

Read I'm Leveling Up Too Quickly Chapter 1051 - 1060

Abnormality (1)

Chapter 1051: Abnormality (1) Chapter 1051: Abnormality (1) This group of demons and ghosts that had suddenly appeared and brought Zhu Wuwan a lot of danger eventually became Zhu Wuwan's food.

Not only did the Heavenly White Deer fail to kill Zhu Wuyan, but it also gave Zhu Wuyan an extremely useful life-bound devouring object. His overall strength soared several times, and he stepped into the ranks of the Ninth Grade Saint in one fell swoop.

Moreover, the knowledge and experience that the Heavenly White Deer possessed were not inferior to the Heavenly Knowing Jade Plate in the slightest. In fact, it was even superior in many aspects. This was also a huge fortune.

The other demons and monsters had also helped Zhu Wuyang effectively stabilize his current strength. However, there were pros and cons. After killing so many high-level demons and monsters, Zhu Wuyang's influence had once again exploded.

The World Origin that Zhu Wanwan had earned from the Evil Thought World had already exceeded 5,000 points, and it was still slowly rising. Clearly, the influence of this matter had not ended.

My heart should shine on the moon, but the moon shines on the ditch.

Zhu Wanhao tried his best to earn less World Origin, but unfortunately, the heavens did not allow him to do so. If only he could be as stupid as the other high-level cultivators from Dongyuan Continent who entered the various macro worlds.

The other high-level cultivators in Dongyuan Continent often spent nearly a hundred years to earn about 1,000 points of World Origin. They couldn't even earn 1,000 points of World Origin.

Unlike Zhu Wanwan, who had never wanted to earn so much World Origin, she had still earned so much World Origin. Half of a hundred years had not even passed, but in the end, she had obtained so much World Origin. What should she do next?

If the other high-level cultivators of the Dongyuan Continent knew what Zhu Wanhao was thinking, they might want to kill Zhu Wanhao.

You can't insult people like this, right? You still want us to be envious and jealous, right?

The clone of the Evil Will World was flying and advancing rapidly. Zhu Wuwan's main body in the Dongyuan Continent was not idle either. It had also made great progress.

Thanks to the World Origin Energy he obtained from the three great worlds, Zhu Wuyan's talent and aptitude had further improved. She had already reached the level of a fifth-grade medium-grade immortal spirit root.

It seemed like he had only advanced by a small realm, but it had also caused the resources needed for Zhu Wuwan to break through to a new realm to plummet by a large margin. As the immortal spiritual root advanced, the more the world's origin was needed, and the difficulty of advancing by a small realm was comparable to the difficulty of advancing by a large realm.

In terms of strength, Zhu Wuan had already stabilized her strength as a Human Immortal. After passing the Yi Wood Tribulation, the quasi-Celestial Core Power in Zhu Wuan's body soared further, not inferior to the complete Celestial Core Power in the bodies of other Human Immortals.

When Zhu Wanwan passed the next three tribulations, this quasi-ten thousand nirvana immortal essence would definitely soar to an astonishing level. It wouldn't even be comparable to a Human Immortal at the middle Dujie stage or above.

However, because the breakthrough stones were all used on the clone, the main body still needed some time to prepare for the next Five Elements Tribulation. Fortunately, the breakthrough stones needed to improve were reduced, so it should not take much time.

Although the clone had consumed a large number of breakthrough stones, it had advanced to the level of a Ninth Grade Saint. Moreover, it had grasped so much knowledge and divine powers, and its main body had also received a considerable improvement.

Even though he didn't spend much time and energy on the Divine Powers that his main body had mastered, Zhu Wuwan had been busy plundering enough benefits from the Malevolent Thought World all these years. After all, once he left the Malevolent Thought World, he wouldn't be able to obtain these benefits anymore.

However, unknowingly, with the information and insights he had obtained from the Evil Will Great World, the power of the various divine arts that his main body had mastered had increased dramatically. Some divine arts had already shown signs of breaking through to second-grade divine arts.

The more divine powers one mastered, the stronger the power of laws one could draw. It could also bring a lot of help to the improvement of the main body. It could effectively weaken the power of the bottleneck, making it much easier to break through in the future.

After digesting the gains from this crisis, Zhu Wuwan's strength had increased a lot. She basically didn't have to worry about her own safety anymore. However, Zhu Wuwan kept an even lower profile.

There was no other reason than the fact that he was earning the world's origin too quickly.

Therefore, Zhu Wuwan tried her best to conceal her identity and secretly obtain what she wanted. She even rarely dissected powerful demons and ghosts to obtain information on their innate divine abilities. Instead, she dissected some demons and ghosts that were weak.

Zhu Wuyang would always choose to learn and test the same divine power from weak demons and ghosts, not from powerful demons and ghosts.

But even so, the world's origin source was still slowly growing. Fortunately, it was much slower than before. At this speed, it should be enough for Zhu Wuyang to last for about a hundred years.

As for the improvement of the first generation of the biochemical virus, Zhu Wuyan's progress was also very smooth. In just a few decades, he had improved the second generation of the biochemical virus.

He found a small gathering place for demons and monsters to test it out. He found that the effect was much better than the first-generation biochemical virus. It was also highly infectious and lethal to high-level demons and monsters. However, when faced with some targeted innate divine abilities, its resistance was too weak.

Especially when high-level demons and ghosts used these innate divine abilities, they could basically be removed. The flaws were a little obvious.

Moreover, the Bio-Gen II was extremely effective against Level Seven monsters, but it was several times weaker against Level Eight monsters. It was extremely ineffective against Level Nine monsters.

Therefore, he still needed to further improve the second generation of Biohazard. Otherwise, how could it bring him enough world origin?

Zhu Wuwan was once again immersed in research. A better third-generation biochemical virus was being researched. The chaotic humans, demons, and ghosts in the Evil Thought World did not know that a danger that was about to engulf the entire Evil Thought World was about to stir.

However, Zhu Wanwan did not know that all the high-level cultivators from Dongyuan Continent who were still in the macro world were gathered in the Evil Thought macro world. There were hundreds of them.

This was obviously not a normal thing. No matter how coincidental it was, such a situation would not happen. However, this kind of thing had happened.

However, due to the distrust between these high-level cultivators and the difficulty of communication in the Evil Will World, the various regions were relatively sealed, so no high-level cultivators discovered this.

Everyone was also trying their best to earn World Origin points. They wanted to earn 1,000 points of World Origin points as soon as possible so that they could return to Dongyuan Continent with a lot of gains.

However, it was still unknown whether he could successfully return. To be precise, whether he could withstand some attacks that could involve his main body was still unknown.

Chapter 1052: Heavenly Book and Earthly Code (1) Chapter 1052: Heavenly Book and Earthly Code (1) The most important thing was that the world's will of the Dongyuan Continent had been kept in the dark about the fact that most of the remaining high-level Cultivators were in the Evil Will World.

It was obviously impossible to do this by relying on the Malicious Thought World alone. It was possible to do this only if there were many macro worlds covering for the Malicious Thought World.

What this meant was self-evident!

The world where the Dongyuan Continent was located had reaped the harvest of the 3,000 macro worlds countless times. The region where the Dongyuan Continent was located was only one of them. Even so, it could be reaped once every 10,000 years. Each time, 3,000 reapers were sent out. One could imagine that the other regions would not be any worse.

How could the 3,000 macro worlds not notice the harvest of the world where the Dongyuan Continent was located? It was normal for them to work together to cause trouble for the macro world where the Dongyuan Continent was located.

This was just one of the counterattacks of the three thousand great worlds, and Zhu Wuwan and the others just happened to catch up.

Zhu Wuwan was still developing in a low-key manner. She was improving steadily in all aspects, and her days were still fulfilling and happy. She did not realize that danger was approaching at all.

The analysis of the divine power, the research of the third-generation biochemical virus, the improvement of the main body's strength ... They were all improving rapidly, completely unaware of the passage of time.

Although she didn't spend any more Breakthrough Stones to increase her strength, with the help of the Unharmful Devouring Tactic, Zhu Wuwan's strength quickly broke through to perfected level-nine. She was only half a step away from higher levels.

However, this half a step was as far as the sky.

After staying in the Evil Thoughts Great World for so long, Zhu Wuwan had never heard of a cultivator who had surpassed the ninth level. As for what that level was called, according to the memories left behind by the Heavenly Knowing Jade Plate, some people called it.

World Lord!

The master of the world could control the authority of the Evil Thought World and had the power to transcend any life. He could even stand on equal footing with the Will of the Great Path of the Evil Thought World.

According to some ancient books that could not be verified, the rules of the Malicious Will World were different from many macro worlds. As long as one could transcend Level Nine and above, they could directly understand all the rules involved in the Divine Powers they mastered and turn them into their own. In the future, no cultivator in the Malicious Will World could master Divine Powers that involved these rules unless the new owner of the rules allowed it.

Even the Will of the Great Path of the Evil Will World would lose control of these rules. Whether it could be used again in the future would depend on whether the new owner of the rules agreed or not.

Once he could completely grasp these rules, it would be extremely difficult for the Will of the Great Path to kill the new master of the rules. Moreover, once the new master of these rules was killed, the Malevolent World might lose these rules forever.

If what the ancient records said was true, with the various divine powers that Zhu Wuyang had mastered, there were many rules involved. Among them, there was even a fundamental rule like the time rule.

Once Zhu Wuyan broke through the shackles of the natural moat and advanced to level nine and above, the losses of the Evil Thought Great World could be imagined. Therefore, the possibility of Zhu Wuyan breaking through was less than one in a million.

Moreover, if one wanted to break through to the ninth level and above, they would have to face an unprecedented Heavenly Tribulation. The probability of passing it was very small. It was probably less than one in ten thousand of the Heavenly Tribulation that led to the Crossing Calamity Stage in Dongyuan Continent.

It was precisely because of this that, according to the information and books that Zhu Wuyan had learned, there had never been a cultivator in the Evil Will Great World who had been able to break through this natural moat and advance to level nine and above.

Not only among humans, but also among demons and ghosts.

In the current Evil Will World, the strongest cultivator was only at the pinnacle of level nine, which was Zhu Wuwan's current level. There was no one stronger than that, unless it was the Evil Will World itself.

Zhu Wuwan had also tried it after that. No matter how much he improved the Unharmful Devouring Technique, or how many demons and ghosts he devoured, his strength did not increase much. At most, he became a little more flexible in all aspects.

The energy in his body had already reached the limit. Be it purity or thickness, his body's toughness had also reached the limit. Be it hardness or flexibility, his mental power had also reached the limit. There was no way to increase it any further.

At this moment, 60 years had passed. In just 60 years, with the help of the strange rules of the Evil Thought World, Zhu Wuyang had reached the limit that this world could allow.

Now, there seemed to be only one way for Zhu Wuwan to increase her strength, and that was to comprehend and master more divine powers to increase her methods and techniques against enemies.

However, whether or not he could break through the limits and allow Zhu Wuyang's strength to continue increasing at its current peak, Zhu Wuyang had to try it out first.

Therefore, he set his sights on the next Life Source Devour. Heavenly Book and Earthly Code!

The so-called Book of Heaven and Earth, as the name suggested, was a strange creature that hid countless knowledge related to heaven and earth. It was said that the Book of Heaven and Earth recorded all the information and knowledge of the Evil Will World. Whoever could swallow the Book of Heaven and Earth would definitely become the most knowledgeable person in the Evil Will World.

Although Zhu Wuwan knew that this was an exaggeration, it was impossible to have such an almost omniscient ability. It was just like the Heavenly Knowing Jade Plate. At that time, many demons and ghosts claimed that it was omniscient and omnipotent. In the end, after devouring it, they realized that the Heavenly Knowing Jade Plate only understood some things through divine powers.

However, it was certain that there were many good things in the Heavenly Book Land Pawn. It was definitely not inferior to the Heavenly Knowing Jade Plate and the

Heavenly White Deer. Its reputation was also greater than the Heavenly Knowing Jade Plate and the Heavenly White Deer.

The Heavenly Book and the Earth Code had already reached the peak of Level Nine. It was one of the Anomalies with the highest cultivation in the Evil Will World. It was said that it had mastered at least two Divine Senses. Although these Divine Senses were not good at fighting, their auxiliary effects were amazing. It was as difficult as ascending to the heavens to catch it.

After secretly following and understanding the situation for a long time, Zhu Wanwan was temporarily able to confirm that the innate divine power mastered by the Heavenly Book and the Earth Code had the supreme-grade divine power, Endless Incarnations. This was an incarnation technique that was one level higher than the Incarnations of Trillions, and it could transform into even more incarnations.

Furthermore, one of these incarnations could unleash the full combat power of the original body at any time. If they failed, they could give up. As long as one of the incarnations did not die, the cultivator who had mastered this innate divine ability would not die.

Relatively speaking, this kind of great divine power was even more abnormal than immortality. Over the countless years, the Heavenly Book and the Earth Code had split into countless incarnations, covering almost every corner of the Evil Thought World.

It was with the help of these incarnations that the Book of Heaven and the Book of Earth was able to collect so much knowledge and information. It could be said to be a library among demons and ghosts.

Chapter 1053: Inviting You Into the Urn (1) Chapter 1053: Inviting You Into the Urn (1) Endless Incarnation was only one of the great divine powers that the Heavenly Book and the Earthly Code grasped. Some demons and ghosts even said that the Heavenly Book and the Earthly Code grasped another great divine power, which was related to time.

However, this matter was not confirmed, but the possibility was very high. As for whether he had mastered other innate divine abilities, that was unknown.

The endless incarnations and the time god art complemented each other. This was why the Heavenly Book and the Law of Earth had been safe and sound all these years. Even if their combat strength was relatively weak, nothing had happened, even if some human saints had their eyes on the Heavenly Book and the Law of Earth.

However, Zhu Wuan was different from them. Zhu Wuan had mastered the Great Divine Power of Myriad Forms Unfathomable and could simulate any Great Divine Power, including some Great Divine Powers that targeted endless avatars and time-type Divine Powers.

For example, the Nowhere to Escape Super Power was specifically targeted at demons and ghosts that had countless incarnations. Once it was used, no matter how many incarnations the other party had, they could all be captured and not a single one would be left behind.

There was also the Great Time Shattering Divine Ability, which was a divine ability that specialized in dealing with time. It could effectively suppress the time-related divine abilities mastered by the Heavenly Book and the Earth Code.

However, the Heavenly Book and Earth Code's endless incarnations were great divine arts, and that time-type divine art was also very likely to be a great divine art. However, the great divine art simulated by the myriad forms was still inferior to it.

Therefore, if he wanted to display the corresponding effect, he had to make good preparations and use the array formation to increase the power of the Myriad Forms Inscrutable Simulation Divine Power. Otherwise, he might not be able to take down the Heavenly Book and the Earth Code.

After some consideration, Zhu Wuwan began to set up a group of arrays in a place where the Heavenly Book and the Earthly Code often appeared. After staying in the Evil Thought World for so long and absorbing the memories of so many demons and ghosts, especially the memories of the Heavenly White Deer and the Heavenly Jade Plate.

In addition, Zhu Wuan's original body was also a super expert in array formations. With the combination of various advantages, Zhu Wuan had long cultivated the path of array formations to the peak in the Evil Thought Great World. She was able to set up several of the most powerful array formations in the Evil Thought Great World.

At this moment, with just a slight improvement, he had set up a group of hair-suppressing arrays that could greatly enhance the Great Divine Powers of Nowhere to Escape and Time Destruction. It had consumed Zhu Wuwan's decades of accumulation. In order to set up this array group, Zhu Wuwan had even deliberately gone out to steal many treasures and drilled into the origin of nearly a thousand worlds.

In order to obtain the Heavenly Book and the Earthly Code, Zhu Wuwan had also invested a lot. However, after obtaining the Heavenly Book and the Earthly Code, this array formation could still be used. After all, Zhu Wuwan's natal devouring quota had not been completed yet.

Two-Headed Demonic Snake, Heavenly Star Beast, Indestructible Blood Demon, Demonic Concealment Monkey, Heavenly Jade Plate, Heavenly White Deer ... Zhu Wanwan only had six life-bound devourers so far, and with the addition of the Heavenly Knowing Jade Plate, he only had seven. He could still devour two more life-bound devourers. He wondered if he could break through the shackles of the past and advance to level nine with the help of these two life-bound devourers.

After spending a few months setting up and improving the array formation that greatly strengthened the Nowhere to Escape and Time Break, Zhu Wuwan began to guide the Heavenly Book and the Earth Code into the array formation. Only then could it be used to its greatest effect.

Although he only needed to summon a clone over, if he could summon his main body over, the effect would undoubtedly be better.

After some planning, Zhu Wuyang learned about the preferences of the Heavenly Book and the Earth Code through various information. He knew that it liked to obtain knowledge and information that it had never heard of before, so Zhu Wuyang made arrangements for it.

In the memories of the Heavenly White Deer, Zhu Wuwan knew that there was a hidden race in the Evil Thought Great World. Up until now, only the Heavenly White Deer had discovered it. This race had an extremely long history and had always lived in seclusion.

Over the years, this race had accumulated a lot of knowledge and information that belonged to this race. Many of them were of great value. The Heavenly White Deer had even specially learned from that race for decades. This knowledge and information would definitely be able to move the Heavenly Book and the Earth Code.

Therefore, after some consideration, Zhu Wuwan came to this race and enslaved a few knowledgeable people of this race with the enslavement technique. He let them take some ancient books and leave their seclusion place, saying that they wanted to exchange these ancient books for things that the race needed, and let this news spread.

After a series of arrangements, the Heavenly Book and the Earth Code was indeed tempted. After not finding any flaws, it felt that this should not be a trap. Moreover, even if it was really a trap, with the endless incarnations and the great divine power of time, what was it afraid of?

Therefore, the Heavenly Book and the Earth Code had decisively entered the array formation when this group of people entered, preparing to steal these ancient books and so on.

As for what to do if they were discovered, he would kill all these people. After all, the strongest among them was only at level-seven, and they were still human livestock.

However, just as the Heavenly Book and the Earth Code had succeeded, it discovered that an array formation had risen from the surroundings and enveloped it layer by layer, directly imprisoning its movements.

The Heavenly Book and the Earth Code tried their best to escape, but they could not escape no matter what. They were forcefully suppressed again.

Although the Heavenly Book and the Earth Code could be reborn in another place by giving up this main body, they would have to give up all the treasures on the main body, and the subsequent recovery would take a long time. Unless they had no other choice, the Heavenly Book and the Earth Code would not want to do this.

“Nowhere to run!”

Just as the Heavenly Book and the Earthly Code were hesitating, a mysterious voice was heard. Its countless incarnations were summoned over at a terrifying speed, all bound to this array formation.

Seeing this scene, the Heavenly Book and the Earth Code knew that it was too late. Even if they gave up on this main body now, it would only be captured faster.

Therefore, after a moment of consideration, he immediately mobilized all the power in his body, wanting to forcefully break through the array formation around him.

The countless incarnations unleashed their full power, wanting to break free from the clutches that had nowhere to escape. The entire array formation began to tremble violently.

With the combination of great divine power and the strength of a perfected level nine, the simulation of Myriad Forms Unfathomable had nowhere to run and could not be resisted at all. Fortunately, Zhu Wuwan was mentally prepared. The first thing she did was to activate the array formation’s amplification of nowhere to run, instantly suppressing this turbulence and summoning the incarnation of the Heavenly Book and the Earth Code at an even faster speed.

“Break...”

The Heavenly Book and the Earth Code also realized the arrival of danger. The power in their bodies was unleashed to the extreme. The countless incarnations that they had accumulated over the years erupted with all their strength. Unfortunately, they still could not block the cooperation of the Nowhere to Escape and the array formation.

In just a few dozen breaths of time, several of the clones of the Heavenly Book and the Earth Code had been captured. They were all struggling in the array formation, and none of them could escape.

Chapter 1054: Great Calamity and Fortune (1) Chapter 1054: Great Calamity and Fortune (1) “Time Reversal!”

At the moment of life and death, the Heavenly Book and the Earth Code decisively used another trump card, which was the time-type great divine power, Time Reversal. They wanted to return time to before the array was activated, so that they could escape in time.

However, as soon as the Heavenly Book and Earth Code's Time Reversal was used, Zhu Wuwan's other divine power was also used under the enhancement of the array formation group.

"Time Shattering!"

It directly broke the Time Reversal of the Heavenly Book and the Earth Code, which was also one of the great divine powers. Then, under the shocked gaze of the Heavenly Book and the Earth Code, it captured all of its clones.

"Unharmful Devouring Technique!"

Without waiting for the Heavenly Book and Earth Code to use its next trump card, Zhu Wuwan decisively used the Unharmful Devouring Technique and swallowed the Heavenly Book and Earth Code and all its incarnations into his dantian. He began to digest them at an astonishing speed.

"Heaven Covering Sword!"

"Destroy the world!"

"World-Destroying Spear!"

..

Just as he was swallowed into Zhu Wuwan's dantian, the next wave of counterattacks from the Heavenly Book and the Earth Code came one after another. After all, he was an old Strange Saint who had lived for hundreds of thousands of years. The trump cards he held were beyond imagination.

Even if he didn't count the endless incarnations and time reversal, there were other divine weapons and special secret skills that weren't inferior. However, Zhu Wuwan's Unharmful Devouring Technique was still the most terrifying secret skill in the Evil Thought World.

Moreover, Zhu Wuwan was a Saint at the pinnacle of level nine. Her strength had already reached the peak of the Evil Will World. She had also mastered countless secret techniques and many divine weapons.

Faced with the waves of attacks from the Heavenly Book and the Law of Earth, Zhu Wuwan decisively countered them and blocked their attacks, not letting them succeed even once.

To be honest, the most troublesome part of the Heavenly Book and Earth Code was its endless incarnations and the reversal of time. As for other aspects, they were not worth mentioning at all.

After all, Zhu Wanhao's current strength had already reached the pinnacle of level nine, and she had even mastered several divine powers. Her comprehensive strength crushed the Heavenly Book and the Earth Code.

As long as he could restrain the endless incarnations and the reversal of time, the Heavenly Book and the Earthly Code were nothing in front of Zhu Wuyang. He could do whatever he wanted and basically had no power to resist.

Therefore, at this moment, the attacks of the Heavenly Book and the Law of Earth might seem extremely ferocious to others, but to Zhu Wuyang, they were just a piece of cake. They were all blocked by Zhu Wuyang, and then the despairing Heavenly Book and the Law of Earth were swallowed bit by bit.

Faced with the huge amount of strange power brought by the Heavenly Book of Despair, Zhu Wuwan tried his best to control the power he used to increase his overall strength, such as his physical strength and flexibility, his mental power, and the strength in his body.

Regrettably, Zhu Wuwan felt as if there was a huge shackle in his body that was resisting the impact of such a huge strange force. He could not break through it no matter what, and it was just a waste of strange force.

No matter how much power Zhu Wuwan had used up in the Heavenly Book and the Earthly Code, as well as in his own body, he did not improve at all. There seemed to be a huge shackle in front of him that was preventing Zhu Wuwan from reaching a higher realm.

This should be the limit of the Malevolent Thought World!

Zhu Wuan came to this conclusion based on the information and speculations he had obtained.

As mentioned before, the rules of the Malicious Will World were special. As long as one could comprehend a little bit of the rules, they would be able to completely take it for themselves and forcefully remove it from the Malicious Will World. Unlike most worlds, even if a cultivator understood a certain rule, the rule would still belong to the macro world. It was just that the cultivator could use it.

However, the Malevolent Thought World was completely different from this one. He did not know what was going on. Perhaps it was because this macro world was unintentionally constructed by humans, so there were many places that were a little crazy.

That's right. From Zhu Wuwan's point of view, the Evil Thought World was a world of madness and despair, whether it was for humans or demons.

Humans were at the bottom of the food chain in the Evil Thought World and could face extinction at any time. However, they were nurtured by demons and ghosts, using humans to breed even more terrifying demons and ghosts.

To be honest, even if the human race was not disturbed by the demons and ghosts and allowed to develop on its own, there would still be a lot of filth and evil thoughts. They would never stop. They would not do so in the past, not now, and never in the future.

Under such circumstances, it was impossible for demons and ghosts to be finished. Therefore, this was simply a world of despair for the human race.

However, this wasn't a good place for demons and ghosts either. This was because demons and ghosts fought fiercely among themselves. They were born from evil thoughts, and their essence was evil and terrifying. One could imagine what their behavior would be like.

Slaughter, madness, despair, darkness...The Evil Thought World was a bloody world without any order, so this world was crazy.

Moreover, according to historical records, such a macro world was not born by the Vile Thought Great World on its own. Instead, because of the actions of the human race, it unintentionally communicated with many strange worlds. As a result, it was affected by the power of these worlds, and finally, such a strange world was born.

Everyone knew that any world that had the hope of advancing or was slightly ambitious was a world with a certain degree of order. Basically, order was greater than chaos.

However, in the Evil Thought World, Order only existed in a small part of the world, not even one-tenth of the world. The rest of the world was occupied by chaos and slaughter, making everyone feel hopeless. Even the demons and ghosts did not think that this was a good world.

It was not strange for such a strange law to appear in such a chaotic and evil world.

It seemed that there was no hope of even rising, but as long as they could break the limit and raise their comprehensive quality to a higher level, which was the level where they could comprehend these rules, wouldn't it mean that the cultivators could seize the power of the rules from the mouth of the Malevolent Thought World and possess the ownership of these rules, thus faintly surpassing the will of the Heavenly Way?

Blessings were the cause of misfortune. Once Zhu Wuyang succeeded, he would definitely obtain supreme authority in the Evil Thought Great World.

Unfortunately, the Evil Thought World was only a world that Zhu Wuyang wanted to plunder and plunder. She could only stay here for a hundred years. After a hundred

years, she would have no choice but to leave. Therefore, this great opportunity did not mean much to Zhu Wuyang.

Although he had the Special Encounter System in hand, the time was too short. Zhu Wuwan was not confident that he could break through the limit in such a short period of time and make his comprehensive quality reach the level of being able to understand the power of laws. Therefore, there was no need to waste time on this. It was better to think about how to earn more World Origin before leaving.

Chapter 1055: Possibility of Mastering the Rules (1) Chapter 1055: Possibility of Mastering the Rules (1) After considering it properly, Zhu Wuwan no longer bothered about breaking through her limits. Instead, she used these strange forces to further consolidate her cultivation foundation and polish all parts of her body so that all parts of her body could be perfectly round.

At the same time, Zhu Wuyang also began to absorb the divine powers mastered by the Heavenly Book and the Earth Code. The first thing he absorbed was naturally the endless incarnations.

This was a supreme-grade divine power, which was also a great divine power. Once one mastered it, as long as the cultivator was given enough time, they could split into endless incarnations.

Each of these incarnations could move alone and had a good level of intelligence. As long as one of the incarnations was alive, the cultivator would not die.

The Infinite Incarnation was one of the most powerful life-saving Mystical Powers in the Evil Will World. If there was no Inescapable Net that could restrain it, the cultivators who had mastered the Infinite Incarnation would not have to worry about being killed by the enemy.

Of course, the Heavenly Network also had its own great divine power that could counter it. Coincidentally, Zhu Wuyang could also simulate this great divine power through the Myriad Forms Unfathomable Divine Power. Therefore, Zhu Wuyang, who had mastered the Myriad Forms Unfathomable and Endless Incarnations, should not have to worry about getting himself killed in the future.

After absorbing the great divine power of the endless incarnations, Zhu Wuwan nodded in satisfaction and began to absorb the time reversal.

This was also a great divine power. There was no need to introduce it too much. Just from its name, one could feel how terrifying it was. It was said that if one cultivated it to the extreme, it could even make a peak expert who was hundreds of thousands of years old return to the infant stage in a short period of time. Its power was extremely terrifying.

In the process of fierce battles, once they encountered a fatal mistake, they could also use Time Reversal in time to avoid the disaster. Or they could discover the enemy's fatal mistake and use Time Reversal without catching it.

It could attack or defend, and the effects of Time Reversal were endless. It was worthy of its level.

After absorbing the great divine power of endless incarnations and time reversal, just when Zhu Wuwan thought that the Heavenly Book and the Law of the Earth had only grasped two divine powers, he was surprised to discover that there was actually another divine power hidden in the body of the Heavenly Book and the Law of the Earth.

Naturally, Zhu Wuyang would not give up. He immediately accepted it with a smile. Soon, he was shocked.

Heaven and Earth Great Concealment!

It was one of the concealment divine powers, and it was one of the top concealment divine powers. It could hide between heaven and earth and almost no one could discover it.

The Heavenly Book and Earth Code didn't have two divine powers, but three. Moreover, these three divine powers were all supreme-grade divine powers, and they were the top of the different types of divine powers.

The Evil Will World had treated it well, allowing it to possess three Divine Powers. No wonder it had been able to improve so quickly over the years without encountering any danger.

If Zhu Wuwan hadn't grasped the Great Divine Power of Myriad Forms Unfathomable, which could simulate all kinds of Divine Powers, and grasped many other Great Divine Powers, his overall strength would have been several times stronger than the Heavenly Book and the Earth Code. He probably wouldn't have been able to take it down at all.

Now that he had luckily obtained the Heavenly Book and the Earthly Code, he had naturally reaped an extremely bountiful harvest.

Zhu Wuwan excitedly sensed the three new great divine powers in her body. Even she felt that it was a little too exaggerated. She had mastered so many supreme-grade divine powers, high-grade divine powers, and middle-grade divine powers... Looking at the vast world, let alone those demons and ghosts, even the will of the Heavenly Dao would find it almost impossible to kill Zhu Wuyang.

Such a foundation and foundation had completely surpassed the main body of Dongyuan Continent. Unfortunately, the level of the Evil Thought World was limited, and

the rules were relatively distorted. The time Zhu Wuwan could stay here was limited. Otherwise, it would be a world worthy of vigorous development.

After devouring the Heavenly Book and the Earth Code and turning it into a Life Source Devourer, Zhu Wuwan had eight types of Life Source Devourer objects. They were the Two-Headed Demonic Snake, the Heavenly Star Beast, the Indestructible Blood Demon, the Demonic Concealment Monkey, the Heavenly Knowing Jade Plate, the Myriad Phase Bug, the Heavenly White Deer, and the Heavenly Book and the Earth Code.

Next, Zhu Wuyang only had one natal quota left. This time, Zhu Wuyang was prepared to carefully choose and find the most suitable natal devouring object for herself.

Although Myriad Forms Unfathomable could simulate all kinds of divine powers, it could not reach the power of the original version. Moreover, the duration was limited, so the original divine power was better.

In the following days, Song Ankang spent most of his time studying biochemical viruses and comprehending divine arts. A small portion of his time was spent looking for suitable natal devouring objects and breaking through his limits.

The process of searching for the life-bound devouring object was relatively smooth. Zhu Wuwan had already discovered a demonic beast that tempted him. He was currently in pursuit, but it would be very difficult to break through the limit.

No matter how Zhu Wuwan thought of all sorts of methods, she was unable to break through the limit by half a step. Body strength, flexibility, strength, speed, reaction...His mental power, in particular, had already reached the limit that the Malevolent Thought World could accommodate, and he could no longer increase it by a single bit.

However, according to Zhu Wuyan's speculation, if he wanted to comprehend the power of the natural order and truly turn it into his own use, Zhu Wuyan's mental power would have to at least double and undergo a transformation, reaching the level of Heavenly Essence in a single leap. Only then would he be able to comprehend the power of the natural order and not only affect it through divine arts.

Using divine powers to mobilize the power of laws was only a superficial mobilization. It could not even unleash 1% of the power of laws, and it was in an extremely passive position.

If the power of laws no longer responded one day, Zhu Wuwan's divine powers would all become useless and would no longer be of any use.

Therefore, if it was possible, it would be better to understand the rules and control the power of the rules. This would also be extremely important for the cultivation of Zhu Wuwan's main body in Dongyuan Continent.

It was precisely because of this that Zhu Wuyang was willing to take some time to try. Unfortunately, after trying thousands of times, he ended up failing.

Fortunately, Zhu Wuwan didn't spend too much time and energy on this. After realizing the conditions to fully comprehend and master the rules of the Evil Thought Great World, Zhu Wuwan spent even less time on this. Most of her time was spent on other aspects, preparing to make a fortune in the Evil Thought Great World.

Although the Evil Thought World was crazy and distorted, it was undeniable that it contained a rich source of the world. Once the plan was successfully implemented, the amount of the world's source that Zhu Wuwan could obtain here would definitely not be a small number.

The busy days always passed very quickly. Without realizing it, several years had passed. What Zhu Wuwan didn't know was that he was slowly rushing toward the center of the Malicious Thought World under the influence of an unknown force. The other hundreds of high-level cultivators from Dongyuan Continent were also doing the same. They were slowly approaching the center of the Malicious Thought World.

Chapter 1056: Exquisite (1) Chapter 1056: Exquisite (1) When a macro world wanted to scheme against certain individuals, it was not too difficult, especially since this macro world had all kinds of strange divine powers and the power of laws.

Moreover, even Zhu Wuyan could tell that this macro world was crazy and desperate. The possibility of destruction in the future was very high, let alone this macro world itself.

It didn't want this to happen, but because of human greed, Pandora's box was accidentally opened, and it ended up in this kind of distortion and chaos.

In order to solve such a big problem, the first thing to do was to eliminate such chaos and distortion, even if it meant paying a high price.

However, as misfortune lurks in misfortune, so does fortune. If it could be operated properly, not only would it not pay too much of a price, but it might even gain a lot of benefits.

The cultivators from Dongyuan Continent who 'accidentally' entered its body were the opportunity that the Vicious Thoughts World had been waiting for ten thousand years.

Zhu Wanhao didn't know about this, nor did the other high-level cultivators in the Dongyuan Continent. Even the Will of the Great Path in the Dongyuan Continent had been temporarily concealed by the Will of the Great Path in the Evil Thought World.

Time passed very quickly amidst the busyness. After an unknown period of time, the Bio-Experimental Third Generation Virus was developed by Zhu Wuwan. Its power was

much more powerful than the Bio-Experimental Second Generation Virus, and it could effectively resist the various divine powers and resistance physiques of Level Seven and Level Eight cultivators.

However, when faced with the supernatural power and physique of a level-nine cultivator, the effect plummeted again. After some consideration and seeing that it was still early, Zhu Wuwan began to study the fourth generation biochemical virus.

Even though Zhu Wuwan had not broken through her limits after such a long time, other than her strength becoming more rounded, there was no other improvement. Clearly, the limits of the Evil Thought World were not so easy to break through.

However, Zhu Wuwan had found two suitable life-bound devouring objects. At this moment, she was hesitating which one to use as her life-bound devouring object.

One of the two life-bound devouring objects was the Undying Evil Phoenix, and the other was the Exquisite Stone Golem.

The Undying Evil Phoenix was a demonic creature at the peak of the ninth rank. From its name, one could tell that it had mastered a great divine power similar to immortality.

Rising from the ashes!

As the name suggested, one could revive after death through this great divine power. Although he had to prepare some things in advance, it was still one of the top life-saving divine powers in the Evil Will Great World.

Apart from the Ashes Rebirth, the Immortal Evil Phoenix also mastered the Hell Lotus Flower and the Dark Underworld, two high-grade Divine Powers. Moreover, one was for offense and the other was for defense. When combined, they were not inferior to most Great Divine Powers.

The three Divine Powers were all pretty good, so Zhu Wuwan was naturally tempted. However, before Zhu Wuwan could turn the Undying Evil Phoenix into a life-bound devouring object, he encountered another life-bound devouring object that tempted him to the extreme.

Strange Exquisite Stone Golem!

Although it was only a level eight monster, it had mastered a heaven-defying great divine power.

Exquisite!

It could increase a cultivator's comprehension ability by seven times. Moreover, this was a passive divine ability that was constantly being used.

Zhu Wuyang's comprehension ability was already extremely terrifying. If it was increased by seven times, one could imagine how much it could reach. Moreover, comprehension ability was a kind of illusory power that was not limited by the Will of the Great Path of the Evil Thought World.

Moreover, this increase in comprehension could not only be applied to the avatar. In other words, the avatar that Zhu Wuyang had split could also possess all of Zhu Wuyang's comprehension for a short period of time.

If Zhu Wanhao was willing, she could even transfer this passive effect to a clone forever. This was also one of the special effects of a great divine power like the Seven Apertures Exquisite.

Not only that, but after the avatar was used up, he could also transfer the passive effect of seven times comprehension back. This made Zhu Wanwan suddenly have an idea. If that was the case, could he transfer the passive effect of seven times comprehension from the avatar of the Evil Thought Great World to the main body of the Dongyuan Continent?

In theory, it should be possible. After all, the clone and the main body had a certain connection through the special encounter system, unlike other high-level monks who entered the Malevolent World. The main body and the clone could only contact each other when they returned.

However, that was not necessarily the case. However, as long as there was a glimmer of hope, it was worth Zhu Wuyan trying. Once he succeeded, Zhu Wuyan would obtain unimaginable benefits.

The main body's comprehension ability was already terrifying. If he could increase it by seven times on this foundation, one could imagine what level he could reach.

Moreover, even if he failed, the seven-fold increase in the comprehension ability of the clone would also be a huge help to Zhu Wuwan's subsequent research on biochemical viruses and comprehension of various divine powers.

Therefore, after some consideration, Zhu Wuwan decided to give up on the Immortal Evil Phoenix and make the Exquisite Stoneman her next life-bound devouring object.

Since he had already made up his mind, Zhu Wuwan no longer hesitated. He immediately activated his Life Devouring and swallowed the Exquisite Stone Golem into his body bit by bit.

Unfortunately, Zhu Wuwan's overall quality had already reached its peak. The strange strength brought by the Exquisite Stone Golem only made Zhu Wuwan's overall quality slightly smoother. In the future, it would become more and more convenient to use. Other than that, there was no increase.

After that, Zhu Wuwan began to devour the Exquisite Stone Being's innate divine power. There was no surprise this time, and the Exquisite Stone Being had grasped this innate divine power.

By the way, after obtaining nine types of Natal Devour in succession and fusing the talents of these nine types of Natal Devour, Zhu Wuwan's clone's talent in the Evil Thought World could be said to be one of the best.

In the vast Evil Thought World, there was almost no one who could compete with it, let alone humans, even demons and ghosts.

At the very least, Zhu Wuwan had traveled through half of the Evil Thoughts World, but he had never seen a human cultivator, demon, ghost, or any other creature with greater talent and aptitude than him.

In other words, the talent and aptitude of this avatar of Zhu Wuyang might have reached the strongest level in the Evil Thought Great World. It was a pity that there was no way to advance in this great world. Otherwise, Zhu Wuyang's strength could have increased by a lot.

Very soon, the seven orifices fused into Zhu Wuyang's body. Zhu Wuyang could clearly feel the sudden increase in the perception of this avatar of the Evil Will Great World. He immediately understood many things that he did not understand in the past, and there was no longer anything he could not understand.

Zhu Wuwan even had a result on the next research direction of the biochemical virus. If nothing unexpected happened, the next generation of biochemical virus would be developed very soon.

However, the most important thing at the moment was not this. It was whether the great divine power of the Seven Apertures could be transferred to the main body.

Chapter 1057: The Strongest Warrior in the East Yuan (1) Chapter 1057: The Strongest Warrior in the East Yuan (1) "Hu..."

Taking a deep breath, Zhu Wuwan activated the transfer effect of the Seven Apertures Exquisite Super Power, allowing him to silently transfer over through the connection between the Special Encounter System and his main body.

The Seven Apertures Exquisite was a unique great divine power and one of the top great divine powers of the Malicious Thought Great World. It contained the origin and essence of the Malicious Thought Great World.

Once it was transferred out of the Malevolent Will Major World, it would mean that the Malevolent Will Major World would forever lose such a great Divine Power. It would also

bring along an extremely rich source and essence power, and even a portion of the power of laws would be affected.

This would easily attract the attention of the Will of the Great Path of the Evil Will World. However, with the protection of the special encounter system, Zhu Wuwan felt that it shouldn't be a problem.

After all, even the Will of the Great Path in the Dongyuan Continent could not discover the existence of the special encounter system, let alone the Evil Will World, which was much weaker than the world in the Dongyuan Continent.

As the divine power was activated, Zhu Wuwan could clearly sense an extremely powerful force surging from all over the Evil Will Great World. There was an origin, rules, and something indescribable inside...Just like that, it flowed through his clone in the Evil Will World and was transferred to his main body through the special encounter system.

Zhu Wuwan's original body, who was sitting cross-legged, trembled. He could clearly feel his perception soaring, soaring, soaring...In one breath, it had increased to more than three times its original value, not seven times.

It was obvious that the effects had been greatly reduced during the process of transferring to the main body. Even so, Zhu Wuwan's main body's comprehension had reached a terrifying level after it had increased by three times.

Almost immediately, the inspiration in Zhu Wuwan's mind gave him the confidence to increase the various divine powers he had mastered by one or two realms. There were also many things that he had not understood in the past. At this moment, he was suddenly enlightened, and there was almost no doubt.

That exquisitely crafted feeling was truly intoxicating.

With the help of this earth-shattering comprehension ability, Zhu Wuwan's cultivation progress would soar again in the future.

At the same time, the clone in the Malicious Thought World could clearly feel an inexplicable power sweeping across his body. It was obvious that the Will of the Great Path of the Malicious Thought World was paying attention to him at this moment, wanting to know where the enormous power in his body had gone.

However, the Will of the Great Path of the Evil Will World did not notice anything amiss. After circling for a while, it gradually retreated.

Zhu Wuwan's clothes were already soaked in sweat. This was the first time he had sensed the existence of the Will of the Great Path so clearly. It was so terrifying and

vast that it could destroy his clone and main body almost instantly. The two were not on the same level at all.

If it wasn't for the Special Encounter System hiding from its detection, Zhu Wuyang would probably be dead by now. However, even so, the Will of the Great Path of the Malevolent Thought World had left a mark on him. If similar situations happened in the future, or if it sensed the whereabouts of the Seven Acupores Exquisite, the consequences would be unimaginable.

Fortunately, because it didn't sense that the Seven Apertures Exquisite had left the Evil Thoughts Great World, the will of the Great Path thought that Zhu Wuwan had used some method to hide it in her body, so it didn't take the next step.

However, what Zhu Wuwan did not know was that after the Will of the Great Path of the Evil Will World left, many of its actions began to speed up, as if it had found a way forward.

After obtaining such a huge benefit, Zhu Wuwan was also extremely excited. He almost couldn't control himself. He didn't expect to actually obtain such a benefit from the Evil Thought Great World. It would have a huge impact on the cultivation of his main body in the future.

The choice of the ninth life-bound devouring object was really worth it. If he had known this earlier, he would have paid more attention to this divine power in the past.

However, thinking about it, there weren't many Divine Powers that could be transferred to the Seven Apertures Exquisite Realm, especially those that could help the main body. Moreover, if there were too many Divine Powers that could be transferred, who knew if the Will of the Great Path of the Evil Thought World would directly punish them.

What Zhu Wuwan did not know was that if it was not for the fact that the transfer this time was beneficial to the Will of the Great Path of the Evil Will World and gave it a direction, it would have already sent down divine retribution.

If Zhu Wuyang came a few more times, the Will of the Great Path of the Evil Will World would probably attack him directly and not let him go too far.

After all, the act of digging out a Uniqueness Divine Power was also extremely harmful to the Evil Thought World.

In the following period of time, Zhu Wuwan's comprehension of divine arts and research on biochemical viruses advanced rapidly, far surpassing what she had previously. In just a few years, her main body had actually raised the various divine arts she had grasped to the Third Stage Realm.

Under normal circumstances, a Human Immortal at the Crossing Calamity Stage could at most master a first-grade Divine Power. After all, Divine Powers were generally only mastered by Genuine Immortals who had surpassed the Crossing Calamity Stage.

However, Zhu Wanwan had forcefully created a divine power that belonged solely to herself with the strength of a Dujie stage cultivator. She had also bypassed some hard conditions and forcefully crossed realms to master a third-grade divine power. The power that erupted was enough to sweep across Dujie stage cultivators.

In the entire Dongyuan Continent, no cultivator was a match for Zhu Wanhao. At this moment, Zhu Wanhao was truly invincible in the Dongyuan Continent. Even if the other Human Immortals of the Dongyuan Continent joined forces, Zhu Wanhao was confident that he could defeat them all.

Right, Zhu Wuwan had yet to truly step into the Human Immortal Tribulation Stage. He had just passed the Heavenly Fire Tribulation of the Five Elements Tribulation and had yet to pass the Earth Tribulation.

Only after passing the complete Five Elements Tribulation could Zhu Wuwan be considered to have completely stepped into the ranks of Human Immortals.

Therefore, after considering for a while, Zhu Wuwan decisively relied on her own strength. Of course, with the help of her sudden increase in comprehension, she found a suitable method to transcend the tribulation and successfully passed the tribulation of the thick earth. She basically did not spend many breakthrough stones.

After completely passing the five element tribulation, Zhu Wuwan's strength had steadily entered the early Dujie stage. The 10,000 nirvana earth essence, 10,000 nirvana immortal essence, and 10,000 nirvana heavenly essence had already successfully transformed into 10,000 nirvana immortal essence, giving off a glass-like luster. The strands of 10,000 nirvana immortal essence gave people a feeling of being alive.

After transforming into ten thousand nirvana immortal essence, each strand of ten thousand nirvana immortal essence was at least ten times stronger than the previous ten thousand nirvana earth essence. It even had some intelligence. Even if it left Zhu Wuyang's body, it could slowly absorb the world's spiritual energy to ensure its own existence.

It would not decay, it would not decay, it would exist forever ... This was the power of immortal essence.

Even though Hell Pan Tian Yuan and Stellar Mortal Yuan had yet to pass the Heavenly Tribulation and reach a higher level, under the nourishment of the Ten Thousand Nirvana Immortal Essence, their power had far surpassed before.

Although he had just entered the Crossing Calamity Stage, Zhu Wuyan was already invincible in the Dongyuan Continent.

Chapter 1058: Something's Wrong (1) Chapter 1058: Something's Wrong (1) The various divine powers that Zhu Wanhao had mastered had also reached an extreme. Only by continuing to increase his cultivation realm or even stepping into the True Immortal Realm could he possibly master divine powers above the Fourth Stage.

It was basically impossible for the current third-grade divine power to break through to the ranks of fourth-grade divine powers before Zhu Wuwan broke through to the Perfected Immortal realm. It was already a miracle that he could cross so many realms to master a third-grade divine power.

Next, Zhu Wuyang would at most be able to comprehend the direction leading to the fourth-grade divine power. He probably wouldn't be able to grasp it himself.

Therefore, Zhu Wuwan began to spend more time on the research of biochemical viruses. This way, she could also earn more world origin.

What Zhu Wuwan didn't expect was that the subsequent research process was unexpectedly smooth.

Perhaps it was because his main body's comprehension had increased dramatically, but with the help of his main body, Zhu Wuwan found direction after direction. At an astonishing speed, she researched the fourth generation biochemical virus and found the direction of the fifth generation biochemical virus at the same time.

When the fifth generation of the biochemical virus was developed, Zhu Wuwan accidentally discovered the prototype of the sixth generation virus.

In just a few years, Zhu Wuwan had overcome many obstacles and developed the sixth generation of the biochemical virus.

After Zhu Wuwan's experiments, she discovered that the sixth generation biochemical virus not only had great lethality to low-and middle-level demons and ghosts, but it was also terrifying to high-level demons and ghosts. Moreover, there was no antidote, and its infectious strength was not inferior to the biochemical viruses in the movies on Earth. In fact, it was even more so.

The sixth generation virus was even more terrifying than Zhu Wuwan had expected.

He looked at the time. There were only seven years left until the 100-year deadline. Zhu Wuyang had completed the research on the biochemical virus.

As for the World Origin that he had accumulated so far, it seemed to have exceeded 9,000 points. If he made any more big moves, it might exceed 10,000 points. At that time, he would be forcefully sent out, so he had to be very careful.

Now that the Bio-Experimental Sixth Generation Virus had been developed, it was time for the avatars to bring the virus to every corner of the Evil Thought World.

When he was about to leave the Evil Will World, Zhu Wuwan would let these incarnations detonate the Sixth Generation Virus together, causing a huge wave in the entire Evil Will World and bringing him as much of the world's origin energy as possible.

Apart from that, he could enslave more high-level demons and ghosts during this period of time. When he was ready to leave the Evil Thought Great World, he could let these demons and ghosts cause trouble together. He could also bring a considerable amount of World Origin to Zhu Wuyang, and such World Origin would be endless.

Therefore, time was still a little tight. Zhu Wuyang had to speed up.

After considering everything, Zhu Wuwan started to get busy. She split her clones into different positions through the endless clones. Each clone carried a large number of the Bio-Experimental Sixth Generation Virus, which could cause a huge disaster at any time.

At the same time, some powerful demons and ghosts were silently enslaved and controlled by Zhu Wuyang. In order to avoid obtaining more of the world's origin, Zhu Wuyang did not interfere with their actions after enslaving these demons and ghosts.

This was also to prevent these demons and ghosts from bringing too much of the world's origin to Zhu Wuwan. Now was not the time to leave the Evil Thought Great World.

A few years passed quickly in the midst of all the hustle and bustle. Zhu Wuwan had also completed more than half of her preparations. She would be able to complete them in the next two years. At that time, she would be able to reserve some time to appreciate this twisted and terrifying world. After all, she might not be able to come back in the future, so she should relax before leaving.

However, at this moment, an unexpected discovery made Zhu Wuyang a little worried.

"Have you guys noticed that there have been no high-level cultivators coming back from the Otherworld in the past few days? Isn't it a little strange? Previously, high-level cultivators were brought out from the Otherworld every one or two days. Why hasn't anything happened this time?"

"There are still hundreds of high-level cultivators who haven't returned from the Otherworld, but in the past few days, only two of these hundreds of high-level cultivators

have been brought back. This is not normal at all. If it were before this, at least half of them would have been brought back.”

“Although this seems to be a good thing, it’s a little too good. It’s understandable if some high-level cultivators are lucky, but it can’t be that so many high-level cultivators are lucky that they weren’t brought out of the Otherworld. I feel that something is wrong.”

“This isn’t just an ordinary anomaly. This is very abnormal. I have a feeling that something is going to happen. Have you noticed that some of the large immortal sects around the World Mountain seem to be retreating? There are even super immortal sects like the Great Earth Mystic Sect and the Holy Poison Sect.”

..

These people’s speculations were not wrong, and there was nothing wrong with their caution. Just as they had said, the forces of the Mystic Great Earth Sect, the Holy Poison Sect, and the other large immortal sects led by Zhu Wuyang were quietly retreating. The further they were from the World Mountain, the better.

This was because Zhu Wuwan had already discovered some clues dozens of days ago. At that time, he had just entered the Evil Thought Great World not long ago, but he did not expect that the remaining hundreds of high-level cultivators would be like him. Basically, not many of them were brought out of the Otherworld.

Zhu Wuwan also realized that no matter how good his luck was, it couldn’t be to this extent. Hence, he began to observe. Not only was his main body observing, but his clone was also observing.

Then, in the process of traveling around the world, Zhu Wuwan was surprised to discover something. People similar to high-level cultivators of Dongyuan Continent had appeared in many human cities in the Evil Thought World.

Zhu Wanhao had specially captured a few of them and searched their souls to confirm their identities. It turned out that they were indeed high-level cultivators from the Dongyuan Continent.

There were a lot of these high-level cultivators. Zhu Wuwan had already discovered more than a hundred of them.

This was abnormal!

Zhu Wuchang immediately realized that something was wrong. Therefore, after some consideration, he had the forces around the World Mountain that belonged to him quietly retreat and stay further away from the World Mountain to prevent any accidents from happening on the World Mountain and affect the forces under Zhu Wuchang.

Although Zhu Wuwan also wanted to leave the Evil Thoughts Great World earlier at this time, it would be safer that way. However, after some consideration, Zhu Wuwan still did not want to let go of such a huge opportunity.

Moreover, it was only a clone that had entered the Evil Will Great World. At this critical moment, Zhu Wuyang believed that with her strength, it would not be difficult for her to survive with her short tail.

Therefore, after hesitating for a while, Zhu Wuwan decided to stay and continue to earn the world's origin energy. At the same time, she would get what she wanted from the Evil Thought Great World.

Chapter 1059: World Invasion (1) Chapter 1059: World Invasion (1) Just like that, several decades passed. Zhu Wuyang had obtained generous rewards in the Evil Thought World. Putting everything else aside, just the fact that his main body's comprehension had increased by three times was enough for Zhu Wuyang to take the risk and stay in the Evil Thought World.

On the Dongyuan Continent, more and more cultivators realized that something was wrong. The high-level cultivators whose avatars had entered the Otherworld also felt that something was wrong. However, their main bodies could not contact their avatars, so it was impossible for them to do anything.

Moreover, some high-level cultivators were also greedy. It was exactly what they wanted for their avatars to continue staying in the Otherworld to earn the world's origin.

However, these high-level cultivators had already taken precautions. If an accident really happened, they could cut off contact with the clone at the first moment to prevent the clone from affecting the main body.

Zhu Wanwan had also taken precautions in relevant areas. Moreover, he could also know the situation of his clone. If something really happened, he could better survive by short tail.

Zhu Wuchang had also made a lot of preparations in the Dongyuan Continent. The surrounding top-grade spiritual arrays were densely packed to ensure Zhu Wuchang's safety. Now that the 100-year deadline was approaching, Zhu Wuchang was prepared to release the biochemical virus and enslave some high-level demons and ghosts before leaving the Evil Thought World in advance.

Although Zhu Wuan wasn't worried that the situation his clone encountered would affect his main body, it was better to be safe than sorry. Who knew what kind of methods a great world had?

Therefore, it was better to be cautious and give up a portion of the benefits. It was better to escape in advance.

After considering it properly, Zhu Wuwan sped up the plan. When there were still nearly two years left before the hundred-year deadline, the arrangements were almost done in advance.

Feeling the avatars that covered almost all the areas of the Evil Will World, Zhu Wuwan smiled. She was prepared to earn more than 10,000 World Origin points and then be forcefully expelled from the Evil Will World.

However, what Zhu Wanhao did not expect was that just as he was about to increase the number of World Origin to more than 10,000 points, he suddenly saw the gray sky of the Evil Thought World turn red at a speed visible to the naked eye.

“Boom!”

Before Zhu Wuwan could react to what had happened, she heard a deafening roar from the sky and the ground, and then...A corner of the World Mountain collapsed!

At the same time, Zhu Wuwan could clearly feel thousands of tentacles extending out from the Evil Will World. They surged towards the Dongyuan Continent along the collapsed corner. These tentacles were demonic power, demonic power, ghost power, and strange power ... Even the world's origin energy and the various twisted rules of the Evil Will World.

The sky around the World Mountain also turned blood-red at a speed visible to the naked eye. Zhu Wuwan's main body had already escaped when a corner of the World Mountain collapsed. She was speeding into the distance to avoid danger.

His clone had already fallen into the Evil Will World and could not come out for the time being. His main body could not fall into it again.

He did not expect that the Evil Thought World would actually hunt down the Dongyuan Continent after hunting down the macro worlds for so many years.

At this moment, Zhu Wuan's main body had already noticed that the Evil Will World had clearly used the hundreds of high-level cultivators on the Dongyuan Continent, including Zhu Wuan's avatar, to successfully locate the World Mountain and find the path to the World Mountain. From there, it successfully opened the spatial passageway and descended to the Dongyuan Continent.

However, even though he had been tricked by the Malicious Thought World, Zhu Wuwan still found it a little strange. The level of the Malicious Thought World should be quite different from the world where the Dongyuan Continent was located. In fact, the overall combat strength of a Lower Realm in the world where the Dongyuan Continent was located was not much worse than the Malicious Thought World. Why would the Malicious Thought World invade the world where the Dongyuan Continent was located?

It should be known that the world that dared to invade the world was often much stronger than the invaded world. For example, the world where the Dongyuan Continent was located. Although the strength of the Dongyuan Continent was limited, the Dongyuan Continent was only the tip of the iceberg of the world. It was only a lower realm, and the strength of the upper realm was unfathomable.

It was precisely because of the Upper Realm that the Dong Yuan Continent dared to invade a large number of worlds and plunder the world's origin.

However, although the level of the Malicious Will World's martial strength surpassed the Lower Realm of the Dongyuan Continent, it definitely could not surpass the Upper Realm of the Dongyuan Continent. Why did it dare to invade here? Was it not afraid that the Upper Realm would descend and destroy the entire Malicious Will World?

Or was it because the Evil Will World was certain that the Upper Realm of the world where the Dong Yuan Continent was located could not descend to the Lower Realm that they dared to do so?

Even so, when the Malicious Will World invaded the Dongyuan Continent, once the demons and monsters from the Malicious Will World entered the Dongyuan Continent, they would definitely be suppressed by the rules of the Heavenly Way of the world where the Dongyuan Continent was located. Their full strength would probably be less than ten percent.

Furthermore, he had mastered the Innate Super Power, which allowed him to activate the power of rules in the Malicious Thought World. However, the rules of the Dongyuan Continent were different from the Malicious Thought World in many ways. The demons and ghosts in the Malicious Thought World could not activate the rules of the Dongyuan Continent.

In other words, once they entered the Dongyuan Continent, it would be equivalent to having the supernatural powers of the demons and ghosts in the Vicious Will World become useless.

As a result, not to mention the Upper Realm, even the Lower Realm, the Dongyuan Continent, could not resist the demons and ghosts of the Evil Thought World. Therefore, why bother with the invasion of the Evil Thought World? Did they want to give the world's origin to the world where the Dongyuan Continent was located?

Zhu Wanwan was a little confused, but as she felt the rules and will of the Vicious Thought World that covered a large area of the Dongyuan Continent at an alarming speed, she vaguely understood what the Vicious Thought World was planning next.

The Evil Will World was clearly using the world's will and rules as the vanguard to temporarily transform a part of the Dongyuan Continent's territory. This way, once the

Evil Will World's demons and monsters entered, they would not be suppressed too harshly. This way, they would have the strength to deal with the Dongyuan Continent.

However, even if they could swallow the Dongyuan Continent and let the Vicious Thoughts World gain a lot of benefits, when the Realm Heaven above the Dongyuan Continent sent experts over, they would still have to spit everything out.

Could it be that the Evil Thoughts World was confident that they could get what they wanted before the Upper Realm experts of the Dongyuan Continent arrived?

Zhu Wuwan's mind was filled with confusion, but she ran even faster. In the blink of an eye, she had covered hundreds of thousands of miles, far exceeding the speed of the Will of the Great Path and the rules of the Great Path of the Vile Thought World.

However, with the World Mountain as the center, there were still many cultivators whose speed was far slower than the expansion speed of the Great Path's rules and will of the Great Path in the Evil Will World. Soon, they were enveloped by it, and then they clearly felt that their strength was severely suppressed, not even a fraction of what it was before.

At this moment, countless demons and ghosts rushed out of the Evil Thought World. They used all kinds of supernatural powers and easily caught up with the Dongyuan Continent cultivators who could not escape in time. They killed them easily and swallowed them.

Chapter 1060: Life and Death Escape (1) Chapter 1060: Life and Death Escape (1)
Many cultivators of the Dongyuan Continent were killed by the overwhelming demons and ghosts before they could understand what was going on, and they became their food.

After devouring the cultivators of Dongyuan Continent, these demons and ghosts could also receive corresponding rewards, and their strength would be further improved. Some of the demons and ghosts at the peak of level nine even discovered that the limits of their bodies had been loosened after entering Dongyuan Continent, and they could continue to improve their physical strength and flexibility.

However, he was still restricted by the Heavenly Axiom of the Malevolent Will World when he tried to increase his mental power, so he could not do so.

However, if he could enter other places in the Dongyuan Continent and not be enveloped by the rules of the Great Path of the Malevolent World, did that mean that he would not be restricted by the rules of the Great Path of the Malevolent World? Would he be able to further improve his mental power and even achieve a transformation of his mental power?

Once he did so, he would have the opportunity to comprehend the rules of the Evil Will World and master some rules. He could pry these rules from the Evil Will World and turn them into his own power.

Thinking of this, many demons and ghosts went crazy, especially those at the pinnacle of level nine. They had already decided to find an opportunity to escape from the Vile Will Great World's Heavenly Dao laws and seek the possibility of increasing their mental power and comprehending the laws.

Zhu Wanwan's clone had naturally thought of this as well. Therefore, he immediately rushed toward the Evil Abyss where the Evil Thoughts World and the World Mountain of the Eastern Yuan Continent intersected. He was prepared to leave the Evil Thoughts World through the Evil Abyss and return to the Eastern Yuan Continent. Then, he would use the mystic arts of the Eastern Yuan Continent to transform his mental power.

"Rumble..."

However, at this moment, accompanied by the sound of thunder, Zhu Wuyang was stunned to discover that large patches of dark clouds were gathering above his head. It looked like the wrath of thunder was about to descend.

Heavenly Punishment!

This name immediately appeared in Zhu Wuan's mind. Without thinking too much, he used his high-grade escape divine power, the Golden Light of the Earth. In an instant, he had covered a distance of thousands of miles, trying to escape the range of the dark clouds.

"Thunderbolt..."

However, at this moment, bolts of lightning had already descended and headed straight for Zhu Wuyang's head. It was obvious that they wanted to kill Zhu Wuyang.

Although the Will of the Great Path of the Evil Will World was also bound by the rules, or else it would suffer the backlash of the rules, Zhu Wuwan's actions in the Evil Will World had clearly violated the rules long ago and should be punished.

For example, he would definitely be severely punished for bringing his only great divine power, the Seven Apertures Exquisite, out of the Evil Thought Great World.

In addition, the Malevolent Will World had invaded the Dongyuan Continent and disrupted the interference of the Will of the Great Path of the world where the Dongyuan Continent was located. Naturally, the Will of the Great Path of the Malevolent Will World had discovered that Zhu Wuwan had swallowed nearly 10,000 World Origins of the Malevolent Will World.

Moreover, the Sixth Generation Biohazard Virus that Zhu Wuyan was researching had already brought a huge threat to the Evil Will World, so this Heavenly Punishment was also within expectations.

However, Zhu Wuwan did not expect the Will of the Great Path of the Evil Will World to control time so well.

Before this, Zhu Wuwan did not realize that the Evil Will World was preparing to invade the East Yuan Continent through the Evil Abyss. Moreover, they had quietly gathered many demons and ghosts into the Evil Abyss.

It had to be known that among these demons and ghosts, some had clearly been enslaved by Zhu Wuyang. In the end, Zhu Wuyang still did not notice this. It could be seen how powerful the Will of the Great Path of the Evil Thought World was.

As expected, they had underestimated the Malicious Thought Great World. They thought that this great world was the same as the great world he had plundered before, and that it could easily hide from his perception and detection. In the end, the Malicious Thought Great World had taught Zhu Wuwan a good lesson.

But even so, it was still unknown who would win today.

The golden light and the cloud were unleashed to the extreme, but under the influence of the will of the Great Path, the power of the rules that was triggered plummeted, and its power also decreased greatly.

Fortunately, in Zhu Wuan's previous cultivation process, although he mainly focused on improving his main body, his clone had also absorbed some of the nutrition from the Dongyuan Continent's secret martial arts and was able to use the Void Illusionary Steps.

With the combination of the Void Illusionary Steps and the heavily suppressed Cloud Riding Mist and Golden Light Divine Power, he was barely able to dodge the Heavenly Punishment.

However, because the Heavenly Punishment was too dense, there were occasionally times when Zhu Wuyang could not dodge it. At this time, Zhu Wuyang would choose some of the weaker Heavenly Punishment Lightning to take it head-on and dodge the more powerful Heavenly Punishment Lightning.

Moreover, this Heavenly Punishment did not only have lightning, but also flames, ice, wind, and rocks... The fire was the Nine Heavens Divine Fire, the ice was the Extreme Cold Black Ice, and the wind was the God-Cutting Wind... They came from all directions, wanting to make Zhu Wuyang stay.

Faced with such a crazy attack, Zhu Wuwan found it very difficult to dodge. If he was not careful, his avatar would die, and it might even affect his main body.

Other than Zhu Wuwan, the other avatars of high-level cultivators from Dongyuan Continent who entered the Evil Thought World were also baptized by the Heavenly Punishment. They were all crushed into powder and were chased after by the avatars, which affected the main body. Almost all of the high-level cultivators from Dongyuan Continent died as a result.

Zhu Wuyang's main body had discovered a few cases, which made Zhu Wuyang's heart palpitate even more. Hence, he did his best to let his clone escape to avoid being killed by Tian Fa.

Fortunately, the avatar had mastered enough divine powers. Flying clouds, golden light, immortality, endless incarnations, time reversal, foresight ... Even though it was heavily suppressed by the Heavenly Dao rules of the Evil Will World, it could still unleash half of its power.

In addition, in the past hundred years, Zhu Wuwan had occasionally absorbed some of the essence of the main body of Dongyuan Continent and modified some martial arts and secret techniques. He was no longer so dependent on the rules of the Evil Thought World. This was why he could dodge one after another and not be drowned by the overwhelming Heavenly Punishment.

Just like that, he fled with difficulty. The treasures on his body collapsed and were damaged one by one. In exchange, he escaped the pursuit of Tian Fa time and time again. Zhu Wuyang's speed became faster and faster, and he gradually began to adapt to the rhythm of Tian Fa.

At the same time, a new crisis had arrived. Under the influence of the Will of the Great Path of the Vile Thought World, demons and ghosts swarmed over.

The strength of these demons and ghosts was basically above the high-level, and there was no lack of level-nine demons and ghosts. Moreover, these demons and ghosts were enhanced by the Heavenly Dao Rules of the Evil Thought World, allowing them to exhibit the power of various divine powers beyond their limits. Under such circumstances, they were actually able to fight Zhu Wuwan on equal footing.

Moreover, there were many of these demons and ghosts. It was difficult for two fists to fight against four hands. Zhu Wuwan did not dare to stop and kill them, so she could only speed up and escape. As the two sides chased, they were getting closer and closer to the Evil Abyss.
