

Lord of War 73

Chapter 73: . Surprise harvest

"Is this not perfect?" Hearing Sean's obvious dissatisfaction, Alfred frowned, "How many people in this world can make such an all-in-one plan so easily?"

"Have you caught it all in one net?" Sean asked rhetorically.

"There are always accidents." Alfred is not depressed, on the contrary, he admires Sean a little bit more. "It doesn't matter if you let them escape. I just saw it. They obviously have no food. And I'm exhausted, it's not easy to get out of this crypt alive."

Having said this, Alfred turned his head and looked at Sean again, and then said: "Besides, with your current strength, you can kill the lower bronze so easily, I'm afraid those people will not dare to provoke you again. "

Sean sighed and said in his heart: I don't care if they will come to provoke me. What I care about is whether I can find any good things.

The previous time of the wolf mercenary group, because they were too close to the door, they did not dare to stay, and the property belonging to the wolf mercenary group naturally could not be taken away. And this time, the breath of the Crypt Ice Spider is too strong, and there are also the breath of the Crypt Demon and the Cave Demon. The low-level monsters in this Crypt tunnel must not dare to come over and make trouble. So for Sean, this is a rare opportunity to make a fortune.

But I didn't expect that, in the end, only some small fish and shrimps were solved, but the real big fish was run away instead.

How can Sean not be depressed?

But it's okay, at least a little consolation prize.

The crypt demon weapons all over the floor, if they are melted and rebuilt, they can create a supporting material suitable for demonization operations. However, this process is not that easy, and it is necessary to purchase a sufficient amount of magic materials. After all, recasting magic equipment is not stronger than the previous magic. There are two concepts in it.

In addition, for Sean, the biggest gain is actually the spider eggs of the crypt ice spiders in this cave!

Temporarily suppressing the excitement in his heart, Sean was helped by Alfred to sit down and rest.

Although the cave monster has been bleeding heavily, after the wrinkled body is reduced, it becomes very soft. If you are not afraid of nausea, it is actually a pleasure to lie on it and rest. Therefore, at this moment, Sean fell directly on this to rest, the soft comfort even made him a little drowsy, but Cecilia obviously repelled this disgusting thing, so naturally he did not dare to come near.

Alfred, worried about the return of the Blood Weeping Mercenary Corps, casually picked up a long weapon on the ground, walked to the side of the tunnel and sat down, closed his eyes with the long weapon in his arms. Seeing Alfred's actions, Sean grinned, and then closed his eyes and started to sleep. The best way to recover from the sequelae of a severe headache like him is to sleep for a while and restore his mental state. Come down.

In fact, the most terrifying but not terrifying magic in this world is the spiritual magic of the soul energy system.

The reason why is terrible is that spiritual magic is a magic that can really kill people and is invisible, and it is also very defensible. Maybe the opponent magician has already launched an attack with a single look. Not terrible, this kind of magic is actually the best defensive magic, as long as the will attribute is high enough, then it can be said to be immune to the damage of spiritual magic, and if you are a class of [spellcasting], you can even Give the surgeon a heavy blow back mentally.

Spiritual invasion, as long as the will is higher than 30 points, it is basically impossible to be controlled. If it is more secure, then the will can be said to be completely immune to 38 points. As for the mental shock, the will can be completely immune to more than fifteen points, and if it is not reached, then it will be directly killed-this is a real world after all, and no longer the game of the past.

So spirit and soul, these two types of magic are the most terrifying and dangerous for Sean.

Fortunately, one will be immune to high enough will, while the other rarely appears for practical reasons.

Xiao En closed his eyes, rubbed his temples lightly, relaxed his spirits, and fell asleep slowly. At this moment, he didn't want to think about other things at all. He just wanted to appease the severe headache, and then come to settle down. How many things have been gained in this one!

...

I don't know how long it took before Sean finally woke up.

He felt that he had slept for a long time. When he woke up, he was not only full of energy, but he even felt a little hungry. Cecilia didn't know when she also slept on the soft skin of the cave monster. The soft feeling seemed to make her feel very comfortable. The whole person curled up into a ball, and her little mouth seemed to be muttering something. Seeing this scene, Sean showed a gentle smile.

After all, Cecilia is only a 13 or 4 year old girl.

Shaun glanced at Alfred sideways, and when he saw his posture, he knew that this guy was only sleeping in a fake sleep. If there were any abnormal noises at this time, he would definitely wake up for the first time. But looking at Alfred's appearance, Sean knew that he must have carried Cecilia to the monster.

Sure enough, as soon as Sean got up from the devil's body, Alfred had already turned his head.

"woke up?"

"Yes." Sean nodded, "Thanks."

"It's your turn." Alfred also nodded, then stood up, walked to the cave monster's side, climbed up and fell down, and then started to snoring slightly.

is obviously very tired.

Looking at the two men resting, Sean didn't say anything any more. After a simple wash, he began to eat. After he was completely full, he began to clean up the battlefield. He first picked up all

the weapons of the Crypt Demon and put them aside, and then began to pick up some amber hard armor fragments from the Crypt Demon.

The scientific name of these things is amber hard armor, which is a kind of magic material, but it is not easy to obtain. Only those crypt demon who have obtained the hard armor curing ability have a certain chance to get it. But if you want to get the amber hard armor, you can't get the amber blood in the cave worm. The two magic materials have always been available only one of them. How to choose depends on the player himself, and there is a time limit. .

For example, amber blood cannot be collected if it is not collected for more than half an hour. And the amber hard armor depends on luck, because when the local cave demon dies, the amber hard armor will begin to melt. There is only a small chance that some intact lumps will be preserved. It is precisely because of this that Sean did it before. If he didn't act too caring, he went to bed, otherwise he would insist on cleaning the battlefield first, even if he had another headache.

And whether it is amber blood or amber hard armor, the value of these two magic materials is calculated in milliliters and grams. For example, amber blood needs at least one hundred milliliters to be barely valuable, while amber hard armor is better, starting at ten grams.

I don't know if Sean's luck is very good. From the corpses of the six crypt demon, Sean actually just collected ten grams of amber hard armor. This harvest has made him quite satisfied.

After finishing all this, Xiao En's eyes turned to the corpses of the Blood Weeping Mercenary Corps, but this time there was not much excitement in his eyes.

Touching the corpse, Sean has always been keen on it before.

His hand is not black, but it is not particularly red. It is quite satisfactory. Although occasionally he will still find something small, but the probability is so low that it makes people burst into tears.

But at this moment, in Xiao En's eyes, fighting against these Blood Weeping Mercenary Corps is really a loss-making business. Not only will you not find any good things to kill them, but you will not even gain any experience. If you can keep that group leader, there may be some consolation prizes, but now?

Xiao En sighed helplessly, and took a look at the two purses that looked quite full, but there were only a pile of copper coins inside, all of which were four and a half silver coins, not even a

single gold coin. Some of these two bags of coins and the amber hard armor were thrown together at random, and Sean never looked at the pile of corpses again, because it was worthless to Sean, and his eyes fell on those again. on the platform.

"what?"

Suddenly, Sean's eyes lit up because he found that although the magician was burnt to charcoal, there seemed to be something glowing on the ground.

He couldn't wait to walk over, only to find that the shiny thing was actually a silver ring with a gray gemstone.

This ring was not burned in the flames of the fireball explosion, which is enough to prove that this ring is extraordinary, at least it is definitely a magic item.

Xiao En seemed to think of something, his nose suddenly became thick, and his face showed excitement. He immediately reached out and picked up the ring, not caring about the magician caused by his actions. Nearly half of his body was directly turned into ashes. He stared at this ring, the golden brilliance in his eyes flashed away, and he couldn't help but let out a wild cry!

[Atmospheric protection, magic jewelry (ring), with magic "air barrier": allow the wearer to create an air barrier that can resist magic below level 4 and equivalent damage through a password for 60 seconds. This magic requires twenty-four hours to recharge after each cast. 01.]

[Item description: This ring has very solid magic fluctuations, but it does not have any elemental aura. Obviously, this is a magic ring that contains arcane magic.]

Seeing the introduction on this ring, how can Sean not be excited!

He ran to help the Black Cat Chamber of Commerce in order to obtain the ring dropped by the magician, but it was a pity that the corpse was touched by the black hand of Jim that time, and the magic power on the ring was completely lost. This really makes Sean a little depressed. As a result, I didn't expect that I would actually get this piece of equipment I wanted very much in this crypt channel. This is really an unexpected joy!

Even with that, Sean doesn't feel how annoying these Blood Weeping Mercenary Corps people are. If it weren't for these cannon fodder and the Crypt Demon and this magician to fight against, I'm afraid that Sean would really not find a chance to attack. Woolen cloth.

"Haha!" Unable to suppress the inner ecstasy, Sean couldn't help but let out a wild laugh.

Especially when thinking of so many crypt monsters that have died in this crypt channel, the drawing of the Bavarian arm armor will inevitably be easier to start, and Sean laughed a little bit from ear to ear!
