Chapter 51 - 51: Saber Drawing Technique and Mustard Seed Secret Technique

Chapter 51: Saber Drawing Technique and Mustard Seed Secret Technique

“Congratulations to the host for breaking through to the middle stage of the Blood Transfusion Refinement for the first time in his life. You have obtained 7200 breakthrough points...”

Needless to say, after breaking through to the middle stage of the Blood Transfusion Refinement, Zhu Wuwan had obtained thousands of breakthrough points. Fortunately, this wave of breakthrough points did not increase Zhu Wuwan's strength to the late stage of the Blood Transfusion Refinement. It was only a little closer to the late stage of the Blood Transfusion Refinement.

After digesting this breakthrough, Zhu Wuwan went to the study in the bedroom and began to search for suitable martial arts secret techniques. freewebovel.com

Previously, in order to avoid obtaining more breakthrough points, Zhu Wuwan did not dare to look through the thousands of books in the study room. However, for the sake of her life, she had no choice but to look through them.

The so-called weighing the pros and cons was nothing more than this.

“Congratulations to the host for reading the top-notch secret technique, Fish and Water Concealment for the first time in his life. You have obtained 3000 breakthrough points...”

“Congratulations to the host for reading a top-notch martial art for the first time in your life. You have obtained 3000 breakthrough points...”

“Congratulations to the host for reading the peerless martial art for the first time in his life. You have obtained 6000 breakthrough points...”

As expected of the Crown Prince's study. The lowest level of all kinds of martial arts and secret arts in it were top-notch, and there was nothing below top-notch. It really made Zhu Wuwan teary. He had gained too many breakthrough points.

I just took a few glances at it to get a general understanding of it. There's no need to give me so many breakthrough points. Special Encounter System, you're really too enthusiastic.

Zhu Wanhao's scalp went numb as she flipped through the books on concealment martial arts and secret techniques. Her gaze inadvertently fell on a peerless martial art.

Saber Drawing Technique!

The so-called Sword Drawing Skill, as its name implied, was a sword drawing attack. It sounded simple and did not have the aura of a peerless martial art at all, but in truth, it was indeed a peerless martial art.

Rather than calling it a saber drawing technique, it was more like a saber nurturing technique.

Ten years of nurturing a saber, just for one day!

This peerless martial art mainly allowed the cultivator to nurture a saber and condense its power and aura. When the day came that the saber was needed, it would be able to cut through everything.

It was said that a thousand years ago, there was a member of the Zhu Royal Family who had cultivated his saber for thirty years. One day, he was besieged by powerful enemies. After removing his saber, he instantly killed eighteen peerless experts at the peak of the Connate Realm, establishing his invincible reputation.

From this, one could see how powerful the Saber Drawing Technique was. Even if it needed to be nurtured for many days before it could erupt with enough power, it could still make countless people chase after it.

However, many princes and princesses who cultivated the Sword Drawing Skill soon discovered that it was too difficult to cultivate. Nurturing the power of a long sword was not as simple as it seemed. Not only did it require a lot of energy and time, but it also required sufficient talent and comprehension.

Otherwise, not only would he not be able to nurture the power of the long saber, but it would also cause the long saber to be damaged. The power would not be nurtured, and his weapon would be crippled instead.

It was difficult to enter the sect, difficult to cultivate, and time-consuming...The combination of all these made the saber drawing technique an unpopular martial art like the Green Dragon Concealment. Basically, no one would cultivate it.

At least according to the original owner's memory, no one in the Zhu royal family had cultivated the sword drawing skill for hundreds of years. The last person who had cultivated the sword drawing skill was 500 years ago.

However, for Zhu Wuwan, who was extremely talented and had an amazing comprehension ability, this saber drawing technique that was neglected by others was just right for him to cultivate.

Although this peerless martial art required a lot of time to nurture the long saber, Zhu Wuyang had the breakthrough point in hand, which could easily save countless times. Moreover, when needed, he could inject the breakthrough point into it and unleash an earth-shattering attack, allowing Zhu Wuyang to kill enemies several realms above him.

Perhaps with the help of this peerless martial art, as long as Zhu Wuwan could enter the early-stage Connate Realm, she would be able to kill peerless experts at the peak Connate Realm.

The saber drawing technique that was extremely difficult for others was actually not difficult for Zhu Wuyang.

In that case, he could cultivate another life-saving martial art.

After a moment of consideration, Zhu Wuwan took out the Sword Drawing Skill and prepared to cultivate it hard.

Before he could find the secret martial arts technique that hid his strength, Zhu Wuwan had already obtained a powerful trump card in the future.

He continued to search. Half an hour later, Zhu Wuyang picked the concealment secret technique he wanted.

Mustard Seed Secret Technique!

Peerless secret techniques could allow a martial artist to temporarily hide their strength in one spot. This spot was like a mustard seed, very difficult to be discovered by the enemy, and thus effectively hide their strength.

Most importantly, the Mustard Seed Secret Technique could be used in conjunction with the Azure Dragon Concealment. The two complemented each other, thus preventing anyone from detecting Zhu Wuyang's true strength.

If Zhu Wanhao could cultivate the Green Dragon Concealment and Mustard Seed Secret Technique to the Perfection Realm, even if he was only an early-stage Skin Refinement Realm martial artist, he could easily hide from the detection of a peerless expert at the Perfection Realm of the Connate Realm.

Moreover, the Mustard Seed Secret Technique could help Zhu Wuyang gather the excess power of natural treasures in his body for a short period of time and release it after a period of time. This was clearly a divine weapon to deal with the breakthrough point.

If the special encounter system acted up at a critical moment, Zhu Wuwan could temporarily gather the crazy strange power and wait for a remote and uninhabited place to absorb it to increase his strength.

The higher the level of the Mustard Seed Secret Skill, the more strange power it could gather, and the stronger the ability to hide a martial artist's strength.

Therefore, Zhu Wuan was prepared to test the power of the Mustard Seed

Secret Skill first. The breakthrough points required to advance the Mustard Seed Secret Skill to the Beginner level were not many. A few hundred points should be enough.

Even if there was no breakthrough point, with Zhu Wuyang's talent and aptitude, it would only take a few hours at most to cultivate it to the entry level.

However, before upgrading the Mustard Seed Secret Skill, Zhu Wuyang still had one more thing to do. After all, he had flipped through so many top-notch secret skills in such a short period of time and obtained a large number of breakthrough points.

The number of breakthrough points was enough for Zhu Wuyang to advance her strength to the late-stage of the Blood Transfusion Refinement.

He could not be bothered to cultivate the Mustard Seed Secret Technique and the Saber Drawing Technique. Zhu Wuwan sat cross-legged in the secret cultivation room and began to digest the large wave of breakthrough points he had just obtained, once again increasing his strength at an extremely fast speed.

With the help of the abundant breakthrough points, Zhu Wuwan's strength increased extremely quickly, especially the proportion of the Earth Spirit Blood in his body, which increased even faster. 59%...59..5%...Sixty percent...

Chapter 52: Divine Blade Ascending the Heavens (1)

After a short pause and accumulation, the proportion of the Earth Spirit Blood in Zhu Wuyan's body increased again.

60.1%!

Although it was only a thousandth of an increase, it also meant that Zhu Wuwan's strength had broken through the bottleneck and advanced to a new realm.

Late Blood Transfusion Refinement!

The proportion of the Earth Spirit Blood in Zhu Wuyan's body was completely overwhelming. It increased Zhu Wuyan's various qualities at an even faster rate, causing Zhu Wuyan's attack power, defense power, and agility...They were all soaring.

Moreover, the Earth Spirit Blood was vigorous and vast, and there were not many impurities. It could also assist in concealing Zhu Wuyan's strength according to Zhu Wuyan's current situation. Therefore, it had an extremely shocking effect in increasing Zhu Wuyan's defense and strength.

Although the improvement in concealment was not as good as defense and strength, it could not be underestimated. It was comparable to many top-notch martial arts that specialized in improving concealment.

"Congratulations to the host for breaking through to the later stage of the

Blood Transfusion Refinement for the first time in his life. You have obtained 8000 breakthrough points. Due to the importance of strength, 90% of the breakthrough points will automatically be used to increase the host's strength!"

With the addition of another wave of breakthrough points, Zhu Wuwan's strength increased even faster. After breaking through the bottleneck, the proportion of earth spirit blood in Zhu Wuwan's blood essence soared.

61%...62%...63%...65%...Sixty-eight percent...

All the way to 72%!

Not only had Zhu Wanwan completely stabilized her strength at the late-stage of the Blood Transfusion Refinement, but she had also advanced by a large margin. She was only 18% away from breaking through another layer of shackles and advancing to become a martial artist at the perfected Blood Transfusion.

More and stronger earth spirit blood naturally brought Zhu Wuwan greater improvement and transformation, causing his overall strength to soar, and his combat strength to multiply several times.

By the time he had absorbed all the breakthrough points that had been forcefully poured in, Zhu Wuwan was already quite tired. It was not physical fatigue, but mental fatigue.

He had been hoping that his cultivation realm would increase a little slower, but unfortunately, the Special Encounter System was like a rough man, carrying the weak Zhu Wuyang and rushing forward, not giving her any time to rest.

Just like that, Zhu Wuwan was powerless against the brutal treatment of the special encounter system. She advanced at an astonishing speed. In just a day or so, she had advanced several realms, including a major realm.

Such speed was simply heartbreaking.

If Mad Emperor Zhu Zhenwu found out about this, he would probably go crazy from jealousy. He would definitely not let Zhu Wuyang live for more than two hours.

After all, according to Zhu Wuyan's current speed of improvement, in less than a year and a half, Zhu Wuyan would probably be able to have the combat strength to compete with Mad Emperor Zhu Zhenwu.

At that time, there would definitely be many rich and powerful people supporting Zhu Wuyan. Even many princes, princesses, and concubines would betray him. What awaited Mad Emperor Zhu Zhenwu would definitely not be a good ending.

Regrettably, Zhu Wuwan did not dare to let go of his improvement. According to his current progress, he had already suppressed it enough. Moreover, his improvement was so fast that even the peerless secret skill, Azure Dragon Concealment, was not enough.

If Zhu Wuyang continued to deliberately improve, his true strength would probably be discovered very soon, and what awaited Zhu Wuyang would definitely not be a good ending.

After absorbing all the breakthrough points, Zhu Wuwan began to cultivate the Mustard Seed Secret Skill. Now that his strength was increasing faster and faster, he was naturally getting stronger and stronger. If he did not improve the Mustard Seed Secret Skill, when the effect of the Azure Dragon Concealment was not as good, Zhu Wuwan would be finished.

Under the effect of the breakthrough point, it only took a few minutes for Zhu

Wuwan to cultivate the Mustard Secret Technique, a peerless secret technique. If it was used together with the Azure Dragon Concealment, it could completely hide from the detection of a peerless expert at the peak of the Connate Realm.

However, if Zhu Wuyang was attacked by another breakthrough point during this period of time, the possibility of hiding from it would plummet. Moreover, the Mustard Seed Secret Technique could only allow Zhu Wuyang to temporarily suppress the strange power formed by thousands of breakthrough points.

Zhu Wuyang still needed to continue improving the Mustard Secret Technique. With his top talent and the power of the magical breakthrough point, the combination of the two would unleash an astonishing power, allowing Zhu Wuyang's attainments in the Mustard Secret Technique to soar.

After spending another 10,000 breakthrough points, Zhu Wuwan successfully raised the Mustard Seed Secret Technique to the Small Success Realm. She was able to suppress and store the strange power formed by tens of thousands of breakthrough points.

Moreover, as Zhu Wuwan's strength increased, the amount of strange power that could be suppressed and stored would also increase. This could also be considered an alternative type of growth.

After the Mustard Seed Secret Technique was completed, Zhu Wuwan finally heaved a sigh of relief. Even if she were to encounter a peerless expert at the peak of the Connate Realm, Zhu Wuwan would only have a 90% chance of hiding from him.

Since that was the case, he would first cultivate the rudimentary saber drawing technique.

However, before cultivating the Saber Drawing Art, one still needed to choose a treasured saber. There was one in the secret cultivation room. When Zhu Wuwan was cultivating the Nine Dragon Fist and the Illusion God Steps inside, she saw that there were many weapons inside. There were no lack of sabers, spears, sticks, and so on. Clearly, they were treasures left behind by the previous crown princes.

Although it was impossible for there to be any divine weapons inside, it was still a weapon collected by the previous crown princes, so it should not be too bad.

There were naturally powerful treasured swords and sabers in the treasure vault of the imperial palace, but there were also a large number of peerless experts guarding it. Zhu Wuwan felt that for the sake of her own safety, it was better not to go there to choose divine weapons for the time being. Doing so would easily arouse the suspicion of others.

Even if the swords and sabers in the secret training room were a little inferior, it was not to the extent that they could not be used. The Sword Drawing Skill did not have that high a requirement for weapons, so it was enough for the time being.

At the thought of this, Zhu Wuwan entered the practice room and began to choose a suitable treasured saber.

However, what Zhu Wuwan did not expect was that he casually took out a long saber. When he opened it, it was actually a high-level weapon. In the martial arts world, it could already be called a quasi-divine weapon.

There were seven long sabers in the secret training room. Five of them were quasi-divine weapons, which were also the lowest level sabers. The other two were divine weapons in the pugilistic world. It was easy to blow one's hair.

Was the Crown Prince's Palace that wealthy? Or was it just that the imperial family of the Nine Zhao Nation was so wealthy?

Zhu Wuwan was also rather shocked, so she chose one of the strongest treasured sabers as a weapon to practice the saber drawing technique. This treasured saber was called.

Heavenly Cloud Saber!

The reason why it had such a name was mainly because the body of the Heavenly Cloud Saber was blue. Once the saber was swung with all its strength, the surroundings would seem to have entered a blue sky. It was psychedelic and beautiful, causing the enemy to be beheaded unknowingly.

That was why it had such a name!

Chapter 53: Scared To Sleep With A Knife (1)

After choosing a suitable saber, Zhu Wuyang carried the Heavenly Cloud Saber with him and began to circulate the secret of nurturing the saber in the Saber Drawing Art.

After cultivating for a while, Zhu Wuwan realized that it was indeed quite difficult to get started with this saber drawing technique. Even with his talent, it would take him at least a few hours to get started.

After considering for a moment, Zhu Wuwan decided to spend a few hundred Free Breakthrough Points to learn the basic level of the Sword Drawing

Technique as quickly as possible. Only then could he start nurturing his sword.

If anyone else knew what Zhu Wuan was thinking, they would probably spit on him. It should be known that in the history of the Zhu royal family, even the most talented princes and princesses had spent several months to learn the art of drawing swords.

Even though he was already known as a prodigy, Zhu Wuwan felt that a few hours was too long. Was there any justice in this?

After spending a few hundred breakthrough points, coupled with his extremely strong talent and comprehension, Zhu Wuwan quickly learned the basic level of the saber drawing technique and began to carry it with him to nurture the saber.

After resting for a while, she heard a knock on the door. It was time to eat.

Zhu Wuwan shook his head. He walked towards the study with some anticipation and some pain. Although the delicacies in the palace were quite delicious, it would be even better if it didn't bring him a breakthrough point. In order to nurture the saber better, Zhu Wuyang brought the Heavenly Cloud

Saber with her even when she was eating.

Zhu Wuyang was not worried that others would speculate that he was cultivating the Sword Drawing Skill. After all, everyone in the palace knew of Zhu Wuyang's talent and aptitude. It was impossible for him to master the Sword Drawing Skill.

It had been hundreds of years since anyone in the Zhu royal family had mastered the art of drawing a saber, let alone a "cowardly and incompetent idiot like Zhu Wuan. Even if they saw that Zhu Wuan's movements looked like he was nurturing a saber, no one would suspect that he had mastered the art of drawing a saber and was really nurturing a saber.

Many people in the Zhu royal family had even forgotten that the royal family had such a peerless secret skill. After all, it had been too long since any prince or princess had cultivated this peerless secret skill.

Therefore, when Laichun and Chuxia entered the Crown Prince's bedroom and saw Zhu Wuyang carrying the Supreme Cloud Saber with him, they didn't realize that Zhu Wuyang was practicing the Saber Drawing Skill.

"Your Highness, it's time to eat. Do you want to put your saber aside so that it won't affect your meal?"

"This saber looks pretty good. It should be a divine weapon."

Looking at the curious looks of the two maids, Zhu Wuyang said indifferently, "No need. This King found this saber in the secret training room. It seems to suit This King's taste. In the future, This King will carry it with him to avoid being harmed by the evil spirits and clowns again."

Err ...

Lai Chun and Chu Xia looked at each other, and a strange look flashed across their bright eyes. If the enemy wanted to poison you, it would be useless even if you had a powerful saber.

Not to mention carrying it with you, even if you held it in your hand for 24 hours, it wouldn't be of much use. Moreover, Your Highness, you don't even know how to use a saber.

However, when they thought about how Zhu Wuwan was afraid of being drugged, which was why she did such an outrageous thing, Laichun and Chuxia understood a little.

“Congratulations to the host for tasting the Hundred Birds Paying Homage to the Phoenix Soup for the first time in his life. You have obtained 3000 breakthrough points...”

“Congratulations to the host for tasting medicine for the first time in his life. You have obtained 3000 breakthrough points...”

“Congratulations to the host for tasting the stewed blood mushroom for the first time in his life. You have obtained 3000 breakthrough points...”

What made Zhu Wanhao feel rather helpless was that because they knew that his meridians were “damaged”, the dishes cooked by the imperial chefs in the palace were all expensive nourishing foods. Every food used expensive medicinal herbs, which naturally led to Zhu Wanhao obtaining more breakthroughs.

Not only that, but the medicinal effects of these nourishing foods were also extremely good. They could also increase Zhu Wuwan’s strength. It could be said to be a two-pronged approach.

Zhu Wuwan had never expected that his “self-harming” action would yield so many breakthroughs and increase his strength so much. If he had known this would happen, he would have thought of other ways to avoid his homework instead of using this method.

It wasn’t easy for him to endure this painful meal. Although Zhu Wuwan didn’t want to eat these nourishing medicinal dishes, he had already eaten the delicacies of the palace for several days. Every time, he would finish them clean. If he suddenly stopped eating, it would inevitably arouse suspicion.

Not to mention that people were made of steel. If he did not eat once, he would be hungry. Even if he did not eat this meal, he would still have to eat the next meal. Moreover, if news of his hunger strike spread in the Crown Prince’s palace, it would definitely attract the attention of Mad Emperor Zhu Zhenwu, many princes, princesses, and concubines. At that time, it would be even more difficult for Zhu Wuwan to hide his strength.

Therefore, this sumptuous medicinal cuisine was something that Zhu Wuyang had to eat no matter what. However, after eating it, Zhu Wuyang suddenly realized that even the imperial medicinal cuisine was actually...

How fragrant!

As expected of the royal chef. In addition, the ingredients in this world were really good. With the nourishment of the spiritual qi of heaven and earth, it was impossible for the quality of many ingredients to be bad.

In any case, Zhu Wuyang ate heartily. The table full of medicinal dishes was swept clean by him alone, and there was basically nothing left.

However, Zhu Wanhao had been wearing the Supreme Cloud Saber on her body during the meal, so Laichun and Chuxia would pay attention to her from time to time. Occasionally, they would make eye contact, and no one knew what they were thinking.

Zhu Wuwan had been wearing the Supreme Cloud Saber the entire day. Even when it was time to sleep at night, Zhu Wuwan would still hug the Supreme Cloud Saber to sleep.

The eunuchs, serving girls, and guards in the Crown Prince's palace soon learned of this action, and the news spread quickly.

"I heard that the Crown Prince was frightened by the poisoning two days ago. He found a long saber in the secret training room and carried it with him. He carried it with him when he walked, when he cultivated, and when he ate...Even when he was sleeping, he was hugging him in his arms and trembling in fear. He's really cowardly and incompetent. It's not like he's poisoned. A little tonic can scare him to this extent. It's simply ridiculous."

' Before Zhu Wuyang became the Crown Prince, she was already very timid. Moreover, now that she's in the position of the Crown Prince, she's definitely going to die. It's normal for her to do something like this. It's just that our Zhu royal family has another laughing stock. I wonder what it'll be like when it reaches the people, hehe. '

" Who cares? We're not a laughing stock anyway. However, Zhu Wuwan really has a lot of tricks up her sleeves. Ever since she became the Crown Prince, she's either self-immolated or self-mutilated. Now, she wants to rely on a broken saber to protect herself. Water must have entered her brain. No wonder she was pushed to the position of the Crown Prince, where she would definitely die.

Chapter 54: I Don't Want to Go to School Anymore (1)

"Congratulations to the host for misleading everyone for the first time in his life. You have obtained 60000 breakthrough points..."

Just as Zhu Wuan had expected, when the news of him hugging his saber to sleep " scared " was spread, it immediately caused a stir in the Imperial Palace. He became the laughing stock of all the princes, princesses, and concubines.

Cowardly, incompetent, cowardly, stupid ... These negative words were like a storm that bombarded Zhu Wuwan.

This matter was still spreading throughout the entire Nine Zhao Country at an extremely fast speed. The news that Zhu Wuwan, this weakling prince, had become the Crown Prince had already caused a sensation in the entire Nine Zhao Country.

As news of Zhu Wuwan's daily actions spread, the people of Jiu Zhao knew that the new Crown Prince was an idiot. Now that he had become the Crown Prince, he had done a few sensational things in a row and immediately became the laughing stock of Jiu Zhao.

It was said that in the following days of court meetings, many dignitaries impeached Zhu Wuwan, hoping to change the Crown Prince so that the Nine

Zhao Nation would not become the laughing stock of the many dynasties in the Southern Wasteland.

Regrettably, these impediments were all refuted. Before Mad Emperor Zhu Zhenwu could speak, many supporters behind the princes and princesses jumped out to oppose. After all, they had contributed a lot to the rise of Zhu Wuwan, the shield. How could they let him step down so easily?

Zhu Wanhao was quite disappointed. If he could really abdicate, Zhu Wanhao would not be the focus of so many people. At that time, he could cultivate and improve in peace and would not encounter too much danger.

Now, not only was it not destroyed, but it was also going to be whipped by waves of breakthrough points.

Under the effect of these breakthrough points, the proportion of earth spirit blood in Zhu Wuyang's body continued to rise.

percent...

Eighty-two percent...Eighty-three percent...Eighty-six percent!

In a short period of time, Zhu Wuwan's strength had soared by a large margin. She was only four percent away from breaking through the bottleneck of the perfected Blood Transfusion.

Once he advanced to the perfected Blood Transfusion, he would be very close to the next major realm. After all, from the perfected Blood Transfusion to condensing the Inner Qi seed, only ten percent of the Earth Spirit Blood needed to transform.

Along with the transformation of the power of blood essence, the Earth Spirit Blood naturally allowed Zhu Wuyan's body to undergo a deeper transformation, becoming stronger and more promising.

After experiencing this storm, Zhu Wuyang was forced to feed a large number of breakthrough points, but it also made others no longer suspect that he carried the Supreme Cloud Saber with him. This way, Zhu Wuyang could rest in peace and nurture the saber, just so that he could suddenly unsheathe it at the moment of need and erupt with earth-shattering power.

On the second day, Tian Wanquan was about to hide in the secret training room to practice the Nine Dragon Fist and the Illusion God Steps to increase his ability to save his life and escape when he received news from Wei Ancai, the chief eunuch. He said that Chen Diandou, the assistant minister of the Ministry of Rites who was in charge of teaching Zhu Wanquan, would arrive soon and told Zhu Wanquan to prepare himself.

Zhu Wanhao was a little confused. After asking in detail, he realized that Mad Emperor Zhu Zhenwu might have felt that it was not a problem for him to lie in his bedroom every day. As the crown prince of the Nine Zhao Nation, he could not be so dispirited.

In addition, the incident of "sleeping with a saber" had caused a stir in the court and made Zhu Wuyang a laughingstock in Jiuzhao Country. Therefore, it was decided to let Zhu Wuyang study in advance.

Since Zhu Wanhao was unwell and could not go to the Palace of Heavenly Purity to study, he would let the Crown Prince's Grand Tutor come to his bedroom to teach. He only needed to sit on the bed and study hard.

This .

Zhu Wuwan was a little dumbfounded. Although it was much safer than going to the Palace of Heavenly Purity, the chances of being exposed were also much higher.

After all, every person who could become the Crown Prince's Grand Tutor was at least a great expert above the Xiantian Realm and had mastered extremely powerful detection techniques.

Most importantly, they were all the trusted aides of Mad Emperor Zhu Zhenwu. They were responsible for monitoring the Crown Prince and the other princes and princesses on Zhu Zhenwu's behalf. If there was anything unusual about the Crown Prince and the other princes and princesses, these Grand Tutor of the Crown Prince would report it to Mad Emperor Zhu Zhenwu immediately.

After that, Mad Emperor Zhu Zhenwu would conduct a thorough investigation of the Crown Prince and the princes and princesses. Once the investigation was confirmed,

the Crown Prince and some of the princes and princesses might threaten Mad Emperor Zhu Zhenwu's throne. What awaited them was death.

Zhu Wuwan had not expected that this farce of "sleeping while hugging a saber" would allow him to nurture his saber openly, but there would actually be such a side effect.

'Are those rich and powerful people and ordinary people all idiots? Can't they see that I'm pretending? If I reveal my true talent, I'll scare you idiots to death.'

It was just that in this situation, he could only hide his strength and did not dare to expose it easily.

Zhu Wuyang was in despair. She wanted to reject him, but the Assistant Minister of Rites, Chen Diandou, would be arriving soon. This was the order of the Mad Emperor, Zhu Zhenwu. Just like many times before, Zhu Wuyang couldn't reject him at all.

Zhu Wuyan could only sigh. Life was like being forced. Since she couldn't resist, she could only enjoy it.

Cough cough!

This was f * cking..

Chen Diandou soon arrived. He was a very well-behaved official in the court. His clothes were neat, his hair was neat, and his every move was neat. There was no overstepping the boundaries, giving people the feeling of a pedantic old teacher.

However, this person was the second-in-command of the Ministry of Rites of the Nine Zhao Nation. He wielded astonishing power and was a great master of the early stage of the Connate Realm. He was only one step away from the middle stage of the Connate Realm. He also mastered several powerful martial arts secret skills. Even many warriors of the middle stage of the Connate Realm were no match for him.

Chen Diandou could be said to be a first-class expert in Jianghu.

What made Zhu Wanhao's heart palpitate the most was his identity. He was the trusted aide of the Mad Emperor, Zhu Zhenwu, and he monitored all the princes and princesses. He was also the crown prince's tutor and had a certain amount of power to deal with Zhu Wanhao.

As soon as they entered the bedchamber, Chen Diandou taught Zhu Wuwan to stand properly and sit properly. Since the meridians in Zhu Wuwan's legs were damaged and she was unable to study normally, she had to sit properly on the bed. According to the etiquette of the Nine Zhao Kingdom, there must not be the slightest mistake.

This made Zhu Wuyan's scalp tingle, so he could only do as he was told. After all, this guy's strength was far superior to Zhu Wuyan's. If Zhu Wuyan did not do as he was told, Chen Diandou, as the Crown Prince's Grand Tutor, would dare to "beat him up

Chen Diandou had spent an hour just teaching Zhu Wuwan how to sit on the bed. All kinds of etiquette regulations came like water, making Zhu Wuwan dizzy. The bombardment of the Special Encounter System even hit him when he was down, afraid that Zhu Wuwan would improve too slowly and push him down the path of death..

Chapter 55: Complete Transformation

"Congratulations to the host for meeting the Minister of Rites of the Nine Zhao Kingdom, Chen Diandou, for the first time in his life. You have received 3000 breakthrough points...

"Congratulations to the host for being carefully examined by Chen Diandou, the assistant minister of the Ministry of Rites of the Nine Zhao Kingdom, for the first time in his life ...

"Congratulations to the host for learning the etiquette of the Nine Zhao Kingdom for the first time in his life. You have obtained 20000 breakthrough points ..."

The series of system notifications was like a storm, quickly drowning Zhu Wuyang. Just by seeing Chen Diandou and exchanging a few words with him, Zhu Wuyang had obtained more than 10,000 breakthrough points from him.

After that, Zhu Wuyang would be able to obtain a portion of breakthrough points for every knowledge point he learned about etiquette. Although the number was not much, the number of times he learned it was too many. Together, it was also an astonishing number.

In just over two hours, Zhu Wuyang had obtained tens of thousands of breakthrough points from Chen Diandou. If Zhu Wuyang had not just cultivated the Mustard Seed Secret Technique to the Small Success Realm and was able to suppress the restless strange power in a short period of time, Zhu Wuyang would have been exposed.

In addition, Chen Diandou's strength was limited, so he could not keep using the probing technique on Zhu Wuyan. This was why Zhu Wuyan was not exposed.

However, from the message notification, Zhu Wuyan could sense Chen Diandou's malice towards him. Other than the fact that Chen Diandou had conducted a comprehensive investigation of Zhu Wuyan when he first entered, Chen Diandou had also carefully investigated Zhu Wuyan when the lesson was nearing the end. He was

only relieved when he confirmed that Zhu Wuyan was indeed only at the perfected Golden Bone Refinement realm.

The last time he checked Zhu Wuyan's strength, Zhu Wuyan almost couldn't suppress the violent strange power and was discovered by Chen Diandou.

Fortunately, the Mustard Seed Secret Technique and the Green Dragon Concealment were very effective. This allowed Zhu Wuwan to barely suppress the aura leaking out and successfully escape the disaster.

After waiting for Chen Diandou to leave, Zhu Wuyang collapsed heavily on the bed. However, before he could relax, he heard Chen Diandou's voice coming from outside. "Your Highness the Crown Prince, there will be a teacher giving you a daily test at night. I hope that Your Highness the Crown Prince will study hard and not get a bad grade. '

"Assistant Minister Chen, don't worry. This Prince understands." Zhu Wuwan nodded weakly. It seemed that there was another obstacle to overcome tonight. Hopefully, the person who came to test him was not too strong. It would be best if he did not master a powerful detection technique. Otherwise, Zhu Wuwan would be in danger.

However, to be on the safe side, Zhu Wuwan was prepared to use the Free Breakthrough Point to advance the Mustard Seed Secret Technique to another realm after absorbing this wave of breakthrough points. This would be safer.

"Sigh..."

He sighed and felt the breakthrough points rolling towards him. Zhu Wuwan knew that after absorbing this wave of breakthrough points, his strength should break through again.

The remaining Qi and blood power combined with the strange power formed by the breakthrough point at an extremely fast speed, and thus underwent a transformation. This scene, which was extremely exciting for other martial artists, was extremely uncomfortable for Zhu Wuyang.

Although the feeling of increasing one's strength was very refreshing and comfortable, it was nothing compared to losing one's life.

Regrettably, Zhu Wuwan couldn't stop this feeling. He could only let the breakthrough point drive his strength to continuously increase, increase, and increase!

Eighty-six percent...Eighty-seven percent...Eighty-eight percent...Eighty-nine percent...All the way to 90%!

The proportion of the Earth Spirit Blood in Zhu Wuwan's body kept soaring, and soon it reached the critical point of 90%. Next, he only needed to break through the bottleneck

and improve a little more. Zhu Wuwan's strength would be able to break through to the perfected Blood Transfusion.

Even though Zhu Wuwan had been cheering on the bottleneck, hoping that it could last a little longer so that Zhu Wuwan would not break through again, it was a pity that this bottleneck was not up to expectations at all. It only lasted for a few minutes before it was broken by the surging strange power, and the proportion of the earth spirit blood in Zhu Wuwan's body increased by a little.

90.1%! freewebnove[.cm

It was this 0.1% increase that allowed Zhu Wuwan's strength to break through the barrier of the dam and step into a new realm.

Blood Transfusion Refinement completed!

In the last stage of the Blood Transfusion Realm, the next step was to condense the Inner Qi seed and break through an unprecedented obstacle to advance to the Inner Qi seed realm.

With Zhu Wuyan's speed of improvement, it was not difficult to reach this realm. After all, Zhu Wuyan should be drinking medicine again today.

It was still the Pulse Restoring Powder, mixed with all kinds of heavenly and earthly treasures. It could still bring a lot of breakthrough points to Zhu Wuwan.

"Congratulations to the host for consuming the Spiritual Medicine Pulse Restoring Powder for the second time in your life. You have obtained 80000 breakthrough points..."

"Congratulations to the host for tasting the Millennium Snow Lotus for the second time in his life. You have obtained 16000 breakthrough points..."

A familiar smell, a familiar medicinal effect, a familiar system notification ... After drinking this bowl of Pulse Restoring Powder, Zhu Wuwan obtained nearly 200,000 breakthrough points. The Mustard Seed Secret Technique could not suppress the eruption of the breakthrough points at all.

As soon as Lai Chun and Chu Xia left, Zhu Wuyang immediately found a good position and began to absorb the strange power that was rolling over with all his might, increasing his strength at an astonishing speed.

The proportion of the earth spirit blood in his body was soaring at a rapid speed.

Ninety-one percent...Ninety-three percent...Ninety-five percent...Ninety-seven percent... 99

In the blink of an eye, the proportion of the Earth Spirit Blood in Zhu Wuyan's body had already reached 99%. He was only one percent away from completing it.

The next step was to use the power of the spirit blood to sense the spiritual energy of heaven and earth in the outside world. From there, he would absorb it into his body and combine it with the power of the spirit blood to form an inner Qi seed and master this extraordinary power.

The tiny one percent did not stop Zhu Wuyan for a moment. Soon, all the blood essence in Zhu Wuyan's body was transformed into the Earth Spirit Blood.

Along with the complete transformation of his blood essence, Zhu Wuyang's body also welcomed the last wave of rebirth and bone marrow transformation. This was also the most intense wave.

Zhu Wuyang could clearly feel the skin, muscles, bones, internal organs, and bone marrow... That kind of increase made him shocked.

The accumulation of power broke through the last shackle, achieving a comprehensive transformation and improvement of martial artists..

Chapter 56: Shocking Step by Step (1)

The Book of Changes and Marrow Cleansing!

Reborn!

After the final upgrade in Zhu Wuyan's body, Zhu Wuyan's strength had increased in all aspects. It had more than doubled compared to before.

One had to know that Zhu Wanhao had yet to break through the bottleneck, yet she was able to obtain such an improvement. From this, one could also see what kind of benefits this transformation of the marrow could bring to martial artists.

With just a raise of his hand, Zhu Wuwan already possessed a force of more than 100,000 pounds. He was a humanoid beast. If he was on Earth, he would be comparable to those large machines.

A strong cultivation foundation, unparalleled talent, and superb martial arts... Under the layers of stacking, Zhu Wuyang had combat strength that far exceeded those of the same level.

At this moment, even if one's Inner Qi had already reached a sufficiently high realm, a martial artist close to the Earth Pass Realm would not be able to withstand a few hits

from Zhu Wuyang. Zhu Wuyang would forcefully break through their defenses and beat them up until their parents could not recognize them.

Only the experts in the Earth Pass Realm could compete with Zhu Wuan.

However, there were still many breakthrough points in Zhu Wuwan's body that had not been digested. The strange power that they had transformed into was still surging over, continuing to increase the Earth Spirit Blood in Zhu Wuwan's body, making them stronger and stronger.

Spirit blood connected every part of a martial artist's body. Therefore, the stronger the power of the earth spirit blood, the stronger the transformation it could bring to a martial artist. Moreover, this transformation and improvement had no flaws or blind spots.

When the Earth Spirit Blood was raised to a certain level, it could help warriors sense the surrounding Heaven and Earth Spiritual Qi, and then condense and fuse these Heaven and Earth Spiritual Qi, turning it into Inner Qi.

Fortunately, this breakthrough point did not allow Zhu Wuwan to successfully condense an Inner Qi seed and step into the next major realm. If that were the case, it would be even more difficult for Zhu Wuwan to hide her strength.

The two breakthroughs naturally brought Zhu Wuwan more than 10,000 breakthrough points as a reward. Zhu Wuwan also used it to improve the Earth Spirit Blood. Looking at the free breakthrough points she currently had, she still had tens of thousands.

After considering for a moment, Zhu Wuwan sat cross-legged and added the breakthrough point to the Mustard Seed Secret Skill at an extremely fast speed. The Mustard Seed Secret Skill that Zhu Wuwan had mastered began to advance rapidly.

With so many free breakthrough points, if nothing unexpected happened, he should be able to raise the Mustard Secret Technique to the realm of great success.

At that time, with Zhu Wuyang's current strength, he could completely suppress the breakthrough point of more than 100,000 points and temporarily prevent it from being effective. This would undoubtedly make Zhu Wuyang safer.

"Congratulations to the host for raising the Peerless Secret Technique Mustard Seed Secret Technique to the Mastery Realm for the first time in his life. You have obtained 30000 breakthrough points..."

As expected of a peerless concealment secret technique. After it was upgraded to the great success realm, it gave Zhu Wuwan a reward of 30,000 breakthrough points, of which 3,000 were free breakthrough points.

This allowed Zhu Wuyan's strength to increase a little more, and he was getting closer and closer to condensing the Inner Qi seed. Zhu Wuyan could even faintly feel that as the Earth Spirit Blood increased, there were already signs of automatically absorbing the Heaven and Earth Spiritual Qi from the outside world.

Although this wasn't what Zhu Wuwan wanted, it was what other martial artists dreamed of.

After upgrading the Mustard Seed Secret Technique, Zhu Wuyang received

news that Xin Zhenyong??? the assistant minister of the Ministry of War, would come to teach him the art of war in the afternoon. Xin Zhenyong was also the crown prince's tutor and a confidant of Crazy Emperor Zhu Zhenwu.

Moreover, in the future, when Zhu Wuyang was injured and unable to go to the Palace of Heavenly Purity to study, Chen Diandou and Xin Zhenyong would come to teach Zhu Wuyang strategy and military studies on time every day. They would assist Zhu Wuyang in both literature and martial arts, and be the crown prince of the Nine Zhao Kingdom.

Of course, there were also people in charge of the test. Usually, those in charge of the test were the trusted aides of the Mad Emperor, Zhu Zhenwu, or his personal maids, trusted eunuchs, or sword-wielding guards. After all, the questions for the test were set by Chen Diandou and Xin Zhenyong. These people only needed to supervise the test and did not have high requirements for knowledge.

"Congratulations to the host for meeting Xin Zhenyong, the assistant minister of the Nine Zhao Nation's Ministry of War for the first time in his life. You have obtained 3000 breakthrough points..."

"Congratulations to the host for being carefully investigated by Xin Zhenyong, the assistant minister of the Nine Zhao Nation's Ministry of War for the first time in his life. You have obtained 3000 breakthrough points..."

"Congratulations to the host for interacting and learning with Xin Zhenyong, the assistant minister of the Nine Zhao Nation's Ministry of War for the first time in his life. You have obtained 10000 breakthrough points..."

As expected, Xin Zhenyong's arrival brought a large number of breakthrough points to Zhu Wuyan. In a short period of time, Zhu Wuyan had obtained tens of thousands of breakthrough points. If nothing unexpected happened, after absorbing this wave of breakthrough points, Zhu Wuyan's strength should have advanced to the next major realm.

Condensing the Inner Qi Seed!

As the assistant minister of the Ministry of War, Xin Zhenyong's strength had already reached the late stage of the Xiantian realm. His comprehensive combat strength was not inferior to ordinary peerless experts at the peak of the Xiantian realm. He had also grasped a powerful detection technique.

If not for the fact that Zhu Wuyan's Green Dragon Concealment had already been cultivated to the Perfection Realm and the Mustard Seed Secret Technique had also been raised to the Mastery Realm, Xin Zhenyong would definitely have detected Zhu Wuyan's true strength.

As Mad Emperor Zhu Zhenwu's trusted aide, Xin Zhenyong also had the responsibility of monitoring the princes and princesses. Once he discovered that any prince or princesses were improving too quickly, he would immediately inform the Emperor of Nine Zhao Country, Zhu Zhenwu.

Fortunately, Zhu Wanhao was very aware of danger. After considering that the situation was not right, she immediately added all the free breakthrough points to the Mustard Seed Secret Skill, allowing the Mustard Seed Secret Skill to directly reach the realm of great success. This way, she could easily hide from Xin Zhenyong's detection.

Xin Zhenyong was more cautious than Chen Diandou. While he was teaching Zhu Wuyang, he had actually probed Zhu Wuyang four times. He thought that he had done it without anyone noticing, and that Zhu Wuyang, who had completed the Golden Bone Refinement, would not discover his probing.

Xin Zhenyong did not know that Zhu Wuyang's strength had already reached the perfected Blood Transfusion realm. Moreover, her cultivation foundation was incomparably solid. She was born with all meridians open, and her talent and aptitude were astonishing. She actually easily sensed his probe.

However, in order to avoid arousing Xin Zhenyong's suspicion, Zhu Wuyang did not dare to reveal this. He only hid his strength with all his might and tried his best not to reveal any abnormal aura.

Time was rather difficult to endure. In this long period of time, Zhu Wuwan continued to obtain more breakthrough points. The strange power in his body also became stronger and stronger, waiting for the moment he broke through the suppression.

This way, he could bring Zhu Wuwan up to the next floor..

Chapter 57: Heaven and Earth (1)

Before Xin Zhenyong left, he actually carefully checked Zhu Wuyan again. Only after he confirmed that Zhu Wuyan's strength was indeed only at the perfected Golden Bone Refinement and that there was nothing to hide did he leave with a cold expression.

What Chen Diandou taught Zhu Wuyang was knowledge of governing the country, strategy, geography, history, and other aspects of literature. On the other hand, Xin Zhenyong taught Zhu Wuyang military strategy, martial arts, secret arts, killing, and other aspects of military strategy.

Although Mad Emperor Zhu Zhenwu was extremely jealous of the talented, he would not take away the education and resources that the princes and princesses should have. Sometimes, he would even allow the princes and princesses to receive excessive treatment.

However, it was unknown whether this was done to confuse the princes and princesses and expose some of the more ambitious princes and princesses.

However, to be honest, those who were sent to teach the important princes and princesses were all the trusted aides of Mad Emperor Zhu Zhenwu, and they had mastered extremely powerful detection techniques. For example, the Minister of Rites, Chen Diandou, and the Minister of War, Xin Zhenyong. Both of them were great experts in the Xiantian realm, and they had even mastered top-notch secret detection techniques.

Even in the face of the "cowardly and incompetent" Crown Prince, Chen Diandou and still probed repeatedly until they confirmed Zhu Wuyan's strength. Only then did they relax.

If one were to say that there were no orders from Mad Emperor Zhu Zhenwu,

Zhu Wuyang would not believe it even if he used his toes to think. However, Mad Emperor Zhu Zhenwu was really extremely cautious. He was also very harsh to the many princes and princesses. If there was anything unusual, they would probably be suppressed or even killed.

Only after confirming that Xin Zhenyong, the assistant minister of the Ministry of War, had left did Zhu Wuyang let out a long sigh of relief and began to absorb the strange power that swarmed over.

Under the effect of these strange powers, the Earth Spirit Blood in Zhu Wuyang's body increased at an extremely fast speed, becoming stronger and purer.

Zhu Wuyan had already circulated the Limitless Earth Technique to the extreme. He absorbed the strange power that was surging over according to a specific method and technique, not letting any of it go to waste.

When the Earth Spirit Blood was raised to a certain limit, Zhu Wuwan could clearly feel a mysterious power between heaven and earth being drawn over by the Earth Spirit Blood and fused into his meridians.

At this moment, a part of the breakthrough point suddenly turned into another special power, combining with the mysterious power drawn from the world. At the same time, it also absorbed a part of the characteristics of the earth's spirit blood, forming a new power.

This kind of power was vigorous and heavy. It could effectively increase Zhu Wuwan's defense and strength. It also had the effect of hiding his strength. It could be said to be a perfect fit for Zhu Wuwan's current physical condition.

If nothing unexpected happened, this power should be it. freewebnvel.com

Inner Qi!

Earth Inner Qi!

It was the peak type of Inner Qi in the martial arts world. It could greatly enhance a martial artist's defense, improve the martial artist's overall strength, and consolidate the martial artist's cultivation foundation. It also had the effect of hiding one's strength.

Under normal circumstances, a type of Inner Qi would only have one effect. An Inner Qi with two effects was already considered top-notch, let alone an Inner Qi with four effects.

As a peerless Foundation Building martial art, the Limitless Earth Technique would only have two effects when it condensed the Earth Internal Qi. If one was lucky, it could transform into three effects. However, Zhu Wuwan had actually broken the limit of the Limitless Earth Technique and allowed her condensed Earth Internal Qi to have four rather practical effects.

Feeling the faint yellow Earthly Inner Qi in his body, a bitter look flashed across Zhu Wuwan's face. Although condensing an Inner Qi seed was a great joy, it was not a good thing for someone in Zhu Wuwan's position to improve his strength so quickly.

"Congratulations to the host for breaking through to the early-stage Inner Qi Seed for the first time in your life. You have obtained 10000 breakthrough points..."

After breaking through to a new realm and condensing the Earth Inner Qi, it actually brought Zhu Wuwan a total of 10,000 breakthrough points.

The breakthrough points of the previous wave had yet to be digested, and the breakthrough points of the next wave had come again. It was really uncomfortable.

Zhu Wuwan laughed bitterly. She could only passively endure it and continue to circulate the Limitless Earth Technique to continuously increase her strength.

Wisps of Earth Inner Qi appeared in his meridians and gradually became more and more. Zhu Wuwan's strength was also constantly increasing.

The Internal Qi of the earth shuttled through the meridians and intertwined with the spiritual blood. However, this was not a long-term solution. Internal Qi was a terrifying power that was above the spiritual blood. It was naturally corrosive and destructive. It could not coexist with the spiritual blood for a long time, let alone store it in the meridians for a long time.

When the Internal Qi had grown to a certain extent, the martial artists would use the Internal Qi to attack the blocked lower Dantian and at the same time, temper the lower Dantian into the Spirit Dantian. Just like the Internal Qi, the lower Dantian would be able to store the Internal Qi without any hidden dangers.

This was the Earth Pass Realm!

The so-called Earth Pass Realm was to break through the Earth Pass that led to the path of cultivation and open up the lower Dantian. From there, one could truly grasp the power of Inner Qi and possess extraordinary strength.

The Earth Pass corresponded to the Heaven Pass, and it was relatively easy to break through. The Heaven Pass was different. It was said that it was harder than ascending to the heavens, so it was called the Heaven Pass.

The Heaven and Earth Gates corresponded to the two barriers on a warrior's cultivation path. Only by breaking through these two barriers could a warrior truly leap over the dragon gate and become a divine dragon of the Nine

Heavens.

However, the Heaven Pass was still too far away for the current Zhu Wuyan. He had not even heard of the Heaven Pass. What Zhu Wuyan needed to do now was to continuously accumulate the Inner Qi of the earth and break through the Earth Pass to enter the final stage of the Body Tempering Realm.

By the time he had absorbed all the strange power transformed from the breakthrough points, Zhu Wuwan's strength had completely stabilized at the initial stage of the Internal Qi Seed. With Zhu Wuwan's current strength, let alone in the imperial palace of the Nine Zhao Nation, even in the Jianghu outside, he could definitely be said to be invincible among his peers.

The proud sons of heaven in the so-called martial arts holy land of the Nine

Zhao Nation found it very difficult to condense Inner Qi seeds when they were Zhu Wuwan's age. Basically, only when they reached the age of twenty could those proud sons of heaven in the martial arts holy land condense Inner Qi seeds.

Not to mention that Zhu Wuyan's cultivation foundation was extremely strong. Although she was only at the initial stage of Inner Qi Seed, Zhu Wuyan's comprehensive strength was not inferior to ordinary martial artists in the Earth Pass Realm.

With such strength, he was practically an invincible existence among martial artists of the same rank in the entire Nine Zhao Nation.

If Zhu Wuwan were to enter the martial world at this moment, she would definitely be able to enter some martial arts rankings similar to the Hidden Dragon Rankings, and it would be the kind that ranked in the top few..

Chapter 58: Distraction (1)

Today, the medicinal cuisine in the imperial kitchen was still very fragrant.

After stabilizing the strength of the inner Qi seed, it was soon time to eat again. This was also a program that made Zhu Wuwan suffer and happy every day.

As usual, he let Laichun and Chuxia try the dishes first and wait for a while. After confirming that there were no problems with the medicinal dishes, Zhu Wuyang began to eat.

"Congratulations to the host for tasting Longan Blood Replenishing Soup for the first time in your life. You have obtained 3000 breakthrough points..."

"Congratulations to the host for tasting the 300-year-old Black Ginseng Soup for the first time in your life. You have obtained 3000 breakthrough points..."

Although Mad Emperor Zhu Zhenwu was extremely jealous of talents, he was quite generous. After learning that Zhu Wuan's meridians were damaged, he instructed the imperial kitchen to make top-notch medicinal dishes for him every day. Any of them would be able to make many martial artists fight over them.

The number of treasures in the Nine Zhao Imperial Palace far exceeded the imagination of the people in the martial world. Many princes and princesses did not dare to consume these treasures easily. They even treated them as poisons and gave them to other princes and princesses.

If Zhu Wuan wanted to collect these treasures and rare resources, it would not be difficult in the Imperial Palace. However, in the martial world, it would take several years or even decades for Zhu Wuan to collect many treasures and rare resources.

After eating this medicinal cuisine, Zhu Wuwan had obtained tens of thousands of breakthrough points, which increased the inner Qi of the earth in Zhu Wuwan's body by quite a bit.

As for those free breakthrough points, Zhu Wuwan used them all on the Mustard Secret Technique. Although he did not perfect the Mustard Secret Technique, it still improved it.

Next, he would have to wait for the teacher to arrive. With Zhu Wuan's current attainments in the Green Dragon Concealment and Mustard Seed Secret Technique, even if Mad Emperor Zhu Zhenwu sent a peerless expert at the peak of the Connate Realm to be the teacher, Zhu Wuan had more than 80% confidence that he could fool the other party.

This made Zhu Wanhao feel a little more at ease. However, while the teacher of the preliminary examination was not here, Zhu Wanhao did not forget to perform acupuncture and practice the Mustard Seed Secret Technique.

After waiting for an hour or so, the teacher sent by Mad Emperor Zhu Zhenwu arrived. What made Zhu Wuyan happy was that he knew the teacher this time. It was Zhu Jinzong, the supervisor of the Internal Official Bureau.

Zhu Jinzong's strength was only at the early stage of the Connate Realm. For Zhu Wuyang, who was meeting him for the first time, it was dangerous and terrifying. If he was not careful, he would be killed.

However, Zhu Jinzong could forget about finding out anything about Zhu Wanwan, who had reached the peak of the Azure Dragon Concealment and had mastered the Mustard Seed Secret Technique.

"Your Highness, it's time for the test. Please sit properly on the bed."

In view of the damage to the meridians in Zhu Wuyan's legs, Zhu Jinzong did not ask Zhu Wuyan to take the exam in the study room. Instead, he just sat on the bed.

The first test was naturally on policy studies. The main content was to write a paper. The topic on the paper was the etiquette that Chen Diandou taught Zhu Wuyang in the morning.

Seeing this test paper, Zhu Wuyang could only say that it was too easy. For Zhu Wuyang, who was born sacred and had a photographic memory, even though most of his energy in the morning was used to suppress the restless breakthrough point and

hide his strength, he only needed to divert a trace of attention to be able to grasp the strategy taught by Chen Diandou to perfection.

If Zhu Wuan had given it his all, he would have easily gotten full marks. However, with Mad Emperor Zhu Zhenwu eyeing him like a tiger, Zhu Wuan would not dare to do such a thing that would expose his talent.

Considering the original owner's previous learning ability, coupled with the fact that Zhu Wuwan was currently injured, he handed over a paper that was close to passing after frowning for a while.

Although the original owner's talent was a little poor, her learning ability was around average. In the past, she could often get a passing score in the small test.

Even if Zhu Wuan wanted to cheat, he couldn't score too low. This would be too much of a cover-up and would definitely attract the suspicion of Mad Emperor

Zhu Zhenwu.

It would be just right if it was close to a passing score. It would not seem exaggerated, nor would it attract suspicion.

"Congratulations to the host for taking the first test in your life. You have obtained 10000 breakthrough points..."

"Congratulations to the host for cheating for the first time in your life. You have obtained 20000 breakthrough points..."

"Congratulations to the host for hiding your strength for the first time in your life. You have obtained 30000 breakthrough points..."

Needless to say, this action brought Zhu Wuyang a lot of breakthrough points. In the process of the test, every time Zhu Wuyang answered a question, he could also obtain a different number of breakthrough points. Even if he deliberately made mistakes, he could still obtain a lot of breakthrough points.

After the policy examination, Zhu Wuyan had obtained a total of 80,000 breakthrough points. There was still a military course to follow.

Glancing at Zhu Jinzong, who had taken away the small test paper, and thinking of his strength, a light flashed in the depths of Zhu Wuwan's eyes, and an idea sprang into his mind.

Soon, Zhu Wuwan concealed her strength while suppressing the restless breakthrough points. At the same time, she carefully absorbed the strange power transformed by the

breakthrough points to reduce the number of breakthrough points...He multitasked silently.

A moment later, Zhu Wuan realized that Zhu Jinzong had not sensed anything. Only then did he heave a sigh of relief. It seemed that this was effective.

Before this, Zhu Wuwan had already considered one thing. If the enemy stayed by his side for a long time, and at the same time, there were a large number of breakthrough points in his body that were restless, in order to avoid being unable to suppress and expose his true strength, he could slowly absorb the restless breakthrough points while suppressing the breakthrough points to increase his strength.

Of course, he still had to use the Green Dragon Concealment and Mustard Seed Secret Technique to hide his aura so that he would not be discovered.

Before this, Zhu Wuwan had also done experiments, and the results were quite good. With the ability of the innate sacred and flawless Dao foundation, although it was a little difficult for Zhu Wuwan to do this, it was still possible.

This time, considering that Zhu Jinzong's strength was only at the early stage of the Connate Realm, Zhu Wuwan boldly experimented. Now, it seemed that the effect was not bad. He steadily hid from Zhu Jinzong's detection and did not let him discover anything unusual.

Moreover, Zhu Wuwan had no choice. A policy examination had already brought him so many breakthrough points. The military examination that followed would definitely allow him to gain a large number of breakthrough points. It could definitely exceed 100,000 breakthrough points.

At that time, the Mustard Seed Secret Technique would not be able to suppress so many breakthrough points..

Chapter 59: Overall Review (1)

With Zhu Wuan's attainment in the Mustard Seed Secret Technique, coupled with the help of the Earth Spirit Blood and the Azure Dragon Concealment, he could only temporarily suppress the breakthrough point of a little over 100,000.

Unless Zhu Wuyan's strength increased or the Mustard Seed Secret Technique advanced to the Perfection Realm, Zhu Wuyan would be able to suppress more breakthrough points, and it would be the kind that would last for a long time.

Zhu Wanhao didn't expect that a policy examination would bring him so many breakthrough points. Helpless, he could only take the risk.

Fortunately, the results were not bad. Therefore, in the following military science exam, Zhu Wuwan hid her strength while suppressing her breakthrough points. She absorbed the more agitated breakthrough points while writing randomly on the paper...

Due to Zhu Wuyang's health, he was unable to practice in actual combat, so the military science exam was naturally a test paper.

"Congratulations to the host for taking the second test in his life. You have obtained 8000 breakthrough points..."

"Congratulations to the host for taking the military science test for the first time in your life. You have obtained 5000 breakthrough points..."

"Congratulations to the host for cheating for the second time in your life. You have obtained 18000 breakthrough points..."

A series of system notifications came one after another, causing Zhu Wuyang's breakthrough point to rise at an astonishing speed. Soon, it broke through 150,000 points.

Fortunately, during the military science exam, Zhu Wuwan had quietly absorbed the most restless breakthrough points, which prevented these breakthrough points from exploding. At the same time, he had also absorbed more than 30,000 of them without anyone noticing, allowing his strength to rise to a higher level.

Four hours later, the policy and military exams finally ended. Zhu Jinzong glanced at the papers written by Zhu Wuyang and shook his head subtly before leaving with the two papers.

Zhu Wuan finally heaved a sigh of relief and collapsed on the bed. After confirming that Zhu Jinzong had left, he began to absorb the breakthrough point that he had forcefully poured in and continuously improved his strength.

By the time this wave of breakthrough points was absorbed, Zhu Wuyang's strength was already very close to the middle stage of the Inner Qi Seed. If nothing unexpected happened, Zhu Wuyang would definitely be able to break through to the middle stage of the Inner Qi Seed tomorrow, or even the late stage.

On the way back to the Palace of Heavenly Purity, Zhu Jinzong glanced at the papers written by Zhu Wuan. As the supervisor of the Internal Affairs Bureau and a great master of the Connate Realm, Zhu Jinzong had also taken the scholar examination before. He had a certain level of attainment in strategy and military studies.

Therefore, he could conclude one thing, and that was that Zhu Wuwan's paper was really not very good. Although Zhu Wuwan had done her best, her face had turned red during the test (that was because she was trying to force the breakthrough point), and there was sweat flowing down her forehead (that was because she was scared by the restless breakthrough point). She had been thinking hard (that was because she was multitasking)...

Regrettably, Zhu Wuan's paper was still not very good. At least, after Zhu Jinzong glanced at it a few times, he was surprised to find that none of the questions Zhu Wuan did were correct.

However, thinking about Zhu Wuan's previous results and his current situation, it seemed quite normal for him to do so well in the test.

Shaking his head, Zhu Jinzong first handed the two test papers to Chen Diandou and Xin Zhenyong. After the two of them finished marking them, he handed them to Crazy Emperor Zhu Zhenwu.

Before he left, Zhu Jinzong could tell from Chen Diandou and Xin Zhenyong's darkened faces that Zhu Wuan's score on the test was probably not good. He stole a glance on the way and saw that Zhu Jinzong's face was also dark.

Soon, they arrived at the Palace of Heavenly Purity. Zhu Jinzong carefully handed the two test papers to Mad Emperor Zhu Zhenwu. Zhu Zhenwu temporarily put down the memorial and picked up the two test papers to read.

The handwriting on the paper was quite neat, just like the one he had seen a few days ago. After all, he had invited a famous teacher from the court to teach him. Zhu Wuwan was quite diligent and learned well. At least, she was passable.

However, the questions on it were not so pleasing to the eye. Wrong, wrong, wrong...A series of wrong words ran through the entire paper. Basically, there were not many questions that were answered correctly. This paper was one that Zhu Wuwan was relatively good at, but in the end, he still got half of the questions wrong.

Chen Diandou had taught the paper in the morning and tested it in the evening. In the end, there were still so many mistakes. The final score was.

Below average!

Zhu Zhenwu's face darkened. He was the Crown Prince of the Nine Zhao Nation, after all. He was really stupid to be able to do so well in a simple policy examination.

However, after reading Zhu Zhenwu's military paper, he finally understood what it meant to be a mountain beyond the mountains and a tower beyond the mountains. There would always be a strong opponent among the strong. Compared to the military paper, there were at least half of the matching words on the policy paper. However, the number of matching words on the military paper was not even half of the matching words on the policy paper.

As expected, the assessment for the military science paper was:

Down!

Zhu Zhenwu felt that if it wasn't for the consideration of the royal family's face, Xin Zhenyong would really want to give Zhu Wuyang a bad review.

Combining strategy and military studies, Zhu Wuyan's overall evaluation was from bottom to top, barely reaching the bottom of the middle evaluation.

The huge study room was completely silent. Mad Emperor Zhu Zhenwu's face was gloomy as he threw Zhu Wuyan's paper on the ground. "Is he hiding his strength?"

"No!" Thinking of how Zhu Wuyang had given her all during the test, Zhu

Jinzong quickly said, According to this old servant's observation, His Highness the Crown Prince has actually tried his best. It's just that his talent and body are limited, so his results are not ideal. "

"Are you saying that he's stupid and stupid? That's why he got such a result?" Zhu Zhenwu laughed.

"This old servant doesn't dare." Zhu Jinzong's face turned pale and he quickly explained, Your Highness the Crown Prince is of the Nine Zhao Dragon race. Naturally, you are not stupid, but you are not as fast at learning as the other dragons. I have also seen your previous small examination papers. Your Highness 'policy studies are basically above average, and you can only get average marks in military studies occasionally. If it were not for your health that affected your performance, Your Highness would never have gotten such a mark. '

Zhu Zhenwu was silent. He thought of the information he had read about Zhu Wuan before he was chosen as the Crown Prince of the Nine Zhao Nation. Zhu Zhenwu believed Zhu Jinzong's words.

Although Zhu Wanwan was not a stupid person, she was obviously not considered intelligent either. She had taken many small tests in the past, and the best result she

had obtained was only a comprehensive middle-middle evaluation. She did not even get an upper-middle evaluation.

To be able to get an evaluation from the bottom to the top despite the damage to his meridians, it seemed, perhaps, possible...It wasn't too bad.

Although it was a little embarrassing for the royal family, as the crown prince of a country had such a lousy performance in the examination and could not be seen by anyone, Zhu Zhenwu did not pursue the matter anymore when he thought about why Zhu Wuwan was chosen to be the crown prince of the Nine Zhao Country..

Chapter 60: Sesame Blossom (1)

If Zhu Wuyan's results were converted to Earth's 100-point system, it would be about 48 points for policy studies and 22 points for military studies.

Out of a total of 200 points, Zhu Wuyan only managed to get about 70 points. With such a result, it was no wonder that Mad Emperor Zhu Zhenwu would be " furious.

Zhu Zhenwu's " anger " was only because Zhu Wuyan's results were too poor, and he felt a little sorry for his identity as the Nine Zhao Nation's Crown Prince. In fact, from the bottom of his heart, Zhu Zhenwu was quite happy.

Such a stupid Crown Prince, even if he was given a thousand years, he wouldn't be able to usurp the throne. When I was young, I could basically get a total evaluation of above and below every time.

Because he didn't deliberately hide it, the results of Zhu Wuyang's first test after he became the crown prince were quickly spread out. Although there was a reason for his poor health, his results were a little bad.

However, no matter how bad it was, it couldn't change the fact that Zhu Wuwan had only gotten seventy points for both tests combined. Therefore, the entire palace, and even the entire court, was in a sensation.

' Ever since the founding of the Nine Zhao Nation, there has never been a Crown Prince with such poor results in the small test. Prince 168 has broken the bottom line of our Nine Zhao Nation.

' It's said that if Assistant Minister Xin Zhenyong wasn't worried that the results given would be too low and anger Mad Emperor, he would probably give a lower evaluation. Zhu Wuyang's real overall evaluation is low, but he barely didn't reach the last square.

" No wonder Zhu Wuan was so easily pushed to the position of Crown Prince by us. He basically didn't have any strength to resist at all. From this evaluation result, we can see that this guy is an idiot. freewebnovel.com

" You're still worried that such an idiot will eventually become the emperor of the Nine Zhao Nation? Are your brains damaged? Even if Zhu Wuyang can hold on until the Mad Emperor is finished, with his ability, he can forget about becoming the emperor of the Nine Zhao Nation. '

Zhu Wuan once again became the laughingstock of Jiuzhao Country. Countless people were shocked speechless by his extreme results, especially after knowing that Zhu Wuan did not deliberately hide his strength and went all out.

As a result, Zhu Wanhao obtained a large number of breakthrough points, making him feel quite helpless. Fortunately, this action lowered the vigilance of Mad Emperor Zhu Zhenwu and the many princes and princesses against him. They would not easily target him anymore. It could be said that fortune and misfortune were intertwined.

With the help of this breakthrough point, Zhu Wuwan's strength successfully broke through to the middle stage of the Inner Qi Seed. A few of the meridians in his body were filled with Earth Inner Qi.

When all the unobstructed meridians were filled with earth inner Qi, it meant that Zhu Wuwan's strength had reached the perfection realm of inner Qi seeds.

Next, it was time to break through to the Earth Gate Realm.

During the Body Tempering stage, the more meridians a martial artist had, the more Vitality Force, Spirit Blood Force, and even Inner Qi they could store.

However, under normal circumstances, even a peerless divine technique manual could at most open up a fraction of the meridians in a martial artist's body. However, Zhu Wuwan was good. With her earth-shattering flawless Dao foundation, she was born with all the meridians open.

This way, it naturally saved a lot of time for him to open up his meridians with the power of blood essence. At the same time, it also allowed Zhu Wuyang to store more power of blood essence, spirit blood, and inner Qi.

Although Zhu Wuan was only a martial artist at the middle stage of the Inner Qi Seed, the amount of Earth Inner Qi in his body was so pure that it was not inferior to a martial artist at the completion stage of the Inner Qi Seed.

The stronger the power of Internal Qi, the deeper and more powerful it could temper the body of a warrior. With the help of the vigorous and pure Internal Qi of the earth, Zhu

Wuwan's skin, muscles, bones, and tendons were further tempered and improved, becoming more and more powerful.

Whether it was strength, defense, speed, or reflexes, Zhu Wuyang was already comparable to a martial artist in the Great Circle of the Earth Gate. To be honest, with Zhu Wuyang's current strength, she was basically invincible in the Body Tempering Stage.

However, this was still not the limit of Zhu Wuyang's Body Tempering stage. He had only reached the middle stage of the Inner Qi Seed. There were still a few minor realms and a major realm that he needed to cross.

The next morning, a medicinal meal allowed Zhu Wuwan to completely consolidate her current strength. At the same time, she took another step toward the middle stage of Inner Qi Seed.

Following that, the teaching of the Minister of Rites, Chen Diandou, and the Pulse Restoring Powder at noon brought Zhu Wuwan about 200,000 breakthrough points, allowing Zhu Wuwan's strength to cross another bottleneck and enter the later stage of the Inner Qi Seed. More than 60% of the meridians in his body were filled with earth inner Qi.

Faced with such vigorous and pure earth inner Qi, the earth spirit blood was squeezed to the side. It could only tremble, hoping that Zhu Wuwan would be able to break through the earth barrier as soon as possible and use his dantian to accommodate the power of inner Qi.

The medicinal cuisine in the afternoon, the lessons given by Xin Zhenyong, the assistant minister of the Ministry of War in the afternoon, and the medicinal cuisine in the evening had further improved Zhu Wuwan's strength, reaching the realm of perfection of the Inner Qi Seed.

During this day, Zhu Wuyang deliberately tried to absorb the power of the breakthrough point under Xin Zhenyong's eyes and successfully hid from Xin

Zhenyong's detection. In other words, even under the eyes of a peak late stage Connate expert, Zhu Wuyang could absorb the breakthrough point without the other party knowing and hide his own strength at the same time.

At the same time that he was forced to drink hundreds of thousands of breakthrough points, Zhu Wuwan also obtained tens of thousands of free breakthrough points. With the power of these free breakthrough points, Zhu Wuwan successfully raised the Mustard Seed Secret Skill to the Perfection Realm.

Unfortunately, because of his studies, Zhu Wuwan basically didn't have the time to cultivate the Nine Dragon Fist and the Illusion God Steps, so the progress of these two peerless martial arts was slow.

There was no test on the second day. Perhaps it was because the results of the test on the first day were too bad, but Zhu Wuyang, the newly promoted crown prince, became the laughing stock of the royal family. Even the Zhu royal family was disgraced.

Therefore, Mad Emperor Zhu Zhenwu was worried that the results of the second day's test would not be good, so he did not send anyone to assess Zhu Wuyan's results today. As a result, Zhu Wuyan was lucky enough to not be forced to drink tens of thousands of breakthrough points.

Without the test, Zhu Wuwan hid in the secret training room and practiced the Nine Dragons Fist and the Illusion God Steps. She tried her best to improve her life-saving and escaping abilities so that she could save her life when she was in danger.

The third day's homework still brought Zhu Wuwan more than 100,000 points, but it was much less than the previous two days. Zhu Wuwan finally heaved a sigh of relief.

Even so, after studying for a whole day and raising the Illusion God Steps to the Small Success Realm at night, Zhu Wuwan was still about to break through.

The Inner Qi Seed stage had already been cultivated to perfection by Zhu Wuwan. All the meridians in his body were filled with earth inner Qi. Once he broke through, it meant that Zhu Wuwan was about to step into the last major realm of the Body Tempering stage..
