

Lazily 400

Chapter 400: Foresight

When Mr. Liang heard that Lyca and her team would go back to Kong City, he let out a burst of deep evil laughter that resounded throughout his office.

It was the type of laughter that could easily give people nightmares, the one that the villain makes every time he outsmarts the protagonist.

"See? I told you! They relied too much on their suit last time. They have no real skills!" Mr. Liang said to the man sitting opposite him. "Did they think messing with our Dal Valley was a good thing? I will make sure that each and every one of them r suffer!"

"As expected, your foresight is still the best. Shall we proceed to part two of the plan?" Mr. Liang's right-hand man said.

"Of course! Prepare our men! Tomorrow! We will attack them on their way back to Kong City! We will kill every and show them that we aren't people to be trifle with!"

"Then, I will prepare the men. Do we need special weapons? We don't really know if they will be difficult to deal with."

"No need. Use all the untraceable firearms with normal bullets. There is no need to invest too much in killing them. I am sure that they would die from a bullet or two."

"What if they wear those weird costumes?"

"We are not sure if those armors are bulletproof. However, I am sure they won't just wear those armors while traveling. It's not like they are aware of the ambush." Mr. Liang said. "Prepare our men and proceed with caution."

"How many people are we going to bring this time?"

Mr. Liang was silent for a few seconds before he smiled. "Twenty. Armed with long rifles. Instruct them not to approach the cars. Just fire instantly as long as the target is spotted. Then approached the car once you are sure they are already dead."

"Understood," the man smiled before he bowed and left. This mission is something that would regain their title as the most ruthless security company in the Region! They would not waste this opportunity to prove that they are still number one in the black market!

The news of what happened between Dal valley and Shen Security's people soon reached the other businessmen's ears, and they immediately anticipated a good show.

"Stupid people." Xu Jihan said when he heard the news. "They wanted to harm the twins and can't even do it right."

"Brother you "

"Obviously, the target was the twins. They wanted to show their superiority. They wanted to let the business world know that they are not afraid of anyone. Not even the richest family in the country."

"Why does it sound like you want to see one of the Chu twins injured?" Xu Rong'er asked. She closed the fashion magazine in her hands and looked at Xu Jihan.

"Of course. That would make it more fun."

Xu Jihan's smile made Xu Rong'er froze. She nodded and opened the magazine again.

"Aren't you going to see Chu Munan?" Xu Jihan asked.

"Brother, I already told you. I am done with my unrequited feelings." Plus, she is scared of Lyca. Xu Rong'er decided to stop digging her own grave and stay at home instead. "When are we going back to the Capital?"

"My flight is tomorrow. Are you coming with me? I thought you will stay with Chu Munan in Lyca's house?"

Xu Rong'er shrugged. "I don't want to go to Lyca's house anymore."

"Why is that?"

"Because" What if Lyca decided to kill her and bury her somewhere? Xu Jihan and the Xu Family might not see her corpse if that happens. "Because I don't want to see Chu Munan. I don't like him anymore." She lied. She didn't tell her brother about Lyca's threats because she didn't want to sound like a child anymore. She is already in her twenties.

What would Lyca say if she involved Xu Jihan in this matter?

"But I am planning to visit their home soon." Xu Jihan smiled.

"Did Lyca invited you?"

Xu Jihan opened his mouth before shaking his head. "No."

"Then don't bother coming." She would only call Xu Jihan a freeloader. That woman is a bully! She would surely bully her brother until he decides to leave.

Soon, the two decided to go back to the Capital first. If Xu Jihan wanted to go to Lyca's home in Kong City, he would bring Xu Rong'er along. However, Xu Jihan needed to gain Lyca's invitation first.

Just like Xu Jihan and Rong'er, the Long Family is also discussing what happened with Shen Security and Dal Valley. And just like Xu Jihan, Long Yi was a bit disappointed that Chu Nan was not harmed.

"If Mr. Chu would receive an injury, the Chu Family might blame Lyca, and worse would stop their cooperation. After all, the twins are the future of the Chu Family. Sadly, those people are a bit dumb. If they wanted to deal with Chu Nan and Chu Munan, they could have assigned more people to fight them. After all, Chu Nan is in the police department. He knows a thing or two about fighting." Long Yi was currently in his father's office. He was busy with a lot of paperwork when Xie Jun suddenly arrived with the news.

"What are we going to do about them? Are we just gonna let them leave like this?"

"What can we do about it?" Long Yi countered. "My Long Corp is facing a lot of problems. I don't even have the time to sleep and eat anymore. How could I find the time to deal with them? If anything, I think it's good that Lyca would leave this City. She didn't even stay here for a month, and Long City is already this chaotic. That woman is really a bad omen."

Xie Jun sighed. "Alright then I would instruct my people not to touch them."

"That's good. Right now, we should let Shen Security and Dal Valley fight while we recover our strength."

"How's the company lately?" Xie Jun asked. The Xie Family and Long Family are long-time friends. In times of need, the Xie Family didn't abandon Long Family and decided to help them buy some of the stocks that the investors sold.

"Ah, we are recovering well." Long Yi said. Lately, some foreign company is buying a big chunk of stocks which is helping them a lot.
