Fang family, performance field.

When Fang Yue arrived, the patriarch Fang Muqiu had already had a conversation with Liu Wanguan.

Fang Yue looked around and observed that there were not many people in the martial arts field, and he counted three people in the Fang family. The patriarch Fang Muqiu and his eldest brother Fang Lingxiao.

On the Liu family's side, a fat man dressed in fancy, he didn't need to think that it was Fang Zhengyi's father. Even the beard on his chin was a virtue. At this time, Fang Yue was relieved that Liu Zhengyi was not born to his mother and the old king next door.

Next to the dead fat man was an old man with a hunchback. Fang Yue's first glance at him gave birth to a kind of creepy, this old man is not a good bird. Fang Yue made the first impression. As a nail house, what Fang Yue is best at is observing words and colors. This old head is a poisonous snake dormant in the grass, and under the harmless appearance, there is a sinister hidden.

On the other side of the old man, there was a handsome young man with a haughty look and a long sword on his waist. He looked terribly awkward, and wanted to cut him off.

Damn, he's more handsome than brother!

"Fang Yue, you are here!" A faint smile hung on Fang Muqiu's mouth when he saw his grandson coming.

Everyone hurts, so spoiling. Fang Muqiu liked her two grandsons very much.

"Good grandpa! Good uncle fat!"

Fang Yuewen was polite and polite.

But a fat uncle condensed the smile on Liu Wanguan's face.

"This kid really can talk!"

Liu Wanguan's words were squeezed out between his teeth. Fat is his taboo. Who would dare to say that to him in Xicheng.

"This kid, really can't speak! This is Liu Wanguan, the patriarch of the Liu family in Xicheng, and that is the father of Liu Zhengyi who assassinated you before!"

Fang Mu Qiuming was scolding Fang Yue on the face, but his tone was more biting about assassination. Fang Muqiu didn't show any face to Liu Wanguan, and was completely cynic. Liu Wanguan's face was dark, and he glared at Fang Muqiu with his head held high. Fang Muqiu was not afraid, with a cold smile on his mouth.

"Hey, brother, do you think the relationship between the patriarch and that fat uncle is not ordinary! They are so flirting, did they have any relationship when they were young?"

Fang Yue's brain replenished, he smiled, that was the nasty picture in his mind that was unsightly!

"Pop!" Fang Lingxiao gave a pat on the back of Fang Yue's head without hesitation, thinking that Fang Lingxiao was so upright, how could he have such a dirty brother.

"There is no basic feeling, but a great hatred! The Liu family of Xicheng is very powerful, and has repeatedly clashed with the predecessors of the Fang family. He even bought murderers and stabbed to death an ancestor of the Fang family. If it weren't because of Yan. The imperial family blocks, we and the Liu family may have torn our skins long ago! There are many confrontations in the dark without using the knife on the face. Over the years, the Fang family has lost more and won less. This time you captured the Liu family alive. Disciple, it's a bad breath for the Fang family!"

Fang Lingxiao said, Fang Yue's eyes suddenly sharpened!

"Hehe, the previous incident disturbed the son of Fang Yue, it is indeed the dog's fault. Three hundred Lingshi, I am willing to make an apologize for the dog's sin. However, I have never heard of Yan Guo Fang's family, there are more heroes, and all sons and men can recruit. Good fighting, all are the pillars of my Yan Nation! My nephew has always admired the other family, and hopes to fight Fang Yue's son and learn the martial arts of the family!"

Liu Wanguan's conversation suddenly changed and took the initiative.

"As the saying goes, small gambling is good, big gambling hurts the body, I think I can make a small bet on behalf of the Liu family and Fang family, take out three hundred Lingshi as a bet, one game decides the outcome!"

Liu Wanguan's words are extremely insidious, he must be the Liu family and the Fang family gambling! This already involved the reputation of the two families. If the Fang family dared not fight, then the reputation of the other family would undoubtedly be a huge loss!

"Since Wan Guan insists on gambling, let Ling Xiao and your nephew have a gambling fight!" Fang Muqiu is an old man and he naturally wouldn't send Fang Yue to fight. Although Fang Lingxiao had the suspicion of bullying the small, the typical one was that Liu Wanguan dug a hole and wanted him to jump inside.

Fang Muqiu is not stupid! As long as you can win, it doesn't matter if he is fair!
