

Last Building on Earth Chapter 261-265

Chapter 261

When he was in Bug Town, with the help of that mysterious stone pillar, Wang Xuan once had a feeling.

It was only at that time that he didn't understand how to break through the super state. Today, after hearing what Mei Xiaosen and Bai Qianxue said, he knew that the hatching beast wanted to break through the super state and grow again, which was completely different from the previous few times.

Only relying on the energy obtained by hunting monsters is no longer enough to make the hatching beast grow again, and the world power of this world must be used.

"The first step is to be able to sense the power of the world. This alone can make countless people stumped..."

In the meditation, Wang Xuan kept a thought in his heart and felt it with his heart.

The power of this world is ethereal, even if you feel it with your heart, you will not feel it.

Wang Xuan remembered that Mei Xiaosen and Bai Qianxue had said that they needed to rely on their own hatching beasts to sense, and he and the beasts were completely integrated into one, he was the beasts, and the beasts were him.

"Use the hatched beast to sense the power of the world, use the energy of the hatched beast as a guide, receive the power of the world into the body, temper the body, reborn, and carry it over, so that the hatching beast can grow again and become the seventh form of powerhouse. ..."

While thinking about it, Wang Xuan felt silently, but found that he couldn't calm down. The instinct of monsters always had a trace of unease, indicating that something big might happen. Meter distance, an iron cast flag was erected, Mei Xiaosen sat quietly cross-legged on the flag, motionless, meditating.

At first, there was nothing unusual. Gradually, Wang Xuan noticed that the armor worn by Mei Xiaosen showed signs of wriggling. Not only that, but the air around him also faintly fluctuated.

"Is this the resonance with the power of the world?"

Wang Xuan's heart moved, and immediately closed his eyes again, feeling quietly.

I didn't feel it at first, but I felt it for half an hour, and gradually, I felt something.

In his induction, the air flow around the place changed a little, like a subtle vortex where Mei Xiaosen was, and was slowly sucking the space over there.

Not only Wang Xuan, but other super-extreme powerhouses including Bai Qianxue, Wu Tian, Fang Taozhong and others were also silently sensing.

This time Mei Xiaosen's breakthrough is a reference for them, a rare learning opportunity that no one will miss.

During meditation, he could not perceive the passage of time, and Wang Xuan didn't know how long it had passed, but he could only vaguely feel that his induction was getting stronger and the sky was gradually darkening.

Night is coming soon.

This abandoned ancient town covered with plants was silent, and no monsters appeared. In the distant forest, there would occasionally be a roar or two of monsters' filial piety.

When it was completely dark, the air around Mei Xiaosen's body fluctuated violently, even at night, it was very obvious, especially from a distance, you could vaguely find that the space here was faintly flickering.

This is the phenomenon that the air fluctuates violently, causing the power of the world to converge and the energy to rub against each other.

As the night got darker, the shimmering light gradually became more and more blazing. In this abandoned ancient town, it was as if a sun had appeared, and it was particularly conspicuous in the night.

Wang Xuan saw it, and thought that if the mysterious master returned, even if there was no special way to locate Mei Xiaosen, the position could be determined only by the light here.

At this moment, Bai Qianxue stood up. She was obviously prepared. She took out a smoke crystal from her storage belt and threw it out.

The smoke crystal burst, and a large amount of smoke rose immediately, and soon the place became black and foggy, drowning the light and making it less conspicuous in the night.

Wang Xuan looked at the sky and estimated the time. According to Mei Xiaosen's current situation, it has been about ten hours since the breakthrough. If it takes a whole day, then he will need to go through fourteen hours of transformation. , reborn, is truly successful.

During Mei Xiaosen's breakthrough, the power of the world around him was gradually converging. Wang Xuan got close, and in the induction, he finally caught the vague power of the world.

This is a kind of progress, Wang Xuan was slightly overjoyed, and immediately stopped paying attention to Mei Xiaosen, but used his heart to sense and capture this faint power of the world.

During the induction, the white light in the right hand fluctuated slightly. For the first time, Wang Xuan felt the power of the world so clearly, and a shock immediately rose in his heart.

The power of the world is a kind of power that cannot be observed with the naked eye but actually exists. This kind of power is like air, ubiquitous, and maintains the existence of the entire world. All the sources of power that exist in this world are the power of the world.

As he sensed the power of the world, Wang Xuancai felt his own insignificance. The power of the world was like an endless ocean, and he was like a grain of dust that could be ignored, floating and sinking in the endless ocean. As long as the power of this world fluctuates a little, he can shatter his body and shatter his soul.

"It's just terrifying, so the power of the world is going to be introduced into the body? As long as there is a slight error, it will be wiped out..."

Wang Xuan was shocked, once again felt the difficulty of breaking through the super state, and he understood more and more how powerful Mei Xiaosen and the others were.

"It's no wonder that this kind of breakthrough will last at least a whole day. Only with great patience and at a very slow speed, we can slowly introduce the slightest bit of world power. Forever."

After Wang Xuan understood, he was finally relieved. He finally had a clear understanding of how to break through the super state. To break through, two points are the most important. One of them is naturally to sense the power of the world and draw the power of the world into the body. This power The second point is the strength of one's own body and spirit.

If the body and spirit are slightly weaker, the power of the world enters the body, and immediately collapses, let alone a breakthrough at that time, I am afraid that I will not be able to survive.

Wang Xuan still has confidence in the tyranny of his body and spirit. After all, his body has been strengthened twice by the blue crystal scales and the primordial liquid in the hatching corpse. He is much stronger, and in his spiritual direction, he is naturally far superior to others by absorbing the soul consciousness from the magical beasts and the blue crystal scales.

"There is no problem with these. The most important thing now is how to accurately grasp the power of the world introduced into the body. There is no shortcut to this. We can only rely on time, continue to familiarize ourselves with it, and accumulate a little bit of experience."

Wang Xuan understood that Mei Xiaosen dared to make a breakthrough. Naturally, he had accumulated enough experience long ago. He should have a precise grasp of the power of the world introduced into the body before he dared to take such a risky breakthrough.

With his strength, no surprise, he should be able to successfully break through. The only uncertain factor now is whether the mysterious master will appear.

Wang Xuan, Bai Qianxue and the others all quietly sat around Mei Xiaosen at a distance of about 30 meters away. Everyone found a place to hide themselves, and they could only see a cloud of black mist rolling over.

At this moment in the black fog, the light flickering is faintly visible, but it is not obvious because it is obscured by the black fog.

This was a very torturous process. Although everyone tried to calm down as much as possible, with the threat of the Profound Master, no one could really calm down.

One minute and one second passed, and the black mist was slowly dissipating. As the black mist was about to dissipate, the white light gradually became blazing, and Bai Qianxue took out a smoke crystal and threw it at it again.

The thick fog rolled in, drowning the white light again.

With the constant induction, Wang Xuan felt that the fluctuations in the white light in his right hand were becoming more and more violent. The energy in the white light had already been accumulated. At this moment, the energy became very active. Ruowu's power of the world, this energy and the power of the world, began to resonate.

Wang Xuan now understands that the scale energy in the monster's body obtained by this absorption is, in essence, a kind of power of the world.

The power of the world is the source of all energy in this world. The energy in this white light is also another form of existence of the power of the world. Now activate the white light. Once the power of the world is sensed, the two have the same source, and they can immediately induce induction.

Wang Xuan's heartbeat accelerated slightly. At this time, what would happen if he introduced the power of these worlds into his body?

However, considering that the mysterious master may appear at any time, now is not a good time, Wang Xuan resisted the temptation and gave up the idea, but now he can try to practice how to control the strength of the world power that enters the body.

The night passed safely, and the Profound Lord did not appear. As the sky gradually became brighter, Bai Qianxue did not continue to throw the smoke crystal, and on the plant where Mei Xiaosen sat cross-legged, a large number of leaves were flying, and strips of green vines shaking violently, the power of the world formed a huge vortex that surrounded him. It was conceivable that his breakthrough had reached the key.

"It's almost time, it's the last moment, I hope the mysterious master has not returned..."

Bai Qianxue became a little nervous, holding a few crystals in her left hand. It can be said that this time, for Mei Xiaosen's breakthrough, a group of them made all kinds of preparations and bought a lot of crystals. They still felt nervous about this seventh form of powerhouse.

As the breakout becomes more difficult, the gap between each pattern is likely to increase.

Wang Xuan slowly opened the space of Xumi's belt, sorted out some of the special life-saving crystals, and said what he said in his heart, it would be false to say that he was not nervous.

The closer to the end of Mei Xiaosen's breakthrough, the more intense the tension.

After another hour, the vortex formed by the power of the world around Mei Xiaosen became more and more intense, and a white light faintly appeared inside, like a sun, completely shrouding his body.

Seeing this, Bai Qianxue and the others understood in their hearts that Mei Xiaosen really began to reinvent himself. Once completed, he would break through the super state and be promoted to the seventh form of powerhouse.

At that time, he would be able to fight against the Profound Master, and with his protection, they would be able to break through one after another, and they would no longer have to be afraid of these monsters that occupy the human body and rule them as human beings.

With his eyes closed, Wang Xuan was still sensing and trying to control the power of the world. He tried his best to activate only a tiny strand of it, making it as weak as possible.

At this moment, a strong unease surged in his heart, and with this feeling, he immediately woke up and hurriedly opened his eyes.

In the distance, on the wall covered by a large number of plants such as creeping tigers, a stalwart figure appeared.

This figure is about two meters tall, covered in heavy armor, with both hands behind his back, with a smile on his face, looking down from a distance, looking at Mei Xiaosen, who is shrouded in white light, at the large pole behind him. The flags were rattling.

"interesting..."

The person who came was Xuanzhu. His eyes swept around Mei Xiaosen intentionally or unintentionally. The places he swept were Wang Xuan, Bai Qianxue, Wu Tian, Fang Taozhong and Bao Chong. where people hide.

Being swept away by this gaze, the hearts of the people who were hidden froze.

Everyone is hiding their aura. Could it be that the mysterious master discovered them?

If he found out in advance that there were so many super-powerful people hidden here, would he still do it alone? Or maybe he will call the elders of Xuancheng and a few black-robed guardians, and then it will be over. They are simply not enough to deal with the mysterious master and a group of elders and black-robed guardians whose strength is not under them at the same time.

Everyone was anxious in their hearts, not wanting Xuanzhu to swipe, suddenly jumped off the ten-meter-high wall, and fell to the ground covered with plants below, 20 to 30 meters in height, and then jumped again, and appeared in the sky. He was 20 to 30 meters away from Mei Xiaosen, and he was already very close to Bai Qianxue, who was hiding on the side, but only five meters away.

Bai Qianxue didn't know if he was intentional or not, but felt that the palm of his hand was full of cold sweat. He was holding the defense crystal in his left hand, ready to activate it at any time. In the palm of his right hand, the rune was faintly emerging, and the muscles all over his body were tensed.

However, the mysterious master seemed to have no idea that Bai Qianxue, who was hiding five meters away, still carried his hands on his back, strode forward, and walked towards Mei Xiaosen.

At this moment, Mei Xiaosen is at the key point of breakthrough, and he has no defense ability. Once the mysterious master makes a move, he only needs to influence and interfere with him at the critical moment, making him confused, and the hatching beast in the breakthrough will be counterattacked. In the state of mind, nine times out of ten, it will be attacked by the hatching beast, devour the soul consciousness, occupy the body, and become the real master of this human body.

Seeing the mysterious master suddenly approaching Mei Xiaosen, the hidden Bai Qianxue finally couldn't bear it anymore. She had prepared an attack for a long time, and suddenly shot, launching her strongest blow.

In the face of a seventh-form powerhouse like Xuanzhu, how could she be careless? As soon as she made a move, a series of snow-white runes flickered and condensed, turning into a rune beam of light, which contained a cold air. Wherever she went, the air Snowflakes appear.

This rune light beam slammed into the air, she kicked her feet, and at the same time summoned the hatching beast, and entered a state of fit. Countless runes appeared on the upper body, colliding with each other, forming a set of rune armor.

Bai Qianxue hit with all her strength, and Li Tianjiao, who was hiding on the other side, shot at the same time.

Both Li Tianjiao and Song Lichen came from the "Rakshasa City", and they were both strong men who had reached the super-state limit level.

She vibrated her right arm, and a strange beast rushed out of her body. This was a strange beast formed by condensation of water, and it was her hatching beast.

This strange beast has no fixed shape and can change constantly. At this moment, it suddenly jumps out and opens, like a water curtain, intercepting in front of Xuanzhu, like a huge net, trying to hold him.

There is a giant net of water curtains in front, and Bai Qianxue's rune beam attacking at the back. Above is Bao Chong from "Wangcheng". He is holding a battle axe in his right hand. There are countless patterns on the surface of this battle axe. He started up, a vertical ten meters, and came to the sky above Xuanzhu's head. The surface of the battle axe in his right hand was ringing, and it turned into a rainbow light, which was cut out in the sky. In an instant, the rainbow light fluctuated violently, and one turned into five, five battles. Axe rainbow light, from top to bottom, completely enveloped the mysterious master.

In addition to Bai Qianxue, Li Tianjiao, and Bao Chong who attacked at the same time, several other people also appeared and rushed towards the Xuanzhu, but they were far away and could not attack at the same time.

Xuanzhu stopped and seemed to sigh silently.

Wang Xuan didn't make a move, he still maintained the posture of sitting cross-legged, hidden among a large number of green vines, watching Xuanzhu's body twist slightly, avoiding the full blow of Bai Qianxue behind, this rune beam of light carried a large number of snowflakes, slammed into the giant net of water curtains coming from the front, and the mysterious master had already soared into the air, taking the initiative to meet the five battle axe rainbow lights.

Bao Chong's eyes were wide open. It was hard to imagine that someone dared to take the initiative to face the "Five Slashes" that he launched with his battle axe. This was his strongest attack. I have to avoid it. Although the mysterious master is a strong seventh form, does he dare to use his physical body to carry it hard?

In Bao Chong's astonished expression, the mysterious master slammed into the "Five Slashes of Destruction" that fell from above, and five cracks appeared on the thick armor on the surface of the body. Almost at the moment when the five cracks appeared, the mysterious master swung his right fist.

His fist seemed to have broken through some kind of physical restraint and disappeared suddenly. When it reappeared, the fist roared with a terrifying overcast wind and slammed into Bao Chong's chest above.

With a loud bang, Bao Chong roared wildly, and the mechanical shell and armor on his body exploded together with his body.

He crushed the defensive crystal on his left hand at the same moment.

In the face of the mysterious master, no one dared to be careless, and all hid the defense crystal in their hands, just in case.

The defense crystal shattered, and a light curtain was immediately opened.

The light curtain appeared, protecting Bao Chong's body~www.mtlnovel.com~ The power of Xuanzhu's punch was immediately blocked, unable to burst out.

Otherwise, with just one punch, Bao Chong's body can be interrupted, and he will be killed immediately.

All of this seems to be within the expectations of Xuanzhu. He was not surprised, but a sneer appeared on the corner of his mouth. He fell to the ground, and blocks of rocks appeared in all directions. With him at the center, they smashed them wildly.

Fang Tao Zhong from the "King City", holding a scepter in his right hand, with a solemn face, is using the rock with all his strength. The surrounding buildings formed by the pile of stone slabs are disintegrating, floating in the air, and smashing towards the mysterious master.

On the other side, Wu Tian turned slightly and threw a bronze spear in his right hand.

The bronze war spear dragged and whistled, and instantly appeared in the back of the mysterious master, and he was about to pierce his body.

Xuanzhu fell to the ground, watching Bao Chong rolled out of the sky by his punch, his arms twitched, and suddenly, his arms disappeared, and countless fist shadows appeared around his body.

Chapter 262

With every punch, it hit a rock that was slammed with precision. With the terrifying violent explosion, all the rocks that came from all directions were instantly shattered and shattered. He turned around, grabbed out with his right hand, and smashed the stinging rock. Bronze spear in his hand.

Wu Tian's complexion changed, Bian Jinli and Chang Jing appeared silently, one released a giant bird with wings, swooped in the air, and the pair of steel claws stuck out, fiercely grabbed towards Xuanzhu's face, and a whole body appeared. Pieces of frost, punched in the air, countless frosts condensed, turned into a huge frost arm, and slammed into the back of the mysterious master.

Xuanzhu even swung the bronze war spear and Wu Tian together, and smashed the giant frost fist that Jingjing used to hit.

There was a loud "bang", the speed was too fast, neither Wu Tian nor Chang Jing could react. Wu Tian's body hit the Frost Giant Fist, the Frost Giant Fist was shattering, Wu Tian's body collapsed, and the surface began to There is a lot of frost.

While smashing Wu Tian and the bronze war spear, Xuanzhu moved his body sideways. Suddenly, a large number of fist shadows appeared, and the sound of "Boom Boom" could be heard incessantly. Countless fist pits suddenly appeared, and the power in these fist pits exploded, tearing and smashing the two-winged giant bird.

The hatching beast was hit hard, Bian Jinli groaned, and blood flowed from the corner of his mouth. Suddenly the figure in front of him flickered, and he knew something was wrong. The defense crystal hidden in his left hand was immediately crushed, and a light curtain appeared to protect him.

The figure who didn't want to sway in front of him disappeared. Five places on his back were cold, like cold air, and five fingers like steel claws grabbed in. The mysterious master actually bypassed the light curtain opened by the defense crystal in an instant, and came to Behind Bian Jinli, with a right hand, grabbed the two defenses on Bian Jinli's body, grabbed the flesh, buckled the vertebrae, and lifted it up in the air.

With a "bang", the rune light beam that Bai Qianxue had just volleyed over was smashed by him with Bian Jinli.

Bian Jinli let out a tragic roar, his mouth was full of blood, and the rune beam of light caused him to suffer heavy damage. The mysterious master kicked his feet, and his body as high as two meters was like a demon. At a distance of ten meters, he approached in an instant, and he seemed to teleport to another. In front of the super-extreme powerhouse Song Lichen.

Song Lichen knew something was wrong, and it was too late to defend or dodge, so he was busy crushing the defense crystal hidden in his left hand.

A light curtain appeared, he continued to retreat under the protection of the light curtain, Xuanzhu grabbed Bian Jinli and smashed it on the light curtain.

With a "no" sound, Bian Jinli's body cracked, and blood spurted from his mouth, nose, eyes and ears.

His current body is used as a weapon by Xuanzhu, no matter what he sees, he will smash his body on it.

The light curtain only lasted for a moment and then shattered immediately.

Several other super-powerful superpowers did not dodge and retreat, but made all-out shots. They are all strongmen who have grown up through countless **** battles of life and death. They understand that in this case, it is useless to be afraid and retreat. The only way to survive is to unite. , do everything possible to kill the mysterious master.

Fang Taozhong held the scepter in his right hand, opened his mouth, and spewed a mouthful of blood toward the scepter. His whole body was glowing slightly, and his power potential was exploded to the strongest limit.

The stone slabs floating in all directions converged in an instant, turning into an incomparably huge rock fist, volleying down, and smashing towards the mysterious master.

The power of this punch shrouded and oppressed from all directions, blocking all the retreats of Xuanzhu, forcing him to carry it hard.

Xuanzhu's face showed concern and raised his head slightly.

Chang Jing, like Fang Taozhong, with round eyes, took out a fruit from the storage belt and stuffed it into his mouth.

As the fruit entered his body, his eyes suddenly became blood red, and the blue veins appeared on his face, and his face seemed to be suddenly covered with earthworms.

This fruit was obtained by his chance, which could enable him to stimulate all his potentials in a short moment, enhance his strength, enter a state of rampage, and even burst out with super power.

With a violent roar, he suddenly stepped forward, and there was a screeching sound on the surface of his body, and pieces of ice flew out of his body, condensing two huge frost arms, one left and one right, slamming towards the mysterious master .

Xuanzhu was attacked by three sides, and his face showed a solemn expression for the first time.

It can be said that none of these ultrextrême powerhouses are simple, and they all have different cards in their hands. The strength of these people is somewhat beyond his expectations, which makes his contempt gradually disappear.

As soon as his thoughts moved, he waved his right arm, and suddenly countless fist shadows appeared, meeting the giant rock fist that slammed down.

The terrifying rumbling sound continued, and the surface of the rock giant fist that slammed down showed countless cracks, and there were terrible energy and sounds erupting in the cracks.

Fang Taozhong let out a scream, took another step forward, clasped the scepter in his hands, blood was flowing on the scepter, he exerted his strength to the limit, and wanted to unite everyone, in this hit, the Xuanzhu will be severely damaged.

In all directions, blocks of stones flew out of the sky, and not far away there was a house built of stones, which was disintegrating and collapsing under the action of invisible force, re-turning into blocks of stones, constantly filling, and condensing to form a building with a length of more than ten meters. The huge rock arm formed by the combination of stones, with terrifying power, kept pressing down.

The mysterious master was suppressed, and he could no longer move and dodge for a while. Although his constantly erupting fist shadows shattered the giant rock fist pressed down above, new stones filled it up. He was overwhelmed, unable to move.

Two giant frost fists, one on the left and one on the right, slammed into the mysterious master.

There was a crisp sound, and the thick armor on the surface of Xuanzhu's body was shattering. Bai Qianxue took a step forward, grabbed Bian Jinli, and seized this opportunity to **** him back.

The severely injured Bian Jinli also burst out with terrifying energy. His hatching beast, the two-winged giant bird, was almost fused with his flesh and blood.

The hatching beast that has evolved to the super-state limit also has a strong desire to survive. Knowing that the host is in danger, it is between life and death. The hatching beast begins to save itself. Feather grows on the surface of Bian Jinli's body, and a pair of arms turns into steel claws. Creep.

A peculiar color flashed in the Xuanzhu's eyes, and he seemed to sense the desire to survive the hatching beast. Perhaps out of the same instinct, he couldn't help letting go and let Bian Jinli be taken away by Bai Qianxue and spared his life.

Of course, what he spared was not Bian Jinli, but the hatching beast in Bian Jinli's body.

Bian Jinli suddenly let out a loud roar, and he was just taken away by Bai Qianxue, but he covered his head with both hands and rolled all over the ground, looking extremely painful.

Just between life and death, in order to survive, the hatching beast in his body seized this opportunity and suddenly backfired, trying to devour his soul consciousness.

All of this happened in the blink of an eye. The mysterious master was hit left and right by the huge frost arm, and the thick armor was twisted and deformed. Seeing that he was about to be severely injured, he grinned.

Two more arms suddenly grew on both sides of his body, and he clamped the two giant frost arms on one side and the other on the right, and the two giant frost arms with infinite power were shattering, in Chang Jing's eyes With a shocked look on his face, he watched Xuanzhu suddenly exhale, let out a loud shout, and stomped his feet.

With a bang, the ground collapsed, and a large number of plant ivy were broken, and his body rose into the air, breaking through the huge rock arm formed by the condensation of a large number of slate above.

Fang Taozhong, who was controlling the giant rock arm, opened his mouth, groaned, blood spurted, and fell back, with an unbelievable look in his eyes, watching the sky-high Profound Lord penetrate the rock arm and jump into the air. Twenty or thirty meters high, and the rock arm, which was more than ten meters long, collapsed suddenly, burst into countless stone fragments, and shot everywhere.

This mighty power is simply appalling.

Everyone's faces changed, and they all stepped back and looked up. Fang Taozhong spat out a mouthful of blood again, and let out a roar: "Everyone has done everything, they must kill him!" It turned into a giant rock arm with a length of more than ten meters, grabbed it out of the sky again, and grabbed the mysterious master who jumped into the air.

Bai Qianxue, Chang Jing, Wu Tian, Bao Chong, etc. all shouted fiercely, all of them began to explode their ultimate potential, and they used all their means, vowing to kill the Profound Master.

Seeing that everyone joined forces and wanted to take advantage of Xuanzhu jumping into the air to give him a fatal blow, Wang Xuan, who had been hiding and didn't make a move, finally moved.

He swayed and suddenly jumped out.

With a "bang", his pounce unexpectedly hit Fang Taozhong, who was the most powerful among these people.

Fang Taozhong was stunned. He didn't understand what was going on, and his body flew out like a kite with a broken string. He opened his mouth and spat out a mouthful of blood.

The rock arm that had just re-condensed collapsed suddenly.

Wang Xuan's speed was too fast, the incident happened suddenly, and everyone had no time to react, but saw Wang Xuan punch Fang Tao Zhong flying, and then flashed into the white light that enveloped Mei Xiaosen, and his right hand lightly moved. With a slap, a slap, Mei Xiaosen took a blow to the head, and he was in a state of turmoil when he was at the key point of breakthrough.

"Wang Xuan—" Bai Qianxue screamed in a loud voice. Seeing that Mei Xiaosen was suddenly knocked down by him, his eyes were red, and he rushed up frantically.

Wang Xuan didn't want to fight, he suddenly retreated, and he came in the direction of Xuanzhu, who had just landed.

There was a smile on the face of Xuanzhu, and there were a lot of fist shadows around. Seizing the moment of these people's astonishment, Bao Chong and Chang Jing punched several times in a row, and then they were busy crushing the defense crystal. hit hard.

"These guys are beyond their own power. They want to kill the Profound Master in vain, and they also bring me to join them, but they can't think of me... hey..."

Wang Xuan fell to Xuanzhu's side with a smile on his face, unable to hide the smugness on his face and the mockery in his eyes.

When Xuanzhu heard Wang Xuan's words, Chengfu Shenru couldn't help laughing. He originally understood what was going on when he noticed Wang Xuan, but now that he heard Wang Xuan's words, he even looked at these people around him. The shock in his eyes and the extremely angry look in his eyes, this kind of pitiful feeling is very enjoyable, which is even more interesting than killing them directly.

Li Tianjiao, Wu Tian, Song Lichen's eyes seemed to burst into flames, and suddenly they shot together. This time, they did not attack Xuanzhu, but Wang Xuan.

Compared with Xuanzhu, they now hate Wang Xuan even more.

No one would have imagined that Wang Xuanhui would be a traitor hidden among them. Seizing the crucial moment, he suddenly rebelled and hit Fang Taozhong with a single blow. Injured, everything is over now, Mei Xiaosen failed to break through and will be attacked, a thought popped into their hearts, no matter what, they must kill Wang Xuan first, and they must drag him back.

Wang Xuan's face changed slightly. These are all super-extreme powerhouses. He doesn't have the strength of a mysterious master.

Xuanzhu Dandan basked in the sun, Nian moved over, moved to Wang Xuan, and suddenly there were countless fist shadows on both sides of the body, and each fist shadow could easily cause a sonic boom in the air.

Wu Tian's bronze war spear was hit by him with a punch, making a buzzing sound, the bronze war spear was ringing and bending, Wu Tian's face was blushing, and he only felt a terrifying force flowing back along the bronze war spear. The oppression made him feel extremely uncomfortable, and his internal organs were on fire.

Just as Xuanzhu moved in front of Wang Xuan and blocked the attacks of the three super-state extreme powerhouses for him, Wang Xuan suddenly punched silently.

This punch almost seemed to use no power at first. Halfway through the punch, metal tentacles appeared, wrapped around it, fused with flesh and blood, and turned into a giant arm of beast. The blue crystal scales inside exploded with power, and the surface of the giant arm was bright blue. rise.

With a loud "bang", the mysterious master standing in front of him suddenly felt a wind in the back of his head, and Wang Xuan's giant arm of monster instantly smashed into the back of the helmet he was wearing.

At this moment of life and death, the terrifying power of the mysterious master as the seventh form of power was displayed.

Almost at the moment when the helmet was smashed and shattered by the giant arm of the beast, he still shook his head in shock, but he narrowly avoided it. , failed.

With Wang Xuan's strength, he went all out, and even the sneak attack that was standing closely behind him could still be avoided. The terror of the seventh-form powerhouse was simply unimaginable.

Wang Xuan had already prepared with both hands, and the other giant arm of demon beast followed up almost at the same time, appearing at the same time as Xuanzhu tilted his head to dodge, and without a single sound, hit him firmly on the head.

This time, no matter how strong the mysterious master was, he couldn't avoid it, and he didn't even let out a scream, his head shattered.

Wu Tian, Li Tianjiao, Song Lichen and others were stunned by all these changes.

They weren't fools either, and they reacted immediately. Wang Xuan deliberately shot at them, just to deceive the Profound Master's trust and get close to him, so he made this perfect sneak attack.

Bai Qianxue rushed to the side of Mei Xiaosen, who had fallen to the ground, and wanted to check his condition, but she didn't want Mei Xiaosen to sit up from the ground, watching Wang Xuan blow Xuanzhu's head with a punch, with a relieved smile on her face.

The plan that he and Wang Xuan had agreed to in secret finally came true. Even Bai Qianxue concealed this plan, so they were so shocked when they witnessed Wang Xuan's betrayal. The reaction was perfect and there were no flaws. Really deceived the Profound Master.

Bian Jinli, who was tumbling on the other side, also stopped. Although the hatching beast seized the opportunity to fight back, as a super-extreme powerhouse, he quickly calmed down and tried his best to resist the backlash of the hatching beast.

"Fairy Wood"

His will is sharpened and strong, if it is not under special circumstances, it will not be easy for the hatching beast to attack him.

"Wang Xuan, it's really yours—" Fang Taozhong, who was hit by Wang Xuan's punch, was originally full of anger at Wang Xuan and didn't want the situation to change rapidly. Suddenly, Wang Xuan smashed Xuanzhu's head with a punch, and he immediately When he understood what was going on, his anger turned into surprise, and he couldn't help but screamed in excitement.

Just now, they joined forces to strike, at most, causing Xuanzhu to suffer a little injury. It is impossible for him to be seriously injured, let alone kill him, but Wang Xuan accurately seized this opportunity, suddenly shot, and sent him flying. It seems to have helped the mysterious master, but in fact, he used all kinds of methods to gain the trust of the mysterious master, and then successfully attacked.

As for why Wang Xuan could easily gain the trust of the Profound Master, they didn't know.

Except for Bai Qianxue and Mei Xiaosen, they didn't know about the fusion of Wang Xuan's soul and the hatching beast.

After Wang Xuan's blow, he watched Xuanzhu's head explode, and a large amount of blood spattered from it. The body without the head fell forward and fell heavily to the ground.

No matter how powerful the mysterious master is, he is the seventh-form powerhouse, and his head is shattered, and he will surely die.

Bai Qianxue looked at Mei Xiaosen in surprise and joy and said, "What the **** is going on here? Why are you all right?"

Mei Xiaosen was obviously beaten by Wang Xuan, and his mind was disturbed.

"This is a plan that I negotiated with Wang Xuan in advance. I was afraid that you would reveal flaws, so I didn't dare to tell you about it, and I really deceived the mysterious master..."

As soon as Mei Xiaosen said this, he found that Wang Xuan took a step forward, and the giant arm of the beast swung out again, slamming down the headless corpse of the Profound Master who fell to the ground.

Normally, when the person with the hatched beast is killed, white light will appear, but the mysterious master turned into a headless corpse and fell down, but no white light appeared in the corpse.

Wang Xuan felt a little uneasy, and immediately stepped forward, wanting to make another blow, this time the target was the heart.

The giant arm of the beast fell with a punch, and there was a soft sound, and the headless corpse that fell on the ground actually raised one arm and five fingers, blocking his giant arm of the beast.

No matter how powerful the giant arm of the beast is and how terrifying the power of the blue crystal scales is, but this hand is firmly grasped, and Wang Xuan only feels that the giant arm of the beast is clamped by iron tongs and does not move at all.

Xuanzhu has no head~www.mtlnovel.com~ can he still resist?

The people who were excited and excited all felt that something was wrong, and immediately stood up, but saw the flesh and blood in the neck of the Xuanzhu squirming, growing out, and a voice suddenly sounded from his body.

"Hey..."

"The key to human beings is their heads, it doesn't mean that beasts are also..."

Following this sound, Xuanzhu's body, who fell to the ground, swung out his other arm.

The speed was so fast that Wang Xuan felt dizzy and knew something was wrong, so he hurriedly raised his hand to cover his face.

With a "bang", he punched the other giant beast arm that he had raised. The terrifying force erupted, and it was like overwhelming the sea. Wang Xuan only felt a violent shock all over his body. It flew out like a cannonball, smashed 20 to 30 meters into the air, and hit the building where the rocks were piled up on one side.

With a loud "bang", he knocked the building out of a human-shaped hole, rolled over and fell into it.

Chapter 263

The power of this punch is simply appalling.

Ghost wings appeared behind Wang Xuan, the power of the ghost car exploded in his body, and suddenly a violent roar rang out, and a pair of giant beasts made a screeching sound. Although they fell into the building, they rushed out of the hole in an instant.

However, he saw that the Profound Master, who had fallen to the ground, had already stood up, and the flesh regenerated from his neck and neck, and re-condensed to form a head.

However, this head is no longer the appearance of the mysterious master, but looks like a twisted combination of pieces of muscle, with only a vertical eye as big as a fist and a mouth, which looks ugly and weird.

Everyone has understood that this is the true appearance of the hatching beast, and now, he no longer needs to disguise.

Mei Xiaosen stood up from the ground with a solemn face, stretched out his right hand, grabbed the cast iron banner behind him, and pulled it out.

Everyone around stood up, and the injured people all drank the healing water, and their injuries basically recovered. In addition to Wang Xuan, who had just rushed out, ten people surrounded Xuanzhu, all showing their hatching beasts, staring at In front of this mysterious master who showed his true appearance, everyone had a solemn and ugly look on their faces.

Although Wang Xuan let Xuanzhu be fooled and succeeded in the sneak attack, he failed to kill him.

"Why..." Xuanzhu turned around slightly, one eye was faintly glowing with cold light, and the huge eyeball was rolling, staring at Wang Xuan.

In his eyes, Wang Xuan was the same as him, why did he attack him?

Wang Xuan didn't say a word, but just stretched out a pair of ghost wings behind him, two metal tentacles swayed slightly, and the other two metal tentacles wrapped around his arms, turning into giant arms of beasts, the energy of the blue crystal scales in his body fluctuated slightly, and now he attacked. Ineffective, escape is impossible, the only way is to do everything possible to kill the monster in front of him.

With a flick of his left hand, Xiao Gai appeared, turned into a rainbow light, attached to his ghost armor, formed a mechanical shell outside, and entered a state of integration.

The mysterious master stared at Wang Xuan. In his eyes, Wang Xuan in front of him contained the breath of hatching beasts all over his body. He was the same kind as himself, and Mei Xiaosen and Bai Qianxue were parasitic on hatched beasts. Only his right hand contained the aura of hatched beasts. The situation with a strong hatching beast breath is completely different.

"why!"

The mysterious master suddenly raised his voice, shouted loudly, and his body suddenly dragged an afterimage in the air.

Wang Xuan was engrossed, how dare he be careless in the face of this terrifying seventh-form powerhouse, almost reacting instantly when Xuanzhu's body moved slightly, two metal tentacles volleyed out, crackling, and there were streaks on the surface. The blue dim light lit up.

The power of the blue crystal scales exploded to the limit that his body could bear. Although the two metal tentacles were drawn towards the Profound Master, they still failed and slammed to the ground.

The green vines on the ground broke immediately, and a hit stone exploded in an instant, and even two cracks were pulled out of the ground.

Wang Xuan activated the ghost suit skill, entered the "ghost sneak" state, and moved sideways.

The mysterious master was so fast that he could hardly catch it with the naked eye, but his eyes of fear could vaguely capture the vague negative emotions released by the mysterious master. With these emotions, he sensed the mysterious master attacking The trajectory, raised the giant arm of the beast.

With a loud "bang", Xuanzhu's fist was intercepted by his giant beast arm. Wang Xuan only felt a rush of power like a mountain and sea. He couldn't resist it. , where the ground collapsed like a tofu, forming a footprint hole.

The two ghost wings on the back slammed open, carrying two rays of profound light, and slashed over.

Fist shadows suddenly appeared one by one, and the two ghost wings that were slashed were immediately punched out by the fist shadows, but at the same time that the fist pit just appeared, the two ghost wings suddenly disintegrated and turned into sharp steel blades. A spin in the air, all inserted into the mysterious master.

With a "bang", countless fist shadows erupted, and all the steel feathers shot over were hit, twisted and deformed, and shot around at a faster speed.

Wang Xuan fell back, he couldn't see anything at the moment, he could only see countless fist shadows, one after another, like a surging wave, each fist shadow contained terrifying energy, These fist shadows are stacked together, and the pressure is as heavy as a mountain, making him unable to breathe, or even to dodge, his ghost stealth ability is invalid at this moment.

With his super-statistic strength, Wang Xuan was able to face off against the seventh-form Profound Lord for a round or two. Even if he fell into a disadvantage in an instant and the situation was critical, in the eyes of everyone, he still felt a shock. There is a higher estimate.

Mei Xiaosen let out a loud shout, and the iron cast dragon flag in his right hand flew out into the air, and nailed it into the ground with a slam.

The dragon flag was hunting, and Wang Xuan suddenly felt that the speed of the countless fist shadows he saw in front of him was slowing down.

He understands that this is the power of the dragon flag. The dragon flag launched by Mei Xiaosen can lock on the enemy and suppress it in all directions, even the mysterious master is no exception.

With a loud noise, a bronze war spear appeared in the air, stabbing the Profound Lord's back, and Wu Tian shot.

Bao Chong rose into the air again and launched the "Five Slashes of Destruction", the battle axe slashed down and sent out five rainbow lights.

"Innocent..."

Xuanzhu's mouth opened and closed slightly, two words came out, and his body suddenly swayed. Wang Xuan saw that the shadow of the fist in front of him suddenly disappeared. Xuanzhu had already saved a few meters, and with a bang, the iron cast dragon flag that had just been inserted into the ground. Volley flew out.

The dragon flag that could suppress him was blown away by him, and above his head, a giant bird appeared, with its claws sticking out, it grabbed it viciously towards the top of his head.

The two claws were just about to approach, and suddenly countless fist shadows appeared again, boom boom boom—

The protruding claws immediately exploded into powder, and together with the giant bird, I don't know how many punches it took on its body. Countless punch holes appeared and exploded in mid-air.

This giant bird is Bian Jinli's hatching beast. It was suddenly bombed, and he was also affected. He groaned and fell back. Fortunately, he has grown to the super-state limit. Although it is affected, it is not a big problem. He can recover quickly. come over.

Countless runes appeared. Bai Qianxue did not attack again, but folded her hands together and formed seals. She was covered with snow-white runes on her upper body. With Xuanzhu as the center, a large number of white runes were suspended in all directions, forming a grand method. array.

In the magic circle, the mysterious master suddenly felt that his movement speed was slowing down.

Originally, in the eyes of everyone, he was so fast that it was almost impossible to capture. This was also the most terrifying part of him. Now that he saw the appearance of this rune formation, his speed

slowed down. Song Lichen seized the opportunity to score a point with both hands, and a handle appeared in his hand. The lightsaber silently stabbed towards the back of the Profound Master.

Li Tianjiao appeared in front of her, and under her control, a water beast formed by the condensation of water made a huge roar, its body grew to two or three meters, like a giant bear, raised his arms, and slammed towards Xuanzhu .

On the other side, Wang Xuan swung out two metal tentacles, which volleyed towards the mysterious master.

The mysterious master was suppressed by the rune formation, and could no longer withdraw and dodge like before. He could only shake his arms, burst into countless fists, and banged the water beast summoned by Li Tianjiao first, and then moved his body to the left, his right hand. Reaching out, he grabbed the lightsaber that Song Lichen stabbed, turned his body halfway, and dropped his other hand.

With a sound of "wave", Song Lichen's shoulders collapsed, his flesh and blood burst out, and the double defense on his body was not much different from Zhihu's strength in terms of Xuanzhu's strength.

Song Lichen groaned, Xuanzhu wanted to make another blow, the bronze war spear appeared and reached his back, forcing him to let go, kicking his feet, and rushing towards Bai Qianxue, who was sitting cross-legged on the other side. .

He saw that among the crowd, the one who threatened him the most was Bai Qianxue.

Bai Qianxue's rune formation was too terrifying, it could suppress his speed and force him down to a level similar to everyone else's.

Mei Xiaosen's body flashed, and he was in front of Bai Qianxue. Next to him, another banner appeared.

Xuanzhu just saved two steps, he felt his body sink, and the suppression of the dragon flag appeared again.

The two metal tentacles drawn by Wang Xuan fell into the air, forcing the mysterious master to stop and stretch out his hands to grab the two metal tentacles.

Pulling hard, the mysterious master grabbed the metal tentacles and pulled Wang Xuan up into the air, wanting to use it as a weapon to smash at Mei Xiaosen and Bai Qianxue.

With a whistle, a pair of ghost wings reappeared behind Wang Xuan, flapping wildly, creating a hurricane.

Wu Tian's bronze war spear appeared silently, Xuanzhu turned to avoid it, this dodge, his strength to pull the metal tentacles was slightly weaker, Wang Xuan flew a half arc in the air with the help of ghost wings, and turned behind him , the giant arm of Warcraft appeared and slammed down.

Suddenly, the fist shadow appeared again.

A large number of fist shadows are like a tsunami, surging.

Bai Qianxue, who was sitting cross-legged, suddenly let out a scolding sound, opened her mouth, and spat out a mouthful of blood, and the rune pattern on all sides suddenly added another layer.

Xuanzhu's body suddenly sank, and his body suddenly felt like a big mountain on his back.

The originally dense boxing shadows immediately slowed down, and Wang Xuan saw a flaw in his eyes.

Seizing the opportunity, a pair of giant arms of beast smashed along the gap between the fists and shadows, smashing the chin of Zhong Xuanzhu firmly.

With a thud, Xuanzhu's head, which was formed by a large number of twisted muscles, exploded again, and his body flew backwards.

A giant rock arm formed by the condensation of countless stones descended from the sky, and smashed into the body of Xuanzhu, who flew out.

Fang Taozhong held the scepter in both hands and launched it with all his strength, the punch was as heavy as a mountain.

Xuanzhu's body that had been flying upside down became smashed to the ground, and the ground immediately collapsed into it.

At the place of the collapse, a big flag volleyed down and was planted there. Mei Xiaosen controlled the flag and suppressed Xuanzhu all the time.

The main task of him and Bai Qianxue was to fully suppress the power and speed of the Profound Master.

The power of the giant rock fist was too powerful, and it blasted the ground into a hole that collapsed into it.

Fang Taozhong didn't dare to be careless, he was still controlling the giant rock fist, sending his power down incessantly, trying to kill the mysterious master in this blow.

No matter how strong this monster is, it can survive without its head. He doesn't believe that if its body is broken, it can still survive.

Suddenly, a spider-web-like crack appeared on the giant rock fist. White light burst out from the crack. With a bang, the giant rock fist that was more than ten meters long collapsed. retreat.

However, seeing the headless body of Xuanzhu smashed the giant rock fist, rose into the sky, and let out an angry scream from his body.

The mysterious master was finally really provoked.

He has always despised this group of people from the bottom of his heart.

Although they are all powerhouses of the super-state limit, claiming that their strength is infinitely close to the seventh form, only Xuanzhu understands that the sixth-form super-state and the seventh-form are separated by a moat, even if it is ten super-states. To join forces with the state limit, in his eyes, they are nothing more than a group of turkeys. Once he is serious, these people are simply vulnerable.

But at this moment, he was injured, and the head that had just condensed was smashed by Wang Xuan again, which made him completely angry.

This head was transformed by his body, and now it has been shattered. Although it is not dead, it also has a certain impact on his combat power.

Under the anger, the power in the body finally broke out completely. With a bang, the limbs exerted force, and there seemed to be a muffled sound of thunder in the ground. The terrifying power ran through the whole body, and even the thick armor on the surface of the body was shattered. His muscles twisted and expanded, like a cannonball, soaring into the sky, piercing Fang Taozhong's condensed rock giant hand with all his strength, and rising to an altitude of 20 to 30 meters.

Everyone looked up, and when they saw the mysterious master at the moment, it seemed that he had completely transformed into a ferocious monster. His muscles were twisted and stretched upward, and soon it was twisted again on the neck to form a one-eyed head. An extremely angry roar.

"Today, you're all going to die—"

He let out an angry roar of filial piety, and he was greeted by two huge frost fists. Chang Jing entered into a state of integration with the mechanical beast, and with a volley of his arms, a lot of frost appeared on the surface of his body, which turned into two giant fists, one on the left and the other on the left. Right towards the Profound Lord in mid-air slammed.

Song Lichen waved his right hand, and the lightsaber in his hand flew over. Wu Tian threw the bronze war spear in his hand, and Bian Jinli released a two-winged giant bird.

The two ghost wings behind Wang Xuan spread out and turned into dozens of steel feathers, roaring and shooting towards Xuanzhu.

Everyone did not speak, but responded to the anger of the mysterious master with the most powerful attack.

The mysterious master looked in his eyes, and became more and more angry. The surface of the raised one eye was faintly bloodshot, which was a manifestation of the extreme anger of the beast.

He devoured the original owner of this body, possessed the wisdom and memory of human beings, and at the same time inherited human emotions and various negative emotions.

Like he becomes easily irritated.

In the face of the joint attack from everyone, he laughed wildly, his body contracted, and the muscles in his body hardened and turned black, suddenly turning into a huge black ball, falling down into the sky.

Thinker

With a "bang", the giant frost fists from the left and the right slammed into it, and the dozens of steel feathers controlled by Wang Xuan also hit all of them.

A look of surprise appeared on Wang Xuan's face.

The mysterious master changed shape and contracted into this black giant ball. The muscles became as hard as steel. Dozens of steel feathers hit, making a sound of gold and iron, which could not penetrate.

Wang Xuan was slightly startled, but Chang Jing's Frost Fist played a huge role, hitting the black giant ball, and the two Frost Fists immediately disintegrated and covered the surface, freezing the black giant ball.

With a "bang", the frozen black giant ball fell to the ground, smashing the ground into a semi-circular pothole. The two-winged giant bird controlled by Bian Jinli rushed down with a scream, and he followed closely into the sky. When he got up, the giant bird slammed into him and merged with him.

This is his true power. He merged with his hatchling beast giant bird, and transformed into a half-human half-bird state. With a loud shout in his mouth, he stretched out his hands, and mutated into two bird claws, with a faint claws on the surface. Dandan white light grabbed the black giant ball that fell and froze.

On the other side, Song Lichen held a lightsaber, approached silently, and stabbed the lightsaber out of his hand.

Bai Qianxue was still sitting cross-legged, fully activating the rune formation to suppress the power and speed of the Profound Lord. Mei Xiaosen controlled the iron cast banner, put it aside, cooperated with Bai Qianxue, and suppressed the Profound Lord with all his strength. Only under their suppression, To weaken the Profound Lord's combat power, they can only hope to defeat and kill the Profound Lord by joining forces.

Fang Tao Zhong, who had just vomited blood and retreated, wiped the blood from the corners of his mouth, and waved the scepter in his hand again. There were more buildings made of stone bricks disintegrating in all directions, and a giant rock hand with a length of more than ten meters was taking shape. .

Li Tianjiao controlled her water beast, sticking to the ground, forming strips of tentacles, ready to bind the Xuanzhu from the ground.

Bian Jinli's claws fell from above, grabbing the frozen black giant ball, and he could only hear the sound of chasing.

The black giant ball shattered together with the frost frozen on the surface. There was a sudden bang, and a huge fist slammed out of it. The half-human half-bird Bian Jinli secretly screamed, and was busy launching the defense crystal.

When the light curtain appeared, this fist hit the light curtain firmly, the light curtain vibrated violently, and Bian Jinli and the light curtain were smashed up to a height of more than ten meters.

The black giant ball split from it, the muscles inside twisted and swelled, and the mysterious master appeared again. Now he became more and more like a humanoid monster. He punched the edge of Jinli with a punch, and suddenly his feet tightened, and the ground climbed countless water condensed formations. The tentacles, winding up and climbing along his feet.

Li Tianjiao took action and controlled her water beast with all her might, trying to entangle the Profound Master.

Song Lichen on the other side appeared silently~www.mtlnovel.com~ Seizing this opportunity, the lightsaber stabbed in along the Profound Master's belly.

However, the lightsaber entered less than an inch, Song Lichen felt a shock in his right hand, and the lightsaber was caught by the mysterious master.

With a "bang", Song Lichen knew that something was wrong, and was busy crushing the defensive crystal in his hand. In the protection of the mask, the mask was lifted by the mysterious master and smashed to Bian Jinli above.

Bian Jinli had just been blasted to the top together with the mask, and was falling down. The mask that originally protected him had just shattered and disappeared. In any case, he could not have imagined that Xuanzhu's attack was so violent and fast, and now he wanted to crush another one. The defense crystals are too late.

Song Lichen, who was protected by the mask, hit Bian Jinli, who had fallen, and Bian Jinli let out a scream. There was a sound of broken bones in his body, and his body was knocked out sideways.

Xuanzhu kicked his feet, and the tentacles of the aquatic beasts wrapped around his legs were broken one by one, and the two metal tentacles that Wang Xuan had drawn appeared. The python immediately wrapped around his arms, and then wrapped around his whole body, immediately tying him into a brown child.

Chapter 264

Wang Xuan kicked his feet and rushed over. The giant arms of the beasts lit up with blue dim lights, and the Eye of Fear in his forehead was fluctuating slightly, but Xuanzhu had almost no fear in his heart, and wanted to rely on the Eye of Fear to control or it is almost impossible to influence him.

He had just tied the Profound Master, only to hear a loud bang, and the metal tentacles wrapped around his body were all shattered and exploded into a large number of iron pieces. Wang Xuan let out a groan, but saw the Profound Master standing up and pounced. Song Lichen, who is falling above.

At this moment, Song Lichen's protective mask had just smashed the flying edge of Jinli. The mask that lasted for a second also shattered and disappeared. He never expected that the mysterious master was bound into a brown by Wang Xuan's metal tentacles, and it could be broken in an instant. Kai burst out, knowing that something was wrong, and let out a loud roar, busy crushing the defense crystal in his hand again.

It's just that the speed of Xuanzhu this time is too fast. The defense crystal has just broken, and the mask has not yet appeared. Xuanzhu waved in the air, his right arm disappeared, leaving only an afterimage in the air, and a huge fist suddenly hit Song Lichen. on the head.

Song Lichen's head exploded like a watermelon hit by a hammer.

He did not have the terrifying ability of the mysterious master, and he was not swallowed by the hatching beast. The vital part of his head was smashed, and he died immediately. A white light emerged from the body, and there was a strong breath of life inside, full of unwillingness, and still struggling.

It is a pity that the power of the world came in an instant, obliterating the soul consciousness inside, turning it into pure energy, and being absorbed by the mysterious master.

Seeing that Song Lichen's head was smashed by Xuanzhu's blow, everyone's heart was shocked, Wang Xuan followed closely, and the ghost wings behind him spread out and swept across.

With a bang, Xuanzhu smashed Song Lichen's head with a punch, then stretched out his other hand and grabbed the ghost wings that Wang Xuan swept over.

He was about to tear off the ghost wings when Wang Xuan's giant arm of the beast silently smashed into his belly.

The mysterious master immediately flew out sideways. Even if he had the muscle-enhanced defensive power, Wang Xuan burst out with all his strength, and the entire surface of the beast's giant arm was completely covered by blue light.

With a loud "bang", Wang Xuan and Xuanzhu rushed out twenty or thirty meters, and a deep ditch was shoveled out of the ground by their strength.

Xuanzhu was hit by a building, and with the loud noise, the building immediately collapsed and collapsed, drowning and burying Xuanzhu.

With a flash of blue light, Wu Tian saw the Xuanzhu who had fallen in and threw the bronze spear out.

The bronze war spear turned into a cyan long rainbow, shot it in, and a blood arrow spurted out from it.

Bao Chong had just charged up with his battle axe when he suddenly found that the collapsed building exploded with a bang. Lord Xuan looked like a ghost, his chest was pierced by a bronze war spear. Wherever the ground is shattering, the power is so strong that it is unstoppable.

The bronze war spear vibrated on his body, Wu Tian controlled it from the air, and wanted to explode the power from the bronze war spear, but he felt that there was a more terrifying force suppressing the bronze war spear, unable to make the force explode. Come.

Master Xuan grabbed the vibrating bronze war spear, pulled his right hand, and pulled out the war spear that pierced through his body. Seeing Bao Chong approaching him, he threw the bronze war spear towards him.

Wang Xuan noticed that the injuries on Xuanzhu's body were healing at an alarming rate. Although these were not fatal enough to kill him, as he continued to be injured, even if he continued to heal, his combat power would be damaged. Whether it is strength, speed, and reflexes, they are all declining.

Bao Chong saw the bronze war spear shot over, and was busy dodging, when suddenly Xuanzhu's body rushed up at a speed no slower than the bronze war spear.

Bao Chong was shocked, and without hesitation, he crushed the defense crystal.

When the light curtain appeared, he realized that the Profound Master did not rush up, but turned around and attacked Bai Qianxue, who was sitting cross-legged on the other side.

Mei Xiaosen, who was standing in front of Bai Qianxue, was well prepared.

As soon as he retreated, he came to Bai Qianxue, who was sitting cross-legged, crushed a defensive crystal in his hand, and a light curtain appeared, tightly protecting him and Bai Qianxue in front of him.

Among all of them, Bai Qianxue was the most important. The large rune formation she launched had been suppressing the power and speed of the Profound Lord, and as time passed, this influence and effect would become more and more obvious.

Not only Mei Xiaosen, but Li Tianjiao on the other side has also been paying attention to Bai Qianxue's safety, so the water beasts she controls are also extending over at the same time. Blocking for a moment, so that everyone can catch up, so that he cannot attack Bai Qianxue.

Seeing that Xuanzhu was about to hit the oncoming light curtain, he didn't want his body to change direction again. His attack on Bai Qianxue and Mei Xiaosen turned out to be a false move. This time, he followed Wang Xuan, Bao Chong, Wu Tian and the others who rushed up. I didn't expect it, but I saw the mysterious master suddenly turn around, and the giant rock hand controlled by Fang Taozhong shot down and punched a huge hole in the ground.

And Xuanzhu had already hit Bian Jinli, who had just fallen sideways.

Bian Jinli was hit by Song Lichen, who was used by the previous Xuanzhu, and his body was broken and fell horizontally.

After landing, he hurriedly took out the healing water and drank it. His whole body was shrouded in the white light of the healing crystal, and he stood up while recovering.

He never expected that Xuanzhu had spent all his efforts, and the two attacks in a row were all false moves, and the real target of the attack would be him.

Obviously, the mysterious master also realized that the group of people in front of him was not easy, so he began to change his strategy, picking the weak first to defeat them.

At this moment, Bian Jinli has not fully recovered. When he sees the mysterious master rushing in front of him, he knows that it is not good, and it is too late to dodge or resist. The only thing he can do is to

crush a defensive crystal he just took out.

Xuanzhu had already counted all this in it. Almost when Bian Jinli was about to crush the defense crystal, his body suddenly disappeared, leaving two afterimages in the air, bypassing the crystal light curtain that Bian Jinli opened. Countless fist shadows appeared, and Bian Jinli, who couldn't react in the future, was drowned.

Bian Jinli almost didn't even have time to let out a scream, only Wu Tian let out a roar, holding the bronze war spear, jumped up in the air, and with a bang, a blue light lit up on the bronze war spear, like a rainbow light. , runs through.

This blow was Wu Tian's full force, and he wanted to save Bian Jinli's life.

It was a pity that it was too late. The cyan rainbow light only hit a burst of flesh and blood. The Profound Master had already moved his body and drove straight in. With even more terrifying power, he took the initiative to meet Wang Xuan, Bao Chong, and Chang Jing who were rushing towards him.

In a short period of time, the sudden death of two powerful super-extreme powerhouses, Song Lichen and Bian Jinli, shocked everyone's hearts, and Wang Xuan's eyes of fear felt the fear rising from the bottom of everyone's heart.

The performance of the mysterious master made everyone feel fear in their hearts.

Fear together, courage is weaker, and strength will inevitably decline.

"Boom", Wu Tian, who jumped up in the sky, let out a scream, opened his mouth and spurted blood, and was hit by the mysterious master. The mechanical shell and equipment on the surface of the body shattered, the bones cracked and brittle sounded in the body, and the body rolled and flew. Out, hit a towering tree in the distance.

This big tree grows in this abandoned ancient town. It is 30 to 40 meters high. It needs several people to hug. At this moment, it is hit by Wu Tian, and there is a crackling sound immediately. The ten-meter tree pole, together with the huge canopy above it, swayed and fell down.

Bao Chong let out an angry roar, swung his battle axe with his right hand, and five rainbow lights slashed out in the air. Although they were afraid, everyone understood that there was no way to retreat now, and the Profound Master could not be killed, but they were the ones who died.

The shadows of the fists reappeared in the sky again. The rainbow light of the five battle axes that Bao Chong slashed over was submerged by the shadows of the fists, shattering inch by inch, and the two metal tentacles swung out by Wang Xuan volleyed down.

Two big hands appeared in the shadow of the boxing sky. They grabbed the two metal tentacles that had been pulled out, and an irresistible force pulled the metal tentacles, trying to pull Wang Xuan over.

Wang Xuan kicked his feet, and with the help of this strength, he rose into the air and threw himself into the shadow of the fist.

Li Tianjiao controlled the water beasts with all her strength, and the ground was covered with tentacles formed by condensation of water. These tentacles surrounded the Profound Lord, entwined, densely packed, covering the Profound Lord's legs, and then wrapped around his body.

The eight people who are still alive understand that if they don't work hard, they will all die.

Even Bai Qianxue, who was sitting cross-legged, stood up, suddenly opened her mouth, and spewed out three mouthfuls of blood. These three mouthfuls of blood were sprayed into the snow-white runes she formed. The rune formation was stronger by one point. After three mouthfuls of blood, her face became paler, and the rune formation shone brightly, and there was a buzzing sound inside.

Mei Xiaosen finally left Bai Qianxue and rushed towards Xuanzhu.

He is an extreme powerhouse who has the ability to successfully break through the super state. If he hadn't been afraid of the mysterious master, he would have broken through long ago. Although he didn't really break through just now, he also mobilized the power of the world into his body and tempered his body, although he didn't step out. The last step, but at least it is infinitely close to the seventh form. Compared with Bao Chong, Chang Jing and others, his strength is slightly stronger.

Therefore, he had been protecting the most important Bai Qianxue before, helping her to suppress the strength of the Xuanzhu together. Seeing that Song Lichen and Bian Jinli died tragically, everyone was affected, the situation was reversed, and the situation became worse, he could only fight with all his strength. He didn't want to protect Bai Qianxue anymore, but chose to directly participate in the battle.

His hatching beast, Blindsun, appeared in his thoughts, and it expanded, and it immediately became like a cloud covering the sun. It instantly covered the top of Xuanzhu's head, and even Wang Xuan felt that the sky suddenly darkened.

In addition to the iron-cast dragon flag, a treasure that can suppress the enemy's strength, Mei Xiaosen's hatching beast is also extremely powerful and strange, and it changes infinitely with his thoughts.

Appears in the sun, from top to bottom.

Wang Xuan slammed his fists out, a low whistle suddenly came out of his mouth, and a pair of giant arms of beast slammed into the shadow of the fist that filled the sky.

Following Bai Qianxue's full-strength rune formation, Xuanzhu's speed and strength dwindled, and the fist shadow, which seemed to be terrifying and surging, immediately slowed down, and Wang Xuan saw a flaw in his eyes.

The giant arm of the beast with blue crystal scales blasted in from the gap in the fist shadow.

Two arms grew on both sides of Master Xuan's body, and he wanted to resist, but suddenly a black substance covered him and pressed his two arms.

Mei Xiaosen's blocking sun appeared.

Wang Xuan seized the opportunity, and the giant arm of the beast blasted out, this time the target was the heart of Xuanzhu.

For human beings, the head and the heart are the most deadly vitals. Although I don't know if the heart of a person occupied by beasts like Xuanzhu is the vital point, Wang Xuan has no choice. Since the head is smashed twice in a row, Can't kill him, now attacks the heart instead.

This punch pierced Xuanzhu's heart, and with a lot of blood, came out from his back.

At this moment, Xuanzhu's body was covered with tentacles of Li Tianjiao water beasts, covered with Mei Xiaosen's hatching beasts, and together with the iron cast banner and the heavy rune formation suppressed by Bai Qianxue, he seemed to be carrying mountains on his back. As powerful as the seventh-form powerhouse, he finally couldn't bear it, and let out an earth-shattering scream.

The screaming sound spread far and wide, but he didn't want to use the screaming sound to summon his companions, because this place was dozens of kilometers away from Xuancheng, even if his companions could accept his help, it would take a little time to get here.

Therefore, after Li Xiao, he had a faint idea of retreating temporarily.

He had to admit that these super-extreme powerhouses in front of him were united and qualified to threaten him.

These thoughts flashed by, and with a kick of his feet, the sun-blinding and aquatic beast tentacles on his body were all torn to shreds, but his reaction was a lot slower after all. A slap in the head smashed his head.

His heart was pierced, his head was smashed, and the profound master, who was in the middle of life and death, still reacted terribly, and immediately counterattacked, but he did not flee immediately.

Master Xuan was unwilling. As a seventh-form powerhouse, it was a shame to escape in the face of several super-states, so as soon as the idea of escaping appeared, he was ruled out. He stretched out his hands and immediately grabbed Wang Xuan's arms.

Wang Xuan felt his giant arms of monsters tighten, and an irresistible force pulled him up into the air.

With a "boom", he flew across and collided with Mei Xiaosen, who was just approaching.

Mei Xiaosen flew out in an instant like a big rock on a stone machine.

Xuanzhu went mad and took the captured Wang Xuan as a weapon, first smashed Mei Xiaosen, and then swung towards Bao Chong, who was rushing up.

Bao Chong was hit by Wang Xuan before he could perform the "Five Slashes".

There was a brittle sound of broken bones in his body, and Bao Chong roared and flew out, blood spurting from his mouth.

Wang Xuan only felt that the bones in his body were breaking one by one, and every impact was no less than a heavy blow. Between life and death, he resonated with the little girl in his body, and white lights appeared on his left arm. For lots of glowing parts.

Xuanzhu, who was holding his arms, felt bad, and immediately let go, wanting to let him go.

Two metal tentacles appeared, entangling the Profound Lord. Following the tossing of the Profound Lord, the metal tentacles were pulled straight. Wang Xuan was only thrown three meters away by him, pulled by the metal tentacles, and flew back again.

Countless luminous parts combined, and the crunchy sound was endless, and instantly turned into a giant two-meter-long mechanical arm.

The mechanical arm finally appeared again.

Under the circumstance that the Book of Giants cannot be used, the arm of the mechanical **** is Wang Xuan's real trump card. He will never use it casually unless it is absolutely necessary, just because the more people who know it, the more convenient it is. method, such as the defense crystal, after all, this blow may lose most of his physical strength, if he fails to hit, it will not be worth the loss.

The mechanical god's arm strikes with full force. The horror of this power has truly surpassed the super-state limit. Moreover, unlike the suppressed Profound Lord, this is the true seventh-form power that has not been suppressed.

It was too late for Xuan Master to dodge. He was too arrogant and did not prepare the defense crystal in his hand. It was too late to take out the defense crystal at this moment.

"Boom", the mechanical god's arm volleyed, and down the neck of Xuanzhu, the blood mixed with a large amount of minced meat and internal organs burst open.

Even with the tyranny and terror of the Profound Lord, the mechanical god's arm volleyed, completely shattering his upper body, bursting into blood and meat sauce, leaving only a pair of thighs, standing motionless.

Because the ground couldn't bear his burst of power, he stomped his feet into the ground, and even if he lost his upper body, the rest of his legs still stood there without falling.

After the mechanical god's arm struck, Wang Xuan was almost exhausted, and immediately took out the water of physical strength and the water of healing and drank it.

In order to prevent the mysterious master from dying, after drinking the water of physical strength and the healing water, the ghost wings behind him appeared, and they swung left and right with a whimper, cutting these thighs back and forth, and breaking the real corpse of the mysterious master into ten thousand pieces.

He didn't believe that after completely destroying the mysterious master's body, this monster could still be resurrected.

If this is the case, then this beast is fundamentally against the sky, and no matter how powerful they are, there is no way to deal with it.

Everyone else stopped, watching Xuanzhu's upper body blown out by the giant mechanical arm condensed by Wang Xuan, and the two steel wings swung back and forth, constantly cutting the remaining two thighs, and in the blink of an eye, dignified The Profound Lord of seven forms turned into a mass of rotten meat and a pile of thin slices of meat.

Wang Xuan's body was glowing, and the healing water exerted a powerful healing effect, healing the broken bones in his body.

Wang Xuan barely supported his body, staring at the mysterious master who had turned into a pile of rotten flesh, waiting for the white light to appear.

Only when the white light appears, the mysterious master is truly dead.

The others also gathered around, and everyone was tensed up, staring at the ground.

Finally, a white light appeared from the pile of rotten meat, but it did not sink into Wang Xuan's body, but continued to struggle, absorbing this pile of rotten meat frantically, trying to re-condense the pile of rotten meat into shape.

Mysterious Lord is like a hundred-footed worm, he dies without being stiff, and wants to regenerate again by relying on flesh and blood.

Everyone's scalp is numb when they see it~www.mtlnovel.com~ Everyone has killed more or less people with hatching beasts or humanoid monsters like Agatha with wings, but no matter how strong a person is once Death, as long as the white light appears, it is immediately wiped out of the soul consciousness by the power of the world. This is the first time I see a white light that can still struggle to survive.

Seeing the white light fluctuate violently, it seemed to give birth to a terrifying suction force, and the flesh and blood on the ground began to squirm, with the white light as the center, forming a vortex of flesh and blood.

Mysterious Lord can really reverse life and death and regenerate flesh and blood?

In shock, Wang Xuan jumped out again without hesitation. With a bang, the giant arm of the beast smashed into the vortex of flesh and blood, tore the vortex apart, and hit the white light inside.

Immediately, the white light exploded, and a dazzling light exploded, like a sun, drowning Wang Xuan.

Chapter 265

Others gathered around, and they were about to make a move, but they were shocked when they suddenly saw the white light of the mysterious master burst into a huge white light and swallowed Wang Xuan.

Wang Xuan's Eye of Fear felt a strong emotion of fear in this huge white light, and there was a faint despair in it. This was the fear and despair from the mysterious master.

Even if it is the seventh form of the powerhouse, the body is completely destroyed, and he wants to be reborn with flesh and blood, but the vortex of flesh and blood is defeated by Wang Xuan's blow, and even the white light is blown up, and the mysterious master is finally desperate.

When the power of the world came, the fluctuation of the soul consciousness in the white light was instantly erased by the power of the world.

The power of the world wiped away the struggling soul and consciousness of the mysterious master, and this mass of white light turned into pure energy and merged into Wang Xuan's body.

Wang Xuan sensed that the white light in his right hand was greedily devouring this pure energy. The energy that his monsters could draw had already reached the limit, and he could no longer draw any more energy. up, extending into the right arm.

Xuanzhu is a seventh-form powerhouse, and his body is occupied by hatching beasts. The energy obtained by killing him is so huge. There seemed to be something in the arm that was about to grow, but there was still something missing. Now, with the surging energy of the Profound Lord, there was a crisp sound from the outside of his right arm.

Suddenly, a black steel feather appeared in the skin on the outside of his right arm, followed by the second and third...

In a short period of time, black steel feathers appeared one by one, Wang Xuan was stunned, and a third ghost wing grew out of the outside of his right arm.

Compared to the two two-meter-long ghost wings behind him, this ghost wing is much smaller, only half the size. As the third ghost wing grows, the two ghost wings on his back do not need him to summon, Automatically extended, shaking slightly, the power of the three ghost wings converged in his body.

Suddenly, the three ghost wings resonated and vibrated together, generating an unimaginable terrifying thrust, which made him rush out at an extremely terrifying speed, and instantly rushed to dozens of meters away, so fast that he stayed in the air. Afterimage.

Mei Xiaosen, Bai Qianxue, Wu Tian, Li Tianjiao, Fang Taozhong, and Chang Jing all opened their eyes wide, showing a hint of shock.

At this moment, the speed of Wang Xuan's rushing out has been faintly catching up with the speed of the mysterious master who was previously suppressed by Bai Qianxue's rune formation.

This speed makes them feel dazzled.

Feeling this sudden surge of power, Wang Xuan felt a little bit in his heart. With a thought, the giant arm of the beast with the third ghost wing blasted out along the thrust. The target was the one in front of him that was broken and fell down. Giant trees.

The giant arm of the demon beast carried the third ghost wing, and slammed into the thick tree pole that was taller than a person in front of it. Under the action of the force, it flew into the sky, and the big tree pole with the tree crown on the left pressed against a three-story stone building made of stone bricks. With the loud sound of Lucha, the pressed three-story stone building immediately collapsed and collapsed. , set off a lot of dust and smoke, the momentum is amazing.

A tree pole on the right flew for dozens of meters, and then smashed into a large piece of plants, hitting the ground, making a loud rumbling sound.

Although the power is strong, everyone is not surprised. A super-powerful person like them can cause such destructive power with one punch. What they are amazed at is that the speed at which Wang Xuan rushed out in just a moment can make them dazzled. That's where the real surprise comes in.

This meant that Wang Xuanchao suddenly launched an attack, and they were hard to resist.

Looking at the destruction in front of him, Wang Xuan let out a sigh of relief. As the third ghost wing grew out, the power of the ghost car in his body faintly produced a reborn transformation. Once they appear at the same time, the power of the ghost car will form a fusion in his body, and each piece of steel feathers will vibrate slightly with the naked eye, shaking each other, producing an unimaginably terrible power.

This power can make him have a faster speed, more terrifying destructive power, and can also use ghost wings to cover his body for defense, with a powerful defensive effect.

He merged with the soul consciousness remaining in the ghost car. Like Warcraft, the ghost car is also a part of his soul. With this transformation, some indescribable special messages naturally poured out from the depths of his soul consciousness. The way he gets some abilities on the ghost car.

Wang Xuan understands that this is because the ghost car is getting stronger and stronger, and he is slowly comprehending and mastering some of the special abilities that the ghost car once possessed. Just like the growth of the form of Warcraft, he has just acquired the third ghost wing, which is equivalent to the growth of the ghost car. evolved into a new form.

This newly acquired special ability is a defensive ability called "Ghost Car Armor".

Once this ability is activated, the three ghost wings are combined together to protect him, basically forming an all-round defense with no dead ends, like a full body armor.

In the "Ghost Car Armor", each steel feather will vibrate slightly, and all the steel feathers will resonate, generating a strong resonance force to offset the powerful attack from the outside. Life-saving defensive skills.

After realizing and mastering the "ghost car armor", the wings behind Wang Xuan and the three ghost wings sticking out from the outside of his right arm slowly converged and disappeared into his body.

When he turned around, he saw Mei Xiaosen, Bai Qianxue, Li Tianjiao and Wu Tian were all looking at him.

"Everyone, this is..." Wang Xuan frowned.

"Wang Xuan, you are indeed right to invite you, without you, we would be in trouble today." Mei Xiaosen suddenly raised his thumbs towards him, just after the battle, if it wasn't for Wang Xuan's mechanical arm strike, he would be in trouble. They can't really kill the mysterious master at all.

As long as the Profound Master is slowed down, only they will die.

Wang Xuan shook his head and said, "It's not the credit of any one person. We all joined forces to kill him. There was such a big commotion here. Just in case, do you want to leave here immediately?"

He thought of the loud whistling that Xuanzhu had made before, and the whistling sound spread far and wide. Although he didn't know if other people would hear it, for safety's sake, it was better to leave here first.

"Yes, let's get out of here." Mei Xiaosen immediately understood and nodded in agreement.

"Let's go." After Bai Qianxue finished speaking, she headed into the distance first.

Several other people took the bodies of Song Lichen and Bian Jinli and left here quickly.

After they left for about a few minutes, five figures suddenly appeared in a row here, all covered in black robes. They quickly turned over and climbed the fence. They immediately saw the collapse of a large number of buildings and the appearance of a mess, and understood that this happened before. After a fierce battle, looking at the large number of potholes remaining on the ground, the damage caused by this battle is not small, and the strength of the shooter is definitely not weak.

The five black-robed men jumped down and approached slowly.

"Elder, the ground is covered in blood, and there are still stumps left. There was a very brutal fight here not long ago."

One of the black-robed men spoke, his voice slightly low.

The headed man in black robe stood still, and strips of octopus tentacles appeared in the black robe, extending down, along the ground, these tentacles were constantly swaying, as if they were sniffing something.

"I sensed the call of the Profound Master before, in this direction... Look at the tragic killing here, the location is definitely right, but why did the Profound Master disappear, even if I kill the enemy, it will not suddenly become without information. Yes..."

The black-robed man at the head is the elder of Xuancheng, and the other four black-robed men are the four guardians of Xuancheng. There were originally five black-robed guardians. The protector died, and now there are only four people in black robes left.

As the tentacles of the octopus stretched out, suddenly, Elder Xuancheng let out a slight growl, and the black robe covering his body was lifted, revealing the terrifying appearance under the black robe.

"These flesh and blood... are the breath of the mysterious master..."

Through the tentacles, he sensed and captured the aura of the Profound Lord, and his heart was horrified, and suddenly he stepped back three steps in a row.

The other four people in black robes were also shocked.

They are the losers who broke through the super-state. Although their strength is stronger than the general super-state limit, they are far from being compared with the real seventh-form powerhouse like Xuanzhu. This pool of flesh and blood belongs to Xuanzhu. It means that the mysterious master has died, and he has been smashed into a pool of flesh and blood. It can be said that he has died without any bones.

"What the **** is going on here..."

More and more tentacles appeared on Elder Xuancheng's black robe, and these octopus tentacles were constantly sniffing the residual breath on the ground around them.

"Mei Xiaosen's breath... Wang Xuan's breath... eh? Wang Xuan?"

The elder's tone suddenly stagnant, thinking that the Xuanzhu once said that Wang Xuan and them are of the same kind. There is Wang Xuan's breath in this scene, but there is no Wang Xuan's body.

"Could it be that..."

"Wang Xuan deceived the mysterious master and attacked the mysterious master?"

It is hard for the elders to believe that in this third-layer world, except for the existence of those totems, no one can kill the Profound Lord, but now the Profound Lord has become a pool of flesh and blood, the biggest possibility is that someone uses a certain method to sneak attack. Killing the Xuanzhu is the most reasonable guess.

"Besides the Profound Master...there are so many breaths...one, two, three, there are ten auras in total...I understand, these guys from the five major cities secretly united, and secretly calculated the Profound Master, it must be like this..."

The elder was constantly whispering, walking in this ruined place, in front of his eyes, he seemed to see what happened before.

Although he didn't see it with his own eyes, he guessed it was inseparable.

"Even if these ten guys join forces, it is impossible to kill Xuanzhu, but the biggest variable is Wang Xuan. Xuanzhu is not wary of him, and it is very likely that he was plotted against him, and they succeeded..."

"This Wang Xuan...how on earth can disguise the breath of hatching beasts, unless, is it the tree of origin..."

When the elder said this, he looked into the distance, where Wang Xuan, Mei Xiaosen, and Bai Qianxue left just now. He had already sensed their breath.

"Eight auras are very active, but the other two are dead. I understand, two people died, but the bodies were taken away, and I don't want to leave any traces. Unfortunately, how can you escape my eyes..."

The elder sneered.

A man in black robe beside him said, "Elder, shall we catch up?"

"Chase? Even if it's a sneak attack, it's not a simple role to be able to kill the mysterious master. At least there are eight super-state limits. The five of us chase after them. Although we are not afraid, we are not sure that we will be able to beat them."

"Elder, what should we do then?"

Xuancheng Elder Tandan said: "Go back and find King Rakshasa."

"King Rakshasa?" The other four men in black robes looked at each other and couldn't help taking a deep breath. It seemed that the name Rakshasa King had created a strong deterrent force for them.

"King Rakshasa is the leader of Rakshasa City, he will take care of our Xuancheng affairs?" Another man in black robe, half-length of a rock, said with some doubts in his tone.

"It will definitely take care of it. Among the ten people who killed Xuanzhu, there is no accident, and there are people in Rakshasa City. As long as the Rakshasa King knows that Xuanzhu is dead, he will definitely take care of it."

After Elder Xuancheng finished speaking, he gathered a large number of octopus tentacles, turned around and started to leave here.

The other four black-robed guardians followed closely, and the five quickly left here and ran away into the distance.

Their speed is amazing, like five sharp arrows shooting into the distance.

You must know that they are all powerhouses who have tried to make breakthroughs. Although they failed and were attacked by the hatching beasts, but also because the hatching beasts attacked their bodies, compared with normal humans, they can fully exert the power of hatching beasts in their bodies. It can be said that, Under the seventh form, they are even more powerful than the average super-state extreme powerhouse.

Even if he knew about Wang Xuan's eight people, there were only five of them, and the elder didn't think that five of them would lose to eight of them, but he didn't follow his breath to catch up, because with five against eight, he had no absolute certainty of winning. It might be safer to return to the rescue.

Returning to Safe Zone No. 9, they headed straight for Rakshasa City.

Arriving at Rakshasa City, someone soon notified Elder Rakshasa and Elder Xuancheng of his visit.

The scale of Rakshasa City is much larger than that of Xuancheng. It used to be an abandoned ancient city and was assimilated by plants. Now the plants in the ancient city have been cleaned up. Although the surface still looks tattered, it is full of people coming and going. Lively.

Elder Xuancheng brought four black-robed Dharma protectors of Xuancheng and, under the leadership of people, arrived at a five-story building.

Elder Jian Rakshasa brought three black-robed Dharma protectors of Rakshasa City to meet Elder Xuancheng in a great hall.

Seeing Elder Rakshasa, Elder Xuancheng immediately expressed his intention and wanted to meet King Rakshasa.

"King Rakshasa entered the upper world and has never returned." Elder Rakshasa was a little surprised to see Elder Xuancheng coming with four black-robed Dharma protectors. This situation is very rare. Most of the time, a black-robed Dharma protector was sent to inform him, and there was rarely such a situation.

"What happened, you need to see King Rakshasa?" Elder Rakshasa and Elder Xuancheng had a good relationship and asked curiously.

"Master Xuan has an accident." Elder Xuancheng did not hide it, and immediately explained everything he had just investigated in detail.

"Is there such a thing?" Elder Rakshasa and the three black-robed men behind him were shocked, and all stood up from their original seats.

They know that Xuanzhu is the seventh-form powerhouse, one of the five leaders of the five major cities, a real big man, hearing that Xuanzhu was killed is simply too shocking.

"Yes, it should have something to do with this Wang Xuan." Elder Xuancheng's voice was hoarse and low, and he said his conjecture.

After listening to the elder Luosha, he was a little stunned, and then he said: "This kind of thing is unheard of. After the Xuanzhu returned, he didn't tell you anything?"

Elder Xuancheng shook his head and said, "After Master Xuan returned, he should have noticed that someone wanted to make a breakthrough, so he rushed over without having time to tell me anything, and now the only way I can think of is to report this matter to King Rakshasa."

Elder Rakshasa smiled bitterly and said: "After the upward passage was opened, King Rakshasa and Lord Xuan entered the higher floor together. I have not received any news from King Rakshasa until now. I didn't expect such a thing to happen, and I don't know when King Rakshasa will return, but we can't wait."

Elder Xuancheng nodded and said, "Yes, if nothing else happens, after these guys escape, they will definitely find a way to find a breakthrough. If they succeed in breaking through, it will be a real trouble."

"So we have to find them within 24 hours and nip these hidden dangers in the bud before they break through."

When the elder Rakshasa said this, he slowly said: "If it is as you guessed, the mysterious master will have an accident because he suffered a plot, then these people are not to be afraid of, we can work together to solve them, if you are no longer worried, You can invite Elder Phoenix, Elder Dynasty, and Elder Justice together, and we will join forces with the five parties to measure that they cannot escape."

Elder Xuancheng nodded and said, "If we can really invite all three of them, if we join forces, we will naturally be able to capture them."

Elder Rakshasa said: "Since this is the case, I will accompany you on a trip, I believe that it should be able to persuade them, although we all belong to different camps, but on this point, our goals are the same, and we must not tolerate this world. A superhuman or higher human will appear."

"Yes, if there is, it must be our companion."

After that, the two elders, together with the seven men in black robes, left the "Rakshasa City" and rushed towards the nearest "Justice City".

They are going to invite the justice elders, the phoenix elders, and the dynasty elders~www.mtlnovel.com~ to gather the most powerful forces to completely solve the hidden huge hidden danger of Wang Xuanba.

The elders of the two cities came to see them together. The elders of justice understood that something important must have happened, and rushed out to greet them.

"The two of you are... Could it be that something has changed in the upward passage?" Elder Justice saw the group of black-robed men in front of him, slightly startled, and hurriedly invited them into a hall.

"It's not about going up the passage. We are here to invite you to join us and kill eight people." Elder Rakshasa's words made Elder Justice slightly startled, and said, "Kill eight people with you? What do you mean?"

"Fairy Wood"

"It's up to you." Elder Luosha looked at Elder Xuancheng.

Elder Xuancheng repeated what happened before in detail.

After speaking, the justice elder still did not respond. In the hall, a faintly feminine voice suddenly sounded: "Mysterious Lord is dead?"
