

Love Rats 1065

Chapter 1065 Why is Hattie so angry?

Under the influence of several big names, the entire internet was in chaos for a while.

...

Selena had been concentrating on drawing for the past few days.

She found out about what had happened during lunchtime.

Leia held her face and said, "Madam, many people on the internet are cursing Miss Hattie. Should we call her?"

Hattie clearly didn't care about being a celebrity.

She had clearly torn apart Rachel and Haider to vent Selena's anger.

Anyone would be angry about Leah stealing Selena's script.

Selena smiled, "Let's call her later."

Selena took out her phone and opened Weibo, only to see a headline that had been pushed to the top of Weibo's hot search list.

"The stars of 'Breaking Ground' openly tear apart two film stars!"

The hype was overwhelming.

Selena clicked on it and saw the golden little witch's account.

Haider @Selenav: "Lady Selena, I can forgive the child for not knowing any better, but can you be responsible for your sister's words and actions?"

Selena: "Of course."

Haider: "Great, I look forward to seeing the acting skills of your little miss. If she can't beat me, then please Lady Selena, bring your sister with you and personally apologize to us in front of everyone at the 'Love in City' **release conference!**"

Selena replied: "Okay."

Selena's easy agreement eased the Phoebeety of those who were persuading her to crush Hattie's *fans*.

Originally, many people thought that Selena and Hattie, who openly challenged Rachel and Haider's acting skills, were ignorant **and bullying**.

But with Selena's promise to personally apologize if she lost, these speculations were invalidated. Selena is the Miss of the Turner family, and Hattie is the Miss of the Riddle family. Both come from prestigious backgrounds, so how could they easily back down? This could only mean that Selena has genuine confidence in her little miss's *acting skills*.

Although the little miss is only thirteen years old, what if she really has exceptional talent?! Thinking of this, Selena's fans suddenly became more confident: "Breaking Ground" hasn't even aired yet, so how can you assume that Lady Selena's sister is not as good as Haider and Rachel? What if she truly gives a phenomenal performance, then the pairing of best actor and actress will look **ridiculous!**

"We are waiting for the premiere of 'Breaking Ground'!" they said, with conviction.

As soon as Selena had just logged out of Weibo, Hattie called her.

Selena answered with a smile, "Is Hattie really **that angry?**"

Hattie's icy voice came through the phone, "Selena, those women are too *wicked!*"

Selena could endure it, but when they saw Leah holding Selena's script and acting, they *became furious*.
