

Love So Sweet 615

Chapter 615 Get Married and Have Kids Earlier?

As days passed by, Zhang Li Xue would still experience her morning sickness. Most of the time, she would throw up after waking up in the morning or whenever she smelled some food.

Fortunately, it was not as bad.

With her mother looking after her and the new auntie who would come to look after her diet, Zhang Li Xue's morning sickness had turned slightly better. Moreover, her appetite had improved and Zhang Li Xue began to eat a little more.

These days, whenever she was at the office, her father would show up and take her to lunch. No matter how busy Zhang Li Xue could be, Zhang Yu Han would force her to sit down and eat under his observation.

Even if he could not come to his daughter personally, Zhang Yu Han would ask his assistant to deliver food to his daughter. The assistant will have to stay in the office and watch as Zhang Li Xue eat and sent a few photographs as evidence to Zhang Yu Han.

This arrangement was making Zhang Li Xue speechless. But each time that she saw the food that her father brought for her, Zhang Li Xue's heart would turn warmer.

She knows well that her father only wanted to do the best for her.

This was his way to show his concern and care.

Meanwhile, Zhang Yi Hai's graduation was approaching closer.

.....

Initially, he wanted the whole family to come with him to Capital City. However, because of his sister's condition at this moment, it would be hard to ask her to come over.

Moreover, Bai Xi Xi needed to go to school and could not skip her classes.

In the end, it was decided for Zhang Yi Hai to attend his graduation with his parents and girlfriend.

Fang Su Jin almost thought that Zhang Yi Hai was joking when she heard the news that Zhang Li Xue would not attend the graduation.

She stared at her friend with a look of disbelief and spoke, "Li Xue, why aren't you coming to the graduation as well?"

In her opinion, although the Zhang siblings liked to tease each other a lot, the two of them were also quite close. Such an important day like Zhang Yi Hai's graduation... Zhang Li Xue would want to attend it, right?

Zhang Li Xue had a playful smile on her face. She placed a hand on her flat tummy and announced, "I'm pregnant."

"So, you're pregnant. What does that—"

Fang Su Jin did not finish the words she wanted to say. She thought that there was something strange with what her friend had told her a few seconds ago. Fang Su Jin rewind her memory and suddenly, she was staring at Zhang Li Xue with her eyes wide. "What?"

Zhang Li Xue laughed at her friend's slow response.

Fang Su Jin walked over to her friend, wanting to give her a shake. However, as she recalled what Zhang Li Xue might have said, Fang Su Jin decided not to do anything drastic.

Still... the mischievous look on Zhang Li Xue's face made it hard for her to believe her words.

"Zhang Li Xue, you repeat your words to me. What did you say?"

Zhang Li Xue continued to laugh. Then, she let out a light sigh and spoke, "I'm pregnant. It has been a few weeks." Her lips curled into a smile. "Fang Su Jin, you're going to be an aunt."

Fang Su Jin shifted her gaze to her friend's stomach.

Suddenly, Zhang Li Xue's words finally made her realize what was going on. In her excitement, Fang Su Jin lurched over to hug her friend tightly.

"Li Xue, I am so happy for you!" Fang Su Jin spoke. "Congratulations!"

Fang Su Jin's sudden move made Zhang Li Xue giggle happily. However, a certain someone who was watching them had an unhappy look on his face.

Zhang Yi Hai wanted to pull his girlfriend away but realized that this was something that the two of them would want to celebrate.

His gaze fell on Fang Su Jin. This girl was the same age as his sister. Zhang Yi Hai recalled how there were many of Fang Su Jin's friends who were married and had children and wondered what his girlfriend was thinking about it.

Did she also want to get married and have kids earlier?

Zhang Yi Hai continued to ponder this matter as the girls were discussing his sister's pregnancy. Fang Su Jin was interested to know about the baby's gender. However, it was still too early for them to find out.

Later, the two girls were discussing going to shop for the baby's necessities together.

Looking at them discussing the pregnancy, Zhang Yi Hai really thought that Fang Su Jin was the father of the baby.

Should he suggest to Fang Su Jin to have a baby earlier?

However, Zhang Yi Hai knew that if Fang Su Jin was pregnant before she was married, the person who would end up dead was him. It was hard enough to win Father Fang's approval. Zhang Yi Hai did not want to make trouble.

After a while, the subject between the girls changed again.

This time, they were discussing Zhang Yi Hai's graduation again.

In the beginning, Fang Su Jin did not mind attending the graduation, knowing that Zhang Li Xue would be coming along with them.

However, now that Zhang Li Xue was not attending, then, she would have to stay with Zhang Yi Hai's parents. Thinking about this made her anxious.

Zhang Li Xue saw the look on her friend's face and started to laugh.

"It's just traveling with my parents. What are you afraid of?" Zhang Li Xue said. "It's not as if my parents did not know about your relationship with Yi Hai."

Fang Su Jin wanted to cry.

"It's traveling with your parents, ah!" Fang Su Jin could already imagine the awkwardness of them traveling together.

What should she say? What should she do?

"Su Jin, you don't have to think too much," Zhang Li Xue said. "My mother likes you and had already considered you as her daughter. My parents won't make things difficult for you."

Fang Su Jin knew that her friend's words made sense. However, no matter how much she told herself that it would be alright, Fang Su Jin was unable to calm down.
