

## Leveling 321

### Chapter 321

Yi Tianyun saw that many cultivators were forced to be a miner inside, their ankles were chained to the ground to make sure they couldn't escape.

Those cultivators weren't some average cultivators either, the lowest of them was at the Spirit Refinement Stage.

With the Appraisal Eye leveled up, Yi Tianyun could see that mine was really a great resource mine!

He could even see the remaining resource of the mine has with the eye!

Jade Spirit Stone: Divine Rune catalyst. Remaining resource more than 1.000.000 pounds.

Profound Iron Ore: Soul Tool forging material. Remaining Resource more than 10.000.000 pounds.

Amethyst Ore: Heaven Level Tool forging material. Remaining Resource more than 100 pounds.

Cloud Gold Dust: High Grade Medicinal Pill catalyst. Remaining Resource more than 10.000 pounds.

After confirming the materials mined there, Yi Tianyun knew that the most precious thing in that mine was Amethyst Ore and the Cloud Gold Dust!

But he also didn't expect the mine to have that much resource left!

Seeing the resources, he finally knew why Netherworld Empire used prisoners who were also a cultivator to be the miner there, that was because the resource wasn't easy to mine!

"Hurry! Don't be lazy!"

“It seems something happen above, should we check it?”

“What can the prisoners do? Who dare to mess with the Netherworld Empire?”

Yi Tianyun noticed that the guard there would whip the prisoners, some miners were even killed because of the cruel way the guards handled them.

“Ah!”

He even noticed that the guards didn’t even pay any attention to the prisoners who were in dire need of an antidote.

They were too lazy to take care of those prisoners as the prisoners will be replaced as they died.

Yi Tianyun couldn’t stand that scene and quickly came forward and shot the guards near the prisoner who was in pain since he needed the detoxification pills for the poison in his system.

After he killed the guards there, he quickly took out the detoxification pills inside their storage ring and quickly tossed it to the prisoners.

The prisoners quickly got up shivering and took the pills immediately, they quickly looked gradually better after taking the medicinal pills, at least he wasn’t in pain anymore!

The guards quickly came after hearing the commotion and were startled to see a stranger in the mine, and their colleague was dead near the stranger.

“Who are you!” Asked one of the guards.

Yi Tianyun sighed and quickly shot the guards down, the prisoners who were forced to mine.

They were shocked to see a young man easily killed the guards.

They stopped working to see who and what the young man would do next!

Yi Tianyun immediately shouted that the miner was all free, they should find the key from the guards to unlock their shackles and follow him to kill all the guards there!

The prisoners quickly did as they were told and searched the key from the guards' corpses. But, some of them look depressed and refused to search for the key.

"Hey, aren't you wanted to escape this hell hole? Why are you still sulking and do nothing?" One of the prisoners asked to the depressed one.

"You know it was an all useless effort! We would still need the Detoxification Pills constantly! We would be able to get away from the Netherworld Empire for long because of that!" The depressed prisoner said matter of factly.

The previously hopeful miner was startled by their friend's answer, they forgot about the Detoxification Pills.

Yi Tianyun noticed that the hope inside this miner's eyes gradually faded as they realized that they couldn't get away from the Netherworld Empire.

"You all don't have to worry about anything! I will personally refine the Detoxification Pills that you need to get rid of the poison in your body! I will make sure that none of you need the Netherworld Empire after all of this!" Yi Tianyun shouted for the entire prisoner to hear.

Once again, the fire in their eyes was lit again as they began to shout for their freedom.

At the same time, Yi Tianyun has already finished analyzing the poison inside the prisoner's body, he smirked as he noticed that the poison used on the normal inmate was weaker than the one used on the Old Ancestor, so it was way easier to make the detoxification pills for those miners!

Yi Tianyun was glad that he didn't skip any Storage Ring from the guards that he killed upstairs because, considering there were that many prisoners, he had to make the same amount of detoxification pills. Thus he needed many Spirit Medicine as the main component, and fortunately, the guards had many on their possession!

After killing all the guards inside the mine, Yi Tianyun started to refine the Detoxification Pills as he promised, the prisoner didn't stand by doing nothing.

They mined the mines harder than before! They quickly put every resource that they mined to the Storage Ring and gave it to Yi Tianyun.

That was their way to thank Yi Tianyun!

Even if Yi Tianyun didn't ask for it, they knew that a strong person like Yi Tianyun needed a lot of resources to become even stronger.

They weren't such ungrateful people who would let people save them without any compensation!

## Chapter 322

"Keep it to yourself! It was your hard work, why would you gave that to me! I could find it by myself after all this!" Yi Tianyun said casually.

But the miners ignored Yi Tianyun and kept mining, and they still insisted so Yi Tianyun would accept their hard work!

"We have nothing, we can only give it as a reward. You save us, and this barely called reward."

"Yes, we have nothing to repay. We can only work hard and give you the ore we dug here."

"I am willing to follow the benefactor and follow the orders of the benefactor!"

“Me too, I am willing to follow the benefactor! If the benefactor has a hatred with the Netherworld Empire, I will be with the benefactor in this life, and deal with the Netherworld Empire!”

“Yes, killing the running dogs of the Netherworld Empire, killing the Netherworld Empire bastards!”

The miners then pledged themselves that they would become Yi Tianyun’s confidant in the future!

They even pledged if Yi Tianyun wanted to, they will hunt the Netherworld people until they couldn’t anymore!

It was clear at that point that all of them were furious with the Netherworld Empire!

They wanted to exact revenge on the Netherworld Empire!

They were already hopeless and thought that they would surely die there like a dog, but when Yi Tianyun comes, he lit up the fire in their heart once again!

“I know that you all must feel a great hatred towards the Netherworld Empire! But you have to get out of here first for you to be able to exact revenge against them!” Yi Tianyun said while sighing towards the miner.

As he spoke, he finally finished refining the Medicinal Pills to detoxify the poison on the miner’s body.

He quickly distributed all of the Medicinal Pills to the miner so they could recover as soon as possible.

“I feel that the toxin in my body is gone, it’s really gone!”

“Really gone...”

They burst into tears as they quickly felt the effect of the Medicinal pills.

However, some of them still took more than one pill on the off chance that they might be affected by the poison again.

But Yi Tianyun decided to let it slide as he needed everyone's cooperation to destroy the Netherworld Empire.

"Hey, don't eat the pill more than once for now! You could always get more than one, but don't be a waste!" Yi Tianyun said as to reprimand them to not get greedy!

Everyone quickly calmed themselves and nodded their head, they were caught in the moment and thought that one pill wasn't enough for them.

Soon enough, thousands of cultivators who were forced to work in the mine were cured of the poison in their system thanks to the pill that Yi Tianyun has just refined, and there was no more despair in their eyes.

They quickly gave the Storage Ring that they've already stuffed with so many resources to Yi Tianyun.

Yi Tianyun no longer had any reason to refuse the offer and thus accepted it for their sake.

"Many thanks, benefactor!"

"Many thanks, benefactor!"

"As long as the benefactor order me, I will definitely go through anything and be willing to do everything for the benefactor!"

"I want to follow the benefactor in my life, no matter where benefactor goes!"

All those miners quickly bowed down their heads as a sign of loyalty to Yi Tianyun and an expression of gratitude.

“Raise your head! You don’t need to bow for me now! Think about it later when all of you are safe outside!” Yi Tianyun said confidently.

“Now, stay behind me! I will make sure we all get out of this prison safely!” Yi Tianyun said confidently.

Yi Tianyun quickly took the lead and rushed upstairs, at first, he didn’t see any guards, but as he got closer to the main gate, he could see that many guards were coming in with a confused face.

But the guards weren’t that much, and Yi Tianyun was sure that he could kill them all in a short amount of time!

After Yi Tianyun killed all the guards, all the miners were finally free!

“Now, get out of here! I will make sure that this place would be destroyed!” Yi Tianyun said while setting his gaze toward the prison once again!

The miners were shocked to hear Yi Tianyun will be alone in that place, they were reluctant to leave Yi Tianyun alone as they wanted to follow Yi Tianyun’s footstep.

“What about benefactor?”

“No need to worry! I will destroy this place! The best thing that you could do to me is to stay safe and fights the Netherworld Empire once you got your strength back!” Yi Tianyun said confidently.

All the miners were moved of Yi Tianyun’s word, and thus they obeyed Yi Tianyun’s command and left the prison with a newfound determination.

“In this life, the Netherworld Empire is my enemy, as long as there is a chance, I must kill them!”

“Yes, even if we can’t kill them, there is no problem in doing some damage!”

“Thanks to the benefactor, we can flee from here!”

Yi Tianyun saw them left and confused about their newfound loyalty towards him.

He knew that he wasn't a good person thoroughly, but he couldn't stand the way Netherworld Empire treated those prisoners at all, but he knew that with the prisoners gone, they would create problems in another place for the Netherworld Empire later.

‘DING’

‘Successfully completed [Saving a life is more important than wealth!] achievement!’

‘Improved the [Saviour] title, adds 1.000 Prestige Points!’

Yi Tianyun was smirking happily as he saw the improvement of his title, it was like getting 800 Prestige Point without doing anything!

## Chapter 323

Yi Tianyun didn't expect that his title to suddenly improve at all, although he knew that the Prestige Point had a lot of useful effects like improving his luck to draw much better things on the lucky draw and improving the probability of success in pill refining, forging, or divine rune engraving!

Yi Tianyun finally realized that doing a good deed will reward him!

He quickly made his way inside, but he immediately felt a strong aura waving through the air.

“Is General Long coming?”

He was excited as he finally got to test his power against some Void Spirit Cultivator!

Sure enough, he quickly saw a giant dragon flew toward the prison at a great speed!

He looked at the dragon's status with his Appraisal Eye, and the dragon itself was more powerful than the black dragon at the 8th Level Core Transformation Stage!

He also saw that a man was riding the giant dragon confidently.

'Giant Red Dragon: 8th Level Core Transformation Stage with Powerful Fire Breath, Combat Power est. 4.100.000'

'General Long: 1st Level Void Spirit Stage'

'Equipment: Red Dragon Battle Armour, Red Dragon Divine Spear'

'Combat Power: 14.000.000'

'Martial Art: Heavenly Dragon Secret Art, Tyrant Soul Spear Secret Art'

'Weakness: None'

'Drops on defeat: Red Dragon Battle Armour, Red Dragon Divine Spear, Heavenly Dragon Secret Art, Dragon God Bloodline'

"14 million Combat Power in base state..."

If he was pushed enough, he could release all his might, and the number will definitely rise!

Yi Tianyun knew that his opponent would be difficult to handle, the opponent could easily have 30 million Combat Power!

There was no easy way for Yi Tianyun to deal with that man at the moment, but he sure had to try everything he can!

Yi Tianyun quickly used the Ice-Cold Fury by consuming 5.000 CPs and activated his Crazy Damage Mode!

The attack power of the Ice-Cold Fury continuously increased until it stopped at 34 million!

With his current cultivation stage, that power was really crazy, normal cultivators at his level won't be able to reach an attack power that high!

Yi Tianyun quickly activated his Dragon God Bloodline to enhance the attack even further, and sure enough, the attack power rose once again and capped at 37 million Combat Power!

Yi Tianyun was currently at his wits' end as he couldn't think of anything else that could improve his attack power, so he fired the arrow, and it quickly froze the path it passed as it flew toward the Giant Red Dragon!

General Long felt something bad coming his way, and he quickly saw the frozen arrow flew towards him at great speed!

He quickly activated his Heavenly Dragon Secret Art to try and block that attack, with the Heavenly Dragon Secret Art activated, his combat power rose to 35 million!

Void Spirit Stage was really something else, their combat power was really like Heaven and earth if it was compared to the Core Transformation stage!

General Long quickly used the Red Dragon Force, it is looked like the Dragon God Bloodline, but that move seemed to be some sort of fusing the power of the Giant Red Dragon with himself!

General Long's body was quickly covered with thick Red Dragon Scale, and his Combat Power once again rose to 40 million!

General Long quickly activated the Tyrant Soul by clapping his hands together, creating a giant shockwave heading straight towards the arrow!

When the two clashed, a booming voice was heard loudly.

The Tyrant Soul shockwave and Ice-Cold Fury stopped each other in its track as Yi Tianyun knew that the power of his attack was slightly below General Long!

Yi Tianyun already knew that something like that would happen, there was no way that he could defeat a Void Spirit Expert with only one shot of his arrow!

"It's amazing, it's interesting..."

Yi Tianyun suddenly became excited, he had to find a way to fight against that General Long!

Chapter 324

General Long could withstand Yi Tianyun's Ice Cold Fury with ease!

Yi Tianyun smirked as he expected that kind of power from General Long, if Void Spirit Expert couldn't even block his attack with ease, then he would be utterly disappointed.

General Long hasn't even used all of his power either, which meant that he would only get stronger from here on out.

General Long himself actually was shocked to see the powerful attack came from a young man.

He never expected to encounter something at that caliber there, “Who are you dare to break into Netherworld Prison?!”

“Just a prison, I can destroy it anytime.” Yi Tianyun said.

“Don’t play with me!” General Long was so angry at Yi Tianyun’s disrespectful behavior.

Yi Tianyun smirked once again and attacked General Long with a few of his Ice-Cold Arrow and quickly ran inside the Netherworld Prison.

General Long blocked the arrow and surprised to see that Yi Tianyun ran toward the prison instead of running away from the prison.

“How foolish are you come inside instead of going outside? You cannot run anymore!”

General Long, who was enraged, instantly released his killing intent, he will make sure that the young man will die at the end of the day!

Yi Tianyun, however, still made an effort to make sure that General Long couldn’t easily follow him inside the Netherworld Prison, as soon as he came in, he destroyed the wall to impede General Long from following him.

“You think you are safe already?” General Long was surprised once again to see that the young man wasn’t just running randomly, so he quickly took out his Long Spear and used the Blood Dragon Phantom Shadow to clear the way, but he quickly found that the path ahead was still blocked!

He was enraged once again that the young man would do something like that to hold him up!

But he was really shocked to see that the young man could destroy the walls easily, he knew that the Netherworld Prison’s wall was enhanced with Divine Rune, making it almost impossible to destroy.

He wondered if the young man was really capable of destroying the Divine Rune on the prison, if that was the case, then the young man's goal was to destroy the Netherworld Prison!

Yi Tianyun, on the other hand, continuously broke the Divine Rune and destroyed the wall immediately after along the way.

"I will destroy this place soon."

He skipped the mine as it will make a greater effort just to destroy it at the moment, he was already exhausted after destroying stuff!

Fortunately, he has already stocked many Recovery Medicinal Pills for his own consumption.

After a quick rest, Yi Tianyun heard General Long's booming voice saying that he will make sure to kill the intruders for causing all that mess!

Surely, General Long quickly caught up with Yi Tianyun and threw two spears towards Yi Tianyun at a great speed!

"Die!"

Yi Tianyun easily dodged the attack with the Phoenix Wing's effect, Yi Tianyun sarcastically thanked General Long as he saw that General Long's attack destroyed the walls behind Yi Tianyun and quickly got away after that.

"Thanks for your help!" Yi Tianyun said.

General Long was furious!

He literally became red from all of Yi Tianyun's constant annoyance!

He quickly chased after Yi Tianyun and once again threw another spear at Yi Tianyun, "Let's see how do you escape this time!"

This time, Yi Tianyun was very lucky as a rock fell from the ceiling and blocked General Long's attack!

"Even the lady of luck on my side." Yi Tianyun smirked as he kept getting away from General Long while tearing the place apart!

Initially, Yi Tianyun was ready to use the Shadow Cloak's effect to block General Long attack, but it seemed that it wasn't necessary at the moment.

Yi Tianyun relentlessly destroyed the cage inside the prison as it was faster than destroying the wall, and that place still won't be operational anyway with all those cages destroyed!

Once he got to the Spirit Forbidden Zone, he quickly used the Ice-Cold Fury as it was no longer in cooldown and destroyed the area down!

With the prison's current state, if the Netherworld Empire wanted to fix that place, they had to find a Divine Rune Grandmaster, which was hard and costly to do!

'DING'

'Successfully completed the quest [Destroys the Netherworld Prison and Save all Prisoners!]'

'Reward: 50.000.000 Exp, 100.000 CPs, 10.000 SPs, 200 Prestige Points.'

The notification that Yi Tianyun wanted to hear the most was finally heard!

He didn't have to destroy the place any longer, all he needed to do was escape that place!

Chapter 325

The Dragon General finally caught up to Yi Tianyun once again and shouted, "Damn, you actually destroyed the forbidden zone."

Yi Tianyun quickly made a snide comment, "Yes, so what? I also destroyed your mine, idiot!"

Yi Tianyun quickly took out the Heaven Holding Sword and used the Heaven Holding's Anger towards the Dragon General while shouting to the Dragon General to get out of his way!

The Dragon General ignored Yi Tianyun's attack and made an attempt to attack as well!

He swiftly threw his spears towards Yi Tianyun with all his might as he thought that there was no way that the young man's attack could penetrate his defense!

The thing was, Yi Tianyun was also ignoring the Dragon General's attack as he knew that the Shadow Cloak would protect him from it!

The Heaven Holding's Anger connected with the Dragon General head on, followed by a loud noise, the Dragon General was thrown to the side from Yi Tianyun's attack!

But he quickly recovered mid-air and landed on the ground smoothly, but to his complete surprise, Yi Tianyun was nowhere to be seen!

He was sure that he could still feel the young man's aura in the air, but he surely couldn't see him!

The Dragon General was amazed by the young man's ability, he didn't know how the young man could escape right in front of him like that!

At the same time, Yi Tianyun was already on his way towards the Spirit Race Sanctuary.

With Teleportation, he quickly got far away from the Netherworld Prison and immediately flew away.

He knew that he couldn't handle the Dragon General yet, but at least his quest was completed!

Soon enough, the news about the destroyed Netherworld Prison was spread to not only the Netherworld Continent but also to another continent too.

Many people were shocked to hear the news as they knew that the Netherworld Prison was one of the symbols of power that the Netherworld Empire had and that the place was heavily guarded.

Many people began to wonder who was the perpetrator behind all that!

"What going on? Our Netherworld Prison destroyed?!"

The Imperial Preceptor and Netherworld Great Emperor was furious to hear the news and called all the higher-ups of the Netherworld Empire to discuss that incident!

Netherworld Emperor quietly released his killing intent and asked coldly to all the attendants on how could something like that happen!

He looked at the Dragon General and asked him, "We heard you were there at that moment. How could the perpetrator escape on your watch?!"

The Dragon General quickly kneeled in front of the Netherworld Emperor and said, "The perpetrator had an advanced method to hide his aura as I can't detect him at all, I won't make the same mistake again!"

Netherworld Emperor immediately shouted, "We lost a lot face this time. The Unbreakable Netherworld Prison has been destroyed, and every prisoner in that place had escaped!"

One of the ministers quickly came forward and said, "We have sent many cultivators to capture every single prisoner."

The Netherworld Emperor quickly refuted him and said, "You need to kill every prisoner as they had lost their purpose! The most important thing at the moment was the Spirit Race. Their Old Ancestor also escaped the Netherworld Prison! If he regained his strength, he would be a difficult opponent to boot!"

The Imperial Preceptor immediately came forward and said, "Your Majesty doesn't need to worry about that as I am the only one who had an antidote for the poison in his body, he will either come to the Netherworld Empire again to beg for the Antidote or die somewhere in pain!"

The Netherworld Emperor nodded as he believed that the poison made by the Imperial Preceptor was really strong. He quickly changed the topic, "Where is Lei Yun? We haven't heard any news from him in a long time. How is the progress on capturing the Spirit Race?"

One of the ministers came forward once again and said, "There was no news about Lei Yun at all. It was very likely that Lei Yun had been trapped inside the forest or had already been killed!"

The Netherworld Emperor frowned and immediately ordered, "Dragon General go and secure the Spirit Race yourself, we couldn't trust any of the garbage anymore."

The Dragon General agreed solemnly and said, "Yes. I will definitely satisfy Your Majesty!"

## Chapter 326

Before the meeting of the Netherworld Empire, Yi Tianyun was still on his way to the Spirit Race Sanctuary.

'DING'

'Successfully completed [Rescue the Spirit Race Chain Quest IV: Rescue the Spirit Race imprisoned on the Netherworld Prison!]'

'Reward: 50.000.000 Exp, 200.000 CPs, 5.000 SPs, 50 Spirit Race Favourability.'

‘DING’

‘[Rescue the Spirit Race Chain Quest V: Protect the Spirit Race from the Dragon General’s Main Force!] successfully accepted!’

‘Reward on completion: 60.000.000 Exp, 250.000 CPs, 10.000 SPs, 100 Spirit Race Favourability.’

He was a little surprised to see the quest was already updated, and he finally had to deal with the Dragon General!

There was no way he could defeat the Dragon General by himself, he needed the Old Ancestor to fight with him too!

So, he must hurry and make sure that the Old Ancestor was completely detoxified and ready to fight!

He immediately rushed back to the Spirit Race Sanctuary, and once he was on the edge of the forest, he quickly walked in!

He knew that the Spirit Race would investigate who entered the forest, and once they saw that it was Yi Tianyun, they will guide him inside themselves!

Sure enough, “Yi Tianyun!” Ye Qingxuan shouted his name from the ground.

Yi Tianyun quickly greeted, “Hello, I already told you that I would come back alive.”

Ye Qingxuan quickly said, “I don’t doubt you, I heard you encountered the Dragon General in Netherworld Prison.”

Yi Tianyun nodded, “Yeah, it was very fortunate that I have Teleportation skill.”

“You are the first person ever to escape the Dragon General.” Ye Qingxuan nodded and said while smiling warmly.

Yi Tianyun returned the smile and quickly said, “From the way things go, the Dragon General would come there himself soon!”

“The option was either we fight the forces from the Netherworld Empire as they came or evacuated from the sanctuary.”

Ye Qingxuan nodded while confidently said, “We must fight!”

They had to resist the Netherworld Empire the best they could!

Yi Tianyun knew that the most important reason for the Spirit Race to hold their ground there in the Spirit Race Sanctuary was that they could only bear children in that place!

If they left that place, they would not be able to reproduce; thus, the Spirit Race will be extinct!

Yi Tianyun nodded and said, “I will also fight with you until the end!”

“Come to the sanctuary with me.” Ye Qingxuan then led the way inside while signaling for Yi Tianyun to follow her.

“Do I need to cover my eyes again?” Yi Tianyun said jokingly.

“Stupid, do you think you need to cover your eyes now? Even if you come for the first time, I won’t cover your eyes!” Ye Qingxuan glanced at him and smiled.

Yi Tianyun smiled and followed her inside the sanctuary.

As they came inside, the people inside the sanctuary quickly gathered and shouted excitedly that their hero was back!

“Our big hero is back!”

“He really came back. He saved my ancestors. I heard that he fought with General Long! It is said that the Dragon General is very powerful. Now the hero is back!”

“That is, our great hero is amazing!”

“I remembered, my nephew met the great hero in the Jade Water Deep Pool!”

They praised Yi Tianyun, for he has already saved their Old Ancestor from the prison!

They were all happy and enthusiastic to see Yi Tianyun, for he has already done something that the Spirit Race was desperate in.

Ye Wan’er came forward and bragged, “That is natural, I said that Big Brother is very powerful, not the same as those guys!”

“Okay, okay. Get ready.” Ye Qingxuan quickly defused the crowds while pushing Ye Wan’er to the side playfully.

Yi Tianyun quickly told Ye Qingxuan, “I need to see the Old Ancestor quickly to refine the necessary Medicinal Pill to detoxify the poison inside the Old Ancestor’s body.”

Ye Qingxuan nodded and took Yi Tianyun to the small courtyard that the Old Ancestor currently resided in.

Once they arrived at the courtyard, the Old Ancestor noticed that he had a guest, “Come, have a cup for tea.”

Once inside the house, Yi Tianyun quickly told the Old Ancestor, "We have to detoxify poison in your body right away because you are the only one who can fight the Dragon General at the moment."

The Old Ancestor quickly said, "No need to hurry, drink the tea first."

Ye Qingxuan and Yi Tianyun had no other choice but to obey and politely drank the tea.

Once they were done, the Old Ancestor quickly told Ye Qingxuan, "I think Yi Tianyun qualified to be Spirit King. What's your opinion?"

"This..." Ye Qingxuan was startled that the Old Ancestor offered the title without her having to come up with the idea first!

Before she had a chance to say anything, the Old Ancestor refuted, "I already knew that you transferred your Innate Ability to Yi Tianyun when I transferred my memory to him."

Ye Wan'er, who was listening from outside the house, was shocked after hearing that revelation, Yi Tianyun had the Heavenly Eye!

## Chapter 327

Ye Qingxuan was shocked, as shocked as Ye Wan'er, who was eavesdropping the entire time.

Old Ancestor knew about the Innate Ability that Ye Qingxuan gave to Yi Tianyun!

Ye Qingxuan felt a little bit worried that Old Ancestor may not support Ye Qingxuan's act!

Seeing that everyone became silent, Old Ancestor said, "Even though transferring the Heavenly Eyes were considered taboo by the Spirit Race, I don't condemn your act. In fact, I support it as I wanted him to become our next Spirit King!"

He asked Yi Tianyun once again, “Do you want to become our Spirit King?” For it was still Yi Tianyun’s choice to make.

Hearing the Old Ancestor’s support, Ye Qingxuan sighed in relief, and meanwhile, Ye Wan’er quickly entered the house and asked, “Sister, how and when did you give your Innate Ability to Big Brother?”

She was really confused, she thought that Ye Qingxuan first met Yi Tianyun when Ye Wan’er brought him to the sanctuary, there was no way Ye Qingxuan had time to give her Innate Ability to Yi Tianyun by the situation revolved after that!

Ye Qingxuan didn’t know what to say as she didn’t think Yi Tianyun wanted his secret to be revealed right there and then.

Fortunately, Old Ancestor refuted, “Calm down Wan’er, your sister must have her own reason, and all that matter was that Yi Tianyun could become our Spirit King with the Innate Ability given by Qingxuan.”

“With Yi Tianyun’s accomplishment of saving our people inside the Netherworld Prison, I believe that our people will support our decision to make Yi Tianyun our Spirit King!”

“But it all came down to Yi Tianyun’s ability to pass the Spirit King Smelting Trial!”

Yi Tianyun asked, “Spirit King Smelting Trial?”

Old Ancestor quickly answered, “Spirit King Smelting Trial was a trial for someone to become a Spirit King candidate.”

Yi Tianyun asked, “Is it okay for an outsider to become Spirit King?”

The Old Ancestor twisted his beard while thinking and immediately said, “It is unusual as we always chose a candidate of the Spirit King from the Spirit Race, but this time is different, our only candidate before had betrayed us!”

Yi Tianyun remembered that the candidate for Spirit King was Lei Yun, he was the traitor who came to destroy the Spirit Race Sanctuary earlier.

Old Ancestor quickly reminded, "The opponent that would come there to destroy the sanctuary was still out there, I will help you repel them with all my power. Once you repel that attack, you will earn a high prestige from our people, and with that, no one will question your capability to become our next Spirit King!"

Yi Tianyun thought for a second and found that development was convenient to him, he didn't need to convince the Old Ancestor to fight for him anymore as The Old Ancestor has offered to help himself.

The Old Ancestor said, "You have better Innate Ability than Lei Yun or anyone that I know. I believe that you will become a great leader to the Spirit Race in the future!"

Yi Tianyun confirmed once again that all he had to do was passed the Spirit King Smelting Trial to become the Spirit King.

Yi Tianyun knew that the trial wouldn't be easy, but he had to make sure that the trial was all he needed to do before jumping head-on into the unknown.

"I will do my best in Spirit King Smelting Trial."

The Old Ancestor nodded his head and said, "I am looking forward for your performance." He immediately coughed up blood!

It seemed that the poison was still lingering heavily in the Old Ancestor's system!

Yi Tianyun quickly said, "Old Ancestor must rest, I will immediately refine the Detoxifying Pill for the poison!"

The Old Ancestor told Yi Tianyun, "There was no need to panic, even if you can't Detoxifying Pill, it will be fine!"

Yi Tianyun quickly shook his head and said, "I can, Detoxifying Pill isn't that hard to make!"

## Chapter 328

Yi Tianyun quickly prepared all the items necessary to refine the Detoxifying Pills and then immediately refined the Pill, this time he had to make a few more pills to make sure that the Old Ancestor was completely detoxified!

The Imperial Preceptor's poison was toxic, the poison that coursed through the Old Ancestor's system couldn't be healed with only one pill, he must take the detoxifying pills until the poison was completely gone!

At the same time, Ye Wan'er, who was confused with too many things, quickly asked her sister, "Sister, are you already acquainted with Big Brother before I brought him to the Spirit Sanctuary?"

Ye Qingxuan quickly said, "I don't really know him. When I saw him on the Spirit Sanctuary, that was the second time we met with each other!"

Ye Wan'er quickly asked, "How come you didn't recognize Big Brother at that time?"

Ye Qingxuan said, "Yi Tianyun could change his face with ease, I didn't recognize the face that he used at that time. In fact, Yi Tianyun was a man with many accomplishments in the outside world, for example, the Star Pavilion's tournament and Dragon City's Destruction!"

Ye Qingxuan added, "The most important thing was that Yi Tianyun was the one who saved me from Lei Yun's trap!"

Ye Wan'er was surprised to hear that Yi Tianyun's previous face was fake and that he was the one who saved her sister when she was in need.

As far as she remembered, her sister was saved by a man younger or at the same age as Ye Wan'er, which meant that Yi Tianyun was a lot younger than he currently looked!

The two sisters began to discuss what they knew about Yi Tianyun as they were curious about Yi Tianyun.

At the same time, Yi Tianyun didn't take notice of what they were discussing and just refined the Detoxifying Pill for the Old Ancestor without care.

He finally finished one Detoxifying Pill and immediately gave it to the Old Ancestor, he also said, "Old Ancestor need a few more Detoxifying Pills to detoxify his system fully."

The Old Ancestor nodded his head and immediately ate the pills that Yi Tianyun just gave.

The Old Ancestor's complexion suddenly changed for the better but immediately followed by vomiting black blood!

The black blood withered the grass that came in contact with it in a matter of seconds!

The two sisters immediately rushed towards the Old Ancestor and asked, "Are you okay, Old Ancestor?"

"I am okay, and I felt lighter after vomiting that black thing!"

Ye Qingxuan turned her attention towards Yi Tianyun and asked, "How do you know how to refine the Detoxifying Pills for the Old Ancestor? As far as I knew, the poison is a special poison made by the Imperial Preceptor!"

Yi Tianyun rubbed his head and said, "I can smell the ingredient for the poison, and with that information, I can specify the ingredient necessary to make the antidote!"

Ye Qingxuan immediately shouted in the excitement, "You have the ability of Medicine King! You should become the Medicine King in the future!"

Medicine King was the same as an Alchemist Grandmaster.

Ye Wan'er was surprised once again as she asked, "Big Brother can become Medicine King?"

"I..." Yi Tianyun quickly felt embarrassed as he was half lying, he couldn't say that he knew the poison composition with the help of the Appraisal Eye as he no one should have that ability!

Yi Tianyun reminded the Old Ancestor that he still had to take a few more Detoxifying Pills to change the topic.

The Old Ancestor nodded his head in amusement as Yi Tianyun never ceased to amaze him.

Yi Tianyun then handed over a few Detoxifying Pills to the Old Ancestor, "I must go prepare myself for the upcoming fight."

"Me too." Ye Qingxuan also excused herself.

The Old Ancestor nodded as he tried to relax and took another Pill.

Ye Wan'er stayed with the Old Ancestor to take care of him if he needed any help later.

Meanwhile, outside of the Old Ancestor's place, Yi Tianyun quickly asked Ye Qingxuan, "Do you still have the Soul Accumulating Grass for me?"

He needed the grass to make the Soul Accumulating Pills to make sure that he could breakthrough to the next level so that he could handle the Dragon General!

Ye Qingxuan nodded and said, "You can have all the Soul Accumulating Grass that the Spirit Race had inside the warehouse."

Yi Tianyun immediately said, "I don't need all of them. I only need around 100 of them."

Ye Qingxuan shook his head and said, "Soul Accumulating Grass was a rare item, the Soul Accumulating Grass inside the warehouse not even close to 100. You can have all of them as the number was below your expectation."

Yi Tianyun was surprised to hear that although they could harvest the Soul Accumulating Grass easily, the number was still small!

Yi Tianyun immediately realized that the grass was really a rare item!

Ye Qingxuan quickly led Yi Tianyun towards the warehouse and immediately gave him all the Soul Accumulating Grass inside.

Yi Tianyun immediately headed towards the Spirit Pagoda to refine the Soul Accumulating Grass that he had at the moment, as Ye Qingxuan headed towards the outpost to prepare the Spirit Race fighter to participate in the upcoming skirmish!

Yi Tianyun rushed towards the Spirit Pagoda as he wanted to breakthrough to the 5th Level Core Transformation Stage.

In the Spirit Pagoda, he quickly refined the Soul Accumulating Pills while using the Crazy Mode to increase the refining speed, he even used the Lucky Aura to make sure that the Pills he refined was at high grade!

At the same time, the Dragon General led a group of Dragon Soldier towards the Spirit Forest!

Around 30 Earth Dragon stomped the terrain, shaking the ground, scaring the people nearby that they immediately evacuated to safety.

They were worried about the Spirit Race, as they were sure that the Earth Dragon would trample the forest at this rate!

Yi Tianyun didn't care what was happening outside, for the time being, he focused all his attention towards refining the Soul Accumulating Pills.

He felt like he was at the crossroad as he was feeling a little bit unsure about increasing the grade of the Soul Accumulating medicinal Pills that he currently refined.

He looked at the success rate for 5th Refinement Grade and saw that the chance was at thirty percent, he activated the Lucky Aura, and the chance increased to fifty percent with the help of the Immortal Fire, it increased once again to sixty percent!

He knew that the chance of failing was still high, but that was the best chance to test the effect of the 5th Refinement Grade Pills!

Yi Tianyun shook his head and composed himself as he refined the Pills to 5th Refinement Grade, if that failed, he still had the next batch, but losing 3 Soul Accumulating Grass surely hurt!

Yi Tianyun quickly activated the Lucky Aura at the end of the refinement process so that the success chance increased!

Fortunately, the Pill refinement was a success!

A bright light shot out from the Purple Fire Divine Furnace as the sign of success!

Yi Tianyun quickly picked up three pills from the furnace and felt satisfied for his success.

'DING'

'Successfully Refines Soul Accumulating Pills!'

'Reward: 1.000.000 Exp, 1.000 Pill Refining Proficiency Points.'

Yi Tianyun immediately tried one pill as he didn't know the difference of Exp that he will gain by consuming the Soul Accumulating Pills 5th Refinement Grade, if it only added 5 Million more Exp than the 4th Refinement Grade, it wasn't worth the risk of failing!

'DING'

'Successfully consumed a Soul Accumulating Pill and got 30.000.000 Exp!'

Yi Tianyun was shocked to see the amount of Exp that he just got!

It was double the amount of Exp that he got from the Soul Accumulating Grass 4th Refinement Grade!

Surely the risk was worth taking!

He quickly consumed the rest of the pills that he has just refined to breakthrough.

'DING'

'Congratulation to host for successfully breakthrough to 5th Level Core Transformation Stage!'

Yi Tianyun was delighted to see the notification, sure enough, if people knew about his cultivation speed, they will be envious beyond belief!

Yi Tianyun immediately refined another batch of Soul Accumulating Pills, but this time he decided to refine the 4th Refinement Grade instead as he knew that the 5th Refinement Grade was too risky to refine at the moment!

Soon he successfully refines six 4th Refinement Grade Soul Accumulating Pills, it was worth 90 Million Exp!

Yi Tianyun didn't regret his decision to stop at 4th Refinement Grade as he couldn't risk falling, especially at that moment!

To breakthrough to 6th Level Core Transformation Stage he needed around 160 million Exp, and thanks to the 5th Refinement Grade Soul Accumulating Pills, he only needed 110 million Exp, and after he consumed the six 4th Refinement Grade Soul Accumulating Pills, he only needed another 20 Million Exp left to breakthrough!

Yi Tianyun quickly walked out of the Refining Room to look for a way to increase his level before the Dragon General arrived, he wanted to look for the scouts that the Dragon General would send ahead of the main army!

As he walked out from the Refining Room, Ye Qingxuan rushed towards him and nervously said, "Dragon General's Soldier has closed in, and they brought many Earth Dragons with them! The enemy will arrive within approximately half a day!"

Yi Tianyun quickly smirked and asked, "How about the Old Ancestor's status? I want to know if the Old Ancestor fit enough to assist us in the fight."

Ye Qingxuan said, "Old Ancestor will wait in the Spirit Pagoda to recover and meditate until the Dragon General came!"

Yi Tianyun smirked once again as he knew that he could get many Exp without hindrance for the time being!

He nodded excitedly towards Ye Qingxuan and immediately said, "Let the war with the Netherworld Empire began!"

## Chapter 330

Yi Tianyun and Ye Qingxuan immediately went to the top floor of the Spirit Pagoda to look for the Old Ancestor, they saw that the Old Ancestor who was meditating in the middle of the room and soon raised his vision to see that Yi Tianyun and Ye Qingxuan was already there!

Yi Tianyun said, "Old Ancestor looked much better than before!"

The Old Ancestor quickly said, "This is thanks to the Detoxifying Pills that you refined for me, my body is lighter than before, but sadly I don't have enough time to restore my cultivation. I can help you fight the Dragon General by controlling the Great Array from here. I can't fight the Dragon General head-on!"

The Old Ancestor added, "With me controlling the Trace Confusion Great Array, I will make sure that you won't be seen by the enemies under Core Transformation Stage, enemy higher than that may be able to see you, but then I will help you fight from there!"

Yi Tianyun nodded his head excitedly, he didn't know that the Trace Confusion Great Array could hide him in plain sight from the enemy!

He finally realized why the Spirit Sanctuary still stood tall despite having the Netherworld Empire as the enemy, that Great Array sure was powerful!

Yi Tianyun then said, "Now, we can just wait for the enemies to arrive!"

Half a day later, the Dragon General arrived with his group of Dragon Soldier at the edge of the Spirit Forest!

Dragon General took a Divine Talisman from his storage Ring and ordered, "Stop. March carefully towards the forest while I am sneaking from the side and use the Divine Rune on my hands to burn the forest!"

The Dragon Soldiers took out a Divine Talisman from their own Storage Ring that could provide them immunity from the effect of the Trace Confusion Great Array!

That forest was supposed to be hard to be ignited, but with the Dragon General's power, that forest burned like dry woods!

The Dragon General knew that the Trace Confusion Great Array would be useless once there were no more trees that it could use to confuse people!

At the same time, the Old Ancestor frowned as he learned that the enemies had a countermeasure against the Trace Confusion Great Array!

He quickly informed Yi Tianyun and Ye Qingxuan, "They have an item to resist the effect of the Trace Confusion Great Array, and they are burning the forest to make the Trace Confusion Great Array unusable!"

Ye Qingxuan was a little bit surprised that the enemy has already found the weakness of the Trace Confusion Great Array and even came prepared with such countermeasure, but as she thought over the solution, the Old Ancestor stood up and took control of all the Divine Rune in the room.

The Old Ancestor immediately sneered and said, "They are too naïve to think that they could beat the Trace Confusion Great Array just like that!"

The Spirit Pagoda then shone brightly, and quickly a black cloud was formed over the burned area, and not long after the rain poured, putting out the fire, which was burning the forest almost immediately!

Thick fog appeared in the forest, blinding the soldier and the Earth Dragon, and immediately, they succumbed to the Trace Confusion Great Array's power!

Not only the soldier, but the Dragon General himself was confused as to where to go, and almost walked straight to a tree a few times!

In the Spirit Pagoda, the Old Ancestor gave his signals to Yi Tianyun, "Go out and attack them. They have fallen into the Trace Confusion Great Array's power!"

"Good, the war began!" Yi Tianyun nodded his head excitedly and immediately walked out of the Spirit Pagoda to kill the Dragon General's army!
