

Read I'm Leveling Up Too Quickly

Chapter 161 - 161: A Better Distance (1)

Chapter 161: A Better Distance (1)

The number was about three times that of the other party!

Its mass was also about three times that of the original!

When the two were combined, the power of Zhu Wuyang's Dao Beginning True Qi was about ten times that of an immortal cultivator of the same level. In other words, an immortal cultivator of the same level had to use ten times more True Qi than Zhu Wuyang to defeat a wisp of Zhu Wuyang's True Qi.

Under such circumstances, it was impossible for Zhu Wuyang not to be powerful.

The reason why he could surpass his peers to this extent was naturally because of the blessing of entering the Dao with martial arts. Secondly, it was the benefits brought by the Dao Beginning Jade Book. Thirdly, it was the advantage of a flawless Dao foundation.

The combination of all kinds of advantages created Zhu Wuyang's strength and combat power that far exceeded those of the same level. The two could not be mentioned in the same breath.

Cultivators of the same cultivation level were basically trash in front of Zhu Wuyang.

The surging strange power was still rolling over. Zhu Wuwan circulated the Dao Beginning Jade Book with all his strength and continuously absorbed these strange powers. The Dao Beginning True Qi quickly expanded to the limit of the fifth level of the Qi Refinement realm.

Zhu Wanwan paused for a while to refine and improve the sixth immortal meridian. After confirming that it could absorb more and stronger Primordial Dao True Qi, he began to break through the bottleneck.

"Pfft..."

Along with the sound of a bottleneck being broken through, Zhu Wuwan's strength crossed a realm and advanced to a new stage. The Primordial Dao True Qi also expanded to a radius of 600 meters at this moment.

The sixth level of the Aura Refining realm!

As long as he could break through the last realm of the middle stage of the Qi Refinement realm, it meant that Zhu Wanwan had stepped into the late stage of the Qi Refinement realm, which was equivalent to being an immortal cultivator on the same level as Zhu Wanzi.

Zhu Wanzi had spent more than a hundred years to cultivate to the ninth qi layer with great difficulty. However, Zhu Wanwan had used only about a month to break through the bottleneck of the first qi layer and step into the sixth qi layer.

If Zhu Wanzi knew about this, he wondered what she would think.

However, even though Zhu Wanzi lied about how it took her several years to reach this level, she was still extremely ashamed. When she was seventeen years old, she was still at the second qi layer.

Compared to Zhu Wuwan, it was not just ten times or a hundred times worse. The two were not on the same level at all. Moreover, Zhu Wuwan was an immortal cultivator who entered the path through martial arts. The difficulty was ten times or a hundred times higher than ordinary immortal cultivators.

“Congratulations to the host for breaking through to the sixth level of the Qi Refinement realm for the first time in his life. You have received 30 breakthrough stones ?”

After reaching the sixth qi layer, he had gained a total of 30 breakthrough stones. 15 breakthrough stones were forcefully poured into Zhu Wuwan’s strength, which was enough for Zhu Wuwan to stabilize his strength at the sixth qi layer and advance a little.

Under the effect of the purer and stronger Dao Beginning True Qi, Zhu Wuyan’s skin, muscles, bones, and organs...After obtaining a deeper level of tempering and improvement, he became even more powerful.

At the same time, it could also slow down Zhu Wuyan’s metabolism, and naturally, she would have a longer lifespan.

A meditational cultivator could generally live to more than 150 years old, close to 200 years old. However, that could only happen after reaching the great circle of the meditational level.

However, although Zhu Wuan was only a cultivator at the sixth layer of the Aura Refining realm, with his physical fitness, it should not be a problem for him to live to two hundred years old.

Not to mention anything else, just this point alone was far better than when Zhu Wuyang was on Earth.

Although Zhu Wanwan was a fitness expert on Earth, she could at most live to be close to a hundred years old. How could she compare to now?

The lower dantian was also nourished and improved by the Primordial Dao True Qi, becoming stronger and able to accommodate more Primordial Dao True Qi, making Zhu Wuwan's reserve warehouse even more abundant.

After absorbing all the breakthrough stones and stabilizing his strength at the sixth level of the Aura Refining realm, Zhu Wuwan's overall strength had increased by at least two times compared to before the breakthrough.

With his current strength, he could easily suppress ordinary cultivators of the seventh qi layer and fight enemies of an entire realm.

If he added the advantages of various immortal martial arts techniques and spells, Zhu Wuyan was even confident that he could fight against immortal cultivators at the eighth or even ninth qi layer.

At the very least, a cultivator at the ninth qi layer could not kill Zhu Wuyan, but it would be as difficult as ascending to the heavens for Zhu Wuyan to kill him.

With the resources and wealth of the Nine Zhao Country, the most they could do was to raise Zhu Wuyang's strength to the sixth layer of the Aura Refining realm. Zhu Wuyang had basically come to all the projects that could earn a large amount of breakthrough stones.

As for the remaining special projects that he hadn't done, the breakthrough stones that each of them could bring Zhu Wuyan were too few. It was far from what Zhu Wuyan had gained from going to Myriad Insect Valley's Hundred Poisons Sect.

Moreover, the Nine Zhao Nation did not have any higher-level cultivation techniques or spells. It was extremely difficult for Zhu Wuwan to improve the immortal martial cultivation techniques she had mastered. There were only some very common spells in the Jade Book of Dao Beginning (upper part), and its main content was still cultivation techniques.

Although Zhu Wanzi was able to teach Zhu Wanwan some spells and the like, the number was extremely limited. Zhu Wanzi could easily learn them all.

If he wanted to continue learning and improving, he would have to go to the Hundred Poisons Sect.

After discovering that Jiu Zhao Country was no longer of much value, Zhu Wuwan began to consider the arrangements after she left.

At this moment, the thing that concerned Zhu Wuyang the most was naturally the two hundred or so concubines he had after transmigrating. If Zhu Wuyang left, he would definitely have to abdicate.

The person who would replace him had to be able to protect his concubines. Zhu Wuwan carefully selected a princess to succeed him and let her succeed the throne of the Nine Zhao Country after he left.

This woman had a gentle and magnanimous personality and was not a bloodthirsty person. She was able to protect the Nine Zhao Country and take good care of the concubines.

Moreover, as long as Zhu Wuyan was alive, no one in Jiu Zhao Country would dare to touch his concubines. Otherwise, who could face Zhu Wuyan's anger?

This princess had also helped Zhu Wuyang a few times when he was down and out. Although it was just a little effort, it was enough to show her character.

After arranging his concubines, Zhu Wuwan arranged for the original owner's mother's family. These people were good to the original owner and were not people who fawned over power. Zhu Wuwan gave them a piece of land so that they could become Taiping Junwang in the future.

There were also some people in the royal family who were slightly worthy of his trust. Zhu Wuyang also made different arrangements. Repaying kindness and revenge was Zhu Wuyang's usual style.

After arranging everything, another half a month passed. On a sunny morning, Zhu Wanwan quietly followed Zhu Wanzi and left the Imperial Palace and Moon Capital, rushing towards Ten Thousand Insect Valley, which was ten thousand miles away.

When they walked out of the Moon Capital and looked at the shining Moon Capital under the sun, Zhu Wuwan felt a little emotional and could not help but sigh softly.

He hoped that he would be able to obtain what he wanted in this trip to the Hundred Poisons Sect. However, why did he feel that Zhu Wanzi's words were unreliable? Was it just because of the flag?

Chapter 162: An Unauspicious Premonition (1)

Although Zhu Wuyang didn't have a good impression of this majestic ancient capital, after all, ever since she transmigrated here, she had no choice but to hide in her bedroom most of the time, and her life was in danger at any time.

However, Zhu Wuyang still felt a lot of reluctance to leave suddenly. She could not bear to part with those beautiful women who could topple countries, could not bear to part with those strange courtiers, and could not bear to part with the feeling of having power in her hands...

However, Zhu Wuan also knew that this bit of power was nothing compared to the power he had. As long as his power was strong enough, he could control unimaginable power and wealth.

Therefore, Zhu Wuyan knew what to choose. She had heard too much about the principle of a hero's tomb being in a gentle place in her previous life.

However, in his previous life on Earth, he could only listen. No one would say such things to Zhu Wuwan in his previous life. She was just an ordinary citizen. How could she be gentle? As for the Hero Tomb...Who are you laughing at?

"After staying in the Moon Capital for so long, are you still a little reluctant to leave suddenly?" Zhu Wanzi couldn't help but say, "" If you can't bear to, you can stay for a while longer. The path of immortal cultivation is better than doing as you please. That way, it's easier to comprehend. "

Looking at Zhu Wanzi's expectant gaze, Zhu Wuwan shook his head. "" No need, I've already done what I needed to do. There's no point in staying any longer. Let's go to Myriad Insect Valley and Hundred Poisons Sect. "

"This is good too." Zhu Wanzi's words carried a hint of disappointment. To be honest, she sincerely hoped that Zhu Wanwan would stay for a while longer, even if it would make her suffer for a while longer.

However, as long as Zhu Wanhao could gain another epiphany, he might be able to break through to the late-stage of the Qi Refinement realm. A seventeen-year-old prodigy at the late-stage of the Qi Refinement realm, and one who had entered the Dao through martial arts, one could imagine what kind of commotion it would cause when he brought her to the Hundred Poisons Sect.

As the third great aunt who had dug out Zhu Wanwan, Zhu Wanzi was bound to receive a huge reward. Compared to these rewards, there was no harm in staying in the mortal world for a while longer.

Thinking back to a month ago, Zhu Wanzi was still eager for Zhu Wuyan to leave as soon as possible. However, it had only been a month, and Zhu Wanzi's thoughts had taken a drastic turn.

With their speed, it only took them a few days to leave the Nine Zhao Country and enter another secular dynasty.

This secular dynasty did not belong to the Hundred Poisons Sect, but this was not a big deal. With their strength, no one in this dynasty could threaten them.

Along the way, Zhu Wanzi even brought Zhu Wanwan to visit the immortal cultivators guarding this secular dynasty. The other party's strength was only at the sixth qi layer, which was the normal strength of the immortal cultivators guarding the dynasty. It was rare for a late-qi layer big shot like Zhu Wanzi to guard the secular dynasty.

As they got closer to Ten Thousand Insect Valley, Zhu Wanzi started to talk more.

" My dear grandnephew, when you reach the Hundred Poisons Sect in the Ten Thousand Insect Valley, you must show your talent as much as possible. Only then can you get more resources from the ancestor and the family, whether it is the spiritual pills needed for daily cultivation, the immortal cultivation methods and secret techniques that can be comprehended, the living environment ??You will be far superior to ordinary Immortal Cultivators, and the two cannot be mentioned in the same breath. In this way, you will be able to step into the shackles of the meditational level as soon as possible and advance to the Foundation Establishment stage, gaining nearly three hundred years of lifespan."

" I'll repeat it once more. Once you're in the Hundred Poisons Sect, you don't have to worry about being targeted because of your talent. Our Zhu Clan hates people like this the most. As for the other Zhen Clan and neutral cultivation powers, they don't dare to deal with the prodigies of our Zhu Clan either. Therefore, you just have to show your strength to the fullest. Only then will you receive better treatment. " frëewebnovel.com

" If you're not arrogant, you'd be wasting your youth. There's no need to be so low-key. The Hundred Poisons Sect isn't the Zhu royal family, and our ancestor isn't that idiot, Zhu Zhenwu. No one will target you because of your extraordinary talent. All you need to do is to show off to your heart's content. Only then will you be able to obtain enough cultivation resources. "

Although he was quite moved by Zhu Wanzi's earnest teachings, Zhu Wuan was not a one-track-minded youth who was easily hot-blooded. Having lived two lives, he had a mature understanding of the world. Whether it was his worldview or values, he was not inferior to any adult.

Therefore, Zhu Wuyan was well aware of the principle that an innocent man's possession of a treasure would cause him to be punished. Even if the Zhu family was harmonious internally, Zhu Wuyan would not reveal all of her natural talent. In fact, she would only reveal a fraction of it, or even a tenth of it.

Moreover, Zhu Wanhao still hadn't stopped cultivating the Concealed Immortal Mustard. During this period of time, he had comprehended and fused a few concealment spells, making the power of the Concealed Dragon Mustard even stronger.

Zhu Wanhao was even confident that he could use the Concealed Immortal Mustard to fool Foundation Establishment cultivators, and the chances of success were extremely high.

After all, if he didn't have any scruples, Zhu Wuyan's cultivation progress would be too astonishing. Zhu Wuyan couldn't always explain it with epiphanies, right? If he had too many epiphanies, it would also arouse suspicion, especially those high-level immortal cultivators.

Therefore, Zhu Wuyang had to hide her strength. At most, she would not have to deliberately suppress the growth of her strength in the future, just like how she did in the Crown Prince Palace.

However, to be honest, although Zhu Wuwan had been deliberately suppressing the growth of her strength in the Crown Prince Palace, under various coincidences and special encounters, not only did Zhu Wuwan not suppress the sudden increase in her strength, but she also earned breakthrough points several times faster than usual.

This was a classic case of overreaching oneself. However, when one looked back after becoming invincible in the Innate Realm, they would realize that the so-called suppression of strength was actually a coincidence.

The mysteries of the world's fate were truly breathtaking. Zhu Wuyang did not expect such a thing to happen.

Zhu Wanzi's teaching continued. She explained the situation of the Hundred Poisons Sect and the various rules to Zhu Wuyang in detail so that Zhu Wuyang could be mentally prepared in advance so that she could better integrate into the Hundred Poisons Sect.

Occasionally, Zhu Wanwan would ask him about things that he was interested in. Zhu Wanzi would basically explain these things to him. Unless it was related to the secrets of the Hundred Poisons Sect, Zhu Wanzi would not speak carelessly. She treated Zhu Wanwan very well.

Time passed quickly and they were getting closer and closer to Ten Thousand Insect Valley.

" Good grandnephew, remember what your great-aunt told you. We will be able to enter the Hundred Poisons Sect in an hour. I will bring you to see the Great Elder. I have already sent your information to the Hundred Poisons Sect in advance. Everyone is waiting for you to return. " Zhu Wanzi couldn't help but remind Zhu Wuyang again, "" When we meet the Great Elder, we should try our best to show off ourselves. Only then can we receive better treatment. "

Flag again!

Zhu Wuyang had an ominous premonition!

Chapter 163: Great Aunt's Words of Gold (1)

Ten Thousand Insect Valley was located in the Hundred Thousand Mountains in the depths of the Southern Wilderness. As the name suggested, there were thousands of poisonous insects wreaking havoc here. It was basically impossible for ordinary people to enter.

Even peak Xiantian experts would have a slim chance of survival if they wanted to enter the depths of Ten Thousand Insect Valley. One could imagine how dangerous this place was.

Only true immortal cultivators could enter and leave freely, but even if they could enter the depths of Ten Thousand Insect Valley, they wouldn't be able to find Hundred Poisons Sect.

Hundred Poisons Sect was located in the layers of formations deep inside Ten Thousand Insect Valley. Or rather, Ten Thousand Insect Valley was the natural barrier of Hundred Poisons Sect, preventing ordinary people from entering. Only immortal cultivators could approach Hundred Poisons Sect.

However, without the Hundred Poisons Sect's token and communication method, even an official Immortal Cultivator was not qualified to enter the Hundred Poisons Sect.

As a medium-sized sect in the Southern Wasteland, Hundred Poisons Sect also had a Golden Core guarding it. Ordinary immortal cultivators did not dare to offend it.

With the Dao Chu True Qi protecting their bodies, Zhu Wuwan and Zhu Wanzi walked through the bushes, trees, and streams filled with poisonous insects as if they were walking on flat ground...They arrived in front of a towering cliff.

With Zhu Wuyang's attainments in array formations, he could vaguely sense that there was something else on this seemingly smooth cliff.

"Everyone thought that this was the depths of Ten Thousand Insect Valley and that there was no more place. They didn't know that there was a path to the sky above the cliff." Zhu Wanzi chuckled and took out his identity token. A green light shot out and landed on the cliff.

As the green light bloomed, a passage shrouded in immortal mist appeared on the cliff.

Zhu Wanzi pointed with her finger. " Good grandnephew, follow me. Our Hundred Poisons Sect is behind the cliff. It has a radius of a hundred miles and is the place with the most abundant Heaven and Earth Spiritual Qi in the surrounding area. "

"Alright." Zhu Wanwan smiled and nodded. He followed Zhu Wanzi up the passage. He didn't tell Zhu Wanzi that he had already vaguely sensed the location of the passage on the cliff wall.

What Zhu Wanzi didn't know was that when Zhu Wuan was in the Moon Capital, not only had he reached the sixth level of the Aura Refining realm through martial arts, but he had also cultivated the mortal world's Array Dao to the peak of perfection. He was only half a step away from becoming a true Array Apprentice.

According to what Zhu Wanzi had told Zhu Wanzi, the array masters in the mortal world were not recognized by the cultivation world. They were generally called Mortal Array Masters. From low to high, they were Mortal Array Apprentice, Low Grade Mortal Array Master, Middle Grade Mortal Array Master, High Grade Mortal Array Master, and Top Grade Mortal Array Master.

Zhu Wuan was a top-notch mortal array master and was not qualified to be called an array master apprentice in the cultivation world. Only array masters in the cultivation world were qualified to remove the word 'mortal'.

Above the peak of the mortal array masters were the array formation apprentices of the cultivation world!

At this moment, Zhu Wanhao could not even be considered an array formation apprentice in the cultivation world. One could imagine how many times worse the array formation path in the mortal world was compared to the array formation path in the cultivation world.

As for the so-called blacksmiths and alchemists, there was also a huge gap between the secular world and the cultivation world. The two were simply incomparable.

Those who were qualified to be set up around the Hundred Poisons Sect as a protective array were at least low-level array formations. They could also be called low-level spiritual arrays. Only low-level spiritual array masters could set up low-level spiritual arrays.

The power of a low-level spiritual array was so strong that it could even kill a perfected Foundation Establishment cultivator and trap a Golden Core cultivator. One could imagine how powerful it was.

Zhu Wanwan also did not tell Zhu Wanzi about his cultivation in array formations. This was another trump card that Zhu Wanwan had kept.

If Zhu Wanzi knew about this, she would be scared silly.

After walking through a long passage, Zhu Wuyang could vaguely sense the threats around her along the way, as well as the spying gazes.

Once they realized that Zhu Wanzi and Zhu Wanwan were enemies, a terrifying attack would immediately erupt from the surroundings of the passageway. Even a Foundation Establishment cultivator would probably not be able to withstand it.

After walking for a few minutes, the two of them walked out of the array passage. What greeted their eyes was a mountain range that stretched for hundreds of miles. It was hidden in layers of array formations and was unknown to mortals.

This mountain range with a radius of nearly a hundred miles seemed a little small, not even one-tenth of the size of the Nine Zhao Nation. However, one had to know that the spiritual energy of heaven and earth here was several times more than in the outside world, and the number of various heavenly and earthly treasures here was ten or a hundred times more than in the outside world.

Moreover, this mountain range with a radius of a hundred miles was surrounded by immortal spiritual arrays. No matter how many ordinary mortals there were, they would not be able to break into this place. It was even impossible to enter.

If it were not for the difficulty of setting up the array formation, it would not be impossible for the Hundred Poisons Sect to expand to a radius of a thousand miles or even ten thousand miles with their strength.

Looking at the Hundred Poisons Sect, which was filled with flowers and fresh air, a hint of surprise flashed across Zhu Wuwan's face. He did not expect that there would be such a paradise on earth in the desolate and poisonous mountains.

Not to mention in the Nine Zhao Country, even on Earth, Zhu Wuyang had never seen such a beautiful scenery.

"So this is our Hundred Poisons Sect, and also the foundation of our Zhu Clan. The Spiritual Qi of Heaven and Earth is quite abundant, right?" Zhu Wanzi pointed at the continuous mountains and smiled at Zhu Wuwan.

"It's a paradise on earth. It's incomparable!" Zhu Wuwan nodded.

"Later, I will bring you to see the Great Elder of our Zhu Clan. The Great Elder is a great expert in the perfected Foundation Building realm. You must not be presumptuous in front of him." Zhu Wanzi reminded him seriously, "But don't worry too much. Although the Great Elder is a little serious, he is a good person. He likes to guide the younger generation. You are so talented. The Great Elder will definitely arrange a good residence for you. The treatment will be much better than those of the same level."

“However, the prerequisite is that you have to reveal yourself as much as possible and not hide anything. Only then will you be able to receive better treatment.”

Zhu Wanzi had reminded Zhu Wuyang countless times. Clearly, she was still worried that Zhu Wuyang, who was used to hiding herself, would not reveal all her talent and receive better treatment.

Zhu Wuwan nodded, indicating that she understood. As for whether she would do that next, she didn't know.

With the help of the Special Encounter System, coupled with Zhu Wuwan's outstanding talent and aptitude, even a fool would know that there was a problem if he was really completely exposed.

At that time, even the ancestors of the Zhu Clan would definitely covet the big secret hidden on Zhu Wuyang. Therefore, Zhu Wuyang would only listen to Zhu Wanzi's words if there was water in his brain.

“Dang dang dang dang dang dang dang...”

Just as Zhu Wanzi was about to continue telling Zhu Wuyang what to do when he saw the Zhu Clan's Great Elder, a bell rang from the distant peaks, shaking the entire Hundred Poisons Sect.

The bell was desolate, sad, and heavy...There seemed to be endless pain lingering within.

This was the sound of the death knell!

Chapter 164: Are You Going to Make Things Backfire Again (1)

“The death knell chimes nine times. Only when the sect master dies will the death knell chime nine times. This ??How is this possible?”

Zhu Wanzi felt as if she had been struck by lightning when she heard the death knell.” Our Zhu Clan's ancestor is the Sect Leader of the Hundred Poisons Sect, and he's also an expert at the False Core Stage. With him in our Zhu Clan, we'll be able to secure our position as the number one force in the Hundred Poisons Sect. If our ancestor leaves, how can the Zhen Clan let us go? ”

“But the ancestor is only a little over 300 years old. There are still about 200 years before his death. How could he suddenly pass away? Could it be ??Could it be that the ancestor has been trying to break through to the True Core Realm recently and failed, so he died?”

Zhu Wanzi muttered to herself, trying to guess the truth.

She did not doubt the authenticity of the death knell. No one in the Hundred Poisons Sect dared to randomly ring the death knell, especially when it concerned the life and death of the sect master. Unless the other party was out of his mind.

Otherwise, if he dared to do so casually, he would inevitably be severely punished by the sect rules.

Upon hearing Zhu Wanzi's words, Zhu Wuyang could not help but stand rooted to the spot. He had never expected to encounter such a bolt from the blue the moment he arrived at the Hundred Poisons Sect.

For some reason, Zhu Wanhao felt a sense of familiarity. It was as if when he had just transmigrated to this world, the first wave of memories told him that his identity was the crown prince of the Nine Zhao Kingdom.

However, before he could rejoice and enjoy the benefits of the ancient crown prince, the second wave of memories told him that the original owner was just a shield crown prince, and could invite death at any time.

Just like now, he had thought that after entering the Hundred Poisons Sect, he would be greeted with good days, generous treatment, and abundant resources. However, he did not expect his ancestor to die as soon as he entered the sect.

The Zhu Clan of the Hundred Poisons Sect was obviously supported by the Zhu Clan's ancestor. Once they lost their ancestor, they immediately fell from the number one force to the number two force.

Before this, the Zhu Clan had been very harsh to the Zhen Clan. In the future, the Zhen Clan would probably be even harsher to the Zhu Clan.

In the face of Zhu Wuan, the only prodigy of the Zhu Clan who had entered the Dao through martial arts in the past thousand years, how could the Zhen Clan let him off? When the time came, it was inevitable that they would monitor him and even suppress and assassinate him to prevent the rise of another expert in the enemy forces.

Although the Zhen Clan wouldn't make it too obvious because they were from the same sect, it would be even more sinister.

Zhu Wanwan had considered this point, but how could Zhu Wanzi, who had lived for so many years, not consider it?

" Not good. Without the ancestor suppressing the Zhen Clan, with the enmity between our Zhu Clan and the Zhen Clan, the Zhen Clan will definitely suppress our Zhu Clan in the future. They might even be ruthless to the geniuses of our Zhu Clan. "

“You’re the only overwhelming prodigy of our Zhu family who entered the path through martial arts in the past thousand years. You’ve even recently entered the seventh qi layer. If the Zhen family finds out, they’ll definitely kill you. What should we do?”

Zhu Wanzi was also panicking. She had originally wanted to use Zhu Wuan, this overwhelming prodigy, to make a comeback and become an important member of the Zhu Family.

However, he did not expect that the ancestor of the Zhu Clan would die as soon as he arrived at the Hundred Poisons Sect. The Zhu Clan’s power plummeted and was ruthlessly trampled under the Zhen Clan’s feet.

Under such circumstances, how could the Zhen Family let an overwhelming prodigy like Zhu Wuan off? They might even kill her in the future.

Once something happened to Zhu Wanwan, not only would Zhu Wanzi not gain any credit for his actions, but he would also become a criminal of the Zhu Clan.

Blessings are always accompanied by misfortune. Zhu Wanzi didn’t expect things to change so quickly. It was really unexpected.

Looking at the panicking Zhu Wanzi, Zhu Wuwan frowned and said, “” Grand aunt, since that’s the case, I might as well not enter the Hundred Poisons Sect for the time being. Think of a way to get the clan to secretly hand over some of the necessary resources and manuals to me. I’ll just cultivate outside. ”

Even without the abundant Heaven and Earth Spirit Qi in the Hundred Poisons Sect, Zhu Wuyan could still use the environment in the mortal world to earn Breakthrough Stones to cultivate and improve. This might be faster.

Therefore, the spiritual energy of heaven and earth that was extremely important to Zhu Wanzi was just of little value to Zhu Wanwan. What Zhu Wanwan needed the most was the various immortal scriptures and spells of the Hundred Poisons Sect.

“This ??I don’t think so.” Upon hearing Zhu Wanwan’s words, Zhu Wanzi said hesitantly, “” I’ve already sent your information and blood essence from the secular palace to the Hundred Poisons Sect. With the Zhen Clan’s influence in the Hundred Poisons Sect, it’ll be easy for them to obtain your information and blood essence. By then, it’ll be a piece of cake for them to find you with the blood essence as a guide. ”

” Under such circumstances, rather than staying in the outside world, it’s better to stay in the Hundred Poisons Sect. This way, the Zhen Clan will have some scruples and won’t dare to go overboard. You’ll be safer. ”

“Uh ?” Zhu Wuan’s forehead was full of black lines. Did the Zhu Clan have to be so careless? This concerned the blood essence and information of the clan’s disciples. Could it be that the Zhen Clan obtained it so easily?

Zhu Wanzi looked ashamed. ” After all, the Zhen Clan and our Zhu Clan belong to the same sect. The places where we store our blood essence and information are in the same place. Although there is some separation, it is not strict. It is not difficult for the Zhen Clan to obtain some of the important things of our Zhu Clan. Similarly, it is not difficult for our Zhu Clan to obtain some of the important things of the Zhen Clan. ”

” This situation was intentionally created by our Zhu Clan. After all, our Zhu Clan had firmly suppressed the Zhen Clan in the past, so this situation was beneficial for us to understand the situation of the geniuses of the Zhen Clan and suppress them in a timely manner. However, we didn’t expect this to happen. This situation has started to be disadvantageous to our Zhu Clan. ”

Zhu Wuan really wanted to say, ” F * ck, ” but thinking about it, it was understandable that the Zhu Family had done this in the past. After all, this was quite beneficial to the Zhu Family in the past.

However, this action had clearly made Zhu Wuyan suffer. Zhu Wuyan had originally thought that she had come to Hundred Poisons Sect to enjoy generous treatment. She did not expect to encounter such a calamity as soon as she arrived.

It was hard to say if there would be generous treatment in the future, but he would definitely be monitored and targeted by the Zhen Family. Most importantly, Zhu Wuyang would probably have to suppress the growth of his strength a little again.

At the very least, he had to make the improvement of his concealment technique far surpass the improvement of his strength. Otherwise, once the concealment technique could not hide Zhu Wuyang’s true strength, Zhu Wuyang would be in trouble. If things went wrong, he might even be killed.

Am I breaking through too quickly again?

It was just that the last time he suppressed his strength in the Nine Zhao Imperial Palace, not only did he not succeed, he even outsmarted himself, and his improvement actually became even faster.

He didn’t know if it would be like this again, but Zhu Wuwan had an ominous premonition.

Maybe ??Could it be like that?

Chapter 165: Face Slapping Is Like a Tornado (1)

He couldn't escape. His basic information had already been exposed, and the enemy had their eyes on him.

In such a situation, the degree of danger was probably not inferior to when Zhu Wuyang had just transmigrated.

Zhu Wuyang was very worried, and so was Zhu Wanzi.

"Fortunately, I didn't tell anyone about your specific talent and enlightenment. I only told them that you have already reached the sixth qi layer and will soon break through to the seventh qi layer!"

Suddenly, Zhu Wanzi clapped her hands and a thought appeared in her mind. "In that case, we can hide your talent in enlightenment on the immortal path from you. At the same time, we can use spirit pills and heavenly treasures to confuse the enemy and tell the enemy that the reason why your strength has increased so quickly is because you have taken all kinds of spirit pills and heavenly treasures."

"This is good." Zhu Wuan nodded. "It's best to let the Zhen Family mistakenly think that I'm a guy who's eager for quick success and doesn't understand the common sense of the immortal path. That's why I took a large number of heavenly and earthly treasures in just a few years and raised my strength all the way to the sixth level of the Aura Refining realm. This caused my cultivation foundation to be extremely unstable, and it'll be very difficult for me to advance to the Foundation Establishment realm in the future."

Zhu Wanzi nodded repeatedly. "Not bad, not bad. Now is the time to hide your strength. This way, you can reduce the Zhen Clan's attention on you and make you safer. However, your cultivation foundation is so stable, and you even cultivated the world's number one Law of the First Jade Book. Anyone with a discerning eye can see it."

"Don't worry about this, Grand aunt. I once accidentally obtained a secret concealment technique that is suitable for cultivators who enter the path through martial arts. I have already cultivated it to perfection." "With this low-level secret technique, no one will be able to see through my background unless it's an immortal cultivator at the late-stage of the Foundation Establishment realm or above who deliberately probes me."

"As long as I make some slight adjustments, in the eyes of other Immortal Cultivators, my cultivation foundation will be extremely unstable and will collapse at any moment."

As he spoke, Zhu Wuwan circulated the Hidden Immortal Mustard, and his aura immediately began to fluctuate.

Zhu Wanzi examined carefully and was surprised to find that Zhu Wuyang, who had a solid foundation, had become weak in her perception, as if he could collapse at any

time. He was exactly the same as those immortal cultivators who relied on elixirs to forcefully improve. There was almost no difference.

She was a cultivator at the ninth qi layer, and her combat power was comparable to a cultivator at the tenth qi layer. Because she had cultivated for about a hundred years, Zhu Wanzi's secret scouting technique was also extremely powerful.

Even so, she was still fooled by Zhu Wuyang. One could imagine how powerful Zhu Wuyang's secret technique was.

Zhu Wanzi was pleasantly surprised. "My good grandnephew, I didn't expect you to have mastered such a powerful concealment spell. It's almost as good as some intermediate spells. I'm relieved now."

"However, there is one more thing that you have to pay special attention to. During the next few years of cultivation, you have to hide your abilities appropriately. When you face the elders of the Zhen clan, you also have to hide your abilities. Otherwise, the Zhen clan will know of your true talent. This will be troublesome. Ke ke..."

At this point, Zhu Wanzi felt awkward and could not help but laugh dryly. After all, before this, she had vowed to Zhu Wanwan that she would be able to showcase herself to her heart's content once she reached Hundred Poisons Sect.

In fact, the moment he entered the Hundred Poisons Sect, Zhu Wanzi had repeatedly reminded Zhu Wuyang to display his full strength in the Hundred Poisons Sect in order to prevent him from hiding his strength and affecting the evaluation of the Zhu Clan's higher-ups.

However, after only ten minutes, Zhu Wanzi's words had taken a 180-degree turn.

Zhu Wanzi felt extremely uncomfortable as her face was already swollen.

Looking at Zhu Wanzi's awkward expression, Zhu Wuwan suppressed her laughter and nodded. "Alright, I'll remember. But there's one more thing I hope you can agree to."

"What is it?" Zhu Wanzi said.

"I hope that Grandaunt won't tell anyone about my talent and epiphany, not even the elders of the Zhu Clan." Zhu Wuan looked at her and said.

"Ah..." Upon hearing Zhu Wanwan's words, Zhu Wanzi could not help but exclaim, "But if that's the case, the elders of the family will definitely misunderstand you. At that time, they won't invest too many resources to nurture you. How can you improve quickly like that?"

Zhu Wuan smiled bitterly. "As the saying goes, if you don't want others to know, don't do it. If Grand aunt tells the elders about my situation, they will definitely take care of me in the future. How can they not leave something behind when that happens?"

"It'll be dangerous if the Zhen family finds out. It's better to hide everything. It'll be safer that way. Compared to the resources the family will give, I think safety is more important in the first few years."

Compared to the cultivation resources provided by the clan, Zhu Wuwan wanted the various ancient books and spells of the Hundred Poisons Sect's library peak more.

As for the things that Zhu Wanhao valued the most, he only needed to join the Hundred Poisons Sect to obtain them. He did not need to let the clan elders know about his talent and aptitude.

Therefore, compared to the resources that were given to him after he was valued by the family, Zhu Wuwan hoped to live a stable life. He would rather not have these resources and wanted to increase his own safety.

Moreover, just because he did not take these resources now did not mean that they were not his. When his strength increased, everything in the Hundred Poisons Sect would be his, just like the Nine Zhao Imperial Palace.

Zhu Wuyang would definitely earn more breakthrough stones.

Seeing Zhu Wanwan's firm attitude, a complicated expression flashed across Zhu Wanzi's face. "Good child, no wonder you were able to advance to this level in such a short period of time. You are indeed worthy of being the number one person in a thousand years. Compared to you, I am still too petty. In that case, I will definitely help you hide this matter. Let alone the elders of the family, I will not even tell my children. You just need to focus on your cultivation and hide your strength. I will wait for you to be like you were in the Nine Zhao Country. One day, you will soar to the sky and defeat all the enemies."

Zhu Wanzi didn't finish her sentence. In fact, she wanted to add that it might take a long time. Ten or twenty years might not be enough, and even a hundred or two hundred years might not be enough. Compared to the cultivation of martial arts, the immortal path was much more difficult, and the time required was beyond imagination.

The ancestor of the Zhu Clan was only lucky enough to break through to the Fake Core Stage when he was close to 300 years old, and he possessed the strength to sweep through the Zhen Clan.

Even if Zhu Wuan was talented, it would take at least 200 years to reach this stage.

Moreover, Zhu Wanwan had entered the path through martial arts. Generally speaking, cultivators who entered the path through martial arts had very poor spiritual roots. After all, they were born after birth. Although their cultivation progress was amazing when they were in the Qi Condensation stage, once they entered the Foundation Establishment stage, their speed would definitely plummet. It was basically impossible to enter the False Core stage, let alone the Golden Core stage.

However, Zhu Wanzi would never have thought that Zhu Wuyang would improve so quickly in the future, so fast that even Zhu Wuyang herself was dumbfounded.

It seemed, it seemed, maybe...He had really backfired again!

Chapter 166: I'll Block It for You (1)

In Zhu Wanzi's opinion, Zhu Wuyang could indeed hide in the mortal world for seventeen years, then soar to the sky and create a legend in the Southern Wasteland.

It was basically impossible for the Hundred Poisons Sect to repeat such a legend. However, it would be too much of a blow to say that. After some consideration, Zhu Wanzi closed her mouth and sighed softly in her heart.

Seventeen years was still bearable, but what about 170 years?

Even in his entire life, it was likely that Zhu Wuyan would not be able to overpower the Zhen Family.

After that, they discussed the matter of hiding the truth from everyone. Only then did Zhu Wanzi bring Zhu Wuyang and rush towards Five Treasures Peak, which was located in the center of Hundred Poisons Sect.

The Five Treasures Peak was the residence of the Hundred Poisons Sect's Sect Leader. It was also the place with the most abundant Heaven and Earth Spiritual Energy in the Hundred Poisons Sect. The Zhu Clan's ancestor, Zhu Mingjing, lived here all year round.

Now that Zhu Mingjing might have passed away, he naturally held various ceremonies here.

Along the way, they met many Hundred Poisons Sect disciples who were rushing to the Five Treasures Peak. Most of them were Qi Condensation cultivators, and they were basically not as good as Zhu Wuyang. Only occasionally would Foundation Establishment cultivators pass by.

There were also people who stopped to greet Zhu Wanzi and looked curiously at Zhu Wanwan, but they didn't ask much. After all, the most important thing at the moment was the matter of the sect master's departure.

By the time Zhu Wanzi and Zhu Wanwan arrived at the foot of Five Treasures Peak, the place was already filled with disciples of Hundred Poisons Sect. Most of them were in the Qi Condensation Stage, with a few Foundation Establishment Stage disciples occasionally.

Most of the Foundation Establishment disciples had gone to the Five Treasures Peak. The Qi Condensation disciples were not qualified to go up. After all, the space on the peak was limited.

"According to the news from the higher-ups, the sect leader met with an accident when he was trying to break through the bottleneck of the True Core Realm. Not only did he not break through the bottleneck, but he also suffered the backlash of the pill crystals. That was why he passed away. The difficulty of the Golden Core Realm is as difficult as climbing up to the sky."

"Grand Elder will probably reach the end of his life in another hundred years or so. If no new Golden Cores appear in our Hundred Poisons Sect before this, the surrounding immortal cultivation sects will definitely rob us. "

"This kind of big thing is not something that small Qi Condensation cultivators like us can worry about. It's better to focus on cultivation and enter the Foundation Establishment stage as soon as possible. Only then can we possibly participate in the sect's decision-making."

"Isn't that Zhu Wanzi? I heard that she found an overwhelming prodigy in the mortal world who entered the path through martial arts. She might be put in an important position. Could the one beside her be the only prodigy in our Hundred Poisons Sect who entered the path through martial arts in the past few hundred years?"

"Look at their miserable faces. Could they be worried that the Zhen Clan will target them? After all, without the Zhu Clan's Patriarch overseeing the Hundred Poisons Sect, the Zhu Clan will be in trouble in the future. "

The surrounding disciples of the Hundred Poisons Sect were basically all wearing black robes. This was the standard service of the Hundred Poisons Sect. There were many pockets inside that could store many things, such as poison powder, poisonous insects, venom

Yes, the Hundred Poisons Sect was strictly considered an evil sect, but they were not vicious in their actions. In the eyes of many sects, they were both good and evil.

Most of the disciples looked worried, and the disciples of the Zhu Clan were even sadder. However, there were also some disciples who couldn't hide their joy under the deliberate disguise of sadness.

If Zhu Wuan guessed correctly, these should be the disciples of the Zhen Clan. Without the great mountain of Patriarch Zhu, the Zhen Clan would be the number one force in the Hundred Poisons Sect in the future. If they could get the biggest piece of cake from the Hundred Poisons Sect, their lives would be much better. The disciples of the Zhen Clan were naturally delighted.

As for the Hundred Poisons Sect not having a Golden Core to oversee it in a hundred years 'time and being bullied by other forces, the Zhen Clan did not think too much about it, especially these Qi Condensation cultivators.

To many Qi Condensation cultivators of the Zhen Clan, it was very likely that they would no longer exist after a hundred years, so there was no need to think too much.

The Zhu Clan disciples naturally noticed the Zhen Clan disciple's little tricks. Although they were furious, they didn't say anything when they considered the current situation.

"Wan Zi, you're back. Is this the Nine Zhao Nation's once-in-a-thousand-year martial arts prodigy, Zhu Wanhao?"

At this moment, a middle-aged man with a pale face and no beard walked over from the Zhu Clan disciples in front. He was also wearing a black robe, and he looked at Zhu Wuyang with a solemn expression.

From his body, Zhu Wuwan felt a terrifying power fluctuation that was dozens of times stronger than his.

This was a Foundation Establishment cultivator!

This thought appeared in Zhu Wanwan's mind, and he immediately bowed along with Zhu Wanzi. "'Deacon Zhu Wu, this is the martial arts prodigy of our Nine Zhao Nation's Zhu royal family, Zhu Wuan. This is our Hundred Poisons Sect's inner sect deacon, Senior Zhu Wu."

"Greetings, Deacon Zhu Wu!" Zhu Wuwan bowed.

Before this, Zhu Wanwan had already learned from Zhu Wanzi that those who were qualified to be the inner sect deacons of the Hundred Poisons Sect were all Foundation Establishment cultivators. Those who could become elders were basically all perfected Foundation Establishment cultivators, and they were also the top combat forces of the Hundred Poisons Sect.

Zhu Wu nodded. Although the Zhu Clan was in a bad situation, he still forced a smile and said, “” Not bad. I've never seen someone so young enter the path with martial arts. Cultivate well in the future. I look forward to the day you become a Foundation Establishment cultivator. ”

At this point, Zhu Wu felt that something was wrong. According to his perception, the aura emitted from Zhu Wuan's body seemed to be too chaotic.”You ??Did you take a lot of pills during your cultivation? I feel that the aura on your body is a little strange.”

“Deacon Zhu Wu, this is all my fault.” Before Zhu Wuyang could say anything, Zhu Wanzi rushed out with a sad expression. “” It's all my fault for discovering it too late. In fact, I had already entered the path with martial arts a few years ago and became an official immortal cultivator. However, because I didn't know anything about the immortal cultivation world, I've been wasting my time in the secular world for the past few years. ”

” Not only that, when I entered the path through martial arts, I cultivated a very simple and crude breathing technique, which caused my foundation to be very unstable. Moreover, I took many natural treasures and spirit pills. It can be said that I relied on pills to rush up. Although I have the strength of the sixth qi layer, my foundation is extremely unstable. In the future...It will be very difficult for me to step into the Foundation Establishment stage in the future.”

Everything that Zhu Wanzi said was something that she had discussed with Zhu Wuyang. However, Zhu Wuyang was originally prepared to say it herself, but she did not expect Zhu Wanzi to say it first. This was equivalent to taking all the responsibility on herself. freewebnovel.com

Zhu Wanzi's actions moved Zhu Wuyan a little. He didn't expect Zhu Wanzi to do this for him. In this way, Zhu Wanzi would not only fail, but might even be punished.

Chapter 167: Fooled Everyone (1)

Since Zhu Wanzi was punished, Zhu Wanwan's responsibility would naturally be reduced. He would even receive the family's understanding and more resources.

In Zhu Wanzi's heart, she had never thought that Yu Sheng would be able to gain much from Zhu Wanwan. After all, she was not young anymore and did not have many years to live.

It would take too long for Zhu Wanzi to reach the Foundation Establishment stage. In Zhu Wanzi's opinion, it was impossible for her to spend the rest of her life. How could she benefit from Zhu Wanwan then?

The reason why he took on this responsibility was because he had the heart of an elder!

As expected, Zhu Wu's face changed immediately after hearing Zhu Wanzi's words. "Wan Zi, you've been guarding the Nine Zhao Nation for the past ten years. Did you not notice anything unusual? Did you not know that you entered the path through martial arts? "

"I didn't notice it when I entered the Dao with martial arts." Zhu Wanzi looked ashamed. "I've been busy learning alchemy all these years, so I don't know much about the internal affairs of the Zhu royal family. That's why I missed this matter. As a result, I don't know anything about the cultivation world. I've taken so many pills that my cultivation foundation has almost been destroyed. "

Zhu Wu's expression was gloomy. He grabbed Zhu Wuan's hand and examined it carefully. As expected, he found that the True Qi in Zhu Wuan's body was extremely unstable. It was obvious that it had been forcefully raised by the pill.

Not only that, even Zhu Wuyan's cultivation foundation was affected. Every immortal meridian was somewhat fragile.

Under such circumstances, even if Zhu Wuan had entered the path of cultivation through martial arts, it would still be very difficult for her to enter the Foundation Establishment Stage, let alone the mid-stage or even the late-stage of the Foundation Establishment Stage.

"What a pity!"

Zhu Wu couldn't help but let out a long sigh. He stared at Zhu Wanzi and Zhu Wuwan and said helplessly, "Originally, there was still a chance for him to enter the Foundation Establishment Realm. But now, the chances are less than one in a thousand. I'm afraid that one of the geniuses of our Zhu Clan has already been destroyed by you. "

"Deacon Zhu Wu, please punish me." Zhu Wanzi lowered her body.

Zhu Wu shook his head. "What's the use of punishing you? You were able to enter the path of martial arts at the age of fourteen or fifteen. Such talent in martial arts is hard to come by in a thousand years. Even if your spiritual roots are a little weak after you become an immortal, there's a high possibility that you'll enter the Foundation Establishment Stage in the future, or even the late stage of the Foundation Establishment Stage. By then, our Zhu family will have another pillar to support the sky. "

"I didn't expect that my immortal foundation would be destroyed because of such a common sense problem. Immortal cultivation is different from martial arts. The foundation of martial arts is a little lacking, but it's still possible to make up for it. After all, many immortal spiritual pills can make up for the foundation of martial arts.

However, the immortal foundation is powerless. Wan Zi, you have made a huge mistake this time.”

“You can’t blame this on great-aunt.” Zhu Wuan quickly lowered his head and said, “Actually, when I entered the Dao with martial arts, I deliberately chose an extremely secretive place. There were layers of array formations protecting the surroundings. Even if I caused a huge commotion, no one would notice.”

“At that time, even if great-aunt was near me, she couldn’t sense anything. Later on, I deliberately hid it and cultivated the immortal path like martial arts. I thought that the cultivation of the immortal path could also be forced by resources, but I didn’t expect to make a big mistake.”

Zhu Wu waved his hand and said, “What does this have to do with you? The reason why you hid it was because Wan Zi had messed up the Zhu royal family of the Nine Zhao Nation. If not, why would you hide it all this time? In the end, it was all Zhu Wanzi’s fault. This time, not only did you not get any credit, but you will also be punished.”

Clearly, Zhu Wu had heard of the situation of the Zhu Imperial Clan of the Nine Zhao Nation.

“Wan Zi has no objections.” Zhu Wanzi lowered his head and said.

Zhu Wu sighed, feeling rather down. The shock of his ancestor’s recent death had yet to pass, and the martial arts prodigy he had high hopes for had met with an accident. It was really a headache.”Take him through the process of entering the sect first. Let Wu Hai officially enter the sect first. We’ll think of a way later to see if we can help him make up for the flaws in his foundation.”

“Yes, Deacon Zhu Wu.” Zhu Wanzi nodded and brought Zhu Wuyang to the nearby General Affairs Peak.

Seeing Zhu Wanzi and Zhu Wanwan leave, the Immortal Cultivators who had heard their conversation just now began to discuss.

” To be able to enter the path with martial arts at the age of fifteen, I didn’t expect this prodigy of the Zhu Clan to be even more monstrous than I imagined. Even if his talent for transcending the mortal realm and becoming an immortal is a little lacking, there’s a very high possibility that he’ll enter the late-stage of the Foundation Establishment realm in the future. Immortal cultivators who enter the path with martial arts are often stronger than immortal cultivators of the same level. They can be said to be invincible among those of the same level and can even fight across levels. Therefore, a late-stage Foundation Establishment cultivator who entered the Dao through martial arts is often comparable to a perfected Foundation Establishment cultivator. He is the top combat power of a family. It’s really a pity for the Zhu family.” freewebnovel.com

“Humph, he said he could enter the path with martial arts at the age of fifteen, but it was all because of a large number of medicinal pills. Otherwise, how could he enter the path with martial arts at the age of ten? He was lucky enough to step onto the path of the immortal path and was still not satisfied. He actually wanted to rely on medicinal pills to forcefully push his immortal cultivation up. In the end, he ruined his future. It’s really laughable.”

” I told you that a seventeen-year-old cultivator at the sixth level of the Aura Refining realm was a bit too exaggerated, and one who entered the Dao through martial arts. Now it seems that he has actually cultivated those crude and simple cultivation techniques and taken a large number of medicinal pills. No wonder he can improve so quickly. I was shocked before, thinking that the Zhu Clan would have another heaven-shaking pillar. I didn’t expect that the inside story was like this. ”

” Although Zhu Wuwan has no hope of building her foundation, a Qi Condensation cultivator who entered the path through martial arts is actually not bad. She’s just a little worse than a Foundation Building cultivator, haha. ”

Many cultivators of the Zhen Clan heaved a sigh of relief. They had received news from Zhu Wanzi that a seventeen-year-old cultivator had entered the Dao through martial arts and had reached the sixth level of the Aura Refining realm at such a young age. He was about to break through to the seventh level.

At that time, the younger generation of the Zhen Clan were all inexplicably shocked. Even some of the clan’s higher-ups were greatly shocked and secretly prepared themselves.

He didn’t expect that seeing it was better than hearing it a hundred times. He only knew the inside story after meeting it. Zhu Wanzi was also an idiot. She reported the matter without knowing it clearly. In the end, she made a mistake. Now, not only did she not have any credit, but she was also going to be punished.

It wasn’t that no one suspected it, but doing so would be extremely disadvantageous to Zhu Wanzi and Zhu Wanwan. They wouldn’t be able to get too many resources from the Zhu Family in the future.

In addition, Zhu Wuwan was only a Qi Condensation cultivator, so how could she possibly fake it in front of a Foundation Establishment expert?

Therefore, it was basically impossible for Zhu Wuyang to be hiding something.

Chapter 168: Snatching (1)

Looking at Zhu Wanzi and Zhu Wuyan who had left in a sorry state, Zhen Zuonian, the leader of the Zhen Clan at the foot of the Five Treasures Peak, frowned slightly. "I don't know if it's sooner or later, but it's strange that we're talking about this after the ancestor of the Zhu clan has passed away. "

" Could it be that Deacon Nian thinks that Zhu Wanzi and Zhu Wuyang are faking it to prevent our clan from suppressing Zhu Wuyang in the future? " Zhen Ji, who was beside him, said in surprise.

Zhen Zuonian nodded, " That's possible. Now that the Zhu family ancestor has passed away, our Zhen family will soon become the number one force in the Hundred Poisons Sect. The Zhu family will also be suppressed by us. In this situation, Zhu Wanzi and Zhu Wanwan might do something like this to prevent an overwhelming prodigy from being suppressed by us. "

"No way. It's true that prodigies who can enter the Dao with martial arts are rare, but their talent in the immortal path is basically not that great. Even if we want to suppress them, we won't go too far. Why would Zhu Wanzi and Zhu Wuwan do this?" Zhen Ji asked doubtfully.

A glint flashed across Zhen Zuonian's eyes. " Then it can only mean that Zhu Wanzi's talent in the Immortal Dao is beyond imagination. That's why Zhu Wanzi and Zhu Wuyan would work together to do such a thing. Perhaps they will tell the truth to the higher-ups of the Zhu Clan in private and let Zhu Wuyan receive the treatment she deserves. "

"This..." Zhen Ji scratched his head. " But Zhu Wuwan is only a Qi Condensation cultivator, and he's the kind who entered the path through martial arts. He doesn't have many immortal cultivation methods and spells, so how could he hide from our Zhen Clan's Foundation Establishment cultivators? Deacon Nian, you'll probably be able to see through the situation in his body with just a glance. There's no way to hide it. "

"Yes, I am." Zhen Zuonian nodded, his eyes slightly narrowed as he looked at Zhu Wanzi and Zhu Wuwan in the distance. " I'm a mid-stage Foundation Establishment cultivator after all, and I've even cultivated an intermediate-level detection spell. However, I didn't find anything unusual about Zhu Wuan. It can be seen that there's indeed a huge problem with this fellow's cultivation foundation. There's basically no need to worry anymore. "

"This way, our family can also breathe a sigh of relief." Zhen Ji smiled and agreed.

"That's hard to say." Zhen Zuonian shook his head. " It's better to be safe than sorry. Perhaps this little guy has some special treasure that can confuse us. "

Zhen Ji was a little stunned. "Deacon Nian, it shouldn't be that bad. This little guy has just stepped into the immortal path not long ago and is still a Qi Condensation cultivator. How can he have such a treasure?"

"Even so, we still have to observe for a while." "I'll leave this little guy to you," Zhen Zuonian said. "Keep a close eye on him during this period of time and see if there's anything unusual about him."

"If I discover that the Zhu Clan has secretly given him cultivation resources, or that there is a problem with his cultivation progress, or that he has exposed his talent in other aspects... Report to me immediately, this little guy is the only overwhelming prodigy in the Hundred Poisons Sect who entered the path through martial arts. He should be extraordinary."

"Yes, Deacon Nian." Although he was still a little unwilling, since Zhen Zuonian had said so, Zhen Ji, a small cultivator at the tenth layer of the Aura Refining realm, naturally did not dare to object. He immediately followed Zhen Zuonian's instructions and chased after Zhu Wanwan and Zhu Wanzi.

Hundred Poisons Sect, General Affairs Peak.

Zhu Wanzi brought Zhu Wuan to the outer sect deacon of Shu Wu Peak and asked him to distribute the disciple token, cultivation residence, initial resources, and so on.

After understanding Zhu Wuan's situation, Zhen Rong, the outer sect deacon in charge of this matter, sneered and sized Zhu Wuan up carefully. "So you're the only overwhelming prodigy of the Zhu family who entered the path through martial arts in the past thousand years. How could Zhu Wanzi bring you here? I thought an elder of the Zhu family would personally bring you here to settle everything and arrange the best treatment."

"Since the elders of the Zhu Family aren't here, Zhu Wanzi, you can't hold me back anymore. Maybe the place I've been assigned to is a bit bad. Please don't take offense."

"Up to you!" "As long as you're not afraid that the elders of the Zhu Family will ask you about it later, you can distribute it as you wish." Zhu Wanzi's face turned cold. As the only Heaven's Favorite who entered the Hundred Poisons Sect through martial arts in the past few hundred years, and a Heaven's Favorite at the sixth level of the Aura Refining realm, your residence must be at least one of the top Aura Refining cultivators. You must also receive more than ten Chi-amassing Pills every month. Zhen Rong, don't deduct any of them."

Zhen Rong looked fearful when she heard Zhu Wanzi using the Zhu Family's elders to suppress her. She began to allocate residence and monthly salary to Zhu Wuan. Although she didn't dare to deduct it, she still didn't let it go. "The ancestor of your Zhu

Clan has already left. In the future, the Hundred Poisons Sect will be ruled by my Zhen Clan, and your Zhu Clan will no longer have the right to be so overbearing. Name, age, cultivation...Report all of them again. Hurry up and distribute them and leave!"

Seeing that Zhen Rong had been frightened, a smile flashed across Zhu Wanzi's face. Just as she was about to report Zhu Wuyang's information again, she heard a voice behind her.

"Wait!"

Along with the voice, Zhen Ji looked at Zhu Wanzi and Zhu Wuwan and sneered. He walked to Zhen Rong's side and said, "" You're just a trash whose foundation has been destroyed and has no hope of entering the Foundation Establishment Realm. Even the Zhu Clan has to give up on you. You want to get such a generous treatment? You're just dreaming. "

"Zhen Ji!" Zhu Wanzi's expression changed and he said in fear.

"It seems like you still recognize me." Zhen Ji smiled.

" You're one of the top ten Qi Condensation cultivators of the Zhen Clan. Many people in the Hundred Poisons Sect know of you. " Zhu Wanzi said.

Zhen Ji said with some regret, " Since you already know, it looks like I won't be able to show you the truth today. I'll have to teach you a good lesson. However, you actually dared to lie to our Zhen Clan. If there's a chance in the future, don't blame me for being ruthless. "

"Deacon Zhen Rong, give this so-called overwhelming prodigy a room. As for chi storage pills, I don't have ten, just give him three as a token."

" Zhen Ji, you can't do this. The three Chi-amassing Pills are the monthly salary of a quasi-immortal cultivator who has just joined the Hundred Poisons Sect. Although there is a problem with his cultivation foundation, he is still an immortal cultivator at the sixth qi layer. He should be able to obtain at least seven Chi-amassing Pills. " Zhu Wanzi quickly said.

Zhen Ji sneered. " Whatever I say. If you are unhappy, you can ask the elders of the Zhu Clan to come and ask me. I want to see if the three elders of the Zhu Clan will come and find trouble with me, a Qi Condensation cultivator, for a piece of trash who can't even enter the Foundation Establishment Realm. "

"Congratulations to the host for being suppressed by the Immortal Cultivator Zhen Ji for the first time in his life. You have obtained two Breakthrough Stones..."

“Congratulations to the host for being assigned to White Stone Mountain for the first time in your life. You have received two Breakthrough Stones...”

” Congratulations to the host for losing seven Chi-amassing Pills for the first time in your life. You have received a Breakthrough Stone...”

Zhen Ji snatched it very cleanly and cleanly, but he did not know that it would not be long before he died just as cleanly and cleanly as he snatched it now.

Chapter 169: Disdain (1)

Faced with Zhen Ji's suppression, Zhu Wanzi's strength was lower than Zhen Ji's, and the Zhu Clan was facing a more dangerous situation. Zhu Wanzi even deliberately hid himself. Zhu Wanzi was also powerless to argue, so she could only bring Zhu Wanyang and leave.

However, Zhu Wuyang did not feel too disappointed. In a short period of time, he had obtained about ten breakthrough stones. It was definitely comparable to more than ten Chi-amassing Pills. What was there to be disappointed about?

However, Zhu Wuyang had already remembered this grudge in his heart. He was not Zhen Ji's match now, but it did not mean that he would not be a match for Zhen Ji in the future.

It wouldn't be long before Zhu Wuyang believed that he would have the strength to surpass Zhen Ji. At that time, Zhen Ji would be doomed.

Perhaps some people thought that they were just targeted by Zhen Ji. How could they obtain so many breakthrough stones? Ten breakthrough stones were equivalent to more than 100 billion breakthrough points.

One had to know that Zhen Ji's strength was at the tenth layer of the Aura Refining realm. In the mortal world, he was comparable to the lords of several dynasties. His status in the mortal world was extremely noble, and his influence and status were beyond imagination.

Faced with such a "big shot" targeting and suppressing him, coupled with the fact that Zhu Wuwan was also a "big shot" herself, it was normal for her to obtain so many breakthrough stones.

” My good grandnephew, don't go to the White Stone Mountain for the time being. For the next few years, you'll temporarily stay with your great-aunt. ” Zhu Wanzi warned as soon as they walked out of the General Affairs Peak.

“Aunt, could it be that there’s something wrong with White Stone Mountain?” Zhu Wuan raised his eyebrows.

“Not bad.” Zhu Wanzi nodded. “White Stone Mountain is located at the periphery of our Hundred Poisons Sect. The spiritual energy of heaven and earth can be said to be the most scarce. It’s only twice as much as the outside world. The environment is very harsh. ”

” That’s not all. The White Stone Mountain is also the place where the Zhen Family punishes their disciples who have made mistakes. The people living there are some of the most vicious disciples of the Zhen Family, and there are even Foundation Establishment disciples. If you, a member of the Zhu Family, go there, not only will your cultivation conditions be poor, but you will also be targeted by the evil people of the Zhen Family. The consequences will be unimaginable, and it is very likely that you will be killed. ”

Zhu Wanhao didn’t expect Baishi Mountain to be so vile. He originally thought that it was just the spiritual energy of heaven and earth that was a little inferior there and that it wouldn’t affect him much.

However, he didn’t expect that there would be a group of enemies waiting for him. In that case, why would he go? He could only hide in Zhu Wanzi’s house.

“Only by suffering can one become a superior person.” As if afraid that Zhu Wanwan would insist on going to White Stone Mountain, Zhu Wanzi persuaded, “Good grandnephew, you know your talent. Sooner or later, you will be able to enter the foundation establishment stage. When that time comes, you will properly deal with Zhen Ji, Zhen Rong, and these idiots. In the next few years, you will stay with your great-aunt and cultivate well.”

“Grandaunt may only be a ninth qi layer cultivator, but as long as Grandaunt is alive, I will protect you for a day, unless those Zhen Clan thieves step over Grandaunt’s corpse. You have been hiding for the past seventeen years. I believe that you should be able to handle this situation.”

“Don’t worry, Grandaunt. I understand.” Zhu Wanwan nodded. “I’m not the kind of person who cares about face. Compared to life and death, hiding is nothing. Sooner or later, I’ll get back what I deserve. ”

When he was in the Nine Zhao Kingdom, Zhu Wuyan could even tolerate the words “trash prince”, “incompetent prince”, and “eunuch prince”. ...These insulting nicknames, let alone now.

Compared to the danger they faced in the Nine Zhao Kingdom’s imperial palace, the danger they faced was nothing.

The Zhen Clan was indeed terrifying, but it shouldn't be as terrifying as Mad Emperor Zhu Zhenwu. No matter how many enemies the Hundred Poisons Sect had, it wouldn't be as many as when the entire Imperial Palace and Crown Prince Palace were enemies.

Although he still had to suppress the growth of his strength, after all, the Hundred Poisons Sect had late-stage Foundation Establishment and perfected Foundation Establishment cultivators. Zhu Wuwan was not confident that he could hide from them.

He would have to wait until he improved the Hidden Immortal Mustard a little more before he dared to increase his cultivation.

As for now, it was better not to break through so quickly and grasp a limit.

Moreover, even without the threat of the Zhen Clan, Zhu Wuwan didn't dare to improve too quickly. Otherwise, a man's wealth would cause trouble. The threat of the Zhen Clan was really nothing compared to the threat in the Nine Zhao Imperial Palace.

Seeing that Zhu Wanwan had listened to her, Zhu Wanzi smiled and nodded. "Good grandnephew, I know that you can endure what ordinary people can't endure and do what ordinary people can't. In the future, you will suppress it for decades or centuries. When your strength increases, you will soar to the sky like the Nine Zhao Country."

"Let's go. I'll bring you to my house to take a look. You can stay at my place from now on."

"Aunt, can you take me to the Book Collection Peak first? In the following period of time, I want to master more immortal arts and cultivation techniques in the Book Collection Peak." Zhu Wuyang asked.

Zhu Wanzi clapped her hands. "I forgot about that. It's time for you to change to another immortal cultivation technique. Dao Chu ??" The immortal cultivation method you cultivate is not a long-term solution. Some people from the Hundred Poisons Sect have tried it before, but in the end, they all chose our sect's basic cultivation method."

"Now that you're a member of the Hundred Poisons Sect, you can naturally cultivate this art. Quickly change your original art. I'll bring you to the Book Collection Peak now."

The Book Collection Peak was not far from the General Affairs Peak. With their speed, it only took them a few minutes to arrive at the Book Collection Peak.

Zhu Wanwan asked Zhu Wanzi to go home and visit her family first. He entered the Book Collection Peak alone. Before he left, Zhu Wanzi could not help but remind him again, "My dear grandnephew, when you arrive at the Book Collection Peak, you must remember to change to the Hundred Poisons Sect's Qi Condensation Stage's Basic Art

of Poison Refinement. This way, you can cultivate the Ten Poisons Art when you reach the Foundation Establishment Stage. This is one of the top Immortal Dao Arts in the Foundation Establishment Stage, and it is also the most important art in the Foundation Establishment Stage of our Hundred Poisons Sect. ”

“I understand.” Zhu Wanwan nodded, indicating that Zhu Wanzi did not need to worry.

However, Zhu Wanhao had already decided in his heart that he would never cultivate the Poison Refinement Technique or the Ten Poison Technique before he reached the Golden Core Stage. If he wanted to cultivate, he would have to cultivate the world’s number one immortal scripture, the Jade Book of Dao Beginning.

For other cultivators, the Dao Beginning Jade Book was difficult to cultivate and it was basically impossible to cultivate to the Foundation Establishment Realm. However, for Zhu Wuwan, the Dao Beginning Jade Book was the most suitable for him and could also bring him the greatest benefits.

Therefore, no matter how fast the progress of the Poison Refinement Technique and the Ten Poisons Technique was, and no matter how many benefits he obtained, Zhu Wuwan would not choose them.

At the thought of this, Zhu Wuwan smiled and strode towards the main entrance of the Book Collection Peak not far away.

This time, he should be able to obtain a huge harvest again!

There was a stone building at the top of the library peak. It was divided into three floors. The immortal spells and spells of Hundred Poisons Sect were placed in these three floors.

The first floor was basically filled with simple cultivation techniques and spells, and ordinary disciples in the early stage of the Aura Refining realm could enter and exit freely. The second floor contained low-level immortal cultivation techniques and spells. Ordinary disciples in the middle, late, and perfected qi layer could enter and exit freely.

On the third floor, there were some intermediate immortal cultivation techniques and spells. Only Foundation Establishment cultivators could enter and exit at will.

Chapter 170: Advanced Stage of Qi Refinement (1)

Zhu Wanwan was at the sixth layer of the Qi Refinement realm, which was the middle stage of the Qi Refinement realm. Although it seemed to outsiders that her cultivation foundation was very poor, she was still qualified to enter the second floor of the library

peak's stone building and read a large number of low-level cultivation techniques and spells.

These were all things that Zhu Wanhao couldn't wait to obtain. They could bring him considerable benefits.

Apart from earning breakthrough stones from it, the most important thing was to fuse and improve the various immortal martial arts techniques and secret arts that Zhu Wuyang had mastered. Moreover, Zhu Wuyang could also learn some spells and immortal spells that were beneficial to him.

Knowledge was wealth, especially for a genius like Zhu Wuwan who was born sacred and had a high level of comprehension.

Watching Zhu Wuyang's figure disappear from the stone tower of the Book Collection Peak, Zhen Ji, who was following closely behind, frowned slightly. "Zhu Wuwan must have gone to comprehend the Poison Refinement Technique. I wonder if his cultivation foundation will be more stable after he changes to the Poison Refinement Technique. However, I've never heard of the Poison Refinement Technique having the effect of stabilizing his cultivation foundation. It shouldn't be to that extent, right?"

"Should we go in and take a look? Forget it, let's go eat something first. After resting for a while, we'll go back to the stone tower and keep an eye on that idiot Zhu Wuwan. See if there's anything unusual about him. At the same time, we can also suppress him in case something good happens to him."

After he finished speaking, Zhen Ji turned around and walked towards the free market nearby. He didn't know that reading was also a form of cultivation for Zhu Wuwan.

"Congratulations to the host for reading the Poison Refinement Technique for the first time in his life. You have obtained three Breakthrough Stones..."

"Congratulations to the host for comprehending the Poison Refinement Technique for the first time in his life. You have obtained six Breakthrough Stones..."

In order to avoid arousing suspicion and disguise himself, Zhu Wuwan had specially flipped through the Poison Refinement Technique for an hour. She did not expect to comprehend it so thoroughly.

It was really too simple. After all, it was the basic immortal art that the Hundred Poisons Sect relied on to establish itself. Did it have to be so easy? Moreover, it was far inferior to the Dao Chu Jade Book.

After the show, Zhu Wuwan began to pick out the things that interested her, especially the immortal spells and spells on how to hide one's strength. She had to upgrade the Hidden Dragon Grass first.

“Congratulations to the host for reading the Return to Morality technique for the first time in his life. You have obtained a breakthrough stone ?”

“Congratulations to the host for comprehending the Return to Morality technique for the first time in his life. You have obtained two Breakthrough Stones ?”

“Congratulations to the host for reading the Fog Concealment Technique for the first time in your life. You have obtained a breakthrough stone ?”

Because they were only some simple immortal spells and spells, Zhu Wuwan did not obtain many breakthrough stones each time. For the time being, he could still quietly absorb them.

In order to avoid being discovered by others, Zhu Wuyang would read and comprehend these concealment spells and immortal spells while also reading other immortal spells and spells.

Moreover, it would take less time to flip through concealment spells and immortal spells, and it would take longer to flip through other spells and immortal spells. In fact, he was quietly comprehending the spells and immortal spells he had learned before, silently fusing their essence into the Concealed Immortal Mustard.

Before this, Zhu Wuwan had modified and adjusted the Concealed Immortal Mustard into a simple immortal martial art spell. Now that it had absorbed the essence of some simple concealment spells, its improvement speed was extremely fast, and it quickly advanced to a low-level concealment spell.

Because the effects did not change much, Zhu Wuyang did not change her name. Instead, she continued to use her previous name and fused more spells and immortal art essences.

In order to earn less Breakthrough Stones and not increase his cultivation so quickly, Zhu Wuwan memorized and comprehended the concealment immortal spells and spells on the first floor of the stone tower. As for the other immortal spells and spells, he only checked them. He kept those that were useful to him and did not memorize and comprehend those that were useless. Anyway, he could make up for them in the future.

Of course, most of the time was still spent on the improvement of the hidden immortal mustard. He had to improve the hidden immortal mustard to ensure that it could hide from the detection of late-stage Foundation Establishment or even perfected Foundation Establishment cultivators. Only then did Zhu Wuwan dare to increase his strength with ease. Otherwise, he would not be increasing his strength but seeking death.

With Zhu Wuwan’s current strength, although she was confident that she could take on a late-stage Qi Refinement cultivator, the possibility of her winning against a perfected

Qi Refinement cultivator was extremely low, let alone a Foundation Establishment cultivator.

However, even so, a large number of breakthrough stones still swarmed over. Fifty percent of them were forcefully poured into Zhu Wuwan's body, causing her strength to constantly increase.

His breakthrough was still too fast!

Zhu Wuwan did not expect that after such a short period of time, she would have to experience the feeling of suppressing her strength again.

If he had known that this would happen, he would not have been exposed so early. Everything should have been done quietly. That way, he might have been able to enjoy himself for a longer period of time.

Compared to suppressing his strength here, it was better to be the hidden big BOSS of the Nine Zhao Nation.

Unknowingly, Zhu Wuwan had already read and memorized more than a thousand immortal spells and spells. Under the pressure of these immortal spells and spells, Zhu Wuwan should break through again.

Zhu Wuwan found a deserted corner to hide in and pretended to flip through the ancient books. In fact, he was carefully pulling out the Spirit Forging Immortal, pulling out the seventh chakra meridian from his lower dantian and connecting it to his middle dantian.

Because he had the experience of opening six immortal meridians before, he was very familiar with it this time. In just about half an hour, Zhu Wuwan successfully pulled out the spirit meridian and connected it to the middle dantian, forming the seventh immortal meridian.

What he needed to do next was to temper, nourish, and improve...Then, he injected his Dao Beginning True Qi into it.

With the help of the Breakthrough Stone, everything went smoothly. After six hours, Zhu Wuyang's strength reached a new level.

"Congratulations to the host for breaking through to the seventh level of the Qi Refinement realm for the first time in his life. You have received 60 breakthrough stones?"

Every time he saw the system notification after a breakthrough, Zhu Wuyang had the urge to complain. Since there was a first breakthrough to the seventh level of the Refined Qi realm, would there be a second breakthrough to the seventh level of the

Refined Qi realm, and a third breakthrough to the seventh level of the Refined Qi realm...

If there were, Zhu Wuwan would have to cripple her own strength. The amount of breakthrough stones needed to advance to a new level far exceeded the amount of breakthrough stones obtained after the breakthrough. That was why only a fool would do that.

Unless they had a magical cultivation method that could allow immortal cultivators to obtain greater benefits when they fell, only a fool would cripple their own strength and then break through again. Who knew if there was such a strange immortal cultivation method in the immortal cultivation world.

However, given the mystical and mysterious nature of the cultivation world, there should be one.

Zhu Wuan smiled and stopped thinking about it. He began to concentrate on absorbing this wave of breakthrough stones and use them to stabilize and increase his strength.

As the strange power of breaking through the petrification was absorbed by Zhu Wuyang, the mist of true energy in Zhu Wuyang's dantian stabilized and expanded at a speed visible to the naked eye.
