

Alpha ceremony

Chapter 61

We had a huge barbecue in the evening so the kids could still play outside, and it was so much easier to seat everyone that came along with their pack. The pack kids loved the new play area, and the teens, in particular, loved the obstacle course.

The boys liked showing off to the girls, and the girls liked watching the boys. There was quite a few girls that took up the challenge and really impressed me and quite a few of the boys there I can see they will have a few of them crushing on them and hoping to be their mates.

Those three lads that were bothering Gina before had approached her and apologised for their actions, Matt growled at them pi.ssed off to discover who had been troubling his mate. Gina quickly managed to calm him down. I could tell they were regretful and a bit jealous that she was taken now. They should just be thankful they were not mated to her, knowing Gina she would have kicked their a.ss and then rejected them on the spot if they were.

As soon as the other pups found out I could make snow and Talia and I could make them fly I had to set up a snow area for them and we had a list for

the pups that wanted to fly so everyone had a turn. All the pups were exhausted by the end of the night.

All the different packs kids got along great it was nice to see them all interacting with each other, I can't wait until it is our pups that are playing with everyone, I think as I stroke my stomach.

I fall asleep easily at night. It has been a long and full day with all the playing and sorting out issues between the packs. I can not wait until tomorrow when I am officially Alpha of the pack.

I was woken up in the morning by Nadia and Lisa bursting through the door and kicking Lucian out of the room, telling him to shower and get ready somewhere else. He barely manages to give me a kiss goodbye as his mum ushers him out.

Thankfully she has brought breakfast with her as I am eating for two and this little one definitely has an appetite, I was hoping my godson would be here so I could get a quick cuddle from him but his dad has him so we can get ready in peace. Lisa has the most adorable little suit for him to wear to the ceremony.

As soon as I am finished eating, Nadia rushes me into the shower to get washed for the hair and make-up teams arriving. When I get out Suzie and Gina have also joined us along with Ella, Julia and Kat, all of our dresses are in the room waiting to

be worn after the team has worked their magic on us.

All the women look stunning in their outfits with their makeup and hair done, Suzie looks like a proper lady. She is so beautiful with her new look. Nadia is still a gorgeous woman and doesn't look a day over 30, I hope the moon goddess blesses her with a second chance mate at some point. She would make someone a very happy man. Lisa has already gotten herself back to her original size after giving birth. You just have to love those werewolf genes.

I feel amazing as I put on my dress that Nadia designed for me. It looks amazing on, with my hair down in waves and swept to one side, keeping my mating mark on show. My bump is barely visible in the dress yet, Lucian and Luca can not wait to watch it grow large with our pup.

Zander is walking me down the aisle today in place of my father. Even if he was still alive, I would not have wanted him to have this honour. I am glad that Zander will be the one to do it, when he arrives Nadia ushers everyone out of the room after Zander gives a compliment and kiss to Ella and kisses Suzie on the cheek and also let's her know how good she is looking.

"You look amazing sis, thank you for asking me to do this, I am so proud of you" he says emotionally.

"I wouldn't want anyone else to do it, I am proud of you too and all that you have done. You have made everyone's life in the pack so much better, Zander. Mum would be proud of you" I tell him, giving him a hug as he tears up.

"Please don't cry or you will get me started, and Nadia will kill me if I ruin my makeup" I say as we both laugh.

He offers me his arm as we both leave the room and head to our destination. The ceremony is taking place in the gardens. A large area has been set up with a stage and an area to eat and dance later close to the children's area so the parents can check on their pups if they wish and the pups can feel a part of everything.

As I am walking up with Zander, Lucian is staring at me with so much love and awe, not taking his eyes off me for a second. It is as if we are the only two people here. As I take his hands, I hear gasps from the crowd, and we look round to see what has caught their attention.

In the sky is the most beautiful purple and green Aurora borealis, I turn and look at Talia, and she just winks at me. I need to thank her and find out how she did that. That is so cool. It looks stunning.

"It is beautiful, my love, but not as beautiful as you are. You look absolutely stunning" Lucian says

lowly in my ear.

I take my Alpha vows before the pack and the elder, and Lucian also accepts me as his joint Alpha. Then we seal the bond through cutting our palms with the ceremonial dagger and joining our hands together. We would usually have a pack run

after the ceremony, but with me being pregnant, it is best I do not shift too much. I am at less risk being a special wolf, but I would still prefer not to shift unless it is absolutely necessary to do so.

Lucas came over for a chat with his son Marcus, and Layla was with him, I was a bit worried she was here to cause more problems, but thankfully,

my fears were unfounded.

"Aurora I want to apologise for my behaviour, I now realise how wrong I was. I really want to make things work with Lucas. I hope that with time you will forgive my behaviour, as I know how much you mean to my mate" she says to me.

"Lucas is a really good man. You will find it hard to find a better mate than him. I really hope you are being honest in your apologies, I am happy to give you a second chance for my friend but be warned I do not give out more chances and I do not like my friends being hurt" I warn.

"I understand, I will continue to prove myself to you all. I just want to become a family with my mate and son, I don't know how I became the person that I did after talking with my mum I realised how much I have messed up and turned into someone I didn't recognise anymore" she says genuinely.

"It is never too late to change Layla, I wish you both a very happy life" I tell her.

"Thank you so much" she says, giving me a hug.

Everyone is sitting to eat. It is a more relaxed affair than normal with the pups being here. The pups have tables to themselves so they can continue to interact together, and we have staff rotating to give everyone a break to join in with the

celebrations and help with the pups. All of the different ranked members are even taking turns with the pups playing with them and having a great time, and still no one is talking business.

Just as we have finished eating Lucian and I receive a link that we have a late arrival to the celebration, the beta of Matt's pack has arrived. He had said he would be here at some point. He had a few things to work out, so he could not arrive yesterday with his mum and sister. As far as I remember his beta is his fraternal twin brother, because fraternal twins do not share mates like identical twins Matt became the Alpha being born first and Stuart became the Beta as their fathers beta only had daughters.

Lucian and I go to greet Stuart, he is with a cute short, blonde girl. Neither of them are marked, so I guess they are not mates, possibly just dating. He introduces her as Kelly, the ex Beta's daughter, and apologises for their lateness.

As we are walking through to where the celebration is being held, his eyes start to flicker between his normal colour and the black of his wolf. This could get interesting, especially if this girl is his girlfriend, I hope we are not going to have any more trouble, I think, to myself.

Aw sh.it I think to myself as he rushes ahead and grabs a hold of Gina and starts to shout at her

about her mark on her neck. I am just about to intervene when Gina quickly puts him on the ground in a choke hold with her knee firmly placed in his back.

Kelly rushes over, and I see her go to grab Gina's hair, so I quickly use my powers to lift her up into the air.

"Well I think this had been the most exciting ceremony I have ever been to" Talia says, laughing, as I chuckle too, unable to help myself.

She is not wrong, I haven't been to many of these things, but I am sure there is usually not so much drama involved. I just hope Gina can sort this sh.it out.
