

Read I'm Leveling Up Too Quickly

Chapter 1063: 50 – 50 Split (1) Chapter 1063: 50 – 50 Split (1) Once they left the Great Evil Thought World's Heavenly Dao Law, the strength of those demons and ghosts would plummet. With Zhu Wuwan's true strength, she could easily sweep them away.

Therefore, as long as the rules of the Heavenly Way of Dongyuan Continent could resist the expansion of the rules of the Heavenly Way of the Vicious Thought World, Zhu Wuwan was confident of winning this war.

Seeing that the expansion of the rules of the Evil Will World had been stopped, the cultivators of the Dongyuan Continent breathed a sigh of relief. If this continued for another ten days to half a month, the entire Dongyuan Continent would be enveloped by the Evil Will World, let alone the Central Plains. Everyone would be finished.

Even so, more than 80% of the Central Plains had been occupied, and the Dongyuan Continent had suffered heavy losses. If they could not recapture the Central Plains within a certain period of time, they would lose a lot of resources and wealth.

More than 60% of the top-notch immortal sects and super immortal sects in the Dongyuan Continent were rooted in the Central Plains. The resources and wealth in the Central Plains were comparable to more than half of the resources and wealth in the other four regions, or even more.

Now that such a good place had been occupied by the demons and ghosts of the Evil Thought Great World, and there were so many intelligent lives, one could imagine the losses of many large immortal sects.

However, given the current situation, they definitely did not have to think about regaining their lost land in the short term. As long as the rules of the Evil Thought World were still enshrouded, the cultivators of Dongyuan Continent would definitely not be a match for those demons and ghosts.

Seeing that the invasion of the Evil Will World's rules had been blocked and was still slowly retreating, Zhu Wuwan immediately mobilized his troops to the intersection of the rules of the two worlds. He waited for the intelligent life

forms inside to come out, then absorbed them under his command to strengthen his own strength.

Many of these intelligent lifeforms who were lucky enough to escape were cultivators whose sects had been destroyed. Those who were able to escape from the pursuit of demons and ghosts were generally quite powerful. They could be absorbed to prepare for the subsequent counterattack.

With Zhu Wanhao's current power in Dongyuan Continent, it was not difficult for him to do this. Soon, the immortal sects with the Holy Poison Sect and the Great Earth Mystic Sect as the center began to absorb a large number of cultivators from Dongyuan Continent who had escaped from the evil law.

Song Ankang did not give up on the ordinary intelligent life forms. Instead, he sent them to the areas under the jurisdiction of the Holy Poison Sect and the Great Earth Mystic Sect. They would live there for the time being. If they managed to take back the Central Plains, they would consider returning to their hometown.

Moreover, Zhu Wanwan did this to occupy a favorable position at the intersection of the two worlds 'rules and prepare for the subsequent counterattack. At the same time, this could also assist the world rules of the Dongyuan Continent in dealing with the rules of the Evil Thought World and the demons and ghosts of the Evil Thought World, obtaining the reward of the world's origin.

That's right. The moment the War of the Two Worlds began, all the high-level Cultivators were vaguely enlightened. As long as they killed the demons and monsters of the Vile World and seized the resources and treasures of the Vile World, they would be able to directly obtain the reward of the world's origin. Moreover, the world where the Dongyuan Continent was located would only get half of it, instead of the previous nine-tenths.

With such a good offer, not to mention Zhu Wuyan, there were only a few cultivators in the Dongyuan Continent who were not tempted.

Therefore, when Zhu Wuan mobilized his troops to occupy an advantageous position at the border of the two worlds, many other large immortal sects were doing the same thing.

Fortunately, the Holy Poison Sect and the Great Earth Mystic Sect were both local powers of the Central Plains. Previously, they had retained a large

portion of their forces under Zhu Wuwan's reminder. Moreover, they had not left far away. At this moment, the rules of the two worlds had just stabilized, and the Holy Poison Sect and the Great Earth Mystic Sect's forces had reacted immediately.

Of course, the most important thing was still Song Ankang's help. He had a good understanding of the area covered by the Evil Spirit Law and the situation in the Evil Spirit World. After all, there were so many avatars inside. It was not a matter of minutes to understand something.

Some demons and ghosts with abnormal brains rushed out of the area covered by the rules of evil thoughts. They wanted to defeat the cultivators of Dongyuan Continent like before. Unfortunately, they did not have the help of their innate divine abilities and were suppressed by the rules of Dongyuan Continent. The cultivators here taught them how to be human at any time and easily killed them. They obtained a lot of the world's origin, including Zhu Wuwan.

Feeling the surging World Origin, Zhu Wuwan nodded in satisfaction. As expected, it was several times more than when they were in the Malicious Thought Great World. The rules of the world where the Dongyuan Continent was located did not deceive them.

The most important thing was that at this moment, when Zhu Wuyang's countless incarnations were wreaking havoc in the Evil Will World, wantonly spreading the Sixth Generation Biochemical Virus and bringing unprecedented danger to the Evil Will World, the world origin that Zhu Wuyang obtained from it was also split fifty-fifty with the world where the Dongyuan Continent was located.

This number was way too terrifying. Feeling the World Origin crazily surging into his body, Zhu Wanwan could not stop smiling. Fortunately, she did not activate it in advance. Instead, she waited until the Vicious World had truly invaded Dongyuan Continent and made the rules of the world in Dongyuan Continent realize an unprecedented crisis before activating it. Otherwise, she would not have such amazing gains.

In just a few dozen hours, Zhu Wuwan had obtained thousands of World Origin points. It did not sound like a lot, but after the Vicious Thought World invaded Dongyuan Continent, the time of the two worlds had synchronized.

The dozens of hours on the Dongyuan Continent were equivalent to the dozens of hours in the Vile World, not hundreds of hours. To obtain so much World Origin in just a few dozen hours was definitely not a small number. In fact, it was a little too much.

If he dealt with it properly, this unprecedented crisis would not only not bring too much damage to Zhu Wuyang, but it would also allow him to earn a lot of money.

Without thinking too much, Zhu Wuyan's main body wandered around the intersection of the two worlds, killing the demons and ghosts that were close to the intersection of the two worlds to his heart's content, earning a lot of world origin from it.

At the same time, he commanded his many incarnations to frantically spread the Bio-Experimental Sixth Generation Virus, causing the entire Evil Will World to fall into chaos. Countless demons and ghosts turned into biochemical demons and crazily attacked the surrounding demons and ghosts, allowing Zhu Wuyang to obtain more world origin.

As more and more demons and ghosts were infected with the Biohazard Virus, Zhu Wuyang would be able to obtain more and more of the world's origin from it.

The Malicious World naturally retaliated and wanted to stop this from happening. However, the power of Zhu Wuyang's Sixth Generation Biohazard Virus was beyond imagination, and the Malicious World's suppression was ineffective.

At least for now, there was no effect. The Biohazard VI virus was still spreading rapidly, causing more and more damage to the Evil Spirit World.
