

Lazily 335

Chapter 335: Lazy Lyca

Lord Olfan was dead.

Yet, this news never reached the ears of anyone. In fact, rumor has it that he is already abroad. After his daring escape, Lord Olfan is now abroad, waiting for the situation to calm down. Then he will come back.

And have his revenge against Lyca and Shen Qui. Most importantly, he would make Chu Nan and the Chu Family suffer.

Lyca calmly ate the grapes from the bowl. She turned towards Cleo. "That it?" she asked. It has been a week since Lord Olfan disappeared. "No more?" How boring.

"No more. We were able to confirm his death. His subordinates who discovered his body just ran off to god knows where. What are we going to do with his body?" she asked.

Lyca lifted an eyebrow. "Bury him. Why do we have his body?"

"I tried telling you, but you were too busy sleeping! I have been trying to tell you for days. Boss Q doesn't want to get involved and is traveling frequently for his expansion. Mr. Huang Sheng Hong is also assisting him."

"Oh." Lyca nodded and threw a few grapes into her mouth. "I deserve some rest. I have been busy and will be busy in the coming days."

"I know. So what are we going to do with his body?"

"Bury it." These people are really weird. Why would they keep his body? "If someone died, just bury them." Was that so hard to understand?

Cleo nodded. The reason why they didn't touch the man's body was because they thought Lyca would examine him. After all, he died using her poison. "Oh, Rue and Lai Su will arrive in a few

days too. Also Ronan said the prototype is done. You can check it anytime so we can finally start production."

"So quick?" She still wanted to rest, ah.

"Yes. He said he wanted to make a few more during the competition. When are we going to Long City to attend the assembly?"

"The Assembly is after Spring Festival, no?" Lyca just wanted to make sure.

"Yes. It will be in the Long Founding School of Elites. Rumor has it that the President will attend. Of course, this could be some hype to make people want to attend."

"Oh. Then we should celebrate Spring Festival in Long City," she smiled.

"What about Mr. And Mrs. Huang?" Right now, Cleo is the one acting as Lyca's secretary because she was worried that Lyca wouldn't be able to finish anything without a good secretary. Shen Qui already has Ronan, so she chose to assist Lyca this time.

"They will stay here and take care of my grandfather," Lyca said, a slight smile was on her face. Speaking of her grandfather, his treatment would be over soon. Sadly, he is still not showing any signs of waking up. However, the old man's body is healing.

The poison is slowly being neutralized by her antidote, and his body is slowly recovering. But the damage was really too big. Waking up might still take a few more weeks, if not months.

"Oh, then I will arrange everything. Our flight, house and "

"Hey, Cleo I think you are a really excellent secretary. Do you want to become my secretary?" Lyca interrupted her.

"" She nodded. "How did you survive without a secretary? You are too lazy, ah."

"I didn't need one in the past." She was merely a pampered princess before she married Shen Qui. Moreover, she has Yi'an to peel her grapes. "Then I fell asleep and of course have Q to clean my body."

""

"Now, the business is doing good. Shen Qui can't take care of me. And Yi'an is busy too. I hate booking flights and planning. At least, I have you now."

"Yeah So back to the plan. I found this mansion in Long City. It has over fifty rooms. It's huge and it could surely accommodate everyone once we go there. Boss Q wanted to know if you would want to buy this house. He said this will serve as a vacation house. Look at the pictures. Also, it's near the beach and river that borders Shi City. It has" Slowly, Cleo started talking about the interior of the house. The colors, furniture, design, the future changes, the lighting, the gate, the lawn, the swimming pool, training ground, and "Eh?" Cleo stopped talking when she heard a light snore from Lyca.

She immediately walked in front of the egg chair where Lyca was languidly sitting and sigh. Asleep.

And drooling!

Cleo gave a wry smile before she left the documents on the small table next to her. Then she found a blanket and put it on Lyca. This place was still located in the underground. However, to create a cozy atmosphere, Shen Qui installed an aquarium on the wall. It was an enormous aquarium with various species of fish. In front of the aquarium was, of course, Lyca's favorite space. It was the egg chair, a few stacks of books, and a small coffee table, enough to put her bowl of fruits.

"She's asleep," Cleo said when she saw Chu Munan pacing just outside of Lyca's cave or at least that's what Lyca loved to call it. "You can't wake her up. She will turn into another person and might kill you."

"My grandfather asked her to teach me something!" Chu Nan gnashed his teeth. "She didn't teach me anything in the past few days. Why was she staying there all the time!?" Chu Nan has never been inside Lyca's cave, so he didn't know what this place is.

"She's busy," Cleo calmly said. This wasn't the first time that she saw this man here. "If you are too idle, you can go ahead and read the book that she gave you. Didn't she tell you to familiarize yourself with the chemical elements? You should do that."

"I want to learn poison! It doesn't have anything to do with that damn table of elements!"

With this, Cleo smirked. "Fool. I already told you she's busy."

"Doing what?"

Cleo was about to blurt out 'sleeping' but she quickly stopped herself and made a little white lie.

"We are currently making a special armor. It's in its last stages. She She is currently reviewing the materials used so we can start production."

Seeing Chu Nan's face changed, Cleo added, "Don't disturb her and just wait for her to leave this room."

"She will leave once her husband returns! If Shen Qui is here, then he won't have time to teach me!"

Cleo just shrugged. "If you want to die, then go ahead and wake her up." With this, she left him alone with a mocking smile on her lips. She actually hoped that this man would wake Lyca up and experience some real thrashing.

..

Slowly, the days passed.

After another two days of Lyca staying in her new cave, she finally went outside. This time it was because she wanted to see her husband. Shen Qui and Lyca had been communicating through their phones for the past few days because he was currently in another region, trying to obtain some contracts with other companies in the restaurant business.

Moreover, Shen Qui also wanted to expand the restaurant on the neighboring Ibya Region and Navut Region. Of course, with the help of Chu Family, this has been going smoothly.

"Lyca Huang, my family had been helping your husband and yet you aren't doing your part! Where is the formula of the poison and antidote that you wanted to give me?" Finally, Chu Nan had the opportunity to talk to her.

"Oh? Then can you give me at least thirty names of chemical elements?"

"You "

"It's been so long and you aren't studying? Ah so you aren't that smart after all?"

Chu Nan glared at her. However, Lyca just ignored him and continued walking. First, she needed to check on her grandfather. Second, she wanted to tell her mother and father that she will go to Ralia to check out everyone's training.

"Where are you going?" Chu Nan asked.

Lyca didn't answer him. She felt that Chu Munan is actually a little likable than this Chu Nan. Was it because Chu Munan was ill? Oh, now that she thought of Chu Munan, Lyca's lips turned upwards into a slight smile. She received a couple of calls from Lai Su in the past few days, and everything was good in their part. The one that Lai Su created was able to affect the cancer cells in the mouse that they used in the experiments. Now, the already started experimenting on humans and Lai Su said that the results are pretty good!

So the question now is pretty simple.

Can they really cure Chu Munan?

Lyca smiled until she reached her grandfather's room. Of course, Chu Nan still followed her. He even followed her inside and watched as she carefully check her grandfather's involvement. "Is he going to live?" He couldn't help but asked. His grandfather said that Old Man Huang had no chance of living.

However, right now he could already see changes in the old man's face. He isn't as pale anymore. It was as if he had gotten younger. His peace looked peaceful and vigorous. He immediately made a mental note to inform his grandfather about this matter.
