Chapter 28

Lee's pov

Goddess, I was so glad when Lucian shut that screaming banshee up. I could not put up with that sh.it the whole journey, I could see the other guys were thinking the same thing. I was planning on punching her to knock her out as soon as we were in the car.

I think everyone was glad to be picked for the job just to get out of the pack for a while. The place hasn't been the same since Aurora left.

"Do you have any idea where she is?" Danny asks me.

"No I don't, she thought it was best none of us knew, so we didn't have to pick sides between Lucian and her by not telling him or giving her up" I tell him.

"That's a shame it would be nice to know how she is doing, just to know she is ok" Liam says.

"She is ne, she is strong and she has Shawn with her. I know she is safe wherever she is" I say, also wishing I knew where they were.

We move on to better topics so the trip moves faster, Jessica nally wakes up 3 hours in and starts to struggle and shout until she is warned she will get another shot or a hit to knock her out if she doesn't settle down and shut the hell up. She quietens down pretty quickly after that, and the next 2 hours go fairly smoothly with just the occasional complaint from her and the request for a toilet break, which is denied. I don't want to give her the chance to escape. She can hold it until we get there.

I am so relieved when we pull up to the pack so we can get her off of our hands. The Queen, Kings, and some warriors are waiting for us when we arrive. The warriors take her straight off our hands and escort her away. The Queen doesn't even spare her a glance as she greets us and introduces herself and her mates using their rst names and asking all the warriors theirs before escorting us into a private room for refreshments.

As we are sitting having our refreshments and chatting away to the Queen and Kings, I smell a couple of familiar smells. I look round, confused as Queen Talia chuckles at me.

"Come in and put the poor boy out of his misery" she shouts

All the warriors look round as the door opens, and Aurora walks in, followed by Shawn. I am up on my feet, picking her up and swinging her around instantly as she giggles. Queen Talia and Kings Tyler and Tristan are laughing at us.

As soon as I put her down, each of the warriors took a turn to grab her into a hug.

"Where is all my love?" Shawn says, pouting.

"Come here brother" I say, hugging him.

He hugs each of the warriors as well.

"Goddess I have missed you both so much. It is not the same at home without you" I say as the warriors all agree with me.

They each say how much all the other warriors and the women are missing them, Aurora in particular, especially the children and women she was training.

"I am missing everyone too. How is everyone?" she asks.

"Mum misses you like crazy. She is keeping herself busy training your girls. Lisa is pregnant and keeps on crying. She cried for an hour because she couldn't tell you rst, and she wanted you to be the rst person to know. Then she shouted at Lucian because it was all his fault. She really misses you she wants her sister with her. Fred misses you, especially now Lisa is pregnant. And Lucian well what can I say he is basically a mess, he's said if he doesn't manage to x things he won't have another mate and will either pass the pack to me, and if I don't want it, it will go to my children as he won't be having any without his mate" I tell them.

"Sh.it do you think he is actually serious about that? Or is it just because he is guilty and hurting?" Shawn asks.

"No he seems pretty serious, and Luca is in full agreement with him on it" I say.

"So if I reject him, he will accept this time?" Aurora asks.

"He has no choice, Aurora, and he knows it. I have already warned him of this, and now I am warning you. Don't rush. You have other things to do rst. You are destined to be a Luna with or without Lucian. You will have a second chance mate if you decide not to be with him, he will not because of his actions and not heeding the warning he was given" Queen Talia says.

"What will happen to my second chance mate if I accept Lucian?" Aurora asks.

"You see, this is why you deserve to be a Luna. You care about others. He will be given a mate, don't worry, the moon goddess has plans in place whatever you decide" Queen Talia assures her.

"That's a lot to take in, so that's why he won't have any other mate? He refuses to take a chosen mate if Aurora won't accept him?" I say

"Yes and I believe he won't from what Selene says" Queen Talia conrms.

"Sh.it she doesn't make things easy for me, does she? Can she not just give me a fu.cking break for once" Aurora groans.

"Unfortunately every single special wolf I know has had a hard life. I think it has something to do with making us stronger to be able to cope with our power. Or some sh.it like that" she says as the people in the room chuckle.

I really like the Queen, I have met her before at some functions, but seeing her in a more relaxed setting is different. You can see her personality more. She is so down to earth and funny.

"I have to say you are different than I thought you would be, much more normal" I say.

"Talia is anything but normal" King Tristan laughs.

"Just ignore him. I know what you mean, not one of those stuck up, Alpha a.ssholes" she says, rolling her eyes at her mate as I laugh.

"Yeah that's exactly what I meant.

"Oh before I forget sorry in advance, I order all of you to not disclose Aurora's whereabouts, that you have seen her or that she is a special wolf until Lucian has discovered it" she says in he Queen command.

"It is ne. I know it's for her protection, and if it means we can see her, then I am happy for you to do it. Does that mean I can't tell Mum, Lisa, or Fred?" I ask.

"Mum knows where I am, I told her before I left" Aurora admits "I knew Lucian wouldn't Alpha command her" she adds.

"I can't believe she didn't say anything, I take it she also knows about your past? Lucian has tried to nd out. Zander wouldn't tell him when he went there looking for you" he says.

"She does. Do they know I have left?" she asks.

"No he made out it was a curtesy visit as he was passing. He only asked Zander as he saw him out to the car to ask after you and send his love" I tell her.

"Good I don't want them to know I am coming for them" she says.

"He had a few words to say to them in particular about how strong and amazing you are, and how much better you are than your weak sister" I tell her "he told them you are an amazing warrior"

"Well it's not like they would have believed him they wouldn't see the truth if it hit them in the face" she snorts.

"From what I have heard, you could be right. So I can speak to Mum, just not anyone else?" I say.

"I exempt Lisa, Fred and Nadia from the order" Queen Talia says, using her Queen voice and rolling her eyes. "Happy now" she chuckles.

"Thank you, it will mean a lot to Lisa" I say gratefully.
