Chapter 41 - 41: At the Lady's mercy (1)

Chapter 41: At the Lady's mercy (1)

"Congratulations to the host for being ridiculed by everyone in the Nine Zhao Imperial Palace for the second time in your life. You have obtained 20000 breakthrough points. Due to the damage to the host's meridians and foundation, all breakthrough points will automatically be used to repair the host's cultivation foundation!"

"Congratulations to the host for escaping from Mad Emperor Zhu Zhenwu for the first time in your life. You have obtained 30000 breakthrough points. Due to the damage to the host's meridians and foundation, all breakthrough points will be automatically used to repair the host's cultivation foundation!"

With the help of these villains in the Crown Prince's Palace, the news of Zhu Wuan's failed attempt to cripple herself and her injured meridians spread throughout the entire Nine Zhao Imperial Palace at an astonishing speed.

After all, in the Nine Zhao Imperial Palace at this moment, with Zhu Wanhao's status as Crown Prince, he was already one of the top five "big shots" in the palace.

Although this big shot didn't have much power and was still monitored and controlled by many people, Crown Prince Jiu Zhao's status was so high that any random incident could still cause waves.

Not to mention crippling his own strength. It was fine if he crippled his own strength, but he actually did not succeed. Instead, he damaged the foundation of his cultivation, which naturally increased the sensation of this matter.

Many princes and princesses believed it immediately. There were also some princes and princesses, concubines, and even Mad Emperor Zhu Zhenwu who also believed it after sending people to investigate.

Therefore, Zhu Wuwan had obtained a large amount of general experience, allowing his damaged meridians to recover at a speed visible to the naked eye. At this speed, it would not take long for Zhu Wuwan's damaged meridians to recover.

Fortunately, many guards, eunuchs, and palace maids in the Crown Prince's Palace had personally confirmed Zhu Wuyan's condition. The imperial physician had also examined Zhu Wuyan. Even Mad Emperor Zhu Zhenwu had sent eunuchs over to visit and confirm Zhu Wuyan's injuries.

After these few groups of people passed by like a lantern, Zhu Wuyang was sure that his meridians were indeed damaged and needed a long time to recover. Zhu Wuyang suddenly realized that with the help of these people, his damaged meridians were about to recover very quickly.

Not only that, but this matter was still brewing. Tomorrow, there would definitely be princes and princesses, concubines, and even people sent by Zhu Zhenwu to visit him. At that time, Zhu Wuyang would obtain many breakthroughs.

Not only did this self-harm not slow down the speed at which Zhu Wuwan's strength increased, but it also made Zhu Wuwan's strength increase even faster. It seemed that the gains did not make up for the losses.

However, with the help of this self-harm, Zhu Zhenwu had already gotten someone to tell Zhu Wuyang that he did not need to go to the Palace of Heavenly Purity for the time being. He would go only when his meridians were almost fully recovered. In this way, he could successfully overcome a major obstacle and eliminate a fatal disaster.

Therefore, this self-harm was still very useful. It was just that the negative effects were a little too scary. He really did not want to break through again. freewebnevel.com

After the ruckus, Zhu Wuyang was a little tired and fell asleep drowsily.

However, even in his sleep, Zhu Wuwan was still circulating the Azure Dragon Concealment with all his might. Hiding his true strength so that others would not discover him had almost become an instinct.

This was a skill that Zhu Wuyang had honed in just a few days. Under the threat of death, Zhu Wuyang's potential could be said to have erupted. With an astonishing speed, he had turned the Azure Dragon Invisibility into an instinct. This could also be considered a small miracle.

No wonder there was a wise saying that a person's potential was unlimited. As long as it could be squeezed out, he could do anything. Now, it seemed that it was somewhat reasonable.

However, as he slept, Zhu Wuwan kept feeling that something was wrong. It was as if someone was touching and checking him...

"Congratulations to the host for being touched by a top-notch beauty for the second time in his life. You have obtained 600 breakthrough points. Due to the damage to the host's meridians and foundation, all breakthrough points will be automatically used to repair the host's cultivation foundation!"

"Congratulations to the host for being caressed and examined by a top beauty with evil intentions for the first time in your life. You have obtained 1000 breakthrough points.

Due to the damage to the host's meridians and foundation, all breakthrough points will automatically be used to repair the host's cultivation foundation!"

"Congratulations to the host for not daring to resist for the first time in your life. You can only allow a top beauty with evil intentions to touch and examine you. You have obtained 1500 breakthrough points. Due to the damage to the host's meridians and foundation, all breakthrough points will be automatically used to repair the host's cultivation foundation!"

Zhu Wuan had already experienced this feeling, so he quickly realized what had happened. He originally thought that the palace maids in the Crown Prince's Palace had come to harass him again because they were worried.

Zhu Wuan wanted to scold her out, but he immediately realized that something was wrong. His eyes opened slightly, and he suddenly realized that the woman who was stroking and checking him was wearing a masked black scarf. Her strength was close to the Connate realm. There was no such powerful palace maid in the Crown Prince's palace.

Only then did Zhu Wuan realize in horror that the woman who was touching and examining him was from an unknown prince or princess, or a harem concubine, or even someone sent by some powerful minister.

The other party's background was unknown, and his thoughts were also unpredictable. Who knew if he had any malicious intentions? For the sake of his own safety, Zhu Wuyang did not dare to speak carelessly.

Therefore, he could only continue to pretend to be asleep, allowing the female assassin to do whatever she wanted on him, checking him internally and externally, and touching him up and down...

Originally, Zhu Wuyang should have been furious. However, from the outline of the female assassin's exposed skin, Zhu Wuyang realized that this female assassin's appearance was definitely not ordinary. She should be even more beautiful than the palace maids in the Crown Prince's Palace.

Although her every move was somewhat unreasonable, it was quite gentle. Perhaps she was afraid that Zhu Wuan would wake up and realize that the female assassin's little hands were moving very slowly. There was a kind of itchy feeling that made people feel very comfortable.

From the corner of his eyes, Zhu Wuyang noticed that the female assassin's exposed skin had already turned red. It was very likely that she was embarrassed. The way she checked was also rather unfamiliar. He wondered if she had never done this to other men before.

In addition, the other party did not seem to have any ill intentions. He just wanted to confirm Zhu Wuyang's condition. This way, Zhu Wuyang was not too ashamed and angry. She would not be like some humiliated women in ancient times who would hang themselves and jump into the river at will. In the end, if she was lucky, she would get a chastity archway. If she was unlucky, she would die without anyone knowing.

In order to prevent the female assassin from discovering that he had already woken up, after all, the other party had been touching him for such a long time, but there was still no reaction from Zhu Wuyang. Even a fool could realize that there was something wrong, even if the female assassin was just a rookie.

However, Chu 'er was not a fool. She was naturally able to discover some abnormalities.

Therefore, after some consideration, for the sake of safety, Zhu Wuwan decided to do something. When the female assassin's caressing and inspection became a little bigger, Zhu Wuwan began to react."Oh ... Well ... Ah .

Chapter 42: Actually, I Am Humiliated (1)

Just treat it as a massage!

Although she was forced, the girl was beautiful. Among all the people on Earth, how many people could enjoy such a level of female massage?

Her skin was so soft that it could be broken by a breeze, her faint virgin fragrance, and her body that was extremely curvaceous...She also had the strength to suppress any male on Earth. She was simply a heaven-grade girl.

" Congratulations to the host for comforting yourself for the first time in your life. You have obtained 800 breakthrough points. Due to the damage to the host's meridians and foundation, all the breakthrough points will automatically be used to repair the host's cultivation foundation! "

"Congratulations to the host for being forcefully massaged for the first time in his life. You have obtained 1000 breakthrough points. Due to the damage to the host's meridians and foundation, all breakthrough points will be automatically used to repair the host's cultivation foundation!"

Wave after wave of breakthrough points were still swarming over. Even the System had seen through Zhu Wuwan's disguise and knew how helpless he was under his forced smile.

Life was like being forced. Since he couldn't resist, he could only enjoy it.

Zhu Wuwan pretended to be disturbed and made an "unconscious" sound, which immediately alerted the female assassin who was conducting a comprehensive examination on him.

The female assassin let out a soft cry of surprise. She immediately realized something and quickly retreated behind a nearby screen to carefully observe Zhu Wuyang's condition.

When he realized that Zhu Wuwan had only hummed a few times and had fallen into a deep sleep again, he heaved a sigh of relief.

After a while, the female assassin climbed onto Zhu Wuyang's black ice bed again and began to examine her even more carefully. It was only after she confirmed that Zhu Wuyang's meridians were indeed damaged and that her strength was only at the Perfection of the Golden Bone Refinement that the female assassin left with ease.

"Congratulations to the host for having an indescribable feeling for the first time in your life. You have obtained 12222 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will automatically be used to increase the host's strength!"

"Congratulations to the host for feeling the beauty of a woman for the first time in his life. You have obtained 22222 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be automatically used to increase the host's strength!"

Zhu Wuwan was stunned. Could it be that she had masochistic tendencies? Being thoroughly examined by the female assassin, the slightest carelessness could lead to her death.

If it wasn't for the fact that Zhu Wuwan had already cultivated the Azure

Dragon Concealment to the great success realm and was very close to the perfection realm, he might have been exposed. At that time, what awaited him would be death.

In the end, he was afraid, angry, and hateful...Forget it, he actually had that kind of feeling and even experienced the beauty of a woman. This was f * cking...The Special Encounter System must have made a mistake.

However, what Zhu Wuwan found hard to accept was that he had suffered such a great crime and made such a great decision. He had finally succeeded in self-harming himself

and injured his meridians. The breakthrough points he had earned were no longer used to increase his strength.

However, only a few hours had passed, and the damaged meridians had already been completely repaired. Moreover, he had obtained so many breakthrough points in one go. If nothing unexpected happened, this wave of breakthrough points would definitely be enough for him to advance to the next realm.

More and more blood essence raindrops appeared in his body, gradually converging into a small stream. It became more and more abundant and pure, and naturally, he could hone his bone marrow more comprehensively and deeply.

Moreover, while the earth's blood essence was honing the bone marrow, it also nourished and improved the skin, muscles, tendons, bones, and five internal organs, allowing these parts to improve further. This was a kind of overall improvement.

The earth blood essence from before was far from being as rich and pure as it was now. There were certain flaws in the tempering of various parts of the body, or it was impossible to temper these parts in a more comprehensive and deeper manner.

Now, as the power of the earth's blood essence increased, while tempering the deeper parts, it also tempered these parts.

The so-called filtering was actually an all-round improvement of these parts during the filtering process.

Skin, muscles, tendons, bones, five internal organs ... Not only could it filter the earth's blood essence, but it could also absorb a portion of the earth's blood essence. It could be said to be complementary.

This was the art of cultivation!

The cultivation system that had been passed down in Dongyuan Continent for millions of years was not that crude. It could effectively excavate the potential of the human body and make full use of the high-energy things that warriors ate, turning them into tyrannical strength and increasing the combat effectiveness of warriors.

The middle stage of the Bone Marrow Refinement Realm!

Soon, Zhu Wuyang broke through to the next minor realm. His overall strength soared by several times, and there was a silver light flickering in his bone marrow. This was the legendary Golden Bone Silver Marrow.

When the bone marrow was covered in silver light, it meant that the martial artist had honed his bone marrow to a certain extent. His control over the power of Vitality was also like a hand, allowing him to effectively unleash the power of Vitality.

“Congratulations to the host for breaking through to the middle stage of the Bone Marrow Refinement realm for the first time in your life. You have obtained 4000 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will automatically be used to increase the host’s strength!”

After breaking through, there was naturally another wave of rewards. With this wave of rewards, Zhu Wuwan effectively stabilized her current strength and made some progress toward the late stage of the Bone Marrow Refinement.

Fortunately, Zhu Wuyang’s meridians hadn’t recovered yet before the nameless female assassin examined her thoroughly. Otherwise, she would have been exposed.

What the nameless female assassin had done to Zhu Wuyang made him feel humiliated, but at the same time, a strong sense of unease rose in his heart.

Since the other party was able to sneak into his bedroom and inspect him for a long time, assassinating him would be a piece of cake.

Even if Zhu Wuyang was awake at the time, he would definitely not be able to withstand the vicious attacks of the nameless female assassin. The difference in strength between the two of them was at least dozens of times, so how could Zhu Wuyang resist the other party?

His strength was still too weak, and his combat strength was even worse. Therefore, he had to increase his combat strength.

There was no need to talk about strength. Zhu Wuwan had always wanted to suppress the growth of his strength realm, but reality clearly told him that this was impossible.

Therefore, he did not need to pay too much attention to his realm. The most important thing now was to quickly learn one or two powerful combat martial arts. If he encountered a similar crisis again, he would have a certain amount of power to fight back.

Some powerful martial arts could even increase a martial artist’s combat strength by several times. Once he mastered it, it would be extremely useful for Zhu Wuwan to ensure her own safety.

Moreover, as long as these combat martial arts were not revealed, there was no need to worry about being discovered. It was extremely safe and very suitable for Zhu Wuyang at this moment.

Zhu Wuyan's talent was so strong that it was easy for him to cultivate these martial arts. His progress would also be considerable, and he could increase Zhu Wuyan's combat strength at an extremely fast speed..

Chapter 43: Nine Dragon Fist and Illusion God Steps

Nine Dragon Fist!

It was one of the strongest offensive martial arts of the Nine Zhao Nation, and it was also the foundation martial arts cultivated by the founding ancestor of the Nine Zhao Nation. It was also a martial art that all members of the Zhu royal family of the Nine Zhao Nation had to learn.

In the entire Nine Zhao Country, only the warriors of the Zhu Royal Family were qualified to cultivate this peerless martial art. This was also the signature martial art of the Zhu Royal Family of the Nine Zhao Country.

As long as they saw someone performing the Nine Dragon Fist, the people of the Nine Zhao Nation would know that this person was a member of the royal family. If they were not a member of the royal family, they would not dare to cultivate the Nine Dragon Fist, let alone have the opportunity to cultivate it.

It was just that the Nine Dragon Fist was easy to learn but difficult to master. It was easy to learn the basics, but it was basically impossible to cultivate it to the Small Success, Large Success, or even the Perfection Realm.

The Nine Dragon Fist was divided into nine levels. As long as one could master the first level, one could fully exert all the strength of the martial artist's body and burst out with 100% of the attack power and destructive power.

Every move of his could mobilize all the strength in his body and give the enemy a fatal blow.

After reaching the second level, he would be able to double the strength of a martial artist, and his attack power and destructive power would soar.

Then, the third level would be three times, the fourth level would be four times, and the fifth level would be five times...All the way to the ninth level, it was nine times!

Zhu Wanhao's strength was more than 20 ,000 pounds at the moment, and her destructive power was comparable to a martial artist who had completed Blood Transfusion. She could even compete with a martial artist who had condensed an Inner Qi seed.

If Zhu Wuwan cultivated the Nine Dragon Fist to the ninth level, she would be able to unleash nine times the strength with each move. That would be a force of nearly 200,000 pounds.

At that time, not to mention a martial artist who had condensed an Inner Qi seed, Zhu Wuyang might even be able to defeat an Earth Gate Realm martial artist who had surpassed the Inner Qi seed.

However, the difficulty of cultivating the Nine Dragon Fist was beyond imagination. The original owner had cultivated for more than ten years, but she had only mastered the first level. She was still far from the second level.

One had to know that the Nine Dragon Fist was easy to learn but difficult to master. It was relatively easy to advance to the first level. Even so, the original owner had spent more than ten years. From this, one could see the original owner's talent.

Even though Zhu Wuan had already established a flawless Dao foundation, was a divine deity, and had opened all his meridians, it would probably take a lot of time and energy to cultivate to the second level, let alone the ninth level.

According to Zhu Wuan's speculation, it was already very impressive for him to be able to advance the Nine Dragon Fist to the ninth level within ten years.

The founding ancestor of the Nine Zhao Nation was known as a genius. In the end, he spent more than 50 years to advance the Nine Dragon Fist to the ninth level. From then on, he was invincible and invincible in Nine Zhao.

However, with the help of the breakthrough point, Zhu Wuwan believed that it should be able to greatly shorten his time and allow his Nine Dragon Fist to progress rapidly.

Facing such a powerful martial art like the Nine Dragon Fist, Zhu Wuwan, who was extremely talented, naturally wouldn't miss out on it. Therefore, the first offensive martial art that he was going to cultivate was the Nine Dragon Fist.

Although the original owner was stupid, she had memorized the Nine Dragon Fist thoroughly. After all, it was a must-have technique for all members of the Zhu Royal Family.

However, even though he had memorized it, more than 90% of it did not understand. It could only be said that he had swallowed it in one gulp.

Now that it was in Zhu Wuyan's hands, Zhu Wuyan was a genius. In a short period of time, he had comprehended the first three levels thoroughly. Next, he only needed to cultivate step by step and he would be able to advance very quickly.

Other than the Nine Dragon Fist, Zhu Wuwan also had her eyes on a martial art that could help her escape, and she was even more interested in it.

Illusion God Steps!

There were not many movement techniques in the entire Nine Zhao Kingdom that could be compared to this peerless movement technique. Its weakness was that it was too difficult to comprehend and cultivate.

It was difficult to enter the sect, but it was even more difficult to advance!

This was the Illusion God Steps. However, it was also because of this that once one could successfully cultivate the Illusion God Steps, the strength of a martial artist could obtain a huge increase.

Illusion God Steps was not only a secret art for dodging and moving in a small area, but it was also the first choice for escaping in a large area. At the same time, it could confuse the enemy and hide itself, effectively cooperating with Green Dragon Concealment.

If it weren't for the fact that it was too difficult to cultivate, many princes and princesses would have chosen it.

The original owner had also heard that the Illusion God Steps was the most difficult movement technique in the Nine Zhao Nation, so she had read through it properly and memorized it. Now, it was Zhu Wuyang's turn to benefit.

The Illusion God Step that was difficult to understand and cultivate for others only took Zhu Wuwan a few hours to fully understand the cultivation of the

introductory stage. If nothing unexpected happened, he would be able to

cultivate it to the introductory stage in a few days.

The Nine Dragon Fist was the main attack, while the Illusion God Step Master escaped to save his life. The two complemented each other. These were the two peerless martial arts that Zhu Wuwan had chosen for herself to save her life.

To be honest, as the Crown Prince of the Nine Zhao Nation, although he had to face many dangers and could even get himself killed at any time, he still had many conveniences compared to ordinary people.

Whether it was the Nine Dragon Fist or the Illusion God Steps, they were both peerless divine techniques that ordinary martial artists could only dream of but could not obtain. However, Zhu Wuwan only needed to flip through her memories to obtain them.

Even without these memories, Zhu Wuwan could still go to the library in the palace at any time to learn these two peerless martial arts. Moreover, there were many peerless martial arts that she could choose from.

This was the convenience of being the crown prince of the Nine Zhao Kingdom. The peerless divine techniques and peerless secret manuals that people in the martial arts world dreamed of were just casually available to Zhu Wuwan.

This was also a place to console themselves. Other than that, there were also many spirit pills used for cultivation, which were also rare for ordinary martial artists.

After Zhu Wuan became the Crown Prince, she had suffered so much and was uneasy every day. Naturally, she had to obtain sufficient compensation and make good use of her identity as the Crown Prince to obtain various conveniences for herself.

For example, some tonics that could increase one's strength could not be taken for the time being, so they would hide it for the time being. For example, some of the heavenly treasures distributed by the royal family were placed in a place that no one knew about. For example, he would temporarily memorize some martial arts manuals that he could use in the future...

When Zhu Wuan was in the study previously, he had already discovered that the previous seventeen crown princes had left quite a number of good things in the study. There were many copies of the secret manuals of divine techniques in the royal library, and there were no less than a hundred of them.

Later on, when Zhu Wanhao needed it, she didn't even need to go to the royal family's library to find suitable martial arts manuals in the crown prince's study.

This way, he could hide himself better and avoid being detected by the experts in the library pavilion. After all, as one of the most important places of the Zhu royal family, there were many old monsters guarding the library pavilion, including many peerless experts at the Connate perfection realm.

Next, he would start cultivating the Nine Dragons Fist and the Illusion God

Steps!

Chapter 44: A Thousand Miles in a Day

Because Zhu Wuan was still injured, he did not practice the Nine Dragon Fist and the Illusion God Steps in the spacious and bright bedroom. Instead, he hid in the secret training room in the bedroom.

Although the secret training room in the bedroom was not big, it was built with special stones. No matter how loud the noise was, it would not spread outside. It could be said to be quite safe.

As long as he closed the door of the secret cultivation room and locked it, he would not have to worry about someone barging in rashly and discovering Zhu Wuyang's true identity.

At this moment, there were enemies all around Zhu Wuyang. It was only safer to cultivate in the secret cultivation room.

The cultivation method of the Nine Dragon Fist appeared in his mind. Zhu Wuwan began to perform the Nine Dragon Fist according to what he had comprehended.

"Dragon Battle in the Wild!" "Flying Dragon Claws!"

"Divine Dragon Wags Tail!"

Zhu Wanhao executed each move. His movements were a little rusty at first, but as time passed, his moves became more and more skilled, and his power became greater and greater.

Relying on her astonishing talent, Zhu Wuwan quickly mastered the first level of the Nine Dragon Fist and inherited the original owner's attainments on it, even going one step further.

Then, Zhu Wuwan began to charge towards a higher realm. After more than ten years of bitter cultivation, the original owner had long cultivated the first level of the Nine Dragon Fist to the peak. However, because she could not understand the second level, she was unable to break through.

However, when the Nine Dragon Fist landed in Zhu Wuwan's hands, it was as if he was observing the patterns on his palm. The first three levels of the Nine

Dragon Fist were not difficult for Zhu Wuwan.

"Boom boom boom..."

"Hu hu hu..."

As he performed punch after punch, the Nine Dragon Fist improved at a speed visible to the naked eye. Soon, it reached the peak of the first level and was about to break through to the next realm.

When cultivating the Nine Dragon Fist, the power of blood and Qi in Zhu Wuwan's body was like a divine dragon, circulating endlessly in his body, causing Zhu Wuwan's skin,

muscles, tendons, bones, five internal organs, and bone marrow...It trembled slightly and further tempered all parts of his body.

This was also the power of the Nine Dragon Fist. Although it was a peerless martial art in terms of attack, it could also temper the body when cultivating, and it had a good auxiliary effect.

Moreover, the higher the realm of the Nine Dragon Fist, the more powerful the tempering of the body. Coupled with the tempering of Zhu Wuyang's body by the Limitless Earth Technique, the strength and flexibility of Zhu Wuyang's body would far surpass martial artists of the same realm.

"Yin..."

At a certain moment, a strange dragon's roar came from Zhu Wuyan's body, rippling in layers throughout Zhu Wuyan's body. As the sound shook, the speed at which Zhu Wuyan's various parts of the body absorbed the earth's blood essence soared.

Skin, muscles, tendons, bones...Like a sponge, it absorbed more than 90% of the earth's blood essence in Zhu Wuyang's body at an extremely fast speed, far surpassing the absorption of blood essence power by the Limitless Earth Technique.

Although it was only temporary, it had made Zhu Wuwan's various body parts soar greatly in a short period of time. Even her skin, muscles, bones, five internal organs, and bone marrow, which had already been tempered to perfection, had taken a step forward and become more and more powerful.

When the Nine Dragon Fist broke through, this kind of abnormality would appear. This was the dragon roar tempering the body. Although it would only chant once when breaking through, it could already bring great benefits to the cultivator.

In other words, in just two hours or so, Zhu Wuyang had broken through the barrier that the original owner had not been able to break through for several years and stepped into the second level of the Nine Dragon Fist.

Once he used the Nine Dragon Fist, he could burst out twice the strength of his own body. The destructive power was terrifying, enough to crush an ordinary Internal Qi seed martial artist and kill enemies two major realms above him.

Zhu Wuyan's combat ability was finally not the weakest in the Crown Prince Palace. If someone wanted to kill him in the future, Zhu Wuyan would have a certain degree of self-protection.

Although it was all thanks to the original owner that he was able to reach the second level of the Nine Dragon Fist in such a short period of time, Zhu Wuwan could be considered to have accumulated a lot.

However, if it wasn't for Zhu Wuwan's talent to be able to understand the mysteries of the second level of the Nine Dragon Fist, even if the original owner was given another ten or twenty years, she probably wouldn't be able to break through to the second level of the Nine Dragon Fist.

Although hard work was very important, sometimes amazing talent could play a decisive role.

After stabilizing the Nine Dragon Fist at the second level, Zhu Wuwan began to cultivate the Illusion God Step. Compared to the Nine Dragon Fist, Zhu Wuwan valued the Illusion God Step more. After all, although combat strength was important, the most important thing was to be able to preserve one's life. If one did not have a life, it would be useless no matter how strong one's combat strength was.

Although the Illusion God Steps was difficult to learn and master, it was nothing in front of Zhu Wuwan, who was peerless in talent.

After spending only half an hour, Zhu Wuwan had mastered the basic level of the Illusion God Steps. As she moved, her body seemed to overlap, moving horizontally and horizontally within a radius of several meters. Even martial artists in the Earth Pass Realm would probably not be able to touch Zhu Wuwan at all.

In other words, the entry level of the Illusion God Steps was enough to make Zhu Wuyang invincible in the Body Tempering stage.

This movement technique was known as the most difficult in the Nine Zhao Nation, and Zhu Wuwan only used half an hour to master it.

It was said that the last prince who had cultivated the Illusion God Steps to the Beginner Stage, the seventh crown prince of the Nine Zhao Nation, who was said to be the most talented and most perceptive of all the princes and princesses, had spent a full year before he had mastered the Illusion God Steps.

However, Zhu Wuwan succeeded in half an hour. She was born sacred and had a top-notch comprehension ability. She was already so powerful.

It was not safe to enter the sect yet. He still needed to continue cultivating bitterly and raise it to the small success realm.

However, even with Zhu Wuyan's talent and aptitude, it would take at least a few days to cultivate one of the most difficult movement techniques in the Nine Zhao Nation to the realm of small success. It was really difficult.

Zhu Wuwan shook his head and immersed himself in bitter cultivation. His footsteps were agile and his figure was like the wind...There was no sign of injury at all.

However, Zhu Wanhao was also very helpless about this. Originally, after he injured his meridians, Zhu Wanhao felt that with his injuries, it would take at least ten days to half a month before he could get out of bed.

However, no one had expected the special encounter system to be so powerful. Zhu Wuyang had only been injured for a few hours, but his injuries had been completely healed by the breakthrough point. The speed was so fast that it made him dumbfounded.

If it was someone else, even with the help of various elixirs and treasures, it would take at least a few months. If it was an ordinary martial artist, his life would be ruined and there would be no possibility of improvement.

Only in the royal family, where treasures were everywhere, injuries like damaged meridians were not considered a big deal. It might not be the case in other places.

And in the process of cultivating the Nine Dragon Fist and the Illusion God Steps, how could there be no troublemakers?

Chapter 45: Top Monsters (1)

" Congratulations to the host for cultivating the Nine Dragon Fist for the first time in his life. You have obtained 3000 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be automatically used to increase the host's strength! "

" Congratulations to the host for raising the Nine Dragon Fist to the first level for the first time in your life. You have obtained 3000 breakthrough points..." "Congratulations to the host for raising the Nine Dragon Fist to the second level for the first time in his life. You have obtained 5000 breakthrough points..."

The Nine Dragon Fist was indeed the best peerless martial art in the world of martial artists. Just cultivating it gave Zhu Wuwan 3,000 breakthrough points. Then, adapting to the first level and breaking through to the second level gave Zhu Wuwan a few thousand breakthrough points respectively. In total, it already gave her more than 10,000 breakthrough points.

After absorbing this large wave of breakthrough points, Zhu Wuwan's strength was one step closer to the late stage of the Bone Marrow Refinement realm.

Next, he cultivated the most difficult movement technique, the Illusion God Steps, which once again brought Zhu Wuwan a lot of breakthrough points.

The first cultivation was 3,000 breakthrough points. After entering the sect, it actually brought Zhu Wuwan an income of 10,000 breakthrough points. These two waves of breakthrough points combined had already broken through Zhu Wuwan's strength to the peak of the middle stage of the Bone Marrow Refinement realm. It could be said that he was very close to the late stage of the Bone Marrow Refinement realm.

Most importantly, with the help of these two waves of breakthrough points, Zhu Wuwan had obtained several thousand free breakthrough points. After adding these free breakthrough points to the Azure Dragon Concealment, it made the Azure Dragon Concealment one step closer to perfection.

If he could keep these free breakthrough points and add them to the Nine Dragon Fist or the Illusion God Steps, it would definitely allow Zhu Wuwan's attainments in the above to soar.

However, for Zhu Wuwan now, hiding his strength was the most important thing. It wouldn't be too late to use it to improve the Nine Dragons Fist and Illusion God Steps after he perfected the Azure Dragon Concealment.

As long as he could raise the Nine Dragon Fist and the Illusion God Steps to Greater Mastery, even if Zhu Wuwan maintained her current strength, she would be able to dominate the Body Tempering Stage.

When he entered the Vein Casting stage, he would be able to do whatever he wanted.

After stabilizing his attainments in the Illusion God Steps, it was getting late.

He had also stayed in the secret cultivation room for quite some time. Zhu Wuwan left in a hurry, preparing to deal with the wave of people outside before continuing to hide in the secret cultivation room to cultivate the Nine Dragons Fist and the Illusion God Steps.

Just as Zhu Wuyang had expected, when they found out that he had "injured" his meridians while practicing martial arts, some of the princes, princesses, and concubines were very concerned. They once again sent over all kinds of tonics, heavenly treasures, and so on. Some even came to visit Zhu Wuyang in person.

This was obviously not a good thing for Zhu Wuyang because...

"Congratulations to the host for receiving a gift from Zhu Zhan, the 132nd prince of the Nine Zhao Nation, for the first time in his life. You have received 1000 breakthrough points..."

"Congratulations to the host for receiving a gift from Consort Wang Shufen of the Nine Zhao Kingdom for the first time in your life. You have received 3000 breakthrough points..."

“Congratulations to the host for receiving a gift from Zhu Wensi, the thirty-eighth prince of the Nine Zhao Kingdom, for the first time in his life. You have received 5000 breakthrough points...”

Although Zhu Wensi had sent the gift in the name of the chief eunuch in the palace, the special encounter system had seen through everything clearly, allowing Zhu Wuyang to confirm that Zhu Wensi was indeed pretending to be a pig, hoping to eat a dragon one day and become the new emperor of the Nine Zhao Kingdom.

However, Zhu Wuyang, who had a burning gaze, was punished by the special encounter system at the first moment. It really made him extremely sad.
“Congratulations to the host for seeing through the disguise of the 38th Prince Zhu Wensi for the first time in his life. You have obtained 8000 breakthrough points...”

Looking at the messages that swarmed in, Zhu Wuyang knew sadly that he...It was time to break through again.

The huge breakthrough point turned into a surging strange power. Under the effect of the Limitless Earth Technique, it merged into pure and powerful blood essence power, rippling throughout Zhu Wuwan's body.

The Qi and blood of the earth had already formed the shape of a small stream, flowing through all of Zhu Wuwan's meridians. Because all of Zhu Wuwan's meridians were connected, the Qi and blood of the earth could flow through all parts of Zhu Wuwan's body, fully tempering all parts of Zhu Wuwan's body.

Moreover, due to her extraordinary talent and ability to connect all her meridians, the density and purity of the Earth Qi and blood in her body far surpassed that of other princes and princesses, let alone ordinary martial artists outside. The difference between the two was nearly ten times.

Everyone knew that the stronger the Vitality, the more powerful the tempering of the body. It could temper a martial artist's body to be tougher and stronger.

With such an astonishing earth blood essence power, it would naturally bring huge benefits to Zhu Wuwan. It would allow Zhu Wuwan to refine his skin, muscles, tendons, bones, five internal organs, and bone marrow...It far surpassed those of the same rank.

As the earth's Qi and blood went deep into his body and circulated in his bone marrow, Zhu Wuwan's bone marrow improved at an extremely fast speed.

The silver light in his bone marrow grew brighter and brighter, gradually becoming silver and dazzling. It set off his golden jade-like bones and looked very beautiful.

Late stage of the Bone Marrow Refinement Realm!

This meant that Zhu Wuwan's strength had increased again and she had stepped into a new realm. Moreover, there were still many breakthrough points that had not been used, but a new breakthrough point had arrived.

"Congratulations to the host for entering the late stage of the Bone Marrow Refinement realm for the first time in your life. You have obtained 4600 breakthrough points..."

By the time he had absorbed all the breakthrough points that he had forcefully poured in, Zhu Wuwan's strength had already completely stabilized at the late stage of the Bone Marrow Refinement. He was also a lot closer to the perfect stage of the Bone Marrow Refinement.

At this rate, by the time this wave of visits was over, Zhu Wuyan's strength would at least be able to break through to the perfected Bone Marrow Refinement, or even enter the Blood Transfusion Refinement.

It had only been three or four days since Zhu Wuwan had transmigrated. In the end, not only had Zhu Wuwan established a flawless Dao foundation, but she had also leaped from an ordinary person to a small expert in the late stage of the Bone Marrow Refinement Realm. She had broken through six major realms and more than twenty minor realms in a row. Such a cultivation speed was probably unprecedented, even if it was not unprecedented.

Most importantly, his cultivation speed was so fast. Zhu Wuyang's cultivation foundation was still very solid. There were no signs of instability at all. On the contrary, his stability could be said to be invincible among those of the same level.

If this matter were to spread out, Zhu Wuwan would definitely be unable to escape death. This could no longer be explained as a monster. This was a complete monster..

Chapter 46: Empress Jiu Zhao

"Congratulations to the host for feeling like a monster for the first time in your life. You have received 500 breakthrough points..."

"Congratulations to the host for shamelessly taking credit for the system for the first time in your life. You have received 300 breakthrough points..."

Before Zhu Wanwan self-mutilated, she never thought that this self-mutilated act would actually bring him such great benefits. Other than the initial feeling of using all the breakthrough points to recover from his injuries, it felt great. After all, his strength had finally stopped increasing.

However, his strength began to increase terrifyingly again, and at such a fast speed. Zhu Wuwan was also in despair.

However, what made him even more despairing was yet to come. The next day, just as he finished cultivating the Nine Dragon Fist and the Illusion God Step,

Zhu Wanhao received news that the Empress of the Nine Zhao Kingdom, Zhao Fanghua, had heard that he had injured his meridians while cultivating. As the mother of all the princes and princesses, she was going to visit Zhu Wanhao.

After learning of this news, Zhu Wuwan felt as if she had been struck by lightning. She never expected that this self-harm would actually alarm the Empress of the Nine Zhao Country, Zhao Fanghua. This person was the first lady of the Mad Emperor, Zhu Zhenwu. She was quite powerful herself. The imperial guards and eunuchs around her were all great experts above the late stage of the Xiantian realm.

Once she came to visit Zhu Wuyang, it was very likely that she would discover Zhu Wuyang's true strength. At that time, with her personality, she would definitely tell Zhu Zhenwu about this. The consequences of Zhu Wuyang would be unpredictable.

However, Zhu Wuyang obviously couldn't refuse the visit of such a big shot. An unprecedented killing intent was coming again.

However, Zhu Wuyang didn't know that when the news of his "self-immolation" spread, the Empress, who was the mother of the country, was prepared to visit him. However, when she thought about it, Zhu Wuyang's "self-immolation" was not very glorious.

In addition, after Zhao Fanghua took over the throne, she deliberately maintained her relationship with the princes and princesses. Therefore, after some consideration, she did not come to visit Zhu Wuyang.

Otherwise, Zhao Fanghua would definitely be able to detect Zhu Wuyang's true strength. Zhu Wuyang should be preparing for her funeral now.

Fortunately, Zhao Fanghua didn't come before, but this time, something happened to Zhu Wuyang again. The news that was released was that she was careless in her cultivation, so she injured her meridians instead of self-harming.

Considering that she didn't even come during the "self-immolation" incident, Zhu Wuan was still the Crown Prince of Jiuzhao Country. Moreover, she had just ascended the throne and had encountered disasters one after another. If she didn't come this time, it would be a little too much. After all, she was the Crown Prince's mother in name. Although Zhao Fanghua was only in her twenties, she wasn't much older than Zhu Wuan.

It was just that her arrival clearly made Zhu Wuyang a little flustered at this moment.

After a few days of bitter cultivation, coupled with the effect of the breakthrough point, the Azure Dragon Concealment had already been cultivated to the realm of great success by Zhu Wuwan. Logically speaking, it should be able to hide from the detection of a late-stage Connate martial artist.

However, Zhu Wuwan was born with all 100 meridians open, and her cultivation foundation was extremely firm. It was several times more than a martial artist of the same level. As a result, it was much more difficult for Zhu Wuwan to hide her strength.

Under such circumstances, it was still unknown whether he could escape the detection of a late-stage Connate martial artist, not to mention if the imperial guard brought by Empress Zhao Fanghua was a perfected Connate martial artist. In that case, it meant that there was a 90% chance that Zhu Wuyang would be exposed.

At the same time, Zhu Wuyang also had to consider that after meeting Empress Zhao Fanghua, she would definitely be forced by the special encounter system to give her a lot of breakthrough points. This number was at least a few thousand points.

At that time, Zhu Wuwan would have to endure the impact of the breakthrough point while hiding his strength. He had to take care of both. Otherwise, what awaited him would be a fatal disaster.

Difficult!

Difficult!

Difficult!

To be honest, this was very difficult. It was not any easier than when he faced Zhu Jinzong, the supervisor of the internal officials.

Taking a deep breath, a cold light flashed across Zhu Wuwan's face. Things had already come to this, and he couldn't change it. The only thing he could do now was to try his best to raise the level of Azure Dragon Concealment.

Previously, he had obtained many free breakthrough points. Coupled with his bitter cultivation, if he was lucky, he might be able to raise the Azure Dragon Concealment to the Perfection Realm.

Even if he couldn't complete it, if he could improve it a little more, Zhu

Wuwan's safety would be higher, and her chances of survival would be higher.

Empress Zhao Fanghua wasn't a kind person. If she discovered Zhu Wuyang's true strength, she definitely wouldn't hide it for Zhu Wuyang. At that time, what awaited Zhu Wuyang would definitely be death.

To be honest, the position of Empress was actually quite dangerous. Zhao Fanghua was already the seventh Empress of the Nine Zhao Country. The previous six Empresses were either killed by the Mad Emperor Zhu Zhenwu or killed by other concubines. Of course, most of them were killed by Zhu Zhenwu.

In order to secure her position as the Empress and not be killed by the Mad Emperor Zhu Zhenwu, Zhao Fanghua did not even dare to have a child. She was afraid that after giving birth, the Mad Emperor Zhu Zhenwu would be suspicious of her and bring about a fatal disaster.

After all, before Zhao Fanghua, there were a few empresses who became the crown prince because of their sons. When the crown prince was killed, in order to avoid the revenge of these mothers, Mad Emperor Zhu Zhenwu simply killed them as well.

Zhao Fanghua had been the empress for two years. It was not a short time. Obviously, she had her own set of life-saving techniques.

Early the next morning, the Crown Prince Palace received news that Zhao Fanghua, the empress of the Nine Zhao Nation, would be visiting Zhu Wuan in an hour. Everyone in the Crown Prince Palace immediately got ready.

Even though Zhu Wuyang had injured the meridians in her leg this time, she could only get off the bed temporarily in the face of Empress Jiu Zhao's visit.

Hearing the sound of someone singing as they slowly approached, Zhu Wuwan also became nervous. Fortunately, because the meridians in her legs were damaged, she did not have to wait at the door. She only had to wait at the door of the bedroom. Otherwise, the risk of being exposed would be much higher.

Accompanied by neat footsteps, a brilliant noble aura came from afar. In the center of the noble aura was the Empress of the Nine Zhao Country, Zhao

Fanhua.

The colorful embroidery was brilliant, like a fairy!

On her head was a golden silk bun with eight treasures and beads, a pearl hairpin with five phoenixes hanging from the sun, a red and gold dragon ring on her neck, a bean-green palace sash tied around her skirt, and a rose pendant. She was wearing a narrow red satin jacket with a hundred butterflies in gold, a five-colored silk-carved stone-green silver rat jacket, and a jadeite crepe skirt.

A pair of red phoenix eyes, two curved willow-like eyebrows, a slim figure, a coquettish physique, a pink face that did not reveal its power, and a smile that smelled like red lips.

Such a peerless beauty with unparalleled temperament, even if she read TikTok, Fast Hands, Watermelon...Even the beauty could not help but be stunned for a moment.

There was no other reason.. It was too good looking!

Chapter 47: Empress, You're Swindling Me (1)

Even if her skin was not beautiful, Zhao Fanghua was still extremely moving. It could be said that it could be broken by a blow, just like jade.

Even without any special effects, his aura was still shocking.

Dressed in luxurious palace robes and surrounded by Xiantian level servants, it added a bit of power.

Zhu Wuwan couldn't help but sigh. As expected of a woman who could become the empress of the Nine Zhao Kingdom. Just her looks alone were enough to qualify her. At least, Zhu Wuwan had never seen such a beautiful woman on Earth.

Or even if the most beautiful woman on Earth was the kind with beauty added, she was still dozens of times inferior to Zhao Fanghua. The two sides were not on the same level at all.

Zhu Wuyan could only say that the spiritual energy of heaven and earth was indeed powerful, to be able to create such a peerless beauty. freewebnovel.com

She seemed to be only in her twenties, not much older than Zhu Wuyang.

"Congratulations to the host for meeting the Empress of the Nine Zhao Country, Zhao Fanghua, for the first time in your life. You have obtained 30000 breakthrough points ..

"Congratulations to the host for being moved for the first time in his life. You have obtained 30000 breakthrough points..."

Zhu Wuyang felt as if she had been struck by lightning. She was deeply shocked by these two super-large system notifications. For a moment, she could not appreciate Zhao Fanghua's stunning beauty and hurriedly knelt down."Your son greets mother."

"If you're fine, get up quickly. Your meridians haven't recovered yet. Hurry up and lie on the bed." Zhao Fanghua hurriedly helped Zhu Wuyang up and asked someone to send him to the Xuan Bing bed to rest.

When she covered herself with the blanket, Zhu Wuyang's body trembled slightly. This made Zhao Fanghua and the others even more certain that Zhu Wuyang's injuries were not light. Otherwise, how could she be like this?

What they didn't know was that Zhu Wuyang had been struck by a strange force and not because he was injured.

"Congratulations to the host for speaking to the Empress of the Nine Zhao Kingdom for the first time in your life. You have obtained 10000 breakthrough points ..."

"Congratulations to the host for being supported by the Empress of the Nine Zhao Country, Zhao Fanghua, for the first time in your life. You have obtained 10000 breakthrough points ..."

Zhao Fanghua, the empress of the Nine Zhao Nation, was indeed a disaster. In just a short time, she had forced Zhu Wuwan to use nearly 100,000 breakthrough points from the special encounter system.

Zhu Wanhao knew in despair that he was definitely going to break through again this time. In fact, completing the Bone Marrow Refinement was not the end. He should be able to break through to the Blood Transfusion Refinement and above.

The self-harm was originally to slow down the speed of improvement and avoid cultivating in the Palace of Heavenly Purity at the same time. In the end, it brought him so much trouble. It was really self-defeating.

How many times has this been? It must be the second time!

"Congratulations to the host for overreaching yourself for the second time in your life. You have obtained 8000 breakthrough points..."

I'll go ...

Zhu Wanhao forced a smile and thanked the Empress of the Nine Zhao Country, Zhao Fanghua, for her concern for him. His gaze inadvertently swept past the two late-stage Xiantian Realm martial artists behind Zhao Fanghua, and he heaved a sigh of relief.

Fortunately, he had cultivated the Azure Dragon Concealment to perfection this morning. Otherwise, Zhu Wuwan might have been exposed in the face of such a pincer attack.

Life was really tough.

Fortunately, Zhao Fanghua did not want to stay with Zhu Wanhao for too long.

In order to avoid getting involved with any princes and princesses, Zhao Fanghua had been like this when she visited the princes and princesses for the past two years.

A set of customary procedures in the palace came down. They gave him supplements, said words of concern, and told him to rest well...Everything was perfect, and there was nothing that was out of place. Of course, there was nothing that was worth gossiping about.

They were well-behaved, orderly, neither close nor distant...Then, he left quickly and left a series of message notifications for Zhu Wuwan.

“Congratulations to the host for receiving the medicine and tonics from the Empress of the Nine Zhao Country, Zhao Fanghua, for the first time in your life. You have received 20000 breakthrough points ...”

“Congratulations to the host for being comforted and persuaded by Zhao

Fanhua, the empress of the Nine Zhao Kingdom, for the first time in your life.

You have received 10000 breakthrough points...”

As expected of the Empress of the Nine Zhao Country. In a short period of time, she had given Zhu Wuwan more than a hundred thousand breakthrough points. She was indeed terrifying.

The Empress of Nine Zhao Country was already like this, let alone the Mad Emperor Zhu Zhenwu of Nine Zhao Country. If Zhu Wuwan met the Mad Emperor Zhu Zhenwu, how many breakthrough points could she gain?

Just thinking about it made one’s heart turn cold. The position of Crown Prince was really not meant to be held by humans, especially under the circumstances of having a special encounter system. He would be forced to drink so many breakthrough points at any time. How could he live well?

This time, if it wasn’t for Zhao Fanghua’s misgivings and her superficial visit to Zhu Wuyang, which didn’t delay too much time, Zhu Wuyang would have been exposed.

After all, being attacked by so many breakthrough points was like a great river. How could Zhu Wuwan withstand it?

His current strength was only at the later stage of the Bone Marrow Refinement realm, so he could not suppress so many breakthrough points at all. Unless his strength increased, and if he increased his cultivation to a sufficient level, Zhu Wuwan would be able to absorb all the strange power transformed from so many breakthrough points without making a sound.

With Zhu Wuwan's current strength, if he had only obtained a few hundred breakthrough points, he could still hide his strength while carefully circulating the Limitless Earth Technique to absorb all of these breakthrough points. However, if he had more than a thousand points, he had to hold it in first. When there was no one else, he would circulate the Limitless Earth Technique with all his strength to absorb these breakthrough points.

In the end, it was still Zhu Wuwan's strength that was not enough, but now he did not dare to increase his strength without any restraint. It was really contradictory.

However, Zhu Wuyang did not know that the reason why Zhao Fanghua left so quickly and hurriedly went through the process of visiting was partly because Zhu Wuyang's expression was too bad, and her entire body was inadvertently trembling.

This made Zhao Fanghua and the others think that Zhu Wuyang's injuries were quite serious. They did not dare to delay too long, lest Zhu Wuyang's injuries worsened. They could not explain it clearly, so they sped up the process of visiting. They did not even check on Zhu Wuyang's strength and left in a hurry.

Otherwise, if Zhao Fanghua's late-stage Xiantian guards were to observe for a while, they might be able to find some clues. This time, it was quite dangerous.

Although he had escaped a calamity, Zhu Wuwan wasn't happy because he didn't know how much his strength would increase under the effect of such a large wave of breakthrough points..

Chapter 48: Reborn and Cleansed (1)

Faced with such a huge wave of impact from the breakthrough point, Zhu Wuyang's bone marrow was quickly honed to a small limit. This also meant that Zhu Wuyang had broken through again.

Bone Marrow Refinement Completion!

Once he fully circulated the Earth Infinity Technique, the bone marrow in Zhu Wuyang's body would become like silver jade. It looked extremely moving, and the golden bones and silver marrow complemented each other.

The tempering of his Vitality Force to this point also meant that he had reached a certain limit. If he wanted to continue breaking through, he would have to rely on the spiritual qi of heaven and earth, or rather, spiritual objects.

In layman's terms, they were Heavenly Materials and Earthly Treasures.

Warriors who had not condensed their Internal Qi seeds could not absorb the Spiritual Qi of Heaven and Earth from the outside world at all. They could only obtain some Spiritual Qi of Heaven and Earth indirectly by eating those Heavenly Materials and Earthly Treasures.

What the Blood Transfusion Refinement required was to find a suitable natural treasure. By consuming it, one could use a portion of the Heaven and Earth Spiritual Energy to combine it with the power of blood essence, allowing the power of blood essence to undergo a transformation and advance into spirit blood.

As long as the Qi and blood power in the meridians could be upgraded to Spirit Blood, it would be able to draw in the Spiritual Qi of Heaven and Earth. From there, the Inner Qi seeds would be condensed in the meridians and he would step into the next major realm.

His bone marrow had already been honed to perfection. Next, it was time for him to attempt the Blood Transfusion Refinement.

A surging, strange power surged over and enveloped Zhu Wuyang's body. It began to temper the power of blood essence.

Originally, Zhu Wuyang wanted to choose some of the natural treasures sent by Empress Zhao Fanghua to condense the power of blood and qi. However, he did not expect that a part of the breakthrough point would suddenly transform into a special kind of spiritual qi. This kind of spiritual qi completely matched Zhu Wuyang's body and could perfectly combine with the Limitless Earth Technique. It began to circulate according to the special method and technique of the Limitless Earth Technique.

His Vitality Force began to transform!

Everyone knew that the cultivation of Vitality Force was the foundation of the Body Tempering stage. The stronger the Vitality Force, the more powerful the body would be.

When the effects of Vitality Force reached its limit, it was necessary to increase Vitality Force.

Therefore, along with the transformation of his Vitality Force, the other parts of Zhu Wuwan's body also began to improve. This was a kind of overall breakthrough.

A hundred feet tall, one step further!

His skin, muscles, tendons, bones, five internal organs, and bone marrow had already reached a certain limit. With the help of his Vitality Force, he slowly began to break through his limits.

The originally superficial blood essence power, under the effect of this special spiritual energy, transformed at an extremely fast speed into a stable and thick one.

Earth Spirit Blood!

Blood essence transformation, blood exchange, rebirth, and cleansing!

With the appearance of the first wisp of Earth Spirit Blood, Zhu Wuwan felt her entire body tremble, and her entire body seemed to have become a little heavier.

At the same time, he could vaguely feel a special energy flowing in the surrounding space. This energy was called the spiritual energy of heaven and earth.

Zhu Wuwan could not think too much about it. He concentrated on circulating the Limitless Earth Technique and used his blood essence power to absorb the special spiritual energy transformed from the breakthrough point, thus undergoing a transformation.

With the first wisp of earth spirit blood, the subsequent tempering would be even easier.

Everything was difficult at the beginning. As the Limitless Earth Technique circulated, the blood and qi in Zhu Wuyang's body quickly absorbed the special spiritual energy and began to transform.

The second wisp, the third wisp, the fourth wisp... Gradually, it gathered into a spiritual mist. When about 10% of the blood essence power in Zhu Wuwan's body completed its transformation, it also meant that Zhu Wuwan's strength had entered a new stage.

Early Blood Transfusion Refinement!

Vitality was connected to every part of a martial artist's body. When Vitality underwent a transformation, the other parts of the body would naturally rise as well. This was the blood transfusion, rebirth, and marrow cleansing mentioned earlier.

When ten percent of the blood essence power transformed into the Earth Spirit
freewebnovel.com

Blood, strands of the Earth Spirit Blood began to shuttle through Zhu Wuyang's body, tempering and nourishing Zhu Wuyang's skin, muscles, tendons, and bones at a deeper level...

This kind of improvement was all-rounded, and the combined range was definitely far greater than any previous major realm. The Blood Transfusion Refinement was also the dividing line between ordinary martial artists and extraordinary martial artists in the Dongyuan Continent.

Once one could enter the Blood Transfusion Refinement and transform into Spirit Blood, it meant that there was a high possibility that a martial artist could refine an Inner Qi seed and master this extraordinary power. That was why it was called extraordinary.

However, before the Blood Transfusion Refinement, martial artists cultivated their bodies. No matter how strong they were, they were just mortal bodies.

Once a martial artist had condensed his Inner Qi, his lifespan could easily increase from fifty to seventy years old.

Ordinary people were said to be rare in their seventies. Even if the Spiritual Qi of Heaven and Earth in Dongyuan Continent could nourish ordinary people, the lifespan of those ordinary people was only over fifty years old. Even if they lived a little longer, they would only be over sixty years old. That was why there was a saying that people were rare in their seventies.

However, once they condensed their Inner Qi, martial artists could easily live past seventy years old. Just from the perspective of lifespan, they could be considered extraordinary.

Zhu Wuwan could clearly feel the transformation of his body. His body, which had already been tempered by the Flawless Dao Foundation, welcomed another wave of hammering.

Strands of dirt seeped out of Zhu Wuwan's body, scaring her into hiding in the secret cultivation room. She didn't dare to lie on the Xuan Ice Bed again, lest she ruined another bed.

Last time, he could still burn the bed, but this time, he couldn't even burn it.

Zhu Wanhao didn't want to cause another "self-immolation" because of this matter. If that happened, he would really become the laughing stock of the entire Nine Zhao Country.

Although he had already broken through to the Blood Transfusion Refinement, there were still a large number of breakthrough points in Zhu Wuwan's body that had not been digested. While the Earth Spirit Blood was cleansing his body, Zhu Wuwan's strength was still soaring rapidly.

Strands of special spiritual energy seemed to be free as they fused into the blood essence in Zhu Wuyang's body, causing the blood essence power to transform.

This special spiritual energy perfectly matched Zhu Wuyang's needs. The transformed earth blood essence was thick and stable, making Zhu Wuyang's defense stronger and his entire body stronger.

At the same time, it also had a certain concealment effect. It could be used in conjunction with the Azure Dragon to hide Zhu Wuyan's true strength. This effect was something that Zhu Wuyan had never expected.

This was equivalent to letting the perfected Azure Dragon Concealment take another step forward and become even more powerful. At this moment, not to mention a late-stage Connate martial artist, even if a perfected Connate martial artist were to investigate Zhu Wuan, Zhu Wuan was very confident that he could hide it.

Zhu Wuwan's safety level soared, and she felt much more at ease. She focused on absorbing the special spiritual energy, allowing the blood essence in her body to continuously transform and improve.

"Congratulations to the host for breaking through to the perfection of the bone marrow refinement for the first time in his life. You have obtained 5000 breakthrough points..."

"Congratulations to the host for breaking through to the early stage of the Blood Transfusion Refinement for the first time in his life. You have obtained

6000 breakthrough points..."

Chapter 49: Above Perfection (1)

The consecutive breakthroughs had brought Zhu Wuyang more than 10,000 breakthrough points. There were still quite a few hundred thousand breakthrough points that had not been used up. Now that he had obtained so many breakthrough points again, it was impossible for Zhu Wuyang's strength not to increase even if he wanted to.

As the special spiritual energy surged over, the blood essence in Zhu Wuyang's body continued to fuse and transform with the special spiritual energy, forming more and more earth spiritual blood.

The proportion of earth spirit blood in Zhu Wuyang's body was rising at a speed visible to the naked eye.

Ten percent...Eleven percent...Twelve percent...Thirteen percent...Fifteen percent...

Twenty percent...Twenty-five percent...All the way to 28%!

The strange power transformed from all the breakthrough points was finally exhausted by Zhu Wuwan. His strength had increased by at least three times compared to before Empress Zhao Fanghua came.

The transformation of nearly 30% of the power of blood essence had greatly improved Zhu Wuwan's body. This improvement was all-round, helping Zhu Wuwan effectively break through his current limit.

The preliminary cleansing was already complete. His originally perfect

Flawless Dao foundation actually improved a little with the help of this realm.

The Blood Transfusion Refinement had the effect of rebirth and cleansing, so it was normal for such a situation to occur.

However, the improvement of his Flawless Dao foundation made Zhu Wuyan understand once again that there should be no perfect Flawless Dao foundation in this world. There should only be a stronger Flawless Dao foundation.

The world was never absolute, let alone the world of cultivation.

Even if one had a Flawless Dao Foundation, as the cultivator's strength

increased, during the process of breaking through, it was inevitable that some

flaws and flaws would appear in the body, and the Flawless Dao Foundation

would be affected.

At this time, he needed to continue to make up for and perfect his Flawless Dao Foundation, making it perfect or improving it.

Empress Zhao Fanghua's arrival made Zhu Wuyang realize the dangers of the world once again. Moreover, with Zhao Fanghua's visit, she saw that even the Empress of the Nine Zhao Country had come to visit Zhu Wuyang. There would definitely be more princes, princesses, and concubines coming to visit Zhu Wuyang.

At that time, it would be impossible for Zhu Wanwan to not obtain a breakthrough point. As the saying goes, the tree desires peace, but the wind does not stop. Zhu Wanwan really did not want to break through so quickly, but the surrounding situation and the special encounter system were obviously unwilling to let Zhu Wanwan do as she wished.

It's so difficult for me!

I'm already low-key enough, honest enough, and safe enough...Ever since she transmigrated, Zhu Wuwan had been staying in her bedroom without taking a single step out. She ate, drank, and defecated here, not caring if the readers were bored or not. Of course, the possibility of any readers being able to see it was very small.

It was impossible for those idiotic book friends on Earth to transmigrate with him, nor could they have a god's perspective to observe everything he did at all times. Therefore, only Zhu Wuyang herself could understand these sufferings.

To let him like fitness, sports, swimming, and running...It was not easy for the healthy Earthlings to achieve this level.

But even so, there were still a bunch of troubles that came knocking on his door one after another. With the "help" of these troubles, Zhu Wuyang's strength could be said to be a rainbow, and the speed of improvement was terrifying.

Other martial artists needed years, decades, or even a lifetime to reach the realm, but Zhu Wuwan had already reached it in just a few days.

A seventeen-year-old martial artist at the initial stage of Blood Transfusion, and with such a strong cultivation foundation, there was probably no one in the entire Nine Zhao Country. Under normal circumstances, the geniuses of the outside world, even the peerless geniuses that only appeared once in a hundred years, would at most advance to the Bone Marrow Refinement realm at the age of seventeen. It was already very impressive, and it was even more impossible for them to have a cultivation foundation like Zhu Wanhao.

Even if these peerless prodigies had the help of heavenly treasures and spirit pills, their strength would at most be on par with Zhu Wuyan's. However, Zhu Wuyan did not consume any heavenly treasures or spirit pills at all. Of course, the time when she was drugged did not count.

With such a genius, Zhu Wuyan felt rather helpless.

"Congratulations to the host for shamelessly taking credit for the system for the second time in your life. You have obtained 222 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will be automatically used to increase the host's strength!"

The Special Encounter System was really f * cked up. Everything could be classified as a Special Encounter. How could you be so bored?

Zhu Wuan lay on the bed, thinking about what he should do next. He had already cultivated the Azure Dragon Concealment to the Perfection Realm. It could be said that there was no further progress.

In that case, he would hide in the secret training room to cultivate the Nine Dragons Fist and the Illusion God Steps to increase his combat strength and life-preservation ability. Only then would he have a greater chance of surviving.

Zhu Wuwan entered the secret training room and locked it from the inside. She began to cultivate the Nine Dragons Fist and the Illusion God Steps.

“Congratulations to the host for cultivating the Nine Dragon Fist for the second time in his life. You have obtained 400 breakthrough points...”

“Congratulations to the host for cultivating the Illusion God Steps for the second time in his life. You have obtained 400 breakthrough points...”

As expected, after cultivating for a while, Zhu Wuwan obtained nearly a thousand breakthrough points, which increased his strength and free breakthrough points.

At this moment, the number of Free Breakthrough Points that Zhu Wuyan had was already close to 20,000. However, Zhu Wuyan did not intend to add these Free Breakthrough Points to the Nine Dragon Fist and Illusion God Steps. In order to better protect his own life and hide his own strength, Zhu Wuyang was already prepared to cultivate another concealment secret technique and use it in conjunction with the Green Dragon Concealment to ensure his own safety.

The perfect stage of the Hidden Azure Dragon could logically help a martial artist in the tempered body stage to hide from the detection of a Connate perfection martial artist. However, that depended on what kind of Connate perfection martial artist it was. For a Connate perfection martial artist who had mastered a powerful detection secret skill, the possibility of Zhu Wuwan being able to hide from him was not high.

In addition, even though Zhu Wuan was a Body Tempering stage martial artist, his cultivation foundation was extremely solid. His overall strength far surpassed martial artists of the same level. It could be said that he was an anomaly among Body Tempering stage martial artists.

In addition, the Special Encounter System was always causing trouble at critical moments. Therefore, while the perfected Azure Dragon Concealment might be enough for other ordinary martial artists, it was still not enough for Zhu Wuwan.

Therefore, he still needed to cultivate a secret art of concealment to increase his concealment ability. Only then would he be able to hide from the detection of Mad Emperor Zhu Zhenwu.

After all, Zhu Zhenwu was not only the strongest in the Nine Zhao Nation, but he also had an extremely powerful secret scouting technique..

Chapter 50: The Power of a Bowl of Medicine

From the original owner's memory, Zhu Wuyang did not obtain the required concealment secret technique. Although the original owner's memory still had several concealment secret techniques, there were many peerless ones.

The original owner of this body had also cultivated a decent concealment technique. Unfortunately, these could not be used in conjunction with the Green Dragon Concealment. Therefore, Zhu Wuwan planned to search the study in the bedroom first to see if she could find the concealment technique she needed.

If he really couldn't find it, he would consider making a trip to the Imperial Palace's library, even if he had to take some risks.

After cultivating the Nine Dragons Fist and the Illusion God Steps for a few hours, Zhu Wuwan was about to go to the study to look for a suitable concealment secret technique when she heard a knock on the door.

"Your Highness, it's time for you to take your medicine!"

Zhu Wuwan's expression turned ugly. If there were no accidents, it should be the expensive medicine that Laichun and Chuxia had sent over. It had an amazing effect on repairing meridians. Of course, it also had an amazing effect on increasing the breakthrough point.

After the imperial physician sent by Mad Emperor Zhu Zhenwu checked on the damage to Zhu Wuyang's meridians yesterday, he immediately went back to concoct a medicine suitable for Zhu Wuyang. Now, it seemed that the medicine had been concocted.

He wanted to not eat it, but he was now a "patient." If he did not eat it, it would definitely arouse everyone's suspicion.

However, if he were to consume it, it would definitely bring Zhu Wuwan a large amount of breakthrough points, allowing his strength to increase by a lot. It would be even more difficult for him to hide.

Moreover, Zhu Wuan's current strength was only half a step away from the mid-stage Blood Transfusion realm. After taking these expensive medicines, he would definitely be able to advance one step further. Just thinking about it was painful. freewebnovel.com

After considering for a moment, Zhu Wuyang could only helplessly let Lai Chun and Chu Xia in and start taking the Pulse Restoring Powder specially prepared for him by the imperial physician in the palace.

The medicinal herbs that could repair the foundation of the meridians were all heavenly and earthly treasures. They were priceless outside the Imperial Palace. It was said that in order to concoct the Pulse Restoring Powder, the imperial physicians in the Imperial

Palace had used several heavenly and earthly treasures. One could imagine how shocking its value was.

After taking a mouthful, Zhu Wuyang heard a series of notifications. “Congratulations to the host for consuming the Spiritual Medicine Pulse Restoring Powder for the first time in your life. You have obtained 100000 breakthrough points...”

“Congratulations to the host for tasting the thousand-year snow lotus for the first time in his life. You have obtained 20000 breakthrough points...”

“Congratulations to the host for tasting a thousand-year-old ginseng for the first time in his life. You have obtained 20000 breakthrough points...”

This ... F * ck...It was over!

Although he had already thought that the medicine used to repair the meridians would definitely be extremely precious, Zhu Wuwan still did not expect it to be so precious. He had only taken a sip, but he had actually obtained more than 200 ,000 breakthrough points. Was this even possible?

Was the imperial palace so rich? Wasn't it just repairing a meridian? Was there a need to use so many heavenly and earthly treasures? Did they have to be so extravagant?

Zhu Wuwan felt terrible in her heart, but she could only force a smile and continue to consume the remaining Pulse Restoring Powder helplessly while enduring the waves of impact from the breakthrough point.

Zhu Wanwan felt like she had become a salted fish at this moment, being hit by the storm that the breakthrough point had turned into. Other than enduring and occasionally jumping around, there seemed to be nothing else she could do.

By the time he finished consuming this bowl of extremely precious Pulse Restoring Powder, Zhu Wuwan had already obtained more than 300 ,000 breakthrough points. The number of free breakthrough points had reached more than 30,000. One could imagine how amazing his harvest was. “Your Highness, the servants will take their leave!”

After waiting for Laichun and Chu Xia to leave with great difficulty, Zhu Wuyang immediately got into position and began to absorb the surging strange power with all his might.

Under the effect of this strange power, Zhu Wuwan's strength began to increase at an astonishing speed again.

The special spiritual energy and the power of blood essence quickly combined, which promoted the transformation of the power of blood essence. The amount of earth spiritual blood in Zhu Wuwan's body began to increase.

Twenty-eight percent...Twenty-nine percent...Thirty percent...This was already the peak of the early Blood Transfusion Refinement stage. Next, it was time to break through the bottleneck and step into the middle stage of the Blood Transfusion Refinement.

Faced with such a turbulent and strange force, this bottleneck only lasted for a moment before it was broken through. Then, the amount of earth spirit blood in Zhu Wuyang's body continued to soar.

Thirty

Forty percent...

Other martial artists needed to consume the same type of heavenly and earthly treasures many times to achieve the transformation of the Vitality Force in their bodies bit by bit. Every increase of one percent would take more than ten days, or even longer.

However, Zhu Wuwan was different. Under the effect of the breakthrough point, the transformation speed of her Vitality Force was like sitting on a rocket. No, even sitting on a rocket was not that fast.

Under normal circumstances, it would take at least three years for an ordinary martial artist to break through from the initial stage of the Blood

Transformation Realm to the middle stage of the Blood Transformation Realm. Even the peerless geniuses of the Nine Zhao Country would have to spend a lot of treasures and time. Without a few months, they would not be able to break through a small realm.

This speed was nothing compared to Zhu Wuwan.

After absorbing all the breakthrough points in this wave, the proportion of earth spirit blood in Zhu Wuan's body had already reached 59%. He was just a

little more away from breaking through the shackles of the natural chasm and entering the late-stage Blood Transfusion realm.

At the same time, with the help of more and stronger earth spirit blood, Zhu Wuwan's body received a deeper level of tempering and nourishment.

Skin, muscles, bones, five internal organs...Both of them had obtained a further improvement, which made Zhu Wuwan's overall strength soar by a large margin.

At the same time, Zhu Wuyang's talent and aptitude had also faintly improved, especially in the aspect of martial arts. The improvement was even greater.

At this moment, although Zhu Wuan was only a martial artist in the middle stage of Blood Transformation, his comprehensive strength was strong enough to dominate the Inner Qi Seed realm.

In addition, the Nine Dragon Fist and the Illusion God Steps had also been raised to a certain level by Zhu Wuwan. Although she had only cultivated it a few times, it was comparable to the cultivation of an ordinary martial artist for more than a few months.

With one main attack and one main dodge, Zhu Wuyang's combat power soared a lot. Of course, her life-preservation ability also soared.

With the help of this wave of breakthrough points, the number of free breakthrough points Zhu Wuyang had reached tens of thousands. Next, as long as he found a suitable martial art secret technique, Zhu Wuyang could rely on a

large number of breakthrough points to improve it at an extremely fast speed..
