

Last Building on Earth Chapter 36-40

Chapter 36

With a shudder in his heart, Wang Xuan stopped and looked inside carefully.

There is a corridor facing you, and you can't see what's inside when you're outside the door.

Gu Manyao, who was following him, also smelled it, and immediately clenched the scorpion tail barb in his right hand.

"What a strong smell of blood..." Zhao Lei showed a solemn look on his face later, and said, "I'm afraid something happened inside."

Originally, when they saw a public restroom here, everyone was a little curious and wanted to go in and have a look, but at this moment, they suddenly smelled a strong **** smell, and everyone became alert.

"Did everyone say we want to go in and have a look?" Zhao Lei asked everyone what they meant.

Wang Xuan showed a hint of hesitation. Since entering this parking lot, they have been trying to find a way out. Although they are getting stronger, the monsters they encounter are getting stronger every time.

Now there is a strong **** smell coming from this bathroom, who can be sure if there are some more terrifying monsters hidden in it.

Even Gu Manyao, who originally wanted to enter the bathroom, hesitated and did not answer immediately.

Tie Jun, Xu Mengyun, and Director Fatty kept their mouths shut, knowing that it wasn't their turn to speak on this occasion, and it was Wang Xuan and Zhao Lei who really made up their minds.

Zhang Haofei saw everyone's hesitation and said, "What are you doing here, don't worry about it, go take a look first, Gu Manyao, didn't you just say you want to get some water to wash?"

Gu Manyao glared at him and said, "What nonsense are you talking about, such a strong **** smell, who knows what's inside, do you even know it's dangerous and go inside?"

Zhang Haofei laughed and said, "I found you guys are really funny. If you smell blood, you are in danger? Then tell me, where is this parking lot safe and where is it dangerous? Didn't you just want to wait for this area? What monster leader, do you want to leave this parking lot after killing it? Now you're all cowardly?"

Although Zhang Haofei spoke in a bad tone, Wang Xuan felt that what he said had some truth to his ears.

The most terrifying thing about this parking lot is that there is no law in the appearance of those monsters, and it cannot be speculated with common sense.

They stayed in a place full of corpses before, and as a result, even more terrifying monsters appeared. Later, in order to avoid a large number of corpses that would attract monsters, they drove away, and they still encountered a group of monsters besieging them on the way.

It can be said that whether you stay in place or leave, you will be attacked by monsters.

Zhao Lei sighed and said: "You are right, in this kind of ghost place, if you are in danger, there will be danger no matter what, you can't hide, I don't think monsters will be fixed in a certain place and wait. We break in, but no matter where we go, they will take the initiative to attack us, and if there is a monster going to appear, it will appear whether we go in or stay outside."

Wang Xuan nodded and said, "Since that's the case, let's go in and see what's going on. Maybe there are new discoveries."

As he spoke, he stretched out his right hand, and there was a faint metallic substance on the surface. He activated the magical beast, and he was on full alert and walked in first.

Gu Manyao followed closely, followed by Zhang Haofei and Zhao Lei, Tie Jun, Fatty Director and Xu Mengyun at the end.

Tie Jun was more cautious, looking around while walking to prevent monsters from suddenly appearing behind him.

A group of seven people walked in slowly, and the smell of blood was even stronger after entering.

There is a door on the left and right sides of the corridor inside. The door on the left has a male logo, and the door on the right has a female logo.

Wang Xuan could smell the **** smell coming from the men's bathroom on the left.

He followed the smell of blood and walked into the door on the left, and saw a corpse as soon as he entered.

Although I have been used to seeing **** scenes for a long time this day, Wang Xuan's scalp still numbs when he sees it.

The ground in front of me is not so much a corpse, but a pile of scattered corpses.

The corpse was disintegrated into seven or eight pieces, the limbs were chopped off, the upper body and lower body were separated at the waist, the internal organs and intestines flowed all over the ground, and the head rolled to the other side.

Looking at his face, this is a young man in his twenties, his eyes are round, and his dull face is full of despair and fear before his death.

"No wonder there is such a heavy smell of blood..." Wang Xuan looked at the blood that was dripping all over the ground, and walked in slowly. After Gu Manyao and the others saw the tragic situation on the ground, they all felt a sense of discomfort.

As for Xu Mengyun, after taking a look, she immediately turned her face away and did not dare to look again. Her stomach twitched. Although she had encountered danger and seen **** scenes before, it was far from what she saw now.

Wang Xuan soon saw the second corpse that was also dismembered into seven or eight pieces, then the third and fourth...

Walking into this bathroom, it was like entering a blood pool hell. Stronger than Wang Xuan, the four of them felt a strong discomfort in their stomachs.

Both Xu Mengyun and the Fatty Director were pale. Although people came in, their faces were turned to the outside. They looked at the corridor outside and did not dare to look at the ground.

Tie Jun also had an extremely ugly expression on his face, but his tolerance was slightly stronger than the two of them.

"Is this killed by a monster? What kind of monster is so perverted..." Although Zhang Haofei was born in a gangster and has a somewhat violent and cruel personality, he was stunned to see the scene in front of him.

Zhao Lei lightly covered his nose, raised his eyes slightly, deliberately avoiding the **** scene on the ground, and said, "I don't know if they were killed by monsters, but it doesn't look like they were killed by monsters' minions. , but was cut by a very sharp sword or something."

Wang Xuan also saw it. To be able to chop these people's bodies into seven or eight pieces, they must have sharp weapons. The fangs and claws of ordinary monsters cannot create such wounds.

Gu Manyao said, "Could it be a special kind of monster, such as having a weapon similar to a knife?"

Wang Xuan said, "It's possible..." As he spoke, he counted five people who died here, four men and one woman, and saw weapons like wrenches and swinging sticks on the ground.

Zhao Lei picked up a wrench on the ground and looked at it carefully: "These five people should also be trapped in the parking lot. Seeing that the handle of this wrench is slightly bent, and there are traces of hitting on it, it can probably be inferred. The man who came out had a fierce battle with a wrench, and it may not have been a fight yet."

"They found this public restroom, and five people walked in here together, and then they encountered terrifying monsters or something. After a fierce battle, they were all killed."

"That should be the case. The smell of blood is too strong here, let's go." Gu Manyao covered her nose and glanced around.

It looks like an ordinary men's bathroom, with a washbasin, standing toilets on both sides, and separate spaces separated by wooden boards at the end. Perhaps because of the fierce battle before, most of the compartments were broken and collapsed, but they are still intact. In the small half-compartment, the wooden door is basically open, and you can see the squatting toilet inside.

There are no windows here, so the smell is difficult to dissipate quickly, which makes the **** smell even more unpleasant. Gu Manyao felt unwell after only staying for a while. He just wanted to leave early, and the thought of getting some water to wash was long gone.

"Let's go then~www.mtlnovel.com~ Zhang Haofei saw that he found nothing inside, so he shook his head and prepared to leave.

Xu Mengyun and Director Fatty were by the door. They heard it and went out immediately.

When they came to the corridor, they let out a long sigh of relief, only to feel much more comfortable in their hearts.

Wang Xuan looked at the squatting toilet compartments at the end. The doors of the small half-compartment that were intact were basically open. Only two doors were hidden, and the details inside could not be seen.

Zhao Lei stood beside Wang Xuan, poked his arm lightly, then pointed at the two compartments, and said in a low voice, "Would you like to open it and take a look?"

Wang Xuan stared at these two compartments, and there was always an indescribable strange feeling in his heart, as if something was hidden inside.

He nodded slightly towards Zhao Lei, and the two walked up together.

Zhao Lei held the one-meter-long scorpion-tailed barb in his right hand, about one meter away from the compartment, and gently pushed the door against the door with the barb, his whole body tense, ready to respond to emergencies at any time.

For safety, Wang Xuan stood beside him, and the metal tentacles extended along the back of his right hand. If there was a monster or something dangerous inside, he could pull Zhao Lei away in an instant, and then use the metal tentacles to attack.

The door was hidden, and it opened with a slight push, and there was only a squatting toilet inside.

Both of them breathed a sigh of relief. Zhao Lei said, "It was a false alarm. I thought that the monster fled after killing people. It's impossible to stay here."

Wang Xuan hummed, and then the two went to check the other compartment with the door hidden.

It was still Zhao Lei who pushed the door open with the barb in his hand, while Wang Xuan was on guard.

The door was slammed open with a squeak, and a pair of dull eyes came into his eyes.

Chapter 37

Seeing these eyes suddenly, Zhao Lei was so frightened that his hair stood on end.

The green light flashed, and a green knife light reached his belly, cutting him in half.

It was so fast that Zhao Lei didn't have time to react, and there was a look of despair in his eyes.

Suddenly, the right arm was pulled by a huge force, and it flew backwards diagonally, narrowly avoiding it.

Wang Xuan shot, grabbed Zhao Lei's right arm with his left hand, and pulled him away, avoiding the sudden green blade light, and the metal tentacles extending from his right hand burst out like a poisonous snake slashing towards it.

There was a crisp sound of "crack", and the wooden compartment on the face cracked.

Gu Manyao at the back couldn't help but let out a soft cry. Zhang Haofei, who was about to exit, opened his eyes wide, stopped immediately, clenched the scorpion barb in his right hand, and rushed up.

No one thought that there was a person hiding in this compartment. This was a man in his thirties. He had a pair of dead fish eyes, his eyes were dull, his face was slightly twisted, and he had a strange expression like smiling and crying. The scary thing is that his bare right shoulder is not connected to a normal arm, but a full-body emerald sickle.

The first time Wang Xuan saw it, he thought of the mantis forelimbs.

This man swung the sickle on his right arm as fast as lightning. If Wang Xuan had not been prepared to pull Zhao Lei away in an instant, Zhao Lei would have been cut in half by him.

He immediately understood that the murderer who killed the five people in the bathroom was the one in front of him.

Before he could think about it, he heard a loud bang, and the man lifted the scythe on his right arm and slashed at the metal tentacle he had drawn.

The metal tentacles were drawn on the green sickle, and sparks splashed around. Wang Xuan felt his palms feel slightly hot and numb, and the metal tentacles bounced back.

With a "huh" sound, a flower appeared in front of him, Wang Xuan knew something was wrong, so he hurriedly retreated.

A wooden board in the compartment flew out head-on, and suddenly the board split from it, and the green sickle smashed the board and slashed into his chest.

It was so fast that even Wang Xuan felt dizzy. This guy's speed was even more terrifying than his.

Startled, Wang Xuan pulled back with his right hand, and the metal tentacle was like a living thing. He turned around and wrapped the sickle almost at the same time as it was about to hit him in the chest. However, the power of this knife was too terrifying. It could not be completely blocked by its entanglement, and the knife, along with the metal tentacles wrapped around it, slashed on his chest.

He felt his heart sinking, as if he was pressed against a large rock and couldn't breathe. He used his right hand to pull the metal tentacle with all his strength, trying to tear it apart, and at the same time, he activated the special ability to twist and kill, trying to smash the green sickle into pieces.

The metal tentacles shrank, and the man seemed to sense something was wrong. The green sickle suddenly became smaller, pulled it back, and got rid of the tentacles' entanglement.

All of this happened in an instant. Wang Xuan watched the green sickle shrink and retract. He followed closely and stepped back. When he touched his chest with his left hand, it was full of blood.

The knife just now still hurt him, and cut a wound on his chest, but luckily the wound was not deep.

The man withdrew the green sickle, opened his mouth, and seemed to be emitting a silent smirk. With a pair of dead fish eyes, he appeared to be indescribably terrifying.

He took a step forward and swung the sickle out, slashing at Wang Xuan who was retreating.

Gu Manyao and Zhao Lei shot at the same time. Both of them were holding scorpion tail barbs.

Zhang Haofei followed closely behind and rushed over.

"Chichi" made two soft sounds. The man waved his sickle and slashed both left and right. Gu Manyao and Zhao Lei only felt their hands light up. cut off.

They sucked in the cold air, knowing that the scorpion tail barb is hard, and it is better than the steel pipes and other weapons they used before. They never expected that the green sickle would be easily cut off.

For the first time, they saw what it means to cut iron like mud.

This man swung the sickle to cut off the scorpion barbs that Gu Manyao and Zhao Lei had swung over. Wang Xuan seized the opportunity, and there was a faint sound of sonic boom in the air, and the metal tentacles were pulled out like whips.

There was a crisp sound, this man was too fast, he cut off two scorpion tail barbs, and then turned his green right arm back to protect his head and face, and blocked the metal tentacles that Wang Xuan pulled over. .

Zhang Haofei appeared silently from Gu Manyao's side. With a wave of the scorpion's tail barb in his right hand, he saw that the hook was about to hit the man's belly. Suddenly, the man stretched out his left hand, grabbed the barb, and pulled it back. Zhang Haofei only felt a little The stock pulled him vigorously and rammed towards the man involuntarily.

Zhang Haofei was shocked, this man was too fast, he pulled him over, released the barb with his left hand, and punched him in the face.

Zhang Haofei groaned, his nose bone shattered, and he was beaten upside down and flew out.

Although this man was strong, he did not care about one thing or another. Wang Xuan controlled the metal tentacles to wrap around his right arm and pulled it violently.

The man smashed into a pile of corpses on the ground, splashing a lot of blood.

Wang Xuan jumped forward, the metal tentacles wrapped around the man's right arm and kept tightening, making a crunching sound, his right arm twisted like a twist, and there was a sound of bones shattering.

He opened his mouth and let out a terrifying roar from his throat. The sound was not human-like. After falling to the ground, he rolled over and rushed towards Wang Xuan.

Wang Xuanzheng wanted to smash the man out again, but he didn't expect his reaction to be so fast. UUkanshu www.uukanshu.com's right arm was entangled by his metal tentacles and twisted into a twist, and he could still burst out with such terrifying speed and strength, and it was too late to react. The neck was grabbed by the man's left hand.

The man tried to twist his neck with force.

Wang Xuan took a piece of his right hand, grabbed the man's left arm, and the metal tentacles wrapped around him. The sound of "clicking" could be heard endlessly. Wherever the metal tentacles were wrapped, the man's left arm would break.

This man's face was twisted, and his right arm, which had just been twisted into a twist shape by metal tentacles, was constantly twisting, and it was healing and recovering at a terrifying speed. The green sickle turned and wanted to slash towards Wang Xuan.

Zhao Lei rushed up, hugged the man's mutated right arm from behind, and pulled back with all his strength, preventing him from attacking Wang Xuan with his sickle.

The man roared in his throat, and his dead fish-like eyes finally rolled twice, as if he felt a trace of fear.

Gu Manyao picked up the scorpion tail barb that Zhang Haofei had dropped on the ground, seized the opportunity, saw the man open his mouth, and hooked the hook into the man's mouth, followed Zhao Lei and dragged it back.

The man's left arm was entangled by the metal tentacles and twisted, and the mutant right arm was grabbed by Zhao Lei, and his mouth was hooked by the barb in Gu Manyao's hand. His face showed panic, and he wanted to struggle to get rid of the three.

Where would Wang Xuan give him this chance? With this man's terrifying strength, once he was allowed to escape, the consequences would be disastrous. He stretched out his left hand to grab this man's neck,

lifted him up in the air, and jumped forward, almost pushing him. Following this man, he rushed out and smashed against the oncoming wall.

With a "click", the tiles on the wall shattered immediately, blood spurted out of the man's mouth, Gu Manyao retreated to the left and pulled at the right moment, the barb pulled the man's left cheek and tore off a large piece of flesh, revealing the inside Two rows of white teeth.

Chapter 38

Wang Xuan took advantage of the situation with his right hand and grabbed the man's **** face. The metal tentacles followed, like a huge python, and immediately covered the man's head.

The metal tentacles were shrinking and squirming, blood splashed out from the metal tentacles entwined in circles, the sound of skull shattering continued, and the red blood mixed with white pulp-like substances kept flowing out.

The metal tentacles shrunk to the limit, twisting the head into a ball of paste, Wang Xuan just let out a sigh of relief, and suddenly found the green sickle on the man's right arm squirming, like a living thing being pulled out of the man's body.

The tail of the scythe was attached with thin green whiskers, which were originally rooted in various parts of the person's body, but now they are all pulled out from them and propped up on the ground, like a multi-legged centipede, rushing outside with the green scythe.

This change took everyone by surprise. Tie Jun, Xu Mengyun, and Director Fatty stopped at the exit. Tie Jun had watched their fight before, and he wanted to go forward several times and then stopped. He understood that such a fierce fight, there is no qualification for him to intervene at all.

Compared with Wang Xuan and the others, he who only has one white scale is not worth mentioning in terms of strength or speed.

At this moment, an accident happened suddenly, and the green sickle was like a multi-legged insect, rushing towards the exit, Xu Mengyun and Director Fatty were stunned, Tie Jun reacted, and clenched the iron rod in his hands with both hands, and swept out sideways.

With a "huh" sound, the iron rod swept the green thin whiskers, and a terrible scene appeared. These green thin whiskers wrapped around the iron rod, crawled along the iron rod, and rushed towards the iron army.

Tie Jun was shocked, but fortunately, he responded quickly, and hurriedly threw the iron rod in Wang Xuan's direction.

He understood that only Wang Xuan could deal with this monster.

The green sickle didn't expect the iron army to make such a move, and flew to Wang Xuan together with the iron rod.

Wang Xuan had already jumped up, and with a wave of his right hand, the metal tentacles extended to the limit of two meters, like a little dragon with fangs and claws, immediately wrapped around a green sickle.

The special ability of Warcraft "Twisting and Strangling" was fully activated, and the metal tentacles entangled the green sickle from beginning to end, shrinking in circles, and the tentacles rubbed against each other, making a harsh sound.

The green sickle twisted and deformed in the entanglement of the metal tentacles, kept squirming and struggling, and wanted to resist.

Wang Xuan felt the metal tentacles vibrate, and the green sickle began to shrink and escape. This time he was ready, and the metal tentacles shrank immediately, not giving him a chance to escape.

Failing to escape, the green sickle began to expand, trying to open the metal tentacles.

Wang Xuan let out a low drink, his left hand held his right wrist, and all the power was concentrated in his right hand. He sensed the white light in his right hand, and an endless stream of energy was surging into the metal tentacles.

This is a head-to-head confrontation between the beast and this unknown foreign object.

Gu Manyao, Zhao Lei, Tie Jun and the others only watched anxiously, and no one could intervene.

Soon Wang Xuan's demon beasts had the upper hand, and the metal tentacles made a crisp "click" sound, and the green scythe kept shattering and bursting into pieces.

The green fragments that burst out turned into a pool of green juice when they landed, and gradually evaporated and disappeared in the air.

Wang Xuan's forehead was covered in sweat. He was sure to completely strangle the green sickle to pieces, and then slowly released the metal tentacles, but saw a large number of pieces falling down and turning into green juice.

Wang Xuan suddenly felt the beast in his right hand vibrate, followed by the metal tentacles and swept out with a snap, but it was the green sickle that had turned into a pile of shards and a small light was hidden, which was swept away by the metal tentacles. When it opened, all its white light was absorbed by it.

Absorbing this white light, Wang Xuan felt that the white light group in his right hand immediately changed drastically.

"This is....."

Wang Xuan sensed the change and was slightly surprised. He had just fought and was exhausted. He didn't want to release an endless stream of energy from the monster in his right hand, which was nourishing his whole body and accelerating his recovery.

Sensing the violent fluctuations and changes of the white light, it seems that the magical beast will have a new change, and a layer of white light faintly appears on the surface of the metal tentacles, which is a sign that it will grow and break through again.

However, this violent fluctuation continued for dozens of seconds and then gradually subsided. Wang Xuan understood that the growth breakthrough of the beast had failed, and it seemed that something was missing.

"Although the breakthrough failed, the changes just now are too shocking. If you can hunt another green sickle like this one, the monster will definitely be able to successfully break through. After the breakthrough, the monster doesn't know what changes will happen and what will it be? such a form."

Wang Xuan pondered and slowly retracted the metal tentacles, but saw that everyone around him was looking at him. Until this moment, these talents let out a long sigh of relief, and everyone had a lingering expression on their faces.

Zhang Haofei slowly sat up with support from the ground. He was punched just now, and his injuries were not minor. He even broke his nose bone. Fortunately, his resilience was amazing and he was recovering now.

Wang Xuan looked at the man who fell to the ground again, his head was twisted into a mess by his monster, his right arm was lost, and he fell to the ground, already turned into a corpse.

"What kind of monster is this?" Tie Jun came over~www.mtlnovel.com~ and picked up the iron rod on the ground. In the end, Wang Xuan was able to kill the monster. He did a lot of credit. Without him to stop it, the monster might have died. really escaped.

Zhao Lei said: "It looks like this green sickle is some kind of monster, parasitic in this person's right arm."

Gu Manyao said, "Don't you think this green sickle is more like hatched by this person, just like this metal tentacle hatched by you, Wang Xuan?"

Zhao Lei shook his head and said: "It doesn't make sense, if this person hatched, after this person dies, the sickle can turn into a monster and escape by itself? This shows that it has a very strong self-awareness, and it seems that this person is its parasite. Body, Wang Xuan said before that his Warcraft has no self-awareness, strictly speaking, it is just a living weapon, there is a fundamental difference between the two."

Wang Xuan also couldn't figure out whether this green sickle was a special monster that could parasitize and control the human body, or whether it was a special weapon hatched by this person. If it was the latter, it would be terrifying.

"Let's go, let's go out first." Seeing that Zhang Haofei had gotten up from the ground, Wang Xuan decided to leave the men's bathroom first. The place was full of blood, and all kinds of smells were mixed together. People stayed in it, and the pressure was indescribable. uncomfortable.

Several people walked out of the men's bathroom one after another, which made them feel a lot more comfortable.

Afterwards, they went to the women's bathroom next door to take a look. The place looked clean, but the fierce battle just happened. I don't know if it was a parasitic monster or a hatched green sickle, which made everyone feel uneasy, so they didn't dare to wait any longer. Just one glance and hurried away.

Just out of the public restroom, the seven people were about to walk to their respective cars, when suddenly there was a hissing sound, and gray insects appeared one after another from among the parked cars in the distance, constantly jumping and leaping toward the car. They're around here.

Chapter 39

These gray insects are about one meter in size, somewhat resembling praying mantises, with a white scale in the middle of a pair of compound eyes, a pair of slightly curved forelimbs, and a pair of transparent wings on the back, but they cannot rely on these wings to fly, Only a short glide is possible.

At a glance, the seven people saw that there were as many as forty or fifty of them. They suddenly emerged from all around, flapping their wings behind their backs, they could jump seven or eight meters at a time, and rushed in front of them in the blink of an eye.

Suddenly seeing so many monsters, everyone was a little flustered, especially Xu Mengyun and Director Fatty, their expressions changed drastically.

"Everyone back down the corridor!" Wang Xuan resolutely drank.

Hearing his words, everyone turned back.

Once surrounded by so many gray insects, it will be very dangerous, but retreating to the corridor can effectively avoid being besieged.

The swarms of gray insects flapped their wings, and with a pair of curved blades in their hands, they charged towards the crowd retreating into the corridor.

With a wave of Wang Xuan's right hand, the two-meter-long metal tentacle swung out, and with a "pop", the fastest gray insect was hit in the brain and immediately burst open.

The white scales between the compound eyes peeled off and turned into a white light, which sank into his right hand and was absorbed by the beast.

Unlike before, this time, the beast did not show excitement when it absorbed the white scales, nor did it even produce any new energy fluctuations.

With a slight movement in his heart, Wang Xuan understood that the beasts were not interested in the white scales of this gray insect.

Standing beside him, Zhao Lei, Gu Manyao, Zhang Haofei, and others took action one after another.

The barbs of the scorpion tail in Zhao Lei and Gu Manyao's hands were cut off by the green sickle at the top. Although they lost the sharp hook, with their current strength, they still had great power when they smashed the scorpion tail as a stick.

Although these gray insects bounced a long distance, they used a pair of wings on their backs. When they rushed into the corridor, due to space constraints, they could only retract the wings on their backs, landed on the ground, and attacked with a pair of sharp-blade-like forelimbs.

In a head-to-head confrontation, Wang Xuan found that these gray insects were far inferior to them in terms of attack speed and strength. In terms of strength, these gray insects were not even as good as the scaled wolf-headed ape-body monster they encountered for the first time. .

The only scary thing about them is their numbers. If they are surrounded by them in a spacious space and attack from all directions, they may threaten them.

Wang Xuan shot in succession and easily killed three gray insects. Zhao Lei, Gu Manyao, and Zhang Haofei shot in succession. Zhang Haofei's eyes flashed with excitement. He could sense that the white scales in his right hand had turned into nine-petaled flowers. Wang Xuan said that once it has nine scales, the flower begins to transform into a white sphere, which can hatch special life.

Soon Gu Manyao killed two gray insects in a row, and also harvested nine white scales.

Wang Xuan killed several gray insects with ease, but could not sense the slightest fluctuation of the beasts. He guessed that the biggest possibility was that the energy contained in the white scales of the gray insects was too weak to arouse the interest of the beasts now.

"It seems that if you want to evolve again, you must hunt down powerful enough monsters." Wang Xuan thought while controlling the metal tentacles to carry out various attacks, practicing more attack methods and skilled operations.

Zhang Haofei, Gu Manyao, Zhao Lei and Tie Jun all tried their best to fight the gray insects that came in. Although Xu Mengyun and Director Fatty had weapons, they followed behind nervously, and they didn't kill a single insect.

Wang Xuan saw it in his eyes and shook his head secretly.

Zhang Haofei's eyes flashed, and the original wound on his face had completely healed. As he continued to harvest white scales, he felt that the nine-petaled flower in his right hand had really converged, and slowly turned into a white sphere, with faint hints of flowers inside. The breath of life appears.

Like him, Gu Manyao and Zhao Lei, the nine-petaled flowers in their palms turned into white spheres one after another.

Tie Jun originally had several years of Sanda skills. Although he only had one white scale, he played with steel sticks in his hand, and he performed very bravely. He quickly killed three gray insects in a row and harvested three white scales.

With the successive acquisition of scales, his strength and speed gradually increased, making him more and more brave in battle. Together with Wang Xuan and the others, they completely blocked the corridor. No matter how many gray insects there were, none of them could rush through.

The hissing scream became more and more intense, and more and more gray insects emerged outside. Although this gray insect was not strong, but so many gathered together, everyone still felt a little scalp numb when they saw it.

"Wang Xuan, the situation is not good. There are too many insects. We won't be able to support it for long..."

Zhao Lei retreated to Wang Xuan's side, his face became solemn.

Although they killed a lot of gray insects, the number of insects gathered outside not only did not decrease, but instead increased. Their physical strength was limited, and it would be dangerous to drag them further.

Wang Xuan also discovered this problem and said, "It seems that we can only go out and grab the cars, and then drive away."

"Okay!" Gu Manyao and Zhang Haofei both responded.

Wang Xuan extended the metal tentacles to the limit of two meters, and was about to rush out first, when suddenly there was a "quack" in the distance.

The voice came from far away, and there was a sudden confusion in the gray insect swarm gathered here.

Following the loud noise of Pengdi, Wang Xuan, who had wanted to rush out, suddenly stopped, his eyes widened, and he looked into the distance.

He saw that among the swarms of gray insects outside, a huge toad burst out at some point.

This toad is astonishingly large, like a medium-sized off-road vehicle, covered with sarcomas, and among these sarcomas are faintly luminous white crystals that look like crystal scales. UU reading www.uukanshu.com

It rushed into the swarm of gray insects, opened its mouth, and shot a blood-red tongue from it. It was as fast as a sharp arrow. It immediately caught two gray insects and dragged it into its big mouth.

These gray insects were very afraid of this giant toad, and when they saw it appeared, they became confused and immediately fled around.

"Good guy..." Zhang Haofei was dumbfounded and stopped.

The gray insects that were rushing towards the corridor began to be confused, and they turned around and fled, no longer attacking them.

Outside, the giant toads chased these gray insects, spitting out their **** red tongues to prey, and squeaked into their big mouths.

It chased the gray insect, and soon came to the car parked by the crowd, and found that the road was blocked by the car. It raised a thick forelimb and swung it out sideways.

There was a loud bang, and the front of the luxury sedan was immediately blown up, causing the over-ton car to move half a meter.

Wang Xuan saw all this and took a deep breath.

This giant toad is so powerful, how can such a monster resist?

This is simply not something they can fight with their current strength.

"Retreat!" Wang Xuan immediately retreated into the corridor in shock. He thought that this toad was huge, almost the size of this corridor, and even if it squeezed in, it would be inconvenient to move.

Although they saw this giant toad destroying their car, how dare everyone rush out to stop it?

In order to prevent these giant toads from noticing them, everyone retreated to the inner bathroom to hide, and listened to the loud noises coming from outside through the wall, and felt that the ground seemed to vibrate faintly. I can imagine how terrifying the power of this giant toad is. .

The sound lasted for about a minute and then disappeared, and it was quiet outside.

Chapter 40

Everyone did not go out immediately, but waited for a few more minutes to make sure that there was no sound from outside, then Wang Xuancai said in a low voice, "I'll take a look at the situation outside first."

Showing the metal tentacles and protecting it in front of him, he carefully probed out to check.

He saw that the ground in the corridor was full of the gray insect corpses that they had killed before. The giant toad also disappeared.

After making sure that he didn't see the giant toad, Wang Xuan breathed a sigh of relief, and then led everyone out of the bathroom and into the corridor.

Looking at the gray insect corpses all over the floor, Zhao Lei stepped forward and tapped the curved sharp blade on the gray insect's forelimb with the scorpion tail barb that was only half left in his hand. to be a weapon."

While speaking, he grabbed the forelimb hard, turned it in one direction, broke it from the joint, and took off the curved blade.

Gu Manyao, Zhang Haofei and Tie Jun also took down a curved blade one after another, Zhao Lei watched Xu Mengyun not moving, and suddenly handed her the curved blade in his hand: "This is for your self-defense, it is better than the one you have now. Reinforcement works well."

Xu Mengyun glanced at him and said nothing. She put down the steel bar in her hand and took over the curved blade.

Seeing that Zhao Lei had made another one, Wang Xuan saw that he was good to Xu Mengyun, and his heart moved slightly. He looked at Xu Mengyun and the director Fatty and said, "When these mantis monsters rushed in just now, why didn't you two do it?"

Director Fatty and Xu Mengyun did not expect Wang Xuan to ask such a question all of a sudden, and they were both slightly taken aback. Director Fatty thought that Wang Xuan was blaming them, and hurriedly said: "It's not that we don't want to do it, but the corridor is too narrow, and we can't squeeze in if we want to do it. "

He had already seen that among the four, although Wang Xuan didn't speak much, he was the most powerful one. He was suspected of being the leader and didn't dare to offend him. He still had to rely on others to take care of him, so he was careful when answering, lest he would offend him.

Zhao Lei said, "Director Chen, you misunderstood Wang Xuan. He is not blaming you for not doing anything, but for your own good. You must know that the more white scales we get, the stronger our strength will be, and the probability of survival will be reduced. bigger."

Director Fatty nodded and said, "Yes, I know. I know everyone is for our own good. I will definitely live up to the expectations and work harder."

Zhang Haofei sneered and said, "Fatty, what the **** are you talking about living up to your expectations, who cares about you? Looking at your fat body, I guess those monsters like you the most, no wonder I just it just feels like these mantises are trying to rush towards you, I guess they are greedy for your fat."

When he said this, Director Fatty was embarrassed. Given his former status, Zhang Haofei said this to him, which made him very embarrassed.

Tie Jun glanced at Zhang Haofei and frowned slightly.

Director Chen treats him well and has always taken good care of him. Now seeing Zhang Haofei taunting Director Chen, Tie Jun feels very uncomfortable, but he only has four scales now, and he is alone and alone. It was uncomfortable, so I could only endure it silently.

But he secretly swore in his heart that no matter what, he would hunt down as many monsters as possible and get more white scales. Only when he is strong can he not be angry.

Gu Manyao rolled her eyes at Zhang Haofei, and then said to Director Fatty, "This guy has a bad mouth, don't worry about it."

Director Fatty smiled awkwardly and said busily, "It's okay, I know everyone is well-intentioned."

He can get into the position he is now in the society, and he also has a little ability of his own. It's just that he has been pampered for a long time these years, and he is too cherished for his life, so he desperately kills monsters, and he can't do it for a while.

However, he knew how to forbear, knowing that he couldn't have a conflict with the young people in front of him now, and he had to endure no matter how much humiliation he suffered.

However, Zhang Haofei quit, and immediately glared at Gu Manyao and said, "Who do you say has a bad mouth?"

Gu Manyao didn't frighten him, and immediately stared back: "What's the matter with you?"

Zhang Haofei looked at her and saw that Gu Manyao was holding a curved blade in his right hand.

Zhang Haofei has the character of a gangster, nothing else matters, but the most important thing is to have good face, no one can cut his face.

Although he has a good impression of Gu Manyao, at this moment he feels that he can't step down and lose face.

Wang Xuan frowned and said, "I still don't know what danger will come next. You are better off, and you still have the leisure to quarrel here?"

In such a place where danger can occur everywhere, he does not want this small team to be divided, which is not good for anyone.

Hearing what he said, Zhang Haofei immediately borrowed the donkey and said, "Wang Xuan is right, arguing is boring. Gu Manyao, if you have the ability, let's compare it to see who kills more monsters?"

He is not afraid of others, but he is still afraid of Wang Xuan. After all, he has no hatchlings in his right hand, so he can't compare to him.

Wang Xuan was dumbfounded. He never imagined that Zhang Haofei could distort his meaning in such a way.

In order to ease the atmosphere, Zhao Lei said, "Add me as well. The three of us will compare to see who succeeds in hatching first. Let's talk about the reward for the winner first, and the punishment for the loser."

Gu Manyao snorted softly and said, "Compare the two of you, I'm not interested."

Zhang Haofei said with a look of regret: "It's a pity~www.mtlnovel.com~ You can't compare, I and Zhao Lei are two men who are boring."

Gu Manyao was too lazy to pay attention to him anymore, looked at Wang Xuan and said, "Wang Xuan, where are we going next?"

Wang Xuandao: "The car is ruined, we can only walk. Let's first look around to see if there are backpacks or the like in the cars. We need to use them to store food."

While talking, he walked to the back of the car that was about to be crushed, and used the power of the metal tentacles to open the twisted and deformed trunk. Fortunately, the boxes of food were still inside.

He called Director Fatty and Xu Mengyun, and asked them both to take the food out of the car and divide it into seven piles, while the others went to the surrounding cars to find backpacks and bags.

"Everyone, be careful and pay attention to whether there are any monsters around." Zhao Lei raised his voice, then glanced at Xu Mengyun and Director Fatty again and said, "You also have to be careful."

Director Fatty nodded busily and said, "Thank you for your concern, we will be careful." He knew in his heart that what he really cared about was Xu Mengyun, and he was just incidental.

Everyone looked around, only to find a few plastic bags, but not a backpack.

No way, everyone took the materials on the spot, took off the car seat, and cut some seat belts as ropes. After a simple transformation, they quickly made six simple backpacks, plus the fishing gear bag that Zhao Lei found before, seven people are exactly one per person. .

Although Xu Mengyun looked weak, Wang Xuan did not pity Xiangxiyu. The seven people were equally divided, and each of them had to carry a few boxes on their backs.

"Let's go."

Wang Xuan chose to walk along the wall of the bathroom on the right. In order to ensure that the battle would not be affected when he encounters a monster suddenly, he did not carry the backpack on his body, but carried it on his left hand, so that he could put down the backpack in the shortest time possible. fight.
