

Read I'm Leveling Up Too Quickly Chapter 1001 - 1050

Tribulation Transcendence (1)

Chapter 1001: Tribulation Transcendence (1) Chapter 1001: Tribulation Transcendence (1) Although Zhu Wuyang was confident that he could overcome the Heavenly Thunder Tribulation and even the Inner Demon Tribulation, he decided to start with the Five Elements Tribulation after some consideration.

Since there was a safer way, why would he choose those dangerous methods of advancement? After all, those dangerous methods of advancement would not bring Zhu Wuwan stronger strength or a stronger cultivation foundation.

Moreover, after passing through those dangerous tribulations, it was inevitable that he would have to pass through the Five Elements Tribulation. Therefore, why not follow the relatively safest method of passing the tribulation that had been summarized in the cultivation world for hundreds of thousands of years and slowly pass through the many tribulations?

Tribulation of Gengjin!

This was the first tribulation of the Five Elements Tribulation, and it was also the first tribulation that Zhu Wuwan needed to overcome. As long as he could overcome it, it meant that he had stepped into the Crossing Tribulation Stage.

His Qi Refinement and Body Refinement cultivation had already reached the peak of the Great Ascension realm, and the breakthrough stone to advance to a higher level was also prepared. Therefore, Zhu Wuwan no longer hesitated and immediately triggered the tribulation of Gengjin.

Immediately, under the shocked gazes of countless people, countless Gengjin Sword Qi suddenly rose up and shot towards Zhu Wuyang. In an instant, they entered Zhu Wuyang's body. Each sword Qi corresponded to a wisp of Earth Element Power.

Facing the attack of the seventh metal sword qi, the Ten Thousand Nirvana Earth Yuan in Zhu Wuyang's body changed into the shape of a shield and triggered a special secret technique of heaven and earth to block the attack of the seventh metal sword qi.

"Dang dang dang dang dang..."

Countless sounds of metal clashing rang out from Zhu Wuan's body, and his body trembled slightly. The strange power of breaking through the petrification process continuously replenished the shield's consumption, allowing it to last longer.

Other peak Mahayana cultivators could only use the earth essence in their bodies to withstand it. At most, they could use some elixirs, treasures, and so on to replenish their consumption, but how could it compare to the strange power of breaking through the petrification?

It was inevitable that there would be future troubles if he used treasures and elixirs to replenish it, but there would basically be no future troubles if he used the strange power of breaking through petrification to replenish it.

Moreover, Zhu Wuyan could also be replenished with natural treasures, spirit pills, and of course, the power of faith. As long as the Ten Thousand Nirvana Earth Yuan in Zhu Wuyan's body wasn't destroyed in an instant, Zhu Wuyan wouldn't be in any danger.

The power of the 10,000 Nirvana Earth Essence was extremely shocking. It was 81 times stronger than cultivators of the same cultivation level. Although the stronger the Earth Essence, the stronger the five element tribulation, it couldn't exceed 81 times.

Therefore, when Zhu Wuyang faced the Tribulation of Aged Metal, he was quite calm. Seeing that the sword qi could not do anything to Zhu Wuyang, the Tribulation of Aged Metal began to transform into other shapes, such as a giant hammer, a long saber, and a golden poison...It could be hammered, slashed, or eroded...He attacked the 10,000 nirvana earth essence continuously, trying his best to destroy the 10,000 nirvana earth essence in Zhu Wuyang's body.

However, facing these attacks, the 10,000 nirvana earth essence was easy to deal with. Although it consumed some energy, with the help of the breakthrough stone and power of faith, it didn't consume much.

Zhu Wuyang didn't even consume any heavenly treasures or spirit pills. After all, it was inevitable that there would be future problems after consuming them. It was better to use the breakthrough stone and the power of faith.

When the Ten Thousand Nirvana Earth Yuan was dealing with the tribulation of the seventh metal, it was also undergoing tempering. It became stronger and stronger, and it became more and more tenacious. The speed of improvement was very fast, far exceeding Zhu Wuwan's normal cultivation speed.

The Heavenly Tribulation was like this. If one could not survive it, they would be severely injured or even die. Once they could survive it, they would be able to obtain considerable benefits.

However, the Five Elements Tribulation was much less dangerous than the Heavenly Thunder Tribulation and the Inner Demon Tribulation. Under normal circumstances, it would not kill people. At most, it would cripple the cultivator's Earth Essence. It would take thousands of years or even tens of thousands of years to recover.

However, once they delayed for such a long time, it would be very difficult to break through to the Crossing Calamity Stage the next time. Moreover, the difficulty of the second time would be even greater. Therefore, under normal circumstances, a Quasi-Immortal of the Great Vehicle Stage only had one chance to break through to the Crossing Calamity Stage in his lifetime.

If they succeeded, they would be able to reach a higher level and enjoy a lifespan of more than 100,000 years. However, if they failed, they would suffer heavy losses.

The tribulation of aged metal turned into all kinds of metal attacks that kept falling on the 10,000 nirvana earth essence. The most powerful one was the aged metal sword qi, so this tribulation was called the tribulation of aged metal.

The so-called tribulation of the seventh metal originated from the seventh metal sword qi. One could imagine how powerful the seventh metal sword qi was.

Seeing Zhu Wuan being bombarded by countless metal-attribute attacks, the surrounding cultivators were already dumbfounded. Although they had thought that Zhu Wuan might have used the world's origin to break through to a higher realm, they still did not expect Zhu Wuan to really do so.

"Using the world's origin to break through to the Crossing Calamity Stage, how much of the origin power of the macro world would be consumed? Although I've said this many times, I still want to say that Zhu Wuyang is really too extravagant, so extravagant that it's unbelievable."

"That's right. Even if it's the Origin Power of a macro world, it's not a small number to help a cultivator in the Great Vehicle Stage break through to the Crossing Calamity Stage. I'm afraid only a monster like Zhu Wuwan can obtain so much Origin Power of a macro world and successfully advance to the Crossing Calamity Stage."

"80,000 World Origins! What an astonishing number! No one has ever been able to obtain so much World Origins from the 3,000 macro worlds since ancient times. Although it's a little extravagant for Zhu Wuwan to do this, it's understandable. After all, his talent has already reached the peak of the human world, and has even surpassed the human world."

"I wonder if Zhu Wuan can successfully overcome the tribulation and become a Worldly Immortal. If he succeeds, the influence will be too great. The Southern Wasteland will no longer be a barren land. However, how did Zhu Wanhao do it? Isn't it a little too exaggerated to be able to obtain so much world origin from the 3,000 major worlds?"

"I feel that Zhu Wuan must have grasped a special treasure, which is why he was able to roam freely in these worlds and obtain so many World Origins. Otherwise, he wouldn't be able to do so with his knowledge and luck. "We can think of a way to obtain this opportunity from Zhu Wanwan. In this way, we can also enter the 3,000 macro

worlds and earn a lot of money in the future. Perhaps we can also be like Zhu Wanwan and use the power of the world's origin to advance to the Human Immortal realm in one go. At that time, we'll be rich. What do you think of my idea? Should we make a move on Zhu Wanwan and think of a way to obtain the opportunity from Zhu Wanwan?"

..

Chapter 1002: Human Immortal (1) Chapter 1002: Human Immortal (1) To be honest, with Zhu Wuyang's current situation, even a fool would realize that something was wrong. If it was normal to obtain a large amount of World Origin from one world, it would barely make sense for two or three.

However, Zhu Wanwan had already obtained a large amount of World Origin from the five worlds. Especially when she was in the Xuan Huang Great World, the World Origin she had obtained had reached more than 70,000 points.

No one would believe that there was nothing wrong with such an exaggerated number.

Therefore, many people had other thoughts, especially when they saw Zhu Wuyang continuously improve her cultivation realm without any side effects through the origin power of the great world. Many onlookers became even more envious and jealous.

Speaking of which, in order to advance a small realm, people like them often had to spend a lot of time and energy. Moreover, it was also dangerous. If they were not careful, they might attract a calamity.

However, Zhu Wuwan had improved from the Form Synthesis Stage to the peak of the Great Vehicle Stage in just a few months. Even her body refining cultivation had increased rapidly and reached the peak of the Great Vehicle Stage.

How many minor realms and how many major realms had he broken through consecutively? It was simply insane!

It was not even enough to describe this matter as crazy. It was a bit of a fantasy.

Who wouldn't want such a rapid improvement? Not to mention those middle and low-level cultivators, those middle-level and high-level cultivators also wanted it. Even several Human Immortals who were going through the tribulation had a greedy heart.

However, as they felt Zhu Wuyan's strength still soaring, everyone slowly fell silent. When Zhu Wuyan was at the peak of the dacheng stage, she was basically invincible, not to mention that she was about to break through to the tribulation passing stage.

Although I really want to take down Zhu Wuan and force him to reveal the treasure hidden on him, I can't do it. There's nothing I can do.

Their initial excitement began to fade after they realized the gap between the two. In the end, only a few Human Immortals were still looking forward to it. They hoped to obtain the secret hidden in Zhu Wuan's body so that they could obtain a considerable amount of World Origin from the 3,000 macro worlds.

However, Zhu Wuan would soon let them know that this was just a wishful thinking. The chances of realizing it were too low.

Faced with the continuous bombardment of the tribulation of seventh metal, Zhu Wuwan relied on the tempered Ten Thousand Nirvana Earth Yuan, the breakthrough stone, and the strange power of faith to resist in an orderly manner. Although he encountered some difficulties, he eventually overcame them.

When the golden sword qi that filled the sky suddenly dissipated, the ten thousand nirvana earth essence in Zhu Wuyang's body increased by more than ten times compared to before. Under the tempering of the golden tribulation, the ten thousand nirvana earth essence obtained huge benefits.

At the same time, the moment the tribulation of seventh metal disappeared, a strange power appeared between heaven and earth and naturally fused into the 10,000 nirvana earth essence, causing Zhu Wuyang's 10,000 nirvana earth essence, which had already reached a certain limit, to suddenly leap and advance to a new realm.

Ten Thousand Nirvana Immortal Essence!

The originally thick and heavy 10,000 nirvana earth essence turned into strands of jade-colored 10,000 nirvana immortal essence. Although the quantity was much less than before, the quality was more than 100 times higher.

The overall power was at least dozens of times stronger than before, and this was still the embryonic form of immortal essence. It hadn't completely transformed into immortal essence. Only after experiencing the complete five element tribulation could it transform into the true Ten Thousand Nirvana Immortal Essence.

Even so, this embryonic form of Ten Thousand Nirvana Immortal Essence had increased Zhu Wuwan's overall strength by several times. She could basically sweep away early and middle stage Human Immortals.

Although the distance of each teleportation was still only 20,000 miles, it was becoming more and more unpredictable. It was basically impossible to be caught. Moreover, it was extremely familiar, as if it was his instinct.

The connection between ten thousand nirvana immortal essence and heaven and earth spiritual energy far exceeded that of ten thousand nirvana earth essence. This allowed the amount of heaven and earth spiritual energy that Zhu Wuwan could mobilize to increase by more than ten times.

Especially when he was connecting with the metal-attributed Heaven and Earth Spiritual Energy, the effect was even better. It was almost to the extent that he could control it like an arm.

The more powerful ten thousand nirvana immortal essence also brought more nourishment to Zhu Wuwan's body and soul, causing Zhu Wuwan's overall quality to increase.

In the future, as long as he polished his Ten Thousand Nirvana Immortal Essence, Zhu Wuyang would be able to trigger the next tribulation and advance to a higher realm.

Feeling the surging 10,000 Nirvana Immortal Essence in his body, Zhu Wuwan's face was full of smiles. After cultivating for more than 100 years, he had finally stepped into the ranks of Human Immortals.

From now on, I will be invincible in the entire Dong Yuan Continent!

That's right. Although he had just stepped into the Crossing Calamity Stage and had not even passed the complete Five Elements Calamity, Zhu Wuwan was absolutely confident that he could sweep through the entire Dongyuan Continent and become the ruler of the Dongyuan Continent.

After all, the strongest cultivator in the Dongyuan Continent was only at the middle stage of the Dujie realm, which was only one realm higher than Zhu Wuwan. With Zhu Wuwan's solid foundation and the Heaven and Earth Immortal Martial Arts and Secret Skills of Heaven and Earth, defeating these cultivators at the middle stage of the Dujie realm was a piece of cake.

His eyes inadvertently glanced at some of the Human Immortals who had not been enslaved by him. Seeing the greed on their faces, Zhu Wuwan smiled slightly and did not take them seriously.

Very soon, Zhu Wuyang would use his true strength to tell them that they were courting death if they tried to harm him. It was already very good that Zhu Wuyang did not cause trouble for them. If they dared to cause trouble for Zhu Wuyang, they would be courting death.

After transcending the tribulation of Gengjin and successfully advancing to become a Human Immortal, Zhu Wuwan had used up more than half of the breakthrough stones that he had accumulated over the years. Next, it was time to slowly accumulate them and then attack a higher level.

Even though Zhu Wuyang's current foundation and strength meant that it was not too dangerous to continue triggering the Five Elements Tribulation, it was better to be more stable.

In any case, Zhu Wuyang was now the number one person in Dongyuan Continent and could basically be said to be invincible. There was no need to be so anxious. Safety was the first priority. It was not wrong to make more preparations.

Seeing that Zhu Wuyang had successfully passed the Five Elements Tribulation without any danger, the onlookers were once again stunned.

Even some of the Quasi-Immortals who had reached the peak of the Mahayana Realm and had been wasting their time for many years had a faint illusion that the Five Elements Tribulation was just so, and they could also pass it so easily.

However, when they thought of how many Supreme Quasi-Immortals of the Mahayana Stage had failed to transcend the tribulation over the years and finally regretted it for the rest of their lives, these restless Quasi-Immortals of the Mahayana Stage became obedient again and became even more envious of Zhu Wuwan.

However, to be honest, a Peak Mahayana Quasi-Immortal who had not completely passed the Five Elements Tribulation could not be considered a true Human Immortal. He could only be considered a half-step Human Immortal.

Only those who had completely passed the five tribulations of the Five Elements Tribulations were qualified to call themselves Human Immortals. Of course, as long as they could pass one tribulation, the Earthly Prime had already begun to transform. It was not wrong to call them Human Immortals.

Chapter 1003: The Wang Family's Slave Clan (1) Chapter 1003: The Wang Family's Slave Clan (1) After successfully stepping into the ranks of Human Immortals, Zhu Wuwan was finally relieved. He no longer had to worry about the threat of Dongyuan Continent. His main body was already in an invincible position.

After all, apart from being invincible among Human Immortals, Zhu Wanhao also controlled two Human Immortals, including Sword Immortal Qian Yuan, who was in the middle stage of the Tribulation.

If the three Human Immortals joined forces, they could dominate the entire Dongyuan Continent. There was basically no one who could compete with them, unless they had special advantages such as arrays and terrain.

In a head-on confrontation, Zhu Wuyang's team would be invincible, even if they were faced with the joint efforts of several other Human Immortals.

This made Zhu Wuyang put down her last bit of worry and start running the Huaman Multiverse well. Of course, if she earned enough breakthrough stones, Zhu Wuyang would continue to improve her cultivation and realm. Who would complain about having a high cultivation and realm?

The search for the embryonic form of the universe passage was relatively smooth. Basically, there would be an embryonic form of a universe passage between several Dao paths on Planet Earth. Of course, there were many places where the embryonic form had not yet appeared. They had to continue waiting.

However, Zhu Wuyang didn't have much time left. After discovering that there weren't as many embryonic forms of the universe passageways as he had imagined, Zhu Wuyang also targeted some of the less heavily guarded universe passageways while searching for the embryonic forms of the universe passageways.

Everyone knew the importance of the cosmic passage. Every cosmic passage meant a huge amount of wealth, so the Milky Way Federation protected it very strictly.

Even the universe passages of the lowest level would usually be guarded by big shots in the Meditation Realm. With Zhu Wuwan's current strength, she could barely sneak into these universe passages of the lowest level and secretly do something.

If it was a cosmic passageway of a higher level, the strongest person guarding it would have transcended beyond meditation, and Zhu Wuwan would not dare to do anything.

The universe passages of the highest level were said to be guarded by the top gods of the Milky Way Federation. The gods were existences above the saints. It was said that they controlled the power of the Great Dao, and their terror was beyond imagination.

According to the information that Zhu Wanhao had learned, the strength of these gods had probably reached the level of Earth Immortals and Celestial Immortals in the world where Dongyuan Continent was located. In some aspects, they were even stronger than Earth Immortals and Celestial Immortals because they grasped the power of rules and Great Dao.

However, in the Dongyuan Continent, Genuine Immortals, Earthly Immortals, and Celestial Immortals should not have grasped the power of the Laws and Great Ways. Only by breaking through to the realm of Celestial Immortals and above could they grasp the power of the Laws.

However, the laws of the world where the Dongyuan Continent was located far surpassed the laws of the Huaman Multiverse. The two were not on the same level. Once the cultivators of the world where the Dongyuan Continent was located grasped the power of laws, they could easily defeat the gods of the Huaman Multiverse.

There were many differences between the two cultivation systems, but there were also some similarities.

While he was busy, Zhu Wuyang had already traveled more than half of Planet Earth. However, at this moment, Zhu Wuyang unexpectedly received a message from Wang

Fengjuan, the cheap elder sister. It was that the Wang family had encountered a calamity and was asking him to save them.

Looking at the message sent by Wang Fengjuan, Zhu Wuwan was a little stunned. After he had done something, it was reasonable to say that the Wang family had already forgotten about him. It was basically impossible for them to recall him. What was going on now?

After some consideration, Zhu Wuyang decided to go and take a look. With his vitality that exceeded three digits, Zhu Wuyang's speed was like lightning. Soon, he arrived at Jiangnan Road and found Wang Fengjuan, who had just sent him a message.

Hiding in the dark, Zhu Wuyang was silent as he watched Wang Fengjuan being sent to the emergency room by passersby. If he guessed correctly, Wang Fengjuan had accidentally recalled some of her previous memories and found out about his existence because she was in a life and death situation.

This was an accident!

His spirit power fluctuated, and he quickly found the other members of the Wang family. Zhu Wuwan was shocked to find that they were not doing well. They were either running around, being bullied, or panicking.

With a little understanding, Zhu Wuwan knew that the Anshi family of Jiangnan Dao had taken a fancy to the patent dividends that Zhu Wuwan had given to the Wang family, so they had made a move on the Wang family.

Because of Zhu Wuyan's methods, the Wang family and others thought that the dividends from this patent were a gift that the Wang family had luckily obtained after accidentally saving a senior researcher, not a gift from Wang Debao.

This was also Zhu Wuyan's doing on purpose. At the same time, in order to cut ties with the Wang Family, Zhu Wuyan also specifically asked the Milky Way Federation to remove the secret protection for the Wang Family members.

He had been safe and sound for decades, but he didn't expect to encounter such a calamity just before Zhu Wuyan left.

In the end, it was because the Wang family's foundation was too weak and they did not have enough strength to protect this foundation. That was why such a situation had occurred.

After a moment of consideration, Zhu Wuwan decided to give the Wang family another insurance. After all, Wang Debao of the Huaman Multiverse should be her in the parallel world.

Even though Zhu Wuyan had completely fused with Wang Debao's soul, it didn't mean that she could calmly watch the Wang Clan be destroyed like this.

Soon, they arrived at the Anshi family's high-level meeting room. The members of the An family were discussing this matter. Their faces were filled with joy as if victory was in their grasp. However, they did not expect Zhu Wuyang to barge in at this time.

"Bang bang bang bang bang bang..."

The Anshi Clan's higher-ups who had injured the Wang Clan members were killed on the spot by Zhu Wuyang, turning into puddles of rotten meat. The others were so frightened that they knelt down and begged for mercy, not knowing what had happened.

Zhu Wuan did not use his identity as the Wang family's underling to show up. Instead, he used his identity as a senior researcher who had given the Wang family a patent to explain why he had killed these idiots and made the An family's higher-ups regret it.

Zhu Wuan did not kill the An family. Instead, he planted a spiritual restriction in their bodies and made them swear an oath to protect the Wang family well in the future. Otherwise, all the descendants of the An family would perish.

To be on the safe side, Zhu Wuan even planted a poison in their bodies. If they wanted to remove the oath and poison, it was impossible without the strength of a deity.

However, although the Anshi family was much stronger than the Wang family, they were still far from reaching the point where they could make friends with gods. In fact, the strongest person in the An family was only in the realm of constant meditation, let alone gods. They had not even reached the realm of meditation.

The Anshi Clan basically had no way to resolve Zhu Wuyang's vicious hands, so they would obediently follow Zhu Wuyang's instructions in the future.

If nothing unexpected happened, the Anshi family would be able to protect the Wang family for at least a few hundred years. As for a few hundred years later, it would be up to fate.

Chapter 1004: Thirty Seats (1) Chapter 1004: Thirty Seats (1) A few hundred years of wealth and splendor was what Zhu Wuyan could give the Wang family. It was also completely worthy of the Wang family.

The original owner's three sisters and parents would probably leave one after another during this period. After they left, even if the Wang family declined, it would be nothing.

The only people Zhu Wuyang could protect were the Wang Clan's current generation. There was nothing Zhu Wuyang could do about it in the future. He would have to leave eventually.

After dealing with the An family's matter, Zhu Wuyang asked the An family to think of a way to erase his relationship with the An family. At the same time, he strengthened Wang Fengjuan's memory of him before leaving Jiangnan Road.

The time to leave was getting closer and closer. Zhu Wuyang had to finish everything as soon as possible and give everyone a big surprise before she left.

With Zhu Wuan's intervention, the Wang family quickly returned to their original wealth and peace. The An family also woke up and began to protect the Wang family, helping the Wang family become stronger and bigger. As for why this was the case, both parties were not very clear.

Unknowingly, a few years passed, and there were only a few years left until the 100-year deadline. At this moment, Zhu Wuyang had already traveled through the entire Earth Star and found the embryonic form of 10 universe passages. At the same time, he had placed a special poison in 20 universe passages that could destroy these universe passages at a certain time.

It sounded like a small number, but this was the embryonic form of the universe channel and the universe channel. Once it was destroyed, the Milky Way Federation would basically not be able to enter the worlds connected to these universe channels. At the same time, these worlds would not be able to contact the Milky Way Federation.

The two sides would no longer have any interactions, and they would not be able to influence each other. One could imagine how big this was.

The complete closure of every cosmic passageway was a huge matter for these worlds and the Milky Way Federation. It could bring Zhu Wuyang more than 1,000 World Origins, or even more.

In other words, the destruction of these 30 universe passages could at least bring more than 30,000 World Origins to Zhu Wuwan. This was the minimum. The real number would definitely be much more than this.

As long as one destroyed any embryonic form of a universe passage or universe passage, they would be able to complete all the missions to enter a great world. One could imagine how important these universe passages were.

Previously, Zhu Wanhao had only delayed the opening of the embryonic form of the universe passageway by a few years, but he had actually obtained about 1,000 World Origin. This had given Zhu Wanhao a fright.

Later on, Zhu Wuwan no longer dared to interfere with the opening of this cosmic passage. Now that the cosmic passage had been opened, it led to a medium-sized world with a large number of mineral deposits. It had already been conquered by the

Milky Way Federation and became one of the important resource lands of the Milky Way Federation.

If Zhu Wuan could destroy this universe passageway before it opened, he would be able to obtain at least thousands of World Origin, or even more than 10,000 points of World Origin. One could imagine how shocking the influence of this universe passageway was.

Regrettably, this cosmic passageway had opened a little too early, not giving Zhu Wuwan any time to prepare at all. It had to be said that it was a pity.

Moreover, the impact of the destruction of these cosmic passages was also continuous, and could even last for a long time. The total number was definitely beyond imagination.

The 30 universe passageways were like 30 money trees to Zhu Wuyan. Once they were successfully destroyed, the benefits Zhu Wuyan would obtain would be astonishing.

It was a pity that Zhu Wuan's strength was still limited. If he had enough strength, he could destroy more universe passages and obtain more world origin.

At this moment, Zhu Wanhao's strength had already reached the Forgotten Realm. However, if he wanted to advance to the Prominent Divine stage, even if he used all the breakthrough stones used to advance to the tribulation, Zhu Wanhao would still be unable to advance to the Prominent Divine stage smoothly.

Once Zhu Wuyang was able to advance to the Prominent Divine stage, the number of breakthrough stones needed would probably be almost the same as the number of breakthrough stones needed for Zhu Wuyang's main body to advance from the tribulation to the Perfected Immortal stage. Zhu Wuyang had previously underestimated the number of breakthrough stones needed to advance to the Prominent Divine stage.

It was also because of this that Zhu Wanhao had never considered advancing to the Prominent Divine stage. Otherwise, if he could destroy dozens of cosmic passages after advancing to the Prominent Divine stage, the world origin that he brought would definitely be worth so many breakthrough stones.

After all, the opportunity to obtain the Origin of the World was too rare. The Breakthrough Stone could be obtained in the Dongyuan Continent, so the Origin of the World was more important.

A hundred years was too little. Why not a thousand years? It would only take about three years in the Dongyuan Continent.

Zhu Wuwan shook her head and sighed. She sorted out the research data over the years and considered how she should send these research data out to gain the greatest influence as much as possible.

At the same time, in these last few years, Zhu Wuwan also began his final madness, memorizing some books and cultivation techniques that were especially important to him.

When Zhu Wanhao traveled to Planet Earth, she did not give up on her desire to learn either. She had been memorizing all kinds of knowledge and classics in the Huaman Multiverse, and she basically did not waste any time to comprehend them.

It wasn't easy for him to enter such a good world where knowledge was freely available. Naturally, Zhu Wuwan wouldn't let it go. Comprehending ancient books and cultivation techniques required too much time. It was better to memorize all these good things first and slowly comprehend them when he returned.

When he was in the other worlds, Zhu Wuwan had thought of using the time difference between these worlds to comprehend and fuse the ancient manuals. However, he did not expect that everything would be reversed after coming to the Huaman Multiverse.

However, thinking back to the previous worlds, there were too few books and techniques. With Zhu Wuyang's learning ability, she quickly grasped them. It was unlike the Huaman Multiverse, where so many books and techniques were placed in front of her, allowing her to take whatever she wanted. Even memorizing all of them was a luxury.

Furthermore, other than the ancient books and cultivation techniques, the Huaman Multiverse also had some other good things that were useful to Zhu Wuwan, such as the use and research of poisons, some high-tech information, and the development of biological genes. All of these could bring a lot of benefits to Zhu Wuyan, so Zhu Wuyan naturally wouldn't let them go so easily.

The vast Milky Way Federation had tens of thousands of habitable planets, which were basically filled with intelligent life. They also controlled hundreds of worlds. It was a huge force, and one could imagine the information and knowledge they possessed.

Many people could not learn even one ten-thousandth of it in their entire lives, not to mention that Zhu Wuyang had only been here for a hundred years. It was already very good that he could remember more than half of it.

In the later years, Zhu Wuyang only picked the most important subjects to study. She could no longer remember those that were slightly lacking.

Chapter 1005: A Scene (1) Chapter 1005: A Scene (1) While learning, Zhu Wuyan did not forget to replenish the remaining several hundred World Origins. In the final month before he left, Zhu Wuyan had earned a little over 99,000 World Origins in the Huaman Multiverse.

Zhu Wuwan didn't dare to move the remaining 100 points, fearing that the slightest movement would cause the world's origin to break through 10,000 points. That would be tragic.

After everything was prepared, Zhu Wuan came to a medium-sized universe passageway in the name of research and prepared to enter it. Moreover, Zhu Wuan brought an assassin from another race with him.

Surprisingly, the alien assassin also had a special treasure that was specially used by the race to destroy the universe passageway. Zhu Wuwan was prepared to earn a large sum of the world's origin through this method before she left. At the same time, she would leave a perfect back view for this great world.

The reason why he didn't choose those large universe passages was mainly because the defense measures of those large universe passages were too strict. The crisis response measures were also beyond imagination. Even if he really encountered a special situation, the chances of salvaging it were higher.

Therefore, after much consideration, Zhu Wuwan decided to choose a medium-sized universe passageway for safety reasons. He had been to this medium-sized universe passageway a few times before and had done a lot of research. He knew its internal situation well and knew that once he made a move, there was basically no chance of failure.

Furthermore, the importance of this medium-sized universe passage was extremely shocking. It could be said to be one of the top medium-sized universe passages. Once it was destroyed, it would definitely bring about a huge impact.

With Zhu Wanhao's SS-rank researcher status, he was naturally warmly welcomed. The day after the banquet, Zhu Wanhao entered the cosmic passageway under the gaze of the higher-ups guarding the cosmic passageway and prepared to head to the other world.

"Boom..."

However, just a moment after entering, under the shocked gazes of all the higher-ups guarding, this universe passageway actually began to shake violently, and it looked like it was about to collapse.

"Not good, there's a problem in the cosmic passage. Hurry up and save Academician Wang. We can't let anything happen to him."

"Protecting the universe passage is more important. Do your best to protect the universe passage. Don't let it collapse."

" Some people are protecting the space passage, and some are rescuing Academician Wang. Did you guys sense the presence of an alien race in the space passage? Is it the alien race that came to assassinate Academician Wang? Why didn't anyone notice it before? "

" The cosmic passage has just been activated. Academician Wang is still in the cosmic passage. If something happens, he will be easily killed. I think it's very difficult to save the cosmic passage. We should save Academician Wang. "

..

Amidst the chaotic clamor, discs flew out of the cosmic passage one by one. They were the research results that Zhu Wuwan had forcefully sent out of the cosmic passage with all her energy.

There were both good and bad research results. At the same time, there was a personal terminal in these discs. At this moment, this personal terminal was spreading the contents to the Internet. In an instant, it was sent to thousands of websites.

The research results on the disc were recent and had not been put into the personal terminal yet. Basically, they were all good research results.

The research results in the personal terminal were from previous research. There were a lot of them, some good and some bad, but all of them had a significant impact on the Human Multiverse.

Zhu Wanhao had a purpose for doing this. She wanted to maximize the impact of his research results as much as possible.

Seeing the disc and personal terminal flying out of the universe passage, the higher-ups guarding the universe passage were first stunned, then they exclaimed.

" Quickly protect the CD and personal terminal. Those must be Academician Wang's research results. He did his best to leave them for us. We can't let them be damaged. "

"The personal terminal seems to be transmitting data. It's probably affected by the destruction of the cosmic passage, so it's transmitting all kinds of data uncontrollably. Let's stop it. There might be important research results inside. The personal terminal has been destroyed, so we can only let it transmit all kinds of information. Once it's destroyed, it might be gone. We can only watch helplessly."

" I've saved the disc. Quick, take a look at what's inside. Oh my god, there are all kinds of research results and important research and development information inside. Just the title alone is extraordinary. Hurry up and report this to the Federal Research Institute. Tell them to verify this information as soon as possible. "

” Don’t waste any more time. Think of a way to save Academician Wang. The cosmic passage is unstable. The destructive items on the alien assassins are too powerful. They can’t stop the destruction of the cosmic passage. ”

..

Amidst the clamor, this medium-sized universe passageway completely collapsed. There was probably no possibility of salvaging it in the future.

The cultivators of the Milky Way Federation who were mining resources on the other side of the universe passageway would probably never come back. This matter alone could have a huge impact and bring a lot of world origin to Zhu Wuwan.

At the same time, the Milky Way Federation had lost such an important resource treasure land, which would definitely affect the subsequent development. This could also bring a lot of world origin to Zhu Wuyang.

Moreover, no one suspected that all of this was planned by Zhu Wuyang, because Zhu Wuyang had no motive or need for this at all. He even put himself in danger.

Everyone thought that the assassin of the Forgotten World had used a special method to hide near the cosmic passage. When Zhu Wuwan entered, he followed everything in.

Then, he did not hesitate to use himself as the price to forcefully destroy the universe passageway and perish together with Zhu Wuwan.

In order to assassinate Zhu Wuan, the alien race was willing to pay any price. They didn’t even care about the Forgotten Realm’s power.

However, using such an assassin to exchange for an SS-grade researcher from the Milky Way Federation, and a cultivator in the Meditative State at that. He was still young, and his future was boundless. It was definitely worth it.

As long as they could get rid of Zhu Wuyang, the foreign tribes might even be able to send out assassins of a higher level, let alone assassins in the Meditative State.

Now, they were able to use an assassin in the Meditation Realm to kill Zhu Wuyang and even drag a cosmic passageway along with them. This was something worth celebrating for any alien race. Therefore, the alien race should also admit this matter and completely sever all ties between Zhu Wuyang and this matter.

Just like that, Zhu Wanwan used a method similar to the Xuanhuang Great World to successfully pluck herself out and win the reputation of “after death”.

Chapter 1006: Great Man (1) Chapter 1006: Great Man (1) Looking at the completely disappearing cosmic passageway and the SS-grade researcher who had disappeared

along with the cosmic passageway, the cultivators guarding the mystical gold passageway were at a loss.

The few higher-ups who had seen the research data stored in the disc felt an unprecedented oppressive atmosphere sweep over them, making it difficult for them to breathe.

Although he hadn't confirmed whether the information on the disc was true or not, as long as a small part of it was true, it meant that Zhu Wuwan's value would soar many times, and she could even become an SSS-level researcher.

There were only a few researchers of this level in the entire Milky Way Federation. If something happened here, none of them would be able to bear the consequences.

Not to mention that because of their negligence, even the mystical gold passage was destroyed. In the future, the Milky Way Federation would lose a rich world, and the people of the Milky Way Federation who were still in the mystical gold world, what should they do?

These were things that they had to face. Their future was definitely ruined. It all depended on what punishment they would receive next.

However, everyone knew in their hearts that the greater the value Zhu Wuyang displayed, the greater the punishment they would suffer. This matter would definitely bring irreparable consequences to everyone in the mystical gold passageway.

Before they could confirm the authenticity of the information on the disc, the countless information and research results that Zhu Wuyang had "accidentally" spread through her personal terminal began to explode.

"When did this information come up? The 20th version of the Heart Sutra? Is it really that exaggerated? The current version of the Heart Sutra hasn't even reached the 10th version yet, but there's already a 20th version. Could it be that this version of the Heart Sutra is so much more powerful than the 9th version? I don't believe it anyway, but let's just open it and take a look."

"A summary of the research results of the super insect repellent. Who would actually send this thing to the largest portal in the Federation? Although the name is a little old-fashioned, there's so much content. It's worth clicking on it to take a look. Take it as a reward for the hard work of the poster."

"The eighth-generation aircraft hasn't even come out yet. Who came up with the research results of the tenth-generation aircraft? Do you have to be so mischievous? I'll go in and give him a good scolding."

” The Fist of Life is all-encompassing and can be said to be the number one fist technique in the Building Foundation Stage. Do you have to be so exaggerated? You can’t brag like this. Only a fool would believe such words. However, you have successfully attracted my attention. I have decided to click on it to take a look. ”

..

As the research results continued to spread, some curious people began to open the research results and were shocked to find that the things inside seemed to be real.

Although most people were still skeptical and did not pay much attention to these things, thinking that these things were made up by someone to deceive people, there were still some curious people who began to investigate the authenticity of these materials, including some professionals.

Especially since the person who posted the research results was Wang Debao, an SS-level researcher at Kunlun University. There was also a related introduction and certification. This attracted more and more attention, especially from the teachers and students of Kunlun University.

This was because they knew that this account belonged to Wang Debao. Academician Wang had published so many research results in one go. Although it was a bit exaggerated and seemed to be a bit of a scam, those titles might be old-fashioned to ordinary people, but to researchers like them, it was shocking.

“Why did Professor Wang suddenly publish so many research results? It seems to be true, but how could he produce so many research results alone? Is he kidding us?”

“I don’t think so. These research results are reasonable and well-founded. There’s a high chance that we can make a real thing based on the research results. Let’s give it a try. Maybe it’s true.”

“What’s wrong with Old Wang? He suddenly posted so many things. There must be thousands of them. If they’re all true, not to mention an SSS-rank researcher, it’s easy for him to surpass this rank. Perhaps Old Wang can even become a 4S, 5S, 6S in the history of the Milky Way Federation ... Or even a higher-level researcher, hahahaha.”

” Don’t laugh. Take a good look at these research results. I’ve already seen one of them and found that it makes sense in theory. Now, we just need to experiment. If the experiment is successful, it means that this research result is real and not fake. Academician Wang didn’t fool us. ”

“Even if some of these research results are true, only a portion of them should be true. It’s impossible for all of them to be true. After all, Lao Wang has released 10,000 research results in one breath. If all of them are true, Lao Wang is too terrifying. He’s no longer a human but has surpassed the scope of a god.”

..

Amidst the clamor, some of the teachers and students of Kunlun University were verifying the research results, while others began to contact Zhu Wuyang, wanting to ask him what he was up to, but no one could contact Zhu Wuyang.

Some of the people who knew where Zhu Wuwan was immediately contacted the guardians of the mystical gold passage. They received a shocking piece of bad news. One of Kunlun University's highest-ranking researchers, Academician Wang Debao, was ambushed by an alien race when he entered the mystical gold passage to do research. He disappeared along with the mystical gold passage, and even his body was not found.

Before he died, Academician Wang Debao desperately sent out several discs and his personal terminal. However, due to the energy shockwave caused by the destruction of the universe channel, the personal terminal had a problem and sent everything inside to the entire Milky Way Federation.

In addition to recording Academician Wang Debao's research results, there was also a lot of information about Academician Wang Debao's personal life, such as his research for the rise of the Milky Way Federation, his concern for the cultivation world, the scientific and technological world, and all human beings, his silent donation of a lot of money to many charitable organizations in the Milky Way Federation, and his secret rescue of millions of poor children...

Through the information and materials in the personal terminal, people learned about Academician Wang Debao's life. Many students who had been funded by Academician Wang Debao for decades suddenly realized that it was Academician Wang Debao who had been funding them.

If Academician Wang Debao hadn't been assassinated and his personal terminal hadn't been in an accident, these things would have been buried in Academician Wang Debao's heart forever.

Through the knowledge and information stored in the personal terminal, a majestic giant slowly appeared in front of everyone in the Milky Way Federation and all the races in the Huaman Multiverse.

Chapter 1007: Big Bang in the Whole Discipline (1) Chapter 1007: Big Bang in the Whole Discipline (1) "Wow..."

"Wu wu..."

"Awooooo..."

..

As the information about Academician Wang Debao was gathered, cries began to gather from all parts of the Milky Way Federation. At first, there were not many, but gradually, the cries became more and more, and many people cried more and more.

In the beginning, only those who had been helped by Academician Wang Debao cried. Gradually, many strangers began to join the ranks of crying. They were all mourning the greatest researcher, inventor, and scientist in the history of the Milky Way Federation. 's fall.

In the beginning, many people thought that the most serious accident in the destruction of the mystical gold passage was the destruction of the universe passage. However, gradually, everyone began to realize that the most serious accident was Academician Wang Debao's death.

In the beginning, most people thought that Academician Wang Debao had released more than 10,000 research results in one go, and many of them were just a joke. But gradually, everyone began to realize that they were wrong.

..

" 12,666 research results. None of them are fake. All of them are real, and they can be turned into reality through theory. They bring great benefits to the Milky Way Federation. Many of the research results are epoch-making and can cause a huge transformation in the human race of the Milky Way Federation. "

" It's not just 12,666 research results. These are all relatively large research results, and each large research result also contains many small research results. The total number of research results has reached hundreds of thousands. Academician Wang Debao is not a human, a god, or a saint. He is a great man, a giant, a legend, and a myth that transcends the divine human..."

"Not to mention an SSS-level researcher, with the research results that Academician Wang Debao has produced, he can definitely become an unprecedented S-level researcher. Using the word 'researcher' is not enough to describe Academician Wang Debao's contribution and influence. It is reasonable to say that he is the greatest giant in human history."

" Unbelievable, it's unbelievable. In just a hundred years, Academician Wang Debao has been able to produce so many results. Every one of them is extraordinary. How intelligent must he be? It turns out that Academician Wang Debao has always been hiding his talents. We underestimated him. "

" It would take us hundreds of years to digest so many research results. However, Academician Wang Debao spent only a hundred years to come up with so many results from scratch. Are we too stupid or is Academician Wang Debao too great? It must be the latter. "

..

After realizing that the research results that Academician Wang Debao had spread were all real, and each of them was worth a lot, the entire Milky Way Federation was in an uproar.

Then, countless people, companies, groups, families ... He couldn't wait to record these research results for his own use and began to do experiments. Then, he was shocked to find that many of these research results could be directly converted into wealth.

Of course, there were also many research results that were harmful to the human race. They were also used by some evil elements to deal with their enemies or to fight among themselves.

The entire Milky Way Federation went crazy over this. Everyone was studying these results, thinking of all ways to quickly turn them into ripe fruits and use these research results in various ways.

The Milky Way Federation was in chaos!

It wasn't just the Milky Way Federation. After learning about what had happened in the Milky Way Federation, the alien races that were lurking here also issued orders to let the spies and traitors send these research results to their race. Even if they couldn't use many of their research results for the time being, this didn't affect them from preserving these research results.

The higher-ups of the Milky Way Federation tried their best to stop the release of these research results. They banned almost all websites, but unfortunately, it was too late. These research results had already spread all over the world, and they could not be collected or banned.

The higher-ups of the Milky Way Federation didn't blame Academician Wang Debao. After all, everyone knew that the main reason why these research results were leaked was because of the destruction of the cosmic passage, which caused Academician Wang Debao's personal terminal to have problems. Otherwise, this wouldn't have happened.

Moreover, although some of these research results were disadvantageous to the Human Race and the Milky Way Federation, most of them were extremely beneficial to the entire Human Race and the Milky Way Federation. The benefits far outweighed the losses.

Moreover, some of the research results seemed to be harmful to the human race and the Milky Way Federation, but it depended on how they were used. If they were used properly, it would be best to use them to deal with the scum of the human race.

The only regret was that these things were not controlled by the Milky Way Federation alone. If only the government of the Milky Way Federation controlled these research results, that would be the best.

But even so, these research results could be used by some higher-ups with ill intentions. They could also spread and bring bad things to the human race and the Milky Way Federation.

Therefore, the current uproar could be said to be a good thing, but it could also be said to be a bad thing. It all depended on how they were used in the end.

However, no matter what, these 10,000 complete research results, as well as the hundreds of thousands of small research results, were a huge amount of wealth. It was even comparable to the accumulation of the entire Milky Way Federation for many years.

If it could be used properly, it would definitely allow the entire Milky Way Federation to move forward a lot. Whether it was the cultivation world or technology, it would be able to achieve a significant improvement.

In other words, Academician Wang Debao had single-handedly pushed forward the development of the entire Milky Way Federation's cultivation world, science and technology world, biology world, and many other aspects. Moreover, he had not pushed forward one or two steps, but more than ten steps.

Academician Wang Debao's contribution alone was comparable to the sum of the contributions of countless S-grade and above researchers in the Milky Way Federation for thousands of years. One could imagine how great Academician Wang Debao's actions were this time.

Even the intelligent beings of the other races had to admit that the Milky Way Federation had produced the greatest scientist, biologist, and cultivator in history. It had brought great benefits to the entire Milky Way Federation.

Then, something began to stir up, causing countless intelligent life forms in the Milky Way Federation to sigh. In response, countless intelligent life forms from other races were extremely happy.

Chapter 1008: Woeful (1) Chapter 1008: Woeful (1) After experiencing the greatness of Academician Wang Debao, everyone suddenly realized that Academician Wang Debao was only 117 years old.

Academician Wang Debao had achieved such amazing results in just over a hundred years. If Academician Wang Debao was given another few hundred years, he would be able to bring the various disciplines of the Milky Way Federation to an amazing level.

Academician Wang Debao left too early!

"Damn the vampires. I will definitely slaughter them all and use them as a memorial to Academician Wang Debao. Otherwise, it won't be enough to appease the people. Everyone, join me in the battle and completely destroy the Twilight World where the vampires live."

"Agreed. If it weren't for the vampires in the Twilight World who harmed Academician Wang, the Milky Way Federation would have developed to an earth-shattering extent. Today, because of the vampires in the Twilight World, the Milky Way Federation and the human race have lost an unprecedented giant."

"If I could, I would trade my life for Academician Wang's. People like me can't contribute much to the human race or the Milky Way Federation, but I'm still alive and well. But Academician Wang left at such a young age. He's only a little over 100 years old. Alas, the heavens don't bless Academician Wang."

"If we knew Academician Wang was so great, we would have sent a saint. No, we should have sent a god to protect Academician Wang. That way, Academician Wang wouldn't have died so easily. This is all our fault. Why didn't we realize that Academician Wang had secretly produced so many research results?"

..

The entire human world was filled with laments. It was difficult for them to accept Academician Wang Debao's departure, but a small number of people had other thoughts. They were all complaining about Academician Wang Debao's actions, but soon, they were scolded.

"You idiots are talking nonsense. If Academician Wang Debao had to expose every research result, he would have been an SSS-level researcher by now. At that time, he would definitely receive the attention of all mankind. Many things outside of scientific research would come to him. At that time, how could Academician Wang Debao concentrate on his research?"

"That's right. Academician Wang Debao didn't want to expose these research results because he didn't want to delay his research. Academician Wang Debao also told us that after becoming an SS-level researcher, he realized that he had to deal with more and more things. Since then, Academician Wang Debao's research results have become less and less. If it wasn't for the last resort, Academician Wang Debao wouldn't have produced any research results. Therefore, Academician Wang Debao did this for science, for the Milky Way Federation, and for the entire human race. He didn't have any other messy thoughts."

"That's right. The most important thing for research work is single-mindedness and no one to disturb you. Otherwise, who wouldn't want to be successful and respected by

thousands of people? The reason why this isn't the case is that we're afraid of affecting the research. Academician Wang Debao is a true researcher and a true great man of all disciplines. In order to be able to research these results, he did not hesitate to be unknown. What right do you have to criticize him?"

" If Academician Wang Debao hadn't spent most of his time on research and learning in the past 100 years, he would have been busy socializing, giving speeches, showing off, and acting tough...If he went, there wouldn't be so many research results. Those who keep saying that Academician Wang Debao should have come up with these research results earlier should be shot. On the one hand, you want Academician Wang Debao to come up with these research results earlier, but on the other hand, you want him to come up with so many research results. It's simply contradictory."

..

The teachers and students of Kunlun University stood up for Academician Wang Debao immediately. Then, the researchers of the entire Milky Way Federation stood up for Academician Wang Debao. Then, the scientists and leaders of various industries in the Milky Way Federation began to speak up for Academician Wang Debao...

Everyone recognized one thing. If Academician Wang Debao hadn't done so many years of obscure research and learning, he wouldn't have been able to produce so many research results. Therefore, this was a must.

At the same time, this was one of the great things about Academician Wang Debao. For research, for the cultivation world, for the scientific world, for the Milky Way Federation...Academician Wang Debao did not hesitate to hide his achievements for a hundred years. He lived wholeheartedly for the Milky Way Federation and the human race, leaving behind such a huge wealth for the entire human world.

Of course, another reason also surfaced. Some people also said that Academician Wang Debao was worried that he would be targeted by too many foreign enemies. If he didn't produce much research results, he would be assassinated by the foreign races.

Therefore, for the sake of safety and for the sake of more research results, Academician Wang Debao had to hide his achievements and silently contribute to mankind.

This reason made sense, but when they thought of it, more people burst into tears.

After all, Academician Wang Debao tried his best to hide himself and contribute more research results to mankind. He did not hesitate to give up a lot of honor and benefits, but he was still targeted by the vampires in the Twilight World. As a result, he encountered an accident during his research.

Even at the last moment of his life, Academician Wang Debao was still on the path of research, wanting to research more results for mankind.

According to some of Wang Debao's assistants, Academician Wang Debao entered the mystical gold world mainly to study a more effective way to use mystical gold. He had already made some preliminary results. The main purpose of entering this time was to do experiments.

This research result was in the final CD, and it was also one of the last few results of Academician Wang Debao's research. It could increase the value of mystical gold and increase the efficiency of its use by about two times. This would undoubtedly increase the wealth of the entire human race by a large margin.

However, they didn't expect Academician Wang Debao to die in the cosmic passage before he could verify the research results. Alas, the Milky Way Federation had suffered heavy losses this time.

Academician Wang Debao's unexpected death shocked the entire human world and the entire Human Multiverse. In order to express the hatred of humans for vampires, a large number of troops soon marched to the Twilight World. A large-scale war began because of Academician Wang Debao's death.

This was the first time in history. In the history of the Milky Way Federation, there had never been such a large-scale war because of the death of a researcher. Moreover, it was a war against a large world. Academician Wang Debao once again set a record in human history and brought about a huge impact.

Chapter 1009: Christmas and Christmas Eve (1) Chapter 1009: Christmas and Christmas Eve (1) The war had begun. Facing the attack of the Milky Way Federation, the Twilight World did not have much power to resist. Soon, more than half of the Twilight World had fallen.

Although the Twilight World was one of the top-ranked worlds that the Milky Way Federation had conquered, it was still inferior to the Milky Way Federation. Otherwise, they wouldn't have been playing tricks all the time.

The most important thing was that the human race's attitude towards the Twilight World had always been wavering. Some advocated completely occupying the Twilight World, while others were worried that doing so would trigger the participation of other worlds, which would cause the Milky Way Federation to fall into the quagmire of war.

However, there were many treasures in the Twilight World that the Milky Way Federation urgently needed. Now that Academician Wang Debao had died, the Milky Way Federation had completely gotten rid of the wavering situation and attacked the Twilight World with all their might.

This was the reason why Zhu Wuyang had turned the alien race who had "assassinated" him into vampires. The reason why the Milky Way Federation had

launched a war against the Twilight World so quickly was that Zhu Wuyang had also done something else.

Coupled with the strong will of countless humans in the Milky Way Federation, this war could start so quickly and fiercely, and at the same time, it caused a greater impact.

In order to better commemorate Academician Wang Debao, the Milky Way Federation decided to create a new holiday for Academician Wang Debao's birthday. Academician Wang Debao was born on December 25th, so this day was called Christmas Day.

Christmas!

The night before Christmas was Christmas Eve, which had a beautiful meaning. It was to hope that all researchers and scientists could be safe and healthy. This holiday was also a legal holiday of the Milky Way Federation, second only to the Spring Festival.

After confirming the exact date and time of his birth with Academician Wang Debao's family, everyone was shocked to find that Academician Wang Debao's family seemed to have forgotten him.

"Someone must be trying to harm Academician Wang's family. Otherwise, how could Academician Wang's family not remember him after such a short time? This is too strange. Could it be the vampires again?"

"Yeah, Academician Wang Debao is only a little over 100 years old. It is said that he attended the wedding of his three sisters more than ten years ago. How could his family not remember him? Someone must have done something to him."

"We have to investigate this matter thoroughly and punish the mastermind. Academician Wang has made such a great contribution to humanity. If we can't even protect his family, then we are too incompetent. The Federation has to give Academician Wang's family justice."

"There's definitely something fishy about this. The main point is who did this. Other than erasing Academician Wang's family's memories, what else is he going to do to them?"

..

Amidst the uproar, the Milky Way Federation's security department announced the results of the investigation.

All of this was done by Academician Wang Debao!

Academician Wang Debao seemed to realize that he might not be able to live for long, so he began to deliberately weaken his relationship with his family for decades. He also

used a special spell to erase his family's memories of him bit by bit without hurting them at all.

Even so, Academician Wang Debao wasn't a heartless person. These people were also silently paying attention to their loved ones. A few years ago, they even saved their loved ones who were in dire straits and almost destroyed their family.

Academician Wang Debao valued his family, but he didn't spoil his family. He didn't give them too much wealth. He only divided the results of his first patent into several parts and gave them to his parents and three sisters.

He only hoped that they would be safe and prosperous. He did not want them to become rich and noble, so as to avoid too many disputes.

This was the work of a truly wise man. After all, with Academician Wang Debao's research results, even if he didn't contribute more than 10,000 research results, the previous research results alone could create a wealthy family on Planet Earth, or even a small wealthy family in the Milky Way Federation.

However, Academician Wang Debao didn't want the Wang family to be like this. He just wanted them to live happily in Jiangnan Road for the rest of their lives.

Academician Wang Debao had considered for the Milky Way Federation, for humanity, and for his family...However, he didn't think about himself. In the end, the other races took advantage of the opportunity and died in the universe passageway.

After learning of all this, the entire human world once again shed tears.

"It's a blessing to be safe and sound. It's a simple truth, and few people can understand it. I didn't expect Academician Wang Debao to understand it decades ago. He was only in his twenties, but he already thought of this. It turns out that in addition to his amazing IQ, Academician Wang Debao's EQ is also so high."

"Have you heard? Academician Wang Debao specially asked his elder sister, who had many children, to adopt his son to his parents many years ago. It turns out that Academician Wang Debao had already made preparations to not get married many years ago. For the sake of mankind and the Milky Way Federation, Academician Wang Debao has sacrificed too much. Academician Wang Debao's life is really too hard. I really hope that he has the chance to reincarnate. When that time comes, he won't be a researcher anymore. He just needs to be an ordinary person."

"For the sake of research and humanity, Academician Wang Debao has lost his family, friends, brothers, wife, and children all these years...In the end, he left at such a young age. Do you think that the heavens also think that Academician Wang Debao's life is too hard, so they took him away in advance so that he can be reincarnated and live a good life in his next life?"

“Now I regret one thing, and that is that I shouldn’t have investigated this matter. As a result, Academician Wang Debao’s family thought of him again. The family is very sad now. This isn’t what Academician Wang Debao wants to see. No, I have to resign from the security department now and move to Jiangnan Province to live near Wang Debao’s parents’ house tomorrow. I’ll take it as my duty to protect Academician Wang Debao’s family for the rest of my life. Although I can’t protect Academician Wang Debao, it’s an honor to be able to protect his family. I’ll write my resignation letter now.”

“It turns out that a person can really be so great. Academician Wang Debao should be the greatest giant in the history of the Milky Way Federation. Whether it’s in terms of research results or in terms of being a person, Academician Wang Debao is at the peak. At least in the history of the Milky Way Federation, I have never seen such a great person. No, Academician Wang Debao is no longer a human. He is a god, a saint, and a faith that transcends ordinary people.”

..

Chapter 1010: Origin Explosion (1) Chapter 1010: Origin Explosion (1) Under Zhu Wuan’s series of actions, he established a glorious image for himself in the Milky Way Federation. He was hailed as the greatest cultivator, scientist, biologist, and writer in history...

Speaking of literature, Zhu Wuyang had traveled through so many worlds, and she knew the great works of many worlds like the back of her hand. Naturally, she had to take out some great works that were useful to the Huaman Multiverse. For example, the Tao Te Ching from Earth had been moved to the Huaman Multiverse by Zhu Wuyang.

The reason why Zhu Wuyang was able to produce so many research results was because of the accumulation of many worlds. Otherwise, even with Zhu Wuyang’s comprehension, it would be difficult for him to produce more than 10,000 research results in just a hundred years.

It was because of the gains from many worlds that Zhu Wuyang was able to create such brilliant results and become a monument of the Milky Way Federation, forever engraved in the history of the human race.

If nothing unexpected happened, as long as the humans of the Huaman Multiverse were not destroyed, Zhu Wuyan’s research results would be useful, and its influence would naturally continue. Zhu Wuyan would then be able to obtain the world’s origin from it.

Even in the vast Huaman Multiverse, Zhu Wuwan had left his name behind and would have a profound impact on the entire Huaman Multiverse.

The battle results were brilliant, even surpassing the Mystic Desolate Great World.

Even Planet Earth had been revived because of Zhu Wuyan's actions, and it had once again become the holy land of the human race, especially Kunlun University. Because of Zhu Wuyan's brilliant achievements, it had soared to become one of the top ten super universities in the Milky Way Federation.

Zhu Wuan had single-handedly changed the situation of the entire Milky Way Federation and became the most brilliant pearl in the history of human development.

After all, before Zhu Wuan, no one had ever been able to contribute such brilliant results to mankind.

The moment Zhu Wuan left the mystical gold passage, the World Origin he had obtained had already crazily broken through the limit of 10,000 points. It was once again forcefully pulled out by the will of the Great Path of the world where the Dongyuan Continent was located.

Although doing so would consume some of the world's origin, the will of the Great Path of the world where Dongyuan Continent was located was happy to do so. It was because the results of the battle brought by Zhu Wuwan were really too rich, so rich that one person was comparable to hundreds of high-level cultivators.

The total amount of World Origin earned by all the high-level cultivators in some areas of Dongyuan Continent was probably not even comparable to that of Zhu Wanhao. One could imagine how much wealth Zhu Wanhao had obtained in these macro worlds.

The will of the Great Path of the world where the Dongyuan Continent was located doted on Zhu Wanhao like a son. It even gave Zhu Wanhao an extra share of the world's origin.

"He's out. Look, Zhu Wuwan has finally come out of the second great world. This time is no exception. He came out of the second great world at the right time. If it weren't for the fact that these cultivators who transmigrated would lose their previous memories after coming out, I would really like to ask Zhu Wuwan what earth-shattering things she did in the second great world."

"Be careful with your words. The current Senior Zhu is no longer the Senior Zhu from before. Senior Zhu is now one of the few Human Immortals who have passed the tribulation in the entire Dongyuan Continent. His combat strength is firmly in the top ten. Moreover, who knows if Senior Zhu has other trump cards? Not only that, Senior Zhu's talent has already surpassed the human world and reached the level of celestial-grade spiritual roots. Who knows if there's a possibility of further improvement in the future? We must be careful when speaking, especially when it involves Senior Zhu."

"Who would have thought that before entering the 3,000 macro worlds, Senior Zhu was only a Heavenly Pillar at the Form Synthesis Stage. Although he was also a high-level cultivator, he was only ranked in the middle and lower levels among high-level

cultivators. However, he didn't expect that in just 200 days, Senior Zhu would advance rapidly, breaking through several minor realms and two major realms, and become a Human Immortal at the Crossing Calamity Stage, one of the top few high-level cultivators. It was simply unbelievable. Senior Zhu should be the high-level cultivator who has profited the most from the three thousand macro worlds in history. I'm afraid he's the kind that no one has ever done before or since. Who can surpass him?"

"To be honest, although Senior Zhu has earned a lot of World Origin, it's still far from our Will of the Great Path. It's already good enough to have one-tenth of the Will of the Great Path. One can imagine how much influence Senior Zhu has caused in those two macro worlds and how much benefits he has brought to the Will of the Great Path. No wonder the Will of the Great Path wanted to protect him. If I were the Will of the Great Path, I would also protect this peerless monster who can bring me so many benefits."

"It is precisely because of this that Senior Zhu is able to fight more and more bravely. With the protection of the will of the Heavenly Dao, it is a little difficult for Senior Zhu to be invincible. "Why don't we wait until the good fortune of the 3,000 great worlds is over and go to the Southern Wilderness to join Senior Zhu's Great Zhu Immortal Dynasty and become a part of it? I'll go..." Look, the number representing the world's origin above Senior Zhu's head is starting to soar crazily. It's too fast. It's not much slower than when he came out of the first great world."

..

After Zhu Wuan came out, it was only a moment of silence before the number of Origin Source above Zhu Wuan's head exploded.

Eighty-six thousand...Eighty-seven thousand...Eighty-eight thousand...Eighty-nine thousand...Ninety thousand...

Ninety-five thousand...Ninety-six thousand...100,000...It rose to 110,000 in one go before slowly slowing down.

This wave of World Origin was clearly the result of Zhu Wuwan's research. Therefore, in a short period of time, it had brought so much World Origin to Zhu Wuwan, and it was still continuously bringing more World Origin to Zhu Wuwan.

After all, many research results were small streams of water that could be used for a long time and affect the entire Huaman Multiverse. Therefore, the initial wave seemed to be quite a lot. It had caused Zhu Wuyang's world origin to increase by nearly 30,000 in an instant, but it was actually just the beginning and not the most.

As the research results were put into practical use, these research results would be able to unleash their strongest power and bring more world origin to Zhu Wuwan. At that time, it would be an astronomical figure.

Most importantly, these research results would definitely last for a very, very long time. A hundred years was just a drizzle. A thousand years or ten thousand years was just the beginning. Zhu Wuyang was not in a hurry now. There were plenty of sweet fruits ahead.

Read I'm Leveling Up Too Quickly Chapter 1011 - 1011

Tornado (1)

Chapter 1011: Tornado (1) Chapter 1011: Tornado (1) Even so, when they saw that the total number of Great World Origins that Zhu Wuwan had obtained had already broken through six digits, the entire World Mountain was still silent.

Everyone's gaze gathered on Zhu Wuyan and watched his performance, especially when Zhu Wuyan triggered the Five Elements Tribulation again. This time, he was facing the Yi Wood Tribulation.

The wood attribute attack was like a storm, sweeping towards Zhu Wuwan. However, under the effect of the breakthrough stone and the actual source, this terrifying calamity for other peak Mahayana Quasi-Immortals was like a gentle breeze to Zhu Wuwan.

The most powerful attack of the Yi Wood Tribulation was the Yi Wood Torrent. It frantically poured the power of Yi Wood into Zhu Wuwan's body, wanting to burst Zhu Wuwan.

The key was that the second wood was beneficial to cultivators on the other hand. It could increase the lifespan of cultivators and had anesthetic properties. It could make people unknowingly intoxicated.

Once they were drunk, they would soon explode from the Yi Wood Torrent and turn into a pile of mud. The Yi Wood Tribulation was considered one of the more dangerous tribulations among the Five Elements Tribulations.

Even with Zhu Wuyan's strength, he almost lost himself in the face of the impact of the Yimu Torrent. After all, although Zhu Wuyan's willpower was not bad, there was still a certain gap compared to those peak quasi-immortals of the Great Vehicle Stage who had really walked up step by step.

However, Zhu Wuyan had the special encounter system and the breakthrough stone, as well as a large amount of World Origin. With the reminder of the two, Zhu Wuyan successfully woke up from the calamity and continued to resist the impact of the Yi Wood flood. This calamity turned into an opportunity, and through the Yi Wood calamity, his lifespan increased by quite a bit.

To be more precise, it was sugar-coated to eat the bullet and take it away, turning the Yimu Torrent from bad to treasure, allowing Zhu Wuyang's strength to further increase.

With all kinds of advantages, Zhu Wuan successfully passed the Yi Wood Tribulation. His overall strength had increased by about two times, and he had completely established his unshakable position as the strongest person in the Dongyuan Continent. No one could match Zhu Wuan at this moment.

In the future, when controlling the wood-attributed Spiritual Qi of Heaven and Earth, it would become much easier and far better than before. After reaching this step, the use of the Spiritual Qi of Heaven and Earth by the cultivator was no longer about guiding and influencing it, but becoming a true manipulation.

It wasn't like when he had just entered the Soul Formation Stage or the Void Training Stage, where he had to communicate with the natural energies. If the natural energies were unwilling, he wouldn't be able to use them.

Now, even if the spiritual energy of heaven and earth was unwilling, Zhu Wuwan could still forcefully control them. Moreover, the power was not small.

If the spiritual energy of heaven and earth was previously the cultivator's partner, then the spiritual energy of heaven and earth was now a servant and worker to Zhu Wuyang. They had to do whatever Zhu Wuyang asked them to do. Otherwise, the consequences would be unpredictable.

From influence to control, this was a gradual process that involved four to five major realms. One could imagine how difficult it was to walk, and at the same time, it was extremely dangerous.

After passing the Yimu Tribulation, Zhu Wuwan's teleportation distance had increased to nearly 30,000 miles. This number could make any Human Immortal in Dongyuan Continent despair.

This was because under normal circumstances, a Quasi-Immortal who had completed the Tribulation Transcendence could only teleport a distance of about 10,000 miles. The strongest Human Immortal in history could only teleport a distance of nearly 20,000 miles.

However, the strongest Human Immortal in the Dongyuan Continent was only at the middle stage of the Tribulation Transcendence Realm. A single teleportation could only cover a distance of nearly ten thousand miles. However, Zhu Wuwan had just entered the Tribulation Transcendence Realm and could cover a distance of nearly thirty thousand miles with a single teleportation.

This number basically meant that no one could catch up with Zhu Wuyang at this moment, at least in the Dongyuan Continent. Even those demon beasts that were good at speed and teleportation could not catch up with Zhu Wuyang.

Feeling the surging ten thousand nirvana immortal essence in his body, the smile on Zhu Wuwan's face became brighter. Although it hadn't completely transformed into true immortal essence, it was getting closer and closer to this step.

At this moment, the 10,000 nirvana quasi-immortal essence was dozens of times weaker than the 10,000 nirvana earth essence from before. It flickered with a light yellow jade-like color, and there was even light floating around it, making it look beautiful.

It was a power that transcended the mortal world and could only be grasped by Human Immortals. Even Zhu Wuyang, who had a strong cultivation foundation, could not control such power before the tribulation.

The number above his head was also rising steadily. At this moment, it had already broken through 120,000. Next, the other trick that Zhu Wuwan left behind should also take effect.

In the Huaman Multiverse, there was a dull sound coming from the ten and twenty fledgling universal passageways. The ten fledgling universal passageways lost their balance first, drawing in astonishing energy and turning into ten tornadoes that destroyed everything around them without restraint. In the blink of an eye, the ten fledgling universal passageways were completely destroyed, and there was no possibility of rebuilding them.

After destroying the embryonic form of the ten universe passages, the ten tornadoes had absorbed enough power and began to destroy everything around them crazily. They followed the route that Zhu Wuyang had set up to create as much influence as possible.

The tornado caused by the destruction of the embryonic form of the universe passage was so strong that even the gods could not contain it. At this moment, there were not many gods on Planet Earth, so they could only watch the tornado wreak havoc.

"Rumble..."

"Kacha kacha..."

"Bang bang bang bang bang bang..."

..

Everything in the surroundings was like tofu, destroyed by this two-realm tornado. It had a huge impact on the Milky Way Federation, and at the same time, it stirred up a large amount of the world's origin.

Before the Milky Way Federation could react to what had happened, the other 20 cosmic passages also began to explode and collapse with muffled sounds. 20 more powerful tornadoes whistled and destroyed everything around them. Then, they swept towards the surroundings, causing even more damage.

For a moment, it was as if the huge Earth Star had fallen into doomsday. It was attacked by 30 terrifying tornadoes unscrupulously, and countless intelligent life forms were killed or injured. These were all influences.

However, under Zhu Wuwan's deliberate control, these tornadoes did not cause much damage to Jiangnan Road. They quickly left Jiangnan Road and destroyed other roads as much as they wanted.

Therefore, Zhu Wuyang's family members were all fine. However, the other paths were not as lucky.

Seeing that two tornadoes had left Jiangnan Road in a hurry and had gone to other roads to cause damage without causing any damage, many people of Jiangnan Road were also extremely surprised. They did not understand what had happened.

Chapter 1012: Fifth-Grade Immortal Spirit Root (1) Chapter 1012: Fifth-Grade Immortal Spirit Root (1) " Saint King's blessing. Saint King must be blessing the entire Jiangnan Road. Therefore, although two terrifying tornadoes appeared in Jiangnan Road, they all left Jiangnan Road and did not cause any damage. "

" That's right. Jiangnan Road is Wang Sheng's hometown. Although Wang Sheng has left, his power still covers the entire Jiangnan Road. Even this unconscious tornado felt Wang Sheng's power, so it left in a hurry. "

" The heavens have opened their eyes. Why did they let such a great giant like Wang Sheng leave us? If Wang Sheng could live another hundred years, how far would our Milky Way Federation develop? "

" Quickly kowtow to Wang Sheng and thank him. Without the protection of Wang Sheng's heroic spirit, I'm afraid that these two tornadoes would have destroyed more than half of Jiangnan Road. Didn't you see the news? Some roads were destroyed before they could even withstand one tornado, let alone two. "

" That's right. The roads that the two tornadoes went to were almost destroyed. Only our Jiangnan Road was the least affected. This is all because Wang Sheng is protecting us. "

..

Looking at the system's notification, Zhu Wuwan was a little dumbfounded. She never expected that he, the initiator, would suddenly become the protector of Jiangnan Road. After all, these tornadoes were his handiwork.

It was really unexpected!

Zhu Wuwan smiled slightly. Feeling the World Origin and Breakthrough Stones swarming over, he was quite satisfied. The number above Zhu Wuwan's head also began to soar again.

Looking at the World Origin that had just been silent for a while, or rather, it was not silent, but its growth rate was not as explosive as before, it began to explode again. The number representing the World Origin began to soar, and many onlookers fell into silence again.

120,000...121,000...122,000...123,000...126,000...

130,000...135,000 ... 140,000...146,000...150,000...

Only when it reached 166,000 did it slow down.

"What the hell did Zhu Wanwan do in the second macro world? It's fine that he obtained more than 30,000 World Origins in one go, but now he suddenly gained more than 40,000 World Origins. Does it have to be so exaggerated? These are all the Origins of macro worlds. Is it so easy to earn?"

"Damn ... F * ck ... F * ck... ¥#..& amp; ¥%*@*..

What exactly happened? Could it be that our eyes are blurry? How could Zhu Wuwan obtain so many World Origins in a great world? It's only two great worlds, but Zhu Wuyan has already earned more than 160,000 World Origins. He's not far from 170,000. Isn't this too exaggerated?"

"If I were the Will of the Great Path of Dongyuan Continent, I would have to take good care of Zhu Wuyang too. No wonder Zhu Wuyang has been invincible all these years. Every time he turns misfortune into fortune, his strength will soar like eating and drinking water. He has stepped into the Human Immortal Stage at the age of 100."

"If nothing unexpected happens, with Zhu Wuyan's current growth speed, he should be able to become the overlord of Dongyuan Continent in a few years. If he's lucky, after this trip to the 3,000 macro worlds, Zhu Wuyan will become the number one person in the world by relying on a large amount of World Origin."

..

What these people didn't know was that Zhu Wuwan wasn't the most likely person to become the number one person in Dongyuan Continent. Instead, he had already become the number one person in Dongyuan Continent. His comprehensive strength and comprehensive combat strength were so strong that no one in the vast Dongyuan Continent could surpass him.

However, even though this wave of World Origin was fierce, Zhu Wuwan didn't use it to "logically" increase his cultivation realm. This was because although there were still quite a number of breakthrough stones left, which were probably enough for him to increase another minor realm, Zhu Wuwan still had to save them to prepare for entering the next great world.

Therefore, under the gaze of many people who were relieved, Zhu Wuwan began to use these World Origins to improve her talent. Her spiritual root soared at an unimaginable speed. Very soon, it rose from a low-grade fourth-grade immortal spiritual root to the peak of a high-grade fourth-grade immortal spiritual root, and she was very close to a fifth-grade immortal spiritual root.

Feeling the weakening shackles of the natural chasm, Zhu Wuwan gathered more and more of the origin power of the great world and launched an attack on the shackles of the natural chasm.

"Boom! Boom! Boom! Boom!" Bang ..."

In just a few short breaths, Zhu Wuyang relied on the rich origin of the great world to forcefully break through the bottleneck that blocked his way, raising his talent to another major realm.

Fifth-grade immortal spirit root!

Many of the onlookers were already a little numb. Most of them only realized at this time that there were actually so many levels above the immortal spiritual root that surpassed the limits of the human world. Zhu Wuyang had also given them a good wave of knowledge.

Otherwise, before this, even the other Human Immortals who were going through the tribulation were not sure if there were more grades above the Immortal Spiritual Root. Now, Zhu Wuwan had used his actions to tell them that there were still grades two, three, and four above the ordinary Immortal Spiritual Root...

However, none of these onlookers possessed a single Immortal Spiritual Root, yet they had to watch Zhu Wuyang break through the bottlenecks one after another and obtain a fifth-grade or higher Immortal Spiritual Root. One had to admit that this was a little cruel.

The cultivators who had previously grumbled that Zhu Wuwan was too wasteful and had used so much of the Great World's Origin Source to increase their cultivation realm

were speechless at this moment. They even hoped that Zhu Wuwan would continue to be foolish and not use the World's Origin Source on her talent. Wasn't it good to waste it?

After upgrading to the fifth-grade immortal spirit root, he had only consolidated it slightly before using up the world's origin. The higher the talent, the more the world's origin needed to be consumed to upgrade it. This number had already exceeded Zhu Wuwan's expectations.

He had originally thought that with so many World Origins, he would be able to raise his spiritual root to the limit of the Fifth Grade. He did not expect that he would not be able to use it after he had just broken through and stabilized his current talent.

Fortunately, there would be an endless stream of world origin energy coming in. Coupled with the harvest from the next great world, it would be enough for him to raise his talent to the peak of the fifth-grade immortal spirit root.

Even so, the number of breakthrough stones Zhu Wuyan needed to improve her cultivation had almost reached the level of a normal cultivator. However, Zhu Wuyan's gains were eighty-one times that of a cultivator of the same level.

If these people knew about this, who knew what they would think? They had also spent so much time and energy, but why were they so outstanding?

Chapter 1013: The Vile World (1) Chapter 1013: The Vile World (1) After consolidating his strength and talent, Zhu Wuwan smiled as he felt the endless source of the great world's power. He was ready to split one-third of his essence, qi, and spirit to go to the next great world.

After obtaining so many benefits, even if one-third of Zhu Wuwan's spirit was destroyed, it would not affect him too much. At most, he would use the world's origin to forcefully make up for it. After all, Zhu Wuwan had a lot of these things now.

Even with the help of the special encounter system and a large number of breakthrough stones, Zhu Wuyang was not blindly arrogant. He was confident that he could still make a fortune in the third great world.

After all, if the transmigration situation was too dangerous and he was killed before he even had the chance to display his abilities, Zhu Wuyang could only return dejectedly.

The Special Encounter System and the Breakthrough Stone also required certain conditions. Otherwise, they would not be able to display their effects.

Therefore, every time he entered the 3,000 major worlds, it was not an easy and safe thing even for Zhu Wuwan. A slight carelessness could cause him to be killed.

There were less than one-tenth of the high-level cultivators who were still in the macro worlds. Basically, they had already passed through three macro worlds and came out.

Most of the high-level monks were busy healing their wounds. Obviously, the trip to the three thousand worlds this time was not very friendly to them. Only a few of them could really benefit from it. Most of them had lost their underwear.

Therefore, when they looked at Zhu Wuyang, they would feel even more envious, jealous, and hateful.

Zhu Wuwan turned a deaf ear to this. After adjusting his body and mind, he divided a third of his spirit into the third great world, which was also the last great world he would enter in his journey to the three thousand great worlds.

After this opportunity passed, when would he get such an opportunity in the future? Even Zhu Wuwan was not sure. He might have to wait for 10,000 years until the next 3,000 Great Worlds opened before he could get such a great opportunity to earn the World Origin again.

However, when he thought about how 10,000 years was a long time, even Zhu Wuyang felt a little annoyed. This time was really too long. Who knew when Zhu Wuyang would still be there and if she was still in Dongyuan Continent?

Therefore, this trip to the 3,000 major worlds might be Zhu Wuwan's last chance to enter the 3,000 major worlds. She had to make good use of it.

With the help of the will of the Great Path of Dongyuan Continent, Zhu Wuwan's one-third of his essence, qi, and spirit began to be consumed at an unimaginable speed, accompanied by a strange dizziness.

Although his strength was much stronger than before, the power of Zhu Wuyang's wisp of soul was also much stronger. In order to hide this wisp of soul and protect it from entering one of the macro worlds smoothly, Zhu Wuyang naturally had to consume more essence, qi, and spirit.

Therefore, after entering the third great world this time, only a wisp of Zhu Wuwan's soul was left. Of course, there was also the special encounter system and a huge amount of breakthrough stones.

Next, as long as Zhu Wuyan was given a chance and given a certain buffer time, Zhu Wuyan would be confident in completing the mission again, or even exceeding it.

Unfortunately, the third great world did not seem to give Zhu Wuwan any buffer time. Or rather, the buffer time was too short, so short that it was only about an hour.

Perhaps the first two macro worlds had used up all of Zhu Wuyan's good luck, so when they reached the third macro world, even Zhu Wuyan still followed her instincts. Everything depended on the will of heaven, or rather, the will of the Heavenly Path of the world where Dongyuan Continent was located.

However, his luck didn't seem to be very good this time. When Zhu Wuwan woke up, she found herself on an altar, surrounded by villagers who were singing and dancing with strange patterns drawn on their faces.

"The people of nature do not want to be born and raised, so that they can settle down in their own places. However, since the Mangniu River approaches, there are often floods. All my people are afraid, so I sincerely pay tribute to them and pray that there will be no harm in flooding down the river. In this way, the upper part of the body will be blessed by heaven and the lower part will be comforted by the hearts of the people. The villagers will be grateful and admire it. There is no limit."

"There is a god in the Mang Niu River. He has been in charge of this area for more than ten years. The crops have been destroyed, and now I pray and offer my humble prayers. I wish to express my heartfelt gratitude to the gods, and to the people and animals."

..

The most important part of this article was the last sentence, which was "To Chen Bodian, I offer a humble sacrifice. The gods have spirits, and humans and animals come to enjoy it." There was no need to mention the so-called humans and animals. Humans were sacrifices to humans.

They used living people to sacrifice to the River God, hoping that the River God would stop causing trouble after eating it. In the following year, they would bless the villagers of Reckless Bull Village to live and work in peace and contentment, even though there were only about a hundred families left in Reckless Bull Village.

Even so, they still had to find a way to get a teenager every year for the River God of the Reckless Bull River to enjoy. Otherwise, the entire village would suffer.

Even though the villagers of the Reckless Bull Village were already so respectful and devout towards the Reckless Bull River God, the Reckless Bull River God would still get angry from time to time. He would come ashore to eat some people and animals, but it was much less than before the sacrifice, allowing the villagers to barely survive.

The young man who was offering sacrifices this time was Zhu Wuyang. To be precise, it was Zhu Wuyang from the parallel world, and this world was called the Evil Thought World.

The so-called evil thoughts were the greed, desire, hatred, and jealousy that humans possessed. All kinds of negative emotions were called evil thoughts.

In other macro worlds, evil thoughts were just evil thoughts and had no other meaning. However, in this Evil Thoughts macro world, evil thoughts were demons and ghosts.

Demons were demonic beasts, devils were demonic creatures, ghosts were ghost spirits, and monsters were monsters!

These demons and ghosts were born from evil thoughts. It could be said that without the evil thoughts of humans, there would not be these demons and ghosts.

According to the original owner's few memories, Zhu Wuwan only knew that a long, long time ago, when the humans of the Evil Spirit World were at their most glorious and ruled the entire great world, there were great scientists who were unwilling to accept that human life was only a few hundred years, so they embarked on the abnormal path of research.

In the end, this path changed the rules of the world, allowing evil thoughts to turn into demons and ghosts, destroying the glorious human race. Demons and ghosts began to become the theme of the world.

Although the powerful human race had collapsed, the path to immortality had also been unexpectedly born. By devouring these demons and ghosts, humans could obtain extremely long lifespans and even immortality.

However, the higher the Tao, the higher the devil. Although humans had the chance to live forever, there were too many demons and ghosts. They were too powerful and often devoured humans before they could enjoy enough life.

Therefore, there were only a few human beings who could live forever, and they had to live in fear and uneasiness every day.

Chapter 1014: Devouring System (1) Chapter 1014: Devouring System (1) This was a strange world that had gone from a sci-fi civilization to a ghost civilization!

When the sci-fi civilization developed to a certain extent, even more powerful than the technology of the Huaman Multiverse, a passage to the gods and ghosts was opened.

The end of technology was a myth!

Perhaps this was the best way to describe the Malevolent World. Unfortunately, although it had brought many benefits to the humans of the Malevolent World, the disadvantages far exceeded the benefits.

As long as humans didn't die, evil thoughts wouldn't stop. This was a terrifying world that was constantly in a vicious cycle.

Moreover, the demons and ghosts were far superior to humans. If it wasn't for the fact that those demons and ghosts knew that evil thoughts came from humans, humans would have been wiped out long ago.

The humans in the Evil Thoughts World were a different kind of captive animals. If the evil thoughts of demons and ghosts could turn into demons and ghosts in the future, there would probably be no need for humans.

Unfortunately, perhaps because demons and ghosts were born from evil thoughts, the evil thoughts of demons and ghosts could not give birth to demons and ghosts.

However, demons and ghosts could still reproduce, which made humans 'status not as important as they had imagined. Over the years, they had been declining. Now, they only occupied about one-tenth of the territory of the Evil Thought Great World. The rest of the territory was occupied by demons and ghosts.

After understanding some of the situation in this great world, Zhu Wuyang immediately began to pay attention to his own situation. At this moment, his identity was the human sacrifice of the Wild Bull Village.

His father had been taken away by demons a few days ago, and the chances of him surviving were less than one in ten thousand. His mother had also remarried to the original owner, Zhao Gaoshan, who was naturally one of the best sacrifices.

After all, after his mother remarried to the neighboring village, she basically no longer paid attention to the original Zhao Gaoshan. Zhao Gaoshan was already thirteen years old. In this world, he was already considered half an adult and should shoulder the responsibility of supporting himself.

Unfortunately, the original owner had just lived alone for more than a month when she was forcefully captured by the villagers as an offering to the Mang Niu River this year.

There was no need to talk about the resentment in her heart. Whether it was towards the villagers or her remarried mother, the original owner was filled with resentment. After all, it was said that in order to shut the original owner's mother's mouth and stop her from causing trouble, the village even gave her some food, and she accepted it.

If that woman wasn't the original owner's mother, the original owner's wish must have been too much. Fortunately, although there was hatred, it wasn't to the point of killing. She just wanted that woman to regret it.

Other than that, the original owner's wish also included the desire to destroy this world, destroy the human race, and completely destroy the evil spirit. This made Zhu Wuyang a little speechless.

After traveling through several worlds, he finally met a wish that he could not fulfill. Fortunately, the area occupied by this wish was not large, only about 20% at most. The rest was to teach the villagers of Wild Bull Village a lesson and make the original owner's mother regret it so that she could continue living and become a powerful human.

These wishes included nearly 80% of the rest. If he could complete all of them, he would obtain a lot of the original owner's soul. This could be considered a blessing in disguise.

Of course, the premise was that they had to overcome the current difficulties before they had the chance to talk about other things. Now that the sacrificial ceremony had begun, in another hour, Zhu Wuyang, who was tied up, would be pushed into the Reckless Bull River and given to the River God inside to enjoy.

Apart from that, there was also a cow that would be sacrificed together with Zhu Wuwan.

Sensing the terrible situation, Zhu Wuyang immediately tried to recall if there were any cultivation techniques in the original owner's mind. Then, she discovered a strange technique.

Elementary Devouring Technique!

The so-called Devouring Spell, as its name implied, was a magical technique that could devour demons and ghosts. It was also the only magical technique that humans in the Evil Thought World could master extraordinary power.

There was no other cultivation system in the Evil Will World. The only cultivation system and cultivation method was the Devouring Technique. However, the Devouring Technique was divided into levels. They were low-level Devouring Technique, middle-level Devouring Technique, high-level Devouring Technique, top-level Devouring Technique, and super-level Devouring Technique.

The higher the level of the Devouring Tactic, the stronger it would be. Each level of the Devouring Tactic was further divided into four stages: Beginner, Small Success, Large Success, and Perfection.

The humans of the Evil Thought World cultivated the Devouring Tactic and produced Devouring Qi in their bodies. Then, they used the Devouring Tactic and Devouring Qi to devour demons and ghosts from low to high, absorbing their strength and divine powers to continuously increase their strength and lifespan.

This strange cultivation system surprised Zhu Wuyang. This was the first time he had seen such a strange and brutal cultivation system. It was completely different from the cultivation system he had experienced before.

However, now was not the time to think about this. Because of the flood of demons and ghosts, the Devouring Spell was also flooding. However, the flooding was basically a low-level Devouring Spell. Intermediate Devouring Spells and above were relatively rare.

The original owner of the low-level devouring technique had already cultivated to the beginner level, but there was still a long way to go before he could reach the small success level. It could be seen that the original owner's talent in this aspect was not very good.

In the Evil Thought World, only by cultivating the Elementary Devouring Tactic to the Upper Class would one have a certain chance of devouring Level 1 demons and ghosts. Otherwise, they would basically fail. It was no different from courting death.

There were only two people in the entire Wild Bull Village who had cultivated the low-level Devouring Spell to the great success realm. However, Village Chief Zhao Ping was the only one who had successfully devoured demons and ghosts. He had only devoured a low-tier level-one female ghost. He had obtained the ability of her long hair and could reduce a certain amount of damage.

The River God Twin-Headed Snake in the Reckless Bull River was an upper-class Lv 1 demonic beast, only half a step away from Lv 2 demonic beasts. It was one of the top Lv 1 demonic beasts.

Although Zhao Ping, the Village Chief of Reckless Bull Village, was also a Level 1 Ghost Master, he was nothing in front of Reckless Bull River God.

The contents of the low-level Devouring Tactic appeared in Zhu Wuwan's mind. She basically had enough understanding of the cultivation system in this world. At the very least, she could improve and upgrade the low-level Devouring Tactic.

Without thinking about anything else, Zhu Wuwan's clone and main body focused on comprehending and improving. The knowledge from various worlds was integrated into the Devouring Technique of the Evil Thought World. The originally low-level Devouring Technique was improving at a speed visible to the naked eye.

In a short 40 minutes, this low-level Devouring Tactic had been upgraded to a level comparable to the high-level Devouring Tactic. Moreover, in some aspects, it was even stronger than the high-level Devouring Tactic.

Unfortunately, the time was still a little too short. If Zhu Wuwan was given a certain amount of time, she was confident that she could raise it to the level of a top-notch devouring technique.

However, he could still fuse and improve on the original foundation in the future. It was only the first time he suffered a loss. It was better than being sent out of the Evil Thought World like this.

After considering it properly, Zhu Wuwan began to cultivate the Advanced Devouring Tactic.

Read I'm Leveling Up Too Quickly Chapter 1015 - 1015 Swallowing Dragon (1)

Chapter 1015: Swallowing Dragon (1) Chapter 1015: Swallowing Dragon (1) The higher the level of the Devouring Spell, the easier it was to devour demons and ghosts. Most importantly, the more benefits one could obtain.

The higher the level and the stronger the Devouring Tactic, the more benefits one could obtain when devouring. This benefit was not only the improvement of the body, but also some special secret skills and divine powers.

Therefore, the Devouring Technique was very important. Even at such a dangerous moment, Zhu Wuwan still took out a lot of time to improve and upgrade the low-level Devouring Technique. In the end, she upgraded it to the peak of the high-level Devouring Technique.

Seeing that there were only ten minutes left before he was sent to the Reckless Bull River, Zhu Wuwan did not delay any longer. She poured the Breakthrough Stone into it, and the Advanced Devouring Technique improved at a speed visible to the naked eye. Very soon, it rose from the beginner level to the small success level.

A large amount of Devouring Qi appeared in his dantian. This Devouring Qi was silver in color and emitted a strange fluctuation. Just sensing it would cause one's mind to waver.

This was a special power that Zhu Wuwan had never come into contact with before. However, after sensing it, Zhu Wuwan realized that it was somewhat similar to the devouring characteristic that her main body had mastered.

An idea flashed in his mind. Many essences of the Devouring All Things trait swarmed over and fused with the Advanced Devouring Tactic. Then, this Advanced Devouring Tactic quietly broke through and advanced to the Peak Devouring Tactic.

The originally silver Devouring Qi had also turned golden. Each strand of it was shining with golden light, like golden jade.

In just a few minutes, the Advanced Devouring Tactic had been upgraded to the peak of the Peak Devouring Tactic, and it was very close to the Super Devouring Tactic.

However, due to the fusion of the essence of many worlds, the top-notch Devouring Tactic that Zhu Wuwan had mastered was not inferior to the Super Devouring Tactic in some aspects, especially in terms of laying the foundation. It was even better than the Super Devouring Tactic of the Evil Thought World.

Zhu Wanhao smiled in satisfaction. This kind of devouring technique should be able to allow him to perfectly devour level one to level three demons and obtain all their abilities.

Unfortunately, due to the special environment, he couldn't choose properly. If he had enough time, he could devour some rare Grade 1 demons and ghosts that had mastered their innate divine abilities. That way, he would obtain the greatest benefits.

However, the current situation was already like this. It was already very good to have such a harvest. After all, this was only a clone. There was no need to pursue perfection.

After some consideration, Zhu Wuwan continued to spend Breakthrough Stones to upgrade the top-notch Devouring Technique.

The advancement of the Devouring Tactic consumed a lot of Breakthrough Stones. In a short period of time, tens of millions of Breakthrough Stones were gone. Zhu Wuwan could not help but sigh at the fact that it was indeed a top-notch Devouring Tactic. The consumption was really huge.

However, this was only once. When the Devouring Skill was upgraded, he would not need to spend so many Breakthrough Stones.

Under the effect of a large number of Breakthrough Stones, Zhu Wuwan's Devouring Technique was like a hot knife through butter. Very soon, it reached the Perfection Realm. It cost a total of hundreds of millions of Breakthrough Stones, but it was completely worth it.

This was because the Devouring Technique was a fundamental technique that followed the cultivators of the Evil Will Great World for their entire lives. Without the Devouring Technique, there would be nothing else. This was a technique that Zhu Wuyang could use to leave the Evil Will Great World.

The most important thing was that it could help Zhu Wuyang better devour demons and ghosts, grasp more tyrannical power, possess more powerful strength, and obtain greater influence.

Feeling the Devouring Qi in his body, which was nearly a hundred square meters, Zhu Wuwan was all smiles. Under normal circumstances, the Devouring Qi in the body of cultivators at his level was only a few square meters, but Zhu Wuwan was dozens of times more.

Such devouring energy might even be able to devour higher-level demons, let alone level-one demons.

However, for the sake of safety, it was better to be careful first. After all, the Devouring Qi could only be used to devour demons and ghosts. It did not have offensive or defensive abilities.

“Send him off!”

Accompanied by the strange cries of more than a hundred villagers, Zhu Wuwan and a cow were tied up and sent to the bamboo raft. They swung towards the middle of the Reckless Bull River at a moderate speed, and the surrounding noise was everywhere.

“Lord River God, after eating the sacrifice, please bless our family to be safe and healthy from the invasion and harassment of demons and ghosts.”

“As long as I can eat and wear warm clothes, I will definitely send sacrifices on time every year. Lord River God, please bless me.”

” A thirteen-year-old boy is at the age of tender skin and tender flesh. It must taste very good. Lord River God, please have a good taste. ”

..

A low voice sounded from the shore. No one cared about Zhu Wuyang’s life or death, and no one felt the slightest heartache. They only thought of Zhu Wuyang’s death and bless everyone in Reckless Bull Village.

Even in Hetang Village, a few miles away from here, the original owner Zhao Gaoshan’s mother, Wang Guixiang, did not take this matter to heart. She was enjoying a rare meal.

Zhao Gaoshan seemed to have been forgotten by everyone, and only his identity as a sacrifice represented him.

A vortex formed in the river, pulling Zhu Wuyang and the cow into the depths of the river out of thin air. What greeted their eyes was a two-headed demon snake that was dozens of meters long. It had antlers, a lion’s head, a crocodile’s mouth, and python scales...He looked vaguely like the Eastern Divine Dragon from Earth’s myths and legends, which surprised Zhu Wuyang.

However, he soon changed his mind because the two-headed demon snake opened its bloody mouth and bit at him.

“Unharmful Devouring Technique!”

Just as the twin-headed demonic snake was about to swallow Zhu Wuan and eat him like a snack, a golden Devouring Qi spewed out of Zhu Wuan’s mouth and wrapped around the twin-headed demonic snake, swallowing it into Zhu Wuan’s stomach and landing in the depths of his dantian.

Although the Dantian of the people in the Evil Thought World was located in the lower abdomen, it was also between reality and illusion. It could be infinitely large or infinitely small. Of course, the premise was that there was the help of Devouring Qi.

Therefore, although Zhu Wuan’s act of swallowing the Twin-headed Demon Snake that was dozens of meters long looked scary, it was actually a normal operation. Basically, anyone who had mastered the Devouring Spell could use it. The next step was the most crucial.

After being swallowed, the two-headed demonic snake began to struggle crazily. Layers of green-black demonic power rippled around its body, transforming into various attacks that fiercely bombarded the golden devouring qi.

However, the Devouring Qi in front of him was of high quality and in an astonishing amount. The twin-headed demonic snake’s attack was like an ant shaking a tree. It did not have any effect at all.

Zhu Wuan had spent hundreds of millions of Breakthrough Stones to raise the Unharmful Devouring Technique to the Perfection Realm. If he could easily be shaken by a level-one demonic beast, he would be too inferior.

Moreover, as Zhu Wuyang’s strength increased, the Devouring Qi would also increase. Next, it would be able to assist Zhu Wuyang in devouring stronger demons and ghosts.

Chapter 1016: Ascending to Heaven in One Step (1) Chapter 1016: Ascending to Heaven in One Step (1) Faced with the impregnable Devouring Qi in Zhu Wuan’s body, the Twin-headed Demon Snake’s struggle was of no use. It was devoured bit by bit by the Devouring Qi.

As he devoured, Zhu Wuan could clearly feel his physique, strength, speed, and reaction speed...It was improving in all aspects at an unimaginable speed.

That strange feeling made Zhu Wuyang extremely surprised. She didn’t expect that there was such a special cultivation method in the world. However, this feeling of instantly increasing one’s strength without any side effects was indeed intoxicating.

At the same time, the demonic power in the Twin-headed Demonic Snake's body was also adjusted by the Devouring Qi and became suitable for Zhu Wuyang's body. It was stored in his body so that Zhu Wuyang could use this demonic power in the future.

Even the demonic arts mastered by the twin-headed demonic snake were completely inherited by Zhu Wuyang. The power of the Unharmful Devouring Technique was far superior to ordinary Devouring Techniques, allowing Zhu Wuyang to obtain almost all the benefits of the twin-headed demonic snake.

Ice Arrow Spell, Demon Wind Spell, Demon Mist Spell, Water Dragon Roar, Ice Seal ... Zhu Wuyang was already completely able to grasp it.

And as it devoured, Zhu Wuwan was surprised to discover something. That was, this two-headed demonic snake was already half a step into the ranks of a second-grade demonic beast. To a certain extent, it was not inferior to a second-grade demonic beast at all. It could even fight against many second-grade demonic beasts. No wonder it had so much demonic power in its body and struggled so hard.

The devouring this time was worth it!

Zhu Wuwan finally felt a little better. She had thought that she would have to waste this opportunity, but she didn't expect this two-headed demonic snake to have another secret.

However, thinking about it carefully, the Reckless Bull River was not a small river. To be able to become the River God of the Reckless Bull River and control so many demon beasts in the river, it seemed reasonable to have such strength.

The Double-Headed Demonic Snake in his Dantian was still disappearing at a speed visible to the naked eye. Zhu Wuwan's overall strength was getting stronger and stronger, and she was gradually surpassing an ordinary Level One Demon Master.

In the Malevolent Thought World, humans would usually choose a direction when devouring demons and monsters. In other words, they would devour one type of demon or monster. Otherwise, there would be a conflict between demon power, ghost power, magic power, and monster power, and the final outcome would be unpredictable.

Therefore, every human cultivator would devour one type of monster in the process of cultivation. Those who devoured demonic beasts were called Demon Masters, those who devoured demonic creatures were called Demon Masters, those who devoured ghost spirits were called Ghost Masters, and those who devoured strange creatures were called Strange Masters.

The levels of human cultivators were the same as demons and ghosts. They were also divided into first, second, and third levels ... All the way to level nine, the higher the level, the stronger the power.

Generally speaking, those who devoured one demon were called Level 1 Demon Masters/Devil Masters/Ghost Masters/Strange Masters, and those who devoured two demons were called Level 2 Demon Masters/Devil Masters/Ghost Masters/Strange Masters... The one who swallowed the nine monsters was a level nine demon master/devil master/ghost master/monster master.

It was simple and clear. Of course, this was also because very few cultivators could cross realms and devour higher-level demons and ghosts. That was why there was such a name and cultivation system.

Occasionally, there would be a few overwhelming prodigies who could devour level 2 or level 3 monsters at level 1, or level 3 or level 4 monsters at level 2.

Just like Zhu Wuwan, although it had devoured a Level 1 Double-Headed Demonic Snake, the overall strength of this Double-Headed Demonic Snake was not inferior to most Level 2 demons and ghosts. Basically, it could be considered to have devoured a higher level.

Even so, Zhu Wuwan was still a Level One Demon Master because he had only devoured one demon. However, such a Demon Master had an additional title, which was ...

A transcendent-grade demon master/devil master/ghost master/monster master!

It surpassed its original grade and was extremely outstanding, so it was called a transcendent-grade!

Under normal circumstances, only the talented and monstrous human cultivators could become transcendent-grade demon masters/devil masters/ghost masters/strange masters. This was quite surprising.

Most of the Double-Headed Demonic Snake in his Dantian had been digested, leaving only a portion of its core. What shocked Zhu Wuwan was that there were three balls of light flickering at the Double-Headed Demonic Snake's core.

Innate divine ability!

These four words immediately appeared in Zhu Wuwan's mind. According to the legend that the original owner had heard before, only those demons and ghosts with innate divine powers had such light balls in their bodies.

Previously, Zhu Wuwan regretted not being able to devour such a demon because of its innate divine ability. However, Zhu Wuwan never expected that there would be three light balls in the body of this two-headed demon snake. Could it be that these three light balls were all innate divine abilities?

If that was the case, why didn't he use it when he devoured the two-headed demonic snake?

At the thought of this, Zhu Wuwan suddenly realized that her Devouring Qi seemed to be a little overbearing. It could fiercely suppress all kinds of demons and ghosts that were swallowed. The use of innate divine power required a lot of essence, energy, and spirit. It was normal that she could not use it under the suppression.

In addition, this twin-headed demon snake did not pay much attention to Zhu Wuyang at first. However, by the time it did, Zhu Wuyang's devouring aura had already digested a lot of it. Under such circumstances, it was very difficult for it to use its innate divine ability.

Due to various reasons, this twin-headed demonic snake didn't even display any innate divine ability before it was captured by Zhu Wuwan.

Of course, even if it really used it, Zhu Wuyang could still suppress it and not let it show off.

By the time he digested the three light orbs, Zhu Wuwan's physical fitness and demonic power had already caught up to most of the second-grade demons and ghosts. Moreover, the quality was not bad either.

This two-headed demonic snake was extraordinary!

Moreover, Zhu Wuyang had inherited the Twin-headed Demonic Snake's powerful defense and recovery abilities. She could also keenly sense the changes in temperature and could control the Twin-headed Demonic Snake's spirit to unleash a tyrannical power.

After carefully comparing the gap between them and the cultivators of the Dongyuan Continent, Zhu Wuwan realized that the strength of a level-one demon was about the same as that of a cultivator of the Refinement Stage on the Dongyuan Continent.

At this moment, Zhu Wanhao's overall strength was already comparable to a cultivator in the middle stage of the Foundation Establishment realm. Moreover, she was the kind that cultivated both Qi and body refinement.

Ten minutes ago, the thirteen-year-old boy still had some strength. Ten minutes later, his comprehensive strength was comparable to a cultivator in the middle stage of the Foundation Building realm in the Dongyuan Continent, and this was under the condition that he had not absorbed the three innate divine abilities.

It had to be said that the cultivation system of the Evil Will World was really exaggerated. The speed of improvement was simply beyond imagination. Of course, the premise was that they could withstand the demons and ghosts that they devoured. This

did not only include the devouring aura, but also the body and soul. Once they could not withstand the sudden increase in strength, it was easy for the cultivator to go berserk.

Chapter 1017: Three Great Divine Powers (1) Chapter 1017: Three Great Divine Powers (1) With such an increase, it was not an exaggeration to say that he had reached the heavens in a single step.

Thinking back to when Zhu Wanhao had just transmigrated to the Dongyuan Continent, in order to reach such a state, she had spent a lot of energy and time, slowly rising from a martial artist, and then entering the path through martial arts.

After spending so much effort, he finally advanced to the foundation establishment stage.

But now, in less than two hours after transmigrating, he had already transformed from an ordinary person to a cultivator in the middle stage of the foundation establishment realm. He cultivated both the qi and body. It was simply unbelievable.

Although the speed at which his strength increased was shocking, with Zhu Wuyang's grandmaster-level strength, he was still able to easily adapt to the sudden increase in strength without any problems.

At the same time, Zhu Wuwan began to absorb the three balls of light that contained the innate divine power. Very quickly, she digested the first ball of light.

Heavenly Law Phenomenon!

This was the innate divine power contained in the first ball of light. It was also a very common innate divine power that could make cultivators, demons, and ghosts grow or shrink. It could be said to be a very practical divine power.

Although the Heavenly Transformation was only a mid-grade divine power, its practicality was even comparable to some high-grade divine powers.

In the Evil Will World, innate divine powers were divided into four levels: low-grade divine power, medium-grade divine power, high-grade divine power, and supreme-grade divine power.

Among them, low-grade divine powers were called small divine powers, and top-grade divine powers were called great divine powers.

Heavenly Transformation was a middle-grade divine power, but its practicality was comparable to high-grade divine power. It could almost be said to be a must-learn divine power, and Zhu Wuwan was quite satisfied with it.

After absorbing the innate divine ability of the Heavenly Transformation, Zhu Wuwan grasped this divine ability. At the same time, she realized something in surprise. When the two-headed demon snake was in the devouring air, it seemed to have activated this innate divine ability. Unfortunately, it was forcefully suppressed by the devouring air, and there was not even a splash.

After absorbing the innate divine ability of the Heavenly Transformation, Zhu Wuwan's overall strength increased by a large margin. She began to absorb the second ball of light.

Summon the wind and rain!

High-grade divine power. This divine power sounded very ordinary, but it was not ordinary when used. This was because its power would rapidly increase as the cultivator's strength increased.

In the beginning, it might just summon some ordinary wind and rain. At most, it would be used to water the ground and blow the wind. However, when the cultivation realm reached a high enough level, it would summon the Nine Heavens Squall and the Nine Nether Cold Rain. It had unimaginable group attack power and shocking lethality.

Therefore, Summoning Wind and Rain was one of the high-grade divine powers, and its power was even above that of the Law Phenomenon. This surprised Zhu Wuwan.

With Zhu Wanhao's current strength, if he used all his strength, he should be able to summon some heavy rain and strong winds. However, it wouldn't last long and could barely be of some use. However, if it was used as an auxiliary, the effect would definitely be good. At the very least, he could get the title of River God, Mountain God, and so on, and enjoy the wealth of the world.

However, this wasn't what Zhu Wuwan wanted. Next, she still wanted to improve her strength and unleash the true power of Summoning Wind and Rain as much as possible.

After absorbing Summoning Wind and Summoning Rain, Zhu Wuwan began to absorb the third ball of light. This ball of light also contained a high-grade divine power.

Riding the clouds!

As the name suggested, this was a high-grade escape divine power. If one cultivated it to the extreme, they could travel 108,000 miles in a breath, and their speed was beyond imagination.

Most importantly, after mastering this innate divine power, Zhu Wuyang had the ability to fly. However, because his current strength was relatively weak, he might not be able to maintain it for too long.

Heavenly Phenomenon was both offensive and defensive. Summoning the wind and rain could support and attack. Riding the clouds was an escape technique...Not long after he arrived in the Evil Thoughts Great World, Zhu Wuwan had obtained three Divine Powers, and two of them were high-grade Divine Powers. The middle-grade Divine Power, Heavenly Transformation, was also an extremely practical and useful Divine Power.

What was originally a bad thing had turned into a good thing in the blink of an eye. Moreover, it was something that could not be any better. Even Zhu Wuwan did not expect that a two-headed demon snake would actually have these three innate divine powers. It was really unimaginable.

This was a big surprise!

After devouring this two-headed demonic snake, it had completely laid the foundation for Zhu Wuwan's cultivation. In addition to the three divine powers, it was definitely worth it.

The so-called innate divine power was a divine power that could be used innately. Even if he did not cultivate it much, Zhu Wuwan was able to unleash the greatest power of these innate divine powers at this moment.

However, innate divine powers usually consumed a lot of energy. Zhu Wuwan's essence, qi, and spirit were limited, so she could not use it many times. After carefully sensing the essence, qi, and spirit in her body, she could only use it for about two times. Its power was also very limited.

Therefore, he still needed to increase his strength. Only when he had enough strength could he use these innate divine abilities to his heart's content without worrying about the problem of consumption.

After devouring the Two-headed Demonic Snake, especially after obtaining three Mystical Powers, Zhu Wuwan's overall strength was basically enough to sweep away Level Two demons and ghosts. At the same time, with the vigorous and powerful Devouring Qi, Zhu Wuwan was confident that he could devour Level Three demons and ghosts, or even Level Four demons and ghosts.

Ninety-nine percent of the cultivators in the Vicious Thoughts World would weaken the demons and ghosts to a certain extent before they began to devour them. This was to prevent the other party from struggling too much after devouring them. If that happened, not only would they not be able to devour the demons and ghosts, but they would also explode and die.

Devouring demons and ghosts was not a safe thing. The slightest carelessness would be fatal to the cultivator. The so-called success would be a step to the sky, and failure would be death on the spot. This was not a joke.

Even if there was an expert protecting him, once the devouring failed, his Dantian would suffer a serious injury. He would probably never be able to cultivate in the future. Therefore, the danger of using the Devouring Technique was very high.

However, with the Breakthrough Stone and the Unharmful Devouring Technique, Zhu Wuyang basically did not have to worry about danger. Of course, if Zhu Wuyang insisted on devouring those demons and ghosts that were much stronger than him and was able to forcefully break through the binding of the Devouring Qi, he would be courting death. No one could save him.

Therefore, Zhu Wuwan would carefully weigh his own strength before deciding which level of demons and ghosts he would devour. Of course, the most important thing was that these demons and ghosts could bring him the greatest benefits. Otherwise, Zhu Wuwan would not devour them so easily.

Devouring the two-headed demonic snake this time could be said to be a pleasant surprise. Previously, Zhu Wuwan thought that he would have to waste an opportunity.

However, Zhu Wuwan had never expected that not only did she not waste the opportunity, but she also reaped a huge harvest.

Chapter 1018: Mercy, River God (1) Chapter 1018: Mercy, River God (1) After getting used to the sudden increase in strength, Zhu Wuwan had also gained control of the vast Reckless Bull River.

The Reckless Bull River was about a hundred miles long and a hundred meters wide. It was not considered a small river. There were dozens of villages along the way. The two-headed demonic snake was the overlord of this river, so it was revered as the Reckless Bull River God.

With the two-headed demonic snake's strength that was comparable to a level-two demon and the three innate divine powers it had mastered, it could barely suppress this Reckless Bull River, not to mention Zhu Wuwan, who had completely inherited the two-headed demonic snake's strength and had reached a higher level.

Other than the two-headed demonic snake, there were more than a dozen level-one demons and ghosts in the river. Most of them were demonic beasts. There was only one demonic creature and ghost spirit, so there were no strange creatures.

Even so, such strength could easily sweep through most of the surrounding villages, especially in the Reckless Bull River. The strength that the two-headed demonic snake could erupt with would be even stronger.

When they saw Zhu Wuyang devour their leader, the group of demons and ghosts were originally prepared to escape. However, when Zhu Wuyang released the snake spirit, these demons and ghosts were scared out of their wits. Most of them did not dare to

escape anymore, and a small number of them became obedient after being taught a lesson by Zhu Wuyang.

“Go kill them!”

After controlling this group of demons and ghosts, Zhu Wuwan didn't say a word and ordered them to massacre the entire Reckless Bull Village. It was also a village located at the upper reaches of the Reckless Bull River, so it was named Reckless Bull Village.

Upon hearing Zhu Wuan's order, this group of demons and ghosts excitedly charged towards the villagers of Reckless Bull Village. The villagers of Reckless Bull Village who had just finished their sacrifice were still on the shore, wanting to see the reaction of the River God. If the River God was not satisfied, they might even have to contribute a few humans and animals.

However, they had never expected that in such a short period of time, the original River God would be devoured by Zhu Wuyan, and Zhu Wuyan would become the new River God.

“Awooooo...”

“Eat them, eat them...”

“I want to eat that old one. It's chewy!”

..

Accompanied by excited cries, a group of demons and ghosts came out of their cages like wild beasts and pounced on the villagers of Reckless Bull Village.

” These are the River God's vassals. Why do they want to eat us? What exactly happened? ”

“Lord River God, are you not satisfied with our sacrifice? We can change the sacrifice and bring you a better one. Please let us go.”

We have worshipped you for fourteen years. River God, you can't treat us like this. ”

..

Before the villagers could finish their shrieks, they saw a young man with a tender and calm face slowly rise from the middle of the Reckless Bull River. He was coldly watching them being slaughtered.

Many villagers were stunned when they saw this youth.

“Zhao Gaoshan, how are you still alive? Where did the River God go? What did you do to the River God? Why are these subordinates of the River God attacking us?”

“Hiss...If I’m not wrong, the River God must have been swallowed by Zhao Gaoshan, which is why he didn’t come out. Zhao Gaoshan came out of the river instead. But how is this possible? The River God’s strength is no weaker than any Class 2 demon. How did Zhao Gaoshan do it?”

” Could it be that the River God has been severely injured recently? That’s why Zhao Gaoshan took advantage of him. But when did Zhao Gaoshan cultivate the Elementary Devouring Technique to the Mastery Realm? He hid it too well. ”

” So Zhao Gaoshan is the most talented person in our Wild Bull Village. We were wrong. He has devoured the River God and gained the power of the River God. That’s why he can control so many of the River God’s subordinates. ”

..

Without needing Zhu Wuyan to say anything, the villagers of Reckless Bull Village could already imagine how Zhu Wuyan had swallowed the Reckless Bull River God and become the new River God, then continued to be slaughtered by the demons and ghosts.

“River God Zhao, we know we were wrong. Please let us go this time. In the future, we will definitely sacrifice to you and never hurt you again. Please give us a way out.”

“What happened before was all our fault. River God Zhao, please give us a chance. I don’t want to die.”

“You can do whatever you want to me. Didn’t you say that I’m good-looking before? I’m also the best-looking one in the village. Although I have a husband, it doesn’t matter what you want to do to me. He won’t mind.”

“Mercy, River God Zhao. We kowtow to you. Give us a chance to live. We won’t dare to do it again.”

..

The villagers of Reckless Bull Village began to beg for mercy, regret, and cry...Then, Zhu Wuwan clearly felt that the original owner’s soul began to fuse with his soul on a large scale. Soon, the degree of fusion reached more than 50%. It was easy to imagine how much the original owner hated these villagers of Reckless Bull Village who had killed him.

Zhu Wuyang turned a deaf ear to the pleas of the villagers of Reckless Bull Village. People who killed people would always kill them. Since they had killed the original

owner, Zhu Wuyang would use their lives to pay homage to the original owner and avenge her.

The cries and pleas became softer and softer, and gradually disappeared. The entire Wild Bull Village had become a dead village, and there were no traces of living people left.

The original owner's soul fusion with Zhu Wuwan had also reached 55%, and he had obtained quite a lot of benefits. Next, he had to deal with another matter.

Zhu Wuan's gaze inadvertently glanced at a corner. There were a few villagers from neighboring villages who had come to watch the River God Ceremony. Among them was the village where the original owner's mother lived, Hetang Village.

Zhu Wuan deliberately let them go and let them go back to report the news. He believed that the original owner's mother would be very surprised after learning the news. He didn't know what she would do next. By the way, there seemed to be many people in Hetang Village worshipping the River God of Reckless Ox.

At the thought of this, Zhu Wuwan smiled slightly and led a group of respectful demon subordinates back to the depths of the Reckless Bull River.

After devouring everything from the Two-headed Demon Snake, Zhu Wuwan had mastered the Art of Water Manipulation on his own. He was like a fish in water in the river, just like he was on the ground. This was also a rare experience.

Zhu Wuan was prepared to plunder the Twin-headed Demon Snake's belongings to prepare for the next step of the plan.

To Zhu Wuyan, whether it was the Reckless Bull Village or the Reckless Bull River, they were just a small starting point. What Zhu Wuyan needed the most from now on was how to obtain more world origin and other benefits from this great world.

Along the way, he would also complete the original owner's wishes. He would complete as many as he could. This way, he could fuse with more of the original owner's souls and obtain greater benefits.

As for fulfilling the original owner's wishes, Zhu Wuyang did not have any confidence. After all, this was a great world. Moreover, even if Zhu Wuyang had that kind of strength, she would not massacre the entire world.

Even if they were not from the same world, Zhu Wuyang would not be able to do this in order to fulfill his wish. He still had a certain bottom line.

Chapter 1019: Omnipotent (1) Chapter 1019: Omnipotent (1) The common currency in the Evil Will World was the Thought Stone. It was said that the Thought Stone was also

formed by human evil thoughts and could effectively replenish demon power, ghost power, magic power, and monster power.

The Willpower Stone was also divided into four grades: low-grade, medium-grade, high-grade, and supreme-grade. They corresponded to different cultivators. Some high-grade cultivators basically had no effect when using low-grade Willpower Stones.

In the Twin-headed Demon Snake's nest, Zhu Wuwan had obtained more than a hundred low-grade Willpower Stones. These Willpower Stones could be used to recover and increase demonic power.

However, there were very few cultivation techniques in the Evil Will World, and most of them were rough. There were not many people who cultivated them. Everyone preferred to improve their strength in all aspects through devouring, including but not limited to strength, physique, speed, demonic power, and blood essence ...

Therefore, these Willpower Stones were basically used to recover the consumed demonic power and ghost power. They were rarely used to really improve one's strength. That would be too slow and inefficient. Devouring was the king of the Evil Thought World, and there were basically no side effects.

The Devouring Qi could effectively eliminate the side effects of devouring, which was different from many other worlds.

However, even so, a certain amount of time was still needed to digest it. No demon, ghost, or human cultivator dared to devour it indefinitely. They would take some time to stabilize their realm and cultivation. At the very least, they needed some time to adapt.

There were also spatial treasures in the Evil Will World. The Two-Headed Demon Snake had a storage ring. It was said that it was exchanged from a demon beast that had mastered a space-type innate divine power. There was a vast space of dozens of cubic meters inside, which was enough for Zhu Wuwan to use for a long time.

Zhu Wuyang kept most of the valuable things in the Twin-headed Demon Snake's nest and devoured the group of demons and ghosts. This time, Zhu Wuyang devoured them selectively and did not treat them as his natal demon beasts.

There were two types of devourment by the human cultivators in the Vicious Will Great World. The first was similar to how Zhu Wuwan devoured the Twin-headed Demon Snake. The Twin-headed Demon Snake would be swallowed into his body and become a part of him after it was completely digested. There would be me in you and you in me. They would be completely fused together.

This was Life Devouring!

Every human cultivator could only use their natal devouring ability a limited number of times. It was said that they could only use it ten times. After devouring, they could obtain everything from these demons and ghosts to the greatest extent.

Life Devouring was more dangerous. As long as it failed, it was basically impossible to escape death. Even if one survived, they would become a cripple. This was because Life Devouring directly devoured demons and ghosts into the dantian. Once the devouring qi and the power in the body could not withstand the other party's counterattack, the danger could be imagined.

There was another type of devouring, which was the ordinary devouring. It did not require the demons and ghosts to be absorbed into the dantian. It could be devoured outside, but the efficiency was far inferior to the Life Devouring. Moreover, it could only absorb a portion of the demons and ghosts' power.

The higher the level of the Devouring Spell, the higher the utilization rate of these demons and ghosts. For example, the Unharmful Devouring Spell that Zhu Wuwan had tailor-made for himself could basically increase the digestion rate of ordinary Devouring to about 50%, almost catching up to the Super Devouring Spell.

Normal Devour could devour many demons and ghosts to increase his strength in all aspects. When he reached a certain level and felt that his progress was slow and reached a certain limit, he needed to use Life Devour again to inherit the talent of stronger demons and ghosts to break through the limit.

Natal Devour could fundamentally improve a cultivator's talent, aptitude, limits, and foundation ... Normal devouring could only increase the cultivator's strength, speed, defense, demonic power, and so on on top of the intrinsic devouring.

Therefore, the Life Devouring was the foundation, and the normal devouring was just a support.

When Zhu Wuwan raised her current comprehensive strength to a bottleneck through ordinary devouring, she would have to carry out the next Life's Origin Devouring. If she failed, she would still be unable to escape death.

The cultivation of the cultivators in the Vicious Thoughts World was a very dangerous process. Every time they broke through a major realm, they would basically have to face a life-and-death crisis. It was much more dangerous than the cultivation in the Dongyuan Continent.

However, when he thought about it carefully, every step of improvement for cultivators in Dongyuan Continent required a lot of time and energy. He did not know how many years he would have to waste, how many resources and treasures he would have to consume. Even so, the probability of breaking through was not very high, and it was easy to fail.

However, in the Evil Thoughts World, once they succeeded, they would immediately catch up with the accumulation of the cultivators of Dongyuan Continent for many years. They would not have to spend so much time and energy. As the saying goes, there are gains and losses.

The cultivation system in the Evil Will World seemed easy, but it was actually very dangerous. Although the cultivation system in the Dongyuan Continent was less dangerous, it required a lot of time and energy. Both had their advantages and disadvantages, but it was obvious that the cultivation system in the Dongyuan Continent was more popular with most people.

After devouring the demons and ghosts in the Reckless Bull River through the Devouring Qi, Zhu Wuwan's overall strength had increased by a large margin. Although she was still a Level One Demon Master, her overall strength was already able to dominate among Level Two Demon Masters.

However, under normal circumstances, one could only devour whatever one's original life devoured, and they could only control one type of power among demons and ghosts.

However, the Unharmful Devouring Technique was quite special. When Zhu Wuyang improved it, he had given it the effect of transformation. It could devour the four types of powers of demons and ghosts and transform them at any time.

From a strategic point of view, demons and ghosts were born from evil thoughts, so they naturally had similarities. When Zhu Wuyang devoured the demons and ghosts of the Reckless Bull River, he compared the similarities and slightly improved the Unharmful Devouring Technique, which could solve this problem.

However, Zhu Wuyang did not know much about the transformation of the strange power. After all, there were only demon beasts, devils, and ghost spirits in the Reckless Bull River. There were no strange things yet. He had not personally experienced the existence of the strange power. He had only relied on the memories and feelings he had devoured from the Two-headed Demon Snake. After all, it was still different from actual contact.

Not only that, but if he continued to improve and improve, other than being able to transform various powers, the most important thing was that he did not need to devour only one type of extraordinary power.

In other words, he didn't need to only devour demonic beasts in the future. He couldn't devour other demons, ghosts, and Anomalies.

This also meant that Zhu Wuyang could combine all the advantages of the demons and ghosts, devour them, and fuse them into his body to obtain an all-round enhancement.

Once he succeeded, Zhu Wuyang would become the overlord of cultivators and demons.

Chapter 1020: I Hope There Are No Regrets (1) Chapter 1020: I Hope There Are No Regrets (1) The future was beautiful, but unfortunately, Zhu Wuyang was only a passerby in this Evil Thought Great World. She would have to leave this place after a hundred years.

Otherwise, if he managed it well, he might be able to dominate and occupy this great world. After all, with such a huge advantage, it was impossible for him not to stand out.

Most importantly, in this great world, Zhu Wuyang's strength would definitely increase faster.

However, if he thought about it carefully, without the knowledge and learning from the Dongyuan Continent, as well as the information he obtained from crossing over to other worlds from the Dongyuan Continent, Zhu Wuyang would not have been able to improve the Devouring Technique of the Vile Thought World and create an unprecedented overlord by combining all the specialties of demons and ghosts.

Therefore, it was impossible to regret this. Moreover, the world where the Dongyuan Continent was located was obviously more powerful than the Malevolent Thought World, and its future limit was even more shocking.

While Zhu Wuwan was focused on improving the Unharmful Devouring Technique, Hetang Village had already received news that the nearby Reckless Bull Village had been destroyed by the new River God, Zhao Gaoshan. Reckless Bull Village had reaped what they sowed.

The entire Hetang Village knew about this news, not to mention the original owner Zhao Gaoshan's mother, Wang Guixiang.

After learning of this news, Wang Guixiang, who had just had a full meal and enjoyed herself, was scared stiff. She never thought that Zhao Gaoshan, who she had given up on not long ago and thought that he would definitely die, would actually swallow the River God and become the new River God.

The residents around the Reckless Bull River could feel the power of a River God. To put it bluntly, the River God was the sky, the River God was the earth, and the River God was the king among the kings of the dozens of villages around the Reckless Bull River.

No one dared to disobey, and no one dared to be disrespectful, because everyone's lives were in the hands of the River God.

Offending the River God was basically no different from committing suicide. One could imagine the high status of the River God.

Therefore, the moment she found out that Zhao Gaoshan had become the River God of Reckless Bull, Wang Guixiang's new husband chased her out of the house. Then, the villagers of Hetang Village tied her up and brought her to the Reckless Bull River. They were going to use her to worship the new River God and appease his anger.

"I know I was wrong. Please let me go. I won't dare to do it again in the future. Please spare my dog life."

"Gao Shan, this is all Mother's fault. Mother shouldn't have agreed to let them use you as a sacrifice, but Mother had no other choice. They had the advantage in numbers, and Mother had married into River Pond Village, so she couldn't care less about Wild Bull Village."

"Gao Shan, for the sake of Mother giving birth to you, please spare Mother this time. Sob sob sob sob sob sob."

..

Even though she was tied to a piece of wood, Wang Guixiang was still noisy, wanting to escape.

Hearing her shout, the surrounding villagers could not help but scold her.

"Wang Guixiang, what's your name? You still dare to lie to the River God at this time. If you didn't say that you didn't want to bring a burden over, would I have given up on the new River God? This is all your fault."

"That's right. If you hadn't given up on the new River God, he wouldn't have been used as a sacrifice. He was almost eaten by that demon snake. Why are you acting pitiful now?"

"Wang Guixiang, you still have the cheek to shout. Ever since you joined the Wild Bull River, you've always been lazy. You can be said to be the laziest and most shameless person in the Wild Bull Village. You don't even care about your own children in exchange for a little food. You deserve to be used as a sacrifice today."

..

If Wang Guixiang wasn't a woman who could still give birth, with her character, she would have been sent as a sacrifice. Therefore, when they saw her howling so hard and defending herself, many people couldn't help but scold her.

Wang Guixiang's new husband knelt on the ground and sincerely apologized to the new River God, Zhu Wuyan. From time to time, he would be whipped a few times.

The group soon arrived at the Wild Bull River. After a river god sacrifice, they sent Wang Guixiang and the cattle and sheep into the river and slowly floated along the bamboo raft to the middle of the river.

The commotion in Hetang Village was so big that Zhu Wuwan naturally saw it long ago. Not only did she see it, but she also felt the fusion of the original owner's soul.

However, the original owner was obviously a kind person. Although she had ruthlessly taken revenge on Wang Guixiang and made her regret it to the extreme, it only allowed Zhu Wuyang's soul to fuse with the original owner's soul by 60%, increasing it by 50%.

Obviously, in the original owner's opinion, although Wang Guixiang did not care about his life or death at all, he still cared about Wang Guixiang in his heart. If not, he would not have only fused with 50%.

If that was the case, the remaining 20% should be spent on becoming a human expert and being able to survive well in this world.

As for exactly what level one had to reach to become a human expert, Zhu Wuwan was not sure for the time being. However, he knew in his heart that as his strength increased and he obtained more and more fame and prestige, Zhu Wuwan would be able to fuse with more and more souls of the original owner.

Of course, the more demons and ghosts were destroyed in this process, the wider the scope of the investigation would be. Similarly, a certain amount of the original owner's soul could be obtained. However, it was basically impossible to completely fulfill all the wishes of the original owner.

Zhu Wuyan could only try her best to fulfill the original owner's wish and obtain more souls.

Looking at Wang Guixiang, who was about to be thrown into the whirlpool and die in the river, Zhu Wuwan sneered and threw Wang Guixiang, who was wailing, out and landed on the bank of the river.

Although Wang Guixiang's actions were despicable, it was not a crime worthy of death. Moreover, Wang Guixiang was the mother of the original Zhao Gaoshan, and also the cheap mother of Zhu Wuyang from the parallel world.

Therefore, if he had no other choice, Zhu Wuwan would not kill Wang Guixiang. He would always spare her life. As for how she lived in the future, Zhu Wuwan would not care anymore.

Actually, thinking about it carefully, it was a good thing to have such an identity after transmigrating to such a world. At least, other than fulfilling the wishes of the original owner, there were no relatives and friends to worry about.

It was unlike back in the Huaman Multiverse, where the Wang family had taken up a lot of Zhu Wuyang's time and energy. Even if she had to leave that place, she still had to lay the foundation for the Wang family.

Not to mention everything that had happened in a small world in the past. He had a wife, children, and so many descendants. Even now, when he thought about Zhu Wuyang, he felt a little uncomfortable.

He didn't know if he would ever see her again in this life. It would probably be very difficult to do so again. It would always be a regret in this life.

If it was possible, Zhu Wuwan was still unwilling to have too much interaction with the people from the parallel world, even if she had to return to Earth one day.

Read I'm Leveling Up Too Quickly Chapter 1021 - 1021 Demons and Demons Everywhere (1)

Chapter 1021: Demons and Demons Everywhere (1) Chapter 1021: Demons and Demons Everywhere (1) Looking at Wang Guixiang, who was thrown by the River God, the villagers of Hetang Village quickly understood what was going on.

"The River God is merciful and forgives this vicious woman. Thank you for your magnanimity."

"A vicious tiger will not eat its cubs. This vicious woman can even betray her own son. She is miles away from the River God. Fortunately, the River God spared her dog life."

"Lord River God, we are willing to do our best for Lord River God until we die."

"May the River God bless us with good weather and no disasters in the coming year. We are willing to offer sacrifices every year."

..

Wang Guixiang was so scared that she collapsed to the ground. Her face was filled with tears and regret. Although she had luckily escaped death, Wang Guixiang did not feel too happy.

If she had cared for her son a little, she would not have ended up like this. She would still be able to live an unprecedented good life.

The River God's mother!

What a revered and supreme identity, just like that, it was abandoned by her. How could Wang Guixiang not feel pain in her heart?

Looking at the villagers of Hetang Village kneeling on the river bank, Zhu Wuyan's voice was like a bell that fell into everyone's ears.

"From today onwards, there will be no more Mang Niu River God. I will leave this place. You guys take care of yourselves!"

As soon as he finished speaking, Zhu Wan'an's body was like a flood dragon, riding on the clouds and mist as he rushed into the distance.

Looking at the green-robed figure shrouded in the clouds, the villagers of Hetang Village prostrated on the ground and did not dare to move an inch. Their faces were filled with fascination.

After being stunned for a long time, someone finally cried out first. This person was the original owner's mother, Wang Guixiang. "Son, why are you leaving like this? Don't you care about mother anymore?"

Seeing this scene, many villagers of Hetang Village were stunned at first. Then, they could not help but grab the mud by the river and throw it at Wang Guixiang.

"Wang Guixiang, you shameless thing. You actually have the nerve to call the River God's son. Are you worthy of being a vicious woman? Hurry up and shut your dog mouth!"

"If it weren't for you being so cruel, the River God would never have left this place. Now that the River God has nothing to worry about here, what should we do in the future?"

"There are forty-three villages by the Reckless Bull River, with a population of no less than tens of thousands. They all rely on the protection of the River God. Now that the River God has left, how are we going to live?"

"Although the River God needs a young man to sacrifice to him every year, he still protects our safety. Without the River God, those demons and ghosts will never let us go. What should we do next?"

..

The Wild Bull River was bustling with noise, and as the news spread, the other villages would soon become noisy as well. Soon after, someone thought of something, and everyone beat their chests and stamped their feet.

" Hasn't the River God been replaced? With that new River God, we definitely won't need human sacrifices anymore. If he's willing to stay and protect us, our future days will definitely be better. "

" That's right, that's right. I know the new River God. He has always been simple and generous. He's not a cruel person. If he had protected us, our lives would have been ten times better than now. Unfortunately, it was all ruined by this evil woman. "

" In the past, the demon snake accepted the sacrifice and would always eat people secretly. But the new River God would never do that. We've lost a lot. "

" Beat this b * tch to death. If it weren't for her ruthlessness, the new River God definitely wouldn't have left. Then, we'll be able to live a good life in the future, and not be as scared as we are now. Who knows what will happen in the future? "

" We can't let her go. That damned b * tch. The River God spared her, but that doesn't mean we can spare her. Even if we don't kill her, we have to teach her a lesson. "

..

A group of people swarmed forward and punched and kicked Wang Guixiang. Although no one killed her, she was beaten up badly and fled the river dejectedly. As for whether she could survive in this chaotic world of demons, it would depend on Wang Guixiang's fate.

Zhu Wuyang was not concerned about this at all. This matter was considered a good thing for him.

This was the first time he had used a superior-grade divine power that allowed him to ride the clouds. Zhu Wuwan was also a little curious, but the consumption was really too great. After flying for only a few miles, half of the demonic power and mental power in Zhu Wuwan's body had been consumed. He was so scared that he hurriedly fell from the sky.

He walked into the distance. After walking for a few hundred meters, he saw a green demonic wolf blocking his way. Its color was quite interesting compared to the green robe on Zhu Wuwan's body.

"Awoo!"

When it saw Zhu Wuyang, the green demonic wolf pounced over and was about to push Zhu Wuyang to the ground. However, before it could get close to Zhu Wuyang, the golden devouring aura enveloped it and devoured its blood, demonic power, and mental power at an extremely fast speed.

The green demonic wolf struggled with all its might, but it could not break free from the devouring aura that had increased by dozens of times. It was slowly devoured into a dried corpse. In response, Zhu Wuwan's blood, mental power, and demonic power were rapidly increasing.

The Twin-headed Demonic Snake had given Zhu Wuwan a powerful defense and recovery ability. Even her strength, speed, and reaction speed were far superior to those of the same rank. With such a foundation, she could devour more energy.

If nothing unexpected happened, the talent and aptitude that the Twin-headed Demonic Snake had given Zhu Wuwan should be able to help him advance to the level of a third-grade demon.

Zhu Wuwan quickly sucked the green demonic wolf dry and continued to move forward in high spirits. However, before he could go far this time, he was stopped by a one-eyed demonic human.

This one-eyed Devilman wasn't very strong. He wasn't even as strong as the green demonic wolf. Zhu Wuwan casually devoured him, and his strength increased slightly. It was better than nothing.

The following journey was not smooth. They encountered demon beasts, demonic creatures, and ghost spirits one after another. Most of them were not strong, only at the lower and middle level of level one. The most powerful ones were only at the upper level of level one. They were all devoured by Zhu Wuwan, which increased Zhu Wuwan's overall strength by several times.

However, the so-called 'not strong' was only relative to Zhu Wuwan. To 99% of the humans by the Reckless Bull River, these demons and ghosts were still too strong.

Basically, it meant that as long as the humans on the banks of the Reckless Bull River walked about ten miles away from the Reckless Bull River, they would almost be unable to escape death. After all, among the more than forty villages on the Reckless Bull River, the strongest was only at the upper stage of Level 1. There was not even a Level 2 cultivator.

If not for that, the twin-headed demonic snake would not have been the River God of the Reckless Bull River for decades, forcing the villages around the Reckless Bull River to contribute humans and animals as sacrifices every year. As long as there was a Level Two cultivator, the humans here would not be so servile.

Everything that he had experienced personally had given Zhu Wuyang a deeper understanding of the Evil Will Great World.

Chapter 1022: Rules (1) Chapter 1022: Rules (1) Demons and ghosts were like a tide.

Humans were basically prey in the Evil Will World. A slight carelessness could lead to death.

No wonder the desperate and helpless humans began to seek protection from demons and ghosts. Thinking of what the twin-headed demon snake had done over the years, Zhu Wuwan could not help but sigh.

It was no wonder that the original owner of this world wanted to destroy this world and kill all humans.

If it weren't for the fact that demons and ghosts also fought amongst themselves and joined forces to deal with the human race, the human race would have been finished long ago.

Zhu Wanwan kept devouring as she advanced. Her strength soared at a speed visible to the naked eye. Occasionally, she would use a certain amount of breakthrough stones to stabilize her realm and cultivation. This way, her improvement speed would be even faster.

As for the consumption, he had earned more than he had spent. He had earned a lot, and his influence on the Evil Thought World was constantly increasing. He had obtained dozens of World Origin points.

In just a few days, Zhu Wuyang had devoured nearly a hundred demons and ghosts. During this time, he finally encountered a strange creature. It was a pair of embroidered shoes that could be strangely worn on the feet of living creatures and then sucked dry the essence, qi, and spirit in their bodies to strengthen themselves.

When Zhu Wuwan encountered the embroidered shoes, there were already hundreds of blood-colored spots on them. This meant that the embroidered shoes had already killed hundreds of living creatures and had reached the level of a level-two monster.

The so-called strange was strange and abnormal. It had all kinds of strange and unpredictable abilities that were difficult to predict. If one was not careful, they would be killed.

These monsters were often very difficult to kill. Even if their strength was much higher than theirs, this did not include Zhu Wuyang, who had mastered the Unharmful Devouring Technique.

Under the effect of the powerful and special Unharmful Devouring Technique, this pair of Level 2 Strange Embroidered Shoes was quickly devoured clean. It assisted Zhu Wuyang in effectively analyzing the characteristics of the strange power, thus perfecting the Unharmful Devouring Technique, allowing Zhu Wuyang to effectively transform demonic power, demonic power, ghost power, and strange power. He could also devour demons and ghosts, not limited to demonic beasts.

The power of the Unharmful Devouring Tactic was also improving, and it was getting closer and closer to the Super Devouring Tactic. Once it reached the level of the Super Devouring Tactic, the demons and ghosts that Zhu Wuyang could devour in the future would be even stronger.

After walking for a long time, he did not see any other humans. Along the way, he encountered only demons and ghosts. The land was extremely desolate.

This made Zhu Wanhao occasionally have the misconception that the humans in this great world had almost been devoured by demons and ghosts, so it was very difficult to encounter humans.

Moreover, the villagers by the Reckless Bull River could only contact the villagers who were also river gods by the river. Other than that, they basically had no other contact. They were isolated and poor.

It was just that there was occasional news from decades ago that the territory they were in belonged to the Wei Kingdom. Unfortunately, the officials of the Wei Kingdom had not come to the Wild Bull River to collect taxes for many years. They did not know if the officials around them had all died.

Therefore, the villages by the Reckless Bull River were autonomous. The village chief was in charge of everything. If there were any cases in the village, the village chief would find a way to deal with them.

It was precisely because of this that the village chief had such great power in these villages that he could decide on the River God Ceremony.

It was the first time Zhu Wuyang had experienced walking alone in this world of demons and ghosts, and it had a different meaning.

Along the way, he had also encountered terrifying demons and ghosts that he could not afford to provoke. Fortunately, Zhu Wuyang had already created a concealment technique based on the situation here. It was effective in hiding and was not discovered by the demons above level four.

Because there were too many demons and ghosts, the efficiency of devouring them was quite high. Therefore, in just a few days, Zhu Wuwan raised her strength to the limit of a second-grade demon master. Then, she spent a breakthrough stone to raise her strength to the rank of a third-grade demon master.

In other words, he was an incomplete third-grade demon master. After all, Zhu Wuyang only had a twin-headed demon snake as his natal devour. However, in other aspects, Zhu Wuyang was not inferior to most third-grade demon masters.

Whether it was his overall quality or the demonic power, mental power, and qi and blood power in his body, Zhu Wuwan had steadily reached the level of a third-grade demon master.

The surge in essence, qi, and spirit allowed Zhu Wuwan to use her innate divine powers more easily. She could use the Heavenly Phenomenon, summon the wind and rain, and ride the clouds and mist... These three innate divine abilities had been used many times by Zhu Wuyan, and it was very easy to use them. They were basically instinctive.

However, innate abilities were the instincts of demons and ghosts. Humans who had devoured and inherited everything from demons and ghosts naturally inherited these instincts. As long as they were familiar with it, they could basically use it skillfully.

In the process of performing divine powers many times, Zhu Wuwan also discovered something in shock. The reason why these innate divine powers were so strange and mysterious was mainly because they did not mobilize the spiritual energy of heaven and earth, but the laws of heaven and earth.

According to Zhu Wuyan's observations and senses, once these innate divine powers were used, the surrounding Heaven and Earth Spiritual Energy would not change much. However, a power that transcended the Heaven and Earth Spiritual Energy and was hidden in the depths of the Heaven and Earth would appear out of thin air, allowing Zhu Wuyan to unleash all the power of the innate divine powers.

Was this triggering the Laws of Heaven and Earth?

Zhu Wanhao speculated, and he became more and more certain of his speculation. This was because if it were not for the power of the laws of heaven and earth, these innate divine powers would definitely not be so magical.

On the Dongyuan Continent, when a cultivator broke through the Human Immortal Tribulation and stepped into the ranks of Genuine Immortals, it was said that the immortal techniques and secret techniques cultivated had to be divine arts. Only in this way could they effectively improve their progress. Otherwise, it would be difficult to advance further.

The so-called divine power could also draw upon the power of rules, not the power of the spiritual energy of heaven and earth. Just like the Five Elements Great Escape that Zhu Wuwan had mastered, it rarely mobilized the spiritual energy of heaven and earth. Instead, it mobilized another kind of power, which should be the power of rules.

At this moment, when Zhu Wanhao was using his innate divine power in the Evil Will World, he had discovered that the power it triggered was similar to the Five Elements Great Escape. That was why he guessed that this power was the power of laws.

Furthermore, as he used more and more of his innate divine powers, Zhu Wuwan could gradually sense the power of laws. It was a power that surpassed any demonic power, demonic power, ghost power, or strange power. It had extremely terrifying power.

Did the will of the Great Path of the Dongyuan Continent send him into this macro world to let him understand the cultivation of rules so that he could prepare for his rapid improvement in the future?

Zhu Wanwan guessed in her heart. As she felt more and more that the innate divine power of this Evil Will World was similar to the divine power of the world where Dongyuan Continent was located, she became more and more certain of this answer.

As expected, the will of the Great Path of the Dongyuan Continent still favored him!

Chapter 1023: Heavenly Star Beast (1) Chapter 1023: Heavenly Star Beast (1)
According to some of the precious books he had read on the Dongyuan Continent, Zhu Wanhao knew that if nothing went wrong, once he broke through to the True Immortal Realm, the cultivation of many subsequent major realms would be related to rules.

It was even possible that the cultivation of rules would accompany Zhu Wuyan all the way to the end of the immortal path, because rules were the foundation of the entire immortal path world.

Therefore, being able to come into contact with and understand a large amount of the power of laws in advance would definitely be of great use to the cultivation of the main body. At the same time, it would also be of great use to Zhu Wuwan to fuse and improve the various immortal martial arts secret techniques that she had grasped.

To be precise, it was to fuse and improve various divine powers. After all, the immortal techniques and spells that Zhu Wuwan had mastered had all advanced to the level of divine powers in the Xuanhuang Great World.

However, Zhu Wanwan had never used these divine powers before, so she did not understand how these divine powers could draw upon the power of laws. Now, she could study them well in the Evil Thought Great World. At the same time, she could master and understand more innate divine powers and integrate them into her own divine powers.

Such a great world was just right for Zhu Wuwan to earn benefits. The only regret was that due to the decline of the human race and the ravaging of demons and ghosts, there were not many books for Zhu Wuwan to learn and improve.

However, although there weren't many books and cultivation techniques to learn, there were countless demons and ghosts here who had mastered innate divine abilities. If he analyzed them properly, he could also obtain huge benefits.

Therefore, after realizing this, Zhu Wuwan would observe if they had mastered the innate divine power when she encountered those demons and ghosts again. If they had, she would not kill them first. She would let them go after studying them carefully.

Although doing so made Zhu Wuyan's footsteps slower, it also allowed Zhu Wuyan to obtain more benefits.

Just like that, two months passed very quickly. Zhu Wuwan's comprehensive strength had also reached the peak of a third-grade demon master. Unless he devoured more natal items, he basically could not improve any further.

This was also the limit of Zhu Wuyan's improvement. A two-headed demon snake could only help Zhu Wuyan increase his strength to this level. Next, he needed more natal items to break through the limit and obtain more power.

This was the cultivation method of the human cultivators in the Vicious Thoughts Great World. Their initial talents were limited, and they mainly relied on demons and ghosts to modify and improve their talents.

Fortunately, after two months of trekking, Zhu Wuyang finally arrived at a gathering place of the human race.

Star City!

This was the first large-scale human settlement that Zhu Wanwan had encountered in the Evil Thought Great World. It was also the first city. There were hundreds of thousands of humans living in it, so it could not be considered a small city.

Looking at the pale white light shield that enveloped Star City and the clear and sensible array aura, Zhu Wuwan's understanding of this Evil Thought World deepened.

He slowly followed the crowd to Star City. When he entered the gate, the Heavenly Reflection State above the gate checked him thoroughly. After confirming that he wasn't a monster, Zhu Wuyang was allowed to enter Star City.

After entering the city gate, there were many cultivators everywhere. Most of them were demon masters and ghost masters. There were fewer demon masters, let alone strange masters. There were basically no strange masters.

However, with so many cultivators, it was clear how prosperous and powerful Star City was. There were even second-level cultivators among them, but there were basically no third-level cultivators. Clearly, even in Star City, third-level cultivators were extraordinary.

Walking on the streets of Star City, Zhu Wuyang slowly understood the situation of this world. Previously, the Reckless Bull River was too small, and the things in the original

owner's mind were too little. As a result, Zhu Wuyang did not have any systematic understanding of this world.

Now that they had arrived at the bustling Star City, they could have a good understanding of the city and decide what to do next.

Compared to the villagers by the Reckless Bull River, the faces of the residents of Star City had a bit more vitality and spirit. Obviously, their lives were much better than the villagers by the Reckless Bull River. Otherwise, they wouldn't have such a spirit.

But even so, most of them were still worried and worried, as if they were afraid that Star City would be breached in the next moment and their peaceful and stable lives would be broken.

After touring half of Star City, Zhu Wuyang still couldn't find a place similar to a library. After asking around, he found out that even in this world where demons and monsters were wreaking havoc and the human race was in danger, most humans were still keeping their treasures to themselves and were unwilling to disclose what they had learned. They would rather let many Divine Abilities and cultivation techniques die with their families than contribute them.

Compared to the humans of the Mysterious Desolate Great World, the humans of the Evil Will Great World were terrifyingly selfish. The danger of national extinction was right in front of them, but they were still so selfish and narrow-minded.

Zhu Wuwan could not help but sigh. In such an environment, it was difficult to even search for ancient books and cultivation techniques. This was clearly a waste of his time and energy.

However, since the real environment was like this, there was nothing Zhu Wuwan could do. It seemed that she could only slowly inquire about the future and see where there were ancient books and cultivation techniques. Then, she would quietly sneak in and learn.

Seeing that they had been shopping for quite some time, Zhu Wuwan was a little hungry. She found a very lively restaurant and walked in, preparing to eat something first.

As soon as he sat down, he heard the commotion around him.

"The Heavenly Star Beast has been in a deep sleep for ten years. The threat it poses to the surrounding demons and ghosts is getting smaller and smaller. I wonder if it will wake up from its deep sleep this year. If it doesn't wake up soon, I'm afraid that our Star City will be in danger."

"It is said that the three great clans in the city have already gathered a large number of Star Stones. They are preparing to sacrifice to the Heavenly Star Beast in thirteen days to see if they can summon it down from the sky to deter the demons and ghosts that are restless around us. I hope that this time, we can succeed and continue to be safe and sound."

"There are more and more demons and ghosts in the city. In just a few years, tens of thousands of people have died. If this continues, we really won't be able to hold on. The Heavenly Star Beast shouldn't sit idly by. After all, we've worshipped it for nearly a thousand years."

"It's a pity that our Star City has yet to produce a fourth-grade cultivation master. The strongest one is only a third-grade cultivation master. If we can produce a cultivation master, the danger we are facing now will definitely be solved. Moreover, we will have another layer of protection. In the future, even if the Heavenly Star Beast no longer protects us, we will still be able to survive, and we won't have to pay tribute anymore."

"How can a cultivation master be born so easily? The last cultivation master in our Star City was a thousand years ago. Every cultivation master can only be encountered by chance, but not sought after. It's better not to have too much hope."

..

Chapter 1024: Anticipating the Future (1) Chapter 1024: Anticipating the Future (1)
Hearing the discussions around him, Zhu Wuyang was surprised to discover that Star City was also a city that had developed under the protection of demons and ghosts.

The name Star City also came from the Heavenly Star Beast that protected Star City. The Heavenly Star Beast also had another name, which was the Heavenly Star Spirit. It meant that it absorbed the power of starlight and was a type of ghost spirit.

However, the star spirit did not need to devour human cultivators to improve itself. Instead, it would devour evil thoughts and star power to improve itself. Therefore, it was relatively friendly to humans.

However, this was only relative. Before the Heavenly Star Spirit went into seclusion, Star City had to pay a certain amount of Star Stones as tribute every year. Once the tribute was not enough, the Heavenly Star Spirit would fly into a rage and kill many humans as punishment.

It was said that the death of the previous city lords was due to insufficient offerings, so they were killed by the star spirit.

After all, the Heavenly Star Spirit was a demon. The so-called protection of humans was only for the sake of star stones. Once it failed to achieve its goal, it would immediately reveal its true colors.

After learning about the situation of the Heavenly Star Spirit, Zhu Wuyang's attention was attracted by the discussion of a few people in the corner.

"According to the ancient records, the Heavenly Star Beast is one of the most powerful among the fourth-grade demons and monsters. It has mastered two innate divine abilities, and each of them is extraordinary. At the very least, they are high-grade divine abilities."

"Really? Is the Heavenly Star Beast Guardian that powerful? Even low-grade divine powers are rare, let alone high-grade divine powers. I've always thought that the Heavenly Star Beast Guardian has a middle-grade divine power. I wonder what divine power the Heavenly Star Beast Guardian has."

"It's said that the Shifting Stars and Future Sight are both incredible Divine Powers, especially the Future Sight. Some people say that it's very likely a great Divine Power because Future Sight can predict the tip of the iceberg of the future through the stars and make timely responses so that it won't be harmed by others. Therefore, it's definitely a great Divine Power."

"I didn't expect the guardians of our Star City to be so powerful. No wonder they could protect our Star City for more than a thousand years and prevent the Star City from being destroyed by demons and ghosts. If there really is such a great magical ability, it would be understandable."

"Our Star City is the largest city within a radius of thousands of miles. If we don't have a certain strength, how can we protect Star City? You're underestimating the guardians."

..

Looking at the few human cultivators who were extremely grateful and reverent for rearing them and exploiting them, Zhu Wuwan fell silent. This world was really too dangerous for human cultivators. To a certain extent, the situation of humans was even worse than that of the humans in the Xuanhuang Great World.

At least the humans of the Mysterious Desolate Great World still had a certain degree of dignity to live. They were not as shameless as the humans of the Vile Thought Great World. Even though they were raised and exploited by demons and monsters, they were still grateful.

Although it was limited by the environment, if the human race had straightened their backs and not relied on demons and ghosts, they would not have fallen to such a state.

Moreover, Zhu Wuyang could also discover from the surrounding discussions that the humans in Star City were not only kept in captivity, but also provoked by the Heavenly Star Beasts. They fought and killed each other openly and secretly, and evil thoughts constantly appeared, making this world more and more dangerous.

It seemed that she had to find a way to swallow that Heavenly Star Beast. No, it should be the Heavenly Star Ghost Spirit. Zhu Wuwan couldn't help but lick her lips.

There were still thirteen days before the Heavenly Star Sacrifice. Zhu Wuyan's strength had also reached its current limit. The timing was just right. It was really perfect.

To be honest, while searching for the human gathering place, Zhu Wuwan was also understanding the demons and ghosts he encountered along the way. Although he found several demons and ghosts with innate divine powers, these demons and ghosts were either too weak or their innate divine powers were too weak. Zhu Wuwan did not take a fancy to them at all, so he did not devour them as his natal devouring objects.

Cultivators in the Evil Thought World usually liked to call the life-bound devourer in their bodies life-bound demonic beasts, life-bound demonic beasts, life-bound ghost spirits, or life-bound anomalies because they could only devour one type of devourer.

He walked around, but he didn't gain anything. Zhu Wuwan was also a little disappointed. He didn't expect to hear two innate divine powers that moved him in this first large-scale human gathering place.

Shifting Stars and Reversing the Future!

Just from the name alone, one could tell that it was definitely not an ordinary innate divine ability. If it was really as the surrounding people said, that these were two high-grade divine abilities, then this Heavenly Star Spirit Wish would definitely devour them.

With his current comprehensive strength, especially the power of the Devouring Qi and the help of the Breakthrough Stone, it was not impossible for him to take down a Level Four ghost spirit.

However, the choice of the life-bound devouring object was no small matter. Zhu Wuwan still had to understand more information about the Heavenly Star Beast before she could determine whether she should choose the Heavenly Star Beast as the life-bound devouring object.

Thinking of this, Zhu Wuwan smiled slightly. She didn't expect to have such an unexpected gain.

As for whether this would cause any trouble in Star City, that wasn't something that Zhu Wuwan had to consider. Perhaps the human cultivators here could only grow after leaving the protection of the Heavenly Star Beast.

It was such a sad thing to be kept captive by demons and ghosts for a lifetime. Instead of placing their hopes on themselves, they had to rely on demons and ghosts. No wonder the human cultivators in this great world were getting worse and worse.

They had been kept in captivity for a thousand years. Over the years, there had been no less than hundreds of thousands of humans killed by the Heavenly Star Beast because they could not complete their missions. In the end, the humans here still regarded the Heavenly Star Beast as their reliance and guardian. It was ridiculous to think about it.

However, when he thought of the villages by the Reckless Bull River that were protected by the Twin-headed Demon Snake and offered sacrifices happily every year, Zhu Wuyang couldn't help but sigh.

This was a world of darkness and despair. It was indeed time to start over.

Although the original owner's wish did not hold much weight, it was really reasonable. Perhaps in order to truly destroy all the demons and ghosts, the premise was to destroy the human race in the Evil Thought World. Only then could they completely destroy the source of the birth of demons and ghosts.

For tens of thousands of years, the human race had been able to struggle at death's door because of this. Demons and ghosts needed the human race as their mother to provide them with an endless supply of fresh blood.

However, these demons and ghosts did not show any mercy to their mothers. It was fine if they kept them as animals, but they would also kill a group of mothers at any time. The degree of cruelty and evil was truly shocking.

After enjoying a delicious meal, Zhu Wuyang began to understand where the Heavenly Star Beast's ancient records were hidden. Or rather, where the most ancient records were. Then, she received news that the three major families of Star City, the Cui Family, the Li Family, and the Zhen Family, had the most ancient records and cultivation methods.

Chapter 1025: Huge World (1) Chapter 1025: Huge World (1) Zhu Wuan's strength had already reached the peak of level-three. Although he had only fused with a life-bound demonic beast, his overall combat strength was not inferior to any level-three cultivator in Star City.

Coupled with the assistance of the three Divine Abilities, as well as the concealment technique and martial arts that Zhu Wuyang had tailored for him, it would be a piece of cake for him to sneak into the three major families of Star City.

Under the manipulation of the Heavenly Star Beast, the three major families of Star City had serious internal strife. Every year, there would be killings. Even the tribute star stones were divided, and they were not united at all.

In Star City, apart from the three major families, there were many other forces. They often fought against each other, and there were even forces that used the Star Stone Consecration to kill each other.

The Heavenly Star Beast was happy to see this happen and even deliberately added fuel to the fire, causing the internal strife in Star City to become even more serious.

Otherwise, if all the forces in Star City were united, it wouldn't be too difficult to complete the annual tribute even though it wasn't a small amount.

It was precisely because most of the forces in Star City were busy with internal strife that they couldn't complete the annual tribute. Then, many people were killed by the Heavenly Star Beast.

Therefore, the reason why they couldn't complete the annual tribute was not only because there were too many tributes, but also because of the internal affairs of Star City.

Silently entering the Cui family's library, Zhu Wuwan flipped through the books inside with familiarity. After all, he had done this many times in Dongyuan Continent, so Zhu Wuwan was no stranger to it.

Although there were also array guards here, thinking about Zhu Wuwan's array cultivation, although he had never seen the array here, he was still able to break the array here in a short time with his strength.

It was extremely crude!

This was the only thought that Zhu Wuyan had after breaking it. The array in the library, one of the most important places in the Cui family, was only equivalent to a low-level high-grade spiritual array in Dongyuan Continent. Zhu Wuyan could break it easily.

Regrettably, there weren't many books in the library. After all, it was one of the three major families in Star City, yet there were only a few hundred books in the library. This was not an ordinary tragedy.

Zhu Wanwan spent about two hours silently memorizing all the books and records. Then, she went to the Cui family's treasure vault and plundered a large number of precious items before leaving for the Li family's records room.

Initially, he thought that he would be able to stay in the Cui family's library for a night. Zhu Wuwan had also planned for enough time, but he did not expect that it would only take about four hours from start to finish.

This was really disappointing. Moreover, there was no paper in the Evil Thought World. The words were recorded on a special kind of grass. After cutting and processing, it became a book. The number of words that could be recorded was quite large.

After reading all the books in the Cui family's collection, Zhu Wuwan finally had a rough understanding of the Evil Will World. She knew that the area she was in was indeed the territory of the Wei Kingdom.

However, the Wei Kingdom had been unable to rule over all the territories since hundreds of years ago. Most of the county cities were independent, surviving in this world that was ravaged by demons and ghosts.

The territory that the royal family of Wei could control was extremely small, and it was basically in a state of not being a country.

Other than Wei, there were many other countries in the Evil World. They were scattered all over the world. Similarly, every country was struggling to survive, and there were often countries that were destroyed by demons and ghosts.

The demons and ghosts had also cut off contact between humans from all over the world. Everyone lived behind closed doors. Many times, they did not know that their neighbors had been destroyed for decades or centuries.

Chaotic and dark, this was the Evil Thought World.

As for how big the Evil Thoughts World was, according to the ancient books of the Cui Family, it should be at least as big as more than 100 Dongyuan Continents.

It should be known that the Dongyuan Continent was as big as tens of thousands of Earths, and the Malicious Thought World was at least a hundred times bigger than the Dongyuan Continent. One could imagine how big the Malicious Thought World was.

Moreover, it was at least the size of a hundred Dongyuan Continents. It was possible that it could be even larger. Even Zhu Wuyang was shocked by its size.

Other than understanding this world, Zhu Wuyang also obtained some cultivation methods and books, but they were all very simple and crude. Only the Intermediate Devouring Technique was worth looking at. This allowed Zhu Wuyang to have a better understanding of the most fundamental devouring cultivation system in the Evil Thought World, allowing him to slightly improve the Unharmful Devouring Technique.

There were also some other aspects of martial arts, spells, secret arts, and so on. Although they were a little crude, they also pointed out the direction of cultivation for Zhu Wuwan in this great world. Zhu Wuwan could easily improve them in the future, saving a lot of time.

Very quickly, he sneaked into the Li family's records room. Zhu Wuwan spent even less time this time. She didn't even need two hours before she left the Li family. She also took all the Li family's knowledge and a batch of precious treasures with her.

Then, it was the last Zhen family. They did not stop Zhu Wuyang for even a moment before they were broken through by Zhu Wuyang like a hot knife through butter and obtained a large number of good things from the Zhen family.

The books and knowledge of the three major families in Star City basically occupied more than half of the books and knowledge in Star City. The remaining small and medium-sized forces had even fewer books and information.

After some consideration, Zhu Wuwan did not waste any time searching. Instead, she began to comprehend and improve a combat system that belonged to herself while waiting for the Heavenly Star Ritual to begin.

From the records of the three great clans, Zhu Wuwan had already confirmed those rumors. The Heavenly Star Spirit had indeed grasped two extremely powerful innate divine powers. As for whether they were divine powers above high-grade, the three great clans were not sure.

The only thing they could confirm was that the two innate abilities were indeed Shifting Stars and Future Sight. As for the exact power, the three families only had a rough guess.

However, even so, it was enough for Zhu Wuyan for the time being. If the Heavenly Star Spirit was not as powerful as he imagined, Zhu Wuyan could give up.

Moreover, from the three great clans, Zhu Wuyang learned that the life force of the Heavenly Star Spirit was quite long, almost endless. Once it could be devoured, Zhu Wuyang would be able to obtain huge benefits in terms of life force alone.

At that time, even if it could not be endless, it would at least have a lifespan of tens of thousands of years. Just based on this point alone, the human cultivators here wanted to make the Heavenly Star Spirit their natal ghost spirit without any hesitation.

Regrettably, Zhu Wuyan was not a native of this great world. She could only stay here for a hundred years. Otherwise, Zhu Wuyan would also be impatient.

Fortunately, apart from having a long lifespan, the speed of the Heavenly Star Spirit was also extremely shocking. It could allow Zhu Wuyang's life-saving ability to soar, and her physique and reaction speed were also quite impressive. It could also bring Zhu Wuyang quite a lot of benefits in this aspect.

In addition to the two innate divine powers, it was worth it for Zhu Wuyan to make the Heavenly Star Spirit his natal ghost spirit.

Chapter 1026: Swoosh Swoosh Swoosh (1) Chapter 1026: Swoosh Swoosh Swoosh (1)
“Weng weng weng...”

When the prayers of countless people gathered together, it sounded like the buzzing of flies. It was indescribably unpleasant to hear, especially when the sacrifice was made to a ghost spirit that treated humans as livestock.

Looking at the pious Star City residents kneeling on the ground, Zhu Wuwan couldn't help but fall silent. They were so pious to a ghost spirit that had reared them for thousands of years, and they had placed all their hopes of survival on this kind of monster. No wonder the Evil Thoughts World had become like this.

It had been a thousand years, but there was still no fourth-level cultivator. Was it really because the talent of the residents of Star City was not good enough? In the end, it was the Heavenly Star Beast who had obstructed them.

Those geniuses who had the potential to break through to the rank of fourth-level cultivators had basically been killed silently. Zhu Wuwan, who had just arrived, was able to see that there was something wrong. He did not believe that those human cultivators in Star City could not see that there was something wrong.

He knew that there was a problem, but he still worshiped the Heavenly Star Beast like this. Just thinking about it was really despicable.

The chaotic city, the offerings that were almost impossible to complete, and the killings that occurred every year...Not only did the Heavenly Star Beast's actions not arouse the resistance of the people here, but it also made them even more devout.

Zhu Wuwan watched the performance of the hundreds of thousands of residents of Star City with cold eyes, waiting for the arrival of the Heavenly Star Beast. The Star Stones that had been accumulated for more than ten years emitted a dazzling light and rushed straight into the clouds.

Not only the residents of Star City, but Zhu Wuyang also hoped that the Heavenly Star Beast would come down this year. This way, he would have a chance to devour it.

It had only been more than ten years, and he had been in seclusion for so long. He did not know if the Heavenly Star Beast had broken through. If it had broken through to the sixth grade, it would be a little difficult to devour it.

Zhu Wanhao sensed the Devouring Qi in his body and felt a little confident. He continued to wait around the big altar in the center of Star City, hiding all his aura.

"Weng weng weng..."

At a certain moment, under the surprised gazes of hundreds of thousands of Star City's residents, a large number of Star Stones that almost filled the altar began to tremble, emitting a strange buzzing sound.

“The Lord Guardian has sensed our sincerity. It’s coming down to enjoy the sacrifice this year. Everyone, quickly kowtow and welcome the arrival of the Lord Guardian.”

“That’s great, that’s really great. We can get the protection of the Heavenly Star God again. We don’t have to worry about the demons and ghosts around us anymore.”

“Respected Lord Guardian, please come and enjoy our offerings. Please bless us with good weather and prevent us from being invaded by the demons and ghosts around us. We kowtow to you.”

“As long as the Heavenly Star God is still protecting us, we don’t have to worry about the demons and ghosts around us. They aren’t a match for the Heavenly Star God.”

..

Amidst the cheers, thousands of starlight fell from the nine heavens, illuminating the entire central altar. Gradually, it condensed into a ghost spirit that looked like a white deer. It was surrounded by layers of starlight, but in the depths of the starlight, there was a blood-red river flowing.

In the end, this was not a kind thing. It was a ghost spirit that killed people like flies. It was just that it was not as bloodthirsty as other demons and ghosts. However, it also did not take humans seriously and treated them as ants.

The hundred-meter-tall Heavenly Star Beast’s eyes were cold. It looked at the kneeling crowd without any emotion, as if it was looking at a pile of dead objects. Only when it inadvertently landed on the star stone did it have some other emotions.

However, with the fluctuation of mental power, after detecting that the Star Stones offered for sacrifice were not even enough for more than ten years, the Heavenly Star Beast’s gaze became colder and colder. Its icy voice sounded on the altar, “Which factions have not handed in enough offerings...”

“Sou...”

Before the Heavenly Star Beast could finish speaking, it felt a golden light flash around it and it was swallowed into its stomach. A golden devouring aura that covered the sky swept over and wrapped it firmly within, starting to devour its body crazily.

“Roar...”

How could the Heavenly Star Beast not understand what had happened? It could not help but let out a furious roar. Who was so bold to actually dare to attack it?

After more than ten years of seclusion, its strength had already reached the peak of a fourth grade ghost spirit, and it would soon break through to the ranks of fifth grade

ghost spirits. Originally, it had thought that after receiving more than ten years of worship, it would break through in one go. However, it did not expect to encounter such a thing.

Which idiot was it? He was really tired of living!

The Heavenly Star Beast flew into a rage and activated a large amount of ghost power in its body to attack the surrounding golden devouring qi.

“Dong dong dong...”

However, with the deafening sound, the surrounding golden devouring gas did not move much. Its attack did not seem to have any effect.

Such a powerful Devouring Qi?

The Heavenly Star Beast’s expression changed drastically. It did not have time to think. It mobilized all the ghost power in its body and attacked the surrounding devouring qi with a secret technique.

“Boom...”

“Bang...”

“Dong...”

..

This time, the attack was especially fierce. It finally made the surrounding Devouring Qi start to tremble. However, there was still some time before they could break through. However, they finally saw hope of victory.

The Heavenly Star Beast’s attacks became more and more ferocious, but more and more ghost power was devoured. After all, the more powerful the ghost power burst out, the more opportunities the enemy would have.

Feeling the ghostly power flowing away like a tide, the Heavenly Star Beast was also somewhat flustered. Who was so powerful? Under its deliberate cleansing, there shouldn’t be such a powerful human cultivator in Star City.

Moreover, when it came down to accept the offerings, it even used the great divine power of divination to predict the future. It did not foresee any danger. However, why did it fall to this state just after it came down and did not even eat a mouthful of star stones?

Could it be that the enemy was very strong and had such an ability, so it blocked its divination? If that was the case, how strong was the enemy?

The Heavenly Star Beast couldn't help but suck in a breath of cold air. It didn't have time to think anymore and immediately activated the Shifting Stars divine power, wanting to exchange for a way out of here.

Unfortunately, the golden Devouring Qi was already closely connected to it. Although its Shifting Stars had played its role and moved it hundreds of miles away, the enemy that devoured it had also been moved away by it. Therefore, it was still being devoured by Zhu Wuyang.

Was this devouring aura so powerful?

The Heavenly Star Beast was a little flustered. It began to frantically perform Shifting Stars, wanting to see if it could move Zhu Wuyang to a dangerous place, forcing him to let it go.

"Swoosh, swoosh, swoosh..."

Zhu Wuyang felt the scene around him constantly changing, and his head was a little dizzy. However, it was just dizziness, and it didn't affect him much.

Chapter 1027: Soaring (1) Chapter 1027: Soaring (1) The teleportation that the Heavenly Star Beast was using at this moment was still a lot weaker than the teleportation that Zhu Wanhao had used crazily when he was fleeing for his life in the Dongyuan Continent.

In the Dongyuan Continent, a single thought could teleport. However, the Heavenly Star Beast's teleportation required the use of the Supernatural Power of Shifting Stars, which consumed a lot of energy. The Heavenly Star Beast's strength was limited, so it was not easy for it to withstand it.

Therefore, this kind of teleportation strength was useless to Zhu Wuyang. The only thing that was useful was that it could teleport Zhu Wuyang to a dangerous place, making it difficult for Zhu Wuyang to deal with it.

However, Zhu Wuyan's concealment technique was extremely powerful. Unless he was teleported to a demon or ghost that was two or three major realms stronger than him, Zhu Wuyan would not be afraid.

Therefore, Zhu Wanhao allowed the Heavenly Star Beast to perform Shifting Stars while she unleashed her devouring power at full force, constantly devouring everything about the Heavenly Star Beast.

Zhu Wuyan's comprehensive strength began to soar again. Strength, speed, reaction, spirit, ghost power ... Among them, the fastest improvement was speed.

Zhu Wanwan slowly absorbed the advantage of the Heavenly Star Beast's rapid speed into her body and integrated it into her own body. For this reason, even her body structure had been adjusted to a certain extent. Of course, it would not be completely the same as the Heavenly Star Beast.

At the same time, Zhu Wuwan could clearly feel her vitality soaring rapidly. Her lifespan broke through layers of shackles one after another, soaring from hundreds of years to more than a thousand years, and continued to increase rapidly.

A thousand years...1,200 years old...1,500 years old...Two thousand years...Three thousand years...

Five thousand years...Eight thousand years...Ten thousand years...It soared to 20,000 years!

At the same time, the power that Zhu Wanhao had grasped in his body had silently crossed the bottleneck between a third-level cultivator and a fourth-level cultivator, reaching a new realm.

Everyone knew that there was a huge barrier between a third-level cultivator and a fourth-level cultivator. Once a cultivator broke through, it would bring about a qualitative change in their strength.

If a third-level cultivator was considered a low-level cultivator, a fourth-level cultivator was considered a high-level cultivator. They were qualified to be called a cultivation master, or a great demon master, a great ghost master, a great devil master, or a great monster master...

Feeling the surging power fluctuations in his body, Zhu Wuwan smiled slightly. As expected of a cultivation master, he was indeed ten times or even dozens of times better than before.

Along with Zhu Wuan's breakthrough, the Heavenly Star Beast, which had already reached the peak of the fourth level ghost spirit, was on the verge of exhaustion. It could no longer activate Shifting Stars.

At this time, Zhu Wanhao had been teleported to the outskirts of Star City. He hadn't been teleported to the surroundings of the fourth-grade and above demons and monsters. Presumably, this Heavenly Star Beast must have died quite miserably.

By the time he completely devoured the Heavenly Star Beast, Zhu Wuyang could be considered to have barely stabilized his current strength as a Level Four Great Demon Master/Great Ghost Master. Of course, because Zhu Wuyang had only devoured two Natal Devourers, he could only be considered a Level Two Super Demon Master/Great Ghost Master.

However, Zhu Wuyang's overall combat strength was not inferior to any fourth-level cultivation master.

Apart from the huge gains in terms of lifespan and speed, Zhu Wuwan also obtained some special abilities that belonged to ghost spirits, such as transforming into a ghost spirit's body, casting ghost spells and secret techniques, and ignoring certain physical attacks.

From the Twin-headed Demonic Snake, Zhu Wuwan had also gained an advantage unique to demonic beasts, which was that its defense was amazing and difficult to break. Now that it had the ability to ignore many physical attacks, Zhu Wuwan's meat shield ability soared.

The Heavenly Star Beast had indeed mastered the two great divine powers of Shifting Stars and Future Seer. Moreover, Future Seer was indeed a great divine power. However, the consumption of Future Seer was too shocking, and there was a certain chance of failure, so its power was not as shocking as imagined.

However, if he used it well, he could also save his life at a critical moment or learn something he desperately wanted to know.

Shifting Stars Zhu Wuyang had also personally sensed it. It was a different type of teleportation and a life-saving ultimate art. It could allow cultivators to master the teleportation technique that only high-level cultivators could master when they were at a low level. One could imagine how powerful it was.

This was a high-grade divine power!

However, although the consumption of Shifting Stars was not as much as Future Sight, it was not small either. With the power in Zhu Wuwan's body, she could probably only use it dozens of times in a row. It was still very useful at critical moments.

After getting used to the sudden increase in his strength, Zhu Wuwan sighed regretfully. A powerful ghost spirit at the pinnacle of Level Four had only raised his strength from the pinnacle of Level Three to the lower level of Level Four. He was really a little inferior.

Could it be that his cultivation foundation was too strong, so he needed to expend too much energy?

Zhu Wanhao smiled slightly. He felt the power of Shifting Stars and Future Sight. In addition to the other three great divine powers, let alone sweeping away a fourth-grade master cultivator, even if he encountered a fifth-grade master cultivator, he would still have to fight to see who would win.

After spending an hour adapting to the sudden increase in strength, Zhu Wuwan finally returned to Star City. She was ready to enjoy a good meal and then go to the next place to find a suitable target to devour.

His current strength had increased too quickly, and there were too few life-bound devours. He needed to replenish his life-bound devours as soon as possible. This way, his cultivation speed would be faster, and his combat strength would be stronger.

Of course, Zhu Wuwan could also raise her cultivation to the limit that she could currently raise, and then devour even stronger demons and ghosts. This way, the benefits she would obtain would be even greater.

Therefore, Zhu Wuwan would also be prepared for two scenarios. If she couldn't find a suitable target in a short period of time, she would first make good use of devouring to increase her overall strength, especially the devouring aura.

After swallowing the Heavenly Star Beast as his natal devouring object, Zhu Wuwan's overall strength soared. At the same time, the Devouring Qi also soared by about ten times, and its quality also increased by several times, far surpassing the previous dozens of times.

This kind of Devouring Qi could basically support Zhu Wuyang to devour demons and ghosts above level five, or even level six demons and ghosts.

However, for the sake of safety, Zhu Wuwan was still prepared to increase her overall strength by a large margin. It would be best if she could reach the rank of a fifth-grade cultivation master. Then, she would devour stronger demons and ghosts to increase her overall strength.

This wasn't difficult for Zhu Wuwan. After all, whether it was the Devour Cultivation System or the Breakthrough Stone in the Evil Will World, they could help Zhu Wuwan increase her strength at an extremely fast speed.

If the two worked together, not only would Zhu Wuyang's consumption be much lower, but the speed of his improvement would also be extremely fast.

Of course, he could also save a lot of breakthrough stones to accumulate breakthrough stones for the improvement of his main body, making his main body even more powerful.

Chapter 1028: Immortal (1) Chapter 1028: Immortal (1) "Where did the Lord Guardian go? Why did he suddenly disappear? Did he go back to seclusion to cultivate again? However, he hasn't eaten and taken away those star stones. Why did he suddenly leave?"

“Just now, there seemed to be a golden light enveloping Lord Guardian, but wasn’t the light around Lord Guardian silver? Why did it suddenly turn golden? I feel like something’s wrong.”

“Don’t you think that the scene of the Heavenly Star Guardian disappearing just now seemed to have been swallowed by someone using the Devouring Technique? That’s why it suddenly disappeared. Otherwise, how could it be so fast?”

“But that’s also like a divine power that can shift stars. How can anyone dare to devour the guardian of the stars? Could it be that he thinks he has lived too long? This kind of thing is impossible.”

..

At this moment, no one believed that the Heavenly Star Beast had been devoured by someone. They thought that the Heavenly Star Beast had encountered something and suddenly disappeared. It would come back later.

Thus, everyone continued to kneel on the ground and respectfully waited for the return of the Heavenly Star Beast. Time slowly passed like this. Soon, an hour had passed, but there was still no news of the Heavenly Star Beast.

Some experts sensed the sky, wanting to see if the Heavenly Star Beast had returned to its residence. However, they could not sense anything. It was as if the Heavenly Star Beast had disappeared.

“Why isn’t the Lord Guardian back yet? My legs are about to break from kneeling. I can’t hold on any longer.”

“You’re not devout enough. You’ve only been kneeling for a long time and you can’t hold on anymore. Kneel properly and don’t speak. Perhaps the Lord Guardian will arrive in the next moment.”

“I still feel that something is wrong. Why did the Guardian of the Heavenly Stars suddenly leave? That golden light just now really looks like a devouring light.”

“Shut up and don’t speak. Lord Heavenstar is a powerful ghost spirit close to the fifth rank. How could anyone use the Devouring Technique on him? Could it be that he’s tired of living? The strongest expert in our Star City is only a Third Rank Demon Master. How can he devour Lord Guardian?”

..

Still, no one believed that the Heavenly Star Beast had been swallowed by someone. In fact, it had already been digested. Everyone still knelt on the ground obediently, waiting for the Heavenly Star Beast to return with difficulty.

However, before they could wait for the Heavenly Star Beast to return, Zhu Wuwan, who had completely devoured the Heavenly Star Beast, had already returned. Looking at the Star City residents who were still kneeling on the ground, she was somewhat speechless.

How pious was this? Couldn't he tell that the Heavenly Star Beast had been swallowed by someone? Why was it still kneeling here?

Zhu Wuwan could not help but use a voice transmission technique to inform the residents of the city, "" I've already devoured the Heavenly Star Ghost Spirit and turned it into a part of my body. In the future, all of you should rely on yourselves to work hard. Don't be livestock raised by demons and ghosts! "

Many people could not help but shout when they heard this voice.

"Impossible. The Lord Guardian is so powerful. How can you devour the Lord Guardian? This is impossible."

"Whoever blasphemes the Lord Guardian, immediately throw him into the oil pot and fry him for ten days and ten nights."

"Did you hear someone talking? I heard it too. That person said that the Lord Guardian has been devoured by him."

" We're so far away. Did you hear it? Who else heard it? "

"I-I-I...We all heard it!"

..

The people kneeling on the ground soon discovered to their horror that all the residents in the city had heard the voice just now. There was no one in the entire Star City who could do such a thing. At least, the strongest expert in Star City couldn't do it.

If that was the case, could the person who spoke be a cultivation master who had transcended the third-grade? If he was a cultivation master, it was still possible for him to devour the Heavenly Star Beast.

Thinking of this, many residents of Star City were dumbfounded. If the Heavenly Star Beast was really swallowed by someone, who would protect them in the future? How could they survive?

No one took Zhu Wanhao's self-reliance to heart. After all, they were used to relying on the protection of the Heavenly Star Beast. Now that they had to rely on themselves, how could the residents of Star City bear it?

Although they didn't dare to say it out loud, many Star City residents were already cursing Zhu Wuwan like a dog in their hearts. They couldn't wait to find him and teach him a lesson.

He was used to being a slave and livestock of demons and ghosts. He was not used to suddenly being able to take charge of his own affairs.

After a long period of silence, some clever people began to shout.

"Since Sir has killed the Heavenly Star Evil Beast and removed the greatest disaster for our Star City, then please be the guardian of our Star City. In the future, our entire Star City will belong to Sir."

"Thank you, sir, for getting rid of the demons and monsters for us. From now on, we will be your people and believers. If you ask us to go east, we will never go west. We only hope that you can stay in Star City and let us fulfill our filial piety."

"A drop of water is repaid with a spring. Moreover, the kindness you have shown us is more than just a drop of water. It's like a river, a lake, and an ocean. Please give us a chance to repay you."

"If Your Excellency doesn't stay, I'm afraid that our Star City won't be far from destruction. Your Excellency is our savior, don't leave us."

..

Perhaps only the last sentence of these shouts was sincere. After all, once there was no cultivator above Level Four to hold the fort, Star City, which had long been targeted by many demons and ghosts, would be in danger.

Those so-called words of repaying kindness and filial piety were just nice excuses. Zhu Wuyang did not take them to heart.

From these shouts, Zhu Wuyang could tell that these people were insincere. After considering for a moment, he no longer paid attention to these people. He took some signature delicacies from a few restaurants and left Star City, rushing towards the Blood River thousands of miles away.

According to the information obtained from the three major families in Star City, Zhu Wuwan knew that there was an Indestructible Blood Demon living in the Blood River thousands of miles away. It was a level-six demonic creature. After Zhu Wuwan's strength increased, it would be suitable for him to devour as his Natal Devour.

Of course, the most important thing was that Zhu Wuwan had taken a fancy to a great divine power possessed by this Indestructible Blood Demon. It was really useful for him to survive in this dangerous world.

Undying!

It was an absolute supreme-grade divine power, which was also a great divine power. It was also the only great divine power that had been confirmed within a radius of thousands of miles. After all, many people were not sure if the divine power of Future Sight was a great divine power, but immortality was definitely a great divine power.

Just this undying and indestructible great divine power was enough for Zhu Wuwan to swallow this Indestructible Blood Demon. Such a top-grade divine power was definitely one of the strongest trump cards for survival, and it was ranked at the top.

Chapter 1029: The Human Race Is Dead (1) Chapter 1029: The Human Race Is Dead (1) Due to the rampage of demons and ghosts, it was extremely inconvenient for information to circulate in the Evil Will Great World. This also caused the Immortal Blood Demon to have the great divine power of immortality for nearly a hundred years, but no human cultivators in other places knew about it.

Otherwise, with just the great divine power of immortality, some human cultivators above grade-7 would have targeted the Indestructible Blood Demon and treated it as their natal demon instead of letting Zhu Wuyang take advantage of it.

Of course, there was also the Heavenly Star Beast. It possessed the great magical ability of predicting the future, yet it was able to live well for more than a thousand years. For nearly a thousand years, it was still the guardian of Star City. Just thinking about it was an incredible thing.

Needless to say, if Zhu Wuwan hadn't swallowed it, he wouldn't have known that the two-headed demonic snake had mastered three innate divine powers. Although it was far inferior to a great divine power, it was almost comparable to a great divine power when combined.

It seemed that the will of the Great Path of the Dongyuan Continent still loved him. He had closed his eyes and chosen a great world based on luck. There were so many good things around him the moment he entered, and they were all grasped by Zhu Wuwan.

No, he couldn't be sure about the Indestructible Blood Demon's side, but based on the three high-grade divine powers, one great divine power, and one middle-grade divine power he had obtained so far, Zhu Wuwan's gains could be considered extraordinary.

Of course, the most important thing was that Zhu Wuyang had grasped these opportunities. If it weren't for the help of the Special Encounter System and the Breakthrough Stones, Zhu Wuyang wouldn't have been stingy with spending hundreds of millions of Breakthrough Stones to improve the Unharmful Devouring Technique. He wouldn't have obtained so many benefits either. It was already good enough for him to survive.

Fortunately, Zhu Wanhao had seized the opportunity and turned the disaster into a good thing. Hopefully, she would still be able to obtain what she wanted.

After some consideration, Zhu Wuwan's body was like a light feather, hiding between the shadows and plants as he rushed towards the Blood River thousands of miles away.

At this time, the residents of Star City who were waiting for Zhu Wuyang's response also confirmed one thing. That was, Zhu Wuyang didn't fancy Star City. After devouring the Heavenly Star Beast, he had already left.

After a long silence and confirming that Zhu Wuyang had indeed left, many people could not help but curse.

"Damn bastard, who is that guy who killed our guardian? What a busybody. Why did he kill our guardian? How are we going to live in the future?"

"What else can it be? Isn't it because they took a fancy to the divine power that the Guardian has, so they attacked the Guardian? It's fine if these greedy bastards don't protect our compatriots, but they actually set us up."

"It's all those blabbermouths' fault. If they hadn't told everyone about the guardian's divine power, they wouldn't have attracted these bastards. We have to teach them a good lesson."

"Now is not the time to talk about these things. Everyone should think about how to get through the difficulties. Without the protection of the guardians, our Star City will soon be targeted by the surrounding demons and ghosts."

"A dog biting a mouse is a busybody. The enemy who harmed the guardian is not worthy of being a human. He is our enemy."

..

Fortunately, Zhu Wuyang had already left. Otherwise, he would probably not be able to hold back and start a massacre, killing all these chattering trash.

Fortunately, Zhu Wuwan had noticed something before this and didn't clean up the demons and monsters around Star City. Presumably, the demons and monsters around Star City would teach these guys a good lesson and let them understand the true colors of demons and monsters.

The Heavenly Star Beast that they worshipped had protected them all these years, but that was under the condition that they were slaves. Once they could no longer bring any benefits to the Heavenly Star Beast, what awaited them would definitely be a calamity, and it would be the kind that would not be polite at all.

The human race could only see the light one day by self-reliance and self-reliance, instead of relying on being the slaves of demons and ghosts to survive. The peace that was obtained in that way was temporary.

However, many people were used to being livestock of demons and ghosts. They no longer knew how to behave. With so much time for internal strife, they might have already become a cultivation master if they cultivated properly.

Star City had already decayed. Only by being reborn in the midst of decay could there be a possibility of revival. Otherwise, it would be destroyed sooner or later.

This matter had brought Zhu Wuwan nearly a hundred World Origins. In the eyes of other high-level cultivators, it might not be a lot, but in Zhu Wuwan's eyes, it was just a piece of cake.

At that moment, the amount of World Origin that was being obtained from the second major world, the Huaman Multiverse, had far exceeded that number.

180000!

This was the number that represented the origin of the world above Zhu Wanhao's head at this moment. It had already exceeded 180,000 points, which was more than ten times the world record of 3,000 in history. It had already reached an unbelievable level.

If someone said that someone could obtain 100,000 World Origins from the 3,000 macro worlds before they opened, everyone would think that this person must be crazy. How could someone obtain so much World Origins from the 3,000 macro worlds? It was simply a joke.

Even if Zhu Wuwan knew, she didn't think she could obtain so many World Origins from the 3,000 Major Worlds.

Before entering the 3,000 macro worlds, Zhu Wuwan only wanted to obtain the Origin Energy of tens of thousands of macro worlds. That was already not bad.

However, he did not expect that the environment of the great world he entered would be so good. It was quite beneficial to him. Unknowingly, he had already obtained so much of the world's origin. Zhu Wuwan was stunned.

Therefore, he was very satisfied now. The pressure in the Evil Thought World was much smaller. He would earn some if he could. If he could not earn too much, it was fine. As long as he had tens of thousands of World Origins, it would be enough.

Moreover, this great world had many benefits in other aspects, not just limited to the World Source. However, Zhu Wuwan knew that it would be very difficult for him to obtain as many World Sources as the Huaman Multiverse in the Malevolent World.

There was no other reason. The flow of information here was too inconvenient. Even if Zhu Wuyang could make a huge contribution, how many places could it spread to and how much influence could it cause?

Even if he wanted to leave a backup plan before he left, it would not be an easy task. The conditions in the Huaman Multiverse were far too inferior.

Therefore, he had to think of a way to obtain other benefits from this macro world. He did not have too much hope for the world's origin. The fifth-grade immortal spirit root was enough for the time being. After all, it had reduced the breakthrough stones he needed to improve his cultivation to a level that was slightly more than that of ordinary cultivators.

Zhu Wuwan could completely withstand such a consumption. Moreover, she could continue to maintain her high-speed flying state and transcend the human world.

Chapter 1030: Steadily Increasing (1) Chapter 1030: Steadily Increasing (1) Naturally, Zhu Wuyan would not waste these World Origins on increasing his strength. Instead, he would continue to use them to increase his talent and aptitude.

However, after his talent reached the fifth grade, the amount of world origin energy needed to advance further was too much, far more than before. Tens of thousands of world origin energy had only increased his spiritual root by a small realm, and it had not yet reached the upper grade of the fifth grade.

At this rate, he wondered if he could raise his talent to the level of a 6th Tier Immortal Spiritual Root in the 3,000 great worlds.

This was not an easy task.

But even so, Zhu Wuyan had already earned enough World Origin. Even if it didn't reach the level of a sixth-grade immortal spirit root, Zhu Wuyan wouldn't feel that it was a pity.

Needless to say, the onlookers were beyond recognition. It was not enough to describe their envy, jealousy, and hatred. The separation of substance and wall was not enough to describe their drooling.

Regrettably, Zhu Wuan's strength had already reached the level of a Human Immortal who had passed the tribulation. Even if he wanted to capture Zhu Wuan alive and refine it to extract the world's origin, it would be impossible.

Therefore, they could only watch helplessly as Zhu Wuyang made a lot of money. Her talent and aptitude soared, but her strength was not as fast. After all, she had almost used up her breakthrough stones.

If not for that, Zhu Wuyang would have continued to perform a "logical" breakthrough for them, making them feel so distressed that they couldn't eat.

Zhu Wuwan was not in the mood to care about the commotion outside. At this moment, his clone in the Evil Thought Great World had won the Blood River thousands of miles away. With the divine power of Shifting Stars, Zhu Wuwan quickly arrived at the Blood River with a few teleportations and riding on the clouds.

However, what greeted his eyes was a dried blood river. Other than the dark red bottom of the river, there seemed to be nothing else. There were no demons or ghosts in it, let alone the Immortal Blood Demon.

However, according to the ancient records in Star City, the Immortal Blood Demon was still here a few years ago. It had only been a few years, so how could the Blood River have dried up and the Blood Demon had disappeared?

Zhu Wuwan frowned. She was unwilling to give up. She immediately searched for demons and ghosts in the surroundings. Soon, she caught a few small demons and ghosts and interrogated them about the whereabouts of the Indestructible Blood Demon.

"Long Xiang is here. Destroy the Blood River."

"Blood Devil's sneak attack on Long Xiang didn't work."

"The Blood Devil can't beat Long Xiang. He's already gone. That way."

"Yes, yes, yes. The Blood Devil ran that way."

..

The little gremlins and ghosts had limited intelligence, so their words were all jumbled up. However, Zhu Wuwan finally understood what they meant. She followed the direction they had pointed out and chased into the distance.

Along the way, they encountered many demons and ghosts, and they were basically all below level-six. Naturally, they were all devoured by Zhu Wuyang and turned into the power in his body. His overall strength continued to increase.

While improving his strength, Zhu Wuyang was also effectively improving the demonic arts and ghost arts that the Two-headed Demonic Snake and the Heavenly Star Beast had mastered, turning them into his own instincts. He was quite proficient in using them, and his combat strength increased rapidly.

Zhu Wuwan did not deliberately increase her speed. She cultivated as she walked. After all, it had been several years, and the possibility of finding it was not high. Therefore, she had to put more effort into improving her strength.

At the same time, Zhu Wanhao had also analyzed more divine powers and gained a better understanding of the triggering of laws. After stepping into the Perfected Immortal realm, he would definitely be able to improve faster and break through faster and easier.

At the same time, Zhu Wuyang was also trying to find out more information about other demons and ghosts to see if there were any other suitable targets to devour. Unfortunately, more than two months had passed, but he had not found any demons and ghosts that had mastered middle-grade or higher divine powers.

The good luck that he had gained from his transmigration seemed to have been used up. Not to mention other suitable targets for his life to devour, even the Immortal Blood Demon had lost its trail.

Zhu Wanwan could only guess a rough range. At the same time, she used the help of Future Sight to divine a very large area and slowly searched in this area.

On the way, they encountered some cities, villages, and towns. They were basically protected by demons and ghosts, and very few survived on their own.

This gave Zhu Wanhao a deeper understanding of the situation of the humans in this Evil Thought Great World. They were clearly lying flat on the ground. The demons and ghosts treated them as livestock, and they slowly accepted their status as livestock.

These demons and monsters that could raise humans were basically all quite intelligent. They deliberately made the human race unable to unite and kill each other endlessly. Their evil thoughts were also rampant. The entire human world was in a foul atmosphere and chaotic beyond recognition. Even Zhu Wuyang could not stand it anymore.

How could such rotten and vile humans still be qualified to be called humans? In order to save them, Zhu Wuyang deliberately swallowed all these so-called human guardians who relied on the protection of demons and ghosts to increase his strength.

In the future, without the protection of demons and ghosts, they should be able to learn something. Perhaps they could become self-reliant.

Even if they were really destroyed, it didn't matter. Such a lousy thing was not worthy of being a member of the human race at all. It was better to die early.

These actions allowed Zhu Wuwan to earn about 1,000 points of World Origin in bits and pieces. It could be considered that she had completed her mission in this great world. From now on, she could slow down the speed at which she earned World Origin

and spend more time deciphering divine powers and rules to prepare for her future cultivation.

He had used the ability to predict the future many times, and he was getting more and more familiar with it. His prediction of the future was getting more and more accurate, and he seemed to be getting closer and closer to the Indestructible Blood Demon.

From the surrounding demons and ghosts, Zhu Wuwan learned that the Immortal Blood Demon had indeed passed by and was being beaten up by the level-seven demonic beast, the Dragon Elephant. If it weren't for the fact that it was invincible, it would have been crushed to pieces by the Dragon Elephant.

The more information he learned, the closer Zhu Wuyang got to the Indestructible Blood Demon. After these days of bitter cultivation, Zhu Wuyang's strength had also quietly broken through to the ranks of a fifth-level cultivator.

To be more precise, he was comparable to a Level Five cultivator. Be it in terms of strength, speed, defense, demonic power, divine powers, and other aspects, Zhu Wuyang was not inferior to any Level Five cultivator. In fact, he might even surpass them.

With his overall combat strength, he could still run away even if he could not defeat a level six cultivator. However, once he encountered a level seven cultivator, he would run as far as he could.

Zhu Wuyang's current strength was far from being a match for a cultivator of the seventh rank. The difference between the two was too great.

[Read I'm Leveling Up Too Quickly Chapter 1031 - 1031](#)

[Dragon Elephant vs Blood Demon \(1\)](#)

Chapter 1031: Dragon Elephant vs Blood Demon (1) Chapter 1031: Dragon Elephant vs Blood Demon (1) As he gained more and more understanding of the Evil Will World, Zhu Wuwan gradually discovered that the cultivation system of the Evil Will World was almost the same as that of the Dongyuan Continent.

The cultivation world of the Eastern Yuan Continent was divided into nine major stages, from the lowest to the highest, namely, the Refinement Stage, the Foundation Establishment Stage, the Golden Core Stage, the Nascent Soul Stage, the Soul Formation Stage, the Void Training Stage, the Form Synthesis Stage, the Great Vehicle Stage, and the Tribulation Passing Stage.

In the world of evil thoughts, from the lowest to the highest, there were level one cultivators, level two cultivators, level three cultivators, level four cultivators, level five

cultivators, level six cultivators, level seven cultivators, level eight immortals, and level nine Sacred Sovereigns!

If it did not involve supernatural powers, the level-nine cultivators of the Evil Will World would be equivalent to the nine major realms of the Dongyuan Continent. The difference in strength between them was limited, and the immortal cultivators of the Dongyuan Continent even had a slight advantage.

However, once the cultivators of the Evil Will World used their innate divine powers, they could basically sweep away immortal cultivators of the same level. They could even fight enemies one or two major levels higher. The powerful ones might even fight enemies three major levels higher.

Therefore, in general, the level-nine cultivators in the Evil Thoughts World who had mastered the Innate Super Abilities had a comprehensive combat strength of Genuine Immortals, Earthly Immortals, and even Celestial Immortals. They had steadily surpassed the cultivation world of Dongyuan Continent.

As expected of a great world, its martial strength level was indeed quite high.

However, if there was a stronger world above the Dongyuan Continent, that world should be able to crush the Evil Thought World. However, it was almost impossible to fight against the Evil Thought World with the Dongyuan Continent alone.

For example, although Zhu Wanhao's overall strength was comparable to a fifth-grade cultivation master, once he activated all kinds of divine powers, a Soul Formation cultivator would not be able to resist at all. Only a Void Training Stage ancient giant would have some resistance.

However, the Heavenly Pillar at the Form Synthesis Stage was enough to crush Zhu Wuyan. Although Zhu Wuyan's supernatural power was powerful, it was not enough to cross several major realms to fight an enemy, especially when there was the natural chasm between a mid-level cultivator and a high-level cultivator.

The Integration Heavenly Pillar was already a high-level cultivator, roughly equivalent to a Level Seven or higher cultivation grandmaster in the Great World of Malicious Intentions who did not have any supernatural powers. Even if he did not have the power of supernatural powers, it was not something that Zhu Wuwan could withstand.

However, he thought about how Zhu Wuwan had reached the level of a Void Training Stage ancient giant in just a few months. The cultivation in the Evil Thought World was really fast.

At the thought of this, before Zhu Wuyang could be happy, he thought of the hundreds of millions of breakthrough stones he had used on the Unharmful Devouring Technique. Suddenly, he felt that everything was reasonable.

Without the hundreds of millions of breakthrough stones, he might not even have been able to survive, let alone become a fifth-tier cultivation master.

Moreover, with so many breakthrough stones, even if he was not in the Malevolent Thought Great World, he should be able to obtain a similar cultivation realm in other great worlds.

At the thought of this, Zhu Wuwan was a little unhappy. It turned out that the reason why he could improve so quickly was mainly because of the large number of breakthrough stones his main body had accumulated.

As expected, there was a price to pay for the gains. He was thinking too much.

Smiling slightly, Zhu Wuwan decided to earn more breakthrough stones in this great world to make up for the deficit. She definitely couldn't make ends meet.

However, it was not easy to earn breakthrough stones in this great world, at least not in the Huaman Multiverse or the Mysterious Desolate Great World.

In the end, it was because the information exchange between them was too blocked, and it was impossible for Zhu Wuyang to exert enough influence. Not only among human cultivators, but even among demons and ghosts, the flow of information was extremely difficult, making people feel very helpless.

Without an efficient information channel, many of Zhu Wuyang's efforts would not be able to exert the greatest influence and earn enough breakthrough stones and world origin.

Therefore, Zhu Wuyang still needed to plan out how to earn the most breakthrough stones and the world's origin. She needed to see which direction she should start from.

If the situation really did not allow it, Zhu Wuwan would not hesitate to use some special methods. It did not matter even if it made this macro world even more terrifying. After all, whether it was the demons, ghosts, or humans here, they were already rotten and there was no need to save them.

Just as he was about to break through to the rank of a sixth-grade cultivator, Zhu Wuwan finally found the seventh-grade Dragon-Elephant and the Ultimate Indestructible Blood Demon of the sixth grade who were fighting with each other with the great divine power of Future Seer.

"Bang bang bang bang bang bang..."

"Clang, clang, clang, clang, clang, clang..."

"Pa pa pa pa pa pa pa..."

..

Although several years had passed, the battle between the two of them was still ongoing. To be precise, the Immortal Blood Demon was enduring the bombardment of the Dragon Elephant.

Stomping, kicking, fanning ... Spell bombardment, divine power bombardment, secret technique bombardment ... The high-level demonic beast Dragon Elephant used all its strength to beat the Indestructible Blood Demon into a pile of mud.

However, the Indestructible Blood Demon was still not dead. Under the effect of the Indestructible Divine Power, even if his head turned into paste, his heart turned into dust, and his penis turned into mud...The Indestructible Blood Demon was still alive, and it was living quite well. Its vitality didn't decrease much.

"Hiss..."

Feeling the Immortal Blood Demon's vitality that was barely damaged, Zhu Wuwan could not help but suck in a breath of cold air. Was the Great Super Power, Undying and Indestructible, so powerful? Long Xiang was a whole realm stronger than the Immortal Blood Demon. The difference in strength between the two was probably about a hundred times, but he still could not kill the Immortal Blood Demon.

This Immortal Blood Demon's Immortal and Imperishable Super Power was indeed quite powerful!

Zhu Wuwan was deeply moved. Just this great divine power alone was enough for Zhu Wuwan to swallow this Indestructible Blood Demon. Not to mention, such a durable Indestructible Blood Demon should have other innate divine powers.

Also, this dragon elephant seemed to have mastered more than one innate divine power. Just Zhu Wuwan alone could see that it had the ability to transform the heavens and the earth and had infinite strength. Although they were only medium-grade divine powers, they were not bad.

If it had other innate abilities, it would be worth it for Zhu Wuwan to leave traces on it. After swallowing the Immortal Blood Demon, stabilizing his current realm, and improving a little, he could consider devouring the dragon and elephant.

However, before that, he still needed to observe it carefully to see if this dragon elephant had mastered any other innate divine powers other than its infinite strength and the Law of Heaven and Earth. He needed to see if it was worth Zhu Wuyang devouring.

He had already grasped the Heavenly Phenomenon. Infinite Strength was only a middle-grade divine power. Just this middle-grade divine power alone was not worth Zhu Wuwan devouring it.

Chapter 1032: Rapid Growth (1) Chapter 1032: Rapid Growth (1) Thick skin and thick flesh!

This was Long Xiang's third Innate Super Power, which was also a mid-grade Super Power. It was already quite good to be able to master three, even if they were all mid-grade Innate Super Powers.

Even compared to most high-level demons and ghosts, the number of innate divine powers that Long Xiang had mastered was quite impressive. Zhu Wuwan had seen many demons and ghosts, and only the two-headed demon snake that he had seen for the first time could compete with it. It was already not bad for the others to master two innate divine powers.

Regrettably, these two mid-grade Divine Powers were not worth Zhu Wuwan's attention. He had made them his natal devouring objects. If he had a high-grade Divine Power, he could still consider it. However, all of them were mid-grade Divine Powers. He really did not want them.

If Long Xiang, who was beating up the Indestructible Blood Demon, knew what Zhu Wuyang was thinking, he would probably immediately abandon the Indestructible Blood Demon and come over to teach Zhu Wuyang a lesson.

Regrettably, Zhu Wuwan had already gathered all the demonic arts, magic, ghost arts, and strange arts that he had mastered, forming a version of the Dragon-Tiger Ceremony in the Evil Thought World. Among them were concealment spells that were quite powerful. They effectively hid from the detection of Long Xiang and the Immortal Blood Demon, allowing them to watch the show in the surroundings.

"Bang bang bang..." Clang! Clang! Clang! Pa, pa, pa ... Dong dong dong..."

Long Xiang's love for the Indestructible Blood Demon seemed to be endless. His attacks were like a storm and did not stop for a long time. Zhu Wuwan waited for a whole month until Long Xiang went out to look for food and temporarily stopped the battle.

However, before he left, Long Xiang had also used his innate ability to blast the Immortal Blood Demon into pieces. Then, he used a special demonic technique to stabilize it so that the Immortal Blood Demon would not escape after recovering, even though he had already left a large number of tracking marks on the Immortal Blood Demon.

Looking at the Indestructible Blood Demon who could only recover very slowly due to the influence of the special yao art, Zhu Wuwan chuckled. Zhu Wuwan was best at things like hitting someone when they were down.

“Unharmful Devouring Technique!”

Zhu Wanwan activated her own devouring technique and swallowed the mud-like Indestructible Blood Demon into her dantian. Before the Indestructible Blood Demon could react to what had happened, a vast amount of golden devouring qi drowned it, instantly causing one-tenth of the Indestructible Blood Demon’s body to disappear.

“Boom...”

With this wave of devouring, Zhu Wuyan’s strength broke through the bottleneck and reached the level of a sixth-grade cultivator.

“Awoo ... Aowuwa ...”

Having suddenly lost one-tenth of its body, the Indestructible Blood Demon panicked and began to struggle frantically, trying to break out of Zhu Wuwan’s body.

However, after entering the ranks of a level six cultivator, the Devouring Qi in Zhu Wuan’s body had increased by several times. It was like a huge lake, and the Indestructible Blood Demon could not break free.

Moreover, the Indestructible Blood Demon’s body was in pieces and was affected by a special demonic art. He didn’t even have ten percent of his strength. How could he resist Zhu Wuyang’s devouring?

“Slurp...Slurp...”

Zhu Wuyang sucked the Immortal Blood Demon’s body at an extremely fast speed as if she was eating jelly, making it disappear at a speed visible to the naked eye.

At the same time, a large amount of magic power surged into Zhu Wuwan’s body like a tidal wave, increasing Zhu Wuwan’s strength at an extremely fast speed.

Zhu Wuwan was also absorbing the memories and innate abilities of the Immortal Blood Demon. Her overall strength had increased rapidly. She was doing her best to speed up and escape before Long Xiang returned.

Fortunately, with Long Xiang’s help, Zhu Wuwan’s speed of devouring the Indestructible Blood Demon was much faster.

Realizing that death was coming, the Indestructible Blood Demon struggled frantically. It did not hesitate to sacrifice its origin to cast spells and divine arts, but unfortunately, it did not succeed.

Zhu Wanhao was also pleasantly surprised to discover that the Indestructible Blood Demon had also grasped an innate divine power of infinite strength. Although it was only a middle-grade divine power, it was still a pleasant surprise.

Originally, Zhu Wanhao thought that the Immortal Blood Demon only had one great divine power that was undying and indestructible. Now that he had a middle-grade divine power with infinite strength, it could be said to be an additional gain.

After happily devouring the Innate Ability of Infinite Strength, Zhu Wuwan could clearly feel his strength increase. Once he used the Innate Ability of Infinite Strength, his strength could increase by dozens of times in a short period of time. This was an especially practical Innate Ability.

Magic, magic, divine power, memories ... Everything about the Indestructible Blood Demon was slowly devoured by Zhu Wuyan. Zhu Wuyan's strength, reaction, magic power, defense ... They were all flying forward.

His cultivation base soon broke through the boundary of the lower rank of level six and stepped into the ranks of the middle rank of level six. Then, he advanced rapidly toward the upper rank of level six.

However, the Wuwan Devouring Technique that Zhu Wuyang had improved on could lay a strong foundation for Zhu Wuyang's cultivation. In addition, the Two-headed Demonic Snake, Heavenly Star Beast, and Indestructible Blood Demon that he had devoured in succession were all demons and monsters with strong foundations and astonishing talents. This made Zhu Wuyang's talent and foundation far superior to those of the same level, so the energy required to absorb was extremely high.

Although the magic power in the Indestructible Blood Demon's body was huge, it had raised the magic power in Zhu Wuwan's body to the peak of the middle rank of level six, only half a step away from the upper rank of level six.

In addition to the gains in magic, divine arts, strength, defense, and other aspects, Zhu Wuwan's overall strength had increased by nearly a hundred times compared to before. She could basically wipe out grade-6 demons and ghosts.

Even if they encountered grade-7 demons and monsters, even if they could not defeat them, it would be very difficult for them to die.

At most, he would be beaten into a pulp like the Immortal Blood Demon. There would basically be no fatal disaster.

Of course, if he was really unlucky and encountered a great divine power that could restrain the Undying and Imperishable Great Divine Power, Zhu Wuwan would also be in danger. However, the probability of this was very low, and the possibility of encountering it was not high.

Zhu Wuwan smiled as he felt his overall strength increase by a lot. He turned into a stream of light and disappeared from the battlefield. He would get used to the increase in strength later. At the same time, he would improve the magic mastered by the Immortal Blood Demon and integrate it into the Dragon-Tiger Ceremony.

The yao arts, magic, and ghost arts in the Dragon-Tiger Ceremony...The subsequent strange techniques would be tailored by Zhu Wuyang according to his physical condition. They would be able to unleash Zhu Wuyang's strongest power. Although it was not a divine power, it was still the strongest wave under divine power. It could easily defeat cultivators and demons of the same level.

Innate divine powers consumed a lot of energy. Be it Zhu Wuwan or the demons and ghosts, they would not use them all the time in battle. Everyone used spells in other aspects the most.

Not long after Zhu Wuwan left, the dragon elephant flew over from afar with a grade-6 demonic beast in its mouth...

Chapter 1033: Where's My Blood Demon (1) Chapter 1033: Where's My Blood Demon (1) In order to avoid accidents, the dragon elephant did not even dare to eat its prey outside and then come back. Instead, it caught its prey as quickly as possible and rushed back to eat it.

However, Long Xiang did not expect that something unexpected would happen after he returned.

Looking at the empty valley, it had clearly shattered the Indestructible Blood Demon and thrown it into the valley. It had even used a special yao art to restrict its recovery, but why was it gone now?

Where's my Blood Devil?

Long Xiang was dumbfounded. He immediately used his mental power to search for the whereabouts of the Immortal Blood Demon. For the time being, he had not thought that the Immortal Blood Demon had been swallowed by someone. He thought that the Immortal Blood Demon had used some special method to escape.

However, after searching thousands of miles around, he couldn't find any trace of him. He had used the secret technique to track him to the extreme, but he couldn't find any trace of his location.

Where did my Indestructible Blood Demon go?

Long Xiang began to get anxious. It was not easy for him to meet such a powerful opponent. He could let him have a good fight and take revenge for being humiliated by the Immortal Blood Demon in the past.

All these years, it had been working hard and cultivating for three thousand years. Finally, it had stepped into the ranks of high-level demon beasts before the Immortal Blood Demon. It was to take revenge on the Immortal Blood Demon for what he had done to it in the past and let it know that the anus of the dragon elephant was not so easy to explode.

No, it should be that they had to receive the punishment they deserved after exploding. After all, they were all male demons and monsters.

Long Xiang had endured hardships and trained hard for three thousand years just to take revenge today. The few years he had spent beating up the Immortal Blood Demon were the happiest years of his life.

He thought that he could continue to beat the Blood Devil up, slowly obliterating its origin and making it disappear completely. This happy time should be able to last for dozens of years.

However, Long Xiang had never expected that the Immortal Blood Demon would disappear after only a few years. He hadn't even given the Immortal Blood Demon his most vicious blow.

Where is my sworn enemy, the Immortal Blood Demon?

The dragon and elephant roared like thunder, galloping in the sky, looking for the whereabouts of the Immortal Blood Demon. However, they couldn't find anything.

"Immortal Blood Demon, get out here!"

"Did you escape or were you rescued?"

"Whoever dares to interfere in our grudges, I'll tear them into pieces!"

..

Long Xiang finally realized that something was wrong. According to the restriction he had placed on the Immortal Blood Demon, it was unlikely that the Immortal Blood Demon could break free on its own, let alone in such a short time.

In addition, in such a short period of time, not only did he have to break free from its restriction, but he also had to remove the tracking mark on the body of the Immortal

Blood Demon. Unless it was a demon above level eight or a human cultivator, no one could do this.

However, if the other party was so powerful, there was no need to escape. He could just take it down or ask for the Indestructible Blood Demon from it. How could he dare not give it up?

However, there was no news from him now. Even if there were demons and ghosts who had saved the Immortal Blood Demon, their strength was limited. They should have only mastered special secret skills and divine arts to do this.

Long Xiang was a little furious. He vented his anger unscrupulously and bombarded everything within a radius of 5,000 kilometers. He also destroyed a few human towns in passing. As a result, the influence he brought allowed Zhu Wuyang to obtain hundreds of World Origins.

Therefore, Zhu Wuwan did not gain any benefits. He did not want to obtain so much World Origin either. However, for the sake of the great divine power of immortality, he could only offend Long Xiang and inexplicably bring him a lot of World Origin.

This dragon elephant was really too irritable. Through the special system's prompt, Zhu Wuwan had already deduced what the dragon elephant had done after he left.

Zhu Wanwan didn't expect that the dragon elephant would pay so much attention to the Immortal Blood Demon that it would destroy everything within a radius of ten thousand miles. Could it be that the dragon elephant had done something unforgivable to it, or had it killed its parents and relatives?

Fortunately, he had run fast. Otherwise, if he had been a little late, Zhu Wuyang would have turned into ashes along with that territory.

Fortunately, Zhu Wuyang ran even faster and left the dragon elephant's position far away. Perhaps when his strength increased in the future, Zhu Wuyang would come and talk to it.

Before he had enough strength, Zhu Wuyang would not foolishly come and provoke the Dragon Elephant.

After a long time of destruction, Long Xiang finally realized something. The Immortal Blood Demon had not been destroyed, had it?

Then, Long Xiang specially found demons and ghosts who were good at divination to help him find the Immortal Blood Demon, but the result was that there was a 90% chance that the Immortal Blood Demon was gone.

According to the traces left at the scene, it was very likely that a human cultivator could do this. He had swallowed the Immortal Blood Demon with the Devouring Technique, which was why it was so clean.

This was the most likely possibility, and it finally comforted Long Xiang a little.

After all, the enemy had not escaped, but was already finished. This was better than the other party enduring hardships and tasting courage, and then charging over to find trouble with it.

The reason why Long Xiang was so angry before was that he was worried that the Immortal Blood Demon would work hard to increase its strength after escaping and then find trouble with him.

Now that the Immortal Blood Demon had been destroyed, Long Xiang's anger had lessened a lot. Moreover, he could swallow a powerful demon like the Immortal Blood Demon with the Devouring Spell.

Although it was possible that it had greatly weakened the Immortal Blood Demon's strength, it was enough to prove that the other party's strength was extraordinary. He was at least a level six cultivator.

If a Level Six cultivator devoured the Indestructible Blood Demon and obtained the Indestructible Blood Demon's great divine power and other benefits, he should be able to reach the peak of Level Six. There was even a certain chance that he would break through to the ranks of Level Seven grandmasters.

Even Long Xiang had to pay attention to this kind of strength. In that case, he would give up on investigating this matter for the time being. Anyway, his ultimate goal was to kill the Immortal Blood Demon. Now that the other party had helped him achieve his goal ahead of time, it was a good thing.

However, to be on the safe side, it was better to hide for a few years. It would not be too late to make other plans after confirming this matter. If his calculation was wrong and the Indestructible Blood Demon came back, Long Xiang was not confident that he could take it down again.

After all, it would take Long Xiang many years to kill the Immortal Blood Demon when the two of them were one realm apart. When their strength was about the same, Long Xiang would probably run away.

Therefore, it was better to be cautious and escape was the best plan.

Chapter 1034: The Thoughts of the Biochemical Virus (1) Chapter 1034: The Thoughts of the Biochemical Virus (1) Zhu Wuyang escaped!

Long Xiang also escaped!

..

The man and beast kept their distance from each other and gradually disappeared into the distance. They didn't know when they would meet again, at least not for a short period of time.

After leaving the Dragon Elephant, Zhu Wuyang began his previous life. He killed demons and devils while devouring to improve. At the same time, he sensed the existence of laws through his innate divine power to prepare for his main body's future cultivation.

At the same time, Zhu Wuwan finally thought of a way to earn a large amount of World Origin in the Evil Thought World after thinking for a long time. It was a virus, or a special mixed poison, similar to a biochemical virus.

This kind of mixed poison was extremely contagious. Demons and ghosts often had amazing mobility. Once infected with such a mixed poison, it would easily spread and cause a huge impact. At that time, these influences would be the source of the world.

However, demons and ghosts often had astonishing strength. It was not easy to develop a mixed poison that could infect them. Moreover, it could spread. It required a lot of experiments and research.

There were still nearly a hundred years left, so it should be enough. However, to be on the safe side, Zhu Wuwan started her research now, and she had one more job to do on a daily basis.

In order to research such a mixed poison, the first thing to do was to understand the similarities between demons and ghosts, and then research a mixed poison based on the similarities. Only then would it be able to exert the greatest effect.

This required a lot of practical verification. Zhu Wuwan had a lot of work to do. At the same time, he also had to understand the various medicinal herbs and poisons in the Evil Thought World and use them to formulate the corresponding mixed poison.

The workload was huge. Fortunately, there weren't that many books and techniques in the Evil Will World that needed to be learned and memorized. However, understanding the rules through divine powers as a primer was also a big project. Zhu Wuyang's daily life became a little busy.

Fortunately, with the help of his main body, his work efficiency was still acceptable. Time passed day by day, and Zhu Wuyang's strength also increased day by day.

The research on the highly infectious mixed poison was also slowly progressing. Of course, the biggest gain was still the understanding of the rules.

The Vicious Thought World was a magical world. Even demons and ghosts with very low strength could use their Innate Mystic Abilities to activate the power of laws.

Be it in Dongyuan Continent or the Xuanhuang Great World that Zhu Wuwan had experienced not long ago, or in most worlds, rules were a kind of extremely high-level power. Only when one's strength reached a certain realm could one sense and activate it. As for mastering it, the realm and strength required were even higher.

At least according to Zhu Wuan's understanding, the Genuine Immortals, Earthly Immortals, and even higher Heaven Immortals of Dongyuan Continent should not be able to master the power of rules. At most, they could only draw on some power of rules.

Thinking back, Zhu Wanhao was already a Human Immortal in the Crossing Calamity Stage on the Dongyuan Continent. She had just transformed her cultivation techniques and secret arts to the level of divine arts. She was barely able to draw on traces of the power of rules, and the consumption was shocking. She could not use it many times.

The demons, ghosts, monsters, and human cultivators in the Evil Thought Great World were also very lucky. They were actually able to use the power of laws at such a low level. This was absolutely unbelievable to Zhu Wuwan.

Fortunately, Zhu Wuyan had transmigrated to this great world and could sense the power of many rules in advance. This was of great use to Zhu Wuyan's fusion and improvement of the divine powers he had mastered.

Zhu Wanwan used most of her main body's power to study the Innate Mystic Abilities. She used her avatar to perform the Innate Mystic Abilities and sense the power of laws in the Evil Will Great World.

Although the rules of the Evil Will World and the Dongyuan Continent might be different, there were always similarities, and it was inevitable that they could be used.

Through this kind of induction and stimulation, Zhu Wuyang could effectively improve the divine power that his main body had grasped, increase the level and power of the divine power, and at the same time, promote the increase in his strength realm.

Time slowly passed, and in the blink of an eye, several months had passed. Zhu Wuwan had already completely adapted to the sudden increase in strength. She had also devoured a large number of demons and ghosts, raising her cultivation realm to the peak of the sixth rank, only half a step away from the advanced grandmaster of the seventh rank.

However, this half-step distance was like a natural moat. It was not an easy thing to break through. Zhu Wuwan had tried a few times, but she could not break through.

After learning about the human cultivators in the Vile Thought Great World, Zhu Wuwan realized that when the human cultivators in the Vile Thought Great World tried to break through some major bottlenecks, they would often devour stronger demons and ghosts as their natal devouring objects. They would use the power of these demons and ghosts to break through the bottlenecks.

Therefore, after some consideration, Zhu Wuyan was prepared to do the same. After all, the Breakthrough Stone was too rare, and Zhu Wuyan did not want to spend too many Breakthrough Stones when the clone was breaking through.

The clone could only exist in the Evil Thought Great World for a hundred years. After a hundred years, Zhu Wuwan would have no choice but to give up. If he invested too much into it, he would be too stupid.

Since there were other good ways to break through the bottleneck and save a lot of breakthrough stones, why not choose another method? Zhu Wuyang was not a fool.

Therefore, if possible, Zhu Wuyang would try her best not to consume breakthrough stones in the next round. Even if she had to consume them, she would have to use them sparingly.

After all, he had very few breakthrough stones now. In order to improve his Devouring Technique, Zhu Wuwan had spent many years accumulating it. The remaining breakthrough stones were not enough for him to break through to the realm of a level-seven cultivation grandmaster.

This was the most important thing. Otherwise, if there were enough breakthrough stones, after considering the ratio of expenditure and harvest, Zhu Wuyang might choose to spend more breakthrough stones to increase his strength.

Once one stepped into the ranks of high-level cultivators, it would be much easier to earn Breakthrough Stones. Zhu Wuyang understood the principle that sharpening a knife would not delay the work of chopping firewood.

By the way, after these days of improvement and improvement, the Unharmful Devouring Technique had already reached the ranks of the Super Devouring Technique. Because it was tailor-made according to Zhu Wuwan's condition, the Unharmful Devouring Technique was even more powerful than the Super Devouring Technique to Zhu Wuwan.

Even if there was a Super Devouring Tactic in front of Zhu Wuwan now, Zhu Wuwan was not interested. Compared to these so-called Super Devouring Tactic, the

Unharmful Devouring Tactic was more beneficial to Zhu Wuwan's cultivation and improvement.

After confirming the method to break through, Zhu Wuyang began to search for a suitable life-bound devouring object. With the help of the information he had obtained over the past few months, Zhu Wuyang quickly locked onto a target, a target that made him both tempted and hesitant.

Chapter 1035: Unpredictable (1) Chapter 1035: Unpredictable (1) Everyone knew that the Divine Powers in the Evil Will World were endless. No one knew exactly how many there were, and no one dared to confirm how many Divine Powers there were in the Evil Will World.

There was no one who could master all the divine arts and possess almost omnipotent power.

However, there was an exception. Although it was impossible for cultivators and demons to master all divine arts, it could indirectly allow cultivators and demons to master 99% of the divine arts in the world.

Although the prerequisite was that one had to understand this divine power and have enough knowledge of it, it was still terrifying. It was one of the top-grade divine powers, and this divine power was one of them.

Myriad Forms were unfathomable!

The Ten Thousand Forms was just a metaphor to show that there were many divine powers that could be imitated. In fact, the Ten Thousand Forms could imitate more than ten thousand kinds.

The one who mastered this great divine power was an extremely rare Myriad Phase Insect. It belonged to a type of demon beast. It was unknown what color it was because the color on its body was constantly changing.

This Myriad Phase Insect was like a long mountain. It looked a little clumsy, but its speed was actually amazing, especially when it was underground. Even Zhu Wuyang could not catch up.

Just the great divine power of Myriad Forms Unfathomable was enough for Zhu Wuwan to devour the Myriad Forms Insect and make it his natal devouring object. This was because only natal devouring could inherit the divine power of demons and ghosts. Ordinary devouring could not inherit the innate divine power of demons and ghosts.

The reason why Zhu Wuan was a little hesitant was mainly because this Myriad Phase Insect's strength was a little weak. It was only at the peak of level six and did not even have the strength of the Indestructible Blood Demon.

It was very difficult for such a demonic beast to help Zhu Wuyang break through to the ranks of high-level cultivators. Its talent and aptitude could barely be considered outstanding. Only then did Zhu Wuyang hesitate.

But if he gave up now, once this Myriad Phase Insect hid deep underground, he didn't know when he would see it again. He might not even be able to see it again.

Therefore, after thinking for a long time, Zhu Wuwan decided to devour this Myriad Phase Insect and make it her natal demonic beast.

Although it was a pity, there was no perfect thing in this world. At most, he would choose a powerful demon the next time he devoured it, and it would help him break through to the rank of a level-seven grandmaster.

After considering it properly, Zhu Wuwan quietly approached the Myriad Phase Insect hiding in the cave and immediately activated the Unharmful Devouring Technique, devouring the mountain-sized Myriad Phase Insect into its body.

With Zhu Wuwan's current strength, it was not difficult for him to devour this Myriad Phase Insect. This Myriad Phase Insect did not even have the slightest strength to retaliate. It was completely suppressed by Zhu Wuwan and began to digest it properly.

As Zhu Wuwan devoured, he could clearly feel the growth of his strength, speed, defense, and demonic power. He even had a special sense of the earth and could effectively mobilize the power of the earth attribute to erupt with astonishing speed underground.

Although this ability was far inferior to the Earth Evasion of the Five Elements Great Evasion, it was not much different from the Myriad Phase Insect. In the future, his escape ability would increase by a lot.

Moreover, by devouring the Myriad Phase Insects, Zhu Wuwan's body flexibility had increased a lot. She could easily knead herself into a dough. This was also an unexpected gain.

However, other than this unexpected gain, there was no other unexpected gain. The Myriad Forms Insect had indeed only grasped a great divine power that was unpredictable. Other than that, it did not have any other innate divine power. It was not like the Immortal Blood Demon. When Zhu Wuwan thought that it only had one great divine power that was undying and indestructible, it actually secretly hid a divine power with infinite strength.

The energy in the Myriad Phase Insect's body was limited. As expected, it didn't help Zhu Wuyang break through the shackles of the natural moat and advance to the ranks of a level-seven grandmaster. He was still at the pinnacle of level-six and was still half a step away from becoming a level-seven grandmaster.

However, after feeling the power of the Myriad Phase Inscrutable, Zhu Wuwan nodded in satisfaction. Although it was a little regretful, with the great divine power of the Myriad Phase Inscrutable, it was worth it for Zhu Wuwan to devour the Myriad Phase Insect.

Not only Zhu Wuan, but Zhu Wuan believed that even some high-level cultivators above level seven would devour this Myriad Phase Insect if there was an empty spot. This kind of great divine power could only be encountered by luck, but not sought after. No cultivator would underestimate it.

After devouring the Myriad Forms Insect, Zhu Wuwan had mastered eight divine powers. They were Heavenly Transformation, Summoning Wind and Rain, Riding Clouds and Fog, Shifting Stars, Anti-Future, Infinite Strength, Undying, and Unfathomable Myriad Forms.

Among them, there were three great divine powers: Future Sight, Undying and Imperishable, and Myriad Forms Unfathomable, which accounted for more than one-third of the divine powers that Zhu Wuwan had mastered. Summoning Wind and Rain, Riding Clouds and Fog, and Shifting Stars were all high-grade divine powers with considerable power. Although the Heavenly Transformation and Infinite Strength were only middle-grade divine powers, they were all considered practical.

There were so many Divine Powers, and the quality was so shocking. It was rare even in the entire Evil Will Great World. Even compared to those high-level cultivators, the Divine Powers that Zhu Wuyang had mastered were not inferior.

Moreover, it should be known that those high-level cultivators usually devoured more than seven demons and ghosts. Zhu Wuwan had only devoured four demons and ghosts, but she had obtained so many divine powers. Among them was the Myriad Forms Inscrutable, which could imitate the divine powers of the world.

Speaking of which, Zhu Wanhao was only a level-four cultivator. However, with her astonishing cultivation foundation and the divine powers she had mastered, she could easily escape even if she encountered a level-seven or above cultivator.

If Zhu Wanwan had six Natal Devour Items, she would be able to easily kill high-level cultivators above Level Seven. Such progress and speed of improvement had completely surpassed the main body of Dongyuan Continent. It was not a waste for hundreds of millions of people to break through.

If not for the hundreds of millions of Breakthrough Stones that he had used to level up his Unharmful Devouring Technique, Zhu Wuwan would not have been able to obtain such an amazing harvest. It was indeed an eternal truth that sharpening one's knife would not delay one's work.

Feeling the various divine powers that he had mastered, Zhu Wuwan smiled slightly. He was prepared to try imitating other divine powers with Myriad Forms Unfathomable to see how powerful they were.

If the effect was good, it would definitely be of great help to Zhu Wuyang in future battles, especially to his main body. It could be said to be a huge help.

Zhu Wuwan could sense and activate a large number of divine powers that were useful to the main body through the myriad forms, thereby promoting the improvement and transformation of the main body's various divine powers, allowing Zhu Wuwan's main body to obtain greater benefits.

Compared to the clone, the main body was obviously the most important. The effect of Myriad Forms Unfathomable on the main body was far better than other great divine powers. This was what Zhu Wuwan valued the most.

At the thought of this, Zhu Wuwan no longer hesitated. She began to circulate the unfathomable great divine power and imitate other divine powers.

Chapter 1036: Fighting the Victors (1) Chapter 1036: Fighting the Victors (1) Heavenly Law Phenomenon!

The first thing that Zhu Wuyan imitated was the middle-grade divine power, Heavenly Law Phenomenon. As Myriad Forms circulated, Zhu Wuyan's body expanded at an astonishing speed.

At the same time, his strength, defense, and recovery rate also soared. Only his speed decreased. Soon, it increased to thousands of meters tall. The power of his every move was not inferior to the true Law Phenomenon.

Zhu Wanwan sensed carefully and was shocked to discover that in the process of disguising the myriad forms and unpredictable divine power, it actually activated some of the power of laws that could be activated by the Law Phenomenon. This was why it could be so lifelike. It could basically pass off as the real thing, and the similarity was close to 100%.

If not for this, Zhu Wuyang's Law Phenomenon wouldn't be so powerful.

After experiencing the Heavenly Law Phenomenon, Zhu Wuwan began to imitate the Great Strength. The similarity was close to 100%. As expected of a top-grade great divine power, its power was truly earth-shattering.

Then, there were the high-grade divine arts, Cloud Riding, Summoning Wind and Rain, and Shifting Stars. The similarity was also above 95%, and the power was also above 95% of the original.

Zhu Wanhao nodded in satisfaction. She began to use the great divine power she had mastered to predict the future and to be immortal. Very soon, she was able to predict the situation of a matter through Myriad Forms Unfathomable.

Then, Zhu Wanhao used the genuine Future Sight to predict this matter and found that the similarity between the two was close to 90%. It was the same for the Undying and Imperishable. He could obtain about 90% of its power.

To be able to imitate a Divine Ability of the same level to such an extent, it was indeed worthy of being an unfathomable Divine Ability. If it were to imitate those low-grade Divine Abilities, it would probably be 100% similar.

After imitating the divine power he had mastered, Zhu Wuwan began to imitate some divine powers he had obtained from other demons and ghosts through experiments. Zhu Wuwan's understanding of these divine powers was naturally far inferior to the divine powers he had mastered, so it was more difficult to imitate them.

The land soared!

Zhu Wuwan first imitated a small divine power. After using it, his speed was quite fast, but it was quite inferior to the original demonic beast. He could only reach 70% to 80% of its speed.

Clearly, this was because Zhu Wuwan did not have enough understanding of this divine power. Even if he used the unfathomable divine power to imitate it, the similarity was still not too high.

After that, he tried out some middle-grade and high-grade divine powers, but he also made quite a few mistakes. Clearly, the use of Myriad Forms Inscrutable was related to the level of understanding the cultivator had of that divine power.

As for the great divine power, he had already devoured and mastered all the great divine powers that Zhu Wuwan had encountered.

As a rare great divine power, there was basically no trash. If he encountered it, he naturally had to quickly take it down.

The effect of the Myriad Forms Unfathomable Great Divine Power was unexpectedly good. Zhu Wuwan was quite satisfied with it. After adapting to it for a period of time, she once again embarked on the path of cultivation. Her days became full and busy again.

Zhu Wuyang spent a lot of time inquiring about suitable Natal Devour Items. She even created a secret technique that could communicate with demons and ghosts, obtaining all kinds of information through them.

Hard work paid off. After spending several months, Zhu Wuyang finally found another suitable target to devour.

Monstrous Monstrous Monkeys!

This was a level-seven monster. Although it sounded like a demonic beast, it was still a monster.

The reason why it was called a monster was mainly because it did not mix with anything. It was said that it became a monster after a stone became a spirit. After swallowing some unknown strange objects, it became somewhat strange. Moreover, even a level-nine demon could not kill it.

One of the main characteristics of the Monsters was that they were difficult to kill. Coupled with their strange appearance and monstrous strength, the Monsters were truly Monsters.

This would be the first time Zhu Wuwan had chosen an Anomaly to be her life-bound devour. The main reason why she had taken a fancy to this Anomaly was not only because it was a high-grade level-seven demon, but also because of the innate divine ability it had mastered.

The War God and the Invisible!

These were the two innate divine powers that the Demonic Invisible Monkeys had mastered. Each of them was at least a high-grade divine power. As for whether there were supreme-grade divine powers, Zhu Wuwan was not sure.

The Monstrous Concealed Demon Monkey had done a good job of keeping it a secret. It had never revealed anything to the outside world. The surrounding demons and ghosts did not know if the two innate divine abilities it grasped were great divine abilities.

There were still people who had heard of formless and shapeless. This should be a high-grade divine power, but no one had ever heard of the Battle Supremacy.

Zhu Wuwan also asked all the demons and ghosts around the Monstrous Invisible Demon Monkey in a "friendly" manner. Only then was he able to confirm that the Monstrous Invisible Demon Monkey had also mastered an unknown divine power that could defeat the Supreme Champion. No demons or ghosts dared to confirm its exact level.

However, its level was definitely not bad. According to the understanding of the surrounding demons and ghosts, the Demonic Concealment Monkey had once used this divine power to defeat a level-eight demonic creature. To be able to do this, it was at least a high-grade divine power.

In addition, the invisible high-grade divine power was quite suitable for Zhu Wuwan. Therefore, after some consideration, Zhu Wuwan decided to choose the Demonic Concealment Monkey as his fifth life-bound devouring object.

Although the Invisible and Shapeless Divine Ability and the Fighting Supremacy's innate divine ability were not bad, it was still not certain if it was a great divine ability, so there was still a considerable risk.

If there was enough time, Zhu Wuyang would rather spend more time to find a better target to devour. Unfortunately, he could only stay in this macro world for a hundred years. Now, a few years had passed.

For the sake of the following plan, and in addition, this was not the main body after all, so there was no need to pursue perfection. Therefore, Zhu Wuyang decided to take a little risk and use this Demonic Concealment Monkey as his natal devouring object. He would use this opportunity to charge into the ranks of Level Seven grandmasters and become a high-level cultivator.

Even if he couldn't obtain the Great Divine Power, it didn't matter. Two superior-grade Divine Powers were already quite good for a temporary clone. In the vast Evil Thoughts Great World, there were probably not many people who could have such a luxurious lineup of Natal Devourers like Zhu Wuyang.

Even those second-generation Cultivators who had a lot of useful resources and could casually pick and choose what they wanted to devour were basically no match for Zhu Wuyang.

After all, Zhu Wuyang could choose between demons and ghosts, while those second-generation Cultivators could only choose from one. This undoubtedly greatly limited their search for better natal devouring objects.

Furthermore, the innate divine abilities that demons and ghosts were good at were also different. For example, the mid-grade divine ability of the Heavenly Transformation was not high, but basically only demon beasts could possess it. Other demons, ghost spirits, and monsters basically could not possess it.

Chapter 1037: Break for Old Sun (1) Chapter 1037: Break for Old Sun (1) "Devour!"

He didn't do too many fancy things because the Monstrous Monkeys of Concealment were masters of concealment.

Zhu Wuyang swaggered to the vicinity of the Monstrous Concealment Demon Monkey. After reaching a certain distance, he directly activated the Unharmful Devouring Technique on the Monstrous Concealment Demon Monkey.

The Demonic Concealment Monkeys had long discovered Zhu Wuyang. However, when they sensed that Zhu Wuyang only had level-six strength and aura, they did not take him to heart.

There were many weak demons and ghosts like Zhu Wuyang around. The difference was that Zhu Wuyang was a human cultivator, but it was already full and did not want to eat Zhu Wuyang for the time being.

Moreover, compared to those rare and exotic fruits, human cultivators like Zhu Wuwan were not that tasty.

It merely treated Zhu Wuwan as a life form that was curious about it, like a demon that would occasionally approach it. It continued to lie lazily on a fruit tree and watch Zhu Wuwan's performance.

However, the Monstrous Demon Concealment Monkey had never expected that when it was a certain distance away from it, this human cultivator, who it thought was very weak, would actually start devouring it.

He was really tired of living!

A human-like mocking expression flashed across the Demonic Invisible Monkey's face. It took out the big stick that was hidden in its crotch and flew several feet in the wind, smashing towards the golden Devouring Qi around it.

"Heaven Facing Strike!"

How powerful could the devouring aura of a mere sixth-grade human cultivator be? Its cudgel was going to turn him into ashes, and at the same time, blast the owner of the devouring aura into pieces.

"Bang..."

The black stick landed hard on the golden Devouring Qi, making an ear-piercing sound of metal clashing. However, the golden Devouring Qi only thinned out a little and didn't shatter as it had imagined. It also turned Zhu Wuyang into pieces.

What was that?

The Demonic Invisible Monkey looked at the surging golden Devouring Qi in disbelief. It never thought that the golden Devouring Qi's defense would be so strong. Moreover, it was devouring its scattered essence, qi, and spirit at an extremely fast speed. It even wanted to forcefully devour its essence.

If it wasn't for the Monstrous Demon Invisible Monkey's astonishing control over its body and strength, it would have lost a large portion of its essence, qi, and spirit.

Even so, there were still some scattered essence, qi, and spirit that were devoured by the other party. At this rate, it would soon be able to devour its essence, qi, and spirit on a large scale.

How could the Devouring Qi of a mere Level Six cultivator be so strong? This was illogical!

A ruthless expression appeared on the Demonic Concealed Monstrous Monkey Thunder God's face. He waved his black metal staff again. This time, he was serious.

"One Pillar Towering the Heavens!"

The black cudgel was wrapped in a terrifying force as it ruthlessly smashed into the Devouring Qi above his head, exploding with a thunderous sound that shook the world.

A large amount of Devouring Qi was blasted away, and several layers were cut off. However, it was far superior to the ordinary Super Devouring Tactic. The Devouring Qi cultivated formed a hundred layers of defense.

The Demonic Concealment Monstrous Monkey had only lost a few layers. It was a small matter and would recover very quickly.

After many years of cultivation and accumulation, he had finally made a breakthrough. Even the Demonic Concealment Monkeys at the pinnacle of level seven could not do anything to him. One had to know that the difference in strength between the two was at least ten times.

"Go straight for the dragon!"

The Demonic Concealed Monstrous Monkey was furious. The black metal cudgel was like a crazy demon as it ruthlessly smashed out. Coupled with the innate divine ability of the Fighting Star Venerable, it emitted a sound that was like the wails of ghosts and the howls of wolves.

"Chi..."

When the black iron rod and the golden Devouring Qi collided, the sound was no longer the sound of metal clashing. Instead, it was similar to the sound of hot oil being poured into a pot.

It was the sound of the black cudgel spinning at a high speed to a certain extent, piercing through the layers of defense formed by the golden Devouring Qi.

"Puchi..."

"Puchi..."

“Puchi...”

..

The defensive layer formed by the golden Devouring Qi was broken layer by layer. Soon, ten layers were broken, and there were no signs of weakening. Eleven layers ... Level 12...Level 13...Level 15...20th floor...

Twenty-sixth level...It was only when they reached the 30th step that they slowly slowed down.

The Demonic Concealed Monkey's Thunder God's face was filled with bewilderment. Was he really just a Level 6 human cultivator? How could he cultivate such a powerful and terrifying devouring aura? Was it really that exaggerated?

It had once been devoured by a level-seven grandmaster cultivator, but the Devouring Qi that the other party possessed should not be as strong or pure as this level-six human cultivator.

Not only could it not catch up, but the difference between the two was at least two times, or even more, because the Demonic Concealment Monkey had yet to see how many layers of golden Devouring Qi enveloped it.

Looking at the Devouring Qi that was still emitting endless golden light, the hands of the Demonic Concealment Monkey that were holding the iron staff felt a little weak. It did not expect that this feeling of not being able to see through the enemy's strength would actually happen to a Level Six human cultivator. It was a little too unbelievable.

However, I will not give up.

“Heavenly Transformation!”

Zhu Wuwan knew that the Monstrous Concealment Monkey had also grasped the divine power of the Law of Heaven and Earth. However, because he had already grasped it long ago, he did not count it in the statistics. He only counted the two divine powers of the Fighting Supreme and the Invisible.

The Demonic Concealment Monkeys roared as they grew to tens of thousands of meters in size. The metal cudgel in their hands also grew to tens of thousands of meters in size. Then, they raised it up fiercely and bombarded the surrounding golden devouring light layer.

” Black Water Sky! ”

The enormous cudgel was struck out billions of times in an instant, forming a black water that covered the sky and the sun. It kept falling on a certain spot in the golden Devouring Qi.

“Bang bang bang bang bang bang...”

Along with the ear-piercing sound of metal clashing, the golden light layer here collapsed at an unimaginable speed. In a short period of time, 30 layers were broken, and then it continued to break rapidly.

Level 30...Level 32...Level 34...Level 36...40th level...

Fifty levels...The 60th floor...Sixty-sixth level...Seventy-two levels...Level 75...

All the way to the 80th level!

At this moment, the speed at which the metal cudgel broke through the golden light barrier was already very, very slow. However, the golden light behind it still flickered, making the Demonic Invisibility Monkeys want to vomit.

Just how many layers of the golden Devouring Qi were there? It was not just several times more than that of an ordinary level-7 grandmaster, but several times, or even dozens of times. Did it have to be so exaggerated?

Was he sure that the guy he met was really a level six cultivator and not a level seven grandmaster or even an eighth level wargod?

Chapter 1038: Grandmaster Cultivation (1) Chapter 1038: Grandmaster Cultivation (1)
The Demonic Concealment Monkeys were starting to doubt whether they were born. If it had not been for the fact that they had sensed many times and confirmed that Zhu Wuyang was only a level-six cultivator, they would have suspected whether it was a level-six demon or a level-seven grandmaster cultivator.

However, after confirming it again and again, it realized that it was not wrong. At this moment, it was indeed a rank 6 human cultivator who had devoured it. It was not a rank 7 grandmaster, nor was it an eighth rank wargod.

Because it was currently in Zhu Wuwan's stomach, it could sense Zhu Wuwan's strength extremely clearly. This could not be hidden at all.

Moreover, at this critical moment of life and death, Zhu Wuwan could not spend any more effort to hide her strength. Therefore, Zhu Wuwan was indeed only a level-six human cultivator. Her cultivation realm was an entire realm lower than it.

Most importantly, this major realm was the natural barrier between intermediate and advanced cultivators. The difference between the two was comparable to the difference between the other two realms under normal circumstances.

However, even under such circumstances, it was actually unable to break through the devouring aura formed by Zhu Wuyang. Wasn't this a little too much?

I'm still not convinced!

"Boom boom boom..."

"Bang bang bang..."

"Dong dong dong..."

..

The Demonic Concealment Monkeys unleashed their full power, frantically casting all kinds of rod techniques, bombarding a certain golden layer of light and doing their best to overturn the seas within Zhu Wuwan's body.

The golden light layer shattered layer by layer. At its most serious, it had shattered to the ninety-sixth layer. Once it was shattered, not only would the Demonic Invisible Monkeys be able to escape, but they would also be able to severely injure Zhu Wuyang or even kill him.

Fortunately, the Demonic Invisibility Monkey's attack power and endurance were only so much. In the end, it was still four levels away from breaking through. Of course, if the Demonic Invisibility Monkey knew that it was only four levels away, it might still be able to unleash its potential and break through. However, it did not know.

In its eyes, the golden light around it was still layered. It did not know how deep it was, and it could not see the end. It made it despair bit by bit.

Therefore, the Monstrous Monkeys didn't unleash their potential. Instead, they became more and more desperate. They slowly lost the power to resist, and their attacks gradually became powerless.

Zhu Wuwan also took this opportunity to increase the devouring of its essence, qi, and spirit. A large amount of the Demonic Concealment Monkey's essence was injected into Zhu Wuwan's body at a speed visible to the naked eye, causing Zhu Wuwan's overall strength to begin to soar.

Strength, Defense, Reflexes, Monstrous Strength...They were all soaring, waiting for the moment to break through a bottleneck.

Zhu Wuan's expression was as calm as water as he waited for that moment to arrive. Before that, he had to accumulate as much strength as possible so that he could succeed in breaking through the bottleneck.

Moreover, at this moment, there was still the Demonic Invisible Monkey wreaking havoc in his body. Although the Demonic Invisible Monkey's attacks had become much weaker, it could not be underestimated. Although it was known that it would not erupt with its potential at the moment of life and death, no one could say for sure.

Therefore, for the sake of safety, it was better to be prepared.

Not only did Zhu Wuan not relax, but he became even more cautious. The devouring of the Demonic Invisible Monkeys was also progressing steadily, making its resistance weaker and weaker.

At a certain moment, when Zhu Wuwan felt that the water in the dam had reached its limit, causing his body to swell up, a light flashed in his eyes, and he finally launched the first wave of attacks.

"Boom..."

The bottleneck dam trembled slightly, but it did not break. There were no cracks on it. This bottleneck dam was much stronger than he had imagined.

Fortunately, with the replenishment from the Demonic Invisible Monkeys, Zhu Wuwan quickly launched the second wave, the third wave, and the fourth wave...offensive.

"Boom boom boom boom boom boom boom boom..."

In order to avoid being discovered by the Demonic Invisible Monkeys, Zhu Wuwan even used the power he devoured from them to construct a simple soundproof array formation. This was to prevent the Demonic Invisible Monkeys from finding out that he was trying to break through the bottleneck and then taking the opportunity to cause trouble.

The bottleneck dam was enduring wave after wave of impact, and the light layer formed by the golden Devouring Qi was also enduring wave after wave of impact, causing Zhu Wuyang's body to constantly rumble.

However, as the impact intensified, the bottleneck dam began to shake, and cracks appeared on it. Clearly, Zhu Wuyang's impact had worked.

The Demonic Concealment Monkeys in the depths of his dantian knew nothing about this. They continued to attack the golden layer of light mechanically. They were even more powerless than before, as if they had already given up on resisting.

“Kacha kacha kacha...”

At this moment, a large number of cracks appeared on the bottleneck dam and began to loosen violently.

A look of joy flashed across Zhu Wuwan’s face. She mobilized as much power as she could to bombard the bottleneck dam.

“Bang bang bang bang bang bang...”

“Rumble...”

At a certain moment, the bottleneck dam shattered under Zhu Wuyan’s full-powered attack. His essence, qi, and spirit advanced to a whole new realm crazily. At the same time, the Devouring Qi also increased at a terrifying speed. In the blink of an eye, its quantity and quality increased by more than three times.

The Monstrous Demon Concealment Monkey, which was already struggling to resist, felt its body tremble. The essence, qi, and spirit in its body began to leak out at a speed that was several times faster than before, instantly shrinking it by a fraction.

What happened?

The Demonic Concealment Monkeys were stunned. They had wanted to numb their opponents and slowly accumulate enough strength before unleashing all their potential to break through the surrounding golden light layer.

However, it had never expected that Zhu Wuyang’s Devouring Qi could actually increase by so much at this time. Could it be that he had been joking with it before and had not exerted his strength seriously? Now that he felt that he had delayed it for too long, he began to exert his strength seriously?

When the Demonic Invisible Monkeys thought of this, they couldn’t help but suck in a breath of cold air. They couldn’t think about it anymore and fiercely erupted with all the power they had accumulated.

“Heaven Reverse Black River!”

The iron cudgel was struck out countless times in an instant, forming a terrifying black river that far surpassed the black water from before.

At the same time, the Monster Concealment Monkey also used a forbidden secret technique that would cause both sides to suffer. Together with the full power of the Fighting Supremacy, it landed heavily on a certain part of the golden light layer. This was also where Zhu Wuyang had unintentionally revealed a flaw, so it would be easier to attack.

“Bang bang bang bang bang bang...”

The layers of Devouring Qi were broken one after another. In an instant, 50 layers were broken through. Then, the speed did not decrease at all.

Fifty levels...The 60th floor...The seventieth level...Level 80...Ninety levels...

All the way to the hundredth level!

The Monstrous Demonic Invisibility Monkey, which had exerted all its strength and life force, unleashed an unprecedented attack power. Very quickly, it broke through the 100 layers of golden light, surpassing its previous limit.

This was even after the Demonic Invisible Monkeys had devoured half of their essence, qi, and spirit. If not for this, the power that the Demonic Invisible Monkeys could unleash would be even more ferocious and terrifying. Even so, it was already very terrifying.

Chapter 1039: God, Saint, Ancestor Chapter 1039: God, Saint, Ancestor “Dong...”

The Monstrous Demonic Concealment Monkey’s attack finally landed on the 124th layer of golden light formed by the Devouring Qi and stopped abruptly. There were still more than 170 layers of golden light waiting for it to break through.

After Zhu Wanhao advanced to the rank of a high-level seventh rank cultivator, his Devouring Qi had increased tremendously, forming even more golden layers of light.

If the Monstrous Concealment Monkey had unleashed its power earlier, it might have been able to escape. However, it did not expect Zhu Wuwan to break through to a new realm at this time, reaching the same realm as it. Therefore, the Monstrous Concealment Monkey’s long-hidden killing move was useless.

Looking at the seemingly endless layer of golden light behind him, the Monstrous Demon Concealment Monkey widened its eyes in disbelief. Was this the devouring aura of a level six cultivator? How could it be so terrifying?

Even among all the rank 7 grandmasters it had seen in its life, this kind of powerful devouring energy was second to none. Perhaps only a very small number of eighth grade wargods could have such a shocking devouring energy.

However, the person it encountered was clearly a level six cultivator. Could it be that it was really mistaken? In fact, the person it encountered was a level eight wargod.

However, this fellow was good at concealment, so it was unable to detect its true strength until now. This must be the case. Otherwise, there was no way to explain the situation it was facing.

However, is there a need for a level eight wargod to play with it like this? If I knew that he was so powerful, the Monstrous Demon Monkey wouldn't have struggled for so long.

Having hope turned into despair was obviously much more painful than having despair all the time. This human cultivator who had swallowed it was really not a son.

The Demonic Invisible Monkey was in complete despair. Even the strongest attack that she had prepared for a long time was useless. She also realized that she might have been played by the other party. What else did the Demonic Invisible Monkey have to say? Naturally, it could only stretch its neck and wait to be slaughtered.

However, even if it died, it had to struggle one last time.

"Primordial Chaos Explosion!"

He used a forbidden secret technique that he had learned many years ago. The Demonic Concealment Monkeys were prepared to use their essence, qi, and spirit as energy to explode violently. Even if they couldn't hurt the enemy at all, they would reduce the essence, qi, and spirit in their bodies so that the enemy wouldn't gain much benefit.

"Devour!"

However, before the Primordial Chaos Explosion could be used, the Demonic Concealment Monkey heard an indifferent voice in its ear. Following this voice, its essence, qi, and spirit were drained at an unimaginable speed. It could not even use the Primordial Chaos Explosion.

In just a few short breaths, the Monstrous Demonic Concealment Monkey watched as it was devoured completely, leaving behind only a few glowing orbs of its innate ability.

With the help of this wave of Demonic Monkeys, Zhu Wuyan's strength had completely stabilized at the rank of a Level Seven grandmaster. Moreover, he had reached the middle rank of Level Seven in one go. His foundation was incomparably strong and stable. Even in the entire world, he was one of the best.

However, this had not yet reached Zhu Wuyan's limit. If he was willing, he could spend a few more years or decades to improve and improve his cultivation technique. This way, the foundation he had tempered would be at least several times stronger.

However, it would take too much time and energy to do so. This was only Zhu Wuyang's clone, and such a cultivation foundation was enough.

With Zhu Wuyang's current cultivation foundation, as well as the various innate divine abilities and martial arts secret arts that she had mastered, Zhu Wuyang could even fight against a level eight wargod and level eight demons and ghosts.

Cultivators who had reached the eighth rank and above were generally known as War Gods. As for demons and ghosts, they were naturally known as Demon Gods, Demon Gods, Ghost Gods, and Strange Gods.

If it was one level higher, it would be the Dou Sheng class. The demons and ghosts would be the Demon Saint, Demon Saint, Ghost Saint, and Strange Saint.

As for the cultivators and demons and ghosts above them, they were called ancestors. The so-called Martial Ancestor, Demon Ancestor, Devil Ancestor, Ghost Ancestor, and Strange Ancestor referred to this realm.

However, Zhu Wanhao had stayed here for so long, but he had never heard of any Ancestral Level cultivators, demons, and ghosts. This was only a realm in legends.

It was said that cultivators, demons, and ghosts who had reached the Ancestral Level could grasp the power of laws and not only be able to draw on the power of laws. It was a completely different realm from before.

After mastering the power of laws, these Ancestral level cultivators would naturally be able to master all the divine powers that involved such laws, and they would all be able to transcend the great divine powers.

One had to know that whether it was a small divine power or a great divine power, they could at most draw on the power of laws. Borrowing a certain amount of the power of laws, they were actually unable to control the power of laws at all, so the power they could unleash was limited.

However, Ancestral level cultivators controlled the power of laws. In that case, the power they could unleash would far surpass the power of laws. The two could not be mentioned in the same breath.

For example, if a bonfire was placed there, the cultivators who had mastered the minor and major divine arts would be able to stir the flames by blowing air, allowing the flames to burn the nearby enemies and play a certain role.

However, the Ancestral level cultivators took a torch from the bonfire and burned it at the enemy. The difference in power was huge.

Moreover, once one could surpass the Saint-level and completely control the power of rules, one could leap to the realm above the Celestial Immortal. Such strength would be extraordinary even in the Dongyuan Continent, let alone in the Evil Thoughts World.

If Saint level cultivators who had mastered powerful innate divine abilities could barely contend with True Immortals and Earth Immortals, or even Heaven Immortals, then Ancestor level cultivators who were above Saint level could crush Heaven Immortals in all aspects.

There was an insurmountable chasm between the Saint level and the Ancestral level. If one wanted to cross it, the difficulty would be terrifyingly high. It was an unprecedented qualitative change.

Even in the cultivation world of Dongyuan Continent, it might be the same. However, there were still many differences in the cultivation systems of the two sides.

However, this realm was still too far away from Zhu Wuwan. With the time he had stayed here, it was basically impossible for him to become an Ancestral Level cultivator. Therefore, he had to obediently improve his strength while researching the corresponding mixed poison to give the Evil Thought Great World a huge surprise.

In such a hopeless and dark world, they really deserved to die, especially for the human race. Instead of letting everyone live a life worse than death, it was better to let them ascend to paradise as soon as possible.

This way, the sooner they died, the happier they would be. They would not have to worry about demons and ghosts every day. At the same time, they would also help them clean up the demons and ghosts.

When there were no more humans, there would be no more evil thoughts. Perhaps the demons and ghosts would be completely finished.

Chapter 1040: United Caucasians (1) Chapter 1040: United Caucasians (1) Zhu Wuwan had always harbored the greatest evil thoughts towards this world of evil thoughts.

There was no other reason. The humans here were not much different from the demons and ghosts. Most of them had the appearance of humans and the heart of beasts. They were already in a desperate situation, but they still fought endlessly. They treated their own people much more ruthlessly than the demons and ghosts.

If not for this, this great world would not be filled with evil thoughts. There was almost no pure land, which was really unbelievable.

At the very least, Zhu Wuyang had been to many places over the years and had encountered many human settlements, but none of them were united and friendly. Even if there were demons and ghosts wreaking havoc around them, the humans in the settlements were still busy killing each other.

They would rather place their hopes of survival on the demons and ghosts than on the human race itself. Poor people must have hateful things. This was the human race here.

Of course, there were more humans who chose to become livestock for the demons and ghosts. They were raised in captivity by the demons and ghosts, providing them with a certain amount of food every once in a while, and the food was the humans themselves.

It didn't matter as long as he wasn't the one being used as a sacrifice or food.

This was the thought of most humans in the Vicious Thoughts World. In order to eliminate dissidents, they even thought of ways to let demons and ghosts obtain more sacrifices.

After seeing so many of them, Zhu Wuwan was completely disappointed with the humans here. However, accidents would always happen.

After successfully devouring the Monstrous Demon Invisible Monkey, Zhu Wuwan naturally obtained the innate divine ability that the Monstrous Demon Invisible Monkey grasped.

Shadowless and formless!

As the name implied, the so-called formless was a superior-grade concealment divine power. Once it was fully activated, it was as if he had disappeared into thin air. Even those cultivators who were one or two realms higher than Zhu Wuyang might not be able to discover him.

In other words, with Zhu Wanhao's formlessness, he could basically hide from the detection of Saint level cultivators and demons. One could imagine how powerful it was. It was indeed a high-grade divine power.

There was no need to mention the Heavenly Transformation. Zhu Wuwan had already mastered it long ago. At this moment, after devouring, he only increased his proficiency by a little, but he did not gain much benefit from it.

Fighting Victors!

The only thing that surprised Zhu Wuyang was the Fighting Supremacy. It was indeed a top-grade divine power, which was also a great divine power. It could effectively draw out a considerable amount of combat power. It was the pinnacle of combat experience and combat techniques. With just a slight grasp, Zhu Wuyang had become a grandmaster in combat.

When Zhu Wuyang cultivated this divine power to the extreme, he would probably be able to become an existence like a battle emperor. Such an innate divine power would be a great inspiration to his main body, let alone his avatar.

The so-called Battle Supremacy was the strongest in the battle aspect. He could effectively unleash every move, every bit of strength, and every bit of terrain...From there, he could unleash the most suitable attack and defeat the enemy better.

Being invisible and formless was enough for Zhu Wuwan to attack the Demonic Concealment Monkeys. Moreover, he had also obtained the top-grade divine power of the Battle Supremacy. Zhu Wuwan's harvest this time could not be said to be not rich.

Feeling the sudden increase in strength and powerful innate divine power, Zhu Wuwan nodded in satisfaction. Very soon, she once again embarked on the path of research, learning, and cultivation to prepare for her future plans.

After getting used to the sudden increase in strength, Zhu Wuyan's overall combat strength had reached the level of an eighth level wargod. He was not afraid of a ninth level saint level cultivator.

Zhu Wuwan's Natal Devour had also reached six types. Although she was still one more away from becoming a high-level cultivator, it was only a matter of time for Zhu Wuwan.

After this improvement, the extent of the improvement of the Devouring Qi was very shocking, far surpassing the previous one. The two were simply incomparable.

At this moment, let alone a level-eight divine-tier demon, Zhu Wuwan was confident that she could even devour a level-nine saint-tier demon.

However, the prerequisite was that the other party's innate divine power was something that Zhu Wuwan would like. If he didn't like it, he wouldn't rashly devour it.

Compared to a Saint-tier demon that didn't have any powerful divine powers, Zhu Wuwan still wanted to devour a divine-tier demon that had powerful innate divine powers. Only then would it bring him greater benefits.

Zhu Wuyang didn't come here to improve his clone. The clone's time was limited, and the main body was the most important.

On this day, they arrived near a city hidden deep in the mountains. What greeted their eyes was the scene of all the residents fighting against demons and ghosts. On the other hand, if Zhu Wuyang was shocked, he did not expect to finally meet some humans with backbone after walking for so many years.

However, these humans all had blonde hair and blue eyes. They were not like Zhu Wuwan, who had black hair and black eyes. This was a little disappointing.

Thinking about the Westerners on Earth, they often had internal conflicts and it was basically difficult for them to unite. He did not expect to meet such a united Caucasian here. It was a pleasant surprise.

Zhu Wuan shook his head. He was just about to sneak into this city and get something he liked. However, he did not expect that at this moment, a group of Caucasians would

drive out a large number of Asians from somewhere. It was people with black hair and yellow skin like Zhu Wuan.

These 100 people shouted as they chased the yellow men towards the city wall. They had them grab the ropes and jump down the city wall to destroy the catapults that the demons and ghosts had just pushed out.

What the hell was going on?

“You damned b * stards, go down and destroy those catapults immediately. Otherwise, we will kill all your relatives and friends. Not a single one will be left behind.”

“These damned bastards should be used as cannon fodder. Other than that, they have no other use. It’s a pity that the number of yellow-skinned people captured in the past few years is too small. Otherwise, our chances of winning this war would be higher.”

” Listen up, you yellow-skinned bastards. If we can destroy those catapults, we’ll give your loved ones a chance. We’ll give them a chance to stop being cannon fodder. In the future, they’ll only need to be our venting tools. This is much better than dying. ”

“I’ll leave those catapults to you. You yellow people can go down now. Whoever can destroy those catapults will have their relatives pardoned. Otherwise, you should know better than us what kind of outcome awaits them.”

” After this battle, we must let these yellow-skinned people give birth to more children. Otherwise, the next time such a big battle occurs, we won’t even be able to gather enough cannon fodder. This time, it’s all those idiots ‘fault for killing so many yellow-skinned people. ”

..

[Read I'm Leveling Up Too Quickly Chapter 1041 - 1041](#)

[Destruction of the Sacred Flame \(1\)](#)

Chapter 1041: Destruction of the Sacred Flame (1) Chapter 1041: Destruction of the Sacred Flame (1) “What a united Caucasian!”

Hearing the cruel words of these white people, Zhu Wuwan could not help but laugh in anger. She had just thought that it was not easy to meet some united humans. Although it was the white people who felt a little regretful, Zhu Wuwan had never expected that these white people were actually such trash. It was really an eye-opener.

Although the white race didn’t kill each other, they discriminated against the yellow race too much. They were worse than animals.

They were all humans, but why were they so vicious!

Since that was the case, then don't blame Zhu Wanhao, who was also of the yellow race, for being ruthless and sending such a city to the west.

It was better for the Sacred Fire City to be reduced to ashes as soon as possible.

Zhu Wuan smiled coldly. He sensed the situation in the Sacred Fire City and realized that there were only a few level-seven grandmasters here. The rest were all low-level and middle-level cultivators below level-seven.

However, among the demons and monsters that were attacking from the outside, the number of high-grade demons and monsters above grade-7 was several times that of the outside. However, Sacred Fire City had relied on the array formation to stop the high-grade demons and monsters, which was why they were able to hold on.

As long as they could destroy the array formation here and allow those high-level demons and ghosts to enter, Sacred Fire City would not be far from its end.

With Zhu Wanhao's current attainments in array formations, it was a piece of cake for her to destroy the defensive array formations of Sacred Fire City.

After observing for a few hours, Zhu Wuyang found a flaw. He quietly approached it and suddenly unleashed Summoning Wind and Rain.

"Boom..."

The wind was as strong as the mountains and the seas!

"Dong..."

Rain fell like a giant hammer!

In an instant, a huge hole was torn open in the defensive array formation of the Sacred Fire City. At the same time, the Nine Nether Divine Wind and the Hell Rain that covered the sky swept across the entire Sacred Fire City, blowing and corroding large numbers of white people. They also just happened to untie the shackles of many yellow people.

Facing this sudden situation, countless white people were stunned speechless, not knowing what was going on. However, many yellow people were crying tears of joy, cheering and fleeing in all directions.

"Hurry up and run. The heavens have opened their eyes and destroyed the white demon city, giving us a chance to escape. If we don't run now, when will we? Everyone, run from the back."

" The demons and ghosts are basically concentrated in front. We have a high chance of escaping from the back. Moreover, our brothers and sisters have already dug a tunnel when they were forced to mine over the years. "

"Stop talking. Running away is more important now. As long as we can successfully escape from the Demon City, I'm willing to be eaten by demons and ghosts. Hurry up and run with me."

"Hahaha, we can finally escape from this damn Demon City. Thank you for saving us, Lord. We kowtow to you."

..

Sacred Fire City quickly fell into chaos. The demons and monsters outside immediately took the opportunity to charge into Sacred Fire City and began to kill the Caucasians on the city walls. The city walls were also destroyed, revealing the weak Caucasians inside.

In addition, the yellow race took this opportunity to run around and disrupt the white race's deployment, making it even more difficult for the white race to organize an effective resistance.

Furthermore, some of the tormented Asians were unwilling to even run away. They slaughtered the Caucasians in the city without any restraint. Before they died, they wanted to take revenge ruthlessly, causing the entire Sacred Fire City to fall into a bloody mess.

In the past, the white people had bullied the yellow race, but now, the backlash they suffered was terrifying. Under the combination of internal and external factors, the white people who were united were like winter snow meeting the warm sun. They quickly melted into a pool of corpses on the ground. They were as miserable as they could be.

" Kill those Chinese bastards. They must be the ones who broke the array formation of the Sacred Fire City. Since they want us dead, we'll turn them into ashes too. No one can escape. "

" That's right. These damned slaves actually dared to offend their superiors. Even if our Sacred Fire City is about to be destroyed, we definitely cannot let them off. We must make them pay a sufficient price. "

" Let's all die together. Damn you yellow bastards, don't even think about escaping. Let's all die together with the Sacred Fire City. Hahahahaha, die, die, die. "

" If it weren't for these damned yellow people, we would definitely have been able to survive this crisis. The city wouldn't have been destroyed and people would have died.

The yellow people have caused us so much trouble. We should have slaughtered all the yellow people. ”

” I’ve already told you that we should eliminate all the Chinese and not leave any behind. We should not lock them up in the Holy Fire City and give them the opportunity to destroy our city. Now, those Chinese took advantage of this opportunity to destroy the city. It’s all your fault, you idiots. ”

” Those who are not of our race will have different intentions. The Chinese are not of the same race as us. We cannot trust them. We should not have let them be our soldiers from the beginning. They are not even qualified to be cannon fodder. ”

..

Even at the last moment of their lives, these Caucasians still wanted to fight among themselves instead of uniting. They did not even realize their mistakes.

Moreover, compared to internal strife, escaping was clearly the most important thing. These white people still wanted to find trouble with the yellow race first. They really deserved to die.

Since that was the case, Zhu Wuyang would not give them a chance. She used her Summon Wind and Summon Rain divine art again, accurately targeting the white people and bombarding them one by one. Large numbers of white people were killed, turning into corpses on the ground.

Especially those guys who were clamoring to kill a large number of Asians. They were the main targets of Zhu Wuyang’s killing. Each and every one of them was killed cleanly.

This undoubtedly made the Caucasians even more certain that this matter was the doing of the yellow-skinned people who were bullied by them in the city. However, it was indeed the doing of the yellow-skinned people. Zhu Wuyang had never been bullied before.

Even so, Zhu Wuyang still wanted to lend a hand when she saw her fellow Asian being bullied like this.

Looking at the white people who had died in despair, Zhu Wuyang left the place happily. As for what would happen to Sacred Fire City, it was none of Zhu Wuyang’s business. He had done a lot for the Chinese people here, allowing them to completely escape the slavery of the white people.

As long as he was a little smarter, he should be able to take advantage of the time when the demons and monsters were massacring the Caucasians to successfully escape from Holy Fire City. If he still could not escape, he could only die.

This was the most Zhu Wanhao could do for them. After all, the humans here were not his humans.

Even if Zhu Wuyang had left a faith here, he would not be able to receive any faith from the Evil Will Great World, so there was no need to waste more time and energy.

If Zhu Wuyan's main body could receive the power of faith from other great worlds, Zhu Wuyan would manage it well instead of causing destruction in each great world.

Chapter 1042: What Happened to My Husband (1) Chapter 1042: What Happened to My Husband (1) The destruction of Sacred Fire City had brought hundreds of World Origins to Zhu Wuwan. This number was not much. The World Origins obtained from killing the same number of demons and ghosts in a row were not even comparable to it.

It was obvious that in this Evil Thought Great World, the Human Race was not like the Mystic Desolate Great World, where they were the future protagonists. Therefore, even if they killed so many, they would not be able to obtain much of the World Origin.

Demons and ghosts were the main characters of this great world. Thinking about it, Zhu Wuyang felt sad. It was better to die early and reincarnate than to live in such pain.

What happened in Sacred Fire City was just a small interlude for Zhu Wuwan. After settling the matters in Sacred Fire City and looting the treasures here, Zhu Wuwan embarked on the path of cultivation and research.

In the following years, Zhu Wuwan analyzed the medicinal properties of tens of thousands of medicinal herbs and the physiques of thousands of demons and ghosts. She found the commonalities among them and studied the medicine that was specifically targeted at them.

After many years of hard work, Zhu Wuwan finally developed a highly infectious mixed poison. Zhu Wuwan named it as.

Bio-Experimental First Generation!

Looking at the potion in his hand that was shining with an orange light, a smile appeared on Zhu Wuwan's face. The effect of this first-generation Bio-Experimental was amazing. It was thousands of times stronger than the T-Virus in a movie on Earth.

The T-Virus still needed to be bitten before it could take effect. However, this first-generation biochemical virus developed by Zhu Wuwan did not need to be removed from the bite if it was on Earth. As long as its aura was released, it could easily turn humans within a radius of dozens of miles into biochemical zombies.

With just a drop of the first-generation biochemical liquid, it could at least infect hundreds of thousands of people through its aura. Then, these hundreds of thousands

of people could breed an even more powerful second-generation biochemical virus, which would spread at an even more shocking speed.

For example, Zhu Wuyang only needed a drop of the first-generation biochemical virus to infect all the humans and animals on Earth in a week or so, turning the huge Earth into a biochemical dead zone, and no one would survive.

The horror of the first-generation Biohazard Virus that Zhu Wanhao had developed far surpassed the so-called T-Virus in the movie. The two were not on the same level at all.

After all, Zhu Wuyang's first-generation Bio-Experimental Virus was used to deal with the demons, ghosts, and human cultivators in the Evil Thought Great World. The strength of these demons, ghosts, and human cultivators was countless times that of Earthlings. Naturally, they needed an even more terrifying first-generation Bio-Experimental Virus to be effective.

Moreover, although the first-generation Bio-Experimental Virus could also be transmitted through the air in the Evil Thought World, the chances of it infecting demons and ghosts were very low. It still needed to be touched and bitten to let the first-generation Bio-Experimental Virus penetrate into the demons and ghosts' bodies in large quantities. Only then would it be effective.

Therefore, the Bio-Experimental Virus was similar to the T-Virus on Earth.

After carefully observing the first generation of the Bio-Experimental Virus, Zhu Wuyang decided to find a place to test the power of the first generation of the Bio-Experimental Virus. After thinking for a moment, Zhu Wuyang chose a place.

Mount Wangliang!

There were a lot of demons and monsters here, and they were all of different types. There were even high-level demons and monsters of level seven, which could fully test how infectious the first-generation biochemical virus was to demons and monsters of different types and strengths.

After finding a place, Zhu Wuwan placed a bottle of the first-generation biochemical virus in different places on Mount Wangliang through different methods. Some were placed in water, some were poured on fruits, and some were poured on some demons and ghosts...It was to test which method could infect the first generation Bio-Experimental Virus the fastest and produce the corresponding effect.

Meanwhile, Zhu Wuwan unleashed her mental power to the extreme and observed the situation of these first-generation biochemical viruses.

Soon, a pig demon began to change through the water mixed with the first generation biochemical virus in the food stream. Its body gradually decayed, but its defense and

attack power did not decrease much. Its eyes flickered with a faint rainbow light, and the entire pig demon became dull.

There was also a boar demon that was following it. It did not notice the abnormality of the boar demon and was gnawing on a demon rabbit beside it.

“Humph...”

The boar demon suddenly let out a strange cry. Under the stunned gaze of the sow demon, it pounced towards it and threw it down.

Hubby, what's wrong? Do you want it in broad daylight?

The sow demon was stunned and immediately rejoiced. It wanted to cooperate with the boar demon, but it did not expect that the boar demon's mouth did not kiss its mouth, but directly bit its face.

Just as the boar demon thought that the boar demon was joking with it, the boar demon's teeth had already penetrated its face.

“Roar...”

The sow demon let out a painful scream, and its pig face was filled with disbelief. What was wrong with my husband? He actually did this to me. I was his wife who had shared weal and woe with him for decades, and he actually did this to me.

For a moment, the sow demon's hatred surged as it charged at the boar demon. At the same time, its eyes began to turn red.

The two pig demons, who were only at level three, began to fight crazily, killing each other endlessly. However, because the boar demon was not afraid of death, the boar demon was at a disadvantage at the beginning.

However, the female pig demon's body slowly decayed, and she no longer feared injury and pain. The scales of victory began to turn, and gradually, the two pig demons lost their rationality. Then, they stopped moving, looked at each other, and left in disgust. They went to bite the demons and ghosts that had not been infected.

In their eyes, their own kind was no longer attractive. It was like stones and earth. Who would pay attention to them? It was still the fresh and uninfected ones that smelled delicious. They really wanted to eat them.

The two pig demons 'special liking for fresh flesh and the smell of different species made them frantically search for other demons and ghosts.

In the first generation of the Biohazard Virus set by Zhu Wuyang, these demons and ghosts were also not interested in their own kind after being infected. They would only be interested in those intelligent life forms that were not infected.

Moreover, this interest was not an interest in fresh flesh and blood, but an interest in instinctively spreading the first-generation biochemical virus in their bodies. Moreover, they could also obtain some special substances from the bodies of uninfected demons and ghosts to strengthen their strength. This was also an instinct that was enough to make them flock like ducks.

After all, many demons and monsters did not have flesh and blood. If the Bio-Experimental Virus was set to be interested in flesh and blood, it would not be able to spread to every corner.

Therefore, the settings of the first generation Bio-Virus were very different from the T-Virus.

Chapter 1043: Heaven Knowing Jade Plate (1) Chapter 1043: Heaven Knowing Jade Plate (1) The infection of this pair of pig demons was just the beginning. Soon, a ghost spirit that was sneaking in the shadows was sprayed by the first-generation biochemical virus, and the entire ghost began to tremble.

After the trembling, the ghost spirit's originally lively eyes became dull, and its blurry body became even more blurry. Grayish-black smoke rose from it, like a ghost-shaped chimney.

It was a level-four ghost spirit, but it only lasted for a few minutes before it was completely corroded by the first-generation biochemical virus and became a slave of the virus. It bared its fangs and brandished its claws at the surrounding ghost spirits, demon beasts, and monsters ...

Although ghost spirits did not have a physical body and could not be transmitted through flesh and blood, they could be transmitted through mental power, which was faster.

The first-generation biochemical virus could effectively pass through flesh, demon qi, demon qi, ghost qi, strange qi, and spirit ... Spreading basically included 99% of the communication methods in the Malevolent Will World, and the effect was extremely shocking.

The ghost spirit was so fast that it almost disappeared without a trace. Soon, it pounced into the body of a monster and easily infected the first generation biochemical virus through spiritual communication, turning it into a biochemical monster. It began to pounce on more demons and ghosts around it.

Soon, the entire Wangliang Mountain was filled with demons and ghosts that were biting and screaming wildly. Many of the demons and ghosts that were intact wanted to escape from here, but they were blocked by the array that Zhu Wuyang had set up long ago as soon as they reached the edge of Wangliang Mountain. They could only stay in Wangliang Mountain and wait for the virus to infect them and become a part of the biochemical zombies.

Zhu Wuwan did not dare to let the Bio-Experimental first-generation virus spread out like this. There was no other reason. Once the Bio-Experimental first-generation virus spread out now, the world origin that Zhu Wuwan obtained would probably be off the charts very soon. At that time, Zhu Wuwan would be sent out of the Evil Will Great World, losing a lot of cultivation time and the world origin in vain.

Therefore, Zhu Wanhao had to limit all of this to Mount Wangliang. Even if all the demons and ghosts on Mount Wangliang died, Zhu Wanhao would at most obtain a few hundred or so World Origins. It would not be too much.

For other high-level cultivators, it was very difficult to obtain the world's origin. However, it was just a piece of cake for Zhu Wanhao. It just depended on whether he was willing to obtain it.

Zhu Wanwan carefully observed the situation in Mount Wangliang and recorded everything that happened here. The time when the first-generation Bio-Experimental Virus took effect, the effects of the first-generation Bio-Experimental Virus on different levels of demons and ghosts, and the speed of transmission of the first-generation Bio-Experimental Virus...

All of this was recorded by Zhu Wuwan in detail. She would study it well in the future and improve the first-generation biochemical virus until its effect could reach a level that satisfied Zhu Wuwan.

A few days later, almost all the demons and monsters on Mount Wangliang were infected by the virus. Only a portion of demons and monsters above level seven were not infected. Clearly, the virus had no effect on demons and monsters above level seven.

The first-generation Bio-Experimental Virus could at most cause some damage to demons and monsters above level-seven, but it could not infect them.

Moreover, the first-generation Bio-Virus was not very effective against Level 5 monsters and monsters, especially against Level 5 monsters and Anomalies. However, it was surprisingly effective against ghosts and demon beasts.

Other than that, the outbreak of the first-generation biochemical virus was also a little slow. Occasionally, it would cause the ghost spirits to produce antibiotics. These were all areas that needed to be paid attention to.

Zhu Wuwan took note of these problems and prepared to modify them in the future. As for the remaining demons and ghosts that were not infected on Mount Wangliang, they were naturally killed by him.

The monsters and demons infected by the first generation of the Bio-Experimental Virus were all cleared by Zhu Wuyang. Not a single one was left behind.

Even the entire Mount Wangliang was burned and corroded by him to prevent the first generation of the Bio-Experimental Virus from leaking out. After doing all this, Zhu Wuyang left Mount Wangliang and continued to travel the world. He studied the second generation of the Bio-Experimental Virus while cultivating and improving.

The days were still very fulfilling. Zhu Wuwan could hardly feel the passage of time. Her strength also increased rapidly in this process of focused study and research. Soon, she reached the limit of a level-seven cultivator and was only half a step away from becoming a level-eight cultivator.

All Zhu Wuyang needed to do was to devour another level seven demon, and she would be able to easily break through to the eighth level war-god level. Moreover, with her current devouring energy and overall strength, she could easily devour even a level eight demon god, devil god, ghost god, and so on, let alone a level seven demon.

Even if he encountered a level nine demon saint or devil saint, Zhu Wuwan could devour them by chance without much difficulty.

However, after thinking for a long time, Zhu Wuwan did not cast her gaze on those demons and ghosts above level-eight. Instead, she stared at a monster that had just entered level-seven.

Heaven Knowing Jade Plate!

On the surface, it looked like a jade plate that had become a spirit, but it was actually born and raised by the earth. Although it looked like a jade plate on the outside, it actually contained endless knowledge and information. It could be said to be one of the most knowledgeable demons and ghosts in the Evil Thought World.

At the very least, Zhu Wuyang had never seen a demon or ghost more knowledgeable than it in all the time that she had been in the Evil Will Great World. Even among the human cultivators, there was no one who was so exploitative.

The Heavens Knowing Jade Plate had been born hundreds of thousands of years ago and had been alive until now. It had been recording all kinds of information and knowledge all these years. It could be said to be a living history book of the Evil Thought World.

The knowledge and information it possessed could be said to be a huge fortune. Just this alone was worth it for Zhu Wuwan to devour it. It would definitely bring huge benefits to Zhu Wuwan.

In particular, the knowledge and information that the Heavenly Knowledge Jade Plate possessed were mostly information about various divine powers. Moreover, they were extremely detailed. It was almost as if they understood these divine powers more than some demons and ghosts who had mastered these divine powers. One could imagine how terrifying the Heavenly Knowledge Jade Plate was.

Relying on the Heavenly Knowing Jade Plate's familiarity with these divine powers, Zhu Wuwan, who had mastered the Myriad Forms Unfathomable, could easily replicate these divine powers and possess unimaginable strength and combat power.

What Myriad Forms Unfathomable needed the most was an understanding of divine arts, and the Heavenly Knowing Jade Plate was good at this.

Most importantly, the various knowledge and information held by the Heavenly Knowing Jade Plate were all directly brought out of the Evil Thoughts Great World by Zhu Wuyang. This was the essence of a great world. Not to mention Zhu Wuyang's clone, even his main body coveted it greatly.

Although there were many differences between the rules of the Evil Will World and the world of the Dongyuan Continent, there were also many similarities, which could be directly applied to the main body.

Chapter 1044: Breakthrough (1) Chapter 1044: Breakthrough (1) Knowledge was power!

After cultivating to Zhu Wuwan's level, this sentence was no longer a general one. It was the truth, especially when it came to knowledge and information related to divine powers and rules.

Once Zhu Wuyan could obtain all the knowledge and information that the Heavenly Knowing Jade Plate possessed through the Life Devour, it would definitely allow Zhu Wuyan's knowledge reserves to soar by a lot, or even several times.

It seemed a little unbelievable. After all, Zhu Wuwan had mastered a lot of things over the years. It was thousands of times more than cultivators of the same level. Even many high-level cultivators could not compare to him.

Zhu Wanhao had only lived for more than a hundred years, yet she had already mastered so much knowledge. This was already a miracle in the Dongyuan Continent.

However, it was precisely because he had only lived for more than a hundred years that the knowledge and information that Zhu Wuyan had mastered was limited. It could not

catch up with the Heavenly Knowing Jade Plate that had lived for hundreds of thousands of years. Once he could obtain all the knowledge of the Heavenly Knowing Jade Plate through the Life Source Devour, Zhu Wuyan's knowledge reserve would definitely soar, which would be extremely beneficial for his future development.

This could save Zhu Wuyan many years of learning and mastering. Moreover, Zhu Wuyan didn't even have a place to learn some of the knowledge and information that the Heavenly Knowing Jade Plate had.

Apart from that, Zhu Wuyang also suspected that this strange creature called the Heavenly Knowing Jade Plate might have mastered a kind of innate divine power.

Omniscient!

Since tens of thousands of years ago, the Heaven Knowing Jade Plate had been wandering in the Evil Will World. It earned what it wanted by answering other people's questions. It was known as omniscient and omnipotent. There was basically no question in the Evil Will World that it could not give an answer to.

The reason why Zhu Wuwan was able to find it this time was because it was answering the questions of high-level cultivators. Zhu Wuwan had tracked it down through clues.

The Heavenly Knowing Jade Plate thought that Zhu Wuyang wanted to ask it a question as well, so it happily waited for him. However, it didn't expect that Zhu Wuyang would directly grab it without asking it any questions.

Only then did the Heavenly Knowing Jade Plate realize that Zhu Wuyang had actually targeted it. Although it tried its best, it still did not escape. In the end, Zhu Wuyang had a good understanding of it and coveted it.

Although it was impossible to determine if the Heavenly Knowing Jade Plate had mastered the omniscient and omnipotent divine power, and this divine power was definitely a great divine power, the knowledge and information that the Heavenly Knowing Jade Plate possessed alone was enough for Zhu Wuwan to make a move on it.

After considering it properly, Zhu Wuwan swallowed the Heavenly Knowing Jade Plate and began to digest it at an extremely fast speed. At the same time, he was trying to break through the bottleneck of the eighth level wargod.

The so-called war gods were also known as demon gods, ghost gods, demon gods, strange gods, and so on. After all, if human cultivators wanted to advance and break through, they mainly relied on devouring all kinds of demons and ghosts, and they could only devour one type of demons and ghosts.

Therefore, when these human cultivators relied on a certain type of demons and ghosts to break through to the rank of a level-eight cultivator, they would advance from a demonic grandmaster, a demonic grandmaster, a ghost grandmaster, or a strange grandmaster to a demonic god, a demonic god, a ghost god, or a strange god. In short, they were called demon gods, demon gods, ghost gods, and strange gods...

This was on par with the rank 8 demons and ghosts. At this level of cultivation, both human cultivators and demons and ghosts had reached the same destination through different paths. There were many similarities.

Furthermore, the strength of a rank 8 human wargod was basically better than that of a rank 8 demon or ghost. Perhaps, the further one advanced, the stronger the human cultivators would be.

After all, every high-level human cultivator grew up by devouring several types of life-bound demons and ghosts. They could master all the combat experience, combat techniques, knowledge, and memories of several types of demons and ghosts. As well as the most important innate divine ability.

With many innate divine powers gathered, the combat strength of each high-level human cultivator was enough to make demons and ghosts tremble in fear. Therefore, demons and ghosts everywhere tried their best to prevent the birth of high-level human cultivators.

Once they discovered a high-level human cultivator, the demons and ghosts would join forces at the last minute and do their best to kill him to avoid causing a greater disaster.

It was precisely because of this that there were very few high-level human cultivators in the Evil Thought World. Zhu Wuwan had stayed here for decades, but the number of high-level human cultivators she had encountered was less than three digits. However, the number of high-level demons and ghosts she had encountered had already exceeded four digits.

The difference between the two was at least dozens of times, or even hundreds of times.

Therefore, the demons and ghosts were able to suppress the human race fiercely, reducing them to food and livestock. There was basically no room for them to turn the tables.

Even Zhu Wuwan had once been surrounded and killed by some demons and ghosts because he had exposed the strength of high-level human cultivators. However, in the end, these demons and ghosts who had surrounded and killed him had become his test subjects and food.

However, how many powerful high-level human cultivators were there in the vast Evil Thoughts Great World?

Along with the devouring, Zhu Wuwan's strength, which had already reached its limit, began to be stored and forcefully compressed. His body also swelled up as he accumulated strength to prepare to break through to a higher realm.

Although the Heavenly Knowing Jade Plate struggled with all its might and even discovered the loophole of the Devouring Qi in Zhu Wuyang's body, it almost escaped. However, due to the huge difference in strength between the two parties, although it passed through the Devouring Qi, the Heavenly Knowing Jade Plate was still blocked in the hard and flexible dantian.

This was the first demon to break through the devouring aura!

Zhu Wuyang was also a little shocked. If he had devoured a level-nine demon, it would be normal for the other party to be able to break through the layers of restrictions of the Devouring Qi.

However, the Heavenly Knowing Jade Plate was only a grade-7 monster, and it was not the strongest batch. Moreover, even the strongest batch of grade-8 demons and ghosts would not be able to break through the devouring energy.

After years of improvement and improvement, the Unharmful Devouring Technique had already surpassed the scope of the Super Devouring Technique and reached the peak level of the Evil Thought Great World. Zhu Wuwan was even confident that he could use it to devour some level-nine demons and ghosts.

However, under such circumstances, the Heavenly Knowing Jade Plate had actually broken through the inescapable net set up by the Unharmful Devouring Qi. If it weren't for Zhu Wuwan's strength being far superior to it, and her dantian also undergoing special strengthening and enhancement, she would have been in trouble today, and her life might even be in danger.

It was just a level seven monster. Why was it so powerful? What was so special about it?

Zhu Wanwan was even more tempted. She felt that there was something wrong with this Heaven Knowing Jade Plate. It might be more valuable than she had imagined.

Could it be that it had really mastered the omniscient and omnipotent divine power to be able to detect the loopholes in the devouring qi and break the array formed by the devouring qi? It was a little powerful.

Chapter 1045: Unique Divine Power (1) Chapter 1045: Unique Divine Power (1) Zhu Wuwan swallowed even harder!

“Boom...”

Accompanied by the rumbling sound that shook his entire body, the sky and the earth within a radius of tens of thousands of miles trembled for a moment. This also meant that Zhu Wuwan’s strength had broken through a new realm and reached an even higher level.

Eighth level wargod!

Only human cultivators of the eighth rank were qualified to be called wargods. They had devoured many types of demons and possessed many innate divine abilities. Their combat experience and techniques had reached a certain peak, allowing them to sweep through all demons and demons of the eighth rank.

That was why they were known as War Gods. They were above demon gods, devil gods, ghosts, and strange gods. They could almost fight ten alone and defeat about ten demons and ghosts of the same level.

Not to mention that Zhu Wuyan’s cultivation foundation was far superior to those of the same level. Although she had devoured less than eight types of demons and ghosts, the number of divine powers that Zhu Wuyan had mastered was not inferior to any human war god who had devoured eight types of demons and ghosts.

Two-Headed Strange Snake, Heavenly Star Beast, Indestructible Blood Demon, Myriad Phase Insect, Demonic Concealment Monkey ... There were only five types of demons and ghosts, but the divine arts and quality of each type were extremely impressive.

Heavenly phenomena, clouds, rain, stars, future prediction, infinite strength, immortality, unpredictable, invincible, invisible ... With so many innate divine abilities, it was far superior to any demon god, devil god, ghost god, or strange god. It was enough to make him flabbergasted.

Therefore, although Zhu Wuyan had just stepped into the ranks of the eighth level War God, her comprehensive strength was not inferior to a ninth level Saint in the slightest. She was not weak even among the ninth level Saints.

After breaking through to the rank of an eighth grade war-god, Zhu Wuwan’s overall combat strength had already surpassed the main body of the Dongyuan Continent to a certain extent. Moreover, the cost of the breakthrough stones was not as much as he had imagined.

There was no other reason. The cultivation path here was special. It was mainly through devouring to improve. Zhu Wuyang only used breakthrough stones to consolidate his cultivation foundation or assist in his breakthrough when necessary. He did not use too many breakthrough stones.

The special cultivation system allowed Zhu Wuyan to advance rapidly without spending too many breakthrough stones. Of course, another important reason was that Zhu Wuyan had cultivated bitterly for many years. Zhu Wuyan was already a grandmaster in cultivation.

Otherwise, he wouldn't have been able to use the special cultivation system of the Evil Will World to reach his current level with minimal consumption.

However, even so, the Breakthrough Stones that Zhu Wuyang consumed were enough for his main body to advance by one or two minor realms. The number was also extremely considerable. Fortunately, everything was worth it.

With his clone's strength increased to this point, he was basically not afraid of any danger in the Evil Thought World. He could now act according to his plan and give the Evil Thought World a huge surprise when he was about to leave.

At that time, Zhu Wuwan would definitely be able to earn a lot from it. Through the origin energy of the great world, he would be able to make up for the consumption of the breakthrough stone.

Moreover, the reason why he had improved so much was also to better grasp and understand various divine powers. It was also of great use to the cultivation of the main body.

As he devoured, Zhu Wuwan quickly devoured the core of the Heavenly Knowing Jade Plate and slowly obtained the knowledge of the Heavenly Knowing Jade Plate for hundreds of thousands of years. He was intoxicated for a moment and deeply witnessed the changes of this great world.

At the same time, there was also a lot of information about various divine powers in the knowledge of the Heavenly Knowledge Jade Plate. Moreover, it was extremely detailed and far exceeded Zhu Wuyang's imagination.

The Heavenly Knowing Jade Plate had even researched some special secret techniques and pseudo-divine powers through understanding and familiarizing itself with these innate divine powers. Although they could not compare to true divine powers, their power was still extremely shocking.

Most importantly, Zhu Wuan had also obtained an astonishing divine power from the Heavenly Knowing Jade Plate. To a certain extent, it was not inferior to a great divine power. In fact, it was even more terrifying than a great divine power. It had the possibility of surpassing a great divine power.

Endless analysis!

It was not a supreme-grade, superior-grade, middle-grade, or inferior-grade divine power. It was a divine power that could grow. It had unique characteristics and was also a mysterious divine power that could not be seen in thousands of years in the Evil Thoughts World.

No matter who obtained this divine power, they would start cultivating it from the beginning. Even if the target they devoured had already advanced to the level of a top-grade divine power, as long as they changed their body, they would definitely fall.

The Heavenly Knowing Jade Plate had cultivated for hundreds of thousands of years before it was barely promoted to the level of supreme-grade divine power. However, as Zhu Wuwan devoured and grasped it, the divine power of endless analysis instantly fell to a level that could not even be considered low-grade. Zhu Wuwan was somewhat helpless about this.

This was also a feature of the growth-type god art. It could be upgraded according to the body of the master, adapting to the master's body and displaying the strongest power.

It was precisely because of this that the level of this growth god art would drop after changing its master. This was because its original growth was slowly accumulated with another master, and it was not completely suitable for the next person.

However, even though he had obtained the only divine power that could grow endlessly, the Heavenly Knowing Jade Plate didn't have the omniscient and omnipotent divine power that Zhu Wuwan had hoped for.

Although he didn't have much hope for the omniscient and omnipotent great divine power, after all, if the Heavenly Knowing Jade Plate really mastered this legendary great divine power, it wouldn't have been so easily captured by Zhu Wuyang. However, he was still a little disappointed after confirming it.

Fortunately, the Heavenly Knowing Jade Plate had mastered another divine power. This divine power was...Traces of high-grade divine power.

This kind of high-grade divine power could effectively discover some clues of things and understand the inside story and truth. Coupled with the growth of the divine power of endless analysis, although it could not reach the level of omniscience, it was not far from omnipotent.

The Heavenly Knowing Jade Plate relied on the combination of the two divine powers of Tiny Traces and Endless Analysis to grasp so much knowledge and information. It was known as omniscient and omnipotent, and it had a great reputation in the vast Evil Thought World.

After obtaining these two Mystical Powers, Zhu Wuwan finally felt a little better. This time, it wasn't a waste. So much knowledge and information, hundreds of thousands of years of experience on the Heavenly Knowing Jade Plate, and the endless analysis of the unique Mystical Power that could grow in the Evil Thoughts World. Tiny Traces was also a high-grade Mystical Power, and its power was extremely impressive.

His strength had also taken this opportunity to break through to the eighth level of the war-god level. Zhu Wuwan's harvest this time could be said to be astonishing. It was of great help to his subsequent plans. However, he still needed to spend a lot of time and energy to improve his Endless Analysis.

Once the Endless Analysis was upgraded, coupled with the divine power of Tiny Traces, the speed and efficiency of Zhu Wuwan's research on better biochemical viruses would definitely soar. Moreover, he would be able to develop even stronger biochemical viruses, bringing a huge surprise to the Evil Thought World.

Chapter 1046: Ambush (1) Chapter 1046: Ambush (1) After devouring the Heavenly Knowing Jade Plate as his Life's Anomaly, Zhu Wuwan began to adapt to the sudden increase in strength and continued with his previous plan.

Although the first-generation Bio-Experimental Virus had been developed, there were many flaws. It still needed to be improved so that it could be more effective.

According to Zhu Wuan's speculation, the effect would have to be increased by at least ten thousand times before it could reach a level that would satisfy him. This was clearly not a small project.

When he was dealing with stronger viruses, Endless Analysis would also come in handy. Coupled with Zhu Wuyang's super high comprehension ability, Endless Analysis could play a significant role.

Other than analyzing and studying biochemical viruses, Zhu Wuyang also used it to analyze and study various divine powers. This was the best way to improve his endless analysis.

Moreover, after analyzing and studying these viruses, it would also be of great help to Zhu Wuwan's main body.

As he analyzed and studied all kinds of divine powers, the divine power of endless analysis began to soar. In just a few days, it broke through to low-grade divine powers and continued to grow rapidly.

In less than a month, his Infinite Analysis Divine Power had been upgraded to a middle-grade Divine Power, and it began to display considerable effects.

Endless Analysis did not consume much energy, so Zhu Wuwan could activate it for a long time. With the help of Endless Analysis, Zhu Wuwan's research on biochemical viruses, analysis and research on various divine powers...They all began to fly forward, far surpassing what they had been before.

At the same time, Zhu Wuyang also used the normal method to devour more demons and ghosts to increase his strength. At the same time, he used the Breakthrough Stone to assist him to prevent his foundation from being unstable.

His overall strength was also steadily increasing. In just a few months, Zhu Wuwan's strength had already reached the intermediate wargod stage. Her speed could not be said to be slow.

Once he unleashed his full strength, his combat strength would steadily surpass his main body. This was something that even Zhu Wuwan had not expected.

Even though he had deliberately suppressed it, the World Origin that Zhu Wuyang had earned in the Malevolent Will World had still exceeded 3,000 points. Fortunately, at this rate, it should not have exceeded 10,000 points a hundred years ago and thus be forcefully expelled from the Malevolent Will World.

During this period, Zhu Wuyang was also looking for a better target to devour. However, it wasn't that easy to find, and she hadn't gained anything.

In order to find a suitable target to devour, Zhu Wuyang had even specially enslaved some demons, ghosts, and human cultivators who were good at tracking to help him search everywhere. His efficiency had soared greatly.

All these years, Zhu Wuyang had been doing this. He had also enslaved thousands of demons and ghosts with good intelligence, as well as thousands of human cultivators. Among them, there was no lack of high-level demons and ghosts, as well as human cultivators.

By the time Zhu Wuwan left this great world, these slaves he enslaved could also help him continue to earn the world's origin. This was also one of Zhu Wuwan's key tasks.

As he busied himself, the days passed quickly. In the blink of an eye, another year had passed. Tian Zhu had just analyzed a middle-grade divine power and raised his endless analysis divine power to the limit of a middle-grade divine power when he felt a chill run down his spine.

Before Zhu Wuyang could react, an overwhelming attack suddenly struck, completely shattering the underground secret chamber he was in. The area within a radius of thousands of miles was also turned into powder.

Even though his foundation was strong and his body's defense was amazing, Zhu Wuyang was still smashed into pieces and scattered all over the sky.

" He's dead. The planet of chaos has been killed! "

" I don't think there's anything special about this guy. He couldn't even withstand one of our moves. Are you sure he's a planet of chaos? "

" Did Demon Sage White Deer make a mistake? If the Chaotic World Planet was so easily killed by us, would it still be a Chaotic World Planet? I think there's something fishy too. "

"Everyone, be careful. Maybe he's not dead yet. He's just pretending to be dead."

" This guy isn't a demonic creature or a ghost spirit. He's already been blasted into pieces. How can he come back to life? You don't have to worry too much. "

..

In the midst of the discussion, nearly a hundred demons and monsters above level-seven appeared above Zhu Wuyang's corpse, their bodies emitting surging energy fluctuations.

Among them, there were more than twenty level-eight demon gods, devil gods, ghosts, and strange gods. The rest were all level-seven demons and ghosts. However, on the top of Dragon Peak, which was ten thousand miles away from here, stood a completely white demon beast.

Heavenly White Deer!

An upper-level Ninth Level Demonic Saint was one of the demons with the highest cultivation base in the Evil Thoughts World. Although it was not good at fighting, its overall strength was comparable to an ordinary lower-level Ninth Level Demonic Saint.

Most importantly, this Heavenly White Deer was known to have mastered at least two high-grade innate divine powers. Among them, the Clairvoyance was a great divine power, and the Golden Light was at least a high-grade divine power. However, some people said that it was a great escape divine power.

As for whether the Heavenly White Deer had mastered other Divine Powers, no one knew for the time being. However, just these two Divine Powers were enough for the Heavenly White Deer to roam the Evil Thoughts World. Basically, nothing could kill it.

Zhu Wanhao had never seen this Heavenly White Deer before, but he didn't know why it had brought a large number of high-level demons and ghosts to deliberately kill him.

Could it be that the Heavenly White Deer had divined something because of its great divine power of foresight, which was why it was so generous?

Zhu Wuwan did not know the reason, but he believed that as long as he swallowed the Heavenly White Deer and made it his own life devouring object, he should be able to find the answer.

Therefore, Zhu Wuwan brazenly launched a life-bound devouring attack on the Heavenly White Deer. The golden devouring aura that covered the sky and earth instantly drowned the Heavenly White Deer, giving it no time to react.

Of course, the most important thing was that the Heavenly White Deer did not expect Zhu Wuwan, who had already been killed into pieces, to suddenly come near it and swallow it.

Facing the Unharmful Devouring Technique, even with the Heavenly White Deer's strength and the divine power it had mastered, it could not react in time. Under the interference of the Great Divine Power of Future Sight, the Prophet could not find any trace of Zhu Wuyang. This was why Zhu Wu and Ang had made a move.

However, Zhu Wuwan still had to withstand the full resistance of this upper-grade Ninth Level Demon Saint before she could devour it and turn it into her own food.

If he couldn't withstand it, Zhu Wuyang would at least suffer heavy injuries, or even be in more danger.

Although the resistance of an upper-level Ninth Grade Demonic Saint was not known for its combat strength, the Heavenly White Deer had lived for tens of thousands of years and knew as much as the Knowing Jade Plate. Who knew what other trump cards it had hidden? Zhu Wuwan did not dare to be careless.

Moreover, there were so many high-level demons and monsters around them. If they did not deal with them well today, they would probably face a catastrophe. The consequences were really unpredictable.

Chapter 1047: Devour in Despair (1) Chapter 1047: Devour in Despair (1) Although this inconspicuous hill was only temporarily used by Zhu Wuwan for research, Zhu Wuwan had also set up layers of array formations around it.

Although it wasn't as exaggerated as the original body in Dongyuan Continent, it was still beyond the imagination of ordinary people. Most importantly, during the years of research, Zhu Wuwan had also studied some life-saving divine powers.

In addition to the astonishing power of immortality, when faced with the sudden attack, Zhu Wuwan cleverly used the Myriad Forms Unfathomable Divine Power to save her

life. She also used the great divine power of immortality to take a few injuries before successfully escaping.

Otherwise, if he was really blasted into pieces, even if he had the great divine power of immortality, Zhu Wuwan would still need a long time to recover. During this period of time, it was enough for these demons and ghosts to properly deal with him.

At that time, even if he did not die, he would be better off dead than alive.

Of course, the main reason why he could react so quickly was that Zhu Wuwan's strength had already reached the late stage of the wargod realm. Her comprehensive combat strength was not inferior to most ninth grade saints. This was why she could react at such a critical moment and respond in time.

If Zhu Wuyang's strength had been a little weaker, she would have been defeated by this group of enemies who had suddenly appeared.

Now that Zhu Wuyang had escaped from a life-and-death crisis, it was time for this group of ambushers to suffer.

After noticing the leader of this group of ambushers, Zhu Wuwan approached the Heavenly White Deer without a trace and swallowed it instantly when it was not paying attention.

Feeling the Heavenly White Deer's crazy struggle in his body, Zhu Wanwan sneered and used the Myriad Forms Inscrutable to simulate the Five Elements Great Escape Divine Power. He entered the depths of the ground and fled into the distance.

Before digesting the Heavenly White Deer, Zhu Wuyang was not prepared to start a war with nearly a hundred high-level demons and ghosts outside. If that happened, Zhu Wuyang's chances of winning would be less than one-tenth.

Since that was the case, he should first digest the Heavenly White Deer. At that time, he should be able to enter the ranks of the Ninth Grade Saints and easily kill these demons and ghosts who had ambushed him.

"He's not dead. That guy is not dead. He even swallowed Lord White Deer and fled deep underground. Let's hurry up and catch up."

"He didn't die even under such circumstances. As expected of a planet in chaos. However, he's just a mere grade-8 cultivator, yet he still dared to devour Lord White Deer. He's really tired of living. Let's hurry up and catch up with him. We'll work together with Lord White Deer to kill him."

"It's better for everyone to be careful. Have you forgotten who he is? It's not easy to kill him on a planet in troubled times. Now that he's deep underground, most of his

companions can't catch up with him. Only a few of them have mastered the divine arts and secret arts of earth evasion. It won't be easy to take him down. ”

” If you can bring them along, then bring some companions. However, it's best not to affect their strength. Otherwise, even if you bring your companions along, it might affect their combat strength. ”

..

A group of demons and ghosts immediately chased after Zhu Wuwan. With all kinds of innate divine powers working together, their speed was not much slower than Zhu Wuwan's. They chased after him closely.

Because of the Heavenly White Deer in his body, Zhu Wuyang's speed could not reach its limit. If it was not for the fact that he had infiltrated the ground and made many demons and ghosts helpless, he would have been chased up and beaten up long ago.

However, as he devoured the Heavenly White Deer, Zhu Wuwan's strength also increased steadily. The Heavenly White Deer's struggle became more and more intense.

However, in the face of the engulfing Qi that covered the sky, the Heavenly White Deer, which was not good at fighting, was still digested bit by bit. Therefore, the struggle of the Heavenly White Deer was not as strong as before. It began to protect itself with all its strength to prevent Zhu Wuwan from absorbing more essence, qi, and spirit.

It was obvious that the Heavenly White Deer wanted to wait for its companions outside to attack Zhu Wuyang so that Zhu Wuyang would be distracted. That way, it would have a chance to escape.

Unfortunately, the Five Elements Great Escape was a great divine ability. Although there were many high-level demons and ghosts behind them, none of them had mastered a great divine ability to escape. Although they followed closely behind, they could not catch up.

If not for the fact that Zhu Wuyang's Five Elements Great Escape was simulated through the Myriad Forms Unfathomable, she would probably be able to shake off those high-level demons and ghosts behind her.

A person and a group of demons and ghosts chased after Zhu Wuyang at high speed. Seeing that they could not catch up for a long time, these high-level demons and ghosts were also a little anxious. They began to release all kinds of divine powers and secret techniques, trying to stop Zhu Wuyang from escaping.

“One sword for ten thousand miles!”

“Earth Rush!”

“Shifting Mountains and Rivers!”

..

All kinds of middle-grade divine powers, high-grade divine powers, and even great divine powers came one after another and landed around Zhu Wuwan. However, Zhu Wuwan used the Five Elements Great Escape to escape and did not hurt him at all.

However, this caused Zhu Wuyang’s speed to decrease a little. The demons and ghosts behind him slowly closed the distance between them and Zhu Wuyang.

Wherever the group of cultivators passed by, mountains collapsed and the earth cracked. The sky and earth changed color. Countless low-level demons, ghosts, and human cultivators died tragically, causing a considerable impact. Zhu Wuwan’s heart ached so much that she could hardly breathe.

He wasn’t afraid of these demons and ghosts chasing after him. After all, it was useless as long as they couldn’t catch up to him. However, he was afraid that these demons and ghosts would cause too much influence because of him. If he obtained too much World Origin, he would be forcefully sent out.

Looking at the ever-increasing World Origin, Zhu Wuwan became more and more anxious. Other than escaping, he spent all his energy on devouring the Heavenly White Deer, even at the expense of taking some damage.

With the great divine power of immortality, even if he had to suffer some injuries, these injuries wouldn’t be able to deal a fatal blow to Zhu Wuyan. Moreover, Zhu Wuyan could recover very quickly.

“Bang bang bang...”

“Dong dong dong...”

“Boom boom boom...”

..

Facing the attacks of the many divine powers and secret arts, Zhu Wuyang, who was busy with other aspects, was hit from time to time. More and more injuries appeared on his body. The great divine power of immortality was also passively taking effect, healing Zhu Wuyang’s injuries at an extremely fast speed.

At the same time, Zhu Wuyang’s devouring of the Heavenly White Deer became faster and faster. Feeling the rapid loss of essence, energy, and spirit, as well as its

companions who could not catch up for a long time, the Heavenly White Deer became a little anxious.

It didn't know that its companions were still counting on it to resist more fiercely. This way, Zhu Wuyang's speed would slow down, and they would have a chance to catch up.

However, they did not know that the Heavenly White Deer had almost given up on resisting and was waiting for their rescue. Both sides had their own thoughts, which gave Zhu Wuyang more time to catch his breath.

If they worked together, Zhu Wuwan might be caught up very soon. At that time, the Heavenly White Deer had a great chance of escaping. Unfortunately, they had not done so until now.

Chapter 1048: Saint (1) Chapter 1048: Saint (1) "Billions of incarnations!"

As time passed, the Heavenly White Deer also realized that something was wrong. Because it was blocked by layers of Devouring Qi, the Heavenly White Deer did not sense the nearly 100 high-level demons and ghosts that had been chasing Zhu Wuyang outside and trying to save it.

The Heavenly White Deer thought that those high-level demons had already given up on it or that Zhu Wanwan had shaken it off.

Therefore, after some consideration, the Heavenly White Deer decisively used its long-hidden trump card and did not hesitate to use half of its demonic power.

Once the top-grade divine power was used, the countless deer fur on the Heavenly White Deer's body instantly turned into countless Heavenly White Deers. Each Heavenly White Deer had one-ten-thousandth of the original body's strength, and together, they had a strength that was thousands of times stronger than the original body.

Of course, this was under the condition that all the Heavenly White Deer could work together. There were also losses, but it was far more than the main body.

Then, these billions of Heavenly White Deers exerted their strength at the same time and fiercely bombarded the devouring qi that enveloped them.

"Bang..."

Countless attacks were connected together, and it seemed that only one sound was produced. The unharmed Devouring Qi in Zhu Wuwan's dantian began to tremble violently, and even the array formed by the unharmed Devouring Qi showed signs of collapse.

As expected of an upper-level Ninth Grade Demon Saint. Even though he wasn't known for his combat strength, he still had such an amazing trump card.

Such a powerful attack was not inferior to most of the high-level demons and monsters of the ninth rank.

Zhu Wuyang's body trembled as well, and her speed decreased quite a bit. The demons and ghosts behind her were much closer.

"Hell's Holy Light!"

"Mandrake Flower Blossom!"

"Mortal Realm!"

..

All kinds of powerful innate divine powers came one after another and landed around Zhu Wuwan. Some also landed on Zhu Wuwan, who could not dodge in time, causing more injuries to his body.

He had activated most of his undying and imperishable divine power, rapidly recovering his damaged body. However, he was gradually unable to make ends meet.

Seeing this, Zhu Wuwan hurriedly took out a large number of spirit pills and stuffed them into his mouth to make up for the consumption of the Undying and Imperishable Divine Power, further reducing his speed.

The Heavenly White Deer in his body was still struggling for the last time, and the demons and ghosts outside were attacking even more fiercely.

Even under such circumstances, Zhu Wanhao still tried his best to block the contact between the Heavenly White Deer and the outside world, preventing it from knowing the situation outside and joining forces with the demons and ghosts outside to fight against him.

However, under such circumstances, it was very difficult for Zhu Wuwan to devour the White Deer's essence, qi, and spirit. Therefore, he temporarily stopped devouring and dodged everywhere while doing his best to stop the White Deer.

The injuries on his body were still increasing rapidly. Even with the help of spirit pills, he still could not make ends meet. However, it was much slower than before.

Zhu Wanhao didn't expect that he would suddenly fall into such a predicament today. Even now, he was still a little confused and couldn't be sure what was going on.

However, Zhu Wanwan had a certain guess in her heart. Next, she would wait until she devoured the Heavenly White Deer and obtain its memories to confirm this matter.

“Boom...”

“Bang...”

“Dong...”

..

The terrifying destruction continued, which naturally allowed Zhu Wuyang to obtain more World Origin. In order to reduce its influence, Zhu Wuyang had no choice but to flee deep underground. There were much fewer demons and ghosts there, so even if he was killed, he would not bring much World Origin.

Doing so would also make it difficult for the demons and ghosts chasing after them. It would also make more and more demons and ghosts fall behind and unable to chase after Zhu Wuyang.

The current difficult situation was only temporary, and it was also the last ray of hope for the White Deer. As long as Zhu Wuyang could survive, the sky would be wide.

But who knew that he would last for 17 hours!

There was not a single piece of flesh on Zhu Wuyang's body that was intact. It looked like it was about to fall apart. Only his dantian was still intact and was firmly protected by Zhu Wuyang.

Other parts of his body, whether it was his internal organs, head, or body, were all battered and tattered. Zhu Wuyang was almost at the end of his rope.

Undying and indestructible great divine arts were indeed powerful, but they were still difficult to resist against endless divine art attacks. Because there was no time to rest, they could not recover at all.

Fortunately, the Heavenly White Deer seemed to have lost all hope. After being unable to sense the information of its companions in the outside world for a long time, and the unharmed Devouring Qi in Zhu Wuwan's dantian was as solid as a rock and could not be destroyed at all, its resistance slowly became powerless.

Future Sight had interfered with the divination of the White Deer through Heaven. Although the Unharmed Devouring Qi had almost been broken many times, it had not been exposed at all under Zhu Wuwan's disguise. This made the White Deer through Heaven, who had persisted for so long, a little discouraged.

Of course, the most important thing was that after bombarding for so long, more than half of the demonic power in the Heavenly White Deer's body had been consumed. It was difficult for it to resist with all its might.

At this moment, Zhu Wuyang had already gone tens of thousands of miles underground. There were no more demons or ghosts left that could continue to track him.

The most difficult period of time had passed, so it was time for Zhu Wuyang to counterattack.

"Devour!"

The little bit of unharmed Devouring Qi that was left suddenly erupted, and its power was raised to its current limit. Caught off guard, the Heavenly White Deer instantly devoured more than half of its remaining demonic power. The remaining was no longer enough for it to continue using its trillions of incarnations.

Zhu Wuyang also took this opportunity to be reborn and fiercely broke through the bottleneck that was already on the verge of collapse due to the multiple rounds of attacks.

In the previous pursuit, Zhu Wuwan had skillfully used the attacks of those high-level demons and ghosts to shake the bottleneck of the Ninth Grade Saint without damaging his foundation at all.

Now that the difficult time had passed, it was time for Zhu Wuyang to break through the bottleneck that he had been preparing for a long time.

"Boom..."

Accompanied by a deafening boom, the bottleneck to the Ninth Grade Saint Realm collapsed, and Zhu Wuwan's strength also advanced to a new realm.

Saint!

Transcendental and refined was called saint!

This was the highest state known to the cultivators in the Evil Will World, and its status was equivalent to the Human Immortals of the Dongyuan Continent. Even if they did not count their innate abilities, the comprehensive strength of a Saint from the Evil Will World was far superior to that of a Human Immortal of the Dongyuan Continent.

This was the first time Zhu Wanwan had raised the strength of her clone to such a level that surpassed her main body in another world. Moreover, she did not use up many

breakthrough stones. Compared to her main body, it was much weaker. She had only used up all the breakthrough stones she had stored up.

If he added in the various innate divine powers that he had mastered, the overall combat strength of Zhu Wuwan's clone was at least thousands of times stronger than his main body, or even higher. The two could not be mentioned in the same breath.

Chapter 1049: Full Harvest (1) Chapter 1049: Full Harvest (1) In just a few decades, he had obtained a combat strength that was thousands of times stronger than his original body. It sounded unbelievable, but it was mainly because of the special rules of the Malicious Thought World.

Here, one could instantly obtain the power and knowledge of other demons and ghosts that had been cultivating for thousands of years or even tens of thousands of years through the Natal Devour. For example, when Zhu Wuyang devoured the Heavenly Knowing Jade Plate, he instantly obtained the strange power that had been accumulated for hundreds of thousands of years, as well as so many years of knowledge and experience.

It could really be said that he had reached the heavens in one step!

Before this, Zhu Wuyang had devoured so many demons and ghosts. Although most of them were not devoured through his life, there were not many side effects.

The side effects of the power obtained through devouring in the Evil Will World were not great. Zhu Wuyang only needed to consume a small amount of Breakthrough Stones to eliminate the side effects.

Therefore, Zhu Wuyang's tyrannical strength basically came from other demons and ghosts. The Breakthrough Stone did not play a big role in it, so the consumption was not great, allowing Zhu Wuyang to obtain such shocking strength.

In addition, the rules of the Evil Will World were more obvious. Even the low-level demons and ghosts could activate the power of the rules. The powerful ones could even activate the shocking power of the rules. This was far from what the Dongyuan Continent could compare to.

The rules of the world where Dongyuan Continent was located were stable. It was thousands of times more stable than the Malicious Will World. Only when one had reached the Human Immortal Realm could one grasp the power of Divine Sense and slightly activate the power of rules.

However, in the Evil Will World, Saints who were comparable to Human Immortals could already mobilize the power of rules on a large scale and grasp unimaginable divine powers. The two were simply incomparable.

That was why Zhu Wanhao's avatar in the Evil Will World had such terrifying combat strength. However, if this avatar was allowed to return to the Dongyuan Continent, its strength would definitely plummet, and it would probably not even have one-ten-thousandth of its original strength left.

However, if Zhu Wuan's main body from Dongyuan Continent entered the Evil Thoughts World, his combat strength would not be reduced by much. At least, he would be able to retain about 90% of his combat strength.

Once he could adapt to and analyze the rules of the Evil Will World and unleash the power of his main body, Zhu Wuwan's main body's combat strength would also leap to the level of a Saint in the Evil Will World.

Of course, the premise was that he had to use the world's origin power to hide his identity as a visitor from another world. Otherwise, not only would he not be able to borrow the power of the natural order of the Malicious Thought World, but he might also be targeted by the natural order.

According to the basic rules of most universes, once an external visitor entered the universe, they would suffer varying degrees of suppression.

The higher the level of the universe they entered, the more severe the suppression. For example, if Zhu Wuan's main body entered the Evil Thought World at this moment, his strength would be suppressed by at least ten times. In the end, only one-tenth of his strength would remain.

However, if cultivators from the Evil Will World were allowed to enter the Dongyuan Continent, their strength would be suppressed by at least a hundred times. This was the basic strength. If they could not analyze the power of rules of the Dongyuan Continent and use their Divine Powers, their strength would be suppressed by more than ten thousand times.

Under such circumstances, a Saint-level cultivator in the Evil Thoughts World would fall into the ranks of Mahayana Quasi-Immortals in minutes, or even weaker.

The difference between the two worlds was obvious. From here, it could be clearly seen that the level of the world where the Dongyuan Continent was located was far higher than that of the Evil Thought World. The two worlds could not be mentioned in the same breath.

After stabilizing his Saint Realm, Zhu Wuwan began to devour the memories and innate divine powers of the Heavenly White Deer's core.

These memories contained hundreds of thousands of years of knowledge and experiences of the Heavenly White Deer. They were not much inferior to the Heavenly Knowing Jade Plate, and they were even more so. Zhu Wuyang was filled with gains.

After most of the memories were devoured, the White Deer's resistance gradually disappeared and was about to disappear. At this time, Zhu Wuwan also obtained the divine power information that the White Deer had grasped.

Billions of incarnations!

A high-grade divine power among high-grade divine powers was only half a step away from reaching the ranks of top-grade divine powers. To a certain extent, it was not inferior to many top-grade divine powers.

Once it was used, it could turn all the hair on its body into clones. Each clone had about one-ten-thousandth of the original's strength, and the total number could reach tens of millions. It could unleash extremely terrifying combat power.

Previously, if it wasn't for the fact that the devouring qi in Zhu Wuwan's body had already reached an extremely high level and that the devouring qi had condensed into a powerful array, it would have been broken by the myriad divine powers of the Heavenly White Deer.

Zhu Wuwan had previously learned of this divine power from the Heavenly Knowing Jade Plate's memories, but the Heavenly Knowing Jade Plate didn't know much about it. Therefore, even if he used Myriad Forms Unfathomable to simulate this high-grade divine power, he could only unleash about one-tenth of its ability at most. Even so, it was already very good.

He did not expect the Heavenly White Deer to have mastered such a rare divine power. Now, it was Zhu Wuwan's turn to benefit.

Zhu Wanhao happily devoured the divine power of the trillions of incarnations and turned it into one of his own natal divine powers. His overall strength soared further. As expected, the benefits he obtained from devouring were greater and faster.

After devouring the trillions of incarnations, Zhu Wuwan began to devour the second divine power mastered by the Heavenly White Deer.

Golden light!

A high-grade escaping divine power was only half a step away from reaching the top-grade divine power, but its escape speed was not inferior to many top-grade divine powers.

The most important thing was that the vertical golden light could cooperate with many escape divine arts and unleash unimaginable power. The reason why the Heavenly White Deer could live for so many years and live well was mainly because of the vertical golden light.

One could imagine how powerful the golden light was. It far surpassed the ability to ride on clouds and mist. However, if it was fused with the ability to ride on clouds and mist, it could travel hundreds of thousands of miles in a breath.

Not to mention much, just the two quasi-great divine powers of the Incarnation of Trillions and the Golden Light of the Rising Earth were enough for Zhu Wuwan to devour the Heavenly White Deer and make it her natal devouring object. Moreover, Zhu Wuwan had also obtained a lot of knowledge and experience from the Heavenly White Deer before this.

Song Ankang, who was quite satisfied, began to devour the third innate divine power. It was also the only supreme-grade divine power that the Heavenly White Deer had mastered.

Prophet!

As the name suggested, one could know some things without divination. They could predict the arrival of many dangers or opportunities in advance.

Without the interference of a great divine power of the same level and type, it was basically very difficult to break through.

To have such an amazing ability without divination, let alone after divination. To a certain extent, divination was more practical than divination. Of course, if the two could be effectively coordinated, the effect would be even more terrifying.

This was a supreme-grade divine power, which was also a great divine power. Its name shook the entire Evil Thoughts Great World, and almost everyone knew about it.

Chapter 1050: Team Annihilation (1) Chapter 1050: Team Annihilation (1) Two high-grade divine powers that were infinitely close to supreme-grade divine powers, and one of the top-grade divine powers. It was very worth it for this Heavenly White Deer to devour them. It was not an ordinary value.

In particular, the ability to predict the future with the ability to predict the future basically wouldn't happen again unless there were several demons and ghosts who were good at divination. Moreover, they had to master top-grade divination divine power.

Under such circumstances, he could interfere with Zhu Wuyang's early detection of danger. Otherwise, he would not have to worry about this incident happening again.

After stabilizing her level-nine strength and feeling the surging power in her body, Zhu Wuwan smiled. It was time to deal with the pursuers behind her.

In the memories of the Heavenly White Deer, Zhu Wuyang also knew why these demons and ghosts were chasing after him. Just as he had guessed before, it was indeed because of the Heavenly White Deer's great divine power of foresight.

A few years ago, in a divination, the White Deer through Heaven accidentally divined its own death, and the murderer was Zhu Wuyang.

In the beginning, there were only clues. After all, Zhu Wuwan had also mastered the top-grade divine power of Future Sight. The fluctuations of the surrounding fate lines were shocking, and it was very difficult to divine.

However, to a certain extent, divination was more powerful and practical than divination. Only then did the Heavenly White Deer detect some clues. Then, the panic-stricken Heavenly White Deer immediately took out a large number of treasures and asked two demons and ghosts who were also good at divination to help.

With the help of some demons and ghosts who were good at divination, the Heavenly White Deer finally managed to divine the details of the situation. Its death was indeed Zhu Wuwan's doing.

Not only that, but Zhu Wuyang would also bring a huge disaster to the demons and ghosts in the Evil Thought World. As long as this disaster could be stopped, the Heavenly White Deer would definitely obtain huge benefits, and the demons and ghosts involved in this matter would also obtain huge benefits.

As expected, it was the divination divine power that had divined some things that would happen in the future. That was why the Heavenly White Deer and the others had suddenly surrounded Zhu Wuyang to kill her.

Zhu Wanhao was also rather speechless about this. He secretly wondered if this was a target of the Will of the Great Path of the Evil Will World. The other party had already discovered his true identity.

However, if he were to discover it, he would probably not be able to pass this hurdle so easily. This time, it seemed rather dangerous, but in fact, it would at most cause some moderate injuries to Zhu Wuwan. To Zhu Wuwan, who had mastered the great divine power of immortality, this was nothing at all.

Moreover, as the Will of the Great Path of the Evil Will World, if it really wanted to target him, it would definitely influence even more powerful demons and ghosts to deal with him according to his situation. It could even directly suppress his strength through the rules of the Great Path.

However, when Zhu Wuwan used all kinds of divine powers during this period to affect the power of laws, she didn't notice this.

Therefore, it was basically certain that it was only the work of the White Deer through Heaven and the others. The will of the Great Path of the Evil Thought World did not make a move.

This made Zhu Wanhao feel much more at ease. Otherwise, if the Will of the Great Path of the Vicious Will World were to personally make a move, even Zhu Wanhao would find it troublesome and it would be very difficult to escape.

After adapting to his sudden increase in strength, he looked at the demons and ghosts that were still following behind him. They probably did not know that the Heavenly White Deer had been devoured by him. Otherwise, they would have escaped long ago instead of continuing to chase after him.

Since that was the case, he would send them on their way as soon as possible and let them accompany the Heavenly White Deer.

“Inescapable Net!”

Accompanied by Zhu Wuwan’s indifferent voice, an earth-shattering net descended from the sky and enveloped nearly a hundred high-level demons and ghosts. This was a great divine power, the Inescapable Net, simulated by the Myriad Forms Great Divine Power.

Although the simulated Heavenly Network only had half the power of the original version, it was enough.

Facing the sudden inescapable net, nearly a hundred high-level demons paled in horror.

“Why did this planet suddenly attack us? Isn’t he afraid that Lord Tongtian will break out? What kind of divine ability is this? Why can’t he break free?”

” Inescapable Net. This is the famous Inescapable Net. Even those who are one realm higher than Chaotic World Planet would find it hard to break free, let alone us. We have to join forces to attack. Perhaps we still have some hope. ”

“With Lord Tongtian causing trouble in its body, the Chaotic World Planet will not be able to unleash its full strength. Therefore, we have a high chance of success. Everyone, use your strongest innate divine ability to break through this inescapable net.”

“This idiot actually wants to deal with all of us at the same time. Who does he think he is? Everyone, come with me and break this stupid fishing net.”

..

However, before these demons and ghosts could make a move, they saw sword qi that covered the sky and the sun shooting towards them.

“Myriad Swords Return!”

It was another great divine power, and it was an extremely powerful offensive divine power. Although it was said to be the return of ten thousand swords, it was actually more than ten thousand swords. There were simply billions of sword qi.

Zhu Wuan’s power had been depleted by nearly half in one breath before he could use this offensive divine power that was also famous in the myriad worlds, Myriad Swords Return.

Every demon and ghost had to face the Ten Thousand Heart-Piercing Swords!

“Tch tch tch tch tch tch tch...”

Nearly a hundred high-level demons and ghosts tried their best to block the attacks of these sword auras. They no longer cared about breaking through the inescapable net. Their survival was the most important thing at the moment.

However, when faced with the great divine power of the Myriad Returning Swords, which was cast by the Ninth Grade Saint Zhu Wuyang through the Myriad Forms Unfathomable, these demons and ghosts, who were at most at the upper level of the eighth grade, were unable to resist at all. Their defenses were broken one after another, and then the myriad swords pierced through their hearts.

No, not only did it pierce through his heart, but it also pierced through his organs, his head, and his soul...He would let these demons and ghosts die without a burial place. No demons or ghosts could escape.

By the time the Great Divine Power of the Myriad Returning Swords ended, the nearly one hundred demons and monsters that had chased Zhu Wanhao for a long time and almost forced him into a dead end had all been killed by him. Not a single one was left behind.

Looking at the blood, flesh, and essence that filled the sky, Zhu Wuwan smiled and used the Unharmful Devouring Technique. Through the ordinary Devouring Technique, he devoured the blood, flesh, and essence and turned them into a part of his strength.

Soon, the essence of nearly a hundred high-level demons and monsters was completely devoured by Zhu Wuyang. His strength had also reached the peak of the initial stage of the ninth level, and he was only half a step away from the middle stage of the ninth level.

If it wasn't for Zhu Wuwan deliberately suppressing her strength and not increasing it too quickly, she would have wanted to stabilize it a little more.

After all, Zhu Wanhao had just broken through the bottleneck between level-eight and level-nine. If she were to break through any further, her foundation would be weak, so she deliberately suppressed it.

Otherwise, after devouring so much essence, Zhu Wuwan would have been able to advance to the middle stage of level-nine, and her overall strength would have soared further.
