

## Luna and pack training

### Chapter 38

It was a bit sad to say goodbye to everyone at the Clear Lake Pack. All the pups were sad to see me go as well, which warmed my heart. It made me feel a bit better knowing we would see each other soon, and from now on, we would always be in contact. There was also the bonus of having my new sister come with us.

Ella is fully trained being a Beta's daughter, so she offered to help get the other pack members started on their training with me. It will be easier with two of us making sure they are doing it right and to correct their form and things. It is also a great way for her to get to know the pack better.

The crowds have gathered, waiting on our arrival back, the members excited that the Alpha is bringing back his Luna. It never fails to surprise me how quickly gossip travels in and between packs.

I am quite surprised I receive just as warm and enthusiastic welcome from everyone. Ella and I have lots of people coming to talk to both of us. Many people wanted to apologise for their lack of action in helping me through the years, and also thank me for improving their lives by removing the previous Alpha and Luna.

There are people who were friends with me as a child wanting to get to know me again. It is quite overwhelming. I don't want to blame anyone for my families actions, so I am happy to leave the past in the past unless they give me reason to do otherwise.

It is great to see my nanny Twyla again, I know she had been worried about me when I left so it's good for her to see I am ne now, well maybe just with a few extra bits of baggage collected on the way.

Julia, the Beta's sister and Kat the Gamma's sister, are really happy they can speak to me again. We are the same age and were really close friends before mum died. They want to reconnect and make up for the past events and time lost.

I suggest to Zander that we should possibly have a meeting to look at what has been done so far and what still needs to be improved. Then we can split up any tasks so he's not overwhelmed by it all.

He likes that idea, so he arranges for his Beta Eli and Gamma Callum to join us along with Eli's mate Jessie.

There is a lot of work needing done we all soon realise, the paperwork is a complete mess the schools and nursery are inadequate. Wages have been sorted for the omega's, but we don't know if they want to be in their positions or were forced into it.

The paperwork is a massive job, and everything we do will just generate more so the men will take on that task. I will be Luna training Ella on the go and giving her some reading materials to help with the pack history. I will ask Julia and Kat to nd some books for me.

Ella and I are doing the training of the pack that has no experience. On top of that, both of us and Jessie will visit the school, nursery, and hospital to see what needs improved. We will also talk with the pack members to nd out if they are happy where they are and nd something more suited to them if they are not.

It is going to be a busy couple of weeks, and we still have a Luna ceremony to organise at the same time. I suggest Hattie and Nadia could organise the Luna ceremony for us if Ella let's them know what she wants. She is more than happy to agree with that, since she has no idea where to start.

I send a message to Nadia letting her know I am here and asking for help with Ella's Luna ceremony and then I message Shawn to let him know I am back and have asked Nadia to come and help us. They can possibly make arrangements together to travel here.

We arrange to meet tomorrow morning to get started with everything, Shawn and Nadia will arrive sometime tomorrow afternoon. We need to have a pack meeting to let everyone know what is happening.

Zander sends a pack wide link asking everyone to be in front of the packhouse in 30 minutes.

When everyone has gathered he let's them know about the new training, that his Luna, sister and Beta female will be visiting places and talking with members about improvements and changes to make the pack a more functional and happy place to live in.

He let's them know not to be alarmed if they are called for a chat, and we want full honesty even if it is not pleasant to hear. This is the only way we can improve our pack. He thanked them all before dismissing them.

The next morning when we start the training I am glad there are two of us. There are so many pack members needing trained it's ridiculous. They also need proper workout clothes as most of them have just thrown something comfortable on that will do for now. I asked them to line up after we had completed the session.

With a note pad in hand, I take down each of their names with clothes size and shoe size. We need to get these members some suitable clothing, and because of the previous Alpha and Luna, these people can't afford to waste their own money on it.

I ask Julia and Kat if they mind going shopping for me, and they jump at the chance when I hand over the pack card and let them know what we need. As far as they are concerned, any excuse to shop is a good one.

With that sorted, we make our way to the nursery. It's always fun spending time with the little pups.

We go around the schools speaking to the heads, staff, and students. My notebook is getting quite full with it all. There is so much to be done, everywhere needs upgrading, and they are all understaffed.

We decide that's enough for one day, and we will start talking to the pack members tomorrow.

I have been linked to say Shawn and Nadia are back, so we go off to meet up with them. They are already with Gary and Hattie, catching up and talking about the Luna ceremony. I ask someone to bring us some snacks and refreshments.

We spend some time going over ideas with Ella on what type of ceremony she wants, colours, owers, food and that sort of thing so they have an idea of what to put together for her and we arrange to go shopping on Saturday to get her dress setting the date for the following Saturday.

Shawn starts to perk up as we hear footsteps coming towards the room. Julia and Kat appear to let me know how the shopping trip went.

Before they can speak, Shawn growls "mine" followed by Julia, claiming him back as they grab each other.

"OK OK put each other down, I don't want to see my sister mauled" Eli says from the door.

Julia blushes as he let's her go, not completely releasing his hold on her.

"How didn't I feel you before at the wedding or when we were here a couple of weeks ago" he asks her.

"Oh I was away visiting family" she explains

"Well I am glad you are back mate" Shawn growls lowly, smiling at her.

"Me too" she beams back.

"OK enough with the pda, I suppose welcome to the family. Mum and dad are going to be so excited" Eli says, teasing them.

"You two go, do mate stuff or meet the family" I say

"Are you sure you don't need me" Shawn asks, looking like he's ready to drag her away.

"You know I am ne on my own now get going you two, Kat can ll me in on the shopping. Have fun" I say with a wink.

"Not too much fun" Eli shouts after them as they run off out of the room.

"He's a great guy. He will make Julia really happy" I say to Eli

"I know, I have a lot of respect for him picking you and doing the right thing. I am happy for them. I just don't want to see it or know about it" he groans as we laugh at him.

At our evening meal, there is no sign of the two love birds. Apparently, they made a quick stop by her parents to introduce him, and then she dragged him off. They will have completed the marking and mating before my brother.

I have a feeling he will complete the process tonight. He just wanted his Luna at their pack before doing it.
