Chapter 46 A Stargazing Walk

Bai Chen glanced at Hu Tong's body one last time before walking away.

He did not need to get rid of the assassin's body, because even if someone discovered it and the police got hold of the news, there was no way they would know Bai Chen was behind Hu Tong's murder.

The boy's emotions had calmed down a lot, unlike a while before when he had killed Hu Tong. He advanced deeper into the shrubbery.

There was only the darkness of the night in front of him. He could barely see anything.

Having arrived at a spot where it was really dark, Bai Chen stopped his steps.

"It looks like the White Tiger Gang and I are now officially enemies," he mumbled. With him taking Hu Tong's life, there was no way the White Tiger Gang would not catch wind of it.

Because the person who'd sent Hu Tong to kill him was Ma Jong, the fourth-highest ranking member of the White Tiger Gang.

Now Bai Chen wanted to take Ma Jong's life. If this was not him declaring himself an enemy of the White Tiger Gang, there would be no other suitable word for it.

"I need to get this over with fast. Otherwise, there is a possibility that mum and dad will be dragged into it."

Bai Chen did not forget the fact that his parents might be forced to be involved. His facial expression turned extremely serious.

"I need to kill Ma Jong and eradicate the White Tiger Gang!"

It was obvious that now Bai Chen had started to not feel a thing about killing people, even though he had only murdered one man.

This was because he was actually a 30-year-old man who had experienced the cruelty of life. His mind was extremely strong, which was something an 18-year-old boy could never achieve.

"Let's think about this again later. Now I have to take care of Li Lin's stuff," said Bai Chen. At the same time, he activated the thousand-face skill.

Bai Chen stroked his face with his hand. All of a sudden, his face morphed into Xi Dong's handsome features.

That was right! His face turned into Xi Dong's!

Moreover, Bai Chen's body also got slightly bigger, turning him into Xi Dong through and through. If he were to stand next to the real Xi Dong, people would definitely think they were twins.

Before leaving the house, Bai Chen made sure to wear clothes larger than normal, so his shapeshifting went smoothly and there were no problems.

“Though what I’m wearing is not expensive, my looks and my body alone will surely be enough to cause trouble for Li Lin’s parents. I can make them dislike this Xi Dong guy.”

Bai Chen felt that he would be successful, though he was only wearing cheap clothes worth a few hundred yuan.

“Now the stargazing walk!” Bai Chen’s face showed excitement, thinking about how he was going to try out the stargazing walker skill.

Li Lin’s house was many kilometres away from the Xing Seng Business District, which meant he had to use the stargazing walker skill to get there. Traveling to her place by bike would take several hours.

Whoosh!

As soon as Bai Chen activated the stargazing walker skill, his body felt light like a feather. The boy’s eyes shone with excitement.

He gradually stepped out onto the air in front of him, as though he was walking on the ground!

“Incredible!”

Bai Chen roared with happiness. His heart was beating fast, his breathing quick. The boy clenched his fists tight. He could feel sweat dripping slightly down his back.

He then took a deep breath and decided to run towards the sky. His feet did not touch the ground at all; they kept moving up and up and up in the air.

Bai Chen ran fifty metres above the earth, then stopped.

“So, this is what it feels like to stand on air.” The boy could feel his heart beating hard in his chest. He swept his gaze around. Even though the view was only of darkness, he still almost stopped breathing.

Bai Chen looked down. He saw the whole Xing Seng Business District below him lit up with lights from many different houses.

“What a fantastic view.”

The boy could feel himself becoming obsessed with the stargazing walker skill. He could not help but think that it was indeed a truly magnificent and astounding skill.

“I have to go higher. If someone looks up and sees me, there will definitely be trouble,” Bai Chen said to himself. He continued to run higher and higher.

Every step he took was like climbing stairs.

But it was different from normal stairs because these stairs were invisible. They could neither be seen nor touched.

Having climbed 200 metres up, Bai Chen thought this would suffice, so he stopped his feet.

Looking down, Bai Chen could barely see anything right now. He only saw small points of light and some of the houses that were still visible to his eyes.

From where he was though, everything down below was so extremely small, it was hard to make anything out.

Bai Chen took a deep breath, taking in pure air high up in the sky. It was spring now, so the weather was nice during both daytime and night-time. Fresh, cool breezes blew over his body from time to time.

‘Now is not the time to appreciate the stargazing walker skill. I have to hurry up and get to Li Lin’s house.’

Bai Chen thought this to himself before starting to march in a certain direction. He was, of course, headed in the direction of Li Lin’s house.

Even though he had never been there himself, Bai Chen had heard of the whereabouts of her house, or rather, the house of Li Cong Tian—Xing Zhou City’s wealthiest man.

Li Cong Tian’s house was a huge villa, located inside the Li Group’s housing estate. The estate had been built by Li Group Company, and one of those villas was worth 100 million yuan!

Bai Chen was running in the air. He enjoyed this feeling a lot, but he did not run too fast, fearing that it would make him exhausted. The distance was quite far away, so he had to conserve some energy.
