

# Life at The Top – Chapter 1471

“We’ll come right now. I’ll call you when I get to Nim City. Don’t go anywhere this time,” Henry grumbled.

Jasper grunted a reply before hanging up the phone.

He did not need to exchange so many pleasantries with Henry.

Besides, this thing in front of him right now was more important

“Jasper, you’re here. You didn’t wait too long, did you?”

After Greg placed his briefcase down, he smiled and asked.

Jasper looked at Greg and he could see a clear handprint on Greg’s face.

The person who slapped him exerted a lot of force. Not only did it leave a clear print, but it was also swollen. From the looks of it, Jasper knew the slap was very recent.

However, Greg did not say anything so Jasper did not expose Greg's embarrassing mark. Instead, he looked at the person behind Greg.

The person behind Greg was a man in his forties who looked refined and cultured. His face was thin and he looked meticulous. He had on a pair of round-rimmed glasses which made him look like a teacher who was always hungry for knowledge.

However, his expression was stiff.

"Let me introduce you. This is Eric Whitman and he's the current chief technology officer of Blau Mobiles. He's also the reason why we can solve so many technical problems so fast. He is the pillar of Blau Mobiles.

"Eric, this is Mr. Laine. He's the founder of JW. He's also the real boss of Blau Mobiles."

Eric was stunned when he heard what Greg said. He asked dumbfoundedly, "Real boss?"

"Actually, Blau Mobiles is just a subsidiary company under JW." Greg directly told Eric the truth.

"JW had been funding us ever since the company was founded."

Even though Eric was shocked, honestly it did not matter who the boss was because it was still the same to him.

Moreover, now that Blau Mobiles and Greg were in trouble, it would be good to have another bigger boss standing behind them. At least they had someone to support them.

“Hello, Mr. Laine, I’m Eric Whitman.”

Eric extended his hand and said.

Jasper shook Eric’s hand and said, “I’ve heard your name when I was talking about work with Greg. Just as he said, you’re the pillar of Blau Mobiles right now. I have to thank you for that.”

Eric smiled bitterly and said, “What pillar? Mr. Costa’s just flattering me.”

At this moment, the door of the office was opened. When Veronica came into the room, she exclaimed right before she was about to speak, “Mr. Costa, what’s wrong with your face?”

It was obvious that Veronica and Greg did not have a normal relationship between a secretary and a boss.

She walked over anxiously and pitifully. Then, she lifted her hand to touch the handprint on Greg's face. When she touched Greg's wound, he sucked in a deep breath from the pain.

"I'm fine. It's just a minor accident," Greg said through gritted teeth.

Veronica knew she should not say anything more. So, she suppressed her heartbreak and said, "I'll get you some ointment."

After she said that, she hurried out the door.

At this moment, Jasper said faintly, "Tell me, what happened?"

Greg gritted his teeth and said, "Just now, I went to see the boss of Fliegen, Vinny Goldman, with Eric. I figured it would be fine to give them some goodies as long as we could reach a consensus."

"After all, Blau Mobiles is still too small and we're not really Fliegen's rival in the mobile phone industry."

"However, Vinny proposed to buy Blau Mobiles for 5 million. When I rejected him, he slapped me and asked his security guard to kick me out."
