

Alpha's and Luna's meeting

Alpha's and Luna's meeting

Chapter 57

So it looks like my Alpha ceremony invitations have caused a bit of a stir to certain old fashioned Alpha's and Talia's has had some people

[Ads-free >](#)

complaining about the changes being made. So now, along with getting everything ready for the ceremony, we have to fit in an Alpha's and Luna's meeting at the castle.

It is just as well that I put the ceremony back a bit

Alpha's and Luna's meeting

so I could have a large play area built for all of the pups to enjoy. I want everyone to bring their pups to my ceremony if they want to. It gives me a chance to see all of my family, and it gives the next generation from the packs a chance to bond. Plus, it makes the whole affair a bit less dull and boring.

With all the new pups coming into the pack and all the ones we already have, this new area will be great for them to use daily or even just for parties and events.

Matt has asked Gina to attend with him. As his future Luna, she is also entitled to sit at the table and have a vote. She did not seem to be keen and declined at first. He was really disappointed with her birthday being on Sunday he was hoping to be there with her. I promised we would leave early on the Sunday well before breakfast so he can get here early to be with her.

I also had a chat with her about it and explained to her that this would affect her future children, so it was worthwhile being there to have her say and to gain the experience from the event. I guess my chat worked because Matt was pleasantly surprised when she turned up with a packed bag on Friday. All of her exams are complete now, so she isn't needed in school.

"I am so happy you are coming sweetheart" Matt

Alpha's and Luna's meeting
says, hugging her.

"Yeah Aurora made some really good points, Let me ask you, do you support the changes" she asks him

"Yes I do, I don't want our future daughters to be discriminated against because of some old fashioned ideas, I will definitely be voting in favour if asked" he says genuinely while looking at me gratefully.

I am hoping the meeting should go well, I know the packs that are part of our and Talia's family and friends will vote for it which means we have 8 packs in favour of it, so that is a good start.

Shawn is travelling with us too. With Lisa just giving birth, he decided to take Fred's place as most Alpha's take their Beta's to these events. But Shawn didn't want him to have to leave the two of them so soon after he was born, which Fred really appreciated. It will also be good for Gina to have her cousin there with her.

Gina is travelling in the front with Shawn on the trip, which has made Matt unhappy and Lucian very happy. Matt really wanted to sit next to her, but Lucian wouldn't have given up his place next to me anyway or let me sit in the front away from him. He has wanted me next to him constantly since finding out about the pup.

Alpha's and Luna's meeting

us as the day went on, Jayden brought his three pups with him and Dalia had her month old daughter there too, Simon looked so proud at his daughter who looked just like her mum.

Talia and the twins eventually managed to join us an hour before meal time for some time with everyone before we ate. We were eating in a separate dining hall with all of the other Alpha's, Luna's and Beta's that had arrived.

Talia didn't want the packs meal times disrupted because of the extra visitors that's why she opened up the extra room, the warriors had the option to eat with the pack, it would give them a chance if they were unmated to find their other half within her pack or the other packs warriors that had arrived. She always tries to find any chance she can to make matches with people.

After we had all eaten, we gathered together in one of the private rooms to get away from the prying eyes of the other packs and have some time with family and friends. Lucian was really excited to share our news with everyone.

"Now that we have you all together, I would like to let you know Aurora and I are expecting our first child. She is currently 5 and a half weeks pregnant. Oh, and our Gamma Shawn is also expecting his first child, Julia is just over 7 weeks pregnant" Lucian tells them all.

option to eat with the pack, it would give them a chance if they were unmated to find their other half within her pack or the other packs warriors that had arrived. She always tries to find any chance she can to make matches with people.

After we had all eaten, we gathered together in one of the private rooms to get away from the prying eyes of the other packs and have some time with family and friends. Lucian was really excited to share our news with everyone.

"Now that we have you all together, I would like to let you know Aurora and I are expecting our first child. She is currently 5 and a half weeks pregnant. Oh, and our Gamma Shawn is also expecting his first child, Julia is just over 7 weeks pregnant" Lucian tells them all.

Everyone is really excited for us and gives us a hug, and offers their well wishes.

"Well since we are making announcements, I was also waiting for us to be together. I would have liked Suzie to be here, too, but I can't keep it in any longer. Ella is 10 weeks pregnant, and our pups will grow up together" Zander says with excitement, hugging Ella.

I rush over to hug them both as Lucian protectively chases me so I do not hurt myself. Once he knows I am not going to fall and hurt myself, he hugs them both as well, and then everyone else gets a

Alpha's and Luna's meeting

chance to hug and congratulate them.

The next morning at breakfast, you could see as we walked in, most of the Alpha's were discussing the changes and if they were a good idea or not. It looked like there were around 3 main ones that were really against the changes.

Talia had already told us it was them that had been getting in touch with her several times and complaining about it. Which was why she called the meeting to put the matter to bed finally.

The meeting was set to happen just after breakfast. Talia wanted it over and done with as soon as possible so we could enjoy the rest of the day. We all file into the meeting room to get this started, I hope everything goes well and no one causes any trouble.

"Right well I will start by discussing the changes that are happening. I received a call from Alpha's Aurora and Lucian, concerned over the fact that females were treated unfairly in regards to taking over packs and becoming Alpha's. This began in regard to their future children, but Lucian really wanted Aurora to become his Co Alpha. He felt her strength and power exceed his own, so it was only right that she was given the title as she is in her own rights, an Alpha female. Now Lucian, how are things going for you two, and how do you plan to work this just for the rest to get an idea" Talia

Alpha's and Luna's meeting
says.

"It has been going great actually, Aurora helps me with the Alpha duties, and she Luna trained me. It is quite surprising how much similar work we do, I didn't realise how much work went into it. I now also get to enjoy the more fun aspects of running

a pack, Luna's interact with the pack more and with the pups, which I definitely have to say is my favourite part. I definitely recommend that even if you don't share the titles, think about sharing some of the work, I am glad I did" Lucian says, smiling.

"Thank you, Lucian and Aurora. What do you think

Alpha's and Luna's meeting
about it" she asks me.

"I think it has been great. It has shown me and the pack how much he respects me. It has also given him and the pack a better bond and made the pups so happy in our pack. They see their Alpha as approachable now, so if there were any issues, I know they would feel comfortable addressing them with him if I wasn't available" I say

"Great now if you can, please let me know what you all have against this idea. Either one speaks for you all or takes turns" she says, looking at the three Alpha's.

"Women and men have always had clear roles in the pack, and it should not change now. A woman has no place being an Alpha, they are less strong than the men and need protection. They should be looking after the pack, not running it. There is no need to change things" Alpha Philip complains while the other three nod in agreement.

So basically, they have no real argument and just some old-fashioned sexist views that aren't even true. Talia chuckles at them once they are finished.

"Well I am going to have to respectfully disagree with you about all of it. I know plenty of women who are stronger than their partners, and that's not taking Aurora, Dalia, and myself into account. I would also like to say the law will be changed that

Alpha's and Luna's meeting

is not negotiable. I only had this meeting because you keep bothering me. Once this is done, I expect the matter to be closed. I will take a vote to get people's opinions on it. You can vote for the change against or abstain if you are not sure. Now let's start with who is against it" Talia says.

It is no surprise when the three Alpha's put their hand up. What is a surprise is when only one of their Luna's put their hand up too.

"Right now, who is for the change" Talia asks.

Everyone except one of the three Alpha's Luna and one other Alpha raises their hand up.

"Can I ask why you didn't vote either way, Luna Claire, just to get an idea of your thinking" Talia asks.

"Yes of course, Queen Talia. We have only daughters, and now I am under no illusion that they will not be treated fairly in our pack the way things are. I can hope they will be in another. I do feel, though, that the decision on Alpha should remain with the pack" she says while her mate glares at her.

"Thank you, Luna Claire, Aurora and I had already discussed that, and we do agree with you on that point. The law will be changed to allow for females to inherit the pack or become co Alpha's to their mates, but the decision will be left to each

+10 Points

Alpha's and Luna's meeting

pack. Thank you, everyone, for attending. I see no point in dragging this on any longer. You are all welcome to stay to eat before leaving for home" Talia's says bringing the meeting to a close.
