Chapter 2291

At the evening.

Freya made another hot search. She didn't notice it but the hot search was very short and

was quickly withdrawn, but many people noticed it.

This person includes Heidi and Nathan.

In the restaurant at night.

When Heidi and Nathan had just finished their dinner, the secretary handed over a plate of

information, "The rumour that Miss Freya has a phoenix fate spread on the Internet came

from this ID that I checked it. The ID of this person is the third of the famous Master Mario

Clark in the capital.

"Master Mario Clark?" Nathan frowned. He was very familiar with Mario.

Many wealthy families in the capital have a little friendship with Mario privately.

It is said that he is quite good astrologer.

Although the more senior people don't quite believe in these things now these days.

A few years ago, Mario came to the Snow family's old house and Nathan had the relationship.

"There will never be groundless rumors about these things on the Internet." Nathan snorted

coldly and instructed, "Talk and beat some people about the Prime ministerial's family

affairs those who shouldn't make rumors, don't make rumors and no one's hot spots can be messed up casually."

The secretary pursed his lips, looking like he was hesitant to speak.

Heidi took the hot tea handed over by the servant and flicked it lightly,

"Secretary, don't

hesitate, you can say something if you want."

"That's it."

Secretary said in a low voice, "Actually, after the incident, I was afraid that the person had other intentions, so I immediately found someone to control this person. According to the person, what he said was true. Before the young master got married, the eldest lady asked Freya's 8 characters privately. At that time, Master Mario calculated that Miss Freya would have hardships in the early stage but after she got through it, she would soar above the 9 heavens. This kind of fate is also extremely rare. Several disciples of Master Mario were also present at the time and everyone was very impressed. He also heard about it from the disciples of Master. Today, I happened to see Miss Freya on the hot search. I just said it casually, I didn't expect everyone to talk about what he said." Heidi was stunned, "Just ask my sister-in-law about this matter." After saying that, Heidi looked at Nathan and saw that he did not express an opinion. So she picked up the phone, called Wendy with turned on the loudspeaker, "Sister-in-law, have you finished eating?" "Just finished, what's the matter?" "Oh, it's like this, today's Freya business. On the hot search, I also saw someone saying that she was something. After all, she has an unusual status now. I was afraid of causing trouble so I quickly removed it. When Secretary inquired about this, he found that the source of the spread was Mario. The assistant of a disciple under the master, I just want to check with you, is there any such thing?" "Tsk, why can't Master Mario even protect the privacy of his clients." Wendy blamed a few words and said, "This is indeed the case. At that time, I wanted to see if the characters between Freya and Rodney matched so I asked Master Mario to check it out. Alas, when I think of what Master Mario said, I was still right."

Heidi Surprised, "What did you say?"

"At the time Master said about the Freya's destiny and in ancient times, it was the life of the wife of an emperor and a general. Although there were ups and downs in the early years, the more you went on, the more honorable you were. Her fate is also very prosperous but her marriage with Rodney is not particularly compatible. Mainly because Rodney is not very confident. If the two people get married and can spend the first three years smoothly, they

can you grow old, if can't get through it...the two of them have no fate." Wendy said with a regretful sigh, "I was also very entangled at the time, Freya's fate is

indeed very good but I can't force it if the two are not suitable. Later, the master said that

Rodney had a rough road in love. No matter who his wife is, this is probably the case. If it is someone else, the probability may be low and Freya is also pregnant. So we tried our best to match Freya and Rodney to get married."

Heidi suddenly said, "It turns out that, no wonder you were so hopeful that Freya and Rodney would get married."

"Isn't that right? After marriage, Rodney's career has developed very smoothly and everything went wrong just after the divorce.

After hanging up the phone, Nathan said to Heidi: "Freya can be my goddaughter with you.

In the past, she could also be called a princess but isn't she the fate of the Phoenix?"

Heidi nodded thoughtfully, "Master Mario is also quite famous in Australia. Since he can say such words, it means that Freya's fate is definitely not ordinary. How many prominent giants are not available, maybe Freya will have another opportunity in the future."

Nathan was silent for a few seconds and nodded.

"It's a pity."

Heidi sighed, "If only this kind of life had been assigned to Ryan in the first place."

Nathan was slightly startled and frowned, "Heidi, stop talking nonsense."

"I'm just talking. That's it," Heidi smiled and turned to ask the servant,

"Is Freya back yet?"

"No, Miss Freya said she will be working overtime in the laboratory tonight."

"Freya is working too hard." Heidi said with an admiring smile on her face.

"Didn't you fight when you were young?" Nathan teased, "I'm looking for you to date either

in overtime or on the way."

"A woman always has her own career, she takes everything so seriously, I believe Freya will

go a long way in the future."

Heidi is now more and more satisfied with Freya.

...

The Snow family's old house.

Wendy hung up the phone and when she turned around, she found

Rodney standing

behind.

"Mom, what you just said...is it true?" Rodney asked with wide eyes.

Wendy was stunned for a moment and then she remembered what she and Heidi had said.

She probably heard her son, "Yes."

After she finished speaking, she got up and wanted to leave but Rodney held her back,

"Why didn't you mention it to me before?"

You don't believe those, what's the use of what I told you? and it's all over. "

Wendy went upstairs after she finished speaking, although her son

Recently, I often go back

to the old house but the relationship between mother and son is

exhausted and she is too

lazy to ask Rodney.

For her own longevity, she should talk less to him.

Rodney stood there and lost his mind for a while.

No, he doesn't believe in these things, any destiny is a deceitful thing.

As for why this kind of thing broke out on the Internet....

Rodney narrowed his eyes and dialed Ryan's phone, "The matter about Freya's life on the

Internet was released on purpose, right?"

"Brother Rodney, what are you talking about, I still have to work... "

Rodney interrupted rudely, "Okay, Ryan, don't you f*cking pretend to me. You think that if

you get a phoenix and a prosperous husband, the Snow family will be able to accept it. Stop

dreaming."
