

Last Building on Earth Chapter 281-285

Chapter 281

Wang Xuan seized the opportunity, and two metal tentacles slammed into King Rakshasa's head together.

King Rakshasa is worthy of being the seventh-form powerhouse. Under such circumstances, he still reluctantly moved his head and avoided the key point of his head. The metal bar slammed into his right shoulder with a crisp sound, and his shoulder immediately shattered. , an arm broke and flew out.

Without the protection of the Rakshasa battle body, his flesh and blood could not resist.

King Rakshasa let out a roar, just about to take a step to move, and at the same time stretched out his hand to take out the healing water and wanted to drink it, but suddenly his body froze, and he was once again sucked by Zhao Lei's "First Sage Ban")

Tang Ruoyu seized the opportunity, the white tiger giant sword in his hand slashed diagonally, and a snow-white sword qi appeared, while Luo Wang poured the healing water into his mouth, he leaned to dodge.

Zhao Lei's "First Sage Banning" followed by "Pillar of Holy Light" volleyed down and hit Rakshasa.

After being hit by this "pillar of holy light", the Rakshasa King could not completely avoid it, but only heard a "chi" sound, the snow-white sword swept diagonally, and the Rakshasa King roared again, the healing water and the other arm. flew out.

More than a thousand people have gathered in the entire central city. They are all watching the servants in the square silently, watching Wang Xuan and Rakshasa King fight one-on-one, then Tang Ruoyu, Gu Manyao, Zhao Lei and Zhang. Hao several people appeared, no matter how strong King Sha was, he couldn't stand it.

No one came to help King Rakshasa, even if there were people who had doubts about Wang Xuan when they saw this, seeing Tang, Gu Manyao and others helping Wang Xuan, they understood in their hearts.

Everything Wang Xuan said is true, he is the real human being, and the black-robed people such as the Rakshasa King and the elders of the five cities are all monsters swallowed by hatching beasts.

Bai Yan, Tie Jun, Yu Shanshan, and Yao Tiande appeared one after another along the transmission channel, and others who were familiar with Wang Xuan later, You Kai, Sun Yaofei, Yi Wu, Mou Xing, Xi Xue, Chu Dong, and others also appeared.

Later, Wan Qianying, the former Phoenix leader who also came to "Insect", Gongyang Xuan of "Rakshasa", Xu Jian of Xuan Gang, Qiu Yuanfeng, and Huang Qingzhi of Dynasty also appeared.

After that, Wang Siqi, Lin Baiyu, and Geng Jianming, who had obtained the power of the devil together with Zhao Lei, Zhang Haofei and others, also came.

More and more acquaintances appeared and squeezed forward along the crowd, but he didn't make a move, knowing that the battle was about to end.

When Tang Ruoyu slashed off the other arm of King Rakshasa, the king was silently approaching from behind, and the giant arm of the beast hit King Rakshasa on the head.

On the giant arm of the beast, the blue dim light lit up, and the head of the Rakshasa King shattered like a watermelon. With the head and arms, the body rotated in place, and then went seven or eight meters away, and fell heavily.

A blazing white light appeared, with strong vitality and fluctuations of consciousness, filled with Luo's resentment and unwillingness.

At this moment, he was full of remorse, and he knew that he was too conceited. If he was careful enough, he did not come to Wang Xuan alone, but brought him with him. The current situation will be completely reversed, and he will never fall into this stage.

It is a pity that it is too late to regret. The power of the world has come quietly. Although King Rakshasa is a strong seventh form, he still has no ability to resist. He is immediately wiped out by the power of the world. Wang Xuan's body.

This energy entered his body, and Wang Xuanran felt his body vibrate. He felt that the energy went up from his right arm, and soon reached his body, all the way down, and poured into the outside of his right leg.

Originally containing powerful energy, the ghost car that was vibrating endlessly and could break through the growth at any time, once again absorbed the energy of this seventh form of powerhouse, and immediately made a strange crunching sound in the right leg.

Not only did Wang Xuan sense this voice, but even Tang Ruoyu and Gu Manyao heard it and looked at Wang's right leg together.

Wang Xuan took a deep breath, realizing that his ghost car finally grew again after taking the energy of the righteous city lord, the elders of the five cities, the black robe, and the energy of the Rakshasa King.

The ghost car was surging and tossing in the body, which had completely overwhelmed his original power of monsters. The two ghost wings behind him opened with a bang, followed by the ghost wings on the outside of his arms. Four The wings vibrated together, and a powerful ghost car force was released from the four ghost wings, and the faint car rolled out at high speed in the void

A strange sound came.

This time, the change was even more astonishing. As the fifth ghost wing on the outside of his right leg was slowly extending, the strange sound became more and more intense.

The newly grown fifth ghost wing is the same as the wings on his legs, only one meter long, and the five ghost wings resonate together endlessly.

In the roar of the five ghost wings, a new energy was taking shape in his body, and new abilities emerged in his mind.

He is integrated with the ghost car, the ghost car is growing, and his ability to understand and master the ghost car is getting more and more perfect, including the perfection and power of the ghost car armor and the ghost car at night, including the emergence of a third new force.

With the realization of the new ability, the resonance of the five ghost wings became stronger and stronger. A new energy appeared in his blood. When this amount appeared, Wang Xuan suddenly understood that he was awakening the sleeping ghost in his body. car blood.

The third force is to awaken the blood of the ghost car.

The five ghost wings suddenly vibrated violently and spread out together, creating an invisible force. Gu Manyao, Zhao Lei, and Zhang Haofei who wanted to get close to him couldn't stand it and retreated one after another. Only a certain existence in Tang Ruoyu's body resembled What was received, a white tiger phantom appeared immediately, and a faint tiger roar sounded.

Everyone raised their heads in surprise. Above the void, a giant white tiger with a length of 100 meters, entrenched in the upper middle, was roaring at the sky, and seemed to be full of vigilance.

At the same moment, the dark clouds above closed, and the sky and the earth suddenly became dark. In the black, a vague shadow was looming, and everyone could not see the appearance of the black shadow. , slowly descending, approaching the white shadow below.

The blood of the ghost car stimulates the awakening, and Wang Xuan feels the power born in the blood is strengthening himself. Although his magical beast has not grown to break through to the seventh form, the ghost car in his body has evolved to a level that is not inferior to the seventh form. Hatching beasts.

His body is strengthening.

It is the third enhancement after the two enhancements made by the blue crystal scales and the corpse-turning mushroom.

The bones all over his body are ringing, and his body emits a faint treasure light. He seems to be shrouded in a layer of light, and a vague black shadow resonates in the void. .

With that tiger roar, there was a strange sound in the void, which was the sound of a ghost car, as if the void was crushed and shattered.

The others couldn't stand it, so they all gave way, suddenly, Zhang Haofei let out a low growl, and stopped, his eyes glowed with a terrifying light, his body kept twisting, his bones were cracking, and a huge black shadow seemed to feel the white tiger and the white tiger. The oppression of the ghost force, unwilling to be humiliated, suddenly appeared.

This swelled phantom, with a man, a cow, and three heads, is the second demon **** Agares among the seventy-two demon gods.

The phantom of Agares appeared, and immediately swelled up to a height of 100 meters. His body was huge, not inferior to the white tiger. The three heads were raised together and made different sounds, but these three sounds were all vague. .

Immediately after Zhang Haofei, Zhao Lei's body also swelled to reveal a huge demonic phantom, with a face like a skull with a long inverted triangle, eyes with eyeballs, like two black holes. He was the master of insight, the king of the past, and the master of the future. Equally titled Demon God Vassago.

It seems to have suffered a chain reaction, Bai Yan, Yu Shanshan, Yao Tiande, Wang Siqi, Lin Baiyu, and Jianming's ghosts in the body appeared one after another)

The phantoms of the eight demon gods resonated with each other, and the phantom of any demon **** was as high as 100 meters, almost obscuring the sky above the central city.

Originally, the white tiger phantom roared towards the sky, confronting the vaguely dark ghost car hidden in the dark clouds, but with the appearance of the eight demon gods, the white tiger immediately changed its target and roared towards the eight demon gods.

The ghost shadow hidden in the dark cloud is constantly descending, and it is no longer aimed at Bai at this moment, and the strange sound it makes is also aimed at the eight demon gods.

Although the ghost car and the white tiger are in a state of hostility, in the face of the demon god, they unite to fight against the demon **** phantom.

The phantoms of each other are intertwined and mirror each other, and ten kinds of power are colliding, but among these phantoms, none of them have a high level of growth and evolution

The blurry black shadows hanging down from the dark clouds were covered with pitch-black wings one by one, and all the demon **** phantoms avoided them.

Wang Xuan let out a low whistle, the bones all over his body crackled, and the five ghost wings of his body opened together. Just now, the ghost car bloodline he awakened finally completed the third strengthening of his body. , almost not inferior to the breakthrough of the super-powerful, feeling the power flowing in the body, it is like the sound of a bell and drum, wherever it goes, a tyrannical force seems to be coming out through the body, and when you open your eyes, there is a Power is about to erupt.

This powerful feeling made Wang Xuan take a deep breath, and the ghost car phantom reflected on the void suppressed the crowd, and suppressed the phantoms of the eight demon gods to a head.

Of course, this is not because the ghost car is stronger than the eight demon gods, but Wang Xuan is stronger than the hosts of the eight demon gods, Zhao Lei, Zhang Haofei, and Bai Yan, and he can exert more car power.

The phantoms of the eight demon gods were constantly pressed by the falling ghost cars, and they were about to be destroyed one after another. Suddenly Bai Yan was shocked. The normal human eyes protruded and turned into a pair of huge fly-like compound eyes. Outside of his body, the huge fly phantom, which was almost impossible to see, suddenly became clear, and immediately lifted it up, hitting the blurry black shadow of the ghost car.

The first devil, Lord of the Flies.

Beelzebub seemed to have woken up from an ancient slumber. The other seven demon gods were dispersing, but the shadow of the first demon, Beelzebub, became clearer and clearer. Bai Yan seemed to be completely controlled and could only open up unconsciously. The mouth made a strange note, no one could understand what he was saying, only the phantom of the huge fly could be seen becoming more and more real, rising continuously, and the dark shadow of the ghost car was completely pushed away.

The dark clouds in the sky fluctuated violently, and five dark wings appeared from them. Each wing was as huge as the sky. There was a thunderous explosion in the void.

Although it is only a phantom power, it is still life-threatening. Many super-powerful people feel that their hearts are like a stone and can't breathe.

Zhao Lei, Zhang Haofei and the others all recovered, and they also stepped back.

Only ghosts and flies are fighting.

In the confrontation between the two sides in the central city, the ground was shaking slightly. Wang Xuan watched Bai Yan being controlled by the devil, and his mouth continued to emit weirdness. The confrontation between the ghost car and the lord of the flies in the void was evenly matched, standing three steps in a row. When he came to Bai Yan, he stretched out his right hand, crossed Bai Yan's neck, and lifted him up in the air.

Shanshan, who retreated to the back, saw Wang Xuan suddenly shot at Bai Yan.

"Trust Wang Xuan!"

She just whispered four words, Yu Shanshan was startled, and then stopped.

Although Beelzebub is known as the number one demon **** and has infinite power, Bai Yan is not Wang Xuan's opponent.

With a muffled hum, Bai Yan shuddered like a clever man, the original fly's compound eyes shrunk, returning to normal eyes, a muffled sound in his mouth, and he woke up.

As Bai Yan woke up, the original muffled thunder in the void suddenly disappeared, but the five pitch-black wings covered by the ghost car shrank, and the Lord of the Flies inside had disappeared.

Immediately after, the dark clouds above slowly dissipated, and the dark shadow of the car disappeared.

"This totem of the East...the demon **** against the West..."

In the crowd in the distance, there was someone with a vertical eye on his forehead, faintly emitting a faint light, and seemed to see something, muttered to himself in a low voice, and his face showed an extremely solemn look.

All the phantoms in the sky above Zhongcheng disappeared, Bai Yan recovered, his face was pale, looking at Wang Xuan, he knew what to say.

Wang Xuan reached out and patted him on the shoulder, then walked to the side of King Rakshasa's body, and found that his storage belt had been destroyed, and cried out a pity.

Otherwise, such a city lord should have a special treasure.

With the five ghost wings restrained, everyone around is looking at him, and there are already one or two thousand people gathered in the central city at this moment)

Seeing that these people did not speak, Wang Xuan raised his voice and said solemnly, "The Rakshasa King Sutra was swallowed by the hatching beast

The soul and intention of human beings have been completely reduced to monsters. Their purpose is to turn us into the same monsters. In their eyes, we humans are just hosts for us to grow. I don't know if there will be more changes on the upper floors. There are many monsters like Rakshasa King, but we must be prepared for war, I hope everyone can do everything possible to improve themselves, we can only fight against this monster when we are strong!"

Wang Xuan's voice spread far and wide, and now everyone basically believed his words. As his words fell, many people responded loudly.

"Yes, we all have to work harder!"

"I only know now that the hatching beasts used us as their hosts, and their ultimate goal is to devour us and occupy our bodies!"

"As long as our own will is strong, it will be so easy for hatching beasts to devour us."

Didn't I hear before that only when the super state is broken, will the hatching beasts retaliate? These monsters will attack at this time. "

"These monsters are really insidious and despicable."

In the crowd's discussion, many people who were familiar with Wang Xuan greeted each other and greeted each other. The others saw that the matter here was over, and began to disperse one after another, to continue the tasks that they needed to complete and improve their strength.

Tang Yu was relatively withdrawn, and was about to leave quietly, but was called by the king.

He thought of the city and was going to take her to meet the chance.

When Tang Ruoyu heard about the city of Buddha Kingdom, he was slightly surprised, then nodded, expressing his willingness to go with him.

He didn't tell too many people about the Buddhist city. After all, he didn't know anything about the situation in the Buddhist city.

There are too many ordinary super-powers in the central city. In case the news of these people winning the city of the country floods, entering with the strength of these people is too dangerous. Wang Xuan has an instinctive sense that the city of the Buddha country is too dangerous. , is by no means simple. If you don't have enough strength, don't enter to touch this opportunity.

In addition to the people he was familiar with who were left behind by him, there were also Geng Jianming, Lin Baiyu and Wang Siqi who possessed the power of demon gods. All three of them had demon gods in their bodies and could try their luck~www.mtlnovel.com~ In addition to that Besides, even though Wan Qianying, Xu Jian, Qiu Yuanfeng and others had a good relationship with him, they didn't tell him.

The one or two thousand people who originally gathered scattered one after another, and only they remained in the central city and gathered in the skill building.

Wang Xuan wanted to wait for Elder Phoenix to completely eradicate this kind of monster. This time, after waiting for long, Elder Phoenix suddenly appeared in the building in a ball of light.)

She fled here before, took out 200 medium-sized crystal scales, and hid in the primary skill stone gate for 20 hours. She believed that Wang Xuan was chasing it here, and she still had to wait patiently for 20 hours.

He has too many possibilities in twenty hours. Maybe the Rakshasa King will return, or if other city lords appear, no matter which one appears, they will definitely understand what happened in the five major cities and will not spare Wang Xuan.

She felt that it was relatively safe to come out on her own in twenty hours.

She didn't expect that the skill building in front of her was surrounded by people.

Wang Xuan, Tang Ruoyu, Gu Manyao, Zhao Lei, Zhang Haofei, Bai Yan, Tie Jun and others all gathered around and looked at Elder Phoenix who appeared.

Elder Phoenix breathed a sigh of relief, knowing that something was wrong, and his first reaction was to rush out from the door.

Chapter 282

Among the people, Wang Xuan and Tang Ruoyu reacted the fastest, but Tang Ruoyu did not take action, but handed over Elder Phoenix to Wang Xuan.

She could see that Wang Xuan's ghost car needs a lot of energy to grow, and Wang Xuan has been here for so long, and now that Elder Phoenix has finally arrived, she can't fight for it.

In fact, the white tiger in her body, like the ghost car, also needs a lot of energy to feed. The stronger the energy, the stronger the white tiger can grow.

With a wave of Wang Xuan's right hand, a metal tentacle stabbed out into the air. With the growth of the fifth ghost wing, the power of the ghost car in his body is now surging, and its power is even greater than that of a demon beast.

The metal tentacles moved at will, and with a snort, they pierced through Elder Phoenix's chest from behind.

Elder Phoenix let out a roar, crushing one of the several defensive crystals hidden in his hand to form a defensive light curtain, shaking his hand and shooting a white light, trying to blast away Zhao Lei and Zhang Haofei who were blocking the door in front of him. people.

Unfortunately, the speed at which she crushed the defense crystal couldn't keep up with Wang Xuan's metal tentacles. As soon as the defense light curtain appeared, the metal tentacles pierced through her body, emerged from the front chest, and then wrapped around her back, immediately tying her into brown. son.

Pulling back, Wang Xuan was about to punch his fist, and found that Elder Phoenix had once again crushed a defensive crystal in the roar, revealing a new defensive light curtain.

With a frown, Wang Xuan quietly released the other three metal tentacles, all of which reached the limit of seven meters in length. "Papapa" Three crisp sounds, Elder Phoenix couldn't stop him, his brain cracked and he died immediately.

After killing Elder Phoenix, Wang Xuan withdrew the four metal tentacles that were stretched out, and absorbed a mass of white light released from his body. This mass of energy entered his body and reached the outside of his left leg. Wang Xuan knew that the ghost car could still grow. The sixth wing.

It's just that as the ghost car gets stronger and stronger, the energy needed to grow a sixth wing becomes more and more unimaginable. The energy absorbed by killing the elder Phoenix enters the outer side of the left leg, like a mud cow entering the sea, hardly making any waves.

He ripped off the storage belt from Elder Phoenix's waist and put it into his own Xumi belt. Because there are so many people, Wang Xuan didn't take a closer look. He didn't care too much about the things in it.

He finally succeeded in killing the Elder Phoenix. Now, in the entire five major cities, except for the Phoenix City Lord and the King City City Lord who did not show up, the rest of the monsters that were occupied by the hatched beasts were basically killed.

"Let's go, let's go to the No. 10 safe area to see."

Wang Xuan knew that everyone was anxiously waiting to see the city of Buddha Kingdom, and he was also a little worried about the current situation of Mei Xiaosen and Bai Qianxue. The passage, came to the No. 10 safe area.

As soon as he walked out of the teleportation channel, he could see the city of Buddhism in the distance, which was only 20 to 30 meters above the ground, and the giant ship that was upside down with a height of 1,000 meters in the distance.

Not far from the teleportation channel, the power of the world was surging even Zhao Lei, Gu Manyao and others could feel it.

In the turbulent power of the world, a big banner rattled. Mei Xiaosen, Bai Qianxue, Wu Tian, Fang Taozhong, Chang Jing, and Bao Chong all sat cross-legged and fell into meditation with their eyes closed. They are all shrouded in the power of the surging world, and they are in the quenching body. _o_m

Wang Xuan can understand at a glance that they have not yet succeeded in tempering their bodies and failed to break through. It seems that it will take some time.

In the gap of the giant ship in the distance, there are still sporadic Ara trolls appearing, but there are not many. These Ara trolls jumped down the gap and entered the city of Buddha. They are very important to everyone here. , not interested at all.

Gu Manyao, Zhao Lei, Zhang Haofei, Bai Yan, Yu Shanshan, Yao Tiande and others were all looking at everything in front of them with shocking expressions in their eyes.

"Is that the city of Buddhism?" Zhang Haofei murmured.

"It looks unusual, but to be honest, everything here is completely contrary to common sense, no matter how strange it is, it is normal." Zhao Lei shook his head as he spoke, opened the "Sacred Mark" and "Sacred Eye", and peeped from a distance. The city of Buddhism, I hope to see something.

After careful observation, there was a ray of light in his eyes, as if he had noticed, but he didn't say anything.

Behind him are Geng Jianming, Lin Baiyu and Wang Siqi.

They are not too familiar with everyone, but they traveled together in the insect country before, and now the demon gods are sleeping in their bodies, and their future is boundless.

As long as they can erase the self-consciousness of the devil in their bodies, or make them merge with the consciousness of the devil, and truly bring out the power of the devil, these people will be the mainstay of mankind in the future.

"They are still breaking through, and it should take some time. We will go together after they have successfully broken through." Wang Xuan waved his hand, indicating that everyone should not disturb the six Mei Xiaosen, but quietly retreated and came to the transmission channel again.

"While there is still some time, everyone can move freely, and it is limited to three hours, and then come here again ***"

Wang Xuan thought about it, Mei Xiaosen said before that it would take at least a whole day to break through the seventh form, that is 24 hours, and counting the time, they should have less than 21 since the breakthrough. hours, so he made an appointment to come back here three hours later, exactly one full day.

Everyone else nodded slightly, Tang Ruoyu did not leave, but found a place to sit cross-legged, and she also began to feel the power of the world.

With her current combat power and the power of the white tiger growing in her body, she can already match the average seventh form powerhouse, and has enough ability to seek a breakthrough, but if she wants to break through to the seventh form, she mainly borrows the power of the world, which takes a long time to master and comprehend.

Taking advantage of Mei Xiaosen's breakthrough, the power of the world is strong here, and it is a good opportunity to understand and master the power of the world.

Seeing Tang Ruoyu's performance, everyone was not stupid, and they all sat down cross-legged. Except for Tie Jun, they were either sleeping with demon gods in their bodies, or possessed the power of blood erosion.

In the end, only Wang Xuan and Tie Jun left.

Wang Xuan decided to seize these three hours to try the high-level skill Shimen, while Tie Jun wanted to hurry up to do the task. He needed to work harder than everyone else to catch up with them.

He didn't want to be a burden to everyone.

Wang Xuan came to the central city again, but instead of entering the skill building directly, he went to the exchange office first.

He now has 7,354 medium-sized crystal scales and 1,866 small-sized crystal scales. There are too many and it is troublesome to use. Especially when entering the advanced skill stone gate, a thousand medium-sized crystal scales are needed every hour. Throw a thousand medium crystal scales into it.

So he needs to exchange it for a large crystal scale before using it.

Enter the exchange office, first exchange the medium crystal scales for large crystals, it is much simpler, directly pour all the medium crystal scales into a special metal box, the number will be automatically displayed on it, and the number of medium crystal scales will be fixed at 7354 Then Wang Xuan chose to exchange 7,000 medium-sized crystal scales for 70 large-sized crystal scales.

Then from the other side of the box, 70 large crystal scales and 345 medium crystal scales appeared.

Putting away these crystal scales, Wang Xuan poured all the small crystal scales into it again, showing 1866 small crystal scales, which were exchanged for 18 medium crystal scales and 66 small crystal scales.

Now, he has 70 large crystal scales, 372 medium crystal scales, and 66 small crystal scales.

So many crystal scales are a rare wealth in the entire third-layer world, and even the Lord of the Five Cities may not be able to possess it.

After leaving the exchange shop, Wang Xuan entered the skill building contentedly. This time, he came to the high-level skill stone gate.

"One hour, one thousand medium crystal scales, and ten large crystal scales are really expensive. I hope it won't disappoint me."

Wang Xuan took out ten large crystals and put them in.

As ten large crystals were put in, the high-level skill Shimen began to emit a faint light. Wang Xuan walked in, merged into the light, and slowly melted into it.

Passing through the stone gate, you will see a white space, surrounded by walls of light, each with a white gate of light, and at the center of the white space, there is a visible black fog.

This mass of black mist covered there, motionless, when he entered, the black mist began to fluctuate, heading towards.

Wang Xuan opened the eye of the illustrated book and immediately captured the information of this black fog.

"Name: Mist Demon, Race: Dark Demon Clan, Dangerous Degree: ★★★★★☆ (six and a half stars), Mist Demon is a terrifying and strange existence in the Dark Demon Clan, with no fixed form, its core It is a high-level dark energy crystal that contains powerful energy. Only by hitting this high-level dark energy, can the fog demon be killed. The hatching beast integrates dark energy, and there is a certain probability to comprehend the advanced hatching beast skill 'Dark Battle Body'"

After sensing the information, Wang Xuan immediately understood that the situation in this high-level skill Shimen is similar to that of the primary and intermediate level. They all have monsters with different attributes. If you kill these monsters, you can get energy crystals with different attributes. The only difference is that the high-level Shimen can get It is a high-level energy crystal, and there is a certain probability to obtain advanced hatching beast skills.

The fog demon in front of him has a dark energy crystal, which is not suitable for his magical beast.

The fog demon soared upwards, drifted rapidly, and approached him.

Wang Xuan entered "Ghost Sneak", swayed his body, and quickly bypassed, watching the speed of the fog demon's attack, which was already close to the level of super state collapse. @ Essence/Book Pavilion·No mistake starting~~

"It seems that if you want to enter this high-level stone gate, you must at least need the strength of the peak of the super state, otherwise it may be dangerous to enter."

With a thought, Wang Xuan accelerated again, and rushed out twenty or thirty meters with a bang. He had avoided the fog demon, reached the light wall on the right, and passed through the light door of the light wall.

This light gate is also a huge white space. There is a rock giant here. The danger level is also six and a half stars.

Wang Xuan's body didn't stop, the rock giant just noticed him, and he continued to shoot out, passing through another door of light again, and entering a new white space.

After entering different white spaces five times in a row, he finally found the monster he needed.

Steel giant, six-star and half-dangerous, three meters high, his whole body is made of steel, and the middle of his forehead is inlaid with high-grade metal energy crystals. After fusion, he has a certain chance to comprehend the advanced hatching beast skill "Life Metal".

Taking a deep breath, Wang Xuan immediately jumped up, and the four metal tentacles slammed over his head.

The steel giant has the strength close to the super state collapse, but facing the current Wang Xuan, it is vulnerable.

In the crisp sound, Wang Xuan did not even show the giant arm of the beast, so he killed the steel giant and successfully obtained a high-grade metal energy crystal.

With the previous experience, Wang Xuan did not immediately fuse this high-grade metal energy, but put it away, swayed his body, raced against time, and went to the new white space.

In this way, he constantly shuttled in the white space everywhere, and other attribute monsters, he directly avoided, only when he encountered monsters with high-level metal energy crystals, he would shoot.

At the end of an hour, he left here and appeared in the skill building. He took out all the high-level metal crystals from the Sumeru mustard space. During this hour, he collected twenty-four metal crystals.

All of these twenty-four metal energy crystals were fused into the monster at one time, and the endless energy was swallowed by the monster. Wang Xuan felt the fluctuation of the white light in his right hand. It seemed that a new power was about to be born, but it was always poor. After a little something, it finally calmed down.

Wang Xuan understood that this was because the number of metal energy crystals fused was not enough, so he could not really comprehend and obtain the advanced hatching beast skills.

Immediately take out ten large crystal scales again, and enter the advanced skill stone gate again.

In this hour, he harvested twenty-nine high-grade metal crystals.

Twenty-nine metal energy crystals were fused again. As the metal energy crystals were swallowed and fused by the beasts one by one, the white light in the right hand fluctuated more and more violently. The sound of eggs smashed, and a new power surged out from it. This power carried the breath of life, as if a new life was born.

On Wang Xuan's right hand, the metal material automatically extended and turned into four metal tentacles. The breath of life was released from the four metal tentacles, as if it had been endowed with life and turned into real life.

Master the advanced hatching beast skill "Life Metal".

The intermediate skill of the hatching beast is "active metal", which makes the metal active, as if it came alive, while the advanced hatching beast skill is "life metal".

Going a step further, these metals seemed to have real life and turned into living beings. Four metal tentacles were flying in the air, like four giant pythons that were seven meters long, alive.

Wang Xuan felt the power brought by this change, and when he thought about it, two metal tentacles immediately wrapped around his arms, fused with flesh and blood, and turned into giant arms of beasts.

With the mastery of life metal, his giant arm of monsters has undergone new changes. Originally, the giant arm of monsters was about one meter in length, but now it has become larger and more sturdy, with a length of at least one meter. Two or so.

"This feeling....."

Wang Xuan clenched his fists tightly, feeling the power in the further growing beast arm, especially the surface of the skin, the activation of life metal, so that every inch of the muscle of the beast arm is screwed with life, and it can be used in him. Between the thoughts, the density of a certain place is increased, and it has a strong and incomparable tenacity.

Before, he fought recklessly with King Rakshasa, using the giant arm of beast to hit the metal fist of King Rakshasa. After dozens of punches, his giant arm of beast could not bear it, and wounds began to appear, because the strength of the giant arm of beast was not as strong. The opponent's Rakshasa fighting body, and now Wang Xuan is confident that if he fights recklessly again, relying on the further strengthening of "life metal", the strength of his current monster arm should not be inferior to Rakshasa King's metal fist.

On this day, first the ghost car grew to get the fifth wing, and then he realized the advanced skill "Life Metal" of the beast. After two consecutive upgrades, Wang Xuan had unprecedented confidence.

Now, even without the help of the power of the mechanical god's arm, he still has the confidence to truly fight against the seventh-form powerhouse like King Rakshasa.

Compared with ordinary seventh forms such as Xuanzhu and Justice City Lord, his advantages will be further expanded.

"It's almost time to enter the city of Buddhaland and take a chance."

Wang Xuan restrained the giant arm of the beast and the metal tentacles, and left here with a sway. When he reappeared, he had already appeared in the transmission channel of the central city.

Activate the teleportation channel, leave here, and return to the No. 10 safe zone.

Walking out of the transmission channel in the safe area, Tang Ruoyu, Gu Manyao, Zhao Lei, Zhang Haofei, Bai Yan and others were all sitting in silent meditation, taking advantage of this opportunity to feel the power of the world.

As for Mei Xiaosen, Bai Qianxue and the others, who were in the violently fluctuating power of the world, they had reached the key point of breakthrough. Wang Xuan could see that their faces were covered in sweat, and they should be at the most critical and dangerous moment.

If they can beat them, they will be the seventh form of powerhouses. If they can't beat them, they will be extremely dangerous and even life-threatening.

Wang Xuan appeared quietly, did not speak, and sat down while feeling the power of the world, while waiting for Mei Xiaosen and the others to break through.

After a while, Tie Jun also appeared. The agreed three hours came, and he came here to ***, but the six Mei Xiaosen still did not make a breakthrough. Seeing Wang Xuan and others sitting on the side of meditation, he also sat down quietly.

I don't know how long it took, Wang Xuan was in meditation, and he could barely sense the passage of time. He only vaguely felt that the sky seemed to be gradually brightening again. Suddenly, a low whistle sounded, like a dragon roaring and a tiger roaring.

Wang Xuan immediately opened his eyes and looked towards Mei Xiaosen.

To his surprise, the first breakthrough was not Mei Xiaosen as he thought~www.mtlnovel.com~ but Bao Chong.

At this moment, Bao Chong suddenly stood up, his eyes were wide open, like a vengeful king, exuding an extremely strong aura.

This is the breath of the seventh-form powerhouse, tempered by the power of the world, such as smelting into steel, his hatching beast finally broke through the super-state and was promoted to the more powerful seventh-form. First Release Update@

A battle axe appeared on his right hand. At this moment, the battle axe was changing. The length of the battle axe had grown to 2.5 meters. .

But at this moment, the giant battle axe was releasing a devastating pressure. Bao Chong held the giant battle axe in his right hand, and he just waved it at will, releasing a line of divine light inside, cutting the ground as easily as cutting tofu.

After that, he stopped whistling, restrained the breath released from his body, let out a long sigh, and threw the two-meter-five giant battle axe up, flew into the air, and then fell down, with a cry. It fell on his body, melted into it, and disappeared.

He looked at the five Mei Xiaosen who were still sitting cross-legged in the somewhat violent power of the world, and stepped ten meters in one step and came to Wang Xuan and the others.

Wang Xuan, Tang Ruoyu, Gu Manyao, Zhao Lei and Zhang Haofei all opened their eyes.

Bao Chong's face showed a contented look, Wang Xuan felt the aura fluctuations in his body, and sure enough, once he broke through, he felt a little unfathomable.

Wang Xuan stood up, Bao Chong showed a kind smile at him, and said: "Wang Xuan, thank you, if you hadn't appeared and killed the Xuanzhu and the Justice City Lord, we want to break through, but we don't know how to wait until when."

This sentence is sincere, and there is no falsehood. If Wang Xuan had not appeared and killed the Xuanzhu and the Justice City Lord in a row, Bao Chong and the others would not have dared to try to break through, not to mention that they had successfully broken through and were promoted to the seventh form of powerhouse. .

Wang Xuan smiled and said, "King Rakshasa is also dead."

Bao Chong was stunned for a moment, then his eyes flashed, and he said, "You even killed him?"

Seeing Wang Xuan nod, Bao Chong took a long breath and said, "It is said that King Rakshasa is stronger than Lord Xuan, I can't think of you..." As he said that, he shook his head and sighed, for Wang Xuan, he had to obey.

Wang Xuan said: "Yes, this Rakshasa King is very strong, and we also joined forces to kill him."

"By the way, what is the seventh form above this super state?"

He has always been curious about what this seventh form will be.

Bao Chong smiled and said: "The seventh form is called perfection. It should be said that the hatching beast has grown to this form and has grown and evolved to perfection. It may reach the perfect form, and it will reach its limit."

"The seventh form, perfect." Wang Xuan expressed his curiosity, wondering what would happen to the magical beast in the perfect form.

After that, Tang Ruoyu and others were introduced to him.

At this moment, Chang Jing, who was sitting cross-legged, suddenly opened his eyes, and there was a crisp sound all over his body, and pieces of frost appeared, growling slightly in his mouth, and stood up abruptly.

Everyone immediately looked over, knowing that Chang Jing should have also broken through.

I saw Chang Jing growling in a low voice, and more and more frost appeared all over his body. Pieces of ice covered his whole body, and he was soon piled up into a pile of translucent giant ice. He seemed to be frozen inside by a seal. .

Only a few tens of seconds slower than Chang Jing, Fang Taozhong also opened his eyes, a scepter appeared in his right hand, and he jumped up suddenly, the scepter in his hand was changing drastically.

Suddenly, I heard "crack clap clap" incessantly. Cracks in the cobwebs appeared on the surface of the pile of ice outside Chang Jing, followed by a "bang", which exploded into countless fist-sized ice cubes. The terrifying power hit the ground, and immediately punched fist-sized holes in the ground, disappearing into them.

Chang Jing broke through.

Followed by Fang Tao Zhong.

Watching them break through one after another, a smile appeared on Wang Xuan's face. Now he and Tang Ruoyu can fight against the seventh-form powerhouse, and as the six of them break through one after another, this is a force that cannot be underestimated. , even if the fourth layer of the world is really controlled by hatching beasts, they at least have the power to fight, they are no longer walking on thin ice like before, and they have almost no resistance.

For example, Tao Zhong and Chang Jing were a little later, and Bai Qianxue and Wu Tian were about to break through.

Wu Tian's bronze spear grew to two meters five, and the surface was covered with a layer of bronze luster.

Bai Qianxue's rune armor, which originally only covered half of her body, now extends to her lower body. She opened her eyes, and between her eyebrows, there were runes flashing constantly. Around her body, countless runes converged, like a lotus flower.

The five broke through one after another, but Mei Xiaosen, the leader of the crowd, was the last to break through.

When he broke through, the iron cast dragon flag was hunting and hunting, and the hatched beasts appeared in the sun, as if covering the upper part. In terms of power, he was the most prosperous.

Wang Xuan understood a little. The time it takes for these people to break through should be the longer it takes for them to become stronger. Among them, Mei Xiaosen is the strongest, so he will break through at the latest.

With Mei Xiaosen's breakthrough, now the six people have all been promoted to the perfect powerhouse in the seventh form.

Wang Xuan watched everyone break through one by one, with a smile on his face, just as he was about to say a few words of congratulations, suddenly there was an inexplicable feeling of discomfort in his heart, but he couldn't say what was uncomfortable, so he couldn't help turning his head to look in the direction of Buddha City. Go, could it be that there is something wrong in the Buddha City?

"Ha h"

Mei Xiaosen succeeded in breaking through and looked very excited. He looked at everyone and found that the people who made the breakthrough were all excited. Only Bai Qianxue's brows had runes condensing, and they soon formed the eyes of runes. .

Wang Xuan knew that Bai Qianxue had activated the "Eye of the Rune King" again.

The Eye of the Rune King is very special. It can see the real situation in their bodies, know who is human, and whose soul consciousness has been swallowed by the hatching beast.

He had also relied on her before, and saw that the elders of the five cities and the people in black robes were all beasts.

Bai Qianxue was obviously very cautious. After breaking through, she activated the "Eye of the Rune King" to see the situation of Mei Xiaosen, Wu Tian and others.

After all, in the process of breaking through the super state and being promoted to perfection, the hatching beasts they have will have the first real backlash, trying to devour their souls.

Therefore, in theory, once they are promoted to perfect powerhouses, there is a certain possibility that they will become beasts replaced by hatching beasts.

Of course, because being able to become a powerhouse with a super-state limit, his will and perseverance are very tenacious. In the absence of external force or special circumstances, it is very difficult for hatching beasts to take advantage of the opportunity to devour their souls, and it is almost impossible to succeed.

This is also the reason why Xuanzhu and others must take advantage of their breakthrough.

Bai Qianxue looked at the past one by one, and didn't seem to see anything. After that, she slowly put away the eyes of the Rune King, and finally a smile appeared on her face, and she walked up and joined the crowd.

Mei Xiaosen looked up at the Hanging Buddha City not far away, then looked at Bai Qianxue and Wang Xuan, and said, "Do you want to go in now?"

He still respected the meaning of Bai Qianxue and Wang Xuan. He also saw Tang Ruoyu, Gu Manyao and others, and knew that they should be friends invited by Wang Xuan.

Wang Xuan nodded and said, "I don't mind, how about you?" He just said this when he suddenly saw Bai Qianxue flipped his right hand and slammed it on Chang Jing's head beside him.

The incident happened suddenly, not to mention that Chang Jing was unprepared, even if Wang Xuan was as strong as now, his heart skipped a beat, but he could not have guessed that Bai Qianxue would suddenly attack Chang Jing.

Although Chang Jing is a seventh-form powerhouse, Bai Qianxue is also a seventh-form powerhouse, her strength is not inferior to him, and she is very close and suddenly shoots. The right arm exploded. Poor Chang Jing didn't even have time to let out a scream, and Bai Qianxue's head shattered and exploded.

Everyone was taken aback, Wang Xuan reacted the fastest, and immediately opened the distance, the ghost wings on his body spread, and the four metal tentacles stretched out, vaguely sealing Bai Qianxue around.

"Qianxue?" Mei Xiaosen screamed even more, his face full of shock. Could it be that Bai Qianxue has become a monster? He just couldn't believe it.

"Don't be nervous." Instead, Bai Qianxue seemed very calm. She killed Chang Jing with one blow. Seeing that Chang Jing, who had turned into a headless corpse, collapsed, a white light appeared and immediately disappeared into her body.

"Chang Jing has been devoured by the hatching beast. He wants to disguise himself as a human and mix in with us. I just saw it, and if I approach him without saying anything, I want to make a sudden move."

Hearing Bai Qianxue's words, Mei Xiaosen let out a long sigh, followed by a look of sadness. Looking at Chang Jing, who had turned into a corpse, he sighed sadly, and said, "I can't imagine... this will happen..."

The joy of breaking through into a perfect powerhouse just now disappeared.

Fang Taozhong, Wu Tian, and Bao Chong all showed gloomy expressions. They all knew that Bai Qianxue had the eyes of the Rune King and could tell whether it was a human or a hatching beast. It was not unusual for Bai Qianxue to see Chang Jing's true face.

Wang Xuan looked at Chang Jing, who had turned into a headless corpse, and remembered that he suddenly felt a little uncomfortable before. He originally thought that something had happened in the Buddha City, but now it seems that maybe it is the monster instinct that Chang Jing is out. problem, that's why this kind of uncomfortable instinctive feeling appeared.

However, this kind of feeling is very weak. If there is no such thing, Wang Xuan found that after Chang Jing died, this strange feeling did not completely disappear. It seems that this feeling is not because Chang Jing was swallowed by the hatching beast. The greatest possibility is still there. Possibly from a Buddhist city.

Gu Manyao, Zhao Lei, Zhang Haofei and the others were all stunned and silent. No one could have imagined that the six people had just been promoted to perfect powerhouses, but suddenly someone was killed. One of them was replaced by a hatching beast.

The eyes they looked at Bai Qianxue were a little surprised. Now they knew that Bai Qianxue had special abilities and could know who was human and who was hatching beast.

Bai Qianxue took off Chang Jing's storage belt and put it away. Now that the person died, the materials left behind should not be wasted.

"Let's go." Mei Xiaosen put away the iron cast dragon flag that had been stuck on the side. Chang Jing's death made him feel a little bad, his face became very serious, and his body swayed, and he headed towards the city of the Buddhist country that was suspended in the air. rush away.

Wu Tian, Fang Taozhong, Bao Chong and Bai Qianxue all followed closely behind.

Wang Xuan did not follow immediately, but looked at the backs of the five people, and then looked at Chang Jing's headless corpse. He always felt that something was wrong, frowned slightly, and then followed.

Seeing that Wang Xuan was moving, others followed suit. For them, they are all following Wang Xuan at the moment.

Soon a group of people came to the bottom of the city of Buddha Kingdom. Upwards twenty or thirty meters is the huge city hanging in the air. The city wall was damaged in many places. With their current ability, they could easily jump up.

There are still sporadic Ara trolls appearing one after another, and they all jumped up, jumped into the air, and drilled in along the damage of the city wall.

Troll Ala didn't think about attacking them, and everyone didn't bother to pay attention to them. Mei Xiaosen jumped up first. Now he is a perfect powerhouse, and his strength has improved too much. He easily jumped to the top and fell into one of them He didn't get into the damaged part of the city wall immediately, and while looking inside, he gestured to the people below, indicating that it was safe inside.

Bai Qianxue, Wu Tian, Fang Taozhong and Bao Chong jumped up one after another, followed by Wang Xuan, Tang Ruoyu, Gu Manyao, Zhao Lei and others.

Everyone followed the gap in the city wall and drilled in one after another.

Falling from the gap, stepping on the ground below, the ground is covered with cyan slate, but many slates are damaged and broken, and there are criss-crossing cracks everywhere. It seems that a fierce battle has occurred here, and the damage is serious.

In addition to the serious damage to the blue stone slabs on the ground, there are also a large number of collapsed and broken blue stone pillars.

These cyan stone pillars of different lengths fell to the ground, looking in a mess.

In front of it is a badly damaged building. The upper part seems to have been chipped away. Judging from the remaining part, this building should have been a very large temple.

In front of them were the God trolls who had come in before. They took big strides, stepped over the blue stone pillars that fell to the ground, and rushed towards the heavily damaged temple in front of them.

"Let's just follow these God trolls, maybe we can find something." Mei Xiaosen expressed his opinion, pointed at the God trolls who were rushing towards the temple, and then looked at Bai Qianxue and Wang Xuan, asking their opinions .

Wang Xuan couldn't see anything for a while, and nodded slightly, agreeing with Mei Xiaosen's opinion.

Bai Qianxue also nodded.

Zhao Lei showed the "Holy Eye" in his right hand, and looked around from time to time, as if he wanted to see something.

The others had no opinion either. The group chased the group of God trolls in front and quickly entered the severely damaged temple.

Inside the temple, Wang Xuan saw a large number of collapsed giant Buddha statues on the ground. These statues were badly damaged, but it was strange that the bodies of the Buddha statues were almost completely shattered, and only the head remained relatively intact.

These Buddha statues are huge, and the heads of any Buddha statues are taller than them. Now there are such giant heads of Buddha statues everywhere, which looks a bit weird.

"Strange." Zhao Lei noticed this immediately, a look of surprise on his face.

Wang Xuan saw the group of God trolls who came in one step ahead of them, circling the heads of these huge Buddha statues in a constant circle, seemingly unable to get out.

Mei Xiaosen, who was headed, did not continue to enter, but stopped.

"Qianxue, can you see what's wrong? Those Ala trolls seem to be lost there, constantly circling in circles."

Mei Xiaosen looked solemn and looked around while talking, but he couldn't see anything wrong for the time being.

Bai Qianxue snorted, and a rune appeared on her forehead, forming the appearance of an eye, and it was the Eye of the Rune King that appeared.

Through the eyes of the Rune King, she was looking around carefully.

Zhao Lei also opened the "Sacred Mark" and "Sacred Eye". Soon, he came to Wang Xuan and whispered: "There seems to be a problem with the head of this Buddha statue all over the floor."

Wang Xuan had already suspected it for a long time. Hearing what he said, he hummed softly and said, "Then let's try it out and see if we can destroy the heads of these Buddha statues."

Bai Qianxue followed suit and said, "Let's destroy the heads of these Buddha statues together. Someone used the heads of these Buddha statues to set up a maze-like formation. As long as the heads of these Buddha statues are destroyed, the formation can be broken. "

"Okay." Mei Xiaosen nodded and said, "Then let's all take action together and destroy the heads of these Buddha statues."

As he spoke, he stretched out his right hand, and the hatching beast that had evolved to a perfect form appeared in the sun, like a mass of dark matter surging out, immediately rushing towards the head of the giant Buddha statue facing him.

The head of the clay Buddha statue was facing him, with a smile on his face.

As the sun slammed on, the head of the smiling Buddha statue was immediately covered, and there was a crackling sound inside. How could the clay statue of the Buddha withstand the power of the sun, and immediately began to shatter.

Bao Chong showed the giant battle axe that was 2.5 meters long. He was holding the cumbersome giant axe in his right hand. With a simple swing, a divine light appeared and struck the head of another Buddha statue.

The head of the Buddha statue was split open, and there was flesh and blood from the cracked wound, and a large amount of blood gushed out from it.

When this scene appeared, Bao Chong was taken aback and stopped immediately. Inside the head of this clay statue was actually flesh and blood?

Mei Xiaosen also quickly felt that something was wrong, and put away the sun, only to see that the head of the Buddha statue that had just been covered by it had been torn apart, and there was a corpse of Ara troll inside. Internal organs flowed out.

"What's the matter? The heads of these Buddha statues are made of mud and hollow inside, holding the corpse of the troll God?" Mei Xiaosen was shocked.

"It's not just Ara troll." Wu Tian's voice sounded from the other side. He was holding a bronze spear and smashed the head of a Buddha statue. The head of the Buddha statue was not the body of Ara troll, but a troll. The corpse of the cyan fox.

"This is the Green Fox King."

Wang Xuan recognized it immediately. This Qinghu King is the king of the green fox beasts, and his strength is far stronger than that of ordinary green fox beasts. He had seen the descendants of the Buddha, and he never imagined that there would be the corpse of a green fox king in the head of the Buddha statue.

Zhao Lei, Zhang Haofei, Gu Manyao, and others all smashed the heads of some Buddha statues one after another. UUkanshu.com actually contained corpses. Most of them were the corpses of trolls. Carcasses of powerful monsters living in the forest, such as the Iron Bear King or the Four-Gibbon King.

Wang Xuan has already guessed that these monsters are not simple, they are basically kings of the same race. They should also be attracted by this Buddhist city. They entered here. The result is the same as these trolls. inside the head of these Buddha statues and died.

Moreover, these corpses have a common characteristic, that is, they died horribly. Basically, their whole bodies were twisted and their bones were broken. The three-meter-high Ala troll was stuffed into the head of the Buddha statue, which was only about one person tall. It was squeezed into it forcibly, and it completely lost its original appearance.

Everyone thought that the heads of these Buddha statues were strange. After the heads of many Buddha statues were easily smashed, and a terrifyingly twisted corpse appeared inside, the Ara giants in front of them circled around the heads of the Buddha statues that had not yet been destroyed. The demons didn't seem to get out of trouble, they were still circling the heads of the Buddha statues, but at a much slower pace.

They swayed when they walked now, as if they were drunk, their faces were twisted and ferocious, and they seemed unspeakably strange.

Chapter 284

"Everyone be careful!" Mei Xiaosen shouted in a louder voice, and with a flick of his right hand, an iron cast dragon flag flew out, suddenly separated from it, and turned into a large number of small dragon flags, which were pinned to the heads of different Buddha statues.

As he was promoted to the perfect powerhouse, his iron-cast dragon flag obviously had more changes and became more powerful.

The heads of these Buddha statues, which were stabbed by the iron cast dragon flag, immediately split open, and corpses appeared inside. Most of them were God trolls, and there were a few corpses of monsters belonging to this forest.

The heads of these Buddha statues were smashed, and the God trolls who had circled them suddenly raised their heads and turned their heads to look at them.

These God trolls, with twisted faces and bloodshot eyes, looked very terrifying. They suddenly opened their mouths, let out a roar, and rushed towards them with violent force.

Ordinary Ara trolls are only super-level top-level strengths. Although there are sporadic Ara troll elites that are comparable to the super-state peak series, everyone has not paid attention to them. They are just amazed at their changes. Lost, lost in madness.

Tang Ruoyu didn't say a word, he swayed forward, the white giant sword appeared, and he released the small white tiger lying on it.

A tiger roar sounded, and the white tiger leaped out from the sword, its body swelled, and it fell to the ground and turned into a giant white tiger with a length of seven meters.

The giant white tiger jumped out and threw an Ala troll directly to the ground, biting the head of the Ala troll with a mouthful of blood.

It looks very ferocious, and it needs enough energy to grow and evolve to become stronger, similar to the ghost car in Wang Xuan's body.

Rush into this group of mad Ala trolls, and the white tiger began to slaughter.

Everyone took action one after another. There were five perfect powerhouses, plus Wang Xuan and Tang Ruoyu, who could rival the perfect powerhouses. They were crushing them all the way. When they saw the head of the Buddha statue that was not damaged, they shot it. Destroyed, there is a corpse hidden in the head of each Buddha statue.

Wang Xuan seemed a little restless. While releasing four metal tentacles to attack the trolls approaching him, he silently watched Mei Xiaosen, Bai Qianxue, Wu Tian, Fang Taozhong and Bao Chong. Chang Jing's headless corpse appeared.

Saying that Chang Jing was swallowed by the hatching beast is just a one-sided statement by Bai Ganxue, how to prove that what she said must be the truth?

The energy gained from killing these trolls is close to dispensable for Wang Xuan's ghost car in his body. If the ghost car wants to grow again, it needs the energy of a stronger person.

The crowd quickly rushed to the end, where there was a half-length giant Buddha statue, the upper body disappeared, and the lower body sat cross-legged, blocking the front of the crowd.

Bai Qianxue suddenly stretched out her right hand and said, "Destroy this Buddha statue and the passage will be opened."

As she spoke, the snow-white runes on the surface of her body emerged, and flew out along the right hand, turning into a rune rainbow light, slamming on the bust of the giant Buddha statue.

A clack sounded, and the attacked giant Buddha statue immediately began to shatter, with a large number of spider web cracks appearing on the surface, swaying, and began to shatter and collapse.

Wu Tian threw the bronze war spear in his hand, and the war spear whistled, dragging a cyan light rainbow, hitting the bust of the Buddha statue, and with a loud bang, with the bronze war spear as the center, it exploded in all directions.

As the Buddha bust shattered and a large amount of blood gushed out from it, Wang Xuan frowned. The bust of the Buddha was actually hollow, and there were a lot of corpses piled up.

These corpses are still dominated by Ara trolls, and there are some powerful monsters like the Dryad King or the Forest Wolf King.

Wu Tian's bronze spear was too powerful. Under the explosion, he tore apart a large number of corpses hidden in the bust of the Buddha statue, and blood rushed out and poured out towards the crowd.

Soon everyone felt that something was wrong. No matter how many corpses were piled up in the bust of the Buddha, it was impossible to form so much blood.

There is something wrong with this blood.

"Everyone, don't get contaminated with this blood!" Mei Xiaosen said as he manifested his hatchling beast, which spread out from the sun, like a wall, blocking the front of everyone.

Fang Taozhong held the scepter in his right hand and pointed forward, and a large number of broken cyan slates on the ground immediately flew up, stacking up on each other into a wall, blocking the blood from the impact.

Yu Shanshan took a step forward with her hands.

When she stretched out, a huge light curtain was opened, and she, Bai Yan, Wang Xuan and others were protected within it.

Her hatchling beast light mirror has evolved to a super state, and now there is a demon sleeping in her body, her strength has improved by leaps and bounds, and the light curtain that is now stretched is huge enough to protect everyone, and the rushing blood is completely blocked by the light curtain, unable to get close to the crowd, Yu Shanshan's expression remained unchanged, obviously blocking it easily.

The surging blood flooded in all directions along the ground, and penetrated down through the cracks in the ground. The gushing blood only lasted for a few seconds, then quickly became smaller and eventually disappeared.

Yu Shanshan put away the defensive light curtain.

Wang Xuan watched as the bust of the Buddha statue in front of him shattered, and inside there were a large number of trolls and monster corpses destroyed by Wutian's bronze spear. Mei Xiaosen slowly approached, holding the iron-cast dragon flag.

Although he is a perfect powerhouse, he does not dare to be careless when entering this mysterious and unpredictable Buddhist city.

"Where's Lin Baiyu?"

Suddenly, someone in the crowd shouted.

Wang Xuan was startled and turned his head to look. The woman who suddenly spoke was a woman named Wang Siqi, who originally belonged to the Phoenix Town of Insect Town, and is now one of the people parasitized by the eight demon gods.

With a surprised look on her face, she kept looking around.

"Lin Baiyu disappeared?" Geng Jianming, who was on the other side of her, also called out: "Yes, I remember he was on my right hand, why did he suddenly disappear?"

Lin Baiyu was also one of the eight people who were parasitized by the demon gods. Wang Xuan remembered that they entered here with him. There were twelve people in total, plus Mei Xiaosen and Bai Qianxue, they were seventeen people.

And now, no matter how he counted, there were only sixteen people, and Lin Baiyu had disappeared mysteriously.

"Everyone calm down, think about it, when did you finally notice Lin Baiyu? When did he disappear?" Mei Xiaosen hurriedly walked over, spoke in a deep voice, and looked at Wang Siqi and Geng Jianming as he spoke.

Both Wang Siqi and Geng Jianming shook their heads, confused.

"I saw him before, but I didn't care anymore. I just remembered when Wang Siqi mentioned his name." Geng Jianming had always been calm, but at this moment, there were also beads of sweat on his forehead.

He felt that it was a little strange here. Lin Baiyu's strength was not inferior to them, he was a super strong man, and the demon **** was sleeping in his body. How could he suddenly disappear silently.

"Could it be that he accidentally fell from this crack in the ground..." Wu Tian spoke while recalling the bronze spear, but stopped halfway through, because although there are many criss-crossing cracks in this piece of ground, they are not wide, and the widest point is no more than one foot. A big living person can't fall at all, not to mention that even if they fall carelessly, they should still scream for help, how could they disappear without a sound.

"Qianxue, can you see where this Lin Baiyu went?" Mei Xiaosen immediately looked at Bai Qianxue.

In Bai Qianxue's forehead, the Eye of the Rune King was constantly flickering, peeping around, and then she shook her head and said, "There is a special power here that can influence and interfere with me, including what I just said about destroying the Buddha statue is the key. , I'm afraid it may not be accurate, maybe this special force deliberately made me make such a judgment."

When she said this, her face has become a little ugly.

When everyone heard it, their hearts froze even more.

"Zhao Lei, have you found anything?" Wang Xuan Zao opened the Eye of the Pokédex, cooperated with the Eye of Terror and the instinctive sensing of Warcraft, hoping to find something, and asked in a low voice.

Zhao Lei shook his head, and said softly with a serious face: "My holy eye can't see it either."

The "Sacred Eye" was opened on the back of his right hand, and the "Sacred Eye" combined with the "Sacred Scar", and it was spinning, but just like Bai Qianxue, he couldn't see where the disappeared Lin Baiyu went.

Suddenly, Wang Xuan felt something in his heart, and suddenly turned his head to look to the right, Bai Yan and Yu Shanshan were standing on his right. @ Essence/Book Pavilion·No mistake starting~~

"What's wrong in the end, I always feel like something happened at that moment, but I can't see it..."

Wang Xuan frowned, Bai Yan and Yu Shanshan saw Wang Xuan staring at them all the time, so they also looked at him.

"Yes, I remember that there should be three people on my right." Wang Xuan's heart skipped a beat.

Thinking of what was wrong, he hurriedly turned around and looked at everyone around him.

Mei Xiaosen, Bai Qianxue, Wu Tian, Gu Manyao, Tang Ruoyu, Zhao Lei...

Wang Xuan was busy counting the number of people, including himself, the total number was fifteen.

It was only sixteen people just now, but now it has become fifteen people, and one less?

"Zhang Haofei, where is Zhang Haofei?" Wang Xuan said suddenly.

Gu Manyao, Zhao Lei, Bai Yan and the others looked at him in amazement, and then they were busy looking at each other. At this time, everyone realized that Zhang Haofei in the crowd had disappeared.

First Lin Baiyu, now Zhang Haofei, and the two disappeared mysteriously. Everyone's face changed. All of a sudden, everyone was in danger. Fifteen people formed a circle, facing outside the circle, each other They looked at each other, afraid that they would be the next missing person. @ Essence/Book Pavilion*First update~~

Wang Xuan even used the Eye of Fear with all his strength to sense and capture the emotion of fear. If Lin Baiyu and Zhang Haofei were still alive, although they did not know what they had encountered, they would definitely have an emotion of fear. Through the Eye of Fear, they might be able to find their location.

"Bai Yan, I remember Zhang Haofei was beside you just now. Did you notice how he disappeared?" Wang Xuan asked with a solemn expression while sensing the power of fear. There were three people, it was Zhang Haofei, Bai Yan, and Yu Shanshan, but he didn't take a closer look, let alone how Zhang Haofei disappeared. When he felt something was wrong and turned to the right, he only saw Bai Yan, Yu Shanshan and Zhang Haofei. It's like disappearing out of thin air.

Bai Yan's face was very ugly, and cold sweat was slowly seeping out of his forehead. He, who has always been taciturn, was also a little excited at the moment, and he said: "I... I remember Zhang Haofei was on my left, but I didn't know what was going on just now, it seemed that there was something wrong. Something changed and I turned around and he was gone."

Wang Xuan immediately looked at him and said, "It seems that there has been some kind of change? Can you explain in detail, this may be very important."

Hearing their conversation, many people looked over.

Bai Yan was trying hard to recall, and after thinking about it, he said, "It seems... this feeling is like a sudden change in space. I don't know how to describe it."

"There has been some kind of change in space." Wang Xuan repeated this sentence in his mouth, with a contemplative look on his face, and looked around.

Mei Xiaosen, Bai Qianxue, Zhao Lei, Gu Manyao, and others all had thoughtful expressions on their faces. Now everyone was full of tension. The sudden and mysterious disappearance of Lin Baiyu and Zhang Haofei, unknown whether they were alive or dead, caused huge psychological pressure to everyone. Find out the reason as soon as possible, I am afraid that they will also be in danger.

Wang Xuan looked at the corpses on the ground, and the broken half-length Buddha statue facing him was hollow and filled with various monster corpses. He thought that the heads of the Buddha statues were also stuffed with monster corpses such as Ala Troll. At that time, he had doubts about these. How did the monster appear in the head of the Buddha statue, and now he heard what Bai Yan said about the change in space and the disappearance of Lin Baiyu and Zhang Haofei, and his heart suddenly moved.

"Could it be that Zhang Haofei and Lin Baiyu also ended up in the same fate as these Ala trolls? Space change, does it mean... a certain space transfer ability that can directly transfer them from one space to another space? For example, inside the Buddha statue. space?"

This thought suddenly popped into Wang Xuan's mind, if it is true, then this ability is too terrifying, and who is leading this ability?

"The situation here is very wrong, let's get out of here first."

Mei Xiaosen's voice sounded, nailing an iron cast dragon flag in his hand to the ground, releasing an endless stream of energy, spreading around, with the help of the dragon flag, he was also sensing the surrounding, but he didn't feel anything and felt uneasy. , the idea of retreating and leaving.

No matter how good the treasure is hidden in this Buddhist city, it still needs life to get it. If you throw your life here inexplicably, it is better to leave.

Everyone basically had the same idea as Mei Xiaosen. Hearing his proposal, several people responded immediately. Zhao Lei couldn't help but said, "What about the missing Zhang Haofei and Lin Baiyu? Don't you care?"

Mei Xiaosen glanced at him, but said nothing, Bao Chong said, "Now we are a mud bodhisattva crossing the river, and we can't protect ourselves. Let's leave here first."

Mei Xiaosen no longer hesitated, and immediately turned around and ran back, followed by Bai Qianxue, Wu Tian and the others.

Wang Xuan showed a hint of hesitation. He also thought about the situation of Zhang Haofei and Lin Baiyu, but there is really no better solution right now. It's too weird here, and he doesn't dare to stay any longer. He can only leave with Mei Xiaosen and the others.

Everyone just ran back for 30 or 40 meters, and the leaders Mei Xiaosen and Wu Tian stopped again, and every face became very ugly.

The original exit has disappeared, and the surrounding environment has changed unknowingly. It should have been the exit. I don't know when the ground collapsed into a huge deep pit, and a giant clay sculpture Buddha head was revealed in the deep pit. The house is buried in a deep pit, down along the Buddha's head, it is pitch black, and nothing can be seen clearly.

Mei Xiaosen, who was headed, had an ugly face, snorted from his nostrils, and waved his right hand violently, and an iron cast dragon flag appeared in the sky, fell down, and nailed it towards the center of this giant Buddha head.

He thought that the head of the Buddha statue that appeared before and the inside of the half-length Buddha statue had corpses. Is there also a corpse in the giant Buddha head below?

The iron cast dragon flag was nailed to the Buddha's head and sunk in. Unexpectedly, this time the Buddha's head did not shatter as easily as before. @ Essence/Book Pavilion·No mistake starting~~

Wu Tian carried the bronze war spear and was ready to shoot.

Bai Qianxue suddenly shouted: "This Buddha head is weird, everyone back!" She said as she quickly backed away.

Almost at the same moment, the ground she just stood on suddenly collapsed, and she almost fell.

Bai Ganxue reacted quickly and failed to fall, but Wu Tian was a step late, his feet suddenly stepped in the air, and the cyan slate he had just stood on fell down together with this piece of ground.

He was taken aback by the suddenness of the incident, but fortunately, as a perfect powerhouse in the seventh form, he reacted quickly, although he was not confused, he let out a low shout, and the bronze war spear held in his right hand slammed down, and a A huge cyan rainbow light pierced out of the spear and slashed towards the Buddha head below.

He wanted to use the reaction force of the cyan rainbow light to break into the Buddha's head to rise into the air to avoid falling.

In addition to Wu Tian, Fang Tao Bell also fell.

He noticed that his body was falling, and he immediately waved his scepter to control the falling cyan slates, put them together again, support himself, and then go a little further on the cyan slate, jumped, and jumped back steadily.

Wang Xuan, Tang Ruoyu and others were a little farther away from the deep pit. Now that the ground suddenly collapsed, they reacted and retreated.

The surroundings were shaking, the ground around the deep pit was collapsing downwards, and the area of the deep pit continued to expand.

Wang Xuan saw that something was wrong with Wu Tian, and when he stretched out his right hand, a metal tentacle flew out, immediately entangled him, and pulled him back.

Wu Tian had just landed beside him, but he saw a loud bang sounded from the deep pit below, the giant Buddha head in the deep pit was shaking, the ground kept collapsing, and the situation became more and more severe, and everyone began to flee back quickly. In the dark pit, a giant bergamot as big as the sky rose up.

This clay sculpture of Buddha's hand moved at this moment, swayed, emerged from the deep pit, and made a gesture to catch everyone.

Everyone's faces changed, and while they stepped back, they showed their own means, preparing to fight against the clay sculpture Buddha's hand that was about to be caught~www.mtnovel.com~ Boom!" With a loud and earth-shattering sound, the clay sculpture Buddha's hand was only stretched halfway, and suddenly burst from it. .

In the explosion of the bergamot, a huge phantom appeared.

This phantom has three heads of man, cow, and sheep. It emerges from the hands of the clay sculpture Buddha and covers it. If there is a roar, a phantom hand sweeps across and pats the giant Buddha head in the deep pit. .

There was a crackling sound, the giant Buddha head cracked open, and a large amount of blood spurted out from it.

Wang Xuan, who was retreating, stopped, and when he saw the huge phantom with three heads, he knew that this was Agares, the devil sleeping in Zhang Haofei's body.

This time, the power of the demon **** was unprecedentedly powerful. Obviously, Zhang Haofei was in a crisis of life and death.

Chapter 285

Yu Shanshan opened the mask again, protecting everyone in it, watching the giant bergamot shatter, the flesh and blood flying inside, the demon god's phantom became more and more real. Down, the Buddha head in the deep pit is shattering.

Wang Xuan saw that the broken Buddha's hand was empty, and there were a large number of corpses in it that were dismantled and shattered by the terrifying force. Most of these corpses were Ara trolls. Zhang Haofei was in it. Natural eruption, powerful and unprecedented.

Mei Xiaosen, Bai Qianxue, Wu Tian, Fang Taozhong and Bao Chong were inexplicably shocked.

Although they were all perfect powerhouses in the seventh form, they couldn't fight against this demonic power. They never expected that among the group of people Wang Xuan brought, there were people with such terrifying power hidden in their bodies.

Watching Zhang Haofei emerge from the giant Buddha's hands, Wang Xuan suddenly realized that his previous guess was correct.

There is some kind of mysterious power hidden here, which can move people from space A to space B, including a large number of Ara trolls who entered here before, the green fox king, forest wolf king, tree demon king and other monsters in the forest, and The mysterious disappearance of Lin Baiyu and Zhang Haofei.

They were all moved into those Buddha statues by this mysterious force from where they originally existed. During this process, the troll Ala and those forest monsters killed them without knowing what method the other party used. The encounter between Zhang Haofei and Lin Baiyu and their Same.

Zhang Haofei was removed from the left side of the original Bai Yan and moved into the inside of the giant bergamot.

That's why Bai Yan could vaguely feel that there was something wrong with the space, but he couldn't tell.

The only difference is that the sleeping demon **** in Zhang Haofei sensed the danger of the host, and immediately broke out a powerful force, breaking the bergamot and protecting Zhang Haofei.

Although Zhang Haofei fell into a coma, the three-headed demon **** Agares broke out completely. The demonic power caused the ghost cars in Wang Xuan to vibrate slightly, faintly resonating.

Wang Xuan understands that the ghost car in his body and these demon gods should belong to two different camps and are in a state of hostility. At this moment, he can only take a deep breath to suppress it.

"The demon **** in Zhang Haofei's body broke out, and there is a sleeping demon **** in Lin Baiyu's body. He should be fine, but he doesn't see the demon **** in his body. Isn't he in danger?"

While pondering, I saw that the Buddha head in the deep pit kept shattering downwards, and the demon **** Agares waved his palm down again. On the Buddha head that was collapsing, a large number of corpses hidden in the Buddha head were shattering, and suddenly there was a A group of flames rose from below and devoured the corpses.

The flames were billowing, and suddenly it burned from below the Buddha's head, rising up into the sky along the deep pit. Everyone only felt the heat wave and had to retreat again.

At this moment, Zhang Haofei, who was in the shadow of the demon god, suddenly opened his eyes, with a confused look on his face. He was in a coma just now, and what happened, he didn't even know.

As he woke up, the phantom of the demon **** Agares began to disappear and converge, and quickly retracted into his body and disappeared.

Zhang Haofei fell to the ground, seeing the terrifying scene around him, the heat wave attacked in front of him, the flames were surging, he was shocked, and was busy running towards Wang Xuan and the others.

"What's the matter? Why am I the only one here!" Zhang Haofei shouted loudly. @*~~

Yu Shanshan put away the mask and let Zhang Haofei come in. Gu Manyao said, "Zhang Haofei, don't you remember what just happened?"

Zhang Haofei shook his head and said, "As soon as my eyes darkened, I lost consciousness. When I woke up, I saw that you were all here, and I was the only one on the side. What happened?"

Zhao Lei quickly recounted what happened in the hands of this giant Buddha after he disappeared just now.

"If it weren't for the demon **** in you, you would have died like those Ara trolls."

Hearing Zhao Lei's words, Zhang Haofei's face became a little ugly, and his heart lingered.

Mei Xiaosen and Bai Qianxue gave him a somewhat surprised look. Only now did they realize that the phantom that appeared just now was actually the sleeping demon in Zhang Haofei's body.

"I understand, there is a power here that can move people into those Buddha statues, these God trolls, and those monsters are moved by this power inside the Buddha statues." Mei.

Xiao Sen suddenly opened his mouth to speak, his face was ugly. If it wasn't Zhang Haofei who had just been moved into the Buddha's hands, it was them, there was no demon in their bodies, and they might have turned into corpses like those Ara trolls.

The Buddha's head was completely destroyed, and the flames rising below burned the body inside the Buddha's head. Everyone saw a ghostly figure with a wolf body and a snake tail appearing in the flames. Mei Xiaosen, Bai Qianxue and Fang Taozhong could not recognize them. Who is it, Wang Xuan knows, this is the seventh demon **** Amon sleeping in Lin Baiyu's body.

This Amon is called a hermit, with a wolf body and snake tail, and he can breathe out flames. The flames that burn the body inside the Buddha's head should be the power of the seventh demon **** Amon.

As the flames gradually disappeared, the vibrations around them stopped, and rays of light appeared in the deep pits below.

Seeing the rays of light appearing, Mei Xiaosen, Bai Qianxue, Wu Tian and the others lit up, and they stepped forward to check. The rays of light were gushing out, and it was suspected that some kind of treasure had appeared.

Wang Xuan, Tang Ruoyu, Gu Manyao, Zhao Lei and others also followed closely, and they soon came to the edge of the deep pit, but they saw that it was dark below, and now there were rays of light gushing out, and in the gushing rays of sunshine, a large tree appeared. Tree.

This big tree has luxuriant branches, its leaves are green and crystal clear, and between the leaves, there are fruits the size of a fist.

Everyone was stunned. The first reaction was that these fruits must be some kind of treasure. This big tree grew out of a huge Buddha statue in the deep pit. Now that the upper part of the Buddha statue is shattered, this big tree only grows from the body. revealed in its body.

On one of the branches, there was a person standing, and it was the missing Lin Baiyu.

He woke up like a dream, stood on it swaying, and could fall down at any time, the phantom of the seventh demon **** Amon began to converge and disappear.

On Bai Qianxue's forehead, the Rune King's Eye was faintly glowing, and she suddenly cried out, "The tree of the source?"

Everyone was shocked when they heard this voice.

In this third-layer world, there has always been a legend. It is said that this world was once barren. Later, a sapling was left in this world, and it evolved into this virgin forest. This sapling was called the tree of the source. Consider it the beginning of all flowers and trees.

There is a kind of fruit on this tree of origin. If you eat this fruit, you can erase the soul consciousness of the hatching beast in your body, turning it into pure soul energy, which can be absorbed by the human soul and assimilate the human and the hatching beast. .

But this is just a legend. In reality, no one has really seen the source tree.

At this moment, Bai Qianxue suddenly burst out and screamed. Everyone's hearts were shaking, and a thought immediately appeared. If the big tree growing out of the body of the Buddha statue below is really the legendary tree of origin, those fruits that exude glowing rays of light. , is that the fruit that can make people assimilate with the hatching beast and completely remove the fruit devoured by the hatching beast?

"Didn't the legendary tree of origin grow somewhere in the third-layer world? How could it appear in this city?" Wu Tian was a little surprised. Although he believed in Bai Qianxue, he was also a little strange at this moment.

Wang Xuan opened the eye of the book and observed it from a distance. Unfortunately, the eye of the book could not capture the information of the big tree and the fruits below.

Mei Xiaosen said in a deep voice, "Since Qianxue said so, then it's definitely not wrong. Let's go down and pick the fruits. With these fruits, we can assimilate the hatching beasts, and we no longer have to be afraid of these hatching beasts attacking us.

He said with an uplifting look on his face. The tree and fruit of the source are definitely real treasures. So many fruits can be distributed to many super-powerful people, so that they will no longer be in danger of being backlashed, especially those who are sleeping in the body. Demon God Zhao Lei and Zhang

Haofei, once they eat this source fruit, not only the hatching beast, but also the consciousness of the Demon God in their bodies can be assimilated. At that time, when the hidden danger is completely eradicated, they can truly gain the power of the Demon God.

While talking, Mei Xiaosen looked at a branch below and jumped into the air.

Seeing Mei Xiaosen jumping down, Wu Tian, Fang Taozhong, Bao Chong jumped down one after another, and even Bai Qianxue, who was most concerned by Wang Xuan, jumped down.

"Wang Xuan, shall we go down?" Zhao Lei asked. He also opened his "Holy Eye", but unfortunately he couldn't capture the information on the tree and fruit below, neither.

Knowing that the tree of origin that Bai Qianxue said is true or false.

Originally, Wang Xuan was still hesitating, but when he saw Bai Qianxue jumping down, it seemed that there was a real possibility that the tree below was the source. If the fruits that exuded the glow of the sun had incredible powers like the legends, Zhao Lei and Zhang Haofei would not be able to come here. Said, this is a treasure that must not be missed.

However, he has become one with the monster, and the fruit of this source tree is not attractive to him.

"Go down and have a look first." Wang Xuan said in a deep voice, and with the others, they also jumped down, wanting to see what happened.

Everyone fell on the branches of the big tree below one after another. Lin Baiyu stood on one of the branches and stabilized his body. He stretched out his hand to pick up the fruit, but found that his hand was always stretched a little short, and he couldn't touch the fruit. .

Mei Xiaosen, Wu Tian, Fang Taozhong and others all stretched out their hands to pick the fruit around them, but found that they were looking at the fruit that was very close. point.

"What's the matter?" Everyone was taken aback, and they moved their bodies, approached the fruit, and reached out to pick it, but it was one point short.

Wang Xuan also tried twice, each time he clearly saw the fruit in front of him, only a foot away from him, and reached out to pick it, only to find that the fruit changed direction at some point, and was still a foot away from his hand, so he stretched out his hand to pick it. empty.

"strangeness....."

Wang Xuan's brows furrowed slightly, and he turned to look at Bai Qianxue not far to his left, but he heard Mei Xiaosen shout loudly, "Qianxue, what's going on, can you see any clues?"

Bai Qianxue opened her mouth and moved her mouth slightly, as if she was saying something, but Wang Xuan couldn't hear what she was saying. She was clearly only three or four meters away from her, but she seemed to be separated by 108,000 miles. No sound came through.

"what happened?"

This thought popped into Wang Xuan's heart, the instinct of the beast was suddenly alert, and a strong anxiety arose in his heart. Suddenly the glow of the fruits around him disappeared, the heaven and the earth seemed to be spinning, and the branches around him were stretching, and his whole body was like drinking. Drunk and spinning.

"Ghost car at night----"

Wang Xuan knew something was wrong, and the ghost wings on his back, arms and right leg stretched out, and the five ghost wings vibrated and resonated, entering the state of "ghost car at night", wanting to delay the passage of time around him and escape from here.

Suddenly, everything around him returned to normal, but the glowing fruits and the stretched branches disappeared. He returned to the ground on the edge of the original deep pit. In the deep pit not far ahead, the glowing rays of light were rising. .

"What's the matter? How did I come back?" Wang Xuan was shocked. He rushed to the edge of the deep pit and looked down.

The upper body of the giant Buddha statue and the Buddha head in the deep pit have been shattered. The remaining lower body is hollow, and a big tree emerges from it. , Bai Qianxue, Wu Tian, Tang Ruoyu, Gu Manyao, Zhao Lei and others were standing on different branches, trying their best to reach out to pick those fruits.

In addition to them, Wang Xuan was horrified to find that among these people, there was an identical self. This one was also reaching out to pick the fruit, but for some unknown reason, the outstretched hand was grabbing the fruit while the fruit was in front of him. go, left empty. @*~~

The strangeness in front of him was completely beyond his imagination. Both the "Eye of the Book" and the "Eye of Fear" were opened. In addition to the instinctive sensing of the monsters, Wang Xuan wanted to see through the truth, and the five ghost wings vibrated together and suddenly rose into the air. , jumped out again.

The target he jumped to was himself standing on one of the branches of the big tree below. He wanted to find out, who was this person exactly like him?

With a "huh", Wang Xuan only felt himself jumping down. Suddenly, he seemed to be sucked by an invisible force, and was dragged down by this force. When he came back to his senses, he was standing on a branch, stretching out his hand. , I wanted to pick the fruit in front of me, but I got nothing.

He was busy looking around, and all he saw were the familiar Mei Xiaosen, Bai Qianxue, Zhao Lei, and Gu Manyao, while another person who looked exactly like him had disappeared.

"No, that person who is exactly the same as me is myself, and now I am standing on this branch, trying to pick the fruit, but there is a deviation in reality, so I can't pick it.

Fruit, there is a certain deviation between what the eyes see and the real situation. "

Wang Xuan thought of the scene he just saw in his mind, and suddenly he understood, this time he reached out his hand and did not grab the fruit, but moved half a foot to the other side according to the scene he had seen before. He was grabbing half a foot away from the fruit, but suddenly his right hand caught the real thing. This real touch made him understand that he had caught the fruit.

When he grabbed the fruit and plucked it, suddenly his feet were empty, the branches he was stepping on disappeared, and he volleyed and fell.

Surprised, in the face of danger, the wings on Wang Xuan's back spread out, flapping constantly, creating a buoyant force that made him stabilize his body, glide down, and fall into a pile of broken clay sculptures. The lower body is shaking and shattering.

Wang Xuan stabilized his body, looked up and looked around, and found that the big tree that had been shrouded in the rays of the sun had disappeared. There was only a dilapidated giant clay statue of Buddha. , falling down.

Looking at the fruit he just picked, I saw that the fruit was about the size of a fist, full of rays of light, but it was not ordinary at first glance, but at this moment, where the rays of light were released, the fruit on his right hand had long been dried, and the whole body was dry and black. Gently squeeze it with your hands, it will shatter like tofu.

"What the **** is going on here? Could it be that all this is caused by the big tree just now? It's just that now where is this tree compared to... it's still with everyone, and where did it go?"

The eye of fear on Wang Xuan's forehead opened, and he was constantly sensing the power of fear around him, trying to find the whereabouts of everyone.

The two ghost wings on the back were raised high, covering the top, blocking the large number of fragmented Buddha statues that fell from above.

This time, he had a sense and vaguely captured the presence of fear in the dark place ahead, and immediately rushed forward, took out a lighting crystal from the Xumi mustard space, turned it on, and released a bright light towards the Looking ahead, I want to see clearly.

Under this photo, I was slightly startled. In the darkness ahead, the one who faintly released a hint of fear was the huge Ara troll.

This Ala troll is stronger than ordinary Ala trolls, with muscles swollen all over, shaped like muscle armor, and holding a giant spear in his hand. At this moment, he is turning his head and is attracted by the lighting crystal that Wang Xuan took out.

When the two sides met, Wang Xuan was slightly surprised. This turned out to be the king of trolls, the king who ruled over all the trolls of God. In terms of strength, he was comparable to the perfect powerhouse in the seventh form.

The King of Trolls turned his head~www.mtlnovel.com~ and found that the visitor was a human. He suddenly opened his mouth and let out a slight growl. He immediately raised the giant spear in his right hand and made a posture of about to fight.

Wang Xuan stopped and stared at the king of trolls at a distance of 20 to 30 meters. Before changing, he must have shot immediately, but at this moment in such a strange place, he had no intention of fighting with the king of trolls. grips.

It's a pity that although he didn't want to make a move, the King of Trolls roared, and the giant spear in his hand began to stride towards him.

With the strength of the King of Trolls comparable to a perfect powerhouse, at a distance of 20 to 30 meters, he could reach it as soon as he swept away. As soon as the giant spear in his hand was lifted, it made a buzzing sound, and with a powerful force, he stabbed in the face.

Wang Xuan had fought against the Troll King of God before. At that time, he had not yet developed a fifth wing, nor had he grasped the grasp of life metal, so he could fight against the Troll King, or even crush it.

But now that he has been promoted twice in a row, his strength has already reached the unfathomable realm. Even the Rakshasa King, he has the confidence to kill alone, let alone the troll king in front of him.

He was about to shoot when he suddenly turned his head and looked to the left.
