

Last Building on Earth Chapter 6

Gu Manyao also searched in the back seat, but found nothing.

Wang Xuan was driving the car intently, his eyes looking left and right from time to time.

He didn't drive fast, he watched the road while driving, hoping to find his way out.

A large number of parked vehicles could be seen on both sides, and one load-bearing column could be seen. As he drove all the way forward, he suddenly stepped on the brakes and stopped the car.

Because of the sudden stop, several people in the car leaned forward. Zhao Lei was startled and asked, "What's wrong?"

Wang Xuan looked to the left and said, "I remembered before that I drove out of Area F and arrived at Area E, and I drove straight ahead along here. There was no turning on the way, and I would never return to Area F, but Now we're back in Block F."

Zhao Lei looked over and found that the load-bearing column on the left side of the car had the words "F" on it.

Gu Manyao said, "Wang Xuan, do you mean that our car has been going around in circles between F and E just now?"

Wang Xuan restarted the car and said, "I don't know, I'll try again."

As he spoke, he stretched out his hand and wiped the sweat that was slightly seeping from his forehead.

Things have become more and more strange, the air in the car seems to be frozen, and the mood of several people has become heavier and heavier. If the car can't be driven out, what should we do next? What is waiting for them?

Both Zhao Lei and the three daughters kept taking out their mobile phones, hoping to get a call. Unfortunately, all of their mobile phones have now become a display, without any signal, let alone contacting the outside world.

Wang Xuan glanced at the dashboard of the car. The fuel level displayed on it could still drive 190 kilometers, but now it has become 160 kilometers, which means that he has driven a full 30 kilometers in this underground parking lot, but when he gets back again. When the car was parked, the load-bearing column on the side showed that they were still in Zone F.

This time, not only Wang Xuan, but Zhao Lei and Gu Manyao also watched carefully on the way just now. As Wang Xuan said, they kept seeing the E area on the load-bearing column on the way, and then it became the F area, and then E again. Area and Area F, going back and forth like this, as if their cars were shuttled back and forth between these two areas, but the car had always been driving straight ahead, without any changes of direction such as turning or turning around.

What underground parking lot can be 30 kilometers long?

Wang Xuan let go, the steering wheel was covered in sweat from his palms.

"Wang Xuan, can we never get out?" Zhang Qianwen's voice sounded, and she was about to cry again.

"Zhang Qianwen, there's nothing to be afraid of... We can definitely go out." Although Wang Qin was not seriously injured, compared to Zhang Qianwen, who was terrified, she seemed much calmer.

"The more this is the case, the more we have to calm down. Wang Xuan, since there is no way out, we can try to turn around and find a new way to see if we can go out?" Gu Manyao put forward his opinion.

.

Wang Xuan hummed, he also had this idea.

He rubbed the palm of his right hand with his left hand. Although he was driving hard and looking for a way out, the swelling of the palm of his right hand with a foreign body did not disappear. The feeling of being held up by something in the flesh was indescribably uncomfortable. Several times I had the urge to find a sharp knife, cut open the palm of my hand, and dig out the white scales inside.

It's just that I can't find a sharp knife now.

Next, he chose to turn left, changed direction, and drove along the road on the left.

This underground parking lot looks very big, and it is full of all kinds of cars. There are criss-crossing roads between these cars.

Normally, this underground parking lot should have above-ground signs or road signs indicating exits, but now these signs or road signs seem to have disappeared strangely.

This time, Wang Xuan stopped after driving for only a few minutes. He saw from a distance that the road ahead was blocked by a car that was turned upside down.

The car was badly damaged, the body collapsed in several places, the window glass shattered, and it was obviously hit hard.

Wang Xuan stared at the car blocking their way from a distance, frowning slightly, Zhao Lei, who was sitting in the co-pilot, suddenly cried out, "Isn't this my car?"

As he spoke, he took out his car key and pressed it. The lights of the overturned car flashed twice, and it turned out to be his new energy car.

The three girls sitting in the back all opened their eyes wide, showing incredible expressions.

"There is such a thing..." Gu Manyao pursed her lips.

"It's over... We've been going around in circles all the time. We're trapped here and can't get out anymore." Zhao Lei was like a deflated ball, slumped onto the seat, his face pale as paper.

Wang Xuan's expression was also very ugly. He had driven 30 kilometers from the opposite direction before, and then drove to the left for a few minutes. From common sense, it is impossible to return to the starting point anyway.

At this moment, suddenly there was a light "pedaling" on the roof of the carriage, as if something had fallen on it. UU Reading

The five people in the car jumped, and their expressions changed.

Zhang Qianwen said in a trembling voice, "Could that be the voice just now..." She didn't dare to say any more, but the look on her face was about to cry.

Wang Xuan didn't say a word, and immediately reversed the car.

He was reversing very fast. If there was something on the roof of the car, he wanted to use this speed to get rid of the thing on it.

Wang Xuan stepped on the accelerator, the car made a roaring sound, accelerated and fell backwards, but nothing was thrown away from the roof of the car, and suddenly there was a loud bang on the rear windshield behind.

The voice almost came from the ears of the three women behind. Suddenly, Zhang Qianwen screamed in fright. Wang Qin's face changed, but she did not scream.

Gu Manyao's beautiful face paled slightly, and she turned her head to look behind her.

With the help of the rearview mirror, Wang Xuan saw an unrecognizable black shadow on the rear windshield. The whole body was covered with black scales, except for a white scale in the center of the neck.

He immediately thought of the monster covered in scales by the wolf-headed ape that they killed in Zhao Lei's car before. It seems that Zhao Lei was right. There is not only one monster in this weird underground parking lot.

The monster's feet were like barbs, it clung tightly to the trunk lid of the car, stabilized its body, and smashed one of its front limbs to the

corner of the windshield in front of it. The surface of the rear windshield appeared like a spider web. Countless cracks.

"Wang Xuan, move forward quickly, get rid of it—"

Gu Manyao turned her head and looked at the back, only through a pane of glass, she was in close contact with the monster, looking at the pair of weird beast eyes with faint green light, she understood that the monster's power was terrifying. The windshield, entered the car and attacked them.
