### Chapter 121 An Unbelievable Story

It did not take even a minute for Bai Chen to bring the body of Tai Yang the Strange into the confines of the four-star formation.

He released the collar of the outfit on the body before looking at it a little. Bai Chen found that Tai Yang the Strange had died with his eyes wide open. Both eyes were rolled back so that the whites could be seen and revealed the fear in them.

Bai Chen had had no conflict with the old man from the start, so he closed the eyes using his hand. 'Now that Tai Yang is dead, the Lunar Land sect should no longer be in danger.'

Bai Chen thought this to himself before rising to his feet after closing Tai Yang's eyes a moment earlier.

He stood still for a while before using the stargazing walker skill to collect his four-star formation.

He spent less than ten minutes doing so, before sending it back into the dimension ring instantly.

After stowing away the four-star formation, Bai Chen brought Tai Yang the Strange's body to the inner pavilion.

He wanted to show the body to Xu Xue Ning and the other members of the Lunar Land sect.

When they learned about Tai Yang's death, they would finally relax and be happy, because his death would mean the cloud of danger that had been looming over the sect had finally been dispersed.

While bringing the body to the inner pavilion, Bai Chen thought of going home tomorrow. In his mind, this place no longer needed his help.

He spent less than ten minutes getting to the inner pavilion.

There was not a single Lunar Land sect lady in sight—only lights shining through the windows of many houses on his path could be seen.

The man merely thought that it was late. Thus, it was normal for the ladies to be resting inside and to not come out.

Bai Chen took his hand off Tai Yang's collar once more. He was preparing to enter the inner pavilion in order to call Xu Xue Ning and friends to come see Tai Yang the Strange's body.

However, Bai Chen froze. He no longer wanted to go to the inner pavilion because he suddenly remembered there was nobody there.

When Xu Xue Ning was preparing his room, she had told him that all of them were going to stay in the tenth house so he stayed in the pavilion comfortably by himself.

Of course, it was because they thought he was a Sky Soaring Realm cultivator.

When a Sky Soaring Realm cultivator visited the sect, how could they not welcome him to the best of their abilities?

Bai Chen stood and thought to himself before deciding to go see Xu Xue Ning at the tenth house. He turned towards the house which was located close to the entrance to the pavilion where he was standing.

But when he turned around, Bai Chen was surprised as he saw the house's door swing open. Three people walked out hurriedly. They were Xu Xue Ning, Zheng Fang, and Zheng Feng—their faces expressed panic.

The reason they had hurried out of their house was that the smell of blood was in the air.

Naturally, Zheng Fang and Zheng Feng had sensed it because they were Earth Solid Realm cultivators. Xu Xue Ning, being only at the Formation realm, did not have the ability to sense it.

It was obvious that the level of cultivation made a world of a difference, as could be seen from the far-reaching senses of the Earth Solid Realm cultivators.

The fact that Xu Xue Ning had also come out must have meant that she'd heard the footsteps of the other two.

When she had heard them, she also left the house with no hesitation. If not, all the cultivators of the Lunar Land sect would have also rushed out to observe the situation as well.

When the three came out of the house, their eyes widened considerably and their hearts beat fast when they saw a body of an old man.

Even though they were quite far off, for a Formation Realm cultivator as Xu Xue Ning herself, to tell whether a body was breathing or not posed no challenge at all.

The Zheng sisters' reactions were the same as Xu Xue Ning's. The three of them were shocked, panicked, and awed at seeing the old man's dead body.

"What happened?" Zheng Fang whispered. She calmed herself down very quickly.

Seeing a dead person was nothing new to her. She had seen plenty and had even killed a number herself. It was normal for her to have calmed down relatively quickly.

Zheng Feng and Xu Xue Ning had also calmed down now.

They moved their gazes from the body up to Bai Chen who was standing there with an expressionless face. They knew, with one hundred percent certainty, that this had something to do with him.

Bai Chen met all of their eyes before pointing at Tai Yang the Strange's dead body.

Under the darkness of night, he thought that it was normal if they had not seen Tai Yang's face clearly, even if they were cultivators.

"This was Tai Yang the Strange. I killed him for you," he said, his voice exceedingly calm.

"W... what?!?"

The three of them shouted in unison after hearing what Bai Chen had said. Their combined voice was shaky, as were their stances.

The three widened their eyes and looked at Bai Chen as if he were a cryptid.

If what he said was true, then he was not different from a cryptid. This was because he had just killed a Sky Soaring Realm cultivator and sustained no injuries whatsoever.

That, to their eyes, was no different from being a cryptid!

After a while, the three of them took deep breaths, trying to suppress all the emotions within themselves.

Zheng Fang slowly stepped forward towards Tai Yang the Strange's body. When she got close enough to see the body's face, she froze on the spot.

Her eyes almost fell out of their sockets. Her heart almost stopped beating. Even her breathing was uneasy.

‘It... it truly is Tai Yang the Strange!’ Inside, Zheng Fang was thoroughly shaken!

Among the three ladies who had rushed out, she was the only one who had seen Tai Yang's face before. Thus, it had to be her who stepped forward to look.

Yet, she still could not believe that a Sky Soaring Realm cultivator such as Tai Yang the Strange would meet his end in this fashion. To her, this was such an unbelievable story!

#### Chapter 122 A Grave Misunderstanding

Within a room of the inner pavilion, Bai Chen sat on a wooden chair. In front of him was a round wooden table. On that table was a steaming cup of tea. The tea had been poured after being freshly brewed.

He was not alone in this room. In front of him were Zheng Fang and Xu Xue Ning. Both their gazes were fixed on him.

Their eyes showed not only respect but awe. They thought of him as a god. These gazes were completely different from when he first arrived.

Surely, the cause for this change was none other than that he had already killed Tai Yang the Strange.

Now, Xu Xue Ning and Zheng Fang shared the same thought—that was Bai Chen was not at the Sky Soaring Realm any longer. He must be in the Legendary Realm now!

If not, there was no way he could have killed Tai Yang the Strange without sustaining serious injury himself!

Not getting injured was one thing. But even Bai Chen's robe was the same as it was before! It had not even gotten wrinkled!

With all this information, how could the two of them still think that he was in the Sky Soaring Realm?

He must surely be a Legendary Realm cultivator!

Only a Legendary Realm cultivator could kill a Sky Soaring Realm cultivator as easily as one chopped vegetable or killed a fish.

Even though the numbers of Legendary Realm cultivators were much fewer than that of the Sky Soaring Realm, with less than five in the whole of China, they had seen one once. It had been a tournament held by all the sects in China for their cultivators to fight in. The event was held once every five years.

Bai Chen sat there, oblivious to the fact that the two ladies in front of him had made some major assumptions about him, to the point that they thought that he was a Legendary Realm cultivator.

He looked at Xu Xue Ning before saying, "I helped you as you asked. Tomorrow, I wish to be taken back to Xing Zhou City."

Xu Xue Ning appeared as though she had just come to her senses after looking at him like she had been looking at a god. She looked down before replying quietly, "Yes, sir."

But after replying, she could not help but think about the matter from before. Zheng Fang and Zheng Feng had told her that Bai Chen had decided to help because he was infatuated with her.

Whenever Xu Xue Ning thought about this, her emotions were stirred up beyond control.

It was because she had thought that Bai Chen was pursuing Long Xu In and he was the one who had confirmed this to be the truth.

If it was like that, how could he be infatuated with her? The more Xu Xue Ning thought about it, the more confused she got. She did not know what to do.

"Elder, you're leaving already?" While Xu Xue Ning's emotions were in a disarray and her thoughts were confused, Zheng Fang mustered up the courage to speak. She needed to take a deep breath before asking her question.

Bai Chen moved his gaze from Xu Xue Ning to her, then nodded. "Yes, I'll be leaving."

"Elder... can't you stay awhile longer? I'll have Xue Ning show you around our sect," Zheng Fang said. All her thoughts now were focused on keeping Bai Chen here for as long as she could, so that his relationship with Xu Xue Ning could develop.

Because if the two were to marry, the Lunar Land sect would immediately become a mighty sect!

Having the support of a Legendary Realm cultivator meant that nobody would ever dare look down on or try to destroy the Lunar Land sect again!

That was the reason she needed him to stay on.

Bai Chen shook his head in response to Zheng Fang. "It will have to be another time. I have many more things to handle."

Bai Chen was sure he did not want to stay on, so he refused the invitation. He grabbed the teacup and took a sip. He felt extremely calm.

But he still felt a little strange from the change in the gazes of Xu Xue Ning and Zheng Fang.

It was obvious that he saw how they looked at him. It was markedly different from before.

‘That’s a pity...’ Zheng Fang shook her head, disappointed. She secretly sighed but still believed that there were still many more chances if Xu Xue Ning and Bai Chen stayed in contact.

‘Why is Zheng Feng not yet here?’ She suddenly thought of her sister.

The reason Zheng Feng was not in the room was that she had gone to take care of Tai Yang the Strange’s body. But it had been 15 minutes since then, so Zheng Fang could not help but wonder.

The room went quiet. The three did not say anything else to each other.

.....

The next day, Bai Chen left early in the morning to go back to Xing Zhou City with Xu Xue Ning.

Before he left, the members of the Lunar Land sect came to bid him farewell with the utmost respect.

He said goodbye politely before leaving.

While Bai Chen was on his way back to Xing Zhou, a big problem occurred within the confines of the Xing Zhou police station.

This big problem was that the previous inspector of the station had asked to be transferred to a station in another city as soon as possible.

This inspector was the brother of Liang Hao, the former leader of the White Tiger Gang, who had just been murdered.

His hasty request was due to fear. He was afraid of how the White Tiger Gang had been completely eradicated. He was afraid that if he remained in Xing Zhou, the powerful people who had eradicated the White Tiger Gang would come for his life too.

His abrupt departure caused a new inspector to be sent over.

It could clearly be seen that the Central Police Department worked fast. The old inspector had just transferred out for a day and a new one had been sent to the station immediately.

Now, the Xing Zhou police station was filled with a rather jolly atmosphere to welcome the newly-arrived inspector.

All the officers in Xing Zhou police station gathered to welcome the new inspector happily and as befitting of the new supervisor’s position.

Every single police officer of Xing Zhou station was there. Not one person was missing. Even Superintendent Yang was there as well.

It was clear that the new inspector was an important person. If not, Superintendent Yang, the most powerful police officer in Xing Zhou station, would not have rushed here this early to welcome them.

Inside an office in Xing Zhou police station, Lieutenant Jong stood in front of the new inspector's desk nervously.

He was being interrogated on how the White Tiger Gang had been eradicated.

Of course, the officer who was interrogating him was the new inspector of Xing Zhou police station.

Documents on the table were flipped through with delicate hands. A long black triangular nameplate on the desk showed the title and the name of the officer who was its owner.

Police Lieutenant General Xu Xin Tong was the name of the new supervisor!

Chapter 123 Xu Xin Tong

Who would have believed the new police inspector of Xing Zhou would be a woman? Her name was Xu Xin Tong.

She had a gorgeous face, clear fair skin, and a beautifully shaped nose. Her bright eyes were like crystal. Her short hair hung down just to her neck.

Her figure was excellent as well. Her chest was reasonably large.

The flawless exterior was even more alluring in a police uniform.

All the men in the station had been amazed since the very first time they had seen Xu Xin Tong. It was because none of them expected the new police inspector to be a beautiful lady.

On top of all that, she was just 23 years old.

The fact that she had become a police lieutenant general at such a young age showed how talented she must be.

“Lieutenant Jong, is this all the information on the White Tiger Gang case?”

After flipping through the documents, Xu Xing Tong looked up at Lieutenant Jong.

Lieutenant Jong seemed like he was pressured by her gaze. He looked at the floor and replied, “Yes, Inspector.”

Xu Xin Tong had a contemplative face. The information they had now was almost no different from having nothing because they still had no suspects. They did not even know the motive of the people who had wiped out the White Tiger Gang.

“Please leave.”

Finally, Xu Xin Tong decided to put this issue aside. She told Lieutenant Jong to leave her office.

Naturally, Lieutenant Jong did not waste time, quickly saluting and leaving the room hurriedly.

It was clear that even though Xu Xin Tong had just arrived at Xing Zhou police station today, Lieutenant Jong already had a lot of respect for her. His respect for her did not stem only from her title.

Her family also played a huge role because she carried the Xu surname. Of course, her Xu family was the same Xu family that was one of the five biggest families in Beijing!

Actually, Xu Xin Tong's face looked a lot like Xu Xue Ning's. Even though she was not as pretty, one could tell they were sisters.

Yes... this Xu Xin Tong was Xu Xue Ning's little sister. She was also the older sister to Xu Er, too.

That was why Long Xu In had asked Xu Er which sister she had come with that day when they had met.

Even though Xu Xin Tong looked like her sisters, their personalities were totally different.

A beautiful woman like her had chosen to become a police officer was enough to say how decisive she was.

"This case must be closed in a month. I will root you out!" Xu Xin Tong said in a cold tone. Her pretty face was as cold as her voice.

The reason behind her facial expression was because she really hated criminals, killers, and terrorists of all kinds.

Otherwise, she would not have become a police officer to get eradicate them all from society.

The pretty pair of eyes looked down at the case file once more before frowning.

"But without any leads, it will be hard to close this case in a month."

Xu Xin Tong sighed slightly before picking up a phone from a luxury brand set before her on the desk and dialling a number.

Someone picked up before long.

"Where are you, big sister?" Xu Xing Tong asked.

"I'm on my way to Xing Zhou." A voice rang from the other end.

"Understood. We'll see each other tonight then," Xu Xin Tong said before hanging up. The one she had called was none other than Xu Xue Ning, her older sister.

They had not seen each other in months. It was natural that she wanted to meet up with her after taking up a position in Xing Zhou, the city where her siblings were living.

After hanging up, she put the phone down before leaning back in the chair. She massaged her temples with those delicate hands to reduce the small headache she had.

She had been busy clearing up a lot of work before moving to Xing Zhou, so she had not been resting properly these past few days.

Xu Xin Tong closed her eyes before sighing a little. She was truly exhausted today.

.....

After leaving the beautiful inspector's office, Lieutenant Jong heaved a big sigh. Then, he walked over to Superintendent Yang's office.

He knocked and entered hurriedly after receiving permission to do so.

Inside the office, Superintendent Yang sat behind a desk cluttered with three sizeable piles of documents.

“Superintendent Yang, sir,” Lieutenant Jong greeted him politely.

“Lieutenant, have a seat.” Superintendent Yang asked him to sit. His face showed curiosity and confusion.

“How is she, Xu Xin Tong of the Xu family? Is she like how the rumors describe her?” Yang Gao asked. Lieutenant Jong nodded without hesitation.

“I think so, sir. She has just arrived and she asked me to bring her the White Tiger Gang’s case folder. Then, she asked a great many questions about the case in a thorough manner.”

Yang Gao’s brows furrowed a little before he said, “Looks like the nickname ‘the case-obsessed ice princess’ is accurate then. But there are very few cases she can’t crack.”

“Superintendent, what should I do about this case? Should I continue to take care of it or let the inspector take over?”

“Just let her do it. I would like to see for myself how good the case-obsessed ice princess is,” Yang Gao replied. Then, he remembered something; it made his expression turn solemn.

“Lieutenant, why do you think she was sent here?”

Seeing the Superintendent’s sudden change in expression, Lieutenant Jong’s heart skipped a beat and he started to feel uneasy. He shook his head; he had no idea.

“I don’t know, sir.”

Yang Gao sighed. He knew that Lieutenant Jong would not have an answer, but he just had to ask to be sure.

Eventually he decided not to care about this any longer, so he changed the subject to the White Tiger Gang instead.

“About that case, has any progress been made?”

“No progress at all, sir...” Lieutenant Jong shook his head as a reply.

He was at his wit’s end. Apart from the crime scene and dozens of bodies of the White Tiger Gang’s crew, he had no other evidence that could lead to the perpetrators.

#### Chapter 124 Young Master Chin Fei

In a room of a luxurious hotel in Xing Zhou, a good-looking young man was sitting on a sofa.

Behind him were two bodyguards in black suits. In front of him there was a costly table and on it was a bag with a large amount of money in it.

If one were to count it accurately, there was a total of 10 million yuan inside!

Across from him was an average-looking middle-aged man. He was wearing unremarkable clothing.

His face showed no emotions, but his gaze was fixed upon the money. He did not look away even for a second.

“Uncle Hei, I hope you will accept this job.”

While looking at the middle-aged man, the young one smiled. He smiled until his eyes closed, until one can barely see those pair of black eyes that resembled that of a venomous creature.

The middle-aged man called ‘Uncle Hei’ looked up, his face contemplative and his eyebrows knitted slightly before he looked at the face of the handsome man.

“Young Master Chin, you know well how very risky this job is. Killing a member of one of the big five families is not an easy task.”

Chin Fei’s smile remained it was a relaxed smile. “Come now, Uncle Hei, everybody in the underworld knows that you’re the top assassin of the Shei You Assassin Guild.”

Uncle Hei’s face turned gloomy once he heard the mention of the Shei You Assassin Guild. After that, he sighed and shook his head emotionally.

“That is all in the past. The Shei You Assassin Guild was destroyed five years ago. Young Master, please don’t bring it up anymore.”

Chin Fei knew very well that the most famous assassins’ association in China had already been destroyed.

The reason he had brought it up was to tout Uncle Hei or Hei Chang’s prowess just so that he would take the job. He used to be the number one killer of the guild.

The task was to kill someone who was very much hated by Chin Fei. He despised this person with all his being, and that person was none other than Xu Xin Tong!

Two years ago, when she had first graduated from the police academy and stepped into the role of a police lieutenant on the Beijing police force, she had made her name by killing Beijing’s biggest drug lord.

From that one case, her title had been boosted from police lieutenant to police major in an instant.

Chin Fei was very angry with her because that drug lord was his father! That was why his grudge against Xu Xin Tong was so strong that he had to find a killer to murder her to resolve it.

Of course, this was not the first time Chin Fei had tried to send someone to kill her. He had tried several times already, but had always failed. Not one of the killers he’d hired had succeeded in killing Xu Xin Tong!

All the assassins he had hired had either been caught or killed. All these failures were because Xu Xin Tong was in Beijing.

She was an officer in the Beijing police force and was an heiress in one of the five big families. There was no easy way to kill her.

That was why Chin Fei had traveled to Xing Zhou city as soon as he had heard about her transfer.

This time Chin Fei believed that Xu Xin Tong would surely die. This was a chance sent to him by the heavens!

Not only was she no longer in Beijing, but now Chin Fei had also tracked down the best killer of the Shei You Assassin Guild. If this was not a chance from the heavens, he did not know what to call it.

“I understand, Uncle Hei. But I do still hope you accept this job. I want so much for that horrid wench Xu Xin Tong to die!”

When Chin Fei spoke of Xu Xin Tong, his voice turned cold. His expressions turned icy, and the smile on his face was wiped away instantly.

Hei Chang did not agree right away. He was still lost in thought.

Truthfully, the Shei You Assassin Guild had been destroyed because someone had taken on the job of killing the granddaughter of some weird old man who happened to be a ‘cultivator’.

Disaster had befallen the assassins’ guild. It had been wiped out. Apart from himself and two others that had made it out in time, the rest of them had been killed!

Since then, Hei Chang had not accepted any other assassination jobs.

But after having thought this over thoroughly, he decided to take this job. Ten million yuan was a lot of money after all.

He was not short on money, but having more could not hurt.

“All right, Young Master Chin. I will take the job. In any case, your dad was an old friend of mine.”

When he heard Hei Chang’s words, Chin Fei was so happy that he had to smile once more.

“Thank you very much, Uncle Hei.”

“No need to thank me, since you are paying me for this,” Hei Chang said with a smile.

“When will you do it? I want to see that horrid wench dead as soon as possible!” Chin Fei’s eyes glittered with a cold light.

Hei Chang thought for a while. He had not handled anyone in years. Naturally, his skills had gotten somewhat rusty. He could no longer guarantee that he could kill someone in a day like before.

“Give me a week.”

That was the best Hei Chang could do for now.

“That’s excellent, Uncle Hei.” Chin Fei nodded gleefully. He had had to endure seeing Xu Xin Tong surviving for three long years. Just another week was nothing.

This time he firmly believed that Xu Xin Tong would die because the one set to kill her was Hei Chang, the top killer of the Shei You Assassin Guild. He had never failed on a job in the past.

As such, Chin Fei had no doubt in Hei Chang's abilities.

'Xu Xin Tong, this is the last week of your life!' Chin Fei smiled coldly in his heart.

Hei Chang no longer wanted to waste time here. He took half the money, or 5 million yuan, and excused himself to leave to prepare to kill Xu Xin Tong.

Chin Fei did not stop him but watched him leave with a warm smile.

"Liu, Pa," Chin Fei said after Hei Chang left.

"Yes, sir."

The two black-suited bodyguards replied courteously, respect for Chin Fei showing on their faces.

"You two want to see that horrid wench die as much as I do?" Chin Fei asked. His tone was very cold.

The two men stole a look at each other before replying.

"Absolutely, sir."

They replied almost at the same time. The two of them had served Chin Fei's father before. Why would they not want to see their former boss's killer dead?

Chin Fei let out a smile. "She will die before long!"

He said this before leaning back on the sofa, relaxed. His heart now only wished that Xu Xin Tong would be killed soon and nothing else.

## Chapter 125 A Tougher Mission

By that afternoon, Bai Chen had gotten back to his house.

He and Xu Xue Ning separated after her private jet landed at Xing Zhou airport; after that, he took a cab home.

Xu Xue Ning had actually insisted on sending him all the way home, but he had refused.

Since she thought he was a Sky Soaring Realm cultivator, letting her see his parents' place was not a great idea.

Therefore, all things considered, Bai Chen could not help but refuse. When he got home, he received a warm welcome from his parents.

They both asked about his trip to Dong Hai Island. Bai Chen had to lie that he had gone to many places on the island, even though truthfully, he had only gone to San Hai Casino.

However, for him, going to San Hai Casino was not something he could share with his parents.

Afterwards, he went up to his room and collapsed on the bed from exhaustion. This journey felt much longer than he had expected, even though it had only been a couple of days long.

But it was not odd for Bai Chen to feel that way because not only had he gone to the Long family's vacation home, but also to the Lunar Land sect with Xu Xue Ning. There was also the matter of killing a Sky Soaring Realm cultivator.

“After this, I'll probably have to call Li Lin.”

Bai Chen murmured this to himself lying in bed.

It was obvious that he had not forgotten to call that adorable girl. Truthfully, throughout his journey back, he had been missing her somewhat.

“First things first, I have to look at my new mission and use the roulette bonus.”

Bai Chen sat up and let his legs hang down. He called up the Life Changing System's window to look at it.

---

### [The Life Changing System]

User: Bai Chen

Age: 18 years old

Level: 4 (0/100)

Description: You still need 100 points to level up.

Instruction: If you wish to change your life into what you have always wanted, proceed with the following missions!

[Mission Dashboard]

Mission 21: Create a debt of gratitude (30 points)

Mission 22: Change someone's life (50 points)

Further instruction: The order of mission completion is irrelevant. After you are done with the tasks assigned to you, you will be given a chance to receive special skills or items at random. The skills or items will give you a better life!

[You have 1 opportunity to receive special skills or items at random.]

---

Bai Chen fell silent after seeing the names of the two new missions.

The fact that he leveled up did not surprise him much. The system had already notified him of this.

“Create a debt of gratitude... change someone's life.” The young man could not help but mumble aloud.

The two new missions' names were bizarre. They were totally different from the previous ones, which had been very specific.

At the same time, Bai Chen's eyes swept down towards the points for completing Mission 22.

“What the...” His eyes widened instantly; his heart was pounding, “Fifty points!”

Bai Chen could not help but be surprised because this mission would yield the most points for success compared to the previous missions. The previous twenty missions were nowhere near this.

He took a deep breath and hesitated a little before clicking to view the information on Missions 21 and 22.

---

### [Mission 21: Create a debt of gratitude]

Instruction: You need to save a person's life from the hands of a skillful assassin.

Reward for success: Receive 30 points

Penalty for failure: You will be hunted by one of the big clans and that person you need to save from the assassin will die.

---

### [Mission 22: Change someone's life]

Instruction: You need to change a person's life. The person's life is nearly at its end. You need to save this person's life, in order to change this person's life.

Reward for success: Win 50 points and receive the utmost gratitude.

Penalty for failure: You will never live a peaceful life!

---

Bai Chen took a deep breath once more. Both his brows furrowed tightly, and his breathing was heavy and uneven.

These two new missions were vastly weirder than and different from his previous twenty.

The most notable point was they did not specify if he had to help a man or a woman. They merely referred to ‘this person’ or ‘that person’ instead.

“Or do the missions get tougher after Mission 21?” Bai Chen could not help but think that, and what he thought was quite accurate.

Of course, with missions that were harder, the rewards got higher as well. But that Bai Chen already knew.

“At least there is an arrow that points me in the right direction. It is too bad there is no exact time.”

Bai Chen sighed, but he did not give up. His only thought was to follow the arrow.

In his mind, even if he had to wait, he had to do it. Otherwise, he would have no way to level up the Life Changing System and would miss out on special skills or items.

When he thought about those special skills and items, he naturally thought of the one roulette bonus he had at the moment and did not hesitate to use it immediately.

.....

It was five in the evening at a barbecued meat skewers stall close to the main road.

Bai Chen, dressed in a casual outfit, sat there with a smile. In front of him was a tiny square table that belonged to the barbecued meat skewers stall.

“Are you coming?”

A cute, melodious voice rang out in front of Bai Chen; the tiny face of its source showed a tinge of annoyance. This lady was none other than Li Lin. She was sitting across from Bai Chen.

If one were to ask why they were together at this time, one needed to rewind to earlier in the day. After Bai Chen finished using his roulette bonus, he called Li Lin to let her know that he had already gotten home.

After she had learned that, she made an appointment to meet him at 4:30 p.m. Bai Chen did not refuse. He already wanted to see her. The venue was his choice.

With the money he had now, Bai Chen could definitely afford to take Li Lin to any lavish restaurants of his choosing.

However, he did not do that. He chose a roadside barbecued meat skewers shop as he found this sort of shop had a good ambiance.

Bai Chen did not know if Li Lin was going to like it, but he still chose this place as their rendezvous place.

Li Lin arrived close to 5 p.m., so they had yet to place an order.

The two spoke for a bit. All they talked about was the topics Li Lin asked him about earlier.

Judging from her tone, it was obvious that she was not in the best of moods at this time.

Chapter 126 Time With Li Lin

Bai Chen still had his eyes on Li Lin, smiling, even then her pretty face was showing a tiny bit of anger.

As for what she had said, of course, he would agree. He just had not said so yet.

Bai Chen intended to tease her and was quite pleased to see her getting slightly angry.

Her question earlier was referring to a party her family was throwing for her parents' anniversary. She wanted to know if Bai Chen would want to come with her.

But because he was hesitant, she got a little angry, as could be seen at the moment.

“What do you say? Are you coming or not?” Li Lin asked once more. Her pretty face showed her patience was wearing thin.

Bai Chen shook his head, smiling. He thought that was enough teasing. “Of course, I will go with you.”

“That was all that was needed!” Li Lin looked at Bai Chen with annoyed eyes. She started to catch on that he was teasing. If not, he would have agreed right away.

“When is this anniversary party for your parents going to be? And where?”

Bai Chen saw her pretty face turning redder by the minute. He had to quickly ask questions to distract her.

The redness on her face was not caused by shyness, but rather more anger.

When the situation got to that point, Bai Chen could not do anything but try to distract her with questions.

Li Lin scoffed. She thought that since this nasty person had come back from Dong Hai Island, he had gotten even more annoying.

She tried to calm herself down before replying. “This Sunday.”

“Sunday?” Bai Chen asked to be sure.

“Yes.” Li Lin nodded. “This Sunday, starting at 5 p.m. The venue is, of course, my house.”

“Okay, so I will see you at your place on Sunday...”

Bai Chen had not even finished his sentence when he realised that joining this wedding anniversary party meant meeting Li Lin’s parents!

And meeting them could be compared to meeting his future in-laws!

Bai Chen, who was serious about dating Li Lin and marrying her, would naturally think that meeting her parents was like meeting with his future father and mother-in-law.

His expression gradually changed. Now, he appeared quite troubled.

He had no idea what her parents might think if they found out about their relationship.

Even though Bai Chen now had a million yuan in his pocket, compared to the wealthiest family in Xing Zhou city, that was nothing. It was like comparing a drop of rain against a vast ocean.

He had met them before, but that was when he went as Xi Dong. Thus, he had not been able to gauge what Li Lin’s parents’ reactions would be if they met him as himself.

“What are you thinking?”

When she saw Bai Chen suddenly pause and change his facial expressions, Li Lin asked this.

Bai Chen abruptly came out of his reverie and chose to think about this later.

“Nothing. Let’s order. I’m starting to get hungry.”

Bai Chen smiled and called out to the owner who was grilling some beef on skewers. "Mister, ten beef skewers and two plates of rice with Peking duck."

"Sure thing," the owner responded. Even though the stall sold barbecue meat skewers, it also sold other kinds of food, such as rice bowls and snacks.

Li Lin blinked her round, adorable eyes and looked at Bai Chen suspiciously. She did not ask him anything further; she just sat and waited for the food to come.

At the same time, her mood improved quite a lot, since Bai Chen had already agreed to come to her parents' anniversary party.

Not even ten minutes had passed when all the food Bai Chen ordered was served. The smell of the beef skewers spread across the whole area.

Bai Chen smiled and said, "Let's eat."

p "Mm-hmm." Li Lin nodded. She was not too hungry, but her delicate, fair hand reached out to grab a beef skewer to take a bite.

She discovered its taste was not bad at all; it was quite tasty. She could not help but say, "The taste isn't so bad."

"I told you this place was good." Bai Chen picked up a beef skewer, too. He found that it was a taste he was familiar with; it was a taste he had not eaten in a long time.

Of course, in his previous life, before he had time-traveled back, he used to come here for these skewers.

"Mm-hmm." Li Lin did not say anything further. She just nodded in agreement and kept quietly eating.

Now that the two of them got to spend time together, it was clear that their relationship was improving.

Li Lin had given Bai Chen a warning before, so he was a bit frightened. But after a while, she had not brought it up at all. That fact relaxed him a little bit.

He felt comfortable to the point that he had been able to tease her earlier.

They spent around fifteen minutes eating until they were full. Li Lin ate considerably less than Bai Chen.

After paying the owner of the stall, Bai Chen took Li Lin for a walk in Xing Xiang Park. It was almost 6 p.m.

The park was still quite crowded. Some people were sitting and relaxing, while some were exercising. There were people no matter where they looked.

Bai Chen and Li Lin were taking a walk on the park's pathway.

Li Lin followed a little behind Bai Chen, her gaze fixed upon his back. Her heart was filled with the complex emotions she had for him.

In her heart, she was unsure whether she really liked him, even though they had kissed a few times already.

But that was nothing weird. She had let him kiss her just because she lost bets. It was not because of any love or affection.

However, what had happened confused Li Lin very much. Her feelings towards him now were very complicated.

‘Or do I like Bai Chen?’

Li Lin could not help but wonder. She thought back to when they had shared a kiss and her face got hot. Red spots appeared on both her cheeks; her heart pounded faster.

‘I probably really like Bai Chen.’

When she realised that, it seemed as though she really understood her own feelings.

In her mind, there was certainly a greater chance of her liking him rather than disliking him. As for the things he had done to her as a child, she had already forgiven him.

After becoming aware of these feelings, Li Lin’s face grew hotter. She looked at Bai Chen with different emotions immediately.

Bai Chen, who was walking in front, did not notice any of this in the slightest.

They both spent some more time walking and talking about various topics until they said goodbye and went back home.

## Chapter 127 Going Into A Coffee Shop

That Saturday morning, Bai Chen helped his parents with preparations at their shop as usual before leaving.

His destination today was to follow the direction in which the green arrow of Mission 21 was pointing.

Clearly, he chose to complete Mission 21 first, which was to ‘create a debt of gratitude’.

The destination pointed to by the green arrow seemed quite far, so he took a cab.

Riding in a taxi for such a long distance definitely costs quite a sum of money. Bai Chen would not have been able to afford it before this.

But now, he had one million yuan in his pocket. He had already taken out 20,000 yuan to spend.

Bai Chen had gotten this large sum of money thanks to the Life Changing System, as well as the necklace of fortune, and Long Xu In, who had lent him the money to start him off at the casino.

If it were not for them, he would not have made these one million yuan, even if he had dedicated his entire life to work.

Inside the cab, Bai Chen sat beside the driver quietly. He stared distractedly out the window.

The driver was a middle-aged man with a huge belly. His face was decorated with a large amount of sweat. Though the interior of the car was air-conditioned, that did not stop his sweat from pouring out.

There were two reasons for this. One was the extremely hot weather that day. Bai Chen had checked the temperature before he left the house and had seen that it was as high as 34 degrees Celsius.

The second reason was certainly because of the middle-aged man's size. Most chubby people usually sweat more than regular people.

"The weather is really hot today," the big-bellied middle-aged man said. He wiped his face with a towel he had hanging around his neck. "Don't you think so, young man?"

Bai Chen turned to look at him and nodded slightly. "It's really very hot today."

The middle-aged man smiled before telling him a lot more things in a bragging fashion. He seemed talkative. Most taxi drivers were like that. They loved to tell stories to their passengers.

Bai Chen listened to the middle-aged man boast. He felt quite amused. The driver reminded him of his friends back in prison. They were just like this big-bellied middle-aged man; talkative, blabbering on about nonsensical things all day long.

Thirty minutes flew by in a flash. The taxi parked at the entrance of a large business district.

Bai Chen paid and got out. At the same time, his eyes looked at a huge sign at the entrance. It said... 'Xing Wei Business District'

That was the name of this business district. Compared to the Xing Seng business district, this place was much larger.

'I never thought it was going to be the Xing Wei business district.' Bai Chen did not expect that saving a person from an assassin would occur around this business district.

He was from Xing Zhou. Naturally, he had visited Xing Wei business district before. It had not been too often, but he had been here, so he was familiar with it.

Bai Chen swept his eyes around and saw some cars traveling past. The entrance was filled with people walking in and out. It was 10 in the morning.

"The place that the arrow pointed to is there?" Bai Chen kept opening up Mission 21's window all the time, so he saw where the green arrow was pointing. It ended at a coffee shop. It was of a brand he did not recognize.

Bai Chen looked with his brows furrowed into a knot. His face showed confusion. He did not understand why the green arrow stopped in front of that coffee shop, which was too far off.

If he had to walk there, it was about twenty steps to get there.

However, Bai Chen did not want to go in yet because he was still confused. He looked down while considering this issue thoroughly.

At that moment, he remembered something. It was highly possible that the coffee shop was going to be the place the assassin would strike.

That must be it. There was no way it was something other than that.

“Then I should be waiting inside,” Bai Chen said to himself before closing the Life Changing System’s transparent window.

Since the mission’s instructions did not go into specifics, the only thing he could do was wait. Even though he had no idea when this thing was going to happen.

Bai Chen walked towards the coffee shop but did not enter. He walked to the side of the shop, which was a tiny alley. It was a secret space that could not be seen easily.

In an instant, his face and body transformed. He transformed from his 18-year-old self into his 30-year-old self.

The reason he had to transform himself was that he wanted to look mature and reliable when he helped the person that the mission pinpointed from the assassin.

The transformation did not affect the clothes he was wearing right now at all, because his 30-year-old body was quite thin.

After having used his thousand-face skill to change into his 30-year-old self, Bai Chen walked out of the alley, turned, and entered the coffee shop quickly.

“Welcome, sir.”

As soon as he opened the door, a voice from a female staff member rang out to welcome him.

Bai Chen nodded. He walked over to sit at a table close to a mirrored wall so he could see the outside of the shop.

He chose this spot purely because he would be able to see things clearly. He could then react promptly when the assassin attacked the person specified by the mission.

He sat down for less than a minute before a female shop employee handed him a menu.

Bai Chen accepted the menu. A cursory glance showed the prices of each type of coffee were affordable; he ordered a cappuccino and a piece of cake.

The female employee walked away with the menu.

Bai Chen was waiting quietly. Inside the shop, other than himself and three female employees, there was nobody else. Bai Chen did not think this was odd, though.

Most customers visited coffee shops early in the morning, around 7 to 8 a.m.

As for this time until nightfall, this was probably was the period where customers came and went. Customers came at every period of time until the shop closed.

Whether there were a lot or a few customers depended on the day of the week, too.

After a short time, the coffee and the cake Bai Chen ordered were served. At the same time, a few customers entered the shop.

Bai Chen's gaze was on the window to the outside street. His hand held on to the steaming hot coffee. The smell of cappuccino could be detected.

He blew on it a little to cool it down before sipping it in a relaxed manner.

Chapter 128 The Face-To-Face Encounter

Time passed until noon, but Bai Chen did not go anywhere. He was still sitting inside the coffee shop. Three empty coffee cups were laid before him, along with cake plates.

It was obvious that during the time that passed, he had ordered more items just to be able to sit there a little bit longer.

He already finished two cups of coffee. The third one was only half full. There was a slice and a half of cake left.

Bai Chen blinked with disappointment. He heaved out a sigh.

His eyes were still fixed on the outside, but nothing had happened. He could not help but sigh.

Mission 21 was not complicated. He only needed to take care of the killer that intended to assassinate the person he had to help. The hard part was he did not know when that was going to happen.

Bai Chan had been waiting almost two hours, but nothing had happened yet.

‘Or is it not today?’ Bai Chen wondered.

In his mind, that was highly likely. However, though he had this thought, he did not think of going home yet. He chose to keep waiting. There were still quite a few hours until evening.

The three female employees looked at him suspiciously since Bai Chen had been sitting in the coffee shop for nearly two hours.

Most of their customers only spent about thirty minutes or at most an hour here. They had not seen anybody spend as much time in the coffee shop as him.

“Maybe this customer is waiting for someone,” one employee remarked.

“It must be that. If not, he would not be sitting here this long.”

Another employee said this. After that, she stopped paying any more attention to or feeling suspicious of Bai Chen.

Inside the coffee shop now there were many customers. Five out of the ten total tables were occupied. The coffee tasted good, and the service was rather good. Otherwise, there would not have been so many people visiting this place.

The cafe's door was pushed open at that time, and a lady in tight jeans walked in. Her short hair was identifying feature, and her face was extremely pretty.

Aside from its prettiness, her face held coldness. She was none other than Xu Xin Tong.

Today was her day off from work. She had gone to the Xing Zhou police station just to report her arrival and receive her welcome from all the police officers.

She still had two days before she was officially a police officer of the Xing Zhou police station.

“Welcome.”

After she pushed open the door to the coffee shop, she heard the voice of the shop’s female employee.

She paid it no mind, walking in and looking for a free table before she saw a free table over by the mirrored wall. It was next to a table where a middle-aged man was sitting.

Xu Xin Tong walked there without delay because that table was quite far away from the busy tables. She did not like anything crowded and chaotic. She ordered an americano before she looked outside.

The reason why she came to this shop was that she wanted to drink coffee and because it was close to her place. There were no other reasons, so it was not odd that she did not pay attention to anything.

Bai Chen who was sitting noticed her sitting right across from him. His eyes moved back and forth a bit, his heart thumping hard.

This face of the lady in front of him was no less beautiful than Long Xu In’s. But more than her beauty was the coldness that was almost iciness that covered her face.

To Bai Chen, this woman seemed like an ice queen who cared for no one in the world. At one point, he thought her face seemed like that of someone he knew, though he could not figure out who.

‘Pretty ladies are everywhere...’ Bai Chen murmured silently to himself. After he had traveled back in time, he had only met gorgeous girls.

Whether it was Long Xu In, Xu Xue Ning, or this beauty he had just seen sitting in front of him.

Xu Xin Tong noticed someone observing her. She turned her head and met Bai Chen’s eyes. Her pretty brows furrowed when she saw that it was the middle-aged man sitting at the next table who was watching her.

Bai Chen had just realized that staring at a lady for a long while was considered rude.

He quickly pretended to be looking out the window. His heart thumped hard for a moment. He was afraid she was going to think he was a pervert.

When she saw Bai Chen had turned his gaze away, she stopped paying attention. She sipped her coffee silently. Her eyes looked out over the city she did not know and which she had never visited before.

Half an hour passed; Bai Chen was still in the same seat. He ordered one more cup of coffee.

At this time, he had been sitting here for more than two and a half hours—almost three hours.

His gaze was still fixed on the spot outside where the arrow from Mission 21 had pointed. But there was still nothing. Nothing at all had happened for the past half an hour.

When Xu Xin Tong saw the empty coffee cups lined up in front of him, she raised her pretty eyebrows. She did not know a person crazy enough to drink 4 cups of coffee back-to-back.

Anyway, she did not care much. She merely shook her head indifferently before getting up to pay at the counter in front of the shop.

Bai Chen blinked repeatedly when he saw Xu Xin Tong getting up to go pay. He could easily guess she was leaving, and he started to think that so should he. It had been quite long since he had been here.

He thought Mission 21 might not happen today after all.

Bai Chen sighed quietly. Disappointment showed slightly on his face.

The mission did not happen. It was only normal for him to feel disappointed.

After shaking his head lightly, Bai Chen got up off the chair to pay as well.

He walked over to queue behind Xu Xin Tong. When he saw that she had already paid, he walked in to pay after her.

After having paid the bill, Bai Chen walked out behind Xu Xin Tong. When he walked out of the coffee shop, he saw Xu Xin Tong's beautiful back waiting to cross the road.

Bai Chen only looked at her back slightly before turning away, ready to find a cab back home.

But all of the sudden, a mission window popped up.

Ding!

---

[Mission 21: Create a debt of gratitude.]

Instruction: You need to save a person's life from the hands of a skillful assassin.

Reward for success: Receive 30 points

Penalty for failure: You will be hunted by one of the big clans and that person you need to save from the assassin will die.

---

Bai Chen's eyes opened wide in shock. He could not have imagined Mission 21 was going to take place just when he was about to go home!

Chapter 129 The Skillful Assassin

Bai Chen's eyes were still wide open in alarm when he looked at the mission window that had appeared.

At the same time, the green arrow was pointing at the lady who was cold and beautiful.

'It's her!' Bai Chen exclaimed in his heart in a panic. He did not think that the person he needed to help save from the killer would be her.

But he did not stay shocked for long. He calmed himself down instantly.

He looked around hastily. Bai Chen was afraid the killer was going to attack before he could respond.

If that was the case, his mission would be a failure. He would not let that happen.

If this mission failed, not only would Bai Chen miss out on 30 points, he would be hunted down by one of the big clans. That was not something he wanted.

How could he let that happen then?!?

Bai Chen had a stressed expression when he saw people approaching from both the left and right.

To the left was a regular-looking middle-aged man who looked like a kind farmer. He was wearing ordinary clothes that could be bought anywhere.

As for the right, there was a plump lady walking with her golden retriever. She dressed quite lavishly. Her plump face was covered with heavy make-up. Her thick lips were bright red because of lipstick.

Looking at her, an ordinary man would consider her quite horrendous.

“Which person is it?”

Bai Chen’s face was stressed, not relaxing at all. He observed both the middle-aged man and the plump lady thoroughly. His heart was heavy as he had no idea which of them was the assassin.

Since both of them appeared from different directions, Bai Chen suspected that one of them must be the killer.

Since the mission window popped up out of nowhere and the green arrow was pointing at the lady, then there was no other way to look at it.

It would be bizarre if the killer was not one of the pair.

One of these people must certainly be the killer!

Bai Chen was quite sure of his own conclusion.

As the middle-aged man and the plump lady had yet to reach Xu Xin Tong, Bai Chen crossed the street to stand beside her in an instant.

He was two steps behind her and did not dare get any farther away for the fear of not being able to save her from the killer in time.

Even though Bai Chen had low-grade martial arts techniques, he was still on guard. According to the mission’s instructions that he had read, the assassin was not an ordinary killer like Hu Tong, whom he had already killed.

The mission instructions clearly stated that it was ‘a skillful assassin’!

How then could Bai Chen not be careful and be on guard at all times?

Xu Xin Tong’s beautiful yet cold eyes turned suddenly towards him.

The fact that he had moved to stand beside her and was not more than two steps away from her had surely been detected by Xu Xin Tong.

In her mind, the middle-aged man who had suddenly moved to stand beside her surely wanted to hit on her.

She could not help but feel disgusted. She certainly had no interest in men of this type and had no thoughts of developing any interest.

“What do you want?” Xu Xin Tong asked with her usual icy voice. It was an extreme question. She did not hold back at all.

Bai Chen looked up, stunned. He did not expect the woman to be this hostile just because he had moved to stand beside her.

Wait a minute—he still remembered the coldness on her face when their eyes met in the coffee shop all too well; it was a coldness that was nearly an incomparable iciness.

Bai Chen pressed his lips together and did not reply. He had no time to care about this now. His gaze swept from left to right at all times, so as to be able to see when the assassin decided to strike!

“Did you not hear what I asked...?” the icy voice snapped again.

But before she could finish her sentence, she was stopped by Bai Chen’s voice. “Look out!”

He pushed her out of the way in an instant. He saw a black blade bathed in purple that was aimed at Xu Xin Tong’s back. The perpetrator was a middle-aged man!

He was none other than the former number one killer of the Shei You Assassin Guild, Hei Chang!

Swish...

The sound of a blade stabbing the wind rang out once. Hei Chang’s face showed a moment of surprise. He could not believe he had missed.

It had to be known that in his time with the Shei You Assassin Guild when it still existed, he had never missed once when he attacked. More than thirty people had perished at his hands.

Therefore, it was hard for shock not to show on his face.

Shriek!

A scream sounded; it was the plump lady who had brought her dog. Her face turned white. When she saw the scene before her, her thick legs went weak, her eyes rolled back, and she collapsed unconscious to the ground floor almost instantly.

One could say it was a loss of consciousness due to fear!

The golden retriever she had brought ran away swiftly. Its panic might have been caused by the large woman’s shrieking.

“Damn it!” Hei Chang burst out before swinging the black knife once more towards Xu Xin Tong, who was still in shock.

Xu Xin Tong had almost fallen over when Bai Chen had pushed her, but thankfully, she had kept her balance. Once she regained her balance, she still stood motionless with her eyes wide when she saw the black blade in the hand of the middle-aged stranger.

The sound of a blade cutting through the air she had heard before this signified that the man was surely trying to stab her.

Her beautiful, cold face turned pale.

“Y... you!” she screamed out as she saw the middle-aged man turn the tip of the sharp knife towards her once more.

Even though she was a talented female officer, in a situation that happened this fast, it was difficult for her to react to it on time. Forget about reacting in time—she had a hard time even thinking of dodging the attacks.

Judging from the skill of his attacks, this middle-aged man must not be an ordinary killer; he must be a skilled assassin even among other assassins!

“Darn it!” Bai Chen shouted before lunging toward the middle-aged Hei Chang.

His clenched fist hit the latter’s arm.

But Hei Chang was the former number one killer of a famous assassin guild. His level of skill was known well by those whom he had killed. How could he not react in time then?

He pulled his arm back and turned his body to dodge the attack before lunging forward and aiming the knife at Xu Xin Tong once more. He looked like a leopard jumping to strike its delicious prey!

It was clear that he did not care about Bai Chen at all, regardless of the fact that the latter had tried to stop him. His sole target was Xu Xin Tong!

#### Chapter 130 A Deadly Technique

Bai Chen’s eyes trembled with panic. His punch had connected with only empty air.

Now, Hei Chang rushed at Xu Xin Tong once more. He aimed his black knife at her chest, where her heart was.

If he succeeded, she would surely die. Even if she did not die, she would be gravely injured for sure!

“This is bad!”

Bai Chen screamed this out in a panic. His expression changed. He bent his knees before lunging at Hei Chang with all his might.

“What?” Hei Chang was now surprised. Hei Chang was quite surprised at Bai Chen’s movements.

Initially, he had thought there was no way that Bai Chen could react in time to his quick, deft movements, which were those of a professional killer.

But he had been quite mistaken. Bai Chen, who was in the body of a 30-year-old man, could react in time to his movements.

When things turned out that way, Hei Chang could not help but feel frightened.

He did not have time to mull it over. His expression turned serious before deciding to stop his attack on Xu Xin Tong. His body moved swiftly to dodge Bai Chen's charge.

Xu Xin Tong stepped back hurriedly since the moment she saw Hei Chang decide to stop thrusting the knife at her.

Tiny drops of sweat covered her beautiful, cold face. She heaved a sigh of relief, thinking that she had almost gotten stabbed by Hei Chang a moment ago.

She did not think that Hei Chang would stop his knife attack on her only momentarily. After he dodged Bai Chen's fist, he turned towards her and thrust his knife at her once more.

Her face drained of color. She probably could not step back in time now. Her only thought was that this time, she would surely be stabbed.

However, what she thought did not happen. Once again, Hei Chang halted his actions and stepped to the side in an evasive move.

All of this was because of Bai Chen!

Xu Xin Tong took a deep breath. She walked backwards quickly until the distance between Hei Chang, the person who had intended to stab her many times, and her was more than twenty steps.

She stopped once she felt that it was far enough for her to feel safe.

Xu Xin Tong breathed heavily. She was tired because she run backwards too quickly.

Her gaze now was fixed on Bai Chen and Hei Chang, who were standing close together.

From where she was standing, the two of them were a few steps from one another. And even though Xu Xin Tong was looking at them both at the same time, her feelings towards them were of course totally different.

She looked at Bai Chen with gratitude. If he had not saved her three consecutive times, she would have been dead.

The feeling of disgust she had had earlier disappeared without a trace. When she came to think of it, he likely had not approached her to try to hit on her, but to protect her. That was why he needed to stand close to her.

Xu Xin Tong was embarrassed in her heart. She had misunderstood his intentions entirely.

Her gaze on Hei Chang was a cold one. Her eyes still glittered with anger towards him.

The fact that Hei Chang wanted to kill her enraged her considerably.

Other than anger, there was also a small amount of fear. To say that she was not scared of Hei Chang would have been impossible.

This was because he had managed to attack without her being even the tiniest bit aware of it. If it had not been for Bai Chen's help, her life could have easily ended.

It was totally understandable for her to fear Hei Chang.

“Who are you?”

Hei Chang’s face was solemn. He tightened his grip on the knife. His feet spread apart, his body slightly stooped. It was clear that he was ready to attack at any moment.

Bai Chen has stood still since Hei Chang aborted his last attack on Xu Xin Tong. His pupils contracted with caution. He did not dare let his guard down even a little in front of this regular-looking middle-aged man.

It was because Hei Chang was a talented killer. His several previous movements confirmed that.

“It doesn’t matter who I am. But if you are trying to take that woman’s life while I’m still here, it won’t be easy!” Bai Chen replied.

His facial expression was rather solemn and fervent. This was the first time he had had to fight someone with such talent. This was completely different from the White Tiger Gang members he had killed before.

“Then, you die!” Hei Chang did not care who Bai Chen was, because no matter who he was, if he dared get in the way of him killing Xu Xin Tong, he must die!

Hei Chang alternated his steps on the ground before launching himself at Bai Chen. The knife in his hand moved in a very strange manner. It shimmered like it had become a band of light of some sort.

It was clear that there were the skills of a great killer. They were undoubtedly terrifying skills!

The reason Hei Chang decided to kill Bai Chen now was to get his job done more easily.

But that was just one reason. Another equally important reason was that he needed to get this over with as quickly as possible.

Now, many people had already seen what had happened, especially those in the coffee shop, due to the shop’s glass wall; it made it easy to see the outside.

Most of those people had turned to look just after the plump lady’s scream, including those driving by.

Still, no one had yet cared to park their cars to come down and have a look. They must have been afraid of the scene playing out in front of them.

In the mind of Hei Chang, who had been the number one killer of the Shei You Assassin, Guild, he was certain somebody had already called the police. And when the police arrived, it would be difficult for him to get away from here.

Bai Chen blinked. He saw Hei Chang approaching using a deadly knife technique clearly.

With his low-grade martial arts technique, his reflexes were now very quick. Thus, he dodged the numerous knife attacks with ease.

Each of these attacks caused a sound that was like the wind was being sliced.

‘What a scary technique!’ Bai Chen could not help but feel tense because of Hei Chang’s prowess. ‘He is worthy of being called a skilled assassin!’

‘Impossible!’ Hei Chang exclaimed in his heart in disbelief when he saw Bai Chen had dodged the knife, he aimed at him using an expert technique that had ended countless lives without breaking a sweat!
