

## Making changes

### Chapter 47

"So shall we get this call out of the way before it gets too late" I ask Lucian

"We probably should, although I can think of other things I would rather be doing right now" he says, smirking at me.

"Down boy, there is plenty of time for that" I say, winking at him as I call her number, putting it on speakerphone.

"Hello Aurora, how are you? It is great to hear from you" Talia says

"I am doing really good. How are you all doing. I have you on with Lucian as well" I warn just in case she says something inappropriate.

"Hi Lucian, I take it things are going well then. We are great" she says

"Fantastic thank you, Queen Talia. This wonderful woman has given me another chance, and I am making sure she knows how much I love and respect her this time" Lucian says.

"Lucian please call me Talia when we are not

around other Alpha's, so I take it you are marked now" she asked us

"Yes I marked him the other day" I said.

"Well thats why I got the message then. Tell Lee she will be with him soon and not to judge. She has changed and is doing the work" Talia says.

"So Lee was her second chance" Lucian says, gasping as Talia chuckles.

"Aurora was always meant to be the Luna of Blood Moon Pack. It depended on you whether you were the Alpha or not" she says

"Well I am glad now, Lee is like my brother. That would be too strange" I say

"No wonder I never wanted him to play with Aurora when we were little" Lucian says, sulking as we laugh at him.

"She is yours now, and he would never have felt the pull, so there is no need to feel jealous. He will now be able to feel his mate and know nothing about his possible bond with Aurora" she says.

"Well anyway, the reason for the call is, I was talking with Lucian, and I wondered why females can't be the Alpha. It is just that if we had a daughter first, I wouldn't want her discriminated

against if she was an Alpha and fit for the position, only to have to give it to her brother or mate. It doesn't seem fair. There are many females stronger than the males" I say

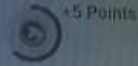

"I see your point, I don't know why we haven't thought of this before. My mates were happy for me to be above them and would have been happy to remain Alpha's. I wanted them to be king's. In the end, we left it to the packs to decide their positions as well. You are right, though I am above them, so why can't a female be the Alpha. In Dalia's case, she was happy to be the Luna. She didn't want to be in charge of the pack. We had to talk her into the Luna position, so it wasn't an issue. I can certainly change the laws to accommodate female Alpha's. I think it should be up to the individual pack to make their decision" she says.

"That would be good. It gives each child an opportunity, then" I say

"With that being the case can you have two Alpha's, I mean I know in the case of when an Alpha has a male mate they usually make them a second Alpha, but can we make a female mate an Alpha too of our pack" he asks her.

"I don't see why not, it's their pack, and we will be

changing things to accommodate female Alpha's so yes, that can happen" she says

"Great then I would like Aurora to be my Alpha. She is stronger than me and more than my equal. So I would like her to be an additional Alpha of the pack" he says "that is if you would like to, of course" he quickly adds.

"I would love to, but what does that mean for the pack work" I ask curiously

"Well we split the Alpha and Luna duties do it together. You wouldn't be an Alpha in name only and do the Luna work. We would be a partnership in everything" he replies

"I think that is a great idea. She is more than capable of being an Alpha, and it will only bring strength to your pack. With you showing the other packs how much respect you are showing your mate, it will hopefully help to adjust their minds to the possibility of more female Alpha's" Talia says.

"Thank you Talia" I tell her

"No thank you, it's about time we shook things up a bit. I will get things started so it is done before your ceremony. I will speak to you soon"

We both said bye as she hung up.

"I suppose we should speak to mum, oh sh.it we need to talk to Lee as well" he says excitedly

"Yes let's get Lee in first" I say and see him sending a link.

Lee comes in 5 minutes later.

"Hey you wanted me" he says

"Yes we were speaking to Talia, and she had a message for you" I say, then we tell him what she said.

"What does that mean" he says

"I guess she maybe made some mistakes, and the moon goddess doesn't want you judging her on her past and making a stupid decision like your brother and pushing her away" I warn

"Yes don't do what I did, I didn't understand or listen to my message properly. Whatever you do, you need to heed her words" Lucian says.

"I will don't worry, I have definitely learned what not to do from you" Lee says, laughing.

I link Nadia while we are chatting to him. As she walks in the door, Lucian smiles at her.

"What now, please don't tell me it will cause me more work" she says

"No mum, just a little change. All plans will stay the same. We won't be having a Luna ceremony anymore though" he says seriously.

"What" she shouts "what have you done" she says, glaring at him as he chuckles

"Let me finish. We will be having an Alpha

ceremony. Aurora will be my Alpha, and I will be hers, I may need some help to learn the Luna duties from the both of you. Aurora is my equal in every way, and I want that reflected in her position. Talia is making changes so females can be Alpha's in their packs and do not have to give the

title to their mates after talking with Aurora and she said it would be in effect before our ceremony " he tells her.

"I am so proud of you" she tells him, giving him a hug.

"Thanks mum" he says, smiling at her.

"Why are you here" she suddenly asks Lee

"They had a message from the Queen for me" he says

"Well come on, tell me then" she asks impatiently.

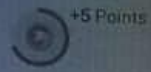

He tells her what we told him.

"Well that is exciting, I will be meeting my new daughter soon. It is about time you found your mate. I know you have been waiting for her. Just remember those words and try not to judge her past" she tells him

"I won't mum, I will talk to her about everything. I have a feeling that if I am being warned, I will have an idea of her past. I can't think who it could be, I surely would have sensed her before now" he says.

"Maybe the goddess kept the bond hidden until she had realised her mistakes, so you both had a chance at happiness" I suggest

Making changes

"You could be right. We never know what she can do or what she is thinking" he agrees.
