

## Chapter 31 Evil plan

---

Eduarda gets up

exhausted, feeling her whole body aching, she casts na angry glance at Erick

and starts running.

Erick for na

instant forgets that they are not alone and follows Eduarda with his gaze with

a mischievous smile, but his smile dies when he turns and sees Draco looking at

him with raised eyebrows, Erick puts on his mask of indifference again and

walks out of the shed.

But Jessica with

her eagle eyes doesn't miss this detail and she begins to suspect Erick's interest in Eduarda. She remembers Tiffany's proposal for them to unite in

order to finish Eduarda off.

At first she didn't

see the advantage in this, after all, Erick was constantly treating Eduarda

badly in front of everyone.

But now Jessica

began to question Erick's true motives.

She quietly approaches  
Tiffany and says:

"About that proposal  
of yours, I'm in," she says pulling a smile from Tiffany .

"And what made you  
change your mind?", Tiffany asks observing if no one is listening to the  
two .

"I don't know but  
something about Erick's attitude is bothering me, and I've killed before  
for  
less than that, recently I found out that she's living in the royal pavilion,"  
says Jessica thoughtfully

Tiffany who also has  
secret plans to become the future alpha queen says:

"But he seems to treat  
her so badly"

"It could be , or  
that's what he wants us to think," replies Jessica increasingly convinced  
to  
get rid of Eduarda.

"If he really has  
any interest in her, that could cause him to turn on us," Tiffany says  
remembering that she narrowly escaped Erick's wrath.

"And the newbies are there for what", says Jessica with a devilish grin "let's use them to make

Eduarda's life hell, especially that girl in my group, she already seems to hate Eduarda, so we won't need much to convince her", says Jessica referring to Betany.

Meanwhile Eduarda finishes her rounds without imagining that her life is at great risk.

As soon as she finishes she goes to her room, but notices that most of the newcomers are

avoiding her, and he wonders what she did this time. But this was already a

consequence of Jessica and Tiffany's plans, who decided that it would be better

to isolate Eduarda from the newcomers because they began to spread lies and

doubts about her among them.

Eduarda enters her room, feeling a mixture of confusion and uneasiness. She can't shake off the

feeling that something is wrong. As she sits on the bed, her mind fills with

questions about the sudden change in the newcomers' attitude. She wonders if

she has unknowingly offended someone or if there is something more sinister at play.

As the hours pass, Jessica and Tiffany put their plan into action. They subtly manipulate conversations and spread rumors, planting seeds of doubt and resentment against Eduarda among the newcomers. Betany, in particular, becomes na easy target for their manipulations. Her dislike of Eduarda makes her susceptible to their influence.

And within hours the atmosphere of the royal academy that was already not easy becomes much colder and more hostile for Eduarda.

But Eduarda refuses to let negativity consume her. And she makes the decision to become more and more determined to improve her skills and prove her worth. And channel her frustration and confusion into training, pushing herself harder than ever. Finding solace in physical exertion, using it as na escape from the toxic environment that surrounds her.

A little later Eduarda enters the cafeteria, feeling hostility emanating from all the rookie

tables around her. The disapproving looks and whispers increase as she walks

toward her own table, where her group mates are seated.

As she sits down,

Eduarda cannot help but wonder what she has done to deserve such treatment. She

feels isolated and helpless in the face of the toxic environment that surrounds

her. However, she refuses to give in to the negativity and decides to focus on

her own growth and development.

While eating her

dinner in silence, Eduarda tries to find the strength to overcome the challenges that surround her. She recognizes that she cannot control the

actions of others, but she can control her reaction to them. Determined not to

be overwhelmed, Eduarda decides that she will channel her energy into her

training and personal improvement.

Just as Eduarda is

about to give up on staying there in the cafeteria, even though Gaby and Peter

try to strike up a conversation with her, Erick, Joshua, and Lila enter the cafeteria.

Lila, after giving

Joshua a kiss on the cheek, shows her tongue in the direction of the newcomers

who are looking at Eduarda, and jumps to her seat next to Eduarda where she

sits passing her arms around Eduarda's shoulders, this makes the mood at

Eduarda's table improve because everyone laughs with the Vampire's behavior.

Erick watches the scene, and also wonders why all the newbies are suddenly so focused on Eduarda, making her their target.

As he looks in Eduarda's direction their eyes meet, and for a moment he imagines what it would be like if Eduarda were his mate.

As Erick's gaze meets Eduarda's, a brief moment of connection is established between them.

Eduarda notices the intensity of Erick's gaze and feels a chill run down her

spine. For a moment she wonders if there is something more behind the hostile

attitude he has always shown.

Jessica, sitting next to Tiffany at a nearby table, watches the interaction between Erick

and

Eduarda with suspicion. She leans toward Tiffany and whispers something in her

ear. Jessica and Tiffany's gazes meet, and na even more sinister plan begins to

form in their minds.
