then disappear, at this moment, even if it has the strength beyond the perfect state, it cannot be destroyed.

With the help of the defensive crystal to block the woman for a moment, Wang Xuan's ghost wings spread behind him, disintegrated again, and turned into a steel blade of different lengths, like a flying sword, bypassing the defensive barrier in front of him, shooting fast. come over.

This woman was forced to put away the light rope and step back to avoid the steel blade coming from the sky. Although she was not afraid of death, she wanted to drag Wang Xuan to the end, but she did not want to die alone.

At the same time as Wang Xuan shot out the steel blade, he jumped up and volleyed out. With his arms open, a pair of giant monster arms reappeared, grabbing the woman and dodging the steel blade at the same time, and fell to the place where she was standing. Position, the steel blade that came from the sky just gathered again, fell on his back, and turned into a huge wing.

With the impetus generated by the flapping of the wings, and the speed at which he pounced, it exceeded the speed at which the woman retreated and dodged, and the giant arm of the monster on the left reached her chest and abdomen.

This woman was unavoidable. Looking at the giant arm of the beast hitting her chest and abdomen, she actually grinned, her eyes were faintly gloomy, her arms were open, and she neither evaded nor resisted, letting Wang Xuan The giant arm of the monster attacked her chest and abdomen, and she took the initiative to meet it at the same time.

The giant arm of the beast slammed on her chest and abdomen, and the sound of bone shattering sounded, and the third-order fine-quality blue shadow armor on her body collapsed together with her chest.

Blood spurted from her mouth, but she was not afraid at all. With her right hand, she grabbed the giant arm of the beast that Wang Xuan had hit on her chest and abdomen. , together with the light rope wrapped around his right arm, trying to wrap Wang Xuan's whole body.

At the same moment, the seven or eight explosive crystals that she had been holding in her left hand were all crushed into pieces.

Now that Wang Xuan wants to distance himself, it is already too late. She is confident that the seven or eight explosive crystals will explode at the same time, and the scope of the explosion will be large, and they will definitely be able to blast her and Wang Xuan together.

Even if he knew it was bad, he still wanted to take out the defense crystal from the storage belt, but it was too late.

She had the last smug smile on her face, knowing that she dragged him to death after all, avenging Tianhao.

"really....."

This thought flashed across Wang Xuan's mind, and he crushed another defensive crystal that had been hidden in his left hand.

He had deliberately attacked her with the giant arm of his left-handed beast, and he had already expected that she would have some terrible ultimate move that would drag him to death, so he took out two defense crystals at one time, used one before, and now uses the third crystal. Two.

This woman could never have imagined that there was another defensive crystal hidden in Wang Xuan's left hand. Seven or eight explosive crystals exploded together. The power was so terrifying. When she saw a light curtain suddenly rising from Wang Xuan's left hand, the two When people were separated, she woke up.

His own wish failed.

There was a hint of despair in her heart, this guy is not human, this beast, it turns out that he has another defensive crystal hidden in his hand.

"boom--"

An earth-shattering explosion sounded. Under the impact of this terrifying power, even the light curtain rising from the defensive crystal was almost shattered and shattered. Protected by the light curtain, Wang Xuan was still strongly impacted and swayed back.

The power of these seven or eight explosive crystals exploding together is too powerful.

The woman was drowned by the power of the explosion in an instant, and it exploded into the air, and the real ashes disappeared, only the ground was smashed into pieces like mud, and there was no human form at all.

A white light appeared, and the fluctuating consciousness inside was erased by the power of the world, turned into pure energy, and flew towards Wang Xuan's right hand.

Before she was swallowed up by the explosion, she was hit on the chest and abdomen by Wang Xuan, and even her internal organs were shattered, and she was already dead.

Once again absorbing the energy of a hatching beast belonging to a super-strength powerhouse, Wang Xuan felt that the white light in his right hand fluctuated more and more violently, there was a faint crackling sound inside, and countless cracks like spider webs suddenly appeared on the surface.

Are you going to break through this time?

Wang Xuan's heart shook, and he immediately sensed the change in the white light in his right hand.

And with the end of this big explosion, all directions, everyone's eyes seemed to be dull, silently looking at here, looking at the splattered flesh mud, looking at the two headless corpses, the whole worm town is here It seemed to become dead silent for a moment.

The people around, including the number of people who are paying attention to it in the open and secret, are at least six or seven hundred people. At least 90% of the powerhouses in the entire insect town have been concentrated here, and now, everyone They were all silent, feeling suffocated, and the expressions on their faces were difficult to describe in words.

The three super-achieving powerhouses from the "Rakshasa City" above died just like that?

This dead silence lasted for a few seconds before someone finally took a deep breath, and then the sound of exhalation and inhalation came one after another.

Xu Jian was the first to react and strode towards Wang Xuan. The leader of the Xuan Gang, unable to hide his excitement, suddenly said loudly: "Okay! Good! Wang Xuan, our Xuan Gang is proud of you!"

He was really excited, even if he killed three "Rakshasa City" super-strength powerhouses, the Xuan Gang has a character like Wang Xuan, this is no matter how many super-strength powerhouses can be replaced came back.

The eagle-nosed man let out a long sigh, stretched out his hand again, wiped the cold sweat on his forehead, then shook his head slightly, showing a wry smile, he looked at Xu Jian, at Wang Xuan, and at the two headless corpses on the ground. With the woman who burst into flesh, he had mixed feelings in his heart, and for a while, he didn't know what to say.

The disappearance of the Rakshasa leader in Worm Town was already a major event. For this reason, "Rakshasa City" sent messengers to investigate clearly, and it was mainly necessary to establish a prestige in Bug Town. As a result, the disappearance of the Rakshasa leader is still present. Did not investigate clearly.

However, the eagle-nosed man also understands that now that such a thing has happened, for the "Rakshasa City", it doesn't matter whether the leader of the Rakshasa is missing or dead or killed by someone.

Three "Rakshasa City" messengers were killed here, don't think, they will definitely launch **** revenge.

"Xu Jian... Look at this... I'm afraid of Rakshasa City..." He sighed, but Xu Jian glared at him and said solemnly: "Shu Feixiong, what are you afraid of, I'll go up with you and make it happen here. I will report the matter in detail, and I believe the above will know how to choose."

When he said this, his eyes flashed, and he said: "The three wastes of Gongyangjun, tied together, are not worth as much as Wang Xuan alone."

Chen Daolin and a group of Rakshasa's people are constantly retreating, and everyone is pale and frightened. They are afraid that Wang Xuanhui will suddenly shoot at them and kill them cleanly.

But at the moment, Wang Xuan was sensing the change of the white light in his right hand. He stood motionless in the arena and didn't react. Everyone didn't know what was wrong with him for a while, so they didn't dare to approach him at will.

Seeing that he didn't respond, Chen Daolin quickly turned around and fled into the distance.

Dozens of Rakshasa members fled with him almost at the same time, but some of them quietly mixed into the surrounding crowd, and then pulled off the red belt tied around their waists.

They knew it was too dangerous to continue being a rakshasas, and they wanted to get rid of rakshasas.

Qiu Yuanfeng, Gongsun Xiaoyan and others also reacted with excitement and excitement on their faces. When Qiu Yuanfeng saw Chen Daolin and others who had turned around and fled, he originally wanted to reprimand them, but considering that neither the leader nor Wang Xuan had spoken, he ignored it. .

Gu Manyao, Zhang Haofei, Zhao Lei, and Tie Jun all rushed up excitedly and surrounded Wang Xuan with expressions of excitement.

Among them, Yao Tiande and Duan Chen were the most excited. They were dazed and could hardly believe what they were seeing.

They were almost forced to kill themselves, and no one could believe that Wang Xuan suddenly shot and killed the three "Rakshasa City" messengers in one fell swoop. This was an unprecedented thing.

You must know that "Rakshasa City" represents the world above in the hearts of the people in Bug Town. It is an existence that is high above and can only be looked up to.

Compared with "Rakshasa City", Worm Town is nothing more than a novice village that is not worth mentioning.

In a small four-story building not far away, the unrecognizable Phoenix leader has been watching from a distance, and she can clearly see the process of Wang Xuan killing the majestic man and Gongyang Jun.

A pair of phoenix eyes wearing a mask, faintly shining, glowing with a strange light, until the woman was blown to pieces by the explosive crystal that she detonated, she let out a slight sigh, after being silent for about ten seconds, her mouth was full. murmured softly.

"It seems... the pattern of insect town... is about to change..."

Turning around, he left, jumped off the roof of the four-story building, and quickly disappeared.

In the small five-story castle farther away, Chu Boyu and the leader of the dynasty were also watching from a distance. The leader of the dynasty sighed and shook his head: "I have to go up and report this matter, Xuan Gang has made a great The characters need to be focused on."

Chu Boyu was full of resentment in his heart. He understood that Wang Xuan was so strong because he had obtained the corpse-incubating essence liquid. If this essence liquid was obtained by himself, the person who was admired by everyone and valued by all parties was himself. .

"He killed three people in 'Rakshasa City', will 'Rakshasa City' give up?" Chu Boyu asked in a low voice, not angry.

The leader of the dynasty said: "Naturally, I won't give up, but 'Xuancheng' will definitely not stand idly by."

Chu Boyu said: "Didn't the leader say before that 'Xuancheng' has always been relatively weak, what if they are afraid of 'Rakshasa City' and don't want to care?"

The leader of the dynasty smiled and said: "I hope the old Hutu people in 'Xuancheng' don't want to take care of it, then 'Wangcheng' can protect Wang Xuan and hope to get him to join the 'Wangcheng'."

"Okay, I'll leave it to you for the time being. I'll go to the 'Wangcheng'."

After speaking, the leader of the dynasty jumped and disappeared.

Chu Boyu was stunned, and his eyes became more and more jealous and resentful. Only then did he know that Wang Xuan was so important in their eyes, and he had the qualifications for them to **** it.

This made him feel very disappointed.

Among the buildings, there is a three-story building, and a hot woman is standing on the third floor, watching from a distance through the window glass.

She is Tang Ruoyu.

This time, the Xuan Gang and Rakshasa summoned the powerful people from Scorpion City to return to Insect Town. She heard the news and came back as well.

She saw everything from a distance through the glass window, especially when she saw Wang Xuan unleashing his ghost wings and successfully injuring Gongyang Jun, she seized the opportunity and fought back in one fell swoop. There was an indescribable look in her eyes. look.

It seems that this ghost wing has some special meaning to her.

In the crowd of onlookers, Li Haitang blushed, her hands clenched into fists, her expression was excited, as if she had killed Gongyang Jun and the majestic man, and was being watched by countless people.

At this moment, Wang Xuan, who is being watched by countless people, squinted his eyes slightly and felt a lot of cracks in the white light in his right hand, like a spider web. The originally hard light wall could not resist the surging energy inside. shatter.

He understands that he is only afraid that he is about to break through the state.

But soon it will change again. The light wall of white light is constantly shattering, but the broken light wall is constantly absorbing the surging energy inside, and constantly repairing the obvious cracks, thus forming a cycle, The expanding and surging energy inside is constantly shattering the light wall, but the light wall absorbs energy~www.mtlnovel.com~ and is constantly repairing.

Repeating this, gradually, the light wall became stronger and stronger, and the surging energy inside was absorbed by the light wall and gradually subsided.

This change made him unbelievable. He even absorbed the energy of the hatching beasts from the three powerhouses that surpassed the perfect state, yet he couldn't even break through the perfect state?

And it also makes the light wall absorb this energy and becomes stronger, which means that next time he kills three more powerful superpowers and absorbs their energy, it is impossible for this light wall to crack again. Because the current light wall is strong enough to withstand this powerful energy.

This can't break through, so what should we do to break through?

Or, limited by talent, can only reach the perfect state at most?

There was a hint of confusion in his heart, and the excitement of killing these three supernatural powerhouses disappeared. Wang Xuan raised his head and saw Gu Manyao and Zhang Haofei who were all around him, as well as the excited look behind him. Yao Tiande and Duan Chen, including Xu Jian, the leader of the Xuan Gang, and the eagle-nosed man who came down from above, all stood aside and looked at them.

Chen Daolin and a group of Rakshasa people have already retreated cleanly, and people in the distance have begun to leave one after another. After all, there is no drama to watch, and they are not members of the Xuan Gang, so there is no point in staying here.

Seeing Xu Jian, Wang Xuan suddenly thought of it and walked up immediately.

"Chief." Wang Xuan said to him, "Can I ask you a question?"

Xu Jian was stunned for a moment, and then hurriedly said: "Of course, what do you want to ask?"

He knew that Wang Xuan might want to ask the "Rakshasa City" side's reaction, so he was about to pat his chest and assure him that he represented "Xuancheng" and would do his best to keep him safe and sound, so that he could rest assured.

Chapter 177

Life and Death

Wang Xuan looked at the people around him and said, "Let's go inside and talk."

Xu Jian nodded and walked with him towards the three-story building facing him.

When Wang Xuan passed by and saw the headless corpses of Gongyang Jun and the majestic man on the ground, he motioned to Gu Manyao and Zhao Lei to remove the equipment and belts from the two corpses.

Zhao Lei nodded and said, "Got it." With Tie Jun and Li Haotian, they got busy.

This Gongyang Jun and the majestic man were the ones who came down from above. They were all wearing third-tier equipment of excellent quality. There must be good things in their storage belts, but Wang Xuan was there. This is his trophy. No one will Dare to attack these materials.

Entering the hall of the house, Shu Feixiong with a hooked nose also walked in. Except for them, even Qiu Yuanfeng did not dare to enter casually without an order.

"Wang Xuan, there are no outsiders now, this is Shu Feixiong, from 'Xuancheng', what did you want to ask me just now." Xu Jian introduced with a smile.

Wang Xuan nodded towards Shu Feixiong before saying, "What I want to ask is, how to break through the perfect state."

As soon as these words came out, Xu Jian and Shu Feixiong were stunned, and then they all cried out at the same time: "Are you still in the state?"

Before, they had always thought that Wang Xuan was a powerhouse beyond perfection, and they were shocked that he had made breakthroughs and grew so fast. He was a genius, and he was able to kill Gongyang Junhe at the same level in a second-level world with boundaries. The three majestic men represent that his fighting talent is extremely strong, far exceeding the three Gongyangjun.

But now when they heard that Wang Xuan was still in his state, they were stunned.

Wang Xuan snorted and said, "Yes, I'm still in the perfect state, and I've been unable to break through, so I want to ask the two of you how to break through this state."

Xu Jian and Shu Feixiong both stared at Wang Xuan in a daze. He was still only in the perfect state, but he even killed three powerhouses beyond the perfect state?

Although there is a limit to suppress the power beyond the power of the powerhouse in the second-layer insect town world, the strength of the three Gongyang Jun will be severely suppressed, and they can only exert the power of the limit of the state here.

And Wang Xuan was able to kill them, which means that his current strength has at least reached the limit of the state.

The so-called ultimate limit, generally at the ultimate level, can only be approached infinitely, and it is basically difficult to achieve it. The state limit, that is truly one in ten thousand, and there may not be one out of 10,000 perfect state powerhouses.

But now they suddenly discovered that Wang Xuan had reached the limit of this inimitable state.

This value and potential is much greater than his surpassing the perfect state to kill the three Gongyang Jun.

It was Xu Jian who reacted first, took a deep breath, his eyes lit up, and then slowly a shocking expression appeared on his face, and said, "Wang Xuan, are you really still in the perfect state?"

Still in disbelief, he asked again.

Wang Xuan could only nod his head.

Xu Jian murmured: "You are the perfect state. If you kill Gongyangjun and the others, then the light wall that hatches the beasts in your right hand must also absorb their energy. How strong is this light wall? It's unbelievable. "

Wang Xuan said: "Yes, the light wall absorbs energy, and it will only become stronger and stronger. If this continues, no matter how much energy I absorb, I will not be able to break through."

Xu Jian came back to his senses and said: "If you want to break through the perfect state, unlike before, you don't rely on you to absorb energy to shatter the outer wall of the hatching beast, but you need the

outer wall to shatter yourself, and you need to absorb the energy from the strong. Weakness has no absolute relationship."

Wang Xuan was startled, only to realize that he had unknowingly entered a misunderstanding. All he had been thinking about was hunting monsters, drawing energy, and using this energy to shatter the wall of light, but he never thought that the wall of light would shatter on its own. crack.

But, how could this light wall shatter by itself?

Seeing to know what Wang Xuan was wondering, Xu Jian explained: "This light wall is actually a part of the hatching beast, you should not regard it as a bondage, and only think about breaking it and breaking through the perfect state. It can be said that it is very easy, or you can It's very difficult to say."

There was a trace of contemplation on Wang Xuan's face, and he said, "Why do you say that?"

The eagle-nosed Shu Feixiong, who had not spoken for a while, seemed to come back to his senses and said, "We generally call this level the 'life and death level', or life or death. It's really simple to say."

Wang Xuan suddenly understood.

Xu Jian said: "Yes, breaking through the perfect state is also called breaking the 'life and death barrier'. Only at the juncture of life and death can a breakthrough be possible. Failure to break through is naturally death. Survive, that's why we call this level a life-and-death level."

Seeing the contemplative look on Wang Xuan's face, Xu Jian said, "You should have heard the story about the eagle pushing the little eagle off the cliff. In order for the little eagle to learn to fly, the eagle will push the little eagle off the cliff. When the eagle's life is threatened, it can only flap its wings desperately, and at the moment when it falls from the cliff to the ground, it must learn to fly, otherwise it will only die."

"Breaking through the state is similar to this. Only real death can stimulate the human body's maximum potential. The hatching beast that has evolved to the state has a certain self-awareness. That is to say, when faced with real death, we humans and Only by hatching beasts can we have a single thought in our hearts and fully stimulate the potential of our human body and hatching beasts, so that this light wall can be actively broken and break through evolution, which is called life after death."

Shu Feixiong said, "It sounds very simple, but in reality, it is extremely dangerous, and no one can guarantee that they will be able to resonate with their hatching beasts at that moment. Unleash the strongest potential, and then break through, as long as there is the slightest mistake, it is death."

Xu Jian said: "Therefore, there are many strong people who will be fully prepared before they will face the test of death and then break through. Even so, there are still many people who will fail and die."

"As long as you have a little luck in your heart, most of them won't be able to break through, so if you want to get close to this death test, it's best not to bring some defensive crystals or healing water with you that you want to save your life. It's easy to take a chance."

When Xu Jian said this, he smiled bitterly on his face: "I still feel terrified when I think about the breakthrough process at that time. I thought you had encountered a powerful monster in Scorpion City by chance and encountered danger of life and death, so you just broke through."

Shu Feixiong said, "Actually, it's not good for you to know how to break through the state, because knowing this method, if you try to meet the test of death, you will inevitably have concerns and hesitations, and it will be easy to have some luck, but it will be easy to fail. In fact, the best way to break through is to know nothing in advance, suddenly encounter the danger of death, and you have enough savings, that is the real breakthrough."

Xu Jian said: "This is not necessarily true. Knowing or not knowing, each has its own advantages and disadvantages, because everyone's personality, mentality, and willpower are different. Without knowing it, when some people suddenly encounter the imminent death, they may find it is definitely impossible to break through to generate despair instead of resisting to survive, and for people with relatively weak wills, knowing is definitely better than not knowing."

When Xu Jian said this, he looked at Wang Xuan and said excitedly, "Wang Xuan, if you can break through, it will be amazing. Now you have absorbed the energy of the hatchling beasts from Gongyangjun's three people, this light wall is sturdy. It is far beyond imagination. It is said that the stronger the light wall is before it breaks through, the more benefits you will get once it breaks through."

"Thank you two, I understand." Wang Xuan completely figured out how to break through the state.

It turned out that it was only possible to break through when he encountered real death. Even if he encountered the King of Fear, but because of the existence of the book of giants, he still failed to break through.

Then it's not that as long as he masters the Book of Giants for one day, he can't break through it for one day?

He thought of Xiao Bichen and the others who died, and Shi Jin who was killed by him. They encountered death and failed to break through. It seems that Xu Jian and the others are right. This is the real life and death barrier. If you want to break through, you must encounter the danger of life and death, but it does not mean that there will be a breakthrough in the danger of life and death, I am afraid that there will be more death.

Xu Jian said: "Thank you for this, I have personally experienced the process of breaking through the state, but although I have made the breakthrough, I am also a lake Tu. This breakthrough state is very mysterious. For example, the strength of two people is equal, and they look similar in all aspects. , are also in danger of death. One may succeed in breaking through, and the other may die. To be reasonable, it is difficult to explain, because these two people are obviously similar in all aspects, whether it is strength, character, or strength of will... This is We are also puzzled by this phenomenon. Many people have studied it. Some people think that the reason may be related to the state of mind, or the fit of the hatching beast. In short, you should think more about these aspects and feel Try it only when you have a certain degree of certainty, don't rashly think about finding a dangerous place for a death test, it's too dangerous."

Wang Xuan nodded slightly, and Xu Jian said, "If you have nothing else to ask, I have to go to Xuancheng with Feixiong and report your situation. Gongyangjun three people died, and Rakshasa City will receive it soon. The news will definitely lead to action."

Wang Xuan's eyes gleamed slightly and said: "Don't worry, leader, I will leave the Xuan Gang and not hurt you."

Xu Jian smiled and said, "Wang Xuan, what are you talking about, don't worry, when we go up this trip, we will definitely let 'Xuancheng' come forward to protect you, and try to solve the matter above, no accident, 'Rakshasa. Cheng' should not send anyone to trouble you again."

Wang Xuan was slightly startled and said, "I killed so many of them, can they let me go?"

Xu Jian said: "Xuancheng will come forward to negotiate with them about this matter. As long as they can offer a price that is enough to make them excited, let alone kill a few people, even if they let them give up the town, it's okay, you don't need to worry about it. Now, Shu Feixiong and I will go up to deal with it."

Afterwards, he called in Qiu Yuanfeng and explained a few words to him, making sure not to have further conflicts with Rakshasa. After making arrangements, he left with Shu Feixiong.

Gu Manyao and Zhao Lei took the spoils they had just harvested and handed them over to him.

Gongyang Jun and the majestic man both wore a full set of ghost equipment. Except for the ghost helmet which was smashed by Wang Xuan, the remaining eight ghost equipment can be used.

Wang Xuan already had ghost knee pads and ghost boots, and now he only needed one ghost armor and ghost handguards. The remaining six pieces were handed over to Gu Manyao, Zhao Lei, and Zhang Haofei to distribute themselves.

Putting on the Ghost Armor and Ghost Gauntlets, Wang Xuan's stamina recovery speed, wound healing speed, stamina, body strength, strength, instantaneous explosive power, movement speed and bouncing power have all increased to 28%.

Putting on the four pieces of ghost equipment, Wang Xuan felt that his strength had improved again, and then took out some third-order alloy equipment in his Xumi mustard seed space and gave them to Gu Manyao and Zhao Lei.

Now Gu Manyao also owns four Tier 3 alloy equipment, plus a Tier 3 ghost boots of excellent quality.

Zhang Haofei's equipment is similar to hers, the same four pieces of metal equipment, plus a ghost armor.

After the equipment was allocated, he checked the two belts, both of which were intermediate storage belts. Wang Xuan began to carefully check the items stored inside.

First pick up a storage belt, which contains 42 medium crystal scales, 237 small crystal scales, 35 bottles of advanced nutrient solution, 21 bottles of primary physical strength water, 9 bottles of primary night

vision water, and 8 primary healing water. Bottle, 15 Explosion Crystals, 14 Smoke Crystals, 3 Flame Crystals, 5 Lighting Crystals, a Mechanical Beast Heart, a rolled up parchment, and a number of spare Tier 3 alloy equipment and a lot of articles for daily use.

Looking at the other storage belt, I found that the contents inside were pitifully scarce, almost empty, with only 72 small crystal scales and a mechanical beast heart. Other than that, there was nothing.

"Strange..." These two storage belts, one belongs to Gong Yangjun, the other belongs to the majestic man, and this storage belt belongs to one of the two, with their status and status as powerhouses that surpass the state of being. , No matter how shabby it is, there are only 72 small crystal scales and a mechanical beast heart.

Thinking of the death of the majestic man, the woman desperately wanted to drag herself to death, and suddenly realized that this belt should belong to the majestic man.

"They should be a couple or husband and wife relationship. They are inseparable at ordinary times. Everything should be on the woman's body, so this man's storage belt is almost this decoration. These 72 crystal scales are estimated to be his private money..."

While guessing, he put the important things in the two storage belts into the Xumi mustard space on his left and right sides. As for the extra third-order alloy equipment, they were also distributed to everyone, and the two machines The heart of the beast was the mechanical beast of Gongyang Jun and the majestic man, given to Zhang Haofei and Zhao Lei respectively, and now they also have their own mechanical beast.

Finally, unfold the rolled up parchment, and you can see a line of words.

"Quest Name: The Legend of the Ghost Suit, Difficulty: Unknown"

Look at the tasks below.

"It is said that some special ghosts are implanted in the third-order high-quality ghost suits, which can evolve ghost suits with stronger defense and attributes."

After that is a map with the word "Ghost Town" written on it.

"Ghost town map... But where is this ghost town?" Wang Xuan pondered slightly and put away the parchment.

Outside, the originally gathered crowd had dispersed one after another, and all the blood on the ground was cleaned up by Qiu Yuanfeng.

Seeing that the sky was getting dark, Qiu Yuanfeng asked everyone to strengthen their vigilance. Although the leader went up, he would try his best to mediate what happened today, but no one can guarantee the result, whether "Rakshasa City" will send more powerful people. To deal with Wang Xuan, everyone did not know, so they could only be vigilant tonight, just in case.

On the other hand, Wang Xuan himself was relatively calm. After sending off Qiu Yuanfeng and others, in the small building, only Gu Manyao, Zhao Lei, Zhang Haofei, Tie Jun, Li Haotian, Bai Yan, Yu Shanshan, Yao Tiande and Duan Chen were left. .

After going through the incident during the day, Yao Tiande and Duan Chen are now grateful to Wang Xuan, and they are truly dead.

Wang Xuan asked them to sit down, then opened the belt of Xumi and took out the hatching corpse.

Losing the central essence, the current hatching corpse looks a little withered.

However, according to the information, in addition to the primordial liquid, the hatching corpse has another purpose, that is, eating the hatching corpse can stimulate the hatching beast and wake it up from its sleeping state.

Gu Manyao and Zhang Haofei are already strong, naturally they don't need it. Zhao Lei is too fast. There is no need to stimulate the hatchling corpse. The remaining six people~www.mtlnovel.com~ There is no sign of awakening the hatching beast. Without this hatching corpse, there is a high probability that they will not be able to break through the adult body and become a powerful person in this life.

I briefly talked about the role of hatching corpses. Gu Manyao, Zhang Haofei and Zhao Lei were just curious about the existence of such a rare treasure, while Tie Jun, Li Haotian and Yu Shan were excited, especially Yao Tiande and Duan who could not break through for so long. In the morning, his whole body trembled slightly with excitement.

So, they also have the hope of becoming a powerhouse?

"I don't know if this information is accurate or not. In short, everyone eat a little and try to see if it can stimulate the hatching beasts in your body."

Later, according to the introduction in the documentation, Wang Xuan cut a piece the size of a chin on the umbrella cover that hatched the corpse, and then divided the piece into six parts: Tie Jun, Li Haotian, Bai Yan, Yu Shanshan, Yao Tiande and Duan Chen, One per person.

"The data says that it only takes a finger to work, and these weights are far more than a finger." Wang Xuan gave these six copies to the six iron soldiers in front of him.

All six nervously picked it up and swallowed it.

They absolutely trusted Wang Xuan and swallowed them without hesitation.

Wang Xuan looked at them, hoping to see some changes.

Bai Yan stroked his head with his hand. He, who had always been taciturn, suddenly shook his head slightly and said, "Head... a little dizzy..."

Tie Jun said: "Yes, I seem to be a little dizzy..."

As soon as he finished speaking, he felt that the world was spinning, and he fell directly from the chair and fell to the ground, motionless. Fortunately, there was breathing in his nostrils, and his heart continued to beat, but he just lost consciousness, as if he was in a coma.

Chapter 178

Meeting the Departed Again

The six fell down one after another. Wang Xuan checked their situation. All six fell asleep and fell into a deep sleep, but they did not see any danger to their lives for the time being, and understood that the hatching corpse should have played a role.

Gu Manyao, Zhao Lei, and Zhang Haofei watched the six people suddenly fall to the ground.

Wang Xuan said: "It's useless to see me, I haven't tried this hatching corpse, I don't know how it should be, but at present, it should be working, let them sleep here, and then talk about it when they wake up."
."

Gu Manyao snorted and said, "Wang Xuan, have you broken through the state of being? What is the growth form above the state of being?"

Like everyone else, she believed that Wang Xuan was already a powerhouse beyond his perfection.

Zhang Haofei said: "Yeah, after becoming the ultimate state, will breaking through again be the same as breaking through into the adult body, and the probability is not only one in ten, right?"

Wang Xuan shook his head and said that he was still in the perfect state, and the three of them were stunned.

Then Zhao Lei said with a look of shock: "Wang Xuan, so you said, you killed three super-achievers with the perfect state?"

Wang Xuandao: "Don't be shocked, it's actually thanks to this worm town, you can't exert the power beyond the state of being here. Although the three of them are the powerhouses of the state of being beyond the state, they are actually equivalent to the state of being here. limit."

Hearing what he said, Zhao Lei accepted it a little easier and said, "Yes, what is Scorpion City like? I guess I will go to Centipede Island for a day tomorrow, and we should be able to break through. Then we will go together. Scorpion City."

For Scorpion City, he is both eager and curious.

Wang Xuan originally wanted to tell them that breaking through the perfect state requires life and death, but suddenly he remembered what Xu Jian and Shu Feixiong had said before, knowing the situation has both advantages and disadvantages. breakthrough.

"What are your wings, it's amazing."

"And what are the eyes on that forehead?"

The three of them seemed to have endless questions. Wang Xuan could only answer them one by one, and chatted with them for a while. They all felt a little sleepy, so they rested.

Tonight, they all decided to stay here. The six iron army fell asleep and had no ability to protect themselves. They were on the side and were relatively safe.

Wang Xuan stayed in Scorpion City for the past few days. He didn't get a good night's sleep. After being idle, he felt sleepy, so he went upstairs to rest first, washed and went to bed, ready to sleep well.

Lying on the bed, all he could think about were the things Xu Jian and Shu Feixiong said during the day about breaking through the state.

"Between life and death, face death head-on, such as the little eagle who was pushed off the cliff by Lao Ji. If he succeeds, he will be able to break through the state. If he fails, he will die. This life-and-death barrier...it's really difficult."

Wang Xuan sighed softly. Before, even if it was difficult to break through to the perfect state, the average probability was only 1 in 12, but at least even if the breakthrough was not possible, there would be no danger. But if you want to break through the perfect state, it is different. , that is death.

"I don't know if Xuancheng will come forward for me and settle Rakshasa City."

He thought of what happened during the day again, and now he already knows that behind Rakshasa there is Rakshasa City, and above Xuangang, there is Xuancheng.

Mi Mi Hu Hu finally fell asleep, and when he woke up, there was already light shining through the glass window.

I slept soundly that night, and no accident happened, and "Rakshasa City" did not send any new strong men down. Wang Xuan stretched on the bed, first took out a bottle of high-grade nutrient solution and drank it, and then put the five Put on the gear again and go down.

In the hall, people's heated discussions could be heard from a distance. Wang Xuan went downstairs and saw that Tie Jun, Bai Yan and others who had fallen asleep last night were all awake. At this moment, they all looked at him with excitement and excitement.

"It's done, this thing really works. Tie Jun and the others said that they could sense that the hatching beast was awakened." Zhao Lei laughed.

Yao Tiande was so excited that he rubbed his hands together in the hall and said, "This is really amazing. My electric beast has always been unable to sense its consciousness, but now... I can clearly sense it."

As he spoke, he looked at Wang Xuan with gratitude in his eyes.

He understands that he can have all these things, all given by Wang Xuan.

Wang Xuan smiled and nodded: "That's good, I will strive for everyone to break through to the perfect state in the past few days."

Yao Tiande said: "As long as the hatching beast is awakened, it will be easy to break through to the adult body. We only need to absorb enough energy for promotion."

"By the way, is there any new news from Rakshasa, did Qiu Yuanfeng say anything in the morning?"

Gu Manyao shook his head and said, "Not for now. Qiu Yuanfeng came here before, but I didn't bother to see that you were still sleeping. When he left, he said that the leader had not returned, and there was no movement from the Rakshasa side. This is a good phenomenon, indicating that The leaders should have persuaded or stopped Rakshasa City, otherwise, it is estimated that someone came down last night."

Wang Xuan sighed: "So what are your plans today?" He couldn't have stayed in this worm town and waited to see the attitude of Rakshasa City, whether he would continue to send stronger people to deal with him, he decided to first Go to Scorpion City and complete the mission of the origin of the mechanical beast that you have not completed before.

As for the life and death hurdles that he needs to go through to break through the state, he thought about it for a long time last night, and asked himself, how difficult is it for a person to completely abandon life and death to meet death? This level is not easy for him.

"If I knew it earlier, I shouldn't have asked Xu Jian. If I didn't know, maybe when I was in danger, I might have made a breakthrough without knowing it. Now that I know it, I have to worry about gains and losses. If you get rid of your inner demons, most of them won't be able to break through."

He finally understood now why Shu Feixiong and the others would say that it is better not to know the existence of life and death.

"However, if I don't know the existence of this life-and-death barrier, if I really encounter a life-and-death danger that I can't handle, such as the fearful king, most of them will use the Book of Giants... If I don't encounter real life and death, I still can't break through."

Wang Xuan smiled wryly, knowing that this level was ten times more difficult for him than the other elites.

"Wang Xuan, what are you laughing at? We still decided to go to Centipede Island. I want to try to make a breakthrough today."

Zhao Lei couldn't help raising his voice when he saw that Wang Xuan was a little distracted when he was talking.

Zhang Haofei said, "Since the Rakshasa crisis is over, Gu Manyao and I shouldn't have to accompany you anymore. I want to go to Scorpion City to see."

He has broken through the state and wants to become stronger. He has been staying on Centipede Island for the past few days, and he has long been impatient.

Wang Xuan raised his head, thought for a while, and said, "Since you have all awakened the hatching beasts, and there is hope for a breakthrough, then let's go to Scorpion City together. The weakest monsters in Scorpion City are all five-star dangerous monsters. It's more than enough to kill ten centipedes, it's too slow to go to Centipede Island."

Hearing him say this, everyone's faces showed excitement. Zhao Lei smiled and said: "Of course it's good to be able to go to Scorpion City. If you can go to Scorpion City, who would go to Centipede Island?"

This time, even Li Haotian, who has always been cautious and unwilling to take risks, has no objection. After all, everyone saw Wang Xuan's skills yesterday. With his leadership, I believe that no matter how dangerous this Scorpion City is, he can keep them safe.

Wang Xuan smiled and said: "Okay, then everyone prepare, we will set off in half an hour, by the way, if you see a stall selling explosive crystals and defense crystals, you can buy some appropriately, these two crystals are very versatile. , at a critical moment, it may save lives."

"Understood." Everyone nodded in understanding.

After a little preparation, ten people filed out of this small building, preparing to go to Scorpion City.

Now Zhang Haofei and Zhao Lei also have mechanical beasts. Zhang Haofei especially likes to show off. When he goes out, he activates the mechanical beast and summons a huge mechanical bear.

The two mechanical beasts of him and Zhao Lei are from Gongyang Jun and Majestic Man. This mechanical bear beast has all six crystals. Although they are all in their initial state, they are not simple. The mechanical beast of the strong.

He rode this mechanical bear beast in his stride, wearing four third-order alloy equipment and a third-order high-quality ghost equipment. The top-level powerhouse immediately attracted the attention of countless people.

Zhao Lei shook his head. Although he wanted to show off, Wang Xuan and Gu Manyao were not summoned, so he had to endure it.

"Zhang Haofei, I really have you, come down quickly, you act like we are your sidekicks." Zhao Lei was dumbfounded.

Zhang Haofei snorted: "You guys are really, why should you keep a low profile when you have this capital? Besides, yesterday Wang Xuan killed three people in Rakshasa City in front of so many people, and the whole insect town was a sensation. Who else doesn't know him? It's useless to keep a low profile."

Zhao Lei felt that what Zhang Haofei said made sense, and looked around, and sure enough, they had just walked out. Those who noticed Wang Xuan all looked at him with awe in their eyes, and then lowered their heads again, not daring to talk to him. He looked straight.

The current Wang Xuan can be said to be more terrifying than the leaders of the five major forces in their minds.

Wang Xuan ignored this and walked straight to the west side of the square, preparing to go to Scorpion City outside the west gate.

Suddenly, I heard a voice coming from a distance in the direction of the trading area, and the voice was vaguely familiar.

With a heartbeat, he turned his head and looked in the direction of the trading area on the left side of the square. He was far away, and he could only see people coming and going in and out of the trading area. At the entrance of the trading area, there were nine people there, which seemed to be divided. Two gangs, a gang of three people, a gang of six people, the two sides seemed to be talking about something.

Looking from a distance, Wang Xuan saw the appearance of three of them, with yellow scarves tied on their heads, indicating that they were from the "Dynasty", but he didn't know anyone. One of the three was standing in an alloy suit. , It should not be weak, it may be a strong state.

He can only see the backs of the other six people, but he doesn't know what they look like.

Wang Xuan also glanced at it, and was about to continue walking towards the west. At this moment, one of the six people with their backs facing him turned back with a helpless expression on his face, as if he was about to leave the trading house. .

As soon as the man turned around, Wang Xuan immediately saw his face, with white mane and about fifty years old. It was Cheng Aiguo who he knew in the lobby on the first floor.

And the five people standing beside him were Meng Lian, Lu Weichao, Feng Yuan, Wei Zitao and others?

Suddenly seeing them here, Wang Xuan was overjoyed. He felt a sense of intimacy when he was out of town and suddenly met fellow villagers.

At this moment, Cheng Aiguo turned around with a helpless look on his face, as if he was about to leave with Meng Lian and the others. Among the three people facing him, the person on the left flashed, and then circled in front of them again and blocked them.

"Wang Xuan, what's wrong?" Gu Manyao watched Wang Xuan suddenly stop, and looked towards the distant trading area, a little curious.

Seeing this, she immediately recognized it.

"It's them?" Gu Manyao was surprised, and then a happy expression appeared on his face.

Wang Xuan didn't say a word, and walked over there.

He saw that Cheng Aiguo seemed to be in some trouble, and he didn't know why they were blocked by the three "dynasties".

"Thank you for your kindness. I have really promised others, otherwise I will definitely join you." Cheng Aiguo reluctantly responded with a helpless expression. He hadn't seen Wang Xuan and the others walking towards them, but just watched The people of these three dynasties who stood in front of their six people had a fire in their hearts, but they did not dare to break out.

The three people in front of them, the middle one wearing a full set of Tier 3 alloy equipment, Cheng Aiguo is not stupid, this is not a simple role, they just came to Insect Town not long ago, they are unfamiliar with life and dare not offend easily.

Among the three who blocked them, a thin man on the left had a smile on his face and looked very enthusiastic, and said: "Our dynasty is one of the five major forces in Bug Town, join our dynasty, with the protection of our boss Lei Tian, in the future You can walk sideways in Bug Town, no one dares to bully you."

"If you don't believe me, you can ask someone at random. Our boss, Dynasty Leitian, has such a name that everyone should give some face."

The boss standing beside him was the man in Tier 3 alloy gear. This Lei Tiannian was about thirty, with dark circles under his eyes and a reserved smile on his face, but his eyes looked at Meng Lian from time to time.

Today, he brought two of his men to the trading area, and suddenly saw Cheng Aiguo and Meng Lian. When he saw their equipment, they didn't even have a gang logo. Knowing that they were newcomers, he didn't care. The two sides were about to cross each other, and suddenly saw Meng Lian head-on, and his heart moved.

He had seen all kinds of women in Worm Town, and the beautiful and ugly ones were more common, but no woman had ever had Meng Lian's out-of-the-ordinary temperament.

When he saw it, he couldn't move.

The two of his subordinates looked at the boss's appearance, and knew that Lei Tian was a lecher. This was because they fell in love with Meng Lian again, so they stepped forward to block Cheng Aiguo and Meng Lian, pretending to be chatting and making friends, and very enthusiastically invited them to join the dynasty. .

Cheng Aiguo was also a good person. Although the three people in front of him seemed very enthusiastic, there was something wrong with Lei Tian's eyes when he looked at Meng Lian. The dark circles under his eyes were obviously excessive indulgence.

He doesn't know what's going on in Bug Town now. He doesn't know who is good and who is evil. The best way is to keep a distance from all parties, so he uses the excuse that he has promised others and can no longer join their dynasty.

Lei Tian originally wanted to invite them to join the dynasty, so he had the opportunity to get along with Meng Lian a lot. With his graceful demeanor and strength, he would definitely be able to attract her and take the initiative to let her go.

He had never thought of using coercion to get Meng Lian. At first, he was reserved and graceful. At this moment, when he heard Cheng Aiguo's pushback, he was a little annoyed and couldn't help but say, "You said you promised someone else, then you agreed. Who? If you really promised others in advance, I will not force you."

He knew that these six talents were coming soon, so they must be making excuses.

Cheng Aiguo was really stopped by his question, his mouth was slightly open, and he couldn't answer for a while.

Seeing that he guessed correctly, Lei Tian smiled and was about to speak when Meng Lian suddenly said, "We promised Wang Xuan that we would join them."

Lei Tian heard Meng Lian speak suddenly. The voice was pleasant to the ear, like fairy music, and the bones all over his body became lighter. He smiled and said, "You promise Wang... Wang..."

Devour Novel Network

Suddenly the smile on his face froze. Halfway through his words, his eyes widened, and he almost cried out, "Wang Xuan?"

Wang Xuan's name, from the night of the tavern, has caused a sensation in Bug Town, and after going through last night's events, now in Bug Town, who else has a louder name than him?

Meng Lian thought that Wang Xuan had come several days earlier than the six of her own, and now that Cheng Aiguo was unable to answer Lei Tian's question, she couldn't help but say Wang Xuan's name.

When she answered, she was also uneasy, not sure if it was useful, but she didn't expect Lei Tian to react like this, screaming like a ghost, which startled her and Cheng Aiguo.

The two men who came with Lei Tian were also startled, and they all reacted immediately, thinking that Meng Lian had just come, how did they know Wang Xuan, and Wang Xuan was even more unlikely to invite them to join the Xuan Gang. Others heard Wang Xuan's name and knew about Wang Xuan's deeds, so now they say Wang Xuan's name to scare them.

Lei Tiangan smiled and said, "You are really joking. If you know Wang Xuan, I also know King Rakshasa..."

He just said this, UU reading www.uukanshu.com's expression suddenly froze, his eyes widened, his whole body seemed to be fixed there by an invisible force, motionless, his body froze from head to toe, as if unable to move.

He couldn't believe it, he actually saw Wang Xuan.

Wang Xuan was walking towards them.

"Wang Xuan?" Cheng Aiguo and Meng Lian finally saw Wang Xuan. Suddenly, Cheng Aiguo shouted excitedly and rushed up to meet Meng Lian.

"Brother Cheng, Meng Lian." Wang Xuan looked happy when he saw them.

Lei Tian's body froze in place, the whole person was like petrification, and the two men who followed him were also pale, and they couldn't believe their eyes.

They actually knew Wang Xuan?

Damn, they actually want to dig the person invited by Wang Xuan?

Maybe Meng Lian is Wang Xuan's woman, no wonder her temperament is like a fairy, and only a man like Wang Xuan is worthy of her.

Although Lei Tian is a strong person, the temperature is not low now, but he feels his legs are shaking slightly, and his body is cold.

Wang Xuan and the others must have seen everything they said when he blocked Cheng Aiguo and Meng Lian. What should I do? Now how to do?

Thinking of last night's scene of witnessing Wang Xuan killing the three envoys who came down from the "Rakshasa City", he only felt the blackness in front of him, the sky was spinning, and he could hardly support his body.

Although he can become a strong person, he is used to seeing life and death, but what he sees is the life and death of others, which does not mean that he is not afraid. The more he experiences, the more he cherishes his life.

Chapter 179

The First Holy Seal

"Hehe, you guys finally came up." Zhang Haofei, who was riding the mechanical bear beast, laughed hehe, then jumped down.

Cheng Aiguo smiled and said, "Look at you guys, how are you doing well here?" Looking at the mighty and domineering mechanical bear beast in front of him, and looking at the equipment on everyone's body, all of them are not simple, with a surprised look on their faces. God, people have changed so much.

As for Yao Tiande and Duan Chen, he didn't know them, and he knew that they should be new friends they made.

Zhang Haofei looked at Cheng Aiguo's surprised look, and smiled proudly: "Of course."

Meng Lian pursed her lips, suddenly turned around and glanced at Lei Tian, and said playfully, "Look, I didn't lie to you, I really know Wang Xuan."

Hearing what she said, Wang Xuan looked at Lei Tian.

Lei Tian's whole body seemed to be choked by a thunderstorm, he shook his head, forced a smile, and said, "Yes, you didn't lie to us..."

Immediately afterward, he greeted Wang Xuan with a salute, obviously he had adjusted his mentality in this short period of time and became full of smiles: "Hello brother Xuan, I am Lei Tian of the dynasty, yesterday you did those things in Rakshasa City. Dude, he's really handsome, I was so excited at the time, I wish I could follow Brother Xuan and hang out behind you."

He waved his arms as he spoke, looking excited.

Cheng Aiguo, Meng Lian and the others were dumbfounded when they saw that Lei Tian changed his face so quickly.

They didn't understand that looking at the equipment Lei Tian was wearing, he was definitely not a simple person. How could they see Wang Xuan like a mouse seeing a cat.

Seeing Lei Tian's attitude, Wang Xuan could only nod his head slightly.

Zhang Haofei came up, looked at Lei Tian and said, "Since you want to follow our brother Xuan so much, why are you hesitating, get out of the dynasty and join our Xuan Gang."

Lei Tian's face froze, he just said it casually, and now Zhang Haofei has run on it, he smiled and nodded in embarrassment, but he couldn't continue.

Wang Xuanze looked at Meng Lian and Cheng Aiguo: "What happened just now?"

He wanted to ask what just happened, whether the three Lei Tian were embarrassing or bullying them.

Cheng Aiguo knew what Wang Xuan meant, he smiled and said: "They are very enthusiastic and want to invite us to join the dynasty, but we refused."

Wang Xuan knew what Cheng Aiguo said, indicating that he was not bullied by Lei Tian and the three of them, so he nodded slightly and said, "So that's what happened. We belong to the Xuan Gang now. You should also join the Xuan Gang."

Cheng Aiguo smiled and said, "Of course, we said it before you left a few days ago. Anyway, you will definitely follow you when you come up."

"Come, come with me." Wang Xuan was in a good mood and led them towards the glass column in the center of the square.

Watching them leave, Wang Xuan didn't compare himself with himself, Lei Tian wiped the cold sweat from his forehead and muttered: "Good guy, it's really dangerous, it seems that **** is also risky. Trouble, fortunately, I didn't want to use coercion, otherwise today would be over."

He understood that if he had planned to use coercion from the beginning, looking at Wang Xuan's performance yesterday, he would probably be a corpse lying on the ground by now.

Even Wang Xuan, a big man from the "Rakshasa City" above, was able to kill him, not to mention that he was only a member of the "Dynasty".

Wang Xuan brought Cheng Aiguo and Meng Lian to the glass column in the center of the square.

There are people from the five major forces here. Their main task is to welcome the newcomers and explain to them some precautions in Bug Town.

Several people from the Xuan Gang saw Wang Xuan's group suddenly appear, and they were all shocked, and they rushed up to greet them and saluted respectfully.

Wang Xuan said: "Six of them, join the Xuan Gang, you go through the formalities."

Then take out 360 small crystal scales and give them to them.

Cheng Aiguo is a newcomer, joining for the first time, 60 coins per person, 360 coins are needed.

These people looked at the crystal scales that Wang Xuan took out, and they shrank their hands wherever they dared to take them.

Zhang Haofei said, "Boss, do you still need to hand over these crystal scales? I don't think even the leader of the Xuan Gang would dare to ask you to ask for it. You don't need to hand it in. Hurry up and get your bracelets and register your information." After what happened, Zhang Haofei's name for Wang Xuan changed without knowing it.

For a long time, he had a faint desire to compete with Wang Xuan for the boss, and he did not believe that he could not surpass Wang Xuan.

But it was only yesterday that he truly understood what despair and absolute disparity meant.

You have just reached the perfect state, and Wang Xuan has already been able to kill the powerhouse that surpassed the perfect state? The gap between yourself and him is already the difference between heaven and earth, what else can you use to overtake and catch up?

At this moment, in his heart, he really regarded Wang Xuan as the leader and the boss.

Hearing Zhang Haofei's shouting, these Xuan Gang members nodded, facing Wang Xuan and the group, they were all a little nervous.

Wang Xuan frowned, but his thoughts were different from Zhang Haofei, 360 small crystal scales were nothing to him now, what he didn't like the most was to press people with power and not follow the rules, and said, "Then, It's okay, since this is the rule of the Xuan Gang, it should be followed, and no exception can be made because of anyone."

After speaking, he forced these people to accept their own crystal scales.

Everyone around is watching, including some people from other forces, seeing this scene, there are some complex expressions in their eyes.

With Wang Xuan's current power and strength in Worm Town, who would dare to ask him for this crystal scale if he didn't give it up, but he actually took the lead in complying with it, and personally took out so many crystal scales.

I don't know why, but when I saw it, I was inexplicably moved.

These members of the Xuan Gang took the crystal scales in their hands, with excited expressions on their faces, busy registering for Cheng Aiguo to join the Xuan Gang and handing out bracelets.

Cheng Aiguo was only now really aware of Wang Xuan's power and status in this insect town, and he was full of emotion.

It had only been a few days, and he felt that the most correct thing he had done was to befriend Wang Xuan.

"Wang Xuan, I won't be polite to you. We really can't get so many crystal scales together."

Wang Xuan stretched out his hand and lightly hugged his shoulder before saying: "Tell me these words, that is to see the outside world."

Then he opened the Sumeru mustard space, first took out an intermediate storage belt and gave it to him, and then took out some extra third-order alloy equipment and second-order fine-quality equipment stored in the Sumeru mustard space. , stuffed him.

"I don't know which ones you can use and which ones you don't. I'll give them to you and see for yourself."

Afterwards, he gave them a copy of the insect town map and the scorpion city map.

"Familiarize yourself with Insect Town first, then go to the Snake Territory outside the East Gate. After you have broken through to the adult body, you can go to the Centipede Island outside the South Gate. By the way, after you have broken through to the adult body, remember to come to me."

Wang Xuan pulled Cheng Aiguo and gave careful instructions.

"You can see the three small buildings over there. They are all ours now."

Zhang Haofei interrupted proudly, "One of the buildings is mine, the one on the far left."

After confirming that they were all familiar, he asked about the current situation on the first floor. After chatting for a while, the two sides broke up. Now Wang Xuan wants to take everyone to Scorpion City, so naturally he can't accompany them to Snake Domain.

Before leaving, Zhang Haofei said loudly: "Cheng Aiguo, remember, whoever dares to bully you, remember to report my name..."

After speaking, I suddenly thought that my name seems to be useless in Worm Town now, so I hurriedly added: "Of course, it's mainly the name of the boss."

Cheng Aiguo nodded with a smile. After experiencing the Lei Tian incident, he only now knew that Wang Xuan's name was so effective in Bug Town.

After the two sides broke up, Wang Xuan ten people continued to move towards Scorpion City.

After seeing Cheng Aiguo and Meng Lian, Wang Xuan was in a good mood.

When they arrive in the Snake Domain, it is not difficult for them to break through to the adult body, and then they can take the hatching corpse, so there is hope to break through to the perfect state.

He has always been very fond of Cheng Aiguo and Meng Lian.

Meng Lian had saved her own life. This girl is truly pure in heart and a kind and good girl.

"If Meng Lian can break through to the perfect state, she doesn't know what kind of abilities her elf will evolve. By the way, she should be able to easily break through the perfect state without hatching a corpse."

Thinking that her hatching beast can be summoned from the beginning and has self-awareness, this breakthrough is not too simple for her.

After leaving the South Gate, Wang Xuan took out the heart of a mechanical beast and released Xiao Gu.

The little girl let out a faint roar, her body swelled, and she quickly landed with four claws, one size larger than Zhang Haofei's mechanical bear beast.

"It can still make sounds now?" Gu Manyao noticed, with a curious look on his face.

Wang Xuan snorted and stepped forward.

Gu Manyao, Zhao Lei and Yu Shanshan all summoned their own mechanical beasts one after another.

Gu Manyao is riding a mechanical fox, Yue Lei is riding a mechanical beast horse, and Yu Shanshan is riding a mechanical cheetah.

The rest of Tie Jun, Li Haotian, Bai Yan, Yao Tiande and the others who had no mechanical beasts could only watch with envy.

There was actually a giant mechanical wolf in Wang Xuan's Xumi mustard seed space, but he didn't take it out and wanted to leave it to Meng Lian, as a repayment for her kindness for saving him that day.

"Don't be envious. I believe that following the boss, you will have it soon." Zhang Haofei laughed.

Wang Xuan gave him a mechanical beast yesterday, which made him excited and stayed up all night.

Li Haotian smiled and said, "Of course, we all believe in the boss."

Wang Xuan heard that everyone had changed their names unknowingly.

It turned out that they were basically called by their own names.

"Let's go, I'll take you to Scorpion City to see." Wang Xuan smiled, the little girl had the same mind with him, and jumped forward first, rushing towards the desert facing him.

Gu Manyao, Zhao Lei, Zhang Haofei, and Yu Shanshan followed closely behind on a mechanical beast, and the other five could only run wildly on foot.

Xiaoguo is the fastest, and can easily throw everyone away. Wang Xuan signaled that it will slow down so that everyone behind him can keep up.

The ten-person team was mighty. There were three other people riding mechanical beasts in the distance. They saw it from a distance. When they saw Wang Xuan who was the leader, a look of fear appeared on his face, and he immediately changed direction and went further away. .

The three of them are Rakshasa's perfect powerhouses. When they saw Wang Xuan, they panicked and just wanted to stay away as much as possible.

Wang Xuan also noticed, Dan Dan smiled, he was not a murderer, as long as the other party didn't provoke him, he would not be able to kill anyone who saw Rakshasa.

Everyone ran for a few kilometers and soon arrived at Scorpion City.

"This scorpion city is so dilapidated, it looks like the ruins of an abandoned ancient city." Zhao Lei slowed down the speed of the mechanical beast, narrowed his eyes slightly, and looked in front of him.

Wang Xuandao: "The monsters here are mainly sand scorpions, with a five-star danger level. Everyone should be alert. Don't let your guard down just because you say follow me."

Seeing Wang Xuan's warning, everyone didn't dare to take it seriously, and they all showed their hatching beasts.

"Go." Wang Xuan rode Xiaojiao and jumped in through a gap in a collapsed wall, followed by four people riding mechanical beasts, and then Tie Jun and Li Haotian.

"You all come down." Wang Xuan looked at Zhang Haofei and Gu Manyao, who were not strong enough to ride a mechanical beast to hunt sand scorpions.

The four of them got off the back of the mechanical beast and entered a state of fusion.

"After the sand scorpion appears, the two of you have to hunt and kill on your own. I won't help you. If you don't experience life and death, don't try to improve your strength."

Wang Xuan looked at Gu Manyao and Zhang Haofei and said in a deep voice, then looked at Zhao Lei, Tie Jun and the others, and said, "You follow me closely, I will severely injure those sand scorpions, and then let you kill them, don't take risks. , any sand scorpion can easily kill you."

Zhao Lei, Tie Jun and the others nodded nervously, realizing the power of this sand scorpion.

"Okay, then Manyao, you and Zhang Haofei take the lead, the others follow, I'll be the last."

In order to train them, Wang Xuan asked Gu Manyao and Zhang Haofei to take the lead in walking inside, followed by Zhao Lei and Tie Jun. He rode Xiaojiao and fell to the back, stretched out his right hand, and the two metal tentacles extended to the limit of six meters long.

"You seven, don't be more than six meters away from me."

"Okay." Zhao Lei stretched out his right hand, and an eyeball appeared on the back of his hand. Although Wang Xuan was following him, he still felt a little nervous.

Gu Manyao and Zhang Haofei began to move forward cautiously.

Gu Manyao held the Yaochi Saber in his right hand, Zhang Haofei's skeleton on his upper body showed, and a pair of skeleton arms swayed slightly, ready to attack at any time.

Everyone walked forward about thirty or forty meters, and suddenly the yellow sand in front of them lifted up, and a huge sand scorpion jumped out of the yellow sand and attacked Gu Manyao and Zhang Haofei.

Around them, sand scorpions appeared one after another and surrounded them.

Gu Manyao said nothing, holding the Yaochi knife in both hands. In order to kill with one hit, she made the strongest attack. The Yaochi turned into a two-meter-long giant blade, and slashed out into the air, a giant knife. Breathing out the knife, breaking through the yellow sand, scoffing, flying several meters, and stabbed the sand scorpion that was thrown away from the center, the knife light penetrated the body, and it was still on the move, and it flew out. Ten meters away, this is exhausted.

"Amazing!" Seeing that Gu Manyao took the lead and killed a sand scorpion, Zhang Haofei was not to be outdone, and immediately activated the "cyclone claws" of his arms to pounce on the other sand scorpion.

Perhaps it was because of the large number of them. This time, the number of sand scorpions suddenly appeared around them, more than fifteen.

Sha Scorpion's strength is much stronger than Zhao Lei and the others. With terrifying power, he frantically surrounded him. Everyone remembered Wang Xuan's instructions and did not dare to rush out to fight first.

Wang Xuan controlled two metal tentacles, opened bows from left and right, and shot them out in succession.

The crisp sound of "papapa" was incessant, he avoided the key point of the head, and only attacked the foot or the back half of these sand scorpions, severely injuring them.

In the blink of an eye, the four sand scorpions were severely injured, causing them to lose their ability to resist and fall into the yellow sand.

Only then did Zhao Lei, Tie Jun, Li Haotian, Bai Yan and Yao Tiande attack the four severely injured sand scorpions.

The energy obtained by killing one sand scorpion can surpass that of killing ten silver-backed centipedes. Zhao Lei launched the "Cross Holy Light", volleyed and smashed the head of a sand scorpion, and absorbed a white scale. Immediately I felt the white light in my right hand fluctuate violently.

As long as the energy in this white light no longer overflows, it is not difficult to break through to the perfect state if you want to absorb enough energy.

Wang Xuan straightened his body and got off Xiaojiao's back. Under his instructions, Xiaojiao also saved the sand scorpion. Xiaojiao's current strength is much stronger than that of ordinary sand scorpions.

More than a dozen sand scorpions were severely injured, and they were all handed over to Zhao Lei to hunt them down. Gu Manyao and Zhang Haofei also successfully killed two sand scorpions each, with excited expressions on their faces.

Zhao Lei was about to break through, but now he killed three sand scorpions in a row, only to feel the white light in his right hand fluctuating endlessly, and finally successfully shattered, broke through into the body, and was promoted to the ultimate powerhouse.

Feeling the strengthening of his body, he let out a slight growl from his mouth, the five fingers of his right hand vibrated continuously, the crack on the back of his right hand became bigger and bigger, the flesh rolled to both sides, and the holy eye inside kept expanding outward, like his right hand. A monster hidden inside is struggling to get out.

Tie Jun and Yao Tiande were all watching his change~www.mtlnovel.com~ with envy.

They understood that Zhao Lei had successfully made a breakthrough, and among them, there was one more powerhouse.

This change lasted for a few minutes before it stopped slowly. Everyone watched Zhao Lei's mouth suddenly drank slightly, and when he raised his right hand, he opened it, and a round of white light appeared around his holy eye. This white light it formed a circular wheel shape with countless complex rune patterns on the surface, like a magic circle.

This is the fifth ability that he has broken through and comprehended.

With the low drink, he slammed his right hand to the ground. Everyone saw that the round white pattern had disappeared into the yellow sand and disappeared, and everyone around him felt their bodies sink, like a force under their feet. Pull, to sink into the yellow sand.

This feeling is very scary, and everyone's first reaction is to struggle up.

However, this terrible feeling lasted only for a moment, and Zhao Lei withdrew his hand with a smile on his face.

"What kind of ability is this?" Gu Manyao was the first to call out.

"Sage ban first, I can ban this place." Zhao Lei smiled, he felt the power of this power.

"Amazing, with this ability, can't you ban enemies or monsters?" Tie Jun thought of the terrible encounter just now, and couldn't help scolding.

Wang Xuan said, "You all have to work hard. How did you feel just now, is that energy still overflowing?" He said while looking at Tie Jun, Yao Tiande and the others.

"There is one more point, but the overflow speed is obviously much slower, it should be faster." Tie Jun replied.

Bai Yan shook his head slightly, indicating that he absorbed energy and no longer overflowed.

Chapter 180

Wang Xuan saw everyone's performance, and most of them were the same as Tie Jun. The energy loss rate of their hatched beasts slowed down, but it had not stopped completely. Obviously, it would take a few days for them to break through to the perfect state.

Only the white light in Bai Yan's right hand absorbs new energy and no longer overflows, which means that he only needs to hunt some sand scorpions and absorb enough energy to successfully break through like Zhao Lei.

"Zhao Lei, you are in your perfect state now. You are leading the way with Man Yao and Zhang Haofei. You need to hone yourself, hunt sand scorpions, and get used to the power you just acquired."

Zhao Lei snorted and said, "I see, don't worry, we won't embarrass you."

After speaking, he followed Gu Manyao and Zhang Haofei, the three of them lined up and walked forward.

"Wait a minute." Wang Xuan took out the map of Scorpion City, checked it, and said, "Go in that direction."

He marked the entrance address of the "Mystery of the Origin of Mechanical Beasts" quest on the map and decided to set off in that direction.

"Okay." Zhang Haofei shook his body, swayed his body, and rushed out first.

Gu Manyao and Zhao Lei were unwilling to follow, followed by Tie Jun and Bai Yan and others.

Wang Xuan rode on Xiaojiao and followed behind.

This time, after walking about 100 meters, everyone was attacked by a group of sand scorpions again.

Nearly twenty sand scorpions appeared and immediately surrounded the crowd.

Zhao Lei activated "First Saint Ban and Seal", a white round wheel appeared in the holy eye, and he was smashed into the ground. The sand scorpions that appeared around were suddenly sucked by a force and could not move.

Seeing this, Bai Yan immediately launched the "Witch Blood Jet" to weaken their combat power.

Gu Manyao and Zhang Haofei rushed out from left to right.

Wang Xuan nodded secretly, everyone's abilities were well coordinated, and their strength was definitely not weak.

The two metal tentacles were pulled out in the air, and the little girl let out a faint low whistle. The body was protected by the energy shield.

"Bai Yan, let's help you break through first." Wang Xuan knew that Tie Jun and Li Haotian were drawing energy, which would continue to overflow and waste.

Bai Yan nodded, killed five sand scorpions in a row, absorbed five white scales, shattered the white light in his right hand, and then re-condensed into a more powerful white light, and finally successfully broke through the adult body and was promoted to the fifth powerhouse among the crowd. .

His witch blood has broken through to the perfect state. The witch blood on his right hand is surging, along his right arm, front chest and back, all the way to his left arm. Except for his head, his upper body is completely covered with witch blood, forming a set of blood crystal armor, his arms are covered with blood crystals, turning into a pair of blood crystal giant swords.

Seeing that Bai Yan has become a powerhouse, Yu Shanshan has a happy look on her face, she is happy for Bai Yan.

"Another breakthrough, I don't know when it will be my turn." Li Haotian looked envious, feeling that although his Orion was awakened and had a sense of himself, the white light in his right hand would still be able to absorb energy after absorbing energy. Overflow, but the speed of overflow is gradually slowing down, which means that Orion is changing.

"This kind of sand scorpion is really poor, it doesn't even have a single crystal scale." Zhang Haofei killed a sand scorpion, kicked it and rolled it out, shaking his head.

This time everyone stopped and rested for a while, Zhang Haofei saw four people appearing in the distance, surrounded by a few sand scorpions.

"Those who seem to be from the Justice League, should we go over?" Zhang Haofei looked at Wang Xuan.

Wang Xuan said: "Don't worry about it."

The four people in the distance killed a few besieging sand scorpions, and they also saw ten people on Wang Xuan's side, but they didn't approach, and left to the other side.

"Okay, continue." After a short rest, Wang Xuan stood up and let everyone continue to go deeper.

For the next half a day, everyone kept rushing towards the ancient temple at the entrance of the "Origin of Mechanical Beasts" mission. They encountered sand scorpions from time to time. Now Gu Manyao, Zhang Haofei, Zhao Lei, and Bai Yan are all powerful players. First, cooperate with each other, even if the number of sand scorpions exceeds double theirs, they are not their opponents.

"Bai Yan's witch blood can reduce the strength of these sand scorpions, and Zhao Lei's 'First Saint Ban' can temporarily ban these sand scorpions and affect their speed. The combination of these two abilities is indeed powerful."

Wang Xuan is gradually making fewer shots now, mainly leaving it to the four of Gu Manyao to hunt and kill, and his mind begins to be distracted thinking about breaking the "life and death".

He wasn't going to tell Gu Jianyao about this matter.

"If I can break through and help them break through their state, it will be much easier, just wait for them to save enough, I will find a way to take them to some dangerous place, I will hide in the dark, when they face the impossible The monsters resisted will inevitably be in danger of life and death... If you can break through, it will be better, if you can't break through, I can still help you at the most dangerous time..."

After thinking about it, Wang Xuan slowly thought of breaking this "life and death barrier", and there is actually a method similar to cheating.

But this method has a premise. It is best not to know that there is a "life and death barrier", and to know that there is a secret protection by a master. Only then can there be no chance of luck, but it is possible to break through.

"But all of this is up to me to break through first."

Wang Xuan sighed secretly, in this scorpion city there must be no monsters that can threaten him, and the greatest hope lies in the insect country.

"The worm country north of the worm town is the place where the worm tide originated. There is a **** tower at the end of the worm country, and the tooth of the hellhound is there. There may be enough monsters to threaten my life. Wait for this mission. When it's done, I'll go to Insect Kingdom and Hell Tower to see."

After making a decision, Wang Xuan relaxed a little. Under his instructions, everyone finally came to the ancient temple again.

Wang Xuan got off the back of Xiaojiao, entered the dilapidated ancient temple, peeled off the yellow sand in the ancient temple, and immediately revealed a huge flat box, opened the box cover, and revealed the entrance leading to the underground.

"I didn't think there was an entrance here." Everyone gathered around, secretly amazed.

Wang Xuan summoned Xiaojiao and entered a state of integration, and then slid down the entrance.

"There will be mechanical undead here. They are five-star and half-dangerous monsters. They are much more powerful than sand scorpions. They are equivalent to the medium-strength powerhouses among the elite powerhouses. You have to be careful."

Wang Xuan took out a lighting crystal and slipped down first. The other nine people followed the landslide one after another and entered the huge passage below.

"The ground seems to be full of mechanical beasts falling apart." Yu Shanshan glanced at it and was secretly surprised.

Gu Manyao said: "Looking at the rust spots on the surface, it should have been a long time."

Wang Xuan sighed: "I'll lead the way this time."

After speaking, the state of integration with Xiaojiao was lifted, and lead the way first, Tie Jun and Li Haotian were weak and weak, and walked in the team, and then Gu Manyao and Zhao Lei, the four strong ones, arranged for Xiaojiao to be cut off.

Ten people and one beast moved forward along this passage, and soon encountered a mechanical undead.

The five-star and half-dangerous mechanical undead is much more powerful than the sand scorpion. Wang Xuan didn't dare to be careless, and the two metal tentacles were pulled out like a giant python.

This time, Wang Xuan didn't hold back any more, he opened the way first and killed him all the way.

Gu Manyao, Zhang Haofei, Zhao Lei and Bai Yan are also constantly practicing and cooperating with each other, honing their combat experience and improving themselves in battle.

Soon Wang Xuan led the crowd to the end of the passage and opened the stone door at the end.

The inside of the stone gate was relatively dark, and Wang Xuan walked in slowly with the lighting crystal in his left hand.

Inside this stone gate is a huge factory, which seems to have been abandoned for many years. Wang Xuan saw a lot of rusted giant machines, but everyone could not recognize what these machines were.

Looking at the parts of the mechanical beasts scattered all over the ground, Zhao Lei narrowed his eyes and said, "Could this be the factory that makes the mechanical beasts?"

Xiaoguo entered here and seemed to be a little restless.

Gu Manyao said: "It should be almost the same. The name of this task is the mystery of the origin of mechanical beasts. I encountered the mechanical undead before, and there are so many scattered mechanical beast parts on the ground. It should have been the factory that produced mechanical beasts in the early days. ."

Zhao Lei said: "In this way, this is the place where the mechanical beasts originated. It seems that the mechanical beasts are all manufactured in these factories, just like the factories that make robots, which can be mass-produced. The only difference is the technology of this factory. The level is very high, much better than us humans."

Wang Xuan's thoughts were similar to theirs, and he walked in slowly while observing the surroundings.

The height of this giant factory is more than 20 meters, the length and width are more than 100 meters, and there are rows of giant machines. It looks like an assembly line in the factory, but it is now abandoned and stopped.

Wang Xuan took out the parchment and found that the map on it had changed into the appearance of the giant factory in front of him, and the content of the tasks on it had also changed.

"This is an abandoned mechanical beast factory. There is a huge secret hidden here. It is related to the reason why this mechanical beast factory was abandoned. If you look carefully, you may find something."

"Is there a huge secret hidden? Everyone is looking for it and tell me what you find, but don't get too far from each other to prevent danger."

Under Wang Xuan's instructions, the crowd spread out a little, and began to follow the abandoned factory assembly lines, hoping to find something.

Wang Xuan looked at the giant machines and saw mechanical parts scattered all over the ground. He didn't find anything special for the time being. After walking in for about 100 meters, they arrived at the end of the giant factory. Against the wall, there is an office-like room surrounded by several giant glass. Through the glass, you can see that there are some tattered tables and chairs, and many parts are stacked on them.

Wang Xuan pushed open the glass door with a metal tentacle, made sure there was no danger inside, and walked in slowly.

Approaching the table, I soon saw a faintly yellowed blueprint with some parts pressed on it.

Take these parts away and pick up the drawings carefully.

The material of this drawing is somewhat similar to parchment paper, so it has not broken after so long.

This drawing uses a lot of lines to draw six mechanical drawings. Looking at the appearance of these mechanical drawings, it happens to be the six parts of the head, hands, feet and body.

"If these six parts are combined, it seems to be a human-shaped mechanical beast. Is there still such a mechanical beast?" Wang Xuan pondered.

Gu Manyao and Zhao Lei also came in and began to search around here, hoping to find something.

Wang Xuan couldn't see anything more valuable on the drawing, so he turned the drawing over, only to find that there were lines of tiny characters written on it, and it was the text he knew, but it looked rather scattered.

Wang Xuan looked down.

"The top has already decided on the investment plan..."

"The technology of mass-produced mechanical beasts is very mature, but they are not satisfied."

"They were obsessed with creating life... which used to be the realm of the gods..."

"...However, they are not satisfied with the power of mechanical beasts and want to create the ultimate mechanical beast..."

"Give her divinity..."

"She will be the **** of all mechanical beasts..."

"The Mechanic God plan is going well, she will gain divinity..."

"The situation is very wrong. Regarding her test today, all the data are perfect, but it is so perfect that it makes people feel wrong..."

"...she deceived us..."

"...finished..."

After seeing the last sentence "finished" written on it, Wang Xuan checked other places carefully, and found no similar written records.

Carefully read these fragmentary records again, and then hand them over to Gu Manyao and Zhao Lei, let them take a closer look.

Gu Manyao and Zhao Lei huddled together and looked at the lines of words on it, and the expressions on everyone's faces showed shock.

"What are your thoughts?" Wang Xuan looked at them.

"If the above record is true..." Zhao Lei once again showed his talent for thinking and reasoning, narrowing his eyes, and said, "The owner of this mechanical beast factory seems not satisfied with the mechanical beasts produced, and wants to Create the ultimate mechanical beast, which is the so-called

mechanical **** written on it, but it seems that there is a problem with this mechanical god, is this the reason why this factory was abandoned?"

Wang Xuan snorted and said, "Judging from the current text on this, this should be what it means."

Gu Manyao pondered: "Not only that, there should be something terrible happened. Of course, if this record is true, where is this mechanical god?"

As she spoke, she turned over the drawings, pointed to the six mechanical drawings drawn on it, and said, "Does the so-called mechanical gods refer to the humanoid mechanical beasts that are pieced together from these six parts?"

Wang Xuandao: "Everything is possible. If this is the answer the mission wants us to find, then the mission should have a hint."

While talking, he took out the parchment again and checked the contents of the tasks on it, but found that there was no change. Could this not be the reason for the abandonment of the Mechanical Beast Factory?

"strangeness....."

Wang Xuan frowned slightly, just as he was about to speak, he suddenly felt the ground shake.

"Um?"

Everyone was shocked, followed by another "Winter" sound, and the ground shook again.

Wang Xuan swayed and swept out. The ground shook for the third time. A huge mechanical arm appeared and slammed into the ground, causing the ground to shake.

The length of this giant mechanical arm reaches two meters, which is larger than the average human body.

With the help of hitting the ground, he rose up into the air, a vertical distance of twenty or thirty meters, hit the ground again, and then vacated again, quickly approaching them.

Everyone was shocked when they saw this power, and Gu Manyao suddenly shouted: "Mechanical God?"

Wang Xuan also immediately understood that the mechanical giant arm that appeared was very similar to one of the six mechanical drawings drawn on the blueprint. It seemed to be a left arm, but the mechanical giant arm did not look complete. There are a lot of metal parts missing on the surface, and there are also dense threads exposed inside.

Wang Xuan opened the eye of the illustrated book to observe, but found that he could not find any information about this giant mechanical arm in the eye of the illustrated book.

In just a short period of time, this giant mechanical arm that was missing a lot of metal parts appeared, as if it had self-awareness.

"Everyone, get out of the way!" Wang Xuan shouted, and took the initiative to meet him. The two metal tentacles extended to the limit of six meters, and they were drawn towards the giant mechanical arm.

There was a crisp sound, and the two metal tentacles slammed into the giant mechanical arm that was caught. Wang Xuan only felt a powerful force erupting from the giant mechanical arm, and immediately bounced his two metal tentacles away. The two-meter-long giant arm appeared in front of him in an instant. Two of its five fingers were missing, and the remaining three giant fingers were opened and photographed towards Wang Xuan.

Looking at the power that it was able to shake the ground, Wang Xuan had guessed its horror~www.mtlnovel.com~ The metal tentacles were shaken back. He was not surprised. The tentacles wrapped around the arm, combined with flesh and blood, and turned into a giant arm of beast.

With a "bang", Wang Xuan punched the giant mechanical arm that was photographed.

The giant mechanical arm vibrated, and Wang Xuan was taken aback. He couldn't blow it away with this punch.

On the other side, Xiao Cheng stretched out a pair of claws surrounded by flames, jumped up in the air, pounced on it, and instantly landed on top of the giant mechanical arm, and the flaming claws caught it.

Tie Jun, Li Haotian, Yu Shanshan, Yao Tiande and the others were only full-bodied, and had long since escaped.

Zhao Lei and Bai Yan, one cast "First Sage Ban", the other cast "Witch Blood Spray".

As soon as "Sage First Banned" came out, under Zhao Lei's control, the giant mechanical arm in the air was affected, and it sank slightly.

"Reborn Financial Giants"

The "Wizard's Blood Jet" launched by Bai Yan instantly sprayed a large amount of witch blood on it and penetrated into it.

Gu Manyao clasped the two-meter giant blade in his hands, grabbed the moment when Zhao Lei trapped the giant arm with "First Saint Banned", and slashed at it in the air.

The piercing sound sounded, and the terrifying blade breath came out and passed over the giant mechanical arm, but the surface of the mechanical giant arm, which seemed to be incomplete, was not damaged at all.

With a "Boom", there was a faint whistle in Xiaogai's throat. Its flame claws caught the Mars on the giant mechanical arm, but it couldn't fully capture it. smashed out.

Zhao Lei's "sage ban" can only seal it for a moment.

The terrifyingness of this giant mechanical arm is far beyond everyone's imagination. In Wang Xuan's view, it is even more terrifying than the six-star danger level Sand Scorpion Lord and Green Poison Lord.
