

Little sister

Chapter 43

I had a wonderful time at the Luna ceremony yesterday. It was funny seeing Lucian's face at the other Alpha's.

Several approached us and made it clear that if he messed up again, the Luna position was free at their pack, and they would be more than happy to take me off his hands and treat me like a princess.

Lucian couldn't believe the cheek of them doing it right in front of him, whereas Talia, Zander, and Frank really enjoyed seeing him squirm. Talia thought it was the best entertainment of the night, Lisa wholeheartedly agreed with her.

I was so glad when Lucian told me he wanted to stay later at the pack to spend time with everyone and the pups. I also wanted to get my fill of them before they left too.

Fred, Lisa, Shawn, and Julia left earlier so Lisa could rest, and Julia could get settled in the pack. Nadia and Lee stayed to spend time with family as well.

Talia and her pack members, and Jayden and his

had the furthest to travel, so they left first shortly, followed by Dalia's and Natalie's groups. Fred's group stayed the latest in the day, leaving a couple of hours before their evening meal with some tired out pups.

I had one more thing to do before I left now. Suzie has almost finished her month, and she has been asking to talk with me. From what I hear, her attitude has adjusted slightly, so I will see what she has to say. I know Zander has been to see her a few times. Zander has offered to go with me, but I told him it is something I needed to do on my own.

I walk into the cells, at least they are not as grim as they were before, and they have made it somewhat more comfortable for her. She looks up as I speak.

"So you wanted to see me Suzie" I say

"Yes, I wasn't sure if you would come. Being here has given me a lot of time to think and look at myself, I have also spent time talking with Zander. I am sorry for the way I have treated you, I now know how wrong it was. I didn't know they killed your mum, and I understand if you hate me" she says sadly.

Little sister

"Suzie you were a child, that's why I wanted to give you another chance. I don't hate you, you are my sister. I want what's best for you. You need to become a better person, or you will never be happy, Zander and I want you in our life. You are our family. It is only the three of us left now. I will be going back to my pack soon, how about we get you out of here so you can get cleaned up and then you can eat with us before I leave" I say gently opening the cell.

"Thank you, I promise I won't let you down Aurora"

"I know you won't, how about once you have finished your work punishment, you come stay at my pack for a while so we can get to know each other" I say

"I would really like that, thank you"

I walk her to her room and let her know I will meet her in the dining room when she is done. I link Zander to let him know she is out and will be joining us. We have decided to let her work with the pups at the orphanage and nursery to see what it is like for the kids who don't have much. They need a hand, and she needs to see the reality in life.

She looks nervous walking in as everyone looks at

her. She puts her head down and makes her way over as people start to whisper.

"Everyone can I have your attention. Suzie has been punished for what she has done and will be working in the pack to prove that she has changed. You have to remember she was a child that was manipulated by adults, and not just any adults her own parents. She had no reason not to believe them or do as they asked. Everyone deserves a second chance, especially a child who was used by others" I say loudly enough for all to hear.

The whispers stop, and a few people look guilty for judging her so harshly.

"come on sister sit next to us" I say leading her to sit between Zander and I, "keep your head up, you are making the changes don't let others bring you down" I say smiling.

"Thank you" she replies with a small smile.

"Your birthday is in just over a month, prove yourself, and you may get out of work detail quicker" I tell her

"I don't mind, I am looking forward to doing something productive for a change, to be honest. I just hope the pups like me" she says nervously.

Little sister

"Pups are easy. You just need to be genuine in wanting to be with them, kind and listen to them. Oh, and have lots of energy" I say, chuckling.

"I will remember that, Ella is taking me there tomorrow and helping me get settled. She is so

nice. I am glad Zander found a nice mate. Everyone looks happy here. No one looked happy before. I am glad you managed to change things. I just hope everyone doesn't hate me" she says

"They will give you a chance, especially when they see the change and know none of us are our parents" I tell her.

Little sister

"They will, sis, and remember you have our support as well if you have any trouble" Zander tells her.

"We will have my Luna ceremony after your birthday, then you might meet your mate there" I say to her

"Really we can have it that soon" Lucian says excitedly

"I think it's long overdue, the pack needs their Luna we can arrange it for say 6 weeks time maybe she will find her mate and she can bring him to it" I say

"Goddess I love you" he says, kissing me

"Right calm down, we are in public" I chuckle

"Thank Aurora, can I stay for a few days before it to spend time together" she asks

"Yes of course you can. You can come dress shopping with us too. You will need an outfit as well, and I am sure Ella will want to join, I know Kat definitely will, that girl lives to shop" I say.

Before I leave, I have a chat with Kat and ask her to keep an eye on Suzie for me, make sure she doesn't get any bother from anyone. She agrees to be there for her. The last thing we want is her

slipping because she is being treated badly and feels alone.

It is bittersweet when I leave, I am looking forward to what's ahead, but I have enjoyed being here. Which is a sentence I never thought I would hear myself say.

Nadia is so happy I am going back with them. She has enjoyed spending so much time with me and Zander at his pack and is over the moon her niece is mated to her best friends son. Zander has enjoyed listening to her stories he has happy memories of her growing up.

I make sure Suzie has my phone number so we can keep in touch and make her promise if she has any trouble to let one of us know before I give her a hug.

I give everyone else a hug goodbye before getting into the car, I am looking forward to seeing everyone again, especially the pups and my female warriors.

When we get back to the pack, it looks like the whole pack is there to greet us. It is nice to see everyone cares so much about me.

"I think they were worried we were lying and wanted to make sure you came" Lee says,

Little sister

laughing as I roll my eyes at his humour.

It takes us ages to greet everyone, chat to them, and reassure them I am back, and yes, there will be a Luna ceremony this time. We decided that since pretty much everyone is here, we may as well announce the news and tell them it's happening in 6 weeks.

They are over the moon with the news, I also let them know I will be back joining the training tomorrow as usual and look forward to seeing them all there. I am glad to get to my bed when we get away from them, I have already told Lucian I will move into his room, our wolves have been separated long enough.
