

Last Building on Earth Chapter 26-30

Chapter 26

He kicked out and kicked the two-to-three-meter-long giant lizard upside down. On the side, another scorpion-tailed lizard opened its **** mouth and rushed up to bite Wang Xuan's thigh.

As soon as he turned around, the steel bar in his right hand was pulled out horizontally, and with a snort, he pulled it on the mouth of the scorpion-tailed lizard. Immediately, blood splattered, and three of the exposed teeth were broken, and the gums were all cracked. It was so painful that the scorpion-tailed lizard opened its mouth wide and let out a hoarse scream.

Wang Xuan followed with the second and third blows... all the way to the head, mouth, and nose of this scorpion-tailed lizard.

Every time it fell, blood splattered everywhere. The scorpion-tailed lizard's nose collapsed, its eyeballs burst, its mouth was smashed, its flesh was blurred, and blood grooves appeared on its head.

With a "porphy" sound, its head was completely blown off, and red and white splashed everywhere.

In the face of Wang Xuan's strength and shot speed, the scorpion-tailed lizard was beaten to such an extent that he couldn't even swing the barb behind him.

White light flashed, his head exploded, and the white scale on his forehead peeled off and flew to his palm.

The original seven petals in the palm of the hand immediately added another one, becoming eight petals.

Followed by another flash of white light, the scorpion-tailed lizard that he had just pierced through his head with steel bars finally died after struggling and twitching twice, and the white scales on his forehead flew over and merged into his palm.

In the palm of the hand, the petals of the small white flower turned into nine pieces, and these nine scales opened together, like a blooming white flower, which seemed indescribably magical.

Although Wang Xuan couldn't see it with the naked eye, he could vaguely sense it. The small white flowers formed by these nine scales seemed to slowly wriggle and spin in the palm of his hand. There was an endless stream of energy released, moisturizing the whole body, and making him feel that he had it. Strength, speed, hearing, and vision are slowly improving.

This scorpion-tailed lizard is not weaker than the wolf-headed ape-shaped monsters that he encountered before, but in the face of the current Wang Xuan, it seems vulnerable.

He killed two scorpion-tailed lizards, and Gu Manyao and Zhao Lei each successfully killed a scorpion-tailed lizard and obtained a white scale.

Of the seven scorpion-tailed lizards that appeared on their side, they killed five in the blink of an eye, and Zhang Haofei and Gu Manyao greeted the remaining two.

Wang Xuan took care of the two scorpion-tailed lizards and looked up to see the off-road vehicle driving towards him.

On the front hood and roof of this off-road vehicle, there is a scorpion-tailed lizard on each side, and another lizard hangs on the open door at the back, squeezes into the car, and chases after a few scorpion-tailed lizards, it can be said that the situation is very critical.

Tie Jun held the steering wheel with both hands, his face dignified, just waiting for the fat director and the photographer to get into the car, several scorpion-tailed lizards surrounded him, one jumped on the roof, and the other fell in front of the car. Cover it, keep hitting the front windshield.

What's more terrifying is that a scorpion-tailed lizard squatted on the back door that could not be closed, opened its mouth with a **** mouth, bit the thigh of the photographer who got on the car last, and wanted to drag him out of the car.

The photographer let out a shrill scream, and clung to the back of the seat where Tie Jun was sitting with both hands. He understood that once he was dragged out of the car, he would surely die.

With a bang, the front windshield shattered, and a barbed tail stretched in and hooked at Tie Jun's face.

Li Luo, who was sitting in the co-pilot, was full of fear. Holding the wrench in his hand, he only screamed, but didn't know how to fight back.

Tie Jun slammed on the brakes suddenly, and let his body aside. Due to the huge inertia, the scorpion-tailed lizard lying on the front hood of the car slammed into the car, and the upper body rushed in completely.

The scorpion-tailed lizard on the roof was thrown out, and the off-road vehicle was parked a few meters away from Wang Xuan and Zhao Lei.

Tie Jun chose to drive towards the four of Wang Xuan, hoping to get their help. This was the only chance to survive. He believed that the four of Wang Xuan would not die.

Otherwise, these terrifying monsters will get into the car, and they will surely die.

While avoiding the scorpion-tailed lizard rushing in, Tie Jun grabbed the wrench in Li Luo's hand with a backhand. He lifted the wrench and smashed it towards the scorpion-tailed lizard's eyes.

The scorpion-tailed lizard squeezed its upper body into the car, twisted all over, got stuck between the shattered front windshield, and had difficulty moving. One eye was hit by the iron army's wrench, and it burst open immediately.

The photographer in the back row was dragged down by another scorpion-tailed lizard in a desperate cry for help.

Two other scorpion-tailed lizards rushed up from the other side of the off-road vehicle, hitting the co-pilot and the rear window glass.

They are very powerful, especially the barbs on their tails hit the corner of the glass, and they can easily smash the window glass.

Zhao Lei saw that the photographer was dragged out of the car by a scorpion-tailed lizard biting his thigh, and rushed up immediately. Although the performance of these people before made him a little chilled, he saw that these people were attacked by monsters in front of him hissing. Bite, he still rushed up without hesitation.

Hunting monsters can get more white scales. Now, among the four of Wang Xuan, Zhang Haofei and Gu Manyao, he is the only one who has the fewest scales~www.mtlnovel.com~ He has just gotten two of them. Scaly.

The steel rod in his hand swept out, and the two white scales in his right hand released energy and concentrated in the steel rod. The rod swept faintly, and there was a faint sound of wind, and it hit the camera from behind firmly. The division dragged the scorpion-tailed lizard out of the car.

The scorpion-tailed lizard let out a scream after being beaten, abandoned the photographer, and turned to attack Zhao Lei.

Zhao Lei retreated slightly, holding the steel rod in both hands, and he fell head-on.

With a "bang", the stick hit the scorpion-tailed lizard's head, blood splattered, the skin split open, and blood flowed out from the mouth, nose, eyes and ears.

The scorpion-tailed lizard was hit by this stick, as if it was drunk, it staggered two steps, and fell to the ground.

This stick, Zhao Lei, used all his strength to smash the bones in the scorpion-tailed lizard's head with just one blow. After struggling twice, he immediately died.

Zhao Lei obtained his third white scale.

Zhang Haofei and Gu Manyao successively dealt with the remaining two scorpion-tailed lizards that besieged them before, and got the fifth white scale, and then rushed towards the off-road vehicle.

Wang Xuan rushed towards the other side of the off-road vehicle one step ahead of them.

There were two scorpion-tailed lizards on this side, shattering the window glass one after another, trying to drill into the car.

Wang Xuan's speed is getting faster and faster now, and he jumped, and the scorpion-tailed lizard that was just about to attack Li Luo sitting in the co-pilot was pierced by the steel bar in his hand.

He flew up and kicked the scorpion-tailed lizard to the ground. The power of this kick was so powerful that even Wang Xuan himself was surprised, and he directly kicked the scorpion-tailed lizard into the air. Said to have thousands of pounds of strength.

Chapter 27

The soft belly of this scorpion-tailed lizard that was kicked was the key point. After falling heavily to the ground, blood was bubbling out of its mouth, twitching all over, and its eyes rolled, seeing that it was going to die.

Wang Xuan took advantage of the situation to pull out the steel bars and smashed the second scorpion-tailed lizard that smashed the window glass beside Mengyun.

Armed with nine white scales, his strength was further enhanced. The scorpion-tailed lizard had no time to evade or defend, and was pulled on his head by steel bars.

There was a crisp sound, and the skull shattered immediately. No matter how hard the scorpion-tailed lizard's skull was, it couldn't bear his strength.

He easily obtained two white scales again. These two white scales entered his right hand, and did not form the tenth and eleventh petals of the white flower, but were directly fused into the center of the white flower. Disappear.

This change caught Wang Xuan's attention. Could it be that this little white flower can only have nine petals at most?

At this moment, the small white flower has a new change. Originally, the nine scales were like a blooming flower. Now, after the two white scales are fused, the nine petals began to shrink toward the center, and soon the original blooming flower was changed. The shape shrinks into a flower bone.

"How is this going?"

Wang Xuan vaguely sensed this change, and was slightly surprised. Fortunately, the power and speed he possessed did not diminish. The small white flowers that shrank to look like flower bones were still releasing energy, nourishing the whole body, and providing a powerful force for him to drive.

After killing two scorpion-tailed lizards in a row, Wang Xuan turned around and went to the front of the off-road vehicle. He stretched out his left hand and grabbed the tail of the scorpion-tailed lizard that got into the car, and pulled it out with force.

This scorpion-tailed lizard was smashed in one eye by the iron army with a wrench, and it was frantically opening its **** mouth and biting around.

The co-pilot Li Luo touched a pillow behind him, shrank into a ball, and protected the pillow in front of him.

The scorpion-tailed lizard bit the pillow and tore it frantically. This high-quality pillow became tattered in the blink of an eye, and the stuffing inside flew around.

Tie Jun took the wrench and used all his strength to hit the scorpion-tailed lizard on the head.

Suddenly, the scorpion-tailed lizard flew out quickly, and Tie Jun saw it. It wasn't that it retreated voluntarily, but was pulled out by Wang Xuan's tail behind it.

Wang Xuan pulled it out of the car, lifted it up, and smashed it down on the ground.

With a thud, the head of this scorpion-tailed lizard hit the ground, its flesh and blood flew, and it exploded, killing it immediately.

Tie Jun was extremely shocked when he saw that Wang Xuan easily pulled such a huge lizard out of the car with only one hand and swung it up.

What is the origin of these four people? If he hadn't seen it with his own eyes, he would never have believed that he could hunt down these terrifying monsters so easily.

He has practiced Sanda for a few years, and he knows that through systematic professional training, the human body can achieve a level of fighting skills that far exceeds that of ordinary people. Even if he has not practiced much over the years and his level has declined, it is still very difficult to deal with two or three ordinary people. easy.

And some professional boxers with top international standards, when facing ordinary people, if both sides are bare-handed, they can even fight one against ten.

But no matter how powerful people are, they are still flesh and blood, and the feeling of these four people in front of him is almost inhuman.

Wang Xuan watched the scorpion-tailed lizard being thrown to the ground by himself, and a white scale flew out from the center of the shattered forehead and submerged in his right palm.

This is the twelfth scale he obtained.

Like the previous two scales, this white scale fused directly into it, and the nine scales that turned into flower bones were slowly squirming, absorbing this scale, and slowly changing, and there were faint signs of changing into a circle. .

Zhang Haofei and Gu Manyao also rushed over, each killed a scorpion-tailed lizard, and received their sixth white scales. The three scorpion-tailed lizards that were chasing the off-road vehicle seemed to see that the situation was not good, and turned around and fled. , and soon disappeared.

Since encountering a monster, this is the first time I have seen a monster who knows how to be afraid and knows how to escape.

"The IQ of these lizard monsters seems to be higher than those of the previous monsters. They know that they are not our opponents and know how to escape." Zhang Haofei raised his head and watched the three scorpion-tailed lizards escape in the distance, secretly amazed.

Gu Manyao nodded and sighed, feeling a little surprised by the performance of these scorpion-tailed lizards. She walked to the off-road vehicle and looked at the photographer who fell to the ground. The photographer was bitten in the thigh. The injury looks serious and the situation is not optimistic.

"He's not seriously injured, you can bandage him." Gu Manyao looked up at the fat director and the female assistant sitting in the car.

Although the scorpion-tailed lizard died or escaped, and the danger was temporarily lifted, the people in the car were still in shock. After hearing Gu Manyao's words, the fat director woke up like a dream and got out of the car.

Tie Jun, Li Luo, Meng Yun and the female assistant also got off the bus.

When these people got out of the car, they immediately expressed their gratitude to Wang Xuan and the others, UU reading www.uukanshu.com Meng Yun no longer had the arrogance she had before, but expressed her gratitude with a face of shame.

Zhao Lei waved his hand and said, "Let's not talk about that, now we need to save people."

He was talking about the seriously injured photographer on the ground.

Tie Jun squatted down and quickly helped the photographer to bandage the wound on his thigh. He looked familiar, like a professional.

"His condition is very serious, and he must be sent to the hospital immediately, otherwise..." Tie Jun looked at the photographer who was in a semi-conscious state with a solemn expression on his face.

Wang Xuan watched and did not speak. He was silently sensing the changes in the scales in his right hand. These scales merged together and gradually formed a white sphere with a striped road left by the fusion of scales on the surface. It looked like a Exquisite and small crafts.

Within this white sphere, he could vaguely feel the energy fluctuations.

"Going to the hospital? Hey, let's get out of this parking lot first." Zhang Haofei laughed and shook his head while listening to Tie Jun's words.

Tie Jun couldn't understand, so he looked up at him.

Zhang Haofei was too lazy to explain, he turned and walked towards the limousine behind him.

Director Fatty held the phone tightly in his hand and kept calling the phone repeatedly.

"Why is there still no signal." He looked anxious and sweaty.

Not only him, Li Luo and the female assistant were also constantly calling the police and calling for help with their mobile phones, hoping to get through.

"Don't think about making a phone call anymore, there is no signal here." Zhao Lei couldn't help but said, "Get in the car quickly and get out of here early. There are a lot of monster corpses here, I'm afraid it will attract new monsters."

Hearing Zhao Lei say this, the faces of these people changed greatly. They hurriedly carried the seriously injured photographer into the car, and then got into the car one after another.

Chapter 28

Tie Jun hesitated and asked, "Can we come with you?" Although there are no monsters now, no one can guarantee that there will be no more monsters on the way, especially now that the window glass of their off-road vehicle is almost shattered. , making them feel more insecure in their hearts, Tie Jun thought about going with Wang Xuan and the other four.

Wang Xuan's heart moved slightly and said, "Do you still remember the way you drove in?"

Tie Jun nodded and said, "Remember."

"That's fine, I'll follow your car, and you'll follow the way you originally drove in and then go back the same way."

Wang Xuan opened the co-pilot's door and let Li Luo, who had just boarded the co-pilot, get out of the car, and said, "You take another car."

He wanted to know what would happen to the original road if Tie Jun drove back along the original road.

Li Luo didn't dare not to listen, so he hurriedly got out of the car and changed to another car.

Zhao Lei saw Wang Xuan get into this off-road vehicle, and hesitantly said, "Then I'll get into this car too, you two go to another car."

In this way, the four of them are in two cars, and if they encounter danger on the way, they can take care of one or two of these people.

Hearing Zhao Lei say this, Meng Yun took the female assistant to Zhang Haofei's car. Compared to the off-road vehicle with broken windows, the car looked much safer, but the injured photographer and the fat director stayed behind.

Ten people were divided into two cars, and they brought all the food and mineral water they had found earlier. The Iron Army started the car and turned around and returned to the original road.

"Remember how you got here just now, how to get out now, don't be too fast." Wang Xuan sat in the co-pilot and instructed Tie Jun.

Tie Jun nodded to show his understanding, and drove towards the front. Zhang Haofei followed behind.

Passing by the place where the car was parked, there was only a large pool of blood on the ground, but no corpses.

The female stylist whose throat was ripped open and the other body responsible for lighting and sound were gone, apparently dragged away by other monsters.

Wang Xuan glanced at it and saw that there were no corpses, he frowned slightly and said, "No corpses were left, were they all dragged away by those lizards?"

Tie Jun, Director Fatty, and other nine people, there are only six left now, and the other three must have encountered a poisonous hand, but now they have not seen the body.

Zhao Lei replied: "The habits of these lizards are very different from those of the monsters we encountered before, and they seem to be smarter."

Hearing this, Tie Jun couldn't help but ask: "Where did these monsters come from? Who are you?"

Everything he just experienced completely overturned his cognition, and he had too many doubts in his heart, which he wanted to ask for a long time.

Director Fatty was always nervous and fearful. He was also curious about Wang Xuan and Zhao Lei. Hearing Tie Jun's question, he followed closely and said, "Yeah, you two... What the **** is going on?"

Zhao Lei said: "Actually we are the same as you, the only difference is that we were trapped here a day earlier than you."

"Trapped here?" Director Fatty was stunned and said, "What do you mean?"

At this moment, Tie Jun suddenly stepped on the brakes with a look of surprise.

Wang Xuan said, "What's wrong?"

Tie Jun pointed to the front right of the car and said, "You should turn right when you get here."

Wang Xuan looked to the right of the car was a wall, and there was no road.

Zhao Lei said, "Are you sure you remember correctly?"

He felt that the roads in the parking lot extend in all directions. If there are no signs, it is normal for him to misremember.

Tie Jun shook his head and said, "It shouldn't be. I can't remember the road I've walked. Besides, the road in this parking lot is not complicated, but... how come the road here is gone? Am I really remembering it wrong? "

"You remember correctly." Wang Xuan was not surprised, he opened the co-pilot's door, got out of the car, and walked towards the wall on the right.

He took the initiative to get into Tie Jun's car and asked him to return along the same path, just to see what went wrong when they were trapped here.

When Zhao Lei saw Wang Xuan get off the car, he also got out of the car, and said, "It seems like before, the place where there was an intersection turned into a wall, so we were stuck here and couldn't get out."

Wang Xuan walked to the wall, reached out to touch the wall, and kicked it twice. He could be sure that it was a real wall, not an illusion or hallucination. After that, he carefully observed the wall, trying to find out some different places.

Zhao Lei understood what he was thinking and said, "I'm afraid this is a waste of energy, the force that traps us here is beyond imagination, this force can change the road and environment here, and make the place where there was a road become a wall. If the wall is removed, it should also be able to turn the original wall into a road, so before we thought we were driving forward all the time, but in fact we have been circling around the E and F areas."

Wang Xuan quickly gave up. The wall in front of him didn't look any different from the walls on both sides, and it wasn't something that could be destroyed by their strength. It was impossible to break the wall and escape.

Seeing Wang Xuan and Zhao Lei getting out of the car, and Tie Jun getting out of the car, the fat director glanced at the cameraman who was in a semi-conscious state beside him, and got out of the car in a hurry.

In their eyes, it is safest to be with Wang Xuan and Zhao Lei.

Seeing that the car in front had stopped, Zhang Haofei opened the car window and stuck his head out: "Did you find something new?" He said as he prepared to get out of the car.

Wang Xuan turned his head and said, "There's nothing new to discover, just go back to the car."

Afterwards, a few people got into the car again, and Tie Jun said, "Where are we going next?"

Now that the road is different, it is impossible for Wang Xuan to let him go back along the original road.

Wang Xuan looked at a load-bearing column on the side, and the mark on it indicated that they were still in Zone G.

"You can drive as you please, and you can drive it as you think it is possible to drive out."

Listening to Wang Xuan's words, Tie Jun was stunned, suddenly thought of something, and said, "You said before that you were trapped here a day earlier than us, is that the reason?"

Zhao Lei said: "Yes, entering this parking lot is equivalent to being trapped here, because the road or time and space here seems to be changing, and we couldn't find an exit after searching for a day."

Hearing this, Tie Jun was silent, and the director Fatty had a look of shock and fear on his face.

After going through all this just now, they have no doubts about the authenticity of Zhao Lei's words.

"Then what should I do?" The Fatty Director finally couldn't help shouting. The thought of being trapped here and unable to get out made him feel like he was going crazy.

Zhao Lei said: "What should I do? I can only do everything possible to survive, and then find a way to leave."

Tie Jun was calmer than Director Fatty. After taking two deep breaths, he said, "Then you have become so powerful, does it have something to do with this place?"

Wang Xuan said: "Here, you can become powerful by killing those monsters."

Tie Jun nodded, with a look of determination in his eyes, and said, "I understand, thank you."

Just as he was about to start the car and continue to move forward, there was a sudden "bang" on the roof, and the entire roof collapsed slightly. This was because a heavy object fell on the roof.

Hearing this sound suddenly, several people in the car were startled, especially the director Fatty, who suddenly screamed out of fright.

Almost at the same moment, one after another scorpion-tailed lizards sprang out from the row of parked vehicles on the left front. They rush up here.

"So many?" Zhao Lei, who was sitting in the back row, stretched out his head and looked forward, showing a hint of surprise.

This was the largest number of monsters they had ever seen, and there were a dozen or so.

Tie Jun clenched the steering wheel with both hands, his eyes faintly gleamed, and he stepped on the accelerator abruptly, driving the off-road vehicle, instantly increasing the speed to the fastest, and rammed towards the dozen or so scorpion-tailed lizards.

Wang Xuan's heart suddenly moved. If Tie Jun drove his car and killed these scorpion-tailed lizards, would all the white scales on these lizards enter his body?

With a "bang", this off-road vehicle has a large displacement, the engine is roaring, the car rushed out at a very high speed, and the scorpion-tailed lizard that fell on the roof was instantly thrown out by the consistency. .

Zhang Haofei followed closely with the car, and the scorpion-tailed lizard slammed into the front of his luxury car, making a loud noise, and the front of the car collapsed in immediately.

"So many monsters? It's so **** exciting—" Zhang Haofei clenched the steering wheel with both hands, and noticed a dozen scorpion-tailed lizards gushing out in front of him. Not only was he not nervous, but he felt excited.

Tie Jun drove an off-road vehicle and slammed into it. The two scorpion-tailed lizards, which were running the fastest, had no time to dodge, and were immediately knocked into the air and flew out. This

time they flew out a full seven or eight meters. It can be seen that the off-road vehicle broke out in an instant. What a terrifying impact force. UU reading www.uukanshu.com

The remaining scorpion-tailed lizards dodged to both sides, and they moved fast, far exceeding ordinary humans.

Tie Jun secretly cried out that it was a pity, this time he could only kill two scorpion-tailed lizards.

Wang Xuan watched the two scorpion-tailed lizards that were knocked out and smashed to the ground heavily, their bodies became bloody, and they stopped moving when they fell to the ground. They should have been hit to death, but the white scales on their foreheads did not peel off. Not to fly to the Iron Army.

"Isn't it a matter of hitting them with a car? Or is it just serious injuries and no deaths?"

Wang Xuan was pondering, but saw that Tie Jun was driving his car and was about to rush forward. Suddenly, a car suddenly slipped out of the row of parked cars on the left.

Tie Jun was taken aback when the incident happened suddenly. Fortunately, he was an old driver and reacted so quickly that he stepped on the brakes almost instinctively.

The two cars collided with less than half a meter away. Tie Jun broke out in a cold sweat. When he looked up, he found that there was no driver in the car that had slipped out. There were two obvious bumps on the ground just pressed by the tires. Black traces, a group of scorpion-tailed lizards followed closely behind the car, and the car was pushed out by their joint efforts, just to stop them from driving away.

"How could these monsters have such an IQ?" Zhao Lei was taken aback, but Wang Xuan noticed that one of the scorpion-tailed lizards that pushed the car out was different.

The size of this scorpion-tailed lizard is larger than that of ordinary lizards, and its body length has reached an astonishing three or four meters long. Blue light.

There are two white scales in the middle of the forehead, and under the two white scales, there is a white crystal-like scale, which is completely different from ordinary scales. This crystal scale is crystal clear and faintly shining.

Chapter 29

When Wang Xuan noticed this giant lizard, his heart was slightly shocked, and he thought of the elite monster with two white scales that he killed before. The pressure of this giant lizard in front of him had to surpass that Elite monsters.

Tie Jun stopped the car, and the dozen or so scorpion-tailed lizards roared up in front of him, rushing towards them frantically.

Zhang Haofei drove the car and parked in the back, cursing in his mouth. He opened the car door and picked up the steel pipe beside him, showing a cruel and excited look.

He hadn't seen the giant lizard that appeared in front of him. In his opinion, a dozen scorpion-tailed lizards represented a dozen white scales. If he could kill a few more, he would hope to surpass Wang Xuan.

Seeing that the car was blocked in front of him, Tie Jun was about to reverse the car, but he didn't want Zhang Haofei to park the car in the back and block the way.

Zhang Haofei got out of the car and ran towards the front at full speed.

Followed by Gu Manyao, her speed was no slower than Zhang Haofei.

Seeing that he was already inseparable, Tie Jun was still calm, grabbed the big wrench that he had put aside, and stood ready.

The fat director sitting in the back was trembling all over, his face full of fear.

"You stay in the car!" Wang Xuan said as he prepared to get out of the car. The fastest scorpion-tailed lizard jumped on the hood of the car, its head stretched out, its **** mouth opened, and it bit them. Come.

Tie Jun took the big wrench and smashed it in the face. Wang Xuan shot much faster than him, and the sharp steel bar stabbed out, pierced through the **** mouth of the scorpion-tailed lizard, pierced his head, and pierced his head from behind. came out.

Wang Xuan pulled it out again, bringing out a stream of blood. The thorn was pulled out as fast as lightning. Iron Army's big wrench had just hit the scorpion-tailed lizard's head, and he had already opened the door and jumped out.

He closed the car door, and Zhao Lei, who was behind him, just got out of the car, and the two were attacked by four scorpion-tailed lizards.

The giant lizard that seemed to be the leader did not act immediately, but jumped onto the top of the car that was blocking the front, and stepped on the top of the car by half. arrogant look.

It didn't take these humans in its eyes.

Wang Xuanfei kicked and kicked a scorpion-tailed lizard that jumped up, and the steel bar in his right hand was swung out.

There was a crisp sound, and another scorpion-tailed lizard that rushed up was hit in the head by steel bars, its skull shattered, blood seeping from its seven holes, and it fell down softly.

After harvesting two white scales in a row, Wang Xuan felt that the white ball in the palm of his right hand absorbed the energy of the two scales, and a violent change began to occur inside.

The energy inside this white sphere is turbulent, and it keeps converging towards the center, continuously digesting the two white scales that have just been absorbed. During this digestion and fusion, a strange energy fluctuation is faintly generated.

This energy fluctuation is completely different in nature from the energy generated before, just like some kind of quantitative change after the quantity reaches a certain limit.

Wang Xuan didn't know what the energy fluctuation was, but in the process of induction, an inexplicable thought suddenly appeared in his mind, which seemed to be a fluctuation of life energy.

Could it be that the essence of this so-called white sphere is actually an egg, in which life can be conceived?

This thought made his heart suddenly tremble, and he immediately felt a creepy feeling. All the hairs on his body stood up, but facing the swarms of scorpion-tailed lizards, he didn't have time to think about it, so he could only rush up and try his best. to kill these scorpion-tailed lizards.

Zhao Lei also quickly killed a scorpion-tailed lizard, but was bitten in the thigh by another scorpion-tailed lizard.

He let out a low growl, clenched the steel stick in his hands with both hands, turned around, and hit the scorpion-tailed lizard with all his strength.

He smashed the head of this scorpion-tailed lizard and harvested his fifth white scale.

Zhang Haofei rushed up from the other side from behind. He let out a loud shout, waving a steel pipe, and rushed into the group of scorpion-tailed lizards facing him.

The giant lizard lying on the roof of the car looked at these humans arrogantly, but soon its eyes turned into a terrifying and ferocious light.

It realized that these human beings are terrible, not these ordinary scorpion-tailed lizards can kill.

It suddenly opened its mouth and let out a sharp hissing low whistle.

Gu Manyao followed closely behind Zhang Haofei, and was about to rush up, when an exclamation came from the car behind.

She was slightly startled and hurriedly turned around, only to find that three scorpion-tailed lizards appeared on the top of the car behind, and seven or eight scorpion-tailed lizards appeared on the road behind. They surrounded the car and began to attack the car. window.

Meng Yun, Li Luo and the female assistant who stayed in the car were so terrified that they couldn't help screaming for help.

"Zhang Haofei, let's go to the back!" After seeing it, Gu Manyao shouted, turned decisively and rushed back.

With one lunge, she waved the steel pole with her right hand, and hit a scorpion-tailed lizard that jumped from the roof of the car first, but was pounced on by another scorpion-tailed lizard and turned over and fell down.

She turned over forcefully, overturned the scorpion-tailed lizard that was pressing on her body, and inserted the steel pipe in her hand into the monster's open mouth.

When Zhang Haofei heard Gu Manyao's voice, he immediately gave up and continued to rush forward. He turned around and turned around to see Gu Manyao being thrown down. He was slightly startled, but then he was relieved.

I understand that although these scorpion-tailed lizards are difficult to deal with due to their large numbers, and even they are inevitably injured, but they have more and more white scales, and their strength, speed, hearing, vision, reflexes, and healing abilities are improving. Scorpion-tailed lizards can't really kill them anymore.

Zhang Haofei and Gu Manyao teamed up to defend against a group of scorpion-tailed lizards that appeared from behind, while Wang Xuan and Zhao Lei killed more than a dozen scorpion-tailed lizards rushing from the front.

Soon Wang Xuan dealt with the three scorpion-tailed lizards, and the three white scales he obtained were all fused into the white sphere. With the addition of new white scales, the breath of life that was originally just a wisp of life gradually became stronger.

Zhao Lei, who was next to Wang Xuan, also obtained his sixth white scale, and took off the myopia glasses he was wearing.

As more and more white scales were harvested, his eyesight grew. Originally, he had more than 500 degrees of nearsightedness, but now his glasses are blurred, so he had to take off the glasses.

His nearsightedness of more than 500 degrees has been healed unknowingly, and his vision has returned to normal.

Although Wang Xuan and Zhao Lei fought together, they were very fierce, and they could not completely stop this group of scorpion-tailed lizards. There were still scorpion-tailed lizards that bypassed them, rushed to the side of the off-road vehicle, and drilled into it, wanting to bite and stay in the car. The inner iron army and the fat director are three.

Tie Jun watched Wang Xuan and Zhao Lei hunt and kill these scorpion-tailed lizards~www.mtlnovel.com~ The fear of unknown monsters gradually disappeared, and he recognized them as a ferocious beast in his heart. Space, as long as the timing is well grasped, it is completely possible to fight back.

"Director Chen, don't be afraid, as long as we don't get out of the car, these lizards are not invincible..." Tie Jun just said here, a scorpion-tailed lizard appeared on the left, and the man stood up and put his head into the cab of the car. The car window on the side, trying to bite at him.

The Iron Army had been prepared for a long time, and a wrench smashed it in the face.

The scorpion-tailed lizard had no better way to face the iron army hiding in the car. It was hit, and even the blood on its head was beaten out, and it was busy shrinking its head back.

Another scorpion-tailed lizard fell on the trunk of the car, shattered the rear windshield, and stuck its head in.

Director Fatty hurriedly crawled forward to dodge.

Zhao Lei turned around to see it, and immediately turned around and rushed back.

At this moment, there was a loud bang, and the roof of the off-road vehicle collapsed immediately, and a huge black shadow appeared on it.

This huge black shadow is also a scorpion-tailed lizard. It has the same huge body as the giant lizard in front of it. It must be three or four meters long. There are also two white scales in the middle of its forehead. The only difference is that there is no white scale on its forehead. Crystal scales.

The scorpion-tailed lizard suddenly appeared, stepped on the roof of the off-road vehicle, and jumped up abruptly. The barb behind him flicked, and with a snap, Zhao Lei, who had just jumped back, let out a miserable groan, and his shoulder was hooked by the barb. , blood splashed, and was dragged by the barb and hit the off-road vehicle.

Wang Xuan heard Zhao Lei's screams, saw that the situation was not good, and immediately turned around. At this moment, the giant lizard with crystal scales on the top of the car in front of him finally moved.

Chapter 30

With a loud "bang", the car roof, which had collapsed in half, was completely sunk in, and this giant lizard rose into the air, with a terrifying momentum and speed, and fell heavily to the ground several meters in a vertical direction.

The four claws grabbed on the ground, leaving a few white marks, and then shot out, like a bull with a crazy head, the momentum of the shot was so strong that it was stronger than the current Wang Xuan who dared not confront it head-on.

"It's so fast!" Wang Xuan's heart was shocked, and he didn't have time to turn around to save Zhao Lei. He was busy doing his best to dodge to the right, and he didn't want a scorpion-tailed lizard on the right to rush up and collide with him.

Wang Xuan was overturned and fell to the ground. The scorpion-tailed lizard roared and opened its mouth to bite.

"Beast!"

Wang Xuan snorted lowly, and swung the steel bar in his right hand out. This burst of power was terrifying. The steel bar that was swung out faintly let out a whistling wind, and with just one blow, the head of the scorpion-tailed lizard exploded, even the white brains inside. All splashed out.

"Peng" sounded, and at the same moment, the giant lizard rushed up, and with a wave of its front paws, pulled the scorpion-tailed lizard away from it.

Just pulling it out at will, the scorpion-tailed lizard, which weighs one or two hundred pounds, flew out like a kite with a broken string. This force made Wang Xuan's scalp numb.

With one claw, he pulled out the scorpion-tailed lizard whose head had just been blown off, and the giant lizard swung its body. Wang Xuan felt a blue shadow flash in front of his eyes, and he knew something was wrong.

With a "snack", the ground sparked everywhere, and the giant hook behind the giant lizard with a faint green energy hooked on the ground he fell just now, making a small gap in the hard ground.

Missing a hit, the giant lizard took a step forward, stretched out its front claws, and grabbed towards him at an extremely fast speed.

Wang Xuan held the steel bar in his right hand and waved it out.

With a "bang", the steel bar hit the monster's claws, the giant lizard roared, and the other claw fell on its head and grabbed his stomach.

He just hit with all his strength, and not only was he unable to smash the giant lizard's claws away, but his right arm was sore and numb from the shock.

Wang Xuan gasped. The monster in front of him was simply too terrifying. Not only was its speed and strength terrifying, but its body was as hard as iron. It was much stronger than the elite monster with two white scales he had killed before. Now, how to defeat such a monster?

In his shock and awe, a shrill scream suddenly came from behind.

At the same moment, a white scale appeared and sank into his right palm.

These are the white scales of the scorpion-tailed lizard whose head he just knocked out.

The limousine in the back was surrounded by seven or eight scorpion-tailed lizards and attacked frantically. Li Luo and Meng Yun hid in the car, their faces full of fear.

Zhang Haofei and Gu Manyao rushed over and killed several scorpion-tailed lizards in a row. Suddenly, a huge black shadow flashed above, but a huge scorpion-tailed lizard jumped off the beam above and landed on the trunk of the car. They all slumped slightly.

This giant scorpion-tailed lizard has two white scales in the middle of its forehead, and it is the elite monster among them.

As soon as it shot, the tail hook behind it waved with a crisp "click" and shattered the rear windshield of the car. The barb stuck in and hooked the shoulder of the female assistant sitting inside.

The female assistant screamed in pain, Gu Manyao heard it, and immediately jumped forward, avoiding the barb swung by a scorpion-tailed lizard, and the steel pipe in her right hand smashed horizontally at the elite lizard standing on the trunk .

She saw that this lizard had two white scales, which was stronger than ordinary scorpion-tailed lizards, but she was not afraid at all. She now has seven white scales, her strength has increased, and her body is surging with powerful power, which is enough to compete with this kind of lizard. Elite Lizard Fight.

With a bang, the elite lizard turned around and pulled hard, dragging the female assistant who had hooked her shoulders out of the car.

Li Luo and Mengyun were horrified. They wanted to hug the female assistant and drag her back, but they didn't expect that this elite lizard was so powerful. The female assistant was hooked on the shoulders, like a chick falling into the eagle's claws. A little room for resistance.

Gu Manyao's face changed drastically, and she was busy retracting the steel pipe. The female assistant was thrown against her face and smashed into the car. With loud noises and screams, her teeth were broken, her nose collapsed, and blood was splattered all over her face.

At the same time, this elite lizard jumped forward, condescendingly, and pounced towards Gu Manyao. The barb behind the tail pulled the female assistant and swung it towards her again.

The female assistant weighs less than a hundred kilograms, but she can be easily hooked by the barbs of this elite lizard as a weapon and swung out. Gu Manyao's scalp is numb when she sees it.

She finally understood that this elite lizard is much more powerful than she thought, and this one elite lizard is more terrifying than ten ordinary scorpion-tailed lizards.

She didn't dare to resist, and was about to step back when suddenly her thigh hurt, but she was too focused on the terrifying elite lizard in front of her, forgetting that there were other scorpion-tailed lizards behind her. One bit her thigh.

Zhang Haofei killed a scorpion-tailed lizard again and harvested his eighth white scale. Seeing that Gu Manyao seemed unable to deal with this elite lizard, he was bitten by a scorpion-tailed lizard. Knowing that she was in danger, he immediately got out of the car. He came around from the other side, but he didn't think about saving the female assistant, just to help Gu Manyao.

I just had this thought when suddenly there was a sound of wind behind me, I felt bad, I wanted to turn around and dodge, but it was too late. I had severe pain in my right waist. His hair stood on end, and a roar came out of his mouth, and then he was pulled by a huge force and flew out in the air.

It just felt like the world was spinning, the other person was in the air, his face was down, and he finally saw that an elite lizard with two white scales appeared at some point, and suddenly attacked from behind him. The tail hook hooked into his right waist, hooked a large piece of meat, hooked him up, and smashed it to the side of the car.

Between life and death, Zhang Haofei shielded his head and face and slammed into the side of the car.

With the crackling sound, the window glass was all shattered, Li Luo and Mengyun sitting inside exclaimed, Zhang Haofei grabbed the tail hook that pierced through his right waist with his backhand, and pulled it with all his strength.

With a snort, the tail hook hooked a large piece of **** flesh and was torn off by him. UU reading www.uukanshu.com made him roar miserably, his eyes turned white, and he almost fainted.

At the same moment, the eight white scales in his right hand erupted with the strongest energy, and they were continuously concentrated on his wound, accelerating the healing of the wound.

Zhang Haofei had just pulled the barb out of his own flesh when the elite lizard facing him suddenly jumped over and slammed into his chest, causing the luxury car to make a loud noise and move sideways for half a meter.

Zhang Haofei's chest collapsed immediately, blood spurting wildly from his mouth.

In a short period of time, three elite lizards appeared in a row, Zhao Lei, Gu Manyao and Zhang Haofei were injured one after another.

On the other hand, Wang Xuan was facing a giant lizard that was even more terrifying than the elite lizard. The white scales he had just harvested were fused into the white ball in the palm of his right hand. It seems to break open the ball and spew out.

Hearing the screams and roars from Meng Yun's female assistant and Zhang Haofei came from behind, Wang Xuan's heart shook, and he reluctantly rolled again, avoiding the giant lizard's claws.

Suddenly, out of the corner of his eyes, he saw a flash of blue light, knowing that something was wrong, he put his hands on the ground, and smashed the bent steel bars in his hands.

With a "bang", the steel bar almost blocked the giant tail hook swept by the giant lizard. This terrifying force shook. Wang Xuan only felt five fingers go numb, the tiger's mouth cracked, and the originally bent steel bar in his hand immediately flew out.

The force was so great that his right arm and half of his body felt numb and sore for a while, and he couldn't breathe.

With a "chi" sound, the terrifying five sharp claws swept past. His reaction was a little late, and when his stomach became cold, a large piece of clothes was torn open by the claws, leaving five deep blood grooves on it, and the blood rushed out, almost Even the insides were exposed.
