

The Clear Lake Pack

Chapter 35

We arrive at the Clear Lake Pack, and the guards let us enter straight away. They are already informed about us arriving today.

The whole family is waiting for us as we arrive in front of the packhouse. I go and give everyone a hug, then introduce Zander to everyone.

Auntie Violet and Lilly give Zander a huge hug, before Uncle Frederick goes and hugs him too then Frank and Zander shake hands and do an awkward man hug thing.

"Wow now that you are standing together, you look a bit like Uncle Frederick, I don't know how I didn't notice it before" I say

"Yeah I always had more of mum than father in me, thank the goddess" Zander laughs.

"Speaking of that man, you still have to tell us what happened. I want to know all the details" Uncle Frederick says, showing us through to a private room.

We explain what happened when I turned up at the pack, how I defeated him in battle. Then Selma's confession just before I tore out her heart and how we are trying to rehabilitate Suzie in the hope she can be a good person.

"I knew those bas.tards had something to do with my sisters death. Thank you for giving them what they deserve. I am proud of both your strength and kindness, Ashley would have been, too. I really hope your plans work with your sister. She needs some better influences in her life" Uncle Frederick says.

"I hope so too. No matter what she has done, she was a child twisted by two evil people to hate. I had to try. She deserves a chance at something better" I say.

Frederick's old Beta Gary, his mate Hattie, The current Beta Greg and female Beta Corrine and their pups Damon and Halley Come into the room.

"I had to come in and meet Ashley's pups, I have heard so much about the two of you, especially you, Aurora, from my sister" Gary says after introducing everyone.

"It is great to see you all, Nadia sends her love to you all, and she wanted me to let you know she will visit soon" I tell them.

"How is she doing" he asks

"She is ne, busy with Lisa, and has taken on the training I was doing with the women" I say

"Yes she likes to keep herself busy when she is upset and stressed, and that nephew of mine has certainly caused plenty of both lately" he says

"She is strong. She will get through this. There is a lot of support for her at the pack" I say reassuringly.

"That she is, she has missed you though" he says

"Well I am going back to my brothers pack, and I have promised we will meet up and stay in touch. Lisa really wants me around with being pregnant as well" I say

"So you won't be going back to Lucian then" he asks

"Stop being so nosey. It is like a bloody interrogation on the poor girl" Hattie scolds him.

"Sorry Aurora, I was just curious. Ashley was always family to me, and now that Lucian is your mate, that makes you even more family. You don't have to answer" he says apologetically

"It is ne, I am not going back for now. I don't know what I will do, yet Athena and I have not decided yet" I tell him.

"Now that dad has stopped questioning you, I need to know what you can do. You know with your special wolf" Greg asks, excited.

"He has been dying to nd out, it is like you are a superhero. You know what boys are like" Corrine laughs.

"Well I can affect the weather and manipulate it, create storms. You know, use the wind to protect or harm people, and I can strike people with lightning" I say

"Ok that is pretty cool, I have to agree with the boys now" Corrine laughs

"See and you kept making fun of us" Greg pouts, making us laugh.

The door opens, and a beautiful blonde woman walks in the door, she look to be around my age.

"I heard you were all in here, and I had to come and meet Aurora" she says, closing the door.

"Mine" Zander roars, rushing towards her, pulling her into his arms and sning her neck, making her giggle.

"would you look at that our pup and Ashley's pup are mates, he's an Alpha too" Gary says, smiling wide.

"you might want to let go of her for a second and introduce yourself and maybe ask her name brother" I say, laughing.

He looks round, blushing as he sees us all looking at them and smiling.

"oh yeah, sorry, Kona got carried away there. I am Zander, Aurora's brother" he says, chuckling

"oh yes, I am Ella, and if I knew my mate was here, I would have been just as excited to meet you" she says, winking at him.

He quickly pulls her over to his seat, sits down, and pulls her on his lap.

"Well it looks like my baby is moving away. You will have to organise a Luna ceremony and get training there a loads of things to do" Hattie says, getting carried away

"Sh.it you are an Alpha, who is going to train me" she says, just letting it sink in

"Don't worry, I have Luna training, and your Auntie Nadia's pack is not far from Zander's, I am sure she will be straight over when she nds out. She was already planning a visit" I reassured her.

"Oh it will be good to see Aunt Nadia. She's great. So you are staying at the pack then" she asks me

"Yes for now, until I decide what I am going to do, it will be good to get a chance to know my new sister" I say, smiling at her.

"I can not believe you are going to be my sister. You have to show me your powers" she says excitedly

"I don't know if I should be jealous of my sister or not" Zander teases her

"Probably don't tell me you don't think it is cool having a sister with special powers" she says, teasing him back.

"Yeah it is. You know she has not even shown me what she can do yet" he says, laughing

"To be fair, we have been a bit busy lately" I say, rolling my eyes

"Well you are not busy now, you can show us all, we didn't get a demonstration either" Frank says

"Fine, we can do it after we have eaten" I say, giving in.

We spent quite a bit of time chatting about Zander and Ella's mating. Both families were over the moon about it. I am glad the two families are going to be joined through the mate bond. They are probably hoping this one goes a bit smoother than mine and Lucian's.

Hattie has talked about coming to the Light Moon Pack to help with the Luna ceremony and to help Ella get settled in. Gary said he would come too and get to know his new son in law better.

We all spend time getting to know each other better. Zander is getting on well with everyone, and he looks like he will have a good relationship with his mates family. I am really happy for him. At least he will have support in his new role, and Ella has grown up in a pack that is run the way it should be. It will help him to make the changes he wants to that the pack needs.

I know he wants to pick Frank's brains at some point on some of the things he does at this pack, to help give him ideas and make sure he is being fair to everyone.

I have offered to help get some training started with the pack, just to give the ones with no experience a start so they can join the others in training. There is a lot to do. There are only around 40 fully trained warriors with another 100 with basic training. The rest and all the women have none at all. It really is a sh.it show.
