

Last Building on Earth Chapter 266-270

Chapter 266

With this sound, everyone in the hall suddenly felt a gloomy wind in front of them, almost no one saw how the other party appeared, and suddenly there was a figure among these elders.

This figure is wearing a white robe, looks thin and tall, like a bamboo pole, pale as paper, can not see the slightest blood, but the dark circles are extremely heavy, it seems that he has not slept for a long time.

Suddenly seeing this man in white robe, everyone was shocked, only the elder justice was busy bowing and salute.

"City lord, I didn't expect to startle you."

Hearing the title of Elder Justice, Elder Xuancheng and Elder Luosha understood that the white-robed man who looked like the legendary Bai Wuchang in front of him was one of the five leaders of the five major cities, along with King Rakshasa and Lord Xuan. Equal justice city lord.

He didn't even show up when he killed the white rhino, and he didn't show up when he opened the passage to the upper world. Everyone almost thought he didn't exist, or he entered a higher floor before the passage was destroyed. , has not come down.

No one could have imagined that he would appear here.

Neither Elder Xuancheng nor Elder Rakshasa had seen the true face of the righteous city lord. They suddenly learned that the righteous city lord was in front of them, and they were busy bowing and salute.

The seven men in black robes who followed behind them also saluted closely. This is the seventh form of powerhouse. In their hearts, they are arrogant and they dare not be disrespectful.

The righteous city lord waved his hand slightly, indicating that they don't need to be more polite, and his eyes with serious dark circles looked at the elder Xuancheng, and said, "Are you sure that the mysterious lord is dead?"

Elder Xuancheng said respectfully: "Yes, I sensed the aura left by the Profound Lord, and it is already a mass of dead energy, I can't be wrong."

The Lord of Justice City murmured: "His original appearance is a longevity worm. Unless he is smashed to pieces, he will not die. I can't imagine that the longevity worm could not live forever..."

Gently sighing and sighing silently, City Lord Justice looked at Elder Xuancheng again and said, "Go, show me."

"Yes." Elder Xuancheng was overjoyed, knowing that if the righteous city lord came forward, Wang Xuan and other eight people would surely die.

Elder Xuancheng left a man in black robe to guard Xuancheng. After that, he took the lead, left Justice City, and headed into the distance.

The City Lord of Justice followed unhurriedly, followed by the three men in black robes in Xuancheng, and another man in black robes who returned to Xuancheng to stay behind.

After them, there were Elder Rakshasa and the two black-robed men from Rakshasa City, and one of the original three black-robed men also stayed behind.

Further back, there are two black-robed men from Justice City led by Justice Elder.

It can be said that the top power of the five major cities has already gone halfway in order to hunt down Wang Xuanba.

At this moment, Wang Xuan, Mei Xiaosen and Bai Qianxue left the abandoned ancient town and ran all the way towards the distance, rushing ten kilometers in one breath. Then they stopped and put the bodies of Song Lichen and Bian Jinli in storage. The materials in the belt were divided, a pit was dug, and the bodies of the two were buried on the spot.

Wang Xuan got a few crystals and a few bottles of healing water.

"Master Xuan is dead. Now we can't be sure whether Elder Xuancheng and the others have received any information from him and know that he is dead, but we must plan for the worst."

Mei Xiaosen looked at everyone and said with a serious face: "We don't know if there will be some kind of special connection between these people who were swallowed by the hatched beasts, but we assume that the elders of Xuancheng and the others got the message and rushed to the place just now. We must be prepared to deal with the abandoned ancient town."

Li Tianjiao said, "If it's just Elder Xuancheng and those few people in black robes, we won't be afraid of them even if we rely on tracking crystals and scent to catch up."

Bai Qianxue said: "If it's just them, naturally they don't have to be afraid, but once they know that the mysterious master has been killed, they are not fully sure, and they will definitely not take the risk to chase after them, but will go back and invite the Rakshasa King. Wang, if you add them, it will be troublesome."

Mei Xiaosen said with a dignified expression: "Yes, the trouble now is the tracking crystal. We can't completely hide our breath. As long as they use the tracking crystal, no matter where we hide, they can find us."

Bai Qianxue said, "I have a way to track the crystal."

"What can I do?" Wu Tian looked at Bai Qianxue while talking.

Wang Xuan also looked at her.

Wang Xuan is no stranger to tracking crystals. There are also three primary tracking crystals in his Xumi belt, which can track scents within 24 hours. With the abilities of Elder Xuancheng and the others, they have some primary or even intermediate tracking crystals. Not difficult.

Bai Qianxue said: "The principle of tracking crystals is not complicated, it mainly relies on the smell of blood in our bodies for tracking, we just need to catch some monsters, sprinkle our blood on them, and they will be in a short time. Contaminated with our scent, these monsters will carry our scent and scatter to different places. As long as there are enough of these monsters, they will find these monsters one by one by following these scents, and then find us after eliminating them. I don't know what it is. At that time, Komori should have already broken through, so don't be afraid of them, now they are afraid that they have other tracking methods in addition to tracking crystals, so it is impossible to prevent."

Mei Xiaosen's eyes lit up and said: "This is a way to deal with tracking crystals. As for whether there are other tracking methods, then no one knows."

When he said this, he looked up at the sky and said, "We'll do what Qianxue said. As long as it takes 24 hours, I'm 90% sure that I can successfully break through the super state."

Wang Xuan opened his mouth and said, "If it's just Elder Xuancheng and the others, we should be able to handle it."

He has a mechanical **** arm, and the ghost car has evolved a third ghost wing, which further enhances his strength. Although the elders are powerful, they have not broken through the super state. Wang Xuan even killed the mysterious master, and he is really not afraid of the elders.

"But what I'm afraid of is that the Rakshasa King will appear, especially the leaders of the other three cities. If they come together, how should they deal with it."

Mei Xiaosen said: "Wang Xuan, you don't have to worry, for so long, I only know that Xuancheng has Xuanzhu, Rakshasa City has Rakshasa King, and the leaders of Phoenix City, Wangcheng and Justice City have never appeared. I guess there is no accident. When the passage to the two worlds was destroyed, the leaders of these three cities entered the upper world. Only Xuanzhu and Rakshasa were in the third world, so there is a high probability that these three The chief of the city will not appear."

Wu Tian said solemnly: "Even if the leaders of the other three cities don't appear, only one Rakshasa King will be troublesome enough."

Li Tianjiao replied, "I have inadvertently talked with Elder Rakshasa about King Rakshasa and Lord Xuan. Of course, I don't know whether it is true or not. I heard Elder Rakshasa say that it seems that King Rakshasa is stronger than Lord Xuan."

The faces of everyone changed slightly, killing one Profound Lord, two out of ten people have died. If the Rakshasa King is really stronger than the Profound Lord, it will be terrible.

"We have to plan for the worst. If King Rakshasa takes Elder Xuancheng, or even Elder Rakshasa and the others to catch up, how should we deal with it?"

Hearing Bai Qianxue's words, everyone was speechless for a while, and no one could think of a way to deal with it.

Wang Xuan suddenly said: "Why don't we go to the No. 10 safe area."

"Safety Zone No. 10?" Mei Xiaosen glanced at him slightly.

Wang Xuan nodded slightly and said, "Yes, it is the place where the giant ship fell in the distance. We will go there, and you will make a breakthrough there. If they do not appear and everything is safe, then it is naturally the best. If they really appear, we are incompetent, I have an idea, at a critical time, we will go towards the giant ship."

When everyone heard this, their expressions changed slightly.

As for the giant ship that fell from the height of 1,000 meters, everyone knows that the giant ship even penetrated the third and second layers of the world, and the bow of the ship is revealed from the hundreds of towns below. It is strange and unpredictable. Name, for this giant ship, everyone instinctively stayed away.

Seeing everyone's reaction, Wang Xuan looked at them and said solemnly: "The so-called "death and then life" really comes, if we get close to the giant ship, or even enter the giant ship, we will bet on whether these people will dare to enter together, Of course, that's just in case."

Mei Xiaosen looked at Wang Xuan, paused for a while, and then let out a long sigh of relief: "Wang Xuan, you are still bold, yes, if the time comes, since it is about to die, it is better to give it a shot and fight for the first line. Vitality, you are right, at that time, there will be no problem except death, we dare to fight, but these guys may not dare to fight."

Wu Tian, Li Tianjiao, Fang Taozhong, and Bao Chong nodded one after another and agreed. If there is a terrible enemy they can't match, rushing to this mysterious and terrible ship may be a way to get a chance.

After making the decision, everyone immediately rushed to the direction of the distant giant ship, and soon encountered a group of giant forest wolves on the way.

According to Bai Qianxue's method, the crowd did not kill these giant forest wolves, but cut their hands one after another, sprinkled blood on some of the giant forest wolves, and then drove them away.

These giant forest wolves are stained with their blood and have their scent. If the other party relies on tracking crystals to track them, they will find their scent everywhere. It will be very difficult to find them accurately. .

Running all the way, as long as there are monsters, everyone will sprinkle some blood on these monsters, leaving a smell, especially when a group of iron-winged demon owls attacked in the air on the way, everyone was overjoyed, and immediately caught seven or eight, will Blood spilled on them, and they were released.

"These iron-winged demon owls don't know where they will fly with our scent. If they want to rely on tracking crystals to find us, it is almost impossible."

A smile appeared on Bai Qianxue's face, and he let out a light breath.

Wang Xuan said: "I'm afraid there are other means."

Mei Xiaosen said: "If there are other means, there is no other way. It can only be said that it is human. Of course, maybe we are just a false alarm. Maybe these people don't even know that Xuanzhu is dead, let alone track us."

Everyone continued on their way, rushing at full speed. At their terrifying speed, it only took half a day to reach the No. 10 safe area before dark.

When seeing the giant ship falling from the sky not far away, even if it was a powerhouse with a super-state limit, he still felt a tremor in his heart, and an indescribable shock rose in his heart.

There are many white dead bones on the ground around the giant ship, all of which belong to different monsters.

Wang Xuan remembered that when he came here last time, there were a large number of corpses of monsters such as green fox beasts and four-armed demon apes around the giant ship. Now the flesh and blood on the surface of these corpses has disappeared, but the remaining bones have not been assimilated by the forest, but have been left behind. down.

The eight people slowed down and looked at the giant ship that appeared a kilometer or two away, showing a dignified expression.

"I feel like I can't get any closer..." Bai Qianxue stopped and murmured.

Wang Xuan saw that the bow of the giant ship was completely turned into pitch black, and a large number of corroded rust spots could be clearly seen on the surface. In the pitch-black bow, a large number of black shadows of Mohu could be seen wriggling and struggling inside. It seems that he does not want to break through this dark seal all the time and struggle to get out of it.

Wang Xuan looked around and found that the closer he got to the giant ship, the plants on the ground withered and necrotic, which meant that there must be some kind of terrible power around the giant ship, causing these plants to wither.

You must know that the vitality of plants in this forest is very tenacious. Even if it is a building in the five major cities, although the plants on the surface have been cleaned up temporarily, it will take a long time to grow again. Everyone can only clean it every once in a while. .

Although everyone is not feeling unwell now, but there is an inexplicable uneasiness in their hearts, especially Wang Xuan's assimilation with Warcraft, this uneasiness is even stronger.

"How do you say it now, do you want to continue approaching, or just stay here?" Mei Xiaosen felt a little uneasy in his heart, but he couldn't tell where he was upset. He turned to Wang Xuan, wanting to hear his opinion.

The previous battle with Xuanzhu completely changed his view of Wang Xuan. Compared with them, although Wang Xuan is a newcomer, his knowledge and strength are completely beyond their expectations. Relying on the power of giant ships to deal with possible threats was something they could never have imagined.

Wang Xuan thought of the strange baby with rotten power, who appeared in the insect town on the second floor before, and then because of the suppression of his power, the strange baby was defeated by the people in the insect town and climbed into the rotten bow again. In the bow above the town, he returned to the third-layer world.

From the appearance of strange babies in Worm Town, Wang Xuan has guessed that there should be a passage connecting the third-layer world to the second-layer world in the giant ship, which means that it is entirely possible for strange babies to appear here.

"Let's go, let's go to the No. 10 safe area." Wang Xuan turned around and ran towards the No. 10 safe area not far from the giant ship.

The teleportation channel of the No. 10 safe area can enter the central city. If the monster baby does appear, they can enter the central city through the transmission channel, and the monster baby should not be able to use the transmission channel.

Arriving at the teleportation passage in the No. 10 safe area, it was completely dark. Mei Xiaosen took out the iron cast dragon flag, inserted it into the ground, and sat down with his knees crossed.

He began to prepare for the breakthrough, and as long as no one disturbed him, he was confident that he would successfully break through within a day and be promoted to the seventh form of powerhouse.

Wang Xuan, Bai Qianxue, Wu Tian and other seven people guarded the four directions, and all sat down cross-legged.

Wang Xuan raised his head and stared at the giant ship not far away. In the darkness of night, the shadow of the lake in the rotten bow of the giant ship became more and more strange. This area was very quiet, and there was hardly a single monster in sight. abnormal.

"If only Elder Xuancheng and the others are chasing after them, it's nothing to be afraid of. What I'm afraid of is that King Rakshasa appears with them, or even other city lords come, then it will be troublesome, we are simply not enough to fight. "

Wang Xuan pondered, if this most sinister situation really occurs, they will rush to the giant ship. As for the consequences of rushing to the giant ship, he does not know, but this is the only way he can think of at the moment, after all, if they really have other tracking methods besides tracking crystals, and they will find them no matter where they hide.

The power of the world around him is getting stronger and stronger. With Mei Xiaosen as the center, there is a fluctuation in the space. Wang Xuan is also in this fluctuation. He also senses the power of the world and tries to control it again. Taking advantage of this opportunity, he keeps learning and accumulating experience. , the more experience, the greater the possibility of a successful breakthrough in the future.

Night fell on this virgin forest, and above the lush canopy of the towering trees, a group of black figures stepped on the canopy at an astonishing speed.

Except for one of the people in white robes, the rest were all people in black robes, including Elder Xuancheng, Elder Rakshasa, and Elder Justice, all of them came.

Except for one person in black robe who stayed behind in each of the three cities, the people in black robe from the remaining three cities followed them, including three people in black robe from Xuancheng, and two people in Rakshasa City and Justice City each. People, plus the three elders and the righteous city lord, there are eleven people in total.

Elder Xuancheng has a special method to lock their breath, and there is no need to use tracking crystals. Wang Xuanba used the method of sprinkling blood on the monster's body to leave a scent, and wanted to cast doubt on it, but it was not enough for Elder Xuancheng. to the slightest effect.

Under the leadership of Elder Xuancheng, their group of eleven followed the atmosphere of the crowd, chasing them all the way here, and gradually approaching the distant giant ship. Of course, they also encountered a lot of monster attacks on the way, and it took some time. There were no casualties.

In the night, the roar of giant beasts came from afar, and iron-winged owls appeared from time to time in the night sky.

Traveling through this forest at night is unsafe even for super strong people, but everyone is not afraid, especially when there are super strong people like Justice City Lord in the team.

"It's close~www.mtlnovel.com~ It seems that they have come here." Under Elder Xuancheng's black robe, strips of octopus tentacles stretched out, sensing the surrounding aura, and quickly sensed Wang Xuan and Mei The breath of Komori and others is already very close to here.

"These guys can really run, and they have run so far." The city lord of Justice could not see any expression on his bloodless face, but as he stared at the approaching giant ship, his expressionless face still moved slightly. a bit.

"Did they come here on purpose?" Elder Rakshasa's tone became a little suspicious, confirming that Wang Xuan and eight people came here, and watching the giant ship that fell from a thousand meters high, he felt inexplicable in his heart. perturbed.

"It should be here on purpose, but, what's the meaning?" There was a hint of doubt in the voice of the justice elder.

"Maybe we think that we will be afraid of giant ships. Even if we find them, we will be afraid and dare not start." Elder Xuancheng pondered, suddenly jumped up, and jumped from the canopy.

The canopy of 40 to 50 meters high jumped down when he said it jumped, and others jumped down after him.

Chapter 267

With their strength, although they still can't reach the level of flying in the sky, it is not difficult to jump from a height of forty or fifty meters.

When they landed on the ground, they were no more than three or four kilometers away from the giant ship and the No. 10 safe area. They saw a large number of bones left by animals on the ground ahead.

"In that direction." Elder Xuancheng stretched out his hand and pointed in the direction of the No. 10 safe zone, and said, "The eight people... escaped all the way here, right there."

The Lord of Justice raised his head, his eyes narrowed slightly, and said, "What a strong fluctuation of the power of the world, sure enough, someone wants to break through the super state..."

"It's Mei Xiaosen, he wants to break through." Under Elder Xuancheng's black robe, there were two terrifying rays of light in his eyes.

Mei Xiaosen is a well-known figure in the five major cities. Elder Rakshasa and Elder Justice both know his name and say, "It turns out to be him."

However, the justice city lord didn't know Mei Xiaosen, so he just said in a daze: "Let's go and have a look."

A few kilometers apart, he was able to capture and sense the presence of the eight Mei Xiaosen from a distance, and his figures were erratic, surpassing Elder Xuancheng. Soon after a distance of one or two kilometers, he could already see Mei Xiaosen sitting cross-legged and others from a distance. People, feeling the violent fluctuations of the power of the world, are converging with him as the center.

"It just started..." The city lord of Justice stopped and didn't get close. The other three elders and seven people in black robes also stopped busy.

At this moment, the bloodless face of the righteous city lord suddenly cracked down from the center of his eyebrows, and his face turned to both sides, revealing strips of blood-red muscles. These muscles were twisted and squeezed to the sides, and suddenly a huge one-eyed form came out.

This one-eyed was the size of a fist, and a strange cold light appeared in the night. The cold light passed by, and he suddenly grinned.

"Sure enough, all eight are supernatural, not perfect."

With these words, the huge one-eyed retracted and retracted back into the blood-red muscles. The faces that were turned to both sides were rejoined, and the normal face like a dead man was restored.

"Let's go, eight super states, nothing to be afraid of." The Justice City Lord swayed and began to rush towards the safe area where the eight Mei Xiaosen were.

After hearing this, Elder Xuancheng understood. The righteous city lord was very cautious. He did not approach rashly just now, but used some special ability to observe the true strength level of Mei Xiaosen's eight people from a distance. Just completely relieved.

Ten of them followed closely behind, and for them a distance of one or two kilometers would take a few breaths to reach.

At this moment, the eight people of Mei Xiaosen, except for Mei Xiaosen who is seeking a breakthrough, Wang Xuan, Bai Qianxue, Wu Tian, and Li Tianjiao, all meditated cross-legged, sensing the fluctuation of the power of the surrounding world.

During the meditation, everyone's senses were very sensitive, especially Wang Xuan. Before the eleven people including the Justice City Lord jumped from the canopy, he felt uneasy in his heart and opened his eyes from the meditation.

"Something's wrong, some danger is approaching." Wang Xuan looked into the distance, and his brows immediately wrinkled.

Except for Mei Xiaosen, the other six also opened their eyes and looked towards him.

"Are you sure?" Wu Tian asked.

Wang Xuan nodded and said, "My senses can't go wrong. Now I just don't know where the danger is coming from? It's possible that Elder Xuancheng and the others have really caught up."

As he was speaking, several kilometers apart, he vaguely captured the top of the tree canopy in the distance, and it seemed that a figure was jumping down.

A few kilometers apart, both sides instantly observed each other's existence.

"Eleven people..."

Wu Tian, Bai Qianxue and the others also saw it and stood up one after another. Only Mei Xiaosen, leaning against the iron cast dragon flag, was still meditating.

"What should I do? Go to the giant ship now?" Li Tianjiao said with a nervous look on her face.

"There is no Rakshasa King, it should be a few elders and black-robed people." Bai Qianxue observed the eleven people including the Justice City Lord and Xuancheng Elder who appeared a few kilometers away, but did not find the Rakshasa King. tone.

Now in the entire third-layer world, the only people they know of the seventh-form powerhouse are Xuanzhu and Rakshasa King. Xuanzhu was killed by them, and Rakshasa King did not appear. The rest are all super-states. Not so afraid.

"No, one of them is wearing a white robe, who is that?" Li Tianjiao nervously noticed that among the eleven people who appeared in the distance, ten of them were in black robes, and only one was wearing a white robe, which was very conspicuous in the night.

"White robe..." Bai Qianxue's brows furrowed. At this moment, Mei Xiaosen who was meditating suddenly opened his eyes and woke up from his meditation, saying, "Let's go, let's go to the giant ship."

He stretched out his right hand and pulled up the iron cast dragon flag that had just been planted on the ground.

Wang Xuan saw that he had interrupted his breakthrough again, and said, "Do you know who that white-robed man is?"

Mei Xiaosen shook his head and said: "I don't know, it should be one of the remaining three city lords, otherwise they would not dare to chase after them with such fanfare. After all, in their opinion, we have the ability to kill the mysterious lord. Now that we dare to come, there must be a seventh form of powerhouse, go."

Having said that, I saw the eleven figures in the distance, which had already begun to accelerate, rushing towards them.

Although they can use the teleportation channel to enter the central city, these people are also human and can use the teleportation channel as well, so escaping to the central city is not the way, the only hope now is to get close to the giant ship, but these people dare to catch up.

Mei Xiaosen carried the iron cast dragon flag, stopped talking, shook his body, and went straight towards the giant ship.

Wang Xuan didn't speak any more. He knew in his heart that if the white-robed man was really one of the city lords, the seventh-form powerhouse, plus ten elders and the black-robed man, with such strengths combined, they would not be able to fight back at all. , once surrounded, there is only one dead end.

Bai Qianxue, Wu Tian, Li Tianjiao, Fang Taozhong, Bao Chong and the others no longer hesitated and followed Mei Xiaosen, heading towards the giant ship.

At this moment, the righteous city lord was riding in the lead, rushing towards the crowd, and suddenly saw Wang Xuan and eight people actually get up and go in the direction of the giant ship, he was slightly startled and slowed down.

Elder Xuancheng, Elder Rakshasa, and Elder Justice chased after him.

"These guys really belong to them." Elder Rakshasa's voice contained a faint anger. They were not stupid. Seeing the actions of Wang Xuan and Mei Xiaosen, they still didn't know what they were thinking.

"This giant ship is strange and unpredictable. It seems to be shrouded in an indescribable terrifying force. Once it gets close, it will be dangerous and unpredictable. What should I do now?" Elder

Xuancheng's tone showed a hint of hesitation. The octopus tentacles he held were sensitive. , Compared with other people, his feelings are deeper. In the sense of his octopus tentacles, this giant ship is like an unfathomable Wangtan. It seems that as long as they get close, they can be swallowed up, and even their soul and consciousness will be dragged into the In this Wangtan, there will be no transcendence forever.

Stronger than the righteous city lord, he also slowly stopped, with a face like a dead man, his brows were slightly wrinkled.

Mei Xiaosen noticed that the other party had stopped, and he stopped immediately. At this moment, the fastest runner was close to the rotten bow of the giant ship, less than one kilometer, and the eleven people of the Justice City Lord were far from the distance between them. The distance is also about one kilometer.

The situation got a little weird.

If it is not absolutely necessary, Mei Xiaosen and Wang Xuan are naturally reluctant to approach the giant ship, but now they can only see how the eleven people of Justice City Lord choose. If they approach further, they can only continue to approach the giant ship. .

Wang Xuan, Mei Xiaosen, Bai Qianxue and other eight people all summoned their own mechanical beasts and entered a state of integration. The equipment on everyone's body was destroyed to some extent. Even Wang Xuan's ghost armor was destroyed, and ghost stealth was no longer available. .

They were separated by a kilometer from each other, and they were watching each other's movements.

"What if they really rushed up desperately?" Wu Tian held the bronze war spear in his right hand and spoke in a low voice, with a nervous expression on his face.

"If the man in white robe is really the seventh-form powerhouse, the only one among us who can hope to block him is Wang Xuan." Mei Xiaosen looked at Wang Xuan, thinking of Wang Xuan's mechanical arm that killed the mysterious master, After that, a third steel feather grew. It seems that the strength has improved again, but I don't know if it can temporarily hold the white-robed man.

"Qianxue must still cast the rune pattern to suppress the strength of these people as much as possible. As long as you can hold the white-robed man temporarily, under the circumstance that their strength is suppressed, the few of us need to be at the most powerful. Kill a few people in black robes in a short time, if you can do this, there may be a chance."

After Mei Xiaosen finished speaking, except for Wang Xuan, everyone's faces showed embarrassment. Even if Wang Xuan could really block the white robes temporarily, Bai Qianxue suppressed the fighting power of all the opponents. With only six of them, they fought against the opponent's ten people, especially It is because there are characters like elders among them, and it is almost impossible to kill a few people in black robes quickly.

Mei Xiaosen himself knew that it was difficult, so he could only sigh and say, "It's up to people, of course, I hope they don't dare to catch up."

As soon as I said this, I found that the white-robed man brought ten other black-robed men, and moved again, quickly approaching them.

"What should I do? Are you still approaching the giant ship?" Wu Tian looked at the giant ship that was only one kilometer apart, and then looked at the eleven people who were rapidly approaching. Everyone's face showed hesitation, full of complexity.

Wang Xuan opened his mouth and said, "When they get a little closer, we will continue to approach the giant ship. Since there is no chance of winning against us head-on, we can only pin our hopes on some unexpected events or accidents."

Among the eight people, Wang Xuan appeared calmer than the other seven. Mei Xiaosen secretly admired Wang Xuan's calmness.

Wang Xuan understands that his ability to be so calm is also related to the fact that he has the Eye of Fear, and the fusion of the soul consciousness of monsters, blue crystal scales, and ghost cars.

His eyes of fear could sense the strong fear of Mei Xiaosen and others, and as the City Lord Justice and the other ten people kept getting closer, he began to gradually feel the faint fear in the hearts of these eleven people.

They are not afraid of their own eight people, but from the instinctive fear of giant ships.

"That's right... They were hitting right, and they used the giant ship to arouse their instinctive fear."

Wang Xuan sensed a ray of fear in their hearts, and suddenly his confidence increased greatly.

What he is afraid of is that these people are not afraid. Since they have generated fear, with the eyes of fear that he has grown now, there is hope to strengthen and magnify the fear in their hearts.

These days, the Eye of Fear is constantly absorbing the inner fear of a large number of strong people, and it grows very fast. It can be said that now his Eye of Fear has grown to the third form, but he has not used it in battle for a while. Its real power is because the power of fear wants to play the strongest role, especially in the face of these super-powerful people, if you want to influence them, you need a premise, that is, in the hearts of these powerhouses, you need to generate fear.

"I've figured out a way... Everyone calm down." Wang Xuan suddenly spoke, and then began to walk slowly, slowly approaching the giant ship.

He believed that the closer they got to the giant ship, the deeper the fear in these people's hearts, and the more easily they would be affected by his Eye of Fear.

"Have you come up with a solution?" Mei Xiaosen's seven people all looked surprised, even if Wang Xuan said it, they still felt dubious.

Facing the existence of the seventh-form powerhouse and a group of super-state limits, what else can Wang Xuan do to deal with them?

"Yes, if they shoot at us later, everyone should prepare more defensive crystals. Don't think about killing people, try your best to protect yourself from being hurt by the white-robed man first, and leave the rest to me."

Hearing Wang Xuan's words, Mei Xiaosen understood and said, "What do you mean, are you going to let us find a way to trap the white-robed people, and then you will find a way to kill the elders and those black-robed people?"

He thought of the blow of the giant mechanical arm possessed by Wang Xuan. The power has exceeded the super-state limit. It should be a blow comparable to the seventh-form powerhouse. Live, a face-to-face was killed.

"Yes, if this white-robed man is the seventh-form powerhouse, it's not easy to kill him, but if everyone can hold him for a while, I have the confidence to kill the others first, as long as these people are killed, only one The white-robed man, as if his strength is the same as the Profound Master, if we can kill the Profound Master together before, we will definitely be able to kill him."

Hearing Wang Xuan's analysis, everyone was excited.

"It's hard to block him, but if you can find a way to protect yourself in a short period of time, you should give it a try, but Wang Xuan, are you really sure you can kill the elders and the others quickly?" Wu Tian opened his mouth, thinking that if he wanted to kill himself Bao, with your own strength and defensive crystals, you should be able to give it a try.

"Smoke crystal, flame spar and explosive crystal, everyone can use it all at once. It shouldn't be a problem to delay it." Fang Taozhong nodded slightly and said in a deep voice.

In their whispered deliberations, the righteous city lord brought three elders and seven black-robed men, and they were already within 500 meters of them, and they were slowly approaching the giant ship, and the distance between them was shortened to seven hundred meters.

"First Evolution"

The closer they got to the giant ship, the more uneasy everyone felt. Whether it was Mei Xiaosen, Bai Qianxue and others, or the Justice City Lord, the three elders, and the seven men in black robes, everyone felt a sense of unease and fear in their hearts. The Eye of Fear sensed these growing fears and seemed to be active.

This is a super-powerful, and there is even the fear of a seventh-form powerhouse. How powerful is this fear energy, so that the eye of fear greedily absorbs the power of fear, Wang Xuan's brow, the skin fluctuates slightly, the eye of fear almost opened from it impatiently.

The speed of the eleven people such as the Justice City Lord is not fast, and they are observing while approaching. Everyone is uneasy about the huge ship in front of them.

The closer I got, the more I felt my insignificance. This giant ship appeared from a space crack at a height of 1,000 meters and plunged straight into the ground. Not even half of the hull was exposed. It is conceivable that the total length of this giant ship was at least more than two kilometers.

What a huge steel beast this is, even if the righteous city lord is the seventh form of powerhouse, facing this giant ship, I feel a little uneasy in my heart.

And as he got closer, his instinct as a beast became stronger, and he seemed to be moving towards death step by step. The giant ship in front of him could devour him at any time.

At this moment, Wang Xuan and others were less than 500 meters close to the giant ship, and the distance between them and Wang Xuan's eight people was shortened to 100 meters.

The speed of the justice city lord is getting slower and slower, and he stops again.

A distance of 100 meters was enough for them to get close, but his instinct as a beast made him stop again, and he didn't dare to get closer.

The three elders and seven men in black robes behind him were also trembling slightly, dripping with cold sweat, and the fear in their hearts became stronger and stronger. On the contrary, among the eight people of Mei Xiaosen, except for Wang Xuan who felt strongly, the remaining seven people Although they felt the same fear, they were not as strong as the city lord of justice and the others.

This is because humans and hatchlings have different instinctive senses.

"Do you really want to die?" Suddenly, the city lord of Justice spoke, and the voice passed far away.

"Who are you?" Mei Xiaosen took a deep breath and said what was in his heart. Now he is getting more and more fearful. This giant ship faintly exudes a kind of fear from the depths of his soul.

"I am the City Lord of Justice City. UU Reading www.uukanshu.com" The Justice City Lord's voice seemed normal, even with some gentleness, and said: "The eight of you are the elites of the five major cities, and you all have the hope of achieving perfection. Genius, there are some unsafe things hidden in this giant ship, no matter how close you are, there will be danger."

Mei Xiaosen laughed and said, "If you go back, we naturally won't get close."

Elder Xuancheng opened his mouth, raised his voice and shouted: "Mei Xiaosen, what are you all trying to do? You want to break through the super state, we are too late to rejoice, what are you doing here secretly?"

Mei Xiaosen shook his head and said, "Elder, don't pretend to be any more. We all know your true face. Although you wear a human skin and consider yourself human, you have become hatching beasts in your bones."

"Absurd." Elder Xuancheng's voice changed slightly, becoming a little gloomy, and said: "We are all humans, but we have evolved from ordinary humans to new humans. We are here to help you and help you. Evolve together to become a new human being, you don't know what's good or bad."

"Yes, everything is negotiable, come out, don't approach the giant ship again." The voice of the justice city lord became more and more gentle, and said: "Have you misunderstood something? Our real goal is to hope that human beings will embark on the correct evolution. road."

Chapter 268

Mei Xiaosen listened to the words of City Lord Justice and Elder Xuancheng with a slight sneer on his face, knowing that they were trying to trick the eight of them into going out. To them who had seen the true face of Lord Xuancheng, these words sounded quite naive and ridiculous.

Wang Xuan was silently sensing the wisp of fear emanating from the depths of the souls of eleven people, including the City Lord of Justice, 100 meters away. The Eye of Terror is always ready to open.

He heard Bai Qianxue suddenly raise his voice and say, "You hope that the correct evolutionary path for mankind is to devour our human soul and consciousness? Occupy our body and replace our true consciousness, if this is the so-called evolution, I'm sorry. , we reject this evolution!"

Wu Tian slammed the bronze war spear in his hand to the ground, and said solemnly: "Don't talk nonsense with them, if they dare to catch up, we will rush to the giant ship, and everyone will die together."

He deliberately raised his voice so that the people like the Justice City Lord could hear it and let them understand the consequences of the approach. He didn't believe that these people would rather risk their lives and want to kill them.

The face of the righteous city lord, who had always been expressionless, suddenly twitched slightly, and he didn't see how he gestured. foot pit.

With this sudden eruption, the righteous city lord shot up several tens of meters in a vertical direction like a cannonball, then landed on the ground, stepping out cracks in the ground, like a spider web extending out, and he rose up again, The white robe on the surface of the body seems to be bound to the surface of the body by an invisible force, without the slightest fluctuation.

The city lord of Justice suddenly made such a move. The distance of 100 meters was almost a blink of an eye, and he bullied everyone within dozens of meters. After that, Elder Xuancheng, Elder Rakshasa and Elder Justice could react, and they all flew towards them. Wang Xuan and eight people rushed over.

Among the eight people of Wang Xuan and Mei Xiaosen, Wang Xuan was the first to react. His magical beast instinct was very sensitive. At the moment when the Justice City Lord had an abnormal initiative, his heart tightened, and he immediately took a step back and issued a message. A loud shout: "Retreat!"

The others were reminded by him, and immediately rushed back towards the giant ship.

How terrifying the speed of the Justice City Lord, the seventh form of powerhouse broke out at the fastest speed, and the distance between the two sides immediately narrowed to within 20 meters. At this moment, everyone was approaching within 400 meters of the giant ship. Entering everyone's heart, everyone's body seems to be connected with a kind of electric current, the whole body is cold, and the scalp is numb and twitching. can support.

Changed to the ordinary super powerhouse, let alone rushing or taking action at this moment, rushing so close to the giant ship, I am afraid that he will lose his strength immediately, and his whole body will fall down. Silence robs life.

As Mei Xiaosen ran wildly, he shot an iron cast dragon flag.

Within a certain area of the dragon flag, the targets locked by him will be suppressed by the power of the dragon flag, and whether it is speed, strength or reaction ability, they will slowly decay.

Wang Xuan fell to the back of the team, and saw the justice city lord rushing up, the distance between the two sides was less than 20 meters, he saw the justice city lord landing on both feet, the ground immediately shattered and collapsed, and a large amount of sand and stones rolled out at a geometric speed. Split, and soon turned into rolling fine sand.

Wherever he rushed, the ground was breaking down into yellow sand, and he seemed to be stepping on the turbulent yellow sand. From a distance, it looked like he was stepping on a yellow dragon, and his momentum was very amazing.

Wang Xuan understood that this should be the ability of the Justice City Lord.

The three elders and seven people in black robes were fifty or sixty meters behind, and they were also running at full speed, rushing towards here.

A pair of ghost wings appeared behind Wang Xuan, decomposed into dozens of steel feathers, roared away, and shot densely towards the righteous city lord, trying to block him, while he himself followed the crowd and quickly approached the giant ship.

The closer to the giant ship, the greater the fear in everyone's heart, the more beneficial to Wang Xuan.

The city lord of Justice stomped his feet, and the yellow sand that tumbled following his footsteps lifted up, like a waterfall of yellow sand that was suddenly flowing backwards.

Dozens of steel feathers hit the Yellow Sand Waterfall, unable to penetrate the rolling yellow sand. Suddenly, the yellow sand cracked. The Justice City Lord rose into the air again, rushing through a large amount of yellow sand, tens of meters in a vertical direction.

"Boom", this time he fell less than five meters away from Wang Xuan, which is already within the range he can attack.

Without any hesitation, Wang Xuan waved his right hand, and four metal tentacles appeared. Each tentacle lit up with blue light, and blue light appeared one after another, following the root of the tentacle to the top.

With a "Hugh" sound, four afterimages appeared in the air, and when they fell, they landed on the Justice City Lord.

The metal tentacles hit the white robe, and the right hand of the righteous city lord shook, and the white robe was wrapped around him, wrapping the four metal tentacles with blue crystal scales. Fast speed appeared in front of Wang Xuan.

Under his feet, there is yellow sand, like a shadow, these yellow sand are like living things.

Wang Xuan's heart sank. At this moment, only Mei Xiaosen's iron-cast dragon flag was suppressing his strength. Bai Qianxue followed everyone on the run and approached the giant ship. Xuanzhu is even more amazing.

The people in front of them who were running close to the giant ship stopped one after another. Just now, they suddenly felt an indescribable terrifying force surging from the direction of the giant ship. This force was cold and pervasive. Then Ji Lingling shivered, the fear in his heart reached the extreme, his instinct stopped, and he did not dare to come closer.

They stopped, and the righteous city lord approached Wang Xuan with yellow sand, and three or forty meters behind, three elders and seven people in black robes began to fan out and flank them.

Like everyone else, as they approached the giant ship, the fear in their hearts became stronger and stronger, but under the leadership of the Justice City Lord, they still resisted the constant fear in their hearts and surrounded them at full speed.

Bai Qianxue turned around, her hands combined with the seals, constantly changing, and snow-white runes appeared one after another. She began to launch a large rune formation, trying to suppress the Justice City Lord, Elder Xuancheng and others.

Wu Tian held the bronze war spear in his right hand, and with a wave of his right arm, the bronze war spear flew out of his hand, like a cyan rainbow light, shooting towards the Justice City Lord.

He thought of Wang Xuan's agreement with them before. If they were really forced to confront these eleven people head-on, they would try their best to hold back the Justice City Lord while ensuring their own safety.

"The Guard is Here"

He held several defensive crystals tightly in his left hand, and if something went wrong, he would immediately crush the defensive crystals.

Fang Taozhong's face was full of awe, and the scepter in his right hand flicked, and the rocks scattered on the surrounding ground began to sway and suspend, and concentrated in the direction of the righteous city lord.

Li Tianjiao released the water beast, which walked close to the ground and turned into strips of liquefied tentacles, entangling towards the righteous city lord.

The righteous city lord ignored their attacks at all, but locked Wang Xuan alone. He wanted to defeat them individually. Unlike Master Xuan, he did not underestimate or despise the eight super-extreme

powerhouses in front of him. Since they could join forces to kill Master Xuan, are definitely not simple roles.

According to Elder Xuancheng's guess, Wang Xuan should have used his identities of the same kind to deceive Xuanzhu, so they could succeed.

The Justice City Lord had sensed Wang Xuan and understood that Elder Xuancheng's conjecture should be true. Wang Xuan was indeed different from Mei Xiaosen and others. If Elder Xuancheng had not reminded him, he would have thought that Wang Xuan was of the same kind as him.

Such talents are the most dangerous, so the city lord of justice is going to kill Wang Xuan first.

The white robe wrapped around the four metal tentacles and pulled the tentacles. He swooped slightly and shot at him, like a rhino rushing at high speed.

On Wang Xuan's left and right backs and the outside of his right arm, one ghost wing grew out, and three ghost wings appeared together, representing that he had exerted the power of the ghost car in his body to the limit.

The four metal tentacles suddenly broke, and a light curtain appeared, but it was Wang Xuan who crushed the defensive crystal he was secretly holding in his hand.

With a "bang", the Justice City Lord hit the light curtain. Even with his strength, he could not smash the light curtain. He had to wait until the light curtain disappeared automatically.

With the light curtain of the defensive crystal, Wang Xuan blocked the attack of the suddenly rushing Justice City Lord. The ghost wings flapped behind him, and with a snort, a huge thrust was generated. With the help of the power of the ghost car to the extreme, he kicked with both feet, rushed out obliquely, and at this moment, his speed of rushing out was almost no slower than that of the justice city lord just now.

The three elders and the seven men in black robes who were surrounded in a fan shape hardly understood what was going on, and no one could imagine that Wang Xuan's speed would be so terrifying.

The target of Wang Xuan's attack was the righteous elder closest to him among the three elders and the seven black-robed men.

Although Elder Justice failed to break through the super state, his body has experienced the tempering of the power of the world, and he is even stronger than the super state extreme powerhouses like Wu Tian or Bao Chong. It can be said that his strength is infinitely close to the first. Seven forms, otherwise, he can't be the elder of Justice City, and his status in Justice City is only under the Lord of Justice City.

Although the speed of Wang Xuan's sudden attack was beyond his expectations, under the shock, he barely managed to react. With a thought, the black robe covering his body was lifted up like a black cloud, revealing His true appearance.

When he failed to break through the super state, the hatching beast occupied the body to fight back, and finally condensed into a half-human and half-ghost appearance. Half of his body was human, and the other half had dark skin, skinny like a skeleton, like a half-skeleton skeleton. Covered with a layer of black skin.

He shook his body and quickly moved sideways, trying to avoid Wang Xuan's attack while swinging his right arm.

This half of his skeleton body is harder than steel and invulnerable to swords and guns. Even a seventh-form powerhouse is difficult to destroy easily.

He just moved half a foot, and his whole body trembled, and the fear in his heart suddenly increased infinitely. At this moment, he seemed to have suffered a catastrophe and fell into endless fear. With one eye that belongs to a human being opened wide, the whole person is stunned and fixed there.

On Wang Xuan's forehead, the Eye of Fear finally opened, and the power of fear that had been accumulated for so long erupted, setting Elder Justice here. At this moment, because of extreme fear, he actually lost the ability to act.

All this happened too fast, as strong as the righteous city lord, watching the light curtain in front of him disappear, he turned slightly, and wanted to continue to attack Wang Xuan, but saw Wang Xuan swept along the side of the justice elder, and the giant arm of the beast appeared, It hit the head of the justice elder firmly.

No one knows what happened to Elder Justice, why he suddenly stood there motionless and let Wang Xuan attack.

The power of the giant arm of the beast is so powerful that half of the human face of the justice elder immediately shattered and exploded, and the other half of the black skull head was not damaged at all.

Wang Xuan felt that the half black skull head was harder than steel, and the giant arm of the beast slammed on it, and there was a sound of gold and iron hitting it.

Slightly startled in his heart, he was busy turning around, but found that the elder justice was staggering and fell forward, and a white light appeared and did not come to him.

He originally thought that this blow could only shatter half of the justice elder's face, and it would definitely not kill him, so he still had a backup, but he didn't want a white light to appear in the justice elder's body, which meant he was dead.

In the white light, there is a strong breath of life, and there is a consciousness struggling in it. The power of the world comes quietly, erasing the consciousness in it, turning the white light into a pure energy and submerging into Wang Xuan's body.

Powerful energy surged, and soon concentrated on the outside of his left arm.

Feeling the reaction on the outside of his left arm, Wang Xuan immediately understood that as long as he absorbs enough energy, a ghost wing will grow on the outside of his left arm, and his ghost car will be even stronger at that time.

The death of the justice elder was beyond everyone's expectations. Wang Xuan understood at this moment that not everyone who was occupied by the hatched beast was like the mysterious master, and he couldn't die even if his head was broken. It seems that the justice elder The key is half a human face.

Just now, he originally thought of smashing the head of the elder justice with the giant arm of beast, followed by the second giant arm of the beast to make up for it. With a few punches, he completely smashed his body and smashed it into a piece of rotten flesh, but he couldn't think of the elder justice. Take a punch and die.

The City Lord of Justice was the first to react, and let out a low whistle, with anger in the low whistling.

Around the crowd, a large number of snow-white rune patterns appeared, and Bai Qianxue's full-strength rune formation started to suppress the speed and strength of the Justice City Lord, the two elders, and the seven black-robed men in all directions.

Mei Xiaosen, Wu Tian and the others saw that Wang Xuanzhen killed the justice elder with one blow, and immediately cheered up, realizing that what he said before was not a lie, as long as they can hold back the justice city lord, Wang Xuan has the confidence to kill other black robes people.

Mei Xiaosen flipped his right hand, and the hatching beast appeared in the sun, turning into a dark cloud, covering the sky, and heading towards the righteous city lord.

The City Lord of Justice locked on Wang Xuan, and just wanted to turn around, his feet tightened, but the water beasts controlled by Li Tianjiao turned into countless liquefied tentacles, wrapping his feet tightly.

"Go away!" He let out a low roar, his strength penetrated his feet, and the crackling sound was connected. These liquefied tentacles that entangled him were broken one by one.

But when he broke these tentacles, the sky above appeared, covering it like a hood.

As soon as he stomped his feet, the yellow sand on the ground rolled, and it was lifted with a bang. He took the initiative to face the sun and blocked it. Wherever he went, the yellow sand on the ground rolled, even if there was a large rune formation and an iron cast dragon flag. Double suppression, these people can't stop him.

At the same time when everyone shot at the justice city lord, Wang Xuan, who killed the justice elder, used the power of ghost wings to speed up and rushed out. This time the target was a black-robed man from Rakshasa City.

The remaining Rakshasa elders, Xuancheng elders, and the black-robed people from Sancheng were stimulated by the sudden death of the justice elders. People are half human and half monsters, each one is more eerie and terrifying.

Among them, Elder Rakshasa has some similar abilities to Bai Qianxue. Both are mainly assistants. He can release auras one by one. These auras spread around his body, which can enhance his locked companion battle. Power, including speed, strength, reflexes, and defenses.

He retreated to the back, clasped his hands together, and released a series of halos. These halos fell on the Justice City Lord, Xuancheng Elder, and the other seven black-robed men, and immediately began to improve their combat power.

The man in black robe that Wang Xuan attacked had a large number of fish scales growing on the surface of his body, and he roared in his throat. With the example of the justice elders before, he didn't want to confront Wang Xuan head-on until he figured out the reason, and immediately took it out. Defensive crystal crushed.

In addition to him, the tentacles of the octopus controlled by Elder Xuancheng slapped wildly, and the other men in black robes also shot and attacked Wang Xuan with all their might.

One of them is a black-robed man with fangs and a single horn on his forehead. He is one of the three black-robed men from Xuancheng~www.mtlnovel.com~ The single horn on his forehead grows, and the whole body seems to be illuminated by light. Concentrating on the single horn on his forehead, he quickly locked onto Wang Xuan, and a strong black light was released from the single horn.

Wherever this light strafes, whether it is rocks, trees or soil, it can be easily cut open, and the power is extremely terrifying.

Another man in black robe with a half body turned into a rock, took a big step, slammed, and threw a giant rock fist, volleying open from the back to Wang Xuan.

A woman with sarcomas all over her body, she has the ability to control green venom, spewing a large amount of green venom from the sarcoma on the surface of her body, these venoms are controlled by her and condense into green poisonous arrows, dense as arrows rain, Shoot towards Wang Xuan.

These people reacted too quickly, especially with the blessing of the elder Rakshasa's halo, their reaction ability and combat power were stronger, which could almost offset the oppression of the rune formation and the iron cast dragon flag. The attack of , has been infinitely close to the seventh form of powerhouse.

Suddenly attacked by the crowd, Wang Xuan was not afraid. The surface of the three ghost wings faintly flashed blue light. Launch with full force.

Chapter 269

Affected by the Eye of Fear, the Justice City Lord, the two elders, and the seven black-robed men instinctively felt that the fear in their hearts suddenly increased greatly. Although everyone reacted differently to the stimulus, without exception, everyone's shot or defense would have stagnant.

Even if it was just stagnant for a moment, less than a second, it was enough for Wang Xuan and other powerhouses.

There was almost no suspense. Seizing the moment when everyone paused, Wang Xuan avoided the attacks of these black-robed men, and the giant arm of the monster in his right hand slammed into the head of a black-robed man from Rakshasa City, blowing him up.

The black-robed man was hit in the head and exploded into a puddle of pulp. A white light appeared in it, and immediately disappeared into Wang Xuan's right hand.

Feeling the white light entering the body, it gathered from the right hand to the outside of the left arm. The energy was surging and squeezed out of his left arm. Hatching beast energy, still unable to grow a fourth ghost wing.

Wang Xuan let out a sigh of relief, after all, monsters like Xuanzhu are an exception. These people's true colors are beasts occupied by hatching beasts, but their fatal points are similar to those of humans. If their heads are broken, they will die immediately.

Wang Xuan used the Eye of Fear this time to affect all these people. First, he could avoid the crazy attacks of these people on him and kill the black-robed man. Second, he could also affect the justice city lord and reduce the risk of death. The pressure of everyone, otherwise, with the strength of the Justice City Lord, Mei Xiaosen, Wu Tian and others are very likely to suffer casualties.

Killing elders of justice and a black-robed man from Rakshasa City in a row, this time they finally understood that Wang Xuan did not know what special ability he had, which could make people's inner fear suddenly increase greatly. In this case, it was very difficult for everyone to completely overcome the fear, not affected.

Seeing Wang Xuan kill two people in a row, Mei Xiaosen, Bai Qianxue, Li Tianjiao, Wu Tian, Fang Taozhong, Bao Chong, and Chang Jing became more confident. They have prepared a few defense crystals. They don't want to kill the justice city lord. They just need to hold him back as much as possible so that he can't attack Wang Xuan.

While Wang Xuan smashed the black-robed man's head, the ghost wing behind him swung his body again and rushed towards one of the three black-robed men from Xuancheng.

This black-robed man turned into a rock, recovered from the momentary stagnation, opened his mouth, let out a roar, his body swayed, and he didn't know how many rock fists he punched, like a violent storm, slamming towards Wang Xuan who was pounced.

"He seems to be able to affect our sense of fear, everyone should try to restrain their minds as much as possible, and don't be dominated by fear—"

The Rakshasa elders who played the halos, stepped back and opened the distance from Wang Xuan, and shouted loudly. They are all experienced and strong. The first time the justice elders were suddenly affected, they were not able to respond for a while. Come over, as the second man in black robe was killed by Wang Xuan, they finally saw the clue, and looked at the one eye opened in the middle of Wang Xuan's forehead, which was faintly glowing with a strange light. This light made people feel inexplicably fearful. Know why.

With repeated shouts, these black-robed men relied on repeated filial piety to fight the fears generated in their bodies, but Wang Xuan's Eye of Fear completely controls these fears, making them infinitely magnified, not to mention that these black-robed men are affected by fear, even The righteous city lord was disturbed and slightly at a loss. He was caught by the blinding sun released by Mei Xiaosen. He suddenly felt that there was darkness between the heaven and the earth, and he couldn't see anything.

The two giant frost fists controlled by Chang Jing volleyed over and hit the righteous city lord firmly.

The body of the City Lord of Justice collapsed, and a large amount of frost formed on the surface immediately, and liquefied tentacles were attached to his legs, entangling him tightly.

Li Tianjiao's face was awe-inspiring, she fully controlled her hatchling beasts, and wanted to trap the justice city lord in place.

The sun controlled by Mei Xiaosen cooperated with her, one from top to bottom, the other from bottom to bottom. They all understood that it was difficult to kill the justice city lord, so at this moment, they tried their best to trap him as much as possible.

Wu Tian's bronze war spear was only one step slower than Chang Jing to stab the righteous city lord. He held the war spear in both hands, and the war spear rang, releasing a bronze luster like a cyan rainbow light.

His bronze war spear is only at the mid-range level in terms of power, but in terms of penetrating power, it is the crown of everyone.

Even if the righteous city lord was stabbed by the bronze spear, he couldn't resist it. He snorted immediately, went in on his chest and out on his back, bringing out a stream of blood, which was pierced through an important part of his heart.

If the vital point of the righteous city lord is the same as that of a normal human being, and his heart is pierced by a bronze spear, this blow can kill him.

On the other side, Wang Xuan's ghost wings converged, and pieces of steel feathers gathered close to him, forming a "ghost car armor", protecting his body inside, and a black light streaked on it, making a chi chi sound, and a large number of sparks appeared.

This is the black light emitted by the man in black robe with a single horn on his forehead. The defensive power of the "ghost car armor" is amazing, blocking the black light, leaving only a trace on the surface.

Wang Xuan kicked his feet, and while launching the "ghost car armor" to defend against the black light and another black-robed woman firing poisonous arrows, the two giant arms of monsters, one from top to bottom, smashed the rock that turned into a black-robed man. Huge arm, the other arm stretched out and grabbed his chest.

With the full power of his Eye of Fear, whether it is the one-horned black-robed man who shoots out black rays of light, the black-robed woman covered in sarcomas, or the half-rocked black-robed man, they are controlled by the power of fear, and their speed, the reaction is attenuated, especially Wang

Xuanchong in front of the rock-like black-robed man, the eye of fear sprays a force of fear, which directly acts on his heart.

Although he was trying his best to overcome his own fear, he was still shivering when he was sprayed by the power of fear. In Wang Xuan's view, the rock fist that was punched like a violent storm was all flaws.

He barely had time to react, when Wang Xuan punched the giant rock arm with a punch. In the harsh sound, a large number of cracks like spider webs appeared on the surface of his giant rock arm. Wang Xuan grabbed his chest with his other hand, five fingers. Such as steel claws grabbed into the flesh, buckled it, raised it in the air, used it as a weapon, and smashed it at a black-robed man from the "Justice City" on the other side.

The black-robed man was also affected by the Eye of Fear, and his reaction was a little slower. He just stabbed out the jet-black sharp blade he was holding, and the black-robed man who didn't want to turn his body into a rock smashed it.

"Boom", the black sharp blade in his hand was smashed open, the man in black robe knew that it was not good, and was busy retreating backwards.

How terrifying Wang Xuan's power is now, with the third ghost wing extending from the outside of the demon beast's right arm, the power of the ghost car in the body is faintly showing signs of fusion with the power of the beast, plus the power of the blue crystal scales, all in The giant arm of the beast burst out.

Grabbing the outside of the right arm of the half-body rocked black-robed man, the third ghost wing swept out with a swipe, bringing out a mysterious light in the air. The neck was cut off.

The head of the rock-turned black-robed man was covered in blood and rolled down.

At the same moment, he grabbed the body of the rock-turned black-robed man whose head had been cut off, flapped with the help of the ghost wings behind him, kicked his feet, accelerated suddenly, and with a sigh, carried the headless body of the rock-turned black-robed man, The man in black robe who was in the process of ramming and retreating.

The black-robed man knew something was wrong, and was busy trying to crush the defense crystal he just took.

As Wang Xuan killed Elder Justice and the black-robed man from Rakshasa in a row, the remaining Rakshasa Elder, Xuancheng Elder, and several black-robed man were shocked and took out the defense crystals from the storage belt, just in case.

This black slasher with black robes just had this idea, otherwise his mind would be shocked, and the eye of fear in the middle of Wang Xuan's forehead sprayed a wave of fear energy again, and this energy directly sprayed the black slasher in black robes.

Even a beast, sprayed by the power of fear, was instantly sluggish, and with a flick of his hand, he could not crush the defense crystal.

All of this happened in an instant, the defensive light curtain failed to appear, only a bang was heard, Wang Xuan carried the headless body of the Yanhua Heipao Man and smashed the black sharp black robed man.

The black man in black robe groaned, his body and the headless body rang out at the same time as the cracking of bones rang out.

A mass of white light emerged from the headless body of the rock-turned black-robed man, and the power of the world erased the fluctuations in consciousness, turned it into pure energy, and entered Wang Xuan's body.

"Reincarnation Paradise"

Once again, he absorbed a powerful energy. The outer side of Wang Xuan's left arm of the beast swelled slightly, and there was a faint sound inside, and he had abandoned the corpse of the black-robed man. The head of the black man in black robe who was hit.

This blow was so powerful that it directly smashed the head of the black man in black robes into his chest cavity and disappeared.

Hei Lixian Heipao man had tenacious vitality and did not die immediately. His body, whose head suddenly disappeared, was still shaking and trying to dodge. It exploded, spattering a lot of flesh and viscera.

This punch almost smashed the upper body of the black man in black robe, Wang Xuan shook his body, and suddenly felt a burst of exhaustion, followed by a hot stinging pain on his forehead.

After using the Eye of Fear with all his strength, he felt that the Eye of Fear and his body could not bear it.

All of this is a long story, but in fact it only took a few seconds before and after. The justice elder and the three black-robed men lost their lives one after another and were killed by Wang Xuan. Now the other party is only alive with the justice city lord, Rakshasa elder, Xuan The elders of the city and the four men in black robes.

The righteous city lord is shrouded in endless fear. Although his resistance and endurance are stronger than those of the three elders and a few people in black robes, he has also been seriously affected. The surface was frozen by frost, his legs were entangled by liquefied tentacles, and his upper body was covered by Mei Xiaosen's sun-shading cover. It could be said that, let alone stopping Wang Xuan, his own situation was extremely dangerous.

A beast-like roar sounded, and with a "bang", Mei Xiaosen's blinding sun was torn apart alive, and a large cloud of black juice splashed out.

Mei Xiaosen groaned and fell back, blood dripping from the corner of his mouth.

The upper body of the Justice City Lord, which was covered by the sun, was revealed again, but he saw his face rolled to both sides, revealing twisted muscles, and in the middle of these muscles, a fist-sized eyeball protruded.

The eyes rolled over, revealing the true face of the beast. The muscles in his body were swelling and twisting, and every muscle seemed to have life and come alive.

The frozen frost on the surface of his body shattered inch by inch, and under the action of his muscles, the bronze spear pierced through his chest and heart flew out.

The ground under his feet was constantly decomposing and turning into yellow sand. His body sank. Under the action of invisible force, the terrifying yellow sand surged upward and rose into the sky. His body was swallowed and submerged by the yellow sand. .

Li Tianjiao's face turned pale, and she stepped back. She felt that the liquefied tentacles she controlled were completely broken by the yellow sand.

Consciousness is not good, Wu Tian, Fang Taozhong, Chang Jing, Bao Chong and others who were originally surrounded by them all dodged and retreated.

The yellow sand rising into the sky turned violently, and it was about to rush towards these people. Wu Tian, Chang Jing and the others changed their faces greatly. While retreating, they were busy crushing the defense crystal. They understood that they could not stop this power. Horrible attack.

Suddenly, a figure fell from the yellow sand, hitting the ground heavily, and the originally terrifying attack was interrupted.

Just now, the Eye of Fear controlled by Wang Xuan once again burst into a powerful force, and the Justice City Lord who controlled Huang Sha wanted to attack Wu Tian and Chang Jing was attacked again. Affected by the powerful fear, he fell absentmindedly and fell to the ground. , lost his control, and the yellow sand that was originally surging up fell one after another.

At this moment, Wang Xuan has continuously absorbed the white light energy of four powerful super-state extreme powerhouses. The energy inside the left arm is surging, and a fourth ghost wing may grow at any time.

He burst out the most powerful eye of fear, endured the stinging pain on his forehead, while rushing at the other black-robed men at full speed.

The black-robed man with a single horn on his forehead stepped back while releasing black rays of light, holding the defensive crystal in his left hand, ready to crush it at any time.

Wang Xuan's Eye of Fear not only affected the Justice City Lord, but also came towards him.

Affected by the power of fear, the one-horned black-robed man shivered and stopped.

Almost when everyone thought that Wang Xuan was going to attack the one-horned black-robed man again, almost at the same moment, Wang Xuan waved his left arm, and white rays of light appeared on it. metal parts.

These parts combine to form a giant arm two meters long.

The mechanical god's arm finally reappeared, bursting with the strongest force, banging the ground, breaking through the void, breaking into the yellow sand that was falling from the sky, and slamming into the righteous city lord who fell heavily on the ground.

Wang Xuan killed Elder Justice and the three men in black robes in a row, and almost everyone knew what he was thinking, that is, to let Mei Xiaosen and others trap the city lord of justice, and he would eliminate and kill the other men in black robes one by one.

Everyone thought that he was going to attack the unicorn black robed man. Even the unicorn black robed man himself crushed the defense crystal. No one could have imagined that he would activate the mechanical **** arm at this moment. The real goal was to be struck by fear. The righteous city lord who strikes with all his eyes.

The righteous city lord is the real core and key. If he can kill him, then the danger will be eliminated. The remaining elders of Rakshasa, Elder Xuancheng and the four black-robed men are nothing to worry about.

The blow of the mechanical god's arm was already a power beyond the super-state limit. In the loud noise, the ground where the justice city lord fell was punched into a giant deep pit.

At the same time that Wang Xuan hit the mechanical god's arm with all his strength, he took out a bottle of physical strength water and drank it. The two ghost wings behind him flapped, creating a huge thrust, pushing his body toward a giant deep pit. place to pounce.

Although the justice elder and the other three black-robed men were killed by him, the justice city lord was the seventh form of existence, and Wang Xuan was not sure whether he would have the same heaven-defying vitality as the mysterious master.

At least just now his heart was pierced and he didn't die. It can be seen that his vitality is strong, far from being comparable to the justice elders and other black-robed people.

Wang Xuan rushed to the edge of the deep pit, the arm of the mechanical **** disintegrated, turned into white light and returned to his left arm, but he saw a large amount of yellow sand surging inside the deep pit, like boiling water, in these boiling yellow sand, There is flesh and blood twisted like a snake and python, looming inside.

Seeing that there was no white light, Wang Xuan understood that the Justice City Lord did not die.

Bai Qianxue is still controlling the rune formation with all her strength. She has already spit out three mouthfuls of blood. The power of the rune formation has reached its limit, suppressing the battle power of the Justice City Lord.

In addition to the rune formation, there is also Mei Xiaosen's iron-cast dragon flag, which constantly releases power to suppress the justice city lord.

Following the blow of Wang Xuan's mechanical arm, Elder Luosha, Elder Xuancheng and the other four men in black robes all retreated one after another. Life and death, if the justice city lord really died, they would turn around and flee immediately without hesitation.

Now they finally understand why the mysterious master died, I am afraid it may not be because of Wang Xuan's conspiracy, with Wang Xuan's performance, plus the cooperation of Mei Xiaosen and the others, even if it is a head-on confrontation, I am afraid they can kill the mysterious master. .

At this moment, Wang Xuan is terrifying in their eyes, and is no longer inferior to the seventh-form powerhouse.

Fortunately, the white light of the justice city lord did not appear, which means that he did not die.

Wang Xuan's thoughts moved, and the ghost wings behind him turned into steel feathers, and dozens of steel feathers shot down frantically.

The yellow sand below was turbulent, and for a while, he didn't dare to jump off rashly. As the physical strength he had just lost was recovering, a faint white light appeared in his left hand again, and he decided to use the mechanical god's arm to attack again.

His eyes of fear could sense the fear emanating from the righteous city lord under the yellow sand. He was considering whether to condense the arm of the mechanical **** to attack again. The yellow sand, which seemed to be boiling below, made a loud noise and rose into the sky, forming a streak. Upward sand pillar.

The momentum was too appalling, even Wang Xuan was shocked, he couldn't help but retreat, only to see the sand pillar rushing up thirty or forty meters high. In the sand pillar, a human figure stepped out, but it is a huge humanoid skeleton.

There was yellow sand flowing on the surface of the skeleton, mixed with flesh and blood, like small snakes of flesh and blood wrapped around the surface of the skeleton. Inside the skull, a huge one-eyed swirling, faintly glowing with a cold light, stared at Wang Xuan.

Chapter 270

This is the true face of the Justice City Lord. Wang Xuan noticed that there were many cracks on the bones of the Justice City Lord. He knew in his heart that this was the wound left by the blow of the mechanical god's arm, and he did not fully recover.

During the thought, the white light on the left arm appeared, turned into a large number of glowing metal parts, and reassembled into a mechanical arm.

The one-eye of the righteous city lord turned in his head, and he let out a low hoarse whistle. The sand column that rose up into the sky suddenly collapsed, like a sand sea waterfall, pouring down from the sky, and surging towards Wang Xuan.

He knew the power of the mechanical god's arm attack, and he attacked with all his strength.

Bai Qianxue shouted, spit out a mouthful of blood again, and sprayed it on a large number of snow-white runes under her control. The surrounding rune formation accelerated again, and the power to suppress the justice city lord was once again strengthened.

Mei Xiaosen wiped the blood from the corner of his mouth, and with a wave of his right hand, the iron cast dragon flag slammed into the deep pit with a slam. , to suppress the justice city lord with all his strength.

Even being double suppressed, the city lord of justice sank slightly, and the surging sand waterfall was affected, and the momentum was slightly exhausted.

What is really terrifying is the Eye of Fear launched by Wang Xuan.

No matter how powerful the Justice City Lord is, in this area that is only a few hundred meters away from the giant ship, invisible fear is everywhere. As long as there is fear, it is under the control of Wang Xuan's Eye of Fear.

He can magnify this fear infinitely, and the eye of fear on his forehead faintly glows, spraying the power of fear contained in it.

The city lord of Justice was shocked and fell down again along the pouring sand waterfall.

With the previous experience, he knew that it was not good. The yellow sand flowing on his body completely exploded with a bang. Almost at the same moment, the arm of the mechanical **** with the shining white light volleyed into the air, breaking the sand waterfall and blasting open. of yellow sand.

Although the Justice City Lord dodged quickly, a small half of his body was still hit. The snake-like flesh and blood wrapped around the surface of the body smashed and exploded together with the left arm bone and ribs. A huge hole was punched in the upper body, and the remaining body was slanted out. Rolling on the ground, he propped up his feet on the ground, and a large amount of yellow sand was lifted up, supporting his body, and rushing towards the outside like clouds and fog.

No one could have imagined that the dignified seventh-form powerhouse, the Justice City Lord, one of the five major City Lords, chose to escape.

The mechanical god's arm failed to completely defeat him, Wang Xuan secretly cried out a pity, and quickly took out a bottle of physical strength water and drank it again to restore a large amount of physical energy lost by just starting the mechanical god's arm.

Elder Rakshasa, Elder Xuancheng and the other four people in black robes, seeing that even the righteous city lord had fled, and where they dared to stay where they were, they immediately turned around and fled.

After the mechanical god's arm struck, it automatically decomposed into a large number of luminous metal parts. These parts turned into white rainbow lights and came towards Wang Xuan's left arm.

The ghost wings behind Wang Xuan fluttered and jumped, chasing the black-robed woman who was covered with sarcomas at the end.

The black-robed woman knew something was wrong, so she was busy firing poison arrows, and at the same time crushed the defense crystal in her hand to defend against Wang Xuan.

Wang Xuan felt that the energy in the outside of his left arm was surging, and the fourth ghost wing could grow out of it at any time. The energy of the hatchling beast of the black-robed woman in front of him was exactly what he needed.

Perhaps drawing on the energy of the black-robed woman's hatching beast, his ghost car could grow a fourth wing.

The ghost wings flapped continuously, generating a huge thrust. When he saw the black-robed woman crushing the defense crystal, a light curtain appeared. He immediately moved sideways, trying to bypass the defensive light curtain in front of him and attack again.

Suddenly the ground softened and collapsed, turning into a large amount of yellow sand, but seeing the escaped Justice City Lord, he stopped again, raised his arms, and suddenly turned all the surrounding ground into yellow sand at a distance of more than ten meters.

He just jumped out of Bai Qianxue's rune formation to suppress him in an instant, and the real combat power he originally had came back. He turned around immediately, and the real power of the seventh form exploded, instantly turning a radius of ten meters into yellow sand. Wang Xuan, who was catching up, stepped softly and fell forward, knowing that something was wrong.

In the battle with the seventh-form powerhouse, it can be said that a slight loss may kill Huangquan. At the moment of falling forward, the "ghost car armored" is activated, and the three ghost wings are combined together, forming a close proximity around the body. Armor protection without dead ends.

The power of the three ghost wings merged into one in his body, and the power of the ghost car was brought into full play. Every steel feather was vibrating slightly, relying on this vibration to counteract the external attack.

Just now, he used the "ghost car armor" to block the black light strike of the unicorn black robe man.

The black light can cut gold and jade, and is indestructible, but it can only leave traces on the surface of the "Ghost Car Armor" and cannot be cut open. It can be seen how strong the defense of the "Ghost Car Armor" is.

The city lord of justice broke out suddenly. Seeing Wang Xuan sinking in, he immediately punched out from the air with his right hand. The flesh and yellow sand attached to his right arm flew out together, intertwined with each other, and turned into a big hand formed by the fusion of flesh and yellow sand. , as big as a round table, and with a volley, it was like the top of Mount Tai, almost at the same time when Wang Xuan unfolded the "ghost car armor", it slammed heavily on it.

As long as Wang Xuan's reaction is delayed by half a second, the consequences will be disastrous.

Although he was protected by the "ghost car armor", Wang Xuan still felt his body shake, and a buzzing sound resounded in his mind. The power of this big hand was as heavy as a mountain. Chung, the strength of this power made his heart stunned.

One blow failed to seriously damage Wang Xuan, and the righteous city lord frowned, but saw Mei Xiaosen, Bai Qianxue, Wu Tian and others rushing forward, and the rune formation appeared all around again.

The fear in his heart became stronger again. The righteous city lord knew that Wang Xuan had definitely exerted some special power again. He wanted to use fear to affect himself, so he immediately stepped back and opened the distance between the two sides.

Away from the giant ship, he felt that the fear in his heart was fading.

Wang Xuan was in the "ghost car armored", rolling against the yellow sand all over the ground, and launched the Eye of Fear with all his strength, but he felt that the righteous city lord stepped back again. the idea.

The City Lord of Justice pulled away. Bai Qianxue's rune formation and Mei Xiaosen's iron-cast dragon flag couldn't keep up with him, so they couldn't suppress his power. Say one hit kill.

Stop chasing, Wang Xuan put away the "ghost car armor", and the others who rushed up, Mei Xiaosen, Bai Qianxue, Wu Tian, Li Tianjiao, and others stopped one after another. Without Wang Xuan to rush out first, how dare they approach the Justice City Lord.

The black robes such as the Justice City Lord and the fleeing Rakshasa Elder also stopped, and the two sides temporarily stopped their attacks with a distance of more than ten meters.

Wang Xuan slowly put away the eye of fear in the middle of his forehead.

The Eye of Fear is overloaded, and there is tearing pain in the forehead at this moment. Seize this opportunity and hurriedly put away the Eye of Fear and let it rest.

The flesh and blood of the Justice City Lord that was originally wrapped around the bones is growing, more and more, and gradually condensed into pieces of complete muscles, and his body is returning to its original appearance.

After Wang Xuan frowned slightly, he stepped back again. Mei Xiaosen, Bai Qianxue and the others followed him, pulling the distance between the two sides by more than twenty meters.

Seeing them retreating, the Justice City Lord and others did not approach, but stopped in place.

The face of the righteous city lord slowly grew out, covering the huge one-eyed eye, but there was no blood on the pale face. At this moment, the face was slightly twisted and looked very ugly.

In the battle just now, not only did they fail to kill the other party, but they lost four companions in a row, which was a shame.

"City Lord, this giant ship is too weird, why don't we go back to the five major cities first?" Elder Rakshasa thought that there is no chance of winning against Wang Xuan and others, but it is very dangerous. The best choice now is to return to the five major cities immediately, and then move the rescuers. As long as King Rakshasa comes back, with King Rakshasa and the righteous city lord, no matter how strange the giant ship is or how terrifying the power of Wang Xuan's fear is, they can easily kill Wang Xuan and these people.

The righteous city lord naturally understands the real meaning of Elder Rakshasa's words, but he is a seventh-form powerhouse, but he can't help a few super-states. He has a breath in his heart and feels extremely aggrieved. Neither want to leave.

Various thoughts popped up in his mind, and he was thinking about how to solve the eight people in front of him.

At this moment, he was not suppressed, his eyes glowed with terrifying divine light, and he stared at Wang Xuan, who was twenty meters away. An iron cast dragon flag was planted beside Wang Xuan, surrounded by a large formation of runes, under this double suppression, unless he can kill Mei Xiaosen and Bai Qianxue first.

But the real trouble is not the double suppression, but the fear.

His thoughts turned, and the ground around him became more and more desertified. A large amount of yellow sand was continuously boiling under the power of the Justice City Lord, and a ten-meter radius turned into a sea of sand. Even Elder Rakshasa, Elder Xuancheng and others retreated to ten meters away.

Wang Xuan watched the yellow sand on the ground boil more and more violently, and the Justice City Lord was gradually bursting with power. The elder Rakshasa behind him shot several halos, covering the Justice City Lord and enhancing his combat power.

I saw that the desertified area was getting bigger and bigger and gradually approaching. Wang Xuan did not hesitate to step back again to open the distance.

At this moment, the righteous city lord suddenly whistled low, and at a distance of 20 to 30 meters, he controlled the yellow sand and set off a sandstorm. Mei Xiaosen, Bai Qianxue and others came.

Despite being 20 to 30 meters away, they can still control such a terrifying sandstorm. Everyone was shocked by the true power of the unrepressed Justice City Lord. Of course, there is also Elder Rakshasa's halo enhancement effect. It can be said that in the halo enhancement, The current Justice City Lord is even stronger than the average seventh form powerhouse.

"Retreat!" Wang Xuan immediately retreated and pulled away. Although the closer he got to the giant ship, the greater the fear and the greater the danger, but at this moment, everyone was reluctant to confront the sandstorm controlled by the Justice City Lord.

The people who were retreating quickly found that yellow sand appeared in all directions, and they were already shrouded in a sandstorm.

"It's too arrogant, you think you can kill us even if we are so far apart?" Wu Tian let out a loud shout, and the bronze war spear in his right hand slammed to the ground to regenerate, and a blue rainbow lit up from the war spear, and immediately Soaring into the sky, he began to swing the spear with both hands, making a whistling sound, and his whole body was shrouded in a cloud of blue rainbows, fighting against the swept-in sandstorm.

Fang Taozhong held the scepter in his right hand, and the sand and stones on the surrounding ground fluttered and piled up around the crowd, forming a stone wall to protect everyone. Under his control, the stone wall pushed forward and blasted into the sandstorm. , want to open a channel.

Fang Taozhong and Wu Tian opened the way, and everyone followed closely behind, rushing out from the whistling sandstorm. No matter how terrifying the sandstorm was, the Justice City Lord was in control at a distance of 20 to 30 meters. In fact, it is difficult to strangle everyone at the super-state limit level.

While Wang Xuan followed the crowd back, he was vigilant. With the knowledge of the righteous city lord, how could he not know that the sandstorm could not kill them, so why did he do this?

When he saw Bai Qianxue retreating with everyone, the rune formation she was maintaining naturally collapsed, and he immediately understood that the real purpose of the Justice City Lord was to make everyone retreat so that Bai Qianxue could not maintain the rune formation. , that means his real killer move...

As soon as he had this idea, he knew something was wrong, and immediately opened the Eye of Fear, only to see a figure descend silently in the roaring sandstorm around him. If the Eye of Fear could not sense the other's fear, even Wang Xuan would It is difficult to find the righteous city lord in this whistling and yellow sand.

He used the sandstorm to cover himself up, and had already sneaked in quietly, ready to launch a fatal blow. When Wang Xuan caught him with the Eye of Fear, the Justice City Lord had already appeared in front of him, and there was no rune formation and iron cast dragon flag to suppress him. The righteous city lord, how fast is the speed, so fast that Wang Xuan only had time to activate the Eye of Fear and strike with all his strength.

The power of the Eye of Fear sprayed over, and the righteous city lord let out a muffled groan, and his body was stagnant. Wang Xuan was busy taking the opportunity to sacrifice the "ghost car armor", and he heard a "bang", and the justice city lord returned to normal. , hit the "ghost car armor" with a terrifying force, Wang Xuan was hit and tumbled and flew out.

The unsuppressed Justice City Lord is too strong, even the Eye of Terror can only affect him for a moment.

At the same moment, a scream rang out, and Wang Xuan, who was knocked away, saw only then that in the sandstorm whistling around, a big hand formed by condensed yellow sand appeared, hitting the ground from top to bottom, He blasted the crowd who had just rushed out of the sandstorm.

Wang Xuan immediately understood that the real goal of the main city lord is not himself. He may know that it is difficult to kill him instantly, so Huang Sha's big hand is the real killing move.

His main targets were Bai Qianxue and Mei Xiaosen, but due to the effect of the Eye of Fear just now, and the fact that everyone was rushing out at full speed, Huang Sha's big hand volley went wrong and failed to hit the righteous city lord except Wang Xuan who wanted to kill the most. The dead Bai Qianxue or Mei Xiaosen, but instead hit Li Tianjiao.

Huang Sha's big hand volleyed into the air, and the power was so great. Under the blow, Li Tianjiao exploded along with the armor she was wearing. Immediately, her bones were shattered and her flesh was smashed into a lump of mud, with white light flying out. Before he could even let out a scream, he was shot to death.

Seeing Li Tianjiao being smashed into flesh, everyone was helpless, and they all felt shivering. Then they watched Wang Xuan roll in the air, rushing out of the sandstorm, and the justice city lord swayed and chased after him. With his right hand, he was about to shoot at Mei Xiaosen. , Wang Xuan, who was rolling in the air, let out a violent roar: "Quickly suppress him!"

Once again, the Eye of Fear was fully activated, and the three ghost wings on the back opened and disintegrated together, turning into steel feathers in the sky, shaped like a violent storm, and madly blasted towards the Justice City Lord.

Bai Qianxue and Mei Xiaosen heard Wang Xuan's violent roar, they shuddered, they came back to their senses, and immediately stopped escaping.

Li Tianjiao would die because they were startled by the seemingly terrifying sandstorm, and their instinct was to flee quickly, which gave the Justice City host a chance. If they didn't mess up, Li Tianjiao wouldn't die at all.

The City Lord of Justice was again affected by Wang Xuan's Eye of Fear, his body was slightly stagnant, and the sound of steel feathers chi chi chi chi was incessantly heard.

Mei Xiaosen and Bai Qianxue seized this opportunity, and the double suppression of the iron cast dragon clan and the rune pattern appeared. The justice city lord only felt his body sink, and the speed slowed down. The muscles of the whole body squirmed, and the steel feathers that pierced in were quilted. Muscle squeezing out.

Wang Xuan's left arm was glowing with white light, and he was about to activate the mechanical arm when suddenly there was a loud bang in the direction of the giant ship behind.

Suddenly, everyone was taken aback and instinctively looked towards the giant ship.

Even the Lord of Justice City raised his head, but saw a piece of the hull corroded and fractured on the surface of the giant ship hundreds of meters away, fell down, smashed heavily on the ground, and made a loud noise.

As the hull broke and fell, a gap appeared on the surface of the hull, and the black shadow of Mohu, who was struggling inside, immediately swarmed out and fell like a dumpling.

Everyone's eyes widened when they saw this scene, and even Justice City forgot to continue attacking Wang Xuan, but instinctively took a few steps back.

"How could it be..." Mei Xiaosen saw from a distance, also opened his eyes wide, with a horrified look on his face.

A terrifying low whistle sounded, and everyone's eyesight was extremely strong. Although they were hundreds of meters away in the dark, they could still clearly see a large number of humanoid monsters appearing in the gap in the hull and swarming out.

These humanoid monsters, Wang Xuan, are no strangers, and they are all three-meter-high Ala trolls.

The strength of the Ala troll is roughly equivalent to the top powerhouse in the super state~www.mtlnovel.com~ For Wang Xuan and others, there is nothing to fear.

But the number of God trolls pouring out at this moment is really amazing, and thousands of God trolls rushed out of the gap in the blink of an eye.

They jumped from the gap to the ground, raised their heads, and let out an earth-shattering roar, which seemed to be full of excitement.

Wang Xuan saw that among these Ala trolls, there were still a large number of trolls with four arms. These were the elite Ala trolls, their strength was stronger than that of ordinary Ala trolls, about the equivalent of a super peak powerhouse.

They let out a mad roar, and soon they were covered in darkness, rushing towards the direction of Wang Xuan and others.

Behind them, more and more Ala trolls emerged from the gap, but among these Ala trolls, more and more elite trolls with four arms were present, and soon, the first one with six arms Ara trolls appear, then the second, the third...

The six-armed Ala troll has a combat power comparable to that of a super-extreme powerhouse.
