

Last Building on Earth Chapter 46-50

Chapter 46

When Wang Xuan led the crowd towards the giant toad, Brother Tian who was on the other side of the vehicle also rolled over and climbed over from the vehicle, rushing towards Wang Xuan and the others.

There are one-eyed monsters in every direction. He understands that he will die alone, and his only hope of survival is to join the team of seven people like Wang Xuan, and with the help of the group, there may be a chance of breaking out of the siege.

His strength is not weak, and his reaction is fast. He was bitten by the one-eyed monster in his left hand, and his face was twisted in pain. He grabbed the one-eyed monster with his right hand and threw it out as a weapon.

He has nine white scales in his right hand. The flowers formed by these scales release energy endlessly. While accelerating the healing of the wound on his left hand, his strength and speed are increased.

He has no sharp weapons in his hand, and it is difficult to resist these hordes of one-eyed monsters with his bare hands. He can only grab one of the one-eyed monsters with both hands, and use them as two whips. , charged towards Wang Xuan at full speed.

He had already noticed Wang Xuan's seven people, especially the leader Wang Xuan. The power of the metal tentacles surprised him.

"What kind of weapon is this, why is this guy so powerful?"

Brother Tian was in shock and ran at full speed. Although he was not weak, he couldn't resist the one-eyed monsters that rushed towards him from all directions, and soon he was entangled by several monsters.

These strange pythons opened their mouths and bit frantically. They were not weak, with sharp teeth and sharp mouths, each with a hole. Brother Tian soon had seven or eight fist-sized holes in his body.

Rao is so, he still held on and did not fall down, he did his last bit of strength to support him to rush towards Wang Xuan with his will and desire to survive.

Wang Xuan led Gu Manyao and the other six towards the giant toad, and saw that this man was covered in one-eyed monsters, covered in blood, and he still did not fall down, but rushed towards himself. This tenacity made him a little bit. moving.

He jumped, jumped several meters, and swung out the metal tentacle in his right hand like lightning.

A seven-meter-long giant python raised its tail and slashed towards Brother Tian.

Brother Tian's support is now close to running out of oil, and he barely saw a snake's tail coming, but he was unable to avoid it.

Wang Xuan felt the beast in his right hand jumping with excitement, and the metal tentacles erupted with unprecedented power. With a loud bang, they slammed on the tail that the giant python swept over. The tail was swept away from it, saving Brother Tian's life.

This way, Wang Xuan killed nearly 20 one-eyed monsters. Each one-eyed monster had a white scale in its body. The beasts madly absorbed the energy of these white scales, and the fluctuations became more and more violent. There will be some kind of change faintly.

Wang Xuan's heart was filled with excitement. He understood that this was a sign that the beasts were about to grow and evolve again.

Gu Manyao followed closely and took a step forward, and the curved sharp blade in his right hand slashed out around Brother Tian's body.

The one-eyed monster wrapped around Brother Tian was cut open by her with a sharp blade, and fell down. Brother Tian gasped. Although there were blood holes all over his body, fortunately, the white scales in his body were exerting an amazing effect. Resilience, these are not fatal wounds, and it will take a long time to heal.

The giant toad had plans to leave, and continued to go into the distance. Countless one-eyed monsters rushed to stop it like crazy, but how could it be stopped?

Wang Xuan led the crowd to chase behind the giant toad, and all the one-eyed pythons that were knocked apart by the giant toad were lying on the ground in front of them.

No matter how ferocious and terrifying these one-eyed monsters are, as long as they are hit by them, their bones and flesh will rot immediately. Even a monster with a length of seven or eight meters is vulnerable when facing a giant toad.

With the giant toad leading the way, the pressure on Wang Xuan and the others has been reduced a lot. They almost don't need to worry about the one-eyed monster rushing from the front.

"Quack—"

Suddenly, the giant toad rushing in front let out a cry, resting on all fours, the body as big as Roshan lowered slightly, and the sarcomas all over his body were slowly expanding. This is very rare, it seems to be ready to fight posture.

Wang Xuan, who was chasing after him, was stunned for a moment, and then he understood.

In front of the giant toad, a big tree appeared at some point.

The trunk of this big tree is thick, with a diameter of more than eight meters. It slants through the underground parking lot on the negative second floor. From a distance, it looks like a tree bridge leading to the upper floor.

On both sides of this big tree, there are five incomparably thick roots. These roots are metamorphosing, and the tips are split open, revealing two rows of sharp and thin teeth inside. The vertical eyes above

the mouth are opened, and the giant body twists and rolls violently. As soon as it struggled, it broke from the root, turned into a real giant python, and charged towards the giant toad.

Wang Xuan took a deep breath. Each of these newly awakened giant pythons was more than ten meters in length, and there was a faint smell of fishy aura in its open mouth. Even the giant toad felt threatened and was ready to fight.

The five giant pythons were coming very fast, and the giant toad uttered a warning cry. The fastest of these giant pythons had already opened its **** mouth and bit the giant toad viciously.

The giant toad waved its forelimbs and shot it out in the air.

With a "pop", Toad's forelimbs hit the giant python's head, knocking it back and planting it heavily, but the head of the giant python was hard and was not blown up by the toad.

Another giant python swayed its giant tail, and UU Reading www.uukanshu.com swept over from the other side, and hit the giant toad heavily.

The sarcoma on the body of the giant toad was blown up several times, and there was splattered inside.

Its eyes bulged and it looked extremely angry. This was the first time it suffered such a big loss.

The angry giant toad jumped and made a loud bang. The body like Roshan immediately suppressed the giant python that had just drawn it, causing the giant python to open its mouth, and blood spurted out from the inside. come out.

A giant python rushed up from the side and followed the giant toad's hind limbs. It quickly wrapped around its entire body and kept shrinking its body, trying to strangle the giant toad.

Immediately after, two giant pythons came around, one bit the belly of the giant toad, and the other bit one of its forelimbs, tearing it apart desperately.

They have sharp teeth and amazing bite force, tearing large pieces of flesh from giant toads at once.

Although the giant toad stepped on a giant python, he was also entangled by the giant python and suffered heavy injuries. His whole body was quickly dyed red by the blood flowing from his wound.

It fought with one enemy against four, and kept screaming with anger in its mouth, and the situation became unfavorable.

And Wang Xuanqi and Brother Tian, who were originally behind it, were also in danger.

Five giant pythons over ten meters in length, four besieging the giant toad, and the last remaining giant python rushed towards Wang Xuan and the others.

Although this giant python has a huge body, its swimming speed is as fast as lightning. With a swing of its body, it rushes out, its **** mouth wide open, and it bites the eight people viciously.

Wang Xuan, Zhang Haofei, Gu Manyao and the others dodged one after another, and everyone understood that this kind of giant python was extremely terrifying and could not be beaten at all.

As soon as it hit the air, the boa constrictor rolled up like a gust of wind, and its tail swept across the ground.

Chapter 47

Wang Xuan and Gu Manyao were barely able to dodge, but the director Fatty didn't have time to react at all, and was the first to be caught in the middle.

The fat director let out a scream, and there was a crisp sound of bone shattering in his body. He was beaten and flew out, and his body was folded in the air. into two pieces.

The powerful attack of the python was so powerful that it interrupted the Fatty Director's body by the middle.

Perhaps because the white scales he possessed were exerting special abilities, although his body was torn in two and his internal organs flowed all over the place, the Fatty Director did not die immediately, but instead let out a shrill scream: "No...I don't want to die...Tie Jun save me... .."

"Director Chen—" Tie Jun saw it in his eyes and let out a loud roar, while waving the curved blade in his hand to protect his body, he rushed over to save Director Fatty.

Just as Tie Jun rushed in front of him, Director Fatty's face was contorted, as if trying to squeeze a smile.

"Iron Army..."

Just after calling his name, the voice stopped abruptly, and Director Fatty was dead.

"Director Chen..." Tie Jun trembled slightly, feeling a sudden pain in his body, and when he turned his head, a 5-6-meter-long one-eyed python bit his left arm.

"monster!"

He roared lowly, turned the curved sharp blade in his right hand, cut off the one-eyed monster, and then jumped up, rushing towards the giant python that had just killed Director Fatty.

On the other side, this terrifying giant python charged towards the crowd again.

It carried a fishy wind and rushed into the crowd.

Zhao Lei smelled the foul stench and knew that it was not good. It was too late to dodge, so he could only use a curved blade to protect vital parts such as his head and face, while pushing Xu Mengyun away from him.

He felt severe abdominal pain, and was bitten by the giant python.

With the terrifying bite force of this giant python, he could easily tear his belly apart.

Seeing that Zhao Lei was in danger, Wang Xuan kicked his feet and jumped diagonally. With a wave of his right hand, the metal tentacles extended to the limit of two meters, like a steel whip, hitting the python's head.

With a crisp sound, the giant python splattered blood on its head and was beaten to the point of bleeding. It ate the pain and let go of Zhao Lei, who instinctively let go of the bite, and let out a sharp scream, and a pair of snake eyes filled with horror and anger. With a look, the giant tail turned into the sky, and swept towards Wang Xuan fiercely.

Zhao Lei fell to the ground, leaving two rows of blood troughs on his belly. He escaped the catastrophe and was covered in cold sweat. Seeing that Wang Xuan was in danger, he couldn't help shouting, "Be careful, Wang Xuan!"

Just now, Wang Xuan almost used all his strength to strike, but he never expected that this giant python's head was so hard that it was not shattered by the metal tentacles, and it was able to fight back in an instant.

He just landed, and he didn't have time to dodge, so he could only watch the snake tail swept over, crossed his arms, and prepared to carry it hard.

Thinking of the fate of Director Fatty being swept away by the snake's tail, with the power of this giant python, the consequences are dangerous and unpredictable.

Suddenly Gu Manyao rushed up from the other side, she hugged Wang Xuan and fell out together, the two fell to the ground, she pressed on Wang Xuan, the snake's tail almost swept past her back, sweeping away.

As soon as the python hit the ground, he was even more angry. Zhang Haofei seized the opportunity, clasped the curved blade with both hands, and slashed out from the other side. A huge wound with deep visible bone was opened on his face, and a snake was immediately blinded.

Injured again, the giant python twisted its body frantically and slammed into it. Before Zhang Haofei succeeded, he was hit in the chest and flew backwards like a cloud.

He fell heavily to the ground, and opened his mouth to spurt blood. Zhang Haofei was about to sit up when his chest hurt and at least several ribs were broken.

When his thigh hurt, he was bitten by another one-eyed monster, followed by several one-eyed monsters.

Zhang Haofei was startled, he tried to sit up despite the severe pain in his chest, but just as he was about to swing the sharp curved blade in his right hand, he found that his right arm was also entangled by a strange one-eyed python.

"A bunch of beasts!" Zhang Haofei cursed with round eyes, his throat tightened, and was bitten by a one-eyed monster that came up, making him suffocated and almost unable to breathe.

Seeing that his throat was about to be ripped open by this one-eyed monster, Zhang Haofei's whole body stood up one by one. He had never felt death so close to him before, he stretched out his left hand, grabbed it and bit it. The one-eyed monster in his throat desperately wanted to pull it away. In his mind, all the sounds around him seemed to disappear, only the sound of his own heartbeat and the sound of blood flowing throughout his body.

In the end, the heartbeat and the sound of blood flowing disappeared, and there was only a white ball left in his sea of consciousness.

He has followed Wang Xuan all the way to the present. He doesn't know how many one-eyed monsters he has killed and how many white scales he has absorbed. Something was missing and it failed to hatch successfully.

Up until this moment, in the midst of life and death, the white ball seemed to sense the danger of its owner, and suddenly there was a crisp "click" in the violent vibration.

Immediately after, all the sounds that had disappeared came back to his ears.

Zhang Haofei felt a spider web-like crack appeared on the surface of the white sphere on his right hand, bursting into countless fragments, a blazing white light appeared, and an unprecedented force erupted in his body.

A roar came out of his mouth, Zhang Haofei pulled with his left hand [~www.mtlnovel.com~](http://www.mtlnovel.com) and tore off the one-eyed monster biting his throat together with a large piece of flesh at his throat.

In the splash of blood, the wound at the throat faintly glowed with white light, healing at an unprecedented speed.

In the flesh of Zhang Haofei's right hand, five white phalanges appeared, forming a palm formed of white bones. The fingers of this white-boned palm were sharp and sharp, shaped like sharp claws, and there was a faint layer of light on the surface. At first glance, it looked like the inside of his right hand. The bones stick out through the flesh.

The white-boned palm stretched out and grabbed a one-eyed monster that was wrapped around him. With just a pinch, the skin of the one-eyed monster was rotten, and it broke immediately.

The five sharp and sharp phalanges together, shaped like a bone knife, then slashed out from the body, and those one-eyed monsters that were struck immediately broke their bodies and fell down.

Zhang Haofei got up from the ground, and the continuous energy was concentrated in his chest. The broken ribs inside were automatically joining together at an alarming speed in the energy bag. He sensed a faint consciousness, and by touching this consciousness, he captured the Some basic information.

"Name: Skeleton, Form: Prototype, Ability: Skeleton Claw, Limit Distance: One Foot."

Feeling this message, Zhang Haofei grinned, revealing a sinister smile.

His white ball was successfully hatched, and he finally had his own hatching beast.

"Skull? Interesting..."

"This feels so **** cool!"

The skeleton hatched successfully, and the burst of energy was accelerating the healing of the severe wound he had just suffered. Zhang Haofei laughed wildly and turned around. The skeleton bone claw sticking out from his right hand could overlap with his right hand or stretch out, the limit was one foot. The grip strength is amazing, and the tip of the bone claw is very sharp. He raised the bone claw, and with a simple stroke, he cut a one-eyed monster that came up.

Chapter 48

The giant python on the other side hated Zhang Haofei very much. After knocking him flying, the giant tail slapped him and wanted to continue chasing and attacking.

Seeing that Zhang Haofei was in danger, Wang Xuan quickly got up while pushing away Gu Manyao who was pressing on him, released the metal tentacle in his right hand, and wrapped the giant python's tail from behind, activating the special ability of the beast "twisting and strangling".

When this special ability was activated, the metal tentacles shrank. The giant python that wanted to attack Zhang Haofei felt the sharp pain in its tail and immediately turned its head.

Wang Xuan let out a faint snort, raised up all his strength, pulled the metal tentacles, and pulled the python straight. He originally wanted to lift the python, but unfortunately the python was too heavy, so His current strength can't completely shake it up.

Gu Manyao saw the opportunity and took advantage of the opportunity of the giant python to turn her head back and wanted to attack Wang Xuan who was holding on to its tail.

With this blow, she was absolutely certain, and the curved sharp blade immediately cut through the python's flesh and fell down, but was blocked by the bones in its body, unable to completely chop off its head.

Even Wang Xuan's metal tentacles couldn't blast its head, which shows how hard its bones are.

Gu Manyao didn't expect such a result, and it was too late to open up the distance. The giant python opened its **** mouth and bit it on the waist and abdomen.

This giant python was injured continuously, and had already gone crazy. It bit Gu Manyao and immediately tried its best to bite her from the waist and abdomen.

Gu Manyao couldn't breathe immediately, only felt that the internal organs were squeezing each other, and the chest cavity was squeezed so much that it seemed to explode.

Wang Xuan saw it in his eyes, and knew something was wrong. He didn't care to break the python's tail completely. He immediately released the metal tentacles and rushed here at full speed. With a wave of

his right hand, the metal tentacles wrapped around the python's neck and started again." Twisting and strangling", the metal tentacles kept shrinking, trying to twist the neck of the giant python.

It was too late for him to take action. Gu Manyao was bitten by the giant python, her eyes were black, and blood was gushing out from her mouth. She broke open her palm and extended outward, the surface was covered with black lines, and in the blink of an eye, it turned into a weapon about one meter long, like a machete and a horn.

She clenched the fingers of her right hand, held the weapon, and slashed towards the python's head.

With a "chi" sound, the black machete cut into the python's head without hindrance, broke its hard head, and cut through it.

The python let out a frantic scream, and its body retracted. It was because it shrank so fast that most of its head was cut off together with the big **** mouth, and only half of its **** head was left when it retracted.

Gu Manyao fell to the ground, watching the slashed **** mouth fell from her waist and belly, escaped the disaster, she was in a trance, and then saw that she was holding the black scimitar to the right.

Only a moment later than Zhang Haofei, the white ball in her right hand finally hatched successfully.

Looking at this giant python again, most of its head was chopped off, and it was a hundred-legged worm. It was dead but not stiff. It was trying to escape, but it was wrapped around the neck by Wang Xuan's metal tentacles.

Wang Xuan tugged hard, and wanted to use the power of the beast to entangle and kill with all his strength, to smash the neck of the giant python. Falling down, a white scale appeared, which did not enter Gu Manyao's right hand.

This white scale faintly glowed, different from ordinary scales. After Gu Manyao absorbed it, a strange color flashed in his eyes.

The energy of this white scale is probably equal to the energy of the white scales of ten ordinary one-eyed pythons.

The giant python was killed by Gu Manyao. Brother Tian on the other side picked up the curved sharp blade left by the fat director on the ground, and killed several one-eyed monsters in a row. He retreated to Zhao Lei's side, and Tie Jun on the other side rushed forward. When they came over, a few of them gathered together and barely resisted the siege of a group of one-eyed monsters. Xu Mengyun took advantage of them and mixed with them, but there was no danger to their lives for the time being.

At this time, they saw Zhang Haofei and Gu Manyao's changes one after another.

Brother Tian didn't know what was going on, but Zhao Lei and Tie Jun understood, they were both envious and relieved.

The envy is that Gu Manyao and Zhang Haofei successfully hatched one step ahead of them, mastering powerful strength, but they are relieved that they have become stronger, which means that they have the hope of breaking out of the encirclement, and their chances of survival are two points more.

The giant toad fought the four giant pythons alone and could not resist. The four giant pythons found that the giant python had been killed by Gu Manyao. One of the giant pythons immediately abandoned the giant toad, let out a scream, and charged towards her at a very fast speed. .

It carried a thick and fishy aura that was even more terrifying than the giant python that was just killed.

After successfully hatching this black machete, Gu Manyao faced another giant python rushing over, she was not afraid at all, and took the initiative to meet it.

Knowing that she had killed the giant python before, Wang Xuan's self-confidence swelled, and he forgot how powerful this giant python was, and immediately shouted, "Gu Manyao, don't block it!"

Gu Manyao's thinking is different from that of Wang Xuan.

Wang Xuan's metal tentacles are powerful, but in her opinion, it is not as good as her black machete to deal with this kind of giant python.

Wang Xuan's metal tentacles can't smash the head of a giant python, but her black machete can cut through the hard skin and bones of such a giant python.

Facing the rushing giant python, she held a knife in her right hand and took the initiative to cut it.

It seems that she knows the power of Gu Manyao's right black machete. When the giant python was about to hit the black machete, its head suddenly moved sideways, making her miss the knife, and then hit it sideways~www.mtlNovel.com~ Bang", Gu Manyao Such as a broken line kite, was hit and flew.

She fell heavily to the ground, her throat was sweet, and a stream of blood spurted out. Only then did she realize that she underestimated the enemy. This giant python is too terrifying. Even if she successfully hatched a black machete, she would definitely not be its opponent in one-on-one terms. .

Zhang Haofei rushed up with a hint of madness on his face. When he saw the giant python hitting Gu Manyao, he immediately jumped up from behind. With a wave of his right claws, he grabbed into the python's flesh from behind and cut it all the way down.

Five deep blood troughs were drawn out of the python's back. It roared in pain, twisted its body, and swung its tail to slap Zhang Haofei away.

Zhang Haofei stretched out the skull and bone claws protruding from his right hand, and then closed his fingers together to grab the tail that was swept over by the giant python.

Although the claws of the skeleton bone claws are far less sharp than Gu Manyao's black machete, and can't cut through the hard bones of the giant python, the grip strength is amazing, and the five phalanges are combined, and there is a creaking sound, the tail of the giant python. Being caught, it was difficult to escape.

Wang Xuan made his move when the python hit Gu Manyao with its head. He seized this opportunity and released metal tentacles to wrap around the python's neck.

He understands that the power of the metal tentacles cannot break the giant python's head, and the only way to kill it is to activate the special ability of the beast and use the entanglement and strangulation to break its neck.

Successfully wrapped around the neck of the giant python, the special ability of wrapping and strangling was activated, and the metal tentacles continued to shrink.

Now, Zhang Haofei's skull and bone claws grabbed the python's tail, and Wang Xuan's metal tentacles entangled its neck. Both of them tried their best to pull the ten-meter-long python straight.

The giant python kept roaring and twisting its body desperately, trying to get rid of them.

Chapter 49

Zhao Lei, Tie Jun, and the others were stunned, and rushed up one after another. They understood that this was the most critical moment, and they all wanted to help.

Although Wang Xuan and Zhang Haofei tried their best, the two of them together were not as good as this giant python.

It twisted its body, bent its tail, pulled Zhang Haofei up, and smashed it towards Wang Xuan, who locked its neck.

Wang Xuan heard the sound of broken bones coming from the python's neck, and the python's mouth was oozing blood, but the life force of this python was too tenacious, and it would take a while to kill it completely.

Seeing that Zhang Haofei couldn't hold it anymore, and was about to be dragged by the giant python and smashed towards him, Wang Xuan was anxious, and Gu Manyao who fell out suddenly stood up. He rushed out, clasped the black machete in his hands, and wanted to kill the giant python.

Just as she did not want to get up, several one-eyed monsters surrounded her, desperately entangled her and dragged her down again.

"Damn—"

She was furious and could only watch the giant python bend its tail and take Zhang Haofei to hit Wang Xuan who locked its neck.

Zhang Haofei scolded, "Beast!" Although he tried his best, he still couldn't resist the giant python. He could only let go of the skeleton hand and the python's tail.

After getting rid of Zhang Haofei, the python's tail immediately shot at Wang Xuan at a faster speed.

Wang Xuan watched the tail fall. In danger, he was no longer anxious, but calmed down. Holding the metal tentacles with both hands, he turned over and rolled along the python's neck to the other side of its body.

With a "snap", the giant python's tail hit his head firmly, until his head was bleeding, his brain was buzzing, and blood was constantly bubbling out of his open mouth. Just now, All the bones in its neck were broken by metal tentacles.

The python didn't die immediately, it swung its body, raised its tail again, and wanted to continue attacking Wang Xuan.

Wang Xuan maximized the power of the metal tentacles, stepping on the python's body with his feet, clenching the metal tentacles with both hands, and pulling back with all his strength.

The metal tentacles wrapped around the python's neck kept shrinking, the sound of flesh being crushed continued, and sticky flesh oozing out of it.

Suddenly, a stream of blood splashed out, spraying all over his face. Because of his excessive force, the body of the giant python he stepped on slipped, and his body fell backwards. As soon as he landed, he turned over, shaking his hands and rolling them into one piece. Circles of metal tentacles, a huge python head rolled down with blood.

The head of this giant python was torn off from his neck alive by him.

The body of the python that lost its head twisted twice and then stopped moving. No matter how strong its vitality was, it would have to die immediately if it lost its head.

After killing the giant python, Wang Xuan only felt that his whole body was almost collapsed. He had almost exhausted all his strength just to break the giant python's head.

Seeing the strange one-eyed pythons rushing towards him on both sides, Wang Xuan wanted to fight back, but found that the metal tentacle in his right hand was as heavy as a thousand fish, and it was difficult to lift it.

Fortunately, the iron army had already rushed over quickly, guarded him, and killed the one-eyed monsters that attacked him.

Brother that day held the curved sharp blade that originally belonged to Director Fatty, and killed two one-eyed monsters in a row. He felt the nine-petaled flower in his palm transformed into a white sphere, and the life energy inside was surging. He suddenly understood Wang Xuan's metal tentacles. what is it.

Wang Xuan looked at the head of the giant python that rolled to the ground, and a white scale appeared. This white scale was different. There was a faint glimmer of light on the surface.

The beast absorbed the white scales, and suddenly sent out an unprecedentedly strong wave. Wang Xuan stood on the spot. Affected by the wave released by the beast, all the sounds in his mind seemed to disappear. The surrounding tree roots, the one-eyed monster, Tie Jun, Gu Manyao, In front of the

giant toad, everything seemed to have disappeared, and in his consciousness, only the white light remained.

The monster hidden in this light is undergoing earth-shaking changes.

A strong breath of life is expanding, and a new force is growing.

The giant toad on the other side was still fighting with the three-headed python.

The giant toad was covered in scars, and its strength was weakened. The three-headed python didn't take much advantage of it. It was covered in blood, and it was also seriously injured.

After Wang Xuan twisted and tore off the head of the giant python, the three giant pythons were shocked and distracted when they saw it. Python head.

The giant python was beaten until blood spurted out of its mouth, its body softened, and it was pulled and thrown out by the giant toad.

The remaining two giant pythons couldn't trap the giant toad, and it let out a "quack" howl, bursting into full strength, grabbing the heads of the two giant pythons wrapped around it, hitting the ground one left and one right.

The ground made a huge vibration sound, and the two giant pythons wrapped around it immediately lost their strength, unable to wrap it around again, and fell off.

The giant toad got out of trouble, without fighting, and immediately jumped forward.

It was a dozen meters in a vertical direction, and quickly rushed to the front of the sloping tree in the distance. It jumped again and slammed into the giant tree with a diameter of more than eight meters.

An incredible scene appeared. The giant toad slammed into the giant tree. It didn't make the rumbling noise that everyone imagined, but went straight through. Its huge body sank into the giant tree and disappeared instantly.

Seeing this scene, Tie Jun, Brother Tian, Zhao Lei and the others all showed extremely surprised expressions.

The three giant pythons that were thrown away by the giant toad were all covered in blood and covered in blood. Although they were seriously injured, they had tenacious vitality and quickly regained their ability to move. Appearing very angry, they screamed one after another, suddenly encircled, and slaughtered towards the crowd.

Everyone was shocked. One giant python was already so terrifying, let alone three giant pythons rushing over together. Although they were not lightly injured and their strength weakened, it was not something they could resist.

The three giant pythons were too fast, and they rushed in front of everyone in the blink of an eye.

Everyone did not dare to carry it hard, and they all dodged. Zhao Lei narrowly avoided it. When he looked up, he suddenly found that Wang Xuan was standing still, and he was about to be bitten by a giant python rushing over.

"Wang Xuan flash!" He cried out in shock.

At this moment, Wang Xuan's body is undergoing earth-shaking changes. From the white light in his right hand, a steady stream of new energy is released. This energy nourishes his body, causing his muscles and bones to emit a slight tingle. There was a crisp sound, and a layer of pale juice slowly penetrated from the pores of his body.

This infiltrating juice is the toxin impurities accumulated in his body over the years, which are being slowly excreted from the body at this moment.

The muscles in his whole body are being strengthened, the density of his bones is increasing, and his originally exhausted physical strength is recovering and growing.

In the white light, the life energy of the monsters gradually became stronger, and the fluctuations of consciousness that had been vague before became much stronger. When they communicated with each other, Wang Xuan immediately obtained new information.

"Name: Warcraft, Form: Beginning, Ability 1: Strangulation, Ability 2: Arm of Warcraft, Extension Limit: Three meters."

Digesting the information and data transmitted from the consciousness of the beast, new abilities are being generated in his body, and the metal tentacles extend from his right hand, like a large python, winding up along his right arm.

Chapter 50

His magical beast has finally grown. It has evolved from the original prototype to the current initial form. The metal tentacles that can reach the limit of two meters have grown to the limit of three meters. In addition to the original twisting and strangling ability, he has obtained a second ability. , the arm of the beast.

A terrifying scream rang out, and a giant python covered in blood, carrying a stench, rushed in front of him, and the **** mouth that opened viciously bit his head and face.

With this giant python's mouth, it can bite off his head in one bite.

Wang Xuan stood motionless, watching the giant python approaching him. His right arm was completely entangled by the metal tentacles. At this moment, an incredible scene appeared.

The metal tentacles wrapped around his right arm began to fuse with his right arm.

Flesh and metal fused, and his right arm fused with the circles of metal tentacles, turning it into a giant beast arm.

This huge arm has the flexibility of flesh and blood, and the hardness of metal. The blood in the huge arm is flowing, and there is a faint sound of gold and iron hitting.

Almost at the moment when the giant python was about to bite his head and face, the arm of the beast moved.

All this happened in the blink of an eye, no one could see Wang Xuan's movements clearly, and the fist of the arm of the beast hit the python's right cheek.

The python's head immediately began to twist to the left, and the hard head inside was hit by a heavy hammer and shattered instantly.

With a "Boom", the python's head exploded from the left, red flesh mixed with white brains like fireworks, and the skulls wrapped in pieces were sprayed like shotgun bullets.

The shock of this scene made everyone around couldn't help but widen their eyes, followed by several people with horrified expressions.

What kind of power does it take to blow up the python's head with one punch?

The half-flesh, half-metal arm of the demon beast burst out with so much power that even Wang Xuan stayed where he was, watching the giant python's head explode and the headless corpse slammed down in front of him.

Gu Manyao used the black machete in her hand to kill the one-eyed monsters that were entangled in her. She just stood up and saw the three-headed giant pythons rushing over. Everyone was dodging. She suddenly found that Wang Xuan was standing beside the three-headed giant pythons. Directly opposite, motionless without dodging.

It was too late for her to pull Wang Xuan away. She was anxious and didn't want Wang Xuan's right arm to be suddenly entangled in circles of metal tentacles. The next moment his right arm disappeared from her eyes, and then one of them bit It exploded into his python head.

Only at this time did she see clearly that Wang Xuan's right arm was like a metal tentacle fused with circles of metal, turning into a huge metal arm. flow,

The python's head was actually blown up by his punch?

In Gu Manyao's astonishment, the other two giant pythons let out a terrifying scream, rolled on the ground, turned around and fled.

Wang Xuan smashed the pythons' heads with one punch, frightening them.

Although the giant toads were powerful, they couldn't blow their hard heads with one blow.

As soon as the two giant pythons escaped, the remaining one-eyed monsters abandoned everyone and fled.

Wang Xuan recovered from the shock just now and tried out the power of the arm of the beast. He couldn't hide his excitement and excitement.

This beast that grew from its embryonic form to its initial form is really too powerful.

The two giant pythons were extremely fast, and in the blink of an eye, they fled in front of the big tree in the distance. Like the giant toad before, they passed through the tree and disappeared.

Seeing this scene again, everyone's faces showed expressions of understanding.

Wang Xuan saw that the one-eyed monsters all escaped, leaving only the corpses on the ground and the intertwined roots, and immediately put away the arm of the beast. The giant arms that were originally fused together had metal tentacles differentiated and turned into one again. The thick tentacle, the tentacle shrank, returned to his right hand and disappeared.

The arm of this beast is powerful, but to use this power, the energy consumed is equally huge. It was just a punch, which almost consumed half of his physical strength.

Withdrawing the arm of the beast, Wang Xuan secretly let out a sigh of relief. Inside the giant python whose head was blasted by him, a faintly glowing white scale appeared, submerged in his right hand, and was swallowed by the beast.

Looking around, everyone was embarrassed, and everyone was injured. Fortunately, everyone had the special ability of white scales, especially Gu Manyao and Zhang Haofei who were hatched successfully. During the hatching process, they can stimulate the most powerful healing ability. The injuries they suffered can be healed in the shortest possible time.

Zhao Lei, Tie Jun, and Brother Tian were all gasping for breath, and their faces were pale. Looking at the one-eyed monster that had escaped cleanly, they couldn't hold back and fell down, feeling like they were reincarnated.

Zhang Haofei put away the skull and bone claws in his right hand and said, "The toad and the two giant pythons rushed towards the big tree and disappeared. Do you know the reason? Shall we go take a look?"

Zhao Lei glanced at him and said, "Can't you guess it? We are all deceived by our own eyes. Although these tree roots and monsters are real, the big tree is fake. It should be just a trick. That's why we see toads and pythons disappearing there."

Zhang Haofei opened his eyes wide and said, "What's the matter?" Then he took a few steps towards the big tree, wanting to see what happened.

Wang Xuan was afraid that he would have an accident alone, so he followed [~www.mtlnovel.com~](http://www.mtlnovel.com) and said, "Everyone, go over and see what's going on?" He was also curious about this big tree.

Zhao Lei was sitting on the ground. Hearing what Wang Xuan said, he was about to stand up, but found that Xu Mengyun, who was on the side, took the initiative to step forward and pulled his arm to help him.

It was the first time that Xu Mengyun took such initiative, which made Zhao Lei's heart move, she glanced at her, and stood up following her support.

Everyone stood up and walked towards the big tree.

Zhang Haofei walked up to the big tree, stretched out his hand and stroked it gently, with a surprised look on his face.

Wang Xuan showed the metal tentacles, and used the tentacles to touch the tree in front of him. He found that the metal tentacles easily passed through the tree, and there was nothing in front of him.

This sloping tree is actually intangible.

"It's really amazing..."

Wang Xuan whispered to himself, protecting the metal tentacles in front of him, and slowly moving forward, he found that he could easily pass through the tree.

Everyone followed him, moving forward slowly, and soon they passed through the tree and saw a ramp channel appeared in front of them. The giant toad and the two giant pythons that had passed through the tree before disappeared.

"This is... this is the exit to the top!" Xu Mengyun was the first to call out, with surprise and joy in her voice.

She wanted to get out of here too much, and when she saw the exit suddenly, she was excited and wanted to run forward.

"Wait!" Zhao Lei blocked her, not as excited as she was, and said, "There are dangers everywhere, don't be too impulsive."

After Xu Mengyun was excited, she understood, she continued to inhale, forced herself to calm down, and did not rush over.

Wang Xuan was equally excited in his heart, but after experiencing this series of changes, he already knew how to control his emotions.
