

Chapter 52 BLUE Glow

After Erick's speech

Eduarda feels different, it is as if the fragile and fearful girl inside her has died in her place a secure and powerful woman is born.

Eduarda then

realizes that she has finally taken possession of her identity and power, and just at this moment her connection with Celeste becomes complete and she feels

ready to fight.

Turning around she

comes across Draco looking at her with a mixture of admiration and fear, and

approaches him saying:

"I'm sorry for being

suspicious of you Draco, it just so happens that I felt the evil acting up but I didn't know where it was coming from and you were muttering strange things"

"Yes and thanks to

that your brother is alive, it was a strengthening spell" Draco says between angry and hurt, but shaking his head he says, "haa never mind, we need to get

ready, we have a lot to do I still need to teach you many things, like this spell for example, I will go back to the academy and prepare my things see you

tomorrow" he says and walks away without looking back.

Lila runs to her and
says:

"I need to see your
brother will you come with me?"

Just then Eduarda
remembered how injured Joshua was and nods urgently, following Vampira into the
royal house.

A guard leads them
through a corridor stopping in front of a door and signaling for them to enter,

Lila opens the door without delay and lets out a sigh at what she sees,
Eduarda

enters and holds her breath, Joshua is lying on a bed totally pale and with one

of his legs totally destroyed.

Lila runs to him and
Eduarda also approaches him.

Erick is on the other side of the bed looking apprehensively at his friend.

Celeste takes control and Eduarda begins to exude a power never seen before, the glow in her eyes are blue like the eyes of Joshua's wolf, and from her hand comes a blue glow, looking at Erick she says:

"Hold him this will hurt", Lila hisses at her trying to protect her injured companion, but Celeste says in a deadly voice, "do it again and you will regret it Vampire ill-bred" And it wasn't her words that made Lila turn away but her powerful gaze.

Eduarda reaches out her hands over Joshua's injured leg and says :

"Go", and before the surprised eyes of Erick and Lila a blue glow breaks loose from her hands and enters Joshua's leg who begins to scream immediately.

Erick holds him tightly prevents him from getting up or struggling, Lila starts crying and saying words of consolation to Joshua.

Eduarda remains

concentrated with outstretched hands, totally focused on Joshua's leg, droplets

of sweat appear on her forehead and to the amazement of those present, Joshua's

leg begins to repair itself.

As time goes by

Joshua calms down and Erick releases him looking completely amazed at the power

of his companion, but he notices something wrong, she seems increasingly tired.

With trembling

hands Eduarda says:

"Come", and the

blue glow leaves Joshua's leg and returns to Eduarda who faints immediately.

If it weren't for

her super speed Erick would never have reached her before she hit the ground.

Picking her up, he

desperately realizes that she is sleeping, probably from exhaustion, and

realizes how dangerous it is for her to use her powers, as they drain an enormous amount of her vital energy.

Looking at Joshua
and Lila he orders:

"Don't say anything
about this to anyone, it could be very risky for Eduarda". And kissing her on
the forehead he leaves with her to her room.

Erick lays Eduarda
down on the bed, feeling a mixture of concern and admiration for her
incredible
power. He now understands the immense
toll it takes on her. Watching her
peaceful face as she sleeps, he contemplates the depth of his feelings for
her. Protecting her becomes his top
priority.

Meanwhile, Lila and
Joshua remain in the room, exchanging worried glances. Lila wipes away
her tears and speaks softly:

"Erick is right we

need to keep this a secret. It's not just for Eduarda's safety, but for everyone involved, because they can use us to get to her. Her power is extraordinary and could attract unwanted attention."

Joshua nods, his eyes filled with gratitude for Lila's understanding and love for his sister.

"You are right, Lila. We must protect her at all costs. Eduarda has become a force to be reckoned with, and we need to ensure that this power of hers remains hidden from those who might misuse it."

As they both leave the room, their minds are filled with a new determination. They know that the road ahead will be filled with challenges, but they are ready to face them head on.

The night passes and Eduarda slowly wakes up, her strength renewed. She finds herself in Erick's room, with him sitting beside her, watching her every move.

She smiles weakly at him, grateful for his unwavering support.

"Hey," Erick says
softly, his voice full of relief. "You
finally woke up. How are you feeling?"

Eduarda sits up,
feeling a lingering sense of fatigue.

"I'm better now.
Thanks for taking care of me, Erick."

He takes her hand,
his touch comforting and reassuring.

"Always, Eduarda. I
will always be here for you, protecting you."

Their connection
deepens as they share a moment of silent understanding. Both know that

their bond goes beyond the

ordinary, transcending the roles of Alpha and Luna Together, they are a formidable force.

But their pause is short-lived. News reaches them about a growing unrest within the academy. The students wonder what will become of them with war so imminent, most want to fight but some want to return home. This makes Erick realize that they must gather their allies, create strategies and prepare for the battle to come.

Eduarda gets up from the bed, determination shining in her eyes.

"We can't lose, Erick. We need to fight for what is right, for our species and all the others and for the future."

Erick stands up, his gaze never leaving hers.

"I couldn't agree
more, Eduarda. Let's face this together, united as Alpha and Luna."

As they leave the
room, ready to face the challenges that await them, they know that their
love

and unwavering determination will be their greatest strength. The battle
against evil has just begun and

they are prepared to unleash their power, side by side, in the face of
adversity.
