

Last Building on Earth Chapter 31-35

Chapter 31

With a flash of blue light, the barb behind the giant lizard appeared like lightning on Wang Xuan's head and face, going from top to bottom, trying to pierce his head.

The giant lizard swung the barb too fast, Wang Xuan reluctantly turned his head away to dodge, snorted, his left shoulder was in severe pain, the giant hook hooked into his shoulder, hooked the shoulder bone, and He lifted it up from the ground.

Although he was severely injured, Wang Xuan still did not give up. He let out a low growl from his throat, grabbing the hook with both hands almost at the same time, concentrating all his strength on both hands, trying to twist the tail hook off.

Perhaps he felt the danger of Wang Xuan. The white ball in the palm of his right hand was constantly vibrating. The aura of life in the ball was getting stronger and stronger, and the life energy contained in it was constantly expanding outward. The ball burst, and the egg came out.

With a "chi" sound, suddenly, Wang Xuan's heart became cold, his throat was sweet, and a stream of blood spurted out. He lowered his head slightly and saw five sharp claws, like five steel blades, cutting into his chest.

The speed and reaction of this giant lizard are faster than him. Although it is only a line faster, it can be crushed. No matter how much he struggles and resists, it is futile.

The giant lizard hooked his shoulders with its tail hook and lifted him up in the air. It stood up, stretched out its left claws and grabbed into his chest. Five sharp claws cut his flesh down, it thought. To disembowel him, and even take out all the internal organs.

The indescribable pain caused a roar in his throat, which spurted out together with blood.

Although he has a powerful healing ability, if his belly is completely cut open, and even his internal organs are pulled out, no matter how powerful his healing ability is, he will surely die.

Wang Xuan smelled the breath of death.

On the other hand, Zhao Lei's situation was as dangerous as Wang Xuan's. He was also hooked by the elite lizard's tail hook on his shoulders, and smashed it on the side of the car. His limbs seemed to fall apart, and the elite lizard opened. With a big mouth of blood, he bit his belly in one bite, and began to bite frantically.

Zhao Lei screamed and struggled desperately. The six white scales in his right hand fully erupted with the strongest power, making his strength and healing ability continue to rise. He reached out and grabbed the **** mouth of this elite lizard, trying to tear it apart. Kai, the elite lizard hooked him again with a tail hook and smashed it out.

With a "bang", Zhao Lei screamed again, and the sound of broken bones sounded in his body. This time he was smashed to the ground. Although he used his arms to protect his head and face, he avoided the danger of death from brain rupture. The bones were all broken.

He was in the middle of life and death. He originally wanted to count on Wang Xuan to save him, but he never expected that Wang Xuan, like himself, was lifted up by the giant lizard, and even his claws were caught in his belly. To be killed by disembowelment.

"Ah ah—" Zhao Lei screamed, full of unwillingness in his heart, he understood that this time, their entire army was swept away, and everyone was doomed.

Wang Xuan felt the claws of the giant lizard slide down from his chest, and blood spurted out from the cut wound like a fountain. He grabbed the lizard's claws with his right hand and the giant barb on his shoulder with his left. He tried his best to pull the barb and lizard claws out of his body.

His eyes became red due to congestion, and his heartbeat was like a drum. During this life and death, he felt that the sounds around him had quieted down, and all the sounds from the outside had disappeared, leaving only the sound of the violent beating of the heart and the blood flowing in the body in his mind. echoed in.

Immediately afterwards, even these voices disappeared, and the whole world became deadly silent. In his sea of consciousness, there was only a white sphere with lines on its surface.

The white sphere is shaking, and the breath of life inside is getting stronger and stronger. When this intensity reaches its limit—

"Crack!"

With a crisp sound, countless cracks suddenly appeared on the surface of the white sphere, bursting into thousands of fragments.

His belly was cut in half, and Wang Xuan, who was almost dying, suddenly raised his head, his eyes were blood red, his mouth opened, and his throat roared like a wild beast. A substance with metallic luster suddenly appeared on his right hand holding the giant lizard's claws.

This metal substance grew out of his right hand, like the tentacles of an octopus squid, winding upwards along the claws of the giant lizard, completely entangling its forelimb like a python.

"Crack" repeated crisp sounds, the metal tentacles twisted and contracted, the giant lizard suddenly roared in pain, its iron-like forelimbs and claws became fragile, and under the entanglement of the metal tentacles, the bones inside shattered inch by inch, a large amount of flesh and blood infiltrated and splashed out from the metal tentacles wrapped in circles.

All this is a long story, but it all happened in an instant. This giant lizard with a high IQ didn't understand what was going on. A metal tentacle suddenly grew on the hand of the human who was about to be killed by his own belly. In an instant, one of its forelimbs was minced.

Suddenly losing a strong and powerful forelimb and sharp claws, the giant lizard let out a miserable roar, with a ferocious and crazy light in its eyes, it pulled its tail hook and wanted to throw Wang Xuan who was lifted up in the air.

Wang Xuan raised his right hand, grabbed the tail hook, and the metal tentacles wrapped around the tail hook. Wherever it was wrapped, the tail hook was breaking and shattering.

The sound of "crack" was heard incessantly, and in the blink of an eye, the tail hook of the giant lizard shattered into countless pieces.

Wang Xuan fell to the ground, all the wounds on the surface of his body were faintly glowing with white light, and they were healing at an amazing speed visible to the naked eye.

He stretched out his left hand and pulled off the end of the barb that was left on his shoulder.

In his mind, he sensed a vague consciousness that was communicating with his consciousness.

Just between the life and death just now, the life nurtured in the white ball in his right hand finally broke out of the cocoon, turned into this metal tentacle, and erupted with terrifying power, and instantly shattered a forelimb and tail hook of the giant lizard.

At the same moment, the life born in his right hand was transmitting various messages to his consciousness.

"Name: Warcraft, Form: Prototype, Ability: Entanglement, Strangulation, Extension Limit: Two meters."

After sensing these messages, Wang Xuan immediately understood that the life form born in the white sphere was called a beast, and it was still in its embryonic state.

Just now, he has seen the terrifying power of this entanglement and strangulation, which can easily smash the hard forelimbs and tail hooks of the giant lizard. The entanglement power is simply incredible.

And the extension limit is two meters, which means that the metal tentacles of this monster can extend up to two meters away.

Sensing his right hand, the original white sphere shattered and disappeared, replaced by a mass of white light, with faint fluctuations of life energy on the surface, he understood that this was the body of the beast.

The metal tentacles grew out of this white light, and extended out of his body to attack through his right hand.

Chapter 32

The giant lizard roared, and the brutality in its eyes was gone, replaced by fear.

It felt the fear of Wang Xuan in front of him.

The barb behind its tail was the hardest weapon in the body, and it was easily smashed by the metal tentacles.

It turned around and finally thought of running away.

Wang Xuan raised his right hand, and the metal tentacles stretched out in the air, fast as lightning, and wrapped around its neck from behind.

The giant lizard knew something was wrong, and stretched out its claws to grab the metal tentacle, trying to pull it apart, but the metal tentacle suddenly tightened.

Wang Xuan activated the strongest ability of this monster in its embryonic state: entanglement and strangulation.

As soon as this ability was activated, he immediately felt an endless stream of energy from the white light group in his right hand being transported into the metal tentacle, causing a faint layer of white light to appear on its surface.

This kind of white light is too weak to be observed by the naked eye. When this layer of white light appeared, bones shattered and brittle sound came from the neck of the giant lizard, and flesh and blood were smashed and seeped out from between the surrounding metal tentacles.

The giant lizard's open mouth was full of blood, and it made a cooing sound. When the metal tentacles were released and retracted, the neck of this giant lizard was at least half thin. His head drooped softly, his whole body fell down, and he died of anger.

The two white scales in the middle of his forehead peeled off together with the white crystal scale. The two white scales turned into rays of light and disappeared into his right hand. They were swallowed by the white rays of light in his right hand, and the white crystal scale fell to the ground and remained motionless. , did not fly into his right hand like two white scales.

He was surprised. He didn't know what the white crystal scales were. Wang Xuan didn't have time to think about it, but turned around quickly and rushed in the direction of Zhao Lei.

He successfully hatched a magical beast and killed the strongest giant lizard. In just a few seconds, Zhao Lei was hooked on the shoulder by the elite lizard, smashed to the ground, and broke the bone in his left arm.

The elite lizard used the tail hook to lift him up again, this time slamming the vehicle he smashed to the side.

There was a loud "bang", the door was hit by Zhao Lei, and immediately sank in. Zhao Lei groaned, blood spurting out of his mouth.

He grabbed the hook that pierced his shoulder with his right hand and wanted to pull it out, but the elite lizard didn't give him a chance at all. He grabbed Zhao Lei and lifted it back, opened his **** mouth and bit his neck.

Between life and death, Zhao Lei couldn't dodge, his left arm was broken and he couldn't use it, so he could only stretch out his right arm to block, protecting his neck and vitals.

The elite lizard bit on his right arm.

Zhao Lei screamed again, and the elite lizard bit his right arm, trying to tear it off. At this moment, Wang Xuan rushed over from the other side.

Seeing that Zhao Lei's right arm was about to be torn off, Wang Xuan was still two or three meters away from him. It was too late to rush in front of him, so he stretched the metal tentacle to the limit of two meters, and waved his right arm and slashed out.

The metal tentacles slashed out with his right hand like a whip, and hit the elite lizard's head firmly, with a crisp "pop", the skull shattered, the blood gushed like a spring, the white brains splashed out, and most of the head was covered with water. Made a mess.

Two white scales flew out of it and merged into his right hand.

He picked up two scales again, the white light in his right hand fluctuated slightly, and Wang Xuan felt a kind of excited emotion.

The beast is excited and full of a strong desire, it is eager to absorb more energy.

Zhao Lei escaped from death, watching this elite lizard fall to the ground, he fell down, took a breath, and stared blankly at the metal tentacle extending from Wang Xuan's right hand, dumbfounded.

What is this?

Wang Xuan's body kept going, and one blow shattered the head of this elite lizard. After rescuing Zhao Lei, he immediately turned around, kicked his feet like a sharp arrow, and charged towards the car behind him.

Gu Manyao was bitten by a scorpion-tailed lizard in her thigh and attacked by an elite lizard. She ignored the scorpion-tailed lizard and rolled with all her strength, rolling with the scorpion-tailed lizard, using the scorpion-tailed lizard as a shield to resist the attack of the elite lizard.

The elite lizard was blocked by this scorpion-tailed lizard in two consecutive attacks. It opened its mouth and let out a low whistle. It was obviously provoked. With a wave of the barb behind it, it hooked the scorpion-tailed lizard and yanked it hard. go out.

Gu Manyao took this opportunity to get up, although her thigh was bitten, but luckily the white scales in her body were constantly releasing powerful energy, speeding up the healing of the wound, and she could barely hold on, rushing towards the other side at full speed.

She saw that Zhang Haofei's situation was much more sinister than hers.

Zhang Haofei was attacked again and again, his waist and abdomen were torn off a large piece of flesh and blood, and his chest collapsed due to the impact, and several bones were broken inside, and blood spurted from his mouth.

He tumbled heavily to the ground, and the elite lizard that attacked him pounced, with its **** mouth wide open, trying to bite off his neck.

Although Zhang Haofei was seriously injured, he did not lose consciousness. He knew that he was in danger, but he was injured too badly and moved a little slowly. The upper and lower jaws of the big mouth, trying to tear it apart.

Suddenly, his belly became cold~www.mtlnovel.com~ The barb behind this elite lizard swung it into his belly and cut it open.

At this moment, Gu Manyao rushed up, waved the steel pipe in his hand and smashed it towards the head of this elite lizard.

The elite lizard raised his head to dodge, and Zhang Haofei took the opportunity to lift his leg and kicked out with all his strength.

The elite lizard was caught off guard and was kicked and turned over from him.

After escaping the catastrophe, Zhang Haofei broke out in a cold sweat and suddenly shouted at Gu Manyao, "Be careful!"

Before she finished speaking, Gu Manyao felt that her back had been hit hard, and there was a sound of broken bones in her body. She opened her mouth and spurted blood, and was hit by another elite lizard that was chasing it and flew out.

Falling to the ground, Gu Manyao was about to struggle to get up, but just about to lift up her upper body, she suddenly felt a sharp pain in her chest, her eyes darkened, and she almost fainted.

The elite lizard that knocked her away appeared silently in front of her, with its **** mouth wide open and biting down towards her neck.

Zhang Haofei on the other side saw the danger and desperately wanted to save him. He had just lifted his upper body, and the healing wound on his body had re-opened, and blood was constantly seeping out. His movement speed was slower than that of ordinary people, and it was too late.

Gu Manyao had a look of despair in her eyes, but she still did not give up completely, and barely raised her arms to protect her neck.

The **** mouth of this elite lizard just bit her arm, and a black shadow with a strong wind slammed down and hit its head, making a crisp explosion.

Wang Xuan clenched the metal tentacles in his hand and rushed over, hitting the elite lizard.

The metal tentacle was like a steel whip, and it was pulled down in the air, making a crisp sound that was almost a sonic boom. The head of the elite lizard was as vulnerable as tofu, bursting instantly, and red and white splashed out together.

Chapter 33

Gu Manyao was still in shock, when she suddenly saw Wang Xuan appear with a metal tentacle in his hand, and with a single blow, the head of this powerful elite lizard exploded. She opened her eyes wide, showing a look of extreme surprise.

Zhang Haofei saw it too, opened his mouth slightly, and was stunned.

Wang Xuan kept his body, kicked his feet, turned his upper body completely, facing Zhang Haofei's direction, behind him, another elite lizard rushed up and was about to attack Zhang Haofei, not wanting Wang Xuan's speed to be faster.

The metal tentacle in his hand extended to the limit of two meters. In addition to his right arm and body, the farthest attack distance was close to three meters. He was still two meters away from Zhang Haofei. The metal tentacle fell, bringing out a black light, this elite lizard's outstretched claws had just caught Zhang Haofei's head when it suddenly snapped and exploded.

The elite lizard let out a scream, its eyes widened, and it was thinking of rushing towards Wang Xuan. Wang Xuan was faster than it and jumped up like a big bird. He grabbed the neck of the elite lizard with five fingers on his right hand. .

The metal tentacles on his right hand were wrapped around, and several crisp "clicks" sounded. This elite lizard was stagnant, a pair of eyeballs bulging out of their sockets, and blood came out along its sockets, mouth and nostrils.

When Wang Xuan retracted the metal tentacles, the head of the elite lizard drooped softly, the neck bones in the neck were all broken, and the body fell backwards.

Killing two elite lizards in a row, four white scales peeled off their foreheads and all entered Wang Xuan's right hand.

The small white light in the right hand greedily devoured the four white scales, merging and digesting them, and there were faintly more and more excited emotional fluctuations.

After killing the leading giant lizard and three elite lizards in a row, the remaining scorpion-tailed lizards scattered, fled everywhere, and soon disappeared.

Seeing that the crisis was lifted and all the monsters fled, Wang Xuan completely took the metal tentacles into his hands, then he let out a long sigh of relief, and his spirit was relieved, and then he felt that his whole body was sore, and his body seemed to be hollowed out. It was a little unsteady to stand.

Only then did Wang Xuan understand that using the metal tentacles of Warcraft is powerful, but to maintain such a powerful force, the loss of energy and physical strength is unimaginable.

Fortunately, the four white scales were fused together just now. After the beast devoured the four white scales, it fed back some energy, slowly nourishing his whole body, and gradually recovering his physical strength.

All the wounds he had suffered completely healed and recovered, not even a single scar was left.

He knew that Zhao Lei, Gu Manyao, and Zhang Haofei had white scales. As long as they didn't die on the spot, they would recover quickly. Don't worry, he just didn't know how the other people were injured or killed.

Wang Xuan immediately saw a **** woman next to the car. She was the female assistant of the big internet celebrity Mengyun.

The female assistant was hooked by the elite lizard and dragged out. She used it as a weapon several times and smashed it out. Her skull was broken and her neck was broken and she died.

Wang Xuan tried the female assistant without breathing, then went to the car, opened the door, the car was full of blood, and Li Luo and Mengyun were covered in bite wounds, lying on the back seat motionless .

Just now, a scorpion-tailed lizard got into the car and bit them. Although the two were trying their best to resist, they were still bitten all over their bodies.

Wang Xuan turned over Li Luo, who was on his back, and saw at a glance that his neck had been bitten off by more than half, and he had already died of anger.

Looking at Meng Yun, who was pressed down by Li Luo's body, although she was bitten all over her body, she could still breathe after a try, but she was seriously injured and comatose, and she hasn't died yet.

Wang Xuan went to the off-road vehicle again to check the casualties, but saw that the door of the off-road vehicle was pushed open from the inside, and Tie Jun got out of the car staggeringly, holding the slightly curved big wrench in his right hand, panting heavily. Gas, there is a shocking wound on his face, which is healing at a speed visible to the naked eye.

Wang Xuan understood, the iron army successfully killed a scorpion-tailed lizard and obtained white scales.

Looking at the corpses all over the floor, Tie Jun sat down after getting out of the car, feeling a little dazed.

He is nearly forty years old, and he has experienced by no means few things in his life. He has experienced all the storms and waves, but all the dangers and encounters in this life are combined, and it is not comparable to today's short half-day experience.

Tie Jun raised his dull eyes, looked at Wang Xuan, and suddenly admired this young man.

According to what they said, this young man, who was at least a decade younger than him, was trapped in this hell-like parking lot a day earlier than himself. Adapted to the cruelty and bloodshed here, such a strong psychological endurance made Tiejun very emotional.

"Could it be... I'm really old... I can't compare to these young people..."

Tie Jun sighed in his heart. Seeing Wang Xuan checking the situation behind the off-road vehicle, he also stood up again with the car on the side.

The situation in the off-road vehicle was not much better than that in the car just now. The photographer who was injured was completely intact, as if he had turned into a tattered human figure.

Director Fatty was panting heavily, his head was covered in cold sweat, his face was as pale as a dead person, and there were also several wounds on his body, but the injuries were not serious, and they didn't look life-threatening.

Wang Xuan glanced at Director Fatty, then looked at the cameraman's corpse that was bitten like a tattered corpse, thinking in his heart, he probably guessed that the Fatty should use the photographer's body as a shield to resist the lizard's bite. , will cause the photographer's body to be bitten like this, and he will be spared.

Of course, this is only his unilateral guess.

"How's the situation, over there... Is there anyone still alive?" Tie Jun took out a pack of cigarettes from his pocket with trembling hands.

The cigarette case was stained with blood, so he took out two and handed one of them to Wang Xuan.

Wang Xuan waved his hand and declined, knowing that he was asking about the life and death of Li Luo and Mengyun in the car, and said, "Two of them died. The internet celebrity was seriously injured and unconscious. The situation is not optimistic, I'm afraid..."

Speaking of this, he suddenly thought of something, and immediately walked quickly towards the front.

He thought of the fact that Tie Jun drove two scorpion-tailed lizards into the air before, but they didn't get white scales. Those two scorpion-tailed lizards didn't know if they were alive or dead, and they were still here.

Taking a few steps forward, he saw the corpse of the giant lizard that fell on one side. With a move in his heart, he bent down and quickly picked up the white crystal scale.

This giant lizard should be the leader of this group of lizards. It is much stronger than the elite lizards. There are two white scales and a crystal scale in the middle of its forehead.

After Wang Xuan killed it, he absorbed two white scales, but the crystal scales peeled off automatically and fell to the ground instead of being absorbed by him.

When he picked it up, the beast in his right hand didn't respond to it, so it probably couldn't absorb such crystal scales.

"But I don't know what the function of this crystal scale will be?"

Chapter 34

Wang Xuan was secretly surprised and felt that the crystal scales should be useful, but he didn't know the specific usage for the time being.

Tie Jun didn't know what Wang Xuan was looking for, but he knew he must have found something, and followed behind him.

Soon Wang Xuan found the two scorpion-tailed lizards.

"Sure enough, all the bones in my body were broken, and I didn't die, but the vitality is tenacious." Wang Xuan found that the two scorpion-tailed lizards had woken up and were struggling on the ground. Get up, can't escape.

Tie Jun was slightly startled and was about to make a move.

Wang Xuan blocked him and said, "That internet celebrity is saved, let her kill a lizard and get the scales to survive."

Tie Jun understood, his spirits lifted, and he said, "There are two here. If Xu Mengyun and Director Chen kill one each, then everyone will have white scales."

Wang Xuan reached out and grabbed the two tail hooks behind the two scorpion-tailed lizards, and dragged them back on the ground.

Zhao Lei slowly sat up from the ground, took a breath and took a rest. The six white scales in his body were playing a huge role, which accelerated the recovery and healing of his injuries.

After a short rest, most of the wounds healed, and finally he breathed a sigh of relief.

On the other side, Gu Manyao and Zhang Haofei are similar.

Although Zhang Haofei was injured the most, he had eight scales. Except for Wang Xuan, he had the most scales among the others. His recovery ability was even better than that of Gu Manyao and Zhao Lei. He also slowly sat up at this moment.

Wang Xuan dragged the two scorpion-tailed lizards to the side of the car and put them down, then took Xu Mengyun out of the car, slapped her face and cheeks, and quickly woke her from the coma.

Tie Jun also called the Fat Director out of the off-road vehicle.

Director Fatty was not seriously injured, and it was not difficult to kill a scorpion-tailed lizard that could not resist and struggle.

Tie Jun gave him the big wrench in his hand and asked him to pinpoint the head of a scorpion-tailed lizard and smash it down.

Director Fatty still had lingering fears, and his expression was a little dull, but after listening to Tie Jun explaining the reason, he knew the importance of white scales to life-saving, and immediately regained some energy, clenched the wrench in both hands, and kept smashing at one of the scorpion-tailed lizards. It was killed and a white scale was harvested.

Obtaining the white scales, Director Fatty's eyes lit up, looking at his right hand with an incredible expression on his face.

For ordinary people, the ability of these white scales is really amazing.

The seriously injured Xu Mengyun was powerless, and it was difficult to kill a lizard.

Wang Xuan found his own steel bar that was bent and flew out, and straightened it again with both hands, inserting the sharp end into the open mouth of the scorpion-tailed lizard, and then Xu Mengyun held the steel bar with both hands and pushed it back. Fully inserted.

After several attempts, she finally managed to kill the scorpion-tailed lizard by relying on the weight of her body to press down.

Watching the white scales on the lizard's forehead peel off, Wang Xuan entered Xu Mengyun's right hand, realizing that she had picked up her fate.

After this period of rest, Zhao Lei, Zhang Haofei, and Gu Manyao all recovered most of the time, and slowly stood up and walked over.

Seeing that the wound on Xu Mengyun lying on the ground was healing and her complexion was getting better and better, Zhao Lei let out a sigh of relief and said, "Wang Xuan, thanks to you just now, otherwise we would all be dead, by the way. , what's the matter with the tentacle-like metal whip you just held?"

Gu Manyao and Zhang Haofei both looked at him and looked at him together.

What they are most concerned about now is Wang Xuan's metal tentacles, and they are all very curious about what it is.

"After obtaining nine scales, an egg will be formed, which can breed life. The life form I hatched is called a beast. It is still in its embryonic state, and its shape is the metal tentacles you see..."

After Wang Xuan gave a speech, everyone showed a look of astonishment, Zhang Haofei became excited: "It turned out that there is still such a change after getting nine white scales, I am only one short of it now, I don't know which of the white scales I got will be. What is hatched, will it also be the monster you said?"

Zhao Lei said: "As long as you get a few more scales, you will know soon."

Speaking of which, he sensed the six scales in the palm of his right hand, and slowly held it up with a look of anticipation in his eyes.

Witnessing the powerful power of Wang Xuan's metal tentacles just now, he was very curious. When he collected nine white scales, what would hatch. Are all of them metal tentacles, or is everyone different?

Xu Mengyun, who was seriously injured and dying, obtained a white scale, and she slowly recovered from her serious injuries. She stood up and looked at the corpses all over the floor, her whole body trembling slightly, and her eyes were full of fear.

The original nine-member team, now only Tie Jun, Director Fatty, and her are left to die. Fortunately, now all three of them have obtained a white scale, and they are no longer so easy to die.

"You should all know the dangers of the situation here. Everyone should prepare a weapon. Hunting these monsters can get white scales. The more scales you have, the stronger your strength." Zhao Lei said to the three of Tiejun. While asking their names and telling each other their names, Wang Xuan knew that the fat director's real name was Chen Kai, and Tie Jun and Xu Mengyun were used to calling him Director Chen.

Wang Xuan used the strangling power of the metal tentacles to sever the tail hooks behind the three elite lizards, cutting them off to a length of about one meter.

This kind of tail hook is harder than the steel pipes and steel bars they use, and the hook tip is sharp. It can be said to be a rare and good weapon, far better than the steel pipes and steel bars they used before.

The giant lizard's tail hook is even sharper, but unfortunately it was completely crushed by his metal tentacles during the battle.

The three tail hooks were divided among Zhao Lei, Zhang Haofei and Gu Manyao.

Zhang Haofei took it in his hand and waved it twice in a row. He heard the wind whistling faintly, and a smile appeared on his face: "This thing is really good, it's much more powerful than a machete and steel rod."

The three of them replaced the tail hook of the elite lizard as a weapon, and their previous weapons, the steel pipe and steel rod, were given to Tie Jun and Xu Mengyun.

Tie Jun took the steel rod that originally belonged to Zhao Lei, UU reading www.uukanshu.com Xu Mengyun chose Wang Xuan's steel bar, and the fat director took a steel tube.

Now that everyone had weapons, they dragged the corpses from the two cars down. Although they couldn't bear it, they could only abandon the corpses here.

Zhao Lei said: "Let's go, let's get out of here first. If the corpses are all over the floor, it will be troublesome if they attract more terrifying monsters."

Thinking of the horror of the giant lizard and the three elite lizards, if it wasn't for Wang Xuan's breakthrough and hatched a beast, all of them would have died here, and everyone would not want to stay in this place full of corpses and **** smells. Fortunately, although the two vehicles have been attacked many times and look dilapidated, they are still usable.

The seven people got into the car one after another. This time, Wang Xuan took Zhao Lei to another car with Gu Manyao and Zhang Haofei, and Tie Jun, Director Fatty, and Xu Mengyun took another car. Now they all have white scales, which are enough to protect themselves.

Zhao Lei originally wanted to have a car with Xu Mengyun, but after seeing her soulless, she gave up the idea after wearing makeup.

The road before was blocked by a car, and everyone changed direction, Zhang Haofei was driving, and Tie Jun was driving an off-road vehicle.

It didn't take long for Zhang Haofei to stop the car this time, looked up at a load-bearing column not far away, and said, "We've arrived at Area H, who said we'd be trapped forever? It looks like we're going out from here. It's not difficult."

Wang Xuan saw the "H area" mark on a load-bearing column not far from the front, which means that they drove out of the G area and entered the H area of the negative two-story parking lot.

Zhao Lei habitually pushed the glasses on the bridge of his nose, and after pushing for a while, he remembered that he no longer wears glasses. His current vision has not only returned to normal, but has gradually surpassed that of ordinary people.

"As expected, I understand." Zhao Lei nodded.

Chapter 35

Gu Manyao said, "What do you understand?"

Zhao Lei said: "I understand how to get out of here, I finally found the pattern."

Zhang Haofei was refreshed when he heard this, and said, "What's the rule?"

Gu Manyao said, "Zhao Lei, do you mean you can leave after killing powerful monsters?"

Zhao Lei nodded and said: "Almost, when I left the trapped areas E and F and entered the G area, I was only suspicious, but I was not completely sure, because there are several possibilities, but now I can be sure, it must be with us. Killed monsters."

He paused for a moment before continuing: "In Area E and Area F, there should be a monster leader, the ape-shaped monster with two white scales on its neck that you killed by Wang Xuan. Only by killing this monster leader can we leave Area E and Area F and enter Area G."

"And the monster leader in the G area is the most terrifying giant lizard. Before it appeared, we couldn't leave the G area, but once it was killed, we can easily leave the G area and enter the H area. ."

Gu Manyao replied: "If this is the reason, then there should also be a monster leader in the H area. We only need to kill this monster to leave the H area and the parking lot."

Zhao Lei nodded and said, "Yes, I can't say with 100% certainty, but there is a high probability that this is the case."

Hearing Zhao Lei and Gu Manyao's analysis, Wang Xuan nodded slightly, feeling a bit of excitement in his heart. In fact, without them speaking, he also vaguely suspected that the two easy access to the new area might have something to do with the monsters he killed. Saying it's a coincidence, it's probably not a coincidence that it happened twice.

Zhao Lei said: "Although we can't be 100% sure that this is the case, we can give it a try. Just find the monster leader in the H area, find a way to kill it, and then see if we can get out of the H area. Get out of this parking lot."

Wang Xuandao: "I always think it's not that simple. We have gained superhuman strength here, can we leave here so easily?"

Zhao Lei said: "Yes, maybe it's not that simple, but we have to try to find out."

Wang Xuan nodded slightly and agreed with Zhao Lei's point of view. He didn't speak any more, but looked at his right hand and sensed the beast consciousness in his right hand. He hoped to communicate with it and gain a better understanding. The monster's consciousness in its embryonic state is completely absent, and it is impossible to communicate with him like a real life form.

"It's not so much a creature, it's more like a machine with life energy. It can be driven instantly when it needs to fight, but it's almost impossible to communicate with it..."

After Wang Xuan felt it carefully, he was relieved.

In his heart, he has always been afraid that this beast really has self-awareness, and it is hard for him to imagine what the consequences will be in the future.

But now, after continuous in-depth induction, he gradually realized that this beast is more like a special fighting machine, just like a gun in reality, the only difference is that it has some characteristics of a living body, can absorb energy, can growing up.

From the appearance of the monster, he knew that the monster continuously absorbs the energy of the white scales, and it will definitely grow further and become stronger.

"What should we do now? Go directly to the monster leader in the H area to kill? Or stay here and wait for the rabbit? Wait for this guy to appear automatically, just like before?" Zhang Haofei saw that several people stayed in the car and did not speak. A little anxious.

Zhao Lei said, "Wang Xuan, what do you think?"

Among them, Wang Xuan is the strongest. Especially before, he hatched metal tentacles and killed four powerful lizards in a row, which left a deep impression on several people. It can be said that he saved

everyone by himself and let him Zhao Lei unknowingly regarded Wang Xuan as the core figure of their team, and naturally asked Wang Xuan what he meant.

Wang Xuan said: "Everyone is tired, why don't you just rest here for a while and eat something to replenish."

He felt hungry for a long time, and after hatching the beast, this feeling became stronger.

All three of Zhao Lei nodded in agreement, and Gu Manyao suddenly said, "Do you feel hungry? It shouldn't be a while since we ate something before."

In order to maintain a slim figure, she used to eat very little, and she didn't feel very hungry after getting used to it, but now she feels hungry all the time.

Zhao Lei sighed: "Me too. It is estimated that it has something to do with the white scales we obtained, and of course it has something to do with the amount of exercise we have. With the monsters desperately trying, the energy consumption must be very fast."

The four of them got out of the car while talking, and greeted the three of the Tiejun to get out of the car as well.

Opened the trunk, and all the food was stacked inside.

After each took some food and water, everyone got into the car again. It was safer to stay in the car than to stay outside.

After eating, Zhang Haofei started the car and was about to leave, Zhao Lei said, "Let's wait here, we can rest for a while, and secondly, let's see if we will wait for the monster leader in the H area, if my speculation is correct, Kill this monster leader and we can get out of the H area."

Wang Xuan agreed with Zhao Lei's suggestion, Zhang Haofei turned off the car again, and a few people rested here.

Said to be resting, but in reality, the four of them were vigilant about the surrounding situation.

After staying for more than an hour, the place was silent, neither new people nor a single monster appeared.

"No wait, let's move on." Wang Xuan made a decision.

"Okay." Zhang Haofei had long been impatient, and immediately started the car and drove forward, Tie Jun followed behind.

The two cars were not driving fast. Wang Xuan and Zhao Lei were both looking to the left and right to observe the situation on both sides, hoping to find something different.

Suddenly Gu Manyao shouted, "Stop!"

Zhang Haofei was taken aback by her sudden call, and hurriedly stopped while saying, "What's wrong?"

Gu Manyao pointed to the front right and said, "Look, is there a bathroom there?"

"Toilet?" Zhao Lei was stunned, raised his body, stretched his head and looked forward.

Zhang Haofei slid the car forward for a certain distance, then stopped. Wang Xuan looked to the right of the car. A door appeared on the wall behind a row of parked cars. UU read www. There is a sign on the right side of the door of uukanshu.com with the words "public toilet" written on it.

"Damn, this parking lot is really high-end, and there is a public restroom in it, why didn't I know it before." Zhang Haofei stretched his neck and looked to the right, a little surprised.

Gu Manyao said with a happy face, "Let's go in and have a look. If there is water, maybe we can simply take a bath."

She loves cleanliness very much. I don't know how much sweat and blood she has shed this day, and she has no idea how dirty her body is, but in such a special place, she was forced to endure it. Now she suddenly sees this public The temptation for her in the bathroom was unimaginable. She only felt itchy all over her body, so she could not wait to rush in immediately and get some water to wash it.

Zhao Lei said, "Don't be too happy. There is a power outage here. Maybe the water is out. Even if there is a bathroom without water, it's useless."

Gu Manyao said dissatisfiedly, "Zhao Lei, don't pour cold water."

Zhao Lei smiled bitterly and said, "I didn't pour cold water on you. I'm just guessing. Anyway, whether the water is stopped or not, let's go and have a look first. Generally, the bathroom should have a window. Maybe we can leave here through the window."

Zhang Haofei said, "Isn't this the negative second floor? How can there be a window leading to the underground?"

Regarding Zhang Haofei's question, Zhao Lei was at a loss for words and could not answer.

Wang Xuan opened the car door and got out of the car first.

Gu Manyao took the lizard tail hook and got out of the car.

Seeing Wang Xuan and the others getting out of the car, the three men behind the Tiejun also got out of the car one after another.

They also saw this public restroom and were a little curious.

It was the first time Wang Xuan knew that there was a public restroom in the underground parking lot, so he stopped in front of the door.

He smelled a strong **** smell inside.
