

Last Building on Earth Chapter 251-255

Chapter 251

Zhao Lei said: "You don't have to worry too much, didn't I say it? Wang Xuan broke the egg and saved us. According to my guess, it should take a while for us to enter the flesh egg, and it may even take a long time before we can get the meat egg. Possibly occupied by the body, from this point of view, the residual spiritual consciousness of these demon monsters should be very weak, so it has to be so, if the spiritual consciousness of these guys is very strong, I don't think Wang Xuan can save us."

Wang Xuan nodded and said: "Yes, although they are known as the seventy-two demon gods, the defensive power of flesh eggs is not strong. The reason should be that the residual consciousness of these demon gods is very weak, not enough to use more powerful forces."

Zhao Lei showed confidence on his face and said, "So, they want to occupy our body, but we can completely destroy and erase their fragile consciousness and truly gain their power."

"Then how to destroy and erase their consciousness?" Everyone was refreshed and asked Zhao Lei one after another.

Zhao Lei spread his hands: "I don't know."

Everyone was speechless, Zhang Haofei said, "Grandma, you don't know how to say so much. It makes us nervous. It looks like we won't be able to sleep tonight."

Zhao Lei said helplessly: "I just mentioned this possibility, but I really don't know how to solve this hidden danger."

Wang Xuan saw everyone's reaction and said, "It's not just the devil, the hatching beasts we have are also likely to backlash and devour our souls."

"What?" Everyone was shocked, and all looked at him immediately.

"Brother Wang, you said that hatching beasts will also backlash?" Yao Tiande was busy asking.

Wang Xuan nodded and said the appearance of the elders of "Xuancheng" that he saw in the third-layer world, and everyone's faces became very ugly.

"When you reach the super state, the stronger the strength, the greater the possibility of being attacked by the hatched beast. Of course, there is no solution. It is said that there is a tree in this third-layer world, called the tree of origin, and the fruit it bears can be Solving this backlash problem can make the soul consciousness of hatching beast and human merge together, regardless of each other."

"I'm thinking, if you get the fruit of this source tree, you can also solve the hidden dangers of the devil in your body."

Zhang Haofei's eyes flashed, and he said, "It turns out that there is such a tree, and it was a false alarm just now. I'm in a super state now. I can go to the third floor. I'll go up to find the tree of the source and bring the fruit back for everyone. ."

Zhao Lei sneered and said, "This tree of origin is so easy to find, that elder in Xuancheng will be attacked by hatching beasts and become half-human, half-monster and soaked in potion? What kind of brain do you have?"

Zhang Haofei's eyes widened and he wanted to have a seizure. Zhao Lei ignored him, looked at Wang Xuan and continued, "I can't guess, is it difficult to find the tree of origin?"

Wang Xuan nodded and said: "Currently, the tree of the source only exists in legends, and there is no clue as to where it is."

Hearing Wang Xuan say this, everyone's faces showed disappointment.

Zhang Haofei said carelessly: "It doesn't matter, life and death have fate, wealth is in the sky, we are still alive today, it means that life is hard, there is God who will take care of us, and we are afraid of an egg."

Wang Xuan looked at Zhang Haofei and admired his courage.

"Don't worry, everyone, I believe that there will always be a way. Zhao Lei said it well, even if the consciousness of the devil is really parasitic in your body, this consciousness must be very weak, and you have the consciousness of hatching beasts in your body..."

Speaking of this, Wang Xuan's heart moved, thinking that the consciousness of these demon gods and the consciousness of hatching beasts are hostile relations. Now both sides are in their bodies. If they lose both, maybe they can reap the benefits of the fisherman, just like themselves back then, the blue crystal The consciousness of scales and the consciousness of monsters are destroyed together, and only one can assimilate them.

"Everything is hard to say now, there may be a turning point, but it is uncertain. In short, remember one thing, no matter what time, you need to be firm, let's go, it's getting dark, go back to Insect Town first."

Wang Xuan comforted the crowd a few words, and then the nine continued on their way and headed for Insect Town.

On the way, he was attacked by a group of spiders, and everyone did not fight. Zhang Haofei had just been promoted to super status, and he wanted to show his strength, so he rushed out first.

The skeletons that have evolved to the super state are powerful. Although they are suppressed by the power of the world here, they can only exert the power of the ultimate state, and they can still easily crush these spiders.

Seeing a spider attacking him, Bai Yan stretched out his right hand, with witch blood surging on it, covering his right arm, turning it into a blood crystal giant sword and swinging it out.

With a "chi" sound, he beheaded the spider that came up, and a large amount of juice splashed out from the spider's body, spraying it on his head and face.

Bai Yan let the spider juice splash on his head and face, he showed a strange look, and the blood crystal giant sword in his right hand turned into witch blood again.

With the right hand, Wu Xue was roaring and filial. There was a force in his body that was awakening, and the force was extremely violent, causing a look of shock on his face.

Bai Yan has always been accustomed to being taciturn, with almost no expression on his face, but now he can show a shocked expression, which shows the shock in his heart.

Wang Xuan looked at him and knew that Bai Yan had also broken through, and was promoted from the perfect state to the super state.

It is not unusual for them to gain the power of the devil and easily break through, but Bai Yan's breakthrough is the power of the energy that burst out of his body, but it is far more powerful than the general super state. Outside his body, the phantom of Mohu appears, which is the devil strength.

Wang Xuan's brows suddenly wrinkled. Outside Bai Yan, he vaguely saw a large human-shaped fly phantom.

"The first demon god, Beelzebub, Lord of the Flies?" The name immediately appeared in Wang Xuan's mind.

It seems that the parasitoid parasitized into Baiyan's body is the head of the seventy-two demon gods, Beelzebub, known as the King of Ghosts and the Lord of the Flies.

Beelzebub has many names, the most famous being one of the legendary seven monarchs of hell. In earlier times, he was also a **** in Canaanite mythology, the sun **** Baal, one of the three main gods, and later Being suppressed, the godhead was transformed into the ghost king Beelzebub.

In demonology, it is positioned as the prime minister of hell. Of course, there are also legends that Beelzebub is the emperor of hell, and Satan is just the "leader of the wild party" who came to hell, hoping to find Beelzebub to cooperate against heaven, which is regarded as one of the seven original sins. sin of gluttony.

Wang Xuan looked at the phantoms of flies appearing outside Bai Yan's body, and couldn't tell whether these were just ethereal legends or real historical facts.

Wang Xuan silently watched Bai Yan's changes, and watched the blood on his right hand continue to flow turbulently, and soon drowned his upper body.

The phantom of the fly disappeared into his body, Bai Yan breathed lightly in his mouth, and Yu Shanshan looked at him a little silly. In her eyes, no matter what Bai Yan became, she liked it.

Bai Yan grabbed his right hand, and the witch blood that covered his entire body flowed backwards. He retracted his right hand and disappeared.

"Bai Yan, congratulations." Zhao Lei smiled: "How about it, can you sense the power of the devil?"

He also saw the phantom of the huge fly outside Bai Yan's body just now, suspected to be the first demon **** Beelzebub.

Bai Yan frowned slightly and shook his head.

Seeing that Zhang Haofei and Bai Yan made breakthroughs one after another, the rest of Zhao Lei and Yao Tiande also understood a little in their hearts. If nothing else, they should break through soon and become super strong.

Once you become a super state, you can leave the insect town and enter a higher floor. Although there is a hidden danger of the devil, there is still a trace of excitement in the heart.

The sky was getting dark, and they didn't delay any longer. They ran all the way, and when they returned to Insect Town, they heard the sound of fighting in the distance.

Everyone was startled, Wang Xuan didn't say a word, suddenly accelerated, rose from Xiaojiao's back, and the pair of ghost wings behind him spread out, and with a sigh, he almost rose into the sky, surpassed Xiaojiao, and swept past.

Following Xiaojiao, he turned into a rainbow light, caught up with him, turned into a mechanical shell, and entered a state of integration.

After Wang Xuan, there were Zhang Haofei and Bai Yan. They were both super strong. They immediately accelerated and ran at full speed, but they still couldn't keep up with Wang Xuan's speed.

Seeing Wang Xuan swept up a ten-meter-high wall in an instant, and then with the help of the power of ghost wings, he rose into the air and glide away. Seeing the eyes of everyone behind, he was secretly shocked. Wang Xuan's movements and speed were almost the same as flying in the sky. how much.

Wang Xuan jumped from the high wall, slid with the help of ghost wings, and passed several rows of buildings. From a distance, he saw the chaos in the central square. There were many corpses lying on the ground. These corpses included humans and even humanoid monsters. , including Winged Agatha, God Troll and Green Aden.

The battle is coming to an end, and only a winged Agatha and an God troll are left in the center of the square.

Both humanoid monsters were wounded, Agatha's wings were torn, and the troll of God was missing an arm.

Wang Xuan understood that they struggled out from the seal of the rotten ship above. The seal was too powerful. When they struggled out, they paid a great price and were seriously injured. strength.

But to Wang Xuan's astonishment, they were surrounded by people in Insect Town, and the strength of these people was not much worse than them.

On the ground of the central square, a misty mist rose. In the mist, a large number of strong people gathered in Insect Town, and Wang Xuan saw the iron army among them at a glance.

The iron army held the giant diamond shield, roared, and slammed towards the troll of God.

The troll Ala lacked an arm and was besieged by a group of strong powers. Although it killed a strong power from the "Justice League", he was seriously injured and could not resist. Broke the brain.

In addition to Tie Jun, the most amazing performers are Chen Daolin from "Rakshasa", Qiu Yuanfeng from "Xuan Gang", and a tall man from "Dynasty" who made thunder knives. The name is Lei Zhan.

What Wang Xuan was astonished about was that the energy levels released by Qiu Yuanfeng and Lei Zhan meant that they had broken through the shackles of perfection and became super-powerful.

When Wang Xuan retracted his ghost wings and volleyed into the central square like a flying general, Qiu Yuanfeng released the remains of the hatching beast and snake, killing the last Agatha who lost his wings.

Wang Xuan's appearance attracted everyone's attention. After him, Zhang Haofei and Bai Yan appeared, and then Yu Shanshan, Yao Tiande, Lin Baiyu, Geng Jianming, Wang Siqi and others.

Seeing that Qiu Yuanfeng and Lei Zhan had become super strong, Wang Xuan was not too surprised after being surprised.

He understands that this is mainly the ability of the stone pillars inserted on the ground of the square.

The stone pillars contain mysterious power, which can make those who approach enter a state of meditation.

Tie Jun saw that Zhao Lei, Zhang Haofei, Bai Yan and others had returned safely. With his calmness, he also showed a happy look, and hurriedly greeted them.

He soon noticed that there were no Li Haotian and Duan Chen in the team, and even if he didn't ask him, he knew that since these two didn't come back, they were mostly bad luck.

"You have also made a breakthrough?" Tie Jun is now a super-powerful, sensitive sense, and immediately noticed the special features of Zhang Haofei and Bai Yan.

"Hey, of course, I said, I will definitely catch up with you." Zhang Haofei was full of pride. Although he was one step behind the iron army, he has only broken through the super state, but he has inherited the power of the devil, which means that he has unlimited potential. If you can solve the hidden dangers that may exist in the devil, let alone Tiejun, even Wang Xuan has the confidence to surpass it. At that time, he will be the boss of these people, and they should all call themselves Brother Fei.

Tie Jun was used to Zhang Haofei's character, but he didn't care, he ignored him, looked at Zhao Lei and Yao Tiande, and said, "Li Haotian and Duan Chen..."

Zhao Lei glanced at Yao Tiande and said, "They had an accident."

Tie Jun nodded. Although he had already guessed it, he still sighed after receiving confirmation from Zhao Lei.

Zhang Haofei looked up at the sky, then looked at the stone pillar and the chain anchor, and shouted, "What the **** is going on? It's just that I haven't been back for a few days, how did it become like this?"

Although he was lawless, he was secretly shocked when he saw the scene in front of him.

Not only him, Yao Tiande, Yu Shanshan, Wang Siqi and others were all curious, and Tie Jun patiently explained to them what happened before.

Zhao Lei pondered on his face and said, "These mists...seem to be a little special." He raised his right hand as he spoke, and a cross crack appeared, activating the special ability of the "first saint". With a sigh of relief, he hurriedly walked towards the stone pillar.

Wang Xuan knew that Zhao Lei had found it, so he also walked up. Zhao Lei walked to the stone pillar, stretched out his right hand and pressed it on the stone pillar. White light flashed in the cross crack on the back of his hand. Showing a solemn look.

Suddenly, a huge phantom appeared outside his body. Wang Xuan knew that this was Vassago, who ranked third among the seventy-two demon gods. .

According to legend, Vassago is a blind demon god. Although he can't see things, he can peep into the past and the future. Zhao Lei has used both the "Sacred Mark" and "Sacred Eye" to peep at the stone pillar. His expression became more and more ugly, and he seemed to have seen a terrible scene. In a short period of time, his whole body trembled slightly, and his forehead was covered in cold sweat.

The phantom of the demon **** outside his body was originally absent, but now it is becoming more and more real. Everyone around him was attracted by him and felt the power surging out of his body.

This Demon God has an inverted triangle face, the corners of his eyes on both sides drooping to his lower jaw, his eye sockets are hollow, without eyeballs, but he seems to be able to see into the void, and the phantom is releasing a terrifying aura, as strong as Wang Xuan felt suffocated and had to retreat.

The people who were originally surrounded in all directions could not stand it, and they all retreated. Zhao Lei suddenly let out a low growl, and a strong holy light was released from the holy eye in his right hand. shock.

At this moment, his hatching beast "First Saint" suddenly grew, from a perfect state to a more powerful super state.

The phantom of the demon **** that originally enveloped the square converged and disappeared. Although Zhao Lei broke through, his face was pale, as if he had suffered a serious illness, and his body swayed and fell back.

Blood flowed from the holy eye and the cross fissure on the back of his right hand. In order to peer into the stone pillar, his holy eye and holy scar were both injured.

Until the phantom of the demon **** disappeared, the people around were gasping for breath, and many people looked at Zhao Lei with a look of astonishment.

His performance just now was even more terrifying than Wang Xuan. Except for Zhang Haofei and Bai Yan who knew the inside story, everyone else was shocked. were shocked.

They could never have imagined that Zhao Lei did not hunt monsters, and suddenly broke through to be promoted to super state, which was unheard of.

After the stone pillar descended on the insect town, the people in the insect town have changed more and more. Many people who have been trapped for a long time, originally thought that they would have no hope of breaking through, but they have broken through to become the powerhouses, while Chen Daolin, Qiu Yuanfeng and Lei Zhan were replaced by The breakthrough of the state has become a super state, and they all understand that all this is due to this mysterious stone pillar.

Wang Xuan stepped forward and said, "Zhao Lei, what did you see in the stone pillar?"

He understood that Zhao Lei must have seen something in the stone pillar, and he was suddenly inspired by the power of the stone pillar, and this was the breakthrough.

Zhao Lei's face was pale, and his expression was a little dazed. After hearing Wang Xuan's question, he said: "I saw a figure of Mohu in the stone pillar. Yes, there is a huge hexagram underfoot."

"I don't know how to describe that feeling, that trembling from the depths of my soul is terrifying..."

Hearing Zhao Lei's description, Wang Xuan stared at the stone pillar in front of him with a dignified expression. Combined with the three murals he had seen before, Zhao Lei's description of the basic kiss and the second mural at that time, namely the three books of giants, were The Book of Giants with the six-pointed star as the sign of the contract, but why did he see that scene in the stone pillar in front of him?

"Could it be that this stone pillar...is her, or is she sealed in this stone pillar? So I went underground and went all the way to the end of the cave without seeing her?"

This almost absurd thought suddenly appeared in Wang Xuan's mind, and he couldn't help reaching out and touching the stone pillar. Unfortunately, he didn't have Zhao Lei's "Sacred Mark" and "Sacred Eye", so he couldn't see the truth inside the stone pillar.

If there are really three books of giant gods in this world, Wang Xuan believes that each book of giant gods must represent a supreme existence. How can such an existence be sealed in a stone pillar?

It's just that this stone pillar is really weird, and the energy released is so weak that it can make everyone in Insect Town have an epiphany. It doesn't even need to go through the life and death hurdles that need to be experienced to break through the perfect state.

It's even simpler to break through into the perfect state. In just one night, in Insect Town, a group of people who were stuck in the adult body and couldn't break through were promoted to the perfect state. This ability is really amazing, even if it is the legendary seven The twelve pillars of demon gods are nothing more than choosing a human being to parasitize and make a human breakthrough.

Of course, the most important point is that the scene that Zhao Lei peeped in the stone pillar is completely in line with the content of the second mural. There are various signs that his seemingly absurd guess may be true.

"If my guess is true, how did the stone pillar break, and what kind of force can break the stone pillar and insert it into the compound eye of the king insect, making the king insect go mad, what is its real purpose?"

The more Wang Xuan thought about it, the more terrifying he became. He raised his head and looked at the rotten ship at a height of 40 meters. At this moment, he suddenly felt like a black shadow flashed on it. Leaping from above, he volleyed down.

This short, dark figure was filled with a rancid smell. When it suddenly landed in the air, it happened suddenly. Except for Wang Xuanneng, who was barely able to react, no one else could understand what was going on.

A few powerhouses who had just been promoted from adult to perfect state were gathering together, and suddenly they found that it was dark in front of them, and there was a small black figure around him, shaped like a baby. Covering his nose with his hand, he was shocked to find that his hand was melting and festering. In the blink of an eye, one hand was melted and rotted so deeply that the bones could be seen.

"what-"

These elites screamed in horror, and the screams were suddenly hoarse. Their throats rotted out a big hole, and their neck bones were exposed. They fell to the sky and fell down. The big beach of liquid, in this big beach of rancid liquid, only a pile of dead bones remained.

Wang Xuan's complexion changed drastically, watching the rotting powerhouses who suddenly fell down and rotted. Suddenly, everyone around was instinctively retreating, pulling away to protect themselves, staring at the short figure that suddenly appeared. .

The rancid smell is spreading, conflicting with the thin clouds rising from the ground in the central square, UU reading www.uukanshu.com formed dramatic changes.

The four metal tentacles on Wang Xuan's right hand appeared. He never expected that he would see the black baby holding the power of decay again here.

On that day, one of the seven totems of the third layer of the world, the cyan fox grabbed the baby and threw it at the giant ship that fell from the sky. After that, the giant ship began to show signs of decay, and the baby disappeared in the giant ship.

Wang Xuan did not expect that this baby would suddenly appear from the rotten ship above tonight, jump out of the sky, and land in Bug Town.

Compared to before, the baby in front of me has grown up a bit. If it looked like a newborn baby before, it now looks like a two- or three-year-old child.

It came to Bug Town, the ground began to rot, the fastest update around the original, please enter in the browser -- to check

The rotten aura it exudes and the mist on the ground repel each other, and the surroundings begin to surge, gradually forming a vortex.

Chapter 252

It jumped up, jumped from the vortex formed by the mist, and quickly rushed to the edge of the stone pillar, and then climbed.

Everyone knows its details, and everyone dares to stop it.

Its ability to melt and rot in the blink of an eye to a few real powerhouses shocked everyone.

Wang Xuan didn't stop it either. Seeing its moving speed, his heart moved slightly.

Seeing that the world of insect town was also suppressed by the power of the world, otherwise it would be able to speed like this.

In the third-layer world that day, its strength was stronger than that of an ordinary super-state. Now that it has grown, it will only be stronger, but the speed at which it just moved was slightly slower than that of an ordinary super-state powerhouse moving at full speed.

The strange baby fell on the stone pillar, and took the place where it fell as its heart, and began to show signs of decay. The hard rock, like a burning candle, began to melt, and juice flowed on the surface.

Regarding the public opinion, the stone pillar was hard and destroyed, but it was easily rotted by the power of the monster. Wang Xuan was secretly scared of the rotten power mastered by the monster, thinking that Wan Qianying once said that it was suspected of being the son of God, so how could it be weird? Afraid of God?

The strange baby stone pillar stood up high, waving its hands together, the black energy vaguely released by its body surged, spreading in all directions from the heart of the stone pillar, and the ground of the heart square began to rot.

The people around were retreating away, and their hearts were pounding towards the strange monsters, but their expressions changed when they saw Li. Wang Xuan, who was also about to retreat, stopped, frowning tightly.

The weird baby is going to rot and erode the inside? Looking at the speed at which the ground rots, it will spread to the glass cylinder elevator in the distance after a while. Once the elevator is corroded, it will never leave.

"Zhao Lei, let's see where its weakness is?" Wang Xuan was hesitant at first, and he was not sure about the strange baby, but at this moment he understood that he could no longer retreat and stop the strange baby, I was afraid that the whole insect town would be destroyed by it. .

Following Wang Xuan's deep drink, the four metal tentacles extended, reaching the limit of seven meters in an instant.

Seeing that Wang Xuan was about to stop it, Tie Jun followed up with a shout, holding the giant diamond shield in his right hand, and strode forward. Together with Wang Xuan, they blocked the direction of the elevator. Like Wang Xuan, he understood that once the elevator was rotted, it would Ruined.

"Know!" Zhao Lei responded immediately, and activated the "Sacred Mark" and "Sacred Eye" with all his strength, peeping at the strange baby that stopped the stone pillar, trying to gain insight into its weakness.

As Wang Xuanshen drank it, he opened the Xumi mustard seed space, took the flame spar, and smashed it at the stone pillar.

The flame spar hit the stone pillar, and immediately burst into flames, rising up along the rotting stone pillar.

Seeing Wang Xuan's hand, Qi, who was hesitating to retreat, also took explosive crystals and flame spar and threw them at the monster.

In particular, Zhang Haofei, Bai Yan, Yu Shanshan, etc., are used to looking at Wang Xuan's horse first. Since Wang Xuan is doing something to the strange baby, he will naturally stand by and watch.

Bai Yan's body swayed close, and the witch blood in his right hand surged, and activated the special ability of "Wizard Blood Jet".

The strange baby stood on the stone pillar, fully unleashing its rotten power, with the stone pillar as its heart, it started to rot in all directions. With Wang Xuan's hand, the flames rose, and various explosive crystals were thrown onto its body.

Afraid that the scene will appear, some explosive crystals will start to rot when they approach its body. When they finally touch its body, they are almost half rotten and can no longer explode.

Although it is afraid of exploding crystals, the raging flames formed by the flame spar also attracted its attention, and it is immune to flames.

Seeing that the stone pillar was swallowed up by the flames, it suddenly opened its eyes, stared at Wang Xuan, and jumped into the air, jumping from the stone pillar, and pounced in the direction of Wang Xuan.

Wang Xuan had prepared early, because of the suppression of the power of the world, he could not exert the power of the strong blue crystal scales, relying solely on his own strength, the four metal tentacles were like giant pythons, slamming towards the fluttering monster.

There was a faint crackling sound in the air.

Although the rotten power of the strange baby is terrifying, its own combat power has also been suppressed by the super-state. Facing the blow of Wang Xuanzhen's extreme level, it also dodged.

One hand grabbed and grabbed its two metal tentacles, and the other two metal tentacles pulled it firmly.

It opened its mouth, groaned slightly, and was beaten to the point where it flipped backwards.

The two metal tentacles that Wang Xuan was caught by it immediately began to rot.

Wang Xuan prepared early, and with a thought, the two metal tentacles suddenly spread out, causing the rotten end to break and fall, and the two intact tentacles retracted.

Flip the left hand and throw a flame spar again.

Holding the giant shield of King Kong with the iron army beside him, when he saw the strange baby overturned, he immediately smashed the giant shield.

With a "bang", the strange baby turned over and punched the giant golden shield.

The defensive giant King Kong Shield also resisted, and the surface showed signs of decay.

Zhang Haofei appeared with a half-bone skeleton, raised his arms, and slammed into the air. A pair of white-bone arms suddenly appeared white light, which turned into one white blade of light, like a violent storm and slammed toward the strange baby.

Bai Yan even sprayed witch blood, it was only the baby's rotten power that was strange, some witch blood just drenched on the surface of its body, it was rotted and evaporated, and the witch blood was ineffective against it.

The strange baby croaked and whistled in a strange voice, and its body continued to flicker. Zhang Haofei's white light blades were all thrown into the air. It was so fast that it instantly bullied Zhang Haofei's face, stretched out his hand, and grabbed towards his chest.

With the terrifying power it holds, if Zhang Haofei is caught with one hand, he can immediately rot and melt into a transparent hole in his chest.

Zhang Haofei knew it was afraid, and when he was in danger, he let out a hesitation. The white bone skeleton behind him stretched out his arms, and the whirlwind bone claws were activated, attacking the monster from left and right.

Wang Xuan also used the same hand, two arms wrapped around metal tentacles, merged with flesh and blood, and turned into two giant arms of monsters, copied from the back, and attacked the monster baby.

Seemingly feeling the danger, a phantom shadow appeared in Zhang Haofei's body, almost when the strange baby was about to grab onto his chest, the phantom swelled and blocked the strange baby's hand.

The phantom has three heads, one head, a bull's head, and a sheep's head. With the activation of the "Whirlwind Bone Claw", the force in the phantom infiltrated and merged. With a "bang", the strange baby suddenly screamed, it was hit in the shoulder and immediately collapsed in.

At the same moment, Wang Xuan's giant arm of monster hit it from behind.

The strange baby was beaten and flew into the air.

The giant arm of the beast that Wang Xuan had stained on its body began to rot. Prepare early and immediately return to the state of the giant arm of the beast. The metal tentacles appeared, and they automatically broke from the rotten place.

The ghost wings on the back spread out, turning into steel feathers, volleying into the air, chasing the monster baby that was beaten into the air.

The sound of "chi chi chi" was indescribable. Although some steel feathers began to rot when they touched the monster, it was able to completely melt the steel feathers in an instant, and the remaining half of the steel feathers immediately pierced into the monster. Baby body, pierced.

The monster baby has steel feathers all over its body, like a hedgehog. It fell heavily to the ground. Chen Lin, the "Rakshasa", uttered a cry, prepared early, and sacrificed himself to the hatching beast that had evolved to a super state. With a faint power of lightning.

Seeing that the monsters are afraid of flames, the flame monsters pounce, and the monster baby has just suffered a heavy blow.

The strange baby screamed again and rolled all over the ground, and Lin Baiyu, who was also from "Rakshasa", also grabbed his hand.

Although he likes to talk and has a similar personality to Bai Yan, he is very powerful in one hand. The power in his hands is very similar to Chen Lin, and he can also control the flame. The two sides are similar.

Chen Lin's hatching beast is the beast of flame, and Lin Baiyu can directly control the flame.

When the right hand was lifted, the flames formed by the surrounding flame spar swept through, turning an area into a sea of fire, and the eccentric babies that rolled all over the ground were immediately swallowed by the flames, and their rotten power was burned by the flames to make a crackling sound.

No matter how strong the monster is, the more terrifying the rotten power is, but the insect town world on the second floor is suppressed by the power of the world.

Those who possessed the power of flames were all in their hands, or fired fireballs, or summoned fire pillars, and fired rockets from the air, all attacking the strange babies that were rolling all over the ground.

Everyone watched, the strange baby was afraid of physical attacks, but was afraid of flames.

All kinds of flames are added, and an area is completely turned into a sea of flames. Because the hatching beasts are the same, the sea of fire is mixed with white flames, blue flames, and cyan flames in addition to the red flames.

The power of various flames piled up, the heat wave was surging, and it was as strong as Wang Xuan who could withstand it, and then retreated.

Insect Town at night was illuminated by the terrifying sea of fire as bright as day, and the powerhouses of the whole Insect Town gathered there, watching the terrifying sea of fire struggling and rolling, screaming in fear of breaking his hair.

Suddenly it jumped up from the sea of fire and rushed towards the chain anchor on one side.

All kinds of long-range attacks were like a violent storm, which was mixed with the violent explosion of exploding crystals. Wang Xuan controlled four metal tentacles, extending to seven meters away, and pumping from the air. Blast.

Although the strange baby was almost unable to fight back in the face of a group of crazy attacks, the crowd's attacks could only hit it hard, but could not really kill it.

The strange baby was very fast, and quickly rushed to the anchor of the iron lock along the sea of fire, and then climbed towards the side along the iron lock, like a ball of fire tumbling.

Wang Xuan swung the metal tentacles together~www.mtnovel.com~ Although the flames splashed all over its body, he couldn't kill it. The strange baby was very fast, following the iron lock all the way, and quickly climbed to forty meters. High in the sky, re-enter the rotten ship, and disappear into the darkness in an instant.

Although Zhong Fang stopped using various long-range attacks, they couldn't really kill it. They could only watch it escape and disappear and return to the rotten ship.

As the strange baby escaped, everyone breathed a sigh of relief in their hearts. Wang Xuan put away the four metal tentacles. The strange baby was strong and strange, and the power of the world of Insect Town was used to suppress it, otherwise it would be a disaster.

As the strange baby escaped, the power of decay disappeared, and the stone pillar that looked like a melted candle was gradually returning to its original appearance, turning into a solid stone pillar again.

Those who mastered the power of flames have restrained their powers, and the flaming flames have weakened.

Wang Xuan raised his head and stared at Fang's rotten boat. Although he climbed with the help of chains, the whole town did not dare to climb along the chains.

Chapter 253

Wang Xuan smiled and looked at Qiu Yuanfeng: "Congratulations."

Zhao Lei, Tiejun and others also congratulated each other, which made Qiu Yuanfeng feel a little more embarrassed.

While talking, they walked towards the glass-column elevator. When they reached the elevator floor of No. 9, Xu Jian opened the elevator door, and the crowd filed in.

The elevator went up to the third floor. After the public walked out of the elevator, Zhao Lei, Zhang Haofei, Bai Yan, and Qiu Yuanfeng, who had entered the third floor for the first time, all opened their eyes and looked around with surprise.

Compared to Insect Town, the third floor is a truly magnificent world. When you see the sky at the top, the limit of the sky like Insect Town is only 100 meters high.

Looking at the ten glass cylinders that are hundreds of meters high, the sky shatters, the sky building that reveals the tip of the iceberg, the endless virgin forest around, and any ginseng tree that can reach a height of forty or fifty meters, everyone feels To the shock of its own Miao.

"On the third floor... Insect Town is completely comparable..." Zhang Haofei muttered to himself, clenching his hands into fists, his eyes filled with excitement.

The current super-powerful person has inherited the power of the legendary demon **** in his body, and his self-confidence has never been expanded. He needs to show himself on a more stage. The third-layer world is the most suitable.

At the moment, the No. 9 safe area is very lively, and the most surprising thing is that a group has gathered outside the elevator. When the elevator was just opened, a group of people squeezed in.

These are all super-powerful, and at this moment they are all taking the elevator to enter the town of insects?

Wang Xuanqi also saw some familiar faces, and they should have fought side by side together. The names that he only knew were all from the super-powerful people in Baizhen.

Seeing the doubts of Wang Xuan and others, Xu Jian explained with a smile: "The incident in Worm Town has already spread, and now everyone is curious to look at Worm Town, especially the stone pillars that can make an epiphany, many of which are on the verge of breaking through. The bottleneck, I hope to use the epiphany of Shizhu to see if I can break through."

Hearing Xu Jian's explanation, everyone suddenly realized.

"Bring Wang Xuanxuancheng to see the elders, and take a look at Xincheng. If you are interested in things there, of course you want to see Xuancheng. There is nothing to see in Xuancheng." Xu Jian said while looking at Zhao Lei, Qiu Yuanfeng and others.

The elder only saw Wang Xuan, but did not meet Zhao Lei, Qiu Yuanfeng, etc. Xu Jian dared to see the elder privately, so he could only let Xincheng or Xuancheng take a look.

Zhao Leiji is also self-aware, nodding to show his understanding, Tie Jun smiled: "Xincheng is familiar, there are things you are interested in, follow along, and show Xincheng first."

Everyone agreed, and Wang Xuan also decided to look for it after seeing the elder Xincheng.

After that, the iron army took the teleportation to the center of the ten glass pillars.

Zhang Haofei was a little envious: "Tie Jun, the suit is simple, I wanted to ask, where is the third floor selling sample equipment?"

Tie Jun: "Wrong, you will know when you get to Xincheng. You need enough crystal scales."

Zhang Haofei smiled and said, "Nothing else, I have collected a few crystal scales for a while, which is a huge sum of money, and now I have more than 2,000 crystal scales on hand."

Tie Jun heard the words and stopped for a while, "More than 2,000 coins?"

"Nonsense, of course."

Hearing Zhang Haofei's words, Tie Jun couldn't help laughing. There are more than 2,000 crystal scales, which is equal to twenty crystal scales. For Xincheng, he can buy two pieces of excellent third-order equipment. For each piece of equipment, an additional 20 crystal scales are required. If you want to build a set, you need 100 crystal scales, and the cost of purchasing the third-order excellent equipment materials is not included.

As for entering those skill stone gates, the cost is even more expensive.

Tie Jun didn't explain, just nodded with a smile: "It's really few, let's go."

Xin thought of Xincheng, and when Zhang Haofei saw the prices, he would understand that the huge sum of money, 2,000 crystal scales, made Xincheng laugh.

Wang Xuan watched to enter the teleportation channel, followed Xu Jian, left the No. 9 safe area, entered the forest, and headed for Xuancheng.

With the completion of the new five-city safety zone, the powerhouses of the third-layer world gathered, and now there are no monsters such as tree demons or mushrooms wandering around the safety zone. There are no new monsters in the sky building for the time being. Looking at it, there is an auspicious scene, a forest area, which has increased a lot of qi. You can see riding mechanical beasts,

shuttle among the ginseng trees, and lead to the various ginseng trees. The elevator in the town also stopped running.

Most of them entered the towns to complete the material tasks required to build equipment, so as to upgrade their Tier 3 excellent quality equipment to stronger flawless equipment.

Wang Xuan noticed that one or two items of Tier 3 flawless equipment, which were relatively rare, were now more and more numerous.

For some super-powerful people, hiding dragons and crouching dragons, building and upgrading equipment is difficult, but it is easy to complete.

Because the five cities have just been completed, and the power is not yet independent, almost all the strong people are gathered in the five cities, which also makes the five cities prosperous and extraordinarily lively.

Wang Xuan followed Xu Jian, and soon returned to Xuancheng, only to see an ancient town once covered by forests, rejuvenated in a short time, with square flags fluttering, and strong men in full armor patrolling the city walls.

On the edge of the city wall, some ginseng trees with a height of 40 to 50 meters are currently under construction and outposts are being built.

For a group of super-powerful people, one workload can equal a group of ordinary people. Anything can be built quickly. No matter how difficult the project is, it can be done easily and easily.

When Wang Xuan arrived with Xu Jian, he saw that the outpost of a ginseng tree in the distance had been built much worse, and another tree was busy, preparing to build another outpost.

Shu Fang carried the thick tree trunk and threw it in the air, Fang caught it, and the other side controlled a sword with a hilt, moving towards the thick tree, only to hear a soft sound of "chi chi chi", and the thick tree trunk cracked. Make a pile of wood, and then tie some wood to the surrounding branches to fix it to form the base of the outpost, and the construction speed is incredible.

Looking at the door that entered Xuancheng, a group of people were transporting wood inward. Wang Xuan understood that although the surface of the ancient town had been cleaned up, it was still in disrepair. Collapsing danger, but much to be repaired.

The two walked in along the door, the whole Xuancheng was very lively, and many were busy.

The most important building had been repaired and Xu Jian took him there. Wang Xuan understood that those who were qualified to live there were naturally the elders with the highest status in "Xuancheng".

The film is surrounded by three-story buildings, surrounded by a five-story building similar to a palace. The other buildings that are being renovated around have been renovated, and it seems very quiet at the moment.

When they arrived at the fifth-floor palace of the heart, they were guarded at the entrance. When they saw Xu Jian, they obviously knew him.

Xu Jian snorted, quickened his pace, and smiled: "Elder, why are you in a hurry? Seeing the action is simple."

Just as he was walking in, he was blocked by two outstretched hands, with a serious expression on his face: "The elder ordered, Wang Xuan will do it as soon as he enters."

Xu Jian was stunned for a moment, a little embarrassed, then turned to look at Wang Xuan and smiled: "Come in, wait outside?" He said while backing away.

Wang Xuan nodded and left.

Once the two faces were not blocked again, Wang Xuan was let in.

Entering the oncoming palace gate, there is a hall inside. Although the hall was cleaned up, it was empty without even a table and chairs. There was only a man wrapped in a black robe, standing inside, with his back to the outside, and moving.

Wang Xuan looked behind the black robe and was about to bow down to salute, but suddenly realized that the back of the black robe seemed to be the same as the elder. It should be the elder, and one of the five black robes beside the elder.

He hesitated slightly and was about to speak, when Hei Pao suddenly turned around and said, "Wang Xuan, I've been waiting for a long time, come on."

After speaking, he walked towards another closed door at the back of the hall.

Wang Xuan was stunned, and felt a little strange in his heart.

Originally, Xu Jian told the elders that the summoning of the elders involved an action, and the matter of repairing the matter, the super-state peaks of the five cities would gather with the powerhouses of strength.

I was both curious and excited about this, but when I entered the room at the moment, I felt that my actions seemed to have a mysterious aura.

The instinctive sense of Warcraft made the vigilance of the words raised in my heart~www.mtlnovel.com~ Only at this moment I can say a lot, so I can only follow the black robe.

Hei Pao raised his arms, pushed open the closed door at the end of the hall, and walked in.

Wang Xuan followed silently, and opened the door. There was a long corridor outside, and the other end of the corridor led to another hall.

Heipao also spoke, only silently leading the way, he quickly walked through the corridor, pushed open another door at the end of the corridor, and walked in.

After Wang Xuan walked in behind him, he saw that the hall was twice as large as the one just now, only because the windows were closed, it looked very dark, and he could see a few cyan stone seats with black robes sitting cross-legged on all sides.

The black robe who brought himself in walked straight towards one of its blue stone seats, and then sat cross-legged.

Wuheipao Wang Xuan had seen it several times, but he was unfamiliar. It should be considered that apart from the elders, Xuancheng had the highest status, because he had never seen it and knew his strength.

Chapter 254

Seeing the elder walking towards him, Wang Xuan retreated to the side, and the other five black robes sitting on the blue stone seats also stood up silently.

"Wang Xuan, let's go." The elder's tone became very kind, with a faint sense of intimacy, which was completely the same.

Wang Xuan hummed in his mouth, and followed behind, but his heart was a little cold.

Walking through the building, Xu Jian was still waiting outside when he suddenly saw it, greeted him with a smile on his face, and saluted the elder.

The elder nodded slightly, hummed, and returned the gift.

"Xu Jian, Wang Xuan has a heavier mission. It is suitable to continue to be the leader of the Xuan Gang of Worm Town. What new leader is selected?" The elder looked at Xu Jian and Wang Xuan as he spoke, obviously wanting to hear suggestions .

Wang Xuan looked at Xu Jian, and suddenly understood why when he was taking the elevator, he would suddenly say in front of Zhao Leiji that Qiu Yuanfeng was suitable to succeed the leader of the Xuan Gang, and he had guessed what the elders would ask him. , I am also good at refuting the face, and propose another choice.

Otherwise, there are several super-powerful people in the Xianxuan Gang, and if the elders value it now, no matter who they are, they can squeeze out Qiu Yuanfeng.

Wang Xuan is interested in the position of the leader of the Xuan Gang of Insect Town. The current focus is already on the third floor, or even higher floors. Qiu Yuanfeng's relationship is also wrong. Since Xu Jian hopes that Qiu Yuanfeng can take over the position of the leader of the Xuan Gang of Insect Town, naturally would also object.

Xu Jian also looked at Wang Xuan, and when he saw that he nodded slightly to himself, he obviously acquiesced to his proposal, and then heaved a sigh of relief and respectfully: "Proposed Qiu Yuanfeng, he has just broken through the super status, and the affairs of the Xuan Gang are also very important. Familiar, more suitable to take over as the leader."

The elder hummed, "What does Wang Xuan mean?"

Wang Xuan smiled slightly: "Qiu Yuanfeng is wrong, I agree."

"Okay, then it's decided, Xu Jian, let's go through the specific procedures."

Hearing what the elder said, Xu Jianxi was busy bowing again and taking orders, the elder waved his hand and signaled to leave.

Xu Jian looked at Wang Xuan again. Seeing that he and the elder had not moved, he understood that there was another important matter and that he couldn't leave alone, so he slowed down again, turned and left quickly, ready to find Qiu Yuanfeng and tell the good news.

The elder took Wang Xuan's other five black robes and walked straight out. He saw the super-strong powerhouse along the way, and he saluted respectfully when he saw it.

Wang Xuan saw that the prestige of the elder Wu Heipao in Xuancheng was very high, and the super-powerful people he saw all around had a respectful look on his face.

Suddenly, a laugh spread out, and in a flash, there was a man beside him.

Wang Xuan looked at it, and the man who suddenly appeared was Zheng Mason, a strong man with a profound strength.

"Wang Xuan, we meet again." Mason smiled and looked at Wang Xuan with enthusiasm.

Wang Xuan also responded to Mason very politely, and a thought suddenly flashed in his mind, Mason's strength is deeply measured, will he also accept the so-called assessment of Xuanzhu?

Thinking of the assessment, if it really is as I guessed, it would be scary, and if Mason passed the assessment, does it mean that...

Wang Xuan dared to think deeply, the only thing he can do now is to restrain all negative emotions, hide his true thoughts as much as possible, and be seen as problems.

Mason joined the team, following along with, apparently, the action, of which Mason was also a member.

After leaving Xuancheng, and walking another 100 meters, they entered the No. 9 safe area. The surroundings were all very lively, and the most eye-catching group was a group of people wrapped in black robes.

Hundreds were gathered around the black robes. At this moment, everyone was chatting with each other. It was very lively.

Wang Xuan followed the elders and went away, and soon a group greeted them and saluted the elders.

All of them were wearing the sign of "Xuancheng". Wang Xuan looked at them, and each of them had full eyes, and the energy in their bodies was boiling.

"Amazing, any of them will be much weaker than Yukai."

Youkai was originally the Rakshasa leader of the "ghost town", the super-state and other powerhouses, and later entered the heart city to break through the bottleneck. Now the top-level powerhouses of super-state have a group of eyes, and they can compare any one, and there will be a gap. It is said that only a batch of the real elites of "Xuancheng".

Soon Wang Xuan saw two familiar people, He Jiankui from "Fire Town" and Su Tang from "Beast Town". They were the leaders of the Xuan gang that he controlled. Now, obviously, a single action, will also participate.

The elder took a group and walked towards the other side. Soon more than 20 black robes from the five cities met. The five black robes standing most heartily represented the elders of the five cities. the difference.

In the eyes of most people, the five elders are even the highest level of all known powerhouses.

Of course, the current Wang Xuan already knew that the actual elder of Xuancheng was a mysterious master who was more mysterious and fearful.

In addition to the elders of the five cities, there are only 22 black robes, five of which belong to "Xuancheng", three of "Rakshasa City", six of "Phoenix City", five of "King City", and three of "Justice City".

Counting the second echelon except for the elders of the five cities, then only the leaders of the various forces like Mason who can qualify for independence. Of course, because of the special circumstances, some of the originally independent leaders of the forces have temporarily returned to the five cities.

The surrounding area is similar to Wang Xuan's. There are four or five hundred strong men from the five cities, and the weakest ones are all top-level powerhouses.

Wang Xuanqi was amazed when he saw that young people, such as Wei Zixuan, who belonged to the "Wangcheng" force from "Wangzhen", killed those monsters with a pair of golden swords that day. Wang Xuan was deeply impressed.

Another example is Jiang Ming, who belongs to the "Justice City" from "Wind Town", and his third eye ability is very strong, far exceeding Wang Xuan's eye of the picture book, which has always been envied.

Wang Jue, who is also in "Ling Town", belongs to "Phoenix City", and Mou Xingxi Murong from "Sand Town" belongs to "Justice City" and the other belongs to "Rakshasa City".

At this moment, everyone gathered in the group, and when they saw Wang Xuan, they nodded their heads in the distance. They wanted to say hello. There were so many people on the scene that they wanted to say hello. Wang Xuan could only nod his eyes in response.

Sensing the powerhouses around him, Wang Xuan was secretly shocked. Some of them all sensed their strengths and weaknesses. They were really called Hidden Dragons and Crouching Tigers, and they knew how many terrifying powerhouses were hidden within four or five hundred miles.

In one action, almost all the elites of the five cities were exhausted.

In addition, there is more attention to the inside, those with sufficient strength are not qualified to participate, and can only watch the play from a distance.

With the elder Xuancheng, the elders of the five cities gathered together, and the elder Fenghuang, who belonged to Phoenix City, took a step and said in a deep voice, "Peace at home."

Although I saw the true face of Elder Phoenix, I heard the voice to know the girl.

The prestige of the elders of the five cities is very high. As soon as the elders of Phoenix opened their mouths, the noisy voices around them immediately became quiet, and all eyes fell on him, waiting to speak.

"I believe the family knows the purpose of gathering the family. If it is still clear, then simply say it again."

"Repair the glass cylinder and open the passage to the layer world. It needs strong enough energy and hunts down the blood of strong monsters before it can be repaired."

"And the third-layer world, what life contains the strongest blood? I believe that the family has already answered it, so I will elaborate."

Although everyone knows more or less, there is still a buzzing sound when they hear it, including Wang Xuan. Although there are four or five hundred gathered in the room, the power is naturally strong, but whether it can fight the totem is really If you don't have confidence, even if you really win, it will be a tragic victory, knowing how much you pay and how many lives you sacrifice.

"What is in the family's mind, and what are the doubts?" Elder Phoenix's voice was still calm, and he continued slowly: "Under normal circumstances, this action is indeed risky, and the price will be approved, but this time, a once-in-lifetime opportunity has come. ."

"The discovery of Xincheng is naturally a good thing,

But because of the entry, it aroused the anger of the person who regarded the area of Xincheng as his absolute territory, and the matter was also kept secret. I believe that the young man witnessed it with his own eyes. Every time, that person would hit Xincheng, thinking Destroy Heart City. "

slkslk

"A person near Xincheng regards similar things as enemies. Every time he hits Xincheng, he will be seriously injured. This is a once-in-lifetime opportunity. In order to repair the glass pass and protect Xincheng from being destroyed, he has been driven to a desperate situation and succeeded."

Listening to Elder Phoenix's words, the humming sound around him became quiet.

Wang Xuan understood that the target of the trip was the white rhino of the Seven Totems, who regarded them as enemies.

Of course, it also attacked rashly, and only after it attacked Xincheng and was seriously injured, would it do so.

If it is not injured, the totem in its heyday, even if four or five hundred join forces, may not have hope, but the white rhinoceros that have been severely injured and scarred will inevitably weaken in strength, and together, there is hope of killing it.

Elder Fenghuang slowly looked towards the people around him, most of their eyes became firm, and he nodded slightly, "Since the family understands, find the hair, go to Xincheng."

With the order, four or five hundred super-powerful people began to teleport towards the heart of the ten glass cylinders, and they entered the heart city through teleportation.

Su Tang, Mou Xing, Xi Muxue, and You Kai, who were familiar to Wang Xuan, all gathered in and greeted in a low voice.

Wang Xuan originally wanted to see Tang Ruoyu, but he thought it was as if he had disappeared.

Four or five hundred teleporters entered Xincheng one after another. Wang Xuan, Sutang, and You Kaiji waited for more than ten minutes before their turn, and entered the teleportation array. The surrounding red light rose, and when the light subsided and disappeared, they had already entered Xincheng.

Wang Xuan was slightly surprised when he walked through the teleportation channel. He didn't expect that there were cracks on the surface of the high city wall in the distance. The two metal pillars erected there were even more crooked and had been severely damaged. Seeing that the elder was not lying, even if the glass pass is not repaired, the white rhino must be stopped, otherwise Xincheng will be broken by it if he persists for a while.

Once the white rhinos broke the defense of Xincheng, imagine that countless rhino armies would be surging, and they would soon be able to destroy the whole Xincheng.

To be honest, the loss is unimaginable, it means that the road to promotion is cut off, including Wang Xuan himself, and he hopes to earn enough crystal scales to enter the high-level skill Shimen, comprehend and master the advanced skills of hatching beasts, and become stronger.

It can be said that once, there is no way out, only the last battle.

Although the public believed that the white rhino was severely injured, and hunted again, there would be a chance, but compared to the uninjured totem, there was no hope, and there was only a glimmer of hope.

After all, everything is speculated, what the real result will be, how many deaths will be, how tragic the scene will be, or the totem that has been severely injured has no resistance, and all kinds of possibilities exist, so that no one knows the result, but the war is said to the public. , cannot escape.

Four or five hundred strong men were teleported into Xincheng one after another, and Xincheng was originally measured, and the whole Xincheng became more and more lively.

The leading elders began to instruct the square to gather, and entered the buildings on both sides to rest.

Wang Xuan understands that he is afraid that if the white rhino would be disturbed by the sudden gathering of so many powerhouses, or if it arouses its suspicion, if he hits Xincheng for a while, he will endure the attack of Xincheng's defense system, and he will not be seriously injured. trouble.

Everyone poured into the various buildings on one side, so that the surface of the heart city still maintained its appearance, a certain qi, but as for the grid, it made the other party alert.

Wang Xuan entered the building with "skills" hanging there, and happened to meet Tie Jun, Zhao Lei, Zhang Haofei, Bai Yan and Qiu Yuanfeng.

Visiting in the right direction, in addition to Qiu Yuanfeng, Tiejun Zhao Lei and others had an adventure in Scorpion City, entered a mysterious ancient city, obtained a quantity of energy spar, and understood the primary skills of mastering hatching beasts. The primary skills Shimen are useless. As for the advanced Shimen, There were so many crystal scales that he needed, Zhang Haofei sighed in despair.

I think a huge sum of money, 2,000 crystal scales, and everything.

Suddenly seeing Wang Xuan, everyone was happy, Zhao Lei was busy: "What good thing is the elder looking for?"

Zhang Haofei looked behind him, "Where's Xu Jian?"

Now he is also super strong, and his strength even surpasses Xu Jian. He has no respect for Xu Jian's former "Xuan Gang" leader.

"It's a good thing and a bad thing. It takes a lot of action, so it's so much. I'll find out later, alright, congratulations."

Wang Xuan said that he looked at Qiu Yuanfeng and smiled: "The elder has agreed and will take over as the leader of the Xuan Gang."

Qiu Yuanfeng's face flashed a hint of joy. He was deeply influenced by Xu Jian, so in his heart, to be the leader of the Xuan Gang, Mo Ronghao was very excited when he thought that his wish would come true.

Seeing Qiu Yuanfeng's excited appearance, Zhang Haofei snorted, "Insect Town is in a mess right now, there's nothing to be a leader, and I feel like I'm happy in the third-layer world, of course, it's even better if I have enough crystal scales. "

You Kai and Xi Murong Mou Xingji entered with Wang Xuan. When they saw that Wang Xuanji was very familiar, they thought it was wrong, but slowly their faces showed a hint of surprise.

I feel that Zhao Lei and Zhang Haofei Baiyan have a strange feeling in their bodies. It seems that there are some wild beasts hidden in their bodies. There is an inexplicable sense of fear, just like hidden wild beasts. , without the strength to struggle and resist.

It feels the same, Wang Xuan is the same, it is strange to know that Zhao Lei has the power of the devil hidden in his body.

You Kai and a few looked at each other, and their eyes were full of surprise. They felt that Wang Xuan was really investigating, UU reading www.uukanshu.com. It's hard to see through com, how did you know each other, and you're so afraid?

And looking at the tone of the chat, it seems that the relationship is very good.

Wang Xuan's potential power is really scary.

You Kaiji thought of Wang Xuan's appearance with Elder Xuancheng. Look, Elder Xuancheng is also very close.

"Don't give a shit, what the **** is going on?" Zhao Lei and Zhang Haofei were curious and asked Wang Xuan what the group was doing.

"In order to repair the glass pass, if it can be repaired, it will be possible to access the higher floors."

Wang Xuanzhi also had some secrets, and said with a smile: "If you want to fix it, you need the blood of the strong."

As we were talking, there was a faint roar of filial piety outside.

Hearing the filial piety, Wang Xuan's heart trembled slightly, and he understood that the action of hunting totem had begun.

Chapter 255

Everyone who was chatting stopped talking, and they all listened to the roar of filial piety from outside.

This is the sound made by the giant rhinoceros, they are the descendants of the totem white rhinoceros in the third world.

An adult giant rhinoceros has strength comparable to the top powerhouses in the super state. The appearance of groups of giant rhinos is enough to sweep everything here.

But they couldn't break through the defense system of Central City.

In the past few days, every time a group of giant rhinos appeared, it meant that the white rhinos would come soon.

Without the orders of the five elders, the four or five hundred strong men who entered the major buildings on one side still waited quietly and did not go out, so as not to attract the attention of the white rhino.

The people who were originally active in the central city did not have such restrictions. They climbed the city wall with a lot of cracks, looked into the distance, and saw groups of giant rhinoceros reappear in the forest facing them.

They kept roaring, but the previous attacks caused heavy casualties. Now the giant rhinoceros did not attack rashly, but approached the central city, and then spread out in a fan shape, with a tendency to surround the entire central city. .

Everyone understands that they have sinister intentions, waiting for the white rhino to destroy the defense system of the central city, and then they can attack the central city from all directions, so that no one in the central city can escape.

They are the humans who want to destroy the central city.

"These guys, looking at this city wall, I'm afraid it won't last for a few days." On the city wall, many people have worried expressions on their faces. Many of them have been in Central City today, and they still don't know the action of this hunting totem. , I felt worried when I saw the giant rhinoceros appear again.

Looking in all directions, at least a thousand giant rhinos appeared, and they were hidden in the forest farther away.

After all, this is the giant rhinoceros that is comparable to the super-state top powerhouse. The number of super-state top powerhouses in the entire five major cities is far less than that.

Wang Xuan didn't go out, but stood at the door of the "Skill" building and looked out of the city wall from a distance.

In the entire central city, the atmosphere became a little frozen and tense.

Following the roar of the giant rhinoceros, suddenly, there was a rumbling sound in the distance, like a dull thunder.

This voice seemed to sound directly from the bottom of everyone's heart, making people instinctively feel a sense of oppression.

Wang Xuan didn't need to look to understand that the white rhino appeared.

The elders of the five major cities came out, but they did not climb the city wall. They just stood on the central street not far from Wang Xuan, looking up at the few scattered towering trees outside the city wall.

In the past few days, the white rhino attacked the central city, and a large number of towering trees in that area were destroyed, leaving only a few scattered trees standing there.

The rumbling sound of muffled thunder sounded slowly and powerfully, like drumming, getting closer and closer.

Wang Xuan understood that this was the sound of a white rhino stepping on the ground.

The white rhino is regarded as one of the seven most powerful super-beings in the third-layer world. Its power is unpredictable, and its body is even more enormous. The length of its head and tail reaches 100 meters, just like the legendary prehistoric beast.

Its height far exceeds the city wall, and when it approaches the central city, the entire central city becomes dwarfed in front of it.

As the rumbling voice slowly approached, the entire central city was shrouded in a huge sense of oppression, and everyone felt short of breath. This was the coercion brought by the totem.

Wang Xuan watched the white rhino slowly appearing outside the city wall from a distance. First, he saw its white rhino horn, and then the head as big as a house. Suddenly, it lowered its head slightly, and the sharp rhino horn was facing the metal that was already slanted on the city wall. The column hits.

There was a loud "bang", and the metal column was shaking violently, and a dazzling white light shone on it, like strips of photoelectricity, and immediately moved towards the white rhinoceros.

The white rhino let out a faint whistle, and the huge body began to slam into it. The momentum was appalling, and the entire central city seemed to be shaking.

The faces of the people who were originally gathered on the city wall changed color, and they jumped back into the city one after another, retreating to avoid being affected by the aftermath of the energy.

The elders of the five cities watched everything silently, and several of them sighed softly.

To provide you with the fastest update of "The Last Building on Earth" by the Great Reaper Fisher!

"As expected of a totem, the most powerful life in this world..."

Wang Xuan vaguely heard the voice of the elder Xuancheng, and his tone was amazed. Even if it was not the first time to see it, the scene was still full of shock.

"I only hope that it can be severely damaged by the defense system of Central City, otherwise..." Elder Phoenix's voice also sounded slightly. Obviously, if the white rhino is not injured and is in its prime, even if they all unite, they will not win at all. hope.

The loud noise of "Boom" is endless. The white rhino that appeared today is more and more violent. It seems to see the hope of destroying the defense system of the central city. During its impact, the city wall with a large number of cracks was crumbling, and more appeared on the surface. Cracks, and the sound of "squeaks" of the walls shattering can be heard incessantly.

The two metal pillars on the city wall were completely covered with white light, and the rays of light were like thick lightning, and they continued to move towards the white rhinoceros.

Although the white rhino had firm skin and thick flesh, it couldn't resist it. It was choked on by the light beams, and the flesh was immediately cut open, forming scorched wounds with deep visible bones. The air was filled with the smell of burnt stench.

The attack of the white rhino became more and more violent, the ground of the entire central city was shaking, and the sky was full of white light flickering.

Countless giant rhinos are waiting silently. As long as their totems break through the defense of the central city, they will rush in and kill all the humans in the central city.

The elders of the five cities finally moved, and they began to move towards the city wall that was shaking violently.

They realized that the situation was not good. Looking at today's setup, it is very likely that the white rhino would really destroy the city wall and destroy the defense system of the central city, which would be troublesome.

Originally, they thought the city wall could withstand a few times, but today it seems that the situation is far more terrible than they imagined, which forced them to act in advance.

A low whistle came from the mouth of the elder Rakshasa, and with a loud noise, the black robe swept the ground, he almost jumped into the air, braved the crazy white lightning, and fell steadily to the violently shaking city wall. superior.

He suddenly appeared on the city wall, the white rhino in front of him was opening his mouth, making a terrifying low whistle, bowing his head slightly, and the spear-like rhino horn stabbed fiercely again.

"It can't be allowed to destroy any more, it must be stopped immediately!" Elder Rakshasa let out a stern shout, looking at the white rhinoceros as big as a mountain in front of him, his whole body was dripping with blood, and countless wounds were deep into the bones, and he understood that it was extremely injured. It was heavy, stabbed by this light, and the wound was charred black. Even with the totem's strong resilience, it would take at least a day to fully recover.

Taking advantage of its heavy damage and weakened body, now is the perfect opportunity to kill it.

With Elder Rakshasa's loud shout, in the buildings on both sides, four or five hundred super-powerful people gathered in this operation swarmed out.

Immediately after Elder Rakshasa, the other four elders rose up into the air. The fifteen-meter-high city wall jumped up and fell steadily. With the help of the defense protection of the central city, they faced The white rhinos that collided did not dodge, but shot one after another.

Wang Xuan kept up with it without hesitation. With a once-in-lifetime opportunity, he wanted to see what the strength of the elders of the five cities was.

The "eye of the illustrated book" quietly opened, and with the instinctive induction of Warcraft, I hoped to be able to sense it.

Wang Xuan saw that the black robe on the body of the elder Rakshasa swelled up, and there was a jet of air inside, and a pair of fat and snow-white hands stretched out from the black robe.

The hands were folded together, and a column of air shone faintly from it.

With a "bang", the air column broke through the air, making an explosion sound, and banged heavily on the rhino horn that was like a giant curved blade when the white rhino slammed into it.

Following Elder Rakshasa, Elder Xuancheng, Elder Phoenix, Elder Wangcheng, and Elder Justice City followed.

Every elder launched an air-to-air attack, and a terrible sonic boom sounded in the air. The five elders joined forces to strike, and the power was already incalculable. Even the white rhino that collided was stagnant.

Following the five elders, there are twenty-two men in black robes, all of them are super strong who have the phenomenon of hatching beast backlash.

Rising from the air, each attacked, and all the forces gathered together to fight against the white rhino with all their strength.

Everyone understands that the situation is dangerous, and if the white rhinos are not stopped, the city wall may really collapse.

Once it collapses and the defense system of the central city is destroyed, they will need to face the attack of thousands of giant giant rhinoceros.

More than 20 people in black robes shot together, and there was an earth-shattering loud noise on the city wall, like a thunderbolt, the white rhino opened its mouth and roared like a bull, it looked very angry.

In its eyes, humans are just ants, and now a group of ants are united, how dare they attack it?

This is simply the scale of the dragon. In its roar, although its impact on the city wall was blocked, the elders of the five cities and the twenty-two people in black robes could not withstand its impact, even if

they had the central city The protection of the defense system, still groaned and fell down from the city wall, most of the people in black robes opened their mouths, spurting blood, and suffered heavy losses only when they met.

"Go, we must stop it!" Elder Rakshasa's body slammed heavily on the ground, making a dull sound, roaring in his mouth, and ordering all the powerhouses in Rakshasa City to take action.

Elder Xuancheng also shouted: "Go on, kill it at all costs!"

As the elders of the five cities gave orders, hundreds of super-powerful people rushed to the city wall one after another.

Among them, the powerhouses who have various auxiliary abilities have exerted various auxiliary abilities. Among these auxiliary abilities, there are healing, strengthening, acceleration, defense enhancement, and weakening of the opponent's combat power...

Wang Xuan followed the crowd and felt a large amount of white light rain falling from above. Bathed in the light rain, his strength and speed were improving. Not only that, the light rain entered the body and could also heal the wounds that might appear on his body. .

The severely injured black-robed people bathed in it, and the injuries they had just received recovered at an alarming speed, and soon stood up again.

Wang Xuan got on the city wall, but saw Mei Xiaosen, who was not far from him, move with his right hand. An iron-cast dragon flag fell from the sky and slammed into the ground with a bang. This dragon flag has special abilities, which can not only strengthen his All kinds of abilities, and it can also be used to suppress opponents, it is a treasure with infinite wonderful uses.

Groups of giant giant rhinos rushed up frantically, and Mei Xiaosen soon found that the iron cast dragon flag he summoned was trampled and rammed by the group of giant giant rhinos.

Hundreds of super-powerful people climbed the city wall and shot one after another. All kinds of attacks gathered together and madly blasted towards the white rhinoceros.

Wang Xuan launched ghost wings, which turned into steel feathers, mixed with everyone's attacks, and shot towards the white rhinoceros.

The earth-shattering loud noise was incessant, and the white rhino opened its mouth and let out a sharp scream. Its whole body was covered with bone-deep injuries. The injury was heavy, its strength was weakened, and it could not recover in a short time.

Perhaps realizing that something was wrong, the white rhino suddenly started to back away with the constant whistling sound.

Now everyone is hiding in the central city's defense system, and everyone can attack the white rhinoceros, but the white rhino's attack is blocked by the central city's defense system, and cannot directly attack everyone.

It wasn't stupid either. When it realized something was wrong, it immediately backed away, opened the distance from the central city, no longer collided with the central city, but started to back up and was about to leave here.

The five elders climbed the city wall again and watched the white rhinos retreat. They understood that what they were most worried about had finally happened.

Once the white rhinos no longer attack the central city, but choose to leave, they can no longer hide in the central city's defense system and be sheltered by it.

At this time, they only have two choices. One is to watch the white rhino leave, and until tomorrow, it will return to its previous peak state. .

Once this time is reached, without the protection of the central city's defense system, for everyone, the danger will naturally increase greatly.

It's just that the five elders have no choice. Today, the white rhino must not be allowed to retreat. Otherwise, when the white rhino recovers completely tomorrow, it may destroy the defense system of the central city by colliding again, and it will all be over.

With the order of the five elders, hundreds of super-powerful people followed the city one after another.

To provide you with the fastest update of "The Last Building on Earth" by the Great Reaper Fisher!

The wall jumped up and launched various long-range attacks again towards the retreating white rhino.

The weakest of these are the top powerhouses. When everyone unites together, the attack power of the shot is so powerful.

Wang Xuan saw that there were energy shock waves, lightning, fireballs, light blades, wind pillars, long swords and ice arrows with a handle, venom and meteorites.

And the dozens of steel feathers he controlled were also mixed in, frantically attacking the retreating white rhinoceros.

All kinds of terrifying sounds sounded, the retreating white rhino took all the orders, and all the attacks fell on its body, causing an earth-shattering loud noise. If it wasn't for the serious injury, these attacks would have no effect on a totem like it, such as scraping. different.

Rao is so, hundreds of people attacked together, it is difficult to cause serious damage to it.

Seeing everyone rushing out from the city wall, it suddenly stopped when it had retreated, and a huge roar roared from its open mouth, and the curved rhino horn on its forehead radiated a ray of light.

The light flashed out like lightning, and instantly fell into the crowd.

There was an earth-shattering loud bang, and at the moment when the lightning fell, various screams were heard endlessly. At this moment, at least a dozen people were choked by the lightning, and immediately turned into a mass of coke and fly ash.

This is the power of the totem, even if it is seriously injured, it is the end of the force, and it should not be taken lightly.

When everyone saw the power of this lightning strike, they couldn't help but take a deep breath. At this moment, the twenty or so men in black robes recovered their injuries and appeared again.

Some of them let out low roars and screams. These are all super powerhouses who showed signs of backlash from hatching beasts. With a joint blow, the white rhino also needs to pay attention. It had to stop retreating, but raised its arrogant head. The white rhino horn on the forehead began to emit a white light, and a thick white light was emitted.

This white light entered a group of black-robed men. The black-robed men couldn't resist it together. They screamed and vomited blood and fell out. Wang Xuan noticed that the black robes on the outside of their bodies were damaged, revealing the skin inside. It can be seen that these black-robed people are basically half-human and half-beast, and it is difficult to have a complete human appearance.

Although the white rhino smashed the more than twenty black-robed men away with one blow, more than a dozen men and women on the other side succeeded.

These people are existences with strength similar to Mei Xiaosen. It can be said that except for the five elders and this group of black-robed people, they are the strongest.

At this moment, they seized the opportunity and threw a javelin and several weapons into a wound behind the white rhino while the white rhino was fully defending against other people's attacks.

The white rhinos only felt hurt when they were hurt. They wanted to turn around to attack them, and they all dodged and retreated, avoiding them far away.

The five elders joined forces to attack again, this time they dispersed and attacked in five different places.

Without the protection of the central city, everyone was extremely careful, and if they were a little careless, they would die.

The white rhino began to turn around and walked towards the depths of the forest. It began to realize that something was wrong. There was something wrong with these human beings. .

As long as it recovers from its injuries, the mere humans are nothing to be concerned about.

The long whistles sounded one after another, and the five elders shot one after another, all of which hit the white rhinoceros.

The huge body of the white rhino swayed, still walking unswervingly into the distance.

It occasionally roars and stretches out the curved rhinoceros to fight back, but it is a little slow now. Relatively, the top group of people in the crowd have already moved faster than it, and they will attack from a distance. weaken it as much as possible.

Wang Xuan followed in the crowd, which was very different from what he imagined. He could not have imagined that the white rhino was so severely injured that it had no power to resist.

Four or five hundred super-powerful people completely poured out of the central city, attacking the white rhino from all directions, while the white rhino let everyone go crazy, it just took its own steps firmly, slowly and powerfully moving away.
