

## Finally found her

### Chapter 53

#### Matt's pov

I have never been so embarrassed in my life sitting there as the results were read out, I can't believe she lied to me about it all, just because she felt she deserved a better mate. I am beyond furious at her. Lucas is a great guy, and I am actually glad he is the pups father. I am getting myself a strong Gamma out of the whole mess.

I am really lucky that Lucian and Aurora have been so gracious towards me about the whole incident and didn't throw me straight out of the pack and have the Queen deal with the issue.

As we are walking through the packhouse and chatting, Loki starts to get excited in my head as I begin to smell a subtle but intoxicating scent.

"Mate, mate is here go and find her now" he shouts at me.

I start looking around frantically as I speed up trying to find where the scent is coming from. As we reach downstairs, I see a stunning girl walking through the doors. She is tall and muscular while still having amazing curves on her. Stunning deep blue eyes and long honey blonde hair tied back,

showing off her long, beautiful neck.

Loki takes over as I rush towards her and pull her into my arms, as Loki shouts out "mate". Fu.ck she feels amazing so close to me and then pain as I realise I am on the ground, and all I can hear is Aurora chuckling.

"Seriously Gina, is that any way to treat your mate" she says, still chuckling as she holds her hand out to help me up.

I accept her hand and get to my feet, wondering what happened.

"You will have to excuse Gina here. She is not quite 18 yet. I think you may have caught her by surprise" Aurora explains to me.

"Sorry beautiful, my wolf Loki got a little bit carried away there, my name is Matt it is a pleasure to finally meet you" I tell her.

"Sorry about that, Alpha. I didn't mean to headbutt you. I just wasn't expecting someone to grab me. I have had a bit of bother at school, so I just kinda reacted" she says with a shrug.

"Who has hurt you" I say, angry. Loki is pi.ssed too at the thought.

"Calm down there, Alpha. I am more than capable of dealing with them. I was just explaining it to you, not so you could go all white Knight on me"

Finally found her  
she says, rolling her eyes.

"Right well I had better go and meet Shawn. He will be wondering where I have gotten to you know what he's like so damn protective" she says.

"Who the hell is Shawn, and why are you meeting him" I ask, filled with jealousy as she laughs.

"He's my cousin, don't worry yourself, Alpha, I don't date" she tells me, which calms both Loki and I down.

"Please call me Matt, you are my mate, you don't need to call me Alpha. Also, can I come with you? It would be nice to meet your family and get to

know each other better" I ask, giving her my best  
puppy dog eyes.

"Fine come on then, when are we going shopping  
again Aurora" she asks

"Next weekend and don't forget I get free reign  
you have already agreed, also remember my sister  
is coming too and staying for a while before her  
birthday which is the same week as yours, I am  
hoping to make her over too so you won't be alone  
" Aurora tells her chuckling.

"If it is alright with both of you, I would like to stay  
here until Gina is old enough to leave with me" I  
ask them

"I know I did, Aurora, and Matt, I have school and  
other things to think about. I also haven't agreed to  
anything yet. I will see you later, Aurora. I am  
looking forward to meeting Suzie" she says to her  
and walks away as I quickly follow behind.

We get up to one of the top floors, and when the  
door opens, I see the Gamma Shawn sh.it. This is  
the Shawn she was talking about. Even if she  
hadn't already heard about all the trouble with  
Aurora, I am sure he will not be happy with me  
right now.

"So what is the Alpha doing with you Gina" Shawn  
asks her, giving her a hug.

"Oh apparently he is my mate and wanted to

follow me around. Is mum here yet" she asks him, walking in the door.

"Yeah she is with everyone in the sitting room" he shouts at her as he stops me following her.

"So what exactly do you want with my little cousin, I thought you were after Aurora" he asks, glaring at me.

"I am not interested in Aurora. Yes, I was briefly, but that was just because I didn't think I had a mate. I had been to all the packs looking for her and couldn't find her. As soon as I met Gina, she was the only person I wanted. I have always wanted my mate, I came here with Gina to meet her family and find any way to make all of this easier on her" I tell him

"Fine I suppose you had better come in then. Just remember I am watching you, and you had better not hurt her ever, or you will have plenty of us to deal with you" he warns.

"I wouldn't, I already love her, and I will treat her the way she deserves" I promise.

We walk in, and Shawn introduces me to the rest of the family, I take a seat next to Gina. We spend a bit of time getting to know one another. I quickly realised that Gina's mother, May, is not the type to want to sit around doing nothing and that she loves baking.

I also discover that Gina will be finished with all of her schooling in just under two weeks so plenty of time before Aurora's ceremony if she wants to stay until after that, and just before her birthday which is two weeks tomorrow.

"You know if you really want to move to my pack to be close to Gina and do not want to do nothing. I can help you to set up a small bakery, I know there are a couple of premises available near the packhouse that would be perfect for it, if you would be interested" I say to May.

"That would actually be a wonderful idea Matt thank you. I would really like to stay close to Gina, and I have always thought about having my own place" she says happily.

"So will you be moving just after her birthday or waiting until after Aurora's ceremony. It must be hard for you having to wait so long, especially with living so far away" her uncle says.

"Would everyone just calm down a bit. I haven't even agreed to move or be a Luna, and you are all planning my life out for me" Gina says, exasperated.

"I am sorry. I didn't mean to put pressure on you or plan anything for you, sweetheart. I was just trying to make things easier for you by making sure your mum would be happy and sorted as well, and you wouldn't have to worry about anything. I am happy

to wait as long as you need me to and work around whatever you want" I tell her.

"I do appreciate that it is just a bit much, I have just found out about it and need to get used to everything still" she says, sighing.

"I understand that, and I will let you get used to it. Just please let me spend time with you so Loki does not go completely nuts being away from you. I need to leave tomorrow to get Lucas sworn in and make sure everything is organised in the pack. After that, my Beta can take over for a while, and I will be back as quickly as I can until you are ready to leave. I just want us to spend time together and get to know each other more, I mean, I already know not to surprise you now" I say, chuckling.

"You had better not get in my way then I have exams coming up that I need to study for and I train a lot. I won't be stopping that for anyone. Also, I already apologised for that," she says, rolling her eyes.

"I won't get in the way of your studies, and I will always support anything, including training, that you want to do" I tell her, smiling.

"What did she do that she had to apologise for"  
Shawn asks

"Well Loki got carried away and hugged her when we scented her. The next thing I knew, I was on the

floor in pain because she had headbutted me. I think in the end, I was the one that ended up more surprised by the meeting, Aurora found it hilarious" I told them as they started laughing. Her mum just shook her head and sighed.

"Seriously Gina what are we going to do with you" she says.

"What I didn't know who it was or that he was my mate" she says, shrugging.
