

Chapter 25 A Very special

Chapter 26: A Very Special Gift

Erick opens the door and is extremely surprised by what he sees, in front of him is a short vampire, with red hair as well as her eyes, she was beautiful, extremely delicate and with a perfect team.

Because it had materialized there right at the moment they decided to talk to her.

Which makes Erick extremely Erick suspicious.

As Erick is stuck at the door without saying anything, Eduarda and Joshua decide to go see what's going on and come across a very furious Erick staring at a smiling vampire.

Joshua mutters a curse word and says to his sister:

"It's her", and assumes a defensive position

Eduarda now looks suspiciously at the smiling Vampira at the door, who, upon seeing her, throws herself towards her with open arms and hugging her tightly:

"Finally Eduarda", she says and two furious growls echo in the royal pavilion, and Joshua literally pulls her away from her sister, while Erick positions himself in front of her showing his red eyes and fangs to the Rogue who now looks hurt at Joshua.

Joshua feels bad to see the hurt in his Companion's eyes, and Kratos curses angrily for treating her like that.

"Ok, ok, let's calm down", says Eduarda leaving behind Erick

"I only came because I saw that you were going to call me, sorry if I got excited when I saw Eduarda, it's just that she's going to be my best friend, and I don't have any friends, you know, even those of my race

think I'm strange", says Lila, still looking hurt for Joshua

"And I can't even imagine why", says Erick, still in na attacking position.

"Well, my name is Lila, and for your information, we'll also be friends," says Lila, sticking her tongue out at Erick.

Who stares at her in bewilderment, not knowing how to deal with the strange Rogue.

"Then are you going to let me in, or are we going to have this conversation outside," says Lila

Giving way to the Vampira who enters closing the door behind her, Erick positions himself next to Eduarda, and Joshua puts the greatest possible distance between himself and his companion.

"A certain strange rant, how do you know about Eduarda, and how did you know we were going to call you here" asks Erick suspiciously

"It is not obvious? I have a Gift of seeing the future, not the whole future, as it is always changing according to choices or situation, and also I can only see when it is almost happening, making it almost impossible to stop, and I think that is not all that Goddess allows me to see, the only people I can see with a little more distance are you, you and Eduarda warmed up a week ago, and you my love", she says looking with so much love and affection at Joshua that everyone in the room are a little embarrassed to be there, "I saw you a year ago"

Erick is thoughtful in a clear conversation with Kratos and Tron, Eduarda decides she likes Rogue and Joshua clears his throat and says:

"You mean you knew about me a year ago, but you just showed up now?"

"Like I said it's not all the Goddess allows me to see, I saw you, I knew what we would mean to each other, but I didn't know where to find you,"

he says taking a step towards Joshua as he takes a step back.

Sighing Lila says:

"I'm starting to get annoyed with you, come to real Joshua, you're going to be as crazy about me as I am about you", and she stares at Joshua defiantly

"Very interesting your Gift, rare too", says Erick with a more relaxed posture now that he, Kairon and Tron have agreed that the vampire is speaking the truth.

"Not as rare as setting people on fire" and turning to Eduarda says "my friend, one day in the future you will accidentally burn me and that hurts"

Erick looks on in amusement, imagining the scene, while Joshua is worried that he must keep his mate away from his sister for the next week, for her own safety.

Then he sighs realizing that he is already accepting her as his mate.

"Well, I think you should talk better", says Erick, making it clear that the decision is his friend's since the vampire does not represent any threat

"Okay, I really wanted to visit the library, I haven't been there yet", says Eduarda, agreeing that her brother needed to settle down with his partner.

"And I'm going to check on the arrangements for tonight," says Erick, also heading for the exit.

"Or you can finish what you started earlier," says Lila with a fake innocent face.

Eduarda looks furiously at the Vampire,

Erick keeps walking but says:

"Really no wonder you don't have any friends, and I think you better rethink that I'm going to be your friend, weirdo," and leaves before

Joshua asks what they're talking about.

Eduarda casts another warning look at Vampira, wondering how it is possible to be friends with someone who sees the future, and leaves in the opposite direction to Erick.

But she can't stop herself from thinking that it wouldn't be all that bad if they could just finish what they started earlier, and the memories of her on top of him as well as the wonderful sensation of her orgasm invade her memory.

On the opposite side of the gym, Erick has a huge erection when his body is taken over by a feeling of excitement, which he knows is not coming from him, but curiously it doesn't make him jealous or irritated, his thought is actually:

"It's good that finally, my weakling is experiencing good feelings"

Meanwhile in the royal pavilion, Joshua and Lila stare at each other, not saying a word.

Joshua feels his barriers falling one by one, and this time when Lila walks towards him he doesn't back away.

Lila stops a step away from Joshua and says:

"You can't imagine how hard it's been waiting for you this last year, knowing your face, feeling what I feel, and still not being able to touch you or feel you"

Joshua sighs and says:

"You need to have a little patience with me, and with Eduarda and Erick too, because you are new, we didn't know about you, we didn't have time to get used to it, I imagine you were scared when you had the first vision and your companion was a wolf"

"Actually, my first vision with you was not that", says Lila enigmatically

"There is and what was it then?" asks Joshua curiously
