The window that showed the success of the missions popped up in front of Bai Chen while he was about to start playing another game of blackjack.

‘It finally works!’ Bai Chen could not help but cheer in his heart.

More than fifteen minutes had passed since he had started and won a large number of chips. The total amount of chips was 1,000,000, which was equal to 1,000,000 yuan. Thus, it was no wonder Mission 20 was also completed.

But for Mission 19, when he had entered San Hai Casino, he had wondered slightly why it had not been deemed successful, even though he had already gotten in.

But now, Bai Chen understood it all. It was completed alongside Mission 20.

The female dealer looked a bit dismayed. She had not expected Bai Chen to be this lucky to the point that he had consecutively scored more points than her in so many rounds. The number of

chips he had won had already reached one million yuan. If things were to continue this way, she would be fired for losing too much of the casino's money for sure!

Even though she understood well that this was gambling, where it was completely normal to lose money sometimes, the female dealer was secretly wishing for Bai Chen to stop playing and leave already.

The mysterious person did not seem too concerned. She had won some and lost some. But adding all of them together, it was not even that much. Long Xu In had also lost interest in the power of the necklace of fortune. It worked as its name suggested by making Bai Chen win every game.

"Do you want to keep playing?" she asked him and glanced at the mountain of chips in front of them, which equaled 1,100,000 yuan.

Surely, the 100,000 was the amount she had lent to Bai Chen earlier.

"No, this is enough." He knew that if he continued, he would have made even more money. But he did not want to play any longer.

The 1,000,000 yuan he'd made was already enough for him now.

Long Xu In nodded in understanding after hearing Bai Chen's remark. "All right. Would you like to leave now?"

Bai Chen nodded before getting off his chair. Long Xu In followed. She ordered the female dealer to handle the exchange of the chips for her.

The female dealer accepted with relief. She felt very relieved that Bai Chen would stop here.

After Long Xu In had successfully converted chips to money with the female dealer, she exited the V.I.P room alongside Bai Chen. Meanwhile, the mysterious person looked at both of their backs until they disappeared before turning around and murmuring to herself.

"Interesting person. That is quite a catch for Long Xu In..."

It was clear from these words that she knew Long Xu In.

.....

"This is not good. Our sect is facing a major disaster!"

A middle-aged lady with a pretty face said this. She was sitting in a luxurious room in a villa in Beijing.

"What should we do, Zheng Fang?" another middle-aged lady said. Her beauty was no less than the one who had spoken before her.

Zheng Fang looked at the other middle-aged lady. She was Zheng Feng, her own sister.

"I don't know either. I have no clue why a Sky Soaring Realm cultivator like Tai Yang the Strange would want to destroy our Lunar Land sect," Zheng Fang said.

Then, she looked over to another lady whose face was as beautiful as an angel's. She was the most beautiful lady in the entire Lunar Land Sect.

It was none other than Xu Xue Ning.

She had been called on to fly to Beijing urgently by Zheng Fang, the leader of her sect.

Before coming here, she was already wondering what this emergency could be about.

But now, she understood it all. The story caused Xu Xue Ning's face to turn pale.

The emergency was that a Sky Soaring Realm cultivator, Tai Yang the Strange, had announced that he was going to annihilate the Lunar Land Sect.

Any cultivators who dared step in to help the Lunar Land Sect or get involved in the issue would all be killed!

"Xue Ning, what are your thoughts on this?" Zheng Fang asked. Only the three of them were in the room.

Xu Xue Ning could only shake her head helplessly. "I have no idea why Tai Yang the Strange would want to destroy our sect..."

"Forget about that. What we need to work on now is how to defend ourselves when Tai Yang the Strange strikes!" Zheng Feng sighed before speaking.

Upon hearing Zheng Feng's words, both Zheng Fang and Xu Xue Ning fell silent. No matter how they looked at it, there was no way the Lunar Land Sect can handle a Sky Soaring Realm cultivator. It was utterly impossible.

"If only we knew another Sky Soaring Realm cultivator, things would be much better..." Zheng Fang said out of the blue before shaking her head, showing fatigue.

But at her words, Xu Xue Ning's body shook hard. The gorgeous pair of eyes opened wide instantly. She just realised that she knew one!

Her face started gaining colour. She took a deep breath before saying, "I know one."

"What did you say?!?"

Both sisters exclaimed this almost at the same time in shock.

If they had not heard wrong, what Xu Xue Ning said meant that she knew a Sky Soaring Realm cultivator.

How could they not be completely in shock after that?

Xu Xue Ning nodded solemnly. "I know a Sky Soaring Realm cultivator."

"Is that true?!?" Zheng Fang breathed heavily.

"Y... you're not lying, are you?" Zheng Feng asked with her shaky voice.

Clearly, the two sisters were completely thrilled and did not want to believe it—that Xu Xue Ning knew a Sky Soaring Realm cultivator. In all of China, there was only a handful of those.

“I’m telling the truth. I know a Sky Soaring Realm cultivator.” Xu Xue Ning nodded to support her claim.

At the same time, she could only hope Bai Chen would help her if she called him for help.

#### Chapter 112 A Request For Help

“Who is this Sky Soaring Realm cultivator you speak of?”

After calming some of her panics, Zheng Fang asked this quietly.

Hope started reappearing in her heart. She never thought Xu Xue Ning would know a cultivator of that calibre.

“His name is Elder Chen Bai. He is a Sky Soaring Realm cultivator I met a few days back...”

Xu Xue Ning then proceeded to talk about how she accidentally met Bai Chen walking home across the sky.

Clearly, she did not call him Bai Chen, but Chen Bai.

Surely, she believed that he was using the name Bai Chen because he had transformed himself into someone younger so that he could pursue Long Xu In.

“Excellent! This is fantastic, Xue Ning. Please hurry up and ask for Elder Chen Bai’s help immediately. If he agrees to help us, no matter what it is he asks for, the Lunar Land Sect shall provide!” Zheng Fang said excitedly.

Zheng Feng’s facial expression was also hopeful. If they had the support of a Sky Soaring Realm cultivator, it would make Tai Yang the Strange reconsider his intention of annihilating the Lunar Land Sect.

Because a clash between two Sky Soaring Realm cultivators only ended when one died!

If one were to escape during the fight, there would be more problems to solve in the future. That was why they would always fight to the death!

Xu Xue Ning nodded. Her face which was more beautiful than other women’s showed a tiny hint of concern.

To speak plainly, she was not that close to Bai Chen. They had only met twice and spoken on the phone once.

For this reason, it was only natural for Xu Xue Ning to worry that Bai Chen might refuse to help her.

Anyway, even if she was worried, she chose to call him. Xu Xue Ning pulled out her phone and dialed right away.

She had to wait for a short moment before Bai Chen picked up.

“Hello,” Bai Chen’s voice rang out.

Xu Xue Ning put him on speaker to let the two sisters listen in.

Just by hearing Bai Chen’s voice through the phone, Zheng Fang and Zheng Feng almost forgot to breathe. They felt as if an invisible force was pressing on them.

But surely, they were only imagining things. Bai Chen alone right now could not achieve something that great just yet.

“Elder, it’s me.” Xu Xue Ning spoke quietly.

“Is something the matter?” Bai Chen asked whilst wondering why Xu Xue Ning would call him.

Right now, he was sitting in a car, Long Xu In by his side. Xe Ma was driving the car back to the Long family’s vacation home.

“I need your help with something, Elder...” she said hesitantly.

“If I can help, I will help you. Can thou tell me what this is about?” Bai Chen spoke in a low voice.

He was afraid Long Xu In would hear him using rather old-fashioned language, such as “thou”.

It was clear from his words that he did not have anything against Xu Xue Ning’s request. If he could help, he would.

The reason he would help her was nothing more than that she was also one of his acquaintances. He would have to help her sometimes.

Xu Xue Ning took a deep breath before nodding and speaking.

“My sect is in danger. A Sky Soaring Realm cultivator has pledged to destroy it. If Elder isn’t too busy, could you please save my sect?”

After hearing what Xu Xue Ning said, Bai Chen could not help but frown.

He was confused. He did not expect her request to be about her sect being destroyed.

It was clear that Bai Chen understood what she had said. He had watched the destruction of sects in old Chinese martial arts TV shows.

Bai Chen did not reply right away. He lowered his head to consider.

No, the problem was not about helping or not helping. It was about the Sky Soaring Realm cultivator.

Strictly speaking, Bai Chen had no idea how strong a Sky Soaring Realm cultivator might be. He only knew that it was one of the many realms of cultivation.

Surely, the reason he knew all this was Chinese martial arts series and Xu Xue Ning, who had used the term ‘Sky Soaring Realm cultivator’ before.

Looking at the phone with no sign that Bai Chen would reply, the hearts of Xu Xue Ning, Zheng Fang, and Zheng Feng almost stopped beating due to worry.

There were not many reasons for why he had gone quiet. Either he did not want to help, or he had to consider this thoroughly before deciding.

For those three ladies, they could only hope it was the latter. If not, their Lunar Land Sect would be annihilated by Tai Yang the Strange!

Bai Chen was sitting in the car, oblivious to the fact that his silence greatly worried Xu Xue Ning.

But as Bai Chen was thinking, he remembered the four-star formation. When he thought of its capability, his eyes gleamed.

Perhaps the four-star formation he possessed could save Xu Xue Ning's Lunar Land Sect from a Sky Soaring Realm cultivator.

This was because one part had said that even a Divine Realm cultivator could not break into it.

To Bai Chen, 'Divine' sounded superior to 'Sky Soaring'.

With this thought in mind, Bai Chen's decision became simple.

"Agreed. I'll help thou this one time," he replied.

His words caused Xu Xue Ning, Zheng Fang, and Zheng Feng to become paralyzed for a while. Their hearts were beating more furiously than before and their breathing had quickened considerably.

"Hello?"

Many minutes had passed. Bai Chen, seeing how Xu Xue Ning had gone quiet, could not help but speak.

"T... thank you, Elder, for your kind help. I promise that when our sect is out of danger, no matter what it is you desire, my sect will provide it for you without complaint!"

Xu Xue Ning said this immediately. Her voice was a little bit shaky and low. But her heart was filled with happiness.

The fact that Bai Chen had decided to help her sect this time made her feel infinitely indebted to him.

"Where should I find thou?" Bai Chen asked. Since he had to help her, he had to go see her in order to bestow the four-star formation.

When the formation had been placed around her sect, the Sky Soaring Realm cultivator would no longer be able to break in and destroy it.

"I will pick you up. Please let me know your current location," said Xu Xue Ning.

How could she let him come to her? She must be the one to pick him up!

It was not even the fact that he was a Sky Soaring Realm cultivator—just by him agreeing to help, it was already her job to pick him up herself.

### Chapter 113 Long Wu Lei's Question

After Bai Chen had given her his address, Xu Xue Ning asked to hang up with a mix of gratitude and happiness that he agreed to help.

“Xue Ning, excellent job!” Zheng Fang could not help but say. Her face showed relief and joy.

Having a Sky Soaring Realm cultivator agreeing to help could hardly be compared to anything else.

Because those in the Sky Soaring Realm could be considered to be at the very top of the cultivating world right now!

“Xue Ning, hurry up and pick up the elder right now. And take him to our sect. I want to see what that Tai Yang the Strange will do when he learns that our sect has support from a Sky Soaring Realm cultivator. He will have to think very hard before thinking of destroying our sect!” Zheng Feng spoke seriously to Xu Xue Ning.

“Understood, Deputy Sect Lord,” Xu Xue Ning said before leaving the room to fly to Dong Hai Island to pick up Bai Chen. After that, she would take him to her Lunar Land Sect.

It was clear that now, even if it was nighttime, Xu Xue Ning had no problem traveling to Dong Hai Island, which was only accessible via plane, or at the very least, a boat.

That was because she owned a private plane. To get to Dong Hai Island to pick up Bai Chen for her was a piece of cake.

.....

Meanwhile, in a room of a hotel on Dong Hai Island, a middle-aged couple sat facing one another on the sofa inside.

This couple was no other than Tang Zi Cheng and Tang Yien.

Their faces were gloomy and filled with worry.

The reason was because of Bai Chen. They needed the vaccine he had to cure Tang Yien of her GT-2 illness!

If they failed to get their hands on the vaccine, death was inevitable for Tang Yien!

Of course, the reason why the couple had come to Dong Hai Island was to apologize to Bai Chen and ask to buy the vaccine off him for the high price of more than a billion yuan!

Their decision this time was based on what Xu Xue Ning said.

From what she had said, they had no doubts. It was highly probable that Bai Chen was from a formidable background.

With that in mind, the couple did not dare take the vaccine off him by force any longer. They chose this method instead.

They had found out that Bai Chen was here because they had called and asked Long Xu In before this. They had quickly flown to Dong Hai Island as well as made hotel reservations immediately.

After they arrived, they did not head straight to the Long family's vacation home because they were afraid Bai Chen was going to refuse to negotiate with them.

Because they had refused to receive the vaccine from Bai Chen before this.

"What should we do, honey? Should we just call Xu In and ask?" Tang Yien said, worried.

Tang Zi shook his head helplessly. "Not yet. Let's go see them at the house tomorrow."

"Understood," Tang Yien said and nodded. She could not help but ask, "And... will our negotiation be successful? What happens if he refuses to give us the vaccine? What will we do?"

Tang Zi Cheng fell silent. To be honest, he had no idea how to handle things if Bai Chen refused. If this were any other issue, he would have given up a long time ago.

But for this issue, he could not give up. If he did, his wife Tang Yien would die from GT-2!

Seeing her husband's face, Tang Yien heaved a sigh. They did not talk anymore. They sat quietly side by side in the room. Their hearts were filled with anxiety and anticipation.

.....

Morning came. Bai Chen left with Xu Xue Ning right after having sat down for a meal with Long Xu In, Long Wu Lei, her grandfather, and Long Shen, her brother.

Bai Chen decided to leave right away because Xu Xue Ning had been waiting since the night before. She had spent the night at the Long family's vacation home just like he had.

For the new mission, Bai Chen chose not to look at it that moment. He wanted to focus on helping Xu Xue Ning first.

Obviously, this included using the most recent roulette bonus he had just received.

In reality, in regards to the issue that Xu Xue Ning had asked for help with, Bai Chen felt it was a bit unexpected that she needed him to travel back to the sect with her.

He only thought he would give her the four-star formation and teach her how to use it.

But since she had already asked, Bai Chen could not say no. That was why he was on his way with her now.

After Xu Xue Ning and Bai Chen had set off from Long's residence for a while, Long Xu In was summoned to Long Wu Lei's room. Inside, the old man was not alone; Long Shen was there as well. Their faces were somewhat serious.

“You’re calling me here—is there something important, grandpa?”

Long Xu In looked at her grandfather’s serious face and could not help but ask.

Even though Long Wu Lei was completely healed from the terrible illness, his body was not recovered enough for him to walk because he had had it for a long time. He had to stay in bed still.

He had to use a wheelchair to get to the breakfast table in the morning.

The old man looked at his granddaughter’s face before saying, “Xu In, you allowed your boyfriend to go with the eldest daughter of the Xu family like that. Was that wise?”

Long Xu In’s flushed red instantly. She shook her head in denial. “He is not my boyfriend!”

“There is no need to hide it from me. I think he is a good fit for you,” Long Wu Lei said.

He believed that Long Xu In only denied it because she was shy. And part of her may have been afraid that Long Wu Lei would try to come between her and Bai Chen. Thus, what had been said could not be helped.

Long Shen was standing beside Long Wu Lei’s bed. He could not help but add, “Like grandpa said, Xu In, you don’t need to hide things from us.”

After Long Xu In heard the words of the two people, she fell silent. Even though she wanted to repeat that Bai Chen was not her boyfriend, she was afraid that the two men would not believe her.

And once she thought it over, she would like for Bai Chen to become her boyfriend in the future. Thus, she did not think to deny it any longer.

“You would really approve of us?” she asked just in case she would be Bai Chen’s lover in the future.

“Of course.” Long Wu Lei smiled happily when Long Xu In admitted it.

Chapter 114 The Lunar Land Sect

Long Xu In was quite pleased with her grandfather’s words.

This was because, typically, the eldest daughter of the Long family, one of Beijing’s five biggest clans, would have to marry someone chosen by the family.

When things turned out this way, it was not unusual that Long Xu In would be happy.

“Xu In, you allowed your boyfriend to go with the eldest daughter of the Xu family like that. Was that wise?”

While Xu In was feeling happy inside, Long Wu Lei repeated the same question.

Long Shen, who was also standing there, could not help but add, “Right. Do you really think that’s okay? That you let brother-in-law go with Xu Xue Ning? If you ask me, she is gorgeous. What would you do if he fell for her?”

Long Xu In paused after hearing what her grandfather and big brother said.

Honestly, she was quite worried that Bai Chen would fall for Xu Xue Ning. Her beauty was not something Long Xu In could compete with.

But even then, she had no right to stop him, because they were not together.

Thus, Long Xu In decided that she would make Bai Chen fall in love with her and get him to be her boyfriend!

She shook her head slightly to chase away the worries. At the same time, she smiled at both Long men.

“Grandpa and big brother, please don’t worry. If he wasn’t honest, how would he have become the man I love and agreed to be with in the first place?”

Long Wu Lei laughed out loud. “That’s right. No wonder you chose him.”

Long Shen’s lips curved into a small smile. He could not help but think to himself, ‘Grandpa and I must be worried for nothing. If brother-in-law weren’t honest, how could Xu In have chosen him, especially when she has never cared for any man before?’

.....

That afternoon, on a mountain covered in a beautiful green forest, stood a wooden wall made from top-grade timber.

The wall had been built around a square space. The space was not large. Within that space were eleven houses built in an elegant row facing one another, five of them on each side. The eleventh one, also the biggest, was at the end of the road.

If one were to look closely, one would be able to tell that the wooden wall and eleven houses built in the middle of the wilderness were ancient.

No doubt they had been built a long time ago!

This place was none other than the Lunar Land Sect!

The Lunar Land Sect or Academy was in a forest in the north of China. Travel here was not easy. Planes could not get in due to the abundance of tall trees. The only way of reaching it was using a flying sword.

In conclusion, normal people could never reach the Lunar Land Sect, only cultivators of the formation realm and above.

Four people stood in front of the giant wooden gate, the entrance to the Lunar Land Sect.

Their faces were very worried and excited. All of them were women.

Two of the four were Zheng Fang and Zheng Feng, Sect Lord and Deputy of the Lunar Land Sect.

The other two were pretty women. Even though they could not be compared to Xu Xue Ning, they were quite beautiful themselves.

Their beauty was comparable to Long Xu In’s.

The four of them were obviously waiting for something.

That thing was the arrival of Xu Xue Ning, escorting a Sky Soaring Realm cultivator!

It was impossible for the four of them to remain calm knowing that a cultivator of such high calibre was coming to the sect.

“Big sister, when do you think Xue Ning and Elder Chen Bai will arrive?” Zheng Feng asked out of the blue.

Zheng Fang turn to her sister and answered without having to think about it, “They should not take long. Have you forgotten that Xu Xue Ning just called us?”

“I understand now.” Zheng Feng nodded. But her heart was still full of excitement, worry, and anticipation.

She wanted to know what Elder Chen Bai would look like.

In reality, she was not the only one who was curious. Zheng Fang was as well. And so were the two other ladies.

Ten minutes had passed. Some light shone down from the clear blue sky. Some time later, it allowed the sight of Xu Xue Ning on her flying sword to be seen.

Of course, she was not alone. Behind her was a middle-aged man in a silver male cultivator’s robe. He was Bai Chen.

It was clear he had used the thousand-face skill to turn back into his 30-year-old self.

That was not his own decision, though. Xu Xue Ning had asked him to.

From her words, Bai Chen could tell that she had gravely misunderstood him since she had asked him to go back to his real self.

For this issue, Bai Chen did not explain further. He did not feel like sharing about the thousand-face skill or the Life Changing System.

For the male cultivator’s robe, Xu Xue Ning had prepared the robe for him and begged him to put it on. If it was not for her, he would have worn his usual clothing.

She reasoned that the robe would make him look like a cultivator and not a normal person.

Bai Chen did not care much. He followed her using his stargazing walker skill.

Xu Xue Ning saw the four ladies waiting. She manoeuvred the flying sword to land in front of them.

Bai Chen followed her; his feet touched the ground. At the same time, he was looking at the group with Zheng Fang in front.

But then, he stopped in his tracks. This was because all the women in the group were beautiful.

Even though two of them were already in their middle age, they still had alluring figures and beautiful faces. It could be said that their beauty was enough to make Bai Chen pause in awe!

Since he looked at them, they looked at him as well. All their faces showed excitement and anxiety. They had no doubt he was a cultivator at the Sky Soaring Realm level.

Since he walked on the sky with no help from a flying sword, that already proved that he certainly was a real Sky Soaring Realm cultivator!

#### Chapter 115 The Welcome

“I, Zheng Fang, pay my respects to you, Elder.”

Before long, Zheng Fang, the Sect Lord, clasped her hands together and bowed low. She greeted Bai Chen with the utmost respect.

Then, her sister and the other two ladies followed suit.

Bai Chen did not seem surprised by how Zheng Fang and the others treated him politely and called him an ‘Elder’.

This was because he had figured out since before why Xu Xue Ning called him an ‘Elder’ and then asked for his help.

What he had also figured out was that Xu Xue Ning must have thought he was a Sky Soaring Realm cultivator or one of a higher level.

If not, there would have been no way that she would have asked for his help—since they were facing a threat from another Sky Soaring Realm cultivator.

If she had not thought he was a Sky Soaring Realm cultivator or of a higher level, asking him for help would have been equivalent to bringing him to his death.

Bai Chen reasoned it all out this way.

That was why the actions of the sect members did not surprise him at all.

“There is no need for formality,” Bai Chen said before clasping his hands and replying back calmly.

It was clear that he was extremely calm. Even his voice was extremely neutral. The way he was acting now was due to his understanding that Xu Xue Ning and the other members of the sect thought that he was a strong cultivator.

He did not want to let them down. That was why Bai Chen was acting like a powerful cultivator, like a Sky Soaring Realm cultivator or higher.

They secretly looked at one another when they heard his voice. Their hearts filled with joy and hope.

His voice, even though calm and emotionless, was somehow still clearly extremely friendly.

Not to mention how Bai Chen greeted them back with clasped hands. It was enough to tell that he was not one of those arrogant Sky Soaring Realm cultivators that did not regard cultivators of lower realms as worthy of attention.

When they saw how he was, how could they not feel happy and hopeful? With Bai Chen at the Lunar Land Sect, Tai Yang the Strange might have to reconsider attacking.

“Master, I think we should invite Elder Chen Bai inside to welcome him properly,” Xu Xue Ning said, her voice very relaxed.

Bai Chen’s arrival was enough to calm her fear of the sect being destroyed by Tai Yang the Strange.

“Xue Ning is right. We need to invite him to the inner pavilion.”

After she heard Xu Xue Ning, Zheng Fang said this quickly. At the same time, she turned to look at the two beautiful ladies behind her.

Once their eyes met, they understood right away that they needed to prepare a suitable welcome for Bai Chen.

In less than two minutes, they excused themselves as respectfully and politely as they could.

Zheng Fang nodded happily at her sister’s actions. She did not raise her head. It remained low.

“The Lunar Land Sect invites Elder Chen Bai to our inner pavilion.”

Zheng Fang said this with respect before moving aside as though to signal Bai Chen to walk in. She was to lead the way, so she waited there.

Bai Chen turned to look at Xu Xue Ning.

“Elder, this way please,” she said. Her incomparably beautiful face now showed a gentle smile.

Bai Chen froze for a second. Xu Xue Ning’s beauty was not something he could stare at for a long time, to begin with. One need not even mention when she smiled!

This was the first time he had ever seen her smile. That smile was beyond words!

To Bai Chen’s eyes, Xu Xue Ning was no longer human. She was an angel sent straight from the heavens!

A short time passed; he had to breathe in deeply before taking his eyes off her, nodding, then walking off.

Xu Xue Ning did not notice what happened because she had started walking since after the smile.

Zheng Feng started walking as well.

Surely, there was one who saw what had happened and realized Bai Chen had been stunned by Xu Xue Ning’s smile. Zheng Fang’s eyes gleamed as a thought ran through her head.

‘Maybe the elder agreed to help because he was charmed by Xu Xue Ning’s beauty!’

This thought of hers was not at all close to the truth. Bai Chen chose to help because he merely saw Xu Xue Ning as a friend.

Or, to make it simpler, he had agreed just because he had wanted to help.

It had nothing at all to do with him being charmed by Xu Xue Ning's beauty.

But surely, he did feel something for her. But he decided not to do anything because he knew well he did not suit her, and more importantly, Li Lin was the one who was in his heart.

Zheng Fang smiled in secret. She concocted a plan in her mind swiftly whilst she was following Bai Chen.

.....

Time passed slowly until nighttime. Bai Chen now was inside the inner pavilion.

This pavilion was the eleventh house at the end of the road.

He was inside an ancient-looking room by himself. Xu Xue Ning and the others had prepared it just for him.

During the short time that had passed, Bai Chen had received a simple yet elegant welcome from the sect.

After that, he had found out that the Lunar Land Sect cultivators were all females. There was not a single man in sight.

Other than that, all of them were pretty women. There were not very many of them, just twenty or so.

That was already including Xu Xue Ning, Zheng Fang, Zheng Feng, and the two ladies who had been waiting for him at the entrance.

"We need to put the four-star formation around the Lunar Land Sect right now. Hearing what Xu Xue Ning said, Tai Yang the Strange, the Sky Soaring Realm cultivator who wishes to destroy this academy, could show up at any minute!"

Bai Chen murmured this to himself whilst standing at the window. He looked out and saw a starry sky above him, thinking to himself that tonight was such an appropriate night for stargazing.

## Chapter 116 Installing The Formation

Bai Chen sneaked out of the pavilion bedroom, using the stargazing walker skill to exit through the window.

He journeyed up into the sky which was full of darkness, though there was still some moonlight shining through.

Reaching a certain height, Bai Chen stood still midair. His eyes were gazing down at the ground below.

Being at a certain height in the sky allowed him to see the whole area of the Lunar Land Sect clearly.

The sect itself was not very big. It was indeed a small sect like what Xu Xue Ning had told him when they had first met.

“It’s a good thing that this place is not very big. Otherwise, I wouldn’t be able to install the four-star formation,” Bai Chen mumbled and let out a sigh of relief.

That four-star formation that he had was of a low grade; therefore, the space around which it could be installed was limited.

That was the reason why Bai Chen sighed with relief when he found out that the four-star formation could indeed be installed around the Lunar Land Sect.

“I should do it now.” Bai Chen did not want to waste any more time. He quickly took the four-star formation out of the dimension ring, then quickly walked through the air to install it.

.....

While Bai Chen was starting to install the four-star formation, inside a room in the tenth house near the pavilion, Xu Xue Ning was standing in front of a wooden chair.

Zheng Fang was seated on the chair. Her face was both solemn and relaxed at the same time.

She looked at Xu Xue Ning a little before deciding to speak. “Xue Ning, what is your relationship with Elder Chen Bai really like?”

Xu Xue Ning could not comprehend why her master had asked this question. She replied with a polite tone, though. “My relationship with Elder Chen Bai is as I told master yesterday.”

“Is it really just that?” Zheng Fang asked curiously with a slight frown.

“That is it,” Xu Xue Ning replied almost instantly. Her beautiful, angelic face showed only curiosity.

Having heard Xu Xue Ning’s answer, Zheng Fang went quiet. The master started to ponder things in her mind.

‘If Xue Ning says so, then this must be the truth. Because Xue Ning doesn’t lie.’

Coming to this conclusion, Zheng Fang blinked a few times before revealing a smile.

She thought that Xu Xue Ning seemed oblivious about why Bai Chen had decided to help the Lunar Land Sect. The master looked at her student for a while before speaking in a solemn voice.

“Xue Ning, do you want the Lunar Land Sect to be a strong one or not?”

Hearing the question, Xu Xue Ning did not give her answer right away. She pondered it for a moment, not understanding why Zheng Fang had been asking her only strange questions.

She gave her reply nevertheless: “Of course, master, I want the Lunar Land Sect to be a strong one!”

For her, how could she not want her own sect to be strong? Not only would she become stronger as well, but no one could think to bully or destroy her sect with ease ever again.

Like the situation her sect was experiencing now!

“Then make Elder Chen Bai your husband!”

Zheng Fang said this very quickly. Xu Xue Ning had not even finished saying her last word more than a second ago.

“M... master, what did you say?!?” Xu Xue Ning’s beautiful eyes widened in shock. Her flawless body shook, hearing what Zheng Fang had just said.

The master had a very serious expression on her face. She did not pay much attention to Xu Xue Ning’s reaction.

“Xue Ning, in my point of view, Elder Chen Bai chose to help the Lunar Land Sect is all because of you,” Zheng Fang said. Her face was as serious as her voice.

“Because of me?”

“Correct. Because of you. Think about it. How else could our very small sect have a Sky Soaring Realm cultivator decide to help us? Not to mention the one looking to destroy us is another fellow Sky Soaring Realm cultivator!”

Zheng Fang stared at Xu Xue Ning without blinking. Her words made Xue Ning think hard about this fact.

Giving it serious thought, it was as Zheng Fang, her master, had said. It was almost impossible that Bai Chen would be willing to help a small sect that was actually unknown to him.

But she was still skeptical about the idea that it was because of her. The woman spoke with a low voice.

“I think Elder Chen Bai definitely has other reasons for agreeing to help. I don’t think it’s because of me...”

“Xue Ning, you still don’t know how beautiful you are, do you?” Zheng Fang interrupted her.

“What do you mean?” The woman seemed confused about what Zheng Fang was trying to tell her.

Zheng Fang shook her head a little. “You don’t know what a beautiful woman you are, Xue Ning?”

Xue Ning’s face changed. She seemed to understand what Zheng Fang had been trying to say.

“M... master, are you implying that Elder Chen Bai chose to help our sect because of my beauty?” she asked with a shaky voice.

Her thoughts went into disarray. To be frank, she had never thought of this before, and she felt quite skeptical about this idea.

Zheng Fang nodded towards her student. “So, you finally understand it. When you smiled, I noticed Elder Chen Bai looking at you in stupefaction. From my perspective, it seems he was captivated by your beauty. Otherwise, there are no other reasons for all this.”

“This...” Xu Xue Ning was speechless. She had never thought there would be such a thing.

“Therefore, the reason he’s helping the Lunar Land Sect now must be you!” Zheng Fang said once more and stood up from the wooden chair.

“Xue Ning, think about this very carefully. If you want the Lunar Land Sect to become stronger, you must make Elder Chen Bai your husband. I don’t think it’s a difficult task. It’s only up to you.” Zheng Fang said this as her parting remark before she left the room.

The master left Xu Xue Ning standing there blankly. Although Zheng Fang had not forced Xu Xue Ning, her words made Xu Xue Ning think very hard. She did not know what to do with the situation she was facing.

“What should I do?” she mumbled very softly to herself.

“But how is it possible that he likes me when he’s courting Xu In?” She then thought about this fact, which made her think even harder.

#### Chapter 117 Tai Yang The Strange

About thirty minutes had passed ever since Bai Chen had sneaked out of his room to install the four-star formation talismans around the Lunar Land Sect. Now, he had successfully installed the formation.

He had placed the four-star formation around the sect in all four directions, creating a thin white barrier.

But, of course, normal people or regular cultivators could not see the barrier. Only the person who had installed the formation or higher-level cultivators could see it.

After finishing the installation, Bai Chen did not go back to his room right away. He stood midair in the night sky.

The moonlight was not very bright today, though it was still bright enough for him to clearly see the sky—its greyish clouds and shining stars.

‘After I’m done helping Xu Xue Ning, I should go back to Li Lin.’ Bai Chen thought of Li Lin and realised that they had to do some reconciliation.

Though at that time she had said... he would have to pay for it later, Bai Chen felt that he would still have to sort things out with her. He would also apologise properly to her this time.

Bai Chen could not help but sigh when he thought about this. He then gazed towards a certain direction, which was where Xing Zhou City was located.

He clearly was not thinking at all of taking revenge on Wang Chengye and the Wang family, one of the five biggest families of Beijing, at this time.

However, it was not like he had totally abandoned the idea of taking revenge. His grudge ran too deep!

The reason for not thinking about the matter was because he knew full well that right now, he was not powerful enough to take revenge. That was why it could not be helped that Bai Chen would not think of this matter.

Other than that, there were many months left before Wang Chengye made his first appearance.

Bai Chen knew well what he should be doing right now. The thing that he needed to do most was none other than completing the missions given to him by the Life Changing System.

This was because the more missions he completed, the more special skills and items he would get.

In this way, his revenge would be a lot easier. He would kill Wang Chengye and completely obliterate the Wang family that had begotten him!

Bai Chen looked at the night sky for a while longer before deciding to go back to the room Xu Xue Ning had prepared for him.

He had successfully installed the four-star formation. Even though Tai Yang the Strange, the Sky Soaring Realm cultivator, showed up, he would not be able to trespass.

However, before Bai Chen turned around to return to his room, his gaze fell upon a faint green light that was traveling through the sky towards where he was standing.

He narrowed his eyes to observe the ray of light more clearly.

Not even ten seconds later, Bai Chen saw that the faint green light coming his way was none other than an old man in a strange black outfit.

His clothes were very strange. The outfit was not only thick, but it was also glittering like precious gems. The old man's whole body was shrouded in a faint green light.

The old man's feet were not moving at all, but his body still traveling through the sky at a constant speed—not very fast, but just fast enough.

“Tai Yang the Strange?” Bai Chen's lips moved. He could identify this old man right away.

It was not strange at all how Bai Chen could identify this old man in a black outfit right away, because he was not only clad in strange black attire, but he was also flying through the sky without a flying sword.

That was enough to indicate that he was a Sky Soaring Realm cultivator!

And the only Sky Soaring Realm cultivator traveling to the Lunar Land Sect right now was Tai Yang the Strange, who had said he would destroy the sect.

Therefore, it was not strange at all how Bai Chen could identify him so easily. The old man in a strange black outfit was indeed Tai Yang the Strange.

If Bai Chen could see Tai Yang the Strange, Tai Yang the Strange—a Sky Soaring Realm cultivator—would, of course, also see Bai Chen. The old man’s white brows furrowed tightly.

His deep gaze observed what was in front of him, where the thin white barrier barred the way. Other than that, there was a middle-aged man in his thirties standing midair behind the barrier.

“A Sky Soaring Realm cultivator!”

His lips moved as well. Tai Yang the Strange mumbled with great surprise when he saw clearly that the man behind the barrier did not have a flying sword beneath his feet.

The old man stopped almost instantly when he realized that the person in front of him was a Sky Soaring Realm cultivator.

He was extremely shocked, surprised, and incredulous.

Tai Yang the Strange could not believe that a Sky Soaring Realm cultivator would just show up at the sect he was wanted to destroy like this.

What overrode his incredulity was the stress that followed.

This was because after thoroughly observing Bai Chen, the old man found that Bai Chen did not radiate any trace of qi power into the air around him.

“This means he’s a very strong Sky Soaring Realm cultivator!” Tai Yang the Strange said to himself.

He clearly thought that Bai Chen was indeed a very strong Sky Soaring Realm cultivator.

The reason for that was the absence of any qi power radiating from Bai Chen’s body.

Cultivators who could withhold the power of qi from spreading outwards from their bodies were only the strongest of the Sky Soaring Realm cultivators.

Thus, how could Tai Yang the Strange not be stressed then? But despite all the stress, he did not feel afraid.

If they had to fight, the old man believed that he could defeat Bai Chen. But he did not want to fight with Bai Chen.

That was because a fight between Sky Soaring Realm cultivators always ended in the death of one party!

It could be said that it was a fight to the death for one person. Even though the victor survived, he or she would still suffer from fatal wounds.

Thus, why would Tai Yang the Strange want to fight with Bai Chen?

That was why the old man decided to ask what was going on first, starting from why Bai Chen was at the Lunar Land Sect and why he had installed the formation like this.

“Fellow Daoist, my name is Tai Yang the Strange. I feel extremely pleased to meet you.”

The old man's voice rang out through the sky to where Bai Chen was standing. The distance between the two was not a lot. Only three to four metres were between them.

## Chapter 118 Challenge

Of course, Bai Chen heard what Tai Yang the Strange said, but he did not think that the old man would greet him this politely.

He did not give it much thought though. Bai Chen thought that it was probably because Tai Yang the Strange thought he was a Sky Soaring Realm cultivator like how Xu Xue Ning's sect believed he was one.

Bai Chen observed Tai Yang the Strange for a little while before clapping his fists in greeting. He did it quite accurately too, thanks to all the Chinese martial art movies he had watched.

"Please call me Chen Bai. It is also a pleasure to meet you."

Tai Yang the Strange's eyebrows knitted because of the name Chen Bai. He had never heard it before.

But the old man thought Bai Chen was surely one of the cultivators who trained secretly on earth.

The world was a very big place. How could he not know that there were some cultivators who trained openly, and there were those who trained in private because they needed solitude? It was like cutting oneself off from the world.

In Tai Yang the Strange's mind, Bai Chen had just probably gotten out of secluded training.

Otherwise, there would be no way he would not know the face of any Sky Soaring Realm cultivator in China.

"May I ask what fellow Daoist Chen Bai is doing at the Lunar Land sect?"

Tai Yang the Strange looked at Bai Chen and asked about what he was currently curious about.

Bai Chen thought for a little while. To be frank, he had not expected to run into Tai Yang the Strange at all, as he had not thought that the old man would arrive this rapidly.

This was only his first day at the Lunar Land sect and Tai Yang the Strange had already shown up, so how could he be prepared to answer the old man's questions?

Nevertheless, he only took a while to find an appropriate answer. Bai Chen's eyes shone faintly.

p He knew what answer to give Tai Yang the Strange now.

"I'm the ancestor of the Lunar Land sect. How can I not leave my seclusion when danger comes to the sect?"

Bai Chen said this in a very relaxed manner. Also, his words were from Chinese martial art movies. It was what he was able to think of, and he did not hesitate to say it.

Tai Yang the Strange was shocked at this information from Bai Chen. His face changed drastically.

The old man did not expect this Sky Soaring Realm cultivator to be an ancestor of the Lunar Land sect.

Now he understood why Bai Chen was here and why he had installed the formation. Bai Chen had done all this to protect the Lunar Land sect and to make sure he could not eradicate it.

‘Damn it! The Lunar Land sect has a Sky Soaring Realm ancestor, but no one knew this!’

Tai Yang the Strange could not help but curse in his heart.

His face turned serious. From the second he knew Bai Chen was the ancestor of the Lunar Land sect, he realized that his eradication plan would not progress easily.

Even though things turned out this way, Tai Yang the Strange did not think of leaving, because he had already gotten himself here.

Beyond that, he had also made a vow. If he did not do anything to the Lunar Land sect, he would surely turn into the laughingstock of the world of cultivators.

“I really never thought that the Lunar Land sect would hide such a mighty figure. I, Tai Yang the Strange, am truly impressed.”

Tai Yang the Strange adjusted his facial expression. His face was now calm. He spoke with a faint smile.

Bai Chen did not care about Tai Yang the Strange’s words at all because what he’d said earlier was complete rubbish. How could he be the ancestor of the Lunar Land sect? What he’d said were just lies to answer Tai Yang the Strange’s questions.

Noting Bai Chen’s silence, Tai Yang the Strange suddenly felt irritated and upset.

It should be noted that since he had reached the Sky Soaring Realm, very few people had dared to ignore him. Tai Yang the Strange’s face darkened slightly. He was eyeing Bai Chen with hostility.

“So, you must know already that I’m here today to destroy your Lunar Land sect!”

Tai Yang the Strange’s cold voice rang out of his mouth. The air around the spot he was standing vibrated.

Observing from inside the energy barrier that stretched in all four directions, Bai Chen’s eyes widened a little. His heart unconsciously beat faster.

This was because just his words could make the air around him vibrate!

‘A cultivator...’ Bai Chen mumbled in his heart. He was also thinking that a cultivator was rather amazing.

They could not only walk in the air freely but could also do fearful, powerful things. Bai Chen was feeling the urge to become a cultivator, too.

However, he knew full well that he did not have time to do that. He had to quickly complete missions from the Life Changing System to get revenge against Wang Chengye and the Wang family quickly. And even though he aspired to be a cultivator, he did not know how to do it anyhow.

These reasons made him let go of the idea of becoming a cultivator.

But not being able to become one had no effects on him—just the Life Changing System alone was more useful than being a cultivator.

“I know that, and that’s why I’m waiting for you here. I want to know gives you the gall to think of destroying my Lunar Land sect?!?” Bai Chen said with an unchanging face.

Facing a Sky Soaring Realm cultivator did not put pressure on him at all. Bai Chen did not feel anything.

Of course, that was because of the energy barrier from the four-star formation that separated him from Tai Yang the Strange.

Should the barrier not exist... forget about a Sky Soaring Realm cultivator—just a Nascent or Foundation Realm cultivator would be out of the question! Bai Chen would not even have been able to withstand the pressure!

Hearing Bai Chen’s words, Tai Yang the Strange’s heart was ablaze. And naturally, this blaze was one of wrath!

He was now being challenged by the man in front of him.

How could he not be angry being challenged like this?!?

‘I have to kill him, even though I will have to withstand the agony of the wounds I will receive from fighting this louse!’ Tai Yang the Strange decided to kill Bai Chen to relieve this anger he felt.

“You are seeking death!”

The old man roared this with fury. Green waves of qi power billowed out of his body. The air around him appeared contorted!

It was quite an odd and fearsome sight to be seen!

With the sound he heard and the scene he saw, Bai Chen narrowed his eyes to half their size. His heart could not help but beat fast.

## Chapter 119 The Power Of The Formation

Bai Chen really could not have imagined what he was seeing in front of him now. He did not think that a Sky Soaring Realm cultivator would be able to do this much.

Inside, his heart was beating fast. Stress was starting to build up within him for the first time after the arrival of Tai Yang the Strange.

But the anxiety did not stay with him long. Bai Chen’s facial expression was one of calm.

At the same time, he thought that with the four-star formation in place, why should he be stressed about displays of Tai Yang the Strange's power?

"Seeking death?" Bai Chen said out of the blue. His words were like a taunt. "I think it's actually you who are seeking death!"

"You!" Tai Yang the Strange was so angry that his face was contorted. The green qi power spreading out of his body seemed to become even more aggressive. It was as if the air was being squeezed with its mighty power!

It was distorted second by second!

Deadly psychic force surfaced in Tai Yang the Strange's eyes. His mind was filled with the desire to kill Bai Chen.

"You think I wouldn't dare take you on?"

Tai Yang the Strange took a deep breath. The old man glared at Bai Chen like he could eat him alive.

Even though he was obviously mad and wanted to kill Bai Chen, he did not rush into action.

He thought that he was dealing with a fellow Sky Soaring Realm cultivator, so he could not afford to be careless. Tai Yang the Strange had to think of a way to kill Bai Chen so that he himself would receive the least injury from the endeavour.

Otherwise, he would likely be gravely injured.

This thought of Tai Yang the Strange confirmed the fact that he did not see himself on the losing side. He did not think that he would be the one to be killed; his heart was filled with confidence.

One of the reasons for him being so self-assured was the fact that Bai Chen looked very young in his eyes. He had broken through to the Sky Soaring Realm when he was 150 years old. And he had stayed in this realm for 50 years already.

It could be said that his power was such that he was among the top-level Sky Soaring Realm cultivators.

This was one reason that Tai Yang the Strange was confident that he could kill Bai Chen. In his eyes, Bai Chen was someone who had just recently broken through to the Sky Soaring realm.

"If you think you have what it takes, then come at me!"

Bai Chen challenged Tai Yang the Strange nonchalantly. He acted exactly like a mighty figure in martial art movies.

He slowly put his hands behind his back to make himself look more the part of a skilled figure.

"Brilliant! Absolutely brilliant!" Tai Yang the Strange could not fight against his own anger any longer. He let out an aggressive roar.

The old man found Bai Chen too conceited and haughty!

Without caring about the existence of the white barrier of the formation in front of him, Tai Yang the Strange's feet took one step onto the air in front of him. A wave of wind rippled out from his foot into the air.

His body became a quick, violent tornado that shot through the air.

Tai Yang the Strange's speed was extremely fast right now, so fast that it left an afterimage as he zipped forward.

Barely thirty seconds later, he was in front of the formation's barrier.

"Just a pathetic little formation. Be gone!" Tai Yang the Strange bellowed. His voice was loud and echoed in the air. Horrifying-looking black-green qi power shook the atmosphere, shooting from his body.

The old man then lifted up his fist. Veins bulged along his fist and arm.

Tai Yang the Strange punched his fist wrapped in green qi power at the barrier. His face was full of anger. His lips revealed a cold smile.

Boom!

Tai Yang the Strange's fist made violent contact with the four-star formation's barrier. There was a sudden explosion of air!

This led to white smoke shrouding the area. It made it difficult to see the Tai Yang the Strange's body.

The curtain of white smoke that appeared was a clear indication that the first Tai Yang the Strange used to punch the four-star formation barrier was indeed very terrifying.

If he punched a normal person with that fist, that normal person's body would definitely disintegrate!

Bai Chen, who was standing inside the formation, was not affected. His eyes widened, staring at the curtain of white smoke in front of him with his heart pounding in his chest.

He wanted to see the condition that Tai Yang the Strange was in now, after being brave enough to punch the four-star formation with his fist.

The old man's movement earlier had shocked him considerably. He did not see what had happened at all. All he saw was that Tai Yang the Strange had seemingly vanished and then appeared in front of the barrier and punched his fist into the formation.

Bai Chen had not seen the other party's movement at all!

That was enough to show the difference between a cultivator and a normal person.

Even though his vision had improved significantly due to the low-grade martial arts technique that he had received from the Life Changing System, it was not enough to see the movements of a Sky Soaring Realm cultivator like Tai Yang the Strange.

Barely one minute later, the white smoke began to clear up. It was blown away by the night breeze.

As the white smoke gradually subsided, it exposed the figure of a person standing in front of the white energy barrier.

His face was contorted and hideously ugly. It was a very appalling sight to see; it was as if he had just eaten dog faeces. Great streams of cold sweat flowed out of his forehead.

It was not only his forehead that was sweating. His whole body was so drenched in sweat that his whole outfit was soaked.

Tai Yang the Strange's heart was skipping beats. He was breathing very heavily. His face that was full of sweat was drained of colour.

The old man's body suddenly shook. Fear could be seen in his eyes.

Yes... it was most definitely fear. And it was a level of fear that Tai Yang the Strange had not experienced for many decades, ever since he had broken through into the Sky Soaring Realm.

"N... not true... this is impossible!" Tai Yang the Strange spoke with a shaky voice, filled with clear incredulity and horror.

It was not just regular fear but extreme, unbelievable terror!

"My dantian..." The old man wanted to cry but no tears came out. His stomach at the moment had a terrifying bloody hole the size of a fist!

#### Chapter 120 A Decisive Blow

Right now, Tai Yang the Strange could not suppress the pain he was feeling anymore.

He stood still like a body lacking a soul. His stomach had a bloody hole that was a result of his own fist smashing into the four-star barrier earlier.

It was not only the wound. His dantian had also been destroyed by the energy from his own punch, bounced back by the formation.

It was very terrifying for him!

Having one's dantian destroyed was a very disastrous thing for cultivators.

It crippled them to the point of not being able to practice their qi and be cultivators anymore!

"M... my qi!"

Tai Yang the Strange had an extremely ugly expression right now. His face was wet with tears and mucus.

The Sky Soaring Level of qi for which he had trained very hard all his life was now flowing furiously out of his dantian. It was as if what was flowing out of it was not qi but a violent flood of water.

"N... no! Don't flow out!" Tai Yang the Strange screamed like a maniac.

He tried his best to stop the qi from leaking out.

However, he could not hold it back because his dantian had been destroyed by his own punch.

When a dantian was destroyed, it meant that the qi contained within it could not be controlled anymore.

Tai Yang the Strange thought he was no different from a dead person at the moment.

He was filled with sorrow. The anger that had driven him to kill Bai Chen vanished the moment his dantian was destroyed.

Bai Chen looked at the deranged Tai Yang the Strange without doing anything.

He did not know what had happened exactly. But seeing the green aura flowing out of Tai Yang the Strange's stomach and hearing his screams helped him piece everything together.

A character's dantian being destroyed was seen quite a lot in martial art movies or series!

This was indeed a very good thing for Bai Chen. He did not expect the four-star formation to be so strong.

With just one attack from Tai Yang the Strange, a Sky Soaring Realm cultivator, everything had already ended.

The four-star formation reflected his attack back at him with fearsome power, destroying his own dantian in the process!

Everything had ended unconditionally!

In Bai Chen's mind, when Tai Yang the Strange's qi was emptied from his body, he would then be no different from a normal person. That would be the perfect time to strike.

One minute later, Tai Yang the Strange could no longer maintain balance in the air. He fell down to the ground below like a bird with a broken wing.

His face was pale and full of sweat. It was tragic. Fear was evident on his face. The old man looked very much like a person who had lost his mind.

His heart was filled with immeasurable sadness that could not be put into words.

He was sorrowful!

He regretted showing up here today very much!

No, he regretted vowing to destroy the Lunar Land sect only because his grandson had been rejected by a beautiful woman in this sect!

Thinking about this, Tai Yang the Strange was filled with anger towards his own grandson to the point of wanting to kill him!

If such a thing had not happened, then he would not have to face this situation.

What made Tai Yang the Strange regret this whole thing the most was that he had had too much confidence in himself.

He was so self-assured that he could kill Bai Chen that he had overlooked the barrier of the formation in front of him. And this had brought about his end.

With this reason, how could he not feel deep sorrow?

“Damn it!”

Falling onto the ground, Tai Yang the Strange cursed loudly. He could not control his own body, which made him feel both cowardly and terrified.

Hitting the ground from this height, even if he did not die, he would suffer very severe, life-threatening injuries.

He felt even more fearful.

Tai Yang the Strange surely feared death. Actually, it was not death from hitting the ground that he was afraid of—what he was afraid of was Bai Chen!

Yes! It was Bai Chen. He was afraid that the Sky Soaring Realm cultivator would take this opportunity when he lost all his qi to attack him.

From a king to a mere insect!

That was the only explanation for his situation right now!

Bai Chen was certainly observing Tai Yang the Strange’s fall. His eyes narrowed slightly. They appeared to be shining.

When he saw that the green qi had been drained completely from Tai Yang the Strange’s body, Bai Chen knew it was the perfect chance to strike.

Tai Yang the Strange was indeed a threat to Xu Xue Ning’s Lunar Land sect. Even though he was not a Sky Soaring Realm cultivator anymore, Bai Chen nevertheless had to kill him.

It was because this Tai Yang the Strange was not a good man. An evil person like him deserved death!

He rushed through the air towards the falling body of Tai Yang the Strange without hesitation.

He broke through the white barrier of the four-star formation with ease because he was the one who had installed it and had been inside the barrier during the installation process. This meant he could enter and exit freely, unlike those who were outside when the formation was being installed.

Bai Chen’s speed was not the fastest, but he could reach Tai Yang the Strange just before he hit the ground.

“D... don’t!”

Seeing Bai Chen reach him, Tai Yang the Strange was so terrified that his body shook like he was possessed. He cried out loudly.

But how would Bai Chen listen to him? He violently punched Tai Yang the Strange’s neck.

Crack!

The sound of bones breaking could be heard. Tai Yang the Strange’s eyes rolled back into his eye sockets. His face upon death was full of terror and an unwillingness to pass away.

Bam!

His soulless body with a limp neck that appeared boneless hit the floor loudly. A great amount of blood spewed out of his stomach. This blood was the result of the wound of his own fist's making.

Bai Chen slowly came down to stand on the ground. He looked at Tai Yang the Strange's dead body emotionlessly.

But he could not help but feel a strange emotion in his heart. This was because this time the person he had killed was not a normal person. He was actually a very powerful cultivator!

Though he felt strange, he did not give it much thought. Bai Chen bent and grabbed Tai Yang the Strange by the collar of his outfit before he took the body back to the Lunar Land sect.

His blow this time had been very decisive!

He did not even care about what Tai Yang the Strange had been crying out.

As he dragged Tai Yang the Strange's dead body back to the Lunar Land sect, Bai Chen could not help but think about how very easy this had all been.
