

# Life at the Top Chapter 1750

Old Master Law had conveyed his message to Zachary and Zachary had simply called to let Jasper know to call him if he needed anything.

After this, Jasper roughly explained his plan to Zachary and sent him the meeting link for him to join the meeting.

All the people in charge were already in the meeting room. All of them were prepared and seated in front of the web camera when Jasper joined.

The big four commercial banks have stricter procedures for meetings. Their meetings were attended not only by someone from the top management, but also a group of people who were responsible for recording and writing down everything said in the meeting.

They made the conference look serious and formal, and it was comparable to some of the high-profile cross-industry conferences.

Jasper glanced at Gale, who was casually drinking his tea. "Everyone, tomorrow will be the day to decide the life or death of FJW. So here I am now, trying to gather all the capital to help my company at the very last minute."

The little prince answered flatly in the video conference, "Money is not the problem, the problem is how much you need, how you are going to spend it, and how will you pay us back."

Jasper nodded and said, "Fair enough, this should be everyone's concern as well."

"So I am not going to beat around the

bush and I will list out the offers now.

"Other than Haddock, I expect 50 billion. from each of the Big Three chambers of commerce.

"Little Prince and Lord Alvarado, I sincerely hope that both of you will spare 50 billion each.

"For the Big Four commercial banks, I hope to get a 50 billion loan from each of the banks.

"SBS Bank and I have another deal, so it will be counted separately."

Jasper looked at the screen after he was done.

"How much is Haddock going to chip in?"

"80 billion."

Gale answered himself.

Jasper was surprised.

He had not even told him about the mortgage. Does this mean that he has agreed?

No one knew what Gale was thinking.

However, the three people in charge of the other Big Three chambers of commerce were still silent. They seemed put off after hearing the amount.

The little prince laughed and asked, "What about the Laws?"

"The Laws are all in."

Everyone was stunned by Zachary's answer.

For a family like the Laws, what does 'all in' actually mean?

It meant that the Laws were risking

everything they had for Jasper.

The whole family. Everything!

One would only treat their blood-related children this way.

Everyone, including Tony, turned and looked at Jasper and Zachary with an odd gaze.

The little prince's lips twitched and he asked, "What about SBS Bank?"

Tony cleared his throat and answered, "The top talents of SBS Bank will be under Jasper's command. Legal documents regarding that have already been signed."

Initially, the high-level executives of the big four commercial banks thought that Jasper was just being unreasonable.

However, with this statement, they knew they had no choice but to chip in the 50 billion!
