

I'm Leveling Up Too Quickly

Chapter 4 - 4 I Really Want to Be an Ordinary Person

4 I Really Want to Be an Ordinary Person

With the help of this wave of breakthrough points, Zhu Wuyang's strength successfully broke through the bottleneck and stepped into the Perfected Fleshly Body Refinement Realm.

All the muscles in his body were connected, forming a single entity. With a single move, he could erupt with the strength of all his muscles, and he could easily crack rocks.

When this wave of breakthrough points was used up, Zhu Wuyang, who had been holding it in for a long time, could not help but shout.

"Damn... Can you slow down? Can you not be so fast!"

"Can we save the breakthrough points first and add them myself when I need them?"

"I really can't take it anymore!"

...

Without knowing anything, he had broken through eight minor realms and two major realms in a row. Now, Zhu Wuyang was stunned.

When Zhu Wuyang was on Earth, he had also seen some television dramas and novels about transmigration. Some of the protagonists of those television dramas and novels had obtained golden fingers, but Zhu Wuyang had never seen such a violent and wild golden finger.

Zhu Wuyang didn't even know what was going on, but he had already obtained so many breakthrough points and broken through so many realms in a row. He was simply crazy.

Right, he had also obtained a flawless Dao foundation during this period of time. Currently, he had advanced to this level without even getting out of bed. Did he have to be so exaggerated?

However, facing the resentful Zhu Wuyang, the Extraordinary Encounters System did not answer his question. Instead, a mechanical voice sounded.

“Congratulations to the host for speaking for the first time in your life. You have obtained 300 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host’s strength!”

“Congratulations to the host for speaking for the second time in your life. You have obtained 200 breakthrough points...”

“Congratulations to the host for speaking for the third time in your life. You have obtained 100 breakthrough points...”

“Congratulations to the host for complaining for the first time in your life. You have obtained 300 breakthrough points...”

...

Damn it!

Zhu Wuyang was stunned, and then he was drowned by the strange power formed by the breakthrough points again.

How many times had it been!

Zhu Wuyang almost wailed. Then, he was immersed in the strange powers that surged over and advanced to a higher realm.

The blood essence power in his body continued to increase, becoming stronger and purer, far surpassing martial artists of the same level.

The pure and powerful blood essence power shuttled through his skin and muscles in an orderly manner, tempering his already tough skin and muscles to perfection before seeping into every tendon in Zhu Wuyang’s body.

With the help of his skin and muscles, the Qi and blood quickly seeped into his tendons and began to improve each tendon.

This Qi and blood power either tempered, hammered, or nourished... According to the cultivation technique in the Endless Earth Technique, it quickly strengthened every tendon of Zhu Wuyang.

Soon, a dull sound came from his tendons. It was the sound of his tendons undergoing preliminary tempering. This also meant that Zhu Wu’s strength had broken through the bottleneck of the Fleshly Body Refinement Realm and stepped into a new realm.

Early stage of Tendons Refinement!

As his tendons were tempered, Zhu Wuyang could clearly feel that his body seemed to have become a little more relaxed. His every move was incomparably agile. This was also one of the signs of Early-stage Tendons Refinement.

Another major realm had been broken through by Zhu Wuyang while lying down. He had really become stronger while lying down!

When this wave of breakthrough points was used up, Zhu Wuyang immediately opened his memories and absorbed the previous body's memories to understand the situation.

It turned out that the continent he had transmigrated to was called the Dongyuan Continent. The Jiu Zhao Nation was located in the southern region of the Dongyuan Continent. Because the spiritual energy in this region was thin, it was called the Southern Wasteland.

The Jiu Zhao Nation was a small kingdom in the Southern Wasteland. It only had nine prefectures, and each prefecture was equivalent to a few provinces on Earth. The size of the Jiu Zhao Nation had already surpassed Earth's China.

Zhu Wuyang was the new Crown Prince of the Jiu Zhao Nation and the 18th Crown Prince. The first 17 crown princes had been killed by the Emperor of the Jiu Zhao Nation, Zhu Zhenwu.

The reason why the Emperor of the Jiu Zhao Nation, Zhu Zhenwu, was so crazy was not by nature. Although Zhu Zhenwu's methods were a little ruthless decades ago, he treated his children well.

However, as he cultivated an evil cultivation technique decades ago, Zhu Zhenwu became more and more crazy and unreasonable. Moreover, he was suspicious, jealous, and incapable. He kept feeling that those princes and princesses were coveting his throne.

Therefore, Zhu Zhenwu began to be ruthless to the princes and princesses. All the outstanding princes and princesses had basically been killed by Zhu Zhenwu.

Especially the position of Crown Prince, the mortality rate was as high as 100%. And Zhu Wuyang was the 18th Crown Prince.

The reason why Zhu Wuyang could become the new Crown Prince of the Jiu Zhao Nation was not because of his background, talent, and skills... but because he had no background, poor talent, and skills... He was clearly a scapegoat!

The original owner of the body that Zhu Wuyang had transmigrated to was also called Zhu Wuyang. Perhaps it was because they had the same name and the original Zhu Wuyang had met with an accident that Zhu Wuyang was able to transmigrate to this body.

The reason why something had happened to the previous Zhu Wuyang was actually because he had been forcefully pushed to the position of Crown Prince.

In order to live a few more years in the position of the Crown Prince, it would be best if he could live until the crazy Zhu Zhenwu died from Qi deviation. Therefore, the original owner of the body decided to cripple a portion of his martial arts and drop two realms, lest Zhu Zhenwu felt that he had advanced too quickly as the Crown Prince and killed him out of jealousy.

In the end, the previous Zhu Wuyang was a little too heavy-handed. After all, he had never done this before. He directly crippled himself from the mid-stage of Tendon Refinement to the level of an ordinary person, and even his cultivation foundation was destroyed.

Seeing this outcome, the original owner of the body died from anger. Zhu Wuyang had picked up a handsome body for nothing, and it was the Crown Prince of the Jiu Zhao Nation.

However, Zhu Wuyang really did not want this body. He would rather transmigrate to become an ordinary person in the Dongyuan Continent than transmigrate to become the Crown Prince of the Jiu Zhao Nation.

He didn't want to die. Who would save a poor transmigrator like him?

It was no wonder that even with a flawless Dao foundation, and his strength had been soaring, it was clearly a great thing, but Zhu Wuyang kept feeling a huge worry in his heart.

It turned out that it was all because of Zhu Zhenwu. After all, as the Crown Prince of Jiu Zhao, the job with a mortality rate of 100%, the stronger his cultivation foundation was and the faster his cultivation speed increased, the more likely it was for him to attract the ruthless Zhu Zhenwu who was jealous of talents.

It was not that Zhu Wuyang did not want to improve, but he did not dare to. Compared to his own life, increasing his strength was nothing.

Unless he could surpass Zhu Zhenwu in one go, the faster he improved, the faster he would die.

5 I'm Defending the Original Body

Although Zhu Wuyang really wanted to use the Extraordinary Encounters System to increase his strength to the point of surpassing Zhu Zhenwu in one go, Zhu Wuyang knew that it was impossible.

Zhu Zhenwu was a peerless expert at the perfected Xiantian realm. Coupled with the fact that he cultivated an evil cultivation technique, his combat strength could be said to be invincible in the Jiu Zhao Nation. He was reputed to be able to rule the country alone.

Zhu Wuyang, on the other hand, was only a cultivator at the first major realm of the Martial Dao. He had just stepped into the Tendons Refinement realm and was still two major realms away from Zhu Zhenwu.

Although the improvement speed of the Extraordinary Encounters System was fast, it was not fast enough for Zhu Wuyang to step into the perfected Xiantian realm in a short period of time.

Once Zhu Zhenwu discovered Zhu Wuyang's cultivation situation, Zhu Wuyang would definitely not be able to escape death.

Moreover, during the process of martial arts cultivation, the further one went, the more breakthrough points one needed. Without a few years or decades, it would be very difficult for Zhu Wu to advance to the point where he could compete with Zhu Zhenwu.

Therefore, Zhu Wuyang would rather be a turtle for a few years and not increase his strength than advance rapidly like now.

After all, many people in the palace could tell that because Zhu Zhenwu cultivated an evil technique, he had clearly gone berserk. He might die at any time.

As long as he endured until Zhu Zhenwu's martial soul died, Zhu Wuyang would be able to live a good life.

"Congratulations to the host for recalling the past for the third time in your life. You have obtained 100 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host's strength!"

"Congratulations to the host for feeling afraid for the second time in your life. You have obtained 200 breakthrough points..."

"Congratulations to the host for worrying about your future for the first time in your life. You have obtained 300 breakthrough points..."

...

Alas, though the tree desires to remain still, the winds wouldn't stop blowing. Although Zhu Wuyang didn't want to increase his strength anymore, the Extraordinary Encounters System still fused more breakthrough points into him.

Zhu Wuyang really didn't want to break through anymore. He had just transmigrated and hadn't lived enough.

A blast of the strange power surged over and drowned the frowning Zhu Wuyang... How many times has it been?

Fortunately, after absorbing this wave of strange power, although the blood essence power in Zhu Wuyang's body was purer and stronger, and every tendon in his body had become tougher, he did not break through to the next realm.

"Phew..."

Zhu Wuyang heaved a sigh of relief. He wiped the sweat off his forehead and began to think about what to do next.

His cheap father, Zhu Zhenwu, was crazy, jealous, and powerful. Many princes and princesses had ill intentions towards him. Many concubines in the harem also wanted him, the Crown Prince, to die as soon as possible... It was really a hellish beginning.

He had originally thought that he would be able to live a good life after transmigrating. The arrival of the Extraordinary Encounters System seemed to indicate that Zhu Wuyang was about to reach the peak of his life. He did not expect the surrounding environment to be so harsh!

Since he could not increase his strength to the Perfected Xiantian realm in a short period of time and Zhu Zhenwu was not far from death, he had to do his best to slow down his cultivation progress and not do anything special.

At the same time, he had to think of a way to solve the automatic points addition problem of the Extraordinary Encounters System. He had to adapt to his current identity as soon as possible to protect his life better.

After making his decision, Zhu Wuyang was about to get up when he heard a voice that he hated and loved again.

"Congratulations to the host for thinking for the first time in your life. You have obtained 300 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host's strength!"

"Congratulations to the host for making a decision for the first time in your life. You have obtained 300 breakthrough points..."

“F*ck...”

“Congratulations to the host for cursing for the first time in your life. You have received 200 breakthrough points...”

....

Zhu Wuyang did not even dare to scold the System anymore. He could only helplessly continue to endure the strange power that whistled over.

Every tendon was being tempered, every tendon was being nourished, and every tendon was improving... By the time this wave of strange power was used up, Zhu Wuyang's strength had already reached the peak of the Early-stage Tendons Refinement realm. He was just a little bit away from breaking through to the Mid-stage Tendons Refinement realm, catching up to the original owner's strength before he was crippled.

Moreover, because of his flawless Dao foundation, although he cultivated the Grand Earth Limitless Technique, Zhu Wuyang's cultivation foundation and overall strength far surpassed the original owner. The difference between the two was at least... three times.

In other words, although Zhu Wuyang was only an Early-stage Tendons Refinement martial artist, with his strong cultivation foundation and the Grand Earth Limitless Technique, his overall strength was completely comparable to a Golden Bones Refinement martial artist, or even stronger.

If Zhu Zhenwu knew about this, Zhu Wuyang would definitely die.

Even if only those princes and princesses knew about it, there was a 99% chance that it would be spread to Zhu Zhenwu. At that time, Zhu Wuyang would still not be able to escape death.

There were so many other princes, princesses, and even Zhu Zhenwu's spies in the Crown Prince Palace. It could be said that there was danger everywhere, and every step was filled with killing intent.

The Extraordinary Encounters System was still so f*cked up. What should he do next? Zhu Wuyang felt a little helpless and had the urge to curse again.

“Congratulations to the host for thinking for the second time in your life. You have obtained 200 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host's strength!”

“Congratulations to the host for feeling helpless for the first time in your life. You have obtained 300 breakthrough points...”

“I... f*ck...”

“Congratulations to the host for cursing for the second time in your life. You have received 100 breakthrough points...”

....

Although he had tried his best to endure it, Zhu Wuyang still couldn't help it. Before his strength broke through to a new realm, he spoke again and obtained another reward.

Feeling the strange power swarming towards him, Zhu Wuyang closed his eyes in despair. freewebnovel.com

If nothing unexpected happened, after this wave of strange power ended, his strength should be able to smoothly step into the Mid-stage of the Tendons Refinement realm and reach the level of the original owner.

It had to be known that the original owner of the body felt that his strength was too strong and his speed of improvement was too fast. Therefore, in order to avoid being targeted by the crazy emperor, Zhu Zhenwu, who was jealous of his talents, he crippled his martial arts and ended up killing himself.

Now, Zhu Wuyang had only transmigrated for about two hours, and he had already ruined the results of the original owner.

What a sin!

6 Top Secret Technique, Azure Dragon Concealment

Lifting his legs over his knees, crossing his legs, posing with a “T”... After this wave of improvement ended, all kinds of slightly difficult gymnastics positions became child's play for Zhu Wuyang.

At this moment, Zhu Wuyang could easily show off all kinds of skills. He could position his body according to the 26 alphabets from A to Z and guarantee that they were not inferior to those gymnasts on Earth.

Zhu Wuyang felt as if a layer of shackles had been removed from his body, and he became extremely relaxed and free. Such a physique far surpassed his body on Earth.

Of course, the most despairing thing was that this also meant that Zhu Wuyang's strength had broken through the bottleneck of the Early-stage of the Tendons Refinement realm and stepped into the Mid-stage.

Before the original body's owner died, his strength was at the Mid-stage of the Tendons Refinement realm. However, compared to the current Zhu Wuyang, the difference in strength between him and the current Zhu Wuyang was at least several times.

Apart from the extremely fast cultivation speed, the flawless Dao foundation also brought Zhu Wuyang a cultivation foundation and combat strength that far exceeded his peers.

As the Crown Prince of the Jiu Zhao Nation, not only did he have an astonishing cultivation foundation, but he also had such powerful strength. Wasn't it obvious that he wanted to be suspected by Zhu Zhenwu? He was simply courting death.

Zhu Wuyang shook his head. Just as he was about to consider what to do next, he felt a familiar feeling surge into his heart.

Oh no, something bad was about to happen!

Following the direction in his memory, Zhu Wuyang jumped up and ran towards a certain place in the chamber.

"Congratulations to the host for feeling the urge to pee for the first time in your life. You have obtained 200 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host's strength!"

"Congratulations to the host for taking the first step in your life. You have obtained 300 breakthrough points..."

"Congratulations to the host for taking the second step in your life. You have obtained 200 breakthrough points..."

"Congratulations to the host for taking the third step in your life. You have obtained 100 breakthrough points..."

...

Damn it!

It has increased again!

How would he live his life in the future!

System, can you slow down a little and give me some time to adapt? Can you not be so fast?

Zhu Wuyang, who was in the palace toilet, urinated while feeling his rapidly advancing strength in despair. He had the urge to cry.

“Congratulations to the host for thinking for the third time in your life. You have obtained 100 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host’s strength!”

“Congratulations to the host for urinating for the first time in your life. You have received 300 breakthrough points...”

“Congratulations to the host for feeling despair for the first time in your life. You have obtained 300 breakthrough points...”

... .

Zhu Wuyang was already so uncomfortable that he could not speak. He could only endure the invasion of the strange power in despair, not knowing where he was.

The cultivation method of the Grand Earth Limitless Technique appeared in his mind, assisting Zhu Wuyang to absorb the strange power that surged over in an orderly manner, allowing Zhu Wuyang’s strength to increase, increase, and increase again...

Fortunately, he didn’t break through to the next realm this time. However, he had reached the peak of the Mid-stage Tendons Refinement realm and was only half a step away from the Late-stage.

Even the original owner of the body, who was at the Mid-stage Tendons Refinement realm, felt that his strength was too strong and his improvement speed was too fast, let alone the Late-stage Tendons Refinement realm.

As the Crown Prince, Zhu Wuyang could be said to be the focus of everyone’s attention at this moment. If he made a single outstanding move, he might attract death.
freewebove[.com

As for escaping?

Sister, you’re too naive. As a member of the royal family and born in a world with extraordinary powers, how could you not be plotted against?

Every royal descendant of the Jiu Zhao Nation had a drop of essence blood taken away when they were born. On one hand, it was to test if the other party was a descendant of the Zhu royal family. On the other hand, it was to confirm the location and safety of the royal descendants.

Originally, this tradition was to protect the descendants of the Zhu royal family. But now, it has become a shackle for the descendants of the Zhu royal family. Even if many descendants of the Zhu royal family wanted to escape, they did not dare to run around because of the essence blood.

Previously, there were royal descendants who could not withstand the pressure and fled to other countries. Unfortunately, before they could leave the Jiu Zhao Nation, Zhu Zhenwu used their blood essence to lead the way to them. He easily found this royal descendant and killed him on the spot. From then on, no descendant of the Zhu royal family dared to escape.

He couldn't escape even if he wanted to, and his strength had increased so quickly. What should he do next?

A top-notch secret technique appeared in Zhu Wuyang's mind. This secret technique was called...

Azure Dragon Concealment!

This was a top-notch concealment technique. In the entire martial world, it was also the top concealment technique. It could effectively hide a martial artist's strength, but it was too difficult to cultivate.

Ever since the original body's owner obtained this secret technique 10 years ago, he had cultivated it bitterly for 10 years. But in the end, he did not even manage to gain entry-level proficiency.

On one hand, it was because the original owner's talent was a little poor, and on the other hand, it was because this secret technique was too difficult.

However, the current Zhu Wuyang had a flawless Dao foundation. He had a photographic memory, astonishing comprehension ability, and could draw inferences from many things... He should be able to cultivate the Azure Dragon Concealment technique.

Moreover, he had the Extraordinary Encounters System. Although more than 90% of the breakthrough points earned by the special fortuitous encounter system had been used to increase Zhu Wu's strength, didn't he still have 10% of the breakthrough points? These breakthrough points could also be used to increase the strength of the Azure Dragon Concealment technique.

With a thought, Zhu Wuyang "saw" the Extraordinary Encounters System hidden in the depths of his mind.

The main body of the Extraordinary Encounters System was an irregular stone that was like crystal glass. There were 81 spots flickering on it, and every spot had billions of sceneries flowing in it.

Looking carefully, it was as if there was a universe hidden in every spot. The breakthrough points flowed out from these spots.

At this moment, a number vaguely appeared above the irregular stone.

710 points!

This was the number of breakthrough points Zhu Wuyang currently had. Zhu Wuyang could freely distribute these breakthrough points to increase his strength.

However, Zhu Wuyang's strength had already broken through quickly enough. He was not prepared to use these breakthrough points to advance his strength to the Perfected Tendons Refinement realm. Instead, he was prepared to use them to improve the Azure Dragon Concealment technique.

The cultivation method of the Azure Dragon Concealment technique appeared in his mind. The Azure Dragon Concealment technique that he could not even understand in the past was easily comprehended by Zhu Wuyang at this moment.

Although he had understood it, it would still take a long time to cultivate it successfully. It would take at least a few months. How could Zhu Wuyang wait so long?

7 Wave After Wave

Since he could not escape, he would hide his strength.

For the Princes and Princesses of the Jiu Zhao Nation, although they could be attacked by Zhu Zhenwu at any time, they had extremely rich cultivation resources that ordinary people could not compare to.

It was extremely difficult for ordinary people to obtain the top-notch concealment technique, the Azure Dragon Concealment Art, but it was extremely easy for the original owner to obtain it.

When he started cultivating the Azure Dragon Concealment Art, Zhu Wuyang tried to control those free breakthrough points and added them to the Azure Dragon Concealment Art.

As Zhu Wuyang added points, these breakthrough points turned into strands of strange power, assisting Zhu Wuyang to increase the Azure Dragon Concealment Art at an astonishing speed.

All kinds of cultivation techniques and cultivation methods regarding the Azure Dragon Concealment Art swarmed over and fused into Zhu Wuyang's body, causing Zhu Wuyang's attainments in the secret technique to soar rapidly.

Under the effect of the breakthrough points, the originally difficult to cultivate Azure Dragon Concealment Art was like steel turning into tofu, and Zhu Wu broke through layer by layer.

Ordinary people would not be able to enter the beginner's proficiency level in their entire lives. Even top geniuses would need a few months to reach entry-level proficiency in the secret technique. Under the effect of the breakthrough points, Zhu Wuyang only spent about half an hour before successfully entering the beginner's proficiency level.

Looking at the remaining breakthrough points, he still had 410 points. In other words, he had spent 300 Breakthrough points to upgrade the Azure Dragon Concealment Art to the Beginner level, and this was under the circumstances that Zhu Wuyang's talent and comprehension were top-notch.

If not for this, Zhu Wuyang would have to spend at least ten times the effort to cultivate the Azure Dragon Concealment Art.

Although he was only at the Beginner level, it could already help Zhu Wuyang effectively hide his strength. At the very least, martial artists a few levels higher than him could not detect the true situation in Zhu Wuyang's body.

However, in the Crown Prince Palace at this moment, even the weakest palace maids were at least a few levels higher than Zhu Wuyang. None of those guards were weaker than High-level Meridian Forging Realm.

As for the eunuch supervisor beside Zhu Wuyang, he was an expert close to the Xiantian realm. With Zhu Wuyang's current Azure Dragon Concealment Art, it was impossible for him to hide from those High-level Meridian Forging Realm martial experts.

He still needed to continue improving the Azure Dragon Concealment Art!

However, the remaining breakthrough points were clearly not enough for Zhu Wuyang to raise the Azure Dragon Secret to the Lesser Mastery stage.

At this moment, Zhu Wuyang could only pray that his strength would not increase any further. He prayed that the people who would come to his bedroom later were not the guards or the eunuchs... Otherwise, Zhu Wuyang's strength might be exposed.

After all, at this moment, be it the strength of Zhu Wuyang's body or the thickness of his vital energy and blood, they were more than several times that of the original owner. The difference was so obvious, so how could the guards and eunuchs at the High-level Meridian Forging Realm not notice it?

If the palace maids were slightly stronger, they might even be able to detect Zhu Wuyang's strength.

Danger was everywhere!

Death was imminent!

"Congratulations to the host for cultivating the top-notch concealment technique, Azure Dragon Concealment Art, for the first time in your life. You have obtained 300 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host's strength!"

"Congratulations to the host for reaching the entry-level in the Azure Dragon Concealment Art for the first time in your life. You have obtained 300 breakthrough points..."

...

Just as he thought of this, the mechanical voice of the Extraordinary Encounters System sounded in his mind again. Zhu Wuyang's strength began to increase again, and he obtained another 60 additional breakthrough points.

Fortunately, this wave of improvement did not cause Zhu Wuyang's strength to break through the bottleneck. He was still lingering in the Mid-stage of the Tendons Refinement realm.

Zhu Wuyang was about to use all his breakthrough points on the Azure Dragon Concealment Art to increase his strength as much as possible when a question suddenly surfaced in his mind.

Since the first time he cultivated the Azure Dragon Concealment Art and the first time he reached the Beginner Mastery stage of the Azure Dragon Concealment Art could obtain breakthrough points, it could be considered a special fortuitous encounter. Then why was it that the first time he cultivated the Grand Earth Limitless Technique, the first time he stepped onto the path of cultivation, the first time he broke through to the Early-stage of the Skin Tempering Realm... wasn't considered special fortuitous encounters?

Just as he thought of this, Zhu Wuyang heard a series of mechanical voices in his mind.

"Congratulations to the host for cultivating the Peak Foundation Establishment Divine Art, Grand Earth Limitless Technique for the first time in your life. You have obtained

500 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host's strength!"

"Congratulations to the host for stepping onto the path of cultivation for the first time in your life. You have obtained 1,000 breakthrough points..."

"Congratulations to the host for breaking through the Early-stage of the Skin Tempering Realm for the first time in your life. You have obtained 5 breakthrough points..."

...

"Congratulations to the host for breaking through to the Mid-stage Tendons Refinement realm for the first time in your life. You have obtained 300 breakthrough points..."

...

The series of notifications were like a violent storm, drowning Zhu Wuyang's entire body. More than 2,000 breakthrough points turned into a surge of strange power, causing Zhu Wuyang's strength to once again soar.

Under the effect of the Grand Earth Limitless Technique, this strange power transformed into pure and powerful Qi and blood power. It shuttled through every tendon, tempering, hammering, nourishing... and methodically improving every tendon.

After an unknown period of time, when Zhu Wuyang felt that he was suddenly able to perform any actions he wanted, such as cross-legged horse stance, great split, somersault, one-armed big loop, super jump... This also meant that Zhu Wuyang's strength had stepped into a new realm.

Late-stage Tendons Refinement!

"Congratulations to the host for stepping into the Late-stage of Tendons Refinement for the first time in your life. You have obtained 400 breakthrough points..."

Zhu Wuyang was helpless and in despair. He endured the winds and rain of the breakthrough points again and fell into a state of soaring strength.

"Congratulations to the host for feeling helpless for the second time in your life. You have obtained 200 breakthrough points..."

"Congratulations to the host for feeling despair for the second time in your life. You have obtained 200 breakthrough points..."

"System, f*ck your mother!"

“Congratulations to the host for cursing for the third time in your life. You have received 100 breakthrough points...”

...

Zhu Wuyang was immersed in his cultivation in despair. He tried his best to absorb the strange powers that surged over to prevent these strange powers from damaging his body. If that happened, the consequences would be even more serious.

Only the tears in his eyes were crystal clear and stubborn, telling of Zhu Wuyang's helplessness.

If he had a choice, Zhu Wuyang really didn't want to break through anymore. But why was breaking through so easy?

8 Vegetative State and Pig Brother

I really don't want to break through anymore. Can someone save me?

Zhu Wuyang wailed in the depths of his heart. Under normal circumstances, it would take at least a few months for an ordinary martial artist to break through from the Mid-stage to the Late-stage of the Tendons Refinement realm.

Even for those geniuses, it was impossible without two to three months.

However, Zhu Wuyang had broken through from the Mid-stage to the Late-stage of the Tendons Refinement realm in just ten to twenty minutes.

If Zhu Zhenwu knew about such a rapid increase in strength, Zhu Wuyang would definitely not be able to escape death.

Moreover, it had been less than a month since the original body's owner broke through to the Mid-stage of Tendons Refinement, and Zhu Wu had already broken through. Wasn't such a genius speed of improvement clearly courting death? freēwēbnovel.com

For the first time in his two lives, Zhu Wuyang felt that death was so close to him. It was so close that he only needed to tell the others about Zhu Wuyang's breakthrough speed this time, and he might be finished.

“Congratulations to the host for feeling the arrival of death for the first time in your life. You have obtained 600 breakthrough points, considering...”

Zhu Wuyang fell silent and focused on absorbing the strange powers transformed from the breakthrough points, considering how to survive.

Looking at the huge Crown Prince Palace, there were enemies everywhere. Imperial maids, guards, eunuchs... None of them were Zhu Wuyang's trusted aides, although in name, all the living creatures in the entire Crown Prince Palace belonged to him.

However, everything in the Crown Prince Palace was arranged by someone else. The cowardly original body's owner had almost no place to interfere.

Actually, although the original owner of the body did not have any background and his mother had died early and he was not very capable... he still had two trusted aides. One was the eunuch, Little Li, and the other was the maidservant, Zhi'er.

However, the eunuch, Little Li, was beaten to death by the Fourteenth Princess, Zhu Jun. This was because Little Li's greeting was a little slow when he met her. One could imagine how ruthless Zhu Jun was.

The original body's owner had also vowed to avenge Little Li. Unfortunately, he had never succeeded. Furthermore, at this moment, the Fourteenth Princess, Zhu Jun, was not in a good situation.

According to the news from the palace, the Fourteenth Princess, Zhu Jun, had been attacked by an assassin and her head was injured, so she had already become a vegetable.

It was unknown if she was really in a vegetative state or if she was pretending to be in a vegetative state to avoid being killed by the jealous Zhu Zhenwu.

Later on, Zhu Wuyang would take the time to visit Zhu Jun and satisfy the original body owner's small wish. It could be considered as Zhu Wuyang's compensation for occupying his body.

Moreover, Zhu Wuyang, who had inherited the original body's memories, also hated Zhu Jun.

As for the original body's other trusted maidservant, Zhi'er, before the Host became the Crown Prince, she was beaten to death by the 38th Prince, Zhu Wensi's trusted eunuch, Fu Anlin. At the same time, he arranged for two new maidservants to be by Zhu Wuyang's side. The meaning of surveillance was too obvious.

As for why it wasn't the 38th Prince himself, who had arranged for people to come over, it was said that the 38th Prince, Zhu Wensi, had suffered from Qi Deviation during his cultivation and had injured his brain. He was silly and spent all day with a group of pigs, almost becoming the laughing stock of the royal family.

The original body's owner might believe this, but Zhu Wuyang thought of some things that happened in ancient China. In order to avoid being suspected by their father, some Princes also ate and slept with pigs.

A cold smile flashed across Zhu Wuyang's lips as he thought to himself that there was a high chance that Zhu Wensi was pretending. Fu Anlin was just his spokesperson.

Although this was a little disgusting, at least Zhu Wensi was still alive and had not become one of the nearly 100 Princes and Princesses who had died.

Zhu Wensi and his trusted eunuch were also targets of Zhu Wuyang's revenge.

If Little Li and Zhi'er were still alive, Zhu Wuyang would at least be several times safer with two useful people by his side.

"Congratulations to the host for missing your dead subordinates for the first time in your life. You have received 300 breakthrough points..."

"Congratulations to the host for hating the enemy for the first time in your life. You have obtained 400 breakthrough points..."

"Congratulations to the host for making a decision for the second time in your life. You have received 200 breakthrough points..."

...

Zhu Wuyang's strength continued to increase. Under the effect of the pure Qi and blood essence, his tendons became harder and more flexible. They were already comparable to the tendons of many top-notch ferocious beasts.

With a raise of his hand, his strength had already exceeded 5,000 catties. This was a huge force that Earthlings could not imagine. Under normal circumstances, other than machines, Earthlings would never be able to wield such a huge force.

Before Zhu Wuyang was blasted away by the lightning, he would never have thought that when he woke up again, he would actually become extraordinary in a short period of time. At least to him on Earth, this was already a tremendous transformation.

Speaking of which, after he transmigrated, he had yet to see any person, animal, or plant from the other world. He had not even drunk water, eaten anything, or consumed any natural treasures. In the end, his strength had increased to this extent. It was simply like a dream.

If it were any other transmigrator, they would probably be laughing to death at this moment. However, Zhu Wuyang was actually almost scared to death.

There was a low noise in his ears. He didn't know who was talking, but Zhu Wuyang's expression changed. He prayed that the first wave of people who came to him weren't guards and eunuchs. It would be best if they were just weaker palace maids.

The palace maids in the Crown Prince's Palace were not strong. The strongest was only an Inner Qi Seed martial artist. With Zhu Wuyang's Azure Dragon Concealment Art, as long as it was not the strongest palace maid, it was very difficult for the other palace maids to discover his true strength.

However, Zhu Wuyang could not place his hopes on luck. After all, even if the first wave of people he encountered was not those little palace maids, what about the second, third, and so on?

Therefore, it was better to raise the level of the Azure Dragon Concealment Art as high as possible. Only then could he better ensure his safety.

Looking at the current available breakthrough points, it had already exceeded 500 points. Zhu Wu added all the breakthrough points to the Azure Dragon Concealment Art and increased it at an extremely fast speed.

As the top secret concealment technique in the pugilistic world, as long as Zhu Wuyang could cultivate the Azure Dragon Concealment Art to the Lesser Mastery stage, even a High-level Meridian Forging Realm martial expert would not be able to detect his true strength.

If Zhu Wuyang could cultivate the Azure Dragon Concealment Art to the Greater Mastery realm, even ordinary Xiantian Realm martial artists would not be able to detect his true strength.

As the breakthrough points were consumed, a strange power surged and fused into the Azure Dragon Concealment Art, causing Zhu Wuyang's attainments in the secret technique to soar.

All kinds of experience and techniques regarding the Azure Dragon Concealment Art surged over and fused into Zhu Wuyang's body. It was as if Zhu Wuyang had painstakingly cultivated the Azure Dragon Concealment Art for years and had comprehended this top-notch secret technique bit by bit...

9 The First Wave of Enemies

Unfortunately, although Zhu Wuyang had fused the remaining breakthrough points with the Azure Dragon Concealment Art, the Azure Dragon Concealment Art still had not broken through to the Lesser Mastery stage.

As a top-notch concealment secret technique, the Azure Dragon Concealment Art required a lot of breakthrough points to advance.

However, although he did not break through, he should be able to hide from the detection of a Body Tempering realm martial artist. Even for a High-level Meridian Forging Realm martial artist, he should have a 30% chance of hiding from him.

Zhu Wuyang sighed. Just as he was about to think about how to increase the chances of him hiding his cultivation, his gaze inadvertently landed on the bed.

The fragrant wooden bed that was more than ten square meters wide had already become dirty. There were stains everywhere, and a stench lingered on it.

It was the impurities expelled from Zhu Wuyang's body during the process of forging a flawless Dao foundation and increasing his strength. At this moment, Zhu Wuyang realized that his had already turned black and his entire body was wrapped in a layer of dirt.

"Urgh..."

Zhu Wuyang almost vomited. He quickly took off his clothes and found a basin of hot water to wipe himself. Then, he threw her dirty clothes and towel onto the wooden bed.

In order to prevent others from discovering the abnormality on the bed, he wanted to burn all these things that might expose his rebirth and increase in strength to prevent himself from being killed.

Soon, the wooden bed was set aflame by Zhu Wuyang. Accompanied by a raging fire, the wooden bed and the stains on it were burned to ashes.

"Congratulations to the host for taking off your own clothes for the first time in your life. You have received 300 breakthrough points..."

"Congratulations to the host for wearing clothes for the first time in your life. You have received 300 breakthrough points..."

"Congratulations to the host for playing with fire for the first time in your life. You have received 300 breakthrough points..."

"Congratulations to the host for making a decision for the third time in your life. You have received 100 breakthrough points..."

“Congratulations to the host for saving yourself for the first time in your life. You have received 2,000 breakthrough points...”

...

Zhu Wuyang was stunned for a moment before he was drowned by the strange power that surged over. The Qi and blood essence in his body continuously increased and strengthened, becoming more and more robust and pure, and the tempering of every tendon became more and more powerful.

Ordinary people dreamed of obtaining such opportunities and transformation. They were already extremely happy that their strength could increase by a small realm every year. However, Zhu Wuyang was different. His strength increased by dozens of small realms a day, but he was extremely sad.

Even those geniuses who could advance a small realm in a few months when they were cultivating their tendons were nothing compared to Zhu Wuyang.

When the breakthrough points of this wave were successfully digested, Zhu Wuyang's strength also smoothly broke through to a new realm.

Perfection of Tendons Refinement Realm!

Every single one of his tendons had become extremely round and tough, far surpassing martial artists of the same level. Even among the many Princes and Princesses, he could be considered a genius, his strength forming a whole in his body.

With every move, Zhu Wuyang could use the tendons of his entire body to unleash extremely ferocious power, like a lion or tiger.

To Zhu Wuyang, pulling a stone bow was just a piece of cake. He could also easily lift a huge rock that weighed thousands of catties. This was Zhu Wuyang's strength after reaching the Perfected Tendons Refinement stage.

At this moment, even a martial artist at the Golden Bones Refinement Realm or Five Viscera Refinement Realm would probably not be able to compare to Zhu Wuyang in terms of strength. It could be seen how solid Zhu Wuyang's cultivation foundation was.

“Congratulations to the host for stepping into the Perfected Tendons Refinement stage for the first time in your life. You have obtained 600 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host's strength!”

While Zhu Wuyang was adapting to his increased strength and absorbing another wave of strange power, two palace maids were walking towards the Crown Prince's chamber with all kinds of delicacies.

If Zhu Wuyang could see these two palace maids, he would realize that these two palace maids were the two personal maids arranged by the 38th Prince, Zhu Wensi's trusted eunuch, Fu Anli.

Lai Chun and Chu Xia!

"Ever since the 168th Prince was conferred as the Crown Prince yesterday, His Highness has been lying in his bedchamber without eating or drinking. It's been a day. If this continues, I'm afraid something will happen," Lai Chun said with a bitter expression.

Chu Xia sighed. "Any Prince would be like this when they encounter such a thing. The day the 134th Prince became the Crown Prince, they went crazy. Compared to the 134th Prince, the 168th Prince is already not bad."

"For the ordinary Princes and Princesses, there's still a chance for them to live. However, if they succeed to the position of Crown Prince, they basically won't be able to live for long." Lai Chun frowned slightly. "I wonder how long His Highness 168th can last. I hope he can buy more time for His Highness 38th. It's best if something happens to him a few days before the Martial Emperor dies from madness. That way, there's no need to choose a new Crown Prince."

Chu Xia hurriedly looked around. "Be careful with your words. There are many shadows in the palace. If the spies of the other Princes and Princesses hear this, I'm afraid it will be troublesome."

"I understand." Lai Chun nodded. "It's just that it's a pity for Prince 168. With his standard, he wouldn't have been targeted by the crazy Emperor who's jealous of talents. However, he was pushed to the position of Crown Prince. I'm afraid he won't be able to escape death."

Chu Xia said, "Life and death are decided by the heavens. I can only say that His Highness is unlucky. It's a pity that His Highness is so handsome but will die like this."

"If you feel that it's a pity, why don't you sleep with him? Perhaps you can get pregnant with a Royal Dragon or Phoenix and leave a seed for His Highness." Lai Chun covered her mouth and smiled.

"I'll tear your mouth apart." Chu Xia blushed and was about to grab Lai Chun's face. "We're His Highness 38th's people. We haven't served His Highness 38th yet. How can we give ourselves to His Highness 168th? If you continue to spout nonsense, I'll hit you."

Lai Chun curled her lips. "His Highness 38th has already given us to His Highness 168th as his personal maidservants. His Highness 168th can have us at any time. It's very difficult for you to maintain your innocence. You should submit early."

“What nonsense are you talking about? All the Princes and Princesses in the palace who have some ambition won’t easily lose their virginity. Unless they have stepped into the Perfection of Meridian Forging Realm, once their Yang and Yin Essence are destroyed, it will definitely cause their cultivation speed to plummet. His Highness 168th won’t want us easily.” Chu Xia retorted, “Moreover, we were sent to monitor His Highness 168th. How can we have any close relationship with him?”

Lai Chun smiled. “If he can continue living, His Highness 168th will naturally not easily destroy his Primordial Yang Qi. But after succeeding as the Crown Prince, His Highness 168th might be killed by the mad Emperor at any time. Basically, there’s no future to speak of. Do you think His Highness 168th will still guard his Primordial Yang Qi?”

“So both of us have to be mentally prepared for His Highness to make that kind of request. Fortunately, His Highness was born good-looking, so we won’t lose out.”

chapter 10 Women Are Calamity

“Congratulations, host. This is the first time in your life that someone has spoken ill of you behind your back. You have received 300 breakthrough points...”

“Congratulations to the host for being pitied for the first time in your life. You have received 200 breakthrough points...”

“Congratulations to the host for being coveted after for the first time in your life. You have obtained 500 breakthrough points...”

...

After absorbing another wave of strange power and consolidating his strength, Zhu Wuyang heard the mechanical voice of the special fortuitous encounter system.

Hearing the notification from the Extraordinary Encounters System, Zhu Wuyang’s face turned green. It was fine if he could obtain breakthrough points by doing something special, but why did he also obtain breakthrough points by others doing something special to him?

The Extraordinary Encounters System’s judgment of special events was too casual. There was no need to categorize some trivial matters as special events.

However, which bastard was so f*cked up? Why did they say bad things about him for no reason? They even pitied him and coveted him... They were crazy!

“Congratulations to the host for complaining for the second time in your life. You have obtained 200 breakthrough points...”

“Extraordinary Encounters System, f*ck your ancestors!”

Zhu Wuyang was so angry that he almost vomited blood. He was surrounded by another surge of strange power and began a new round of improvement.

Fortunately, after absorbing this wave of strange power, Zhu Wuyang’s strength did not break through to the next major realm. Otherwise, it would be even more difficult to hide.

However, during the process of burning the incense wooden bed, smoke could be said to be billowing in the palace. Not a single palace maid or guard came to check. From this, it could be seen how unimportant Zhu Wuyang was.

However, this was normal. In the eyes of everyone in the Crown Prince Palace, Zhu Wuyang would die sooner or later. He might not even see the sun tomorrow.

Who would value such a Crown Prince who was about to die?

Actually, this was also a good thing for Zhu Wuyang. The more people didn’t pay attention to him, the more beneficial it was for Zhu Wuyang to hide. This way, Zhu Wuyang would have more time to quietly make a fortune and continuously increase his strength.

Looking at the burning fragrant wooden bed, Zhu Wuyang nodded in satisfaction. Then, he heard footsteps outside.

Who’s here?

Zhu Wuyang’s expression changed slightly. He secretly prayed that it was not those Peak Meridian Forging Realm guards and eunuchs. Otherwise, it would be dangerous.

“Your Highness, lunch is ready. We brought it to you.”

A clear and pleasant voice came from outside. According to the previous owner of the body’s memories, Zhu Wuyang immediately knew who the owner of this voice was. It was one of the two maidservants who had replaced the previous body’s trusted servant, Zhi’er.

“Congratulations to the host for hearing a woman’s voice for the first time in your life. You have received 500 breakthrough points...”

This...

After absorbing this wave of strange power, Zhu Wuyang said indifferently, "Come in!"

"Congratulations to the host for speaking to a woman for the first time in your life. You have obtained 500 breakthrough points..."

"I... f*ck..."

Zhu Wuyang didn't have time to think too much. He immediately circulated the Azure Dragon Concealment Art with all his might and tried his best to hide his constantly increasing strength. Fortunately, after more than ten breakthroughs, Zhu Wuyang had already gained control of the original owner's body.

Coupled with his extreme talent and astonishing comprehension, he could barely do two things at once. However, his expression was a little strange, as if he was constipated.

"Yes, Your Highness!"

The door opened and two beautiful maidservants walked in.

The servant in the lead had a delicate and fair face. Her eyes were bright and watery. Although she was only 19 years old, she was already very charming.

Chu Xia, who was half a body's length behind, looking at her, one would feel as if they had seen their first love. Her face was pure and moving.

These two maidservants were so good-looking that if they were on Earth, they would definitely be able to score above 98 points. Especially their skin, after being nourished by the spiritual energy of this world, they were simply like fine jade, far surpassing the female celebrities on Earth.

As expected of the Imperial Palace of the Jiu Zhao Nation, any two maidservants were so beautiful. Zhu Wuyang had never slept with such beautiful women on Earth.

Speaking of which, the so-called maidservants and concubines in the palace dramas on Earth were like pig feces compared to the women in the Jiu Zhao Imperial Palace. The two were simply incomparable.

In the past, when he was watching palace dramas on Earth, Zhu Wuyang had always been curious about the Emperor's taste when he saw the concubines who were each uglier than the other.

Thinking about it now, it was obviously because the production team was too poor and could not afford to hire so many beautiful palace maids and concubines.

Actually, it was obvious just by thinking about it. The ancient palace would hold a talent show almost every year. How could the beauties chosen by the entire country be bad? They were basically the top beauties in the country.

It was the same for the Imperial Palace of the Jiu Zhao Nation. All the maidservants and concubines who were qualified to be selected into the Imperial Palace were not ugly.

Even the worst of them would be top-notch beauties on Earth. These top-notch beauties would definitely crush any beauty on Earth. After all, this world had supernatural powers that could effectively protect the skin and nourish the body.

“Congratulations to the host for seeing a woman for the first time in your life. You have received 500 breakthrough points...”

Zhu Wuyang’s face turned even redder. Even his aura, which he had tried his best to hide, fluctuated, almost revealing his true strength.

Fortunately, at this moment, the attention of the two maidservants was attracted by the burnt incense wood bed and they did not notice Zhu Wuyang.

“Your Highness, what... what’s going on?”

“Which servant dared to burn His Highness’s bed?!”

... .

“Congratulations to the host for being scolded in person for the first time in your life. You have obtained 300 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be used to increase the host’s strength!”

Black lines appeared on Zhu Wuyang’s forehead as he said in a muffled voice, “I accidentally burned it. Do you have any objections? Hurry up and clean it up!”

“Congratulations to the host for lying for the first time in your life. You have obtained 600 breakthrough points...”

“Congratulations to the host for cursing at your servants for the first time in your life. You have received 200 breakthrough points...” freewebnovel.cm

“Congratulations to the host for ordering your servants for the first time in your life. You have received 300 breakthrough points...”

... .

Zhu Wuyang suddenly felt that if this continued, he would really suffer from constipation.

It was too suffocating!

It was too uncomfortable to hide his strength and increase his strength at the same time!
