

Life Changing 311

Chapter 311 A Grand Fight

In the midst of the merciless attack by Ming Kong the Legendary, of course, Bai Chen would not be stupid enough to stand still and take the blows. He raised his hands in front of him and clenched them into fists. His blue spirit qi appeared around them.

Then, without hesitation, he threw a punch upward. It directly hit the black spirit qi claws of Ming Kong the Legendary.

BOOM!

The collision was so loud, the sound could be heard very far away. It was as if the world was breaking. Energy waves that occurred echoed in every direction!

Dry leaves fluttered wildly. The trees around them swayed as if they were going to topple over!

Ming Kong the Legendary's face changed a little. His right hand felt numb. He took two steps backward. He was actually surprised that Bai Chen could withstand his powerful attack.

Come to think of it, even though Bai Chen had mastered the art of water, which was considered the weakest of all, he was still a legendary realm cultivator

How could a legendary realm cultivator be killed with only one hit?

This was even though the person mounting the attack was also a legendary realm cultivator.

As for Bai Chen, he also took a step backward. The hand that had suffered Ming Kong the Legendary's attack felt numb.

"This proves that you're capable. However, no matter what, you'll die here!"

Ming Kong the Legendary stared at Bai Chen when his bloodshot eyes. They were filled with his intent to kill.

Without hesitation, Ming Kong the Legendary leapt towards Bai Chen. The black spirit qi exploded terrifyingly out of his right hand. The air around it was distorted.

"Die!" Ming Kong the Legendary yelled and slammed his hand against Bai Chen.

Bai Chen was not scared. His eyes turned cold. He suddenly erupted with bright blue energy and threw a punch at Ming Kong the Legendary's hand.

BOOM! BOOM!...BOOM!

Continuous loud noises sounded as if the sky was falling apart.

Bai Chen's and Ming Kong the Legendary's bodies appeared and vanished across the mountain.

Every time they appeared, they threw every blow possible at each other. No one wanted to lose!

The fight caused the environment around them to shake so violently, as if everything was breaking into pieces!

Time passed very slowly. It was only 2 to 3 minutes later.

BOOM!

The sound of a great collision filled the area again, followed by powerful energy waves that swept across every direction.

They landed a great many blows on each other. They did not only make the environment around them shake, but they also formed a great many energy waves.

The trees could not withstand them anymore and fell over!

Bai Chen and Ming Kong the Legendary moved away from each other.

Their facial expressions changed continuously. Their hands bled. They could clearly feel pain.

‘He’s stronger than I thought,’ Ming Kong the Legendary thought.

He looked at Bai Chen with eyes still filled with the intent to kill. He clenched his bleeding hands so tightly, they shook.

He finally used both hands. He could not use only one hand to kill Bai Chen as planned.

At the moment, his 100% certainty that he could kill Bai Chen had decreased to only 50%.

Ming Kong the Legendary was furious and full of hatred. He wanted to kill Bai Chen as soon as possible. That way he could avenge Chiu Jiu, his beloved student, sooner.

‘I think it’s time to gather all my power to kill him!’

Ming Kong the Legendary thought this and gritted his teeth. He did not hesitate to sweep his hands out in front of him.

Then, the sky turned dark. Black fog appeared, permeating the area. His body started to be engulfed in the black spirit qi that flowed towards him.

His white hair and clothes fluttered madly back and forth.

His eyes changed from blood red to as black, a black like eternal darkness!

It was as if every darkness in the world had gathered in Ming Kong the Legendary’s eyes!

Bai Chen, who was standing far away, started to tense up. His face changed drastically. He could sense that a grave danger was coming. It could be enough to take his life!

His eyes narrowed. He could not see Ming Kong the Legendary up ahead. He could only see the black fog.

‘Seems like Ming Kong the Legendary is going all in!’ Bai Chen thought.

He could sense a great deal of danger would be a threat to his life. That was why he could tell that Ming Kong the Legendary was about to fight him with all his power.

Bai Chen’s face tensed up. He was so stressed, he clenched his fists without knowing.

Suddenly, he loosened the bleeding fists and closed his eyes. He decided to go all in, as well. It was going to be a definitive showdown!

This meant that the person who was going to 'live' or 'die' would be decided!

'There's no doubt that he's using the art of darkness.'

Bai Chen thought this while keeping his eyes closed. He understood Ming Kong the Legendary's power well since he had all the memories of legendary cultivators in his head.

However, he did not care much about it. The thing that he had to focus on now was fighting with all his power and finishing off Ming Kong the Legendary.

Suddenly, Bai Chen opened his eyes. His face had turned very calm as if it was the still, clear surface of a body of water.

His eyes glowed bright blue like stars. They seemed to be even deeper.

Bai Chen moved his hands in a strange manner. The movement formed a single drop of water.

That drop of water was bright blue. It was only the size of his palm, yet it looked very powerful.

The moment it appeared, the sky and the ground shook violently!

It was obvious that Bai Chen was trying to mimic the technique that the old man in his head had used to kill numerous enemies!

Chapter 312 A Life-Or-Death Situation

A bright blue drop of water was floating over Bai Chen's palm. The world now seemed to be covered in black fog.

The fog covered every area. Bai Chen could not see Ming Kong the Legendary.

He could feel a heavy pressure in his heart. He could sense a grave danger. It was getting worse with every minute that passed.

However, even with this, Bai Chen did not fret. His face was surprisingly calm.

If the black fog was Ming Kong the Legendary's trump card, the drop of water floating above Bai Chen's hand was also his. Both were the result of their full power.

After using it, Bai Chen would not be able to use it again. His will needed to rest to recover before he could use it again.

Of course, this also applied to Ming Kong the Legendary. However, there was a difference.

The difference was that Ming Kong the Legendary was a real legendary realm cultivator, not a fake one like Bai Chen.

'A fake legendary realm cultivator' actually meant just that.

Bai Chen had used a cultivator-impersonating pill to gain this power. That was why he could not be called an actual legendary realm cultivator.

Also, not to mention that there was a 10-minute time limit on his abilities. He had less than 5 minutes left. That was the difference.

Ming Kong the Legendary would be able to use the same attack again after resting, but Bai Chen did not have time for that.

This might be his final legendary blow.

The reason for that was simple. He would be out of time.

Less than 5 minutes was actually a very short time.

“This is a life-or-death situation!” Bai Chen muttered to himself.

The next attack would be the final event wherein who was going to live or die would be decided!

Even so, Bai Chen was not scared at all.

It was true that at first, he had been stressed because of the black fog that permeated the area.

However, once he decided to mimic the drop of water used by the old man in his head, his face turned have turned calm, like the still surface of a body of water.

Bai Chen was actually surprised by this, too.

Maybe it was because the old man had not seemed to have been injured anywhere when he'd killed off numerous enemies. Thus, Bai Chen started to feel calm about the final blow.

Bai Chen was standing in the midst of the black fog. He blinked and gave the drop of water in his hand a hopeful look. His face showed signs of confidence, even though he could still feel the danger.

While Bai Chen was looking at the bright blue drop of water on his left hand, a pair of black eyes like an eternal darkness stared at him.

The eyes were full of hatred and rage. They clearly reflected a cruel intent to kill!

Those belonged, of course, to Ming Kong the Legendary!

“Just a pathetic little master of water!”

Looking at the bright blue drop of water floating above Bai Chen's hand, he could not help but mock him.

It was true that he could sense the pressure and terrifying energy in it.

Although his confidence in regards to killing Bai Chen had decreased to 50%, he did not fret. He still thought that the art of water was nothing compared to his art of darkness.

“Just you wait. I'll end your pitiful life!”

Ming Kong the Legendary smiled wickedly. His words were full of vengefulness.

His body was almost completely engulfed by his black spirit qi. Only his neck and head were visible.

However, they would soon be engulfed because the fog was creeping up. It was as if he was being devoured by his own will.

He was waiting for the will to cover him completely. That would be the time to take Bai Chen's life!
'Even though I have to receive some injuries, it'd be worth it if I can finally kill him!'

This was what Ming Kong the Legendary thought. He knew full well that he would be injured during the final showdown with Bai Chen. There was no way he would not be wounded, whether or not he was able to kill Bai Chen.

It seemed like Ming Kong the Legendary had regained his confidence.

Ming Kong the Legendary also thought that the next attack would end the fight. He knew full well that Bai Chen would also pull all his power into his blow.

"The time for you to die has arrived!"

Ming Kong the Legendary's cry shook the sky and earth.

Looking at him right now, anyone would be terrified!

Every inch of his body was black. It was completely covered with the black spirit qi. It looked so terrifyingly powerful, the sight could freeze one's heart!

There was no doubt that the black will had already devoured Ming Kong the Legendary's body. He looked as if he was the darkness itself!

The time had come...It was time to kill Bai Chen!

It was time for this life-or-death situation to occur!

Chapter 313 The End

Ming Kong the Legendary was absolutely ready to kill. He did not want to wait any longer.

His pitch-black eyes stared at Bai Chen as if they would devour him whole. Then, he suddenly vanished like a ghost.

Clearly, he'd started his attack!

Bai Chen was standing amidst the black fog. He could neither see nor sense Ming Kong the Legendary's existence. Therefore, he could not predict his movements. He did not even know that Ming Kong the Legendary was probably about to come kill him.

However, if Ming Kong the Legendary stepped into Bai Chen's perception radius, he would be able to sense him immediately.

Bai Chen could have easily sensed Ming Kong the Legendary's movement if it was not because of this thick black fog.

The black fog concealed his ability to sense. Actually, he could have easily destroyed it.

However, he had not done it because he did not want to waste his spirit qi.

If he lost his spirit qi—even just a small loss—would affect his next powerful move.

And that would mean the blow that would decide life or death would be weaker, too.

That was why Bai Chen decided not to destroy the fog.

“Die for me!”

Suddenly, a cold voice sounded from every direction. A terrifying black will dashed towards Bai Chen, aiming to take his life!

Bai Chen’s facial expression did not change, even though he was facing death. He was not scared at all.

Actually, he had been feeling calmer. He was so calm, it was scary!

Before the wicked will reached him, Bai Chen flicked his available hand in front of him.

His blue will burst through his hand. It swept out in every direction and inevitably hit the black will.

BOOM!

A loud noise, similar to a bomb, sounded once, followed by a huge gush of wind that swirled quickly like a tornado towards the sky. It was violent and terrifying!

There were two coloured swirls, one black and one blue. They were combined as one, yet they were fighting like their lives depended on it!

The air around it seemed to have been turned to dust due to this intense fight between Bai Chen and Ming Kong the Legendary.

Bai Chen stood still. His eyes glowed blue. His hair and suit fluttered against the raging wind.

However, he did not feel a thing. He continued to stand there. No movement had been made.

“Good start!”

Suddenly, Bai Chen spoke coldly. The bright blue drop of water on his left hand sparkled and created a wave of energy. A massive gravitational force was formed from nowhere.

It was ready to devour everything in sight, including the black fog. The tremendous tornado up in the sky also seemed to be affected.

However, the thing that seemed to be most affected by the gravitational force was a black figure. It suddenly flickered and appeared out of thin air behind Bai Chen.

Bai Chen did not have to turn to look at it to know that it was Ming Kong the Legendary.

Ming Kong the Legendary was forced to appear. He exclaimed coldly through his teeth. However, he did not seem to be in a panic as if he had already expected that he would be driven out before his sneak attack in order to kill Bai Chen.

The black will that attacked Bai Chen earlier had only been a lure, so that he could sneak behind Bai Chen and land a blow.

All these things were only a part of the plan that Ming Kong the Legendary had in mind. The real killing was actually after he was forced to reappear.

“I’ll grant you a torturous death now!”

Ming Kong the Legendary yelled his lungs out until his voice was hoarse. His pitch-black eyes widened. He put both of his palms in front of him. He stomped his feet on the ground. A rift appeared in the ground where he’d stomped, as if it was a sign of disaster.

Ming Kong the Legendary was like an arrow forward. He lunged towards Bai Chen’s back.

His whole body had turned black because he was completely covered with his black will. It released its terrifying aura. The air was filled with the thirst to kill!

Bai Chen could sense the danger from behind him. Of course, he did not plan to stand still and accept his death. He quickly turned around.

Once he did that, his face changed a little at seeing Ming Kong the Legendary pulling his hands back and making strange gestures.

They created two shadows in the shape of giant hands. They reeked of horrifying darkness!

The shadows lunged towards Bai Chen at a close range. There was no chance he could dodge them!

“You’re dead!”

Looking at the shadows lunging towards Bai Chen, Ming Kong the Legendary spoke coldly through his teeth. His face showed satisfaction.

He was certain that Bai Chen would certainly not be able to survive, because this attack was the result of all his power!

Bai Chen did not have the time to respond to the words of Ming Kong the Legendary. His body trembled madly one time. His blue will was emitted from his body. The massive gravitational force was now gone.

He slowly pushed the bright blue drop of water on his hand forward.

The drop of water dashed towards the terrifying shadow hands!

Looking at the situation, it was obvious that this was a life-or-death showdown. It was truly the end of the fight!

Chapter 314 The Fierce Collision

BOOM!

In the midst of the black fog and massive storm, flashes of black and blue light were fighting each other, resulting in noises like the sky was crumbling. It was as if the sky was being crushed to pieces.

The sound was so loud, it almost turned the air around it into dust!

It was truly scary. However, the scariest thing was what followed.

That was the black and blue energy waves that swept through in every direction. One to the left and one to the right. It destroyed the black smoke and the two-coloured storm!

After both of these things were eliminated, the sky was supposed to be clear and bright. Instead, the black and blue energy waves were revealed.

Both of them crashed into each other like it was the end of the world!

It was as if the sky was divided into two: black and blue. It was like a natural phenomenon.

A lot of people saw the sky split into two colours that appeared to fight each other.

However, it was not only that. Before this, people who lived around the base of the mountain heard all the loud noises from the fight. They were frightened because they could not figure out where they had come from.

And now the sky was divided in two colours. Everyone was panicked and frightened like never before.

A lot of them thought what was happening was a new kind of natural disaster!

This was because this had never happened before. After this, skilled researchers would certainly investigate this.

However, not everyone thought that what was happening was a natural disaster. That group of people were cultivators!

The very moment they saw what had happened, the cultivators knew right away that two legendary realm cultivators were fighting!

The reason why the cultivators knew that it was a fight between legendary realm cultivators when they saw a two-coloured sky and heard noises that sounded like the sky was crumbling was because cultivators at lower levels could not create this kind of phenomenon!

Not even earth solid not sky soaring realm cultivators could do it!

On the roof of Xing Zhou city hospital, a woman in a white gown was standing. Her beautiful hair extended down to the middle of her back. She was wearing a surgical mask.

Her incomparably beautiful eyes trembled while looking at the two-coloured sky.

“This fight between legendary realm cultivators is surely the biggest news in years. It’s also even more powerful than the fight between Ming Kong the Legendary and Lu Zhun Gu the Legendary years ago.”

She talked to herself. Her voice was wonderfully melodious.

“I wonder if that’s Ming Kong the Legendary and Lu Zhun Gu the Legendary again,” she said to herself with curiosity.

If Bai Chen was here at this time, he would know right away that this woman was none other than Xu Xue Ning!

She was a formation realm cultivator. Of course, she could see immediately that this was a fight between legendary realm cultivators, not some sort of natural disaster.

“It’s probably not elder Bai Chen though...”

Suddenly, Xu Xue Ning thought of this possibility. Her facial expression could not help but change.

The reason why she thought so was purely because Bai Chen lived in Xing Zhou city.

When there was a fight between legendary realm cultivators not so far away from Xing Zhou city, it was only normal for Xu Xue Ning to think it might be Bai Chen.

Xu Xue Ning could not help but worry. She truly hoped it was not Bai Chen because she was worried that he would be in danger.

Pew!

At that moment, she heard something that made her have to look up.

“Lu Zhi Yun!” Xu Xue Ning frowned when she saw that the one who’d made that sound was a golden-haired half-Chinese lady named Lu Zhi Yun.

At this moment, Lu Zhi Yun was standing on a flying sword. She looked excited. She was heading off to observe where grand fight between the legendary realm cultivators!

The excited look on her face and where the flying sword was pointing indicated that she was certainly going to watch the fight!

“We should go see it with our own eyes.”

Seeing Lu Zhi Yun flying far away, Xu Xue Ning took her flying sword out of her dimension ring. She had a dimension ring too, but it was only enough to store her flying sword.

After taking the flying sword out, Xu Xue Ning also took out her concealing talisman. She attached it to her arm. If asked what such a talisman was, it was a talisman that would conceal her presence from normal people.

Actually, Lu Zhi Yun had also used hers while she was flying.

At the moment when she attached the talisman to her arm, her body started to fade. Normal people would not be able to see her now. Only cultivators could.

Xu Xue Ning looked at her body to see if the talisman worked. Then, she did not hesitate to step on the sword.

In the blink of an eye, the flying sword took her flying into the sky, quickly following Lu Zhi Yun.

.....

The mountain—or to be more accurate, what used to be a mountain, as there was nothing left to indicate it was a mountain—was now a deep hole. Its depth seemed to be more than 500 metres. There was white smoke floating out from the hole and around the area.

It was obvious that the hole that used to be a mountain was one that had recently arisen.

The demolished mountain was where Bai Chen and Ming Kong the Legendary had been fighting!

The final blow that had gathered all their power earlier had completely destroyed the mountain. The air around it was frenzied, as if it was being torn apart!

Deep inside the hole, a hand tried to dig out of the pile of dirt.

Chapter 315 We All Lose

The hand that was trying to dig out from under a pile of dirt was Bai Chen's.

His whole body was buried under it. Once his hand could get out, his head and body could also emerge through the dirt.

His face was very dirty. It was fully covered with dirt and dust. It was also very pale.

His lips were so dry, they were bleeding. His hair was a mess. The expensive grey suit that Xu Xue Ning had bought for him was torn apart and very dirty.

Bai Chen's body was full of injuries and blood. What was most severe was his left arm.

It was... not there anymore. His left arm had been severed!

Yes, his left arm had been torn from his body!

It had been cut off below his shoulder. He was losing a great deal of blood!

'It hurts so badly...' Bai Chen was in almost unbearable pain. However, despite how painful it was, he did not cry out. He tried very hard not to and to suppress the pain within him.

Bai Chen had a hard time pulling himself up from the dirt and standing up.

'I have less than 2 minutes left,' Bai Chen thought after getting up on his feet.

The cultivator-impersonating pill was still in effect. However, its time was running out. He only had a little over a minute left.

'The mission-accomplishment hasn't popped up. That means Ming Kong the Legendary isn't dead yet!' Bai Chen's face changed colour when he realised this fact.

Without hesitation, he quickly squeezed all of the qi energy that was left in him out in order to stop the bleeding from his left shoulder.

Of course, it was rather frightening for him to lose an arm.

However, he knew that this was not the time to think about regret or other things. He had a mission to find Ming Kong the Legendary and kill him as fast as he could.

He had to do it before the time afforded by the mysterious cultivator-impersonating pill ran out!

Even though Bai Chen could not know how badly Ming Kong the Legendary was injured after the final blow, he thought that he would not be any better than him.

After closing the wound, he did not hesitate to sweep his psychic sense around.

His psychic sense spread all over the area, allowing Bai Chen to see everything around him. He knew now that he was standing in a pit over 500 metres deep. It was actually the mountain where he had been fighting with Ming Kong the Legendary.

The sky that had been divided into two colours had now returned to normal. There was no trace of any energy waves left in the sky.

It was obvious that all the forces had collided head-on with each other and dispersed all at the same time.

“There he is!” Bai Chen could finally detect Ming Kong the Legendary. His psychic sense worked very well.

Ming Kong the Legendary was buried under a pile of dirt like he had been earlier.

Ming Kong the Legendary seemed to notice Bai Chen’s psychic sense. His body shook violently once before got back up on the ground.

His wrinkled face finally emerged from the dirt. It was very pale, not so different from Bai Chen’s. His white hair was a mess and some of it was gone.

His black traditional Chinese clothes were torn. Wounds were all over his body. He was soaked in blood. This image would surely be a shock for any cultivator who saw it!

This was because this should not be happening to a legendary realm cultivator!

And there were only 3 legendary realm cultivators in the world!

However, the most shocking thing was not Ming Kong the Legendary’s current state. It was both of his arms. The old man’s arms had been lost. They were gone!

Yes...It was the same as Bai Chen. Ming Kong the Legendary had also lost his arms from the battle earlier!

He had simply lost more than Bai Chen. While Bai Chen had only lost his left arm, Ming Kong the Legendary had lost both of his arms. Even his shoulders were gone. A lot of blood gushed out of his wounds.

The pain made Ming Kong the Legendary want to go crazy. He was like Bai Chen. He tried to suppress the pain inside of him so that he would not cry out loud.

He had pride as a legendary realm cultivator. He could not cry out so easily, even though he was in nearly debilitating pain!

“You animal! I’ll kill you!”

Ming Kong the Legendary gritted his teeth tightly. His eyes flashed with his intent to kill. He finally got up onto his feet.

When he thought about how he’d ended up like this, it was all because of Bai Chen. Also, Bai Chen was the one who had killed Chiu Jiu, his student whom he’d loved like his own son. That made him want to kill Bai Chen even more.

Ming Kong the Legendary’s rage towards Bai Chen was at its peak!

‘However, now, I don’t have the power to kill him,’ Ming Kong the Legendary thought.

He could feel his spirit qi inside him. It was almost gone. He knew full well that he did not have enough power to kill Bai Chen.

‘What I have to do now is to run away and come back to kill him later!’

Ming Kong the Legendary understood his condition well—he did not have enough power to kill Bai Chen now. He had to rest to recover his spirit qi, as well as heal his wounds.

Obviously, he did not think much about losing both of his arms because he was certain that he could still kill Bai Chen even with no arms!

Chapter 316 Try To Run Away

Once the thought of escaping appeared in his mind, Ming Kong the Legendary did not want to be here a second longer.

He started to force the wounds on his shoulders to close up with the little spirit qi that he had left. The bleeding stopped and the wounds finally closed.

‘If I want to run, it has to be now!’

After closing his wounds, Ming Kong the Legendary did not hesitate to squeeze out his barely remaining spirit qi around his legs. It created a faded black fog.

Suddenly, Ming Kong the Legendary started to move. He bent both of his knees and jumped upwards with all his strength.

Due to that, he leapt towards to sky with an incredible speed. He almost emerged past the opening of the pit in the blink of an eye.

“He’s running away!” Bai Chen’s facial expression changed. He did not expect Ming Kong the Legendary to flee like this.

Of course, he would certainly not let Ming Kong the Legendary go.

If he did, Bai Chen would have to live in fear. He would have to be worried about Ming Kong the Legendary taking revenge at some unknown time. Most importantly, he only had one cultivator-impersonating pill left.

He could not even know if he would be granted the power of a legendary realm cultivator again. That was why he could not let Ming Kong the Legendary go.

There was no guarantee that he would be able to fight on an equal level with Ming Kong the Legendary like this again in the future.

Bai Chen was actually shocked at Ming Kong the Legendary’s condition because he thought that it should not have been any different from him.

It was unexpected that it would be worse. He’d only lost his left arm, while Ming Kong the Legendary lost both his left and right arms.

However, Bai Chen’s shock had vanished from the moment he had seen Ming Kong the Legendary fleeing the scene.

His face turned cold. He looked up at Ming Kong the Legendary's body, which had almost reached the opening, for a second before trying his best to force the small amount of spirit qi that was left in him out.

The bright blue spirit qi extended dimly out from his body.

The second that it did, Bai Chen's body leapt towards Ming Kong the Legendary very quickly.

At the moment, he had to compete with time. He had less than a minute now. It was the last minute of the cultivator-impersonating pill's effect!

Things had to be decided here. Could Bai Chen kill Ming Kong the Legendary before his time ran out?

Or would Ming Kong the Legendary be able to flee? Everything would be decided right here!

“Damn it! You animal, how dare you come after me?!?”

Ming Kong the Legendary could not help but curse aloud. He knew that Bai Chen was catching up to him with his greater speed.

Ming Kong the Legendary could not help but start to panic.

Fear suddenly rose inside of him, even though he was a legendary cultivator who was superior to all and a god-like being in the cultivator world.

However, he was still scared of death. He was still a human being. Naturally, he felt fear.

However, he was more furious than afraid. He wanted to kill Bai Chen and his next nine generations. He had not only killed his beloved student, but he also put him in this pitiful state.

He had thought about something like this once. He could not help but think this again. Everything was because of Bai Chen.

Even so, Ming Kong the Legendary was not a fool. He knew full well that he did not have enough power to fight Bai Chen right now.

The only thing that he could do was to run and suppress his rage and fear. He finally decided to use his secret technique to make himself a great deal faster.

This was even though he had to sacrifice his strength to do it.

Ming Kong the Legendary grew faster after he used it. He finally got out of the pit and vanished out of sight.

Bai Chen could not help but open his eyes wider. He was still shocked that Ming Kong the Legendary had suddenly exploded with speed like that. He almost could not feel his presence anymore.

However, Bai Chen still did not want Ming Kong the Legendary to leave. He started to move his right arm and hit it hard against his chest. He choked up blood.

The pain that he received made his face twist and go pale. Now, he could run faster.

Bai Chen decided to force himself to move faster, even though he had to be in more pain!

Bai Chen's speed at the moment was so great, his body faded and vanished in the blink of an eye. He was so fast, no one could see him move.

Approximately a kilometre away from the pit that had resulted from the conflict, a figure was running on thin air.

The figure was armless and looked rather pitiful. It was none other than Ming Kong the Legendary.

Ming Kong the Legendary's face was a horrid sight. It was as white as a sheet, but there was smile on his face that showed signs of tremendous relief.

He thought that if he could escape from Bai Chen, he would be able to come back for his revenge at any time.

How could he not smile then?

'Jiu Er, I swear I'll avenge you. Your body must be shredded to pieces now, so I'll kill him just like that. A life for a life!' Ming Kong the Legendary thought angrily.

It was obvious that Chiu Jiu's body was completely gone.

This was because the body was there when Bai Chen and Ming Kong the Legendary were fighting. Thus, the energy waves must have destroyed it completely.

"You think you can escape from me?"

While Ming Kong the Legendary was thinking about things, he heard this cold voice from behind him. Then, he could feel an immense pain in his back.

His smile suddenly vanished from his face and was replaced by intense fear!

Chapter 318 A Fatal Crisis

At the moment, Bai Chen's brain was quickly processing what he should do with the other legendary realm cultivator who had just appeared.

The voice that had yelled out a moment ago had told him to 'Stop', which meant it was certain that the legendary realm cultivator who was coming wanted to interfere in his and Ming Kong the Legendary's fight.

'What should I do? I surely don't have enough power to fight another legendary realm cultivator.'

Bai Chen felt a heaviness in his heart; he also felt agitated.

He had only less than a minute left before the effect of the cultivator-impersonating pill wore off.

How could he have enough power to fight another legendary realm cultivator? He would certainly die!

He had lost his left arm and was injured all over from fighting with all his might against Ming Kong the Legendary.

"Jing Cha...Help me!"

While Bai Chen was thinking frantically about what to do, Ming Kong the Legendary unexpectedly gathered all his strength to shout out at the top of his lungs.

Even though he tried very hard to shout at the top of his lungs, it was still not very loud. However, it was enough for the other legendary realm cultivator to hear.

Also, from what he had shouted out, the legendary realm cultivator who was coming was none other than Jing Cha the Legendary, the man behind the Jing Cha Secret Organisation!

Even though Ming Kong the Legendary's Tan Tien had been destroyed and his spirit qi was flowing out of him, he still had hope!

There were even two of them!

The first was that he wanted to live. The second was that he wanted Bai Chen dead!

And the man who was going to grant his wishes was Jing Cha the Legendary, who was on the way!

Ming Kong the Legendary believed that Jing Cha would definitely help him and kill Bai Chen for him if he asked.

He was very certain of it because Jing Cha the Legendary owed him a favour.

That was why Jing Cha the Legendary would help when he was in need!

'So that's Jing Cha the Legendary!' Hearing what Ming Kong the Legendary shouted, Bai Chen clenched his fists so tightly, they shook.

Even though he had never met this Jing Cha the Legendary before, he knew that he was the man behind the Jing Cha Secret Organisation. It was his new target for vengeance. He wanted to destroy it completely!

'If he arrives, I'll certainly die. I need to kill Ming Kong the Legendary now and quickly use the relocating talisman!'

This was Bai Chen's thought. And it was rather clever of him. He was not so blinded by vengeance that he wanted to kill Jing Cha the Legendary now.

Bai Chen did not hesitate to flick his hand once he had this thought. A long blue string of light leapt out from his right hand.

Crack!

Suddenly, a horrid noise sounded. Blood splattered around like a rainstorm. A head had been cut off. It bounced a little ways off before stopping.

The head belonged to Ming Kong the Legendary!

Ming Kong the Legendary's eyes were opened so widely, they almost popped out of their sockets. His facial expression was one of confusion, unwillingness, and disbelief. He did not expect that Bai Chen would kill him before Jing Cha the Legendary came!

“You...” It was as if Ming Kong the Legendary wanted to say something. Only one word slipped out of his mouth. And that was the last word of his life.

The spark of life in his wide open eyes vanished along with his breath!

His headless body jerked twice and went still. He was dead!

His cause of death was the most pitiful and laughable one in the cultivator world.

He was dead because his beloved student had wanted to force a young woman to marry him.

In the end, that student of his had not gotten to marry her, and he had ended up dying pathetically along with his beloved student!

How was this not pitiful and laughable?

After killing Ming Kong the Legendary, Bai Chen did not even care to look at the corpse. He did not want to be here even a second more. He was afraid that Jing Cha the Legendary would arrive here before he could use the relocating talisman.

If so, that would be the end of his life!

Bai Chen did not even care that the mission-accomplishment window still had not popped up even after the death of Ming Kong the Legendary. He thought that it would do so soon.

He quickly took out his relocating talisman from his dimension ring. The relocating talisman was golden and there was an ancient script on it.

It looked like a normal talisman, but it was not. It was a relocating talisman that he could use to teleport far away, even though he could not pinpoint where he would escape to.

“Didn’t I tell you to stop?!?”

Suddenly, he heard a voice so loud that it shook the whole sky. A man in pure white appeared on thin air. His facial expression was not amused.

He was a middle-aged man with white hair—Jing Cha the Legendary.

He was not amused because Bai Chen did not do what he wanted him to do.

This was no different than slapping him on the face. He was dissatisfied, but he had to suppress it.

Jing Cha the Legendary looked at Bai Chen for a second and then at Ming Kong the Legendary’s headless body. He clenched his hands tightly without knowing.

‘Ming Kong the Legendary is dead...He was the killer!’

Jing Cha the Legendary could not help but feel cold. His heart shook. He knew at first glance that Bai Chen was a legendary realm cultivator.

However, he did not know how Bai Chen had happened to be. He had thought that only the three of them—himself, Ming Kong the Legendary, and Lu Zhun Gu the Legendary—were the legendary realm cultivators of this generation.

‘But it’s also possible for legendary realm cultivators to live in hiding and never appear anywhere before. Yet, for whatever reason, he finally appeared and finally killed Ming Kong the Legendary in a fight!’

Jing Cha the Legendary felt a heaviness in his heart. His hair fluttered in the wind.

Chapter 319 Prediction

Jing Cha the Legendary was deep in a great deal of thought for a while. Then, he finally looked at Bai Chen. He felt a little afraid of Bai Chen. However, that was only normal, since Bai Chen had just killed Ming Kong the Legendary

Even though he had been dissatisfied with Bai Chen earlier, that was then and this was now. He certainly would not want to have a one-on-one fight with Ming Kong the Legendary.

This was because he did not have enough power to beat Ming Kong the Legendary, even though they were both legendary realm cultivators.

“What are you trying to do?”

Jing Cha the Legendary raised his brows when he saw Bai Chen bringing out some kind of a talisman from his dimension ring.

Of course, Bai Chen did not care about Jing Cha the Legendary. He was ready to use the relocating talisman. He just had to tear it to activate it.

However, before he could do it, Bai Chen could sense something. He stopped what he was doing and turned towards it.

His eyes widened when he saw two women on a flying sword coming towards him!

Both of them were very beautiful, yet each of them had their own style. One was a foreign beauty and the other was a traditional Chinese beauty.

Bai Chen knew both of them. They were none other than Xu Xue Ning and Lu Zhi Yun, or Mary Dington.

‘W... What are you doing here?!?’

Bai Chen was actually surprised at their arrival, especially at Lu Zhi Yun, the foreign girl. He did not expect her to be a cultivator too.

However, not long after that, his surprise turned into worry.

‘This is not good. Jing Cha the Legendary is certainly not a good man. What would happen to them if I use the talisman to escape?!?’

At the moment, Bai Chen was truly worried. The effect of the cultivator-impersonating pill had finally worn off. He was not a legendary realm cultivator anymore. He was only a normal person.

And how could a normal person like him fight a legendary realm cultivator like Jing Cha the Legendary? He’d even lost one arm and his body was full of injuries.

‘This is madness!’ Bai Chen could not help but exclaim internally. His face turned pale.

Actually, he was supposed to use the relocating talisman and flee the scene. However, how could he do that now?

Xu Xue Ning was his friend and Lu Zhi Yun was someone whom he owed gratitude to. Both were important to him.

How could he just flee and let them face Jing Cha the Legendary?

How could he know what Jing Cha the Legendary had in store for them after he fled?!?

Ding!

[Mission Complete!]

Mission 37: Slay the Legend! (Success)

Reward: You have received 500 points and 500 magical bonuses!

At that moment, a mission-accomplishment window suddenly popped up in front of Bai Chen.

He should have been happy about it, but not a glimpse of happiness showed on his face.

It was only normal. How could he be happy in this situation?

‘What should I do?’ Bai Chen lowered his head and thought.

If Bai Chen could sense Xu Xue Ning and Lu Zhi Yun’s arrival, of course, Jing Cha the Legendary could too. He turned in their direction.

However, he did not care, even though they were very beautiful, especially Xu Xue Ning. He had been practicing and had given up all worldly relationships for a long time. That was why he did not feel any sort of interest in beautiful women.

‘They’re only formation realm cultivators. Not worth caring about.’ Jing Cha the Legendary shook his head a little and turned to Bai Chen.

He could see that Bai Chen had stopped himself from tearing the talisman because of the two formation realm cultivators’ arrival.

‘Hmm?’ Suddenly, Jing Cha the Legendary raised his brows up high when he sensed that Bai Chen’s legendary power had now completely vanished.

Bai Chen was no different than a normal man now.

‘As expected. He must have a secret technique to conceal his power, so that I and other legendary realm cultivators, like Ming Kong the Legendary and Lu Zhun Gu the Legendary, would not be able to track him!’

It was obvious that Jing Cha the Legendary thought that he and the other legendary realm cultivators had never realised Bai Chen’s existence because Bai Chen had a secret method to conceal his power.

He did not know that Bai Chen did not possess anything like that. It was only because the effect of the cultivator-impersonating pill had worn off. Thus, he’d turned back into a normal man.

‘Wait. Or maybe he’s Hu Yuan, the man who killed Yien Tian Hun...?’

Jing Cha the Legendary could not help but think this. His face darkened.

He was supposed to have arrived in Xing Zhou city 4 days ago, after discussing things with Lu Yi. The distance was nothing to him as a legendary realm cultivator.

However, he had been visiting his acquaintance. That was why he’d only arrived today.

It had been a while since he had gone into his practice lockdown. Thus, it was only normal that he wanted to visit his acquaintances.

This was even though the issue of the cultivator named Hu Yuan killing Yien Tian Hun, or master Yien of Jing Cha Secret Organisation, had made him very angry.

However, he thought that maybe this Hu Yuan would still be in town. Thus, he’d decided not to rush things.

The reason why he thought so was because he thought that Hu Yuan would be heavily injured.

That would have been the result of the fight with two sky soaring realm cultivators, master Yien and the old man Foo Yen.

However, once he’d arrived in town, he did not expect that he would sense a fight between legendary realm cultivators. He’d rushed to the scene immediately.

When he saw that Ming Kong the Legendary had been killed, he’d started to be afraid of Bai Chen. He definitely would not have been able to do it like what Bai Chen did.

However, he was also angry that Bai Chen did not stop when he told him to.

He suppressed his anger and started to put everything together in his head. Then, he came up with Bai Chen being the man named Hu Yuan who’d killed master Yien of the Jing Cha Secret Organisation.

This was because only cultivators who were in the legendary realm or almost at the legendary level could kill two sky soaring realm cultivators at the same time.

That thought made his face darken!

Chapter 320 No Way Out

“Are you Hu Yuan?”

Jing Cha the Legendary could not help but ask this because he thought that Bai Chen was the Hu Yuan who'd killed master Yien of the Jing Cha Secret Organisation. His face darkened.

He was not so sure about this conclusion of his.

However, based on his opinion and instinct, he could tell that he was more than 70% correct.

This was because he would not have been able to kill two sky soaring realm cultivators if he was not a legendary realm cultivator.

At first, Jing Cha the Legendary thought that the man named Hu Yuan was a cultivator who was close to the legendary level. That was why he had been able to kill two sky soaring realm cultivators.

Now, however, since he'd realised that Bai Chen was a legendary realm cultivator who'd suddenly popped up out of nowhere, he automatically thought that Bai Chen was Hu Yuan.

Actually, it was correct. Bai Chen was undoubtedly the man who'd disguised himself as Hu Yuan the cultivator.

Hearing the sound of Jing Cha the Legendary's voice, Bai Chen could not help but raise his head up while still thinking hard about what to do. His eyes flickered.

Jing Cha the Legendary noticed that flickering.

“You're Hu Yuan!”

Jing Cha the Legendary yelled this out. He was certain now that Bai Chen was Hu Yuan because of his trembling eyes just now.

Bai Chen was startled because of Jing Cha the Legendary's sudden shouting. Although he was not a genius, he was clever enough.

He knew that Jing Cha the Legendary knew now that he was Hu Yuan, the one who'd killed master Yien.

Bai Chen was correct.

“It was really you,” Jing Cha the Legendary said. His voice was cold. Bai Chen's agitation confirmed his suspicion.

His eyes suddenly showed an intent to kill. Killing master Yien was like destroying a major force of the Jing Cha Secret Organisation. It was also as if he had been slapped in the face.

That was why he had come here to handle things by himself. ‘To handle things’ undoubtedly meant to kill someone!

If Bai Chen was in perfect condition, without a lost arm and injuries, Jing Cha the Legendary would not have dared to fight him, because Bai Chen was stronger than him.

Killing Ming Kong the Legendary by himself proved this, since Jing Cha the Legendary was no match for Ming Kong the Legendary.

Now, however, Bai Chen was in an extremely weak state. That was why Jing Cha the Legendary was not afraid anymore to attack.

The desire to kill that suddenly appeared in Jing Cha the Legendary's eyes indicated his intent to eliminate Bai Chen.

Bai Chen was quiet. He tried to keep his cool. He kept looking in Xu Xue Ning and Lu Zhi Yun's direction. They were getting closer now.

'I have to take a risk. There's only one way!'

Bai Chen finally had an idea. His weary eyes turned serious.

Suddenly, he put his relocating talisman back into his dimension ring and waved his right hand. The dimension ring on his finger glowed a little and the cultivator-impersonating pill appeared.

Once it appeared, Bai Chen immediately put it into his mouth.

Clearly, this was Bai Chen's idea. He wished that it would once again grant him the power of a legendary realm cultivator. If he received that, it would be very helpful to him. It would help him take Xu Xue Ning and Lu Zhi Yun away from here, away from Jing Cha the Legendary.

It was obvious that Bai Chen did not want to fight Jing Cha the Legendary at all, even if he received the power of a legendary realm cultivator from the pill.

The reason why he did not have thoughts of fighting was because he knew that he would not be able to. It was disadvantageous, since he'd lost his left arm and injured all over from the battle with Ming Kong the Legendary.

He was at a complete disadvantage. It would not be a fair fight.

Bai Chen was not stupid. He'd certainly choose to flee with Xu Xue Ning and Lu Zhi Yun if he was granted the power of a legendary realm cultivator again.

Bai Chen tasted the last cultivator-impersonating pill. He felt like the first and the second times that he had taken the pills.

Ding!

[You have received the power of a sky soaring realm cultivator!]

The notification sound rang in Bai Chen's head.

He looked at the pop-up window. Without being able to help it, his body turned stiff. His eyes went empty.

'Damn it!' Bai Chen exclaimed internally when he knew the result of the pill.

He would have been happy to have the power of a sky soaring level cultivator if he had been in a normal situation.

Now, however, that sky soaring power was nothing compared to the power of those at the legendary level; he was not happy at all!

Bai Chen did not waste his time looking through the details or even caring about the fighting experiences that started to flow through his head.

It was like there was no way out for Bai Chen!

‘There’s no way out!’ Bai Chen thought. His face turned pale.

It was at the same time that Xu Xue Ning and Lu Zhi Yin stopped the movement of flying sword.

They knew that they should not be so close to the fight between legendary realm cultivators. They stopped at about a kilometre away.

At that moment, they looked at Bai Chen and Jing Cha the Legendary. Then, their eyes fell to the headless body of Ming Kong the Legendary.

Their faces which had different types of beauty turned completely white. Their hearts raced fast.

Even though they had not been here when the fight between the legendary realm cultivators had taken place, they could guess that the headless body was a legendary realm cultivator who had been killed!

And they could also guess that the weary injured man who’d lost his left arm was the legendary cultivator who had won the fight. And the middle-aged man with white hair had probably arrived here not long before they did.

This was because he was still very clean. It did not look like Jing Cha the Legendary had been in a fight at all.
