

Life Changing 91

Chapter 91 Complete Eradication (1)

Half an hour later, Bai Chen arrived at the Liae Warehouse.

The Liae Warehouse was located in the outskirts of the city, so it seemed quite far away, and there were not many people around.

It used to be a storage warehouse for another company. But after the company went bankrupt, this warehouse had fallen into the hands of Liang Hao, the leader of the White Tiger Gang. Thus, the Liae Warehouse eventually became the headquarters of the White Tiger Gang.

The White Tiger Gang was rather famous in the underworld of Xing Zhou City. It was one of the few big gangs that no one dared to mess with or offend.

There were nearly a hundred members in the gang, but twenty or so of them had already been killed by Bai Chen, so now the White Tiger Gang only had around sixty members left.

And not all those people were at the Liae Warehouse. Some of them had been sent to do important tasks like drug dealing. At this time, there were only fifty members of the White Tiger Gang left at the Liae Warehouse.

These fifty people included the leader of the gang, Liang Hao.

As soon as Bai Chen arrived at the Liae Warehouse, he sneaked closer to it.

The warehouse was surrounded by a forest, so the few people who were on guard duty did not spot him.

Bai Chen stood behind a tree; his eyes were on a person who was on patrol, with an M-16 rifle in his hands.

His heart sank. He did not expect the White Tiger Gang's people to be using military weapons.

He took a deep breath. There was no fear in him, but he felt a little nervous.

But since he was already here and had decided to eradicate all of the White Tiger Gang, he was never going to leave like this.

Otherwise, if the leader of the White Tiger Gang found out that he was the one who had killed Ma Jong and the ones he had just finished off, Chang Du and his men, he would be facing a huge problem.

No, not only him. His parents too. And he would never let that happen!

"I must deal with this as quickly as I can!" Bai Chen murmured to himself. His eyes were full of vengeance!

Deadly psychic force, very slight, was radiating out of his body. Maybe it was because he had already killed many people, making it so the deadly psychic force could pour out of his body.

Bai Chen was thinking of the fastest way to kill off the White Tiger Gang.

The reason this had to be fast was, firstly, that he did not want to confront them directly, due to both their number and their weapons. If he just barged in, he would surely be shot dead!

Secondly, it was so that that he could have time to escape from the crime scene before the police arrived.

Once he had decided to finish this fast, Bai Chen did not wait around. He used his stargazing walker skill to walk up into the sky to a height where people could not see him.

Then, he walked slowly to where the man on patrol, who was holding an M-16 rifle, was and stopped right over his head.

Smash!

With no hesitation, he plummeted down from the sky and kicked the man's face until his nose broke and released a stream of blood.

Whack!

His body staggered, before he fell to the ground, unconscious.

Bai Chen took hold of the M-16 rifle before it fell to the ground. He then stood on the ground and smashed the M-16 rifle into the bones of the unconscious man's neck until they broke!

The eyes of the unconscious man suddenly opened wide before he died!

Bai Chen had no sympathy. He did not care about this man's corpse.

He looked left and right. Once he was sure no one had seen him, he breathed out before running to the left with very light steps.

Now, he was on the side of a large square warehouse. There were men patrolling on all four sides. Bai Chen had killed one. Now, there were three left.

He ran soundlessly and reached a corner in no time. He did not turn immediately but slowly thrust out his face to look.

He saw a man with his back to him, holding an M-16 rifle.

Bai Chen thought the timing was perfect. With no hesitation, he used the stargazing walker skill to dash into the air and banged the end of the M-16 rifle into the man's neck.

Crack!

There was a sound of bones breaking. The man was killed instantly!

His body hit the ground and his eyes rolled back. He died before he was even aware of it.

Bai Chen put the M-16 rifle of the man he had just killed into the dimension ring because he thought guns were necessary—especially M-16 rifles which were categorized as military weapons.

Then, he did the same to two other men, until they were all dead.

There were now three M-16 rifles in his dimension ring. Four, if the one he was holding was included.

The weight of the M-16 rifles had no effect on him because the low-grade martial arts technique gave him a lot of strength.

Once he had killed the four guards, Bai Chen sneaked toward the entrance. The entrance door was slightly ajar, so he could see the inside.

Inside the warehouse, it was just like a house. There were many facilities like a TV, a refrigerator, a sofa, and other furniture.

Apart from these things, there was a group of people standing in four rows, with ten people in each row, all in black suits. They all looked like they had killed before.

In front of the rows stood six people. One of whom seemed to be the gang's leader because his expression was deadlier than the others. He had many scars on his face and was wearing different clothes.

Everyone was wearing a black suit, but not this man. He wore a casual outfit and was standing in a spot that surely showed that he was the boss!

Bai Chen was peeking at them, his breathing slightly heavy. He never thought such a coincidence would occur, with these men were all standing in rows.

Could he not just shoot the M-16 rifle at them continuously in order to kill them all?

Bai Chen did not hesitate and did not care what the White Tiger Gang was up to. He aimed the rifle at the group of people before pulling the trigger.

But the bullets did not come out and the rifle did not make a sound. He furrowed his brows a little before remembering that the rifle's safety had to be disengaged first. Though he was not familiar with it, it was not hard for him to find it.

Once the M-16's safety had been disengaged, he shot nonstop at the White Tiger Gang's people.

Bang! Bang!... Bang!

Bai Chen shot until the 30-round clip was empty, but he did not stop there. He took out another M-16 rifle from the dimension ring, disengaged the safety, and shot again, not caring how many people he hit.

Bang! Bang! Bang!

The sound of continuous shooting filled the Liae Warehouse. Blood from the people was sprayed everywhere and many people were shot dead.

They did not have time to retaliate because they were almost all dead in the blink of an eye. There were many dead bodies scattered around on the floor, along with large amounts of red blood.

Liang Hao's face was as white as a sheet. When he heard the rifle, he dashed to hide behind the sofa.

But a bullet found his leg. He gritted his teeth with pain. He had no idea who had dared come here to wipe out his gang with M-16 rifles!

Chapter 92 Complete Eradication (2)

After seeing all the White Tiger Gang men slumping onto the floor, Bai Chen stopped shooting.

He glanced at those men on the floor, seeing blood from gunshot wounds all over their bodies. Some of them were dead, while some were still living.

When he saw that there were about five of them alive, tossing and turning with agony amid the dead bodies, he did not hesitate to fire his gun right away to kill them all.

Bang! Bang! Bang! Bang! Bang!

Five shots sounded consecutively. The five wounded men, who had been wriggling on the floor and crying out in pain, suddenly stopped. The voices fell silent. And their breaths were no more!

Bai Chen noticed that one of the men in that group was Dong Gou. He exhaled. Finally, he had killed the guy who had reported him to the second in command of the White Tiger Gang, Chang Du. Ding!

[Mission Complete!]

Mission 16: Take care of the White Tiger Gang's people (Success)

Reward: You have received 30 points and the opportunity to get special skills or items at random!

A sound rang in his head together with the mission-accomplishment window popping up.

Bai Chen looked at the window before closing it.

He was surprised at first that the mission-accomplishment window had not appeared after he had killed all of Chang Du's men.

But seeing the green arrow pointing in another direction, which was where the Liae Warehouse was, Bai Chen understood instantly that the White Tiger Gang men that he had to kill also included Dong Gou.

Thus, seeing the mission-accomplishment window right after he killed Dong Gou was nothing out of the ordinary.

After closing the window, Bai Chen swept his cold gaze across all the dead bodies. There were more than forty corpses there.

He did not care at all how many people he had killed. If he had not killed them, the danger would have befallen him and his parents one day.

Of course, Bai Chen noticed that one person was still alive and was now hiding behind the sofa. And he intended not to let anyone survive.

He looked at the sofa and spoke with a cold voice.

"I know you're hiding behind the sofa. Come out now or I'll shoot!"

Liang Hao, who was hiding behind the sofa, could feel his heart contracting. The man was breathing quickly; his face and back were covered in so much sweat, his shirt was damp.

He tried to swallow down the feeling of pain from his gunshot wound and shouted without coming out from behind the sofa.

“Wh... who are you? Why did you massacre my White Tiger Gang?!”

Bai Chen frowned a little. He had not expected Liang Hao to remain where he was.

“I’m the person who’s going to kill you!” Bai Chen said, preparing to pull the trigger to take another life.

But before he could do that, Liang Hao quickly shouted with anxiety. Of course, he was afraid of death, who was not?

“W... wait, at least can you tell me what my gang or I did to you?”

Bai Chen did not reply right away. He was pondering if it was all right to say this or not.

Thinking this through, he was going to kill Liang Hao anyway. Telling him a few things should not hurt.

“Your men have tried to kill me many times. Good thing I sent them all to hell!”

Liang Hao’s heart was pounding rapidly in his chest. He felt terrified by the information he heard. Who would have thought that his gang could have crossed someone this brutal and merciless?

But he did not want to die here. Liang Hao knew very well that the other party would never let him live.

He moved his hand to take out the gun he was hiding, took a deep breath, and decided to lure Bai Chen out with his words, in order to shoot him later.

“Who? Who was it that crossed you?”

Liang Hao shouted and gradually moved his body. He was now facing the back of the sofa. When Bai Chen replied, he would jump up to kill him instantly.

“He’s dead now. Now go off to hell along with him!”

Bai Chen had already used the stargazing walker skill to come stand behind Liang Hao, without the man realising it, as no footsteps had sounded.

Liang Hao’s heart sank. He turned quickly to the side and met the eyes under the balaclava. His scheme did not go as planned. If he did not shoot the other party now, he would be finished!

He pointed his gun at Bai Chen, preparing to pull the trigger.

Bang! Bang!

But before he could pull the trigger, two bullets pierced through his skull!

Liang Hao’s eyes widened. He had never expected that he would die in this manner, murdered in his own headquarters.

His body fell back onto the floor. Liang Hao was not breathing anymore. Blood was flowing out of his body. The smell of blood that was already there inside the warehouse intensified, even more, making one feel even more nauseous.

Bai Chen looked at Liang Hao's body for a while before putting the M-16 rifle back into his dimension ring. He did not know how many bullets were left, but he guessed there were not that many because he had fired a lot.

He sighed with relief. Just like that, the White Tiger Gang was eradicated once and for all!

No one would dare to harm him or his parents from now on.

Thinking this through, though, the person who had made the White Tiger Gang his enemy was Ba Guan.

Bai Chen felt sympathy towards the White Tiger Gang. Everyone in the gang had had to die at his hand, all because of Ba Guan.

"My, Ba Guan. You didn't die alone, but dragged all these people down with you."

Bai Chen mumbled this to himself and quickly left the place, using the stargazing walker skill to travel home.

Though it was still not dark, by going really high up to a point where no one could see him, there should be no problems.

.....

After Bai Chen had left the Liae Warehouse, two police vehicles arrived half an hour later along with the sound of sirens.

The two police cars arrived in front of the Liae Warehouse. An officer got out of the car before anyone else. He was none other than Lieutenant Jong.

As Lieutenant Jong got out of the car, seven other officers followed. There were two cars in total and the total number of officers present was eight.

The reason for their arrival was because someone had reported a shooting incident at the Liae Warehouse. Gunshot sounds had made people driving past the destination shaken and terrified.

"You two go inspect the area around the warehouse. The rest, follow me inside," Lieutenant Jong commanded as soon as all of the officers got out of their cars.

"Yes, Lieutenant."

All of them responded to the command and two of them jogged away.

Lieutenant Jong knew very well that the Liae Warehouse was the headquarters of the White Tiger Gang. But he did not dare get involved, because the brother of the leader of the gang was an inspector in the Xing Zhou police station.

That is, he was higher than him in rank. However, since people had called in to make reports, it was not like he could just ignore things. Lieutenant Jong walked to the large warehouse door, which was slightly ajar.

He went inside with the five remaining officers.

As soon as they went in, their eyes all widened in shock at seeing what had happened.

“T... This is...!”

Lieutenant Jong’s lips quivered as he spoke out loud.

Chapter 93 The Necklace Of Fortune

“W... What happened here?!?”

An officer next to Lieutenant Jong said this with a shaky voice.

He took a deep breath. Fear emerged in his heart when he saw over forty dead bodies on the floor along with a sickening pool of blood.

It was not only this officer who had this reaction. Others felt the same, including Lieutenant Jong.

“Everyone, calm down.”

Lieutenant Jong said this after successfully calming himself down.

Five other officers tried to calm their emotions, but there was still fear in their hearts.

Even though they were policemen, none of them had seen a massacre like this before. It was natural that they were struck by horror.

Lieutenant Jong got out the gun from a holster on his waist. At the same time, he noticed the spent shells scattered on the floor. The man bent down to pick one up.

“These are probably M-16 shells,” said Lieutenant Jong. He scanned the area. “Let’s split up to inspect inside the warehouse. Be careful. The perpetrator might be hiding somewhere.”

“Yes, Lieutenant!”

The five police officers acknowledged his order. They got out their guns with serious expressions before they walked forward carefully to inspect the area.

Lieutenant Jong’s face was a little pale. He could not help thinking to himself, ‘It looks like the White Tiger Gang disrespected someone. That’s why they have ended up like this. I’m not sure what the inspector is going to think about this, as Liang Hao’s brother.’

After thinking to himself, he approached the pile of bodies that was the White Tiger Gang’s men. Lieutenant Jong saw Liang Hao’s corpse and sighed, feeling troubled.

He did not know who the White Tiger Gang had disrespected, but the perpetrators were probably not normal forces. This was because the whole gang had been eradicated. Almost fifty of them had been massacred!

.....

Bai Chen arrived home. He greeted his parents, showered, and changed.

It was almost 5 p.m. now. He was feeling at peace, even though he had just killed almost sixty people in one day.

The boy was now sitting on his bed, looking at the Life Changing System window.

[The Life Changing System]

User: Bai Chen

Age: 18 years old

Level: 3 (25/100)

Description: You still need 75 points to level up.

If you wish to change your life into what you have always wanted, proceed with the following missions!

[Mission Dashboard]

Mission 17: Travel by plane once. (10 points)

Mission 18: Treat the illness of Long Xu In's grandfather. (30 points)

Further instruction: The order of mission completion is irrelevant. After you are done with the tasks assigned to you, you will be given a chance to receive special skills or items at random. The skills or items will give you a better life!

[You have 1 opportunity to get special skills or items at random.]

Looking at the system window, Bai Chen could not help but frown when he saw the new mission—Mission 18.

This mission was exactly what Long Xu In had requested from him. Furthermore, its reward was as much as 30 points.

"I can't believe the system is giving me a mission that I'm already planning to do," Bai Chen said to himself as he pressed to see the details of Mission 18.

[Mission 18: Treat the illness of Long Xu In's grandfather]

Instruction: Long Xu In's grandfather has multiple sclerosis (MS), a disease that disables the functioning of the muscles. He can neither walk nor move his body. You will have to treat his illness using the vaccine from the magical medicine set. After you've accomplished this goal, he will feel very thankful to you.

Reward for success: Win 30 points

Penalty for failure: You'll become the enemy of the Long family.

After checking out the details of Mission 18, Bai Chen closed all the windows.

He did not knit his brows at all after reading that, because this mission was quite similar to Mission 15, which he had failed.

Bai Chen stopped thinking about this matter as he had already told Long Xu In that he would go to Dong Hai Island with her to accomplish this deed. And he was going to do that anyway, even if this type of mission had not popped up.

The boy started to think about the roulette bonus he had received. He quickly tapped it open to use it right away.

The roulette window appeared in front of him. Bai Chen pressed the button in the middle of the roulette wheel without hesitation or any thoughts, like every other time.

The roulette wheel started spinning rapidly before gradually slowing down. It stopped at the tab for... a special item!

Ding!

[Congratulations, you have received a low-grade necklace of fortune!]

A blue star-shaped necklace appeared in front of him.

It was very beautiful. The necklace was twinkling like the stars themselves. The material used to craft this necklace looked quite extraordinary. It was neither diamonds nor gold, but rather something else that was quite breathtakingly beautiful.

Bai Chen stared at the necklace with wide eyes. He could not take his eyes off it. According to its name, would this necklace not bring him a good fortune?

He did not waste even half a second before reaching out his hand to pick it up. The boy then pressed the system window to see its details.

[Low-grade necklace of fortune]

Description: This necklace of fortune has the power of fortune in it. Whoever wears this necklace will be blessed with good fortune. It is an object that fell from the sky a long, long time ago. No one knows who crafted it. But due to the fact that it is only a low-grade necklace of fortune, the good fortune that one receives is in rather limited confines.

Grades of Special Items: Low, Medium, High, Supreme

Reading through the details, it was as if Bai Chen's eyes had rays of lights shooting from them. His breath quickened and his heart was beating furiously in his chest. He was obviously feeling very excited.

Bai Chen had thought that he would find a way to earn money after returning from Dong Hai Island.

It was natural that he was feeling excited because getting the necklace of fortune might land him a huge lump sum of money, should he engage in gambling.

In his previous life, Bai Chen had not gambled much. But after he had spent time in prison, he played quite often with other prisoners, though it was usually a simple game of chance like mahjong.

Therefore, when he received the necklace of fortune, it was natural that he immediately thought of gambling.

"If I'm not wrong, Dong Hai Island has many famous casinos. If I try my luck there, I might get a large sum of money."

Bai Chen mumbled this to himself. He was now thinking of trying out his luck in Dong Hai Island's casinos.

He thought this over for a long while. Though he had already decided to try his luck at the casinos, he still did not have any funds to gamble with.

Suddenly, an idea popped into his head. The idea was to borrow Long Xu In's money.

Bai Chen was quite sure that she would definitely let him borrow money because she had pleaded for him to cure her grandfather.

Chapter 94 Xu Xue Ning's Question

After deciding to borrow some money from Long Xu In as capital in order to gamble at a casino on Dong Hai Island, Bai Chen put the necklace of fortune into the dimension ring.

There was no need for him to wear it now since he did not need any fortune at the moment. Thus, he did not wear the necklace. Then, he prepared to go down to join his parents for dinner.

It was now around 5 in the evening. He guessed his mom was preparing food.

However, the iPhone 7 that he had placed at the head of his bed started ringing before he could leave the room.

Bai Chen got up from his bed to see who was calling. Once he saw that it was Xu Xue Ning's number, he picked up immediately.

He knew it was her number because he had already saved it on his phone.

There were at present only three numbers saved on his phone, including Xu Xue Ning's. The other two were Long Xu In's and Qian Bei's.

"Hello. Who is this?"

A woman's sweet voice sounded through the speaker after Bai Chen picked up the call and put the phone next to his ear.

"Hi, it's... uh... me," Bai Chen said hurriedly. His words sounded somewhat hesitant. He did not know which kind of words to use with her. But, in the end, he decided to use the language of the cultivators' realm.

"E... Elder, is that you?!?"

Xu Xue Ning's tone which was calm at first had turned into an alarmed tone. She had to hold her breath. She did not expect that the call she had missed would be from his number.

"Yes, it's me. Didn't I tell you I would call you after I bought a phone?"

Bai Chen spoke in a rather normal tone.

Xu Xue Ning went quiet for a while before speaking. "Thank you, Elder, for keeping your word. This must be your number, right?"

"That's correct," Bai Chen replied.

"I'm at home." Bai Chen did not hide anything. He told her the truth.

Xu Xue Ning felt quite excited to be talking to him, a person that she thought was a Sky Soaring Realm cultivator. She thought a little about what to say next.

But while she was thinking, Tang Zi Cheng and Tang Yien's story came to mind. She could not help blurting it out.

"Elder, you met with a couple named Tang Zi Cheng and Tang Yien today, right?"

"How did you know?" Bai Chen's brows furrowed. He was very surprised that Xu Xue Ning knew about this.

"Or did Xu In tell you?"

"No, sir. I just happen to know those two," Xu Xue Ning explained while she thought to herself about whether or not she should tell him about Tang Zi Cheng preparing to send his people to come to get the vaccine from him by force.

But after some thought, she decided not to. In any case, she had already warned Tang Zi Cheng.

If the other party refused to listen, she could not help if the Tang family was destroyed!

It was clear that in her opinion, even one of the five biggest families of Beijing could not withstand the anger of a Sky Soaring Realm cultivator!

"Oh, that is how it is. Is there anything else you wanted to say?" Bai Chen nodded and asked. Because he was waiting to hang up and go eat what his mom had prepared.

In fact, he did not have much to say to Xu Xue Ning. He had only called her because she asked him to.

Even though she was as beautiful as an angel and the most beautiful woman he had ever seen, he did not feel anything special towards her. Because there was already a lovely young lady like Li Lin in his heart. And he also did not think that he deserved to be with a woman like her.

She was so beautiful, she was completely out of his reach in his opinion. It was obvious that he was still very aware of who he was and his own position.

Hearing his words, Xu Xue Ning went silent for a while before speaking further.

“I will not bother you any longer, Elder. But, if you don’t mind, there is one thing I want to ask.”

“Ask away. I will answer if I can,” Bai Chen said, wondering what she was going to ask him.

“Did you use a transformation technique to turn into an 18-year-old boy to chase after Xu In?”

As soon as he heard her question, Bai Chen almost choked on his own breath and nearly tripped and fell to the floor.

Because he never thought he would hear this kind of question from Xu Xue Ning. And it was what had given him such a headache yesterday.

It was true that she had not asked him yesterday, but she had just now. And he still did not know what answer to give her.

He took a deep breath before trying to come up with a good answer.

A minute went by, but he still could not manage to find one.

Xu Xue Ning was quiet. She did not say anything. She was only waiting for his answer.

‘This answer might do.’

Finally, Bai Chen seemed to have come up with an answer. No, it was not that he had come up with it. This was because his answer was just to admit it to her without thinking of any excuses, even though it was not the truth.

“Yes, you have understood correctly,” Bai Chen said aloud eventually.

Xu Xue Ning almost dropped her phone. Her calm face changed a little, though the answer had already been what she expected.

But hearing him admit it, it was normal for her to feel shocked. She went quiet for a long while before taking a deep breath and speaking.

“Thank you, elder, for replying truthfully. But Xu In is like my little sister. I hope you truly love her and are not fooling her.”

“Of course...” Bai Chen said in a quiet voice.

He smiled wryly. He admitted it not because he liked Long Xu In and was pursuing her, but because he could not find a better answer.

“If so, I am relieved,” Xu Xue Ning said before asking to hang up.

Bai Chen had nothing else to say to her. Thus, he could only tell her to go ahead.

After they hung up, Bai Chen let out a sigh. “I hope she won’t tell Xu In about this.”

Bai Chen said this to himself while shaking his head. He was afraid that Xu Xue Ning would inform Long Xu In of what he had admitted and that would cause a misunderstanding.

That was the last thing that he wanted. He let out a sigh again and put his phone back to where it had been before leaving the room.

He went down to the first floor of the house and saw that his dad was already at the table.

“Little Chen,” his dad called out once he saw him.

“Come sit down. Mom is still cooking.”

“Yes, dad.” Bai Chen nodded and went to sit down.

Bai Chang looked at his son before speaking in a somewhat strict tone.

“Be careful when you go places these days. Many people were murdered near the entrance of our business district.”

Bai Chen understood his dad’s worries. He nodded obediently.

But in his heart, he knew full well that the person who had murdered those people was him, something which he surely could not tell his dad. And that included his mom and other people too.

Chapter 95 Xing Zhou Airport

Bai Chen left his house at 9 in the morning. He was carrying a backpack that had two to three outfits inside.

He walked to the entrance of the Xing Seng Business District to wait for Long Xu In like he had done before.

He had told his parents yesterday after dinner that he would be going to Dong Hai Island with his friends for a vacation. His parents did not stop him. They only asked a few questions and gave him 500 yuan as pocket money.

And while he was leaving his house, he saw a news report. It was huge news for Xing Zhou city. The details of the news both scared and satisfied people greatly.

It could be nothing but the news of the massacre of the White Tiger Gang that had happened in the Liae Warehouse!

Most people were frightened by this news, but some were satisfied because the White Tiger Gang was evil. They liked to go around and threaten people for money.

So, it was not a surprise that there were people who were pleased to find out that the White Tiger Gang had been completely wiped out.

Bai Chen felt nothing about this news. He only watched it in passing for a short while. He felt no regret at all about having killed the whole White Tiger Gang off.

If someone was to be blamed for the death of the White Tiger Gang, it would be Ba Guan and Ma Jong. Because if Ba Guan had not told Ma Jong to come and kill him, and Ma Jong had not gone along with him and sent people to kill him, the White Tiger Gang would not have ended up being eradicated by him!

At first, Long Xu In had not set a time for when she would pick him up. But she had called around 8 p.m. last night to tell him to meet around 9:30 a.m. Hence, it was not strange for him to be out here at the entrance of the Xing Seng Business District waiting for her.

The entrance of the Xing Seng Business District had all sorts of people coming in and out now and then, whether it was pedestrians, bikers, or motorcyclists. There were no cars though because the road in the district was not very big, so cars could not drive in.

Bai Chen was waiting for Long Xu In at the entrance while taking out and fiddling with his iPhone 7.

He was starting to get more familiar with it. He had subscribed to the 7-day data package yesterday. He scrolled through the screen looking for the YouTube icon and was about to access it.

However, Long Xu In's car arrived at the place where he was standing before he could do so.

He put the phone in his pocket before getting into Long Xu In's BMW.

"Did I keep you waiting?" Long Xu In asked after Bai Chen got in to sit in the front seat.

He had to turn to look at her. His eyes met with a pair of beautiful brown eyes, which made his heart tremble a little. He discovered that her eyes were very beautiful.

No. Not only her eyes. Her face and body were also flawlessly beautiful.

Especially today, the short white dress with black tights she was wearing made her extremely pretty and charming. Even more so than the previous days that he had met with her.

With them being so close together, his nose caught the light scent of her perfume. His heart beat fast.

He could not really describe his feelings at the moment. He quickly calmed himself down and shook his head a little.

"Not at all. I just got here."

Long Xu In sighed with relief. She was afraid she had kept him waiting for too long, even though they had agreed to meet at 9:30 a.m.

"Shall we go then?"

Bai Chen nodded. He had no problem leaving now. This trip was not just for him to return the favor he owed her, but it was also to complete the Life Changing System's mission.

After that, Long Xu In drove away. Their destination was Xing Zhou Airport. Because this city was named Xing Zhou, the airport was of course named after it.

.....

After half an hour, Bai Chen arrived at Xing Zhou Airport with Long Xu In.

After parking the car in the airport's parking lot, they entered the airport terminal.

They did not have to queue to buy tickets because Long Xu In had already booked theirs. Both of them sat in the waiting area the airport provided.

Many men were throwing Bai Chen jealous looks because he was sitting beside Long Xu In.

Long Xu In's beauty was obvious. It was no surprise that those people envied Bai Chen because he was with her. They were cursing him in their mind, saying that he did not deserve her!

In fact, it was not only the men but also the women who were staring at her. They were jealous because they were not as pretty as Long Xu In.

Both Bai Chen and Long Xu In did not pay attention to those staring eyes. They sat quietly, not talking to each other.

But Bai Chen finally broke the silence. "Xu In, what time did you book for our flight?"

Long Xu In looked at him before she answered, "I booked the 10:30 a.m. flight. We shouldn't have to wait long. We'll be boarding soon."

In fact, she had a private jet that could fly them to Dong Hai Island. But because she knew that Bai Chen liked a simple lifestyle, she had chosen to book tickets to fly through Xing Zhou Airport instead.

And she had booked economy class tickets instead of first class. She had obviously done things the way he preferred.

These, of course, were her own assumptions. Bai Chen did not prefer living a simple, down-to-earth life; it was only because his life had always been this way. Due to his family being of modest means, it was not unusual for him to live a life that was simple, not extravagant, or frivolously excessive.

After he received an answer, Bai Chen nodded. He looked curiously at Long Xu In and asked, "You're not bringing any clothes?"

It was clear that Long Xu In did not have any suitcases with clothing with her. She was only carrying a black name-brand bag. Bai Chen could not help but ask her this.

"I have clothes on Dong Hai Island. I don't need to bring any," Long Xu In replied. She had not expected him to ask her that. Since he seemed like a rich person, he should have realized that she had some of her clothes on Dong Hai Island because her grandfather lived there, and she visited him often.

Sometimes, she would spend many nights there. So, it was normal to have some of her clothes over there as well.

“Oh, that’s why.” Bai Chen nodded in understanding.

He thought to himself that Long Xu In was really rather rich. No. It must have been her family, too. In his eyes, her family must not be just any ordinary family.

Chapter 96 On The Plane

Half an hour later, Bai Chen and Long Xu In boarded the plane.

Their seats were in the middle section. The seats on the plane were divided into two rows, with three seats in each row.

Long Xu In had the window seat and Bai Chen sat in the middle seat next to her. The other seat’s occupant was unknown.

Even though this was Bai Chen’s first time on a plane, he was not that excited. He only felt surprised. He was surprised at this unfamiliar mode of transportation.

The backpack he had with him was not too big, so he had brought it onto the plane as a carry-on. He placed it on his lap and looked outside the window.

Though Long Xu In was sitting beside the window, he could still see.

Long Xu In saw him looking at the window. She tried to make herself smaller so as to not block his view, but because her chest was big, it was impossible to do so.

Bai Chen’s eyes widened. The curve of her chest seemed to swell up while she tried to make herself smaller.

He had to take a deep breath. His heart pounded fast. He did not dare to look very long, so he looked away hurriedly.

Long Xu In saw that he had stopped looking at the window. So, she stopped her attempt in making herself small.

The two did not talk much. They just sat and waited for the plane to take off.

Suddenly, a vicious-looking middle-aged man came to take the seat next to Bai Chen. He was in a black suit. He seemed like a businessman, but also like a mobster.

Bai Chen glanced quickly at the middle-aged man but did not pay much attention to him. He looked down and kept his eyes on the backpack on his lap.

People gradually boarded the plane until almost everyone who was traveling to Dong Hai Island was on board.

The middle-aged man who was sitting next to Bai Chen looked at him for a while before spotting Long Xu In. His eyes lit up.

“Hey, kid. Let’s switch seats.”

The middle-aged man said this out of the blue. He looked at Bai Chen and threatened him with his eyes. That, combined with his vicious face, would have made him look very frightening to many people.

But certainly not to Bai Chen. He was not scared of the mean-faced middle-aged man at all. He looked at his face and asked, "Why should I?"

"You!" The vicious-looking middle-aged man became angry. He glared at Bai Chen. He did not think that even after his words and threatening look, Bai Chen would still not do as he said.

To him, Bai Chen's action was clearly asking for trouble.

The middle-aged man took a deep breath to control his anger. He had something more important to do on the plane today. He could not make a scene.

"You will pay for this!"

Bai Chen pretended not to hear. He did not care about this man's words at all.

Long Xu In had seen everything that happened since she was sitting right next to Bai Chen. But she said nothing.

If the middle-aged man with the vicious face wanted trouble, she believed that Bai Chen could easily take care of him.

About five minutes had passed. Two good-looking flight attendants came in to perform the safety demonstration in case of emergencies.

After they were done, they announced that the plane would be taking off in five minutes and that everyone should fasten their seatbelt.

Soon, the five minutes were up. The flight attendants announced one more time that they were about to take off.

Not long after, the plane slowly taxied along the runway. The plane shook once before it pointed upward and took off into the clear blue sky.

Once the plane had reached cruising altitude, it was flying in a normal position, no longer pointing upward.

Bai Chen watched through the window with a strange feeling, even though he had used the stargazing walker skill to walk in the sky before.

But the feeling of being on a plane was a lot different from that.

He did not know how it was different. He only knew it was different.

Long Xu In, who was sitting beside him, was watching through the window as well. She saw the blue sky and the clouds passing by.

She felt that looking at the sky and the clouds cleared and relaxed her mind.

The vicious-looking middle-aged man made a grunting sound at Bai Chen. He had to turn to look.

But as soon as he did, alarm colored his face when he felt something hard poking at his side. He did not need anyone to tell him that it was a gun!

“What do you think you’re doing, you scum?” Bai Chen calmed himself. His facial expression went back to normal.

He was not scared of the gun pointing at him. He was sure that he could take care of this man even before he pulled the trigger.

Nevertheless, he did not understand how this man could have brought a gun onto the plane when there was a strict security measure.

“You dare call me scum? Do you want to die?”

The middle-aged man was angry after hearing Bai Chen’s words. He did not believe that even with a gun to his side, Bai Chen was still not afraid of him.

“You’re the one who wants to die!”

Bai Chen moved his hand quickly and slammed it down into the middle-aged man’s face. His face snapped to the side and hit the seat, and he passed out.

The gun that was pointed at Bai Chen fell out of his hand and landed on the bag on his lap.

Long Xu In saw everything that happened, but she did not panic.

Once she saw that Bai Chen had already taken care of the middle-aged man, she asked him, “Should I call the steward over to take care of this?”

Bai Chen nodded immediately. It would be better to let the steward take care of this man. Because if other passengers found out someone had brought a gun, it would be big trouble.

Bai Chen was very lucky that when he had slapped the vicious-looking middle-aged man so hard he passed out, no other passenger had seen it.

Long Xu In was about to call the steward over. But at that moment, something else happened. A woman’s scream filled the cabin, followed by the panicked frenzy of the passengers in the plane.

“Everybody, stay still. If anyone moves, I’ll shoot!”

A cold voice sounded from the very front of the cabin.

A middle-aged man in a black suit with a scar on his face had hold of a flight attendant. In his other hand was a gun.

Bai Chen and Long Xu In turned to look at each other instantly.

“Terrorists!” Both of them had the same thought. There were terrorists on the plane!

Chapter 97 The Terrorists’ Objective

Bai Chen did not think that there would be terrorists on the plane. He felt rather unlucky to be facing this situation when he was on a plane for the first time in his life.

Bai Chen looked at the terrorist who had taken the female flight attendant as a hostage.

She stood with her legs shaking. Her face was pale and there were tears in her eyes. It was obvious that she was terrified.

She was not the only one. The twenty or so passengers in the cabin were no less terrified.

They could not have expected that the plane they had boarded would be subjected to an act of terrorism like this.

Fearfully, they fell silent just like they were told by the middle-aged terrorist. They did not dare to make a sound.

Fortunately, there were no children on the plane. Otherwise, there would surely have been a lot of loud crying.

Though Long Xu In was panicking, she was not that scared. She looked at Bai Chen and whispered, "I think the one sitting next to you is one of these terrorists."

Bai Chen agreed with this. Looking at the unconscious man, he quickly put his body on the floor. He placed both his feet onto the body.

He had to do this because it would not be good if the one who had captured the flight attendant found out that one of his comrades was unconscious.

After putting both of his feet on top of the vicious-looking man, Bai Chen carefully picked up the gun that had fallen on top of his bag, while also observing the terrorist's movements.

He could not do anything at the moment because the other party had the flight attendant as a hostage.

But whenever he had the chance, he would take action. This was because he really did not like the current situation at all.

Long Xu In looked over at the terrorist. She asked Bai Chen again in a low whisper, "What do you think the terrorists want?"

Bai Chen did not look at her. His eyes were still on the terrorist.

"I'm not sure either. Is it possible that they want to rob this plane?"

"It is possible. But why would they want to rob this plane for? Or is there an extremely wealthy billionaire somewhere on this plane?" Long Xu In said curiously.

Bai Chen had no idea, so he could not answer her.

Both went quiet. Each person's eyes were on the terrorist, waiting to see what their objective was.

"Everyone, listen up. We have taken over the cockpit. If you all stay still, we will not harm you. Once we fly this plane over to Myanmar, we will let you go!" the terrorist shouted loudly.

With those words, their objective was made known to all the passengers.

After all the passengers had heard their objective, everyone looked frightened.

They did not expect the terrorists to fly this plane across the country to Myanmar, which was one of China's neighboring countries.

After the terrorist shouted, no one dared to make a sound because they were afraid of being shot to death.

The cockpit door was opened, and a rather dark-skinned young man walked out. He turned to look at the one who had hold of the flight attendant.

"Where is Sao Yen?"

That terrorist pushed the flight attendant away.

Once she was released, she gathered all her strength and ran away in fear.

The terrorist did not care about her. He turned to answer the young man respectfully.

"I haven't seen him, boss. Not sure where he's hiding."

The dark-skinned young man's name was Da Fu. He looked at the terrorist, who was one of his comrades. His brows furrowed a little.

"Su Hua, you go walk around and look for him. He might be in the lavatory. Me and Bo Kuang will oversee the cockpit and force them to fly to Myanmar."

"Yes, boss." Su Hua nodded immediately before walking along the aisle to the lavatory, which was at the back of the plane.

Da Fu's eyes followed Su Hua's back. They suddenly gleamed with deadly intent.

It was obvious that he wanted to kill Su Hua as soon as they arrived in Myanmar!

No, not only Su Hua. Sao Yen and Bo Kuang too—he would kill them. This way, he could keep all the diamonds they had stolen for himself.

He and the other three guys had just robbed a luxurious jewelry store in Xing Zhou city. They had taken over a hundred million yuan's worth of diamonds.

After they changed directions until they lost the police, they sneaked onto the plane.

Once they got on board, they had proceeded with what they were doing now.

With his thought of killing all three of his teammates, it was clear that Da Fu wanted very much to keep the over a hundred million yuan's worth of diamonds all to himself.

He looked at Su Hua for a while before returning to the cockpit.

The direction of the plane had already changed. From heading to Dong Hai originally, now it was headed to Myanmar.

Su Hua walked along the aisle without paying attention to the passengers on both sides.

When the passengers saw Su Hua walking over with a gun, everyone started shaking. They were afraid of being shot by him, so they all sat quietly.

But the two people amongst them who were not afraid were Bai Chen and Long Xu In.

Bai Chen told her to stay still. She nodded in agreement. He was prepared to take care of Su Hua, who was walking towards them.

He unfastened his seatbelt. Both of his fists were clenched tightly. If Su Hua came closer, he would be ready to take action.

He believed that he could take care of Su Hua easily with his speed.

Su Hua had almost reached Bai Chen's row. He did not notice anything unusual, so he continued to walk along without paying much attention to anything. He swung his gun around in his hand to scare the passengers.

Bai Chen saw that Su Hua had walked to a distance where he could manage him. He stepped on the body of the vicious-looking man, or the one called Sao Yen, and jumped up and lunged at Su Hua with no hesitation.

Su Hua's eyes widened when he saw someone lunging at him. He held up his hand, his gun pointed at Bai Chen's body.

Their speed was the thing that would define their fates at that moment. If Bai Chen was faster, Su Hua would be knocked unconscious. But if Su Hua was faster, Bai Chen would be shot.

No matter who was faster, both of them were in danger. Especially Bai Chen. He was in a much more dangerous spot than Su Hua because the gun was aimed at his body!

Chapter 98 Taking Care Of Things

Bai Chen saw that the gun was pointing at him, but he did not panic. He flung out the hand that was holding a gun and smacked it against Su Hua's neck.

Smack!

His gun barrel hit Su Hua's neck hard, causing him to pause mid-action. His vision went dark before he passed out.

Bai Chen saw that Su Hua had already passed out. He stopped Su Hua's body from slumping to the floor because it would make a loud noise and cause the terrorists in the cockpit to be suspicious.

Bai Chen carefully laid Su Hua's body down on the floor.

Though he was unconscious, his grip on the gun was still tight. Bai Chen had to pry it out from his hand.

At the same time, he noticed that every passenger's eyes were on him. Their faces were full of amazement. Some had their mouths open, about to let out a scream.

Bai Chen quickly let out a 'shhhh'.

He was afraid that if the passengers made a sound, the terrorists in the cockpit would hear.

The passengers saw and kept their mouths shut. The atmosphere in the cabin became so quiet that you could hear a pin drop.

Many passengers became more relaxed once they saw that Su Hua had been taken care of and Bai Chen now had two guns with him. They felt they did not need to be afraid of the terrorists because of those two guns.

“Give me the gun!”

While Bai Chen was standing in front of Su Hua’s unconscious body, he heard someone’s voice coming from the front.

He looked up to find a middle-aged man who was dressed in a casual outfit walking towards him. He held out his hand for the gun.

Bai Chen furrowed his brows a little and did not hand over the gun to the man.

“Give me the gun!” The middle-aged man became angry instantly after Bai Chen did not pass him the gun.

In truth, he was terrified of getting shot by Su Hua. But once he saw that Su Hua had been knocked out by Bai Chen, he was no longer scared.

When he saw the two guns in Bai Chen’s hand, he did not hesitate to leave his seat and come tell Bai Chen to hand a gun to him.

It was clear that he thought having a gun would keep him safe. That was why he came and asked for a gun.

“Why should I give it to you?” Bai Chen did not feel the need to be polite with someone who was not polite to him. He said this coldly.

The middle-aged man’s face turned green with anger. “I said give it to me!”

Bai Chen suddenly aimed the gun at the middle-aged man in front of him.

He highly disliked the man because of his nasty behavior, coming to tell him to hand over the gun out of nowhere and throwing tantrums when he did not get what he wanted.

“Wh... What are you doing?!?” The middle-aged man cowered. His voice was shaking.

“Shooting you!” Bai Chen exclaimed, his finger on the trigger.

“Don’t! Please don’t shoot me. I’m scared!” The man collapsed onto the floor. He was terrified of Bai Chen.

He did not expect Bai Chen to be this savage.

“Go back to your seat then!” Bai Chen said. He did not pay any more attention to the man.

He looked around at the other passengers who all had fearful expressions on their faces when they saw him aiming the gun at the middle-aged man.

“Who has some ropes? Please use them to tie up these terrorists.”

“I do.” A man got up from his seat. He quickly took the ropes out of his suitcase.

Bai Chen told him to bring over Sao Yen’s unconscious body and tie him up too.

After he had tied up Su Hua and Sao Yen, Bai Chen was about to enter the cockpit to deal with the rest of the terrorists.

But before he did, Long Xu In walked towards him. She told him in a soft voice, “Be careful.”

He nodded before walking away with two guns in his hands.

Her eyes followed Bai Chen for a while. Then, Long Xu In returned to her seat.

The man who helped tie up the terrorists was stunned by Long Xu In’s beauty. He thought what a lucky guy Bai Chai was to have such a pretty girlfriend.

But what he did not know was, in fact, Bai Chen and Long Xu In were not together.

The middle-aged man whom Bai Chen had threatened to shoot before had gone back to his seat. But when he saw Bai Chen passing by, he could not help but feel angry. He wanted to punch Bai Chen and grab the gun. But seeing the two guns in Bai Chen’s hands, he could do nothing but sit quietly in anger.

The man’s thoughts were different from other passengers’. They only hoped that Bai Chen would be able to take care of the terrorists inside the cockpit. Once they were all taken care of, they would finally feel safe.

Though the passengers were not talking much, they still whispered to one another.

Bai Chen did not pay attention to them. He reached the cockpit door. He took a deep breath and knocked on it with the back of the hand that was holding a gun.

Inside the cockpit, Da Fu stood there frowning. In front of him was a middle-aged man with a scarred face.

This man’s name was Bo Kuang. He was pointing the gun at the captain and the first officer.

There was also an unconscious flight attendant lying next to the captain and the first officer’s chairs.

The captain was an anxious-looking middle-aged man. His face was covered with sweat. His heart pounded fast, fearing the terrorist might shoot him.

The same could be said about the first officer. He was no less scared than the captain.

At that time, Da Fu heard someone knocking.

“I guess Su Hua is bringing Sao Yen. I’ll go out and check,” said Da Fu.

“Yes, boss,” Bo Kuang replied while casting an unfriendly look at Da Fu.

He did not want to accept Da Fu as his boss. But for Da Fu’s late father’s sake, he had to endure it.

But after reaching Myanmar, he had decided to kill Da Fu, Su Hua, and Sao Yen. So that he could have a hundred million yuan’s worth of diamonds to himself.

Obviously, Bo Kuang's thought was not so different from Da Fu's.

Each of them had their own plan; the only question was whose plan was going to succeed.

Da Fu said nothing more and turned to open the door. He had no gun on him.

He did not expect anything to go wrong because, to him, that was impossible. The reason for his confidence was because Su Hua and Sao Yen both had guns that they could use to threaten the passengers.

Chapter 99 A Boast Of Power

As soon as Da Fu opened the door, something unexpected happened. A gun barrel was smashed against his face. His nose broke and a stream of blood poured down from it. His eyes turned blurry. He was in agony.

But not for long, because he soon lost consciousness.

The person who hit Da Fu with a gun could be none other but Bai Chen. He did not pause to look at the unconscious Da Fu who fell to the floor. He quickly ran inside the cockpit. The hand holding the gun was raised and the gun was thrown.

Bo Kuang panicked when he heard something happening. He turned to the door.

Once he had seen Da Fu knocked out, his expression changed. He was about to shout out that he had hostages and if anyone dared come any closer, he would shoot them.

But he did not have the chance to do so. A gun flew at him and hit his face hard, breaking two of his teeth. Blood poured out of his mouth.

His nose was also bleeding. Fortunately, his nose was not broken like Da Fu. Otherwise, he would have been in much more pain.

The gun slipped out of Bo Kuang's hand and fell onto the floor. He took a step backwards, almost falling over.

Bai Chen saw that Bo Kuang was still conscious. He ran fast and used the gun in his hand to smash Bo Kuang's neck.

Bam!

A heavy sound was heard. Bo Kuang's eyes widened painfully before he passed out.

Everything happened extremely fast. The captain and the first officer had no time to react.

But as soon as they saw that both terrorists had been taken care of, they felt relieved and could breathe more easily—unlike a moment before when they were both in a stressful, fearful situation.

Bai Chen was panting by the time he finished dealing with Bo Kuang. He was quite tired because he had had to do everything so quickly.

He turned to the captain and the first officer. "Do you have ropes? Hurry and tie them up."

"O... Okay," the first officer answered nervously as if he had just woken up from a dream. He got up and looked for ropes to tie up the two terrorists.

The captain did not offer his help because he still had to fly the plane. After the terrorists were dealt with, he changed back to the original course heading to Dong Hai Island.

“Thank you so much. If it weren’t for you, we would’ve been in big trouble.”

When he had finished tying up Da Fu and Bo Kuang, the first officer hurried to thank Bai Chen with a smile.

“That’s right. We really thank you. You can be regarded as our hero this time.”

The captain also gave his thanks. His words sounded somewhat exaggerated. His eyes were full of admiration when he looked at Bai Chen.

“There’s no need to thank me. It’s something I had to do. Don’t forget to contact the police to come to arrest these terrorists once we land. There are two more of them outside. Oh, and don’t forget to check the unconscious flight attendant over there.”

Bai Chen told them this before picking up all the guns. Two of them were on the floor and one was with Da Fu. There were four altogether. Bai Chen took all the terrorists’ guns with him.

He handed them over to the first officer to take care of. There would be a problem later if he took the terrorists’ guns. That was why he did not keep them for his own.

After that, he left the cockpit to go back to his seat to see Long Xu In.

The first officer’s eyes followed Bai Chen thankfully. He went to check on the unconscious flight attendant. As for all the guns, he kept them all in a bag to be handed over to the police.

As soon as the captain heard what Bai Chen said, he instantly contacted Dong Hai Island airport to send the police to come to arrest the terrorists the moment they landed.

When Bai Chen walked out of the cockpit, all the passengers looked at him gratefully. Ever since they saw him knock out Da Fu, they knew that the terrorists would be taken care of.

But none of them had left their seat to watch. They had been too scared, though they knew that Bai Chen had it all under control.

Bai Chen had taken several steps out of the cockpit when he heard a continuous stream of thankful words from the passengers.

“Thank you very much.”

“Thank you for dealing with the terrorists.”

“You are our hero!”

“We will never forget today!”

Bai Chen could only smile back at these voices.

“Bastard! You owe me an apology!”

Among the wave of thanks, an angry voice sounded.

It was the voice of the middle-aged man who had thought of coming to take a gun from Bai Chen and whom Bai Chen had pointed a gun at until he had become scared.

This man did not think of giving up on this quarrel with Bai Chen. Once he saw that Bai Chen was done with the terrorists and no longer had a gun in his hand, he quickly left his seat to shout at Bai Chen.

He thought that with Bai Chen having no gun, he could get back at him, that he could easily beat him up.

His voice caused all the voices saying their thanks to stop. Many passengers raised their eyebrows and stared at the middle-aged man like he was a freak. This was because this kind of behaviour was considered ungrateful.

“Uncle, there’s no need for trouble. Just let it go.” The man who had helped tie up the terrorists left his seat to help resolve the argument.

“Shut up, you dog!” The middle-aged man was extremely agitated. He glared at the young man before looking at all the passengers in the cabin.

“Don’t any of you dare to interfere with this, or I will deal with you. You all should know that my brother is the superintendent of Dong Hai Island police station. If you stop me, my brother will arrest you and let you rot in jail!”

He exclaimed this loudly.

Unbelievably, this man was not just any ordinary person. He turned out to be the brother of the superintendent of Dong Hai Island police station.

It was no surprise that he did not care about other passengers and was so audacious.

After hearing his words, no passenger dared to stop him. The only exception was Long Xu In.

However, she did not step in because she believed that Bai Chen could handle this.

“Are you done talking?” Bai Chen stopped in front of the middle-aged man.

“How dare you!” The man did not expect Bai Chen to challenge him even after knowing who he was. He was furious. He held up his fist and threw it at Bai Chen’s face.

Thud!

His fist did not reach Bai Chen’s face; rather, it was his own face that was hit by Bai Chen’s fist.

His body flew like a piece of paper and fell to the floor, unconscious. His face was beaten up and blood poured out of his nose.

All the passengers were surprised that Bai Chen had come to blows with the middle-aged man. But Bai Chen did not care what they thought. He continued to walk towards Long Xu In.

Chapter 100 At Dong Hai Island

Two hours later, the plane landed at Dong Hai Island airport.

As soon as the plane landed, a group of police officers immediately got onto the plane to swiftly arrest the four terrorists: Da Fu, Bo Kuang, Su Hua, and Sao Yen.

After a short interrogation, the police let most of the passengers off the plane.

Some people had not been allowed to get off the plane. The person who had not received permission to get off the plane was Bai Chen. He was being held back by the superintendent of Dong Hai Island police station named Guan Peng.

This man, Guan Peng, was the older brother of the middle-aged man who had been punched by Bai Chen, whose name was Guan Ping.

In truth, just having terrorists on a plane could not bring the superintendent out to the scene himself. But because this case was related to a major robbery case in Xing Zhou City, in which the four thieves had stolen a hundred million yuan's worth of diamonds, the superintendent of Dong Hai Island police station had to attend to the case himself.

However, Guan Peng did not expect to meet his own brother, especially after he was punched in the face and threatened at gunpoint.

This made him very angry. So, he held Bai Chen back with the reason that he wanted to question him further about the terrorists.

"Why are you not getting off?" Guan Peng glanced at the very beautiful lady standing next to Bai Chen.

In his heart, he felt a desire to have this woman beside him because of her beauty. She was the most beautiful woman he had ever seen in his life.

This beautiful woman was, of course, Long Xu In. She looked indifferently at Guan Peng.

"I'm just waiting for my friend."

"It would be better for you to leave first," said Guan Peng. After hearing that she was waiting for Bai Chen, he became envious of him for having such a beautiful companion.

There were five police officers who had accompanied Guan Peng to the plane. Four have gotten off the plane with the four terrorists. One remained with him. He was a lieutenant named Dian Tu, Guan Peng's close colleague.

Once he saw that Guan Peng wanted to avenge his brother, he did not interfere. He only stood there and kept the captain and the first officer of the plane from intervening with Superintendent Guan Peng. In fact, even if Dian Tu had not done so, the two pilots had not thought of intervening in the first place. This was because they did not want to become enemies with Superintendent Guan Peng, who was the superintendent of Dong Hai Island police station.

Guan Ping was standing behind Guan Peng. His face was swollen, and the nosebleed still had not stopped. He had to hold a handkerchief over his nose.

His hateful eyes were fixed on Bai Chen's face.

"Hurry up and get off if you don't want trouble, skank!"

Guan Ping did not care how beautiful Long Xu In was. He only wanted revenge on Bai Chen. He wanted to beat him up and send him to jail for about ten years.

"What did you say, scum?" Long Xu In was not someone who would let others call her 'skank'.

She stared at him with cold eyes.

"You skank! You dare call me 'scum'?" Guan Ping was angry. He rushed in to slap Long Xu In but, luckily, Guan Peng stopped him. He furrowed his brows a little and looked at her.

"It's not nice that you are impolite to someone older than you."

"This has nothing to do with her. I was the one who punched this scumbag!" Bai Chen said aloud. He even called Guan Ping 'scumbag'.

"You!" Guan Ping's face was full of anger. "You garbage! Do you want to die?"

"Do you want to die?" Bai Chen burst out angrily. He did not care that he was facing a police officer. He knew how to deal with this.

If he was arrested, he would use that time to knock Guan Peng out and used the thousand-face skill to change into Guan Peng and release himself. Then, he would cause more trouble using Guan Peng's face.

Just like that, everything would be resolved.

"I don't think I need to be polite with people like you!"

Long Xu In exclaimed this while taking out a phone from her black handbag. She instantly called someone.

Long Xu In's words enraged Guan Peng. He was ready to make a scene.

But once he saw her take out her phone and call someone, he stopped himself just in time.

His brows furrowed. If he guessed correctly, she was calling someone powerful.

However, he did not care much about it. He did not believe that Long Xu In would know someone more powerful than him. He just stood and wait.

As for Guan Ping, he was extremely furious. He glared at Long Xu In and prepared to shout at her.

But he was cut off by Bai Chen's insult. "You look like an ugly lizard when you make that face!"

"You!" Guan Ping felt like ripping Bai Chen's body up into a thousand pieces.

If his eyes could kill, Bai Chen would have been killed a hundred times over!

“Thank you so much.” Long Xu In ended the call. She put her phone away and looked at Guan Peng, Guan Ping, and Dian Tu coldly. She did not say another word.

“I’m curious to know who you called.” Guan Peng smiled mockingly.

Guan Ping said angrily. “Bro, let me deal with them. Then you can frame them for something!”

“Who are you going to frame?”

As soon as Guan Ping finished talking, an old man’s voice sounded from the door of the plane.

An old man holding a walking stick walked towards them with two bodyguards in black suits and sunglasses.

Everyone on the plane turned towards the sound.

But as soon as they saw who it was, Guan Peng, Dian Tu, the captain, and the first officers all went stiff and almost stopped breathing. They obviously knew who this old man was.

“Who are you? How dare you say that?!?”

There seemed to be someone who did not know the man. It was Guan Ping. He turned to shout at the old man in an annoyed manner, “You bastard!”

Guan Peng smacked Guan Ping hard on the head. His face was pale and sweaty.

He really wanted to kill his little brother for talking like that to the old man in front of them.

The old man smiled. “Very good job, Superintendent Guan.”

“M... mayor, this is a misunderstanding!” The smile and words from the old man sent chills running through Guan Peng.

“M... mayor?!?”

Guan Ping’s brain seemed to be working after getting smacked. He exclaimed aloud while looking up at the old man in fear.

“M... mayor. This has nothing to do with me. This was all Superintendent Guan’s orders.”

Dian Tu wiped the sweat from his face and hurriedly explained himself in a trembling voice.

“Dian Tu. You!” Guan Peng was now both angry and scared.

He feared the old man in front of him who was the mayor of Dong Hai Island. And he was angry at Dian Tu for betraying him!
