Chapter 34 The Minions Of The White Tiger Gang

After he was done having a grand and delightful meal with Long Xu In, the woman drove Bai Chen back to the entrance of Xing Seng Business District.

Though she was quite surprised as to why he wanted to be dropped off here, Long Xu In did not ask. She left in her BMW.

But before leaving, she made an appointment to see him tomorrow.

Bai Chen did not have anything important tomorrow, so he said yes. He was a bit suspicious about why she wanted to see him though.

And it was not like he did not ask her too. He did, but the answer was... "You'll know tomorrow."

It was five o'clock now. Dusk was slowly settling in, and the sky had turned slightly darker. The colours of it right now were entirely different from daytime.

Bai Chen did not go into the district as soon as he got out of Long Xu In's car. He stood there to watch her car leave his sight.

After she had vanished from sight, Bai Chen prepared to go home.

However, the mission dashboard window popped up in front of him, and at the same time, there was a small arrow pointing behind him.

[Mission 10: Get rid of the enemy you encounter.]

Instruction: Your enemy has brought forth a strong army to get rid of you. You have to obliterate them all.

Reward for success: Win 20 points

Penalty for failure: You will be gravely injured.

Bai Chen looked at the mission window and the green arrow that had appeared for a while. It was not hard for him to understand that Ba Guan's gang was probably waiting for him at the entrance of the Xing Seng Business District.

Otherwise, how could they just appear right when Bai Chen arrived?

Without having to turn around to look, he heard a familiar voice. It was Ba Guan's voice without a doubt.

His tone was filled with vengeance and hatred.

"You're finally here, Bai Chen. I have been waiting to settle the score with you!"

Bai Chen heard what Ba Guan said loud and clear, but he did not feel panic or fear. That was because he had beaten the guy and his gang up twice.

This time it would probably be the same. Even though the men that Ba Guan brought today were much stronger, he believed that he would be able to beat them up with the low-grade martial arts technique. It would probably be a piece of cake.

“So, you haven’t learned your lesson yet, have you?” said Bai Chen as he turned around slowly to look.

As soon as he did that, Bai Chen noticed Bai Guan’s slightly bruised face.

Other than Ba Guan, there were also two men present. These two men appeared to be about 25 to 30 years old with unfriendly, cruel faces. They were in white sleeveless undershirts with black jeans.

“Talk all you want! You’re done for good this time. I’ll tell you what. I asked my boss who’s in the White Tiger Gang for help. You’re definitely going to die today!” Ba Guan said with a cocky expression.

The two men who were with Ba Guan smiled coldly while looking at Bai Chen. Their eyes were like those of predators watching prey.

“Young Guan, is it this guy? The one you want us to kill?!?” one of them said while cracking his knuckles.

“This guy looks like a weakling. Just a wimp. I’ll break his two legs and feed them to a shark!” The other guy spat out his extremely cruel idea.

There were no passersby at that moment, which meant no one heard what this guy had said. Anyone who overheard his words would definitely be scared out of their wits.

“If you don’t wanna get beaten to a pulp, follow us.”

Ba Guan said this arrogantly again. Although he saw that Bai Chen’s expression remained unchanged even after hearing what the other two guys had said earlier, Ba Guan did not think it was bizarre.

He guessed it was because Bai Chen was so scared out of his mind that he’d become frozen and could do nothing.

Bai Chen was not like that, of course. He thought other people would panic and gather to watch if he tried to get rid of the hooligans here.

The problem would definitely escalate into a bigger one, which he clearly did not want to happen.

“Move.” Ba Guan glared at Bai Chen and walked to the side. The area had thick shrubs and bushes, making it rather dark.

The two men were unhappy that Ba Guan flexed and acted like their boss, although they could not beat the guy up either, because he was quite close to their big boss.

If asked who their big boss was, they would answer that it was Ma Jong, who was one of the most influential criminals in the White Tiger Gang of Xing Zhou City.

To be precise, Ma Jong was the fourth most powerful member of the gang. He was under only the top three.

The two men did not follow Ba Guan right away but used their hostile and cruel stares to threaten Bai Chen. This was to tell Bai Chen that if he ran away, they would take action immediately.

Of course, Bai Chen would not make a run for it. He followed Ba Guan without hesitation.

This was one of the missions given to him by the Life Changing System. Furthermore, it was worth 20 points and included a roulette bonus. If he did not get rid of these guys, those things would not be made available to him.

When they saw Bai Chen following Ba Guan willingly, the two men from the White Tiger Gang only jeered in their hearts at how stupid Bai Chen was.

Who on earth would walk into danger without thinking of running away?!?

They turned to look at each other's faces before revealing cold smiles to one another. At the same time, they followed behind Bai Chen.

The two men clearly feared Bai Chen might find a way to escape, so they had to trail closely behind him.

As soon as they reached the area where prying eyes could not penetrate, one of the two men from the White Tiger Gang pushed Bai Chen from the back. The boy nearly tripped and fell before Ba Guan.
