

Last Building on Earth Chapter 256-260

Chapter 256

Wang Xuan followed the crowd, not daring to get too close, controlling dozens of steel feathers formed by the decomposition of ghost wings, and attacking from the air.

The steel feathers couldn't pierce the skin of the white rhino, but only through the charred wounds where the bone was visible.

Although the white rhino is leaving, it is not desperately fleeing into the distance as everyone imagined, but maintains the dignity of the totem. The limbs that are like the pillars of the sky still seem slow and powerful. The forest floor was shaking slightly.

Seeing that the white rhino was running away, Wang Xuan looked so calm, but the scene of watching a group of lions hunting giraffes in the animal world came to his mind, and he thought of those lions biting the giraffe, or lying on its back, or hanging on it. On the other hand, the giraffe always seemed unhurried, eating leaves while walking, with lions hanging from its whole body, until it finally collapsed and became lion food.

In the past, when he saw this, he could not understand the behavior of the giraffe, but he never expected to see a similar situation on the white rhino at this moment.

"The giraffe's behavior may be understood as insufficient IQ, but the white rhino is one of the seven strongest totems in the world. In any case, it can't be said that its IQ is low. Does it know that it can't escape, so it gave up running away, Choose to die with dignity? Or is it that it doesn't care about our attacks at all, and it still has a hole card?"

Wang Xuan's thoughts turned around, he kept an eye, and quietly produced a few defense crystals, just in case.

There are many people who think the same way as him. After all, the white rhino's movement of leaving is too calm, no matter how you look at it, it doesn't look like it's running away.

Sure enough, as it walked out of the attack range of the central city's defense system, it suddenly opened its mouth and let out a long whistle.

As the whistling sounded, the giant rhinoceros in the surrounding forests began to open their mouths collectively, making a roar of filial piety, followed by the sound of rumbling, and thousands of giant rhinoceros fanned out. Came up and attacked them.

These giant rhino groups are the trump card of the white rhino, and it is not afraid of being attacked by everyone.

In its eyes, small human beings are not qualified to challenge it at all.

Each giant rhino has the strength comparable to the top super-state powerhouse. Thousands of giant rhinos launched a sprint, setting off dust and withered leaves in the sky, and the sound of filial piety was deafening. The strong were immediately attacked by them.

Hundreds of super-powerful people who had no idea in their hearts were relieved when they saw the giant rhinoceros swarming around them.

If the trump card of the white rhino is only the giant rhinoceros group, it is nothing to be afraid of. The only thing everyone is afraid of is the white rhinoceros itself, for fear that it has any trump card, and although the group of giant rhinoceros looks terrifying, it is overwhelming and unstoppable. However, among these four or five hundred super-powerful people, the weak ones are super-state top powerhouses, and there are even more powerful super-state peak powerhouses, even if super-state extreme powerhouses exist. The giant rhino looked in his eyes.

As the two sides approached, the conflict broke out in an instant, and the super-powerful powerhouses on the periphery took action one after another, attacking the giant rhinoceros that collided with them to resist their collision.

The explosion sound of "Boom boom boom" was incessant, and a large swath of flames rose up and turned into a sea of fire, which soon set the forest on fire to block these giant rhinos.

All kinds of screams and screams sounded, and thousands of giant rhinos clashed with hundreds of super-powerful people, and the scene immediately became **** and tragic.

More than half of the super powerhouses changed their targets and defended against the attack of the giant rhinoceros, while the other half of the super powerhouses were still frantically attacking the white rhinoceros.

Killing the white rhino can not only relieve the major disaster of the destruction of the central city, but also repair the upward glass passage. Moreover, if anyone can grab the last blow and kill the white rhino, the energy harvested is simply unimaginable.

It's hard for everyone to imagine what to gain from killing a totem with a human body. After all, it has never happened before.

The only thing that is certain is that there will be great benefits. This opportunity is envied by everyone and does not want to be missed.

Facing the frenzied attacks of hundreds of people, the white rhino still maintained its previous steps and walked towards the depths of the forest.

Although each

To provide you with the fastest update of "The Last Building on Earth" by the Great Reaper Fisherman!

All kinds of abilities that weaken the combat power are hit on it, and everyone has tried their best to attack frantically, but at present, the impact of all of their attacks on the white rhino is not particularly

obvious, and the serious trauma it has suffered is still the same. It was left to it by the two metal columns of Canterlot.

Wang Xuanyue's attack became more and more frightening. The white rhino was so terrifying. It has been at least a minute or two since they attacked. However, the continuous attack of hundreds of people, even if it was not scraping, hit the white rhino, and it was also very similar to the attack. Scraping makes little difference.

It hardly evades the various attacks of everyone, and accepts all of them. Only when it hits a terrifying wound on its head, it will shake its head slightly to avoid it.

Wang Xuan noticed this detail, and his heart moved. Could it be that the real key is on the top of his head?

With this idea in mind, he immediately moved forward, controlling dozens of steel feathers, and began to focus on attacking the deep bone-deep wound on the top of the white rhinoceros head.

Except for Wang Xuan, many people noticed this detail. Mei Xiaosen jumped, rushed out of the group, overtook the white rhinoceros, and then circled from the front. The iron cast dragon flag appeared again, carrying the hunter. The wind whistled and shot towards the wound on the top of the white rhinoceros head.

Along with Mei Xiaosen, there are several people, both men and women, each of which is unfathomable. In Wang Xuan's view, their strength should have broken through the peak of the super state, and it is very likely that they are the real super state extreme power. By.

Among these men and women, a man wearing a metal plate, representing a strong man from Justice City, threw a bronze war spear out of his hand.

This bronze war spear dragged a cyan rainbow light in the air, and the air-shattering wind whistled from the ground. In terms of lethality, it exceeded the dozens of steel feathers controlled by Wang Xuan, and shot the white rhinoceros forehead wound.

Another woman, from "Phoenix City", raised her right arm, and snow-white rune patterns appeared on half of her body. These rune patterns were smashed together, forming a half set of rune armor. As she shouted, a snow-white cold air erupted in the half set of rune armor. Wherever the cold air blew, it would freeze, forming snowflakes in the air and falling around.

She descended like a goddess of ice and snow in the snowflakes flying all over the sky, and she was majestic.

As she raised her right arm, countless snow-white runes appeared and swirled, and the snowflakes roared in the sky, forming a huge column of ice and snow, which blasted towards the white rhinoceros with its head and face covered.

This woman has the power to control ice and snow, and she is famous in the five major cities. Wang Xuan is secretly surprised when he sees it, and understands that this is a super powerhouse that is not inferior to Mei Xiaosen.

Another man from "King City" held a scepter in his right hand and was able to control the surrounding rocks on the ground. Pieces of rocks appeared in the air and smashed towards the white rhino crazily.

In addition to these superpowers, more than 20 people in black robes also surpassed the white rhinos and began to intercept from the front. Among them, the people in black robes stretched out their hands. As the black robes danced, his small half body was exposed, and his whole body was long. It was covered with black forest hair and had a face shaped like a black ape.

Wang Xuan knew him, and he was one of the five black-robed men from "Xuancheng".

Because of the backlash of the hatching beast, he was half human and half ape, and could no longer return to a completely normal human appearance. He could only cover it with a black robe. At this moment, he shot with all his strength. He got up, grabbed a pair of ape claws, jumped under the belly in front of the white rhinoceros, and caught it into the huge burnt wound. Go to the top of the white rhino's head, and then attack the key point on its head.

This man in black robe is so bold, many people are secretly a little scared when they see it, and others follow suit. A man in black robe from "Wangcheng" also jumped up and landed on the white rhinoceros. With the open wound on its belly, he wanted to get into the body of the white rhino and destroy it.

Many people followed suit and jumped up one after another. Soon the wound on the surface of the white rhino's body was filled with people. They all destroyed the wound as much as possible and wanted to drill directly through the wound.

The white rhino has always behaved calmly and seemed very calm. Even if it was seriously injured and was attacked frantically by hundreds of super-powerful people, it did not show much panic.

Until this moment, when everyone climbed into the numerous wounds on the surface of its body, they began to move towards its body.

To provide you with the fastest update of "The Last Building on Earth" by the Great Reaper Fisherman!

Drilling into the body, the white rhino finally seemed to be really provoked. It suddenly stopped, raised its head, and let out a loud whistle from its open mouth, and a white light appeared on the curved white rhino horn again.

"Everyone, be careful!" Elder Phoenix from "Phoenix City" shouted harshly. She understands that the white rhino emits this white light with infinite power. I'm afraid no one can stop it. In special cases, it will not launch casually.

Seeing the curved rhinoceros horns glowing, many people distanced themselves and squeezed the defense crystal in their left hand. Once the white light released came to them, they immediately crushed the defense crystal.

I don't think the rhino horn did not emit a terrifying white light, but a white light exploded from the wound on the surface of its body.

With a "Boom", many people who climbed into its wound were caught off guard, blown up by the white light, and immediately roared and shattered.

Even the super-top powerhouse can't withstand the terrifying blow of the white rhinoceros.

Among them, the black-robed orangutan who climbed on top of the white rhinoceros head was about to attack the wound on the top of the white rhinoceros head. He didn't want a white light to erupt from the wound and drown most of his body.

Wang Xuan saw that most of the black-robed man disappeared in an instant, and the remaining half of the body gushed out like a fountain of blood, without even a scream, the remaining half of the body volleyed down from the top of the white rhinoceros head.

This is one of the twenty-two black-robed people in the five major cities whose strength is second only to the five elders. The strength is stronger than that of the super-peak powerhouse.

Wang Xuan was shocked when he saw it in his eyes. The dozens of steel feathers he blasted out were also submerged by the white light, and immediately disappeared and shattered.

The energy that the white rhino burst out this time is unbelievable. Most of those who climbed on its body were wiped out, and a few people escaped, including the black-robed man from Wangcheng. fall down.

The white rhino was seriously injured. After this terrifying blow, the pressure released from the whole body was obviously weakened a lot. At the moment when the power of the white light all over its body weakened and converged, the ground under its belly suddenly burst out. Breaking out of the ground, he instantly hit a wound on the belly of the white rhinoceros.

The speed was so fast that most people couldn't see what was coming out of the ground. It was as strong as Wang Xuan, and they could only barely see that it was a metal human figure with patterns all over its surface, along the open wound on the belly of the white rhinoceros. He got in and disappeared suddenly.

At this moment, it was the time when the white rhino had a terrifying blow, the white light subsided, and its blood was at its weakest. It was suddenly struck by this blow, and its 100-meter-long body shook violently. It stopped in place, and suddenly there was a A lot of blood flowed and spewed out.

Almost at the same moment, on a towering tree not far away, a figure rose from the canopy of forty or fifty meters high and landed on the top of the white rhino with a bang.

This figure is tall and tall, two meters tall, wearing full body armor, like a **** descending from the earth, holding a knife in both hands, the knife is whistling, and the whole body is glowing, like a two-meter-long blade of light, volleying at the head of a white rhinoceros In the open wound on the top of the head.

The blood was like a fountain, the white rhinoceros roared and roared, and the huge body was shaking violently. This two-meter-high armored giant, even with a knife, fell into it.

Wang Xuan stopped and was stunned. He couldn't see the figure that burst out from the ground into the belly of the white rhino, but it suddenly appeared from the canopy on one side, and jumped into the wound on the top of the white rhino's head. He saw the two-meter giant clearly.

This is the mysterious master who appeared in Xuancheng before.

Previously in Xuancheng, Xuanzhu suddenly attacked Wang Xuan, and later said that he passed the assessment and then fell into a metal coffin. Wang Xuan could not have imagined that at this moment, he would be fully armed, wearing heavy armor, and hiding in the canopy on one side. Great opportunity, one hit.

The single horn on the top of the head is the fatal point of the white rhino, and it suddenly suffered a heavy blow. .

The huge body up to 100 meters long, and its weight is not known to how many tons. At this moment, it fell down with amazing power. Where it fell, everyone retreated in horror. Once it was crushed, even if it was made of steel, I was afraid All have to be pressed into discus.

To provide you with the fastest update of "The Last Building on Earth" by the Great Reaper Fisherman!

The towering tree that was crushed was immediately broken and fell down, and the giant rhinoceros who retreated slowly were crushed, and they didn't even have time to let out a scream.

Watching the white rhino fell heavily, Wang Xuan let out a sigh of relief. It was only at this time that he really thought that it was possible for everyone to kill the white rhino.

Although they were numerous in the past, most of their attacks were like scraping, and they couldn't hurt the white rhino at all.

Xuanzhu killed along the wound on the top of the white rhinoceros head, but it did not appear, but the fallen white rhinoceros was struggling, and blood was flowing out of its mouth, nose, eyes and ears.

Wang Xuan understood that in addition to the mysterious master, there was another person who, like him, got into the body of the white rhinoceros, and they were carrying out crazy destruction in the body of the white rhinoceros.

It is too difficult to kill the totem. The body as big as a hill is too powerful for human beings. When people do it, it is like a cockroach shaking a tree. The only hope is to enter its body and destroy it from the inside.

Wang Xuan heard the sound of an explosion in the body of the white rhino, but the sound of the explosion was very dull across the thick flesh.

Groups of super-powerful people began to jump on the white rhino's body, drilled into the surface of the wound, and launched frantic destruction inside its body.

In all directions, countless giant rhinos rushed up like crazy. They seemed to know that the totem of their own family was in a bad situation, and they desperately wanted to save it.

Various roars of filial piety were heard incessantly. One by one, the giant rhinoceros sacrificed their lives and attacked frantically in a manner that almost perished. Immediately, enormous pressure was exerted on everyone. From time to time, super-powerful people were severely injured and injured. It resisted their impact, but now I can't resist it, and I start to flinch.

But no matter how crazy they are, they can't get close to the white rhino in a short time. More and more people get into the body of the white rhino and start to destroy it from the inside.

Watching this scene, Wang Xuan deeply realized what an ant duo kills an elephant.

Even the supreme totem of the third-layer world, once weakened, may be killed by humans far less powerful than it.

Wang Xuan understood that the most deadly blow came from the mysterious master. This mysterious master was really terrifying. The volley smashed the white rhino's forehead and hit its vital point before it fell down.

When it fell ~www.mtlnovel.com~ the result was doomed, all kinds of explosions in the body were incessant, white light flickered faintly on the surface of the body, and these white lights converged towards the single horn of its forehead.

This totem is like a hundred-legged worm, dead but not stiff. It has to make a last-ditch effort. All the energy in the body gathers the rhino horn, and the curved horn shines again.

The instinct of the super-powerful is sensitive, and Wang Xuan's Warcraft felt uneasy, and immediately opened the distance, knowing that although the white rhino was the last blow, the last blow must be extremely powerful, and no one could bear it.

The powerhouses who had drilled in sensed that something was wrong, and they re-drilled out of the wound on the surface of its body and jumped out, all pulling away.

Suddenly, there was a loud bang in its belly, a huge wound opened, and a figure appeared and drilled out of it.

This figure is three meters high, and the whole body is made of steel and metal, covered with exquisite patterns, but at this moment it is covered with blood, and there are bright metallic luster flashing all over the body.

Chapter 257

The three-meter-high metal giant drilled out from under the belly of the white rhinoceros, and then stepped back to widen the distance.

At the same moment, in the huge wound on the top of the white rhino's head, the mysterious master also reappeared. Like the metal giant, he also quickly distanced himself. Everyone understands that the

white rhino is about to burst into life and will be the most powerful in the end. One blow, this blow, no one can stop it, whoever sticks to it will die, even if he is as powerful as a mysterious master, he must escape and avoid it.

"The Ronin from Douluo"

Seeing this, Wang Xuan has already understood that this metal giant may be an existence similar to the mysterious master, but he does not know which side of the remaining four major forces belongs to.

The white light that appeared in the body of the white rhino gradually became more and more blazing, and it continued to gather towards the single horn on its forehead. Destructive energy was gathering. More and more people drilled out of its body and fled. Wang Xuan squeezed Defending the crystal, while retreating to a distance of 100 meters, even those giant rhinos realized that it was not good, and they did not dare to go forward, but retreated.

This is the last blow of the totem's burning life, everyone is fleeing, and the white rhino is swaying to support the huge body to stand up again.

The single curved horn on its forehead has completely turned into a white rainbow light. This rainbow light is growing. It opens its mouth and makes an earth-shattering roar. Finally, it stands up again and turns its head slightly. The central city behind the crowd is lined up.

"Not good!" Everyone reacted, and their expressions all changed.

The city wall of the central city was crumbling originally and could not resist a shock from the white rhinoceros. Now the white rhinoceros knew that he was about to die, so he left his last blow to the central city.

With this blow, the city wall of the central city will inevitably collapse, and the originally impregnable defense system collapsed immediately.

Everyone was shocked when they saw it, but no one could stop it. They could only watch the single horn on the forehead of the white rhino glowing.

"Clap" sounded.

In the distant forest, a cyan beam of light volleyed over and hit the white rhino's forehead precisely.

The white rhino was turning back to face the central city. In any case, he did not expect this attack to occur in the forest behind it. It was completely unprepared and was hit instantly.

Its forehead, which was harder than steel, was easily shattered and exploded by the cyan light beam, and the blood mixed with the white brains exploded.

The head of the white rhino was as big as a house and disappeared in an instant. The rhino horn, which originally gathered energy like the ocean, was about to explode, but suddenly lost its support and turned into a white rainbow light that reached the sky. .

This sudden scene shocked everyone, and they all looked up and looked into the distance, but at some point in time, a cyan fox with a body length of 100 meters appeared on the sea of trees formed by countless towering trees in the distance.

The cyan light beam that shattered the white rhino's head just now was retracted, and it was its tail.

It doesn't know when it appeared or where it came from. It is as strong as Wang Xuan who couldn't find it. It seems to come suddenly, stepping on the canopy, walking between the branches and green leaves.

A blazing white light like the sun emerged from the body of the white rhino, rose up, turned into a rainbow light, and flew the cyan fox.

It opened its mouth slightly, contained the white light, and swallowed it.

Wang Xuan understands that this is the energy obtained by killing the white rhino, a treasure that everyone is jealous of. He originally thought that it would be obtained by the mysterious master, but he did not want it to be obtained by the cyan fox in the end.

The white rhino that lost its head, its body was fixed in place, stagnant for two or three seconds, it seemed to be full of thoughts and unwillingness to this world, and finally collapsed with a bang.

A group of people in black robes rushed forward without thinking much, took out a huge leather pocket that could be used to hold water from their storage belts, and came to the neck of the white rhino that had lost its head, and caught the surging surge from its wound. The blood that flowed out.

The blood of totems, the treasures of heaven and earth, can repair the glass column and open the passage to the higher floors, these blood is very important, how can it be wasted.

The cyan fox swallowed the white light, with a pair of eyes, condescending, staring

To provide you with the fastest update of "The Last Building on Earth" by the Great Reaper Fisher!

Hundreds of human powerhouses below.

Everyone felt a huge sense of oppression. Wang Xuan's eyes of fear suddenly became active. He felt the fear energy quietly released from the bodies of the people around him, and the giant rhinoceros who were retreating and fleeing. Their hearts were full of fear.

The more powerful a creature is, the more powerful the fear energy it releases once it is feared.

Wang Xuan faintly felt that his Eye of Fear showed signs of evolution again.

Hundreds of powerhouses retreated towards the central city behind, but the cyan fox did not attack everyone. It started to turn its body, stepped on the canopy, and started to leave.

It seems that its limbs move slowly, like walking in a leisurely court, but in the blink of an eye, everyone feels that it has become a lake, like a mass of blue shadows, and then disappears.

The cyan fox disappeared at the end of the tree canopy in the distance, and everyone dared to take a breath. Cold sweat broke out on the back crest.

Wang Xuan saw Elder Rakshasa, one of the five elders, respectfully saluting the three-meter-high metal giant. The metal giant stretched out a hand, swayed slightly, stepped back, and suddenly jumped into the air. It was like a javelin rising from the ground, rushing 20 to 30 meters high in an instant, jumping over the cracked city wall, falling into the city, and disappearing.

Seeing this, Wang Xuan already understood that this three-meter-high metal giant must be the real leader of Rakshasa City, and his status is still above the elders of Rakshasa, and he is an existence similar to the Xuanzhu of Xuancheng.

At this moment, he vaguely heard someone in the crowd whispering softly: "It's King Rakshasa, I just heard it before, I didn't expect him to look like this..."

"It turns out that his name is Rakshasa King, but that name is domineering..." Wang Xuan's heart moved when he heard this.

As King Rakshasa left, the mysterious master on the other side also left. He was no slower than King Rakshasa, and he was as strong as Wang Xuan, and he could only see his body flickering twice before disappearing.

With the death of the white rhino, groups of giant rhinos escaped cleanly, leaving only the corpses of giant rhinos on the ground, the largest of which is a white rhino that looks like a small hill.

Hundreds of people surrounded the corpse of the white rhino, which was the highest totem of the third layer of the world, and it actually turned into a corpse.

Many people were busy. Those black-robed men had prepared a lot of huge leather bags for water. They took them out and threw them to the surrounding people. Everyone started to bleed the white rhinoceros, and put the skin on their hands as much as possible. Bags full of blood.

In the central city, the people who were originally staying in the city also appeared one after another. Wang Xuan saw Zhao Lei, Zhang Haofei, Tie Jun, Bai Yan and others also appear.

Looking at the corpse of the white rhino, their eyes showed disbelief.

It took a full hour. The blood flowing out of the white rhino's body became less and less, and the blood-filled leather bags had piled up like a hill. The black-robed man began to store these blood-filled leather bags for storage. Put it in the belt.

Whether the glass cylinder can be repaired and the upward passage opened depends on the effect of these blood.

Seeing that the blood in the white rhino was basically drained, the five elders began to order everyone to dig a hole on the side to bury the headless body of the white rhino.

Tie Jun and Zhao Lei came to Wang Xuan's side. Zhang Haofei asked curiously, "Why is it so troublesome to bury it? Can't the ground here purify itself?"

Wang Xuanzheng was about to answer, but Mei Xiaosen, who was standing not far away, also heard it and turned back: "A powerful creature like the white rhino, even if it dies, its corpse is a treasure. It is buried in the ground. It is possible to grow treasures similar to hatching corpses, if you are lucky, you may even acquire some of its special abilities, of course, it will take a long time."

Zhao Lei, Zhang Haofei and others suddenly realized, Wang Xuan immediately thought of the hatching corpse he had obtained and the power of the ghost car. Could it be that the ghost car was once an existence like a white rhino? Only then fell.

A group of super-powerful people took action, and soon dug a huge pit that was 100 meters long, and then collectively took action, carried the white rhinoceros, and buried it.

After finishing their work, everyone began to return to the central city one after another, and through the transmission channel of the central city, they entered the No. 9 safe area again.

The thought of knowing whether the glass cylinder could be repaired soon made everyone nervous and hopeful.

To provide you with the fastest update of "The Last Building on Earth" by the Great Reaper Fisher!

Wang Xuan brought Zhao Lei, Zhang Haofei, Tie Jun, Bai Yan and others together from the central city back to the No. 9 safe area.

At the moment, the No. 9 safe area is full of people. Now everyone knows that the blood of the totem will be used to repair the road to the higher floor. Many people have urgent light in their eyes.

Even if they know that their strength is not enough to enter the higher floors, everyone is still curious about the higher floors.

"Strange, I haven't seen Tang Ruoyu and Gu Manyao, but I don't know where to go to do the task?"

Today's action, until now, he has not been able to see the two girls, he is not worried about Tang Ruoyu, but he is a little worried about Gu Manyao.

But think about Gu Manyao, although not as powerful as Tang Ruoyu, but gaining the power of blood erosion, as long as it can be fully exerted, it is no trivial matter. In terms of strength, let alone the top level, it is not difficult to become the peak powerhouse in the super state. Logically speaking, as long as you don't go to some special places, there shouldn't be too much danger.

Groups of powerhouses were gathering at the ten glass cylinders, and soon the group of men in black robes, led by the five elders, appeared beside one of the glass cylinders. They opened the storage belt and stored the A lot of blood bags were taken out.

These blood bags were taken out and piled up one by one. Under the instructions of several elders, a few super strong men took action, opened these blood bags and poured water on the bottom of the glass cylinder.

As the bags of blood were poured on, everyone could see that the blood was absorbed by the glass cylinder, forming blood threads on the glass surface.

More and more people gathered in all directions, and soon more than a thousand people.

Although there are more and more people here, the scene is very quiet. Most of them are raising their heads and watching the changes of the glass cylinder.

The super-powerful people have extremely strong eyesight. You can see that these bloodshots are intertwined and continuously rising. With the continuous watering of blood, these bloodshots finally rose along the glass cylinder to the end of the fracture for hundreds of meters. At that fracture, A blood-red glow began to appear slowly.

At this break is the sky building showing the tip of the iceberg. With the blood-red light appearing at the break of the glass column, the sky building began to change slightly, and suddenly a low roar sounded, but saw a three-meter-high Ala giant The devil drilled out of it, it roared, and slid down the glass column, falling from a height of hundreds of meters.

There was a loud bang, and the mask that had disappeared suddenly appeared, protecting the No. 9 safe area. The Ala troll used the glass cylinder to slide and fall to the top of the mask, bounced high, and followed the arc The linear mask rolled down and fell.

As the troll of God fell, it followed like dumplings, and groups of trolls of God, green Aden, and winged Agatha appeared, and they rushed down the ten glass columns frantically.

It seems that they have a hunch that they don't want everyone to be able to repair the glass column and open the upward passage.

The sound of "Boom boom boom" sounded incessantly, and the mask below was fluctuating violently. In the blink of an eye, at least hundreds of God trolls, green Aden, and winged Agatha appeared. They covered the top of the mask, and then followed the The mask goes down.

Although they cannot directly destroy the mask, they can destroy the rune stone carvings on the ground and disintegrate the protective mask in the safe area.

With the arrival of groups of human-shaped monsters, there was no need for the five elders to order, and many super-powerful people poured out their masks and launched attacks on these human-shaped monsters.

God Troll, Green Aden, and Winged Agatha are all super-top-level strengths. Among them, Winged Agatha is the strongest. A Yu-Agatha already has a strength close to the super-state peak.

The super-powers who dare to rush out of the mask and take the initiative to confront these humanoid monsters are at least top-level powerhouses, and those who are weaker only dare to stay within the mask and conduct long-range attacks.

"Wang Xuan, shall we take action?" Zhao Lei looked at Wang Xuan with excited and nervous expressions.

Wang Xuan nodded towards them. Zhao Lei, Zhang Haofei, and Bai Yan all had demon gods sleeping in their bodies. They possessed infinite potential. These humanoid monsters were powerful, which was a good opportunity to sharpen them.

Seeing Wang Xuan nod, Zhang Haofei let out a wild laugh and rushed out with the crowd.

To provide you with the fastest update of "The Last Building on Earth" by the Great Reaper Fisher!

Zhao Lei and Bai Yan followed closely, and Tie Jun also rushed up.

Beside the glass cylinder, the five elders and a group of people in black robes were still pouring blood on the glass cylinder. They didn't care about the humanoid monsters that appeared, but only focused on the repair of the glass cylinder above.

Hundreds of meters in the sky, at the break of the glass cylinder, the blood-red rays of light are constantly flashing, and there are countless blood-colored silk threads intertwined.

This means that the blood of the totem played a role, and the glass cylinder began to repair and grow at a speed visible to the naked eye.

At the cracks in the sky, more and more humanoid monsters appeared. In addition to the God Troll, Green Aden and Winged Agatha, more powerful God Troll Elite, Three-Eyed Aden and Four-Winged Agatha began to appear one after another.

Their strength is already comparable to the super-peak powerhouse, especially the four-winged Agatha, whose strength is close to the super-state limit powerhouse.

As more and more humanoid monsters appeared, the battle outside the mask became more and more intense.

Wang Xuan followed Zhao Lei, Zhang Haofei, Tie Jun, and Bai Yan to the outside of the mask. With his thoughts, the four metal tentacles shot like javelins. Whether it was Ara Troll or Green Aden, they couldn't stop his metal tentacles. hit.

With the skill comprehension of active metal, combined with the power of blue crystal scales, even a super-state top-level existence can't stop his blow.

Zhao Lei, Zhang Haofei, and Bai Yan had adventures in Scorpion City before. They mastered the basic skills of hatching beasts, and now they have obtained the power of demon gods. After breaking through to the super state, their strength has improved, which is inestimable. Wang Xuan noticed them. When the shot is made, a ghostly shadow of a demon **** appears vaguely outside his body.

Zhang Haofei had a faintly crazy look on his face. Outside the hatching beast skeleton, there were three phantoms of the demon gods. In the shadow, a dragon-shaped phantom appeared, volleyed and grabbed a green Aden.

This green Aden didn't understand what was going on at all. Blood spattered from his body and was torn apart alive.

What appeared outside Zhao Lei's body was the phantom of the third demon **** Vassago. This blind demon **** with an inverted triangular skull face had the ability to see everything, combined with his "Sacred Mark" and "Sacred Eye" ability. At the same time, in all directions, almost everyone's shot and attack trajectory became like slow motion, in which he accurately captured the opponent's attack, and then dodged in advance, and then launched the attack.

A cross-shaped holy light shot out and was printed on the chest of a winged Agatha.

The winged Agatha's eyes were round, showing an expression that seemed unbelievable, and fell to the sky.

Before it died, there was a faint feeling that the human in front of him seemed to know its attack in advance, and then evaded, why is this?

Zhang Haofei and Zhao Lei's performance was amazing, and Bai Yan's performance was not inferior to them, even more amazing.

After his witch blood evolved to a super state, the witch blood covered the upper body and formed a half set of blood crystal armor. With his arms upright, there were two blood crystal giant swords~www.mtnovel.com~ I saw Ala, who was three meters high. The troll swooped in, he shook his body, and suddenly a blood crystal sword appeared on his back.

A total of six blood crystal swords, along with his attack, beheaded together.

Outside of his body, the phantom of a giant fly appeared, increasing the combat power of this blow.

Blood spattered, and the Ala troll roared miserably and was beheaded by six blood crystal swords.

Wang Xuan looked at their shots and nodded secretly. The three of them are now stronger than the Iron Army. If Gu Manyao can't perfectly master the power of blood erosion, they are not as good as them.

Moreover, the power of the demon gods they stimulated is still very weak.

"If the hidden dangers that the demon gods and hatching beasts may be backlash can be eliminated, the potential of several of them will be immeasurable."

Wang Xuan thought while he shot, and suddenly heard a loud cracking sound from the void above, he was startled, and he was busy looking up.

Chapter 258

Above the sky, as the glass cylinder that had been watered with totem blood continued to repair and grow, the original crack suddenly cracked again.

As the cracked gap collapsed, a building wall that resembled a building was revealed. There was a door on it, and a figure appeared in the door. It seemed to have broken through some kind of shackles and struggled out. The six wings behind it spread together, Tengkong jumped down from the height of several hundred meters.

This is a tall woman with six wings on her back, similar to Agatha, but compared to Agatha, she is closer to a human being, except that she is taller than an average human and has six wings, she is almost like a human being. two.

She wears armor that fits her body, which perfectly shows her body curves. She has long golden hair. Compared with Agatha with four wings and Agatha with wings, what she is holding in her hand is no longer a pair of black A sharp blade, but a white spear about two meters long.

The first time Wang Xuan looked up, an idea popped up in his mind, this Agatha with six wings is almost exactly the same as the legendary angel.

"This is the angel Agatha—" Among the hundreds of people, some people possessed special insight, and immediately saw the name of the six-winged Agatha, and couldn't help but cried out.

Angel Agatha appeared, the six wings behind her converged, her body was like a cannonball, and she fell into the sky. When she was about 40 to 50 meters away from the ground, she unfolded her wings again. At a distance of twenty or thirty meters, she suddenly raised the white spear in her hand and pointed down.

A white rainbow light shot from the long spear in her hand, like a laser beam.

There was a sound of "chi", and some of the group of people could not avoid it, and were pierced by this white rainbow light in the chest, even if he was in a fit state, wearing sophisticated third-order equipment, and the defense of the mechanical shell, he could not resist .

The super strong man let out a scream, and the angel Agatha's white spear swung down. The white rainbow light that ran through his body went all the way down his chest, cutting most of his body open. .

This super-powerful man's eyes were round, and his throat was gurgling, and everyone around him understood that he was helpless.

This super powerhouse is not weak, he is a dignified super powerhouse, but he can't stop the attack of Angel Agatha.

In the surprise of everyone, Angel Agatha's six wings converged and fell into the sky like a cannonball.

Although she has six wings, she can only glide, unable to escape the gravity of this world and truly fly above the sky, otherwise she would fly in mid-air and use a white spear to attack at a long distance, it would be terrifying .

She landed on the semi-circular mask, fixed it on it, and no longer went down, raised the white long spear in her hand, and fired it at the crowd at a distance of dozens of meters.

There were two screams in a row, and two more super-powerful people couldn't resist, and couldn't avoid it. They were swept by the white rainbow light and immediately cut in half.

Suddenly, an iron cast dragon flag appeared, blocking the white rainbow light, but in the crowd, Mei Xiaosen's eyes widened, he let out a long howl, kicked his feet, and jumped up towards the angel on the mask. Gatha pounces.

Following closely behind, there was another woman, her body was covered with snow-white rune armor, Wang Xuan recognized that she was from "Phoenix City", and she was a strong man who was almost not inferior to Mei Xiaosen.

The strengths of her and Mei Xiaosen are far beyond the peak powerhouses in the super state. They saw that the angel Agatha can instantly kill the super state top powerhouses, and their strength is probably beyond the super state peak.

With the appearance of the angel Agatha, after her, a thunderous roar sounded, but saw a three-meter-high God troll descend with a bang and land on the mask, causing the mask to fluctuate violently.

This God troll, with six huge arms, kicked his feet on the mask, and then rose into the air, spanning a distance of thirty or forty meters, and fell to the crowd with a bang.

Wang Xuan was far apart, and saw that as it landed, a super strong man of the Justice League screamed, his chest collapsed into six fists, and then exploded, with a bang, blood and flesh flew, and was hit by this. The Zunara troll was torn apart and died tragically.

Many people around looked at it, and their expressions changed.

With a "bang", several super-powerful people around them immediately shot at the same time, and two swords and a pair of transparent hands came over.

Among them, the one who played the transparent hand was Su Tang from "Beast Town". He now has super-state top-level combat power, and his strength is no trivial matter, especially a pair of transparent hands, which can be freely stretched and almost completely transparent. It is difficult to Defense, powerful.

At the same time, he was attacked by several super-powerful people. The six arms of the six-armed Ara troll lit up with bronze-colored fluorescent light. , at the moment when the transparent hand failed, Su Tang felt the gloomy wind was overwhelming, and she knew something was wrong. She was busy retreating, and at the same time wanted to crush the defensive crystal in her hand.

He is more cautious by nature, even if there is still a defensive crystal hidden in his hand at this moment, in case there is an emergency.

But he never expected that the speed of the six-armed Ara troll in front of him would be so terrifying. He didn't even have time to crush the defense crystal, and a huge bronze fist hit him in the face.

The head and helmet exploded like a watermelon in an instant, and Su Tang didn't even have time to let out a scream, and was immediately killed.

When Wang Xuan saw it from a distance, his heart trembled slightly. Although he and Su Tang were not particularly familiar with each other, they had fought side by side a few times, and it was considered a friendship.

The six-armed Ala troll killed several super-powerful people in a row, and everyone around was in an uproar. In the crowd, a stronger person immediately shot and rushed towards it.

Although the angel Agatha and the six-armed God troll are powerful, there are still people who can rival them. The elders of the five major cities and the twenty or so black-robed people have not yet shot, and their attention is now concentrated. On the glass column that is constantly being repaired, it is hoped that the glass column can be repaired as soon as possible to open the passage to the higher floors.

A large amount of totem blood was poured, and the glass cylinder continued to grow upward, and the crack was covered with blood-red rays of light. These rays of light intertwined and moved upward at a speed visible to the naked eye, quickly surpassing the space crack in the air, and everyone below watched the glass cylinder grow upward. The speed is getting faster and faster, and they are all excited and excited.

Looking at the speed, the glass cylinder will soon be fully repaired.

With a "Boom", the angel Agatha who was standing on the mask rolled over and rolled down the mask, covered in blood, and had been severely injured.

Mei Xiaosen took a big stride, three strides in a row, and with a wave of his right hand, the cast iron dragon flag flew out into the air, and with a snort, it inserted into the body of the angel Agatha who had just rolled onto the grass.

Under the oppression of the dragon flag, the angel Agatha struggled desperately, but could not get up.

Mei Xiaosen jumped up, and when he fell again, his fist shattered the head of the angel Agatha.

Although the angel Agatha was powerful, her strength surpassed the peak of the super state, and after all, she lost to the stronger Mei Xiaosen and was killed by him.

In addition to Mei Xiaosen, several other people joined forces and quickly succeeded, killing another six-armed God troll whose strength was comparable to the angel Agatha.

As the strongest angel Agatha and the six-armed God troll were killed, the remaining humanoid monsters were surrounded by the crowd and gradually lost, and more and more humanoid monsters were killed.

Wang Xuan also didn't know how many Ala trolls, green Aden and winged Agatha he had killed, and even the more powerful Ala troll elites and three-eyed Aden. He must be absorbed by the ghost wings in his body and continue to strengthen the power of his ghost car.

As the height of the repaired glazed column breaks through the broken space in mid-air, there will be no humanoid monsters such as Ala Troll or Green Aden in the sky building where the tip of the iceberg is revealed. As the surrounded humanoid monsters are continuously killed, Many people have stopped and started looking towards the sky.

There are ten glass cylinders, and the remaining nine are still hundreds of meters high, extending to the cracks in the space hundreds of meters high. Only one of the glass cylinders continues to grow upwards. The terrifying energy contained in the blood of the totem makes this one. The glass cylinder is being repaired at an astonishing speed, and the growth rate is getting faster and faster. Gradually, it has grown to a height of one kilometer, reaching into the cloud and mist that appears above the kilometer high, and further up, it is covered by the cloud and mist, and everyone has already grown. Can't see clearly.

The leather bags that were originally piled up like hills and filled with blood are now mostly empty, and the rest are still pouring into them. Everyone can't see the situation at the end of the clouds above. high.

The battle outside the mask came to an end, and the humanoid monsters that appeared this time were basically killed, even the angel Agatha and the six-armed God troll, who were comparable to the super-extreme powerhouse.

Wang Xuan put away the four metal tentacles and let out a sigh of relief. This time, his harvest was not small. He killed these powerful enemies in succession. Like what was hidden inside, it was about to break through the outer skin of his right arm and grow out.

This kind of feeling is very strange. Wang Xuan understands that this is also a sign that the ghost car is further growing and evolving. Maybe something will grow on the outside of his right arm.

Inside the mask, a man in black robe suddenly shouted, "This glass pillar no longer draws blood."

He has been staring at the movement of the glass cylinder, and suddenly found that several bags of blood have just been poured down, which would have been quickly absorbed by the glass cylinder before, but now these bags of blood flow along the glass cylinder to the ground, and then follow the cylinder to the ground. Flowing around, not absorbed by the glass cylinder.

Hearing this, the people who had poured blood stopped, and all looked towards the glass cylinder and the sky in front of them.

The humanoid monsters outside were basically eliminated, and everyone entered the mask and gathered towards here, wanting to see clearly.

The glass cylinder no longer draws blood, does that mean the repair is complete?

Elder Xuancheng took two steps forward. An octopus-like tentacle stretched out from his black robe and stretched it out to press one of the elevator buttons.

The elevator door opened, and Elder Xuancheng walked in, followed by Elder Phoenix, Elder Rakshasa, Elder Wangcheng, and Elder Justice.

More and more people gathered and looked into the elevator. Among the five elders who walked in, Elder Xuancheng's octopus tentacle pressed the button in the elevator again, and soon, the elevator door closed.

Everyone is nervously waiting for the result outside. Whether the repair can be completed and the passage to the upper world can be opened will soon be known.

Everyone waited for less than two minutes, the elevator door reopened, and the five elders inside came out.

At this moment, the number of people gathered in the No. 9 safe area has exceeded a thousand people. The five elders looked at the black and white super-powerful people in front of them. Among them, the elder Phoenix finally spoke, with a slow but powerful voice.

"The passage has been repaired, and the passage to the higher floors has been opened."

Hearing this, cheers erupted from the crowd from all directions, and many people's faces showed excited and excited expressions.

"So, we can go to the higher floor and have a look? I don't know what's on the fourth floor?"

"It must be different from the third-layer world. I'm really curious. You said, will there be many humans on the fourth floor?"

In all directions, everyone was discussing, and Elder Phoenix said again: "Don't be too happy too early. If you want to enter a higher floor, the hatching beast must break through the super state."

Hearing this, everyone around them slowly calmed down from the excitement and excitement just now.

If you want to enter the third layer world from the second layer, you need at least the hatching beast to grow to the super state. Now if you want to enter the higher fourth layer world, you don't have to think about it. It must be possible to break through the super state. Also reasonable.

It's easier said than done if you just want to break through the super-state. Thousands of super-states gathered around, and most of them have disappointed expressions on their faces, feeling that they have no hope of breaking through.

Elder Phoenix just said this, a figure appeared outside the mask. This figure was very fast, flashing several times, quickly passing through the crowd, and suddenly arrived in front of the elevator.

This figure came so quickly that not only everyone, but even the elders of the five cities were taken aback. Following them, they could clearly see that the person who came was two meters tall and was wearing heavy armor. With one step, he walked into the elevator that the five elders had just opened. In the door, followed by the elevator door closed.

Wang Xuan in the crowd could see clearly that it was the mysterious master of "Xuancheng" who suddenly appeared and entered the elevator door.

Xuanzhu appeared and entered the elevator. The elevator door had just closed, and a figure appeared on the other side. This figure chose another elevator with a glass column that opened to the sky and entered it.

With the restoration of the glass column, the upward passage has been opened, and the ten elevators of this glass column can reach the higher floors.

This time, after Xuanzhu and another figure entered the elevator, they did not appear again for a long time. Most people knew it well. The Xuanzhu and the other figure who had just entered were both supernatural beings. They really took the ride this time. The elevator has entered a higher floor, but I don't know what they will encounter.

After everyone gathered for a while, the elders of the five cities whispered to each other for a while, and began to leave the safe area with a group of black-robed people to return to the city. Many people entered the elevator curiously, even if they knew that they would not be able to get up, they still wanted to give it a try.

Wang Xuan followed in the crowd, along with Zhao Lei, Zhang Haofei, and Bai Yan, and also rushed into one of the elevators. The interior space of this elevator looks small, but it can actually be adjusted automatically according to the number of people entering, and dozens of people pour in all at once. , will not appear crowded.

Someone pressed the button on the fourth floor, the elevator door closed, and dozens of people felt the elevator vibrate slightly, which was the elevator going up.

When the slight vibration stopped, the elevator door opened again, and everyone understood that the elevator had reached the fourth floor of the building.

Everyone's first reaction was to look towards the fourth floor outside the elevator door.

It's a pity that outside the elevator door, there is a layer of white light curtain blocking, and everyone can't really enter the fourth floor without passing through the white light curtain.

This is similar to the previous floors. Everyone was not surprised, but they reached out to touch the light curtain or tried to pass through, but they were bounced back.

Wang Xuan extended his metal tentacles and tried it towards the light curtain.

The metal tentacles touched the white light curtain and were immediately bounced back. A message appeared in his mind: "The hatching beast's growth level is not enough to enter."

"Sure enough..."

Although they had guessed that the super-level level could not enter the higher floor, everyone would still be curious to try it. Now that it has been confirmed, everyone has given up and can only take the elevator back to the third floor.

When I walked out of the elevator, I found that the crowd outside had dispersed a lot. The thousands of super-powerful people who had gathered in the past have now dispersed most of them. These people either entered the elevator and went to different towns, or entered the teleportation channel and entered the central city. , Of course, some people left the No. 9 safe area and went to the five major cities.

"Wang Xuan, where are we going now?" Zhao Lei followed Wang Xuan and looked at him and asked.

Seeing Zhang Haofei, Tie Jun, and Bai Yan all looking at him, they were obviously waiting for him to make a decision.

"Find a way to do as many tasks as possible, earn enough crystal scales, build equipment, and enter the intermediate and advanced skills Shimen."

Wang Xuan said it again and said, "As for who comes first, and how to choose, you decide for yourself."

Hearing what Wang Xuan said, Zhao Lei snorted, and Zhao Lei said, "What about you? Where are you going now?"

Wang Xuan was about to go to the Hell Tower. After what happened with Tie Jun and Gu Manyao last time, he didn't want to bring a group of people in. Not only could he not help himself, but it was a drag. come over.

"Wang Xuan."

Following the voice, Mei Xiaosen strode over.

"Brother Xiaosen?"

Mei Xiaosen smiled and said, "Just looking for you, let's go, how about a few words with me?"

"A few words?"

There was a smile on Wang Xuan's face~www.mtnovel.com~ but he felt a little strange in his heart. He was looking for himself just to chat a few words?

Seeing Wang Xuan's doubts, Mei Xiaosen glanced at Zhao Lei, Zhang Haofei, and Tie Jun, who were on the side, and said, "I want to find you for something more personal, but it's not the right place here."

Wang Xuan understood that Mei Xiaosen didn't want to be heard by Zhao Lei and Zhang Haofei, but he didn't know him too well, but he didn't know why he was looking for him.

Curious in his heart, he nodded slightly and said, "Okay." Then he looked at Zhao Lei and Zhang Haofei and said, "Go to Central City first, and try to change your equipment into third-order flawless suits."

"understood."

Zhao Lei nodded and started to leave, walking towards the teleportation channel leading to the central city.

Seeing them leave, Mei Xiaosen coughed lightly and said in a low voice, "Wang Xuan, I'm looking for you, but I actually hope to get your help."

Chapter 259

"What's the matter?"

Seeing Mei Xiaosen's mysterious appearance, Wang Xuan said that he wanted to help himself, and was slightly surprised.

This Mei Xiaosen's strength is unfathomable. From what he has seen so far, only the Profound Lord and the Rakshasa King should be stronger than him. Others, even the elders of the five cities, Wang Xuan can't be sure. will outperform him.

Such a person, what is there to do to help him?

Mei Xiaosen looked around and said, "This is not the place to talk, come with me and find a place where no one is there and talk in detail."

After speaking, he walked towards an elevator not far from the front.

Wang Xuan saw the word "Star Town" hanging on the elevator. He had been to "Star Town" for the task of equipping materials before. He knew that this town had been destroyed and had completely become a world inhabited by monsters such as star beasts.

Mei Xiaosen opened the elevator and walked in, but Wang Xuan didn't follow him immediately, a hint of hesitation appeared on his face.

Mei Xiaosen's behavior is a bit weird. Although he is not necessarily afraid of Mei Xiaosen, if the other party brings him to Star Town, there is something behind it. Wang Xuan can't activate the Book of Giants now, and he has no absolute confidence that he can protect himself.

"What is so secret, can't we say it here?" Wang Xuan said while looking around. Everyone around was busy, and no one would pay attention to the two of them.

Seeing that Wang Xuan didn't come, Mei Xiaosen guessed his concerns, and he could understand it after thinking about it. After all, he and Wang Xuan were not too familiar with each other. Suddenly, he was going to take him to the abandoned Star Town, and anyone would doubt it. , could only come out again and said, "Then let's talk and chat."

After speaking, he walked out of the mask.

Wang Xuan followed suit this time.

Mei Xiaosen didn't speak, but walked faster and faster, and soon passed through the mask and walked towards a deserted forest.

Wang Xuan was a few meters behind, and his brows gradually wrinkled. He could see that Mei Xiaosen not only acted strangely, but also looked a little anxious.

With his strength, what could make him so anxious?

Originally, Wang Xuan thought that Mei Xiaosen was asking him to go to some mysterious and dangerous place to find a special opportunity. Because Mei Xiaosen's strength was not enough alone, he asked him to join him. There may be hope for them to join forces. Looking at Mei Xiaosen's appearance now, Wang Xuan ruled out this conjecture.

Finally, Mei Xiaosen stopped in front of a towering tree that was 40 to 50 meters high, used both hands and feet, and suddenly climbed up the tree.

"Wang Xuan, come up and enjoy the scenery here?"

Mei Xiaosen's voice came down, Wang Xuan saw him climb up 20 to 30 meters in an instant, responded with a sound, and with a thought, metal tentacles appeared, rested on the tree pole, and went up easily.

Four metal tentacles were intertwined, Wang Xuan's hands and feet did not move, as if he was suspended in mid-air, constantly rising. When he climbed the canopy of 40 to 50 meters, Mei Xiaosen was already standing on one of the thick branches. , condescendingly, looking at the surrounding scenery.

From this angle, you can see the "King City" not far away, as well as the "Rakshasa City".

As for "Xuancheng", it was the furthest away from them. It was hidden by trees and could not be seen.

"No one is eavesdropping here, so I should be able to speak." Wang Xuan was a little wary, so he stopped three meters away from Mei Xiaosen. If he wanted to make a sudden move, he could fully react.

Mei Xiaosen didn't seem to see Wang Xuan's precautions, just took a breath and said softly: "Wang Xuan, before killing the white rhino, did you meet the mysterious master?"

Wang Xuan was stunned, and suddenly thought that when he saw Mei Xiaosen before, he had had similar doubts, that is, has Mei Xiaosen passed the examination of the mysterious master before? If it is checked, what is the result?

He finally vaguely understood why Mei Xiaosen was so cautious. Maybe his so-called help was not really to help him, but to talk about something related to the mysterious master, so... He was so cautious, of

course, it is also possible that he It was entrusted by the mysterious master or the elder, and the real purpose was to test himself. It seems that he needs to be extra careful to avoid being trapped.

"I have seen it." Wang Xuan did not deny it.

"Sure enough, I know that, with your performance, you will definitely be targeted by the Profound Master and they will never let you go. As long as there is hope of breaking through, they will not let you go."

Mei Xiaosen whispered to himself.

"What do you mean?" Wang Xuan frowned.

Mei Xiaosen turned around, looked at him, and then sat down slowly on the canopy, leaning against a thick branch, looking a bit free and easy.

"Sit down, don't be wary of me, I have no ill will towards you, I said at the beginning, I came to ask you for help."

Mei Xiaosen waved his hand, showing a harmless expression to humans and animals. Wang Xuan also looked at him and traded in all directions.

Wang Xuandan smiled and sat down on the tree canopy three meters away.

"Can you say it now? Brother Sen, this is not your attitude of asking for help. If you changed to an ordinary person, I'm afraid you would have turned around and left long ago."

Mei Xiaosen smiled and said: "I know you won't leave, and I also guessed that you saw the scene and experience of Xuanzhu, you should be full of doubts in your heart, and you want to find out the reason."

These words all came to Wang Xuan's heart. Looking at Mei Xiaosen, who was three meters away from him, and the smile on his face, Wang Xuan really couldn't see through the guy in front of him.

"I'm quite busy. If Brother Sen just wants to chat with me, I'm afraid I won't be able to accompany him."

Wang Xuan's face also quickly showed a dazzling smile. Before he knew Mei Xiaosen's true intentions, he should not reveal too much.

After speaking, Wang Xuan stood up from the canopy, with a pair of ghost wings stretched out from his back, ready to jump down and leave here.

Mei Xiaosen watched him stand up, and suddenly said, "Wang Xuan, have you passed the examination of the Profound Master?"

Wang Xuan's heart moved slightly, but there was no expression on his face. He just frowned and said, "Mei Xiaosen, what do you want to say?"

When Mei Xiaosen said this, he suddenly sighed and said, "Don't be wary of me. Our experience is the same. I have also accepted the assessment of the mysterious master. If we don't unite, we will only end in death."

Hearing this, Wang Xuan's originally open ghost wings stopped, and then slowly converged, turning his head to look at Mei Xiaosen again.

"The end is only death..." Wang Xuan whispered to himself, chewing on the meaning of this sentence, and continued: "What do you mean, because we have been tested by the mysterious master, we must die?"

Mei Xiaosen nodded slightly and said, "The meaning is almost the same. Of course, if you can't break through the super state, it will be fine, but if you want to break through the super state, it will be your death."

The ghost wings behind Wang Xuan retracted and disappeared. He sat down again, still three meters away from Mei Xiaosen in front of him.

A smile appeared on Mei Xiaosen's face and said, "Aren't you going?"

Wang Xuan looked at the guy in front of him, his brows furrowed again, and he wanted to punch him, saying that the guy was talking and squeezing toothpaste, chatting with him was really unpleasant, if he hadn't really wanted to know the reason, he would have just left, really too lazy to communicate with him too much.

Looking at the expression on Wang Xuan's face, Mei Xiaosen seemed to know what he was thinking, and without waiting for him to respond, he continued: "The reason is actually very simple, the mysterious master will kill us when we are about to break through the super state. "

"Why? He doesn't want us to break through the superstate?"

Mei Xiaosen sighed, then slowly lowered his voice and said, "That's not true. Of course he hopes that we can break through the super state, but he hopes that it is not us who can break through the super state, but our inner body..."

When Mei Xiaosen said this, he suddenly turned out his right hand, and a mass of matter appeared on his right hand. This matter fluctuated endlessly and had no fixed form. It was between liquid and solid. It seemed a bit strange. his hatching beast.

"My hatching beast is called Biri, this guy now has a strong self-awareness, it is always thinking about swallowing my soul consciousness and occupying my body..."

"Of course, this is a problem that everyone who has reached the peak and limit of super-state growth needs to face. The stronger we are, the more we need to face the danger of being backlashed by our own hatching beasts."

Wang Xuan said: "Like the elders and those black-robed people, they were attacked by hatching beasts?"

Mei Xiaosen shook his head and said: "They were not completely attacked by the hatching beasts, but they failed to break through the super state, and now they have become the loyal lackeys of the mysterious master."

In Mei Xiaosen's tone, there was a slight disdain, and said: "After failure, there is basically no hope of breaking through again. Their potential has been exhausted, and there is nothing to be afraid of."

Wang Xuan was stunned. He always thought that the elders and those black-robed people had become half-human and half-strange because they were attacked by the hatching beasts. Although he doubted whether they were completely swallowed up by the hatching beasts, he never thought that they had broken through the super state. caused by failure.

"So, if you fail to break through the super-state, you will turn into this half-human, half-monster?" Wang Xuan's face showed a look of surprise. If so, then the danger of breaking through the super-state is too great.

Mei Xiaosen said slowly: "The hatching beasts in our body have grown to the super-state limit, and their self-awareness is already quite strong. They will take advantage of our breakthrough and launch the first attack, wanting to take the opportunity to devour our soul consciousness. Occupying our bodies, the process is really dangerous."

"However, what is really scary is not that they want to take the opportunity to devour our hatching beasts, because people who can grow to the limit of the super state generally have extremely tenacious willpower. ."

"The real danger is the mysterious master. He will take action at the critical moment of breakthrough. When he seizes the most critical moment, he will erase our soul consciousness and let our body be occupied by the soul consciousness of the hatching beast."

"If the breakthrough is successful, we will become the same person as the mysterious master. Otherwise, if the breakthrough fails, we will end up becoming half-human and half-ghost like the elders and those black-robed guardians, but no matter what kind of person we are, The soul consciousness of human beings no longer exists, and what exists in our body is the soul consciousness of the hatched beast that replaced us."

When Mei Xiaosen said this, Wang Xuan's eyes of fear felt the trembling and a trace of fear from the depths of his soul. Based on this alone, we can be sure that he did not lie.

Although he had vaguely guessed this possibility, but hearing it from Mei Xiaosen's mouth, Wang Xuan still felt an indescribable shock in his heart.

After taking a deep breath, he slowly opened his mouth and said, "So, Profound Master... is no longer human?"

Mei Xiaosen said with a wry smile: "I don't know how to describe it, because the hatching beast devours the human soul and will acquire all the memories of the human, and even inherit or disguise the same character as the human, and no one else can see it at all. Flaws, this hatching beast is equivalent to

taking everything from this human being, including memory, character, body, and even pretending to be this human being, inheriting his identity and everything, but his inner soul consciousness is indeed no longer what it used to be. That human being has become the soul consciousness of the hatching beast."

When Mei Xiaosen said this, he shook his head slightly, and his face became ugly.

"Wang Xuan, do you understand how terrifying this is? Just like me, the me in front of you, Mei Xiaosen, maybe one day, I will no longer be me, but in your eyes, I am still the former Mei Xiaosen, And the real me, I have long been swallowed up, no longer exist, and even more people occupy the magpie's nest, and survive as Mei Xiaosen, you can understand how terrible and sad it is."

Wang Xuan listened quietly, looking at Mei Xiaosen in front of him, he could feel this horror and weirdness.

"Master Xuan... Elder, and those black-robed guardians, are you sure that their consciousness as a human has been swallowed up by hatching beasts? Besides, there is no one else?" Wang Xuan thought for a while and asked again.

Mei Xiaosen nodded and said: "Yes, only when the super state is broken, the mysterious master has the opportunity to start, so he will focus on only those like us who have the opportunity to break through."

"How did you know all this?" Wang Xuan remembered something and looked at Mei Xiaosen.

Mei Xiaosen said slowly: "That's because of one person..."

When he said this, he suddenly raised his voice slightly and said, "Qianxue, come out."

As his voice went on, Wang Xuan immediately felt a breath of life appearing under a big tree not far away. Obviously, this person did not know how to hide his breath of life until now. release.

This person came so fast, moved under their big tree, climbed up quickly, and soon climbed to the crown of the tree, revealed from it, and appeared beside Mei Xiaosen.

This is a very young woman, she looks very beautiful, but her whole body is full of coldness.

Wang Xuan was slightly startled when he saw her, he was no stranger to this woman.

This woman can show half-body snow-white rune armor. She has fought side by side with Mei Xiaosen a few times before, and belongs to the super-extreme powerhouse of "Phoenix City".

There are not many super powerhouses like them, even among hundreds of super powerhouses, they are very conspicuous, so Wang Xuan recognized her at a glance.

"Her name is Bai Qianxue. Like me, she is about to break through the super state. She has an extremely rare special ability called the 'Eye of the Rune King', which can see through the essence of human beings."

When Mei Xiaosen said this, she closed her mouth, while Bai Qianxue, who was beside him, sat down on her knees. Suddenly, she turned her right hand, and a rune pattern appeared in her palm. , appears to be very complicated.

After that, she closed her eyes, and gradually, one after another rune appeared on the surface of her body, and finally gathered between her eyebrows. Among them, a rune pattern rose from her eyebrows and turned into an eye. Appearance, faintly glowing, took a picture of Wang Xuan.

Wang Xuan didn't feel anything, but Bai Qianxue suddenly shuddered and opened her eyes,

With a shocked look on his face, he lost his voice: "Are you fused with the soul of the hatching beast?"

Hearing this, Mei Xiaosen was also startled, and stood up from the canopy.

Wang Xuan looked at Bai Qianxue in front of him. He never expected that the rune king's eyes would be so magical. It could be seen that his soul consciousness was fused with the soul of the hatching beast.

Mei Xiaosen stretched out his right hand, and suddenly an iron cast banner fell and was pinned to a tree pole. He suddenly looked like a great enemy, his eyes glowing strangely, staring at Wang Xuan, ready to attack at any time.

"Don't be nervous. Although he is fused with the soul of the hatching beast, he is dominated by the soul of a human being. He is still a human being."

Bai Qianxue spoke again, comforting Mei Xiaosen.

When Mei Xiaosen, who was about to shoot, heard this, he let out a slight sigh of relief, relaxed, and when he closed his right hand, the banner disappeared.

"I didn't expect such a thing to happen. Did you find the tree of origin? According to legend, only the fruit on the tree of origin has the ability to fuse the soul of a human being with the soul of the hatching beast and completely eliminate it. This kind of hidden danger." Mei Xiaosen looked at Wang Xuan curiously, with a strange light in his eyes.

Wang Xuan shook his head, not knowing how to explain for a while.

Bai Qianxue has put away the Eye of the Rune King~www.mtlnovel.com~ It is not easy to cast the Eye of the Rune King, and it takes a while to prepare in advance, so she has not observed Wang Xuan secretly before, plus As long as they haven't tried to break through the super state, they will basically not be attacked, so they have no doubt that the current Wang Xuan will be attacked by the hatching beast, and they did not expect such a situation to happen to him.

Seeing Wang Xuan's appearance, Mei Xiaosen knew that Wang Xuan had his own secrets and didn't want to say more, so he no longer reluctantly. After all, everyone has their own opportunities and secrets.

"Since you have assimilated with the hatching beast, in this way, when the mysterious master is testing you, he may think you are his kind..."

Mei Xiaosen's expression suddenly changed.

"If this is the case, you will definitely be able to gain their trust. Maybe you can find out some news that we don't know through the mysterious master. Has he said anything special to you."

Wang Xuan shook his head and said, "No, he just said that I passed the test, and then I hunted white rhinos..."

Chapter 260

Mei Xiaosen had a pensive look on his face, as if thinking about how to take advantage of this.

Wang Xuan now also understands why Xuanzhu said that after he passed the assessment, he would talk to himself so much, and he also understood the reason why the elder's attitude towards him immediately changed, and he seemed very kind.

Because in their minds, they have been swallowed up by monsters and occupied their bodies. Now they are the same as them, with the identity of human beings on the surface, but the essence of monsters.

Fortunately, this kind of backlash will only happen when the super state is broken, and the vast majority of this third-layer world are normal humans.

"The fact that Qianxue has the 'Eye of the Rune King' must not be leaked out, otherwise I'm afraid..." Mei Xiaosen suddenly said in a low voice with a solemn expression.

Wang Xuan nodded to show his understanding, if Xuanzhu and the others knew that Bai Qianxue had the ability to spy on the essence of the human body, they would be the first to find a way to kill Bai Qianxue.

"Now that we know the true identities of Xuanzhu and the others, and we know that they will attack us when we break through the super state, we should find a way to fight back."

Wang Xuan said with a contemplative look on his face, thinking of the scene when he first saw the mysterious master, the mysterious master suddenly attacked, and then hunted the white rhinoceros. The power, speed, and reaction ability displayed by him were terrifying, which surpassed the super state. The terrifying powerhouse is indeed powerful, and even if a few of them join forces, they may not be able to deal with the mysterious master.

"Brother Sen, aren't you about to break through the super state? As long as you break through the super state, you shouldn't have to be afraid of him."

Wang Xuan remembered that Mei Xiaosen had just said that he and Bai Qianxue had reached the limit of super-state and could break through at any time.

If they can really break through, it will be two super powers above the super state, enough to deal with the mysterious master.

Mei Xiaosen said with a wry smile: "This is the most terrifying thing, and it is also the main reason why I want to ask you for help this time. The hatching beast breaks through the super state, which is completely different from before. It takes a long time to break through the super state, which is normal. It will take a whole day."

"And what's really scary is that the mysterious master has a special ability. He will use the name of the assessment to leave a special mark on us. Through the mark, he can know our situation, know where we are, and know where we are at any time. find us."

Wang Xuan heard Mei Xiaosen say this, his face changed slightly, and said, "What do you mean, if you decide to make a breakthrough, the mysterious master will know and will find you?"

"Not bad." Mei Xiaosen said helplessly: "This is the real solution, unless we don't break through, as long as we start to break through, no matter where we hide, he will find us, intervene at the most critical moment, let us Devoured by hatching beasts."

Wang Xuan thought about it for a while, and said, "I remember that in the skill building in the central city, the primary skill Shimen only needs ten medium-sized crystal scales for an hour. When you enter it, everyone will enter an independent space. Enough crystal scales, you can stay in it for a whole day, even if the mysterious master knows that you are going to break through, he will enter the space that is not empty, and he will not find you at all."

Wang Xuan felt that this was the best choice at the moment. As long as he entered the skill stone gate and chose to make a breakthrough, Ren Xuanzhu had the ability to reach the sky and he couldn't do anything about them.

Mei Xiaosen said: "We have thought about similar places countless times. At the beginning, we also considered whether we could find a place that the mysterious master could not find, so that we could break through without being affected. As long as one of us successfully breaks through, Without being attacked by the hatched beasts, we can fight against the mysterious master, but the fact is that this is impossible..."

He paused for a moment before continuing: "For example, below the third floor, whether it is the novice area, the first floor or the second floor, they are all suppressed by the power of the world. If you cannot break through in these worlds, you can first eliminate them, so we If you want to break through, you can only be in this third-layer world, which is not suppressed by the power of the world. As for the stone gate of the central city, I had similar considerations when I entered, but I knew it would not work after trying it. ."

"Why not?" Wang Xuan couldn't understand it. With Mei Xiaosen's ability, it was not difficult to get hundreds of medium-sized crystal scales. After entering the primary skill stone gate for a whole day, it was completely unaffected.

Mei Xiaosen said: "This involves super-state breakthrough. If you want to break through super-state, you need at least your strength to reach the peak of super-state. Of course, if you want to break through at the peak level, there is a high possibility of failure. It is best to reach the level of super-state limit. , touch the threshold of the seventh form, and then choose to break through, and unlike the passive breakthrough of the previous six forms, the breakthrough of this seventh form can be actively selected."

"Active choice?" Wang Xuan is a little curious. He is still at a loss as to how to break through the super state. He used to be in Insect Town before, with the help of the special ability of the mysterious stone pillar. During his meditation, if he realizes something, he has a certain understanding of the super state. With a deeper understanding, I understand that if you want to break through the super state, you need a strong enough physique, and you need a lot of hard work to break through and stand up, but there is still no gain in how to break through.

Mei Xiaosen said patiently: "In the past few times of growth, as long as the hatching beasts in the body have absorbed enough energy, they can basically break through. Only the breakthrough to the super state is a little more complicated, but it is not too difficult. After the super state, the growth of the hatching beast is close to true maturity. It should be said that it is still the last step, and it will truly grow to the perfect level. Just relying on the energy absorbed before or the energy obtained by hunting monsters is not enough to take this final step. , Therefore, we need to use the hatching beast in our body as the source foundation, find a way to absorb the power of the world borrowed from this world, and get the help of the power of the world, and only by borrowing such a powerful force, can we truly be reborn and take this step successfully ,."

Wang Xuan was stunned. If he wants to break through the super state, he still needs to use the power of the world in this world?

"That's why you can't break through the stone gate of that skill, because there isn't a strong enough world power there."

Bai Qianxue, who had not spoken, said softly, "The principle of breaking through the super state is not complicated, you only need to use your heart to sense the power of the world in this world, and then rely on enough energy accumulated in the body to use the power in the body as a guide, Introduce the power of this world into the body, and then change the physique, but it is simple to say, but it is actually very dangerous. After all, the power of this world is very powerful, even if it is only a wisp into the body, without strong enough willpower and body, only I am afraid that the moment it is introduced into the body, it will explode and die, which is why only when the strength reaches the super-state limit level, the hope of breaking through will be greater, otherwise it is easy to fail or even die."

Wang Xuan nodded slightly. After hearing Mei Xiaosen and Bai Qianxue's words, he really understood how to guide his monsters to break through the super state.

"If you want to break through the super state, you need such a huge amount of energy. It's not enough to rely on the energy of monster scales. You need to use the power of the world to complete it..." Wang Xuan can't imagine how difficult it is to break through the super state. What kind of boost do you get?

Mei Xiaosen said: "Of course it's not absolute. For example, a totem like the white rhino, if you can kill it and get the energy in its body, the energy must be enough to break through, but it's just at the super-state limit, which is impossible under normal circumstances. To kill such a powerful monster, the best way is to borrow the power of the world to help."

"Do you know what the seventh form after breaking through the super state is?" Wang Xuan was a little curious. The only powerhouses in the seventh form that he clearly knew now were Xuanzhu and Rakshasa King.

Mei Xiaosen shook his head and said, "I don't know about this either. At present, this kind of powerhouse can only be called the seventh-form powerhouse."

"By the way, when hunting the white rhinoceros, in addition to the mysterious master, there was also a metal giant with a height of three meters, suspected of being the Rakshasa King. This Rakshasa King should be the real leader of Rakshasa City. Could he also be hatched by a beast? occupied?"

Mei Xiaosen nodded and said: "No surprise, it should be the same. When the passage to the fourth-layer world has not been destroyed, the situation of the five major cities should be similar to that of Hundred Towns, and each city has a seventh-form city owner. , and then the passage up the No. 8 security zone was suddenly destroyed, and the third-layer world and the world above could no longer communicate. I guess, no accident, the five city masters of these five major cities should be still on the third floor, but it has almost never appeared, and no one knows the specific situation, currently only the Xuanzhu and the Rakshasa King can know, and the situation of the other three cities is hard to say."

"A mysterious master is already difficult to deal with, and now there is King Rakshasa..." Wang Xuan's brows furrowed.

Mei Xiaosen said: "Don't worry about King Rakshasa for the time being, they will only be in charge of people in this city and will not interfere with other cities, but now the passage to the top has been opened, and Lord Xuan and King Rakshasa have just taken the elevator up. , what will happen next, but it's hard to say."

He paused slightly when he said this and continued: "This is also the main reason why I made up my mind to find you, because the mysterious master went up, and I don't know when he will come down, of course I hope he comes down as late as possible, maybe I You can seize this opportunity and make a breakthrough."

Wang Xuan said: "Yes, this is an opportunity."

"But because it takes at least a day to break through, he can come down at any time, so I need your help."

Wang Xuan finally understood what Mei Xiaosen really wanted him to do. He wanted to let himself protect the law for him when he made a breakthrough.

"Do you hope that when the Profound Master really appears, let us help you resist the Profound Master?"

Mei Xiaosen said with a wry smile: "Actually, I could have tried to break through the super state long ago, but I have been waiting for an opportunity, and now I finally have it, this may be the only chance, it would be best if Xuanzhu didn't return to nature during this day. , I am afraid that he will return early, so I need to make full preparations, Wang Xuan, are you willing to help me?"

Wang Xuan looked at Mei Xiaosen in front of him, and Mei Xiaosen was also looking at him.

If everything Mei Xiaosen said is true, whether he can break through is indeed the key. As a human being, he naturally cannot refuse.

"If the Profound Master really makes a move, it's only up to us, I'm afraid..." Wang Xuan showed a hint of hesitation on his face, but he had no confidence when they dealt with the Profound Master.

Mei Xiaosen said: "Don't worry, I didn't just invite you, before you, some of the powerhouses in the five major cities who have reached the super-state limit level, we are all in secret contact, we have already discussed, no matter which one Breakthrough, others will unite to protect the law for this person, as long as there is one of us who can break through the super state and become a strong person in the seventh form, the situation will be completely different, and the most difficult thing now is this first one."

Bai Qianxue said, "Among us, the one with the greatest hope and the most certainty is Mei Xiaosen, so this time we secretly negotiated to let Mei Xiaosen break through, and we will protect him together, but Xiaosen mentioned you, and I hope to invite you to join us. ."

Mei Xiaosen said: "Wang Xuan's strength will not be much inferior to ours. With his help, we will be more confident. Although Xuanzhu is a strong man in the seventh form, I don't believe that he can deal with so many of us alone. , and he is very conceited, he should not bring the elders and those black-robed Dharma protectors with him."

After confirming that there were other people besides the three of them, Wang Xuan nodded and agreed.

Seeing Wang Xuan's agreement, Mei Xiaosen's face showed a hint of joy, and two divine lights flashed in his eyes, and said: "My idea this time is not only to break through the super state, but also to unite with us to get rid of the mysterious master, Profound Master these monsters are not dead, we have no hope at all."

"Wang Xuan, with you joining us, there is great hope this time. Remember, the Profound Master treats you as his own, and you have the opportunity to plot against him. Let's go, let's chat as we walk, I have a plan."

When Mei Xiaosen said this, he turned his head towards Bai Qianxue and said, "Qianxue, let's act immediately, according to the previous agreement."

After Mei Xiaosen finished speaking, Bai Qianxue hummed, and with a flick of her body, she suddenly sank into the tree canopy below and disappeared.

"Wang Xuan, let's go too." Mei Xiaosen stopped delaying, stepped on the canopy, and rushed into the distance.

Wang Xuan followed closely behind him, walking side by side with him.

"If the Profound Master has not appeared, it is naturally good. We have to plan for the worst. The Profound Master will return in advance and take advantage of the critical moment when we break through. Qianxue and the others will naturally block him. Don't block him first... "

Mei Xiaosen stated his plan.

Wang Xuan followed him and silently listened to Mei Xiaosen's plan.

Mei Xiaosen chose an abandoned building about 20 to 30 kilometers away from here. It should have been a small town, but it has long been abandoned. The outside is covered with various plants and turned into a part of this virgin forest.

When Mei Xiaosen and Wang Xuan jumped over the wall of the town and entered it, Wang Xuan saw a few figures approaching not far away.

The woman at the head was Bai Qianxue.

There were seven people behind Bai Qianxue, Wang Xuan looked over, and they were all familiar faces.

Before hunting white rhinos, those super-extreme powerhouses who performed amazingly were all among them, and Wang Xuan was more impressed by them.

Wang Xuan remembered that there was a man from Wangcheng who was armed with a scepter and could wield rocks, a strong man from "Justice City" who used a bronze spear, and a woman from "Rakshasa City", Wang Xuan remembered Her hatchling beast is a water-like beast that can constantly change form.

It can be said that each of these people is the same as Mei Xiaosen, whose strength has reached the true limit of the super state, and is infinitely close to the powerhouse of the seventh state.

These seven people, together with Bai Qianxue, Mei Xiaosen, and himself, were a total of ten people.

"No wonder Mei Xiaosen is confident, even if the Profound Master discovers such strength, if he dares to come alone, I am afraid that he will have no chance of winning. Now he is afraid that he will bring the elders and the few black-robed Dharma protectors with him. trouble."

Wang Xuan thought silently in his heart, although the elders and those black-robed guardians failed to break through, and they were attacked by hatching beasts, and now they have become half-human and half-monster appearances, but in terms of strength, they are also at the level of super-state limits. Will be weaker than Ma Xiaosen and them.

"Hurry up." Mei Xiaosen swayed and accelerated, suddenly shot out, landed under the building covered with plants, and sat down with his knees crossed.

He stretched out his right hand, and an iron-cast banner fell down, firmly pinned to his side, he began to close his eyes, raced against time, and began to break through.

Bai Qianxue waved to Wang Xuan. The nine of them gathered together and moved aside for a while, and then Bai Qianxue introduced Wang Xuan and these seven people in a low voice.

Introducing each other, Wang Xuan learned that the strong man who made the bronze spear was called Wu Tian, the man who made the scepter able to use the rock was Fang Tao Zhong, the woman who hatched the beast was a water-type beast called Li Tianjiao, and the other four were They were named Song Lichen, Bian Jinli, Chang Jing and Bao Chong.

Among them, Song Lichen belonged to "Rakshasa City", Bian Jinli and Chang Jing belonged to "Phoenix City", and Bao Chong belonged to "King City".

"Heaven Comes"

Wang Xuan looked at the cities to which they belonged, and vaguely felt that "Phoenix City" was the strongest. Among the ten people in front of him, three of the super-extreme powerhouses were all from "Phoenix City".

These people also knew Wang Xuan's name, and nodded slightly towards him. After that, everyone flashed, each chose a place to hide, and waited quietly.

Everyone hopes that the mysterious master will enter the upper world, and he will not return the next day, so that Mei Xiaosen can successfully break through, then they will have a seventh-form powerhouse, and the situation will be completely different.

If Xuanzhu returned early, appeared here, and wanted to sneak attack on Mei Xiaosen, they were forced to take action.

Thinking of facing the seventh form of powerhouses, even if they are powerhouses with super-state limits, they are still uneasy and slightly uneasy.

Wang Xuan's Eye of Fear could vaguely capture the traces of fear that were faintly released in the hearts of these people.

Wang Xuan chose a corner, sat down with his knees crossed, and placed himself in a green vine, calmed himself down, and began to observe Mei Xiaosen's breakthrough, hoping to be enlightened.

Mei Xiaosen had already saved enough, but he was suppressing himself without trying to break through.

Breaking through the super state is different from the previous one. It is not that the energy absorbed is enough, and the passive breakthrough can be made actively.

Concentrate your mind ~www.mtlnovel.com~ into meditation, beside the banner, Mei Xiaosen began to sense the power of the world in this world.

Relying on the hatching beast in the right hand to cover the sun, mobilize the powerful energy contained in it to sense and resonate the power of the world.

The process is slow and difficult.

Wang Xuan thought of the power of the world. Only when he killed some strong people with hatched beasts or entered the lower floor himself and exerted his strength beyond the limit, would the power of the world be triggered, but he had to actively sense the power of the world. Neither have.

"Actively sense the power of the world, and then find a way to draw the power of the world into the body, this kind of breakthrough method, think about it and know that it is bound to be dangerous..."

Wang Xuan thought silently, and couldn't help but try to sense the power of the world that exists between heaven, earth and nature.

Unconsciously, he also closed his eyes and slowly entered into meditation.
