

## Coming up for air

### Chapter 46

My heat has finally settled down now on day 3, 2 full days, and a few hours. Less than before, the marking definitely helped to reduce the length of time. I mean, I am not complaining. Both Athena and I have thoroughly enjoyed spending time with both Lucian and Luca.

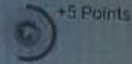

We have both mated with each of them in our human forms, Athena can't wait to go for a run and do the deed in her wolf form now. She is insatiable now she has had a taste of them, horny little wolf that she is.

I am so glad of my extra healing right now. Even a normal wolf would hurt all over after all of that. Goddess, he is gorgeous. I think watching him sleep.

He opens his eyes and smiles, catching me staring at him. As I blush, he chuckles.

"You know you can look at me as much as you want, my love, I definitely enjoy looking at you as much as I can beautiful" he says huskily, his voice still full of sleep.

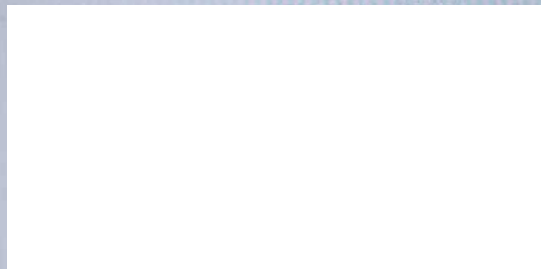

Coming up for air

"I suppose we need to get up and get back to the real world" I say, sighing

"Not yet, they don't know" he says, pulling me down into a passionate kiss.

"We have to leave at some point, you know" I say,

[Ads-free >](#)

chuckling but not trying to move from his arms.

"I can tell you are fighting so hard to escape" he says teasingly.

"You know right now you could be carrying our pups" he says, kissing my mark and stroking my stomach.

Coming up for air

"I know, how do you feel about that" I ask curiously

"Ever since I saw you with our cousins' pups, Luca and I have wanted nothing more than to fill you with our pups" he says, making me shiver.

"How many pups do you want" I ask

"As many as you will let us put in you" he says, seriously making me chuckle

"Well, I think we should probably have a limit, but I definitely want a few, say, maybe 3 pups. I don't know if more would be too much" I tell him.

"I can live with that, 3 sounds good. I want a girl that looks like her beautiful mum, so we need to keep going until we get our girl" he says

"Well she better come in the first 3 then" I say, laughing

"If she doesn't I am sure I can persuade you" he says, nibbling my mark, making me moan.

"Stop, we need to get out of this room. We must have loads to do" I say breathlessly as my stomach rumbles.

"Fine let's shower together then get you fed" he says, picking me up and carrying me to the bathroom.

Coming up for air

Well, the shower was more of an excuse of him using washing me as foreplay before he fu.cked me hard and fast against the shower wall as my legs were wrapped around his waist. I suppose at least we were clean by the end.

He was also in a fantastic mood as we dried and dressed now he got his way and we left for the dining hall. He let Fred know that the unmated males could be on the top floors again and that we would see them for lunch. Luckily, we hadn't missed it. I was starving after all the extra exercise of the past few days.

Nadia jumped up and squealed in happiness at seeing our marks. She hugged me first before hugging and warning Lucian not to hurt me again. Then she started talking about pups, asking us if we would be having them or if we were waiting.

She was even more excited to find out we were leaving it in the hands of the goddess to happen when the time was right. I mean that probably means now, that's the main point in our heat with our mates. It would be a miracle if I wasn't the number of times we had s\*x.

Lisa was excited by the fact that her pup may have a friend to grow up with soon. It is always good when the Alpha and Beta heirs grow up close in

Coming up for air

age so they can bond young. She is hoping we have a boy first so they can be good friends.

"What if it is a girl? Does that mean she can't be Alpha just because she is female. I mean, the queen is the strongest wolf and leader of the pack and wolves" I ask

"Well under tradition, it is always the oldest male, and if they only have females, then usually their partner becomes Alpha, and they become Luna. Like with Simon and Dalia" Lucian says.

"That's not really fair. If our daughter was stronger and more capable, she should get to be the Alpha" I say

"I had never thought about it before. I don't see why not. It is an old-fashioned rule. I don't know what the other Alpha's would think or her mate for that matter" he says.

"I think I will talk to Talia about it" I say

"It is so strange you calling the Queen by her name" Fred says

"I know, her pups call Aurora auntie now. The Kings think of her as a little sister" Lucian chuckles.

"So will we also be having any more pups coming

Coming up for air soon" I say, looking at Shawn and Julia.

"We will see, like you, it will happen when it happens" Julia says

"Probably soon then they have barely come up for air since she arrived here" Lee says, laughing as Julia blushes.

"I am sure you will be just the same with your mate Lee" I tease

"If she ever appears, I am sure she is hiding somewhere" he pouts

"She will come, and she will be great, I am sure" I say reassuringly.

"Can I be there for your call to the Queen? There are a couple of things I would like to ask her" Lucian asks

"Of course, I will be in your office anyway. We can see what we need to catch up on, then give her a call" I tell him.

Fred gives us a quick run down on what he has been doing while we have been otherwise occupied and any issues that have cropped up.

Nadia let's me know what things she has been doing. All of the Luna work is up to date. She is great, having done it for so long that she has

Coming up for air

everything down to a fine art. She has also come up with some ideas for my Luna ceremony that she wants to go over.

Once we have finished eating, Nadia comes to the office with us to show me what she has come up with. She wants to go with a purple and green theme to match my name and Athena's eye colours. I like the fabric and colour swatches she has shown me along with the flowers she has picked.

There are quite a few different flowers and styles. We picked green calla lily, purple and green gerbera, and white and purple roses. They look beautiful together, so vibrant and eye-catching. Everything else on the tables will be kept simple, plain, and clean, so they stand out.

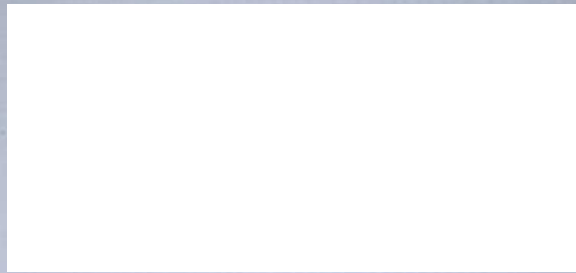

She spoke to me about the style of dress I wanted as she wanted it to be made specifically for me, not off the rack. She had an idea in mind for it. She just wanted to keep some of it under wraps.

I said no puffy skirts or princess styles. I prefer something more sleek for my figure and not too revealing, I don't mind showing a bit of skin but I am a busy girl and I don't want to be falling out of the thing.

Coming up for air

"No problem, I can work with that" she says, laughing.

She took some measurements before leaving us alone in the office.

Lucian let me know what he had managed to sort out and what he still had to do, Fred and Shawn had done a good job of keeping on top of things for him. There are just a couple of things that he needs to sort for himself.

It is good to know we have such great people around us to help when we need it. We know we

Coming up for air

+5 Points

can trust them to do what is needed when we are not around.
