

Chapter 54 Unlikely Allies

The start is given

and Erick and Joshua watch Eduarda and Lila enter the part of the forest destined to hold the jungle, the hearts of both of them tighten to see the women of their lives go into battle without them, not that the two are fragile,

in fact both are owners of extraordinary powers, Lila besides having all the strength,

and speed of a vampire can also see the future even more when it involved her,

which made it extremely difficult to catch her distracted. And Eduarda literally burned people with her hands.

But knowing that if something went wrong they wouldn't be there to protect them was driving them crazy.

Meanwhile in the forest Betany pulls Trevan along so that they can follow Eduarda and Lila at a safe distance, but not let them lose sight of them.

From a different vantage point Peter also follows their movements.

Gaby is bolder and approaches them making noise so they don't get spooked by his approach.

Celeste growls in Eduarda's mind and she and Lila turn ready to attack, but Gaby raises her hands in surrender and says:

"Hey I just wanted to join you I found out you have a plan to kill Eduarda"

"No," the two say together, Gaby gets very overcome as he expected resistance from Vampira but

not from Eduarda, they always got along well. It turns out that Eduarda is now

fully in tune with her wolf Celeste, and Celeste did not want Gaby's company,

but seeing the confusion on her friend's face she rushes to explain herself:

"Gaby I appreciate it , but I need to do this alone, I mean without someone protecting me, and I

wouldn't forgive myself if you get hurt for me, I think it's better you go your way "

Lila just hisses at
him showing him the haste.

Gaby doesn't know if
she believes Eduarda's excuse very much, but prefers to let them believe
that
she has given up:

"Okay but be
careful," she says and turning around goes another way.

Draco had taught Eduarda to create a mental
link with Lila, and soon the Vampire's voice sounded in her mind:

"We are being
followed in different directions and by different groups, now the question
remains whether they are all enemies "

"Celeste had
already warned me, but we are ready, whatever it is we won't lose," Eduarda
says confidently. And Lila nods agreeing with her.

The first wave of
attack arrives before they can get ready, it was three newbies from
Tiffany's
group, and the parade itself behind them using them as a shield.

Celeste is dying to
transform, but the group is so confident that they haven't even

transformed

into their wolf form.

They don't seem to have any interest in Lila, they focus their attacks on Eduarda who now has a chance to put into practice all the hard training she has been doing with Draco.

When Tiffany realizes that Vampira is constantly helping Eduarda, she decides to attack Vampira by keeping her busy, thus giving the newbies the chance to finish Eduarda off.

The fight between the two is brutal as both are determined to win. Eduarda, who has not yet needed to use her powers, has already incapacitated one of her attackers who is

unconscious on the ground, and now deals with the other two, and it is when she

hears a cry of pain from Lila that she implements a brutal force in her blow leaving another of her attackers fallen on the ground, because of the rage she

feels when she sees Tiffany with her teeth sunk into Lila's neck, clearly trying to cut her off, her eyes glow red and her whole body emits a red glow,

not just her hands, seeing this, her last attacker decides to run away terrified, dragging her unconscious friends with her away from Eduarda and

her

fury.

Eduarda goes after

Tiffany who, seeing her glowing, remembers the pain of having her hands burned

by Eduarda last time, with a howl of despair she lets go of Lila and runs away

in a desperate flee.

Lila recovers

almost instantly, but it would have been fatal if she had been decapitated.

They barely have

time to recover and another wave of attacks comes, but this time they can handle them easily, for they are not attacking to kill, they are only after the victory of the jungle.

Now they are

visibly tired, and Jessica decides to use this time to attack, Eduarda lets Celeste take over, and in her place appears the beautiful and powerful white

she-wolf. Jessica's eyes widen at the sight because it's possible to see that

the she-wolf's front paws have the same red glow that Eduarda's hands emit. The

white she-wolf lets out an angry growl and shows her haste to Jessica

who now

even though she is a powerful Lycan and is with two other Lycans , wonders if

it was really a good idea to attack Eduarda.

Eduarda and Lila

advance on them like Divine fury, Jessica finds herself completely dominated by

Eduarda's she-wolf, who accepts nothing less than complete submission.

From the darkness of

the Forest Hercules watches the fight and even salivates, with a sick desire to

have Eduarda and her powers for himself.

As soon as Jessica

walks away defeated and badly wounded, he gives the signal, and his allies as

well as evil shadows immediately surround Eduarda and Lila.

Celeste now emits

the red glow throughout her white hair and the scene is both magnificent and

frightening, such is the amount of her power .

But the disadvantage

of the two is clear from the start, and it is at this time that Betany appears

pulling Trevan and the two stand beside Eduarda, who in her wolf form looks

incredulously at the two, and Betany speaks:

"What? It's your side or the dark side and I've had my share of badness" and looking at her reluctant cousin she completes, "and I also owe you one, I haven't forgotten

what you did for me on the day of the fight".

"You two can do your laundry later, we're in a bit of trouble here and what the hell are these shadows?" Trevan says, but he doesn't wait for an answer and transforms, as

does Betany and the four of them prepare for the fight.
